UK housing market overview

The UK housing market continues to adjust to varying levels of political and legislative change. In August 2018, interest rates increased for the first time since the global financial crash, rising from 0.5% to 0.75%, where they remain today. The UK and EU agreed to push back the Brexit deadline to 31 October 2019 in order to avoid a no-deal exit in April 2019. While this has increased the likelihood of a deal, it has not buoyed confidence in the UK economy. The UK housing market remains stable amid all the uncertainty.

Annual housing transaction volumes were slightly higher in the year to March 2019 compared with a year earlier and have also increased slightly in the three months to March 2019 compared with the previous quarter, according to the HMRC.

National house prices continue to rise and house price growth in the UK for the year to March was 1.4%, down slightly from 2.1% pa three months earlier and down from 3.0% pa a year ago. Average prices decreased by 1.3% in Q1 2019, down from a fall of 0.7% in Q4 2018.

Annual house price growth was positive across all regions except Greater London, the North East and the South East for the year ending March 2019. House price growth in London was -1.9% pa, well below the UK average increase. House price growth was highest in Yorkshire & The Humber at 3.6% pa, followed by the West Midlands at 3.4% pa. House price growth was stronger in northern regions than in southern regions in the year to March 2019.

According to the March 2019 RICS survey, demand and sales remain subdued at the national level. The number of properties on the market in the three months to March 2019 was slightly down from the previous quarter.

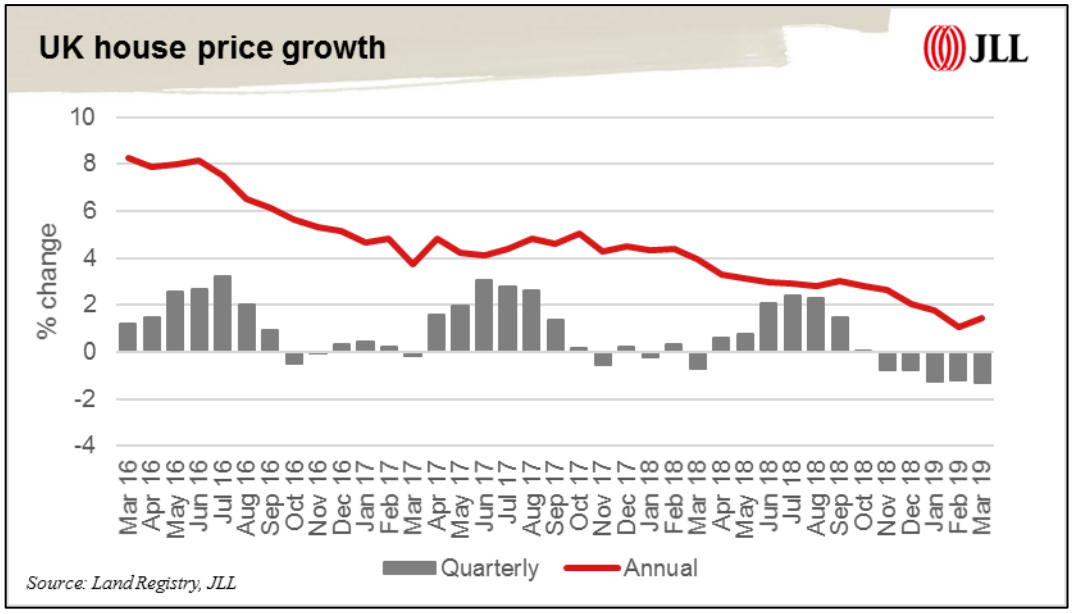
Construction starts and completions in England increased in the year to Q4 2018. The number of annual starts now stands at 163,120 and the number of completions at 164,870. These are some of the highest levels recorded since 2008, although still well below the delivery target of circa 300,000 new homes pa.

UK housing market analysis

Using a selection of data from Government sources, including Land Registry, HMRC and MHCLG, as well as survey data collected by the RICS (the Royal Institution of Chartered Surveyors), this section provides a detailed analysis of the UK housing market.

House price growth

In the three months to March 2019, house prices decreased by 1.3%, below the decrease of 0.7% in the preceding three months. Annual price growth remained positive at 1.4% in the year to March 2019, down slightly from 2.0% in the preceding three months.

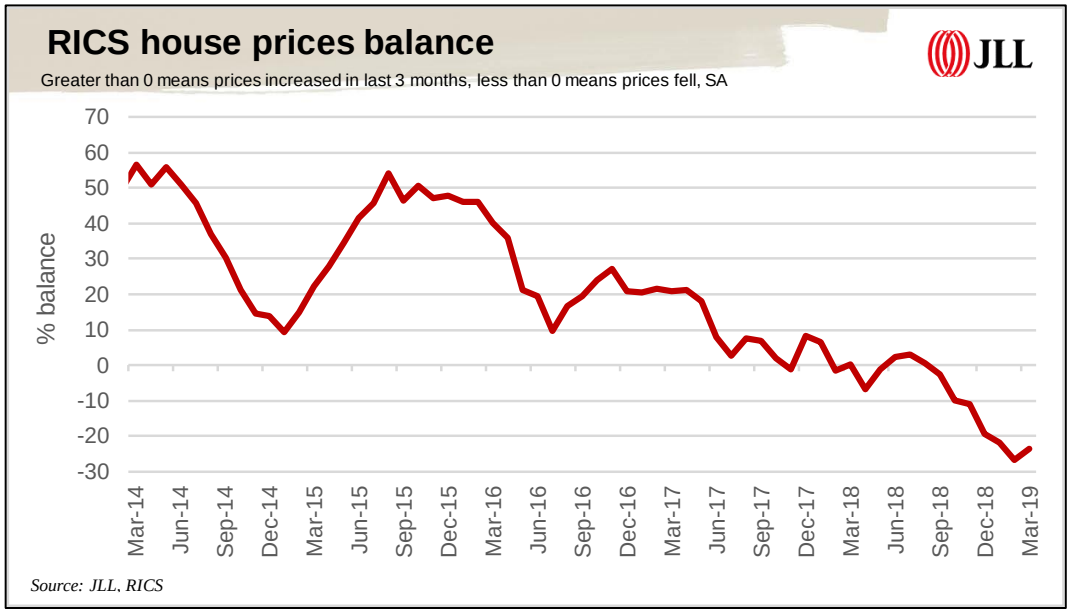


Housing supply and demand

The following section analyses data from the RICS Housing Market Survey, a useful tool when analysing demand, supply and pricing in the UK housing market. The data is sourced from a survey of chartered surveyors across the UK and it includes a range of questions from their future perceptions of the market to how the market has moved in the preceding three months.

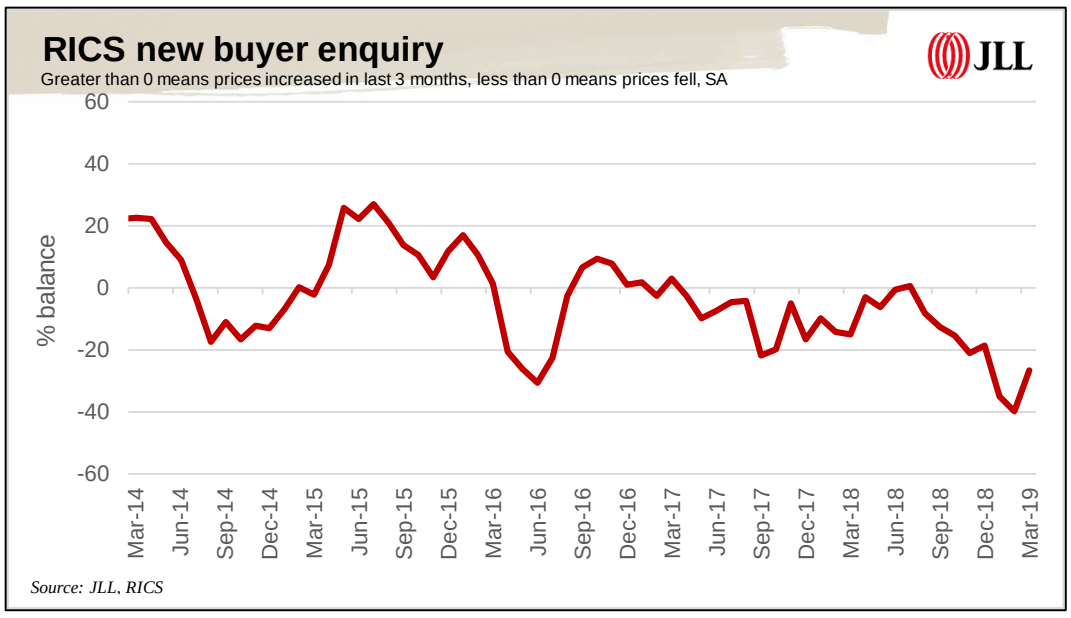
Several results are presented through a balance of surveyor views. Results below zero indicate that demand/supply/price is falling while positive values reveal a rise in demand/supply/price. Each value describes the rate at which demand/supply/price is growing or falling which are useful in analysing the momentum of the market. The findings of the survey are presented below.

The RICS survey reveals that, on a seasonally adjusted basis, the price balance was -24% in March 2019. This suggests that nearly one quarter more surveyors thought house prices had fallen in the preceding three months than thought they increased. This is up slightly from February 2019, when the price balance was -27%, a five-year low.

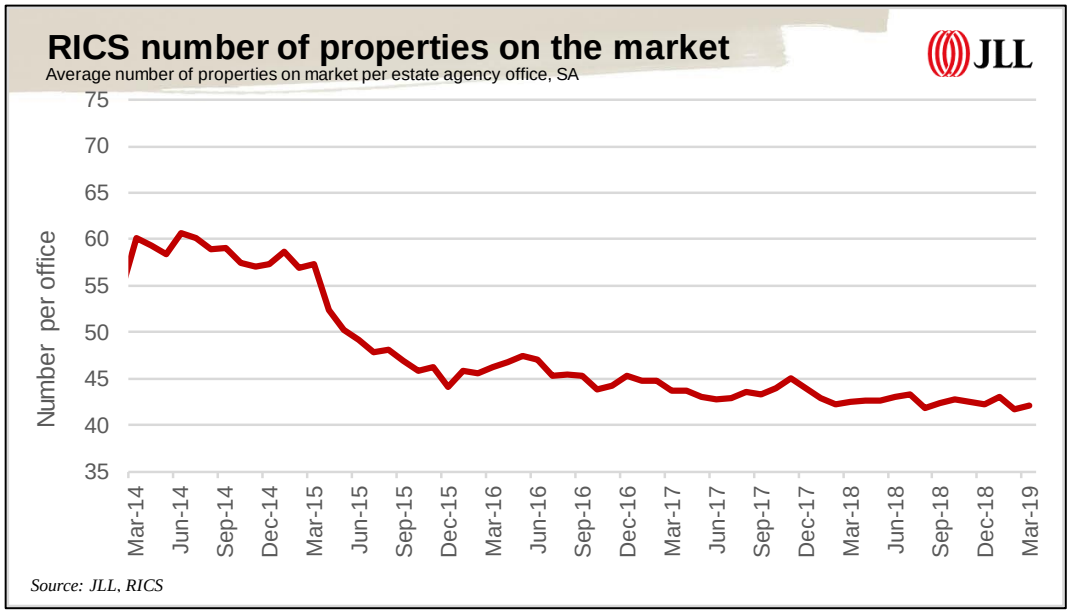


The chart below reveals the difference in the proportion of surveyors who believe that the number of new buyer enquiries, in the last three months, has risen against those who believe that they have fallen. Any figures below zero indicate that more surveyors feel that demand has fallen rather than risen in the last three months. The balance reveals not only the changes in demand but also how quickly levels of demand have moved.

The RICS survey reveals that, on a seasonally adjusted basis, housing demand continues to fall. 19% more surveyors believe that new buyer demand has fallen rather than risen in the three months to March 2019.

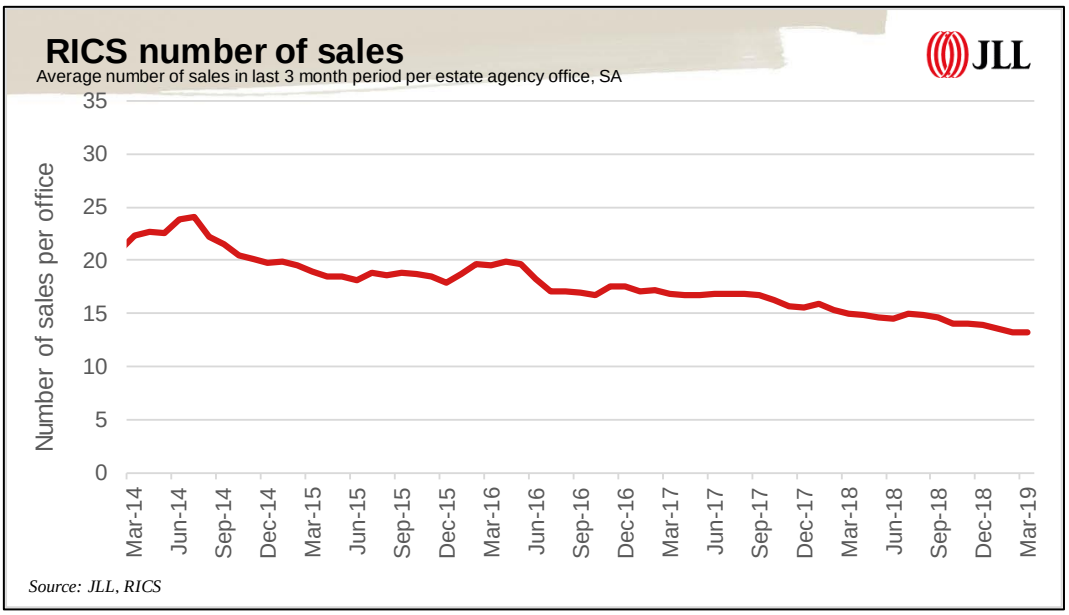


According the RICS survey, the average number of properties on the market has remained steady following a sharp fall between March 2015 and December 2015. In March 2019, the average number of properties on the market per estate agency office remained at 42, in-line with both the previous quarter and March 2018.

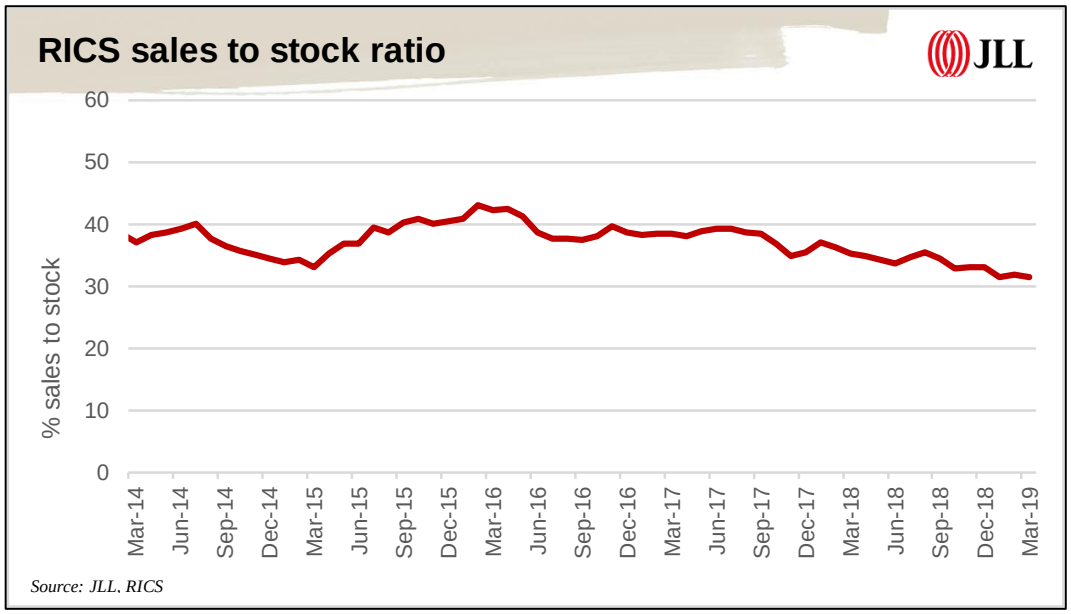


The average number of sales per month per estate agency office fell slightly during the three months to March 2019 and has been slowly decreasing since mid-2014.

As of the end of March 2019, estate agency offices were selling approximately 13 homes on average during the preceding three-month period, slightly down from 15 homes a year earlier.

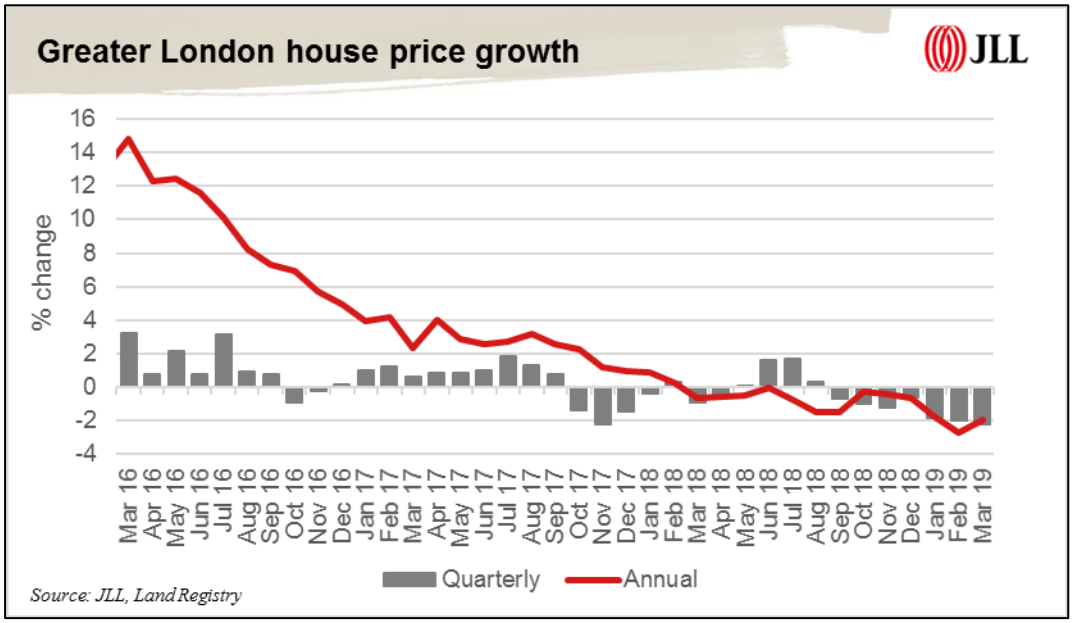


Further data from the RICS survey reveals that the sales to stock ratio has slightly decreased in March 2019. The sales to stock ratio in March 2019 was 31, compared to 33 in December 2018 and 35 in March 2018. This implies a slight easing in housing market conditions on recent quarters.

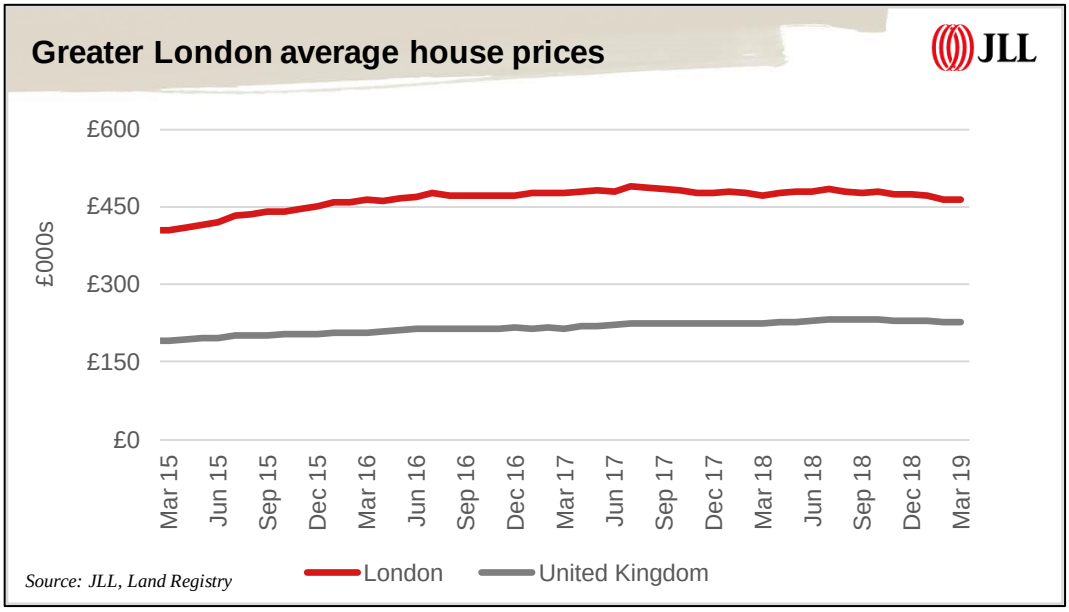


Greater London housing market

House prices in Greater London decreased by 2.2% during the three months to end-March 2019. This is below the UK average of a 1.3% fall. The 2.2% dip follows a decrease of 0.6% in the three months to end-December 2018 and a decrease of 0.7% three months earlier. In the year to end-March 2019 house prices in Greater London decreased by 1.9%, well below the 1.4% average rise across the UK. (Source: Land Registry).

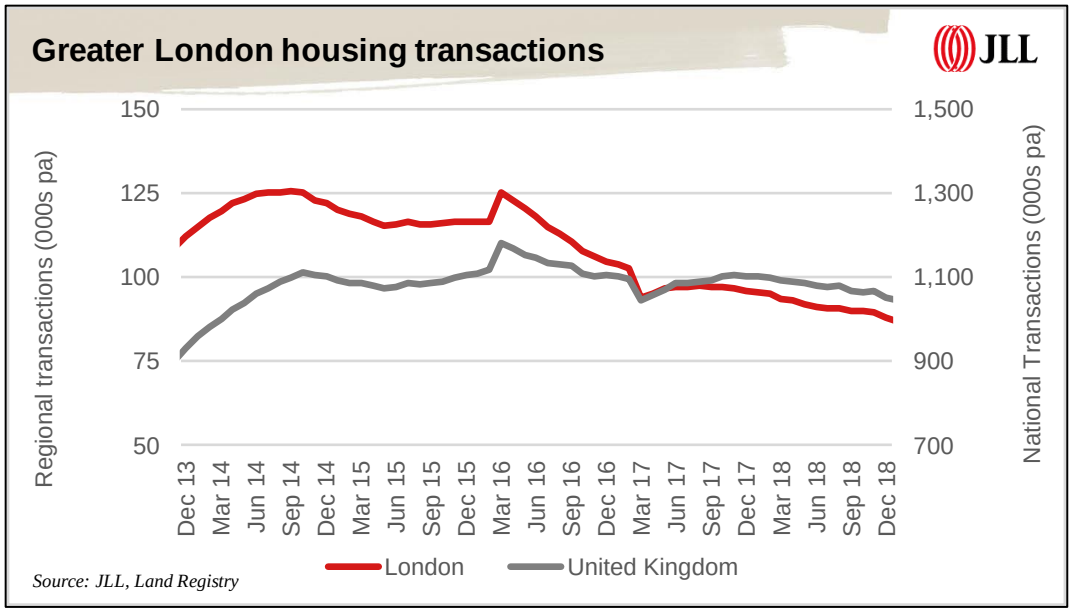


Despite slow quarterly growth since October 2017, house prices in Greater London remain well above the UK average. The average house price in Greater London was £463,283 in March 2019 which compares with £226,797 across the UK. In recent years, house prices in Greater London have accelerated away from prices across the UK, although in recent months the gap has started to close slightly. (Source: Land Registry).



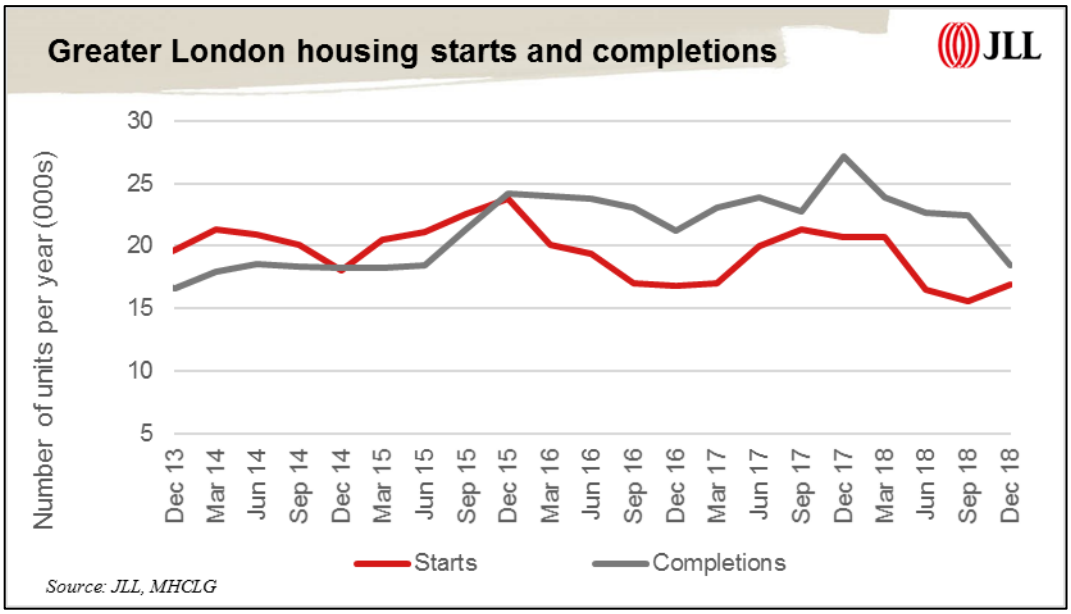
There has been a significant decrease in the annual number of property transactions in London compared with a year earlier. Transaction levels in London in the year to December 2018 have decreased by 9.5%, compared to a decrease of 5.7% across the UK over the same period.

The current level of transactions in London, at 86,900 pa, is 44.4% lower than the 2006 average which compares with 28.1% lower than the average across the UK. The annual number of transactions in London is also below the 10-year average by 12.1%. In comparison, housing transactions across the UK over the same period exceeded the 10-year average by 10.7%. (Source: Land Registry).



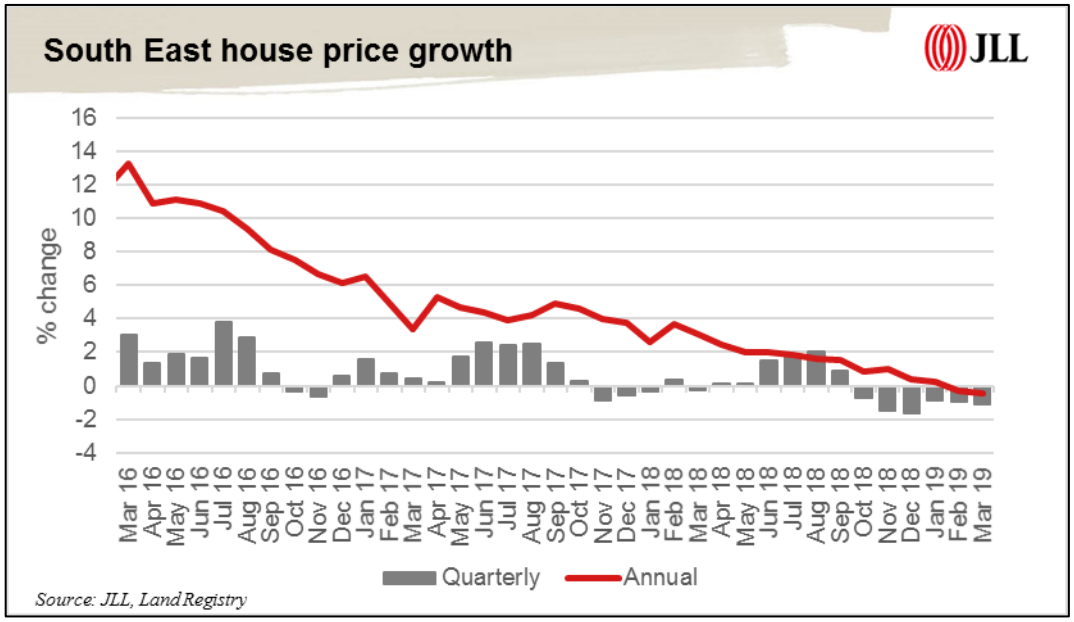
The number of development starts in Greater London has decreased compared with a year earlier. At 16,880, the number of housing starts in the year to December 2018 was 18.5% lower than a year earlier and 20.5% below peak 2006-2007 levels. Compared with the 10-year average, housing starts in Greater London are now 8.8% below, while housing starts in England are 27.2% above.

The number of annual completions in Greater London has also decreased compared with a year earlier. The number of development completions in the year to Q4 2018, at 18,470 units, was 31.9% below the previous year. It was 13.8% higher than 2006-2007 levels and 8.7% higher than the 10-year average. Both starts and completions remain significantly shy of the 66,000 units required each year as defined in the July 2018 Draft London Plan. (Source: MHCLG).

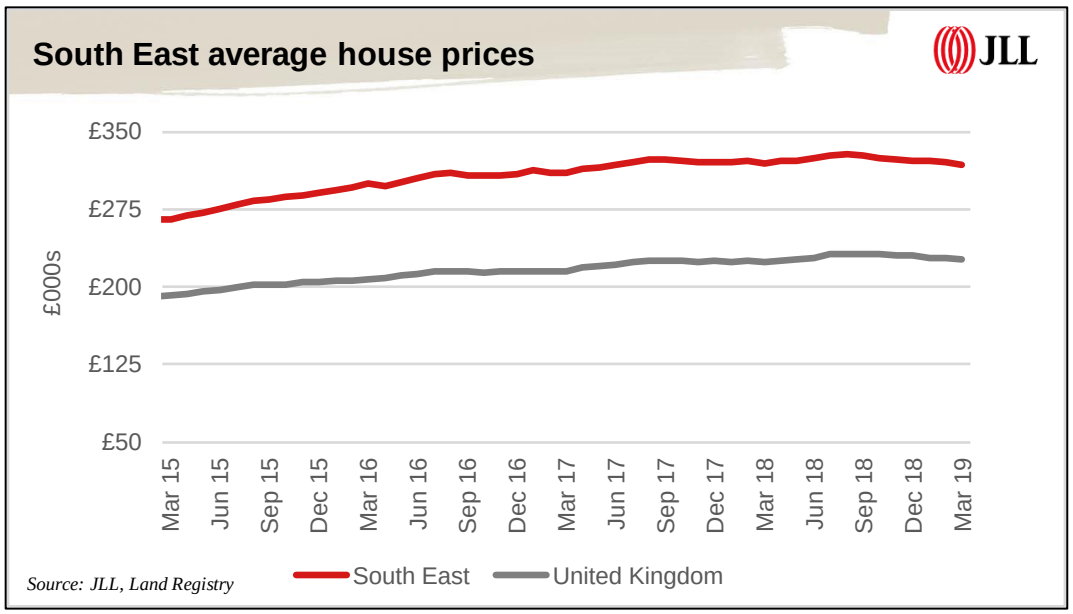


South East housing market

House prices in the South East fell by 1.0% in the three months to end-March 2019. This compares with a decrease of 1.3% across the UK over the same period. The 1.0% decrease follows with a fall of 1.7% in the three months to end-December and an increase of 0.9% three months earlier. In the year to end-March 2019, house prices in the South East decreased by 0.4% which is below the average growth of 1.4% across the UK. (Source: Land Registry).

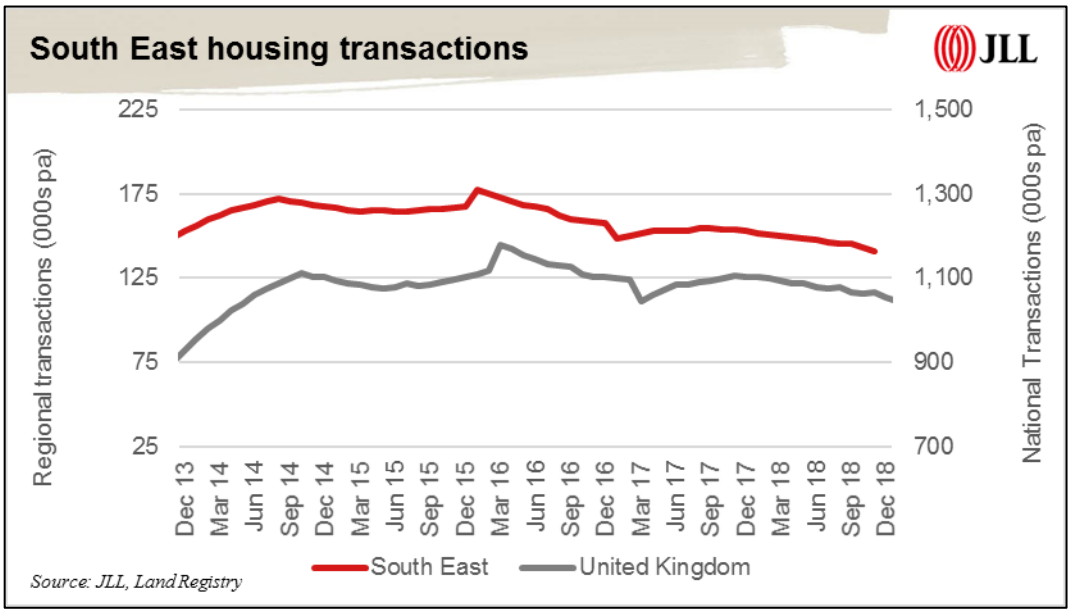


House prices in the South East are notably higher than prices in the UK, second only to London. The average house price in the South East was £318,490 in March 2019, compared with £226,797 across the UK. South East house price growth in recent years has continued to outperform the average across the UK. (Source: Land Registry).



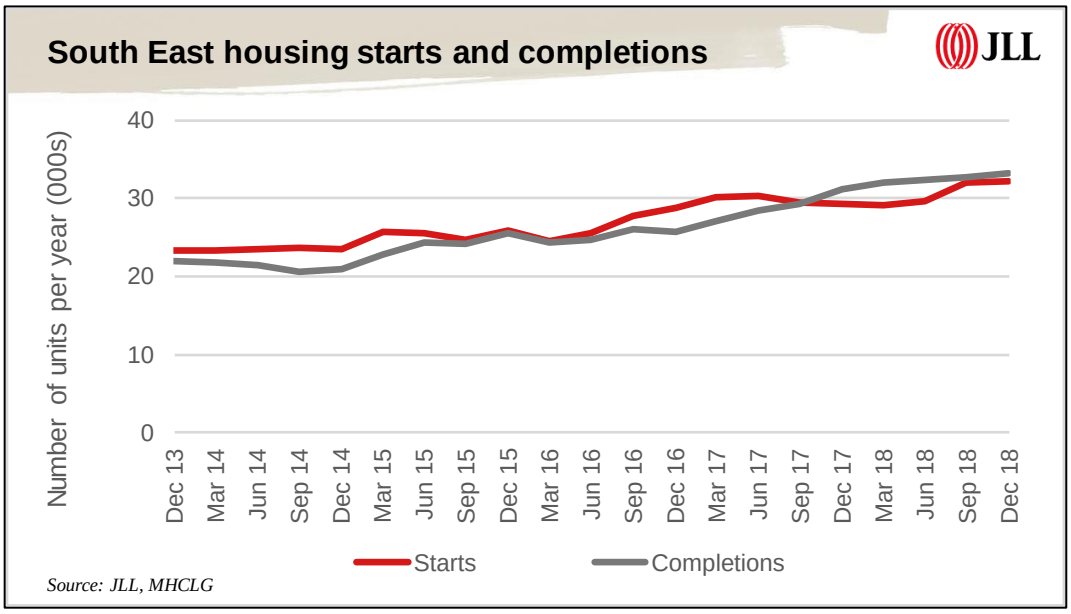
There were 141,100 transactions in the twelve months to December 2018, the highest level of transactions across all UK regions. In the year to December 2018, annual transaction levels in the South East decreased by 8.3% which compares with a fall of 5.7% across the UK.

Annual transaction levels in the South East are below the 2006 average and the 10-year average. The current level of transactions in the South East is 29.8% lower than the 2006 average. This is slightly above the UK average of a 28.1% decrease. The annual number of transactions in the South East is below the 10-year average by 0.1% which is well below the 10.7% higher seen across the UK. (Source: Land Registry).



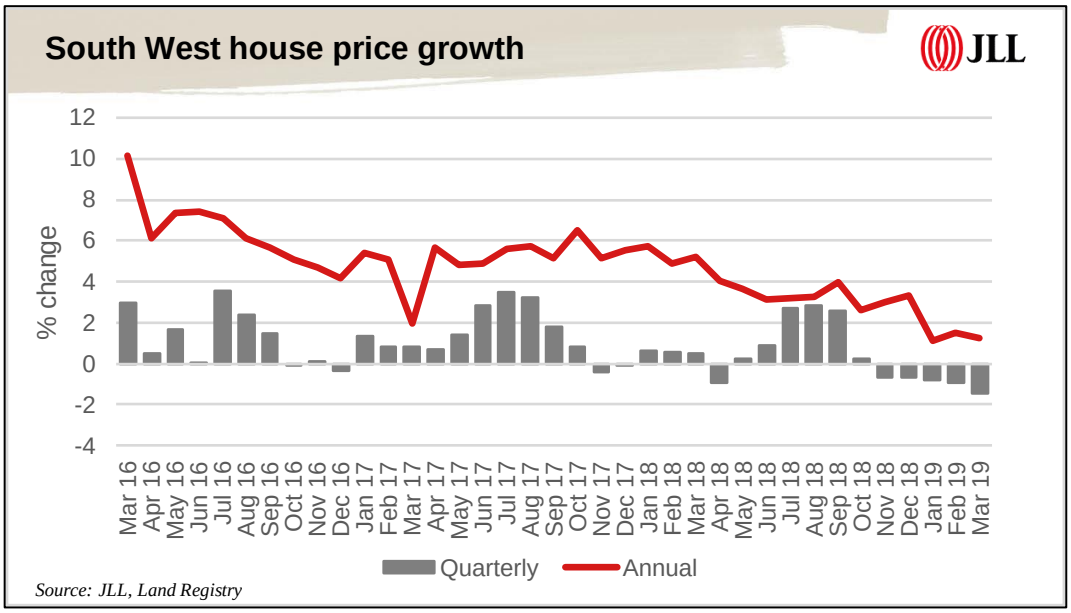
The number of annual development starts has increased by 10.1% compared with a year earlier in the South East. At 32,260, the number of annual starts in Q4 2018 is 2.1% above 2006-2007 levels and 33.6% higher than the 10-year average.

The number of development completions in the year to Q4 2018, at 33,310 units, is 7.1% higher than a year earlier, 19.8% above 2006-2007 levels, and 31.2% above the 10-year average (Source: MHCLG).

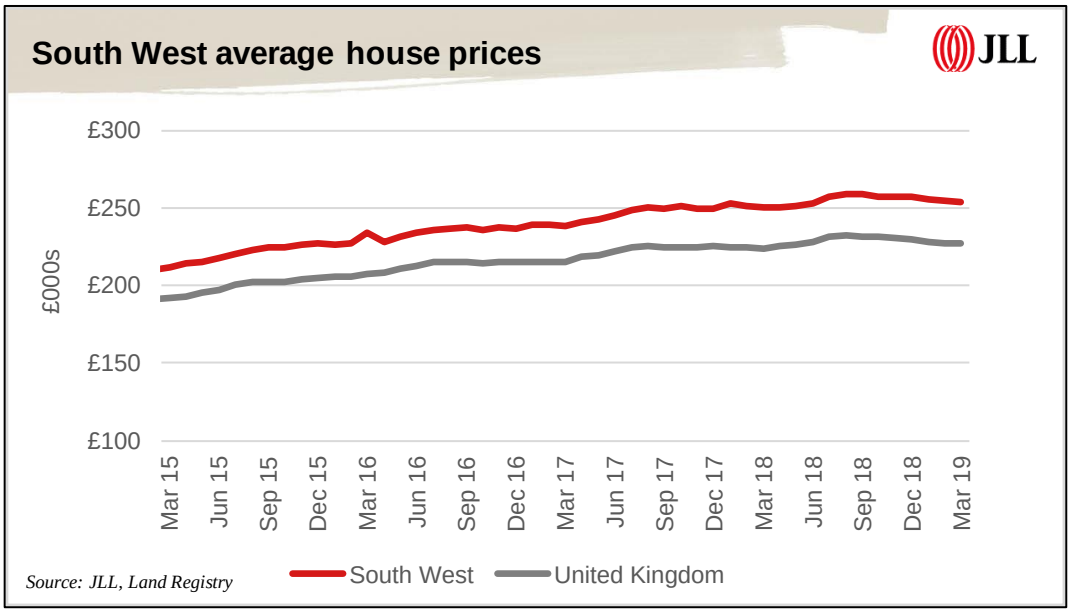


South West housing market

House prices in the South West decreased by 1.4% in the three months to end-March. This is slightly below the average quarterly house price fall of 1.3% across the UK. The 1.4% decrease follows fall of 0.7% in the three months to end-December 2018 and an uptick of 2.6% three months earlier. In the year to end-March 2019, house prices in the South West grew by 1.3%, which is in line with the average growth of 1.4% across the UK. (Source: Land Registry).

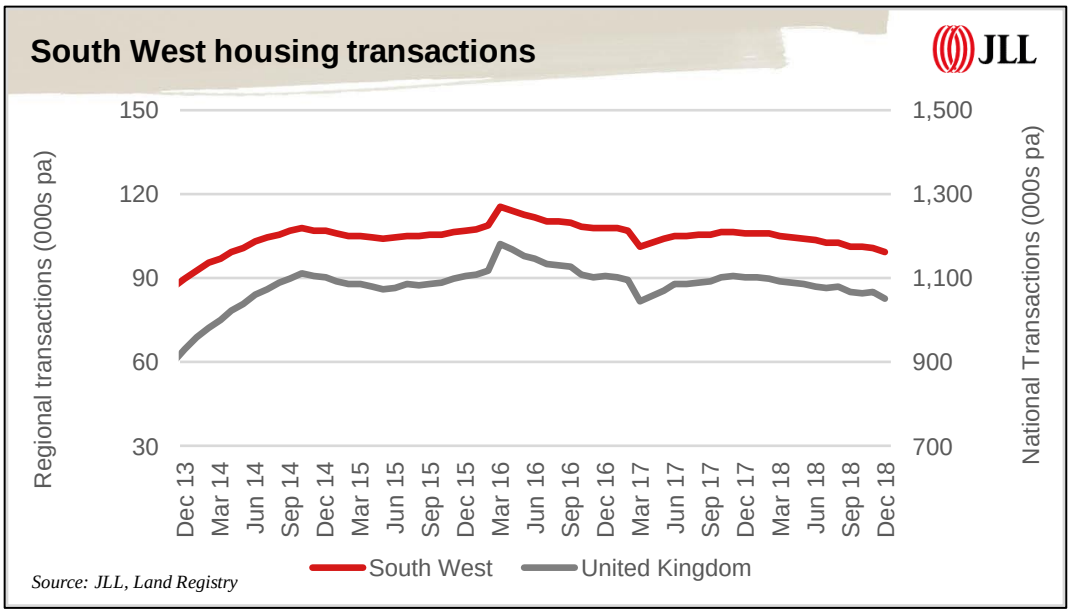


Compared with the UK, average house prices in the South West are slightly higher. The average house price in the South West was £253,751 in March 2019 compared with £226,797 across the UK. (Source: Land Registry).



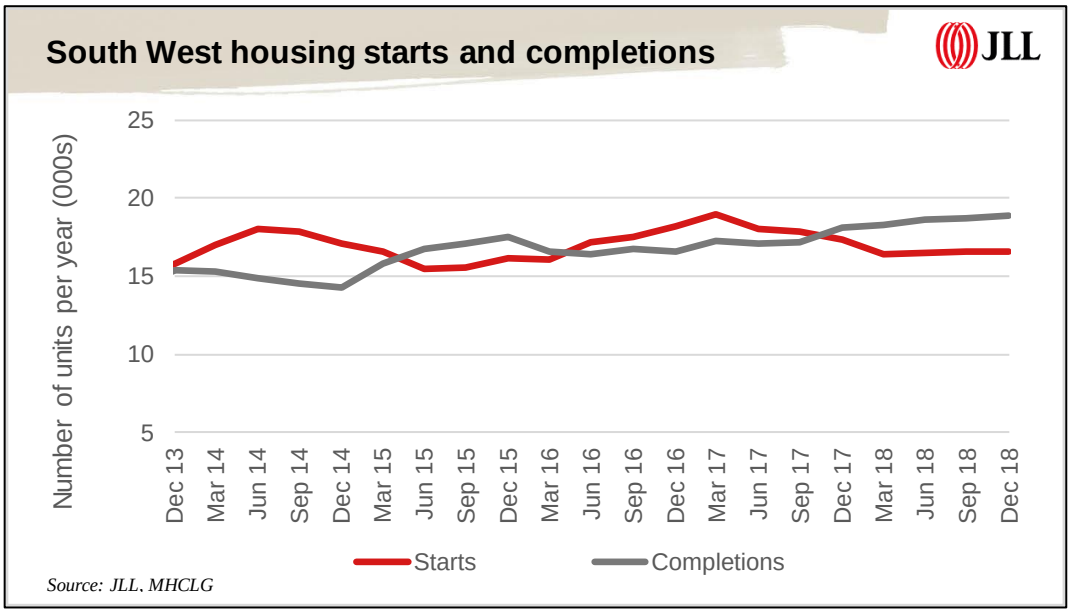
The annual number of property transactions in the South West has decreased during the last year. In the year to December 2018, annual transaction levels in the South West decreased by 7.6% which compares with a decrease of 5.7% across the UK.

The current level of annual transactions in the South West, at 98,100 pa, is 23.2% lower than the 2006 average which compares with 28.1% lower across the UK. The annual number of transactions in the South West has exceeded the 10-year average by 7.2%, below the 10-year outperformance across the UK at 10.7%. (Source: Land Registry).



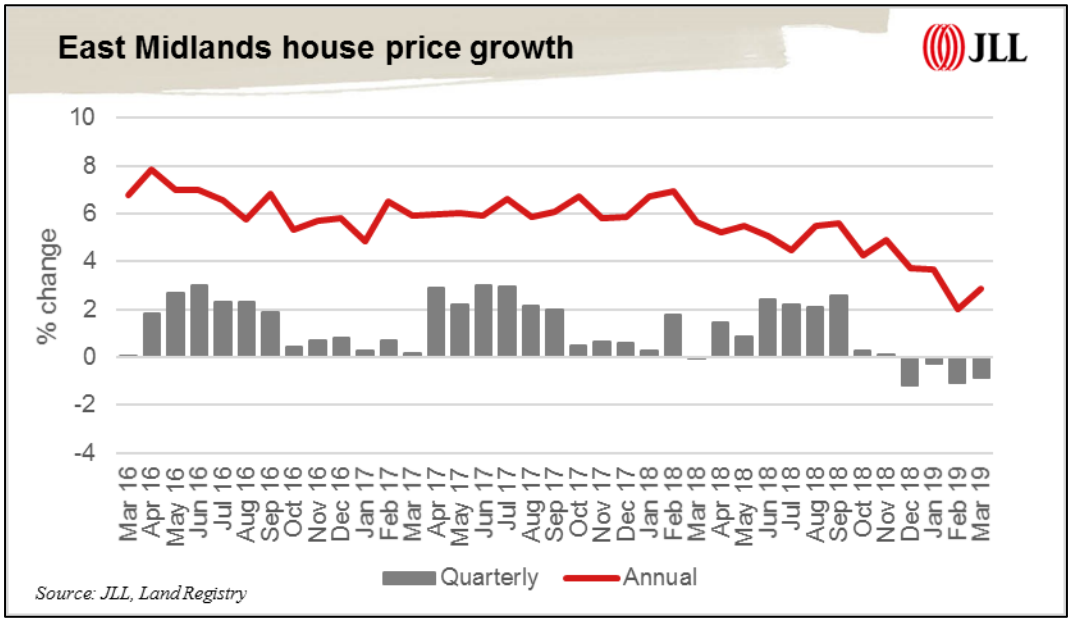
The number of development starts per year in the South West has decreased by 4.5% in Q4 2018 compared with a year earlier. At 16,550, the number of housing unit starts in the past year is 20.5% below 2006-2007 levels, but 10.1% above the 10-year average.

The annual number of completions per annum in the South West increased in Q4 2018. The number of completions in the year to Q4 2018, at 18,850 units, is 3.9% higher than a year earlier, 1.1% below 2006-2007 levels and 19.2% higher than the 10-year average. (Source: MHCLG).

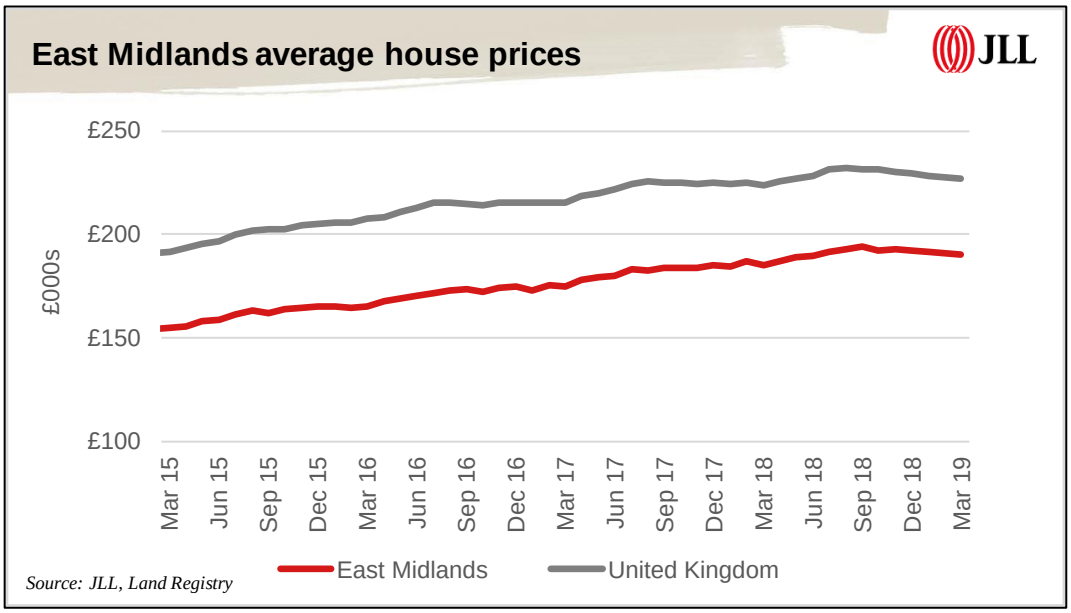


East Midlands housing market

House prices in the East Midlands fell by 0.9% in the three months to end-March 2019, which above the decrease of 1.3% across the UK. The decrease of 0.9% follows a fall of 1.2% in the three months to end-December 2018 and a rise of 2.5% in the preceding three months. In the year to end-March 2019 house prices in the East Midlands increased by 2.9% which compares with a 1.4% increase across the UK. (Source: Land Registry).



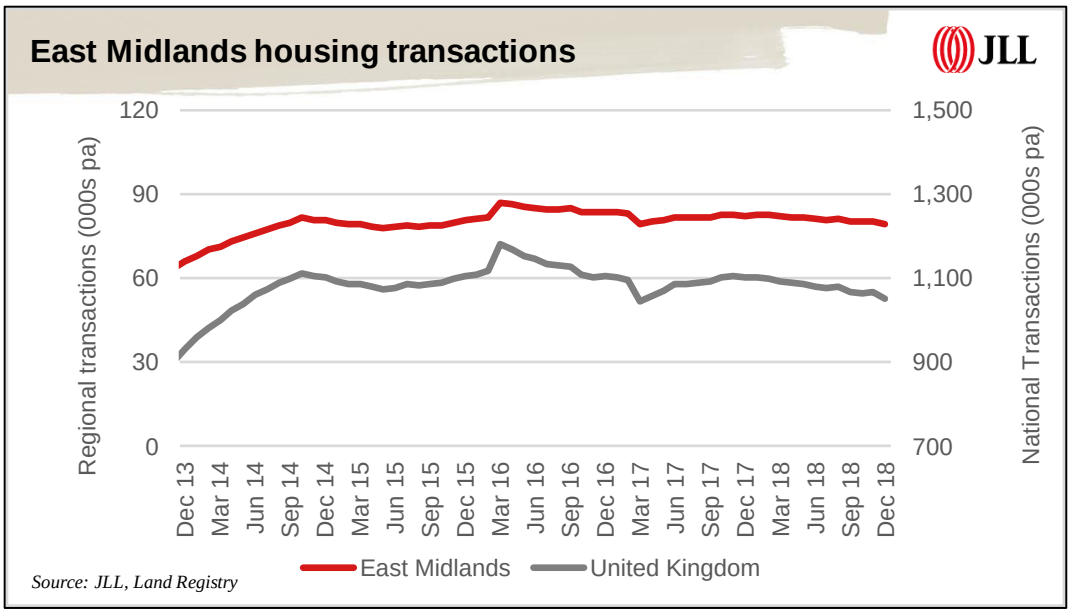
House prices in the East Midlands remain below the average across the UK. The average house price in the East Midlands was £190,171 in March 2019 compared with £226,797 across the UK. Average house prices in the East Midlands have been increasing annually at a higher rate than the UK in recent years. (Source: Land Registry).



The annual number of property transactions in the East Midlands decreased slightly during the three months to December 2018. Compared with a year earlier, transaction levels decreased by 4.6% for the year ending December 2018. This decrease is in line

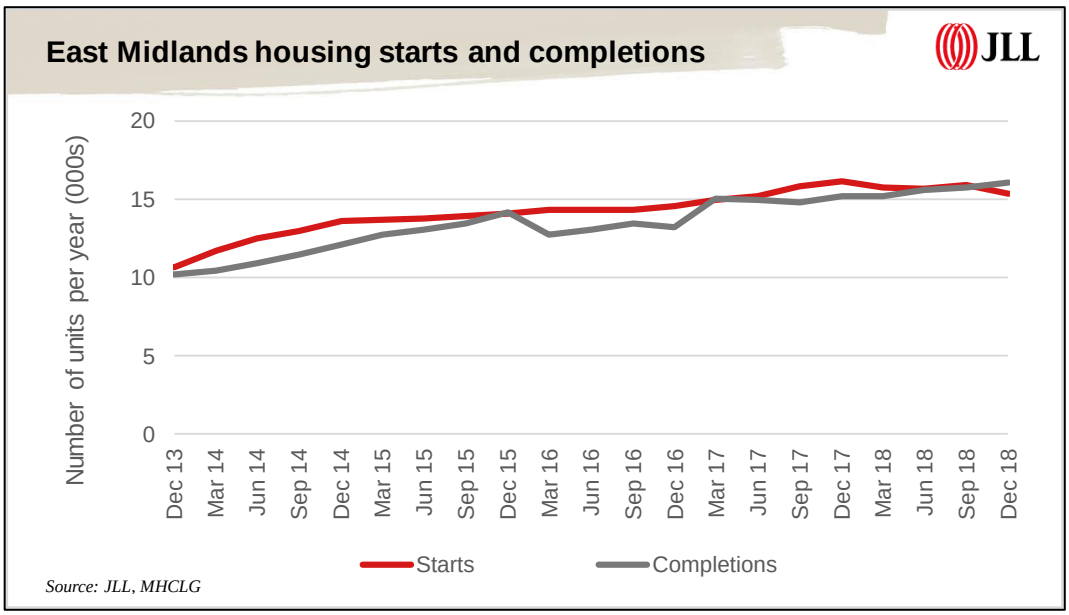
with the UK average, which saw a fall of 5.7% across the same period. The current level of transactions in the East Midlands, at 78,500 pa, is 20.1% lower than the 2006 average which compares with 28.1% lower across the UK.

The annual number of transactions in the East Midlands is 14.6% higher than the 10-year average which compares with 10.7% higher across the UK. (Source: Land Registry).



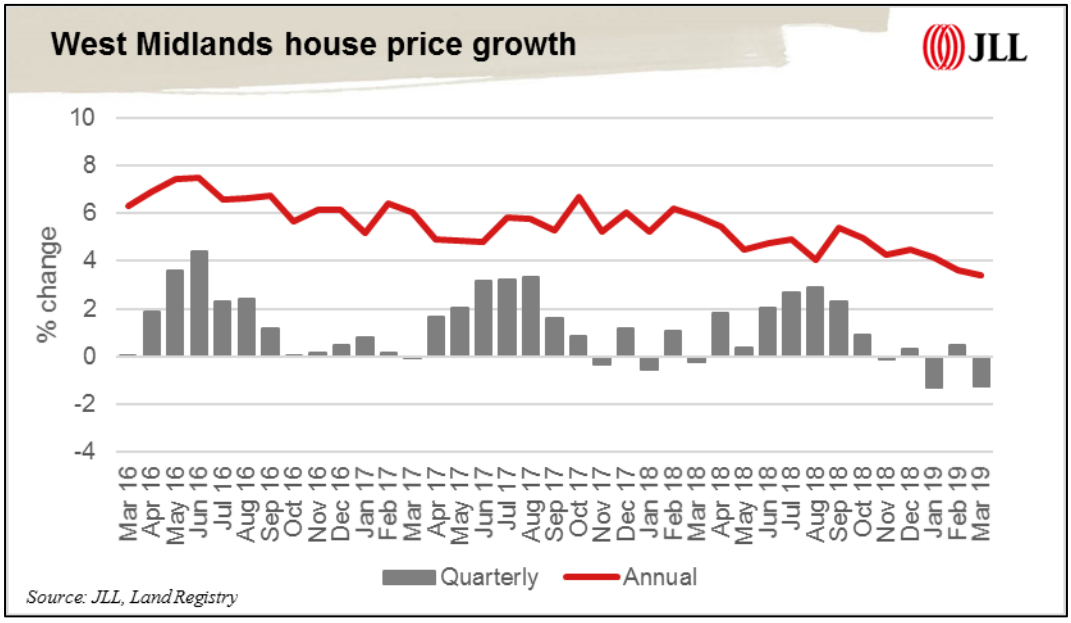
The number of development starts in the East Midlands in the year to Q4 2018 has decreased by 4.9% compared with a year earlier. At 15,380, the number of housing starts in the past year is 13.6% below 2006-2007 levels but 30.8% higher than the 10-year average.

The number of development completions in the year to Q4 2018, at 16,070 units, is 5.7% higher than a year earlier, 8.6% below 2006-2007 levels but 28.9% higher than the 10-year average. (Source: MHCLG).

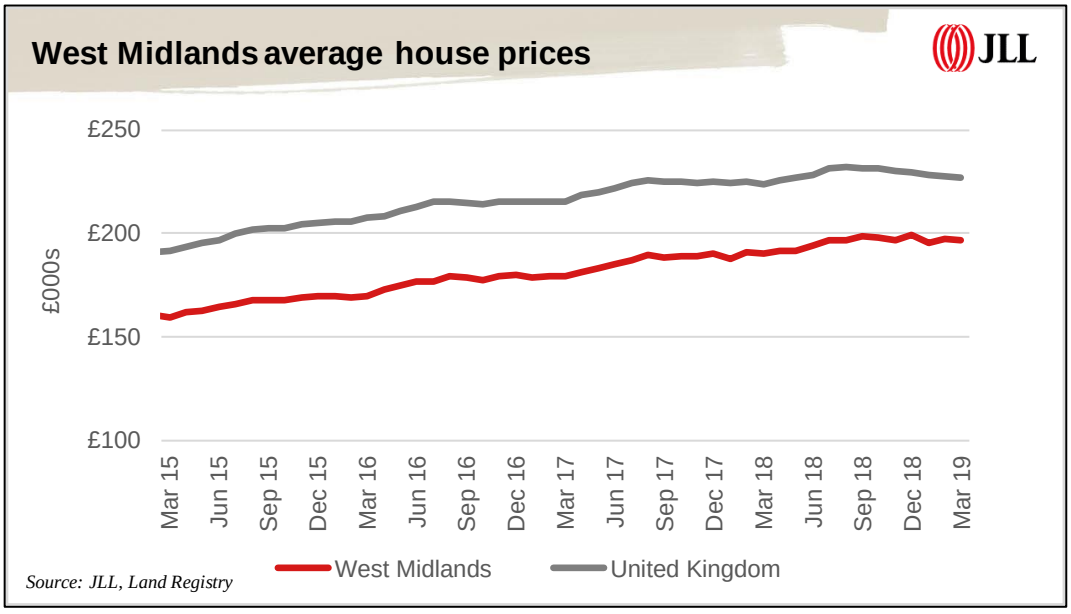


West Midlands housing market

House prices in the West Midlands decreased by 1.2% in the three months to end-March 2019. This compares with the decrease of 1.3% in prices across the UK. The 1.2% fall in prices follows a 0.3% increase in the three months to end-December 2018 and a rise of 2.3% in the preceding three months. In the year to end-March 2019, house prices in the West Midlands increased by 3.4%, which is higher than the 1.4% annual growth seen across the UK. (Source: Land Registry).

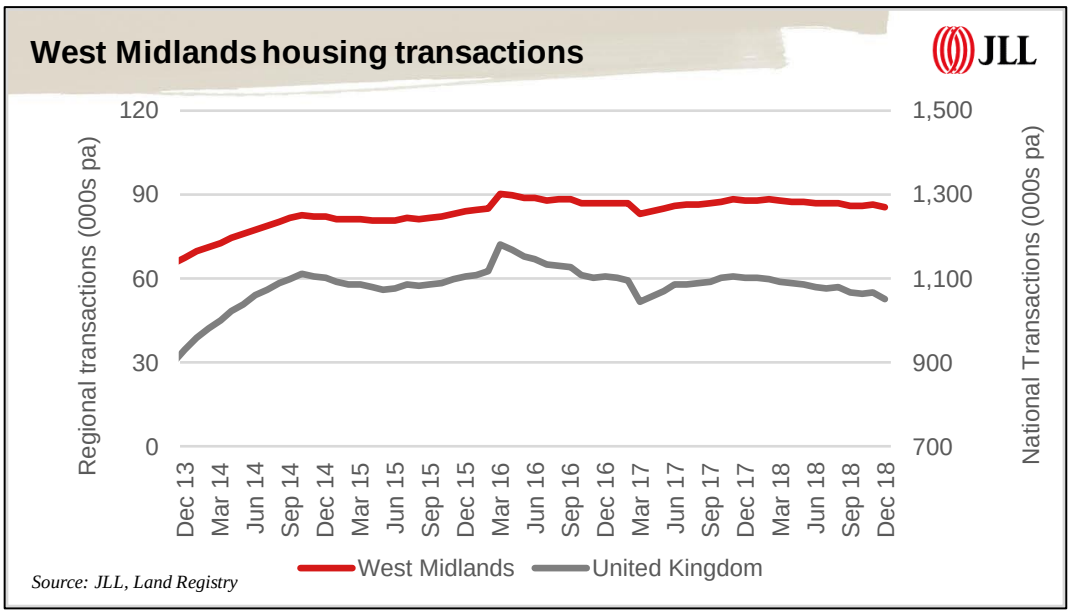


House prices in the West Midlands are below the average of the UK. The average house price in the West Midlands was £196,571 in March 2019, which compares with £226,797 in the UK. For much of the past five years, average house prices in the West Midlands have slowly fallen behind those across the UK but have seen higher growth over the past year. (Source: Land Registry).



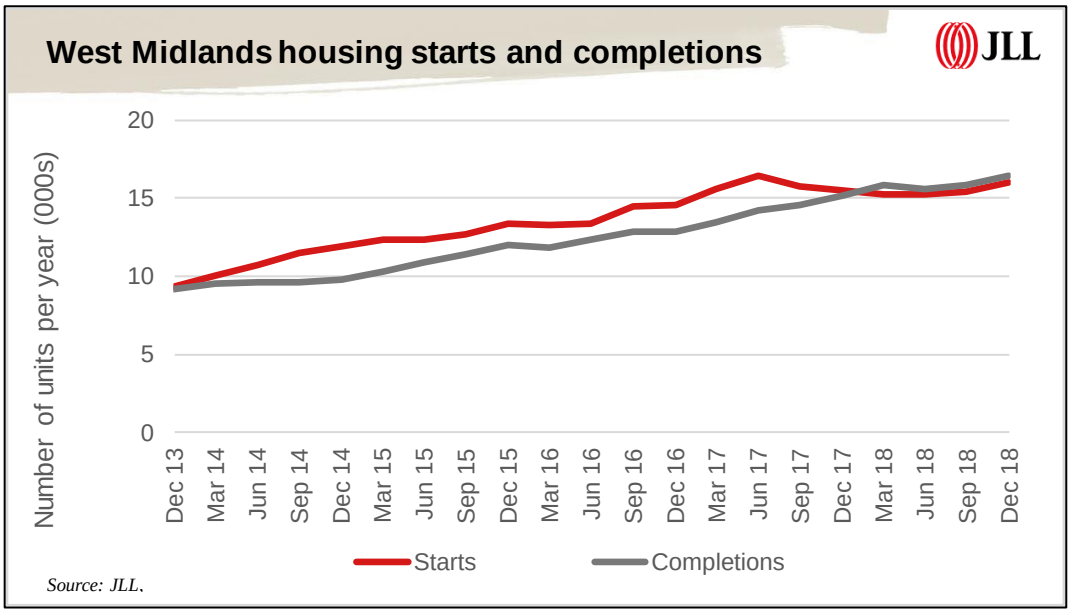
Transaction levels in the West Midlands in the year to December 2018 have decreased by 4.0%, which compares with a decrease of 5.7% seen across the UK over the same period.

The current level of transactions in the West Midlands, at 84,400 pa, is 20.7% lower than the 2006 average, which compares with 28.1% lower than the average across the UK. The annual number of transactions in the West Midlands is above the 10-year average by 18.7%. This is well above the 10.7% above the 10-year average seen across UK housing transactions. (Source: Land Registry).



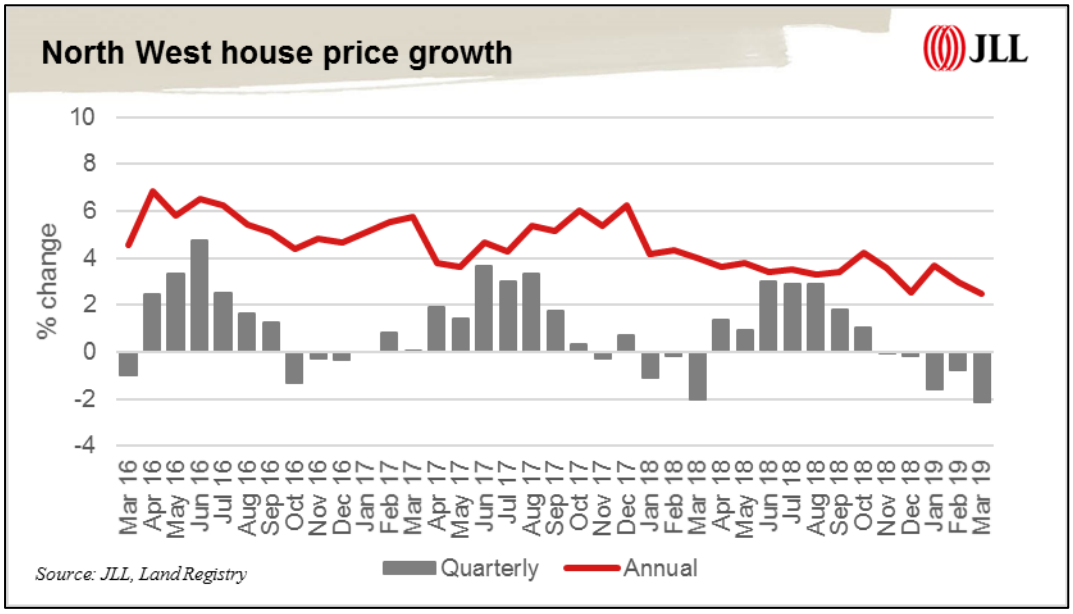
The number of development starts per year has increased by 2.9% compared with a year earlier. At 15,980 the number of housing starts is 1.5% above 2006-2007 levels and 46.1% higher than the 10-year average.

The number of development completions in the year to Q4 2018, at 16,480 units, is 8.7% more than a year earlier, 9.1% above 2006-2007 levels and 48.5% above the 10-year average. (Source: MHCLG).

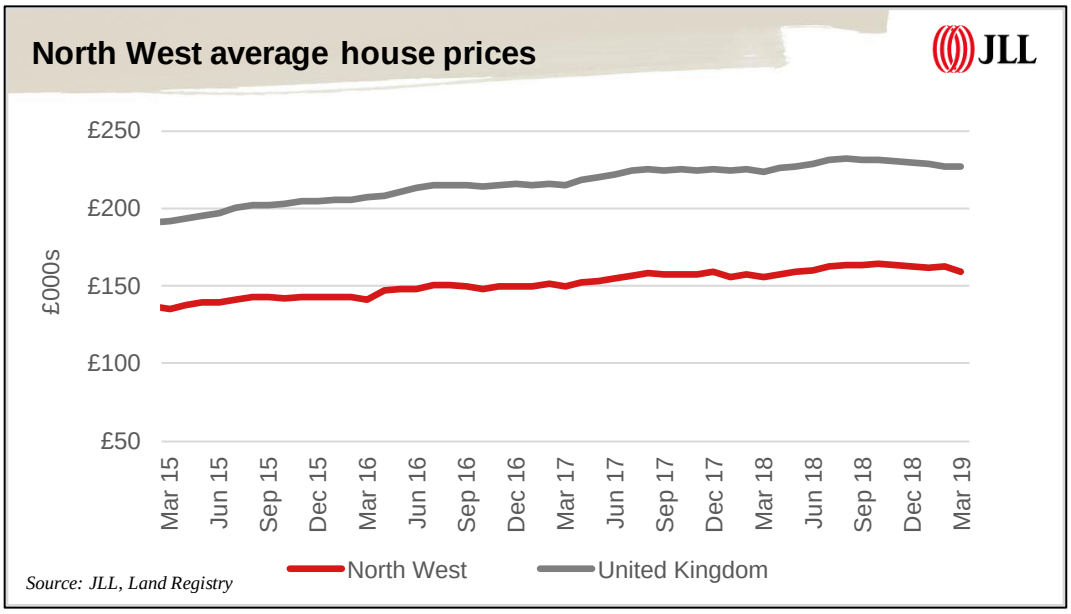


North West housing market

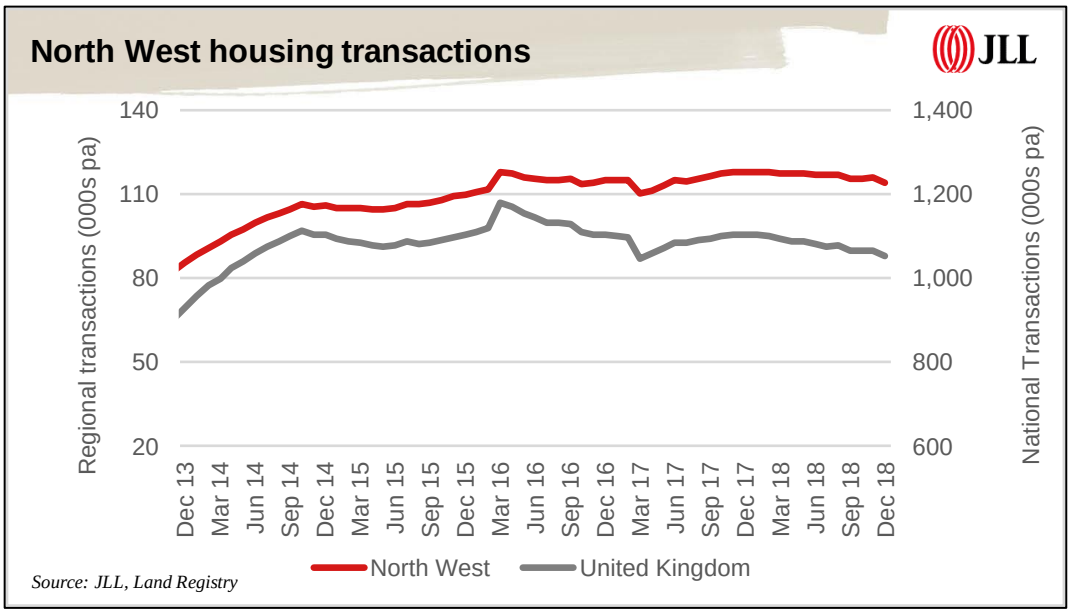
House prices in the North West fell by 2.1% in the three months to end-March 2019. This decrease in price is well below the fall of 1.3% seen across the UK. The decrease of 2.1% in the North West follows a decrease of 0.2% in the three months to end-December 2018 and a rise of 1.8% three months earlier. In the year to end-March 2019, house prices in the North West increased by 2.5%, above the average rise of 1.4% across the UK. (Source: Land Registry).



House prices in the North West are notably lower than the average across the UK. The average house price in the North West was £159,471 in March 2019 compared with £226,797 across the UK. (Source: Land Registry).

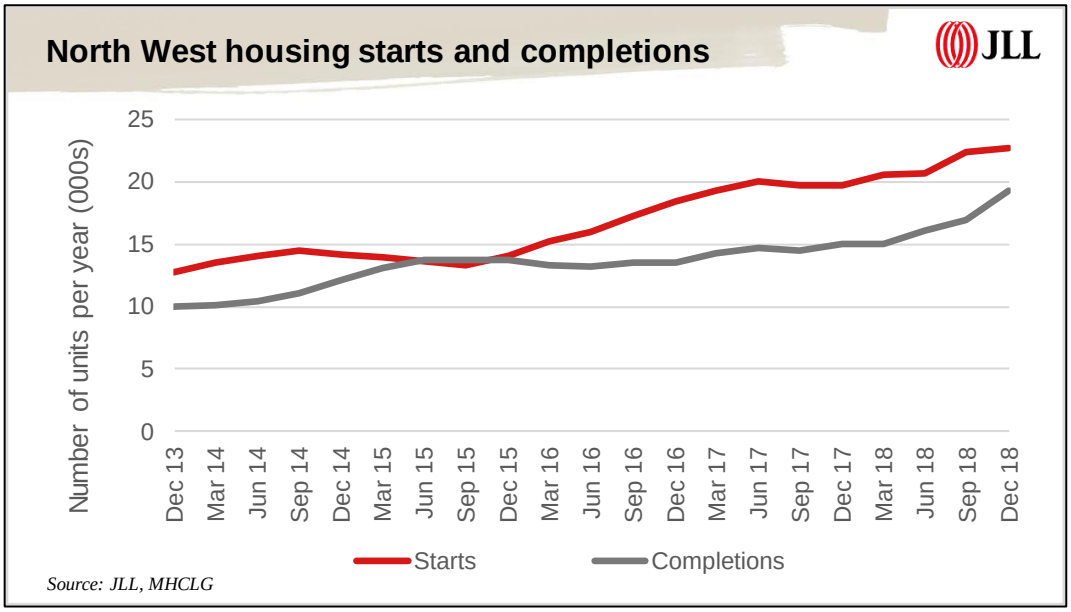


Annual transaction levels in the North West, at 113,000, fell by 4.1% in the year to end-December 2018. The current level of transactions in the North West is 23.2% lower than the 2006-2007 average while across the UK annual sales volumes are 28.1% lower. The annual number of transactions is 22.4% above the 10-year average while annual levels across the UK are 10.7% higher. (Source: Land Registry).



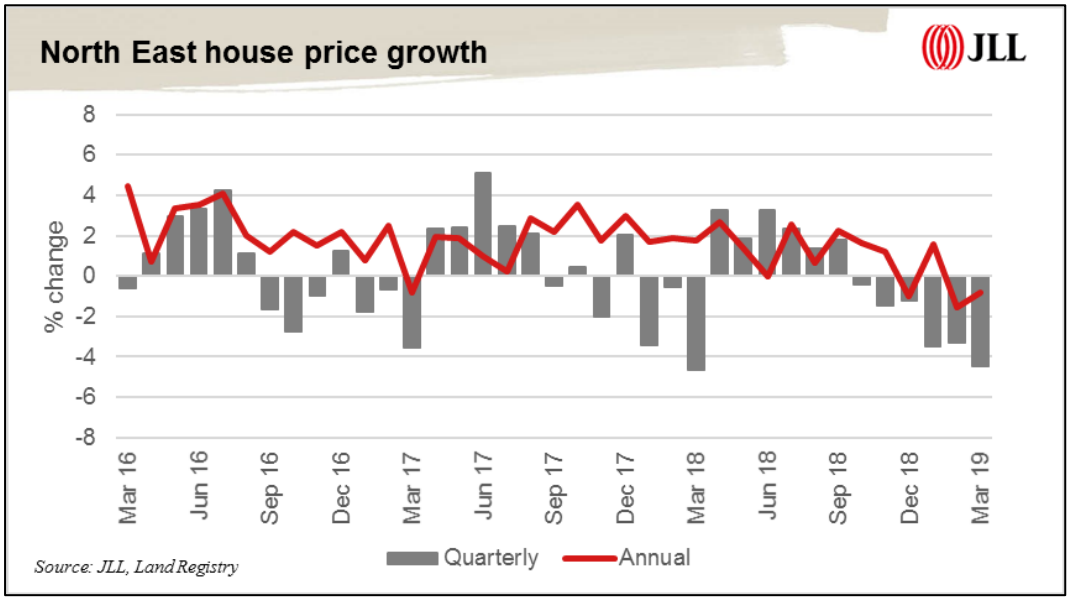
The number of development starts per year in the North West increased by 14.9% compared with a year earlier. At 22,690, the number of housing starts in the past year is 6.9% below 2006-2007 levels but 69.8% greater than the 10-year average.

The number of development completions in the year to Q4 2018, at 19,310 units, is 28.9% higher than a year earlier, 1.3% below 2006-2007 levels and 50.3% above the 10-year average. (Source: MHCLG).

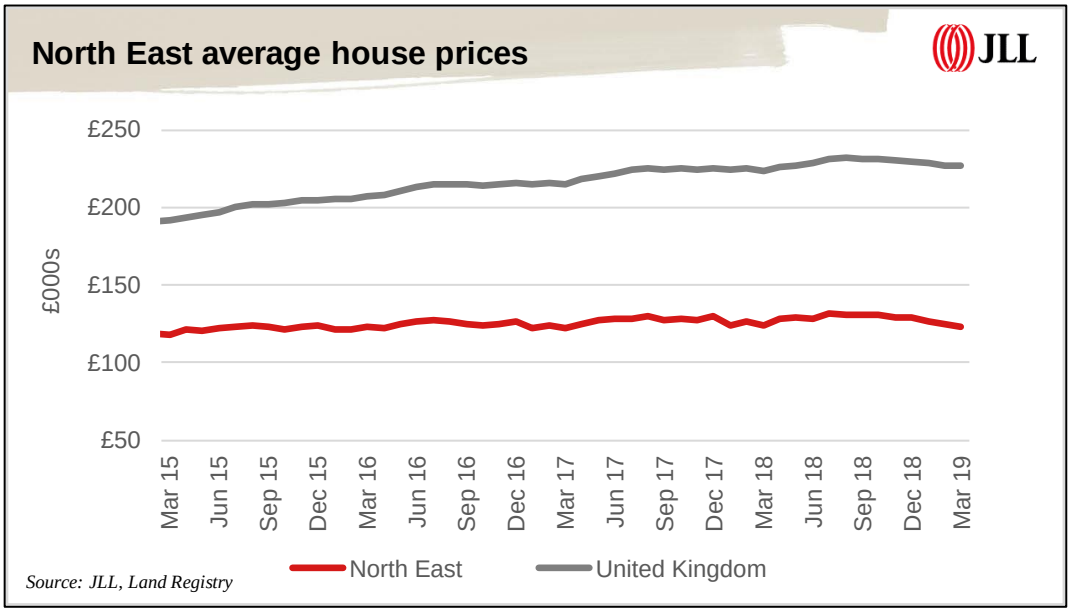


North East housing market

House prices in the North East fell by 4.5% in the three months to end-March 2019. This is well below the decrease of 1.3% in prices across the UK. The decrease in North East house prices of 4.5% follows a fall of 1.2% in the three months to end-December 2018 and an increase of 1.8% in the preceding three months. In the year to end-March 2019, house prices in the North East fell by 0.8%, which is below the 1.4% increase seen across the UK. (Source: Land Registry).

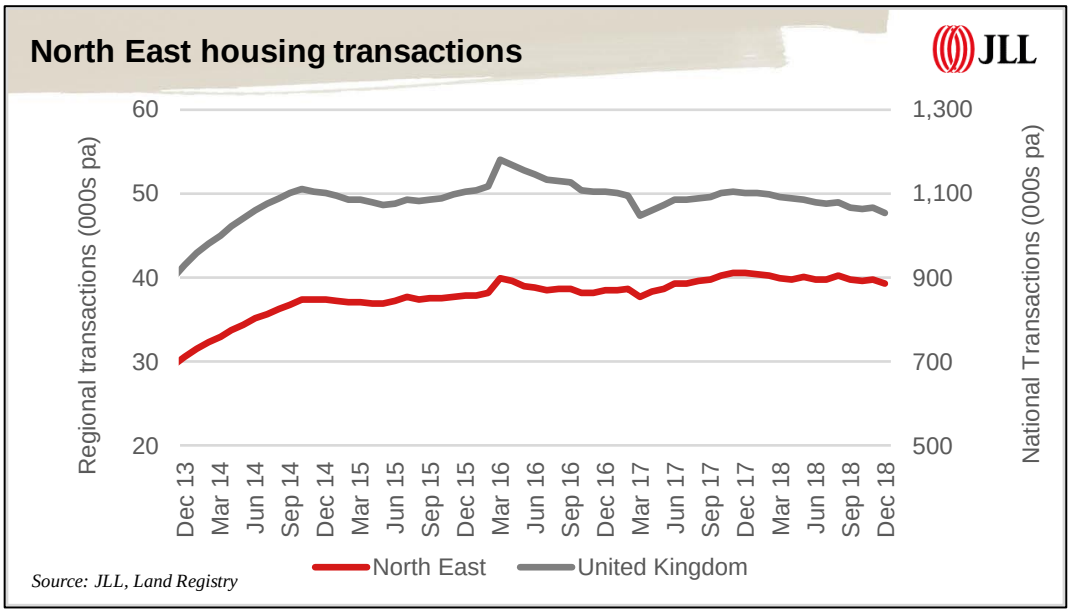


House prices in the North East are significantly lower than the average across the UK. The average house price in the North East was £123,045 in March 2019 which compares with £226,797 across the UK. Average house prices in the North East continue to be the lowest of any UK region. (Source: Land Registry).



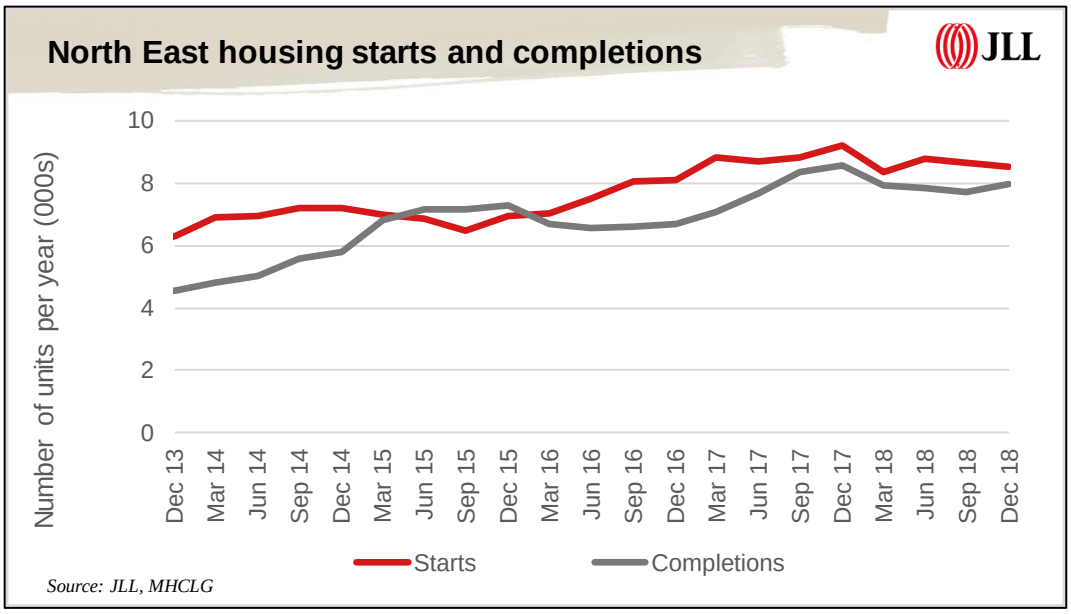
Transaction levels in the North East in the year to December 2018 decreased by 4.0%. This compares with the 5.7% fall across the UK over the same period. The current level of transactions in the North East, at 38,900 pa, is the lowest of all UK regions.

This is 29.2% lower than the 2006 average which compares with 28.1% lower across the UK. The annual number of transactions is 19.5% above the 10-year average, while sales volumes across the UK are 10.7% higher. (Source: Land Registry).



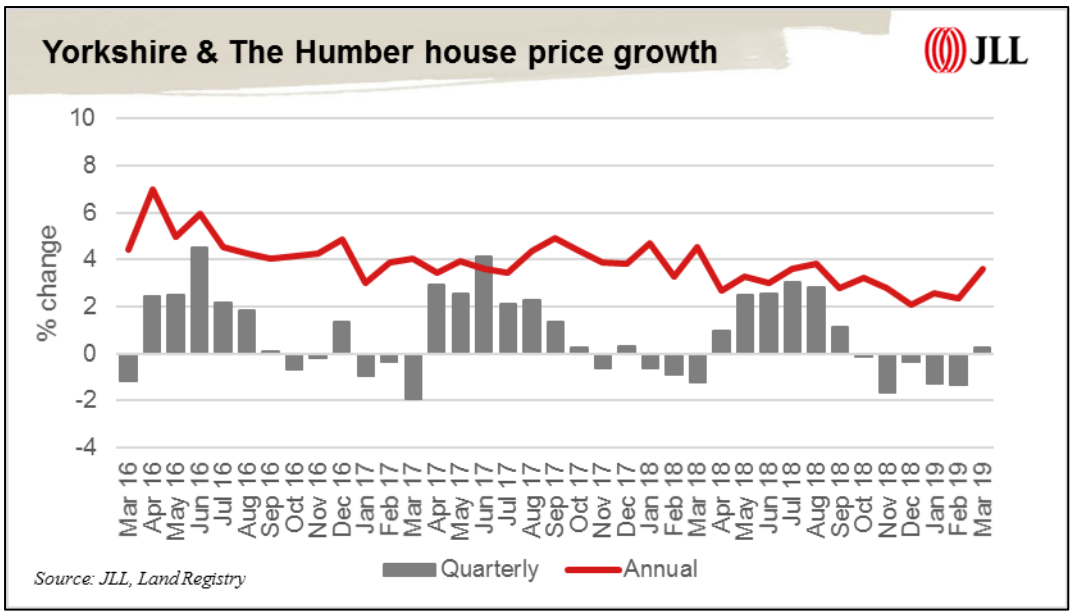
The number of development starts in the year to Q4 2018 in the North East decreased by 7.6% compared with a year earlier. At 8,520 units, the number of housing starts in the past year is 0.3% above 2006-2007 levels and 39.2% higher than the 10-year average.

The number of development completions in the year to Q4 2018, at 7,970 units, is 7.1% below a year earlier, 1.6% below 2006-2007 levels and 34.8% higher than the 10-year average. (Source: MHCLG).

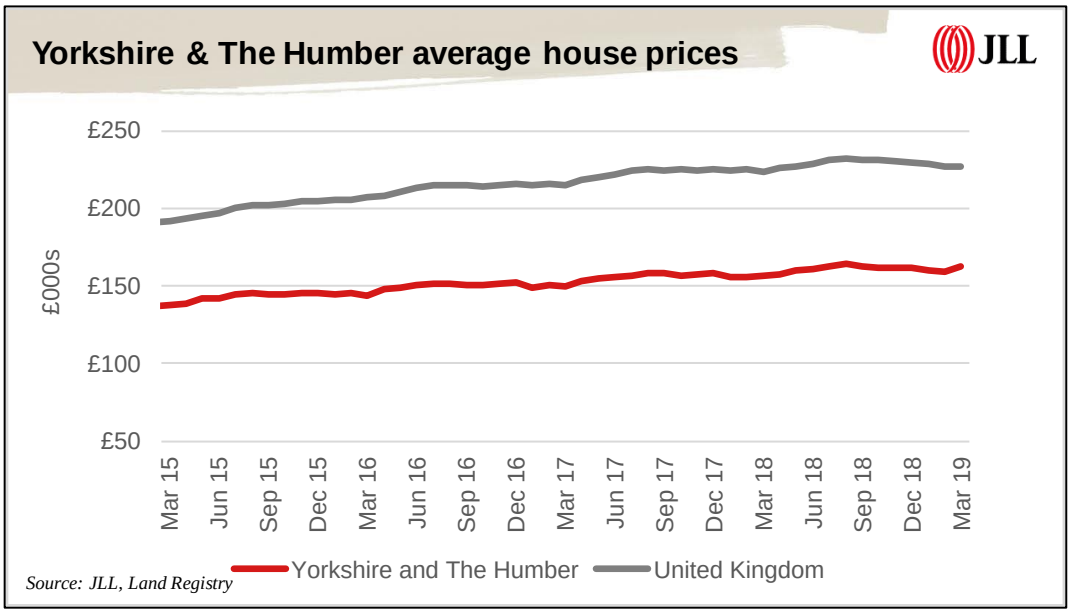


Yorkshire & the Humber housing market

House prices in Yorkshire and the Humber rose by 0.2% in the three months to end-March 2019. This increase in price is above the loss of 1.3% seen across the UK. The rise of 0.2% follows a decrease of 0.3% in the three months to end-December 2018 and a rise of 1.1% three months earlier. In the year to end-March 2019, house prices in Yorkshire and the Humber increased by 3.6%, above the average price increase across the UK which rose by 1.4%. (Source: Land Registry).

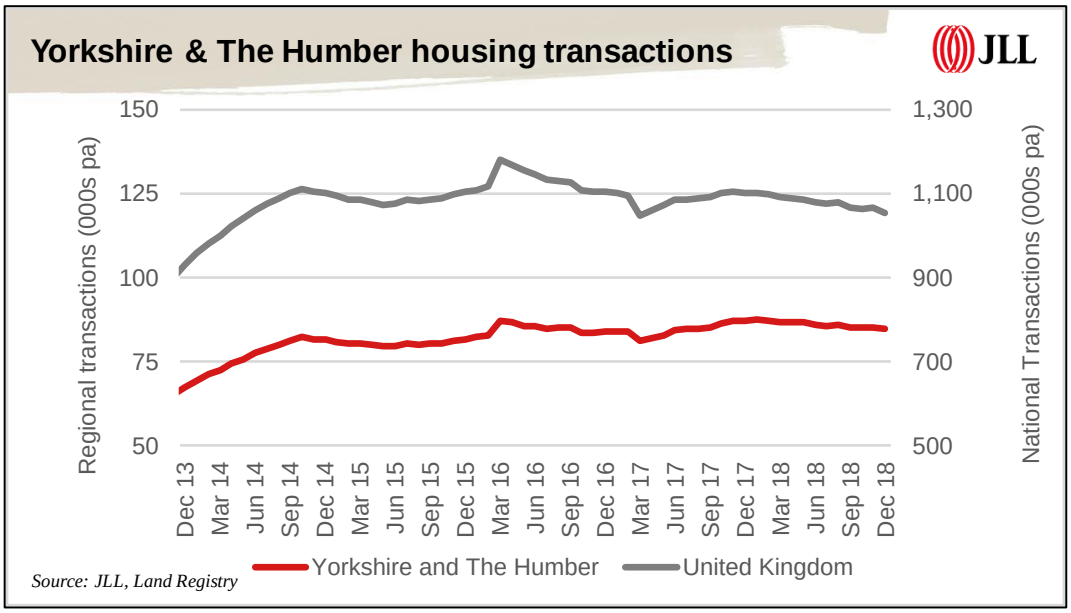


House prices in the Yorkshire and the Humber are well below the average across the UK. The average house price in Yorkshire and the Humber was £162,129 in March 2019 compared with £226,797 across the UK. (Source: Land Registry).



Annual transaction levels in Yorkshire & the Humber are down 3.9% in the year to end-December 2018, which compares with a decrease of 5.7% across the UK over the same period. The current level of transactions in Yorkshire and the Humber, at 83,900

pa, is 26.2% lower than the 2006 average which compares with 28.1% lower across the UK. The annual number of transactions is 19.1% above the 10-year average which compares with 10.7% higher across the UK. (Source: Land Registry).



The number of development starts in the year to Q4 2018 decreased by 12.6% compared with a year earlier. At 13,420 units, the number of housing starts in the past year is 23.8% below 2006-2007 levels and 29.3% above the 10-year average.

The number of annual completions in Q4 2018, at 13,510 units is 3.0% higher than a year earlier, 17.9% below 2006-2007 levels and 27.5% above the 10-year average. (Source: MHCLG).

7. any receiver or other party which is appointed to realise the security;

together, the "**Addressees**".

Dear Sir or Madam,

VALUATION OF HOUSING STOCK OF CLARION HOUSING ASSOCIATION LIMITED (THE "EXISTING BORROWER") IN RESPECT OF EACH SERIES OF NOTES (THE "NOTES") TO BE ISSUED BY THE ISSUER UNDER THE £3,000,000,000 SECURED EURO MEDIUM TERM NOTE PROGRAMME (THE "PROGRAMME") WHERE SUCH UNDERLYING SECURITY IS APPORTIONED ON A "NUMERICAL APPORTIONMENT BASIS" PURSUANT TO THE SECURITY TRUST DEED.

In accordance with the instructions contained in the email from the Issuer to us dated 7 June 2019, as confirmed in our letter to the Issuer dated 8 July 2019, we have inspected the properties and made such enquiries as are sufficient to provide you with our opinion of value on the bases stated below.

We draw your attention to our accompanying Report together with the General Assumptions and Conditions upon which our Valuation has been prepared, details of which are provided at the rear of our Report.

We trust that our Report meets your requirements, however should you have any queries, please do not hesitate to contact us.

Yours faithfully

For and on behalf of Savills Advisory Services Limited
Matthew Sale BSc (Hons) MRICS

1. Instructions and Terms of Reference

1.1. Instructions & Terms of Reference

This Report is required in connection with each series of Notes to be issued by the Issuer under the Programme where the underlying security is apportioned on “Numerical Apportionment Basis” in accordance with the Security Trust Deed.

Further to instructions received from the Issuer and the Savills Advisory Services Limited Terms Of Business Letter dated 8 July 2019 which confirmed our instructions we now have pleasure in reporting the following valuations and advice.

The schedule of properties which are the subject of this valuation (the “Properties”) with apportioned values is attached at **Appendix 1** and relates to 34,081 units in total.

In completing this exercise, we have:

a) agreed a full set of property schedule data with the Existing Borrower;

b) discussed details as to our approach and methodology; and

c) completed our own inspections, research and analysis.

The above has enabled us to arrive at the valuation assumptions that have enabled us to carry out our valuations and final reported figures herein.

For the avoidance of doubt, we confirm that it would not be appropriate or possible to compare this valuation with any values appearing in the annual accounts of the Existing Borrower. This Report has been prepared in accordance with the RICS Red Book (as defined herein). The valuations are prepared on this basis so that we can determine the value recoverable if the charges over the Properties were enforced as at the Effective Date (as defined herein). We understand that the values given in the accounts of the Existing Borrower are prepared on an historic cost basis, which considers how much the Properties have cost and will continue to cost the Existing Borrower. This is an entirely different basis of valuation from that used for loan security purposes. Moreover, the figure in the latest published annual accounts of the Existing Borrower represents a valuation based on the going concern of the whole stock, in contrast with the valuation for each series of Notes issued under the Programme where the underlying security is apportioned on a "Numerical Apportionment Basis" pursuant to the Security Trust Deed which only represents the value to a funder in possession of a portion of the stock. As such different assumptions would be applied. Consequently, in addition to being impractical, any comparison would not be an accurate comparison.

Our valuations have been carried out on the basis of the General Assumptions and Standard Conditions set out in **Appendix 4**.

1.2. Basis of Valuation MV-STT - Unencumbered Stock

In relation to Properties which may be disposed of by a mortgagee in possession on an unfettered basis (meaning subject to tenancies but otherwise vacant possession and not subject to any security interest option or other encumbrance or to any restriction preventing its sale to, or use by, any person for residential use):-

The Market Value of such properties for loan security purposes firstly reflecting the fact or (where not the case) making an assumption as to the fact that the Properties are subject to existing tenancies that grant security of tenure to the occupational tenant. Our valuation will refer to this basis of value as “MV–STT” or “market value, subject to tenancies”; and

The Existing Use Value – Social Housing (“EUV-SH”) of such properties for loan security purposes.

1.3. Basis of Valuation EUV-SH - Encumbered Stock

In relation to Properties other than those specified in paragraph 1.2 above that have restrictions on title, in planning or those former LSVT properties AND the retained equity in shared ownership properties:-

The Existing Use Value for Social Housing ("EUV-SH") of such properties for loan security purposes.

1.4. Definition of Basis of Valuations

Existing Use Value for Social Housing is defined by the Royal Institution of Chartered Surveyors ("RICS") at UK VPGA 7 as:-

"Existing use value for social housing (EUV-SH) is an opinion of the best price at which the sale of an interest in a property would have been completed unconditionally for a cash consideration on the valuation date, assuming:

a) *a willing seller*
b) *that prior to the valuation date there had been a reasonable period (having regard to the nature of the property and the state of the market) for the property marketing of the interest for the agreement of the price in terms and for the completion of the sale*
c) *that the state of the market, level of values and other circumstances were on any earlier assumed data of exchange of contracts, the same as on the date of valuation*
d) *that no account is taken of any additional bid by a prospective purchaser with a special interest*
e) *that both parties to the transaction had acted knowledgeably, prudently and without compulsion*
f) *that the property will continue to be let by a body pursuant to delivery of a service for the existing use*
g) *that the vendor would only be able to dispose of the property to organisations intending to manage their housing stock in accordance with the regulatory body's requirements*
h) *that properties temporarily vacant pending re-letting should be valued, if there is a letting demand, on the basis that the prospective purchaser intends to re-let them, rather than with vacant possession and*
i) *that any subsequent sale would be subject to all the same assumptions above"*

Market Value is defined by the Royal Institution of Chartered Surveyors at VPS 4.4 as:-

"The estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm's length transaction after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion."

1.5. Freehold & Long-Leasehold Properties

We have valued the freehold and long-leasehold property and listed these separately at **Appendix 1,** splitting the schedules between those valued at EUV-SH and MV-STT.

We confirm that there will be no material difference in the valuations between freehold and long-leasehold interests (on either basis; MV-STT and EUV-SH).

1.6. General Assumptions and Conditions

All our valuations have been carried out on the basis of the General Assumptions and Standard Conditions set out in **Appendix 4** of this Report.

1.7. Valuation Date

Our opinions of value are as at 31 March 2019 (the "Effective Date''). The importance of the valuation date must be stressed as property values can change over a relatively short period of time.

1.8. Purpose of Valuation

We understand that our valuation is required for loan security purposes in connection with each series of Notes to be issued by the Issuer under the Programme where the underlying security is apportioned on a "Numerical Apportionment Basis" pursuant to the Security Trust Deed.

This Report is issued for the benefit of the addressees and for the inclusion in the offering circular (the "Offering Circular") for the Programme issued by the Issuer and may only be used in connection with the transactions referred to in this Report and for the purposes of the Offering Circular.

We hereby give consent to the publication of this Report within the Offering Circular and accept responsibility for the information contained in this Report. To the best of our knowledge and belief (having taken all reasonable care to ensure that such is the case) the information given in this Report is in accordance with the facts and does not omit anything likely to affect the import of such information.

1.9. Conflicts of Interest

We are independent valuers and are not aware of any conflict of interest either with the Properties, the Issuer, the Group Borrower or the Existing Borrower, preventing us from providing you with an independent valuation of the Properties in accordance with the RICS Red Book. We will value the Properties as External Valuers, as defined in the Red Book.

1.10. Valuer Details and Inspection

The due diligence enquiries referred to below were undertaken by Matthew Sale MRICS. The valuations have also been reviewed by Anne Johnson MRICS and David Cotterell FRICS.

As instructed a representative 20% sample of the Properties was inspected externally with sample internal inspections carried out between 6 March 2019 and 25 March 2019 by Geoff Hoare FRICS and Richard Hague AssocRICS. This is part of a 20% rolling programme of inspections over a 5 year period.

All those above with MRICS or FRICS qualifications are also RICS Registered Valuers. Furthermore, in accordance with VPS 3.7, we confirm that the aforementioned individuals have sufficient current local and national knowledge of the particular market and the skills and understanding to undertake the valuation competently.

1.11. Extent of Due Diligence Enquiries and Information Sources

The extent of the due diligence enquiries we have undertaken and the sources of the information we have relied upon for the purpose of our valuation are stated in the relevant sections of our Report below.

We have also reviewed the original certificates of title prepared by Trowers & Hamlins LLP, DMH Stallard LLP and Winckworth Sherwood LLP, the five certificates of title prepared by Devonshires Solicitors LLP dated 29 August 2017 and the reliance and top up letters prepared by Devonshires Solicitors LLP, DMH Stallard LLP, Trowers & Hamlins LLP and Winckworth Sherwood LLP (and any previous reliance/top up letters referred to therein) to be dated on or about 29 September 2017 (together, the "Property Documents") and can confirm that our valuations fully reflect the disclosures contained therein.

1.12. RICS Compliance

This Report has been prepared in accordance with Royal Institution of Chartered Surveyors ("RICS") Valuation – Global Standards 2017 (incorporating the IVSC International Valuation Standards) and the RICS Valuation – Global Standards 2017 - UK national supplement, together the ''RICS Red Book''.

In particular, where relevant, our Report has been prepared in accordance with the requirements of Valuation Professional Standards and Valuation Practice Guidance Applications: VPS 1 Terms of Engagement, VPS 3 Valuation Reports, VPS 4 Bases of Value, Assumptions and Special Assumptions, UK VPGA 1 Valuations for Financial Reporting, UK VPGA 7 Valuations for Registered Social Housing Providers' Assets for Financial Statements, UK VPGA 11 Valuations for Residential Mortgage Purposes, UK VPGA 18 Affordable Rent and Market Rent under the Housing Acts in a Regulatory Context, and UK VPGA 14 Valuation of Registered Social Housing for Loan Security Purposes.

This Report also complies with the International Valuation Standards where applicable.

2. EXECUTIVE SUMMARY OF VALUATION

2.1. Valuation of All Property

Based on the schedule of Properties provided by the Existing Borrower our opinions of value on the bases indicated as at the Effective Date are as follows:

2.2. Valuation of Freehold and Leasehold Property that may be disposed at MV-STT (£)

Our opinion of value, in aggregate, of the 8,647 dwellings as mentioned at **1.2** above, on the basis of

- Market Value – Subject to Tenancies (MV-STT) is **£2,193,399,000 (two billion, one hundred and ninety three million, three hundred and ninety nine thousand pounds)**

Table 1: Valuation of Freehold and Leasehold Property that may be disposed at MV-STT (£)

Tenure Type	Number of Dwellings	Market Value – Subject to Tenancies (MV-STT) £	Equivalent Existing Use Value – Social Housing (EUV-SH) £
Freehold	8,118	£2,062,603,000	£581,721,000
Leasehold	529	£130,796,000	£59,172,000

2.3. Valuation of Freehold and Leasehold Property that may be disposed at EUV-SH (£)

Our opinion of value, in aggregate, of the 22,780 rented dwellings and retained equity in shared ownership dwellings as mentioned at **1.3** above, on the basis of

- Existing Use for Social Housing is **£1,303,009,000 (one billion, three hundred and three million and nine thousand pounds)**

Table 2: Valuation of Freehold and Leasehold Property that may be only by disposed at EUV-SH

Tenure Type	Number of Dwellings	Existing Use Value – Social Housing (EUV-SH) £
Freehold	22,318	£1,264,162,000
Leasehold	462	£38,847,000

There are 2,654 properties which have been ascribed a nil value.

A full stock schedule with apportioned values is included at **Appendix 1.**

2.4. VPGA10: Matters That May Give Rise to Material Valuation Uncertainty

The Valuation Practice Guidance in the RICS Red Book - VPGA 10 - directs us to draw attention to situations where a reduced level of certainty should be attached to our valuations.

Following a serious fire at the Grenfell Tower apartment block in London on 14 June 2017, a number of enquiries have been commissioned to investigate the event, and it is likely that recommendations will be made as to the construction and management of similar properties. In the light of this, we are aware that market participants that may also be affected by the same or similar issues are reviewing details of construction, health and safety – and particularly fire prevention, mitigation and means of escape of similar properties.

Within the Properties valued there are 29 high rise blocks containing 789 units. The value attributed to them is as follows:

The aggregate EUV-SH of the freehold or Long Leasehold interest in the 789 units for loan security purposes is: £63,171,000
The aggregate MV-STT of the freehold or Long Leasehold interest in the 789 units for loan security purposes is:£84,648,171.

It remains difficult to fully assess the longer-term consequences. Currently, however, it is likely that potential investors and occupiers will be more cautious – and the liquidity and pricing of the high rise property may be impacted. We would therefore draw your attention to the fact that, in the case of the subject property as at the date of our valuation, there is greater uncertainty concerning the valuation figure than would normally be the case.

3. The Properties

3.1. The Properties

3.1.1. Location and Description

In total there are 34,081 properties comprised in the instruction. This total includes 2,654 nil value units leaving 31,427 units which are spread across the local authority areas detailed in **Table 3** below. The Properties are situated across seventy-four Local Authority areas.

Table 3: Stock Location

Local Authority	Total	Local Authority	Total
Babergh	1	Islington	2,278

The Properties comprise a range of property types with 3 bedroom houses being the most prevalent comprising over 29% of the stock with 1 bedroom flats comprising over 32% of the stock and being most prevalent in the case of flats. The portfolio comprises mainly self-contained units however there are a number of schemes which contain rooms with shared facilities.

Please refer to **Appendix 1** for a full list of the Properties including rental income.

3.1.3. Brief Description

The Properties are in the main considered to be of conventional construction for their age and type. Houses are mainly of solid brick, cavity brick or timber frame construction with roofs being mainly pitched and covered in slate or tile. Flats are mainly of cavity brick, metal or timber frame construction with roofs being pitched and covered in tile or are flat and believed to have an asphalt or metal type covering. The majority of the Properties have modern plastic gutters and downpipes.

A high proportion of the Properties have double glazed windows of timber, metal or UPVC casement type. The majority of the Properties benefit from all mains services and gas fired central heating systems supplying radiators.

A significant number of the Properties were acquired by transfer from local authorities under Section 32 and 43 of the Housing Act 1985.

Included within this portfolio are 29 blocks of flats of 6 storeys or above comprising 789 units. We have made enquiries with Clarion Housing Group who have confirmed that none of these blocks are clad in Aluminium Composite Cladding (ACM) and the blocks have all been subject to recent fire risk assessments. We refer you to our comments at section 2.4.

3.1.4. Condition

As instructed, we have not carried out a structural survey. However, we can comment, without liability, that during the course of our inspections for valuation purposes, we observed that the Properties appear to be generally in reasonable condition.

Apart from any matters specifically referred to in this Report, we have assumed that the Properties are free from structural faults, or other defects and are in a good and lettable condition internally. This Report is prepared on this assumption.

It is understood from Clarion Housing Group that this entire portfolio currently meets the Decent Homes standard as set out by the Ministry of Housing, Communities and Local Government. Properties conform to the Decent Homes standard if they are warm and weatherproof and have reasonably modern facilities.

However we would stress that we have not carried out structural or condition surveys and have relied upon our visual inspection. The Savills stock condition survey team during 2016 carried out a stock condition survey of the Clarion Housing Group stock which included 100% external and 50% internal inspections and we have adopted the results of this into our valuation. Apart from any matters specifically referred to in this Report, we have assumed that the Properties are free from structural faults, or other defects and are in a good and lettable condition internally. This Report is prepared on this assumption.

3.1.5. Services

No detailed inspections or tests have been carried out by us on any of the services or items of equipment, therefore no warranty can be given with regard to their purpose. We have valued the Properties on the assumption that all services are in full working order and comply with all statutory requirements and standards.

3.2. Environmental Considerations

3.2.1. Contamination

We have valued the portfolio on the assumption that the Properties have not suffered any land contamination in the past, nor are they likely to become so contaminated in the foreseeable future. However, should it subsequently be established that contamination exists at any Property, or on any neighbouring land, then we may wish to review our valuation advice.

3.2.2. Ground Conditions

We have assumed there to be no adverse ground or soil conditions and that the load bearing qualities of the site are sufficient to support the building constructed thereon.

3.2.3. Flooding

We are not aware of any flooding affecting the Properties and assume there is no history of flooding risk.

3.2.4. Radon Gas

Due to the geographical spread of the stock, we are unable to confirm whether the Properties are in a Radon Affected Area. Radon Protection Measures may be necessary for new properties or extensions to existing ones as described in publication BR211 by the Building Research Establishment.

3.2.5. Invasive Vegetation

Under the Wildlife and Countryside Act 1981 it is an offence to 'plant or otherwise cause Japanese Knotweed to grow in the wild', however the plant still remains prevalent in some areas. It is only possible to establish the presence of invasive vegetation such as Japanese Knotweed by a specific survey by suitably qualified specialist. From our limited inspection, we have no reason to suggest that such a survey is required in this instance, but should a survey subsequently find that our assumption in this respect is incorrect then we should be advised so that we may reconsider the implications for our valuation.

3.3. Town Planning

We have not made specific planning enquiries for each site. We have therefore assumed for the purposes of this Report, save as set out in the Properties Documents and copies of standard tenancy agreements and various planning agreements in respect of the Properties, that there are no planning conditions that would adversely affect the valuation.

3.4. Title and Tenure

3.4.1. Title

Our valuation reflects our opinion of value in aggregate of the freehold or long-leasehold interests (in each case) of the Properties owned by the Existing Borrower and identified by the subject of this Report and scheduled at **Appendix 1**.

In respect of each Property which we have valued on the basis on MV-STT we confirm that we have reviewed the Property Documents and confirm that each such Property can be disposed of on an unfettered basis (i.e. subject only to existing tenancies disclosed in the Property Documents but not subject to any security interest, option or other encumbrance or to any restriction preventing or restricting its sale to or use by any person for residential use).

3.4.2. Tenancies

The Properties are understood from the Existing Borrower to be subject to Assured, Secure or Assured Shorthold tenancies. The Clarion standard tenancy agreements are assumed to be in a typical format however they have not been seen as per of this revaluation.

It is assumed that under the Assured and Assured Shorthold tenancy agreements, rents can be reviewed once a year to a market level. The tenant is also assumed to have the usual rights of appeal to the local Rent Assessment Committee.

Under typical Fair/Secure Rent tenancies the rent is reviewed every 2 years with reference to the local rent Officer.

There are a number of the Properties which are subject to management agreements with other Registered Providers ("RP") of social housing. We understand that in these instances the other RP manages the properties and pays the Existing Borrower the rent due less the agreed agent fee and a void allowance. The management agreement can be terminated on either party by giving one year's written notice.

3.4.3. Shared Ownership Leases

We have not seen the standard shared ownership lease of the Existing Borrower as part of this revaluation. We have assumed that the shared ownership leases follow a typical format of 99 or 125 years and are essentially a FRI lease making the tenant responsible for all repairs. In addition the lease will allow stair-casing by the leaseholder to buy additional blocks of equity.

The lease will detail the level of specified rent, set at the leases inception, and the rent review provisions of the lease. We understand the majority of the leases provide for annual rent review to RPI + 0.5%. We have increased rents by CPI + 1% which in general terms is the same as RPI + 0.5%. Full details of the rents payable and the equity held by the Existing Borrower are set out in **Appendix 1**.

3.5. Rental Income

The gross annual rental income currently produced by the Properties, before deductions, is shown in the following table broken down by tenure.

Table 6: Gross Rental Income (correct as at 31 March 2019)

Tenure Type	Gross Rent £
General Needs Social Rented	£131,069,116
General Needs Affordable Rented	£18,932,537
Sheltered Social Rented	£13,280,050
Sheltered Affordable Rented	£7,964
Supported Social Rented	£3,482,746
Intermediate	£2,740,844
Market Rented	£5,377,680
Shared Ownership	£5,114,845
Grand Total	**£180,005,781**

Source: Clarion Housing Group

Average net rent levels, on a 52 week year basis, are shown below, as derived from the property schedule sent to us by the Existing Borrower.

Table 7: Rental Analysis 19/20 £ per week net

Property Type	Current Rent £
General Needs Social Rented	£107.91
Sheltered Social Rented	£95.76
Supported Social Rented	£106.99
Social Rented Average	**£106.67**
General Needs Affordable Rented	£137.04
Sheltered Affordable Rented	£153.15
Affordable Rented Average	**£137.04**
Intermediate Rented	£139.44
Market Rented	£259.84
Shared Ownership	£73.35

4. Market Commentary

4.1. General Market Commentary

4.1.1. General Summary

Savills' most recent house price forecasts show varied growth between the regions. The northern regions are predicted to outperform the national average for the next five years, whereas the house prices in the southern regions, and London in particular, are predicted to underperform. The Savills annual forecasts for 2019 to 2023 are shown in the table below.

Table 8: Nominal House Price Forecasts – Mainstream Markets

Region	2019	2020	2021	2022	2023
UK	1.5%	4.0%	3.0%	2.5%	3.0%
London	-2.0%	0.0%	2.5%	1.5%	2.5%
East	0.0%	2.0%	2.5%	2.0%	2.5%
South East	0.0%	2.0%	2.5%	2.0%	2.5%
West Midlands	3.0%	5.0%	3.5%	3.0%	3.5%

Source: Savills

4.1.2. National Overview

- Economic and political uncertainty has contributed to a slowing within price growth and will likely continue to suppress prices in coming years.
- Buyers have become more cautious as a result of this uncertainty and market confidence has weakened.
- Mortgage interest rates in the UK are likely to rise over the next 5 years, and are likely to put a squeeze on the amount people can borrow, although dramatic increases in the cost of borrowing are unlikely.
- Growth in London is likely to be more constrained than the rest of the country, having experienced much greater house price growth for the majority of the past decade, with previous cycles suggesting that house price growth in the Midlands will exceed that in the south.
- We are not building enough homes of the right type in the right places to meet demand, however there seems to be increased political desire to address this with higher levels of housebuilding, supported by the recent Housing White Paper.
- Build to rent housing has the ability to increase the supply of good quality, well managed rental stock.
- Prime markets predicted to experience 2 years of subdued growth, realistic pricing is currently the key to success.
- Five-year house price forecasts are positive, at close to 15% growth for UK mainstream markets.
- Regional growth in the Midlands and North is expected to continue to outperform the UK average, supported by capacity in household finances and from mortgage lenders.

Please refer to **Appendix 2** for a full, detailed market commentary.

4.2. Local Market Conditions

In common with most of the UK, the housing market in these regions suffered difficult market conditions and falling values from 2007 to 2009 as a result of poor economic conditions. The market began to recover in 2010, with average values surpassing those seen pre-recession, and has continued to increase gradually in recent years. This is illustrated in Chart 1 below.

In terms of sales volumes, levels fell significantly between 2007 and 2009 before gradually increasing over the following years. Sales figures have failed to reach the highs seen prior to the recession with figures falling in 2016 due to uncertainty caused as a result of the EU referendum, the tightening of lending regulations and stamp duty changes. This is illustrated in Chart 2 below.

The sales market is currently lacking momentum, with transaction volumes and enquiries both seeing relatively little change over the month. Estate agents in London expect there to be some negative growth during 2019 as affordability levels are being stretched. Outside of London were there is price growth this is minimal.

In the lettings market a shortage of supply means that prices continue to rise across the board. This is an issue that could worsen over the medium term - as landlords are expected to decrease their portfolios over the next three years.

Chart 1: Average Price by Region

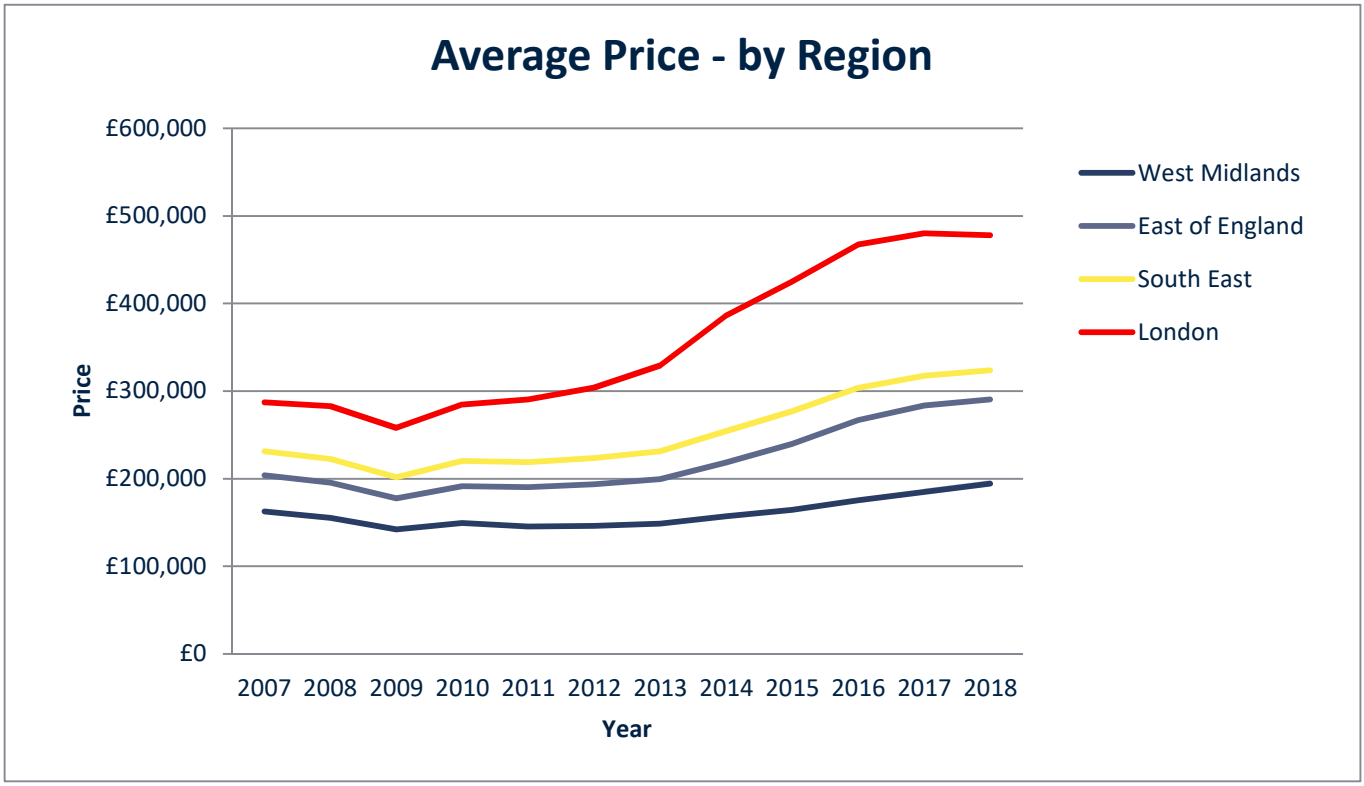

Chart 2: Sales Volume by Region

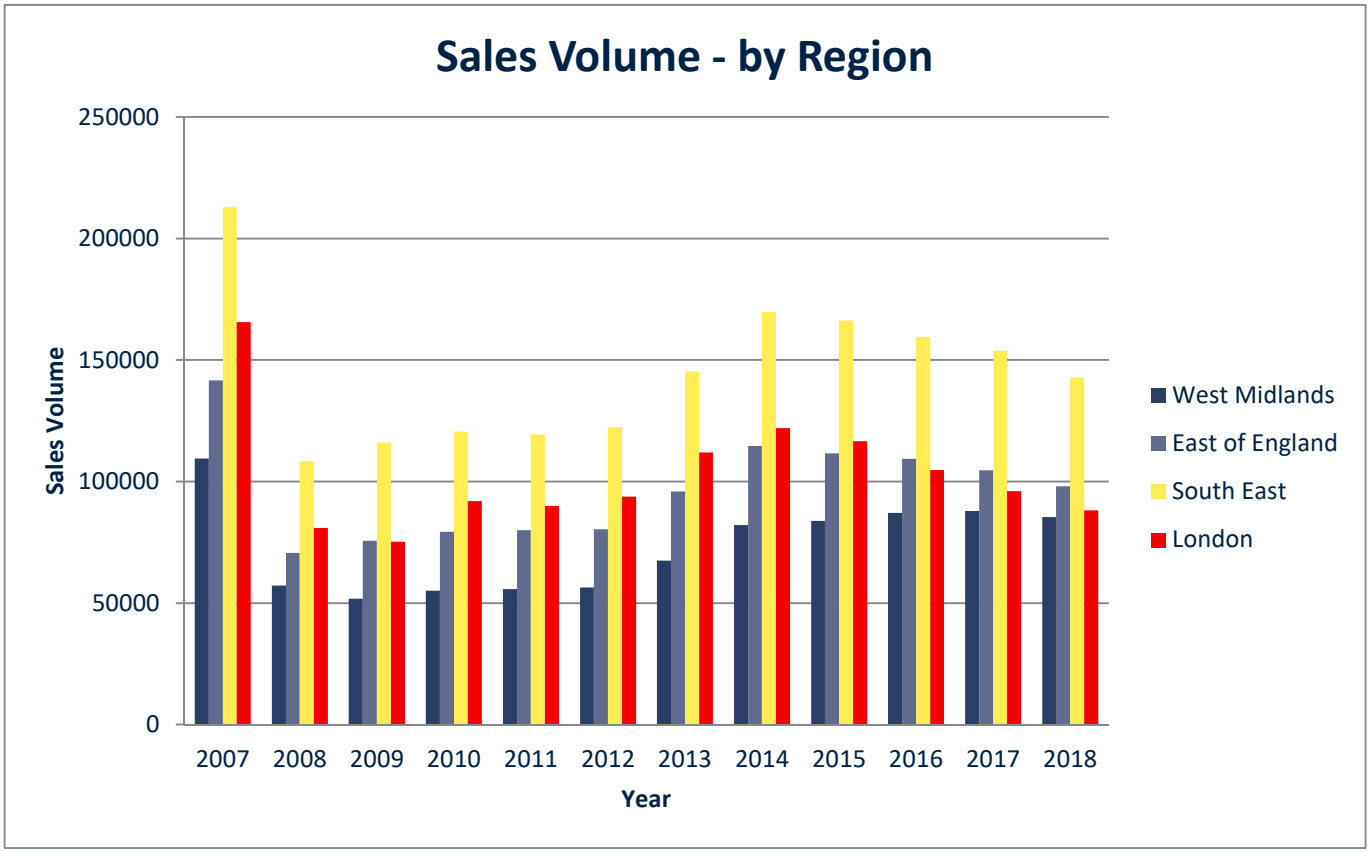

Greater London & South East

House prices in the London Boroughs have generally slowed over the past 12 months, after seeing a significant period of price recovery after the 2008 crash. As prices began to stagnate across Greater London, price rises rippled outward to the Home Counties and the south east, but those markets too are beginning to stagnate. Agents report that there are still many properties coming to the market, and they will sell if priced competitively, but they predict a real slow down over the next year as uncertainty in the market remains. The rental market is still good, although agents mostly say that it has slowed.

East

Agents in the East report a fairly busy market, with good demand for properties, especially for the stock located in the London commuter belt. There are lots of new properties coming to the market, but prices have stabilised and they will not sell if overpriced. Some agents, for example those in the areas of Essex where the stock is located, say that there is an oversupply of flats in the market, so they are struggling a bit more to sell these, unless they are within good proximity to a train station. Otherwise, agents report busy markets with good supply and demand. The rental market is generally good, with a healthy turnover of tenants and good demand.

The Midlands

Agents report busy markets with good supply and demand and some price increases. The economic and political uncertainty and affordability are less of an issue in this area compared with the South and the area has therefore been a bright spot in the wider housing market slowdown. Investors are being to focus on this area compared to the South as the market here is more steady at present and offers better returns which is helping to keep the market active. The rental market is also good, with a healthy turnover of tenants and good demand.

4.2.1. Comparables

In order to provide market values and rental values we have used evidence of both achieved sales prices and asking prices, where available, for properties on the market in the immediate area to the subject units. Our sources for this information include Rightmove, Rightmove Plus and agents' own websites, as well as discussions with local agents where necessary.

We undertake detailed research in to comparable sales and market lettings and details of these are kept on our files for audit purposes. We do not include comparables in our reports as some of this information is confidential and may be protected under General Data Protection Regulations.

All sale values were considered as open and not forced sales. To achieve values for resale research was undertaken using readily accessible sources that included:

- Determination of the area of similar properties related to market / social sector
- Land registry information on recent completed sales for the immediate post code and where necessary those of the adjoining areas
- Review of values for similar size and type of properties being marketed in the area of the actual location

A comparison between the particular size / quality / condition of the property viewed related to that of known sales values and those of what were being sought and a judgement made as to what could be considered as a fair actual value.

4.3. Vacant Possession Values

Table 9 below shows the average vacant possession values for the self-contained properties included within the valuation summarised by type and bedroom number:

Table 9: Vacant Possession Values

Savills Property Type	Bedrooms	Average VP Value
Houses and Bungalows	1	£167,000
	2	£243,000
	3	£300,000

5. Valuation Approach

5.1. Existing Use Value For Social Housing - Valuation Approach

5.1.1. Approach to EUV-SH

EUV-SH for loan security assumes the property will be disposed of by a mortgagee in possession to another registered provider of social housing ("RP") who will continue the use of the properties for social housing. These organisations will calculate their bid according to their projected income and outgoings profile which they would estimate the properties would produce under their management. This basis assumes rents will remain affordable to those in low paid employment and that all vacant units be managed within the aims and objectives of an RP.

We consider that the appropriate method of valuation is to use a discounted cash flow ("DCF"). The DCF allows us to project rental income and expenditure over the term of the cash flow to arrive at an annual surplus or deficit, which is then discounted to a net present value. However it is also necessary to consider comparable transactional evidence where available.

5.1.2. Principal DCF Variables

The DCF assumptions are derived from information received from the RP and economic data. The table below sets out our principal assumptions. More detailed discussion on discount rate, adopted rent levels and rental growth is contained in the following sections.

Table 11: DCF Variables

DCF Variable	Amount	Year	Variable Unit	Source
Current social rent	£106.75	Current	£ per week	RP
"Convergence" rent	£114.53		£ per week	Savills
Affordable Rent	£137.09	Current	£ per week	RP
Voids and bad debts	3.5%-5.0%	All Years	% of Debit	RP/ Savills
Turnover	5%-10%		% pa	RP/ Savills
Management costs	£650-£1,000		£ pu pa	RP/ Savills
Catch-up Repair costs	N/A		£ pu pa	RP/ Savills
Cyclical & Responsive maintenance. costs	£800-£850		£ pu pa	RP/ Savills
Programmed Maintenance costs	All Yrs average £1,200-£1,550		£ pu pa	RP/ Savills
Rental Inflation	1.0% following convergence		% real pa	Savills
Maintenance cost inflation	1% Yr 4 on		% real pa	Savills
Programmed cost inflation	0.5% Yr 4 on		% real pa	Savills

5.1.3. Discount Rate

There is no hard-and-fast rule for determining the most appropriate rate to be adopted in a discounted cash flow. The discount rate is probably the most important variable in the model since it determines the net present value of future predicted income and expenditure flows for the property in question. Our role as valuers is to interpret the way in which potential purchasers of the stock would assess their bids. The market for this stock will be within the RP sector.

Effectively, the discount rate is representative of both the long-term cost of borrowing for an acquiring organisation and the risks implicit in the property portfolio concerned. The current level of long-term interest rates and the overall cost of funds must be reflected in our valuation. In addition to considering the cost of funds, we also need to make an allowance for the risk which attaches to our cashflow assumptions – some of which may be subject to a higher degree of risk than those generally made in the business plans. The margin for risk needs to be considered on a case-by-case basis, having regard to the nature of the stock.

Currently the yield on 30 year Gilts is around 1.76%. This is in effect the risk free discount rate. Yields on Housing Association long dated, rated and unrated bonds are typically around 3.15% to 3.48% (Source: Social Housing, February 2019).

Recent activity in the bond market include the public rated issues in March of Home Group (with a coupon of 3.24% (1.7% spread)), Incommunities (with a coupon of 3.25% (1.7% spread)), Futures Housing Group (with a coupon of 3.375% (1.68% spread)) in February 2019 and Notting Hill Genesis (with a coupon of 2.875% (1.73% spread)) in January 2019. The MORHomes aggregator also issued its first series of bonds in February 2019 (with a coupon of 3.476% (1.90% spread)).

The supply of traditional long term (25 or 30 year) funding has diminished and is only available from a handful of lenders. Shorter term traditional funding (5–7 years) and funding with in-built options to re-price margins at a future date are commonplace, introducing a new level of re-financing risk to business plans.

Notwithstanding this, new business plans are typically being run at nominal interest rates at 'all-in' costs of funds of around 5%, reflecting the increased availability of long term finance from the capital markets.

Given the sustained reduction in funding costs our view is that for good quality, generally non-problematical stock, a discount rate between 4.75% and 5.5% real is appropriate (over a long-term CPI inflation rate of 2%). A greater margin for risk will be appropriate in some cases. We would expect to value poorer or more risky stock at rates around 5.75% to 6.5% real. On the other hand, exceptional stock could be valued at rates around 4.25% to 4.75% real.

We have adopted a discount rates of 4.75%-5.75% real for the self-contained general needs units, 5.0%-6.25% real for the self-contained sheltered and supported units, 5.5%-6.0% real for the intermediate units and 6.5% real for the non-self-contained units over an assumed CPI inflation rate of 2.0%.

Our cashflows are run in perpetuity and not over 30 yrs. For your information our valuation implies an average real discount rate over a 30 year cashflow of 3.3%-4.74%.

5.1.4. Social Rents - Savills "Convergence" Rents and Rental Growth

RP's are required to set their Social Rents in accordance with the current Rent Standard issued by the Homes and Communities Agency ('HCA') and revised in 2015, as amended by The Social Housing Rents Regulations 2016. The Guidance and the Regulations set out a formula for calculating Social rents. Service charges are charged over and above the rents and should reflect the services being provided to tenants.

Provisions introduced by the Welfare Reform and Work Act 2016 have modified the original rent increase provisions of the Rent Standard Guidance. Instead of increasing at CPI plus 1% per annum, rents for general needs properties have had to reduce by 1% each year from 2016 to 2019.

Mortgagees in possession and their successors in title are exempted from the rent setting and increase/reduction provisions of the Rent Standard and the Welfare Reform and Work Act. In theory, therefore, a purchaser could base a bid for the properties on rents up to open market levels as permitted under the terms of the tenancy agreements. However any RP purchaser would need to set rents that are consistent with its objectives as a social housing provider.

We therefore believe that a purchaser in a competitive transaction is likely to set rents at a level which they consider are the maximum affordable to those in low paid employment locally. We assume they would intend to charge such rents for new tenants and increase existing rents to a sustainable and affordable rent over a reasonable period.

The average rents across the charged stock are set out below, along with the current formula rents and our assessed sustainable affordable rent or "convergence" rent. We have adopted these convergence rents in our valuation.

Table 12: Rental Analysis 2019/20 £ per week net

Type	Estimated Tenant Household Incomes £	Net Rent 2019/20 £	Savills Convergence Rent 2019/20 £	Savills Convergence Rent Afford. Ratio 2019/20 %	Market Rent 2019/20 £
House	£526.86	£109.19	£119.30	23%	£240.95
Flat	£434.41	£103.07	£107.36	25%	£246.87
Grand Total	**£489.97**	**£106.75**	**£114.54**	**23%**	**£243.31**

Source: The Existing Borrower & Savills Excludes Nil Value Units

We have assumed all rents will converge to our convergence rent in 9 years time. The annual rent increases have been limited to 5.0% per annum nominal.

In the long term, in order to maintain consistent levels of rent affordability, the maximum possible rate of rent growth will be growth in local household incomes which is currently predicted to be 3.18% pa over the next 10 years in this area. We have therefore assumed that after they have converged rents will increase at CPI + 1% per annum.

We have relied on the current and formula rents supplied by the Existing Borrower in carrying out this valuation. We have not carried out any validation of or research into the rents supplied.

5.1.5. Affordable Rents

In certain circumstances, RPs are able to offer new assured tenancies at intermediate rents at up to 80% of the market rent – such rents are known as 'Affordable' as opposed to 'Social' rents. The ability to charge the higher rents is dependent upon the RP having a Development Framework contract with the HCA or a Short Form Agreement where they are not in the Development Framework.

There are currently 2,657 Affordable Rent units within the stock. The current average rent for these units is £137.04 per week. This is about 30% higher than the target rents on the same properties. These units have been included in our valuation at their current Affordable Rent levels.

Under the Rent Standard the rents payable for Affordable Rent tenancies increases annually by CPI plus 1% per annum. Rents are rebased to market rent upon the granting of a new tenancy. Although the rent reduction provisions in the Welfare Reform and Work Act 2016 also apply to Affordable Rent tenancies, the exemptions for mortgagees and successors allow us to assume growth outside the regulatory regime if appropriate. Thus we have assumed that a purchaser from a mortgagee would increase existing Affordable Rents in line with movements in market rents over the long term.

Market rents tend to increase in line with household incomes. Income growth forecasts for the area are currently 3.18% per annum. We have therefore assumed that rents will increase at CPI + 1% pa.

5.1.6. Sales Between Registered Providers – Transactional Evidence

Until recently evidence of sales between RPs was extremely limited – most transactions were simple transfers of engagements. However in recent years there has been a growing body of transactional evidence from competitive sales between RPs of tenanted stock. The evidence confirms RPs have a consistent tendency to pay a higher sums for some social housing portfolios than would be suggested by traditional, purely cashflow driven, EUV-SH valuations. We have been heavily involved in this emerging market and have a database of transactions covering circa 50,000 units.

Although the body of evidence is relatively small compared to the total RP stock in the UK and the market is still immature, we are able to derive a view of the prices achieved for certain kinds of stock and lot sizes. Assuming a sensible lotting of units in smaller batches of circa 100 units, bids between 5% to 30% above traditional EUV-SH levels are common for more modern stock in reasonable proximity to amenities.

In contrast it is apparent that for lots exceeding around 200 properties the prices achieved appear to be in line with the traditional, cashflow approach to EUV-SH.

In this case you have instructed us to value the Properties assuming a sale as a single lot and our valuations do not therefore reflect the higher bids that can be received for small portfolios.

5.2. Market Value Subject to Tenancies (MV-STT) - Valuation Approach

5.2.1. Valuation Methodology - MV-STT

We assess the MV-STT in two ways; firstly by applying a discount to Market Value with Vacant Possession (“MV-VP”) and secondly by applying a yield to rental income.

The valuation of properties and portfolios subject to Assured and Secure tenancies is carried out with reference to comparable evidence from the sales of similar tenanted portfolios and individual units, and sold subject to Protected Tenancies or Assured Shorthold Tenancies. There is an established body of evidence from portfolios traded on the open market to which we can refer.

Investors tend to base their bid on their ability to “trade out” individual units at Market Value assuming vacant possession over time. In locations where there is a limited market or where a property is difficult to trade, owing to style or market conditions, investors will base their bid on rental return compared to capital cost.

The discount to MV-VP ranges from 10% for prime property to 50% where market conditions are difficult. Typical rates are around a 20% to 30% discount to MV-VP for properties subject to AST tenancies.

The yield applied to net income varies from 5% or less for prime property, to 7% or more for poorer locations. This equates to a yield on gross income (after deductions for management, maintenance & voids) of between 7% to 10% and possibly higher for Sheltered accommodation.

The discount and yield applied in our valuations has been adjusted to reflect the additional security of tenure RP tenants benefit from.

The Residential Investment market is currently active in these locations and having discussed the portfolio with agents active in the market we expect that the Properties would attract good demand if brought to the market.

The discount and yield applied in our valuations has been adjusted to reflect the additional security of tenure RP tenants benefit from.

5.2.2. Principal Assumptions – MV-STT

We have considered the above in arriving at our valuation. The yield and other principal assumptions adopted are set out below.

Table 13: MV-STT Assumptions

Variable	Variable	Year	Amount
Gross Annual Rental Income*	£	Current	£131,801,640
Voids	% of Rent Debit p.a.	All years	5.0%
Management	% of Rent Debit p.a	All years	10.0%
Maintenance	% of Rent Debit p.a	All Years	15.0%
Net Yield Applied	%	All Years	4.21%-5.85%

**Note: market rent assumed*

5.3. Shared Ownership - Valuation Approach

5.3.1. General

The Existing Borrower has 1,341 properties subject to Shared Ownership leases within the Portfolio of Properties. They retain around 58% of the equity in their units, overall. Please see **Appendix 1** for details of such properties, shares held and rental income produced.

5.3.2. Valuation Approach

Shared Ownership property produces a rental income dependant on the percentage owned by the leaseholder and the percentage retained by the lessee. As leaseholders have a stake in the property, arrears and default are comparatively rare and landlords can retrieve management costs. Maintenance does not erode rental income as the leaseholder is responsible.

Shared Ownership property thus produces good quality, low risk rental income on the share retained. In addition capital receipts can arise on the occurrence of default or when the leaseholder decides to acquire the whole or a portion of the remaining equity. This usually happens when they decide to sell and move on.

We use a discounted cashflow model designed for the valuation of Shared Ownership property which projects future rent and outgoings to arrive at a net present value. This cashflow can be tested with a variety of staircasing and default scenarios.

In this case we have assumed that the Existing Borrower recoups all service costs through service charges and that management income and the management charge equals the management expenditure. We have applied discount rates of 4.75%-5.25% real reflecting the very secure nature of Shared Ownership income.

5.3.3. Shared Ownership Valuations Principal DCF Assumptions

Our principal valuation assumptions are as follows:

Table 14: Shared Ownership Assumptions

Variable	Unit of Cost	Year	Variable Amount
Discount rate	%	Year 1	4.75%-5.25%
Average rent	£ pw, 100% before adjustments for share	Current	£126.78
Management cost	£ pu pa	All Years	£100-£150
MV-VP	£ average	Current	£273,000

5.4. Valuation Considerations

5.4.1. Housing and Planning Act 2016

The Housing and Planning Act 2016 contained proposals to deregulate the housing sector which will give much greater freedom to housing providers to dispose of and manage their property assets. The deregulation provisions came into effect on 6 April 2017. As a result s.133 of the Housing Act 1988, which requires consent to be obtained prior to disposal of transferred property, is no longer effective. Valuations of LSVT stock after April 2017 can be undertaken on a Market Value basis where lenders requirements and legal title permit. In this valuation the LSVT stock has been valued on the EUV-SH basis.

6. Valuations

6.1. Valuations

6.2. Valuation of Freehold and Leasehold Property that may be disposed at MV-STT (£)

Properties that may be disposed of by a mortgagee in possession at MV-STT, that is on an unfettered basis (meaning subject to existing tenancies but otherwise with vacant possession and not subject to any security interest, option or other encumbrance or to any restriction preventing its sale to, or use by, any person for residential use) as referred to in paragraph **1.2** above.

Our opinion of value, in aggregate, of the 8,647 dwellings as mentioned at **1.2** above, on the basis of

- Market Value – Subject to Tenancies (MV-STT) is **£2,193,399,000 (two billion, one hundred and ninety three million, three hundred and ninety nine thousand pounds)**

Table 15: Valuation of Freehold and Leasehold Property that may be disposed at MV-STT (£)

Tenure Type	Number of Dwellings	Market Value – Subject to Tenancies (MV-STT) £	Equivalent Existing Use Value – Social Housing (EUV-SH) £
Freehold	8,118	£2,062,603,000	£581,721,000
Leasehold	529	£130,796,000	£59,172,000

6.3. Valuation of Freehold and Leasehold Property that may be disposed at EUV-SH (£)

Our opinion of value, in aggregate, of the 22,780 rented dwellings and retained equity in shared ownership dwellings as mentioned at **1.3** above, on the basis of

- Existing Use for Social Housing is **£1,303,009,000 (one billion, three hundred and three million and nine thousand pounds)**

Table 16: Valuation of Freehold and Leasehold Property that may be only by disposed at EUV-SH

Tenure Type	Number of Dwellings	Existing Use Value – Social Housing (EUV-SH) £
Freehold	22,318	£1,264,162,000
Leasehold	462	£38,847,000

There are 2,654 properties which have been ascribed a nil value.

A full stock schedule with apportioned values is included at **Appendix 1.**

6.4. Lending Against MV-STT

With reference to **paragraph 6** on Tenure, it is essential that before lending on MV-STT the lender confirms that the development or valuation group is capable of being let at a Market Rent, or disposed of free from restrictions, should the lender take possession. If there are enforceable "Housing Restrictions" in title, planning approval, s.106 agreements or by separate Nomination agreements, that, for example, limit disposal to RPs only or binding contractual nominations then the correct relevant valuation basis is EUV-SH and not MV-STT.

We must also stress that it is up to investors to assess the terms of the Bonds and the amount of lending based on the valuations herein. We have set out the current rental income at **Appendix 1** but make no warranty that the current income is sufficient to support lending against MV-STT either on individual valuation groups or against the whole portfolio.
