[Support System for Outside Directors (Outside Corporate Auditors)]

Full-time Corporate Auditors and Directors disclose adequate information to Outside Corporate Auditors, such as by giving prior explanations on agenda to be proposed to the

Board of Directors. In addition, a Corporate Auditors Department has been established as a specialized independent organization to assist the Corporate Auditors.

2. Matters pertaining to functions relating to the execution of duties, audit and supervision, appointment and decisions regarding remuneration, etc.

TMC introduced the current management system in 2003. Main differences from the previous system are the establishment of the new position of non-board “Managing Officers” and the decrease in the number of Directors. In the current system, generally “Senior Managing Directors” serve as the highest authorities and “Managing Officers” perform practical business in TMC’s various operational functions. A distinctive feature of the system is that “Senior Managing Directors” do not focus exclusively on management, but they also serve as a link between the management and on-site operations, under the view to maintain an emphasis on developments on the site, which is one of TMC’s perennial strengths. As a result, business decision directly connected with actual operations can be made through incorporating feedback from frontline operations to overall management strategy and reflecting management decisions swiftly in operations.

TMC has an “International Advisory Board” consisting of advisors from overseas, and receives advice on a wide range of management issues from a global perspective. In addition, TMC has a wide variety of conferences and committees for deliberations and the monitoring of management and corporate activities that reflect the views of various stakeholders, including the “Labor-Management Council, the Joint Labor-Management Round Table Conference”, the “Toyota Environment Committee” and the “Stock Option Committee”.

In order to manage and implement important activities for fulfilling social responsibilities, TMC has established the “CSR Committee” consisting of directors at the executive vice president level and above as well as representatives of corporate auditors, to review important issues relating to corporate ethics, legal compliance, risk management and social contribution, and also to develop action plans concerning these issues. TMC has also created a number of facilities for employees to make inquiries concerning compliance matters, including the Compliance Hotline, which enables them to consult with an outside attorney, and takes measures to ensure that TMC is aware of significant information concerning legal compliance as quickly as possible. TMC will continue to promote the “Toyota Code of Conduct” which is a guideline for employees’ behavior and conduct for employees of TMC and its consolidated subsidiaries (together “Toyota”) all around the world. TMC will work to advance corporate ethics through training and education at all levels and in all departments.

TMC has adopted an auditor system. Seven Corporate Auditors including four Outside Corporate Auditors play a role in TMC’s corporate governance efforts by undertaking audits in accordance with the audit policies and plans determined by the Board of Corporate Auditors. In addition, TMC has secured the personnel and framework supporting the audit by Corporate Auditors. The Outside Corporate Auditors advise TMC from a fair and neutral perspective, based on their broad experiences and insight in their respective field of expertise. The state of internal controls and internal audit are reported to Corporate Auditors (including Outside Corporate Auditors) through the Board of Corporate Auditors and the “CSR Committee”, and the status of accounting audits is reported by independent External Auditors to the Corporate Auditors (including Outside Corporate Auditors) through the Board of Corporate Auditors. To enhance the system for internal audit, the management and a specialized independent organization evaluate the effectiveness of internal controls over financial reporting in accordance with Section 404 of the U.S. Sarbanes-Oxley Act from the year ended March 31, 2007 and the system to secure the appropriateness of documents regarding financial calculation and other information in accordance with Article 24-4-4 (1) of the Financial Instruments and Exchange Law of Japan from the year ended March 31, 2009. In order to enhance the reliability of the financial reporting of TMC, the three auditing functions, audit by Corporate Auditors, internal audit, and accounting audit by Independent External Auditors, aid in conducting an effective and efficient audit through meetings held periodically and as

necessary to share information and come to understandings through discussion on audit plans and results.

Promotion of environmental preservation activities and CSR activities	TMC has long engaged in business with the idea of corporate social responsibility ("CSR") in mind. This idea is clarified in the CSR Policy "Contribution towards Sustainable Development", and it clearly conveys TMC's basic policies concerning CSR to both internal and external stakeholders. Regarding the environment, TMC has positioned it as a top management priority and adopted the "Toyota Earth Charter" in 1992. TMC created "Toyota Environmental Action Plan" that sets forth mid-term targets and action plans on a global basis, and promotes continuous environmental preservation activities. As for philanthropic activities, TMC newly adopted "Basic Philosophy and Policy on Philanthropic Activities" in 2005 in light of the global expansion of its business and the increasing societal expectations towards Toyota. TMC vigorously promotes philanthropic activities according to local conditions in each country and region in order to contribute to the development of a prosperous society and to promote its continuous development. These CSR activities are disclosed in the report titled "Sustainability Report".
Establishment of policy concerning disclosure of information to stakeholders	TMC has engaged in timely and fair disclosure of corporate and financial information as stated in the CSR Policy "Contribution towards Sustainable Development". In order to ensure the accurate, fair, and timely disclosure of information, TMC has established the Disclosure Committee chaired by an officer of the Accounting Division. Company Structure and Procedures Regarding Timely Disclosure

(Guiding Principles)

Toyota practices its guiding principle of disclosing operating results, business and financial information in a timely and appropriate manner. Such guiding principles are set forth in “Contribution towards Sustainable Development” which explains the “Guiding Principles at Toyota.”

(Disclosure Committee and its Purpose)

Toyota has established a Disclosure Committee that is chaired by the officer responsible for the accounting division in an effort to ensure that the information disclosed is accurate, fair and timely.

The Disclosure Committee meets periodically to draft, report and assess annual and quarterly reports prepared pursuant to the Japanese Financial Instruments and Exchange Act, and annual reports prepared pursuant to the U.S. Securities Exchange Act of 1934, as amended. The Disclosure Committee also holds meetings on an ad hoc basis as necessary.

(Procedures of the Disclosure Committee)

The Disclosure Committee performs the following procedures:

(1) Collection of information

Collect information of Toyota and its subsidiaries that may be subject to disclosure based on the materiality standards set forth by the Disclosure Committee through periodic and timely communications with the heads of the relevant divisions responsible for information disclosure.

(2) Assessment of material information to be disclosed

Assess disclosure of collected information based on applicable laws, regulations and guidelines, such as stock exchange rules and the Japanese Financial Instruments and Exchange Act.

(3) Disclosure based on assessment

Based on the assessment made above, disclose information in a timely manner. When necessary, a report to the company representative and certification procedures on the disclosure documents will precede the disclosure. The corporate auditors (or the board of corporate auditors) may receive reports from the Disclosure Committee as necessary and may provide opportunities for reporting and Q & A sessions with company representatives.

(4) Ensuring of appropriate information collection and disclosure procedures

Make further efforts to enhance the company structure pertaining to timely and fair disclosure: the internal auditing division assesses the overall information disclosure process, and independent outside auditors and outside legal counsel provide support in establishing disclosure controls and procedures, and offer guidance on the sufficiency and appropriateness of the disclosure information.

(5) Provision of company regulation

Details of the procedures and the organizational structure mentioned above are stipulated in the Company’s internal disclosure guidelines.
