yield-to-maturity/yield

All information based on settled investments only i.e. excluding pending transactions.

- Average life is the weighted average of the times of the principal repayments. 2
- 3. Average maturity is the average date on which the final payment is due on a loan. 4. Modified duration is the ratio of percentage increase in price to decrease in yield.
- Inclusive of interest rate swaps.
- 5
- For the twelve months ending 31 March 2025. The OCR is calculated in line with AIC guidance and will differ from the PRIIP's OCR 6 as defined under the PRIIPs regulation due to borrowing costs being included under PRIIPs and as disclosed in the KID document which is available on the Company's website.

SEQI's Sustainability Policy, Sustainability Report and other publications are available on the Company's website
