

IMPORTANT NOTICE

THIS OFFERING CIRCULAR (AS DEFINED BELOW) IS AVAILABLE ONLY TO INVESTORS WHO ARE EITHER (1) QIBs (AS DEFINED BELOW) UNDER RULE 144A UNDER THE SECURITIES ACT (AS DEFINED BELOW), (2) INSTITUTIONAL ACCREDITED INVESTORS (AS DEFINED BELOW) OR (3) ADDRESSEES WHO ARE PURCHASING THE NOTES OUTSIDE THE UNITED STATES IN AN OFFSHORE TRANSACTION IN RELIANCE ON REGULATION S UNDER THE SECURITIES ACT AND, IN CERTAIN CIRCUMSTANCES, ARE NON-U.S. PERSONS (AS DEFINED BELOW).

IMPORTANT: You must read the following before continuing. The following applies to the offering circular (the **Offering Circular**) following this page, and you are therefore advised to read this carefully before reading, accessing or making any other use of the Offering Circular. In accessing the Offering Circular, you agree to be bound by the following terms and conditions, including any modifications to them any time you receive any information from us as a result of such access.

NOTHING IN THIS ELECTRONIC TRANSMISSION CONSTITUTES AN OFFER OF SECURITIES FOR SALE IN THE UNITED STATES OR ANY OTHER JURISDICTION WHERE IT IS UNLAWFUL TO DO SO. THE SECURITIES HAVE NOT BEEN, AND WILL NOT BE, REGISTERED UNDER THE U.S. SECURITIES ACT OF 1933, AS AMENDED (THE **SECURITIES ACT**), OR THE SECURITIES LAWS OF ANY STATE OF THE U.S. OR OTHER JURISDICTION AND THE SECURITIES MAY NOT BE OFFERED OR SOLD WITHIN THE UNITED STATES OR, IN CERTAIN CIRCUMSTANCES, TO, OR FOR THE ACCOUNT OR BENEFIT OF, U.S. PERSONS (AS DEFINED IN REGULATION S UNDER THE SECURITIES ACT), EXCEPT PURSUANT TO AN EXEMPTION FROM, OR IN A TRANSACTION NOT SUBJECT TO, THE REGISTRATION REQUIREMENTS OF THE SECURITIES ACT AND APPLICABLE STATE OR LOCAL SECURITIES LAWS.

THE OFFERING CIRCULAR MAY NOT BE FORWARDED OR DISTRIBUTED TO ANY OTHER PERSON AND MAY NOT BE REPRODUCED IN ANY MANNER WHATSOEVER, AND IN PARTICULAR, MAY NOT BE FORWARDED TO ANY U.S. ADDRESS OR, IN CERTAIN CIRCUMSTANCES, TO ANY U.S. PERSON. ANY FORWARDING, DISTRIBUTION OR REPRODUCTION OF THIS DOCUMENT IN WHOLE OR IN PART IS UNAUTHORIZED. FAILURE TO COMPLY WITH THIS DIRECTIVE MAY RESULT IN A VIOLATION OF THE SECURITIES ACT OR THE APPLICABLE LAWS OF OTHER JURISDICTIONS.

Confirmation of your Representation: In order to be eligible to view the Offering Circular or make an investment decision with respect to the securities, investors must be either (1) qualified institutional buyers (**QIBs**) (within the meaning of Rule 144A under the Securities Act), (2) “accredited investors” (as defined in Rule 501(a)(1), (2), (3) or (7) under the Securities Act) that are institutions (**Institutional Accredited Investors**) who agree to purchase the Notes for their own account and not with a view to the distribution thereof or (3) addressees who are eligible to purchase the securities outside the United States in an offshore transaction in reliance on Regulation S under the Securities Act (**Regulation S**) and, in certain circumstances, are non-U.S. persons as defined under Regulation S. By accepting the e-mail and accessing the Offering Circular, you shall be deemed to have represented to us that (1) you and any customers you represent are either (a) QIBs, (b) Institutional Accredited Investors or (c) addressees who are eligible to purchase the securities outside the United States in an offshore transaction in reliance on Regulation S under the Securities Act (**Regulation S**) and, in certain circumstances, are non-U.S. persons as defined under Regulation S, and that the electronic mail address that you gave us and to which this e-mail has been delivered is not located in the United States and (2) you consent to delivery of such Offering Circular and any amendments or supplements thereto by electronic transmission.

You are reminded that the Offering Circular has been delivered to you on the basis that you are a person into whose possession the Offering Circular may be lawfully delivered in accordance with the laws of jurisdiction in which you are located and you may not, nor are you authorized to, deliver the Offering Circular to any other person.

The materials relating to any offering of securities described in the Offering Circular do not constitute, and may not be used in connection with, an offer or solicitation in any place where offers or solicitations are not permitted by law. If a jurisdiction requires that the offering be made by a licensed broker or dealer and the underwriters or any affiliate of the underwriters is a licensed broker or dealer in that jurisdiction, the offering shall be deemed to be made by the underwriters or such affiliate on behalf of our Company (as defined in the Offering Circular) in such jurisdiction.

The Offering Circular has been sent to you in an electronic form. You are reminded that documents transmitted via this medium may be altered or changed during the process of electronic transmission and consequently the Dealers (as defined in the Offering Circular), nor any person who controls each of them nor any director, officer, employee nor agent of each of them or affiliate of any such person, do not accept any liability or responsibility whatsoever in respect of any difference between the Offering Circular distributed to you in electronic format and the hard copy version available to you on request from the Dealers.

The Offering Circular has not been and will not be registered, produced or made available to all as an offer document (whether a prospectus in respect of a public offer or an information memorandum or private placement offer letter or other offering material in respect of any private placement or public issue under the Companies Act, 2013, as amended from time to time, or any other applicable Indian securities laws) with any Registrar of Companies of India or the Securities and Exchange Board of India or the Reserve Bank of India or any other statutory, regulatory body or adjudicatory of like nature in India.

In addition, holders and beneficial owners shall be responsible for compliance with restrictions on the ownership of the Rupee Denominated Notes imposed from time to time by applicable laws or any regulatory authority or otherwise. In this context, holders and beneficial owners of Rupee Denominated Notes shall be deemed to have acknowledged, represented and agreed that

such holders and beneficial owners are eligible to purchase the Rupee Denominated Notes under applicable laws and regulations and are not prohibited under any applicable law or regulation from acquiring, owning or selling the Rupee Denominated Notes. Potential investors should seek independent advice and verify compliance with Financial Action Task Force (**FATF**) and the International Organization of Securities Commission's (**IOSCO**) requirements prior to any purchase of the Rupee Denominated Notes. Multilateral financial institutions and regional financial institutions from FATF compliant countries can purchase Rupee Denominated Notes.

The holders and beneficial owners of Rupee Denominated Notes shall be deemed to confirm that for so long as they hold any Rupee Denominated Notes, they will meet the FATF and IOSCO requirements in all respects. Foreign branches or subsidiaries of Indian banks, subject to applicable prudential norms, can participate as arrangers, underwriters, market-makers or traders for Rupee Denominated Notes. However, underwriting by foreign branches or subsidiaries of Indian banks for issuances by Indian banks will not be allowed as per the ECB Guidelines.

You are responsible for protecting against viruses and other destructive items. Your use of this e-mail is at your own risk and it is your responsibility to take precautions to ensure that it is free from viruses and other items of a destructive nature.

OFFERING CIRCULAR

REC Limited (incorporated with limited liability in the Republic of India)

U.S.\$7,000,000,000 Global Medium Term Note Programme

Under this U.S.\$ 7,000,000,000 Global Medium Term Note Programme (the **Programme**), REC Limited (our **Company**, the **Company** or the **Issuer**) may from time to time issue notes (the **Notes**) denominated in any currency agreed between us and the relevant Dealer (as defined below).

Notes may be issued in bearer or registered form (respectively, **Bearer Notes** and **Registered Notes**). The maximum aggregate nominal amount of all Notes from time to time outstanding under the Programme will not exceed U.S.\$ 7,000,000,000 (or its equivalent in other currencies calculated as described herein), subject to increase as described herein.

The Notes may be issued on a continuing basis to one or more of the Dealers specified under “*Summary of the Programme*” and any additional Dealer appointed under the Programme from time to time by us (each a **Dealer** and together the **Dealers**), which appointment may be for a specific issue or on an on-going basis. References in this Offering Circular to the **relevant Dealer** shall, in the case of an issue of Notes being (or intended to be) subscribed by more than one Dealer, be to all Dealers agreeing to subscribe to such Notes.

Application has been made to the Singapore Exchange Securities Trading Limited (the **SGX-ST**) for permission to deal in and quotation for any Notes that may be issued pursuant to the Programme and which are agreed at or prior to the time of issue thereof to be so listed on the SGX-ST. Such permission will be granted when such Notes have been admitted to the Official List of the SGX-ST (the **Official List**). The SGX-ST assumes no responsibility for the correctness of any of the statements made or opinions expressed or reports contained herein. Admission to the Official List and quotation of any Notes on the SGX-ST are not to be taken as an indication of the merits of our Company, our subsidiaries, our associated companies, the Programme or such Notes. Notice of the aggregate nominal amount of Notes, interest (if any) payable in respect of Notes, the issue price of Notes and any other terms and conditions not contained herein which are applicable to each Tranche (as defined under “*Terms and Conditions of the Notes*”) of Notes will be set out in a pricing supplement (the **Pricing Supplement**) which, with respect to Notes to be listed on the SGX-ST, will be delivered to the SGX-ST on or before the date of issue of the Notes of such Tranche.

Application has been made to the London Stock Exchange for the Notes to be admitted to the London Stock Exchange’s International Securities Market (**ISM**). The ISM is not a regulated market for the purposes of Directive 2014/65/EU. **International Securities Market is a market designated for professional investors. Securities admitted to trading on International Securities Market are not admitted to the Official List of the UKLA. London Stock Exchange has not approved or verified the contents of this Offering Circular.**

Application has been made to the Global Securities Market (GSM) of the India International Exchange IFSC Limited (the **India INX**) for the Notes to be admitted for trading on the India INX. **The India INX has not approved or verified the contents of the listing particulars.**

Application has been made to the NSE IFSC Limited (the **NSE IFSC**) for the Notes to be admitted for trading on the NSE IFSC. **The NSE IFSC has not approved or verified the contents of the listing particulars.**

The Programme provides that Notes may be listed on such other or further stock exchange(s) as may be agreed between us and the relevant Dealer. We may also issue unlisted Notes.

We may agree with any Dealer and the Principal Paying Agent (as defined herein) that Notes may be issued in a form not contemplated by the Terms and Conditions of the Notes herein, in which event (in the case of Notes intended to be listed on the SGX-ST, the India INX, and the NSE IFSC) a supplementary Offering Circular, if appropriate, will be made available which will describe the effect of the agreement reached in relation to such Notes.

See “**Risk Factors**” for a discussion of certain factors to be considered in connection with an investment in the Notes.

Notes to be listed on the SGX-ST, the ISM, the India INX and the NSE IFSC will be accepted for clearance through Euroclear Bank SA/NV (**Euroclear**) and/or Clearstream Banking S.A. (**Clearstream, Luxembourg**) and/or The Depository Trust Company (**DTC**).

Each Tranche of Bearer Notes of each series (as defined in “*Form of the Notes*”) will initially be represented by either a temporary bearer global note (a **Temporary Bearer Global Note**) or a permanent bearer global note (a **Permanent Bearer Global Note** and, together with a Temporary Bearer Global Note, the **Bearer Global Notes**, and each a **Bearer Global Note**) as indicated in the applicable Pricing Supplement, which, in either case, will be delivered on or prior to the original issue date of the Tranche to a common depository (the **Common Depository**) for Euroclear and Clearstream, Luxembourg.

On and after the date (the **Exchange Date**) which, for each Tranche in respect of which a Temporary Bearer Global Note is issued, is 40 days after the Temporary Bearer Global Note is issued, interests in such Temporary Bearer Global Note will be exchangeable (free of charge) upon a request as described therein either for (i) interests in a Permanent Bearer Global Note of the same Series or (ii) definitive Bearer Notes of the same Series.

The applicable Pricing Supplement will specify that a Permanent Bearer Global Note will be exchangeable for definitive Bearer Notes in certain limited circumstances.

Registered Notes sold in an “offshore transaction” within the meaning of Regulation S (**Regulation S**) under the U.S. Securities Act of 1933, as amended (the **Securities Act**), which will be sold outside the United States (the **U.S.**) and, in certain circumstances, only to non-U.S. persons (as defined in Regulation S), will initially be represented by a global note in registered form, without receipts or coupons, (a **Regulations S Global Note**) and Registered Notes sold in the U.S. to qualified institutional buyers (**QIBs**) (within the meaning of Rule 144A under the Securities Act (**Rule 144A**)) in transactions exempt from registration in reliance on Rule 144A will be represented by a global note in registered form, without receipts or interest coupons (a **Rule 144A Global Note** and, together with a Regulation S Global Note, the **Registered Global Notes**, and each a **Registered Global Note**) and, in each case, deposited with a common depository for Euroclear and Clearstream, Luxembourg, and registered in the name of a nominee of such common depository, or deposited with a custodian for, and registered in the name of, a nominee of DTC.

Registered Notes sold to Institutional Accredited Investors pursuant to Section 4(a)(2) under the Securities Act will be in definitive form, registered in the name of the holder thereof (**Definitive IAI Registered Notes**). Institutional Accredited Investors that hold Definitive IAI Registered Notes may not elect to hold such Notes through DTC, Euroclear or Clearstream, Luxembourg, but transferees acquiring such Notes in transactions exempt from Securities Act registration pursuant to Regulation S or Rule 144A under the Securities Act (if available) may do so upon satisfaction of the requirements applicable to such transfer as described under “*Subscription and Sale*” and “*Transfer Restrictions*”.

This Offering Circular has not been and will not be registered, produced or published as an offer document (whether as a prospectus or a statement in lieu of a prospectus in respect of a public offer, or an information memorandum or private placement offer letter or any other offering material in respect of a private placement in accordance with the Companies Act, 2013, as amended from time to time, and the rules thereunder or any other applicable Indian laws for the time being in force.) with the Registrar of Companies in India (**RoC**), the Securities and Exchange Board of India (**SEBI**), the Reserve Bank of India (**RBI**), any Indian stock exchange or any other statutory or regulatory body of like nature in India, except for any information which is mandatorily required to be disclosed or filed in India under any applicable Indian laws, including, but not limited to, the Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations 2015, as amended from time to time, and under the listing agreement with any Indian stock exchange pursuant to the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations 2015, as amended from time to time, or pursuant to the directives of any regulatory, statutory and adjudicatory body in India. This Offering Circular has not been and will not be reviewed or approved by any statutory or regulatory authority in India, including, but not limited to SEBI, any Registrar of Companies, the RBI or any stock exchange in India. This Offering Circular and any other offering document or material relating to the Notes are not and should not be construed as an advertisement, invitation, offer, sale or solicitation of an offer to subscribe for or purchase of any securities whether to the public or by way of private placement to any person or the public in India. The Notes have not been and will not be, offered or sold to any person other than to persons permitted to acquire the Notes under Indian law, whether as principal or agent. If you purchase any of the Notes, you will be deemed to have acknowledged, represented and agreed that you are eligible to purchase the Notes under applicable laws and regulations and that you are not prohibited under any applicable law or regulation from acquiring, owning or selling the Notes. See “*Subscription and Sale*”.

The Notes have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the **Securities Act**) or with any securities regulatory authority of any state or other jurisdiction of the United States and are subject to U.S. tax law requirements. The Notes may not be offered, sold or delivered within the United States or, in certain circumstances, to U.S. persons (as defined in Regulation S under the Securities Act (**Regulation S**)) except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state securities laws. See "*Form of the Notes*" for a description of the manner in which Notes will be issued. Registered Notes are subject to certain restrictions on transfer, see "*Subscription and Sale*" and "*Transfer Restrictions*".

Arrangers and Dealers

**Standard Chartered
Bank**

The date of this Offering Circular is April 20, 2021.

We accept responsibility for the information contained in this Offering Circular. Having taken all reasonable care to ensure that such is the case, the information contained in this Offering Circular is, to the best of our knowledge, in accordance with the facts and contains no omission likely to affect its import. We, having made all reasonable enquiries, confirm that this Offering Circular contains or incorporates all information which is material in the context of the Programme and the Notes, that the information contained or incorporated in this Offering Circular is true and accurate in all material respects and is not misleading, that the opinions and intentions expressed in this Offering Circular are honestly held and that there are no other facts the omission of which would make this Offering Circular or any of such information or the expression of any such opinions or intentions misleading. We accept responsibility accordingly.

No person is or has been authorized by us to give any information or to make any representation other than those contained in this Offering Circular or any other information supplied in connection with the Programme or the Notes and, if given or made by any other person, such information or representations must not be relied upon as having been authorized by us, the Arrangers, the Dealers or the Principal Paying Agent.

Neither the Arrangers, the Dealers nor the Principal Paying Agent (as defined herein) has separately verified the information contained herein. Accordingly, no representation, warranty or undertaking, express or implied, is made and, to the fullest extent permitted by law, no responsibility or liability is accepted by the Arrangers or the Dealers, the Principal Paying Agent or any of them as to the accuracy or completeness of the information contained or incorporated in this Offering Circular, or for any other statement, made or purported to be made by the Arrangers or the Dealers or on their behalf in connection with us or the Programme or any other information provided by us in connection with the Programme. The Arrangers, the Dealers and the Principal Paying Agent accordingly disclaim all and any liability whether arising in tort or contract or otherwise (save as referred to above) which they might otherwise have in respect of this Offering Circular or any such statement.

Neither this Offering Circular nor any other information supplied in connection with the Programme or any Notes (i) is intended to provide the basis of any credit or other evaluation or (ii) should be considered as a recommendation by us, the Arrangers or the Dealers or the Principal Paying Agent that any recipient of this Offering Circular or any other information supplied in connection with the Programme or any Notes should purchase any of the Notes. Each investor contemplating purchasing Notes should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of us. Neither this Offering Circular nor any other information supplied in connection with the Programme or the issue of any Notes constitutes an offer or invitation by or on behalf of our Company, the Arrangers or the Dealers or the Principal Paying Agent to any person to subscribe for or to purchase any Notes.

Neither the delivery of this Offering Circular nor the offering, sale or delivery of any Notes shall in any circumstances imply that the information contained herein concerning us is correct at any time subsequent to the date hereof or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date indicated in the document containing the same. The Arrangers, the Dealers and the Principal Paying Agent expressly do not undertake to review the financial condition or affairs of our Company during the life of the Programme or to advise any investor in the Notes of any information coming to their attention. Investors should review, *inter alia*, the most recently published documents incorporated by reference into this Offering Circular when deciding whether or not to purchase any Notes.

MiFID II product governance/target market – The Pricing Supplement in respect of any Notes may include a legend entitled “MiFID II Product Governance”, which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a **distributor**) should take into

consideration the target market assessment; however, a distributor subject to Directive 2014/65/EU (as amended, **MiFID II**) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the **MiFID Product Governance Rules**), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arrangers nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

UK MiFIR product governance / target market – The Pricing Supplement in respect of any Notes may include a legend entitled “UK MiFIR Product Governance” which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a **distributor**) should take into consideration the target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the **UK MiFIR Product Governance Rules**) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arrangers nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

IMPORTANT – EEA RETAIL INVESTORS – If the Pricing Supplement in respect of any Notes includes a legend entitled “Prohibition of Sales to EEA Retail Investors”, the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (**EEA**). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, **MiFID II**); or (ii) a customer within the meaning of Directive (EU) 2016/97 (the **Insurance Distribution Directive**), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (the **Prospectus Regulation**). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the **PRIIPs Regulation**) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

IMPORTANT – UK RETAIL INVESTORS – If the Pricing Supplement in respect of any Notes includes a legend entitled “Prohibition of Sales to UK Retail Investors”, the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (**UK**). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (**EUWA**); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (the **FSMA**) and any rules or regulations made under the FSMA to implement the Insurance Distribution Directive, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of the Prospectus Regulation as it forms part of domestic law by virtue of the EUWA (the **UK Prospectus Regulation**). Consequently no key information document required by the PRIIPs Regulation as it forms part of domestic law by virtue of the EUWA (the **UK PRIIPs Regulation**) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes

or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

This Offering Circular does not constitute an offer to sell or the solicitation of an offer to buy any Notes in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Offering Circular and the offer or sale of Notes may be restricted by law in certain jurisdictions. Our Company, the Arrangers, the Dealers and the Principal Paying Agent do not represent that this Offering Circular may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by our Company, the Arrangers, the Dealers or the Principal Paying Agent which would permit a public offering of any Notes or distribution of this Offering Circular in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Offering Circular nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Offering Circular or any Notes may come must inform themselves about, and observe, any such restrictions on the distribution of this Offering Circular and the offering and sale of Notes. In particular, there are restrictions on the distribution of this Offering Circular and the offer or sale of Notes in the United States, the European Economic Area (including, for these purposes, the United Kingdom and Italy), India, Singapore, Japan and Hong Kong, see “*Subscription and Sale*” and “*Transfer Restrictions*”.

None of our Company, the Arrangers, the Dealers and the Principal Paying Agent makes any representation to any investor in the Notes regarding the legality of its investment under any applicable laws. Any investor in the Notes should be able to bear the economic risk of an investment in the Notes for an indefinite period of time.

U.S. INFORMATION

This Offering Circular is being submitted on a confidential basis in the United States to a limited number of QIBs and Institutional Accredited Investors (IAIs) for informational use solely in connection with the consideration of the purchase of certain Notes issued under the Programme. Its use for any other purpose in the United States is not authorized. It may not be copied or reproduced in whole or in part nor may it be distributed or any of its contents disclosed to anyone other than the prospective investors to whom it is originally submitted.

The Notes in bearer form are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to United States persons, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code and the regulations promulgated thereunder.

Registered Notes may be offered or sold within the United States only to QIBs or to Institutional Accredited Investors, in either case in transactions exempt from registration under the Securities Act in reliance on Rule 144A or any other applicable exemption. Each U.S. purchaser of Registered Notes is hereby notified that the offer and sale of any Registered Notes to it may be being made in reliance upon the exemption from the registration requirements of Section 5 of the Securities Act provided by Rule 144A.

Purchasers of Definitive IAI Registered Notes will be required to execute and deliver an IAI Investment Letter (as defined under “*Terms and Conditions of the Notes*”). Each purchaser or holder of Definitive IAI Registered Notes, Notes represented by a Rule 144A Global Note or any Notes issued in registered form in exchange or substitution therefor (together **Legended Notes**) will be deemed, by its acceptance

or purchase of any such Legended Notes, to have made certain representations and agreements intended to restrict the resale or other transfer of such Notes as set out in “*Subscription and Sale*” and “*Transfer Restrictions*”. Unless otherwise stated, terms used in this paragraph have the meanings given to them in “*Form of the Notes*”.

The Notes have not been approved or disapproved by the United States Securities and Exchange Commission or any other securities commission or other regulatory authority in the United States, nor have the foregoing authorities approved this Offering Circular or confirmed the accuracy or determined the adequacy of the information contained in this Offering Circular. Any representation to the contrary is unlawful.

AVAILABLE INFORMATION

To permit compliance with Rule 144A in connection with any resales or other transfers of Notes that are “restricted securities” within the meaning of the Securities Act, we will furnish, upon the request of a holder of such Notes or any beneficial interest therein, to such holder or to a prospective purchaser designated by him, the information required to be delivered under Rule 144A(d)(4) under the Securities Act if, at the time of the request, any of the Notes remain outstanding as “restricted securities” within the meaning of Rule 144(a)(3) of the Securities Act and we are neither a reporting company under Section 13 or 15(d) of the U.S. Securities Exchange Act of 1934, as amended, (the **Exchange Act**) nor exempt from reporting pursuant to Rule 12g3-2(b) thereunder.

STABILIZATION

In connection with the issue of any Tranche of Notes, the Dealer or Dealers (if any) named as the Stabilization Manager(s) (or persons acting on behalf of any Stabilization Manager(s)) in the applicable Pricing Supplement may over-allot or effect transactions with a view to supporting the market price of the Notes of the Series (as defined below) of which such Tranche forms part at a level higher than that which might otherwise prevail. However, stabilization may not necessarily occur. Any stabilization action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilization action or over-allotment must be conducted by the relevant Stabilization Manager(s) (or persons acting on behalf of any Stabilization Manager(s)) in accordance with all applicable laws and rules.

SERVICE OF PROCESS AND ENFORCEMENT OF CIVIL LIABILITIES

Our Company is a limited liability public company incorporated under the laws of the Republic of India (**India**). All of our directors and executive officers named herein reside outside the United States and all or a substantial portion of our assets and of such officers and directors are located outside the United States. As a result, it may not be possible for investors to effect service of process outside India upon us or such persons, or to enforce judgments against them obtained in courts outside India predicated upon civil liabilities of our Company or such directors and executive officers under laws other than Indian law, including any judgment predicated upon United States federal securities laws. As indicated above, the enforcement of a decree solely based on United States federal securities laws may be carried out by filing a suit under Section 13 of the Code of Civil Procedure, as amended from time to time (the “**Civil Code**”). Under Indian law, foreign law has to be proven as a matter of fact before an Indian court. Accordingly, in the event that such action is filed, United States federal securities law will have to be proven as a matter of fact by expert witness. See “*Enforcement Of Foreign Judgments In India*”.

There are restrictions on the offer and sale of the Notes in the United Kingdom. All applicable provisions of the FSMA with respect to anything done by any person in relation to the Notes in, from or otherwise involving the United Kingdom must be complied with. See “*Subscription and Sale*”.

In connection with the offering of any series of Notes, each Dealer is acting or will act for us in connection with the offering and will not be responsible to anyone other than us for providing the protections afforded to clients of that Dealer nor for providing advice in relation to any such offering.

For a description of other restrictions, see “*Subscription and Sale*” and “*Transfer Restrictions*”.

Singapore SFA Product Classification: In connection with Section 309B of the Securities and Futures Act (Chapter 289) of Singapore (the **SFA**) and the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore (the **CAMP Regulations 2018**), unless otherwise specified before an offer of Notes, the Issuer has determined, and hereby notifies all relevant persons (as defined in Section 309A(1) of the SFA), that the Notes are ‘prescribed capital markets products’ (as defined in the CAMP Regulations 2018) and Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

The Offering Circular has not been and will not be registered, produced or made available to all as an offer document (whether a prospectus in respect of a public offer or an information memorandum or private placement offer letter or other offering material in respect of any private placement or public issue under the Companies Act, 2013 along with the rules framed thereunder, as amended from time to time, or any other applicable Indian laws) with any Registrar of Companies of India or the Securities and Exchange Board of India or the Reserve Bank of India or any other statutory, regulatory body or adjudicatory body of like nature in India.

Potential investors should seek independent advice and verify compliance with Financial Action Task Force (FATF) and the International Organisation of Securities Commission’s (IOSCO) requirements prior to any purchase of the Rupee Denominated Notes. Multilateral financial institutions and regional financial institutions from FATF compliant countries can purchase Rupee Denominated Notes.

In addition, holders and beneficial owners shall be responsible for compliance with restrictions on the ownership of the Rupee Denominated Notes imposed from time to time by applicable laws or by any regulatory authority or otherwise. In this context, holders and beneficial owners of Rupee Denominated Notes shall be deemed to have acknowledged, represented and agreed that such holders and beneficial owners are eligible to purchase the Rupee Denominated Notes under applicable laws and regulations and are not prohibited under any applicable law or regulation from acquiring, owning or selling the Rupee Denominated Notes.

The holders and beneficial owners of Rupee Denominated Notes shall be deemed to confirm that for so long as they hold any Rupee Denominated Notes, they will meet the FATF and IOSCO requirements in all respects. Foreign branches or subsidiaries of Indian banks, subject to applicable prudential norms, can participate as arrangers, underwriters, market-makers or traders for Rupee Denominated Notes. However, underwriting by foreign branches or subsidiaries of Indian banks for issuances by Indian banks will not be allowed as per ECB Guidelines.

PRESENTATION OF FINANCIAL AND OTHER INFORMATION

We maintain our financial books and records and prepare our financial statements in Rupees in accordance with the Companies (Indian Accounting Standards) Rules, 2015 (**Ind-AS**). Ind-AS differs in certain important respects from International Financial Reporting Standards (IFRS). For a discussion of the principal differences between Ind-AS and IFRS as they relate to us, see “*Summary of Significant Differences Between IFRS and Ind-AS*”. The consolidated financial statements for the years ended March 31, 2019 and 2020; and the non-consolidated financial statements for the nine months ended December 31, 2020, each as included in this Offering Circular have been audited or reviewed, as appropriate, by the auditors as set out in paragraph 10 of the section entitled “*General Information*”.

CERTAIN DEFINITIONS

In this Offering Circular, references to **India** are to the Republic of India, references to the **Government** or **GoI** are to the Government of India and references to the **RBI** are to the Reserve Bank of India. References to specific data applicable to particular subsidiaries or other consolidated entities are made by reference to the name of that particular entity. References to **Fiscal** or **Fiscal Year** are to the year ended March 31.

Unless the context otherwise indicates, all references to the **Issuer**, **REC**, **our Company** or **the Company** are to REC Limited on a non-consolidated basis.

Industry and market share data in this Offering Circular are derived from data prepared by the CEA which is the nodal government agency for planning, advising and monitoring the Indian power sector, the MoP, the Planning Commission of India and from industry publications. Industry publications generally state that the information contained in those publications has been obtained from sources believed to be reliable but that their accuracy and completeness are not guaranteed and their reliability cannot be assured. Although we believe that the industry data used in this Offering Circular is reliable and take responsibility for the accurate extraction of such data from publicly available sources, it has not been independently verified by us, the Arrangers, the Dealers or the Principal Paying Agent.

As used in this Offering Circular, the terms, **10th Plan**, **11th Plan**, **12th Plan** and **13th Plan** refer to the five-year plans of the Government, and mean the Tenth Five Year Plan covering the period fiscal 2002-2007, the Eleventh Five Year Plan covering the period fiscal 2007-2012, the Twelfth Five Year Plan covering the period 2012-2017 and the Thirteenth Five Year Plan covering the period 2017-2022, respectively.

All references in this Offering Circular to **U.S. dollars**, **U.S.\$** and **USD** refer to United States dollars, to **Rupee**, **Rupees**, **Rs.**, **INR** and **₹** refer to Indian Rupees and to **SGD** refers to Singapore dollars. In addition, references to **Sterling** refers to pounds sterling and to **euro**, **EUR** and **€** refer to the currency introduced at the start of the third stage of European economic and monetary union pursuant to the Treaty on the Functioning of the European Community, as amended.

References to **Lakhs** and **Crores** in our financial statements are to the following:

One lakh	100,000 (one hundred thousand)
One crore.....	10,000,000 (ten million)
Ten Crores	100,000,000 (one hundred million)
One hundred Crores.....	1,000,000,000 (one thousand million or one billion)

In this Offering Circular, where information has been presented in millions or billions of units, amounts may have been rounded, in the case of information presented in millions, to the nearest ten thousand or one hundred thousand units or, in the case of information presented in billions, one, ten or one hundred million units. Accordingly, the totals of columns or rows of numbers in tables may not be equal to the apparent total of the individual items and actual numbers may differ from those contained herein due to rounding.

FORWARD-LOOKING STATEMENTS

We have included statements in this Offering Circular which contain words or phrases such as “will”, “would”, “aimed”, “is likely”, “are likely”, “believe”, “expect”, “expected to”, “will continue”, “will achieve”, “anticipate”, “estimate”, “intend”, “plan”, “contemplate”, “seek to”, “seeking to”, “target”, “propose to”, “future”, “objective”, “goal”, “projected”, “should”, “can”, “could”, “may” and similar expressions or variations of such expressions, that are “forward-looking statements”. Actual results may differ materially from those suggested by the forward-looking statements due to certain risks or uncertainties associated with our expectations with respect to, but not limited to, regulatory changes relating to the power sector in India and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, including our ability to complete our capacity expansion plans, technological changes, our exposure to market risks, general economic and political conditions in India which have an impact on our business activities or investments, the monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic and foreign laws, regulations and taxes and changes in competition in our industry.

Any forward-looking statements contained in this Offering Circular speak only as at the date of this Offering Circular. Without prejudice to any requirements under applicable laws and regulations, we expressly disclaim any obligation or undertaking to disseminate after the date of this Offering Circular any updates or revisions to any forward-looking statements contained in it to reflect any change in expectations or any change in events, conditions or circumstances on which any such forward looking statement is based.

For a further discussion on the factors that could cause actual results to differ, see the discussion under “*Risk Factors*” contained in this Offering Circular.

ENFORCEMENT OF FOREIGN JUDGMENTS IN INDIA

Our Company is a limited liability public company incorporated under the laws of India. All of our directors and executive officers named herein are residents of India and all or a substantial portion of our assets and such persons are located in India. As a result, it may not be possible for investors to effect service of process on us or such persons in jurisdictions outside of India, or to enforce against them judgments obtained in courts outside of India including those predicated upon civil liabilities of our Company or such directors and executive officers under laws other than Indian law.

India is not a signatory to any international treaty in relation to the recognition or enforcement of foreign judgments. The statutory basis for recognition and enforcement of foreign judgments is provided for under section 13 and section 44A of the Indian Code of Civil Procedure, 1908 as amended (the **Civil Code**).

Section 13 of the Civil Code provides that a foreign judgment shall be conclusive as to any matter thereby directly adjudicated upon except: (i) where it has not been pronounced by a court of competent jurisdiction; (ii) where it has not been given on the merits of the case; (iii) where it appears on the face of the proceedings to be founded on an incorrect view of international law or a refusal to recognize the law of India in cases where such law is applicable; (iv) where the proceedings in which the judgment was obtained were opposed to natural justice; (v) where it has been obtained by fraud; or (vi) where it sustains a claim founded on a breach of any law in force in India.

Section 44A of the Civil Code provides that where a foreign judgment has been rendered by a superior court (as defined in such section) in any country or territory outside India which the GOI has by notification declared to be a reciprocating territory, it may be enforced in India by proceedings in execution as if the judgment had been rendered by the relevant court in India. Under the Civil Code, a court in India will upon the production of any document purporting to be a certified copy of a foreign judgment, presume that the judgment was pronounced by a court of competent jurisdiction, unless the contrary appears on record but such presumption may be displaced by proving want of jurisdiction. However, section 44A of the Civil Code is applicable only to monetary decrees not being in the nature of any amounts payable in respect of taxes or other charges of a like nature or in respect of a fine or other penalty and is not applicable to arbitration awards, even if such awards are enforceable as a decree or judgment.

The United Kingdom, Singapore, Hong Kong and United Arab Emirates have been declared by the GOI to be a reciprocating territory and the High Courts in England as the relevant superior courts for the purposes of section 44A of the Civil Code. Accordingly, a judgment of a superior court in the United Kingdom may be enforceable by proceedings in execution, and a judgment not of a superior court, by a new suit resulting in a judgment or order. The United States has not been declared by the GOI to be a reciprocating territory for the purposes of section 44A of the Civil Code. Accordingly, a judgment by a court in the United States may be enforced only by a new suit upon the judgment and not by proceedings in execution whereas, a judgment of a superior court in the United Kingdom may be enforced by proceedings in execution and a judgment not of a superior court, by a fresh suit resulting in a judgment or order. The suit must be brought in India within three years from the date of the judgment in the same manner as any other suit filed to enforce a civil liability in India.

Under section 14 of the Code, a court in India shall presume, upon production of any document purporting to be a certified copy of a foreign judgment, that such judgment was pronounced by a court of competent jurisdiction, unless the contrary appears on the record; but such presumption may be displaced by proving want of jurisdiction. It is unlikely that a court in India would award damages on the same basis as a foreign court if an action is brought in India.

It is unlikely that a court in India would award damages on the same basis as a foreign court if an action is brought in India. Furthermore, it is unlikely that an Indian court would enforce a foreign judgment if

it viewed the amount of damages awarded as excessive or inconsistent with public policy and it is uncertain whether an Indian court would enforce foreign judgments that would contravene or violate Indian law. A party seeking to enforce a foreign judgment in India is required to obtain approval from the RBI under the Foreign Exchange Management Act, 1999 to execute such a judgment and/or to repatriate outside India any amount recovered pursuant to execution and any such amount may be subject to tax in accordance with applicable laws. Any judgment in a foreign currency would be converted into Rupees on the date of the decree and not on the date of the payment. The Company cannot predict whether a suit brought in an Indian court will be disposed in a timely manner or be subject to considerable delays. The Company would not be entitled to immunity based on sovereignty from any legal proceedings in India. Also, a party may file suit in India against our Company, our directors or our executive officers as an original action predicated upon the provisions of the federal securities laws in the United States.

GLOSSARY OF TERMS USED IN THIS OFFERING CIRCULAR

Below are certain terms used in this Offering Circular.

Company-related terms

the Company/our Company/REC	REC Limited a public limited company incorporated under the Companies Act, 1956. The corporate identification number of our Company is L40101DL1969GOI005095
we/us/our	Our Company together with our subsidiaries, associates and our joint venture on a consolidated basis
Articles/Articles of Association	Articles of Association of our Company as amended from time to time
Board/Board of Directors	Board of Directors of our Company unless otherwise specified
Shares	Equity Shares of our Company of the face value of Rs. 10 each unless otherwise specified

DOCUMENTS INCORPORATED BY REFERENCE

The following documents published or issued from time to time after the date hereof shall be deemed to be incorporated in, and to form part of, this Offering Circular: (a) our most recently published audited consolidated and non-consolidated annual financial statements; and (b) if published later, the most recently published audited or reviewed, as the case may be, interim non-consolidated and consolidated financial results (see “*General Information*” for a description of the financial statements currently published by us).

Any statement contained herein or in a document which is deemed to be incorporated by reference herein shall be deemed to be modified or superseded for the purpose of this Offering Circular to the extent that a statement contained in any such subsequent document which is deemed to be incorporated by reference herein modifies or supersedes such earlier statement (whether expressly, by implication or otherwise). Any statement so modified or superseded shall not be deemed, except as so modified or superseded, to constitute a part of this Offering Circular.

We will provide, without charge, to each person to whom a copy of this Offering Circular has been delivered, upon the request of such person, a copy of any or all of the documents deemed to be incorporated herein by reference unless such documents have been modified or superseded as specified above. Requests for such documents should be directed to us at our office set out at the end of this Offering Circular. In addition, such documents will be available free of charge from the principal office of the principal paying agent in London (which for the time being is The Bank of New York Mellon, London Branch) (the **Principal Paying Agent**) for the Notes listed on the SGX-ST, the ISM, the NSE IFSC or the India INX.

If the terms of the Programme are modified or amended in a manner which would make this Offering Circular, as so modified or amended, inaccurate or misleading, to an extent which is material in the context of the Programme, a new offering circular will be prepared.

GENERAL DESCRIPTION OF THE PROGRAMME

Under the Programme, we may from time to time issue Notes denominated in any currency, subject as set out herein. A summary of the terms and conditions of the Programme and the Notes appears below. The applicable terms of any Notes will be agreed between us and the relevant Dealer prior to the issue of the Notes and will be set out in the Terms and Conditions of the Notes endorsed on, attached to, or incorporated by reference into, the Notes, as modified and supplemented by the applicable Pricing Supplement attached to, or endorsed on, such Notes, as more fully described under “*Form of the Notes*”.

This Offering Circular and any supplement will only be valid for listing Notes on the SGX-ST, the ISM, the NSE IFSC or the India INX in an aggregate nominal amount which, when added to the aggregate nominal amount then outstanding of all Notes previously or simultaneously issued under the Programme, does not exceed U.S.\$7,000,000,000 or its equivalent in other currencies. For the purpose of calculating the U.S. dollar equivalent of the aggregate nominal amount of Notes issued under the Programme from time to time:

- (a) the U.S. dollar equivalent of Notes denominated in another Specified Currency (as specified in the applicable Pricing Supplement in relation to the relevant Notes, described under “*Form of the Notes*”) shall be determined, at our discretion, either as of the date on which agreement is reached for the issue of Notes or on the preceding day on which commercial banks and foreign exchange markets are open for business in London, in each case on the basis of the spot rate for the sale of the U.S. dollar against the purchase of such Specified Currency in the London foreign exchange market quoted by any leading international bank selected by us on the relevant day of calculation;
- (b) the U.S. dollar equivalent of Dual Currency Notes, Index Linked Notes and Partly Paid Notes (each as specified in the applicable Pricing Supplement in relation to the relevant Notes, described under “*Form of the Notes*”) shall be calculated in the manner specified above by reference to the original nominal amount on issue of such Notes (in the case of Partly Paid Notes regardless of the subscription price paid); and
- (c) the U.S. dollar equivalent of Zero Coupon Notes (as specified in the applicable Pricing Supplement in relation to the relevant Notes, described under “*Form of the Notes*”) and other Notes issued at a discount or a premium shall be calculated in the manner specified above by reference to the net proceeds received by us for the relevant issue.

The offering of the Notes will be made entirely outside India. This Offering Circular may not be distributed directly or indirectly in India or to residents of India and the Notes are not being offered or sold and may not be offered or sold directly or indirectly in India or to, or for the account or benefit of, any resident of India.

Each purchaser of Notes will be deemed to represent that it is neither located in India nor a resident of India and that it is not purchasing for, or for the account or benefit of, any such person, and understands that the Notes may not be offered, sold, pledged or otherwise transferred to any person located in India, to any resident of India or to, or for the account of, such persons, unless determined otherwise in compliance with applicable law.

We will issue Notes under the Programme in accordance with the ECB Guidelines.

The Government does not provide any guarantee or financial support in relation to any payment or obligation in respect of the Notes and has no commitment or obligation whatsoever in relation to any payment or obligation in respect of the Notes.

SUMMARY OF THE PROGRAMME

The following summary does not purport to be complete and is taken from, and is qualified in its entirety by, the remainder of this Offering Circular and, in relation to the terms and conditions of any particular Tranche of Notes, the applicable Pricing Supplement. Words and expressions defined in “Form of the Notes” and “Terms and Conditions of the Notes” shall have the same meanings in this summary.

Issuer:	REC Limited
Legal Entity Identifier:	335800B4YRYWAMIJZ374
Investment Considerations:	There are certain factors that may affect our ability to fulfil our obligations under Notes issued under the Programme. These are set out under “ <i>Risk Factors</i> ” below. In addition, there are certain factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme. These are set out under “ <i>Risk Factors</i> ” and include certain risks relating to the structure of a particular Series of Notes and certain market risks.
Description:	Global Medium Term Note Programme
Arrangers:	Barclays Bank PLC, The Hongkong and Shanghai Banking Corporation Limited, MUFG Securities Asia Limited and Standard Chartered Bank
Dealers:	Barclays Bank PLC, The Hongkong and Shanghai Banking Corporation Limited, MUFG Securities Asia Limited and Standard Chartered Bank and any other Dealers appointed in accordance with the Programme Agreement (as defined under “ <i>Subscription and Sale</i> ”).
Certain Restrictions:	Each issue of Notes in respect of which particular laws, guidelines, regulations, restrictions or reporting requirements apply will only be issued in circumstances which comply with such laws, guidelines, regulations, restrictions or reporting requirements from time to time (see “ <i>Subscription and Sale</i> ” and “ <i>Transfer Restrictions</i> ”).
Principal Paying Agent:	The Bank of New York Mellon, London Branch (in respect of Notes other than DTC Notes)
DTC Paying Agent and Exchange Agent:	The Bank of New York Mellon (in respect of DTC Notes (as defined in “ <i>Book-Entry Clearance Systems</i> ”))
Transfer Agents:	The Bank of New York Mellon SA/NV, Luxembourg Branch (in respect of Notes other than DTC Notes), The Bank of New York Mellon (in respect of DTC Notes)
Registrars:	The Bank of New York Mellon SA/NV, Luxembourg Branch (in respect of Notes other than DTC Notes), The Bank of New York Mellon (in respect of DTC Notes)

Programme Size: U.S.\$ 7,000,000,000 (or its equivalent in other currencies calculated as described under “*General Description of the Programme*”) in aggregate nominal amount of Notes outstanding at any time. We may increase the amount of the Programme in accordance with the terms of the Programme Agreement.

Distribution: Notes may be distributed by way of private or public placement and in each case on a syndicated or non-syndicated basis.

Currencies: Subject to any applicable legal or regulatory restrictions, any currency agreed between us and the relevant Dealer.

Maturities: Such maturities as may be agreed between us and the relevant Dealer, subject to such minimum or maximum maturities as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to us including but not limited to the minimum maturity period specified under the ECB Guidelines or the relevant Specified Currency.

Issue Price: Notes may be issued on a fully-paid or a partly-paid basis and at an issue price which is at par or at a discount to, or premium over, par.

Form of Notes: The Notes will be issued in bearer and/or registered form as described in “*Form of the Notes*”.

Fixed Rate Notes: Fixed interest will be payable at such rate or rates in arrear and on such date or dates as may be agreed between us and the relevant Dealer, subject to any regulatory requirement (including but not limited to the ECB Guidelines) and on redemption and will be calculated on the basis of such Day Count Fraction as may be agreed between us and the relevant Dealer, subject to any regulatory requirement (including but not limited to the ECB Guidelines).

Floating Rate Notes: Floating Rate Notes will bear interest at a rate, subject to any regulatory requirement including but not limited to the ECB Guidelines, determined:

- (i) on the same basis as the floating rate under a notional interest rate swap transaction in the relevant Specified Currency governed by an agreement incorporating the 2006 ISDA Definitions (as published by the International Swaps and Derivatives Association, Inc., and as amended and updated as of the Issue Date of the first Tranche of the Notes of the relevant Series); or
- (ii) on the basis of a reference rate appearing on the agreed screen page of a commercial quotation service; or
- (iii) on such other basis as may be agreed between us and the relevant Dealer.

The margin (if any) relating to such floating rate will be agreed between the Issuer and the relevant Dealer for each Series of Floating

Rate Notes, subject to any regulatory requirement (including but not limited to the ECB Guidelines).

Floating Rate Notes may also have a maximum interest rate, a minimum interest rate or both.

Index Linked Notes: Payments of principal in respect of Index Linked Redemption Notes or of interest in respect of Index Linked Interest Notes will be calculated by reference to such index and/or formula or to changes in the prices of securities or commodities or to such other factors as we and the relevant Dealer may agree, subject to any regulatory requirement (including but not limited to the ECB Guidelines).

Other provisions in Floating Rate Notes and Index Linked Interest Notes: Floating Rate Notes and Index Linked Interest Notes may also have a relation to maximum interest rate, a minimum interest rate or both, subject to any regulatory requirement including but not limited to the ECB Guidelines.

Interest on Floating Rate Notes and Index Linked Interest Notes in respect of each Interest Period, as agreed prior to issue by us and the relevant Dealer, will be payable on such Interest Payment Dates, and will be calculated on the basis of such Day Count Fraction, as may be agreed between the Issuer and the relevant Dealer.

Dual Currency Notes: Payments (whether in respect of principal or interest and whether at maturity or otherwise) in respect of Dual Currency Notes will be made in such currencies, and based on such rates of exchange, as we and the relevant Dealer may agree, subject to any regulatory requirement (including but not limited to the ECB Guidelines).

Partly Paid Notes: We may issue Notes in respect of which the issue price is paid in separate instalments in such amounts and on such dates as we and the relevant Dealer may agree.

Zero Coupon Notes: Zero Coupon Notes will be offered and sold at a discount to their nominal amount and will not bear interest.

Other Notes: We may agree with any Dealer and the Principal Paying Agent that Notes may be issued in a form not contemplated by the Terms and Conditions of the Notes, in which event the relevant provisions will be included in the applicable Pricing Supplement.

Redemption: Unless otherwise indicated in the applicable Pricing Supplement, the relevant Notes cannot be redeemed prior to their stated maturity other than (i) in specified instalments, if applicable, (ii) for taxation reasons, (iii) following a Change in Control (as defined in Condition 7.3) or (iv) following an Event of Default (as defined in Condition 10.1). The applicable Pricing Supplement will indicate whether such Notes may be redeemed (either in whole or in part) prior to the stated maturity at the option of the Issuer upon giving notice to the Noteholders on a date or dates specified prior to such stated maturity and at a price or prices and on such other terms as set forth in the Terms and Conditions of the Notes or as may be agreed between us and the relevant Dealer.

Please note that any redemption of the Notes prior to their average stated maturity will require the prior approval of an authorized dealer bank (**AD Bank**) or the RBI under the ECB Guidelines.

The applicable Pricing Supplement may provide that Notes may be redeemable in separate instalments in such amounts and on such dates as are indicated in the applicable Pricing Supplement, subject to any regulatory requirement including but not limited to the ECB Guidelines.

Denomination of Notes: Notes will be issued in such denominations as may be agreed between us and the relevant Dealer save that the minimum denomination of each Note will be such as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the relevant Specified Currency.

Unless otherwise stated in the applicable Pricing Supplement, the minimum denomination of each Legended Note will be U.S.\$200,000, or U.S.\$500,000 in the case of each Definitive IAI Registered Note, or their respective approximate equivalent in other Specified Currencies.

Taxation: All payments in respect of the Notes will be made without deduction for or on account of withholding taxes imposed by any Tax Jurisdiction (as defined in Condition 8), subject as provided in Condition 8. In the event that any such deduction is made, we will, save in certain limited circumstances provided in Condition 8, be required to pay additional amounts to cover the amounts so deducted.

Without prejudice to our obligation to pay additional amounts as described above, all payments in respect of the Notes will be made subject to any withholding or deduction required pursuant to fiscal and other laws, as provided in Condition 6.8.

Negative Pledge: The terms of the Notes will contain a negative pledge provision as further described in Condition 4.

Cross Default: The terms of the Notes will contain a cross default provision as further described in Condition 10.

Status of the Notes: The Notes will constitute direct, unconditional, unsubordinated and, subject to the provisions of Condition 4, our unsecured obligations of and will rank *pari passu* among themselves and (save for certain obligations required to be preferred by law) equally with all of our other unsecured obligations (other than subordinated obligations, if any), from time to time outstanding.

Listing: Application has been made to the SGX-ST for permission to deal in and quotation for any Notes that may be issued pursuant to the Programme and which are agreed at or prior to the time of issue thereof to be so listed on the SGX-ST. Such permission will be granted when such Notes have been admitted to the Official List. The Notes may also be listed on such other or further stock exchange(s) as may be agreed between the Issuer and the relevant Dealer in relation to each

Series. Notes issued under the Programme will be traded on the SGX-ST in a minimum board lot size of SGD200,000 (or its equivalent in other currencies) for so long as the Notes are listed on the SGX-ST and the rules of the SGX-ST so require.

Application has been made to the London Stock Exchange for the Notes to be admitted to the London Stock Exchange's ISM. The ISM is not a regulated market for the purposes of Directive 2014/65/EU.

Application has also been made to the India INX for the Notes to be admitted for trading on the India INX.

Application has also been made to the NSE IFSC for the Notes to be admitted for trading on the NSE IFSC.

Unlisted Notes may also be issued.

The applicable Pricing Supplement will state whether or not the relevant Notes are to be listed and, if so, on which stock exchange(s).

Governing Law:

The Notes and any non-contractual obligations arising out of or in connection with the Notes will be governed by, and construed in accordance with, English law.

Clearing System:

Euroclear, Clearstream, Luxembourg, DTC and/or any other clearing system, as specified in the applicable Pricing Supplement (see "*Form of the Notes*").

Selling Restrictions:

There are restrictions on the offer, sale and transfer of the Notes under the Prospectus Regulation and in the United States, the United Kingdom, Italy, Japan, India, Hong Kong and Singapore and such other restrictions as may be required in connection with the offering and sale of a particular Tranche of Notes (see "*Subscription and Sale*" and "*Transfer Restrictions*").

United States Selling Restrictions:

Regulation S, Category 1 or 2, Rule 144A and/or Section 4(a)(2). TEFRA D or C (or any successor rules in substantially the same form that are applicable for purposes of Section 4701 of the U.S. Internal Revenue Code of 1986, as amended (the **Code**)), or TEFRA not applicable, as specified in the applicable Pricing Supplement.

FORM OF THE NOTES

The Notes of each Series will either be in bearer form, with or without interest coupons (**Coupons**) attached (**Bearer Notes**), or registered form, without interest coupons attached (**Registered Notes**). Bearer Notes will only be issued outside the United States to non-U.S. persons in reliance on Regulation S under the Securities Act (**Regulation S**), and Registered Notes will be issued both outside the United States and, in certain circumstances, only to non-U.S. persons, in reliance on the exemption from registration provided by Regulation S and within the United States in reliance on Rule 144A or Regulation D under the Securities Act or otherwise in private transactions that are exempt from the registration requirements of the Securities Act.

Notes to be listed on the SGX-ST, the ISM, the India INX or the IFSC NSE will be accepted for clearance through Euroclear Bank SA/NV (**Euroclear**) and/or Clearstream Banking S.A. (**Clearstream, Luxembourg**) and/or The Depository Trust Company (**DTC**).

Bearer Notes

Each Tranche of Bearer Notes will be in bearer form and will initially be represented by either a temporary bearer global note (a **Temporary Bearer Global Note**) or a permanent bearer global note (a **Permanent Bearer Global Note** and, together with a Temporary Bearer Global Note, the **Bearer Global Notes**, and each a **Bearer Global Note**) as indicated in the applicable Pricing Supplement, which, in either case, will be delivered on or prior to the original issue date of the Tranche to a common depositary (the **Common Depositary**) for Euroclear and Clearstream, Luxembourg. While any Bearer Note is represented by a Temporary Bearer Global Note, payments of principal, interest (if any) and any other amount payable in respect of the Notes due prior to the Exchange Date (as defined below) will be made against presentation of the Temporary Bearer Global Note only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of interests in such Note are not U.S. persons or persons who have purchased for resale to any U.S. person, as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream, Luxembourg, as applicable, has given a like certification (based on the certifications it has received) to the Principal Paying Agent.

On and after the date (the **Exchange Date**) which, for each Tranche in respect of which a Temporary Bearer Global Note is issued, is 40 days after the Temporary Bearer Global Note is issued, interests in such Temporary Bearer Global Note will be exchangeable (free of charge) upon a request as described therein either for (i) interests in a Permanent Bearer Global Note of the same Series or (ii) definitive Bearer Notes (**Definitive Bearer Notes**) of the same Series with, where applicable, receipts, interest coupons and talons attached (as indicated in the applicable Pricing Supplement and subject, in the case of Definitive Bearer Notes, to such notice period as is specified in the applicable Pricing Supplement), in each case against certification of beneficial ownership as described above, unless such certification has already been given, provided that purchasers in the United States and certain U.S. persons will not be able to receive definitive Bearer Notes. The holder of a Temporary Bearer Global Note will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due certification, exchange of the Temporary Bearer Global Note for an interest in a Permanent Global Note or for Definitive Bearer Notes is improperly withheld or refused.

Payments of principal, interest (if any) or any other amounts on a Permanent Bearer Global Note will be made through Euroclear and/or Clearstream, Luxembourg against presentation or surrender (as the case may be) of the Permanent Bearer Global Note without any requirement for certification.

The applicable Pricing Supplement will specify that a Permanent Bearer Global Note will be exchangeable (free of charge), in whole but not in part, for Definitive Bearer Notes with, where applicable, receipts, interest coupons and talons attached upon the occurrence of an Exchange Event.

For these purposes, **Exchange Event** means that (i) an Event of Default has occurred and is continuing, (ii) we have been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and no successor or alternative clearing system is available or (iii) we have or will become subject to adverse tax consequences which would not be suffered were the Notes represented by the Permanent Bearer Global Note in definitive form. We will promptly give notice to the Noteholders in accordance with Condition 14 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Bearer Global Note) may give notice to the Principal Paying Agent requesting exchange and, in the event of the occurrence of an Exchange Event as described in (iii) above, we may also give notice to the Principal Paying Agent requesting exchange. Any such exchange shall occur not later than 45 days after the date of receipt of the first relevant notice by the Principal Paying Agent.

The following legend will appear on all Bearer Notes, receipts, talons and interest coupons relating to such Notes where TEFRA D is specified in the applicable Pricing Supplement:

“ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE.”

The sections referred to provide that United States holders, with certain exceptions, will not be entitled to deduct any loss on Notes, receipts, talons or interest coupons and will not be entitled to capital gains treatment in respect of any gain on any sale, disposition, redemption or payment of principal in respect of such Notes, receipts, talons or interest coupons.

Notes which are represented by a Bearer Global Note will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be.

Registered Notes

The Registered Notes of each Tranche offered and sold in reliance on Regulation S, which will be sold outside the United States and, in certain circumstances, only to non-U.S. persons, will initially be represented by a global note in registered form (a **Regulation S Global Note**). If Category 2 is specified in the applicable Pricing Supplement, prior to expiry of the distribution compliance period (as defined in Regulation S) applicable to each Tranche of Notes, beneficial interests in a Regulation S Global Note may not be offered or sold to, or for the account or benefit of, a U.S. person save as otherwise provided in Condition 2 and may not be held otherwise than through Euroclear or Clearstream, Luxembourg and such Regulation S Global Note will bear a legend regarding such restrictions on transfer.

The Registered Notes of each Tranche offered and sold in the United States may only be offered and sold in private transactions (i) to “qualified institutional buyers” within the meaning of Rule 144A under the Securities Act (**QIBs**) or (ii) to “accredited investors” (as defined in Rule 501(a)(1), (2), (3) or (7) under the Securities Act) that are institutions (**Institutional Accredited Investors**) and who execute and deliver an IAI Investment Letter (as defined in the “*Terms and Conditions of the Notes*”) in which they agree to purchase the Notes for their own account and not with a view to the distribution thereof. The Registered Notes of each Tranche sold to QIBs will be represented by a global note in registered form (a **Rule 144A Global Note** and, together with a Regulation S Global Note, each a **Registered Global Note**). No sale of Legended Notes (as defined under “*U.S. Information*” above) in the United States to any one purchaser will be for less than U.S.\$200,000 (or its foreign currency equivalent) principal amount.

Registered Global Notes will either (i) be deposited with a custodian for, and registered in the name of a nominee of, DTC or (ii) be deposited with, and registered in the name of a nominee of, a common depository for Euroclear and Clearstream, Luxembourg, as specified in the applicable Pricing Supplement. Persons holding beneficial interests in Registered Global Notes will be entitled or required, as the case may be, under the circumstances described below, to receive physical delivery of definitive Notes in fully registered form (**Definitive Registered Notes**).

The Registered Notes of each Tranche sold to Institutional Accredited Investors will be in definitive form, registered in the name of the holder thereof (**Definitive IAI Registered Notes**). Unless otherwise set forth in the applicable Pricing Supplement, Definitive IAI Registered Notes will be issued only in minimum denominations of U.S.\$500,000 and integral multiples of U.S.\$1,000 in excess thereof (or the approximate equivalents in the applicable Specified Currency). Definitive IAI Registered Notes will be subject to the restrictions on transfer set forth therein and will bear the restrictive legend described under “*Subscription and Sale*” and “*Transfer Restrictions*”. Institutional Accredited Investors that hold Definitive IAI Registered Notes may not elect to hold such Notes through DTC, Euroclear or Clearstream, Luxembourg, but transferees acquiring such Notes in transactions exempt from Securities Act registration pursuant to Regulation S or Rule 144A under the Securities Act (if available) may do so upon satisfaction of the requirements applicable to such transfer as described under “*Subscription and Sale*” and “*Transfer Restrictions*”. The Registered Global Notes and the Definitive IAI Registered Notes will be subject to certain restrictions on transfer set forth therein and will bear a legend regarding such restrictions.

Payments of principal, interest and any other amount in respect of the Registered Global Notes will, in the absence of provision to the contrary, be made to the person shown on the Register (as defined in Condition 6.4) as the registered holder of the Registered Global Notes. None of the Issuer, any Paying Agent or the Registrar (each as defined under “*Terms and Conditions of the Notes*”) will have any responsibility or liability for any aspect of the records relating to or payments or deliveries made on account of beneficial ownership interests in the Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Payments of principal, interest or any other amount in respect of the Definitive Registered Notes will, in the absence of provision to the contrary, be made to the persons shown on the Register on the relevant Record Date (as defined in Condition 6.4) immediately preceding the due date for payment in the manner provided in that Condition.

Interests in a Registered Global Note will be exchangeable (free of charge), in whole but not in part, for Definitive Registered Notes without receipts, interest coupons or talons attached only upon the occurrence of an Exchange Event. For these purposes, **Exchange Event** means that (i) an Event of Default has occurred and is continuing, (ii) in the case of Notes registered in the name of a nominee for DTC, either DTC has notified us that it is unwilling or unable to continue to act as depository for the Notes and no alternative clearing system is available or DTC has ceased to constitute a clearing agency registered under the Exchange Act and no alternative clearing system is available, (iii) in the case of Notes registered in the name of a nominee for a common depository for Euroclear and Clearstream, Luxembourg, we have been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and, in any such case, no successor clearing system is available or (iv) we have or will become subject to adverse tax consequences which would not be suffered were the Notes represented by the Registered Global Note in definitive form. We will promptly give notice to Noteholders in accordance with Condition 14 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, DTC, Euroclear and/or Clearstream, Luxembourg or any person acting on their behalf (acting on the instructions of any holder of an interest in such Registered Global Note) may give notice to the Registrar requesting exchange and, in the event of the occurrence of an Exchange Event as described in (iv)

above, we may also give notice to the Registrar requesting exchange. Any such exchange shall occur not later than 10 days after the date of receipt of the first relevant notice by the Registrar.

Transfer of Interests

Interests in a Registered Global Note may, subject to compliance with all applicable restrictions, be transferred to a person who wishes to hold such interest in another Registered Global Note or in the form of a Definitive IAI Registered Note and Definitive IAI Registered Notes may, subject to compliance with all applicable restrictions, be transferred to a person who wishes to hold such Notes in the form of an interest in a Registered Global Note. No beneficial owner of an interest in a Registered Global Note will be able to transfer such interest, except in accordance with the applicable procedures of DTC, Euroclear and Clearstream, Luxembourg, in each case to the extent applicable. **Registered Notes are also subject to the restrictions on transfer set forth therein and will bear a legend regarding such restrictions, see “Subscription and Sale” and “Transfer Restrictions”.**

General

Pursuant to the Agency Agreement (as defined under “*Terms and Conditions of the Notes*”), the Principal Paying Agent shall arrange that, where a further Tranche of Notes is issued which is intended to form a single Series with an existing Tranche of Notes at a point after the Issue Date of the further Tranche, the Notes of such further Tranche shall be assigned a common code and ISIN number and, where applicable, a CUSIP and CINS number which are different from the common code, ISIN, CUSIP and CINS assigned to Notes of any other Tranche of the same Series until such time as the Tranches are consolidated and form a single Series, which shall not be prior to the expiry of the Distribution Compliance Period (as defined in Regulation S under the Securities Act) applicable to the Notes of such Tranche.

For so long as any of the Notes is represented by a Bearer Global Note or a Registered Global Note (each a **Global Note**) held on behalf of Euroclear and/or Clearstream, Luxembourg, each person (other than Euroclear and/or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or Clearstream, Luxembourg as the holder of a particular nominal amount of such Notes (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg as to the nominal amount of such Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Principal Paying Agent, the Issuer and their agents as the holder of such nominal amount of such Notes for all purposes other than with respect to the payment of principal or interest on such nominal amount of such Notes, for which purpose the bearer of the relevant Bearer Global Note or the registered holder of the relevant Registered Global Note shall be treated by the Principal Paying Agent, the Issuer and their agents as the holder of such nominal amount of such Notes in accordance with and subject to the terms of the relevant Global Note and the Agency Agreement and the expressions **Noteholder** and **holder of Notes** and related expressions shall be construed accordingly.

Any reference herein to Euroclear and/or Clearstream, Luxembourg and/or DTC shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Pricing Supplement.

A Note may be accelerated by the holder thereof in certain circumstances described in Condition 10. In such circumstances, where any Note is still represented by a Global Note and the Global Note (or any part thereof) has become due and repayable in accordance with the Terms and Conditions of such Notes and payment in full of the amount due has not been made in accordance with the provisions of the Global Note, then the Global Note will become void as from 8.00 p.m. (London time) on the day immediately following such day. At the same time, holders of interests in such Global Note credited to their accounts with Euroclear and/or Clearstream, Luxembourg and/or DTC, as the case may be, will become entitled to proceed directly against the Issuer on the basis of statements of account provided by

Euroclear and/or Clearstream, Luxembourg and/or DTC on and subject to the terms of the Notes. In addition, holders of interests in such Global Note credited to their accounts with DTC may require DTC to deliver definitive Notes in registered form in exchange for their interest in such Global Note in accordance with DTC's standard operating procedures.

If the applicable Pricing Supplement specifies any modification to the Terms and Conditions of the Notes as described herein, it is envisaged that, to the extent that such modification relates only to Conditions 1, 5, 6, 7 (except Condition 7.2), 11, 12, 13 and/or 14 (insofar as such Notes are not listed or admitted to trade on any stock exchange), they will not necessitate the preparation of a supplement to this Offering Circular. If the Terms and Conditions of the Notes of any Series are to be modified in any other respect, a supplement to this Offering Circular will be prepared, if appropriate.

So long as any Notes are listed on the SGX-ST and the rules of the SGX-ST so require, we shall appoint and maintain a paying agent in Singapore, where such Notes may be presented or surrendered for payment or redemption, in the event that a Global Note representing such Notes is exchanged for definitive Notes. In addition, in the event that a Global Note representing such Notes is exchanged for definitive Notes, an announcement of such exchange will be made by or on behalf of the Issuer through the SGX-ST and such announcement will include all material information with respect to the delivery of the definitive Notes, including details of the paying agent in Singapore.

FORM OF PRICING SUPPLEMENT

Set out below is the form of Pricing Supplement which will be completed for each Tranche of Notes issued under the Programme.

[MiFID II product governance / Professional investors and ECPs only target market – Solely for the purposes of [the/each] manufacturer’s product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in Directive 2014/65/EU (as amended, **MiFID II**); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a **distributor**) should take into consideration the manufacturer[‘s/s’] target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer[‘s/s’] target market assessment) and determining appropriate distribution channels.]

[UK MIFIR product governance / Professional investors and ECPs only target market – Solely for the purposes of [the/each] manufacturer’s product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is only eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook (**COBS**), and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (**UK MiFIR**); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a **distributor**) should take into consideration the manufacturer[‘s/s’] target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the **UK MiFIR Product Governance Rules**) is responsible for undertakings its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer[‘s/s’] target market assessment) and determining appropriate distribution channels.]

[PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (**EEA**). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, **MiFID II**); (ii) or a customer within the meaning of Directive (EU) 2016/97 (the **Insurance Distribution Directive**), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the **PRIIPs Regulation**) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.]

[PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (**UK**). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (**EUWA**); (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the Financial Services and Markets Act 2000 (the **FSMA**) to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic

law by virtue of the EUWA (the **UK Prospectus Regulation**). Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the **UK PRIIPs Regulation**) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.]

[**SINGAPORE SFA PRODUCT CLASSIFICATION** – In connection with Section 309B of the Securities and Futures Act (Chapter 289) of Singapore (the **SFA**) and the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore (the **CAMP Regulations 2018**), the Issuer has determined, and hereby notifies all relevant persons (as defined in Section 309A(1) of the SFA), that the Notes [are] / [are not] [prescribed capital markets products] / [capital markets products other than prescribed capital markets products] (as defined in the CAMP Regulations 2018) and [are] [Excluded] / [Specified] Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendation on Investment Products).]¹

REC Limited
Legal entity identifier (LEI): [335800B4YRYWAMIJZ374]
Issue of [Aggregate Nominal Amount of Tranche] [Title of Notes]
under the U.S.\$7,000,000,000
Global Medium Term Note Programme

This document constitutes the Pricing Supplement relating to the issue of Notes described herein.

Terms used herein shall be deemed to be defined as such for the purposes of the Conditions set forth in the Offering Circular dated April 20, 2021 [and the supplements to it dated [●] and [●]] (the **Offering Circular**). This Pricing Supplement contains the final terms of the Notes and must be read in conjunction with such Offering Circular.

[The following alternative language applies if the first tranche of an issue which is being increased was issued under an Offering Circular with an earlier date.]

Terms used herein shall be deemed to be defined as such for the purposes of the Conditions (the **Conditions**) set forth in the Offering Circular dated [original date]. This Pricing Supplement contains the final terms of the Notes and must be read in conjunction with the Offering Circular dated [current date], save in respect of the Conditions which are extracted from the Offering Circular dated [original date] and are attached hereto.]

[Include whichever of the following apply or specify as “Not Applicable” (N/A). Note that the numbering should remain as set out below, even if “Not Applicable” is indicated for individual paragraphs or subparagraphs. Italics denote directions for completing the Pricing Supplement.]

1. Issuer: REC Limited
2. (a) Series Number: []

¹ For any Notes to be offered to Singapore investors, the Issuer to consider whether it needs to re-classify the Notes pursuant to Section 309B of the SFA prior to the launch of the offer.

- (b) Tranche Number: []
(If fungible with an existing Series, details of that Series, including the date on which the Notes become fungible)
- (c) Date on which the Notes will be consolidated and for a single Series: The Notes will be consolidated and form a single Series with [*identify earlier Tranches*] on [the Issue Date/exchange of the Temporary Global Note for interests in the Permanent Global Note, as referred to in paragraph [●] below, which is expected to occur on or about [date]]
[Not Applicable]
3. Specified Currency or Currencies: []
4. Aggregate Nominal Amount:
- (a) Series: []
- (b) Tranche: []
5. (a) Issue Price: [] per cent. of the Aggregate Nominal Amount [plus accrued interest from [*insert date*]]
[*(in the case of fungible issues only, if applicable)*]
- (b) [Net proceeds: []]
6. (a) Specified Denominations: [] (*N.B. Notes must have a minimum denomination of €100,000 or equivalent*) (*Note - where Bearer Notes with multiple denominations above [€100,000] or equivalent are being used with respect to Bearer Notes, the following sample wording should be followed:*
- “[€100,000] and integral multiples of [€1,000] in excess thereof up to and including [€199,000]. No Notes in definitive form will be issued with a denomination above [€199,000].”*)
- (N.B. If an issue of Notes is: (i) NOT admitted to trading on a European Economic Area exchange; and (ii) only offered in the European Economic Area in circumstances where a prospectus is not required to be published under the Prospectus Regulation the €100,000 minimum denomination is not required.)*
- (In the case of Registered Notes, this means the minimum integral amount in which transfers can be made.)*
- (b) Calculation Amount []
(and in relation to calculation of interest) (*If only one Specified Denomination, insert the Specified Denomination.*

in global form see Conditions): *If more than one Specified Denomination, insert the highest common factor. Note: There must be a common factor in the case of two or more Specified Denominations.)*

7. (a) Issue Date: []
- (b) Interest Commencement Date: [Specify/Issue Date/Not Applicable]
(N.B. An Interest Commencement Date will not be relevant for certain Notes, for example Zero Coupon Notes.)
8. Maturity Date: *[Fixed rate – specify date/Floating rate - Interest Payment Date falling in or nearest to [specify month and year]]*
9. Trade Date: []
10. Interest Basis: [[] per cent. Fixed Rate]
 [[LIBOR/EURIBOR] +/- [] per cent. Floating Rate]
 [Zero Coupon]
 [Index Linked Interest]
 [Dual Currency Interest]
 [specify other]
 (further particulars specified below)
11. Redemption/Payment Basis: [Redemption at par]
 [Index Linked Redemption]
 [Dual Currency Redemption]
 [Partly Paid]
 [Instalment]
 [specify other]
12. Change of Interest Basis or Redemption/Payment Basis: [Applicable/Not Applicable]
(if applicable, specify details of any provision for change of Notes into another Interest Basis or Redemption/Payment Basis) (N.B. Only relevant where Board (or similar) authorization is required for the particular tranche of Notes)
13. Put/Call Options: [Issuer Call]
 [(further particulars specified below)]
14. (a) Status of the Notes: [Senior]
- (b) Date of board approval for issuance of Notes obtained: [] [and [], respectively]/[None required]
(N.B. Only relevant where regulatory (or similar) approval or consent is required for the particular tranche of Notes)
- (c) Date of regulatory approval/consent for issuance of Notes obtained: []/[None required]
(N.B. Only relevant where regulatory (or similar) approval or consent is required for the particular tranche of Notes)

15. Listing: [SGX-ST/ISM/GSM of the India INX/NSE IFSC/specify other/None]
(N.B. Consider disclosure requirements under the EU Prospectus Regulation applicable to securities admitted to an EU regulated market)

16. Method of distribution: [Syndicated/Non-syndicated]

PROVISIONS RELATING TO INTEREST (IF ANY) PAYABLE

17. Fixed Rate Note Provisions: [Applicable/Not Applicable]

(If not applicable, delete the remaining subparagraphs of this paragraph)

(a) Rate(s) of Interest: [] per cent. per annum payable in arrear on each Interest Payment Date

(b) Interest Payment Date(s): [] in each year up to and including the Maturity Date (Amend appropriately in the case of irregular coupons)

(c) Fixed Coupon Amount(s) for Notes in definitive form (and in relation to Notes in global form see Conditions): [] per Calculation Amount

(d) Broken Amount(s) for Notes in definitive form (and in relation to Notes in global form see Conditions): [[] per Calculation Amount, payable on the Interest Payment Date falling [in/on] [●]][Not Applicable]

(e) Count Fraction: [Actual/Actual (ICMA)]; [30/360]; [Actual/365 (Fixed)] [specify other]

(f) Determination Date(s): [[] in each year][Not Applicable] (Only relevant where Day Count Fraction is Actual/Actual (ICMA). In such case, insert regular interest payment dates, ignoring issue date or maturity date in the case of a long or short first or last coupon)

(g) Other terms relating to the method of calculating interest for Fixed Rate Notes: [None/Give details]

18. Floating Rate Note Provisions: [Applicable/Not Applicable]
(If not applicable, delete the remaining subparagraphs of this paragraph)

- (a) Specified Period(s)/ Specified Interest Payment Dates: [], subject to adjustment in accordance with the Business Day Convention set out in (b) below/not subject to any adjustment, as the Business Day Convention in (b) below is specified to be not applicable.]
- (b) Business Day Convention: [Floating Rate Convention/Following Business Day Convention/ Modified Following Business Day Convention/Preceding Business Day Convention/[specify other]]
- (c) Additional Business Centre(s): []
- (d) Manner in which the Rate of Interest and Interest Amount is to be determined: [Screen Rate Determination/ISDA Determination/[Not Applicable]/[specify other]]
- (e) Party responsible for calculating the Rate of Interest and Interest Amount (if not the Principal Paying Agent): []
- (f) Screen Rate Determination:
- Reference Rate: [] month [LIBOR/EURIBOR/specify other Reference Rate]
(Either LIBOR, EURIBOR or other, although additional information required if other, including fallback provisions in the Agency Agreement.)
 - Interest Determination Date(s): []
(Second London business day prior to the start of each Interest Period if LIBOR (other than Sterling or euro LIBOR), first day of each Interest Period if Sterling LIBOR and the second day on which the TARGET2 System is open prior to the start of each Interest Period if EURIBOR or euro LIBOR)
 - Relevant Screen Page: []
(In the case of EURIBOR, if not Reuters EURIBOR 01 ensure it is a page which shows a composite rate or amend the fallback provisions appropriately)
- (g) ISDA Determination:
- Floating Rate Option: []

GENERAL PROVISIONS APPLICABLE TO THE NOTES

25. Form of Notes: [Bearer Notes:

[Temporary Bearer Global Note exchangeable for a Permanent Bearer Global Note which is exchangeable for Definitive Bearer Notes upon an Exchange Event]

[Temporary Bearer Global Note exchangeable for Definitive Bearer Notes on and after the Exchange Date]
[Permanent Bearer Global Note exchangeable for Definitive Bearer Notes upon an Exchange Event]

(Ensure that this is consistent with the wording in the “Form of the Notes” section in the Offering Circular and the Notes themselves. The option for an issue of Notes to be represented on issue by a Temporary Global Note exchangeable for Definitive Notes should not be expressed to be applicable if the Specified Denomination of the Notes in paragraph 6 includes language substantially to the following effect:

“[€100,000] and integral multiples of [€1,000] in excess thereof up to and including [€199,000]. No Notes in definitive form will be issued with a denomination above [€199,000]”..)]

[Registered Notes:

[Regulation S Global Note(s) [(U.S.\$[] aggregate nominal amount)] registered in the name of a nominee for [DTC/a common depository for Euroclear and Clearstream, Luxembourg] (*specify nominal amount*)]

[Rule 144A Global Note(s) [(U.S.\$[] aggregate nominal amount)] registered in the name of a nominee for [DTC/a common depository for Euroclear and Clearstream, Luxembourg] (*specify nominal amount*)]

[Definitive IAI Registered Notes [(U.S.\$[] aggregate nominal amount)] (*specify nominal amount*)]

(In the case of an issue with more than one Global Note or a combination of one or more Global Notes and Definitive IAI Registered Notes, specify the nominal amounts of each

Global Note and, if applicable, the aggregate nominal amount of all Definitive IAI Registered Notes if such information is available]

26. Additional Financial Centers: [Not Applicable/give details]
(Note that this item relates to the date of payment and not Interest Period end dates to which items 18(c) and 20(f) relate)
27. Talons for future Coupons to be attached to Definitive Notes in bearer form (and dates on which such Talons mature): [Yes, as the Notes have more than 27 coupon payments, Talons may be required if, on exchange into definitive form, more than 27 coupon payments are still to be made/No]
28. Details relating to Partly Paid Notes: amount of each payment comprising the Issue Price and date on which each payment is to be made and consequences of failure to pay, including any right of the Issuer to forfeit the Notes and interest due on late payment: [Not Applicable/give details. N.B. a new form of Temporary Bearer Global Note and/or Permanent Bearer Global Note may be required for Partly Paid issues]
29. Details relating to Instalment Notes: [Not Applicable]
- (a) [Instalment Amount(s): [give details]]
- (b) [Instalment Date(s): [give details]]
30. Permitted Security Interest Date: [] (See Condition [4])
31. Other terms or special conditions: [Not Applicable/give details]

DISTRIBUTION

32. (a) If syndicated, names of Managers: [Not Applicable/give names]
- (b) Stabilization Manager(s) (if any): [Not Applicable/give name(s)]
33. If non-syndicated, name of relevant Dealer: [●]
34. U.S. Selling Restrictions: Regulation S Compliance Category [1/2]; [Rule 144A/Rule 144A and Section 4(a)(2)]

(Notes offered in reliance on Category 1 must be in registered form)

35. Whether TEFRA D or TEFRA C rules applicable or TEFRA rules not applicable: [TEFRA D/TEFRA C/TEFRA not applicable]
36. Prohibition of Sales to EEA Retail Investors: [Applicable/Not Applicable]
(If the Notes clearly do not constitute “packaged” products, “Not Applicable” should be specified. If the Notes may constitute “packaged” products and no key information document will be prepared, “Applicable” should be specified.)
37. Prohibition of Sales to UK Retail Investors [Applicable/Not Applicable]
(If the Notes clearly do not constitute “packaged” products, “Not Applicable” should be specified. If the Notes may constitute “packaged” products and no key information document will be prepared, “Applicable” should be specified.)
38. Additional selling restrictions: [Not Applicable/give details]
39. Additional U.S. federal income tax considerations: [Not Applicable/give details]
[The Notes are [not] Specified Notes for purposes of Section 871(m) of the U.S. Internal Revenue Code of 1986. [Additional information regarding the application of Section 871(m) to the Notes will be available from [provide appropriate contact details or location of such information].] [As at the date of this Pricing Supplement, the Issuer has not determined whether the Notes are Specified Notes for purposes of Section 871(m) of the U.S. Internal Revenue Code of 1986; however, indicatively it considers that they will [not] be Specified Notes for these purposes. This is indicative information only subject to change and if the Issuer’s final determination is different then it will give notice of such determination. Further information regarding the application of Section 871(m) to the Notes will be available [provide appropriate contact details or location of such information].]
(The Notes will not be Specified Notes if they (i) are issued prior to January 1, 2023 and provide a return that differs by more than a de minimis amount from the return on an investment in any referenced U.S. equity (including any U.S. equity that is a component of a referenced index) or (ii) do not reference any U.S. equity or any index that contains any component U.S. equity or otherwise provide direct or indirect exposure to U.S. equities. If the Notes are issued on

or after January 1, 2023 and reference a U.S. equity or an index that contains a component U.S. equity or otherwise provide direct or indirect exposure to U.S. equities, further analysis would be required.)

OPERATIONAL INFORMATION

40. Any clearing system(s) other than DTC, Euroclear and Clearstream, Luxembourg and the relevant identification number(s): [Not Applicable/give name(s) and number(s)]

47. FISN: []/Not Applicable
48. CFI []/Not Applicable

(If the CFI and/or FISN is not required, requested or available, it/they should be specified as “Not Applicable”)

PURPOSE OF PRICING SUPPLEMENT

This Pricing Supplement comprises the final terms required for issue and admission to trading on [SGX-ST]/[ISM]/[India INX]/[NSE IFSC] of the Notes described herein pursuant to the U.S.\$7,000,000,000 Global Medium Term Note Programme of REC Limited.

[STABILIZATION

In connection with this issue, [●] (the **Stabilization Manager**) (or persons acting on behalf of any Stabilization Manager) may over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilization may not necessarily occur. Any stabilization action may begin on or after the date on which adequate public disclosure of the terms of the offer of the Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the Notes and 60 days after the date of the allotment of the Notes. Any stabilization action or over-allotment must be conducted by the

relevant Stabilization Manager (or person(s) acting on behalf of any Stabilization Manager) in accordance with all applicable laws and rules.]

INVESTMENT CONSIDERATIONS

There are significant risks associated with the Notes including, but not limited to, counterparty risk, country risk, price risk and liquidity risk. Investors should contact their own financial, legal, accounting and tax advisers about the risks associated with an investment in these Notes, the appropriate tools to analyze that investment, and the suitability of the investment in each investor's particular circumstances. No investor should purchase the Notes unless that investor understands and has sufficient financial resources to bear the price, market liquidity, structure and other risks associated with an investment in these Notes.

Before entering into any transaction, investors should ensure that they fully understand the potential risks and rewards of that transaction and independently determine that the transaction is appropriate given their objectives, experience, financial and operational resources and other relevant circumstances. Investors should consider consulting with such advisers as they deem necessary to assist them in making these determinations.

Responsibility

The Issuer accepts responsibility for the information contained in this Pricing Supplement.

Signed on behalf of the Issuer:

By: _____

Duly authorized

TERMS AND CONDITIONS OF THE NOTES

The following, subject to alteration and except for the paragraphs in italics, are the Terms and Conditions of the Notes which will be incorporated by reference into each Global Note (as defined below) and each definitive Note, in the latter case only if permitted by the relevant stock exchange or other relevant authority (if any) and agreed by the Issuer and the relevant Dealer at the time of issue but, if not so permitted and agreed, such definitive Note will have endorsed thereon or attached thereto such Terms and Conditions. The applicable Pricing Supplement in relation to any Tranche of Notes may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with the following Terms and Conditions, replace or modify the following Terms and Conditions for the purpose of such Notes. The applicable Pricing Supplement (or the relevant provisions thereof) will be endorsed upon, or attached to, each Global Note and definitive Note. Reference should be made to “Form of the Notes” for a description of the content of Pricing Supplements which will specify which of such terms are to apply in relation to the relevant Notes.

The issuance of, and the Terms and Conditions in relation to, the Notes are subject to applicable laws including the Foreign Exchange Management Act, 1999, as amended from time to time (“FEMA”) and rules, regulations, directions, circulars, and guidelines issued by the RBI in force from time to time. The Notes will, when issued, be issued overseas in accordance with the ECB Guidelines (as defined below).

This Note is one of a Series (as defined below) of Notes issued by REC Limited (formerly known as Rural Electrification Corporation Limited) (the “**Issuer**”) pursuant to the Agency Agreement (as defined below).

References herein to the “**Notes**” shall be references to the Notes of this Series and shall mean:

- (i) in relation to any Notes represented by a global Note (a “**Global Note**”), units of the lowest Specified Denomination in the Specified Currency;
- (ii) any Global Note in bearer form (a “**Bearer Global Note**”);
- (iii) any Global Note in registered form (a “**Registered Global Note**”);
- (iv) definitive Notes in bearer form (“**Definitive Bearer Notes**”, and together with Bearer Global Notes, the “**Bearer Notes**”) issued in exchange for a Bearer Global Note; and
- (v) definitive Notes in registered form (“**Definitive Registered Notes**”, and together with Registered Global Notes, the “**Registered Notes**”), whether or not issued in exchange for a Registered Global Note.

The Notes, the Receipts (as defined below) and the Coupons (as defined below) have the benefit of an amended and restated Agency Agreement dated October 22, 2018, as amended and supplemented by the First Supplemental Agency Agreement dated February 20, 2020 (such Agency Agreement as may be further amended and/or supplemented and/or restated from time to time, the “**Agency Agreement**”) and made between the Issuer, The Bank of New York Mellon, London Branch as principal paying agent (the “**Principal Paying Agent**”, which expression shall include any successor principal paying agent) and the other paying agents named therein (together with the Principal Paying Agent and the DTC Paying Agent, the “**Paying Agents**”, which expression shall include any additional or successor paying agents), The Bank of New York Mellon as DTC registrar (the “**DTC Registrar**”, which expression shall include any successor registrar), as exchange agent (the “**Exchange Agent**”, which expression shall include any additional or successor exchange agents), as DTC transfer agent (the “**DTC Transfer Agent**”, which expression shall include any substitute or any additional transfer agents) and as DTC paying agent (the “**DTC Paying Agent**”, which expression shall include any additional or successor paying agents) and The Bank of New York Mellon SA/NV, Luxembourg Branch as Euroclear/Clearstream registrar (the “**Euroclear/Clearstream Registrar**”, which expression shall include any successor registrar) and as Euroclear/Clearstream transfer agent (the “**Euroclear/Clearstream Transfer Agent**”, which expression shall include any substitute or any additional transfer agents).

In these Conditions, “**Registrar**” shall mean (i) in respect of Notes to be cleared through DTC, the DTC Registrar, and (ii) in respect of all other Notes, the Euroclear/Clearstream Registrar, “**Transfer Agent**” shall mean (i) in respect of Notes to be cleared through DTC, the DTC Transfer Agent, and (ii) in respect of all other Notes, the Euroclear/Clearstream Transfer Agent, and “**Agents**” shall mean the Principal Paying Agent, the Paying Agents, the Registrar, the Exchange Agent, the Calculation Agent and the Transfer Agents, collectively.

Interest bearing Definitive Bearer Notes have interest coupons (“**Coupons**”) and, in the case of Notes which, when issued in definitive form, have more than 27 interest payments remaining, talons for further Coupons (“**Talons**”) attached on issue. Any reference herein to Coupons or coupons shall, unless the context otherwise requires, be deemed to include a reference to Talons or talons. Definitive Bearer Notes repayable in instalments have receipts (“**Receipts**”) for the payment of the instalments of principal (other than the final instalment) attached on issue. Registered Notes and Global Notes do not have Receipts, Coupons or Talons attached on issue.

The Pricing Supplement for this Note (or the relevant provisions thereof) is attached to or endorsed on this Note and supplements these Terms and Conditions (“**Conditions**”) and may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with these Conditions, replace or modify these Conditions for the purposes of this Note. References to the “**applicable Pricing Supplement**” are to the Pricing Supplement (or the relevant provisions thereof) attached to or endorsed on this Note.

Any reference to “**Noteholders**” or “**holders**” in relation to any Notes shall mean (in the case of Bearer Notes) the holders of the Notes and (in the case of Registered Notes) the persons in whose names the Notes are registered and shall, in relation to any Notes represented by a Global Note, be construed as provided below. Any reference herein to “**Receiptholders**” shall mean the holders of the Receipts and any reference herein to “**Couponholders**” shall mean the holders of the Coupons and shall, unless the context otherwise requires, include the holders of the Talons.

As used herein, “**Tranche**” means Notes which are identical in all respects (including as to listing and admission to trading) and Series means a Tranche of Notes together with any further Tranche or Tranches of Notes which (i) are expressed to be consolidated and form a single series and (ii) have the same terms and conditions which are the same in all respects save for the amount and date of first payment of interest thereon and the date from which interest starts to accrue.

Copies of the Agency Agreement are available for inspection during normal business hours at the registered office for the time being of the Principal Paying Agent (being, at One Canada Square, London E14 5AL, United Kingdom). Copies of the applicable Pricing Supplement are obtainable during normal business hours at the specified office of the Principal Paying Agent and the corporate office of the Issuer save that, if this Note is an unlisted Note of any Series, the applicable Pricing Supplement will only be obtainable by a Noteholder holding one or more unlisted Notes of that Series and such Noteholder must produce evidence satisfactory to the Issuer and the relevant Agent as to its holding of such Notes and identity. The Noteholders, the Receiptholders and the Couponholders are deemed to have notice of, and are entitled to the benefit of, and are bound by, all the provisions of the Agency Agreement and the applicable Pricing Supplement which are applicable to them. The statements in these Conditions include summaries of, and are subject to, the detailed provisions of the Agency Agreement.

Words and expressions defined in the Agency Agreement or used in the applicable Pricing Supplement shall have the same meanings where used in these Conditions unless the context otherwise requires or unless otherwise stated and provided that, in the event of inconsistency between the Agency Agreement and the applicable Pricing Supplement, the applicable Pricing Supplement will prevail.

1 FORM, DENOMINATION AND TITLE

The Notes may be in bearer form (“**Bearer Notes**”) and/or in registered form (“**Registered Notes**”) as specified in the applicable Pricing Supplement and, in the case of definitive Notes, will be serially numbered, in the currency (the “**Specified Currency**”) and the denominations (the “**Specified Denomination(s)**”), specified in the applicable Pricing Supplement. Save as provided in Condition 2, Notes of one Specified Denomination may not be exchanged for Notes of another Specified Denomination.

This Note may be a Fixed Rate Note, a Floating Rate Note, a Zero Coupon Note, an Index Linked Interest Note, a Dual Currency Interest Note or a combination of any of the foregoing, depending upon the Interest Basis shown in the applicable Pricing Supplement, which Interest Basis shall be as per the applicable laws including but not limited to the Foreign Exchange Management (Borrowing or Lending in Foreign Exchange) Regulations 2000, as amended from time to time, and circulars issued thereunder by the Reserve Bank of India (the “**RBI**”) including the Master Direction on External Commercial Borrowing, Trade Credit, Borrowing and Lending in Foreign Currency by Authorised Dealers and Persons other than Authorised Dealers dated 1 January 2016, as amended, updated, modified and supplemented from time to time, and the Master Direction on Reporting under Foreign Exchange Management Act, 1999, dated 1 January 2016, as amended from time to time (the “**ECB Guidelines**”).

This Note may also be an Index Linked Redemption Note, an Instalment Note, a Dual Currency Redemption Note, a Partly Paid Note or a combination of any of the foregoing, depending upon the Redemption/Payment Basis shown in the applicable Pricing Supplement.

Definitive Bearer Notes are issued with Coupons attached, unless they are Zero Coupon Notes in which case references to Coupons and Couponholders in these Conditions are not applicable.

Subject as set out below, title to the Bearer Notes, Receipts and Coupons will pass by delivery. Title to Registered Notes will pass upon registration of transfers in the books of the Registrar in accordance with the provisions of the Agency Agreement. The Issuer, the Principal Paying Agent, any Paying Agent, the Registrar and the Transfer Agent will (except as otherwise ordered by a court of competent jurisdiction or required by law) deem and treat the bearer of any Bearer Note, Receipt or Coupon and any person in whose name a Registered Note is registered as the absolute owner thereof (whether or not overdue and notwithstanding any notice of ownership or writing thereon or notice of any previous loss or theft thereof) for all purposes but, in the case of any Global Note, without prejudice to the provisions set out in the next succeeding paragraph.

For so long as any of the Notes is represented by a Global Note held by a common depository on behalf of Euroclear Bank SA/NV (“**Euroclear**”) and/or Clearstream Banking S.A. (“**Clearstream**”), each person (other than Euroclear or Clearstream) who is for the time being shown in the records of Euroclear or Clearstream as the holder of a particular nominal amount of such Notes (in which regard any certificate or other document issued by Euroclear or Clearstream as to the nominal amount of such Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer, any Paying Agents, the Registrar and the Transfer Agent as the holder of such nominal amount of such Notes for all purposes other than with respect to the payment of principal or interest on such nominal amount of such Notes, for which purpose the bearer or registered holder of the relevant Global Note shall be treated by the Issuer, any Paying Agent, the Registrar and the Transfer Agent as the holder of such nominal amount of such Notes in accordance with and subject to the terms of the relevant Global Note and the expressions “**Noteholder**” and “**holder of Notes**” and related expressions shall be construed accordingly.

For so long as The Depository Trust Company (“**DTC**”) or its nominee is the registered owner or holder of a Registered Global Note, DTC or such nominee, as the case may be, will be considered the sole owner or holder of the Notes represented by such Registered Global Note for all purposes except to the extent that in

accordance with DTC's published rules and procedures any ownership rights may be exercised by its participants or beneficial owners through participants.

Notes which are represented by a Global Note will be transferable only in accordance with the rules and procedures for the time being of DTC, Euroclear and Clearstream, as the case may be. References to DTC, Euroclear and/or Clearstream shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Pricing Supplement.

2 TRANSFERS OF REGISTERED NOTES

2.1 Transfers of Interests in Registered Global Notes

Transfers of beneficial interests in Registered Global Notes will be effected by DTC, Euroclear or Clearstream, as the case may be, and, in turn, by other participants and, if appropriate, indirect participants in such clearing systems acting on behalf of beneficial transferors and transferees of such interests. A beneficial interest in a Registered Global Note will, subject to compliance with all applicable legal and regulatory restrictions, be exchangeable for Registered Notes in definitive form or for a beneficial interest in another Registered Global Note only in the authorised denominations set out in the applicable Pricing Supplement and only in accordance with the rules and operating procedures for the time being of DTC, Euroclear or Clearstream, as the case may be, and in accordance with the terms and conditions specified in the Agency Agreement. Transfers of a Registered Global Note registered in the name of a nominee for DTC shall be limited to transfers of such Registered Global Note, in whole but not in part, to another nominee of DTC or to a successor of DTC or such successor's nominee.

2.2 Transfers of Registered Notes Generally

Registered Notes may not be exchanged for Bearer Notes and vice versa.

Holders of Definitive Registered Notes may exchange such Definitive Registered Notes for interests in a Registered Global Note of the same type at any time.

Upon the terms and subject to the conditions set forth in the Agency Agreement, a Definitive Registered Note may be transferred in whole or in part (in the authorised denominations set out in the applicable Pricing Supplement). In order to effect any such transfer:

- (i) the holder or holders must (a) surrender the Definitive Registered Note for registration of the transfer of the Definitive Registered Note (or the relevant part of the Definitive Registered Note) at the specified office of the Registrar or any Transfer Agent, with the form of transfer thereon duly executed by the holder or holders thereof or his or their attorney or attorneys duly authorised in writing and (b) complete and deposit such other certifications as may be required by the relevant Transfer Agent; and
- (ii) the Registrar or, as the case may be, the relevant Transfer Agent must, after due and careful enquiry, being satisfied with the documents of title and the identity of the person making the request and subject to such reasonable regulations as the Issuer, the Registrar, or as the case may be, the relevant Transfer Agent from time to time may prescribe (such initial regulations being set out in Schedule 4 to the Agency Agreement).

Subject as provided above, the Registrar or, as the case may be, the relevant Transfer Agent will, within three business days (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar or, as the case may be, the relevant Transfer Agent is located) of the request (or such longer period as may be required to comply with any applicable fiscal or other laws or regulations) authenticate and deliver, or procure the authentication and delivery of, at its specified office to the transferee or (at the risk of the transferee) send by mail to such address as

the transferee may request, a new Definitive Registered Note of a like aggregate nominal amount to the Definitive Registered Note (or the relevant part of the Definitive Registered Note) transferred. In the case of the transfer of part only of a Definitive Registered Note, a new Definitive Registered Note in respect of the balance of the Definitive Registered Note not transferred will be so authenticated and delivered or (at the risk of the transferor) sent to the transferor.

2.3 Registration of Transfer upon Partial Redemption

In the event of a partial redemption of Notes under Condition 7, the Issuer shall not be required to register the transfer of any Registered Note, or a part Registered Note, called for partial redemption.

2.4 Costs of Registration

Registration of transfers will be effected without charge by or on behalf of the Issuer, the Registrar or the relevant Transfer Agent, but upon payment (or the giving of such indemnity as the Registrar or the relevant Transfer Agent may reasonably require) in respect of any tax or other governmental charges which may be imposed in relation to it provided that the Issuer shall not be responsible for any documentary stamp tax payable on the transfer of Notes effected in the Republic of India (“**India**”) unless the Issuer is the counterparty directly liable for that documentary stamp tax.

2.5 Transfers of Interests in Regulation S Global Notes

Transfers by the holder of, or of a beneficial interest in, a Regulation S Global Note to a transferee in the United States will only be made:

- (i) upon receipt by the Registrar of a written certification substantially in the form set out in Schedule 7 to the Agency Agreement, amended as appropriate (a “**Transfer Certificate**”), copies of which are available from the specified office of the Registrar or any Transfer Agent, from the transferor of the Note or beneficial interest therein to the effect that such transfer is being made:
 - (A) to a person whom the transferor reasonably believes is a QIB in a transaction meeting the requirements of Rule 144A; or
 - (B) to a person who is an Institutional Accredited Investor;together with, in the case of (B), a duly executed investment letter from the relevant transferee substantially in the form set out in Schedule 8 to the Agency Agreement (an “**IAI Investment Letter**”) and such other satisfactory evidence as the Issuer may reasonably require from the transferor, which may include an opinion of U.S. counsel, that such transfer is in compliance with any applicable securities laws of any State of the United States; or
- (ii) otherwise pursuant to an effective registration statement under the Securities Act or an exemption therefrom, subject to receipt by the Issuer of such satisfactory evidence as the Issuer may reasonably require from the transferor, which may include an opinion of U.S. counsel, that such transfer is in compliance with any applicable securities laws of any State of the United States, and,

in each case, in accordance with any applicable securities laws of any State of the United States or any other jurisdiction.

In the case of Condition 2.5(i)(A) above, such transferee may take delivery through a Legended Note in global or definitive form and, in the case of Condition 2.5(i)(B) above, such transferee may take delivery only through a Legended Note in definitive form. After expiry of the Distribution Compliance Period, if applicable, (i) beneficial interests in Regulation S Global Notes registered in the name of a nominee for DTC may be held through DTC directly, by a participant in DTC, or

indirectly through a participant in DTC and (ii) such certification requirements will no longer apply to such transfers.

2.6 Transfers of Interests in Legended Notes

Transfers of Legended Notes or beneficial interests therein may be made:

- (i) to a transferee who takes delivery of such interest through a Regulation S Global Note, upon receipt by the Registrar of a duly completed Transfer Certificate from the transferor to the effect that such transfer is being made in accordance with Regulation S and that in the case of a Regulation S Global Note registered in the name of a nominee for DTC, if such transfer is being made prior to expiry of the applicable Distribution Compliance Period, the interests in the Notes being transferred will be held immediately thereafter through Euroclear and/or Clearstream; or
- (ii) to a transferee who takes delivery of such interest through a Legended Note:
 - (A) where the transferee is a person whom the transferor reasonably believes is a QIB in a transaction meeting the requirements of Rule 144A, without certification; or
 - (B) where the transferee is an Institutional Accredited Investor, subject to delivery to the Registrar of a Transfer Certificate from the transferor to the effect that such transfer is being made to an Institutional Accredited Investor, together with a duly executed IAI Investment Letter from the relevant transferee and such other satisfactory evidence as the Issuer may reasonably require from the transferor, which may include an opinion of U.S. counsel, that such transfer is in compliance with any applicable securities laws of any State of the United States,

and, in each case, in accordance with any applicable securities laws of any State of the United States or any other jurisdiction;

- (iii) pursuant to the exemption from registration provided by Rule 144 under the Securities Act (if available); or
- (iv) pursuant to an effective registration statement under the Securities Act,

and, in each case, in accordance with any applicable securities laws of any State of the United States or any other jurisdiction.

Notes transferred by Institutional Accredited Investors to QIBs pursuant to Rule 144A or outside the United States pursuant to Regulation S will be eligible to be held by such QIBs or non-U.S. investors through DTC, Euroclear or Clearstream, as appropriate, and the Registrar will arrange for any Notes which are the subject of such a transfer to be represented by the appropriate Registered Global Note, where applicable.

Upon the transfer, exchange or replacement of Legended Notes, or upon specific request for removal of the legend (the “**Legend**”) applicable to Legended Notes, the Registrar shall deliver only Legended Notes or refuse to remove such Legend, as the case may be, unless there is delivered to the Issuer such satisfactory evidence as may reasonably be required by the Issuer, which may include an opinion of U.S. counsel, that neither the Legend nor the restrictions on transfer set forth therein are required to ensure compliance with the provisions of the Securities Act.

2.7 Exchanges of Registered Notes Generally

Holders of Registered Notes in definitive form, other than Institutional Accredited Investors, may exchange such Notes for interests in a Registered Global Note of the same type at any time.

2.8 Closed Periods

No Noteholder may require the transfer of a Registered Note to be registered:

- (i) during the period of 15 days ending on the due date for redemption of, or payment of any Instalment Amount in respect of, that Note;
- (ii) during the period of 15 days before any date on which Notes may be called for redemption by the Issuer at its option pursuant to Condition 7.4;
- (iii) after any such Note has been called for redemption; or
- (iv) during the period of seven days ending on (and including) any Record Date.

2.9 Definitions

In these Conditions, the following expressions shall have the following meanings:

“**Distribution Compliance Period**” means the period that ends 40 days after the completion of the distribution of each Tranche of Notes, as certified by the relevant Dealer (in the case of a non-syndicated issue) or the relevant Lead Manager (in the case of a syndicated issue);

“**Institutional Accredited Investor**” means an institutional investor that qualifies as an “accredited investor” (as defined in Rule 501(a)(1), (2), (3) or (7) under the Securities Act);

“**Legended Note**” means Registered Notes in definitive form that are issued to Institutional Accredited Investors and Registered Notes (whether in definitive form or represented by a Registered Global Note) sold in private transactions to QIBs in accordance with the requirements of Rule 144A;

“**QIB**” means a “qualified institutional buyer” within the meaning of Rule 144A;

“**Regulation S**” means Regulation S under the Securities Act;

“**Regulation S Global Note**” means a Registered Global Note representing Notes sold outside the United States in reliance on Regulation S;

“**Rule 144A**” means Rule 144A under the Securities Act;

“**Rule 144A Global Note**” means a Registered Global Note representing Notes sold in the United States to QIBs; and

“**Securities Act**” means the United States Securities Act of 1933, as amended.

3 STATUS

The Notes and any relative Receipts and Coupons are direct, unconditional and (subject to the provisions of Condition 4) unsecured obligations of the Issuer and (subject to the provisions of Condition 4) rank and will rank *pari passu*, without any preference among themselves, with all other outstanding unsecured and unsubordinated obligations of the Issuer, present and future, but, in the event of insolvency, only to the extent permitted by applicable laws relating to creditors' rights.

4 NEGATIVE PLEDGE

4.1 Negative Pledge

So long as any of the Notes remains outstanding, the Issuer will ensure that no Relevant Indebtedness (as defined below) of the Issuer or any of its Material Subsidiaries (as defined below) will be secured by any Security Interest (as defined below) upon, or with respect to, any of the present or future business, undertaking, assets or revenues (including any uncalled capital) of the Issuer or any of its Material Subsidiaries, except for any Permitted Security Interest, unless the Issuer, in the case of the

creation of the Security Interest, before or at the same time and, in any other case, promptly, takes any and all action necessary to ensure that:

- (a) all amounts payable by it under the Notes are secured by the Security Interest equally and rateably with the Relevant Indebtedness to the satisfaction of the Principal Paying Agent; or
- (b) such other Security Interest or other arrangement (whether or not it includes the giving of a Security Interest) as is approved by an Extraordinary Resolution (which is defined in the Agency Agreement as a resolution duly passed by a majority of not less than three-fourths of the votes cast thereon) of the Noteholders.

4.2 Interpretation

For the purposes of these Conditions:

- (a) **“Indebtedness”** means any obligation (whether present or future, actual or contingent, secured or unsecured, as principal or surety or otherwise) for the payment or repayment of money;
- (b) **“Material Subsidiary”** means at any time a Subsidiary of the Issuer:
 - (i) whose net profit before tax and extraordinary items (consolidated in the case of a Subsidiary which itself has Subsidiaries) or whose total assets (consolidated in the case of a Subsidiary which itself has Subsidiaries) represent in each case (or, in the case of a Subsidiary acquired after the end of the financial period to which the then latest audited consolidated accounts of the Issuer and its Subsidiaries relate, are equal to) not less than 5 per cent. of the consolidated net profit before tax and extraordinary items of the Issuer, or, as the case may be, consolidated total assets, of the Issuer and its Subsidiaries taken as a whole, all as calculated respectively by reference to the then latest audited accounts (consolidated or, as the case may be, unconsolidated) of such Subsidiary and the then latest audited consolidated accounts of the Issuer and its Subsidiaries, provided that:
 - (A) if the then latest audited consolidated accounts of the Issuer and its Subsidiaries show a net loss before tax and extraordinary items for the relevant financial period then there shall be substituted for the words “net profit before tax and extraordinary items” the words “total income” for the purposes of this definition; and
 - (B) in the case of a Subsidiary of the Issuer acquired after the end of the financial period to which the then latest audited consolidated accounts of the Issuer and its Subsidiaries relate, the reference to the then latest audited consolidated accounts of the Issuer and its Subsidiaries for the purposes of the calculation above shall, until consolidated accounts for the financial period in which the acquisition is made have been prepared and audited as aforesaid, be deemed to be a reference to such first-mentioned accounts as if such Subsidiary had been shown in such accounts by reference to its then latest relevant audited accounts, adjusted as deemed appropriate by the Issuer;
 - (ii) to which is transferred the whole or substantially the whole of the undertaking and assets of a Subsidiary of the Issuer which immediately prior to such transfer is a Material Subsidiary, provided that the transferor Subsidiary shall upon such transfer forthwith cease to be a Material Subsidiary and the transferee Subsidiary shall cease to be a Material Subsidiary pursuant to this subparagraph (ii) on the date on which the consolidated accounts of the Issuer and its Subsidiaries for the financial period current at the date of such transfer have been prepared and audited as aforesaid but so that such

transferor Subsidiary or such transferee Subsidiary may be a Material Subsidiary on or at any time after the date on which such consolidated accounts have been prepared and audited as aforesaid by virtue of the provisions of subparagraph (i) above or, prior to or after such date, by virtue of any other applicable provision of this definition; or

- (iii) to which is transferred an undertaking or assets which, taken together with the undertaking or assets of the transferee Subsidiary, generated (or, in the case of the transferee Subsidiary being acquired after the end of the financial period to which the then latest audited consolidated accounts of the Issuer and its Subsidiaries relate, generate net profit before tax and extraordinary items equal to) not less than 5 per cent. of the consolidated net profit before tax and extraordinary items of the Issuer, or represent (or, in the case aforesaid, are equal to) not less than 5 per cent. of the consolidated total assets of the Issuer and its Subsidiaries taken as a whole, all as calculated as referred to in subparagraph (i) above, provided that the transferor Subsidiary (if a Material Subsidiary) shall upon such transfer forthwith cease to be a Material Subsidiary unless immediately following such transfer its undertaking and assets generate (or, in the case aforesaid, generate net profit before tax and extraordinary items equal to) not less than 5 per cent. of the consolidated net profit before tax and extraordinary items of the Issuer, or its assets represent (or, in the case aforesaid, are equal to) not less than 5 per cent. of the consolidated total assets of the Issuer and its Subsidiaries taken as a whole, all as calculated as referred to in subparagraph (i) above, and the transferee Subsidiary shall cease to be a Material Subsidiary pursuant to this subparagraph (iii) on the date on which the consolidated accounts of the Issuer and its Subsidiaries for the financial period current at the date of such transfer have been prepared and audited but so that such transferor Subsidiary or such transferee Subsidiary may be a Material Subsidiary on or at any time after the date on which such consolidated accounts have been prepared and audited as aforesaid by virtue of the provisions of subparagraph (i) above or, prior to or after such date, by virtue of any other applicable provision of this definition.

(c) **Permitted Security Interest** means:

- (i) any Security Interest existing as at the permitted security interest date (the “**Permitted Security Interest Date**”) specified in the applicable Pricing Supplement and disclosed in writing in a letter dated on or before the Permitted Security Interest Date from the Issuer and which secures only Relevant Indebtedness outstanding as at the Permitted Security Interest Date;
- (ii) any Security Interest securing any Indebtedness denominated in Rupees and obtained in the domestic markets in India;
- (iii) any Security Interest securing indebtedness denominated in a currency other than Rupees and obtained solely from any international funding agency including any governmental export credit agency;
- (iv) any Security Interest securing any Indebtedness denominated in any currency and due for repayment within 12 months from the date of incurring such Indebtedness, and in respect of which no commitment, obligations or arrangement exists to renew, rollover, refinance or otherwise extend the term of such Indebtedness;
- (v) any lien arising by operation of law and in the ordinary course of its trading activities in respect of any obligation which is less than thirty (30) days overdue or is being contested in good faith and by appropriate means;

- (vi) any Security Interest securing Financial Indebtedness which does not at any time exceed an aggregate amount of one hundred million U.S. dollars (U.S.\$100,000,000) (or its equivalent in other currencies) provided however that such Financial Indebtedness is raised by a Subsidiary (other than a Material Subsidiary) and which is without any recourse to the Issuer; and
 - (vii) any Security Interest that has been approved by the Noteholders giving prior written consent to the Issuer (such consent not to be unreasonably withheld);
- (d) **“Relevant Indebtedness”** means:
- (i) any present or future indebtedness (whether being principal, interest or other amounts) for or in respect of any notes, bonds, debentures, debenture stock, loan stock or other securities or any loan or other borrowed money or any liability under or in respect of any acceptance or acceptance credit (together, **“Indebtedness for Borrowed Money”**) which:
 - (a) by their terms are payable in a currency other than Rupees or are denominated in Rupees and more than 50 per cent. of the aggregate principal amount of which is initially distributed outside of India by or with the authorisation of the Issuer; and
 - (b) are for the time being, or are intended to be, or capable of being quoted, listed or ordinarily dealt in on any stock exchange, over-the-counter or other securities market; and
 - (ii) any guarantee or indemnity of any such indebtedness;
- (e) **“Security Interest”** means any mortgage, charge, pledge, lien or other security interest; and
- (f) **“Subsidiary”** means, in relation to the Issuer, any company:
- (i) in which the Issuer holds a majority of the voting rights; or
 - (ii) of which the Issuer is a member and has the right to appoint or remove a majority of the board of directors or (iii) of which the Issuer is a member and controls a majority of the voting rights, and includes any company which is a Subsidiary of a Subsidiary of the Issuer.

5 INTEREST

All interest payable on the Notes shall be subject to applicable laws including but not limited to the ECB Guidelines and in accordance with any specific approval received by the Issuer from the RBI or designated authorised dealer bank (“AD Bank”) pursuant to the ECB Guidelines or any other regulatory authority.

5.1 Interest on Fixed Rate Notes

Each Fixed Rate Note bears interest on its outstanding nominal amount (or, if it is a Partly Paid Note, the nominal amount paid up) from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest. Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date.

If the Notes are in definitive form, except as provided in the applicable Pricing Supplement, the amount of interest payable on each Interest Payment Date in respect of the Fixed Interest Period

ending on (but excluding) such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Pricing Supplement, amount to the Broken Amount so specified.

As used in these Conditions, “**Fixed Interest Period**” means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.

Except in the case of Notes in definitive form where an applicable Fixed Coupon Amount or Broken Amount is specified in the applicable Pricing Supplement, interest is required to be calculated in respect of any period by applying the Rate of Interest to:

- (A) in the case of Fixed Rate Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Fixed Rate Notes represented by such Global Note (or, if they are Partly Paid Notes, the aggregate amount paid up); or
- (B) in the case of Fixed Rate Notes in definitive form, the Calculation Amount;

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Fixed Rate Note in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

Each Fixed Rate Note shall have an interest rate which shall be in accordance with Indian regulatory requirements (including but not limited to the ECB Guidelines) or any specific approval received by the Issuer from the RBI or AD Bank pursuant to the ECB Guidelines or any other regulatory authority.

“**Day Count Fraction**” means, in respect of the calculation of an amount of interest in accordance with this Condition 5.1:

- (a) if “**Actual/Actual (ICMA)**” is specified in the applicable Pricing Supplement:
 - (i) in the case of Notes where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the “**Accrual Period**”) is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of:
 - (A) the number of days in such Determination Period; and
 - (B) the number of Determination Dates (as specified in the applicable Pricing Supplement) that would occur in one calendar year; or
 - (ii) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
 - (A) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and
 - (B) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination

Period and (y) the number of Determination Dates that would occur in one calendar year;

- (b) if “**30/360**” is specified in the applicable Pricing Supplement, the number of days in the period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (such number of days being calculated on the basis of a year of 360 days with 12 30-day months) divided by 360; or
- (c) if “**Actual/365 (Fixed)**” is specified in the applicable Pricing Supplement, the actual number of days in the Accrual Period divided by 365.

In these Conditions:

“**Determination Period**” means each period from (and including) a Determination Date to (but excluding) the next Determination Date (including, where either the Interest Commencement Date or the final Interest Payment Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date); and

“**sub-unit**” means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, one cent.

5.2 Interest on Floating Rate Notes and Index Linked Interest Notes

(a) *Interest Payment Dates*

Each Floating Rate Note and Index Linked Interest Note bears interest on its outstanding nominal amount (or, if it is a Partly Paid Note, the amount paid up) from (and including) the Interest Commencement Date and such interest will be payable in arrear on either:

- (i) the Specified Interest Payment Date(s) in each year specified in the applicable Pricing Supplement; or
- (ii) if no Specified Interest Payment Date(s) is/are specified in the applicable Pricing Supplement, each date (each such date, together with each Specified Interest Payment Date, an “**Interest Payment Date**”) which falls the number of months or other period specified as the Specified Period in the applicable Pricing Supplement after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

Such interest will be payable in respect of each Interest Period. In these Conditions, “**Interest Period**” means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.

(b) *Rate of Interest*

The Rate of Interest payable from time to time in respect of Floating Rate Notes and Index Linked Interest Notes will be determined in the manner specified in the applicable Pricing Supplement. The Rate of Interest shall be in accordance with Indian regulatory requirements (including the ECB Guidelines) or any specific approval received by the Issuer from the RBI or AD Bank pursuant to the ECB Guidelines or any other regulatory authority.

(i) *ISDA Determination for Floating Rate Notes*

Where ISDA Determination is specified in the applicable Pricing Supplement as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any). For the purposes of this subparagraph (A), “**ISDA Rate**” for an Interest Period means a rate equal to the Floating

Rate that would be determined by the Principal Paying Agent under an interest rate swap transaction if the Principal Paying Agent were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions, as published by the International Swaps and Derivatives Association, Inc. and as amended and updated as of the Issue Date of the first Tranche of the Notes (the “**ISDA Definitions**”) and under which:

- (A) the Floating Rate Option is as specified in the applicable Pricing Supplement;
- (B) the Designated Maturity is a period specified in the applicable Pricing Supplement; and
- (C) the relevant Reset Date is the day specified in the applicable Pricing Supplement.

For the purposes of this sub-paragraph (i), Floating Rate, Calculation Agent, Floating Rate Option, Designated Maturity and Reset Date have the meanings given to those terms in the ISDA Definitions.

Unless otherwise stated in the applicable Pricing Supplement the Minimum Rate of Interest shall be deemed to be zero.

(ii) *Screen Rate Determination for Floating Rate Notes*

Where Screen Rate Determination is specified in the applicable Pricing Supplement as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will, subject as provided below, be either:

- (A) the offered quotation; or
- (B) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate (being either LIBOR or EURIBOR as specified in the applicable Pricing Supplement) which appears or appear, as the case may be, on the Relevant Screen Page (or such replacement page on that service which displays the information) as of 11.00 a.m. (London time, in case of LIBOR, or Brussels, in the case of EURIBOR) on the Interest Determination Date in question plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any), all as determined by the Principal Paying Agent or such other party specified in the applicable Pricing Supplement. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Principal Paying Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

If the Reference Rate from time to time in respect of Floating Rate Notes is specified in the applicable Pricing Supplement as being other than LIBOR or EURIBOR, the Rate of Interest in respect of such Notes will be determined as provided in the applicable Pricing Supplement.

The Agency Agreement contains provisions for determining the Rate of Interest in the event that the Relevant Screen Page is not available or if, in the case of (A) above, no such offered quotation appears or, in the case of (B) above, fewer than three such

offered quotations appear, in each case as of the time specified in the preceding paragraph.

(c) ***Minimum and/or Maximum Rate of Interest***

If the applicable Pricing Supplement specifies a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (b) above is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest.

If the applicable Pricing Supplement specifies a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (b) above is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.

The Rate of Interest shall not exceed the rate of interest as specified under the ECB Guidelines or any specific approval received by the Issuer from the RBI or AD Bank pursuant to the ECB Guidelines or any other regulatory authority.

(d) ***Determination of Rate of Interest and Calculation of Interest Amounts***

The Principal Paying Agent, in the case of Floating Rate Notes, and the Calculation Agent, in the case of Index Linked Interest Notes, will at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period. In the case of Index Linked Interest Notes, the Calculation Agent will notify the Principal Paying Agent of the Rate of Interest for the relevant Interest Period as soon as practicable after calculating the same. If required to be calculated by it, the Principal Paying Agent or, as the case may be, the Calculation Agent shall cause the Final Redemption Amount, Early Redemption Amount, Optional Redemption Amount or any Instalment Amount to be notified to the Issuer, each of the Paying Agents, the Noteholders and, if the Notes are listed on a stock exchange and the rules of such stock exchange or other relevant authority so require, the Issuer will notify such stock exchange or other relevant authority as soon as practicable after it is notified of the same by the Calculation Agent.

The Principal Paying Agent or the Calculation Agent, as the case may be, will calculate the amount of interest (the Interest Amount) payable on the Floating Rate Notes or Index Linked Interest Notes for the relevant Interest Period by applying the Rate of Interest to:

- (A) in the case of Floating Rate Notes or Index Linked Interest Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Notes represented by such Global Note (or, if they are Partly Paid Notes, the aggregate amount paid up); or
- (B) in the case of Floating Rate Notes or Index Linked Interest Notes in definitive form, the Calculation Amount;

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Floating Rate Note or an Index Linked Interest Note in definitive form is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

Each Floating Rate Note or Index Linked Interest Note shall have an interest rate which shall be in accordance with Indian regulatory requirements (including but not limited to the ECB Guidelines) or any specific approval received by the Issuer from the RBI or AD Bank pursuant to the ECB Guidelines or any other regulatory authority.

“**Day Count Fraction**” means, in respect of the calculation of an amount of interest in accordance with this Condition 5.2:

- (i) if “**Actual/Actual (ISDA)**” or “**Actual/Actual**” is specified in the applicable Pricing Supplement, the actual number of days in the Interest Period divided by 365 (or, if any portion of that Interest Period falls in a leap year, the sum of:
 - (A) the actual number of days in that portion of the Interest Period falling in a leap year divided by 366; and
 - (B) the actual number of days in that portion of the Interest Period falling in a non-leap year divided by 365);
- (ii) if “**Actual/365 (Fixed)**” is specified in the applicable Pricing Supplement, the actual number of days in the Interest Period divided by 365;
- (iii) if “**Actual/365 (Sterling)**” is specified in the applicable Pricing Supplement, the actual number of days in the Interest Period divided by 365 or, in the case of an Interest Payment Date falling in a leap year, 366;
- (iv) if “**Actual/360**” is specified in the applicable Pricing Supplement, the actual number of days in the Interest Period divided by 360;
- (v) if “**30/360**”, “**360/360**” or “**Bond Basis**” is specified in the applicable Pricing Supplement, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{([360 \times (Y1 - Y2)] + [30 \times (M2 - M1)] + (D2 - D1))}{360}$$

Where:

Y1 is the year, expressed as a number, in which the first day of the Interest Period falls;

Y2 is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

M1 is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

M2 is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

D1 is the first calendar day, expressed as a number, of the Interest Period, unless such number is 31, in which case D1 will be 30; and

D2 is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31 and D1 is greater than 29, in which case D2 will be 30;

- (vi) if “**30E/360**” or “**Eurobond Basis**” is specified in the applicable Pricing Supplement, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

where:

Y1 is the year, expressed as a number, in which the first day of the Interest Period falls;

Y2 is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

M1 is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

M2 is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

D1 is the first calendar day, expressed as a number, of the Interest Period, unless such number would be 31, in which case D1 will be 30; and

D2 is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31, in which case D2 will be 30; and

- (vii) if “**30E/360 (ISDA)**” is specified in the applicable Pricing Supplement, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{([360 \times (Y1 - Y2)] + [30 \times (M2 - M1)] + (D2 - D1))}{360}$$

where:

Y1 is the year, expressed as a number, in which the first day of the Interest Period falls;

Y2 is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

M1 is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

M2 is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

D1 is the first calendar day, expressed as a number, of the Interest Period, unless (i) that day is the last day of February or (ii) such number would be 31, in which case D1 will be 30; and

D2 is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless (i) that day is the last day of February but not the Maturity Date or (ii) such number would be 31, in which case D2 will be 30.

(e) ***Notification of Rate of Interest and Interest Amounts***

The Principal Paying Agent will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer and the Issuer will cause the Rate of Interest and each Interest Amount for each Interest Period to be notified to any stock exchange on which the relevant Floating Rate Notes or Index Linked Interest Notes are for the time being listed and notice thereof to be published in accordance with Condition 14 as soon as possible after their determination but in no event later than the fourth London Business Day thereafter. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest

Period. Any such amendment will be promptly notified to each stock exchange on which the relevant Floating Rate Notes or Index Linked Interest Notes are for the time being listed and to the Noteholders in accordance with Condition 14. For the purposes of this paragraph, the expression London Business Day means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for business in London.

(f) Certificates to be Final

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 5, whether by the Principal Paying Agent or, if applicable, the Calculation Agent, shall (in the absence of wilful default, bad faith, manifest error or proven error) be binding on the Issuer, the Principal Paying Agent, the Registrar, the Calculation Agent (if applicable), the other Paying Agents and all Noteholders, Receiptholders and Couponholders and (in the absence as aforesaid) no liability to the Issuer, the Noteholders, the Receiptholders or the Couponholders shall attach to the Principal Paying Agent or, if applicable, the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

5.3 Benchmark discontinuation

(a) Independent Adviser

If a Benchmark Event occurs in relation to an Original Reference Rate when any Rate of Interest (or any component part thereof) remains to be determined by reference to such Original Reference Rate, then the Issuer shall use its reasonable endeavours to appoint an Independent Adviser, as soon as reasonably practicable, to determine a Successor Rate, failing which an Alternative Rate (in accordance with Condition 5.3(b)) and, in either case, an Adjustment Spread if any (in accordance with Condition 5.3(c)) and any Benchmark Amendments (in accordance with Condition 5.3(d)).

An Independent Adviser appointed pursuant to this Condition 5.3 shall act in good faith and in a commercially reasonable manner as an expert and in consultation with the Issuer. In the absence of bad faith or fraud, the Independent Adviser shall have no liability whatsoever to the Issuer, the Principal Paying Agent, the Paying Agents, or the Noteholders, the Receiptholders or the Couponholders for any determination made by it, pursuant to this Condition 5.3.

If:

- (i) the Issuer is unable to appoint an Independent Adviser; or
- (ii) the Independent Adviser appointed by it fails to determine a Successor Rate or, failing which, an Alternative Rate in accordance with this Condition 5.3(a) prior to the relevant Interest Determination Date, the Rate of Interest applicable to the next succeeding Interest Period shall be equal to the Rate of Interest last determined in relation to the Notes in respect of the immediately preceding Interest Period. If there has not been a first Interest Payment Date, the Rate of Interest shall be the initial Rate of Interest.

Where a different Margin or Maximum or Minimum Rate of Interest is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin or Maximum or Minimum Rate of Interest relating to the relevant Interest Period shall be substituted in place of the Margin or Maximum or Minimum Rate of Interest relating to that last preceding Interest Period. For the avoidance of doubt, this Condition 5.3(a) shall apply

to the relevant next succeeding Interest Period only and any subsequent Interest Periods are subject to the subsequent operation of, and to adjustment as provided in, this Condition 5.3(a).

(b) Successor Rate or Alternative Rate

If the Independent Adviser, determines that:

- (i) there is a Successor Rate, then such Successor Rate shall (subject to adjustment as provided in Condition 5.3(c)) subsequently be used in place of the Original Reference Rate to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the operation of this Condition 5.3); or
- (ii) there is no Successor Rate but that there is an Alternative Rate, then such Alternative Rate shall (subject to adjustment as provided in Condition 5.3(c)) subsequently be used in place of the Original Reference Rate to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the operation of this Condition 5.3).

(c) Adjustment Spread

If the Independent Adviser determines:

- (i) that an Adjustment Spread is required to be applied to the Successor Rate or the Alternative Rate (as the case may be); and
- (ii) the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Adjustment Spread shall be applied to the Successor Rate or the Alternative Rate (as the case may be).

(d) Benchmark Amendments

If any Successor Rate, Alternative Rate or Adjustment Spread is determined in accordance with this Condition 5.3 and the Independent Adviser, determines:

- (i) that amendments to these Conditions and/or the Agency Agreement are necessary to ensure the proper operation of such Successor Rate, Alternative Rate and/or Adjustment Spread (such amendments, the “**Benchmark Amendments**”); and
- (ii) the terms of the Benchmark Amendments, then the Issuer shall, subject to giving notice thereof in accordance with Condition 5.3(e), without any requirement for the consent or approval of Noteholders, vary these Conditions and/or the Agency Agreement to give effect to such Benchmark Amendments with effect from the date specified in such notice.

At the request of the Issuer, but subject to receipt by the Principal Paying Agent of a certificate signed by two directors of the Issuer pursuant to Condition 5.3(e), the Principal Paying Agent shall (at the expense of the Issuer), without any requirement for the consent or approval of the Noteholders, be obliged to concur with the Issuer in effecting any Benchmark Amendments, provided that the Principal Paying Agent shall not be obliged so to concur if in the opinion of the Principal Paying Agent doing so would impose more onerous obligations upon it or expose it to any additional duties, responsibilities or liabilities or reduce or amend the protective provisions afforded to the Principal Paying Agent in these Conditions in any way.

In connection with any such variation in accordance with this Condition 5.3(d), the Issuer shall comply with the rules of any stock exchange on which the Notes are for the time being listed or admitted to trading.

(e) **Notices, etc.**

Any Successor Rate, Alternative Rate, Adjustment Spread and the specific terms of any Benchmark Amendments, determined under this Condition 5.3 will be notified promptly by the Issuer to the Principal Paying Agent, the Calculation Agent, the Paying Agents and, in accordance with Condition 14, the Noteholders. Such notice shall be irrevocable and shall specify the effective date of the Benchmark Amendments, if any.

No later than notifying the Principal Paying Agent of the same, the Issuer shall deliver to the Principal Paying Agent a certificate signed by two directors of the Issuer:

- (a) confirming:
 - (i) that a Benchmark Event has occurred;
 - (ii) the Successor Rate or, as the case may be, the Alternative Rate and;
 - (iii) where applicable, any Adjustment Spread and/or the specific terms of any Benchmark Amendments, in each case as determined in accordance with the provisions of this Condition 5.3; and
- (b) certifying that the Benchmark Amendments are necessary to ensure the proper operation of such Successor Rate, Alternative Rate and/or Adjustment Spread.

The Principal Paying Agent shall be entitled to rely on such certificate (without liability to any person) as sufficient evidence thereof. The Successor Rate or Alternative Rate and the Adjustment Spread (if any) and the Benchmark Amendments (if any) specified in such certificate will (in the absence of manifest error or bad faith in the determination of the Successor Rate or Alternative Rate and the Adjustment Spread (if any) and the Benchmark Amendments (if any) and without prejudice to the Principal Paying Agent's ability to rely on such certificate as aforesaid) be binding on the Issuer, the Principal Paying Agent, the Calculation Agent, the Paying Agents and the Noteholders.

(f) **Survival of Original Reference Rate**

Without prejudice to the obligations of the Issuer under Condition 5.3 (a), (b), (c) and (d), the Original Reference Rate and the fallback provisions provided for in Clauses 8.2(b) and (c) of the Agency Agreement will continue to apply unless and until a Benchmark Event has occurred.

(g) **Definitions:**

As used in this Condition 5.3:

“Adjustment Spread” means either a spread (which may be positive or negative), or the formula or methodology for calculating a spread, in either case, which the Independent Adviser, determines is required to be applied to the Successor Rate or the Alternative Rate (as the case may be) to reduce or eliminate, to the extent reasonably practicable in the circumstances, any economic prejudice or benefit (as the case may be) to Noteholders, Receiptholders and Couponholders as a result of the replacement of the Original Reference Rate with the Successor Rate or the Alternative Rate (as the case may be) and is the spread, formula or methodology which:

- (i) in the case of a Successor Rate, is formally recommended in relation to the replacement of the Original Reference Rate with the Successor Rate by any Relevant Nominating Body; or (if no such recommendation has been made, or in the case of an Alternative Rate);

- (ii) the Independent Adviser determines, is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the Original Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Rate (as the case may be); (or if the Issuer determines that no such industry standard is recognised or acknowledged);
- (iii) the Independent Adviser, determines to be appropriate.

“**Alternative Rate**” means an alternative benchmark or screen rate which the Independent Adviser, determines in accordance with Condition 5.3(b) is customary in market usage in the international debt capital markets for the purposes of determining rates of interest (or the relevant component part thereof) in the same Specified Currency as the Notes.

“**Benchmark Amendments**” has the meaning given to it in Condition 5.3(d).

“**Benchmark Event**” means:

- (1) the Original Reference Rate ceasing to be published for a period of at least five Business Days or ceasing to exist; or
- (2) a public statement by the administrator of the Original Reference Rate that it has ceased or that it will cease publishing the Original Reference Rate permanently or indefinitely (in circumstances where no successor administrator has been appointed that will continue publication of the Original Reference Rate); or
- (3) a public statement by the supervisor of the administrator of the Original Reference Rate, that the Original Reference Rate has been or will be permanently or indefinitely discontinued; or
- (4) a public statement by the supervisor of the administrator of the Original Reference Rate as a consequence of which the Original Reference Rate will be prohibited from being used either generally, or in respect of the Notes;
- (5) the making of a public statement by the supervisor of the administrator of the Original Reference Rate that the Original Reference Rate will be (or will be deemed by such supervisor to be) no longer representative of its relevant underlying market; or
- (6) it has become unlawful for any Paying Agent, Calculation Agent the Issuer or other party to calculate any payments due to be made to any Noteholder using the Original Reference Rate;

provided that the Benchmark Event shall be deemed to occur (a) in the case of sub-paragraphs (2) and (3) above, on the date of the cessation of publication of the Original Reference Rate or the discontinuation of the Original Reference Rate, as the case may be, (b) in the case of sub-paragraph (4) above, on the date of the prohibition of use of the Original Reference Rate and (c) in the case of sub-paragraph (5) above, on the date with effect from which the Original Reference Rate will no longer be (or will be deemed by the relevant supervisor to no longer be) representative of its relevant underlying market and which is specified in the relevant public statement, and, in each case, not the date of the relevant public statement.

The occurrence of a Benchmark Event shall be determined by the Issuer and promptly notified to the Principal Paying Agent, the Calculation Agent and the Paying Agents. For the avoidance of doubt, neither the Principal Paying Agent, the Calculation Agent nor the Paying Agents shall have any responsibility for making such determination.

“**Independent Adviser**” means an independent financial institution of international repute or an independent financial adviser with appropriate expertise appointed by the Issuer under Condition 5.3(a).

“**Original Reference Rate**” means the originally-specified benchmark or screen rate (as applicable) used to determine the Rate of Interest (or any component part thereof) on the Notes.

“**Relevant Nominating Body**” means, in respect of a benchmark or screen rate (as applicable):

- (i) the central bank for the currency to which the benchmark or screen rate (as applicable) relates, or any central bank or other supervisory authority which is responsible for supervising the administrator of the benchmark or screen rate (as applicable); or
- (ii) any working group or committee sponsored by, chaired or co-chaired by or constituted at the request of (a) the central bank for the currency to which the benchmark or screen rate (as applicable) relates, (b) any central bank or other supervisory authority which is responsible for supervising the administrator of the benchmark or screen rate (as applicable), (c) a group of the aforementioned central banks or other supervisory authorities or (d) the Financial Stability Board or any part thereof.

“**Successor Rate**” means a successor to or replacement of the Original Reference Rate which is formally recommended by any Relevant Nominating Body.

5.4 Interest on Dual Currency Interest Notes

The rate or amount of interest payable in respect of Dual Currency Interest Notes shall be determined in the manner specified in the applicable Pricing Supplement.

Each Dual Currency Interest Note shall have an interest rate which shall be in accordance with Indian regulatory requirements (including but not limited to the ECB Guidelines) or any specific approval received by the Issuer from the RBI or AD Bank pursuant to the ECB Guidelines or any other statutory or regulatory authority.

5.5 Interest on Partly Paid Notes

In the case of Partly Paid Notes (other than Partly Paid Notes which are Zero Coupon Notes), interest will accrue as aforesaid on the paid-up nominal amount of such Notes and otherwise as specified in the applicable Pricing Supplement.

Each Partly Paid Note shall have an interest rate which shall be in accordance with Indian regulatory requirements (including but not limited to the ECB Guidelines) or any specific approval received by the Issuer from the RBI or AD Bank pursuant to the ECB Guidelines or any other regulatory authority.

5.6 Accrual of Interest

Each Note (or in the case of the redemption of part only of a Note, that part only of such Note) will cease to bear interest (if any) from and including the date for its redemption unless, upon due presentation thereof, payment of principal is improperly withheld or refused. In such event, interest will continue to accrue until whichever is the earlier of:

- (a) the date on which all amounts due in respect of such Note have been paid; and
- (b) five days after the date on which the full amount of the moneys payable in respect of such Note has been received by the Principal Paying Agent or the Registrar, as the case may be, and notice to that effect has been given to the Noteholders in accordance with Condition 14.

5.7 Definitions

In these Conditions, if a Business Day Convention is specified in the applicable Pricing Supplement and (x) if there is no numerically corresponding day on the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (A) in any case where Specified Periods are specified in accordance with Condition 5.2(a)(ii) above, the Floating Rate Convention, such Interest Payment Date:
 - (a) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (ii) below shall apply *mutatis mutandis*; or
 - (b) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event:
 - (i) such Interest Payment Date shall be brought forward to the immediately preceding Business Day; and
 - (ii) each subsequent Interest Payment Date shall be the last Business Day in the month which falls the Specified Period after the preceding applicable Interest Payment Date occurred; or
- (B) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day; or
- (C) the Modified Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (D) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.

In these Conditions, “**Business Day**” means:

- (a) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in each Additional Business Centre specified in the applicable Pricing Supplement; and
- (b) either:
 - (i) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (if other than London and any Additional Business Centre and which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney and Auckland, respectively); or
 - (ii) in relation to any sum payable in euro, a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET2) System or any successor system (the “**TARGET2 System**”) is open.

6 PAYMENTS

6.1 Method of payment

Subject as provided below:

- (a) payments in a Specified Currency other than euro will be made by credit or transfer to an account in the relevant Specified Currency maintained by the payee with a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney and Auckland); and
- (b) payments in euro will be made by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee.

6.2 Presentation of Definitive Bearer Notes, Receipts and Coupons

Payments of principal in respect of Definitive Bearer Notes will (subject as provided below) be made in the manner provided in Condition 5.1 above only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Definitive Bearer Notes, and payments of interest in respect of Definitive Bearer Notes will (subject as provided below) be made as aforesaid only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Coupons, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America and its possessions).

Payments of Instalment Amounts (if any) in respect of Definitive Bearer Notes, other than the final instalment, will (subject as provided below) be made in the manner provided in Condition 5.1 above against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Receipt in accordance with the preceding paragraph. Payment of the final instalment will be made in the manner provided in Condition 5.1 above only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Bearer Note in accordance with the preceding paragraph. Each Receipt must be presented for payment of the relevant instalment together with the Definitive Bearer Note to which it appertains. Receipts presented without the Definitive Bearer Note to which they appertain do not constitute valid obligations of the Issuer. Upon the date on which any Definitive Bearer Note becomes due and repayable, unmatured Receipts (if any) relating thereto (whether or not attached) shall become void and no payment shall be made in respect thereof.

Fixed Rate Notes in definitive bearer form (other than Dual Currency Notes, Index Linked Notes or Long Maturity Notes (as defined below)) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of 10 years after the Relevant Date (as defined in Condition 8) in respect of such principal (whether or not such Coupon would otherwise have become void under Condition 9) or, if later, five years from the date on which such Coupon would otherwise have become due, but in no event thereafter.

Upon any Fixed Rate Note in definitive bearer form becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the date on which any Floating Rate Note, Dual Currency Note, Index Linked Note or Long Maturity Note in definitive form becomes due and repayable, unmatured Coupons and Talons (if any)

relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. A “**Long Maturity Note**” is a Fixed Rate Note (other than a Fixed Rate Note which on issue had a Talon attached) whose nominal amount on issue is less than the aggregate interest payable thereon provided that such Note shall cease to be a Long Maturity Note on the Interest Payment Date on which the aggregate amount of interest remaining to be paid after that date is less than the nominal amount of such Note.

If the due date for redemption of any Definitive Bearer Note is not an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant Definitive Bearer Note.

6.3 Payments in respect of Bearer Global Notes

Payments of principal and interest (if any) in respect of Bearer Notes represented by any Bearer Global Note will (subject as provided below) be made in the manner specified above in relation to Definitive Bearer Notes or otherwise in the manner specified in the relevant Bearer Global Note against presentation or surrender of such Bearer Global Note at the specified office of any Paying Agent outside the United States. A record of each payment made against presentation or surrender of any Bearer Global Note, distinguishing between any payment of principal and any payment of interest, will be made on such Bearer Global Note by the Paying Agent to which it was presented and such record shall be *prima facie* evidence that the payment in question has been made.

6.4 Payments in respect of Registered Notes

Payments of principal (other than instalments of principal prior to the final instalment) in respect of each Registered Note (whether or not in global form) will be made against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the Registered Note at the specified office of the Registrar or any of the Paying Agents. Such payments will be made by transfer to the Designated Account (as defined below) of the holder (or the first named of joint holders) of the Registered Note appearing in the register of holders of the Registered Notes maintained by the Registrar (the “**Register**”):

- (i) where in global form, at the close of the business day (being for this purpose, in respect of Notes clearing through Euroclear and Clearstream, a day on which Euroclear and Clearstream are open for business and, in respect of Notes clearing through DTC, a day on which DTC is open for business) before the relevant due date; and
- (ii) where in definitive form, at the close of business on the third business day (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar is located) before the relevant due date.

For these purposes, “**Designated Account**” means the account (which, in the case of a payment in Japanese yen to a non-resident of Japan, shall be a non-resident account) maintained by a holder with a Designated Bank and identified as such in the Register and “**Designated Bank**” means (in the case of payment in a Specified Currency other than euro) a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney and Auckland, respectively) and (in the case of a payment in euro) any bank which processes payments in euro.

Payments of interest and payments of instalments of principal (other than the final instalment) in respect of each Registered Note (whether or not in global form) will be made by wire transfer in the Specified Currency on the Business Day in the city where the specified office of the Registrar is located immediately preceding the relevant due date to the holder (or the first named of joint holders) of the Registered Note appearing in the Register:

- (i) where in global form, at the close of the business day (being for this purpose, a day on which Euroclear, Clearstream and DTC are open for business) before the relevant due date; and
- (ii) where in definitive form, at the close of business on the fifteenth day (whether or not such fifteenth day is a Business Day) before the relevant due date (the “**Record Date**”) at his address shown in the Register on the Record Date and at his risk.

Upon application of the holder to the specified office of the Registrar not less than three business days in the city where the specified office of the Registrar is located before the due date for any payment of interest in respect of a Registered Note, the payment may be made by transfer on the due date in the manner provided in the preceding paragraph. Any such application for transfer shall be deemed to relate to all future payments of interest (other than interest due on redemption) and instalments of principal (other than the final instalment) in respect of the Registered Notes which become payable to the holder who has made the initial application until such time as the Registrar is notified in writing to the contrary by such holder. Payment of the interest due in respect of each Registered Note on redemption and the final instalment of principal will be made in the same manner as payment of the principal amount of such Registered Note.

No commissions or expenses shall be charged to such holders by the Registrar in respect of any payments of principal or interest in respect of the Registered Notes.

All amounts payable to DTC or its nominee as registered holder of a Registered Global Note in respect of Notes denominated in a Specified Currency other than U.S. dollars shall be paid by transfer by the Registrar to an account in the relevant Specified Currency of the Exchange Agent on behalf of DTC or its nominee for payment in such Specified Currency for conversion into U.S. dollars in accordance with the provisions of the Agency Agreement.

None of the Issuer or the Registrar or any Paying Agent will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

6.5 General provisions applicable to payments

The holder of a Global Note shall be the only person entitled to receive payments in respect of Notes represented by such Global Note and the Issuer will be discharged by payment to, or to the order of, the holder of such Global Note in respect of each amount so paid. Each of the persons shown in the records of Euroclear, Clearstream or DTC as the beneficial holder of a particular nominal amount of Notes represented by such Global Note must look solely to Euroclear, Clearstream or DTC, as the case may be, for his share of each payment so made by the Issuer in respect of such Global Note to, or to the order of, the holder of such Global Note.

Notwithstanding the foregoing provisions of this Condition, if any amount of principal and/or interest in respect of Bearer Notes is payable in U.S. dollars, such U.S. dollar payments of principal and/or interest in respect of such Notes will be made at the specified office of a Paying Agent in the United States only if:

- (a) the Issuer has appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. dollars at such specified offices outside the United States of the full amount of principal and interest on the Bearer Notes in the manner provided above when due;
- (b) payment of the full amount of such principal and interest at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of principal and interest in U.S. dollars; and

- (c) such payment is then permitted under United States law without involving, in the opinion of the Issuer, adverse tax consequences to the Issuer.

6.6 Payment Day

If the date for payment of any amount in respect of any Note, Receipt or Coupon is not a Payment Day, the holder thereof shall not be entitled to payment until the next following Payment Day in the relevant place and shall not be entitled to further interest or other payment in respect of such delay. For these purposes, “**Payment Day**” means any day which (subject to Condition 10) is:

- (a) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in:
 - (i) in the case of Notes in definitive form only, the relevant place of presentation; and
 - (ii) any Additional Financial Centre specified in the applicable Pricing Supplement; and
- (b) either (A) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney and Auckland) or (B) in relation to any sum payable in euro, a day on which the TARGET2 System is open; and
- (c) in the case of any payment in respect of a Registered Global Note denominated in a Specified Currency other than U.S. dollars and registered in the name of DTC or its nominee and in respect of which an accountholder of DTC (with an interest in such Registered Global Note) has elected to receive any part of such payment in U.S. dollars, a day other than a Saturday or Sunday or any other day on which commercial banks are not authorized or required by law or regulation to be closed in New York City.

6.7 Interpretation of principal and interest

Any reference in these Conditions to principal in respect of the Notes shall be deemed to include, as applicable:

- (a) any additional amounts which may be payable with respect to principal under Condition 8;
- (b) the Final Redemption Amount of the Notes;
- (c) the Early Redemption Amount of the Notes;
- (d) the Optional Redemption Amount(s) (if any) of the Notes;
- (e) in relation to Notes redeemable in instalments, the Instalment Amounts;
- (f) in relation to Zero Coupon Notes, the Amortised Face Amount (as defined in Condition 7.5); and
- (g) any premium and any other amounts (other than interest) which may be payable by the Issuer under or in respect of the Notes.

Any reference in these Conditions to interest in respect of the Notes shall be deemed to include, as applicable, any additional amounts which may be payable with respect to interest under Condition 8.

6.8 Payments Subject to Fiscal and Other Laws

Payments will be subject in all cases, to (i) any fiscal or other laws and regulations applicable thereto, but without prejudice to the provisions of Condition 8, in the place of payment, (ii) any withholding

or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the “Code”) or otherwise imposed pursuant to Section 1471 through 1474 of the Code, any regulation or agreements thereunder, official interpretations thereof, or any law implementing an intergovernmental approach thereto, and (iii) any withholding or deduction required pursuant to Section 871(m) of the Code (“**871(m) Withholding**”). In addition, in determining the amount of 871(m) Withholding imposed with respect to any amounts to be paid on the Notes, the Issuer shall be entitled to withhold on any “dividend equivalent” (as defined for purposes of Section 871(m) of the Code) at the highest rate applicable to such payments regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law.

Payments on the Notes that reference U.S. securities or an index that includes U.S. securities may be calculated by reference to dividends on such U.S. securities that are reinvested at a rate of 70%. In such case, in calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer will be deemed to withhold, 30% of any dividend equivalent payments (as defined in Section 871(m) of the Code) in respect of the relevant U.S. securities. The Issuer will not pay any additional amounts to the holder on account of the Section 871(m) amount deemed withheld.

7 REDEMPTION AND PURCHASE

7.1 Redemption at Maturity

Unless previously redeemed or purchased and cancelled as specified below, each Note (including each Index Linked Redemption Note and Dual Currency Redemption Note) will be redeemed by the Issuer at its Final Redemption Amount specified in, or determined in the manner specified in, the applicable Pricing Supplement in the relevant Specified Currency on the Maturity Date.

7.2 Redemption for Tax Reasons

The Notes may be redeemed at the option of the Issuer in whole, but not in part, at any time (if the Notes are neither a Floating Rate Note, an Index Linked Interest Note nor a Dual Currency Note) or on any Interest Payment Date (if the Notes are either a Floating Rate Note, an Index Linked Interest Note or a Dual Currency Interest Note), on giving not less than 30 nor more than 60 days’ notice to the Principal Paying Agent and, in accordance with Condition 14, the Noteholders (which notice shall be irrevocable), if:

- (a) on the occasion of the next payment due under the Notes, the Issuer has or will become obliged to pay additional amounts as provided or referred to in Condition 8 as a result of any change in, or amendment to, the laws or regulations of a Tax Jurisdiction (as defined in Condition 8) or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the date on which agreement is reached to issue the first Tranche of the Notes for such Series; and
- (b) such obligation cannot be avoided by the Issuer taking reasonable measures available to it,

provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer would be obliged to pay such additional amounts were a payment in respect of the Notes then due.

Prior to the publication of any notice of redemption pursuant to this Condition, the Issuer shall deliver to the Principal Paying Agent to make available at its specified office (during the hours of 9:30 a.m. to 3 p.m., Mondays to Fridays (except public holidays)) to the Noteholders (1) a certificate signed by an authorised officer of the Issuer stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer so to redeem have occurred, and (2) an opinion of independent legal advisers of recognised standing to the

effect that the Issuer has or will become obliged to pay such additional amounts as a result of such change or amendment.

Notes redeemed pursuant to this Condition 7.2 will be redeemed at their Early Redemption Amount referred to in Condition 7.5 below together (if appropriate) with interest accrued to (but excluding) the date of redemption.

ECB Guidelines require the Issuer to obtain the prior approval of the RBI or AD Bank, as the case may be, before providing notice for or effecting such a redemption prior to the Maturity Date and such approval may not be forthcoming.

7.3 Redemption upon Change of Control

Within 15 days following any Change in Control, the Issuer will give notice to the Noteholders and the Principal Paying Agent in accordance with Condition 14 stating that a Change in Control has occurred.

Following the occurrence of a Change in Control, each Noteholder will have the right to require the Issuer to redeem any of the Notes held by such Noteholder at their principal amount outstanding together with interest (including additional amounts pursuant to Condition 8 if any) accrued to (but excluding) the date of redemption.

To exercise the right to require redemption of any Notes, the holder of the Notes must deliver such Notes at the specified office of any Paying Agent, in the case of Bearer Notes, or of any Transfer Agent or the Registrar, in the case of Registered Notes, on any business day (being, in relation to any place, a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for business in that place) at the place of such specified office falling within the notice period, accompanied by a duly signed and completed notice of exercise in the form (for the time being current and which may, if this Note is held in a clearing system, be any form acceptable to the clearing system delivered in a manner acceptable to the clearing system) obtainable from any specified office of any Paying Agent, Transfer Agent or the Registrar (a “**Put Notice**”) and in which the holder must specify a bank account to which payment is to be made under this paragraph accompanied by such Notes or evidence satisfactory to the relevant Paying Agent, Transfer Agent or the Registrar, as the case may be, that such Notes will, following the delivery of the Put Notice, be held to its order or under its control.

Subject to the receipt of RBI approvals, the Issuer is obliged to redeem any such Notes on the first business day in the place where such redemption notice is deposited falling 30 days after such deposit.

A Put Notice given by a holder of any Note shall be irrevocable and no Note deposited with a Paying Agent, Transfer Agent or the Registrar pursuant to this Condition 7.3 may be withdrawn without the prior written consent of the Issuer.

The right of any Noteholder to require the Issuer to redeem any Note upon a Change in Control is not conditional upon a Change in Control notice having been given by the Issuer, but will, if such notice is given by the Issuer, be exercised by such Noteholder within 45 days of the giving of such notice.

A “Change in Control” occurs when:

- (a) where the Issuer is not merged into another Person or acquired by another Person, (i) the Government of India ceases to own or (ii) no Government of India Entity individually owns, in each case, directly or indirectly, more than 50 per cent. of the voting rights of the issued share capital of the Issuer;
- (b) where the Issuer is acquired by another Person, the Government of India does not own, directly or indirectly, more than 50 per cent. of the voting rights of the issued share capital of such

Person; or such Person ceases to own, directly or indirectly, more than 50 per cent. of the voting rights of the issued share capital of the Issuer;

- (c) any Person (other than (x) the Government of India or (y) a Government of India Entity) acquires Control of the Issuer; or
- (d) the Issuer consolidates with or merges into or sells or transfers all or substantially all of its assets to any other Person, unless the consolidation, merger, sale or transfer will not result in the Government of India losing Control over the Issuer, such other Person or the successor entity (as applicable).

As of the date of this Offering Circular, the Government of India does not own, directly or indirectly, more than 50 per cent. of the voting rights of the issued share capital of the Issuer, and, for the avoidance of doubt, paragraph (a)(i) of the definition of “Change in Control” above shall only be relevant if, after the date of this Offering Circular, the Government of India does own, directly or indirectly, more than 50 per cent. of the voting rights of the issued share capital of the Issuer.

In this Condition 7.3:

“**Control**” means:

- (i) the ownership or control of more than 50 per cent. of the voting rights of the issued share capital of the Issuer; or
- (ii) the right to control or be able to direct the affairs and composition of the board of directors or equivalent body of the Issuer, whether obtained directly or indirectly, and whether obtained by ownership of share capital, the possession of voting rights, contract or otherwise;

“**Government of India Entity**” means a Person in whom the Government of India owns, directly or indirectly, more than 50 per cent. of the voting rights of its share capital; and

“**Persons**” includes any individual, company, corporation, firm, partnership, joint venture, undertaking, association, organisation, trust, state or agency of a state (in each case whether or not being a separate legal entity) but does not include the Issuer’s board of directors or any other governing board and does not include the Issuer’s wholly owned direct or indirect subsidiaries.

ECB Guidelines require the Issuer to obtain the prior approval of the RBI or the AD Bank, as the case may be, before providing notice for or effecting such a redemption prior to the Maturity Date and such approval may not be forthcoming.

7.4 Redemption at the Option of the Issuer (Issuer Call)

If Issuer Call is specified in the applicable Pricing Supplement, the Issuer may, having given:

- (a) not less than 15 nor more than 30 days’ notice to the Noteholders in accordance with Condition 14; and
- (b) not less than 15 days before the giving of the notice referred to in Condition 7.4(a), notice to:
 - (i) the Principal Paying Agent; and
 - (ii) in the case of a redemption of Registered Notes, the Registrar,

(which notices shall specify the date fixed for redemption and which shall be irrevocable), redeem all or some only of the Notes then outstanding on any Optional Redemption Date(s) and at the Optional Redemption Amount(s) specified in, or determined in the manner specified in, the applicable Pricing Supplement together, if appropriate, with interest accrued to (but excluding) the relevant Optional Redemption Date. Any such redemption must be of a nominal amount not less than the Minimum Redemption Amount and/or not more than the Maximum Redemption Amount, in each case as may

be specified in the applicable Pricing Supplement. In the case of a partial redemption of Notes, the Notes to be redeemed (“**Redeemed Notes**”) will:

- (i) in the case of Redeemed Notes represented by definitive Notes, be selected individually by lot not more than 30 days prior to the date fixed for redemption; and
- (ii) in the case of Redeemed Notes represented by a Global Note, be selected in accordance with the rules of Euroclear and/or Clearstream and/or, as the case may be, DTC.

In the case of Redeemed Notes represented by definitive Notes, a list of the serial numbers of such Redeemed Notes will be published in accordance with Condition 14 not less than 15 days prior to the date fixed for redemption.

ECB Guidelines require the Issuer to obtain the prior approval of the RBI or the AD Bank, as the case may be, before providing notice for or effecting such a redemption prior to the Maturity Date and such approval may not be forthcoming.

7.5 Early Redemption Amounts

For the purpose of Condition 7.2 above and Condition 10, each Note will be redeemed at its Early Redemption Amount calculated as follows:

- (a) in the case of a Note with a Final Redemption Amount equal to the Issue Price, at the Final Redemption Amount thereof;
- (b) in the case of a Note (other than a Zero Coupon Note but including an Instalment Note and Partly Paid Note) with a Final Redemption Amount which is or may be less or greater than the Issue Price or which is payable in a Specified Currency other than that in which the Note is denominated, at the amount specified in, or determined in the manner specified in, the applicable Pricing Supplement or, if no such amount or manner is so specified in the applicable Pricing Supplement, at its nominal amount; or
- (c) in the case of a Zero Coupon Note, at an amount (the “**Amortised Face Amount**”) calculated in accordance with the following formula:

$$\text{Early Redemption Amount} = \text{RP} \times (+\text{AY})^y$$

where:

“**RP**” means the Reference Price;

“**AY**” means the Accrual Yield expressed as a decimal; and

“**y**” is the Day Count Fraction specified in the applicable Pricing Supplement which will be either (i) 30/360 (in which case the numerator will be equal to the number of days (calculated on the basis of a 360-day year consisting of 12 months of 30 days each) from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator will be 360) or (ii) Actual/360 (in which case the numerator will be equal to the actual number of days from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator will be 360) or (iii) Actual/365 (in which case the numerator will be equal to the actual number of days from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator will be 365),

or on such other calculation basis as may be specified in the applicable Pricing Supplement.

7.6 Instalments

Instalment Notes will be redeemed in the Instalment Amounts and on the Instalment Dates. In the case of early redemption, the Early Redemption Amount will be determined pursuant to Condition 7.5 above.

7.7 Partly Paid Notes

Partly Paid Notes will be redeemed, whether at maturity, early redemption or otherwise, in accordance with the provisions of this Condition and the applicable Pricing Supplement.

7.8 Purchases

The Issuer or any Subsidiary (as defined in the Agency Agreement) of the Issuer may at any time purchase Notes (provided that, in the case of Definitive Bearer Notes, all unmatured Receipts, Coupons and Talons appertaining thereto are purchased therewith) at any price in the open market or otherwise. Such Notes may be held, reissued, resold or, at the option of the Issuer surrendered to any Paying Agent and/or the Registrar for cancellation in accordance with applicable laws.

7.9 Cancellation

All Notes which are redeemed will forthwith be cancelled (together with all unmatured Receipts, Coupons and Talons attached thereto or surrendered therewith at the time of redemption). All Notes so cancelled and any Notes purchased and cancelled pursuant to Condition 7.8 above (together with all unmatured Receipts, Coupons and Talons cancelled therewith) shall be forwarded to the Principal Paying Agent (which shall notify the Registrar of such cancelled Notes in the case of Registered Notes) and may not be reissued or resold.

7.10 Late payment on Zero Coupon Notes

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note pursuant to Conditions 7.1, 7.2 or 7.3 above or upon its becoming due and repayable as provided in Condition 10 is improperly withheld or refused, the amount due and repayable in respect of such Zero Coupon Note shall be the amount calculated as provided in Condition 7.5(c) above as though the references therein to the date fixed for the redemption or the date upon which such Zero Coupon Note becomes due and payable were replaced by references to the date which is the earlier of:

- (i) the date on which all amounts due in respect of such Zero Coupon Note have been paid; and
- (ii) five days after the date on which the full amount of the moneys payable in respect of such Zero Coupon Note has been received by the Principal Paying Agent or the Registrar and notice to that effect has been given to the Noteholders in accordance with Condition 14.

8 TAXATION

8.1 Payment without Withholding

All payments of principal and interest in respect of the Notes, Receipts and Coupons by or on behalf of the Issuer will be made without withholding or deduction for or on account of any present or future taxes levied by or on behalf of any Tax Jurisdiction unless such withholding or deduction is required by law. In such event, the Issuer will pay such additional amounts as shall be necessary in order that the net amounts received by the holders of the Notes, Receipts or Coupons after such withholding or deduction shall equal the respective amounts of principal and interest which would otherwise have been receivable in respect of the Notes, Receipts or Coupons, as the case may be, in the absence of such withholding or deduction (the “**Additional Amounts**”); except that no such Additional Amounts shall be payable with respect to any Note, Receipt or Coupon:

- (a) the holder of which is liable for such taxes or duties in respect of such Note, Receipt or Coupon by reason of his having some connection with a Tax Jurisdiction other than the mere holding of such Note, Receipt or Coupon; or
- (b) presented for payment more than 30 days after the Relevant Date (as defined below) except to the extent that the holder thereof would have been entitled to an Additional Amount on presenting the same for payment on such thirtieth day assuming that day to have been a Payment Day (as defined in Condition 6.6); or
- (c) presented for payment by or on behalf of a holder of such Note, Receipt or Coupon who, at the time of such presentation, is able to avoid such withholding or deduction by making a declaration of non-residence or other similar claim for exemption and does not make such declaration or claim; or
- (d) where such withholding or deduction is required pursuant to agreement described in Section 1471(b) of the Code or otherwise imposed pursuant to Section 1471 through 1474 of the Code, any regulation or agreements thereunder, official interpretations thereof, or any law implementing an intergovernmental approach thereto.

Any payments made by the Issuer are required to be within the all-in-cost ceilings prescribed under the ECB Guidelines and in accordance with any specific approval received by the Issuer from the RBI or AD Bank pursuant to the ECB Guidelines or any other statutory or regulatory authority.

8.2 Interpretation

As used herein:

- (i) **“Relevant Date”** means the date on which such payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the Principal Paying Agent or, as the case may be, the Registrar on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Noteholders in accordance with Condition 14; and
- (ii) **“Tax Jurisdiction”** means India or any political subdivision or any authority thereof or therein having power to tax in respect of payments made by the Issuer of principal and interest in respect of the Notes, Receipts and Coupons.

9 PRESCRIPTION

The Notes (whether bearer or registered form), Receipts and Coupons will become void unless presented for payment within a period of seven years (in the case of principal) and five years (in the case of interest) after the Relevant Date (as defined in Condition 8) therefor.

There shall not be included in any Coupon sheet issued on exchange of a Talon any Coupon the claim for payment in respect of which would be void pursuant to this Condition or Condition 6.2 or any Talon which would be void pursuant to Condition 6.2.

10 EVENTS OF DEFAULT AND ENFORCEMENT

10.1 Events of Default

If any one or more of the following events (each an **“Event of Default”**) shall occur and be continuing and subject to receipt of prior RBI or AD Bank approval:

- (a) if default is made in the payment of any principal or interest due in respect of the Notes or any of them; or

- (b) if the Issuer fails to perform or observe any of its other obligations under these Conditions and (except in any case where the failure is incapable of remedy, when no continuation or notice as is hereinafter mentioned will be required) the failure continues for the period of 30 business days following the service by a Noteholder on the Issuer of notice requiring the same to be remedied; or
- (c) if:
 - (i) the Issuer or any of its Subsidiaries fails to make any payment in respect of any Indebtedness for Borrowed Money on the due date for payment or, as the case may be, within any applicable grace period originally provided for;
 - (ii) any security given by the Issuer or any of its Subsidiaries for any Indebtedness for Borrowed Money becomes enforceable; or
 - (iii) default is made by the Issuer or any of its Subsidiaries in making any payment due under any guarantee and/or indemnity given by it in relation to any Indebtedness for Borrowed Money of any other person;

provided that no event described in this subparagraph 10.1(c) shall constitute an Event of Default unless the relevant amount of Indebtedness for Borrowed Money or other relative liability due and unpaid, either alone or when aggregated (without duplication) with other amounts of Indebtedness for Borrowed Money and/or other liabilities due and unpaid relative to all (if any) other events specified in (i) to (iii) above, amounts to at least U.S.\$100,000,000 (or its equivalent in any other currency); or

- (d) if any order is made by any competent court or resolution is passed for the winding up or dissolution of the Issuer or any of its Material Subsidiaries, save for the purposes of reorganisation on terms approved in writing by an Extraordinary Resolution of the Noteholders; or
- (e) if the Issuer or any of its Material Subsidiaries ceases or threatens to cease to carry on the whole or a substantial part of its business, save for the purposes of reorganisation on terms approved in writing by an Extraordinary Resolution of the Noteholders, or the Issuer or any of its Material Subsidiaries stops or threatens to stop payment of, or is unable to, or admits inability to, pay its debts (or any class of its debts) as they fall due or is deemed unable to pay its debts pursuant to or for the purposes of any applicable law, or is adjudicated or found bankrupt or insolvent; or
- (f) if (i) proceedings are initiated against the Issuer or any of its Material Subsidiaries under any applicable liquidation, insolvency, composition, reorganisation or other similar laws or an application is made (or documents filed with a court) for the appointment of an administrative or other receiver, manager, administrator or other similar official, or an administrative or other receiver, manager, administrator or other similar official is appointed, in relation to the Issuer or any of its Material Subsidiaries or, as the case may be, in relation to the whole or any part of the undertaking or assets of any of them or an encumbrancer takes possession of the whole or any part of the undertaking or assets of any of them, or a distress, execution, attachment, sequestration or other process is levied, enforced upon, sued out or put in force against the whole or any part of the undertaking or assets of any of them, and (ii) in any such case (other than the appointment of an administrator) unless initiated by the relevant company is not discharged within 30 business days; or
- (g) if the Issuer or any of its Material Subsidiaries (or their respective directors or shareholders) initiates or consents to judicial proceedings relating to itself under any applicable liquidation,

insolvency, composition, reorganisation or other similar laws (including the obtaining of a moratorium) or makes a conveyance or assignment for the benefit of, or enters into any composition or other arrangement with, its creditors generally (or any class of its creditors) or any meeting is convened to consider a proposal for an arrangement or composition with its creditors generally (or any class of its creditors); or

- (h) if any government authority or agency condemns, seizes, compulsorily purchases or expropriates all or any material part of the assets or shares of the Issuer or any of its Material Subsidiaries without fair compensation; or
- (i) a moratorium (which expression shall not include any deferral of principal originally contemplated and made in accordance with the terms of any loan or other financing related agreement) is agreed or declared by the Issuer in respect of any Indebtedness for Borrowed Money (including any obligations arising under guarantees) of the Issuer or any of its Material Subsidiaries; or
- (j) if the Issuer or any of its Material Subsidiaries is or becomes entitled or subject to, or is declared by law or otherwise to be protected by, immunity (sovereign or otherwise) and Condition 19.4 is held to be invalid or unenforceable; or
- (k) it is or will become unlawful for the Issuer to perform or comply with any one or more of its obligations under any of the Notes,

then any holder of a Note may, by written notice to the Issuer at the specified office of the Principal Paying Agent, effective upon the date of receipt thereof by the Principal Paying Agent, declare any Notes held by the holder to be forthwith due and payable whereupon the same shall become forthwith due and payable at the Early Redemption Amount, together with accrued interest (if any) to the date of repayment, without presentment, demand, protest or other notice of any kind.

ECB Guidelines require the Issuer to obtain the prior approval of the RBI or the AD Bank, as the case may be, before effecting a redemption of Notes prior to their stated maturity even in case of an event of default and such approval may not be forthcoming.

11 REPLACEMENT OF NOTES, RECEIPTS, COUPONS AND TALONS

Should any Note, Receipt, Coupon or Talon be lost, stolen, mutilated, defaced or destroyed, it may be replaced subject to applicable laws, regulations and relevant stock exchange regulations at the specified office of the Principal Paying Agent (in the case of Bearer Notes, Receipts or Coupons) or the Registrar (in the case of Registered Notes) upon payment by the claimant of such costs and expenses as may be incurred in connection therewith and on such terms as to evidence and indemnity as the Issuer and the Principal Paying Agent may reasonably require. Mutilated or defaced Notes, Receipts, Coupons or Talons must be surrendered before replacements will be issued.

12 PAYING AGENTS, REGISTRAR AND TRANSFER AGENTS

The names of the initial Paying Agents, the initial Registrar and the other initial Transfer Agents and their initial specified offices are set out below.

The Issuer is entitled to vary or terminate the appointment of the Principal Paying Agent, Paying Agent, Registrar or Transfer Agent and/or appoint additional or other Paying Agents, Registrar or Transfer Agents and/or approve any change in the specified office through which any Agent acts, provided that:

- (a) there will at all times be the Principal Paying Agent and a Registrar;

- (b) so long as the Notes are listed on any stock exchange, there will at all times be a Paying Agent, which may be the Principal Paying Agent, and Transfer Agent with a specified office in such place as may be required by the rules and regulations of the relevant stock exchange (or any other relevant authority);
- (c) so long as any of the Registered Global Notes denominated in a Specified Currency other than U.S. dollars are held through DTC or its nominee, there will at all times be an Exchange Agent; and
- (d) so long as the Notes are listed on the SGX-ST, the India INX or the NSE IFSC, if the Notes are issued in definitive form, (i) in relation to Notes listed on the SGX-ST, there will at all times be a Paying Agent in Singapore unless the Issuer obtains an exemption from the SGX-ST, and (ii) the Issuer will make through the SGX ST, the India INX or the NSE IFSC, an announcement of the exchange that will include all material information with respect to the delivery of the Notes issued in definitive form, including, in relation to Notes listed on the SGX-ST, details of the paying agent in Singapore.

In addition, the Issuer shall forthwith appoint a Paying Agent having a specified office in New York City in the circumstances described in Condition 6.5. Notice of any variation, termination, appointment or change in Paying Agents will be given promptly to the Noteholders by the Issuer in accordance with Condition 14.

In acting under the Agency Agreement, the Paying Agents, Registrar and the Transfer Agents act solely as agents of the Issuer and do not assume any obligation to, or relationship of agency or trust with, any Noteholders, Receiptholders or Couponholders. The Agency Agreement contains provisions permitting any entity into which any Agent is merged or converted or with which it is consolidated or to which it transfers all or substantially all of its assets to become the successor agent.

13 EXCHANGE OF TALONS

On and after the Interest Payment Date on which the final Coupon comprised in any Coupon sheet matures, the Talon (if any) forming part of such Coupon sheet may be surrendered at the specified office of the Principal Paying Agent or any other Paying Agent in exchange for a further Coupon sheet including (if such further Coupon sheet does not include Coupons to (and including) the final date for the payment of interest due in respect of the Note to which it appertains) a further Talon, subject to the provisions of Condition 9.

14 NOTICES

Notices to holders of Registered Notes will be deemed to be validly given if sent by first class mail or (if posted to an overseas address) by air mail to them at their respective addresses as recorded in the Register and will be deemed to have been validly given on the fourth day after the date of such mailing and, in addition, for so long as any Registered Notes are listed on a stock exchange or are admitted to trading by another relevant authority and the rules of that stock exchange or relevant authority so require, such notice will be published on the website of the relevant stock exchange or relevant authority and/or in a daily newspaper of general circulation in the place or places required by those rules.

All notices regarding the Bearer Notes will be deemed to be validly given if published in a leading daily newspaper of general circulation in Asia or such other English language daily newspaper with general circulation in Asia. It is expected that such publication will be made in the Asian Wall Street Journal. The Issuer shall also ensure that notices are duly published in a manner which complies with the rules and regulations of any stock exchange (or any other relevant authority) on which the Notes are for the time being listed including publication on the website of the relevant stock exchange or relevant authority if required by those rules. Any such notice will be deemed to have been given on the date of the first publication or, where required to be published in more than one newspaper, on the date of the first publication in all required newspapers.

Until such time as any definitive Notes are issued, there may, so long as any Global Notes representing the Notes are held in their entirety on behalf of Euroclear and/or Clearstream and/or DTC, be substituted for such publication in such newspaper(s) or such websites or such mailing the delivery by electronic mail of the relevant notice by the Principal Paying Agent to Euroclear and/or Clearstream and/or DTC for communication by them to the holders of the Notes and, in addition, for so long as any Notes are listed on a stock exchange and the rules of that stock exchange (or any other relevant authority) so require, such notice will be published on the website of the relevant stock exchange or relevant authority and/or in a daily newspaper of general circulation in the place or places required by the rules of that stock exchange (or any other relevant authority). Any such notice shall be deemed to have been given to the holders of the Notes on the day on which the said notice was given to Euroclear and/or Clearstream and/or DTC.

Notices to be given by any Noteholder shall be in writing and given by lodging the same, together (in the case of any Note in definitive form) with the relative Note or Notes, with the Principal Paying Agent (in the case of Bearer Notes) or the Registrar (in the case of Registered Notes). Whilst any of the Notes are represented by a Global Note, such notice may be given by any holder of a Note to the Principal Paying Agent or the Registrar through Euroclear and/or Clearstream and/or DTC, as the case may be, in such manner as the Principal Paying Agent, the Registrar and Euroclear and/or Clearstream and/or DTC, as the case may be, may approve for this purpose.

Receiptholders and Couponholders will be deemed for all purposes to have notice of the contents of any notice given to Noteholders in accordance with this Condition 14.

15 MEETINGS OF NOTEHOLDERS, MODIFICATION, WAIVER AND SUBSTITUTION

The Agency Agreement contains provisions for convening meetings of the Noteholders to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution of a modification of the Notes, the Receipts, the Coupons or any of the provisions of the Agency Agreement. Such a meeting may be convened by the Issuer and shall be convened by the Issuer if required in writing by Noteholders holding not less than 5 per cent. in nominal amount of the Notes for the time being remaining outstanding. The quorum at any such meeting for passing an Extraordinary Resolution is one or more persons holding or representing not less than 50 per cent. in nominal amount of the Notes for the time being outstanding, or at any adjourned meeting one or more persons being or representing Noteholders whatever the nominal amount of the Notes so held or represented, except that at any meeting the business of which includes the modification of certain provisions of the Notes, the Receipts or the Coupons (including modifying the date of maturity of the Notes or any date for payment of interest thereon, reducing or cancelling the amount of principal or the rate of interest payable in respect of the Notes (except as a result of any modification contemplated in Condition 5.3) or altering the currency of payment of the Notes, the Receipts or the Coupons), the quorum shall be one or more persons holding or representing not less than two-thirds in nominal amount of the Notes for the time being outstanding, or at any adjourned such meeting one or more persons holding or representing not less than one-third in nominal amount of the Notes for the time being outstanding. The Agency Agreement provides that (i) a resolution passed at a meeting duly convened and held in accordance with the Agency Agreement by a majority consisting of not less than three-fourths of the votes cast on such resolution, (ii) a resolution in writing signed by or on behalf of the holders of not less than three-fourths in nominal amount of the Notes for the time being outstanding or (iii) consent given by way of electronic consents through the relevant clearing system(s) (in a form satisfactory to the Principal Paying Agent) by or on behalf of the holders of not less than three-fourths in nominal amount of the Notes for the time being outstanding, shall, in each case, be effective as an Extraordinary Resolution of the Noteholders. An Extraordinary Resolution passed by the Noteholders will be binding on all the Noteholders, whether or not they are present at any meeting, and whether or not they voted on the resolution, and on all Receiptholders and Couponholders.

The Principal Paying Agent and the Issuer may agree, without the consent of the Noteholders, Receiptholders or Couponholders, to:

- (i) any modification (except such modifications in respect of which an increased quorum is required as mentioned above) of the Notes, the Receipts, the Coupons or the Agency Agreement which, in the opinion of the Issuer, is not prejudicial to the interests of the Noteholders; or
- (ii) any modification of the Notes, the Receipts, the Coupons or the Agency Agreement which is of a formal, minor or technical nature or is made to correct a manifest or proven error or to comply with mandatory provisions of law.

Any such modification shall be binding on the Noteholders, the Receiptholders and the Couponholders and any such modification shall be notified to the Noteholders in accordance with Condition 14 as soon as practicable thereafter.

16 FURTHER ISSUES

The Issuer shall be at liberty from time to time without the consent of the Noteholders, the Receiptholders or the Couponholders to create and issue further notes having terms and conditions the same as the Notes or the same in all respects save for the amount and date of the first payment of interest thereon and the date from which interest starts to accrue and so that the same shall be consolidated and form a single Series with the outstanding Notes.

17 PROVISION OF INFORMATION

The Issuer has covenanted for the benefit of the Noteholders, Receiptholders and Couponholders that for so long as any Notes remain outstanding and are “restricted securities” (as defined in Rule 144(a)(3) under the Securities Act), the Issuer shall, during any period in which it is neither subject to Section 13 or 15(d) of the Exchange Act nor exempt from reporting pursuant to Rule 12g3-2(b) under the Exchange Act, make available to any Noteholder, Receiptholder or Couponholder of, or beneficial owner of an interest in, such Notes, Receipts or Coupons in connection with any resale thereof and to any prospective purchaser designated by such Noteholder, Receiptholder or Couponholder or beneficial owner, in each case upon request, the information specified in, and meeting the requirements of, Rule 144A(d)(4) under the Securities Act.

18 CONTRACTS (RIGHTS OF THIRD PARTIES) ACT 1999

No rights are conferred on any person under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of this Note, but this does not affect any right or remedy of any person which exists or is available apart from that Act.

19 GOVERNING LAW AND SUBMISSION TO JURISDICTION

19.1 Governing law

The Agency Agreement, the Notes, the Receipts, the Coupons and any non-contractual obligations arising out of or in connection with the Agency Agreement, the Notes, the Receipts and the Coupons are governed by, and shall be construed in accordance with, English law.

19.2 Submission to jurisdiction

- (a) Subject to Condition 19.2(c) below, the English courts have exclusive jurisdiction to settle any dispute arising out of or in connection with the Notes, the Receipts and/or the Coupons, including any dispute as to their existence, validity, interpretation, performance, breach or termination or the consequences of their nullity and any dispute relating to any non-contractual

obligations arising out of or in connection with the Notes, the Receipts and/or the Coupons (a “**Dispute**”) and all Disputes will be submitted to the exclusive jurisdiction of the English courts.

- (b) For the purposes of this Condition 19.2, the Issuer waives any objection to the English courts on the grounds that they are an inconvenient or inappropriate forum to settle any Dispute.
- (c) This Condition 19.2 is for the benefit of the Noteholders, the Receiptholders and the Couponholders only. To the extent allowed by law, the Noteholders, the Receiptholders and the Couponholders may, in respect of any Dispute or Disputes, take:
 - (i) proceedings in any other court with jurisdiction; and
 - (ii) concurrent proceedings in any number of jurisdictions.

19.3 Appointment of Process Agent

The Issuer irrevocably appoints Law Debenture Corporate Services Limited at its specified office for the time being at Fifth Floor, 100 Wood Street, London EC2V as its agent for service of process in any proceedings before the English courts in relation to any Dispute, and agrees that, in the event of Law Debenture Corporate Services Limited being unable or unwilling for any reason so to act, it will immediately appoint another person as its agent for service of process in England in respect of any Dispute. The Issuer agrees that failure by a process agent to notify it of any process will not invalidate service. Nothing herein shall affect the right to serve process in any other manner permitted by law.

19.4 Waiver of Immunity

To the fullest extent permitted by law, the Issuer irrevocably and unconditionally:

- (a) submits to the jurisdiction of the English courts in relation to any Dispute and waives and agrees not to claim any sovereign or other immunity from the jurisdiction of the English courts in relation to any Dispute (including to the extent that such immunity may be attributed to it), and agrees to ensure that no such claim is made on its behalf;
- (b) submits to the jurisdiction of the English courts and the courts of any other jurisdiction in relation to the recognition of any judgment or order of the English courts or the courts of any other jurisdiction in relation to any Dispute and waives and agrees not to claim any sovereign or other immunity from the jurisdiction of the English courts or the courts of any other jurisdiction in relation to the recognition of any such judgment or court order and agrees to ensure that no such claim is made on its behalf; and
- (c) consents to the enforcement of any order or judgment made or given in connection with any Dispute and the giving of any relief in the English courts and the courts of any other jurisdiction whether before or after final judgment including, without limitation:
 - (i) relief by way of interim or final injunction or order for specific performance or recovery of any property;
 - (ii) attachment of its assets; and
 - (iii) enforcement or execution against any property, revenues or other assets whatsoever (irrespective of their use or intended use) and waives and agrees not to claim any sovereign or other immunity from the jurisdiction of the English courts or the courts of any other jurisdiction in relation to such enforcement and the giving of such relief (including to the extent that such immunity may be attributed to it), and agrees to ensure that no such claim is made on its behalf.

USE OF PROCEEDS

The net proceeds from each issue of Notes will be applied by us to finance power projects or refinance existing ECBs in accordance with the approvals granted by the RBI from time to time and in accordance with the ECB Guidelines.

CAPITALIZATION

The following table sets forth our non-consolidated capitalization and indebtedness as of December 31, 2020. This table should be read in conjunction with our reviewed non-consolidated financial statement as of December 31, 2020 included elsewhere in this Offering Circular, and the notes presented therein.

	As of December 31, 2020

Notes:

- (1) U.S. dollar translations have been made using the exchange rate of U.S.\$1.00 = Rs. 73.0536 as of December 31, 2020, based on the reference rate of the RBI prevailing at that date.
- (2) As of December 31, 2020, our authorized capital was Rs. 50,000.0 million comprising 5,000 million ordinary shares of Rs.10.00 each, of which 1,974.92 million shares were issued.

There has been no significant change to our total non-consolidated capitalization and indebtedness since December 31, 2020.

SELECTED FINANCIAL AND OTHER DATA

The following tables present our selected financial and other data. Unless otherwise indicated:

- (i) *the selected financial data as at March 31, 2018 and for the financial year ended March 31, 2018 has been derived from the comparative financial information included in the consolidated audited financial statements as at and for the financial year ended March 31, 2019 included elsewhere in this Offering Circular which have been prepared and presented in accordance with Ind-AS (which may differ in material respects from generally accepted accounting principles in other jurisdictions);*
- (ii) *the selected financial data as at March 31, 2019 and March 31, 2020, and for each of the financial years ended March 31, 2019 and March 31, 2020 is derived from our consolidated audited financial statements for those periods and as at the dates indicated included elsewhere in this Offering Circular which have been prepared and presented in accordance with Ind-AS (which may differ in material respects from generally accepted accounting principles in other jurisdictions);*
- (iii) *the selected financial data as at December 31, 2020 (along with comparatives as at March 31, 2020) is derived from our non-consolidated unaudited but reviewed financial statements as at the dates indicated included elsewhere in this Offering Circular which have been prepared and presented in accordance with Ind-AS (which may differ in material respects from generally accepted accounting principles in other jurisdictions); and*
- (iv) *the selected financial data for the nine-month period ended December 31, 2020 (along with comparatives for the nine-month period ended December 31, 2019) is derived from our non-consolidated unaudited but reviewed financial statements for those periods included elsewhere in this Offering Circular which have been prepared and presented in accordance with Ind-AS (which may differ in material respects from generally accepted accounting principles in other jurisdictions).*

In relation to the financial statements as at and for each of the financial years ended March 31, 2018, 2019 and 2020 (and all financial information thereunder), as included in this Offering Circular, (i) audits by the Comptroller and Auditor General of India was concluded with no qualifications and (ii) approvals of the Company's shareholders were received at the Company's respective annual general meetings.

Our unaudited non-consolidated statement of profit and loss for the nine-month period ended December 31, 2020 and the balance sheet as on December 31, 2020 have been reviewed in accordance with SRE-2410 "Review of Interim Financial Information performed by the Independent Auditor of the entity", issued by the ICAI. The reviewed financial statements as of and for the nine-month period ended December 31, 2020 contain all adjustments that our management believes are necessary for the fair presentation of such information. Results for interim periods are not indicative of results for the full year.

The selected financial data below should be read in conjunction with "Management's Discussion and Analysis of Results of Operations" and the financial statements and the notes to those statements included elsewhere in this Offering Circular.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS

You should read the following discussion and analysis of our results of operations together with our financial statements included in this Offering Circular. You should also read the section titled "Risk Factors" in this Offering Circular, which discusses a number of factors and contingencies that could impact our financial condition and results of operations. This discussion also contains forward-looking statements and you should refer to the section "Forward-Looking Statements" in this Offering Circular.

The following discussion relates to the audited consolidated financial statements of the Group for Fiscal 2018, 2019 and 2020 that have been prepared in accordance with Ind-AS and other applicable provisions of the Companies Act. In addition, this discussion relates to the unaudited non-consolidated financial statements of the Company for the nine months ended December 31, 2019 and 2020, that have been prepared in accordance with Ind-AS and which have been subjected to a limited review. Our unaudited non-consolidated statements of profit and loss for the nine months ended December 31, 2019 and 2020 have been reviewed in accordance with SRE-2410 "Review of Interim Financial Information performed by the Independent Auditor of the entity", issued by the ICAI. The following discussion, in relevant parts, is also based on internally prepared statistical information and on publicly available information.

The financial or fiscal year of our Company ends on March 31 every year, so all references to a particular financial or fiscal year are to the twelve months ended March 31.

OVERVIEW

We are a public financial institution in the Indian power infrastructure sector. We are engaged in the financing and promotion of transmission, distribution and generation segments in the power sector, including renewable energy projects throughout India. We believe our organization occupies a key position in the Government's plans for the growth of the Indian power sector.

We assist our clients in formulating and implementing a broad array of power projects and finance those projects. Our clients primarily include Indian public sector power utilities both at the central and state levels and private sector power utilities. We service our clients through a network of regional offices spread across India and one national level training center at Hyderabad. Our regional offices play an integral role in the development of our relationships with our clients, in the operation and promotion of our business and in our loan appraisal, loan sanction and post-sanction monitoring processes. Our primary financial product is project-based long-term loans. We fund our business with market borrowings of various maturities, including bonds and term loans. Because our sources enable us to raise funds at competitive costs, we are able to price our financial products competitively.

We commenced operations in 1969 for the purpose of developing the power infrastructure in rural areas. We have contributed to the development of rural India and India's agriculture through our funding of transmission and distribution projects in rural areas. Our mandate has evolved in accordance with the development priorities of the Government and, since Fiscal 2003, has permitted us to finance all segments of the power sector, including generation, transmission and distribution, throughout the country. Our mandate was further extended to include financing other activities linked to power projects, such as coal and other mining activities, fuel supply arrangements for the power sector and other power-related infrastructure. In June 2011, we set up a separate division for funding renewable projects in order to further achieve the goal of conserving fossil fuels and reducing our carbon foot print.

Our Company is one of only 14 Indian public sector undertakings to have been granted the "Navratna" status by the Department of Public Enterprise by virtue of our operational efficiency and financial strength. The Government had rated our performance as "Excellent" from Fiscal 1994 to Fiscal 2017, "Very Good" in Fiscal 2018 and "Excellent" in Fiscal 2019. We have also been ranked among the top

10 public sector undertakings in India by the Ministry of Heavy Industries and Public Enterprises for Fiscal 2015, Fiscal 2016, Fiscal 2017 and Fiscal 2018. Further, as per the Public Enterprises Survey for Fiscal 2019, based on profitability our Company was ranked 11th out of 178 profit-making central public sector enterprises in India. Our Company continues to play a strategic role in the Government's initiatives and plays a pre-eminent role in the power sector, in terms of financing state utilities and being an agency to implement key power sector initiatives of the central government. While our Company is no longer directly owned by the Government, the Government continues to exercise control over it through PFC. Our Company remains strategically important to the power sector and its role in implementing key central government policy initiatives in the power sector remains unchanged. Our Company continues to be the nodal agency for various flagship schemes of the Government, namely DDUGJY (formerly known as RGGVY), Saubhagya, the National Electricity Fund Programme, the implementation of the Outage Management System and 11kv Rural Feeder Management System and through our subsidiary, REC Power Distribution Company Limited the bid process coordinator for a selection of developers for the inter-state transmission lines through tariff based competitive bidding. Domestically, we hold the highest credit rating of "AAA" for long-term borrowing domestic credit rating from CARE, CRISIL, ICRA and IRRPL and, on an international basis, our long-term borrowing ratings from Fitch and Moody's are BBB- and Baa3, which are at par with the sovereign ratings.

We have a branch network of 20 regional offices, one state office and one sub office spread across India. We also have one training center named RECIPMT located in Hyderabad. Our Company's registered office in New Delhi manages matters relating to planning and policy formulation, resource mobilization and financial operations. Our Company's project, field or regional offices conduct functions relating to preliminary processing of new schemes, monitoring of on-going schemes, scrutiny of loan claims, recovery of dues and maintenance of liaison with the SEBs and state governments for effective implementation of rural electrification programs and projects funded by our Company.

FACTORS AFFECTING RESULTS OF OPERATIONS

Our Company's financial results are dependent on the performance of the Indian economy and the power sector generally along with the projects that our Company finances in particular. Power sector projects are subject to various risks and uncertainties and as such our business is subject to the same, including those discussed in the section titled "Risk Factors" of this Offering Circular. Some of the important factors that have affected, and which may continue to affect, our results of operations, financial condition and cash flows are discussed in this section.

Performance of the Indian Economy and Power Sector

Despite the global financial crisis in late 2008, India continued to show one of the highest annual real GDP growth rates in the world. The real GDP growth rate of India for the calendar years 2017, 2018 and 2019 amounted to 6.7 per cent., 6.8 per cent. and 4.2 per cent., respectively (*Source: IMF*). According to the Reserve Bank of India and professional forecasters, the real GDP growth is expected to be around (7.5) per cent. for the year 2020-21 (*Source: RBI*). The growth prospects of our business, including the quality of our assets and our ability to grow our asset portfolio and implement our strategy, are influenced by the growth rate of the economy as a whole. The level of credit disbursed and recovery of loans are affected by these factors. Any slowdown in the growth of the economy, coupled with inflationary pressures, could adversely impact our business.

Our Company's financial results are significantly affected by general economic conditions prevailing in India and, in particular, by developments in the power sector, including increases in the demand for power and expectations regarding power-related projects.

The Indian power sector is undergoing a significant change that has redefined the industry's outlook. While sustained economic growth continues to drive demand for electricity in India; the Government's focus on attaining "Power for all" has further accelerated capacity addition in India. At the same time,

competition is increasing in relation to both the supply of, and demands for, power-related inputs, including fuel, logistics, finances, and manpower.

As of January 2021, the total installed capacity of power stations in India stood at 377.26 Gigawatt (GW) according to the executive summary on the power sector for January 2021 published by the Central Electricity Authority. The Government has identified the power sector as a key sector of focus so as to promote sustained industrial growth. Some initiatives of the Government mentioned in the aforesaid report to boost the Indian power sector are described below.

- As of September 2018, a draft amendment to the Electricity Act, 2003 was introduced which discusses, amongst others, the separation of content and carriage, direct benefit transfer of subsidies, 24x7 power supply as an obligation, penalization of violations of power purchase agreements and setting up of smart meters and prepaid meters, along with regulations related to the same. On September 7, 2018, the revised draft amendment was put forward by the MoP for comments. The amendment will come into effect 45 days after deliberations on the comments are concluded and, therefore, it is uncertain as at the date of this Offering Circular as to whether such amendment will become effective.
- UDAY was launched by the Government to encourage an operational and financial turnaround of DISCOMS, with an aim to reduce AT&C losses to 15 per cent. by Fiscal 2019.
- The Government approved the National Policy on Biofuels – 2018. The expected benefits of this policy relate to health, a cleaner environment, employment generation, reduced import dependency, a boost to infrastructural investment in rural areas and additional income for farmers.
- The Government has released its roadmap to achieve an additional 175 GW capacity in renewable energy by 2022, which includes 100 GW of solar power and 60 GW of wind power. The Government is preparing a “rent a roof” policy for supporting its target of generating GW through solar rooftop projects by 2022. The Government is taking a number of steps and initiatives, such as the 10-year tax exemption for solar energy projects, in order to achieve India’s ambitious renewable energy targets of adding 175 GW of renewable energy, including the addition of 100 GW of solar power, by the year 2022. The Government has also sought to restart the stalled hydro power projects and increase the wind energy production target to 60 GW by 2022 from the current 20 GW.
- As part of the COVID-19 relief package, Finance Minister Nirmala Sitharaman had announced Rs. 900 billion liquidity infusion into cash strapped DISCOMs facing demand slump due to COVID-19 crisis. This package was later increased to Rs. 1,200 billion by the Ministry of Power. The loan disbursements under the package are co-funded by our Company and PFC in equal proportion.

Competition

The primary providers of power sector financing in India are power sector specific government companies, financial institutions, public sector banks and institutions, multilateral development institutions and private banks.

Our primary competitors are power sector specific government companies, engaged in power sector financing. Such companies provide funds for power projects in India and act as developmental financial institutions for the power sector in India. One such competitor is the Indian Renewable Energy Development Agency Limited which promotes, develops and extends financial assistance for renewable energy, energy efficiency and energy conservation projects. In addition to power sector specific government companies, there are public sector banks and institutions, private sector banks, financial

institutions, state-level financial institutions and multilateral development financial institutions who also participate, either in a consortium or otherwise, in extending funding to the power sector.

We are exposed to the risk of increased and more aggressive competition from banks expanding their infrastructure finance operations across the markets in which we operate, resulting in margin pressures. We believe that our strong financial position, knowledge of the Indian power sector, consistent relationships with our customers and our role as a key strategic player in the Government's plans for growth of the power sector will enable us to remain competitive.

Availability of Cost-Effective Funding Sources and Impact of Interest Rate Volatility

With the growth of our business, we are increasingly relying on funding from the debt capital markets and commercial borrowings. The market for such funds is competitive and our ability to obtain funds at competitive rates will depend on various factors, including our ability to maintain our credit ratings. While our borrowing costs have been competitive in the past due to our credit rating and the quality of our asset portfolio, if we are unable to access funds at an effective cost that is comparable to or lower than our competitors, we may not be able to offer competitive interest rates for our loans. This may adversely affect our results of operations and financial condition.

Our operations are susceptible to interest rate movements. Interest rates are sensitive to many factors which are beyond our control, including the monetary policies of the RBI, COVID-19 related market volatility, domestic and international economic and political conditions, inflation and other factors. We are exposed to interest rate risks. In order to mitigate the same, we have a mix of long-term and short-term borrowings with both fixed and variable rates.

Credit Quality, Write-Offs and Provisions

The credit quality of our loans is a key driver of our results of operations, as quality loans help reduce the risk of losses from loan impairment. Credit risk is the risk of loss arising from the diminution in credit quality of a borrower and the risk that the borrower will default on contractual repayments under a loan or an advance. The credit risk arises because of the quality of the loan portfolio and it is extremely important to control this risk in the infrastructure finance industry. Any inability to control such risk could adversely affect our financial results and operations.

Our credit impaired asset level is a function of our credit quality, which is further dependent upon our recovery mechanisms and credit appraisal processes. Our consolidated gross credit impaired assets were 7.15 per cent., 7.24 per cent. and 6.59 per cent. as at March 31, 2018, 2019 and 2020, respectively. As at December 31, 2020, our gross credit impaired assets on a non-consolidated basis were Rs. 182,206.2 million (5.10 per cent. of loan assets) and our net credit impaired assets were Rs. 69,466.1 million (1.95 per cent. of loan assets).

Our write-offs in respect of loan assets on a consolidated basis were nil as at March 31, 2018 and 2019 and Rs. 3,784.1 million as at March 31, 2020, as per Ind-AS. Our ability to continue to reduce or contain the level of our Credit Impaired Assets depend on a number of factors beyond our control, such as increased competition, economic conditions, including with respect to specific industries to which we are exposed, decreases in agricultural production, decline in commodity prices, adverse fluctuations in interest and exchange rates or adverse changes in Indian policies, laws or regulations and also on our ability to manage our risk. As at December 31, 2020, our write-offs on a non-consolidated basis were Rs.11,525.5 million.

Interest Rate Risk, Liquidity Risk and Foreign Currency Exchange Rate Risk

Please refer to the section entitled “*Assets and Liabilities – Risk Management – Risk Monitored under ALCO*” in this Offering Circular for more information on our exposure to interest rate risk, liquidity risk and foreign currency exchange rate risk and our management of such risks.

CERTAIN ACCOUNTING POLICIES

Accounting Policies under Ind-AS

The consolidated financial statements of the Company as of and for the fiscal years ended March 31, 2018, 2019 and 2020 (the **Ind-AS financial statements**) and the non-consolidated financial statements of the Company as of and for the nine months ended December 31, 2019 and 2020 (the **interim financial statements**), included elsewhere in this Offering Circular, have been prepared for the purpose of inclusion in this Offering Circular and comply with the recognition and measurement requirements of Ind-AS as notified by the MCA pursuant to section 133 of the Companies Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time. The Company has uniformly applied the accounting policies during the periods presented. Unless otherwise stated, all amounts are stated in millions of Rupees.

Significant Accounting Policies

The significant accounting policies applied in preparation of the consolidated financial statements are as given below:

Basis of consolidation

Subsidiary

Subsidiary is the entity controlled by the Group. The Group controls an entity when it has power over the investee, is exposed to or has rights to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiary are included in the consolidated financial statements from the date on which control commences until the date on which control ceases. The Group combines the financial statements of the holding company and its subsidiary line by line adding together like items of assets, liabilities, equity, income and expenses.

Equity accounted investees

The Group’s interests in equity accounted investees comprise of the interests in associates and joint venture.

An associate is an entity, including an unincorporated entity, over which the Company has significant influence and that is neither a subsidiary nor an interest in a joint venture. Interests in associates are accounted for using the equity method. These interests are initially recognized at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group’s share of Profit and Loss and Other Comprehensive Income (OCI) of equity-accounted investees until the date on which significant influence ceases. However, in case where it is assessed that the investment/ interest in associates is held for sale, the interest in associates is accounted for under Ind AS 105.

A joint venture is an arrangement in which the Group has joint control and has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

Interests in joint venture are accounted for using the equity method. They are initially recognized at cost which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of Profit and Loss and Other Comprehensive Income (OCI) of equity-accounted investees until the date on which significant influence or joint control ceases.

Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealized income and expenses arising from intra-group transactions, are eliminated. Unrealized gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment.

Basis of Preparation and Measurement

The consolidated financial statements have been prepared on a historical cost basis except for certain financial assets and financial liabilities which are measured at fair values as explained in relevant accounting policies. These policies have been applied consistently for all the periods presented in the consolidated financial statements.

Functional and presentation currency

The consolidated financial statements are presented in Indian Rupee which is also the functional currency of the Group.

Revenue recognition

Interest income

Interest income is recognized on time proportion basis taking into account the amount outstanding and rate applicable.

Unless otherwise specified, the recoveries from the borrowers are appropriated in the order of: (i) costs and expenses of our Company; (ii) delayed and penal interest, including interest tax, if any; (iii) overdue interest, including interest tax, if any; and (iv) repayment of principal; the oldest being adjusted first, except for credit impaired loans and recalled loans, where principal amount is appropriated only after the complete recovery of other costs, expenses, delayed and penal interest and overdue interest, including interest tax, if any. The recovery under One Time Settlement (OTS)/ Insolvency and Bankruptcy Code proceedings is appropriated first towards the principal outstanding and remaining recovery, thereafter, towards interest and other charges, if any.

For all financial assets measured at amortized cost, interest income is recorded using the effective interest rate (**EIR**), i.e. the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial assets.

Interest on financial assets subsequently measured at fair value through profit and loss is recognized on an accrual basis in accordance with the terms of the respective contract and is disclosed separately under the head interest income.

Rebate on account of timely payment of interest by borrowers is recognized on receipt of entire interest amount due in time, in accordance with the terms of the respective contract and is netted against the corresponding interest income.

Income from Government schemes

Income of agency fee on Government schemes is recognized on accrual basis based on the services rendered.

Dividend income

Income from dividend on shares of corporate bodies and units of mutual funds is taken into account on accrual basis when our Company's right to receive payment is established.

Provided that, in case of final dividend, the right to receive payment shall be considered as established only upon approval of the dividend by the shareholders in the Annual General Meeting.

Dividend on financial assets subsequently measured at fair value through profit and loss is recognized separately under the head "Dividend Income".

Other services

Fees/ charges on loan assets, other than those considered an adjustment to EIR, are accounted for on accrual basis. Pre-payment premium is accounted for by the Group in the year of receipt.

Revenue from sale of services

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured.

The Group uses the principles laid down by the Ind AS 115 to determine how much and when revenue is recognized, what is the nature, amount, timing and uncertainty of revenues etc. In accordance with the same, revenue is recognized through a five-step approach:

- (i) identify the contract(s) with customer;
- (ii) identify separate performance obligations in the contract;
- (iii) determine the transaction price;
- (iv) allocate the transaction price to the performance obligations; and
- (v) recognize revenue when a performance obligation is satisfied.

Revenues are measured at the fair value of the consideration received or receivable, net of discounts and other indirect taxes.

In Cost Plus Contracts – Revenue is recognized by including eligible contractual items of expenditures plus proportionate margin as per contract.

In Fixed Price Contracts – Revenue is recognized on the basis of stage of completion of the contract. The Group has assessed that the stage of completion is determined as the proportion of the total time expected to complete the performance obligation that has lapsed at the end of the reporting period, which is an appropriate measure of progress towards complete satisfaction of these performance obligations under Ind AS 115.

Estimates of revenues, costs or extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by management.

Professional charges to be charged from the selected bidders/developers for transmission projects put on tariff-based bidding is accounted for in the year in which it is reasonably certain that the ultimate collection of the professional charges will be made.

Sale proceeds of Request for Proposal (RFP) documents is credited to the respective SPV and sale proceeds of Request for Qualification (RFQ) documents is retained by the Group and accounted as income of the Group.

Borrowing costs

Borrowing costs consist of interest and other costs that the Group incurred in connection with the borrowing of funds. Borrowing costs that are directly attributable to the acquisition and/ or construction of a qualifying asset, till the time such a qualifying asset becomes ready for its intended use sale, are capitalized. A qualifying asset is one that necessarily takes a substantial period to get ready for its intended use.

All other borrowing costs are charged to the Statement of Profit and Loss on an accrual basis as per the effective interest rate method.

Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period.

To calculate diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

Foreign Currency Translation

Foreign currency transactions and balances

Foreign currency transactions are translated into the functional currency of the Group using the exchange rates prevailing on the date of the transaction.

Foreign exchange gains and losses resulting from the settlement of such transactions and the re-measurement of monetary items denominated in foreign currency at period-end exchange rates are recognized in the Statement of Profit or Loss. However, for the long-term monetary items recognized in the consolidated financial statements before April 1, 2018, such gains and losses are accumulated in a "Foreign Currency Monetary Item Translation Difference Account" and amortized over the balance period of such long-term monetary item, by recognition as income or expense in each of such periods.

Non-monetary items are not retranslated at period-end and are measured at historical cost (translated using the exchange rates at the transaction date).

Intangible assets

Recognition and initial measurement

Intangible assets mainly comprise computer software which is initially measured at cost. Such assets are recognized where it is probable that the future economic benefits attributable to the assets will flow to the Group.

Subsequent measurement (amortization method, useful lives and residual value)

All intangible assets with finite useful life are amortized on a straight line basis over the estimated useful lives, and a possible impairment is assessed if there is an indication that the intangible asset may be impaired. Residual values and useful lives for all intangible assets are reviewed at each reporting date. Changes, if any, are accounted for as changes in accounting estimates. Management estimates the useful life of intangible assets to be five years.

Intangible Assets under Development

Expenditure incurred which are eligible for capitalization under intangible assets is carried as “Intangible assets under development” till they are ready for their intended use.

Derecognition of Intangible Assets

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognized in the Statement of Profit and Loss when the asset is derecognized.

Property, Plant and Equipment (PPE)

Recognition and initial measurement

Land

Land held for use is initially recognized at cost. For land, as no finite useful life can be determined, related carrying amounts are not depreciated.

Other Tangible assets

PPE other than land is initially recognized at acquisition cost or construction cost, including any costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by the Group’s management.

Subsequent costs are included in the asset’s carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group beyond one year. Maintenance or servicing costs of PPE are recognized in the Statement of Profit and Loss as incurred.

Subsequent measurement (depreciation method, useful lives, residual value, and impairment)

PPE are subsequently measured at cost less accumulated depreciation and impairment losses. Depreciation on PPE is provided on the straight-line method over the useful life of the assets as prescribed under Part “C” of Schedule II of the Companies Act, 2013.

Depreciation on assets purchased/sold during the year is charged for the full month if the asset is in use for more than 15 days, instead of charging the same on a pro rata basis from the date of purchase/sale. Depreciation on assets purchased during the year up to Rs. 5,000/- is provided at 100 per cent..

The residual values, useful lives, and method of depreciation are reviewed at the end of each financial year. PPE other than land is tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

De-recognition

An item of PPE and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of an item of PPE is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognized in the Statement of Profit and Loss.

Capital Work-in-Progress

The cost of PPE under construction at the reporting date is disclosed as “Capital work-in-progress.” The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Advances paid for the acquisition/ construction of PPE which are outstanding at the balance sheet date are classified under “Capital Advances.”

Lease Accounting:

The Group recognizes a right-of-use asset and related lease liability in connection with all former operating leases except for those identified as short-term or low-value lease.

The Group assesses, at contract inception whether a contract is, or contains, a lease. A lease is defined as “a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration”.

To apply this definition, the Group assesses whether the contract meets three key evaluations which are whether:

- the contract contains an identified asset, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to the Group;
- the Group has the right to obtain substantially all of the economic benefits from use of the identified asset throughout the period of use, considering its rights within the defined scope of the contract; and
- the Group has the right to direct the use of the identified asset throughout the period of use. The Group assess whether it has the right to direct “how and for what purpose” the asset is used throughout the period of use.

At lease commencement date, the Group recognizes a right-of-use asset and a lease liability on the balance sheet. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Group, an estimate of any costs to dismantle and remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date (net of any incentives received).

The Group depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Group also assesses the right-of-use asset for impairment when such indicators exist.

At the commencement date, the Group measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Group’s incremental borrowing rate.

Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed), variable payments based on an index or rate, amounts expected to be

payable under a residual value guarantee and payments arising from options reasonably certain to be exercised.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in substance fixed payments.

When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

Investment property

Investment properties are the assets which have undetermined future use. Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, the investment properties are stated at cost less accumulated depreciation. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group beyond one year. All other repair and maintenance costs are recognized in the Statement of Profit and Loss as incurred.

Subsequent measurement (depreciation and useful lives)

The Group only has land as an investment property, which is not depreciated.

De-recognition

An investment property is derecognized upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognized.

Financial Instruments

A Financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Initial recognition and measurement

Financial assets and financial liabilities are recognized when the Group becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted by transactions costs, except for those carried at fair value through profit or loss which are measured initially at fair value. Subsequent measurement of financial assets and financial liabilities is described below.

Classification and subsequent measurement of financial assets

For the purpose of subsequent measurement, financial assets are classified into the following categories upon initial recognition:

- amortized cost;
- financial assets at fair value through profit or loss (**FVTPL**); and
- financial assets at fair value through other comprehensive income (**FVOCI**).

All financial assets except for those at FVTPL or equity instruments at FVOCI are subject to review for impairment at least at each reporting date to identify whether there is any objective evidence that a financial asset or a group of financial assets is impaired. Different criteria to determine impairment are applied to each category of financial assets, which are described below.

Amortized cost

A financial asset is measured at amortized cost using EIR if both of the following conditions are met:

- (b) the financial asset is held within a business model whose objective is to hold financial assets to collect contractual cash flows; and
- (c) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A loss allowance for expected credit losses is recognized on financial assets carried at amortized cost.

Modification of cash flows

When the contractual cash flows of a financial asset are renegotiated or otherwise modified, and the renegotiation or modification does not result in derecognition of that financial asset, the Group recalculates the gross carrying amount of the financial asset and recognizes a modification gain or loss in profit or loss. The gross carrying amount of the financial asset shall be recalculated as the present value of the renegotiated or modified contractual cash flows that are discounted at the financial asset's original effective interest rate. Any costs or fees incurred adjust the carrying amount of the modified financial asset and are amortized over the remaining term of the modified financial asset.

Financial assets at FVTPL

Financial assets at FVTPL include financial assets that either do not meet the criteria for amortized cost classification or are equity instruments held for trading or that meet certain conditions and are designated at FVTPL upon initial recognition. All derivative financial instruments also fall into this category, except for those designated and effective as hedging instruments, for which the hedge accounting requirements may apply. Assets in this category are measured at fair value with gains or losses recognized in profit or loss. The fair values of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

Financial assets at FVOCI

FVOCI financial assets comprise equity instruments measured at fair value. An equity investment classified as FVOCI is initially measured at fair value plus transaction costs. Gains and losses are recognized in other comprehensive income and reported within the FVOCI reserve within equity, except for dividend income, which is recognized in profit or loss. There is no recycling of such gains and losses from OCI to Statement of Profit & Loss, even on the derecognition of the investment. However, the Group may transfer the same within equity.

De-recognition of financial assets

De-recognition of financial assets due to a substantial modification of terms and conditions

The Group derecognizes a financial asset, such as a loan to a customer, when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new loan, with the difference recognized as a derecognition gain or loss, to the extent that an impairment loss has not already been recorded.

De-recognition of financial assets other than due to substantial modification

Financial assets (or where applicable, a part of financial asset or part of a group of similar financial assets) are derecognized (i.e. removed from the Group's balance sheet) when the contractual rights to receive the cash flows from the financial asset have expired, or when the financial asset and substantially all the risks and rewards are transferred. The Group also derecognizes the financial asset if it has both transferred the financial asset and the transfer qualifies for derecognition.

Classification and subsequent measurement of financial liabilities

Financial liabilities are measured subsequently at amortized cost using the effective interest method, except for financial liabilities held for trading or designated at FVTPL, that are carried subsequently at fair value with gains or losses recognized in profit or loss.

Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

Hedge accounting

To qualify for hedge accounting, the hedging relationship must meet all of the following requirements:

- there is an economic relationship between the hedged item and the hedging instrument;
- the effect of credit risk does not dominate the value changes that result from that economic relationship; and
- the hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the entity actually hedges and the quantity of the hedging instrument that the entity actually uses to hedge that quantity of hedged item.

All derivative financial instruments designated under hedge accounting are recognized initially at fair value and reported subsequently at fair value at each reporting date. To the extent that the hedge is effective, changes in the fair value of derivatives designated as hedging instruments in cash flow hedges are recognized in other comprehensive income and included within the cash flow hedge reserve in equity. Any ineffectiveness in the hedge relationship is recognized immediately in profit or loss.

At the time the hedged item affects profit or loss, any gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss and presented as a reclassification adjustment within other comprehensive income.

At the inception of each hedging relationship, the Company formally designates and documents the hedge relationship, in accordance with the Company's risk management objective and strategies. The documentation includes identification of the hedged item, hedging instrument, the nature of risk(s) being hedged, the hedge ratio and how the hedging relationship meets the hedging effectiveness requirements.

Impairment of financial assets

Loan assets

The Group follows a "three-stage" model for impairment based on changes in credit quality since initial recognition as summarized below:

- Stage 1 includes loan assets that have not had a significant increase in credit risk since initial recognition or that have low credit risk at the reporting date.
- Stage 2 includes loan assets that have had a significant increase in credit risk since initial recognition but that do not have objective evidence of impairment.
- Stage 3 includes loan assets that have objective evidence of impairment at the reporting date.

The Expected Credit Loss (ECL) is measured at a 12-month ECL for Stage 1 loan assets and lifetime ECL for Stage 2 and Stage 3 loan assets. ECL is the product of the Probability of Default, Exposure at Default and Loss Given Default, defined as follows:

Probability of Default (PD) – PD represents the likelihood of the borrower defaulting on its obligation either over next 12 months or over the remaining lifetime of the instrument.

Loss Given Default (LGD) – LGD represents the Company's expectation of loss provided that a default occurs. LGD is expressed in percentage and it shows the proportion of the amount that will actually be lost post recoveries in case of a default.

Exposure at Default (EAD) – EAD represents the amounts, including the principal outstanding, interest accrued and outstanding Letters of Comfort that the Company expects to be owed at the time of default.

Forward-looking economic information is included in determining the 12-month and lifetime PD, EAD and LGD. The assumptions underlying the expected credit loss are monitored and reviewed on an ongoing basis.

Financial assets other than Loans

In respect of its other financial assets, the Group assesses if the credit risk on those financial assets has increased significantly since initial recognition. If the credit risk has not increased significantly since initial recognition, the Group measures the loss allowance at an amount equal to the 12-month expected credit losses, or else at an amount equal to the lifetime expected credit losses.

To make that assessment, the Group compares the risk of a default occurring on the financial asset as at the balance sheet date with the risk of a default occurring on the financial asset as at the date of initial recognition. The Group also considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition. The Group assumes that the credit risk on a financial asset has not increased significantly since initial recognition if the financial asset is determined to have low credit risk at the balance sheet date.

Write-offs

Financial assets are written off either partially or in their entirety only when the Group has stopped pursuing the recovery.

Assets/ Disposal Groups held for sale

Assets are classified as held for sale if their carrying amount will be recovered principally through sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at lower of their carrying amount or fair value less cost to sell, except for assets such as deferred tax, assets arising from employee benefit, financials assets and contractual rights under insurance contracts, which are specifically exempted from this requirement.

Non-current assets are not depreciated or amortized while they are classified as held for sale. Non-current assets held for sale are presented separately from other assets in the balance sheet.

Where the Group is committed to a sale plan involving loss of control of an entity, it classifies investment in the entity (i.e. all the assets and liabilities of that entity) as held for sale.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits, together with other short-term, highly liquid investments (original maturity less than three months) that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

Dividend

Proposed dividends and interim dividends payable to the shareholders are recognized as changes in equity in the period in which they are approved by the shareholders' meeting and the Board of Directors respectively.

Material prior period errors

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest period presented, the opening balances of assets, liabilities and equity for the earliest period presented are restated.

Prepaid Expenses

A prepaid expense up to Rs. 1,00,000/- is recognized as expense upon initial recognition.

Taxation

Tax expense recognized in profit or loss comprises the sum of deferred tax and current tax. It is recognized in Statement of Profit and Loss, except when it relates to an item that is recognized in OCI or directly in equity, in which case, the tax is also recognized in OCI or directly in equity.

Current tax is determined as the tax payable in respect of taxable income for the year, using tax rates enacted or substantively enacted and as applicable at the reporting date, and any adjustments to tax payable in respect of previous years.

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable income.

Deferred tax assets and liabilities are calculated, without discounting, at tax rates that are expected to apply to their respective period of realization, provided those rates are enacted or substantively enacted by the end of the reporting period. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority.

Deferred tax liability is recognized for all taxable temporary differences. A deferred tax asset is recognized for all deductible temporary differences to the extent that it is probable that future taxable profits will be available against which the deductible temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Changes in deferred tax assets or liabilities are recognized as a component of tax income or expense in profit or loss, except where they relate to items that are recognized in other comprehensive income or directly in equity, in which case the related deferred tax is also recognized in other comprehensive income or equity, respectively.

Dividend Distribution Tax is recognized at the same time when the liability to pay a dividend is recognized.

Employee benefits

Short-term employee benefits

Short-term employee benefits including salaries, short-term compensated absences (such as a paid annual leave), where the absences are expected to occur within 12 months after the end of the period in which the employees render the related service, profit sharing and bonuses payable within 12 months after the end of the period in which the employees render the related services and non-monetary benefits for current employees are estimated and measured on an undiscounted basis.

Post-employment benefit plans are classified into defined benefits plans and defined contribution plans as under:

Defined contribution plan

A defined contribution plan is a plan under which the Group pays fixed contributions in respect of the employees into a separate fund. The Group has no legal or constructive obligations to pay further contributions after its payment of the fixed contribution. The contributions made by the Group towards defined contribution plans are charged to the profit or loss in the period to which the contributions relate.

Defined benefit plan

The Group has an obligation towards gratuity, Post-Retirement Medical Facility (PRMF) and Other Defined Retirement Benefit (ODRB) which are being considered as defined benefit plans covering eligible employees. Under the defined benefit plans, the amount that an employee will receive on retirement is defined by reference to the employee's length of service, final salary, and other defined parameters. The legal obligation for any benefits remains with the Group, even if plan assets for funding the defined benefit plan have been set aside.

The Group's obligation towards defined benefit plans is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. The liability recognized in the statement of financial position for defined benefit plans is the present value of the Defined Benefit Obligation (**DBO**) at the reporting date less the fair value of plan assets. Management estimates the DBO annually with the assistance of independent actuaries.

Actuarial gains/losses resulting from re-measurements of the liability/asset are included in Other Comprehensive Income.

Other long-term employee benefits

Liability in respect of compensated absences becoming due or expected to be availed more than one year after the balance sheet date is estimated on the basis of actuarial valuation performed by an independent actuary using the projected unit credit method.

Actuarial gains and losses arising from past experience and changes in actuarial assumptions are charged to statement of profit and loss in the period in which such gains or losses are determined.

Loan to employees at concessional rate

Loans given to employees at a concessional rate are initially recognized at fair value and subsequently measured at amortized cost. The difference between the initial fair value of such loans and transaction value is recognized as deferred employee cost, which is amortized on a straight-line basis over the expected remaining period of the Loan. In case of change in expected remaining period of the Loan, the unamortized deferred employee cost on the date of change is amortized over the updated expected remaining period of the loan on a prospective basis.

Provisions, Contingent Liabilities, and Contingent Assets

Provisions are recognized when the Group has a present legal or constructive obligation as a result of a past event; it is probable that an outflow of economic resources will be required from the Group and amounts can be estimated reliably. Timing or amount of the outflow may still be uncertain. Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the reporting date, including the risks and uncertainties associated with the present obligation. Provisions are discounted to their present values, where the time value of money is material.

A contingent liability is disclosed for:

- possible obligations which will be confirmed only by future events not wholly within the control of the Group; or
- present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

In those cases, where the outflow of economic resources as a result of present obligations is considered improbable or remote, no liability is recognized or disclosure is made.

Any reimbursement that the Group can be virtually certain to collect from a third party concerning the obligation (such as from insurance) is recognized as a separate asset. However, this asset may not exceed the amount of the related provision.

Contingent assets are not recognized. However, when the inflow of economic benefits is probable, the related asset is disclosed.

Fair value measurement

The Group measures financial instruments, such as derivatives at fair value at each reporting date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability; or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, including assumptions about risk, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the consolidated financial statements regularly, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

Implementation of New/ Modified Standards

Ind AS 116 – Leases

Ind AS 116 supersedes Ind AS 17 and related interpretations. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases. Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. The Standard also contains enhanced disclosure requirements for lessees.

With the date of initial application being April 1, 2019, the Group adopted Ind AS 116 using modified retrospective method of adoption using the modified retrospective approach, where right-to-use asset is measured equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments existed at the date of transition.

For accounting periods before the adoption of Ind AS 116, the Group classified a lease as a finance lease or operating lease, by applying judgement and evaluates whether it transfers substantially all the risks and rewards incidental to ownership of the lease asset. A lease classified as a finance lease resulted in recognition of asset with a corresponding finance lease obligation. In case of operating leases, rental payments were recognized as expense in the year of payment.

Ind AS 12 – Appendix C, Uncertainty over Income Tax Treatments

The Appendix is to be applied while performing the determination of taxable profit (or loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to the appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which has to be considered to compute the most likely amount or the expected value of the tax treatment when determining taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates.

Upon adoption of the Appendix C to Ind AS 12, the Group considered whether it has any uncertain tax positions. The Group determined, based on its tax compliance, that it is probable that its tax treatments will be accepted by the taxation authorities. The Appendix did not have an impact on the consolidated financial statements of the Group.

Amendment to Ind AS 12 – Income taxes

The amendments to the guidance in Ind AS 12, “Income Taxes”, is in connection with accounting for dividend distribution taxes. The amendment clarifies that an entity shall recognize the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognized those past transactions or events.

Since, the Group’s current practice is in line with these amendments, they had no impact on the consolidated financial statements of the Group.

Amendment to Ind AS 19 – Plan amendment, curtailment or settlement

The amendments to Ind AS 19, “Employee Benefits”, is in connection with accounting for plan amendments, curtailments and settlements requiring an entity to use updated assumptions to determine current service cost and net interest for the remainder of the period after a plan amendment, curtailment or settlement; and to recognize in profit or loss as part of past service cost, or a gain or loss on settlement, any reduction in a surplus, even if that surplus was not previously recognized because of the impact of the asset ceiling.

The amendments had no impact on the consolidated financial statements of the Group as it did not have any plan amendments, curtailment or settlement during the year.

Adoption of Hedge Accounting

The Group has applied hedge accounting requirements in Ind AS 109 prospectively from January 1, 2020, wherein certain derivative contracts have been designated as hedging instruments in “Cash flow hedge” relationships. These arrangements have been entered into to mitigate foreign currency exchange risk and interest rate risk arising from certain debt instruments denominated in foreign currency.

Standards issued but not yet effective

There are no new amendments issued by MCA which are effective for period w.e.f. April 1, 2021.

Significant management judgement in applying accounting policies and estimation of uncertainty

The preparation of the Group’s consolidated financial statements requires management to make judgements, estimates, and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the related disclosures. Actual results may differ from these estimates.

Significant management judgements

Recognition of deferred tax assets/ liability – The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilized. Further, the Management has no intention to make a withdrawal from the Special Reserve created and maintained under section 36(1)(viii) of the Income tax Act, 1961 and, thus, the special reserve created and maintained is not capable of being reversed. Hence, the Group does not create any deferred tax liability on the said reserve.

Recognition of Deferred Tax Liability on Undistributed Reserves of Group Companies – The applicable tax laws provide for tax deduction in respect of dividend income from equity investments, to the extent of dividend declared by the Company to its shareholders during the year. Considering the historical information and dividend distribution policy of the Company, the Company does not expect any tax liability on the undistributed reserves of the Group Companies, as and when such reserves are distributed. Hence, the Company does not create any deferred tax liability on undistributed reserves of Group Companies.

Evaluation of indicators for impairment of assets – The evaluation of the applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of a recoverable amount of the assets.

Investment in SPVs – Transmission projects are managed as per the mandate from Government of India and the Group does not have the practical ability to direct the relevant activities of these projects unilaterally. The Group therefore considers its investment in respective SPVs as associates having significant influence despite the Company holding 100 per cent. of their paid-up equity share capital.

Non-recognition of Interest Income on Credit Impaired Loans – Interest income on credit-impaired loan assets is not being recognized as a matter of prudence, pending the outcome of resolutions of stressed assets.

Significant estimates

Impact of COVID-19 Outbreak – The extent to which the COVID-19 pandemic will impact the Group will depend on future developments, which are uncertain, including, among other things, any new information concerning the severity of the COVID-19 pandemic and any further action by the Government or the Group to contain its spread or mitigate its impact.

Useful lives of depreciable/amortizable assets – Management reviews its estimate of the useful lives of depreciable/amortizable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of assets.

Defined benefit obligation (DBO) – Management’s estimate of the DBO is based on a number of underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

Fair value measurements – Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument. In estimating the fair value of an asset or a liability, the Group uses market-observable data to the extent it is available. In case of non-availability of market-observable data, Level 2 and Level 3 hierarchy is used for fair valuation.

Income Taxes – Significant estimates are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions and also in respect of expected future profitability to assess deferred tax asset.

Expected Credit Loss (ECL) – The measurement of an expected credit loss allowance for financial assets measured at amortized cost requires the use of complex models and significant assumptions about future economic conditions and credit behavior (e.g., likelihood of customers defaulting and resulting losses). The Group makes significant judgements about the following while assessing expected credit loss to estimate ECL:

- determining criteria for a significant increase in credit risk;
- establishing the number and relative weightings of forward-looking scenarios for each type of product/ market and the associated ECL;
- establishing groups of similar financial assets to measure ECL; and
- estimating the probability of default and loss given default (estimates of recoverable amounts in case of default).

Changes in Accounting Policies in the last three Fiscal Years

Changes in Accounting Policies for Fiscal 2018, 2019 and 2020

Please refer to the consolidated financial statements as of and for the years ended March 31, 2018, 2019 and 2020 included in this Offering Circular for changes in accounting policies for Fiscal 2018, 2019 and 2020.

DESCRIPTION OF PRINCIPAL COMPONENTS OF INCOME AND EXPENSES

Income

Revenue from Operations

Revenue from operations includes the following:

- *Interest Income* - Interest on loan assets (which comprises interest income from long-term and short-term financing), interest income from investments, interest income from deposits with banks and other interest income.
- *Dividend Income* - Income received from dividend distributions on our long-term investments.
- *Fees and Commission Income* - Income from other financial services, which comprises fee-based income, prepayment income and income from implementation of Government schemes.
- *Sale of services* - Sale of services comprises income from consulting engineering services, execution of IT implementation projects and documentation fees.

Other Income

Other income primarily consists of income from provisions/liabilities written back, fees from training courses and miscellaneous income.

Expenses

Finance Cost

Financing costs primarily consists of interest expenses on our borrowings, debt securities, subordinated liabilities and other interest expense.

Net Translation/Transaction Exchange Loss

Net translation/transaction exchange loss includes amortization of net translation/ transaction exchange loss/(gain) on long term foreign currency monetary items recognized in the financial statements before April 1, 2018.

Fees and Commission Expense

Fees and commission expense include payment of guarantee fee, listing and trusteeship fees, agency fees, credit rating expenses and other finance changes.

Net Loss of Fair Value Changes

Net loss on fair value changes includes changes in fair value of derivatives and changes in fair value of short-term investment of surplus funds in mutual funds.

Expenses towards Impairment of Financial Instruments

Impairment of financial instruments consists of costs towards impairment of loans and other financial instruments.

Cost of Services Rendered

Cost of services rendered consists of costs incurred towards project expenses.

Cost of Material Consumed

Cost of material consumed consists of information technology hardware.

Changes in Inventories of Finished Goods and Work-in-Progress

Changes in inventories of finished goods and work-in-progress represent changes in inventories over the period of the items purchased.

Impairment on financial instruments

Impairment on financial instruments includes impairment of loan and other assets.

Employee Benefits Expenses

Employee benefits expenses include employee salaries and allowances, contribution to the Provident Fund and other funds, gratuity, expenses towards post-retirement medical facility and staff welfare expenses.

Depreciation and Amortization

Depreciation represents depreciation charges on our fixed assets, including intangible assets.

Corporate Social Responsibility Expenses

Corporate social responsibility expenses mainly include expenses undertaken in accordance with the provisions of the Companies Act in accordance with the Company's CSR Policy.

Other Expenses

Other expenses include expenses in relation to travelling and conveyance, publicity and promotion, repairs and maintenance of building, rent and hiring charges, insurance charges and other various expenses.

Results of Operations

	For the nine months ended December 31,	
	2019	2020
	(non-consolidated)

Comparison of the relevant non-consolidated financial results for the nine months ended December 31, 2020 with the nine months ended December 31, 2019

Total Income

Total income for the nine months ended December 31, 2020 increased by 19.08 per cent. from Rs. 220,524.2 million for the nine months ended December 31, 2019 to Rs. 262,606.0 million for the nine months ended December 31, 2020, mainly due to an increase in revenue from operations (see below for further details).

Revenue from Operations

Revenue from operations for the nine months ended December 31, 2020 increased by 19.05 per cent. from Rs. 220,437.8 million for the nine months ended December 31, 2019 to Rs. 262,422.8 million for the nine months ended December 31, 2020, mainly due to an increase in interest income (see below for further details).

Interest Income

Our interest income for the nine months ended December 31, 2020 increased by 17.94 per cent. from Rs. 219,074.4 million for the nine months ended December 31, 2019 to Rs. 258,373.2 million for the nine months ended December 31, 2020, primarily due to an increase in the interest on loan assets from Rs. 217,311.7 million for the nine months ended December 31, 2019 to Rs. 255,565.5 million for the nine months ended December 31, 2020 – which in turn was driven by an increase in the loan portfolio of the Company.

Dividend Income

Our dividend income for the nine months ended December 31, 2020 decreased by 7.47 per cent. from Rs. 152.6 million for the nine months ended December 31, 2019 to Rs. 141.2 million for the nine months ended December 31, 2020, primarily due to lower dividend income from the investee companies.

Fees and Commission Income

Our fees and commission for the nine months ended December 31, 2020 increased by 117.23 per cent. from Rs. 289.6 million for the nine months ended December 31, 2019 to Rs. 629.1 million for the nine months ended December 31, 2020, primarily due to an increase of prepayment premiums and agency charges received on implementation of government schemes from Rs. 99.9 million and Rs. 171.7 million, respectively for the nine months ended December 31, 2019 to Rs. 207.7 million and Rs. 252.9 million, respectively for the nine months ended December 31, 2020.

Net gain on fair value changes

Our net gain on fair value changes for the nine months ended December 31, 2020 increased by 255.98 per cent. from Rs. 921.2 million for the nine months ended December 31, 2019 to Rs. 3,279.3 million for the nine months ended December 31, 2020, primarily due to the mark-to-market gain on outstanding derivative transactions.

Other Income

Our other income for the nine months ended December 31, 2020 increased by 112.04 per cent. from Rs. 86.4 million for the nine months ended December 31, 2019 to Rs. 183.2 million for the nine months ended December 31, 2020, primarily due to increase of miscellaneous income from Rs. 40.6 million in the nine months ended December 31, 2019 to Rs. 171.4 million in the nine months ended December 31, 2020, driven by reimbursement of expenses by the Government of India.

Total Expenses

Our total expenses increased by 15.43 per cent. from Rs. 157,673.6 million for the nine months ended December 31, 2019 to Rs. 182,002.4 million for the nine months ended December 31, 2020, due to the reasons described below.

Finance Costs

Our finance costs for the nine months ended December 31, 2020 increased by 14.2 per cent. from Rs. 140,552.5 million for the nine months ended December 31, 2019 to Rs. 160,509.4 million for the nine months ended December 31, 2020, primarily due to an increase in interest costs on account of increased borrowings in line with the growth of our business. Interest on debt securities increased by 10.45 per cent. from Rs. 113,079.1 million for the nine months ended December 31, 2019 to Rs. 124,894.5 million for the nine months ended December 31, 2020, primarily due to increase in the outstanding amount of debt securities. Interest on borrowings increased by 7.24 per cent. from Rs. 24,622.0 million for the nine months ended December 31, 2019 to Rs. 26,403.8 million for the nine months ended December 31, 2020 primarily due to the increase in the outstanding amount of borrowings in the ordinary course of business.

Net Translation/Transaction Exchange Loss

Our net translation and transaction exchange loss decreased by 88.59 per cent. from Rs. 10,251.5 million for the nine months ended December 31, 2019 to Rs. 1,169.7 million for the nine months ended December 31, 2020 due to the adverse movements in the U.S./INR exchange rates of Rs. 2.1027 per U.S.\$1.00 during the nine months ended December 31, 2019 to favorable movement of Rs. 2.3323 per U.S.\$1.00 during the nine months ended December 31, 2020.

Fees and Commission Expense

Our fees and commission expense decreased by 40.33 per cent. from Rs. 149.5 million for the nine months ended December 31, 2019 to Rs. 89.2 million for the nine months ended December 31, 2020, primarily due to lower debt servicing costs during the nine months ended December 31, 2020 as compared to the nine months ended December 31, 2019.

Impairment on Financial Instruments

Our impairment on financial instruments increased by 390.45 per cent. from Rs. 3,511.0 million for the nine months ended December 31, 2019 to Rs. 17,219.8 million for the nine months ended December 31, 2020, primarily due to the creation of incremental provisioning on the loan accounts.

Employee Benefit Expenses

Our employee benefit expenses decreased by 17.55 per cent. from Rs. 1,336.8 million for the nine months ended December 31, 2019 to Rs. 1,102.2 million for the nine months ended December 31, 2020, primarily due to employees superannuating at higher pay scales and reduction of pay scales of current employees.

Depreciation and Amortization

Our depreciation and amortization expenses increased by 0.44 per cent. from Rs. 68.5 million for the nine months ended December 31, 2019 to Rs. 68.8 million for the nine months ended December 31, 2020, primarily due to an increase in depreciation of property, plant and equipment and amortization on intangible assets.

Corporate Social Responsibility Expenses

Our corporate social responsibility expenses increased by 31.82 per cent. from Rs. 820.3 million for the nine months ended December 31, 2019 to Rs. 1,081.3 million for the nine months ended December 31, 2020, primarily due to an increase in direct expenditure on corporate social responsibility projects.

Other Expenses

Our other expenses decreased by 22.52 per cent. from Rs. 983.5 million for the nine months ended December 31, 2019 to Rs. 762.0 million for the nine months ended December 31, 2020, primarily due to lower business activity and lower travelling expenses during the period.

Profit for the period

As a result of the foregoing, our net profit for the period increased by 41.39 per cent. from Rs. 44,504.5 million for the nine months ended December 31, 2019 to Rs. 62,921.5 million for the nine months ended December 31, 2020.

Comparison of the relevant consolidated financial results for Fiscal 2020 with Fiscal 2019

Total Income

Total income for Fiscal 2020 increased by 17.99 per cent. from Rs. 254,313.3 million in Fiscal 2019 to Rs. 300,070.5 million in Fiscal 2020, mainly due to an increase in revenue from operations (see below for further details).

Revenue from Operations

Revenue from operations for Fiscal 2020 increased by 17.84 per cent. from Rs. 253,990.2 million in Fiscal 2019 to Rs.299,297.8 million in Fiscal 2020, mainly due to an increase in interest income (see below for further details).

Interest Income

Our interest income for Fiscal 2020 increased by 18.76 per cent. from Rs. 249,836.2 million in Fiscal 2019 to Rs. 296,717.8 million in Fiscal 2020, primarily due to an increase in the interest on loan assets from Rs. 247,279.0 million in Fiscal 2019 to Rs. 294,223.3 million in Fiscal 2020 driven by an increased loan portfolio of the Company.

Dividend Income

Our dividend income for Fiscal 2020 increased by 81.25 per cent. from Rs. 203.8 million in Fiscal 2019 to Rs. 369.4 million in Fiscal 2020, primarily due to an increase in dividends declared by the companies in which the Company has equity investments.

Fees and Commission Income

Our fees and commission for Fiscal 2020 decreased by 82.7 per cent. from Rs. 2,250.9 million in Fiscal 2019 to Rs. 389.5 million in Fiscal 2020, primarily due to a decrease of prepayment premium and fee for implementation of government schemes during Fiscal 2020.

Sale of Services

Our sale of services for Fiscal 2020 increased by 7.17 per cent. from Rs. 1,699.3 million in Fiscal 2019 to Rs. 1,821.1 million in Fiscal 2020, primarily due to an increase in consultancy engineering services of REC PDCL which is one of our group companies that provides such consultancy engineering services.

Other Income

Our other income for Fiscal 2020 increased by 139.15 per cent. from Rs. 323.1 million in Fiscal 2019 to Rs. 772.7 million in Fiscal 2020, primarily due to increase of miscellaneous income from Rs. 127.9 million in Fiscal 2019 to Rs. 648.8 million in Fiscal 2020, driven by reimbursement of expenses by the Government of India.

Total Expenses

Our total expenses increased by 32.47 per cent. from Rs. 173,508.4 million in Fiscal 2019 to Rs. 229,862.1 million in Fiscal 2020, due to the reasons described below.

Finance Costs

Our finance costs for Fiscal 2019 increased by 21.43 per cent. from Rs. 156,392.0 million in Fiscal 2019 to Rs. 189,913.0 million in Fiscal 2020, primarily due to an increase in interest costs on account of increased borrowings. Interest on debt securities increased by 9.24 per cent. from Rs. 138,103.4 million in Fiscal 2019 to Rs. 150,858.1 million in Fiscal 2020, primarily due to increase in the outstanding debt securities. Interest on borrowings increased by 109.29 per cent. from Rs.16,303.3 million in Fiscal 2019 to Rs. 34,121.5 million in Fiscal 2020, primarily due to an increase in the loans from the Government of India and loans from banks/financial institutions.

Net Translation/Transaction Exchange Loss

Our net translation and transaction exchange loss increased by 352.4 per cent. from Rs. 5,211.9 million in Fiscal 2019 to Rs. 23,579.0 million in Fiscal 2020 due to adverse movements in the U.S./INR exchange rates from Rs. 69.1713 per U.S.\$1.00 as at March 31, 2019 to Rs. 75.3859 per U.S.\$1.00 as at March 31, 2020 and an increase in total foreign currency exposure from U.S.\$5.03 billion to U.S.\$6.81 billion from March 31, 2019 to March 31, 2020.

Fees and Commission Expense

Our fees and commission expense decreased by 26.0 per cent. from Rs. 343.8 million in Fiscal 2019 to Rs. 254.4 million in Fiscal 2020, primarily due to a decrease in other finance charges driven by lower fund servicing costs.

Net Loss on Fair Value Charges

Our net loss on fair value charges decreased by 92.58 per cent. from Rs. 3,485.2 million in Fiscal 2019 to Rs. 258.5 million in Fiscal 2020, primarily due to favorable changes in fair value of derivatives and fair value of short-term investment of surplus funds in mutual funds.

Impairment on Financial Instruments

Our impairment on financial instruments increased by 277.71 per cent. from Rs. 2,434.9 million in Fiscal 2019 to Rs. 9,194.9 million in Fiscal 2020, primarily due to incremental provisioning on the loan assets of the Company.

Cost of Services Rendered

Our cost of services rendered decreased by 15.9 per cent. from Rs. 851.5 million in Fiscal 2019 to Rs. 716.1 million in Fiscal 2020, primarily due to a decrease in project expenses undertaken by one of the group companies.

Employee Benefit Expenses

Our employee benefit expenses increased by 8.9 per cent. from Rs. 1,773.7 million in Fiscal 2019 to Rs. 1,931.5 million in Fiscal 2020, primarily due to an increase in salaries and allowances due to periodic increments and promotions of the Company staff in the ordinary course of business.

Depreciation and Amortization

Our depreciation and amortization expenses increased by 41.98 per cent. from Rs. 82.9 million in Fiscal 2019 to Rs. 117.7 million in Fiscal 2020, primarily due to an increase in depreciation of property, plant and equipment and amortization on intangible assets.

Corporate Social Responsibility Expenses

Our corporate social responsibility expenses increased by 148.15 per cent. from Rs. 1,044.9 million in Fiscal 2019 to Rs. 2,592.9 million in Fiscal 2020, primarily due to an increase in disbursements for CSR projects.

Other Expenses

Our other expenses decreased by 30.91 per cent. from Rs. 1,887.6 million in Fiscal 2019 to Rs. 1,304.1 million in Fiscal 2020, primarily due to lower publicity and promotion expenses of Rs. 60.3 million in Fiscal 2020 as against Rs. 832.2 million in Fiscal 2019.

Profit for the Fiscal Year

As a result of the foregoing, our profit for the year decreased by 13.4 per cent. from Rs. 57,413.8 million in Fiscal 2019 to Rs. 49,722.7 million in Fiscal 2020.

Comparison of the relevant consolidated financial results for Fiscal 2019 with Fiscal 2018

Total Income

Total income for Fiscal 2019 increased by 12.19 per cent. from Rs. 226,663.9 million in Fiscal 2018 to Rs. 254,313.3 million in Fiscal 2019, mainly due to an increase in revenue from operations (see below for further details).

Revenue from Operations

Revenue from operations for Fiscal 2019 increased by 12.13 per cent. from Rs. 226,516.0 million in Fiscal 2018 to Rs. 253,990.2 million in Fiscal 2019, mainly due to an increase in interest income (see below for further details).

Interest Income

Our interest income for Fiscal 2019 increased by 13.05 per cent. from Rs. 220,983.1 million in Fiscal 2018 to Rs. 249,836.2 million in Fiscal 2019, primarily due to an increase in the interest on loan assets from Rs. 217,965.7 million in Fiscal 2018 to Rs. 247,279.0 million in Fiscal 2019 driven by an increased loan portfolio of the Company.

Dividend Income

Our dividend income for Fiscal 2019 decreased by 31.74 per cent. from Rs. 268.5 million in Fiscal 2018 to Rs. 203.8 million in Fiscal 2019, primarily due to a decrease in dividends declared by the companies in which our Company has equity investments.

Fees and Commission Income

Our fees and commission for Fiscal 2019 decreased by 24.81 per cent. from Rs. 2,993.9 million in Fiscal 2018 to Rs. 2,250.9 million in Fiscal 2019, primarily due to a decrease of 55.79 per cent. in fees for implementation of government schemes on account of the cessation of operations under the DDUGJY scheme.

Sale of Services

Our sale of services for Fiscal 2019 decreased by 25.17 per cent. from Rs. 2,270.5 million in Fiscal 2018 to Rs. 1,699.3 million in Fiscal 2019, primarily due to a decrease in consultancy engineering services, in line with market trends, driven by a decrease in revenues from Rs. 2,019.4 million in Fiscal 2018 to Rs. 1,525.1 million in Fiscal 2019 of RECPDCL, which is one of our group companies that provides such consultancy engineering services.

Other Income

Our other income for Fiscal 2019 increased by 118.45 per cent. from Rs. 147.9 million in Fiscal 2018 to Rs. 323.1 million in Fiscal 2019, primarily due to a reversal of provision amounting to Rs. 103.7 million during Fiscal 2019. This provision had been created in earlier periods towards interest on delayed payments to HUDA in relation to enhanced compensation with respect to a plot owned by the Company in Gurugram. However, the Company received a 40 per cent. rebate in an OTSS offered by HUDA during Fiscal 2019 and, therefore, the provision was reversed.

Total Expenses

Our total expenses increased by 3.77 per cent. from Rs. 167,195.4 million in Fiscal 2018 to Rs. 173,508.4 million in Fiscal 2019, due to the reasons described below.

Finance Costs

Our finance costs for Fiscal 2018 increased by 17.29 per cent. from Rs. 133,329.4 million in Fiscal 2018 to Rs. 156,392.0 million in Fiscal 2019, primarily due to an increase in interest and other borrowing costs on account of increased borrowings. Interest on debt securities increased by 13.61 per cent. from Rs. 121,552.7 million in Fiscal 2018 to Rs. 138,103.4 million in Fiscal 2018, primarily due to increase in the interest on foreign currency debt securities and commercial papers. Interest on borrowings increased by 67.13 per cent. from Rs. 9,754.6 million in Fiscal 2018 to Rs. 16,303.3 million in Fiscal 2019 primarily due to an increase in the loans from the Government of India and loans from banks/financial institutions.

Net Translation/Transaction Exchange Loss

Our net translation and transaction exchange loss increased by 2,590.70 per cent. from Rs. 193.7 million in Fiscal 2018 to Rs. 5,211.9 million in Fiscal 2019 due to adverse movements in the U.S.\$/INR exchange rates from Rs. 65.0441 per U.S.\$1.00 as at March 31, 2018 to Rs. 69.1713 per U.S.\$1.00 as at March 31, 2019 and an increase in total foreign currency exposure from U.S.\$4.50 billion to U.S.\$5.03 billion from March 31, 2018 to March 31, 2019.

Fees and Commission Expense

Our fees and commission expense increased by 39.86 per cent. from Rs. 245.8 million in Fiscal 2018 to Rs. 343.8 million in Fiscal 2019, primarily due to an increase in other finance charges driven by higher fund raising and servicing costs due to increased operations of the Company.

Net Loss on Fair Value Charges

Our net loss on fair value charges decreased by 39.21 per cent. from Rs. 5,733.7 million in Fiscal 2018 to Rs. 3,485.2 million in Fiscal 2019, primarily due to changes in fair value of derivatives and fair value of short-term investment of surplus funds in mutual funds.

Impairment on Financial Instruments

Our impairment on financial instruments decreased by 844.81 per cent. from Rs. 23,005.3 million in Fiscal 2018 to Rs. 2,434.9 million in Fiscal 2019, primarily due to lower downgrades of financial instruments during Fiscal 2019 compared to Fiscal 2018. Under the ECL mechanism (pursuant to Ind-AS 109), the entire ECL is booked at the time of downgrading the loan to the credit impaired asset category (Stage III category) and, accordingly, lower impairment charges have been booked during the current period on account of lower credit impaired assets.

Cost of Services Rendered

Our cost of services rendered decreased by 28.92 per cent. from Rs. 1,198.0 million in Fiscal 2018 to Rs. 851.5 million in Fiscal 2019, primarily due to a decrease in project expenses on account of lower revenue generated by certain of our group companies as a result of a decrease in their respective consultancy engineering services.

Cost of materials consumed

Our cost of materials consumed decreased by 100 per cent. from Rs. 79.5 million in Fiscal 2018 to nil in Fiscal 2019, primarily due to the lower amount of materials consumed during Fiscal 2019 on account of lower IT implementation services that were provided by one of our group companies.

Changes in Inventories of Stock-in-Trade and Work-in-Progress

Our changes in inventories of stock-in-trade and work-in-progress decreased by 100 per cent. from Rs. 0.4 million in Fiscal 2018 to Rs. nil in Fiscal 2019, primarily due to the completion of ongoing projects in our group companies in Fiscal 2019 and no additional projects undertaken during such period.

Employee Benefit Expenses

Our employee benefit expenses marginally decreased by 3.62 per cent. from Rs. 1,840.4 million in Fiscal 2018 to Rs. 1,773.7 in Fiscal 2019, primarily due to a decrease in salaries and allowances on account of retirements.

Depreciation and Amortization

Our depreciation and amortization expenses increased by 19.62 per cent. from Rs. 69.3 million in Fiscal 2018 to Rs. 82.9 million in Fiscal 2019, primarily due to an increase in depreciation of property, plant and equipment and amortization on intangible assets.

Corporate Social Responsibility Expenses

Our corporate social responsibility expenses increased by 105.12 per cent. from Rs. 509.4 million in Fiscal 2018 to Rs. 1,044.9 million in Fiscal 2019, primarily due to an increase in disbursements for CSR projects.

Other Expenses

Our other expenses increased by 90.5 per cent. from Rs. 990.5 million in Fiscal 2018 to Rs. 1,887.6 million in Fiscal 2019, primarily due to higher publicity and promotion expenses on account of the launch of a new Government scheme, namely Saubhagya, for which our Company is the nodal agency.

Profit for the Fiscal Year

As a result of the foregoing, our profit for the year increased by 29.00 per cent. from Rs. 44,505.2 million in Fiscal 2018 to Rs. 57,413.8 million in Fiscal 2019.

LIQUIDITY AND CAPITAL RESOURCES

Summary of Cash Flow

We need cash primarily to finance new borrowers and meet working capital requirements. We fund these requirements through a variety of sources, including taxable bonds, capital gains exemption bonds, foreign currency borrowings and commercial paper. The following table sets forth cash flows from operating activities, investing activities and financing activities of: (a) the Group for the fiscal

years ended March 31, 2018, 2019 and 2020, as per Ind-AS, derived from the relevant audited consolidated financial statements; and (b) the Company for the nine months ended December 31, 2019 and 2020 derived from the relevant unaudited non-consolidated reviewed financial statements.

	Fiscal			Nine months ended December 31	
	2018	2019	2020	2019	2020
	(consolidated)			(non-consolidated)	
	<i>(Rs. in millions)</i>				
Net cash generated from operating activities.....	(325,098.1)	(358,658.0)	(327,119.1)	(200,935.7)	(267,367.4)

Net Cash Flow from Operating Activities

Operating activities consisted of loans disbursed net of recoveries made thereof, cash profits earned during the period from operating activities and changes in operating assets and liabilities.

Our net cash flow from operating activities on a non-consolidated basis was Rs. (200,935.7) million and Rs. (267,367.4) million in the nine months ended December 31, 2019 and 2020 respectively, representing a decrease of Rs. 66,432.3 million, or 33.06 per cent.. This was mainly due to higher disbursements towards loan assets.

Our consolidated net cash flow from operating activities was Rs. (358,658.0) million and Rs. (327,119.1) million in the fiscal years ended March 31, 2019 and 2020, respectively, as per Ind-AS, representing an increase of Rs. 31,538.9 million, or 8.79 per cent. in Fiscal 2020 compared to Fiscal 2019. The increase in Fiscal 2020 was mainly due to higher disbursements towards loan assets.

Our consolidated net cash flow from operating activities was Rs. (325,098.1) million and Rs. (358,658.0) million in the fiscal years ended March 31, 2018 and 2019 respectively, as per Ind-AS, representing a decrease of Rs. 33,559.9 million, or 10.32 per cent. in Fiscal 2019 compared to Fiscal 2018. The decrease in Fiscal 2019 was mainly due to an increase in cash outflow as a result of higher disbursements during Fiscal 2019.

Net Cash Flow from Investing Activities

Investing activities consisted of the purchase of fixed assets, including capital work in progress, investments made and income earned thereon.

Our net cash flow from investing activities on a non-consolidated basis was Rs. (208.3) million and Rs. (3,860.0) million in the nine months ended December 31, 2019 and 2020, respectively, representing a decrease of Rs. 3,651.7 million, or 1,753.1 per cent.. This was mainly due to investments made towards high quality liquid assets in pursuance of RBI guidelines.

Our consolidated net cash flow from investing activities amounted to Rs. 4,567.7 million and Rs. 124.3 million for fiscal years ended March 31, 2019 and 2020 respectively, as per Ind-AS, representing a decrease of Rs. 4,443.4 million, or 97.27 per cent. in Fiscal 2020 compared to Fiscal 2019. The decrease

in net cash flow from investing activities in Fiscal 2020 was mainly due to the decrease in investment in equity shares and lower redemption proceeds from debt securities as per the repayment schedules.

Our consolidated net cash flow from investing activities amounted to Rs. 458.8 million and Rs. 4,567.7 million in the fiscal years ended March 31, 2018 and 2019 respectively, as per Ind-AS, representing an increase of Rs. 4,108.9 million, or 895.57 per cent. in Fiscal 2019 compared to Fiscal 2018. The increase in net cash flow from investing activities in Fiscal 2019 was mainly due to the inflow from investments in equity shares on account of the partial sale of equity investments in NHPC, the redemption of debt securities on account of repayments by the investee entity and the maturity of certain corporate and term deposits undertaken by our group companies to manage their surplus cash flows.

Net Cash Flow from Financing Activities

Financing activities consisted of the issue of bonds net of redemptions, the payment of dividend on equity shares and dividend tax paid thereon.

Our net cash flow from financing activities on a non-consolidated basis was Rs. 219,571.7 million and Rs. 274,549.8 million in the nine months ended December 31, 2019 and 2020 respectively, representing an increase of Rs. 54,978.1 million, or 25.04 per cent.. This was mainly due to higher amount of funds raised subsequent to the higher disbursements made towards loan assets.

Our consolidated net cash flow from financing activities amounted to Rs. 355,425.9 million and Rs. 339,262.0 million in the fiscal years ended March 31, 2019 and 2020, respectively, as per Ind-AS, representing a decrease of Rs. 16,163.9 million, or 4.55 per cent. in Fiscal 2020 compared to Fiscal 2019. The decrease in net cash flow from financing activities in Fiscal 2020 was mainly due to lower fund raising from different market borrowings during Fiscal 2020.

Our consolidated net cash flow from financing activities amounted to Rs. 282,438.5 million and Rs. 355,425.9 million in the fiscal years ended March 31, 2018 and 2019 respectively, as per Ind-AS, representing an increase of Rs. 72,987.4 million, or 25.84 per cent. in Fiscal 2019 compared to Fiscal 2018. The increase in net cash flow from financing activities in Fiscal 2019 was mainly due to an increase in funds borrowed under rupee term loans/working capital demand loans from Government/banks/ financial institutions (net of redemptions) from Rs. (3,500.0) million to Rs. 243,500.0 million and an increase in our subordinated liabilities (net of redemptions) from nil to Rs. 21,512.0 million.

OFF-BALANCE SHEET ITEMS

Contingent Liabilities

The following table sets forth the principal components of our consolidated contingent liabilities as at March 31, 2018, 2019 and 2020 (as per Ind-AS):

	As at March 31,		
	2018	2019	2020
	<i>(Rs. in millions)</i>		
Claims against the Company not acknowledged as debts			
.....	0.8	0.8	2.2
Taxation Demands			
- Demands raised by the Income Tax Department			
.....	601.6	910.3	1,139.9

- Demands against appeals filed by the Income Tax Department against the relief allowed to the Company	370.7	304.2	383.0
- Demands raised in respect of Service Tax	3.6	3.6	-
Others			
- Letters of Comfort	135.1	-	9,512.9
- Bank Guarantees	325.8	298.6	307.8

Our total consolidated contingent liabilities increased by 647.66 per cent. from Rs. 1,517.5 million as at March 31, 2019 to Rs. 11,345.8 million as at March 31, 2020. The increase is primarily due to fresh sanctions towards undisbursed letters of comfort.

Capital to Risk-Weighted Assets Ratio (CRAR)

Pursuant to the RBI Master Direction RBI/DNBR/2016-17/45 DNBR. PD. 008/03.10.119/2016-17 dated September 1, 2016, our Company, being an IFC, is required to have a CRAR of 15 per cent. (with a minimum Tier-I capital of 10 per cent.).

The tables below sets forth capital adequacy ratios as at March 31, 2018, 2019 and 2020 (as per Ind-AS), each on a consolidated basis, and as at December 31, 2019 and December 31, 2020, each on a non-consolidated basis.

Particulars	Ind-AS				
	As at March 31,			As at December 31,	
	2018	2019	2020	2019	2020
	(Consolidated)			(Non-consolidated)	
			(%)		
CRAR	17.00	17.77	16.06	18.36	19.27
CRAR – Tier I Capital	14.40	14.44	13.17	15.44	15.78
CRAR – Tier II Capital	2.60	3.33	2.89	2.92	3.49

COMPETITIVE CONDITIONS

Please refer to the sections entitled “Business”, “Industry Overview” and “Risk Factors” in this Offering Circular regarding competition.

UNUSUAL OR INFREQUENT EVENTS OR TRANSACTIONS

Except as described in this Offering Circular, there have been no other events or transactions to the best of our knowledge which may be described as “unusual” or “infrequent”.

KNOWN TRENDS OR UNCERTAINTIES

Except as described in the section titled “*Risk Factors*”, this section and elsewhere in this Offering Circular, to the best of our knowledge, there are no known trends or uncertainties that have or had or are expected to have any material adverse impact on the Group’s revenues or income from continuing operations.

FUTURE RELATIONSHIP BETWEEN COST AND INCOME

Except as described in the sections titled “*Risk Factors*”, “*Business*” and this section, to the best of our knowledge, there are no known factors that will have a material adverse impact on our operations and finances.

RISK FACTORS

Unless stated otherwise, the financial data included in this section for: (i) the nine months ended December 31, 2020 has been derived from the non-consolidated financial statements for the nine months ended December 31, 2020 prepared under Ind-AS; (ii) the year ended March 31, 2018 has been derived from the consolidated financial statements for the year ended March 31, 2019; and (iii) the years ended March 31, 2019 and 2020 have been derived from the consolidated financial statements for the years ended March 31, 2019 and 2020 prepared under Ind-AS. See “Presentation of financial and other information.”

In purchasing the Notes, investors assume the risk that our Company may become insolvent or otherwise be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in our Company becoming unable to make all payments due. It is not possible to identify all such factors or to determine which factors are most likely to occur, as our Company may not be aware of all relevant factors and certain factors which we currently deem not to be material may become material as a result of the occurrence of events beyond our control. We have identified, in this Offering Circular, a number of factors which could materially adversely affect our business and ability to make payments due. In addition, factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below.

Prospective investors should also read the detailed information set out elsewhere in this Offering Circular and reach their own views prior to making any investment decision.

RISKS RELATING TO OUR BUSINESS

Our business, and the industry where we profess our business, are dependent on the policies and support of the Government and we are susceptible to changes to such policies and the level of support we receive. If the changes in Government policies are not in favor of our business, then the same are likely to adversely affect our business, financial condition and results of our operations.

We are a Government-owned company operating in a regulated industry. Our business and our industry are dependent, directly and indirectly, on the policies and support of the Government in many significant ways, including, the cost of our capital, the financial strength of our borrowers, the management and growth of our business, our industry and our overall profitability.

Historically, we have been able to reduce our cost of capital and reliance on commercial borrowings because of various forms of assistance received from the Government. Currently, we have been receiving tax concessions with respect to certain types of our bonds that enable us to price such bonds at a lower rate of interest than would otherwise be available to us. We also benefit from certain direct tax benefits provided by the Government.

The Government also influences the nature of our business in a number of ways. In particular, the Government establishes the schemes in which we and our borrowers participate. Like any other public sector undertaking, the Government can also influence or determine key decisions about our Company, including dividends and the appointment of our Directors. Additionally, the Government may implement policies which may not be consistent with our business objectives. For example, although we intend to continue to diversify our asset portfolio and continue to increase our power generation-related lending activity, our lending capacity is not unlimited, and the Government could seek refocusing of our lending capacity on transmission and distribution projects in rural areas.

As the Government regulates the industry in which our borrowers operate, our borrowers may also be significantly impacted by the policies of the Government in a variety of ways. For example, the Government has established a number of schemes and provided incentives that provide benefits to

power projects that have enhanced the financial viability of the projects and the financial position of our borrowers. Additionally, the Government has, in the past, assisted us in procuring the repayment of our loans from our borrowers. Furthermore, the growth of our business is dependent upon the continued growth of the power sector and the overall Indian economy, which may significantly be impacted by the policies of the Government. Any unfavorable change in Government policies or any variation in the level of direct or indirect support to us, as provided by the Government, in these or other areas could have a material adverse effect on our business, financial condition and results of our operations.

In November 2015, the Government launched the Ujwal DISCOM Assurance Yojana (**UDAY**), a scheme for the operational and financial turnaround of distribution companies (**DISCOMs**). The scheme aims to improve the operational efficiency of DISCOMs, reduce the cost of power and improve the financial health of DISCOMs by charging reduced interest rates. A significant number of incentives under the UDAY scheme would be beneficial to all DISCOMs and states that opt for it. The UDAY scheme focuses on both liquidity improvement and provides a sharp reduction in losses by lowering the interest burden of DISCOMs. Under the UDAY scheme, state governments, which own the DISCOMs, take over 75 per cent. of the debt as of September 30, 2015, and pay back lenders by selling bonds with lower interest rates. For the remaining 25 per cent. of the debt, DISCOMs issue state-backed bonds, whose interest rates are lower than the rates at which the loans were disbursed to them by our Company. The scheme has resulted in pre-payment and/or re-pricing of our loans provided to companies in the distribution sector. Our inability to redeploy, at similar or higher rates, funds received through prepayments under similar schemes may adversely affect our margins in the future, which could have a material adverse effect on our business, financial condition and results of our operations. Similar schemes may be implemented by the Government which, though may be beneficial to the overall health of the power sector, could be detrimental to the Company in the near future.

A global outbreak of an infectious disease such as COVID-19 or any other serious public health concerns in Asia or elsewhere could have a material adverse effect on our business, financial condition and results of operations and could cause the trading price of the Notes to decrease.

The outbreak of a pandemic or an infectious disease in Asia or elsewhere or any other serious public health concern, such as swine influenza, around the world could have a negative impact on economies, financial markets and business activities worldwide and which in turn could have a material adverse effect on our business, financial condition and results of operations.

Since December 2019, there is an on-going outbreak of the 2019 novel coronavirus (**COVID-19**) which has affected countries globally, with the World Health Organization declaring the outbreak a pandemic on March 12, 2020. There have been border controls, lockdowns and travel restrictions imposed by various countries, including India, as a result of the COVID-19 outbreak. Such outbreak of an infectious disease together with any resulting restrictions on travel and/or imposition of lockdown measures have resulted in protracted volatility in domestic and international markets and/or may result in a global recession and may adversely impact our operations, revenues, cash flows and profitability. A number of governments have revised gross domestic product growth forecasts for 2020 downwards in response to the economic slowdown caused by the spread of COVID-19, and it is possible that the outbreak of COVID-19 will cause a prolonged global economic crisis or recession.

A lockdown to contain the spread of COVID-19 had been in force in India since March 24, 2020 and had forced factories, shops and offices in India to close down, resulting in a fall in power consumption, as industrial, trading, construction and many other economic activities have remained largely suspended. The lockdown has been relaxed in most parts of India in the second half of the year 2020. While we have not experienced any delinquencies in the payments from our borrowers, we may face delays associated with collection of payments from our clients, which are in the power infrastructure sector, due to economic slowdown caused by COVID-19, which may adversely affect our cash flows. This may be coupled with difficulty in accessing sources of financing as a consequence of volatility in domestic and international markets and/or a global recession. Further, we may also be required by the

Government of India to provide loans to our clients at reduced rates, and/or restructure our loans to, or agree to moratoriums with them.

The current second wave of COVID-19 pandemic which has struck in March, 2021 appears to be ascending faster than the first wave that peaked in mid-September, 2020. Previous pandemics have been characterized by waves of activity spread over months. Once the level of disease activity drops, a critical communications task will be to balance this information with the possibility of another wave. Pandemic waves can be separated by months and an immediate “at-ease” signal may be premature. Various ministries and regulators, including the Reserve Bank of India (RBI), Ministry of Finance, Ministry of Corporate Affairs and SEBI implemented measures to minimize the compliance burden and impact of the economic slowdown and to protect the interest of investors during market volatility due to the COVID-19 pandemic. For instance, the RBI had permitted all commercial banks, co-operative banks, all-India financial institutions, and non-banking financial companies (including housing finance companies) to grant a moratorium of three months in respect of term loans made by them, on payment of all “instalments” falling due between March 1, 2020 and May, 31 2020. The RBI has, on May 22, 2020, allowed Lending Institutions to further extend the moratorium on instalments of term loans by another three months, from June, 1 2020 to August 31, 2020, along with a similar measure for deferment of interest for another three months on working capital facilities.

Further, in view of the economic disruption caused by the lockdown imposed to contain the COVID-19 outbreak, to facilitate liquidity flow in the power sector, the Ministry of Finance, Government of India, on May 13, 2020, as part of the economic stimulus package, mandated the Company and PFC to infuse liquidity of Rs. 900,000 million to enable electricity DISCOMS for clearance of their outstanding dues as on March 31, 2020. Further, in September 2020, the Government of India allowed enhanced funding to Discoms for clearance of their outstanding dues as on June 30, 2020. Also, the Government has allowed funding to Discoms in exemption of the working capital limits under the UDAY scheme. Thus, pursuant to the MoP order dated September 2, 2020, Discoms are now eligible for loans to clear outstanding dues of CPSU generation companies and transmission companies, IPPs and renewable energy generators up to June 30, 2020. The Company estimates that the total funding to the Discoms following the MoP order dated September 2, 2020, shall be approximately up to Rs. 1,200,000 million. The loans shall be secured with unconditional and irrevocable guarantees by state governments covering the loan amounts along with interest and any other charges towards the loan. Under the scheme, loans will be given to the Discoms in two tranches, 50 per cent. of the sanctioned loan amount shall be considered in tranche-I and balance in tranche-II. The loans to the Discoms under tranche II are subject to progress achieved in implementation of conditions such as clearance of unpaid electricity dues and unpaid subsidies dues by the respective state governments, installation of smart meters and digital payments of electricity bill. For further details of other regulatory measures taken to mitigate the economic effects of COVID-19, please see “*Regulations and Policies*” in this Offering Circular.

Considering the resurgence in the business and commercial activity leading to increase in power demand and generation and other mitigating factors including our Company’s liquidity position and access to diverse sources of funds, there are no reasons to believe that the current crisis will have any significant impact on the Company’s ability to maintain its operations, including the going concern assessment. However, the impact will continue to be dependent on future developments, which are uncertain, including, among other things, any new information concerning the severity or new variants of the COVID-19 virus and any further action by the Government or the Company to contain its spread or mitigate its impact. Further, the aforementioned factors and any other measures, which may be announced by the Government or the RBI or any other regulators, may have an adverse effect on our operating results, businesses, assets, financial condition, performance or prospects.

In addition, influenza A H5N1 has had a profound effect on the poultry industry and Nipah virus encephalitis, is an emerging infectious disease of public health importance in Asia. India’s southern state of Kerala was put under a lot of stress in May 2018 due to an outbreak of the Nipah virus. Asia is

home to dynamic systems in which biological, social, ecological, and technological processes interconnect in ways that enable microbes to exploit new ecological niches. These processes include population growth and movement, urbanization, changes in food production, agriculture and land use, water and sanitation, and the effect of health systems through generations of drug resistance.

We cannot predict the duration or scope of the COVID-19 pandemic or when operations will cease to be affected by it. The extent of the COVID-19 pandemic's impact on the operational and financial performance of our Company will depend on future developments, including the duration, spread and intensity of the outbreak and Government responses to control the spread of the pandemic, all of which are uncertain and difficult to predict considering the rapidly evolving situation. To the extent the COVID-19 pandemic adversely affects our business and financial results, it may also have the effect of heightening many of the other risks described in the section titled "*Risk Factors*", including those relating to cash flows. There can be no assurance that the on-going situation caused by the COVID-19 pandemic or a future outbreak of an infectious disease among humans or animals (if any) or any other serious public health concern will not have a material adverse effect on our business, financial condition and results of operations and potentially cause the trading price of the Notes to decrease.

We have a significant concentration of outstanding loans to certain borrowers and if the loans to these borrowers become non-performing, the quality of our asset portfolio may be adversely affected.

We are a power sector-specific public financial institution. This sector has a limited number of borrowers, primarily comprising public sector utilities (State Power Utilities (SPUs) and State Electricity Boards (SEBs)), many of which are loss-making and may not have the liquidity to repay their borrowings. Our past exposure has been, and future exposure is anticipated to be, concentrated towards these borrowers.

As of December 31, 2020, we had aggregate non-consolidated loans outstanding to state sector borrowers of Rs. 3,191,380.20 million, which constituted about 89.38 per cent. of our total non-consolidated loans outstanding. Historically, state sector utilities have had a relatively weak financial position and have also defaulted on their indebtedness in the past. Consequently, we have had to restructure loans sanctioned to certain SPUs and SEBs, which resulted in our having to reschedule their loans and waive a part of their interest dues because of such restructuring. There can be no assurance that the applicable SEBs and SPUs will be able to perform under the terms of the rescheduled loans.

As of December 31, 2020, our single borrower having the largest amount of outstanding loans accounted for 7.24 per cent. of our total non-consolidated outstanding loans and the borrower group to which we had the largest amount of outstanding loans in the aggregate accounted for 7.24 per cent. of our total non-consolidated outstanding loans. As of December 31, 2020, the top ten individual borrowers to whom we had the largest amount of outstanding loans in the aggregate accounted for 40.45 per cent. of our total non-consolidated outstanding loans and the top ten borrower groups to which we had the largest amount of outstanding loans in the aggregate accounted for 40.45 per cent. of our total non-consolidated outstanding loans. For further details, see the section titled "*Business*" in this Offering Circular. In addition to our exposure to borrowers resulting from our outstanding loans, we may also have exposures to borrowers, including the top ten individual borrowers and borrower groups referred to above, in the form of unfunded loan sanctions.

Any negative trends or financial difficulties, particularly among the borrowers and borrower groups to whom we have the greatest exposure, including SEBs and SPUs, could increase the level of credit-impaired assets or non-performing assets (NPA) in our portfolio and that may make us unable to service our outstanding indebtedness. For the foreseeable future, we expect to continue to have a significant concentration of loans to certain borrowers, including SEBs and SPUs. Credit losses on the individual borrowers or borrower groups to whom, as well as the projects in respect of which, we have the greatest exposure could have a material adverse effect on our business, financial condition and results of our operations.

Furthermore, as we continue to increase our exposure to generation projects, our individual loan size is expected to increase, thereby increasing our exposure with respect to individual projects.

Our competitive efficiency is dependent on our ability to maintain a low and effective cost of funds; if we are unable to do, so it could have a material adverse effect on our business, financial condition and results of our operations.

Our ability to compete effectively is dependent on our ability to maintain a low and effective cost of funds. Historically, our access to funds has been enhanced and our cost of funds has been reduced by equity financing and loans received directly from the Government, as well as tax concessions with respect to, and guarantees of, certain types of our bonds and borrowings that enable us to price such borrowings at a lower rate of interest than would have been otherwise available to us. For further details, see the section titled “*Business*” in this Offering Circular. Further, competition in our industry depends on, among other things, the on-going evolution of the Government and state government policies relating to the power and finance industries, the entry of new participants into the industry and the extent to which existing participants in our industry seek to expand their exposure to the power sector.

There can be no assurance as to the level of direct or indirect support as may be provided to us by the Government. If there are any unfavorable changes in the policies of the Government in future, the same could materially increase the cost of funds available to us. In particular, the Government has not provided us any direct funding since 2001. Similarly, the Government has not allowed us to issue SLR Bonds since Fiscal 1999. In addition, since January 2007, the Government has limited the amount of our capital gain tax exemption bonds issued under Section 54EC of the Income Tax Act that an individual investor can utilize to offset capital gains to Rs. 5.0 million, which has reduced the amount of bonds that we have been able to offer for subsequent periods. Consequently, our dependency on funding from debt capital markets and commercial borrowings has increased significantly. Further, the allocation of amount in respect of tax-free bonds is subject to the CBDT notification issued by the MoF and we may not be able to issue such bonds prospectively. As a result of these and other factors, our Company’s cost of funds (on a non-consolidated basis), during the nine months ended on December 31, 2020, was 7.29 per cent. which may increase during subsequent periods. While we generally have been able to pass the increased cost of funds onto our customers over this period, we may not be able to continue to do so in the future. In particular, financially stronger SPUs and private sector borrowers may seek to source their funds directly from the market if our loan products are not competitively priced and where our ability to price our products depends on our cost of capital.

Our ability to continue to obtain funds from the debt capital markets and through commercial borrowings on acceptable terms will depend on various factors, including, in particular, our ability to maintain our credit ratings (which are based upon several factors and many of which are beyond our control, including the economic conditions in the power sector and the Indian economy, and the liquidity in the domestic and global debt markets). There can be no assurance as to whether we will be able to maintain our existing ratings or be able to obtain funds on acceptable terms, or at all. Any deterioration of our ratings (if any) could materially increase the cost of funds available to us, particularly from debt capital markets and commercial borrowings. Furthermore, some of our existing commercial borrowings require us to pay increased rates of interest and/or to repay the loan in its entirety in the event of a ratings downgrade. Our borrowing costs have been competitive in the past due to direct and indirect benefits, including financing we have received from the Government and as a result of our strong credit ratings, which may also be dependent on our relationship with the Government. If we are unable to access funds at an effective cost that is comparable to, or lower than, our competitors, possibly due to a change in the Government’s policy, a reduction in our credit rating or due to other factors, we may not be able to offer competitive interest rates to our borrowers. This is a significant challenge for our Company as there are limits to the extent to which higher costs of funds can be passed on to borrowers, thus potentially affecting our Company’s net interest income. All of the above factors could adversely

affect our profitability and growth, which in turn would have an adverse effect on our business, financial condition and results of operations.

If we are unable to maintain a low effective cost of funds, we may be unable to competitively price our loans. Accordingly, we may not be able to maintain the profitability or growth of our business, which could have a material adverse effect on our business, financial condition and results of operations.

Prepayment penalties may be imposed in respect of any prepayment of our financial indebtedness.

Our Company enters into financial indebtedness by way of raising term loans from banks and financial institutions regularly. The terms of such financial indebtedness may require the Company to pay prepayment penalties (amounting to a certain percentage of the principal amount of such financial indebtedness) in the event of any prepayment prior to the stated lock-in period (if any). If the Company does prepay any such financial indebtedness in the future, the payment of any prepayment penalty may affect the Company's profitability, financial condition and/or results of operation.

Our statutory auditors have made observations in their annexure to auditor's reports on our audited financial statements for Fiscal 2018, 2019 and 2020 and included certain emphasis of matters in the auditor's report to our audited financial statements for Fiscal 2020.

Our statutory auditors have not given any qualification, reservation, adverse remark or disclaimer in their report on the non-consolidated and consolidated financial statements of the Company but have made certain observations on further strengthening of our internal financial controls. This can be referred to in the respective annexure to the auditors' reports on our audited financial statements for Fiscal 2018, 2019 and 2020. Our statutory auditors have also included an "emphasis of matter" regarding the determination and provisioning of impairment allowance and the impact of COVID-19 on the financial statements of the Group. Please refer to the auditors' report to the consolidated audited financial statements for Fiscal 2020.

Our Company may be subject to similar observations and "emphasis of matters" in the future which could have a material adverse impact on our financial condition, profitability and operations.

We may face asset liability mismatches, which could affect our liquidity and consequently have a material and adverse effect on our business, financial performance and results of operations.

We may face potential liquidity risks due to varying periods over which our assets and liabilities mature. We currently fund our business in significant part through the use of borrowings that have shorter maturities than the maturities of all of our new substantial loan assets. In particular, in recent years we have obtained funding through the issuance of capital gains tax exemption bonds issued under Section 54EC of the Income Tax Act. These bonds are subject to tax concessions for the benefit of bondholders that enable us to price such bonds at a lower rate of interest than would otherwise be available to us and thereby reduce our cost of capital. However, these bonds require a holding period of three years from the date of allotment for the bondholders to receive the benefit of these tax concessions and are automatically redeemed at the end of three years from allotment. On February 1, 2018, the MoF approved the extension of the holding period of capital gains tax exemption bonds from three years to five years. For additional information with respect to our issuances of long-term tax exemption bonds issued under Section 54EC of the Income Tax Act, see the section titled "Business" in this Offering Circular. Our term loans, which constitute the largest component of our loan assets, typically have a maturity of more than ten years. As of December 31, 2020, we had long-term borrowings outstanding of Rs. 3,071,972.4 million (on a non-consolidated basis), which constituted 86.03 per cent. of our outstanding non-consolidated long-term loan assets. Additionally, our other financial products may have maturities that exceed the maturities of our borrowings.

Furthermore, our Company's inability to effectively manage our funding requirements and the financing our Company provides may also be aggravated if our Company's borrowers pre-pay or are unable to repay any amount due under the financing facilities granted by our Company. Our Company's asset-liability management framework categorizes all interest rate sensitive assets and liabilities into various time period categories according to contracted residual maturities or anticipated re-pricing dates, as maybe relevant in each case. The difference between the value of assets and liabilities maturing, or being re-priced, in any time period category provides the measure to which our Company is exposed to the risk of potential changes in the margins on new or re-priced assets and liabilities. Despite the existence of such measures, our Company's liquidity position could be adversely affected by the development of an asset-liability mismatch, which could have a material adverse effect on our Company's business, prospects, results of operations and financial condition. To the extent we fund our business through the use of borrowings that have shorter maturities than the loan assets we disburse, our loan assets will not generate sufficient liquidity to enable us to repay our borrowings as they become due, and we will be required to obtain new borrowings to repay our existing indebtedness. There can be no assurance that new borrowings will be available on favorable terms or at all. In particular, we are increasingly reliant on funding from debt capital markets and commercial borrowings. The market for such funds is competitive and our ability to obtain funds on acceptable terms will depend on various factors, including, in particular, our ability to maintain our credit ratings, which are based upon several factors, many of which are outside our control, including the economic conditions in the power sector and the Indian economy, and the liquidity in the domestic and global debt markets.

Any inability to obtain new borrowings, on favorable terms or otherwise, may negatively impact the profitability and growth of our business, which could have an adverse effect on our business, financial condition and results of operations.

If we are unable to manage our growth effectively, our business and financial results could be adversely affected.

Our business has experienced meaningful growth in scope and size since we began operations in 1969. We began financing projects outside the area of rural transmission and distribution much later in our Company's history. Since 2001, funding for generation projects has constituted an increasingly larger portion of our business. The size of the projects that we finance has increased. Further, pursuant to a certificate dated September 17, 2010, the RBI further categorized us as an infrastructure finance company (IFC). As a result, our Company can now increase its exposure to private sector borrowers.

We intend to continue to grow our business in both scope and size, particularly with respect to generation projects, which could place significant demands on our operational, credit, financial and other internal risk controls. In addition, in September 2009, our mandate was further extended to include financing other activities with linkages to power projects, such as coal and other mining activities, fuel supply arrangements for the power sector and other power-related infrastructure.

We expect that our asset growth will be primarily funded by the issuance of new debt. We may have difficulty in obtaining funding on attractive terms. Adverse developments in the Indian credit markets, such as increases in interest rates, may increase our debt service costs and the overall cost of our funds and impair our ability to manage our recent growth or to continue to grow our business.

Any inability to manage our growth effectively could have a material adverse effect on our business, financial condition and results of operations. Furthermore, because of our recent growth and the long gestation period for power sector investments, our historical financial statements may not be an accurate indicator of our future financial performance.

We are currently engaged in foreign currency borrowings and we are likely to do so at increased levels in the future, which will expose us to fluctuations in foreign exchange rates and if we are

unable to hedge the risk effectively, it could adversely affect our business, financial condition and results of operations.

As of December 31, 2020, we had foreign currency borrowings outstanding equal to Rs. 507,092.8 million (on a non-consolidated basis) out of which 36.2 per cent. of our total non-consolidated borrowings were unhedged. We are likely to obtain additional foreign currency borrowings in the future. Although we believe that our foreign currency hedging with respect to our existing foreign currency borrowings is effective, there can be no assurance that it will remain effective or that we will enter into effective hedging with respect to any new foreign currency borrowings. We expect to increase our foreign currency borrowing in the future and therefore may be further exposed to fluctuations in foreign currency rates. Volatility in foreign exchange rates and our inability, if any, to hedge the risk effectively could adversely affect our business, financial condition and results of operations. For instance, due to the COVID-19 pandemic, there has been increased volatility in foreign exchange rates in recent months. With volatility in global financial markets expected to continue as the COVID-19 pandemic evolves, the ultimate effect of exchange rate fluctuations on our businesses is uncertain.

We are susceptible to the volatility in interest rates in our operations and therefore may be adversely affected due to the fluctuation in interest rates.

We are susceptible to the volatility in interest rates in our operations. Interest rates are highly sensitive to many factors beyond our control, including the monetary policies of the RBI, deregulation of the financial sector in India, domestic and international economic and political and other conditions and other factors. Due to these factors, interest rates in India have historically experienced, and may continue to experience, a relatively high degree of volatility.

A substantial portion of our loan assets, including all of our long-term loans, permits the borrowers to seek re-pricing of their loans after one, three or ten years. As of December 31, 2020, we had long-term loan assets outstanding of Rs. 3,570,670.6 million (on a non-consolidated basis). When interest rates decline, our borrowers may increasingly seek re-pricing of our loans to them based on the terms of their loan agreements or due to commercial considerations resulting from competitive conditions, which would result in us realizing a lower rate of return on our capital committed to the re-priced loans and would adversely affect our profitability, particularly if we did not have the ability to re-price our borrowings. Additionally, if we are unable or unwilling to competitively re-price our loans, we may have to face greater levels of prepayments on our loans. In a decreasing interest rate environment, prepayments may also result in a lower rate of return because we may not be able to redeploy the capital in assets yielding similar rates of return, and any prepayment premium we receive may not fully offset these lower rates of return.

When interest rates rise, we may be more susceptible to such increases than our competitors that have access to lower cost funds, particularly if we have a higher portion of floating rate borrowings or borrowings with shorter durations than that of our competitors.

Further, most of our borrowings are fixed rate borrowings and in a falling interest rate scenario, this may impact our results of operations and financial condition.

Our Company's results of operations are therefore dependent on various factors that are indirectly affected by the prevailing interest rate and lending environment, including disbursement and repayment schedules for our Company's loans, the terms of such loans, including interest rate reset terms, as well as the currency of such loans and any exchange gains or losses relating thereto. In addition, the value of any interest rate hedging instruments our Company may enter into in the future may be affected by changes in interest rates. There can be no assurance that our Company will be able to adequately manage our interest rate risk and be able to effectively balance the proportion and maturity of our interest earning assets and interest-bearing liabilities in the future.

Our treasury operations are also susceptible to volatility in interest rates and any adverse movement in interest rates, though not quantifiable, may adversely impact the value of our treasury operations, and consequently may have an adverse effect on our business prospects, financial condition and results of operations.

The Government, through PFC, continues to exercise control over us, and therefore it can determine the outcome of shareholder voting and influence our operations.

On March 28, 2019, PFC completed its acquisition of the Government's entire shareholding of 52.63 per cent. in our Company pursuant to the decision of the Cabinet Committee on Economic Affairs of India in consideration of Rs. 145,000 million. While the Company is no longer directly owned by the Government, the Government still continues to exercise control over it through PFC. Consequently, the Government, acting through PFC, will continue to control us and will have the power to elect and remove our directors and therefore determine the outcome of most of our proposals for corporate action requiring approval of our board of directors or shareholders, including with respect to the payment of dividends. As we are a Government company in terms of section 2(45) of the Companies Act, 2013 and PFC (over which the Government exercises control) is our Promoter, the Government has the power to take actions, make decisions, influence policies, issue directives, take positions or exercise control which, in each case, may affect our Company's business.

There may be challenges as a result of, or difficulties in realizing the benefits of, the PFC Acquisition, or any future merger of the Company with PFC's business and/or successfully integrating the Company's business with PFC's or (in the event of a merger) the merged business.

On March 28, 2019, PFC completed the PFC Acquisition. In addition, while there is a possibility that our Company may merge with PFC, there can be no assurance that such merger will take place in the near future or at all.

While the PFC Acquisition was intended to achieve integration across the power chain, obtain better synergies, create economies of scale and enhance capability to support energy access and energy efficiency in India, we will continue to face a range of operational, financial and other related risks inherent in such acquisitions (and any future merger). The integration process may be complex, costly and time-consuming. The potential difficulties of integrating the operations of our Company with that of PFC and realizing our Company's expectations for the PFC Acquisition (and any future merger with PFC), including the benefits that may be realized, include, among other things:

- failure to implement the business plan for the combined business;
- delays or difficulties in completing the integration of our business and/or its assets, leveraging synergies or rationalizing operations with those of PFC;
- higher than expected costs, lower than expected cost savings, exposure limit ceilings and/or a need to allocate resources to manage unexpected operating difficulties;
- unanticipated issues in integrating logistics, information, communications and/or other systems;
- unanticipated changes in the combined business due to potential divestitures or other requirements imposed by antitrust regulators;
- failure to maintain the continuity and/or assimilation of operations or employees;
- retaining key customers, borrowers and/or employees;
- retaining and obtaining required regulatory approvals, licenses and permits;

- diversion of the attention and resources of management;
- assumption of liabilities not identified in due diligence, including any on-going litigation, claims or disputes; and
- other unanticipated issues, expenses and/or liabilities.

There can be no assurance that any of the foregoing factors relating to the PFC Acquisition (and any future merger with PFC) or any potential difficulties as a result of the PFC Acquisition will not have a material adverse impact on our business, financial condition, results of operations, performance and prospects. For example, to ensure the smooth integration of our business and PFC's business and to create synergies, a certain degree of optimization and integration will be required, including in respect of customer/borrower management, financial accounting and human resources management across both our business and PFC's business. However, it is uncertain whether such integration can be successfully implemented, if at all. If the relevant risks of such integration are not properly managed or the expected benefits of the PFC Acquisition (and any future merger with PFC) fail to materialize, this may result in, *inter alia*, a deterioration of asset quality, the loss of key employees or members of the senior management team, or the deterioration or loss of customer relationships and/or connections. Any of these factors could have a material and adverse effect on our business, financial condition, results of operations, performance and/or prospects. In addition, any integration or merger may also result in increased cost of borrowings (due to restrictions on exposures of banks, mutual funds or other investors to a single company), restrictions on lending exposures by a single integrated/merged company to borrowers, along with other similar adverse issues.

The Government may sell all or part of its shareholding in PFC, and/or PFC may sell all or part of its shareholding in us, which may result in a change in control of our Company.

Subsequent to the PFC Acquisition, as at the date of this Offering Circular, the Government does not own, directly or indirectly, more than 50 per cent. of the voting rights of the issued share capital of our Company. Nevertheless, as long as the Government's shareholding in PFC and PFC's shareholding in our Company each is not less than 51.00 per cent., our Company will continue to be classified as a Government Company and will be subject to various regulations, regulatory exemptions and benefits generally applicable to government companies in India. As of the date of this Offering Circular, there is no legislation that places a mandatory requirement on the Government to hold a minimum 51.00 per cent. shareholding in PFC. Therefore, the Government may sell all or part of its shares in PFC, and/or PFC may sell all or part of its shareholding in us, which may result in a change in control of our Company and which may, in turn, disqualify us from benefiting from certain regulatory exemptions and other benefits that may be applicable to our Company due to us being a public sector company. If a change of control were to occur, there can be no assurance that our Company will have sufficient funds available at such time to pay the purchase price of any outstanding Notes, as the source of funds for any such purchase will be its available cash or third-party financing which we may not be able to obtain at the time.

Failure to manage any acquisition that our Company makes may cause its profitability to suffer.

Our Company may take advantage of merger and acquisition opportunities in the future if suitable opportunities arise (including a potential merger with PFC — please see “*Risk Factors — There may be challenges as a result of, or difficulties in realizing the benefits of, the PFC Acquisition, or any future merger of the Company with PFC's business and/or successfully integrating the Company's business with PFC's or (in the event of a merger) the merged business*” in this Offering Circular). These may require significant investments which may adversely affect our Company's business and

revenues. Furthermore, our Company is not permitted to carry out any merger or acquisitions without prior approval from the GoI. Acquisitions involve additional risks, including the following:

- impact of unforeseen risks, such as contingent or latent liabilities relating to the acquired businesses, that become apparent only after the merger or acquisition is finalized;
- success or failure of integration and management of the acquired operations and systems;
- success or failure of retention of select personnel; or
- impact of diversion of our Company management's attention from other on-going business concerns.

If our Company is unable to integrate the operations of an acquired business successfully or manage such future acquisitions profitably, or obtain any necessary approvals to effect any proposed mergers or acquisitions, its revenues and results of operations may be adversely affected.

An inability to develop or implement effective risk management policies and procedures could expose us to unidentified risks or unanticipated levels of risk.

Although we follow various risk management policies and procedures to identify, monitor and manage risks, there can be no assurance that such policies and procedures will be effective in addressing all risks that the Company encounters in its business and operations or that such policies and procedures are as comprehensive as those implemented by other banks and financial institutions. Our risk management policies and procedures are based on, among other considerations, historical market behavior, information regarding borrowers, and market knowledge. Consequently, these policies and procedures may not accurately predict future risk exposures that could vary from, or be greater than, those indicated by historical measures. In addition, information available to us may not be accurate, complete, up-to-date or properly evaluated. Unexpectedly large or rapid movements or disruptions in one or more financial markets or other unforeseen developments could have a material adverse effect on the Company's results of operations and financial condition. Our risk management policies and procedures are also influenced by applicable Government policies and regulations and may prove inadequate or ineffective in addressing risks that arise as a consequence of any development in Government policies and regulations that adversely affect our business and operations.

In addition, we intend to continue to diversify our borrower portfolio and extend fund based and non-fund based financial and other assistance and services to projects that represent forward and backward linkages to the core power sector projects. These business initiatives may involve operational and other risks that are different from those that are currently faced or anticipated, and there can be no assurance that we will be able to effectively identify and address any additional risks that apply to such business initiatives. An inability to develop, modify and implement effective and dynamic risk management policies and procedures may adversely affect our growth strategy. The management of operational, legal and regulatory risk requires, among others, policies and procedures to accurately record and verify transactions and events. There can be no assurance that our policies and procedures will effectively and accurately record and verify such information. Failure of our risk management policies and procedures or exposure to unanticipated risks could lead to losses and adversely affect our business, financial condition and results of operations.

We take advantage of certain tax benefits available to us as a lending institution. If these tax benefits were reduced or are no longer available to us, it would adversely affect our profitability.

We have received, and we are currently receiving, certain tax benefits by virtue of our status as a lending institution, including as a result of our lending within the infrastructure sector, which have enabled us to reduce our effective tax rate. For Fiscal 2018, Fiscal 2019 and Fiscal 2020, our Company's effective tax liability as a percentage (computed by dividing our Company's current non-consolidated tax by

profit before tax, according to our Company's non-consolidated financial statements) was 31.64 per cent., 22.12 per cent. and 23.14 per cent. respectively, compared to statutory corporate tax rates (including surcharge and cess) of 34.61 per cent., 34.94 per cent. and 25.62 per cent. in Fiscal 2018, Fiscal 2019 and Fiscal 2020, respectively. The availability of these tax benefits is subject to the policies of the Government, among other things, and there can be no assurance as to the amount of tax benefits that we will receive in the future, if any.

If the laws or regulations regarding these or other tax benefits were to change further, our taxable income and tax liability may increase, which may adversely affect our financial condition and results of operations.

We may not have obtained sufficient security and collateral from our borrowers, or we may not be able to recover or enforce, or there may be a delay in recovering or enforcing, the expected value from any security and collateral.

We have historically granted certain loans to our borrowers where the value of the security for the loan may be less than the amount of the loan, where we have funded the loan prior to obtaining security or where the loans have been granted without security. As of December 31, 2020, we had total non-consolidated loan assets outstanding of Rs. 3,570,670.6 million, of which Rs. 2,525,814.4 million, or 70.74 per cent., were secured by charges on assets, Rs. 849,476.1 million, or 23.79 per cent. of which were backed by way of state government guarantee including loans to state governments and Rs. 195,380.1 million, or 5.47 per cent., were unsecured loan assets. Although legislation in India is now effective enough to strengthen the rights of creditors to obtain faster realization of collateral in the event of loan default, we may nonetheless be unable to realize the full value of our collateral due to certain factors, including delays occasioned by the fact that the loan was granted by us as a part of consortium of lenders or delays in us taking immediate action in bankruptcy foreclosure proceedings, market downturns that affect the value of the collateral, defects in the perfection of collateral and fraudulent transfers by borrowers. Further, upon the occurrence of certain events, a specialized regulatory agency may obtain jurisdiction over the assets of our borrowers, which may delay actions on behalf of the borrower's creditors. Any failure to recover the expected value of collateral security could expose us to a potential loss.

The RBI from time to time provides circulars and directions with respect to corporate debt restructuring, and the resolution of stressed assets for banks and NBFCs, as well as revisions to the framework and directions in respect of identification of stressed assets, implementation of resolution plans, permitted methods, conditions and timing of restructuring or resolution of assets, prudential norms and supervisory review by the RBI, as well as enforcement under the insolvency or other laws of India. In situations where other lenders own more than a requisite specified percentage of the debt of one of our borrowers, we could be required by the other lenders to agree to restructure the debt or take enforcement proceedings, regardless of our preferred method of settlement. We may also be a part of a syndicate of lenders wherein the majority elect to pursue a different course of action than the course of action favorable to us, whether or not such debt is subject to the RBI guidelines. Any such debt restructuring or enforcement could lead to an unexpected loss that could adversely affect our business, financial condition and results of operations.

The escrow account mechanism for the payment obligations of our state sector borrowers may not be effective, which may reduce our recourse in the event of defaulted loans and could have a material adverse effect on our business, financial condition and results of operations.

We have a mechanism for the creation of escrow accounts with most of our borrowers in the state sector. This mechanism provides that certain predetermined amounts from the payments received by such borrowers from their respective customers are deposited in an escrow account. The deposited amount is available for use by the borrower, except in the case of a default on account of non-payment to us by

the borrower. In such case, the escrow agent is required to make the default amount available to us on demand.

The escrow agreement mechanism is effective only if the customers of our borrowers, including DISCOMs and end users of power (such as power traders, industrial, commercial, household and agricultural consumers) make payment to our borrowers and such payment is deposited into the escrow facilities in an amount sufficient to repay the borrower's obligations to us. We do not have any arrangement in place to ensure that this occurs, which limits the effectiveness of the escrow mechanism. In the event the customers of our borrowers do not make payments to our borrowers, the escrow mechanism will not ensure the timely repayment of our loans, which may adversely affect our business, financial condition and results of operations. In addition, as our Company diversifies our loan portfolio and enters into new business opportunities, our Company may not be able to implement such or similar quasi-security mechanisms or arrangements and there can be no assurance that even if such mechanisms and arrangements are implemented, they will be effective.

We have granted loans to the private sector on a non-recourse or limited recourse basis, which may increase the risk of non-recovery and could expose us to significant losses.

As of December 31, 2020, Rs. 379,290.4 million or 10.62 per cent., of our loans assets outstanding (on a non-consolidated basis) were to borrowers that are private sector power utilities (including project-specific special purpose vehicles). Our exposure to private sector power utilities may increase in the future. The ability of private sector power utility borrowers and, in particular, project-specific special purpose vehicles to perform their obligations will depend primarily on the financial condition of the projects, which may be affected by many factors beyond the borrowers' control, including competition, as well as other risks such as those relating to operating costs and regulatory issues. If borrowers with non-recourse or limited recourse loans were to be adversely affected by these or other factors and were unable to meet their obligations, the value of the underlying assets available to repay the loans may be insufficient to pay the full principal and interest on the loans, which could expose us to significant losses. Any significant losses could have an adverse effect on our business, financial condition and results of operations.

Certain SEBs which were our borrowers have been restructured and we may not have transferred the liabilities associated with our loans to the newly formed entities, which may affect our ability to enforce the applicable provisions of the original loan agreements.

We have granted certain long-term loans to various SEBs of various states. Pursuant to amendments in the Electricity Act, the state governments of these states have restructured their SEBs into separate entities formed for the generation, transmission and/or distribution of electricity. As part of the restructuring, all liabilities and obligations of a restructured SEB were transferred by a notification process to the applicable state government, which in turn transferred them to the newly formed, state government-owned transmission, distribution and/or generation companies. However, under the restructuring notification, the transfer of liabilities and obligations under loans granted by us is to be documented by a transfer agreement between our Company, the applicable state government and the applicable newly formed company. Although we have entered into transfer agreements with the separate entities formed as a result of the restructuring of the certain SEBs, we are yet to execute transfer agreements with the separate entities formed as a result of the restructuring of the SEBs of certain states. There can be no assurance that we will be able to enter into transfer agreements within a reasonable period to ensure that the terms of our original loan agreements will continue with the new entities.

Our contingent liabilities could adversely affect our financial condition.

As of March 31, 2020, our Company, on a consolidated basis, had non-funded contingent liabilities not provided for of Rs. 11,345.8 million (as disclosed in our consolidated financial statements) as follows:
(Rs. in million)

	Amount
Contingent Liabilities not provided for in respect of:	
(a) Claim against the Company not acknowledged as debts	2.2
.....	
(b) Taxation demands	
– Demands raised by the Income Tax Department	1,139.9
.....	
– Demands against appeals filed by the Income Tax Department against the relief allowed to the Company	383
.....	
– Demands raised in respect of Service Tax	0
.....	
(c) Others	
– Letters of Comfort	9,512.9
.....	
– Bank Guarantees	307.8
.....	
Total	11,345.8
.....	

Note:

- (1) We have issued letters of comfort (LoCs) to some of our borrowers against loan amounts sanctioned to them. These LoCs are basically used by borrowers to give comfort to LC issuing banks for procurement of power equipment or otherwise similar facilities during execution of contracts.

If these contingent liabilities were to fully materialize or materialize at a level higher than we expect, our financial condition could be adversely affected. For further details on our contingent liabilities, see the section titled “*Index to Financial Statements*” of this Offering Circular.

Our cash flow reflects negative cash flows from operations in view of presentation of borrowings and lending in different categories. There is no assurance that such negative cash flow from operations shall not recur in future Fiscal periods and in case it recurs, then it may adversely affect our business.

In view of the opinion of a committee of the Institute of Chartered Accountants of India, our outward cash flow relating to disbursement of loans and advances (net of any repayments we receive) is reflected in cash flow from our operating activities whereas the inward cash flows from external funding taken (net of any repayments of such funding) to disburse these loans and advances are reflected in our cash flow from financing activities. Consequently, cash flow of our Company (on a consolidated basis) reflects negative net cash flow from operating activities of Rs. 325,098.1 million, Rs. 358,658.0 million and Rs. 327,119.1 million for Fiscal 2018, Fiscal 2019 and Fiscal 2020, respectively, each as per Ind-AS. For further details on our Company’s non-consolidated cash flow, see the section titled “*Index to Financial Statements*” of this Offering Circular.

Our success depends largely upon our management team and skilled personnel. Our ability to attract and retain such persons and disassociation of our key personnel could adversely affect our business and our ability to pursue our growth strategies.

Our future performance depends on the continued service of our experienced management team and skilled personnel. We also face a continuous challenge to recruit and retain a sufficient number of suitably skilled personnel, particularly as we continue to grow our business. There is competition for management and other skilled personnel in our industry, and it may be difficult for us to attract and retain the personnel we need in the future. The loss of key personnel, or our inability to attract and retain

new personnel, may have an adverse effect on our business, results of operations, financial condition and our ability to grow.

Our borrowers' insurance of assets may not be adequate to protect them against all potential losses to which they may be subject, which could affect our ability to recover the loan amounts due to us from them.

The terms and conditions of our loan agreements require our borrowers to maintain insurance on their charged assets as collateral for the loan granted by us. However, we have not historically monitored our borrower's compliance with their obligation to maintain insurance. Our borrowers may not have the required insurance coverage, or may not renew the insurance policies, or the amount of insurance coverage may be less than the replacement cost of the relevant assets and therefore the amount of insurance coverage may be insufficient to cover all financial losses that our borrowers may suffer as a result of any uninsured event. In the event the assets charged in our favor are damaged or our borrowers otherwise suffer a loss because of insufficient insurance to offset the borrower's losses, it may affect our ability to recover the loan amounts due to us from the borrower.

We are subject to restrictive covenants under our credit facilities that limit our flexibility in managing our business. Such restrictive covenants may restrict our operations or ability to expand and may adversely affect our business.

There are restrictive covenants in the agreements we have entered into with certain banks and financial institutions for our borrowings. These restrictive covenants require us to maintain certain financial ratios, our existing credit rating and to seek the prior permission of these banks and financial institutions for various activities, including, among others, change in capital structure, issue of equity, preferential capital or debentures, raising any deposits, selling or transferring any part of our business, effecting any scheme of acquisition, merger, amalgamation or reconstitution, implementing a new scheme of expansion or creation of a subsidiary. Such restrictive covenants may restrict our operations or ability to expand and may adversely affect our business. Further, these restrictive covenants may also affect some of the rights of our shareholders, including the payment of the dividends in case of any default in debt to such lenders. Additionally, these banks and financial institutions also have the powers to appoint a nominee director on our Board, with the prior approval of the Government, in case of any default on our part in payment of interest or principal towards some of our borrowings. Furthermore, we may not have received the consent from some of our lenders for raising new loans or debentures.

The power sector financing industry is becoming increasingly competitive and our profitability and growth will depend on our ability to compete effectively and maintain a low effective cost of funds so as to maintain our interest income and grow our portfolio of assets.

Our interest rate margins are determined by the cost of our funding relative to the pricing of our loan products. The cost of our funding and the pricing of our loan products are determined by a number of factors, many of which are beyond our control. Our cost of funds (on a non-consolidated basis) raised during the nine months ended December 31, 2020 is 6.74 per cent. However, we may not be able to maintain the same during subsequent periods without raising funds from the debt market through various concessional debt issues. While we have generally been able to pass on the increased cost of funds to our customers over this period, we may not be able to continue to do so in future. In the event we were to suffer a decline in interest rate margins, we would be required to increase our lending activity in order to maintain our then current profit level. However, there can be no assurance that we will be able to do so and we may suffer reduced profitability or losses. In the event our interest rate margins decrease, the same may adversely affect our business, financial condition and results of operations.

In addition, competition in our Company's industry depends on, among other factors, the on-going evolution of the Government policies relating to the industry, the entry of new participants into the industry and the extent to which there is consolidation among banks, financial institutions and NBFCs

in India. Our Company's primary competitors are public sector infrastructure finance companies, public sector banks, private banks (including foreign banks), financial institutions and other NBFCs. Many of our Company's competitors may have larger resources or balance sheet sizes than our Company and may have considerable financing resources. In addition, since our Company is a non-deposit taking NBFC, our Company may have restricted access to funds in comparison to banks and deposit taking NBFCs. Our growth will depend in large part on our ability to respond in an effective and timely manner to the said competitive pressures. In particular, the Electricity Act provides for opportunities in the private sector involvement in the Indian power sector.

Many of our existing and future competitors may have greater and more inexpensive resources than we do. Therefore, our ability to compete effectively is dependent on our ability to maintain a low effective cost of funds.

Power projects carry certain risks that, to the extent they materialize, could adversely affect our business, financial condition and results of operations.

Our business mainly consists of lending to power sector projects in India. Power sector projects carry project-specific as well as general risks. These risks are generally outside of our control and include:

- non-conversion of letter of assurance and/or Memorandum of Understanding by coal suppliers into binding fuel supply agreement;
- delays in development of captive coal mines;
- political, regulatory, fiscal, monetary and legal actions and policies that may adversely affect the viability of projects to which we lend;
- changes in government and regulatory policies relating to the power sector;
- delays in construction and operation of projects to which we lend;
- adverse changes in demand for, or the price of, power generated or distributed by the projects to which we lend;
- the willingness and ability of consumers, aggregators or DISCOMs to pay for the power produced by projects to which we lend;
- shortages of, or adverse price developments for, raw materials and key inputs for power production including domestic and imported coal and natural gas;
- delays in inviting bids for procurement of power by state sector state power utilities and DISCOMS;
- delay in obtaining forest clearance, land acquisition, right of way clearance and other relevant clearances;
- adverse geological conditions;
- effectiveness of current technology and its obsolescence in renewable energy;
- increased project costs due to environmental challenges and changes in environmental regulations;
- potential defaults under financing arrangements of project companies and their equity investors;

- failure of co-lenders with us under consortium lending arrangements to perform on their contractual obligations;
- failure of third parties such as contractors, fuel suppliers, sub-contractors and others to perform their contractual obligations in respect of projects to which we lend;
- adverse developments in the overall economic environment in India;
- adverse fluctuations in liquidity, interest rates or currency exchange rates;
- economic, political and social instability or occurrences of events such as natural disasters, armed conflict and terrorist attacks, particularly where projects are located or in the markets they are intended to serve;
- delays in the implementation of Government policies and initiatives;
- environmental concerns and environmental regulations applicable to power sector projects that our Company finances, including, for example, relevant coal mining areas being classified as “no-go” areas;
- extent and reliability of power sector infrastructure in India;
- strikes, work stoppages or increased wage demands by employees or any other disputes with employees that affect the project implementation schedule or operations of the projects that our Company finances;
- disruption of projects due to explosions, fires, earthquakes and other natural disasters, breakdown, failure or substandard performance of equipment, improper installations or operation of equipment, accidents, operational problems, transportation interruptions, other environmental risks and labor disputes;
- changes in credit ratings of our Company’s borrowers affecting their ability to finance projects;
- failure to supply power to the market due to unplanned outages of any projects that our Company finances, failure in transmission systems or inter-regional transmission or distribution systems;
- inherent risks relating to signing, execution and honoring of power purchase agreements and non-permissibility of pass through or escalation in the cost in the dynamic environment;
- rehabilitation, resettlement and local public agitation on project sites/resources;
- low demand and power offtake, resulting in non-conformity with the agreed power purchase agreement and/or power sale agreement signed with DISCOMs;
- the low selling price of merchant power; and
- constraints in power transmission corridors.

Power sector projects may be exposed to unplanned interruptions caused by catastrophic events such as floods, earthquakes, fires, major plant breakdowns, pipeline or electricity line ruptures or other disasters. Operational disruption, as well as supply disruption, could adversely affect the cash flows available from these projects. Furthermore, the cost of repairing or replacing damaged assets could be considerable. Repeated or prolonged interruption may result in a permanent loss of customers,

substantial litigation or penalties and/or regulatory or contractual non-compliance. To the extent these or other risks relating to the power projects we finance materialize, the quality of our asset portfolio and our profitability may be adversely affected. Furthermore, as we continue to increase our exposure to generation projects, our individual loan size is likely to increase in size, thereby increasing our exposure with respect to individual projects. Accordingly, the potential for adverse effects on our business, financial condition and results of operations may arise in the event these risks relating to the power projects we finance were to materialize.

Negative trends in the Indian power sector or the Indian economy could adversely affect our business, financial condition and results of operations.

We were founded with the objective of developing the power infrastructure in rural areas. For the foreseeable future, we expect to continue to be a sector-specific public financial institution with a focus on the Indian power sector. Any negative trends or financial difficulties in the Indian power sector could adversely affect our business and financial performance.

We believe that the further development of India's power sector is dependent on regulatory framework, policies and procedures that facilitate and encourage private and public sector investment in the power sector. Many of these policies are evolving and their success will depend on whether they properly address the issues faced and are effectively implemented.

Additionally, these policies will need continued support from stable and experienced regulatory regimes throughout India that not only stimulate and encourage the continued movement of capital into power development, but also lead to increased competition, appropriate allocation of risk, transparency and more efficient power supply and demand management to the end consumer.

The allocation of capital and the continued growth of the power sector are also linked to the continued growth of the Indian economy generally. In particular, the growth of the power industry will be affected by consumers' income levels and the extent to which they would be willing to pay or can be induced to pay for power.

If the central and state governments' initiatives and regulations in the power sector do not proceed to improve the power sector as intended, or if there is any downturn in the macroeconomic environment in India or in the power sector, our business, financial condition and results of operations could be adversely affected.

Additionally, it is generally believed that demand for power in India will increase in connection with expected increases in India's GDP. However, there can be no assurance that demand for power in India will increase to the extent we expect, or at all. In the event demand for power in India does not increase as we expect, the extent to which we are able to grow our business by financing the growth of the power sector would be limited and this could have a material adverse effect on our business, financial condition and results of operations.

Material changes in the regulations that govern us and our borrowers could cause our business to suffer.

Our Company is under the administrative control of the MoP. We are regulated by the Companies Act and some of our activities are subject to supervision and regulation by statutory authorities including the RBI, SEBI and the Stock Exchanges. For details, see the section titled "*Regulations and Policies*" in this Offering Circular. Additionally, our borrowers in the power sector are subject to supervision and regulation by the Central Electricity Regulatory Commission (CERC) and State Electricity Regulatory Commission (SERC). Further, we are subject to changes in Indian law, as well as to changes in regulation and government policies and accounting principles. We also receive certain benefits and take

advantage of certain exemptions available to our classification as a public financial institution u/s 2 (72) of the Companies Act and as an IFC NBFC – ND SI.

The statutory and regulatory framework for the Indian power sector has changed in many important ways in recent years and the impact of these changes is yet to be seen. The Electricity Act provides for a framework for reforms in the sector. There could be additional changes in the manner of determination of tariff and other policies and licensing requirements for, and tax incentives applicable to, companies in the power sector. Presently, our Company is not aware of the nature or extent of any future review and amendment of the Electricity Act and rules and policies issued thereunder, and it is possible that any amendments may have an adverse impact on our Company's business, financial condition and results of operations.

On April 17, 2020, the MoP released the draft Electricity (Amendment) Bill, 2020 for public comments. The outcome of the bill, if passed, will have to be considered in light of the overall impact on our Company. For further details on the Electricity (Amendment) Bill, 2020, please see the section titled "*Regulations and Policies*". The above laws and other regulations governing our borrowers and our Company could change in the future and any such changes could adversely affect our business, financial condition and results of operations.

We may fail to obtain certain regulatory approvals in the ordinary course of our business in a timely manner or at all, or to comply with the terms and conditions of our existing regulatory approvals and licences, which may have a material adverse effect on the continuity of our business and may impede our effective operations in the future.

We usually require certain regulatory approvals, sanctions, licences, registrations and permissions for operating our businesses. However, we may not receive or be able to renew such approvals in the time frames anticipated by us or at all, which could adversely affect our business. If we do not receive, renew or maintain such regulatory approvals required to operate our business, the same may have a material adverse effect on the continuity of our business and may impede our effective operations in the future. Additionally, any historical or future failure to comply with the terms and conditions of our existing regulatory or statutory approvals may cause us to lose or become unable to renew such approvals.

We have been granted exemption from the applicability of certain prudential norms by the RBI. We cannot assure you that such exemption shall continue to be granted by the RBI which may affect our business.

The RBI, pursuant to a certificate dated September 17, 2010, had categorized our Company as an IFC according to the instructions contained in the Systemically Important NBFC Directions. In this regard, a fresh certificate of registration bearing no. 14.000011 dated November 28, 2018 has been allotted by the RBI in the name of our Company. As an IFC, the total permissible exposure for lending in the private sector is 25 per cent. of owned funds in the case of a single borrower, and 40 per cent. in the case of a single group of borrowers and exposure for lending and investing taken together can be up to 30 per cent. and 50 per cent. of owned funds, respectively. Our Company is also required to maintain a capital to risk weighted assets ratio (**CRAR**) of 15 per cent. (with a minimum Tier I capital of 10 per cent.). Accordingly, we have modified the prudential norms with the approval of our Board on September 25, 2010. In view of the exemption granted by the RBI through the letter dated June 16, 2016, to our Company from concentration norms in respect of exposure to central and state entities in the power sector until March 31, 2022, our maximum credit exposure limits to such utilities varies from 50 per cent. to 250 per cent. of our net worth, depending on the entity appraisal and status of unbundling of the respective state utilities.

If the RBI does not extend the exemptions as mentioned above, we may have to comply with the prevailing RBI prudential norms with respect to exposure norms which may affect our business and profitability. In respect of private sector entities, the Company's credit exposure to single borrowers

and group borrowers did not exceed the RBI prudential exposure limits as at March 31, 2020, March 31, 2019 and March 31, 2018.

There are a number of legal and tax-related proceedings involving us. Any unfavorable development in these proceedings or in other proceedings in which we become involved could have a material adverse effect on our business, financial condition and results of operation.

We are involved in certain legal and tax-related proceedings. These proceedings are pending at different levels of adjudication before various courts, tribunals and appellate authorities.

The legal proceedings generally arise because we seek to recover our dues from our borrowers or because customers seek claims against us. The majority of these cases arise in the normal course of business and we believe, based on the facts of the cases and consultation with counsel, that these cases generally do not involve risk of a material adverse impact on our financial performance. In certain instances, present and former employees have instituted legal and other proceedings against us alleging irregularities. We make necessary provisions when it is probable that an outflow of resources will be required to settle certain obligations arising out of the legal proceedings and a reliable estimate of the amount of the obligation can be made. We determine the amount of necessary provisions based on our estimate of the amount required to settle the obligation at the balance sheet date, supplemented by our experience in similar situations. When there is only a remote risk of loss, we do not recognize a provision nor do we include a disclosure in our consolidated financial statements in relation to such legal proceedings.

Litigation or arbitration could result in substantial costs to, and a diversion of effort by, our Company and/or subject our Company to significant liabilities to third parties. There can be no assurance that the results of such legal proceedings will not materially harm our Company's business, reputation or standing in the market or that our Company will be able to recover any losses incurred from third parties, regardless of whether the Company is at fault. There can be no assurance that losses relating to litigation or arbitration will be covered by insurance, that any such losses would not have a material adverse effect on the results of the Company's business, operations or financial condition, or that provisions made for litigation and arbitration related losses will be sufficient to cover the Company's ultimate loss or expenditure.

For further details, see the section titled "*Business – Legal Proceedings*" in this Offering Circular.

We are subject to stringent labor laws and trade union activity and any work stoppage could have an adverse material effect on our business, financial condition and results of operations.

India has stringent labor legislation, which protects the interests of workers, including legislation which sets forth detailed procedures for employee removal, dispute resolution and imposes financial obligations on employers upon employee layoffs. This makes it difficult for us to maintain flexible human resource policies, discharge employees or downsize, which although not quantifiable, may adversely affect our business and profitability.

Moreover, we are one of the few Government enterprises which have a registered trade union under the Indian Trade Unions Act, 1926. Although we consider our relations with our unionized employees to be stable and have not lost any time on account of strikes or labor unrest as of the date of this Offering Circular, our failure to effectively renegotiate wage revisions or other legitimate union activity could result in work stoppages. Any such work stoppage, though not quantifiable, could have an adverse effect on our business, financial condition and results of operations.

Some of our immovable properties may have certain irregularities in title, as a result of which our operations may be impaired.

We own or lease properties for the purposes of our offices (registered office, corporate office and project offices) and for residential purposes for our employees. Some of these properties may not have been constructed or developed in accordance with local planning and building laws and other statutory requirements. In addition, there may be certain irregularities in title in relation to some of our owned or leased properties. For example, some of the agreements for such arrangements may not have been duly executed and/or adequately stamped or registered in the land records of the local authorities or the lease deeds may have expired or are yet to be renewed. Our business may be adversely affected if we are unable to continue to utilize these properties as a result of any irregularity of title or otherwise.

Further, the registration of the conveyance deed with respect to the following is yet to be executed: (i) land acquired by our Company for the purpose of construction of a staff colony at Sector 57, Gurugram, Haryana; and (ii) our office building at SCOPE complex in New Delhi.

We have invested in debt instruments that may carry interest at a lower rate than the prevailing market rate.

As of December 31, 2020, our Company has made investments aggregating to an amount of approximately Rs. 32,701.6 million on a non-consolidated basis, of which Rs. 21,597.1 million is in debt instruments. While we believe that our debt investments carry interests at prevailing market rates, when invested, these rates can change due to various factors that may affect the value of our investments. Consequently, these instruments may carry interest at a lower rate than the prevailing market rate.

Changes in legislation (including tax legislation) or policies applicable to us could adversely affect our results of operations.

Our business and operations are governed by various laws and regulations. Our business and financial performance could be materially adversely affected by any change in laws or interpretations of existing laws, or the promulgation of new laws, rules and regulations applicable to our business. Unfavorable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment laws governing our Company's business, operations and group structure may result in our Company being deemed to be in contravention of such laws. The Government or state governments could implement new regulations and policies, which could require us to obtain approvals and licences from the Government and other regulatory bodies or impose onerous requirements and conditions on our operations. Our Company may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources. Any such changes and the related uncertainties with respect to the implementation of the new regulations as well as any failure to comply may have a material adverse effect on our business, prospects, financial condition and results of operations. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body of administrative or judicial precedent may be time consuming as well as costly for it to resolve and may impact the viability of our Company's current business or restrict its ability to grow its business in the future.

Tax and other levies imposed by the central and state governments in India that affect our Company's tax liability include: central and state taxes and other levies, income tax, stamp duty and other special taxes and surcharges which are introduced on a temporary or permanent basis from time to time. Moreover, the central and state tax scheme in India is extensive and subject to change from time to time. Any tax amendments from time to time may affect the overall tax efficiency of companies operating in India and may result in significant additional taxes becoming payable. Additional tax exposure could adversely affect our Company's business and results of operations.

At present, our Company has the benefit of the deductions under Sections 36(1) (vii)(c) and 36(1) (viii) of the Income Tax Act. The Government is decreasing the corporate tax rate for the companies over the years, and this process of reduction has to be necessarily accompanied by rationalization and removal of various kinds of tax exemptions and incentives for corporate taxpayers. Non-availability of deduction under Sections 36(1)(vii)(c) and 36(1)(viii) of the Income Tax Act may increase our tax liability.

We are subject to the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (**SEBI LODR Regulations**), which was notified by the Securities and Exchange Board of India on September 2, 2015. The SEBI LODR Regulations have brought into effect changes to the framework governing listed companies, including the introduction of certain additional requirements such as the disclosure of material events or information, and making prior notifications of certain proposals to raise funds. The requirement for compliance with such applicable regulations presents a number of risks, particularly in areas where applicable regulations may be subject to varying interpretations. Further, if the interpretations of the regulators and authorities are different, we may be subject to penalties and our business could be adversely affected. Furthermore, to ensure compliance with the requirements of the SEBI LODR Regulations, we may need to allocate additional resources, which may increase our regulatory compliance costs and divert management attention.

With the implementation of GST in India from July 1, 2017, while there is a general expectation of overall reduction in prices and related costs to us (given that 50 per cent. of the GST paid on procurements by us are a cost) in the long run, the said benefits may not accrue immediately. In the short term, given that the GST rates in relation to the value added tax rates have overall been higher in most products, the tax costs to our Company may increase until the base price of products and services are reduced by the vendors (this being on account of the efficiencies accruing to the vendor by introduction of GST). Also, the compliance costs for our Company have overall increased on account of compliances under multiple registrations as against the earlier centralized registration. Separately, where the earlier benefits like deemed exports, concessional rate of duties for power sector are not reinstated in the GST law, the costs for power sector may increase overall and entail higher demand for loans from our Company.

The General Anti-Avoidance Rules (**GAAR**) have been made effective from April 1, 2017. The said rules are a part of the Income Tax Act and are in nature of anti-abuse provisions which denies the tax benefits to the parties involved in the arrangement so entered. The tax consequences of the GAAR provisions being applied to an arrangement could result in denial of tax benefit among other consequences. The monetary limit to invoke GAAR provisions is Rs. 30 million per taxpayer in an arrangement. In addition, GAAR provisions cannot be invoked in every case and can be done only after seeking the approval of tax authorities in India. In the absence of any precedents on the subject, the application of these provisions is uncertain. If the GAAR provisions are made applicable, it may have an adverse tax impact on our Company and investors. Further, the provisions of GAAR may restrict the benefits available to a non-resident under the tax treaty entered into by India with such country of which the concerned non-resident is the resident if the tax benefits are not duly addressed by the limitation of benefit clause in the relevant tax treaty.

Under Indian tax laws, generally a domestic company is liable to corporate tax rate of 30 per cent. However, the GoI has amended the Income Tax Act to provide a lower corporate tax rate of 25 per cent. for domestic companies whose annual turnover or gross receipts did not exceed 4 billion in the fiscal year 2018-19. Additionally, the Income Tax Act has also been amended to reduce the minimum alternate tax to 15 per cent. on the book profits of the companies computed in the prescribed manner.

Further, the GoI has also amended the Income Tax Act, with effect from April 1, 2019, to provide an option to the domestic companies to pay a reduced statutory corporate income tax of 22 per cent., provided such companies do not claim certain specified deduction or exemptions. Further, where a company has opted to pay the reduced corporate tax rate of 22 per cent., the minimum alternate tax provisions would not be applicable. Thus, the Company may choose not to claim any of the specified

deductions or exemptions and claim the lower corporate tax, in which case, the minimum alternate tax provisions would not be applicable. Alternatively, the Company may choose to pay the higher of corporate tax; i.e., 30 per cent. or 25 per cent., as the case may be, after claiming the applicable deductions and exemptions or the minimum alternate tax at the rate of 15 per cent.

Additionally, prior to Finance Act, 2020, distribution of dividends by a domestic company was subject to Dividend Distribution Tax (**DDT**), in the hands of the company at an effective rate of 20.56 per cent. (inclusive of applicable surcharge and health and education cess). Such dividends were generally exempt from tax in the hands of the shareholders. However, the Finance Act, 2020 has amended the Income Tax Act to abolish the DDT regime. Accordingly, any dividend distributed by a domestic company is subject to tax in the hands of the investor at the applicable rate. Additionally, the company is required to withhold tax on such dividends distributed at the applicable rate.

As the taxation system undergoes changes and evolves, the effect of such changes on the financial system may not be determined and there can be no assurance that such effects would not adversely affect our business, prospects, financial condition and results of operations.

Our insurance may not be adequate to protect us against all potential losses to which we may be subject.

We maintain insurance for our physical assets, such as our office and residential properties, against standard fire and special perils (including earthquakes). In addition, we maintain a group personal accident insurance as well as directors' and officers' insurance policies. However, the amount of our insurance coverage may be less than the replacement cost of such property and the same may not be sufficient to cover all financial losses that we may suffer should a risk materialize. If we were to incur a significant liability for which we were not fully insured or a loss in excess of our insured limits, it could have a material adverse effect on our operations.

In addition, in the future, we may not be able to maintain insurance of the types or in the amounts which we deem necessary or adequate or at premiums which we consider acceptable. The occurrence of an event for which we are inadequately or insufficiently insured or the successful assertion of one or more large claims against us that exceed available insurance coverage, or changes in our insurance policies (including premium increases or the imposition of large deductible or co-insurance requirements), could have a material and adverse effect on our business, financial condition, results of operations and cash flows.

Any cross default of financial indebtedness may trigger payment to all other borrowings made by our Company, thereby adversely affecting the liquidity position of our Company, and which may adversely affect our financial condition.

Our Company has given a cross default covenant in certain of its borrowings. If our Company defaults in any of its obligations under those loans, the loans which contain the cross default covenant will also become payable even if there is no breach of covenant or default of payment on such loans. The occurrence of any such default would have an impact on our Company's liquidity.

We have entered, and may enter, into certain transactions with related parties, which may not be on an arm's length basis or which may lead to conflicts of interest.

We have entered and may enter into transactions with related parties, including our directors. There can be no assurance that we could not have achieved more favorable terms on such transactions had they not been entered into with related parties. Furthermore, it is likely that we will enter into related party transactions in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operations. The

transactions we have entered into, and any future transactions we will enter into, with related parties have involved, or could potentially involve, conflicts of interest.

Our directors may have interests in companies or entities similar to ours, which may result in a conflict of interest that may adversely affect future financing opportunity referrals.

Some of our directors have interests in other companies that are in businesses similar to our Company. This may result in potential conflicts of interest. For further information with respect to directorships of certain of our directors, see the section titled “*Management*” in this Offering Circular. Accordingly, potential conflicts of interest may arise out of common business objectives shared by us and our directors and there can be no assurance that these or other conflicts of interest will be resolved in an impartial manner.

Any downgrading of our debt rating or India’s sovereign rating by a credit rating agency could have a negative impact on our business.

Any adverse revisions of our credit rating or India’s sovereign credit ratings for domestic and international debt by credit rating agencies may adversely impact our ability to raise additional financing, the interest rates and other commercial terms at which such additional financing is available. This could have a material adverse effect on our business and financial performance and our ability to obtain financing for lending operations.

The security of our Company’s IT systems may fail and adversely affect our Company’s business, operations, financial condition and reputation.

Our Company is dependent on the effectiveness of its information security policies, procedures and capabilities to protect its computer and telecommunications systems and the data such systems contain or transmit. An external information security breach, such as a hacker attack, fraud, a virus or worm, or an internal problem with information protection, such as a failure to control access to sensitive systems, could materially interrupt our Company’s business operations or cause disclosure or modification of sensitive or confidential information. Our Company’s operations also rely on the secure processing, storage and transmission of confidential and other information in its computer systems and networks. Our Company’s computer systems, software and networks may be vulnerable to unauthorized access, computer viruses or other malicious code and other events that could compromise data integrity and security. Although our Company maintains procedures and policies to protect its IT systems, such as a data back-up system, disaster recovery and a business continuity system, any failure of our Company’s IT systems could result in business interruption, material financial loss, regulatory actions, legal liability and harm to our Company’s reputation. Furthermore, any delay in implementation or disruption of the functioning of our Company’s IT systems could disrupt its ability to track, record, process financial information or manage creditors/debtors or engage in normal business activities.

This Offering Circular includes certain unaudited financial information in relation to our Company. Reliance on such information should, accordingly, be limited.

This Offering Circular includes unaudited non-consolidated financial results in relation to our Company for the nine months ended December 31, 2020 and comparatives for the nine months ended December 31, 2019, in respect of which M/s S.K. Mittal & Co., Chartered Accountants and M/s O.P. Bagla & Co. LLP, Chartered Accountants, the statutory auditors of our Company for Fiscal 2021, have issued their limited review report dated February 4, 2021 for the nine-month period ended December 31, 2020. As this financial information has been subject only to limited review, in accordance with the SEBI LODR Regulations, and not subject to an audit, any reliance by prospective investors on such unaudited non-consolidated financial information for the nine months ended December 31, 2020 and comparatives for the nine months ended December 31, 2019 should, accordingly, be limited. Moreover, our financial results for any given fiscal quarter or period, including the nine months ended December 31, 2020, may

not be directly comparable with our financial results for any full fiscal or for any other fiscal quarter or period.

Accordingly, prospective investors in the Notes are advised to read such unaudited non-consolidated financial information for the nine months ended December 31, 2020 and December 31, 2019 in conjunction with the audited financial statements set out elsewhere in this Offering Circular while keeping the aforesaid in view.

If the level of credit impaired assets or non-performing assets in our loan portfolio were to increase, our financial condition would be adversely affected.

Our Company's gross consolidated credit impaired assets (Stage 3) were Rs. 171,284.2 million, Rs. 203,484.4 million and Rs. 212,555.5 million, which constituted 7.15 per cent., 7.24 per cent. and 6.59 per cent. of our total consolidated loan assets as of March 31, 2018, 2019 and 2020, respectively. As of December 31, 2020, our non-consolidated gross credit impaired assets (Stage 3) were Rs. 182,206.2 million. Upon the implementation of Ind-AS, the provisioning in respect of loan assets is made on the basis of Expected Credit Loss (ECL) methodology, which considers the probability of default and the expected loss to the Company. We may, from time to time and for compliance with any direction issued pursuant to a statute/by a regulatory authority or for better presentation, amend our policies and procedures regarding asset classification of our loans, which may increase our level of credit impaired assets.

The RBI issued a circular – “*Resolution of Stressed Assets – Revised Framework*” – dated February 12, 2018, pursuant to which the RBI withdrew its earlier resolution schemes (including strategic debt restructuring and the scheme on sustainable structuring of stressed assets). Although this circular was not directly applicable to our Company *per se*, however, as a matter of prudence (and given that we are part of consortiums with banks and other financial institutions) our Company classified all projects which were under various resolution schemes (i.e. cases where such schemes were invoked but not yet implemented) of RBI as NPAs. Through an order dated April 2, 2019, the Supreme Court of India had held the RBI circular dated February 12, 2018 on Resolution of Stressed Assets as *ultra vires*.

Accordingly, it was in this light that the RBI has recently issued a circular – “*Prudential Framework for Resolution of Stressed Assets by Banks*” dated June 7, 2019 with a view to providing a framework for earlier recognition, reporting and time bound resolution of stressed assets. These guidelines are applicable to all scheduled commercial banks (excluding regional rural banks), All-India Term Financial Institutions (such as Export Import Bank of India, National Bank for Agriculture and Rural Development, National Housing Bank and Small Industries Development Bank of India), small finance banks and Systemically Important Non-Deposit taking Non-Banking Financial Companies and Deposit taking Non-Banking Financial Companies (NBFC-D). Accordingly, these directions are not strictly applicable to our Company, being a NBFC.

The Stressed Asset Framework mandates higher provisioning if a resolution plan is not implemented within a stipulated time period. Certain projects have been driven to NCLT, which may or may not require a significant hair-cut. The resolution under NCLT is required within a time span of 180 days, extendable further for 90 days. The resolution process has to be completed within a period of 330 days (including extension periods and time taken for legal proceedings) from the insolvency commencement date. Considering these timelines, it is envisaged that the resolution of these stressed projects may not happen within prescribed timelines and the project may go into liquidation. The Company may have to take haircuts at the time of resolution of these stressed assets. The funds realized from the sale of these assets will be reinvested at a lower rate, and will have an impact on the Company's financials going forward. The Company faces the risk of higher provisioning and significant haircuts, wherever its projects fall under the ‘stressed assets’ category. Further, the Stressed Asset Framework has repealed the earlier issued instructions of the RBI on resolution of stressed assets such as the framework for revitalizing distressed assets, corporate debt restructuring scheme, flexible structuring of existing long-

term project loans, strategic debt restructuring scheme (SDR), change in ownership outside SDR and scheme for sustainable structuring of stressed assets. Accordingly, the Stressed Assets Framework will impact our asset quality and profitability.

Depreciation of the Rupee against foreign currencies may have an adverse effect on our Company's results of operations and financial conditions.

As of December 31, 2020, our Company had outstanding foreign currency borrowing of approximately JPY 21,937.3 million, U.S.\$ 6,628.8 million, SGD 72.1 million and EUR 36.8 million. Approximately 63.85 per cent. of total foreign currency borrowings are hedged by a mix of derivative instruments. All of our Company's revenues are denominated in Rupees.

The Rupee has been quite volatile from fiscals 2014 to 2019 when compared against the U.S. dollar. First, it depreciated by 26.7 per cent. from 54.28 per U.S.\$1.00 as at March 31, 2013 to an all-time low of 68.82 per U.S.\$1.00 as at August 28, 2013 and then appreciated by 12.9 per cent. to close fiscal 2014 at 59.89 per U.S.\$1.00. In Fiscal 2015, the Rupee depreciated by 4.4 per cent. to close the year at 62.50 per U.S.\$1.00 and in fiscal 2016, the Rupee depreciated by 6 per cent., to close the year at 66.25 per U.S.\$1.00. In fiscal 2017, the Rupee first depreciated 3.9 per cent. from 66.21 as at April 4, 2016 to 68.78 as at November, 28 2016 and then appreciated 5.7 per cent. to 64.85 as at March 31, 2017. In Fiscal 2018, the rupee remained range bound from 65.03 as at April 3, 2017 to 65.18 as at March 28, 2018 with a low of 65.71 on September 27, 2017 and a high of 63.37 on January 5, 2018. In Fiscal 2019, the Rupee remained range bound from 64.97 as at April 6, 2018 to 69.16 as at March 29, 2019 with a high of 73.76 on October 5, 2018. From the end of March 2019 to November 30, 2019, high volatility has been observed in the Rupee with the Rupee touching a low of 68.42 on July 5, 2019. In Fiscal 2020, the Rupee has seen heightened volatility in the second half and has reached a new high of 75.16 at the end of fiscal 2020 due to weakening of domestic economy and COVID-19 related uncertainties. The rupee has remained high during Fiscal 2021, ranging between 72.00 to 75.00 per U.S. \$1.00. Volatility in India's currency and the possibility of slower growth pose significant risks for the financial prospects of companies in India, as well as a greater default risk for Indian companies with foreign-denominated debt. Accordingly, the volatility of the Rupee against the U.S. dollar and other major currencies may increase the Rupee cost to our Company of servicing and repaying its foreign currency borrowing. Although our Company has made suitable hedging arrangements for a major part of its foreign currency exposure that may not fully protect our Company from foreign exchange fluctuations. Any drastic depreciation of the Rupee against foreign currencies may have an adverse effect on our Company's results of operation and financial conditions.

A decline in India's foreign exchange reserves may affect liquidity and interest rates in the Indian economy, which could have an adverse impact on us. A rapid decrease in reserves would also create a risk of higher interest rates and a consequent slowdown in growth.

India's foreign exchange reserves stood at U.S.\$576,869 million as of April 2, 2021. Flows to foreign exchange reserves can be volatile, and past declines may have adversely affected the valuation of the Rupee. There can be no assurance that India's foreign exchange reserves will not decrease again in the future. Further decline in foreign exchange reserves, as well as other factors, could adversely affect the valuation of the Rupee and could result in reduced liquidity and higher interest rates that could adversely affect our business, financial condition and results of operations.

Our Company may in the future conduct additional business through joint ventures and strategic partnerships, exposing our Company to certain regulatory and operating risks.

Our Company intends to continue to pursue suitable joint venture and strategic partnership opportunities in India, in particular with companies or firms whose resources, capabilities and strategies are likely to enhance and diversify our Company's business operations in the power sector. Our Company may not be able to identify suitable joint venture or strategic partners, that may complete transactions on terms

commercially acceptable to our Company, or which may not complete transactions at all. Our Company may not be able to successfully form such alliances and ventures or realize the anticipated benefits of such alliance and joint ventures. Furthermore, such partnerships may be subject to regulatory approvals, which may not be received in a timely manner, or at all. Furthermore, the success of the joint venture is dependent upon the cooperation of the Company's joint venture partners. The joint venture is subject to the risk of non-performance by our Company's joint venture partners of their obligations, including their financial obligations, in respect of the joint venture. Joint venture partners may have business interests or goals that may differ from our Company's business interests or goals, or those of our Company's shareholders. Any disputes that may arise between our Company and its joint venture partners may cause delays in completion or the suspension or abandonment of the venture. Although the joint venture confers rights on our Company, its joint venture partners have certain decision-making rights that may limit our Company's flexibility to make decisions relating to such business, and may cause delays or losses. In addition, our Company's expected strategic benefits or synergies of any future partnerships may not be realized. Furthermore, such investments in strategic partnerships may be long-term in nature and may not yield returns in the short to medium-term. Such initiatives will place significant strains on our Company's management, financial and other resources and any unforeseen costs or losses could adversely affect our business, profitability and financial condition.

RISKS RELATING TO THE POWER SECTOR AND POWER SECTOR FINANCING IN INDIA

Private participation in the power sector in India is dependent on the continued growth of the Indian economy and regulatory developments in India. Any adverse change in policy, implementation or industry demand may adversely affect us.

Although the power sector is a rapidly growing sector in India, we believe that further development of this sector is dependent upon the formulation and effective implementation of regulations and policies that facilitate and encourage private sector investment in power projects. Many of these regulations and policies are evolving and their success will depend on whether they are designed to adequately address the issues faced and whether they are effectively implemented. In addition, these regulations and policies will need continued support from stable and experienced regulatory regimes that not only stimulate and encourage the continued investment of private capital into power projects, but also lead to increased competition, appropriate allocation of risk, transparency and effective dispute resolution. The availability of private capital and the continued growth of the private power sector in India are also linked to the continued growth of the Indian economy. Many specific factors in the power sector may also influence the success of power projects, including changes in policies, regulatory and statutory frameworks and market structures. Any adverse change in the policies relating to the power sector may leave us with unutilized capital and interest and debt obligations to fulfil. If the central and state governments' initiatives and regulations in the power sector do not proceed in the desired direction, or if there is any downturn in the macroeconomic environment in India, our business, prospects, results of operations and financial condition could be adversely affected. In addition, it is generally believed that demand for power in India will increase in connection with expected increases in India's GDP. India's power sector is characterized by a myriad, and often highly inefficient, policy interventions. Controls on supply and the lack of transparent price signals reduce incentives to invest. Distribution creates a bottleneck and poses a bigger problem than generation capacity. Political constraints will make any change incremental rather than wholesale.

Some of the defining features of energy policy and regulation in India are (i) subsidies that are aimed at improving access for poor and rural communities; (ii) central and state governments providing financial support for distribution companies, including occasional bailouts, to cover losses for supplying power at artificially low rates; (iii) regulated energy prices such as electricity tariffs to end-users are regulated by state utilities below the cost of supply in many states, making any pass-through of higher priced imports difficult; (iv) no formal provision for different peak and off-peak tariffs making it harder

for distribution companies to recover costs; (v) difficult land acquisition laws; (vi) development of transnational pipelines which is limited due to strict land acquisition laws; (vii) environmental concerns; (viii) policy and investment decisions being influenced by the sensitivity of land and water use, as well as the worsening air quality in many of India's major cities.

However, there can be no assurance that the demand for power in India will increase to the extent we expect, or at all. In the event the demand for power in India does not increase as anticipated, the extent to which we are able to grow our business by financing the growth of the power sector would be limited and this could have a material adverse effect on our business, financial condition and results of operations.

Setting up and operating power projects in India requires a number of approvals and permits, and the failure to obtain or renew them in a timely manner may adversely affect the operations of our borrowers and in turn adversely affect the quality of our loans.

Setting up and operating power projects requires a number of approvals, licences, registrations and permissions. Some of these approvals are subject to certain conditions, the non-fulfilment of which may result in revocation of such approvals. Moreover, some of the conditions may be onerous and may require our customers to incur substantial expenditure, specifically with respect to compliance with environmental laws. Furthermore, certain of our borrowers' contractors and other counterparties are required to obtain approvals, licences, registrations and permits with respect to the services they provide to our borrowers. Our borrowers, their contractors or any other party may not be able to obtain or comply with all necessary licences, permits and approvals required for the power projects in a timely manner to allow for the uninterrupted construction or operation of the power plants, or at all. Any failure to renew the approvals that have expired or any failure to apply for and obtain the required approvals, licences, registrations or permits, or any suspension or revocation of any of the approvals, licences, registrations and permits that have been or may be issued to our borrowers, may adversely affect our operations. This in turn could adversely affect the quality of our loans or may put our customers in financial difficulties (which could increase the level of non-performing assets in our portfolio) and may adversely affect our business and financial condition.

Shortages in the supply of crude oil, natural gas or coal (domestic and imported) could adversely affect the Indian economy and the power sector projects to which we have exposure.

India imports majority of its requirements of crude oil. Crude oil prices are volatile and are subject to a number of factors, such as the level of global production, and political factors such as war and other conflicts, particularly in the Middle East, where a substantial proportion of the world's oil and natural gas reserves are located. Future increases in oil prices could affect the Indian economy, including the power sector, and the Indian banking and financial system. High oil prices could also add to inflationary pressures in the Indian economy. Additionally, increases in oil prices may have a negative impact on the power sector and related industries. This could adversely affect our business, including our ability to grow, the quality of our asset portfolio, our financial performance and our ability to implement our strategy.

In addition, natural gas is an important input for power projects. India has experienced interruptions in the availability of natural gas, which has caused difficulties in these projects in the past. India's natural gas demand has been mainly affected by: (i) lower availability; (ii) price affordability; (iii) inadequate transmission and distribution infrastructure; and (iv) limited gas import facilities. Continued difficulties in obtaining a reliable and consistent supply of natural gas could adversely affect some of the projects that we finance and could impact the quality of our asset portfolio and our financial performance.

Furthermore, the Indian power sector has been suffering generation loss due to a shortage of coal (domestic and imported). Continued shortages of fuel could adversely affect some of the projects that

we finance and could impact the quality of our asset portfolio, which in turn could have a material adverse effect on our business, financial condition and results of operations.

We are exposed to project execution and construction delays faced by domestic power companies.

Domestic power companies face significant project execution and construction delay risks which could adversely affect projects financed by us. Power companies could experience longer than expected construction periods due to delays in obtaining environmental permits and infrastructure-related delays in connecting with the grid. Accessing offtake and finalizing fuel supply agreements could cause further delays.

Changes in environment standards in relation to power projects impose significant risks to our Company's business.

With the change in requirements and adoption of stricter norms by borrower power projects in order to bring projects in line with global parameters of environmental standards and climate conservation, there may be delays in the execution of such projects. Any delay in the implementation of the projects of our Company's borrowers may in turn lead to delay or impediments to future sanctions, disbursements and recovery from such sectors, which may adversely affect our Company's business and financial condition.

RISKS RELATING TO INDIA

A slowdown in economic growth in India could adversely impact our business. Our performance and the growth of our business are necessarily dependent on the performance of the overall Indian economy.

Any slowdown in the Indian economy or in the growth of the industry to which we provide financing or future volatility in global commodity prices could adversely affect our borrowers and the growth of our business, which in turn could adversely affect our business, results of operations and financial condition.

India's economy could be adversely affected by a general rise in interest rates, currency exchange rates, adverse conditions affecting agriculture, commodity and electricity prices or various other factors. Further, conditions outside India, such as slowdowns in the economic growth of other countries, could have an impact on the growth of the Indian economy, and government policy may change in response to such conditions.

The Indian economy and financial markets are also significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, especially in the United States of America, Europe or China, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors' reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets.

There are also a number of uncertainties in the global markets such as trade tensions between the United States of America and major trading partners, most notably China, are still heightened following the introduction of a series of tariff measures in both the United States of America and China and a recent investment ban by the United States of America on several Chinese companies and these tensions could significantly impact global trade.

In the January 2020 World Economic Outlook Update, the International Monetary Fund (IMF) estimated that the global economy contracted by 3.5 per cent. in 2020, which is more severe than that

observed during the “Global Financial Crisis” in 2008 to 2009. The IMF projected that the global economy would grow 5.5 per cent. in 2021 and 4.2 per cent. in 2022, reflecting expectations of the strengthening of activities later in the year and additional policy support in certain large economies. However, the IMF noted that the strength of the recovery is projected to vary significantly across countries, depending on access to medical interventions, effectiveness of policy support, exposure to cross-country spillovers and structural characteristics entering the crisis. The development of significant global macroeconomic events, such as the US-China trade tensions and the exit of the United Kingdom from the European Union, continue to bring uncertainty which could have a significant negative impact on international markets. A weakening sentiment in the global financial markets is also projected to be deeper than anticipated. These could include further falls in stock exchange indices, a fall in the value of Sterling, an increase in exchange rates between Sterling and the Euro and/or greater volatility of markets in general due to the increased uncertainty.

As per global economic surveys, after experiencing one of the world’s tightest lockdowns and recording the deepest GDP contraction among G20 economies in the second quarter of 2020, the Indian economy started recovering, albeit with some hesitancy. While agriculture has benefited from favourable weather conditions, manufacturing and services are penalised by remaining containment measures and uncertainty. Significant social hardship persists and the fall in the unemployment rate must be seen against the background of declining labour force participation.

Supply chain disruptions have pushed inflation above the target range of the central bank. GDP is set to shrink by 10% in Fiscal Year 2021, with household consumption sluggish and investment largely unresponsive to easier monetary conditions. Despite a projected rebound of around 8% and 5% in Fiscal Year 2022 and Fiscal Year 2023, respectively, due to base effects and returning confidence, the GDP loss will be substantial.

COVID-19 is exacerbating pre-existing vulnerabilities related to poverty, high informality, environmental degradation and lack of employment opportunities. To increase resilience, the government has responded with three stimulus packages, but additional fiscal measures are needed to mitigate the damage, together with a credible medium-term consolidation plan. The reform effort has continued, notably in the areas of agriculture and employment. However, poor performance of public banks, a pervasive regulatory burden, and understaffing of the judiciary hinder the proper allocation of resources needed for inclusive growth. This and any prolonged financial crisis may have an adverse impact on the Indian economy, thereby resulting in a material adverse effect on our business, financial condition and results of operations.

Public companies in India, including the Company, are required to compute Income Tax under the Income Computation and Disclosure Standards (ICDS).

The Ministry of Finance (MoF) has issued a notification dated March 31, 2015 notifying ICDS which creates a new framework for the computation of taxable income. Subsequently, the MoF, through a press release dated July 6, 2016, deferred the applicability of ICDS from April 1, 2015 to April 1, 2016 and these were subsequently applicable from Fiscal Year 2017 onwards and impacted on computation of taxable income from Fiscal Year 2017 onwards. ICDS deviate in several respects from concepts that are followed under general accounting standards, including Indian GAAP and Ind AS. The transition to ICDS in India is very recent and the Company may be negatively affected by such transition. There can be no assurance that the adoption of ICDS will not adversely affect our Company’s business, results of operations and financial condition.

Significant differences exist between Ind AS and other accounting principles, such as US GAAP, Indian GAAP and IFRS, which may be material to investors’ assessments of the Company’s financial condition.

Our Company has not attempted to quantify the impact of US GAAP or IFRS on the financial data included in this Offering Circular, nor does it provide a reconciliation of its financial statements to those of US GAAP or IFRS. US GAAP and IFRS differ in significant respects from Ind AS. Accordingly, the degree to which the Ind AS financial statements included in this Offering Circular will provide meaningful information is entirely dependent on the readers level of familiarity with Indian accounting practices. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Offering Circular should accordingly be limited.

Political instability or changes in the Government could delay the liberalization of the Indian economy and adversely affect economic conditions in India generally.

We are incorporated in India, derive our revenues from operations in India and all of our assets are located in India. Consequently, our performance may be affected by interest rates, government policies, taxation, social and ethnic instability and other political and economic developments affecting India.

The Government has traditionally exercised, and continues to exercise, a significant influence over many aspects of the economy. Our business, and the market price and liquidity of the Notes, may be affected by changes in the Government's policies, including taxation.

Since 1991, successive governments have pursued policies of economic liberalization and financial sector reforms. However, there can be no assurance that such policies will be continued and any significant change in the Government's policies in the future could affect business and economic conditions in India in general. In addition, any political instability in India or geopolitical instability affecting India will adversely affect the Indian economy and the Indian securities markets in general.

Difficulties faced by other financial institutions or the Indian financial sector generally could cause our business to suffer.

We are exposed to the risks resulting from our participation in the Indian financial sector. This sector in turn may be affected by financial difficulties and other problems faced by Indian financial institutions. Certain Indian financial institutions have experienced difficulties during recent years, and some cooperative banks have also faced serious financial and liquidity difficulties. Any major difficulty or instability experienced by the Indian financial sector could create adverse market perception, which in turn could adversely affect our business, financial condition and results of operations. As the Indian financial system operates within an emerging market, it faces risks of a nature and extent not typically faced in more developed economies.

Our ability to raise foreign funds may be constrained by Indian law.

As an Indian company, we are subject to regulatory approvals and exchange controls that regulate borrowing in foreign currencies. Such regulatory restrictions limit our financing sources for our power projects under development and, hence, could constrain our ability to obtain financings on competitive terms and refinance existing indebtedness. In addition, we cannot assure that the required approvals will be granted to us without onerous conditions, or at all. The limitations on foreign debt may have an adverse effect on our business, financial condition and results of operations.

Terrorist attacks, civil unrest and other acts of violence or war involving India and other countries could adversely affect the financial markets.

Terrorist attacks and other acts of violence or war may negatively affect the Indian markets in which our securities trade and also adversely affect the worldwide financial markets. These acts may also result in a loss of business confidence, make travel and other services more difficult and eventually adversely affect our business. Any deterioration in relations between India and its neighboring countries may result in actual or perceived regional instability. Events of this nature in the future could have a

material adverse effect on our ability to develop our operations. As a result, our business, prospects, results of operations and financial condition could be materially adversely affected by any such events.

Natural calamities could have a negative impact on the Indian economy and our business.

India has experienced several natural calamities such as earthquake, flood and droughts in recent years. In Fiscal 2015, the agricultural sector was adversely affected by unseasonal rains and hailstorms in northern India during March 2015. Some parts of the country faced severe drought in 2016, the states of Andhra Pradesh, Karnataka, Maharashtra, and Uttar Pradesh being most severely affected, leading to serious food and drinking water and security concerns. Severe floods affected the state of Kerala due to unusually high rainfall during the monsoon season in 2018. Further, for the second consecutive year in 2019, incessant rains across Kerala caused flooding in many parts across the State. In Fiscal 2020, India experienced many natural calamities, namely, Cyclone Nisarga which struck the western coast of India in Maharashtra, locust attacks, Cyclone Nivar, Cyclone Burevi, Assam floods, Hyderabad floods and oil and gas leak in Assam. Recently, an avalanche near Tapovan in Uttarakhand has damaged a part of our Company's under construction hydropower project Tapovan Vishnugad (520 MW) in the region. 139 persons are feared to have lost their lives in the incident.

Such spells of natural calamities could have a negative impact on the Indian economy, affecting our Company's business and potentially causing the trading price of the Notes to decrease.

Difficulties faced by other financial institutions or the Indian financial sector generally could have an impact on the business of our Company.

Our Company is exposed to the risks consequent to being part of the Indian financial sector. This sector in turn may be affected by financial difficulties and other problems faced by Indian financial institutions. Certain Indian financial institutions have experienced difficulties during recent years. Any major difficulty or instability experienced by the Indian financial sector could create adverse market perception, which, in turn, could adversely affect our Company's business and financial performance. For instance, towards the end of 2018, defaults in debt repayments by a large NBFC in India, Infrastructure Leasing & Financial Services Limited, which had a significant shareholding from government-owned institutions, led to heightened investor focus around the health of the broader NBFC sector as well as their sources of liquidity. This has led to some tightening in liquidity available to certain NBFCs and, as a result, it has become more difficult for certain NBFCs to renew loans and raise capital in recent times. If any event of similar nature or magnitude affecting the market sentiment surrounding the sector occurs again in the future, it may result in increased borrowing costs and difficulties in accessing cost-effective debt for our Company. Our Company's cost of borrowings is sensitive to interest rate fluctuations which exposes our Company to the risk of reduction in spreads, on account of volatility in interest rates.

Any further downgrade of India's sovereign rating by a credit rating agency could have a negative impact on our business, financial condition and results of operations.

In June 2020, Moody's Investors Service downgraded the Government of India's foreign-currency and local-currency long-term issuer ratings to "Baa3" from "Baa2". It stated that the outlook remained "negative". Any further adverse revisions to India's sovereign credit ratings for domestic and international debt by credit rating agencies may adversely impact the interest rates and other commercial terms at which such financing is available to us. Consequently, if India's sovereign credit rating further downgrades, we may not be able to competitively price our loans and, accordingly, we may not be able to maintain the profitability or growth of our business. Additionally, if we are unable to competitively price our loans, we would be subjected to greater levels of prepayments on our loans as borrowers would seek loans from competitors that are priced lower because of the lower cost of capital. Accordingly, any adverse revisions to our credit rating or to India's sovereign credit rating could have

a material adverse effect on our business, financial condition and results of operations, as well as our ability to obtain financing for lending operations.

Direct capital market access by our borrowers could adversely affect us.

The Indian capital market is developing and maturing at a good pace, which may cause a shift in the pattern of power sector financing. In particular, financially stronger borrowers, including SPUs might source their fund requirement directly from the market. We have a large exposure to SPUs (which have weak financial risk profiles) and such changes may have an adverse impact on our profitability and growth, which would have a negative effect on our business, financial condition and results of our operations.

Certain global economic conditions have been unprecedented and challenging and have had, and continue to have, an adverse effect on the Indian financial markets and the Indian economy in general.

Certain global market and economic conditions have been unprecedented and challenging, with tighter credit conditions and recessions in most major economies. Continued concerns about the systemic impact of potential long-term and wide-spread recession, energy costs, geopolitical issues, the availability and cost of credit, and the global housing and mortgage markets have contributed to increased market volatility and diminished expectations for western and emerging economies, as well as for the United States and international capital and credit markets. These conditions, combined with volatile oil prices, declining business and consumer confidence and increased unemployment, have contributed to volatility of unprecedented levels.

As a result of these market conditions, the cost and availability of credit have been, and may continue to be, adversely affected by illiquid credit markets and wider credit spreads. Concern about the stability of the markets generally and the strength of counterparties specifically has led many lenders and institutional investors to reduce and, in some cases, cease to provide credit to businesses and consumers. These factors have led to a decrease in spending by businesses and consumers alike and corresponding decreases in global infrastructure spending and commodity prices. Continued turbulence in the United States and international markets and economies and prolonged declines in business consumer spending may adversely affect our liquidity and financial condition and the liquidity and financial condition of our customers, as well as our ability to refinance maturing liabilities and access the capital markets to meet liquidity needs. These global market and economic conditions have had, and continue to have, an adverse effect on the Indian financial markets and the Indian economy in general, which in turn may continue to have a material adverse effect on our business and our financial performance.

There may be less company information available in Indian securities markets than in securities market in other more developed countries.

There is a difference between the level of regulation, disclosure and monitoring of the Indian securities market and the activities of investors, brokers and other participants and that of markets in the United States and other more developed economies. The SEBI is responsible for ensuring and improving disclosure and other regulatory standards for the Indian securities markets. The SEBI has issued regulations and guidelines on disclosure requirements, insider trading and other matters. There may, however, be less publicly available information about Indian companies than is regularly made available by public companies in more developed economies.

As a result, investors may have access to less information about our business, results of operations and financial conditions, and those of the competitors, that are listed on the BSE and the NSE and other stock exchanges in India on an on-going basis than you may find in the case of companies subject to reporting requirements of other more developed countries. There is a lower level of regulation and monitoring of the Indian securities market and the activities of its investors, brokers and other

participants than in certain Organisations for Economic Cooperation and Development (**OECD**) countries. The SEBI received statutory powers in 1992 to assist it in carrying out its responsibilities for improving disclosure and other regulatory standards for the Indian securities market. Subsequently, the SEBI has prescribed certain regulations and guidelines in relation to disclosure requirements, insider dealing and other matters relevant to the Indian securities markets. However, there may still be less publicly available information about Indian companies than is regularly made available by public companies in certain OECD countries.

The risks to financial stability could adversely affect our business.

The gross non-performing assets in the Indian banking system have grown, while stressed advances, including standard restructured loans, have risen since September 2014. This deterioration in asset quality is expected to continue into the next few quarters, however, profitability measured by return on assets and return on equity remained around the same level during the last two years. The overall risks to the banking sector remain elevated due to asset quality concerns. In addition, the banking stability map suggests that the overall risks to the banking sector have moderated marginally. Nonetheless, concerns remain over the continued weakness in asset quality and profitability. Deterioration in the asset quality and the progressive implementation of Basel III norms, which require greater buffers, have led to public sector banks (**PSBs**) receiving capital infusions through the issuance of recapitalization bonds and budgetary support. The RBI's revised prompt corrective action framework became effective in April 2017. Eleven PSBs placed under this framework so far have been restricted in their operations and have been subjected to remedial action plans to prevent further capital erosion.

The stress tests carried out by the RBI suggest that, under the baseline assumption of the prevailing economic situation and COVID-19 related stress, the gross non-performing assets ratio of scheduled commercial banks may increase in 2020-2021, as per RBI's latest annual report. Further, the gross non-performing assets of scheduled commercial banks reduced to 8.5 per cent of the gross advances at the end of March 2020 due to past efforts aimed at solution of stressed assets.

Our Company has little or no control over any of these risks or trends and may be unable to anticipate changes in economic conditions. Adverse effects on the Indian banking system could impact our Company's funding and adversely affect our business, operations and financial condition and the market price of the Notes.

Investors in the Notes may not be able to enforce a judgment of a foreign court against our Company.

All of the directors of our Company and key managerial personnel named in this Offering Circular are residents of India. Further, all the assets of our Company are located in India. As a result, it may be difficult for investors to effect service of process upon our Company or to enforce judgments obtained against our Company. The recognition and enforcement of foreign judgments in India is governed by Sections 13 and 44A of the Civil Code, which provide that a suit must be brought in India within three years from the date of the judgment sought to be enforced. Generally, there are considerable delays in the disposal of suits by Indian courts.

It is unlikely that a court in India would award damages on the same basis as a foreign court if an action were to be brought in India. Furthermore, it is unlikely that an Indian court would enforce foreign judgments if that court was of the view that the amount of damages awarded was excessive or inconsistent with Indian practices. A party seeking to enforce a foreign judgment in India is required to obtain prior approval from the RBI under the Foreign Exchange Management Act, 1999 to repatriate any amount recovered. For further details, see "*Enforcement of foreign judgments in India*".

The Company's business and activities are regulated by the Competition Act, 2002 (the Indian Competition Act) and any application of the Competition Act to the Company may be unfavorable or have an adverse effect on the Company's business, financial condition and results of operations.

The Indian Parliament has enacted the Competition Act under the auspices of the Competition Commission of India to prevent business practices that have an appreciable adverse effect on competition in India, which (other than for certain provisions relating to the regulation of combinations) became effective in 2009. Under the Indian Competition Act, any arrangement, understanding or action in concert between enterprises, whether formal or informal, which causes or is likely to cause an appreciable adverse effect on competition in India is void and attracts substantial monetary penalties.

Any agreement which directly or indirectly determines purchase or sale prices, limits or controls production, shares the market by way of geographical area, market or number of customers in the market is presumed to have an appreciable adverse effect on competition. Furthermore, if it is proved that the contravention committed by a company took place with the consent or involvement or is attributable to any neglect on the part of any director, manager, secretary or other officer of such company, that person shall be guilty of a contravention and liable to be punished.

If the Company is affected, directly or indirectly, by any provision of the Indian Competition Act or its application or interpretation, including any enforcement proceedings initiated by the Competition Commission and any adverse publicity that may be generated due to scrutiny or prosecution by the Competition Commission of India, it may have a material adverse effect on the Company's business, financial condition and results of operations.

The insolvency laws of India may differ from other jurisdictions with which holders of the Notes are familiar.

As our Company is incorporated under the laws of India, an insolvency proceeding relating to our Company, even if brought in another jurisdiction, would likely involve Indian insolvency laws, the procedural and substantive provisions of which may differ from comparable provisions of another jurisdiction. Insolvency laws in India are currently being overhauled and are evolving, with a new legal framework thereof being established and codified as part of the major economic reforms of the Government of India in the financial and banking services sector. As such, their impact on companies cannot be fully ascertained at this point.

RISKS RELATING TO AN INVESTMENT IN THE NOTES

Notes may not be a suitable investment for all investors.

Each potential investor in any Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- have sufficient knowledge and experience to make a meaningful evaluation of the relevant Notes, the merits and risks of investing in the relevant Notes and the information contained or incorporated by reference in this Offering Circular or any applicable supplement;
- have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the relevant Notes and the impact such investment will have on its overall investment portfolio;

- have sufficient financial resources and liquidity to bear all of the risks of an investment in the relevant Notes, including where principal or interest is payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- understand thoroughly the terms of the relevant Notes and be familiar with the behavior of any relevant indices and financial markets; and
- be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some Notes are complex financial instruments and such instruments may be purchased as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with the help of a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of such Notes and the impact this investment will have on the potential investor's overall investment portfolio.

The Notes are unsecured obligations and will rank effectively subordinated to all of our present and future secured indebtedness.

The Notes are our unsecured obligations and will rank effectively subordinated to all of our present and future secured indebtedness. In the daily course of our operations, as is customary for companies operating in our industry, a portion of our domestic loans, bonds and other financial indebtedness are secured by our assets. As at December 31, 2020, our Company had total Rupee-denominated borrowings of Rs. 2,564,879.6 million, of which Rs. 360,927.8 million, or 14.07 per cent., were secured by charges on assets. The Notes will rank effectively subordinated to this secured indebtedness. In addition, the amount of our secured indebtedness may fluctuate over time and, to the extent it increases, the Notes will be effectively subordinated to an even greater amount. As a result, upon any distribution to creditors in a bankruptcy, liquidation, or similar proceeding relating to us, the holders of our secured indebtedness will be entitled to be paid to the extent of the value of such secured assets before any payment would be made with respect to the Notes.

The Notes are not guaranteed by the Republic of India.

The Notes are not the obligations of, or guaranteed by, the Republic of India. In addition, the Government is under no obligation to maintain our solvency. Therefore, investors should not rely on the Government to ensure that we fulfil our obligations under the Notes.

Early redemption of the Notes (including Rupee Denominated Notes) prior to its stated average maturity may require the prior approval of the RBI or other approvals in accordance with the ECB Guidelines.

Any early redemption of the Notes (including Rupee Denominated Notes) (whether due to certain tax events described in Condition 7.2 or due to change of control events described in Condition 7.3 or due to an Event of Default as specified in Condition 10 or otherwise) will be subject to limitations on our ability to redeem the Notes (including Rupee Denominated Notes) prior to their stated maturity date, including obtaining the prior written approval of the RBI or any other approval, and maintaining compliance with any conditions that the RBI or other relevant Indian authorities may impose in accordance with ECB Guidelines at the time of such approval. Prior approval of the RBI may be required by us for the payment of withholding tax in any Tax Jurisdiction (as defined in Condition 8.2) other than India in a foreign currency. There can be no assurance that the RBI or other relevant Indian authorities will provide such approval in a timely manner, or at all.

Remittances of funds outside India pursuant to indemnification by us in relation to the Notes require prior RBI approval.

Remittance of funds outside India by us pursuant to indemnity clauses under the Terms and Conditions of the Notes, the Agency Agreement or any other agreements in relation to the Notes requires prior RBI approval. Any approval, if and when required, for the remittance of funds outside India is at the discretion of the RBI and there can be no assurance that we will be able to obtain such approvals.

Legal investment considerations may restrict certain investments.

The investment activities of certain investors are subject to investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (i) the Notes are legal investments for it, (ii) the Notes can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of the Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of the Notes under any applicable risk-based capital or similar rules.

Modification, waivers and substitution.

The Terms and Conditions of the Notes and the Agency Agreement contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders, including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

The Terms and Conditions of the Notes also provide that the Principal Paying Agent and the Company may agree, without the consent of the Noteholders, Receiptholders or Couponholders, to: (i) any modification (except such modifications in respect of which an increased quorum is required as mentioned above) of the Notes, the Receipts, the Coupons or the Agency Agreement which, in the opinion of the Company, is not prejudicial to the interests of the Noteholders; or (ii) any modification of the Notes, the Receipts, the Coupons or the Agency Agreement which is of a formal, minor or technical nature or is made to correct a manifest error or to comply with mandatory provisions of the law.

The Notes are subject to the risk of change in law.

The Terms and Conditions of the Notes are based on English law in effect as of the date of issue of the relevant Notes. No assurance can be given as to the impact of any possible judicial decision or change to English law or administrative practice after the date of issue of the relevant Notes, and any such change could materially and adversely impact the value of any Notes affected by it.

The price of the Notes following the offering may be volatile.

The price and trading volume of the Notes may be highly volatile. Factors such as variations in our revenues, earnings and cash flows and proposals of new investments, strategic alliances and/or acquisitions and interest rates could cause the price of the Notes to change. Any such developments may result in large and sudden changes in the volume and price at which the Notes will trade. There can be no assurance that these developments will not occur in the future.

The Notes may have limited liquidity.

The Notes constitute a new issue of securities for which there is no existing market.

Application has been made to the SGX-ST for permission to deal in and quotation for any Notes that may be issued pursuant to the Programme and which are agreed at or prior to the time of issue thereof

to be so listed on the SGX-ST. Such permission will be granted when such Notes have been admitted to the Official List of the SGX-ST. The offer and sale of the Notes are not conditioned on obtaining a listing of the Notes on the SGX-ST or any other exchange. Application has been made to the London Stock Exchange for the Notes to be admitted to the London Stock Exchange's ISM. Application has also been made to the India INX for the Notes to be admitted for trading on the India INX. Application has also been made to the NSE IFSC for the Notes to be admitted for trading on the NSE IFSC.

No assurance can be given as to the liquidity of, or the development and continuation of an active trading market for, the Notes. If an active trading market for the Notes does not develop or is not maintained, the market price and liquidity of the Notes may be adversely affected. If such a market were to develop, the Notes could trade at prices that may be higher or lower than the price at which the Notes are issued, depending on many factors, including:

- prevailing interest rates;
- our results of operations and financial condition;
- political and economic developments in and affecting India;
- the market conditions for similar securities; and
- the financial condition and stability of the Indian power sector.

Investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market.

Notes where denominations involve integral multiples: definitive Notes.

In relation to any issue of Notes which have denominations consisting of a minimum Specified Denomination (as specified in the applicable Pricing Supplement) plus one or more higher integral multiples of another smaller amount, it is possible that such Notes may be traded in amounts that are not integral multiples of such minimum Specified Denomination. In such a case, a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his or her account with the relevant clearing system at the relevant time may not receive a definitive Note in respect of such holding (should definitive Notes be printed) and would need to purchase a principal amount of Notes, such that its holding amounts to a Specified Denomination.

Transfers of interests in the Notes will be subject to certain restrictions and interests in Global Notes can only be held through a clearing system.

The Notes have not been and are not expected to be registered: (i) under the Securities Act or any applicable state's or other jurisdiction's securities laws; or (ii) with the U.S. Securities and Exchange Commission or any other applicable state's or other jurisdiction's regulatory authorities. The offering of the Notes will be made pursuant to exemptions from the registration requirements of the Securities Act and from other securities laws. Prospective investors may not offer or sell any Notes, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state securities laws. Similar restrictions will apply in other jurisdictions. Accordingly, reoffers, resales, pledges and other transfers of interests in the Notes will be subject to certain transfer restrictions. Each investor is advised to consult its legal advisers in connection with any such reoffer, resale, pledge or other transfer. See "*Subscription and Sale*" and "*Transfer Restrictions*".

Because transfers of interests in the Global Notes can be effected only through book entries at Euroclear, Clearstream, Luxembourg and/or DTC (as applicable) for the accounts of their respective participants, the liquidity of any secondary market for investments in the Global Notes may be reduced to the extent

that some investors are unwilling to invest in notes held in book-entry form in the name of a participant in Euroclear, Clearstream, Luxembourg or DTC as applicable. The ability to pledge interests in the Notes may be limited due to the lack of a physical certificate. Beneficial owners of Global Notes may, in certain cases, experience a delay in the receipt of payments of principal or interest since such payments will be forwarded by the paying agent to Clearstream, Euroclear or DTC, as applicable, who will then forward payment to their respective participants, who (if not themselves the beneficial owners) will thereafter forward the payments to the beneficial owners of the interests in the Global Notes. In the event of the insolvency of Euroclear, Clearstream, DTC or any of their respective participants in whose name interests in the Notes are recorded, the ability of beneficial owners to obtain timely or ultimate payment of principal and interest on the Notes may be impaired.

Noteholders are required to rely on the procedures of the relevant clearing system and its participants while the Notes are cleared through the relevant clearing system.

Notes issued under the Programme will be represented on issue by one or more Global Notes that may be deposited with a common depository for Euroclear and Clearstream, Luxembourg or may be deposited with a nominee for DTC. Except in the circumstances described in each Global Note, investors will not be entitled to receive Notes in definitive form. Each of DTC, Euroclear and Clearstream, Luxembourg and their respective direct and indirect participants will maintain records of the beneficial interests in each Global Note held through it. While the Notes are represented by a Global Note, investors will be able to trade their beneficial interests only through the relevant clearing systems and their respective participants.

While the Notes are represented by Global Notes, we will discharge our payment obligation under the Notes by making payments through the relevant clearing systems. A holder of a beneficial interest in a Global Note must rely on the procedures of the relevant clearing system and its participants to receive payments under the Notes. We have no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in any Global Note.

Holders of beneficial interests in a Global Note will not have a direct right to vote in respect of the Notes so represented. Instead, such holders will be permitted to act only to the extent that they are enabled by the relevant clearing system and its participants to appoint appropriate proxies.

If definitive Notes are issued, holders should be aware that definitive Notes that have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

Noteholders' right to receive payments is junior to certain tax and other liabilities preferred by law.

The Notes are unsecured obligations of our Company and will rank subordinated to certain liabilities preferred by law, such as claims of the Government on account of taxes and certain liabilities incurred in the ordinary course of our business, and will be effectively subordinated to our secured obligations. In particular, in the event of bankruptcy, liquidation or winding-up, our assets will be available to pay obligations on the Notes only after all of the above liabilities that rank senior to these Notes have been paid (including liabilities which have the benefit of security). In the event of bankruptcy, liquidation or winding-up, there may not be sufficient assets remaining, after paying amounts relating to these proceedings, to pay amounts due on the Notes.

Decisions may be made on behalf of all Noteholders that may be adverse to the interests of individual Noteholders.

The Terms and Conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind

all Noteholders, including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

Some of the information included in this Offering Circular has been prepared by third parties and may be inaccurate or outdated.

This Offering Circular includes information on the Republic of India, the Indian economy and the Indian power industry taken from third parties, which we believe to be reliable. However, the information taken from third parties and included in this Offering Circular may be inaccurate and outdated, and we make no representation or warranty, express or implied, as to the accuracy or completeness of this information. Statements from third parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this Offering Circular. We also cannot provide any assurance that the third parties have used correct or sound methodology to prepare the information included in this Offering Circular.

The Notes are subject to selling restrictions and restrictions on transfer, and may be transferred only to a limited pool of investors, which may adversely affect their liquidity and the price at which they may be sold.

We are not obligated to, and do not intend to, register the Notes under the Securities Act or the securities laws of any other jurisdiction and, unless so registered, the Notes may not be offered or sold except pursuant to an exemption from, or a transaction not subject to the registration requirements of, the Securities Act and any other applicable laws. As a result, the Notes can only be transferred to a limited group of investors, which may adversely affect their liquidity and the price at which they may be sold. See “*Subscription and Sale – India*”.

We are not registered, and will not register, as an “investment company” under the Investment Company Act.

We will seek to qualify for an exemption from the definition of “investment company” under the Investment Company Act and will not register as an investment company in the United States under the Investment Company Act. The Investment Company Act provides certain protections to investors and imposes certain restrictions on registered investment companies, none of which will be applicable to us or our investors.

U.S. Dividend Equivalent Withholding may affect payments on the Notes.

Section 871(m) of the U.S. Internal Revenue Code of 1986 causes a 30 per cent. withholding tax on amounts attributable to U.S. source dividends that are paid or “deemed paid” under certain financial instruments if certain conditions are met (such instruments, **Specified Notes**). If the Company or any withholding agent determines that withholding is required, neither the Company nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld. Prospective investors should refer to the section “*Taxation---U.S. Dividend Equivalent Withholding*”.

For purposes of withholding under the U.S. Foreign Account Tax Compliance Act, commonly known as FATCA, Specified Notes are subject to a different grandfathering rule than other Notes. Prospective investors should refer to the section “*Taxation---Foreign Account Tax Compliance Act*”.

We will follow the applicable corporate disclosure standards for debt securities listed on the ISM, which standards may be different from those applicable to debt securities listed in certain other countries.

We will be subject to reporting obligations in respect of the Notes to be listed on the ISM. The disclosure standards imposed by the ISM may be different than those imposed by securities exchanges in other

countries or regions such as the United States. As a result, the level of information that is available may not correspond to what investors in the Notes are accustomed to.

RISKS RELATED TO THE MARKET GENERALLY

Set out below is a brief description of the principal market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk:

Payments of principal and interest are subject to exchange rate risks and exchange controls.

Our Company will pay principal and interest on the Notes in the currency specified (the **Settlement Currency**). This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the Investor's Currency) other than the Settlement Currency. These include the risk that exchange rates may significantly change (including changes due to the devaluation of the Settlement Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Settlement Currency would decrease (i) the Investor's Currency-equivalent yield on the Notes, (ii) the Investor's Currency-equivalent value of the principal payable on the Notes, and (iii) the Investor's Currency-equivalent market value of the Notes.

Investment in the Notes is subject to interest rate risks.

Investment in the Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of them.

RISKS RELATED TO THE STRUCTURE OF A PARTICULAR ISSUE OF NOTES

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of certain such features:

Notes subject to optional redemption.

An optional redemption feature of Notes is likely to limit their market value. During any period when we may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

We may be expected to redeem Notes when our cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

Inverse Floating Rate Notes.

Inverse Floating Rate Notes have an interest rate equal to a fixed rate minus a rate based upon a reference rate such as the London Interbank Offered Rate. The market values of such Notes typically are more volatile than market values of other conventional floating rate debt securities based on the same reference rate (and with otherwise comparable terms). Inverse Floating Rate Notes are more volatile because an increase in the reference rate not only decreases the interest rate of the Notes, but may also reflect an increase in prevailing interest rates, which would further adversely affect the market value of those Notes.

Fixed/Floating Rate Notes.

Fixed/Floating Rate Notes may bear interest at a rate that converts from a fixed rate to a floating rate or from a floating rate to a fixed rate. Where we have the right to effect such a conversion, this will affect the secondary market and the market value of the Notes, since we may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If we convert from a fixed rate to a floating rate in such circumstances, the spread on the Fixed/Floating Rate Notes may be less favorable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If we convert from a floating rate to a fixed rate in such circumstances, the fixed rate may be lower than the then prevailing rates on its Notes.

Notes issued at a substantial discount or premium.

The market values of securities issued at a substantial discount or premium to their nominal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

The regulation and reform of “benchmark” rates of interest and indices may adversely affect the value of Notes linked to or referencing such “benchmarks”.

Interest rates and indices which are deemed to be or are used as “benchmarks” are the subject of recent international regulatory guidance and proposals for reform, particularly in the United Kingdom. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past or to disappear entirely or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to or referencing such a benchmark. Regulation (EU) 2016/1011 (the **Benchmarks Regulation**) was published in the Official Journal of the EU on June 29, 2016 and applies from January 1, 2018 (with the exception of provisions specified in Article 59 (mainly on critical benchmarks) that apply from June 30, 2016 and July 3, 2016). The Benchmarks Regulation applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the EU. It will, among other things, (i) require benchmark administrators to be authorized or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognized or endorsed) and (ii) prevent certain uses by EU supervised entities of benchmarks of administrators that are not authorized or registered (or, if non-EU based, not deemed equivalent or recognized or endorsed).

The Benchmarks Regulation could have a material impact on any Notes linked to or referencing a benchmark, in particular, if the methodology or other terms of the benchmark are changed in order to comply with the requirements of the Benchmarks Regulation. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the benchmark.

More broadly, any of the international reforms, particularly in the United Kingdom or the general increased regulatory scrutiny of benchmarks, could increase the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any such regulations or requirements. For example, the sustainability of the London interbank offered rate (**LIBOR**) has been questioned as a result of the absence of relevant active underlying markets and possible disincentives (including as a result of regulatory reforms) for market participants to continue contributing to such benchmarks. On July 27, 2017, the United Kingdom Financial Conduct Authority announced that it will no longer persuade or compel banks to submit rates for the calculation of the LIBOR benchmark after 2021 (the **FCA Announcement**). The FCA Announcement indicated that the continuation of LIBOR on the current basis cannot and will not be guaranteed after 2021. On March 5, 2021, the FCA announced that (i) the publication of 24 LIBOR settings (as detailed in the FCA announcement) will

cease immediately after December 31, 2021, (ii) the publication of the overnight and 12-month U.S. dollar LIBOR settings will cease immediately after June 30, 2023, (iii) immediately after December 31, 2021, the 1-month, 3-month, and 6-month sterling LIBOR settings will no longer be representative of the underlying market and economic reality that they are intended to measure and representativeness will not be restored (and the FCA will consult on requiring the ICE Benchmark Administration Limited (the “IBA”) to continue to publish these settings on a synthetic basis, which will no longer be representative of the underlying market and economic reality that they are intended to measure, for a further period after end 2021) and (iv) immediately after June 30, 2023, the 1-month, 3-month, and 6-month U.S. dollar LIBOR settings will no longer be representative of the underlying market and economic reality they are intended to measure and representativeness will not be restored (and the FCA will consider the case for using its proposed powers to require IBA to continue publishing these settings on a synthetic basis, which will no longer be representative of the underlying market and economic reality they are intended to measure, for a further period after end June 2023).

The elimination of the LIBOR benchmark or any other benchmark, or changes in the manner of administration of any benchmark, could require an adjustment to the terms and conditions, or result in other consequences, in respect of any Notes linked to such benchmark (including, but not limited to, floating rate Notes whose interest rates are linked to LIBOR). Such factors may have the following effects on certain benchmarks: (i) discourage market participants from continuing to administer or contribute to the benchmark; (ii) trigger changes in the rules or methodologies used in the benchmark; or (iii) lead to the disappearance of the benchmark.

Any of the above changes or any other consequential changes as a result of international reforms, particularly in the United Kingdom, or other initiatives or investigations, could have a material adverse effect on the value of and return on any Notes linked to or referencing a benchmark.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the Benchmarks Regulation or any other international reforms, particularly in the United Kingdom, in making any investment decision with respect to any Notes linked to or referencing a benchmark. Investors should be aware that, if LIBOR were discontinued or otherwise unavailable, the rate of interest on Floating Rate Notes which reference LIBOR will be determined for the relevant period by the fall-back provisions applicable to such Notes. Depending on the manner in which the LIBOR rate is to be determined under the Terms and Conditions, this may (i) if ISDA Determination applies, be reliant upon the provision by reference banks of offered quotations for the LIBOR rate which, depending on market circumstances, may not be available at the relevant time or (ii) if Screen Rate Determination applies, result in the effective application of a fixed rate based on the rate which applied in the previous period when LIBOR was available. In addition, the Conditions provide that we may appoint an Independent Adviser to determine a Successor Rate or an Alternative Rate applicable to Floating Rate Notes if a Benchmark Event occurs (each term as defined in “*Terms and Conditions of the Notes*”). Any of the foregoing could have an adverse effect on the value or liquidity of, and return on, any Floating Rate Notes which reference LIBOR.

The secondary market generally.

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks that are designed for specific investment objectives or strategies or that have been structured to meet the investment requirements of limited categories of investors. These types of Notes would generally have a more limited secondary market and more price volatility than conventional debt securities would. Illiquidity may have a severe adverse effect on the market value of Notes.

Exchange rate risks and exchange controls may result in investors receiving less interest or principal than expected.

We will pay principal and interest on the Notes in the currency specified in the relevant Pricing Supplement (the **Specified Currency**). This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the **Investor's Currency**) other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (i) the Investor's Currency equivalent yield on the Notes, (ii) the Investor's Currency equivalent value of the principal payable on the Notes and (iii) the Investor's Currency equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal at all.

Changes in market interest rates may adversely affect the value of Fixed Rate Notes.

Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of Fixed Rate Notes.

Ratings of Notes.

Credit ratings assigned to us or any Notes may not reflect all the risks associated with an investment in those Notes.

One or more independent credit rating agencies may assign credit ratings to us or the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised, suspended or withdrawn by the rating agency at any time.

Legal investment considerations may restrict certain investments.

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent: (i) Notes are legal investments for it; (ii) Notes can be used as collateral for various types of borrowing; and (iii) other restrictions apply to the purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

RISKS RELATING TO AN INVESTMENT IN RUPEE DENOMINATED NOTES

Rupee Denominated Notes are subject to selling restrictions and may be transferred only to a limited pool of investors.

Rupee Denominated Notes can only be issued to and held by investors resident in jurisdictions which are a member of the FATF or a member of a FATF-style regional body and whose securities market regulator is a signatory to the IOSCO multilateral memorandum of understanding (Appendix A Signatories) or a signatory to a bilateral memorandum of understanding with SEBI for information sharing arrangements and in compliance with certain other conditions prescribed by the ECB

Guidelines. For further details, see the section titled “*Regulations and Policies - Issuance of Overseas Rupee Denominated Notes*” in this Offering Circular.

Rupee Denominated Notes are subject to selling restrictions and may be transferred only to a limited pool of investors. Rupee Denominated Notes can only be issued to and held by investors resident in jurisdictions which are members of the FATF or members of an FATF-style regional body and whose securities market regulator is a signatory to the IOSCO multilateral memorandum of understanding (Appendix A Signatories) or a signatory to a bilateral memorandum of understanding with SEBI for information sharing arrangements. Additionally, investors should not be residents of a country identified in the public statement of the FATF as: (i) a jurisdiction having strategic anti-money laundering or combating the financing of terrorism deficiencies to which countermeasures apply; or (ii) a jurisdiction that has not made sufficient progress in addressing the deficiencies or has not committed to an action plan developed with the FATF to address the deficiencies. Further, the investor should be a resident of an FATF or IOSCO-compliant country, including upon transfer of the Notes. However: (a) multilateral and regional financial institutions where India is a member country will also be considered as recognized investors; (b) individuals as investors can only be permitted if they are foreign equity holders or for subscription to the Notes listed abroad; and (c) foreign branches or subsidiaries of Indian banks are permitted in the case of Notes denominated in a foreign currency. Further, foreign branches or subsidiaries of Indian banks (subject to applicable prudential guidelines issued by the RBI) can participate as arrangers, underwriters, market-makers or traders for Rupee Denominated Notes issued overseas.

Rupee Denominated Notes are subject to exchange rate risks and exchange controls.

India maintains a managed floating exchange rate system under which market forces determine the exchange rate for the Rupee. Under the RBI's policies, the RBI may intervene in the market to maintain orderly market conditions and limit sharp fluctuations in the exchange rate. Interventions by the RBI have taken the form of transparent measures and have included clearly delineated periods and amounts involved, as well as the explanations for these actions. The RBI's foreign exchange policy objectives include maintaining price stability, promoting and maintaining monetary stability and the convertibility of the Rupee and protecting its international reserves during times of impending or on-going exchange crises or national emergencies.

Rupee Denominated Notes are denominated in Rupee and payable in foreign currency. This entails risks which are not associated with a similar investment in a foreign currency denominated security. Such risks include, without limitation, the possibility of significant changes in the exchange rate between Rupee and the relevant foreign currency if such currency risk is unhedged and the possibility of imposition or modification of exchange controls by the RBI. Such risks are usually dependent on various economic and political events over which our Company has no control. Recently, exchange rates have been volatile and such volatility is expected in the near future as well, so the risk pertaining to exchange rate fluctuation persists. However, the recent fluctuations in exchange rates are not indicative in nature. If the Rupee depreciates against the relevant foreign currency, the effective yield on the Rupee Denominated Notes will decrease below the interest rate on the global bonds, and the amount payable on maturity may be less than the investment made by the investors. This could result in a total or substantial loss of the investment made by the investor towards the Rupee Denominated Notes. Rates of exchange between the foreign currency and Rupee may be significantly varied over time. However, historical trends do not necessarily indicate future fluctuations in rates and should not be relied upon as indicative of future trends. Political, economic or stock exchange developments in India or elsewhere could lead to significant and sudden changes in the exchange rate between the Rupee and the relevant foreign currency.

Furthermore, the overseas investors are eligible to hedge the above-mentioned exchange rate risk only by way of permitted derivative products with: (i) AD Category – I banks in India; (ii) the offshore branches or subsidiaries of Indian banks; or (iii) branches of foreign banks having a presence in India.

Rupee Denominated Notes are not freely convertible.

The Rupee is not a freely convertible currency. The convertibility of a currency is dependent, *inter alia*, on international and domestic political and economic factors, and on measures taken by the Government and central banks. Such measures include, without limitation, imposition of regulatory controls or taxes, issuance of a new currency to replace an existing currency, alteration of the exchange rate or exchange characteristics by revaluation or devaluation of a currency, or imposition of exchange controls with respect to the exchange or transfer of a specified currency that would affect exchange rates and the availability of a specified currency. The taking of any one or more of such measures could adversely affect the value of the Notes, as well as any amount which may be payable upon redemption of the Rupee Denominated Notes.

Early redemption of Rupee Denominated Notes may require RBI approval.

Early redemption of Rupee Denominated Notes prior to its stated maturity (whether as a result of an event of default or any early redemption event) requires prior RBI or AD Bank approval, as the case may be. Compliance with any conditions specified in any such RBI or AD Bank approval will be required. There can be no assurance that the RBI or the AD Bank will provide such approval in a timely manner or at all.

BUSINESS

*In this section, unless the context otherwise requires, a reference to **the Company** or **our Company** is a reference to REC Limited on a non-consolidated basis and, unless the context otherwise requires, a reference to **we**, **us** or **our** refers to REC Limited and its subsidiaries, joint ventures and associate company, as applicable in the relevant fiscal period, on a consolidated basis.*

Unless stated otherwise, the financial data included in this section for: (i) the nine months ended December 31, 2020 has been derived from the non-consolidated financial statements for the nine months ended December 31, 2020 prepared under Ind-AS; (ii) the year ended March 31, 2018 has been derived from the consolidated financial statements for the year ended March 31, 2019; and (iii) the years ended March 31, 2019 and 2020 have been derived from the consolidated financial statements for the years ended March 31, 2019 and 2020, prepared under Ind-AS. See “Presentation of financial and other information”.

Unless stated otherwise, the operational data and certain financial ratios included in this section for the periods indicated are presented on a non-consolidated basis. In this context, it is noted that: (i) our total income on a non-consolidated basis was 99.62 per cent. and 99.35 per cent. of our total income on a consolidated basis for the nine months ended December 31, 2020 and the nine month period ended December 31, 2019, respectively; and (ii) our total assets on a non-consolidated basis were 99.86 per cent. and 99.84 per cent. of our total assets on a consolidated basis as of the nine months ended December 31, 2020 and the year ended March 31, 2020, respectively.

OVERVIEW

We are a public financial institution in the Indian power infrastructure sector. We are engaged in the financing and promotion of transmission, distribution and generation segments in the power sector, including renewable energy projects throughout India. We believe our organization occupies a key position in the Government’s plans for the growth of the Indian power sector.

We assist our clients in formulating and implementing a broad array of power projects and finance those projects. Our clients primarily include Indian public sector power utilities both at the central and state levels and private sector power utilities. We service our clients through a network of regional offices spread across India and one national level training center at Hyderabad. Our regional offices play an integral role in the development of our relationships with our clients, in the operation and promotion of our business and in our loan appraisal, loan sanction and post-sanction monitoring processes. Our primary financial product is project-based long-term loans. We fund our business with market borrowings of various maturities, including bonds and term loans. Because our sources enable us to raise funds at competitive costs, we are able to price our financial products competitively.

We commenced operations in 1969 for the purpose of developing the power infrastructure in rural areas. We have contributed to the development of rural India and India’s agriculture through our funding of transmission and distribution projects in rural areas. Our mandate has evolved in accordance with the development priorities of the Government and, since Fiscal 2003, has permitted us to finance all segments of the power sector, including generation, transmission and distribution, throughout the country. Our mandate was further extended to include financing other activities linked to power projects, such as coal and other mining activities, fuel supply arrangements for the power sector and other power-related infrastructure. In June 2011, we set up a separate division for funding renewable projects in order to further achieve the goal of conserving fossil fuels and reducing our carbon foot print.

Our Company is one of only 14 Indian public sector undertakings to have been granted the “Navratna” status by the Department of Public Enterprise by virtue of our operational efficiency and financial strength. The Government had rated our performance as “Excellent” from Fiscal 1994 to Fiscal 2017,

“Very Good” in Fiscal 2018 and “Excellent” in Fiscal 2019. We have also been ranked among the top 10 public sector undertakings in India by the Ministry of Heavy Industries and Public Enterprises for Fiscal 2015, Fiscal 2016, Fiscal 2017 and Fiscal 2018. Further, as per the Public Enterprises Survey for Fiscal 2019, based on profitability our Company was ranked 11th out of 178 profit-making central public sector enterprises in India.

Our Company continues to play a strategic role in the Government’s initiatives and plays a pre-eminent role in the power sector, in terms of financing state utilities and being an agency to implement key power sector initiatives of the central government. While our Company is no longer directly owned by the Government, the Government continues to exercise control over it through PFC. Our Company remains strategically important to the power sector and its role in implementing key central government policy initiatives in the power sector remains unchanged. Our Company continues to be the nodal agency for various flagship schemes of the Government, namely Deen Dayal Upadhyaya Gram Jyoti Yojana (**DDUGJY**) (formerly known as Rajiv Gandhi Grameen Vidyutikaran Yojana (**RGVY**)), Saubhagya, the National Electricity Fund Programme, the implementation of the Outage Management System and 11kv Rural Feeder Management System and through our subsidiary, REC Power Distribution Company Limited the bid process coordinator for a selection of developers for the inter-state transmission lines through tariff based competitive bidding.

Domestically, we hold the highest credit rating of “AAA” for long-term borrowing domestic credit rating from CARE, CRISIL, ICRA and IRRPL and, on an international basis, our long-term borrowing ratings from Fitch and Moody’s are BBB- and Baa3, respectively, which are at par with the sovereign ratings.

We have a branch network of 20 regional offices, one state office and one sub-office spread across India. We also have one training center named “REC Institute of Power Management & Training” (**RECIPMT**) located in Hyderabad. Our Company’s registered office in New Delhi manages matters relating to planning and policy formulation, resource mobilization and financial operations. Our Company’s project, field or regional offices conduct functions relating to preliminary processing of new schemes, monitoring of on-going schemes, scrutiny of loan claims, recovery of dues and maintenance of liaison with the SEBs and state governments for effective implementation of rural electrification programmes and projects funded by our Company.

RECENT DEVELOPMENTS

Memorandum of understanding dated March 9, 2021 entered into with Kholongchhu Hydro Energy Limited

Our Company and Power Finance Corporation Limited entered into a memorandum of understanding dated March 9, 2021 with Kholongchhu Hydro Energy Limited (**KHEL**) for the financing of 600 MW hydro electric project at Trashy Yangtse in Bhutan. KHEL is a joint venture between SJVN Limited (India) and Druk Green Power Corporation Limited (Bhutan) for the development of the 600 MW Kholongchhu Hydro Electric Project in Eastern Bhutan.

The project is being executed as per an inter-governmental agreement signed between the Government of India and the Royal Government of Bhutan in April 2014 to undertake implementation of four hydroelectric projects in Bhutan through a joint venture model to be formed by public sector units of the two governments. KHEL is the first joint venture company being undertaken between the two governments for implementation of 4x150 MW Kholongchhu Hydro Electric Project. The project is proposed to be funded in debt-equity ratio of 70:30 and as per the MoU, REC would be extending a rupee term loan of Rs. 20,290.0 million. The balance debt will be extended by PFC (Rs. 20,290.0 million), National Pension and Provident Fund, Bhutan (Rs. 2,000 million) and the Bank of Bhutan (Rs. 2,000 million).

Corporate actions in respect of certain indirect wholly owned Subsidiaries

Our Board of Directors, at its meeting held on March 25, 2020, approved the incorporation of seven project specific special purpose vehicles (SPVs) as wholly owned subsidiaries of REC Transmission Projects Company Limited, one of our wholly owned subsidiaries. These subsidiaries are proposed to be incorporated for the development of the following transmission projects allocated by the Ministry of Power, Government of India to us:

- Transmission system for evacuation of power from renewable energy projects in Osmanabad area (1 GW) in Maharashtra;
- Transmission system for evacuation of power from renewable energy projects in Rajgarh SEZ (2,500 MW) in Madhya Pradesh;
- Transmission scheme for a solar energy zone in Gadag (2,500 MW) in Karnataka – Part A;
- Transmission scheme for a solar energy zone in Bidar (2,500 MW) in Karnataka;
- Transmission system strengthening scheme for evacuation of power from solar energy zones in Rajasthan (8.1 GW) under Phase II-Part A;
- Transmission system strengthening for evacuation of power from solar energy zones in Rajasthan (8.1 GW) under Phase II-Part B; and
- Transmission system strengthening scheme for evacuation of power from solar energy zones in Rajasthan (8.1 GW) under Phase-II-Part C.

These SPVs have been incorporated as per the details below:

No.	Name of SPV	Name of Transmission Line	Date of Incorporation
1.	Kallam Transmission Limited	Transmission system for evacuation of power from renewable energy projects in Osmanabad area (1 GW) in Maharashtra	May 28, 2020
2.	Gadag Transmission Limited	Transmission scheme for a solar energy zone in Gadag (2,500 MW) in Karnataka	June 2, 2020
3.	Bidar Transmission Limited	Transmission scheme for a solar energy zone in Bidar (2,500 MW) in Karnataka	June 8, 2020
4.	Rajgarh Transmission Limited	Transmission system for evacuation of power from renewable energy projects in Rajgarh SEZ (2,500 MW) in Madhya Pradesh	June 6, 2020
5.	Ramgarh New Transmission Limited	Transmission system strengthening scheme for the evacuation of power from certain solar energy zones in	June 26, 2020

No.	Name of SPV	Name of Transmission Line	Date of Incorporation
		Rajasthan (8.1 GW) under Phase II-Part A	
6.	Fatehgarh Bhadla Transco Limited	Transmission system strengthening for the evacuation of power from certain solar energy zones in Rajasthan (8.1 GW) under Phase II-Part B	June 2, 2020
7.	Sikar New Transmission Limited	Transmission system strengthening scheme for the evacuation of power from certain solar energy zones in Rajasthan (8.1 GW) under Phase-II-Part C	June 11, 2020

Our Board of Directors, in their meeting held on June 17, 2020, approved the proposal in respect of the incorporation of a special purpose vehicle for development of following transmission systems:

- Development of intra-state transmission work in Madhya Pradesh through tariff-based competitive bidding: Package-I and development of intra-state transmission work in Madhya Pradesh through tariff based competitive bidding: Package-II.

Accordingly, the following two projects companies have been incorporated:

Name of SPV	Date of Incorporation
MP Power Transmission Package-I Limited	August 4, 2020
MP Power Transmission Package-II Limited	August 20, 2020

Further, our Board of Directors, in their meeting held on February 4, 2021, approved the proposal for sale and transfer of 50,000 equity shares of Fatehgarh Bhadla Transco Limited, Sikar New Transmission Limited and Ramgarh New Transmission Limited to Power Grid Corporation of India Limited, subject to obtaining necessary approval from the Ministry of Power, Government of India. Subsequently upon receipt of the approval of Ministry of Power on September 18, 2021, Fatehgarh Bhadla Transco Limited, Sikar New Transmission Limited and Ramgarh New Transmission Limited was transferred along with all assets and liabilities to Power Grid Corporation of India Limited.

Additionally, the application for strike off in respect of Dinchang Transmission Limited, a company incorporated on December 2, 2015, was filed with Registrar of Companies on August 10, 2020 as the project was de-notified pursuant to the gazette notification dated February 1, 2019 and the approval of the Ministry of Power, Government of India in its order dated March 31, 2020. The status of the company is currently under the process of striking off.

The Ministry of Corporate Affairs, Government of India, pursuant to its order dated February 5, 2021, approved the amalgamation scheme of REC Transmission Projects Company Limited with REC Power Distribution Company Limited with the appointed date of April 1, 2020. The amalgamation came into effect on February 6, 2021.

Integration within the power sector and the PFC Acquisition

At the beginning of Fiscal 2019, the President of India held 58.32 per cent. shareholding in our Company comprising 1,151,678,783 equity shares of face value of Rs. 10 each. During Fiscal 2019, the President of India, acting through the MoP of the Government, divested 6,473,244 equity shares (0.33 per cent. of the total paid up capital of the Company) in June 2018 through an off-market sale of equity shares under the Bharat 22 Exchange Traded Fund. The aforesaid was followed by divestments: of 101,470,139 equity shares (5.14 per cent. of the total paid up capital of the Company) in December 2018 under the 3rd “Further Fund Offer” of CPSE ETF Mutual Fund Scheme; and of 4,336,057 equity shares (0.22 per cent. of the total paid up capital of the Company) in February 2019 to ICICI Prudential Asset Management Company Limited (which is the Asset Management Company of the Bharat 22 ETF Scheme). As a result, the President of India’s shareholding in our Company was reduced to 52.63 per cent. as of February 21, 2019.

Further, in accordance with the “in-principle” approval dated December 6, 2018 of the Cabinet Committee on Economic Affairs approving the acquisition by PFC of equity shares held by the Government in our Company, and, subsequently, in terms of the share purchase agreement dated March 20, 2019 entered into between the President of India, acting through the MoP of the Government, and PFC, the President of India divested its entire shareholding of 52.63 per cent. in our Company comprising of 1,039,399,343 equity shares of face value of Rs. 10 each to PFC on March 28, 2019, in consideration of Rs. 145,000 million (the **PFC Acquisition**).

In accordance with the filing made by PFC on March 28, 2019, with the BSE and NSE IFSC under Regulation 10(6) of the SEBI Listing Regulations, PFC has acquired the entire 52.63 per cent. shareholding previously held by the Government in our Company. As such, PFC is a promoter of our Company and is treated as part of the “Promoter Group”. Nonetheless, our Company still remains a Government Company in terms of Section 2(45) of the Companies Act, 2013. Subsequent to the PFC Acquisition, our Company’s credit ratings for long-term domestic borrowings and short-term borrowings from CRISIL (a subsidiary of S&P), ICRA (an affiliate of Moody’s), IRRPL (a Fitch Group Company) and CARE, along with the long-term foreign currency issuer rating assigned to our Company by Fitch Ratings Inc. (**Fitch**) and Moody’s, are as follows:

Rating Agency	Long-Term Rating	Short-Term Rating	Outlook
CRISIL	CRISIL AAA	CRISIL A1+	Stable
ICRA	ICRA AAA	ICRA A1+	Stable
IRRPL	IND AAA	IND A1+	Stable
CARE	CARE AAA	CARE A1+	Stable

Rating Agency	Long-Term Rating		Outlook
Fitch	BBB-	-	Negative
Moody’s	Baa3	-	Negative

Change of name of the Company

Our Company is currently involved in financing relating to all segments of the Indian power sector (including generation, transmission, distribution, renewable energy and others) and in order to reflect this, and to also remove the misconception that rural electrification is the primary business of the Company, the Board in its meeting held on May 28, 2018, proposed changing the name of the Company

from “Rural Electrification Corporation Limited” to “REC Limited”, subject to the approval of shareholders and other approvals as may be required.

Subsequently, the shareholders of the Company, in the 49th Annual General Meeting held on September 25, 2018, approved the proposal. Final approval was obtained from the RBI and MCA on October 4, 2018 and October 13, 2018, respectively. As such, the change of name was effected on October 13, 2018.

Business growth

We have experienced growing demand for our financial products, and therefore have demonstrated consistent growth in our business.

- Our Company’s yearly loan disbursements have grown from Rs. 617,124.7 million in Fiscal 2018 to Rs. 756,669.5 million in Fiscal 2020.
- For Fiscal 2020, our Company sanctioned Rs. 1,109,079.9 million of loans, including Rs. 558,118.9 million relating to generation projects, Rs. 70263.3 million relating to renewable energy projects, Rs. 416,047.7 million relating to transmission and distribution projects and Rs. 64,650.0 million under short-term, medium-term and other loans.
- For Fiscal 2020, our Company disbursed Rs. 756,669.5 million of loans, including Rs. 274,908.7 million relating to generation projects, Rs. 56,990.9 million relating to renewable energy projects, Rs. 380,869.9 million relating to transmission and distribution projects and Rs. 63,900.0 million under short-term, medium-term and other loans.
- Our Company’s loan assets have grown from Rs. 2,288,782.5 million in Fiscal 2018 to Rs. 3,120,835.0 million in Fiscal 2020, based on our consolidated financial statements.
- Our Company’s profit after tax, based on our consolidated financial statements, for Fiscals 2018, 2019 and 2020 was Rs. 44,505.2 million, Rs. 57,413.8 million and Rs. 49,722.7 million, respectively. Our Company’s profit after tax, based on our non-consolidated financial statements for the nine months ended December 31, 2020 was Rs. 62,921.5 million.
- As of December 31, 2020, our Company had total loan assets of Rs. 3,456,247.1 million and a net worth of Rs. 417,488.8 million, based on our non-consolidated financial statements.

KEY FINANCIAL PARAMETERS AND RATIOS

Some of our key financial parameters and ratios for the periods indicated are as follows:

Parameters	Figures on a consolidated basis			Figures on a non-consolidated basis	
	Fiscal 2018	Fiscal 2019	Fiscal 2020	Nine Months Ended	December 31, 2020
	(in Rs. million, except in percentages and ratios)				
Net worth	325,876.1	345,463.4	353,964.3	417,488.8

- Our Company raised U.S.\$500 million in February 2021 through the issuance of Regulation S bonds with a tenor of five years, which are listed on ISM, SGX-ST, India INX and NSE IFSC.

OUR STRENGTHS

We believe that the following are our primary strengths:

Our financial position is strong and our business is profitable.

We have operated our financing business profitably for 19 consecutive years, including a profit after tax on a consolidated basis of Rs. 44,505.2 million, Rs. 57,413.8 million and Rs. 49,722.7 million for Fiscal 2018, 2019 and 2020 respectively. For the nine months ended December 31, 2020, our profit after tax on a non-consolidated basis was Rs. 62,921.5 million. We have paid dividends each year since Fiscal 1998. As of December 31, 2020, our Company had a net worth of Rs. 4,17,488.8 million based on our non-consolidated financial statements. Our Company's annualized return on average net worth for December 31, 2020, was 21.8 per cent. based on our non-consolidated financial statements.

Our projects portfolio for loans sanctioned is also diversified by sector and customer base. For the nine months ended December 31, 2020, 29.0 per cent. of our non-consolidated loan sanctions are related to generation projects, 12.0 per cent. related to renewable energy projects, 59.0 per cent. related to transmission and distribution projects and 0 per cent. related to sanctions relating to STLs. As of December 31, 2020, credit impaired assets (non-performing loan assets) constituted 5.10 per cent. of our non-consolidated gross loan assets. As of December 31, 2020, our exposure in the form of non-consolidated outstanding loan assets to our top ten borrowers was 40.4 per cent. of our total non-consolidated outstanding loan assets, and the largest borrower holding is 7.2 per cent. of our total non-consolidated outstanding loans.

We fund our business with market borrowings of various maturities, including bonds and term loans. Our relationship with the Government currently provides us with access to lower cost funding and has additionally enabled us to source foreign currency loans from bi-lateral and multi-lateral agencies, such as the JICA and KfW. Domestically, we hold the highest credit rating for long-term borrowing domestic credit rating from CARE, CRISIL, ICRA and IRRPL and, on an international basis, our long-term borrowing ratings from Fitch and Moody's, are BBB- and Baa3, respectively, which are at par with the sovereign ratings. Our Company's cost of long-term funds mobilized during the nine months ended December 31, 2020 based on our non-consolidated financial statements was 6.7 per cent. per annum. As our sources enable us to raise funds at competitive costs, we believe we are able to price our financial products competitively. Our net interest margins have remained stable with our net interest margin during the nine months ended December 31, 2020, based on our non-consolidated financial statements, being 3.9 per cent.

We are uniquely positioned to access and appraise borrowers in the Indian power sector.

We have been involved in the Indian power sector since 1969 and were the first financial institution to exclusively focus on financing the Indian power sector. Since our inception in 1969, we have developed extensive power sector knowledge, relationships with power sector borrowers and the ability to appraise and extend financial assistance to a wide variety of projects.

Our knowledge of the Indian power sector drives our client relationships and the marketing of our financial products. Our clients seek our involvement in their power projects to obtain the benefit of the technical knowledge we can provide for the design and implementation of their power projects. Our

experience and knowledge of nearly 50 years enables us to provide solutions to various problems faced by power sector borrowers by providing technical guidance from project design through completion. To help ensure that our loan products remain an integral part of our clients' financing plans, we also assist our clients in developing detailed five-year plans addressing their anticipated technical and financial needs. We service our clients through a network of 20 regional offices, one sub-office and one state office spread across India. Our regional offices play a critical role in the development of our relationship with our clients, operation and promotion of our business and our loan appraisal, loan sanctioning and post-sanction monitoring processes. Our proximity to our clients enables us to service our clients on a local level, to keep abreast of local issues and to monitor closely the projects we finance.

We occupy a key strategic position in the Government's plans for growth of the power sector.

We are one of a limited number of government-owned companies that focus exclusively on financing the development of the power sector in India. We have consistently benefited from the Government's power infrastructure plans since 1969 and the Government has ensured that our mandate has evolved in accordance with its development priorities. We believe that we will continue to occupy a key strategic position in the Government's on-going plans to develop the Indian power sector.

Historically, we were primarily focused on the electrification of rural India, consistent with the GoI's objective to electrify all rural villages under a variety of schemes that were ultimately merged into RGGVY in Fiscal 2006. The RGGVY scheme has been subsumed into the DDUGJY scheme launched in December 2014. We continue to be the nodal agency for the DDUGJY scheme, and we continue to finance rural electrification and transmission and distribution projects. The Government has a number of stated priorities in the areas of rural electrification and transmission and distribution, including feeder separation and reduction of aggregate technical and commercial losses; and we believe we will be strategically central to these priorities.

Additionally, over the past decade, the Government has become increasingly focused on the power supply shortage in India and the need for increased investment in power generation. In Fiscal 2003, the Government enacted the Electricity Act, which, among other things, aims at creating a sufficient power supply in India to meet demand through private sector investment in the power generation sector. In that same year, the Government broadened our mandate to permit us to finance all segments of the power sector throughout India, which has enabled us to also occupy a key strategic position in the growth of the power generation sector.

Annually, we enter into a MoU with the Government that provides guidelines for our activities that are closely aligned with the Government's own five-year policy initiatives. Under our current MoU, we have extended our commitment to the Government for a number of important measures that we believe will facilitate the development of our business, reduce the risks we face and provide for our continued involvement in the Government's power sector development plans. The objectives of the current MoU include facilitating the Government's flagship rural electrification programme, including, among others, electrification of unelectrified villages, intensive electrification of villages, providing free electricity connections to BPL households, feeder segregation and commissioning of substations, aimed at providing universal electrification to boost productivity from rural areas, to ensure inclusive development along with social security and to enhance the efficiency of the power distribution system.

Because of our strategic importance to the Government, we receive direct and indirect benefits, including tax concessions for some of our bonds that enable us to maintain low cost of funds. We also benefit from direct tax benefits as provided by the Government.

We have an experienced management team with sector expertise.

We are managed by experienced and highly qualified professionals. Our key managerial personnel have an established track record in managing public financial institutions in India and bear a considerable

knowledge of the power sector in India. For example, most of our key managerial personnel have over 30 years of relevant experience in India and have been employed with prominent companies in the power sector. For further details in relation to our Company's management, see the section titled "Management" in this Offering Circular.

OUR STRATEGY

The key elements of our business strategy are as follows:

Continue to fund the increased investment in the Indian power sector.

India has long suffered from a shortage of power supply, as well as low per capita power consumption, which will be exacerbated by, and ultimately constrain, the growth of the Indian economy unless met by substantially increased investment. Consequently, the Government has prioritized investment into the power sector in a number of ways, including through the implementation of the Electricity Act in June 2003, in order to address systemic deficiencies in the Indian power sector and attract capital for large-scale power projects; the notification of the National Electricity Policy in February 2005, in order to accelerate the development of the power sector, the implementation of RGGVY from April 2005; the launch of the DDUGJY scheme (subsuming the on-going RGGVY scheme) in order to increase the pace of rural electrification and to provide access to electricity to all rural households; the launch of the Integrated Power Development Scheme (IPDS) for urban areas primarily aimed at strengthening the sub-transmission and distribution network; and the metering of feeders, distribution transformers, and/or consumers and IT in order to provide sustained loss reduction to India's transmission and distribution infrastructure. The earlier on-going scheme of R-APDRP has been subsumed into the IPDS. Both the schemes, i.e. DDUGJY and IPDS were launched in December 2014. In 2017, the Government launched a Rs. 163,500 million household electrification scheme, Pradhan Mantri Sahaj Bijli Har Ghar Yojana (translated as the Prime Minister's programme to provide easy electricity access to all households), or "Saubhagya" with the objective of providing energy access to all by last mile connectivity and electricity connections to all remaining unelectrified households in rural as well as urban areas estimated to be around 39.6 million households. The continued prioritization of the power sector will need to be met by increased funding to the sector. As a consequence of the Government's focus on increased funding for the power sector, our Company's loan disbursements have increased from Rs. 721,654.3 million in Fiscal 2019 to Rs. 756,669.5 million in Fiscal 2020. We intend to continue to provide the funding necessary for the Government to meet its policy goals for the power sector and believe that our business will continue to be a prime beneficiary from the increased growth of, and investment into, the Indian power sector.

Maintain the diversity of our asset portfolio and seek higher yielding loan assets.

Our mandate permits us to finance all types of power projects, including transmission, distribution and generation and renewable energy projects throughout the country, irrespective of size or location. As of December 31, 2020, our non-consolidated loan assets comprised 54.0 per cent. transmission and distribution-related loans. We have utilized our broad mandate to capture the higher rates of return available in the generation sector and diversify our loan asset portfolio. As of December 31, 2020, 41.0 per cent. of our non-consolidated loan asset portfolio was comprising generation-related loans (in addition to 5.0 per cent. of our non-consolidated loan asset portfolio towards renewable energy generation projects). Going forward, we believe that the breadth of our mandate will continue to afford us flexibility to manage our business and our asset portfolio in a manner that enables us to diversify the risk associated with any one area of the power sector, as well as to focus on higher yielding loan assets in response to market conditions.

Increase our fee-based income

We intend to continue to seek high margin income streams that do not require balance sheet fund commitment. For example, in order to capitalize commercially on our specialized knowledge, we have incorporated REC Power Distribution Company Limited, which merged with REC Transmission Projects Company Limited in Fiscal 2021, for the purpose of providing consultancy services with respect to transmission and distribution systems, respectively.

THE PROJECTS WE FUND

The table below shows our non-consolidated loan sanctions by type of project and the percentage such amount represented of our total non-consolidated loan sanctions for all projects for the periods indicated.

Sector	Fiscal 2018		Fiscal 2019		Fiscal 2020		Nine Months Ended December 31, 2020	
	Amount	%	Amount	%	Amount	%	Amount	%
<i>(in Rs. million, except in percentages)</i>								
Transmission and distribution ⁽¹⁾	405,412.7	37.70	566,102.9	48.82	416,047.7	37.51	816,310.0	59.36

Notes:

- (1) Transmission and distribution consists of transmission and distribution, international cooperation and development, TFL, DDG and DDUGJY/RGGVY.

Transmission and Distribution Projects

Within the transmission sector, the principal projects we finance are for the evacuation of power from new power generation stations and the augmentation or strengthening of existing transmission systems, including the construction of new sub-stations and associated lines. In distribution, the principal projects we finance include infrastructure required for system improvement and the creation of new distribution systems, including sub-stations and lines in order to reduce aggregate technical and commercial losses (**AT&C losses**), to cater for increased load growth and for the purchase of distribution equipment.

Transmission projects: Transmission projects relate to the transmission of electricity at higher voltages (132 kV and above) over relatively long distances, generally from generation facilities to sub-stations or between sub-stations. We finance projects related to transmission systems, sub-transmission systems, power evacuation lines and transmission links.

Distribution projects: Distribution projects relate to the distribution of electricity at relatively lower voltages (66 kV and below) over shorter distances, generally from sub-stations to end-users or between sub-stations. The distribution projects involve creating additional infrastructure through the erection of new sub-stations and lines and the improvement of existing distribution systems by upgrading existing sub-stations and lines to increase capacity and reduce losses. Distribution projects also include the modernization of distribution systems to reduce losses and to improve performance efficiency of power utilities. In distribution, the principal projects for which we provide funding are system improvement projects, which include:

- (a) projects to strengthen existing infrastructure through new sub-stations and lines and the replacement of damaged and outdated equipment;
- (b) conversion of low voltage distribution systems to high voltage distribution systems (**HVDS**) in order to reduce AT&C losses; and

- (c) creation of new distribution systems to provide power to end-users and to introduce new technologies; setting up bulk loan schemes for the procurement and installation of equipment such as meters, transformers and capacitors.

We also provide counterpart funding for R-APDRP projects under this category, and finance distribution infrastructure required for extending the facility to all class of consumers such as agricultural, domestic, commercial and industrial customers.

Generation Projects

Our Company finances generation, renovation and modernization projects, including additional loan assistance which include consortium financing with other financial institutions.

Thermal power generation projects

We currently finance thermal energy power generation projects in the public sector, joint sector and private sector. Thermal energy power generation projects include coal-based power plants, gas-based combined cycle power plants and captive co-generation power plants.

Hydro power generation projects

We provide financing to hydro energy power generation in the public sector, joint sector and private sector. Hydro energy power generation projects include projects of varying sizes, from large hydro to small hydro and mini hydro power plants.

Renewable power generation projects

We also provide financing for grid-connected power projects based on renewable sources such as solar, wind, biomass, bagasse and small hydro-power projects.

Renovation, modernization and life-extension

We provide financing for the renovation, modernization and life-extension of old power generation and transmission assets. Such renovation and modernization allow these assets to operate more efficiently, safely, economically and in a more environment-friendly manner.

AWARDS AND ACCREDITATIONS

Calendar Year	Awards/Accreditations
1990	Awarded the Indira Gandhi Memorial Award for Excellence in Public Sector Undertakings for the year 1989 to 1990.
1994	Received rating of “Excellent” from the Government, for the first time, for fulfilling the targets pursuant to the MoU entered into the MoP for the year 1993 to 1994 ⁽¹⁾ .
2000	Declared to be among the top ten public sector enterprises by the Government ⁽²⁾ .
2008	Accorded “Navratna” status by the Department of Public Enterprise, Government for our operational efficiency and financial strength,

2019	<ul style="list-style-type: none"> • Received India Smart Grid Forum (ISGF) Innovation Awards 2019 for Best Project for Household Electrification. • Won SCOPE CC Excellence Awards 2019, under the following three categories: <ul style="list-style-type: none"> • 1st prize in Best House Journal English (for WattsUp) • 2nd prize in Best Internal Communication Campaign (for REC Engage) • 3rd prize in effective use of digital media (for Saubhagaya scheme) • Received the “Highest Wealth Creator – Market Returns Navratna” Roll of Honour from Dalal Street Investment Journal. • Received “PSE Excellence Award, 2018” by the Indian Chamber of Commerce (ICC), as runner up in the Navratna and Maharatna category, for excellence in corporate governance. • Received the ICAI Award for Excellence in Financial Reporting for Fiscal 2019 in the “Public Sector Entities” category. • Received runner-up award from the South Asian Federation of Accountants for Best Presented Accounts in Public Sector for the Fiscal 2019.

Notes:

- (1) In recognition of our performance and our consistent achievement of targets negotiated under the MoU entered into with the Government on an annual basis, we have received the rating of “Excellent” by the Government in relation to our performance for fulfilling the targets pursuant to the MoU, from Fiscal 1994 to 2017 and 2019 (and were rated “Very Good” in Fiscal 2018).
- (2) We have also been ranked among the top ten public sector undertakings for Fiscals 2015, 2016, 2017 and 2018 by the Ministry of Heavy Industries and Public Enterprises, the Government.

OUR PRODUCTS

Our principal products are long-term loans and STLs. Additionally, we may offer debt-refinancing and bridge loans from time to time. All of our financial products are denominated in Rupees.

The table below sets forth the total non-consolidated loan amounts outstanding for each of our financial products and the percentage of such amount against our total non-consolidated loan amounts outstanding for all financial products as of the respective dates indicated.

Sector	Fiscal 2018		Fiscal 2019		Fiscal 2020		Nine Months Ended December 31, 2020	
	Amount	%	Amount	%	Amount	%	Amount	%
<i>(in Rs. million, except in percentages)</i>								
Long-term loans	2,338,013.4	97.64	2,790,216.8	99.22	3,215,267.6	99.72	3,567,864.6	99.92
Short-term loans	56,480.0	2.36	21,880	0.78	8,979.2	0.28	2,806.0	0.08
Total	2,394,493.4	100.00	2,812,096.8	100.00	3,224,246.8	100.00	3,570,670.6	100.00

Notes:

(1) Includes debt refinancing and bridge loans.

Long-term Loans

We offer our long-term loans to central-sector power utilities, state-sector power utilities, joint-sector power utilities, state power departments, private sector power utilities and rural electricity cooperatives. Our long-term loans are generally sanctioned with respect to a specific power-related project at project inception or as bulk loans for procurement of equipment. Our long-term loans to the public sector for transmission and distribution projects typically require the borrower to obtain a state government guarantee of the loan and/or hypothecate a portion of its existing assets or hypothecate all its project assets to secure the loan. The percentage of guarantee and hypothecation of assets differs on a case-to-case basis.

Short-term Loans

We offer short-term loans to our state sector borrowers and private sector borrowers to meet their immediate working capital requirements, including for the purchase of fuel for power plants, system and network maintenance, including transformer repairs, the purchase of power, the purchase of materials and minor equipment.

Other

Debt Refinancing: We may offer a debt refinancing scheme for borrowers who have borrowed funds from other lending institutions at a higher rate of interest. The refinancing facility is available generally for commissioned projects. We offer our debt refinancing products on the same interest rate terms as our long-term loans; however, the maturity of our debt refinancing products is generally not later than the maturity of the refinanced indebtedness.

Bridge Loans: We may provide short-term bridge loan financing for borrowers that have been sanctioned financial assistance from or through us, primarily in the form of grants or long-term loans, and have received a sanction letter for the funding but are awaiting disbursements pending formalities or clearances.

Short-term Loans to Equipment Manufacturers: We may offer STLs to manufacturers of equipment or materials. To be eligible to receive these loans, the equipment manufacturers must have been awarded a firm order for executing contracts in power projects in India by power utilities. We do not currently have any such loans outstanding.

Medium-term Loans: We offer MTLs to the Central/State Government Power Utilities and State Governments that are not in default with respect to our Company, for the following purposes:

- purchase of fuel for power plant;
- system and network maintenance, including transformer repairs;
- purchase of power; and
- any other requirements due to, *inter alia*, inadequate tariff revisions, repayment of loan obligations and delay in receipt of support from the Government.

MTLs are not provided to the following categories of customers:

- customers who are in default with respect to our Company; and
- utilities categorized as Grade “C”.

These loans have a loan period of more than one year and up to a maximum of three years.

Loans for Power Purchase through Indian Energy Exchange: In December 2009, our Board approved a new scheme pursuant to which we intend to finance power purchases made through the India Energy Exchange, which is one of two energy exchanges operating in India. It is currently intended that these power purchase loans may be offered to our existing public sector borrowers for the purpose of non-speculative purchases of power through the exchange with a maturity of 90 days from disbursement. Power purchase loans will be secured by escrow arrangements or bank guarantees at the discretion of the borrower.

Our Lending Policies

Our Company has well-developed policies and/or guidelines in order to streamline the funding process. Regular review based on prevailing market practices, formulation of new policies and guidelines are also being carried out from time to time to strengthen the funding process. Some of the major lending guidelines and/or policies formulated by our Company are:

- (a) entity appraisal guidelines;
- (b) conventional generation project appraisal guidelines;
- (c) renewable energy project appraisal guidelines;
- (d) guidelines for transmission and distribution schemes;
- (e) guidelines for renewable energy projects;
- (f) guidelines for generation, renovation and modernization projects;
- (g) guidelines for system improvement (SI);
- (h) policy for STL;
- (i) policy for MTL;
- (j) project monitoring guidelines for generation and SI projects;

- (k) guidelines for financing coal mining projects;
- (l) guidelines on the framework for projects under implementation and monitoring of stressed assets based on RBI notifications;
- (m) guidelines on project financing framework for flexible structuring based on the RBI notifications;
- (n) guidelines on refinancing of project loans based on the RBI notifications;
- (o) policy for funding against regulatory assets (excluding return on equity component) of power utilities;
- (p) policy for post commercial operation date timely payment interest rate rebate;
- (q) policy for Investment of surplus funds; and
- (r) policy for long-term investments.

Project Financing Process

While specific terms and conditions may vary for different types of loans provided to different sectors of borrowers, project financing will generally follow the following processes:

Loan Application: The prospective borrower provides a set of information and the funding requirements in the pre-specified formats. There are different kinds of formats for different kind of projects or loans.

The appraisal guidelines for all the projects have been divided into two parts – entity appraisal and project appraisal.

Entity Appraisal: Our Company has its own guidelines for the appraisal of private sector conventional and renewable power generation projects. The appraisal is carried out for the core promoters on the basis of the financial performance, creditworthiness, management proficiency and sectoral experience of the promoter entities. The interest rates charged, and security structure required, by our Company are linked to the grades assigned to the private sector projects.

Project Appraisal: Project appraisal consists of technical and financial appraisal of the projects indicating technical feasibility and financial viability and debt servicing capability of the project, along with the project execution abilities of the management. During the project appraisal process, our Company identifies the risks and quantifies them in order to decide the grading of projects so as to determine the exposure, as well as the lending rates. The key instruments used at this stage are:

- (a) due diligence on various project parameters such as the technology used, the status of various approvals and clearances, the fuel supply arrangement, the water supply arrangement, the power supply arrangements, transportation arrangement and the power evacuation system;
- (b) the project grading matrix;
- (c) the financial model; and
- (d) the site visit report.

Loan Sanction: Once the decision on funding is approved by the competent authority, the quantum of funding, the stipulation of pre-commitment conditions, pre-disbursement and post-disbursement

conditions are determined and communicated to the borrower through the issue of a sanction letter. Along with the terms and conditions, our Company prepares a list of key parameters that could trigger re-appraisal and re-grading of the account. This list is being developed based on the results of the sensitivity analysis.

Loan Documentation: After the sanction of a loan, the process of loan documentation and execution of different agreements such as, among others, the trust and retention agreement, the security trustee agreement and other financing and security documents are done.

Funding: After the documentation and funding requirement are received from the borrowers at different stages of the project and after reviewing the pre-disbursement conditions, the funds are disbursed to the borrower for the development and/or construction of power projects.

Monitoring and Review: Since the conditions prevailing at the time of the appraisal cannot be expected to remain the same throughout the life of the project, there is a need for the periodic review of the status and progress. The key parameters for monitoring are developments with respect to licenses, the commercial performance of the borrower, key contracts and events having an impact on the project, deviations with respect to compliance to terms and conditions and collateral securities and variance with respect to key risk parameters.

Re-grading of the Project: Re-grading of the project can be initiated, if there is significant variance on key parameters relating to:

- (a) the pre-commissioning stage such as a status change in statutory licenses, major developments in acquisition of land, developments of key contracts, changes to project implementation schedule and time and cost overrun in the project; and
- (b) the operation and maintenance stage such as the commissioning of units, actual operating parameters and developments with respect to financial parameters.

Re-appraisal of the Project: Re-appraisal of the project may be initiated either by our Company or at the request of the borrower. The details are as follows:

- (a) re-appraisal may be initiated by our Company when there are developments with respect to time durations between loan sanction and disbursement, significant changes to project costs, major events such as natural disasters and policy-related changes, changes to collateral securities and changes in the project stage; and
- (b) in the instance when the borrower requests additional funding or the lowering of the interest rates. Depending upon the changes in the integrated rating of the borrower, after the re-appraisal, the terms and conditions may be revised, further disbursements may be stopped, the loan may be rescheduled and the loan may be restructured.

Grading of State Power Utilities

Our Company has well defined policies and guidelines for the grading of SPUs (the **SPU Grading Guidelines**). The guidelines for grading of SPUs (generation/transmission and trading utilities) are reviewed periodically in view of significant changes in the power sector. During 2018, the SPU Grading Guidelines were reviewed and modified incorporating suitable parameters in line with the changing scenario.

For the purposes of funding, the Company has classified state power generation and transmission utilities into A++, A+, B and C categories. The categorization (biannually) of state power generation and transmission utilities is based on the evaluation of the utility's performance against specific

parameters covering operational and financial performance including, among others, the regulatory environment and audited financial statements and others. With regard to state power distribution utilities (including SEBs/utilities with integrated operations), the Company adopts the MoP's integrated ratings by aligning such ratings or grading with the Company's standard categories of A+, A, B and C. The categorization enables our Company to determine credit exposure limits and interest rates to SPUs.

Recovery

Our Company's status as a public finance institution provides access to the SARFAESI Act, 2002 which grants certain special rights to banks and financial institutions to enforce their security interests without the intervention of the courts. Further, the Recovery of Debts Due to Banks and Financial Institutions Act, 1993, (the **Debt Recovery Act**) provides for the establishment of debt recovery tribunals for the expeditious adjudication and recovery of debts due to any bank or public financial institution or to a consortium of banks and public financial institutions. Under the Debt Recovery Act, the procedures for recoveries of debt have been simplified and time frames have been fixed for speedy disposal of cases. Upon the establishment of the debts recovery tribunal, no court or other authority can exercise jurisdiction in relation to matters covered by the Debt Recovery Act, except for the higher courts in India in certain circumstances.

THE SECTORS OF OUR BORROWERS

We sanction and disburse loans to central and state public sector, joint sector and private sector borrowers, as well as to rural electricity cooperatives.

The table below sets forth our non-consolidated loan disbursements by the borrower's sector and the percentage of such amount against our total non-consolidated loan disbursements for all sectors for the periods indicated.

Sector	Fiscal 2018		Fiscal 2019		Fiscal 2020		Nine Months Ended December 31, 2020	
	Amount	%	Amount	%	Amount	%	Amount	%
<i>(in Rs. million, except in percentages)</i>								
Public sector	588,013.7	95.28	704,827.5	97.67	693,421.7	91.64	594,951.4	94.75
Private sector	29,111.0	4.72	16,826.8	2.33	63,247.8	8.36	32,996.2	5.25
Total	617,124.7	100.00	721,654.3	100.00	756,669.5	100.00	627,947.6	100.00

The table below sets forth our non-consolidated loan amount outstanding by the borrower's sector and the percentage of such amount against our total non-consolidated loan amounts outstanding for all sectors as of the respective dates indicated.

Sector	Fiscal 2018		Fiscal 2019		Fiscal 2020		Nine Months Ended December 31, 2020	
	Amount	%	Amount	%	Amount	%	Amount	%
<i>(in Rs. million, except in percentages)</i>								
Public sector	2,062,453.4	86.13	2,477,191.4	88.09	2,846,440.5	88.28	3,191,380.2	89.3
Private sector	332,040.0	13.87	334,905.4	11.91	377,806.3	11.72	379,290.4	10.62
Total	2,394,493.4	100.00	2,812,096.8	100.00	3,224,246.8	100.00	3,570,670.6	100.00

GEOGRAPHICAL CLASSIFICATION OF OUR TOP TEN BORROWERS

The table below sets forth the geographical classification of the top ten borrowers based on the non-consolidated total amounts outstanding as of December 31, 2020:

S. No.	Name of Borrower	Amount Outstanding (in Rs. million)	% Exposure of total loan amounts outstanding
1.	Tamil Nadu Generation and Distribution Corporation	258,453.2	7.24
2.	Maharashtra State Electricity Distribution Company Limited	227,394.7	6.37
3.	Telangana State Power Generation Corporation	142,381.0	3.99
4.	Maharashtra State Power Generation Company Limited	140,974.5	3.95
5.	Rajasthan Rajya Vidyut Utpadan Nigam Limited	139,797.4	3.92
6.	Uttar Pradesh Power Corporation Limited	121,079.6	3.39
7.	Tamil Nadu Transmission Corporation (TANTRANSCO)	117,728.4	3.30
8.	Andhra Pradesh Power Generation Corporation (APGENCO)	105,717.2	2.96
9.	Telangana State Water Resources Infrastructure Development Corporation Ltd. (TSWRIDC)	101,835.7	2.85
10.	Uttar Pradesh Rajya Vidyut Utpadan Nigam Limited	88,699.6	2.48

OUR PARTICIPATION IN GOVERNMENT PROGRAMMES

The Government has initiated a number of programmes aimed at accelerating the growth and development of the power sector. We play a key role in implementing the following programmes.

SAUBHAGYA – PRADHAN MANTRI SAHAJ BIJLI HAR GHAR YOJANA

The Prime Minister launched the Saubhagya scheme on September 25, 2017 to achieve universal household electrification in India through electrification of all households in both rural and urban areas. Our Company has been designated by the MoP as the nodal agency for operationalization of the Saubhagya scheme. The capital outlay of Saubhagya scheme is Rs. 163,200 million including a gross budgetary support of Rs. 123,200 million.

The Scheme has inherent features of “Sahaj”, i.e. Simple/Easy/Effortless and “Har Ghar”, i.e. universal coverage. The other key elements of the scheme are as follows:

- No upfront fee for availing electricity connection: The prospective beneficiary households for free electricity connections under the scheme would be identified using Socio Economic Caste Census (SECC) 2011 data. However, un-electrified households not eligible as per SECC data would also be provided electricity connections under the scheme, for which Rs. 500 shall be recovered by DISCOMs in 10 instalments of Rs. 50 each along with electricity bills.
- Organization of camps in villages/cluster of villages for “on the spot” registration and release of connections.
- Use of mobile applications for identification.
- SPV-based standalone systems for households located in remote and inaccessible areas.
- Web-based near real time monitoring and updating of progress.
- Communication plan for creating awareness about the scheme and its benefits to the targeted population to motivate them to avail electricity connections.
- Flexibility to states in the mode of implementation (departmental/turnkey/semi-turnkey).
- All DISCOMs, including private sector DISCOMs, state power departments and cooperative societies are eligible for financial assistance.

Pursuant to the directions of the MoP and the MoF, our Company has issued non-convertible debentures in the nature of “GOI Fully Serviced Bonds”, through private placement. The servicing of interest and

repayment of principal shall be met by the GOI through making suitable budgetary provisions. The funds raised through the GOI Fully Serviced Bonds have been utilized exclusively for the purpose of DDUGJY and SAUBHGYA Scheme. Funds raised in Fiscal 2019 and Fiscal 2020 in this respect are Rs. 138,270 million and Rs. 37,823.0 million, respectively.

Electrification of Un-electrified Villages

India's rural electrification programme passed through several stages of improvement with appropriate intervention at Government level. In spite of various programmes implemented by the Government, as at April 1, 2015, there were 18,452 villages that remained un-electrified.

In the Independence Day address to India on August 15, 2015, the Honourable Prime Minister pledged that all remaining un-electrified villages in India would be electrified within 1,000 days with the help of states and local bodies. Accordingly, the MoP had expedited the electrification of all 18,452 villages as a priority. As these remaining 18,452 un-electrified villages were located in inaccessible areas involving tough terrain (including thickly forested and mountainous regions), inclement weather, areas facing right of way issues, areas plagued by insurgency, left-wing extremism, etc, the following measures and intensive monitoring mechanism strategies have been adopted:

- Categorization of the entire process of village electrification into 12 milestones.
- Deployment of engineers (**Gram Vidyut Abhiyanta**) at block/district levels for providing assistance at field level.
- Development of a dedicated web-portal (**GARV App** (www.garv.gov.in)), well acknowledged for its transparent and accountable mechanism, for monitoring, through an online system, the progress of electrification of all 18,452 un-electrified villages along with the various milestones of the village electrification progress.
- Adoption of a cluster-based implementation approach.
- Priority being given for RE as a separate component.
- Flexibility in the mode of execution (i.e. turnkey/partial turnkey/departmental).
- In cases where grid connectivity is not feasible or not cost effective, extension of decentralized distribution/generation.
- Regular review meetings at the highest level of the Government.
- State specific review meetings at the Honourable Chief Ministers level.
- Ensuring adequate funds for village electrification.

During the course of the village electrification process, states reported an additional 1,227 villages as un-electrified. Accordingly, our Company made concerted efforts in the facilitation of their electrification and made available adequate funds in this respect. In order to approach remote villages in Jammu & Kashmir and Arunachal Pradesh, which were difficult to reach, materials were air lifted via helicopters belonging to the Indian Air Force. Further, the assistance of railways was also availed for transporting voluminous materials to some parts of Arunachal Pradesh. In remote areas where none of the options of sophisticated transportation were available, materials were transported through manual head loading.

Based on the above initiatives and collective efforts of various states and other stakeholders, on April 28, 2018, it was announced that electrification of all un-electrified census inhabited villages in India had been achieved, totaling to 18,374 villages excluding the 1,305 uninhabited villages.

Deendayal Upadhyaya Gram Jyoti Yojana (DDUGJY)

DDUGJY is the flagship scheme of the Government covering all aspects of rural power distribution. Under the scheme 60 per cent. of the project cost (85 per cent. for special states) is provided as a grant by Government and an additional grant of up to 15 per cent. (5 per cent. for special States) is provided by the Government on the achievement of prescribed milestones. All erstwhile RE schemes have been subsumed in DDUGJY. Our Company is the nodal agency for the operationalization of DDUGJY.

DDUGJY aims to facilitate the attainment of “24x7 Power for All” in the country through the following project components:

- (a) separation of agriculture and non-agriculture feeders facilitating continuous quality power supply to non-agricultural consumers and adequate power supply to agricultural consumers in the rural areas;
- (b) strengthening and augmentation of sub-transmission and distribution infrastructure in rural areas;
- (c) micro-grid and off-grid distribution network;
- (d) metering of distribution transformers/feeders/consumers; and
- (e) rural electrification works (including the erstwhile RE schemes).

Under the scheme, all villages/habitations are eligible without any population criteria.

In order to realize the objectives of the scheme, participation of all stakeholders, particularly, public representatives have already been institutionalized through the constitution of District Electricity Committees (**DISHA**) under the Chairmanship of the senior most member of Parliament. DISHA is empowered to monitor and review the implementation of DDUGJY.

Prime Minister Development Package for Jammu & Kashmir 2015 (PMDP)

The Prime Minister Development Package for Jammu and Kashmir 2015, was announced by the Honorable Prime Minister on November 7, 2015. The project cost of Rs. 25,701.40 million (including Government’s grant of 90 per cent. i.e. Rs. 23,016.20 million) was approved. The PMDP project includes distribution/system strengthening projects for rural areas and aims at connecting households by replacing barbed wires and worn-out poles, replacing UG cables at tourist locations, installing consumer metering, constructing 33/11 KV sub-stations in industrial areas and electrical infrastructure at shrines. The cost of the distribution strengthening project in rural areas amounted to Rs. 11,577.50 million, for which funds were released to our Company by the Government.

National Electricity Fund (NEF)

The interest subsidy scheme became operational during Fiscal 2013. The scheme was introduced by the Government to promote capital investment in the distribution sector. The scheme aims to provide interest subsidies linked with reform measures on loans taken by private and public power distribution utilities for approved power distribution infrastructure projects.

The NEF would provide interest subsidies aggregating to Rs. 84,660 million (spread over a maximum loan tenor of 14 years against the loan amount of Rs. 250,000 million) for distribution projects approved during 2012-13 and 2013-14. The pre-conditions for eligibility are linked to certain reform measures to be achieved by DISCOMs. Interest subsidies to the tune of 3 to 7 per cent., are linked to the achievement of mainly two efficiency benchmarks, i.e. reduction of AT&C losses and reduction in the revenue gap (ACS and ARR).

Our Company is the nodal agency for the scheme with a mandate to operationalize the scheme and pass on the benefit of the interest subsidy to eligible distribution utilities. Our Company receives service charges at the rate of 0.5 per cent. of the total loan amount approved by the NEF Steering Committee.

The interest subsidy shall be released on the basis of continual improvement in performance of DISCOMs (mainly reduction of AT&C losses and reduction in Revenue Gap between ACS and ARR) to be evaluated on an annual basis during the loan tenor. An independent evaluator has been appointed for the evaluation of the interest subsidy proposal. It is expected that the NEF scheme will supplement the efforts of the Government and result in improvement in the distribution sector in India. The NEF scheme has given an opportunity to the Company to enhance its business prospects in the power distribution sector.

As of March 31, 2020, interest subsidies amounting to Rs. 2,497.0 million has been released under the scheme to eligible DISCOMs based on the performance criteria evaluated by the independent evaluator and the Company. DISCOMs have started getting the interest subsidy amounts under the scheme and the benefits shall ultimately be passed on to the consumers of the respective DISCOMs.

INTERNATIONAL COOPERATION AND DEVELOPMENT

In Fiscal 2005, we set up our International Cooperation and Development division to coordinate with bilateral and multilateral agencies for project-based funds and to forge partnerships with international agencies.

Our Company tied up five lines of credit under Official Development Assistance (**ODA**) from bilateral agencies, comprising two lines of credit from the Japan International Cooperation Agency and three lines of credit from KfW, the development arm of the government of Germany.

JICA. In Fiscal 2006, we entered our first loan agreement with JICA which provides for financial assistance of JPY20,629 million, which was restated to JPY 16,949.38 million with effect from August 29, 2012, to be utilized for the implementation of the Rural Electricity Distribution Backbone Project, which provides loan assistance for the improvement of sub-transmission systems, reduction of transmission and distribution losses and the expansion of access to electricity for unelectrified households for different economic activities through the construction of sub-stations and associated distribution lines in the states of Andhra Pradesh, Maharashtra and Madhya Pradesh.

In Fiscal 2008, we entered into a second loan agreement with JICA for financial assistance of JPY20,902 million, which was restated to JPY13,000 million with effect from February 18, 2012, and was further restated to JPY 11,809 million with effect from March 31, 2016, to be utilized for the implementation of the Haryana Transmission System Project. A second amendment letter dated August 1, 2016 was entered into for amending the amortization schedule of the loan agreement.

KfW. Our International Cooperation and Development division has also arranged three lines of credit from KfW under the Indo-German Bilateral Cooperation for our Energy Efficiency Programme.

In Fiscal 2007, we entered into our first loan agreement with KfW which provides for financial assistance of EUR70 million to be utilized for the implementation of HVDS projects. The objective of these projects is to reduce line losses, improve voltage drops and provide reliable power supply in

selected districts of Andhra Pradesh. Pursuant to this loan agreement, we also entered into an agreement with KfW for a grant contribution of EUR500,000 which is to be used exclusively for strengthening our position and the position of the power distribution companies to whom we grant a loan pursuant to our first loan agreement with KfW.

In Fiscal 2009, we entered into our second loan agreement with KfW which provides for financial assistance of EUR70 million to be utilized for implementation of HVDS projects in selected districts of Haryana. Simultaneously, we entered into a second financing agreement with KfW for a maximum amount of EUR500,000 which is to be used exclusively for strengthening our position and the position of the power distribution companies to whom we grant a loan pursuant to our second loan agreement with KfW.

In Fiscal 2012, we entered into our third loan agreement with KfW which provides for financial assistance of EUR100 million to be utilized for renewable energy projects under “Clean Energy for Rural Development”.

In Fiscal 2019, we entered into our fourth loan agreement with KfW which provides for financial assistance of U.S.\$228 million to be utilized for renewable energy projects.

As of December 31, 2020, our Company had JPY 1,091.17 million outstanding under the JICA facilities and EUR36.84 million and U.S.\$168.85 million under the KfW facilities. Further, our Company repaid JPY336.86 million in March 2021 as per the repayment schedule.

OUR SPECIALIZED KNOWLEDGE

We have developed special technical expertise in distribution systems which we utilize to ensure the continual enhancement of the knowledge of our borrowers, including SPUs. In order to capitalize commercially on our specialized knowledge, we have incorporated REC Transmission Projects Company Limited and REC Power Distribution Company Limited.

REC INSTITUTE OF POWER MANAGEMENT AND TRAINING

The REC-Institute of Power Management and Training (**REC-IPMT**), earlier known as the Central Institute for Rural Electrification, was established at Hyderabad in 1979 under the guidance of the Company to cater to the training and development needs of engineers and managers of power sector organizations. REC-IPMAT has conducted various programmes on the subjects of power generation, transmission, distribution and renewable energy sources and other related issues/topics.

OUR OFFICES

We service our clients through a network of 20 regional offices, one sub-office and one state office spread across India. Our regional offices play an integral role in the development of our relationships with our clients, the operation and promotion of our business and in our loan appraisal, loan sanction and post-sanction monitoring processes. Our regional offices are located in the cities of Mumbai, Bengaluru, Hyderabad, Guwahati, Patna, Vijaywada, Panchkula, Shimla, Jammu, Thiruvananthapuram, Shillong, Bhubaneswar, Jaipur, Chennai, Dehradun, Lucknow, Kolkata, Bhopal, Imphal, Itanagar, Raipur and Ranchi. Our sub-office and state office are located at Varanasi and Vadodara, respectively. Our proximity to our clients enables us to service our clients on a local level, keep abreast of local issues and to closely monitor the projects we finance.

Our regional offices are staffed with personnel trained to appraise and monitor projects and are headed by a chief project manager, who provides information about terms and conditions of financial products, rates of interest and other market conditions. The regional offices coordinate our programmes with our borrowers on a local level and facilitate the formulation and implementation of schemes and the granting

of loan sanctions and loan disbursements for transmission and distribution projects, generation projects and projects under the DDUGJY and SAUBHAGYA scheme.

In respect of requests for loans or sanctions, our regional offices receive detailed project reports formulated by our borrowers. The regional office generally performs the initial evaluation of the project and provides its recommendations to our corporate offices. In the event a loan is sanctioned, it is conveyed through our regional office along with the terms and conditions of the loan. The regional office is responsible for the execution of the legal documents for the loan, as well as the implementation of the security mechanism provided for by the terms and conditions stipulated in the sanction letter. Following disbursement of the loan, the regional office, together with our corporate office, is responsible for monitoring the scheme.

RESOURCE MOBILIZATION

We generally fund our assets, primarily comprising loans to the power sector, with borrowings of various maturities in the domestic and international markets. Our market borrowings include bonds, STLs, MTLs, long-term loans and external commercial borrowings. As of December 31, 2020, we had total non-consolidated outstanding market borrowings of Rs. 3,071,972.4 million.

The following table sets forth our consolidated indebtedness classified by Rupee-denominated and foreign currency-denominated sources and the percentages such resources constitute of our total consolidated indebtedness as of the periods indicated. The Rupee equivalents of foreign currency-denominated debts (other than those that are already fully hedged) are translated with reference to rates of exchange prevailing as at the end of all the periods indicated.

Resource Denomination	As of March 31,					
	2018		2019		2020	
	Amount	%	Amount	%	Amount	%
	<i>(in Rs. million, except in percentages)</i>					
Rupee	1,689,144.5	85.00	2,044,583.9	85.47	2,287,641.60	81.67
Foreign currency	298,065.9	15.00	347,575.1	14.53	513,516.9	18.33
Total	1,987,210.4	100.00	2,392,159.0	100.00	2,801,158.5	100.00

The table below sets forth our non-consolidated indebtedness classified by Rupee-denominated and foreign currency-denominated sources and the percentages such resources constituted of our total non-consolidated indebtedness as of the respective periods indicated.

Sector	As of March 31, 2020		As of December 31, 2020	
	Amount	%	Amount	%
	<i>(in Rs. million, except in percentages)</i>			
Rupee	2,287,641.6	81.67	2,564,879.6	83.49
Foreign currency	513,516.9	18.33	507,092.8	16.51
Total	2,801,158.5	100.00	3,071,972.4	100.00

For additional information on our financial indebtedness, see the section titled “*Assets and Liabilities*” in this Offering Circular.

INVESTMENT OPERATIONS

The primary objective of our investment policy is the prudent management of surplus funds so as to achieve optimal returns. We aim to use our treasury operations to manage our liquidity. Our investments of short-term surplus are primarily in bank deposits and debt-based schemes of public mutual funds for a period of one year beginning July 9, 2009 or the date of any modification of the guidelines issued by

the Government for investment of surplus funds in debt-based schemes of public mutual funds, whichever is earlier.

COMPETITION

Our primary competitors are public sector banks, private banks (including foreign banks), multi-lateral development institutions and other financial institutions. For further details, see the section titled “*Industry Overview*” in this Offering Circular.

REGULATIONS AND POLICIES

We are a public limited company under the Companies Act and are recognized as a public financial institution under Section 2 (72) of the Companies Act. We are also registered with the RBI as an NBFC. We are a government company within the meaning of Section 2(45) of the Companies Act and are exempted from applicability of provisions of the RBI Act, 1934 relating to the maintenance of liquid assets and creation of reserve funds and directions relating to the acceptance of public deposits. We are exempted from the RBI prudential norms. For further details, see the section titled “*Regulations and Policies*” in this Offering Circular.

EMPLOYEES

Our executives have experience and domain knowledge in different fields of the power sector, including project appraisal, project financing, international finance and domestic resource mobilization. As of December 31, 2020, we had 435 employees, of which 372 were executives and 63 were non-executive employees. As a matter of practice, we recruit professionally qualified persons through open advertisements. Additionally, we also take officials from the Government, state governments and public sector undertakings on deputation at various levels for their expertise.

Our non-executive employees are all affiliated with the REC Employees union, which is duly registered under the Trade Unions Act, 1926 as a trade union. We believe that we have a good relationship with this union and have not lost any time on account of strikes or labor unrest.

We continued to be on good terms with our employees in Fiscal 2020. There was no loss of man-days on account of industrial unrest. Regular interactions were held with the REC Employees union and the REC Officers Association on issues of employee welfare. This has helped to build an atmosphere of trust and cooperation between our Company and our employees, resulting in a motivated workforce and continued improvement in business performance.

Training and Development

As a measure of capacity building, including the upgrading of employees’ skill sets and to ensure a high delivery of performance, training and human resource development continues to receive priority during Fiscal 2020. The training and human resource policy of our Company aims at sharpening the business skills and competence required for better employee performance and provides all possible opportunities and support to the employees to improve their performance and productivity. Training was also provided to promote better understanding of professional requirements, as well as to sensitize employees to the socio-economic environment in which the business of our Company is carried out.

SUBSIDIARIES AND JOINT VENTURES

REC Power Distribution Company Limited (RECPDCL)

RECPDCL, a 100 per cent. owned subsidiary of our Company, was incorporated on July 12, 2007 as a public limited company with its CIN as U40101DL2007GoI165779 and its registered office situated at

Core-4, SCOPE Complex, 7, Lodhi Road, New Delhi 110 003, India. It received its certificate of commencement of business on July 31, 2007. RECPDCL is presently engaged, among others, in the business to promote, develop, construct, own, operate, distribute and maintain up to 66 kV voltage electrification, distribution, electric supply lines and distribution systems.

The board of directors of RECPDCL currently comprises:

- Shri Sanjay Malhotra;
- Shri Ajoy Choudhury;
- Shri Vijay Kumar Singh; and
- Shri Sanjay Kumar.

As of December 31, 2020, RECPDCL had the following project specific SPVs as wholly-owned subsidiaries of RECPDCL and our Company:

(1) ***Koderma Transmission Limited***

Koderma Transmission Limited was incorporated on March 19, 2018 as a SPV and is a wholly owned subsidiary of REC Transmission Projects Company Limited. Koderma Transmission Limited will undertake activities for the development of various elements of transmission system strengthening in Jharkhand. In this context, a two-stage bidding process featuring separate RFQ and RFP steps has been adopted in accordance with the tariff based competitive bidding guidelines of the MoP for the selection of a developer as a transmission service provider. The RFQ for the project was issued on February 10, 2018. Eight bidders participated at the RFQ stage and all eight have qualified to participate in the RFP. The RFP for the project was issued on June 15, 2018 and the bidding process is expected to conclude during Fiscal 2021.

The Board of directors of Koderma Transmission Limited currently comprises:

- Shri Saurabh Rastogi;
- Shri Sanjay Shilendrakumar Kulshrestha; and
- Shri Mohan Lal Kumawat.

(2) ***Dumka Transmission Limited***

Dumka Transmission Limited was incorporated on March 23, 2018 as a SPV and is a wholly owned subsidiary of REC Transmission Projects Company Limited. Dumka Transmission Limited will undertake activities for the development of various elements of transmission system strengthening in Jharkhand. In this context, a two-stage bidding process featuring separate RFQ and RFP stages has been adopted in accordance with the tariff based competitive bidding guidelines of the MoP for the selection of a developer as a transmission service provider. The revised RFQ for the project was issued on June 9, 2018 and the bidding process is expected to conclude in Fiscal 2021.

The Board of Dumka Transmission Limited currently comprises:

- Shri Saurabh Rastogi;

- Shri Sanjay Shilendrakumar Kulshrestha; and
- Shri Mohan Lal Kumawat.

(3) ***Mandar Transmission Limited***

Mandar Transmission Limited was incorporated on March 26, 2018 as a SPV and is a wholly owned subsidiary of REC Transmission Projects Company Limited. Mandar Transmission Limited will undertake activities for the development of various elements of transmission system strengthening in Jharkhand. In this context, a two-stage bidding process featuring separate RFQ and RFP stages has been adopted in accordance with the tariff based competitive bidding guidelines of the MoP for the selection of a developer as a transmission service provider. The RFQ for the project was issued on February 10, 2018. Eight bidders participated at the RFQ stage and all eight have qualified to participate in the RFP. The RFP for the project was issued on June 15, 2018 and the bidding process is expected to conclude in Fiscal 2021.

The Board of Mandar Transmission Limited currently comprises:

- Shri Saurabh Rastogi;
- Shri Sanjay Shilendrakumar Kulshrestha; and
- Shri Mohan Lal Kumawat.

(4) ***Chandil Transmission Limited***

Chandil Transmission Limited was incorporated on March 14, 2018 as a SPV and is a wholly owned subsidiary of REC Transmission Projects Company Limited. Chandil Transmission Limited will undertake activities for development of various elements of transmission system strengthening in Jharkhand. In this context, a two-stage bidding process featuring separate RFQ and RFP stages has been adopted in accordance with tariff based competitive bidding guidelines of the MoP for the selection of a developer as transmission service provider. The Board of Chandil Transmission Limited currently comprises:

- Shri Saurabh Rastogi;
- Shri Sanjay Shilendrakumar Kulshrestha; and
- Shri Mohan Lal Kumawat.

(5) ***Kallam Transmission Limited***

Kallam Transmission Limited was incorporated on May 28, 2020 as a SPV and is a wholly owned subsidiary of REC Transmission Projects Company Limited. Kallam Transmission Limited will undertake activities for the transmission system for evacuation of power from renewable energy projects in Osmanabad area (1 GW) in Maharashtra.

The Board of Kallam Transmission Limited currently comprises:

- Shri P. Baburaj;

- Shri Kuldeep Rai; and
- Shri Jatin Kumar Nayak.

(6) ***Gadag Transmission Limited***

Gadag Transmission Limited was incorporated on June 2, 2020 as a SPV and is a wholly owned subsidiary of REC Transmission Projects Company Limited. Gadag Transmission Limited is a transmission scheme for a solar energy zone in Gadag (2,500 MW) in Karnataka.

The Board of Gadag Transmission Limited currently comprises:

- Shri P. Baburaj;
- Shri Kuldeep Rai; and
- Shri Jatin Kumar Nayak.

(7) ***Bidar Transmission Limited***

Bidar Transmission Limited was incorporated on June 8, 2020 as a SPV and is a wholly owned subsidiary of REC Transmission Projects Company Limited. Bidar Transmission Limited is a transmission scheme for a solar energy zone in Bidar (2,500 MW) in Karnataka.

The Board of Bidar Transmission Limited currently comprises:

- Shri P. Baburaj;
- Shri Kuldeep Rai; and
- Shri Jatin Kumar Nayak.

(8) ***Rajgarh Transmission Limited***

Rajgarh Transmission Limited was incorporated on June 6, 2020 as a SPV and is a wholly owned subsidiary of REC Transmission Projects Company Limited. Kallam Transmission Limited will undertake activities for the transmission system strengthening scheme for the evacuation of power from certain solar energy zones in Rajasthan (8.1 GW) under Phase II-Part A.

The Board of Rajgarh Transmission Limited currently comprises:

- Shri P. Baburaj;
- Shri Kuldeep Rai; and
- Shri Jatin Kumar Nayak.

(9) ***Fatehgarh Badla Transco Limited***

Fatehgarh Badla Transco Limited was incorporated on June 2, 2020 as a SPV and is a wholly owned subsidiary of REC Transmission Projects Company Limited. Fatehgarh Badla Transco Limited will undertake activities for the transmission system strengthening for the evacuation of power from certain solar energy zones in Rajasthan (8.1 GW) under Phase II-Part B.

The Board of Fatehgarh Badla Transco Limited currently comprises:

- Shri Sanjay Kulshrestha;
- Shri Rajesh Kumar; and
- Shri Mohan Lal Kumawat.

(10) ***Sikar New Transmission Limited***

Sikar New Transmission Limited was incorporated on June 11, 2020 as a SPV and is a wholly owned subsidiary of REC Transmission Projects Company Limited. Sikar New Transmission Limited will undertake activities for the transmission system strengthening for the evacuation of power from certain solar energy zones in Rajasthan (8.1 GW) under Phase-II-Part C.

The Board of Sikar New Transmission Limited currently comprises:

- Shri Sanjay Kulshrestha;
- Shri Rajesh Kumar; and
- Shri Mohan Lal Kumawat.

(11) ***MP Power Transmission Package-I Limited***

MP Power Transmission Package-I Limited was incorporated on August 4, 2020 as a SPV and is a wholly-owned subsidiary of REC Transmission Projects Company Limited. MP Power Transmission Package-I Limited will undertake activities for the development of intra-state transmission work in Madhya Pradesh through tariff based competitive bidding.

The Board of MP Power Transmission Package-I Limited currently comprises:

- Jatin Kumar Nayak;
- P. Baburaj; and
- Kuldeep Rai.

(12) ***MP Power Transmission Package-II Limited***

MP Power Transmission Package-II Limited was incorporated on August 4, 2020 as a SPV and is a wholly-owned subsidiary of REC Transmission Projects Company Limited. MP Power Transmission Package-II Limited will undertake activities for the development of intra-state transmission work in Madhya Pradesh through tariff based competitive bidding.

The Board of MP Power Transmission Package-II Limited currently comprises:

- Jatin Kumar Nayak;
- P. Baburaj; and
- Kuldeep Rai.

Details of Joint Ventures

Energy Efficiency Services Limited (EESL)

On December 10, 2009, our Company partnered with three other PSUs, PGCIL, NTPC and PFC, to form a joint venture company named Energy Efficiency Services Limited (**EESL**). As of December 31, 2020, the equity investment of our Company in EESL was 218,100,000 equity shares of Rs. 10.00 each. As of the same date, our Company holds 22.18 per cent. of the paid-up equity share capital of EESL.

EESL was formed to create and sustain market access of energy efficient technologies particularly in public facilities like municipalities, buildings, agriculture, industry, and to implement several schemes of the Bureau of Energy Efficiency, MoP, MNRE and the Government. EESL is also leading the market-related activities of the National Mission for Enhanced Energy Efficiency (**NMEEE**), one of the eight national missions under the National Action Plan on Climate Change. EESL's energy efficient appliances and technologies have saved India an estimated 450 billion kWh annually and avoided peak demand of over 10,000 MW and over 39 million tons of CO₂ annually.

ENTITIES IN WHICH WE HAVE AN EQUITY INVESTMENT

Indian Energy Exchange Limited (IEX)

Pursuant to the approval of our Board in 2007, our Company acquired 5 per cent. (1,250,000 equity shares of face value of Rs. 10 each) of the then equity share capital of IEX.

IEX was incorporated on March 26, 2007 and received its certificate of commencement of business on April 17, 2007. IEX offers national level electronic platform to facilitate trading in electricity, subject to supervision of the CERC. Entities listed to undertake trading in electricity, distribution licensees and grid connected entities use the platform offered by IEX to purchase and sell electricity. Currently, IEX operates the Day-Ahead Market and the Term-Ahead Market in electricity, as well as the Renewable Energy Certificate Market. The IEX provides a transparent, demutualized and automated platform enabling efficient price discovery and price risk management for participants. The equity shares of IEX are listed on the BSE and the NSE. As of December 31, 2020, the equity investment of our Company in IEX was 2,745,807 equity shares of Rs. 1.00 each and the Company holds 0.92 per cent. in the equity share capital of IEX.

Universal Commodity Exchange Limited (UCX)

Pursuant to a Board resolution dated December 16, 2011, our Company approved the acquisition of 16 per cent. of the initial capital of Rs. 1,000 million of UCX by paying a consideration of Rs. 160 million. Significant details of UCX are provided as follows:

UCX was incorporated on February 25, 2008. Its registered office is situated at Exchange House, Building No. 8 (105), Sector II, Millennium Business Park, Mahape, Navi Mumbai, Maharashtra 400 710. UCX is engaged in the business of commodity exchange.

The equity shares of UCX are not listed on any stock exchange. As of December 31, 2020, our Company holds a 16 per cent. shareholding in UCX.

“Small is Beautiful” Fund (SIB)

SIB is an Indian venture capital fund organized and settled as a contributory trust and registered with the SEBI as a venture capital fund. KSK Trust Private Limited is the trustee for SIB. SIB is engaged in the business of making investments in power generation and other allied projects in Indian power sector. Our Company invested Rs. 225.0 million in SIB in Fiscal 2004 along with other banks and financial

institutions. Our Company's contribution amounted to 9.74 per cent. of the fund corpus. As of December 31, 2020, our Company holds 6.15 million units of Rs. 10 each with an outstanding principal amount of Rs. 61.5 million.

NHPC Limited (NHPC)

In April 2016, our Company invested in 260,542,050 equity shares of NHPC at Rs. 21.78 per share amounting to Rs. 5,675.0 million.

NHPC, a Government enterprise, was incorporated in 1975 to plan, promote and organize an integrated and efficient development of hydroelectric power. Subsequently, NHPC expanded its business purpose to include development of power in through conventional and non-conventional sources in India and abroad. At present, NHPC is a Miniratna Category I enterprise of the Government with an authorized share capital of Rs. 150,000 million and issued share capital of Rs. 100,450.3 million. NHPC has been assigned a credit rating of AAA/ stable by CRISIL.

As of December 31, 2020, our Company holds 175,302,206 equity shares of NHPC or 1.75 per cent. of the total equity share capital of NHPC.

Housing & Urban Development Corporation Limited (HUDCO)

In May 2017, our Company invested in 347,429 equity shares of HUDCO at Rs. 60 per share amounting to Rs. 20.8 million.

HUDCO was incorporated on April 25, 1970 and is a 100 per cent. Government-owned entity. HUDCO was recognized as a public financial institution under Section 4A of the Companies Act, 1956 on December 9, 1996 by the Department of Company Affairs, Ministry of Finance. HUDCO has been assigned a credit rating of AAA for long-term debt by CARE, IRRPL and ICRA. As of December 31, 2020, our Company holds 347,429 equity shares of HUDCO.

RattanIndia Power Limited (RIPL)

Pursuant to a one-time settlement against an outstanding loan of RattanIndia Power Limited, our Company has been allotted the following instruments of RIPL for a value of Rs. 857.3 million which includes:

- 92,568,105 equity shares at the price of Rs. 1.48 per share amounting to Rs. 137 million with a lock-in period of two years;
- 28,720,978 redeemable preference shares of Rs. 10 each amounting to Rs. 287.2 million with a lock-in period of two years (carrying coupon rate of 0.001 per cent.); and
- 43,303,616 optionally cumulative convertible redeemable preference shares of Rs. 10 each amounting to Rs. 433.0 million and a redemption premium with a lock-in period of seven years (carrying coupon rate of 0.001 per cent.).

The redeemable preference shares, optionally cumulative convertible redeemable preference shares and redemption premium are secured by assignment of ICD given by RIPL to Poena Power Projects Limited (PPDL) in favor of consortium lenders, pledge over RIPL's shareholding in PPDL and agreement to mortgage the land owned by PPDL measuring 815 acres, one Kanal, 12 Marla, in favor of lenders which shall eventually be converted into a legally enforceable mortgage over the above land, to the satisfaction of lenders within 18 months of the transfer date. The computation of redemption premium amount shall be on a pre-agreed method.

PROPERTIES

Registered and corporate office. Our registered and corporate office is presently located at Core-4, SCOPE Complex, 7, Lodhi Road, New Delhi – 110 003. The office space covering an area of approximately 5,911.69 square meters has been allotted to us by the Standing Conference of Public Enterprises. Kolkata	IB-186, Sector III, Salt Lake City, Kolkata – 700 106	761.21

Rented/short-term leased properties. We have certain rented or short-term leased properties that we utilize as offices in Dehradun, Guwahati, Jammu, Raipur, Ranchi, Shillong, Varanasi and Vijaywada.

Residential Accommodation. We also possess certain residential properties on leasehold/freehold basis at Bengaluru, Bhubaneswar, Mumbai, New Delhi, Shimla, Panchkula and Thiruvananthapuram.

Company Corporate HQ Building. The operations of our Company have shifted partially to the new office building on Plot No. I-4, City Centre, Sector 29 Gurugram on having a total area of 16,890 square meters.

Vacant land. We also own land in Gurugram and Wardha, brief details of which are as follows:

Location	Area (in square meters)
GH-0, Sector 57, Gurugram ⁽¹⁾	39,374.92
Land bearing Mojani No. 120, P.H. No. 2, Mouje Vela, Hinganghat, Wardha, Maharashtra	51,192.78

Note:

- (1) Land for residential township allotted by the Haryana Urban Development Authority. Vacant possession of this land was received in May 2014. Construction of the boundary wall to enclose the township plot is completed. NBCC (India) Limited appointed as the project management consultancy in March 2018.

LEGAL PROCEEDINGS

We are involved in certain legal and tax-related proceedings. These proceedings are pending at different levels of adjudication before various courts, tribunals and appellate authorities.

We are involved in 5 income tax proceedings which are pending before various authorities in India, including the Supreme Court of India, with respect to the disallowance of certain tax deductions. The total amount claimed by the income tax authorities amounts to approximately Rs. 175.6 million and the total amount paid by the Company against the demand raised by income tax authorities amounts to approximately Rs. 102.9 million as of February 28, 2021.

There are 55 civil cases wherein the Company is a party, pending before various courts in India, including the Supreme Court of India. Out of these cases, claims against the Company have been quantified only in five cases which aggregate to approximately Rs. 2,322 million and the claim by the Company has been quantified in one case which aggregate to approximately Rs. 6.4 million. Claim amounts for the remaining cases have not been quantified in the petition. The cases relate to (a) writ petitions in human resources matters regarding the termination of services of employees and disallowing the promotions, (b) settlement of claims relating to Company's capital gain tax exemption bonds following the demise of bondholders, (c) cases where our Company is only a pro forma respondent and (d) Income tax matters.

There are 13 cases filed by the Company pending before debt recovery tribunals (DRT), which are mostly claims made towards outstanding dues payable by our borrowers. The aggregate amount claimed by us in these 13 cases is approximately Rs. 103,882.36 million. Out of these 13 cases, recovery certificates have been issued by the DRT in four cases for the recovery of an amount of approximately Rs. 210 million along with interest and costs thereon, and recovery proceedings are on-going before recovery officer, DRT. The cases include: (a) REC vs. Classic Global Securities Limited and others (O.A no. 344 of 1999); (b) REC vs. Silicon Valley Infotech Limited and others, (O.A. No. 343 of 1999); (c) REC vs. Lynx India Limited and others (O.A. No. 44 of 2001) and (d) REC vs. ATN Arihant International Limited and others (O.A. No. 342 of 1999). In the other nine cases, proceedings are at different stages of trial before presiding officers of the various DRTs at Hyderabad, Chennai, Delhi and Kolkata. The aggregate amount claimed in these nine cases is approximately Rs. 103,873.9 million. The cases include (i) REC vs. Facor Power Ltd (OA.No.146 of 2017), (ii) REC through ARCIL, vs. Corporate Power Limited (OA.No.705 of 2016), (iii) REC Vs. Jas Infrastructure & Power Limited (OA.No.608 of 2016) (iv) REC and others Vs. Mukul Kasliwal and others (OA No. 648 of 2016), (v) REC v/s Essar Power MP Limited (OA No. 993/2018), (vi) Punjab National Bank and other v/s Lanco

Vidarbha Power Limited. (OA No.1048/2018), (vii) REC v/s Lanco Banbandh Power Ltd. (345/2019(OA)), (viii) PFC v Lanco Amarkantak (OA 653/2019) and (ix) IDBI Bank Limited and others v/s Konaseema Gas Power Limited (OA no. 339 of 2018).

There are 25 cases filed against the Company before different DRTs wherein the Company has been included as pro forma party and no effective claim has been made against the Company.

Apart from above there are 31 cases related to the Projects financed by the Company pending before various courts/Tribunal, majority of which pertain to recovery action/other measures against defaulting borrowers.

The largest borrower as of December 31, 2020 accounted for approximately 7.24 per cent. of our total non-consolidated outstanding loan assets. As of the same date, the ten largest individual borrowers in the aggregate accounted for approximately 40.45 per cent. of our total non-consolidated outstanding loan assets.

Classification of Assets and Provisioning

The MCA has notified the Companies (Indian Accounting Standards (**Ind-AS**) Rules 2015, which stipulates the adoption and applicability of Ind-AS in a phased manner beginning from the accounting period 2016-17). The MCA has subsequently issued various amendments in the years 2016, 2017, 2018 2019, and 2020 to amend the 2015 rules, the most recent being the Companies (Indian Accounting Standards) Rules, 2020 to further amend the Ind-AS Rules, 2015. The rules are applicable for annual

reporting periods beginning on or after April 1, 2020. All NBFCs whose net worth is more than or equal to Rs. 250 crore but less than Rs. 500 crore shall have Ind-AS mandatorily applicable to them with effect from April 1, 2019.

Further, Ind-AS is mandatorily applicable to NBFCs from April 1, 2019 whose net worth exceeds Rs. 5 billion. Our Company is an NBFC and as per current regulatory requirements, it was required to comply with Ind-AS for financial reporting with effect from April 1, 2019.

The RBI in its circular dated March 13, 2020 on “Implementation of Indian Accounting Standards” and updated on July 24, 2020 states that NBFCs covered by Rule 4 of the Companies (Indian Accounting Standards) Rules, 2015 are required to comply with Indian Accounting Standards for the preparation of their financial statements. In order to promote a high quality and consistent implementation as well as facilitate comparison and better supervision, the RBI has framed regulatory guidance on Ind AS which will be applicable on Ind AS implementing NBFCs for preparation of their financial statements from financial year 2019-20 onwards.

The responsibility of preparing and ensuring fair presentation of the financial statements of a NBFC vests primarily with its Board of Directors. These guidelines focus on the need to ensure consistency in the application of the accounting standards in specific areas, including asset classification and provisioning, and provide clarifications on regulatory capital in the light of Ind AS implementation.

Ind-AS-109 requires entities to recognize and measure a credit loss allowance or provision based on an expected credit loss methodology. The expected loss impairment model would apply to loans, debt securities and trade receivables measured at amortized cost or at fair value through other comprehensive income (FVOCI).

In relation to the classification of our loans and other assets and provisioning in respect of loans, see the sections entitled “Assets Classification” and “Provisioning against Loss”, respectively, under “Management’s Discussion and Analysis of Results of Operations” in this Offering Circular.

The following table sets forth our consolidated credit impaired assets as of the dates indicated:

	2018	As at March 31, 2019	2020
	NPA as a % of loan assets		
Gross credit impaired assets ratio	7.15	7.24	6.59
Net credit impaired assets ratio ⁽¹⁾	3.61	3.79	3.32

Note:

(1) Net credit impaired assets ratio is the percentage of net credit impaired assets to gross loan assets.

As of March 31, 2020, Rs. 212,555.5 million of our consolidated loan assets have been categorized as credit impaired assets. As of March 31, 2020, our consolidated gross credit impaired assets as a percentage of consolidated gross loan assets was 6.59 per cent. and our consolidated net credit impaired assets as a percentage of consolidated loan assets was 3.32 per cent. We define net credit impaired assets as gross credit impaired assets less its loan loss provisions. As of March 31, 2020, a provision of Rs. 105,521.3 million was created on gross credit impaired assets.

Provision in respect of loan assets is calculated on the basis of the ECL framework, which is the product of ‘probability of default’, ‘loss given default’ and ‘exposure at default’ with the period over which it is considered depending on the type of loan as given below:

- (a) Stage 1 - 12-month expected credit losses, for all loans at inception (other than those which are credit impaired);
- (b) Stage 2 - lifetime expected credit losses category, in case the credit risk on the loan has increased significantly since initial recognition; or
- (c) Stage 3 - lifetime expected credit losses category for loans which have objective evidence of impairment at the reporting date.

The following table sets forth the classification of our consolidated gross loan assets as of the dates indicated below:

	As at March 31, 2018		As at March 31, 2019		As at March 31, 2020	
	Amount	Percentage	Amount	Percentage	Amount	Percentage
	<i>(Rs. in millions, except percentages)</i>					
Stage 1 assets.....	2,070,678.8	86.47	2,564,486.2	91.19	2,987,378.6.3	92.66
Stage 2 assets	152,665.3	6.38	44,126.2	1.57	24,312.7	0.75
Stage 3 assets (credit-impaired/non-performing assets) ⁽¹⁾	171,284.2	7.15	203,484.4	7.24	212,555.5	6.59
Total loan assets	2,394,628.3	100.00	2,812,096.8	100.00	3,224,246.8	100.00

Note:

- (1) For the purposes of this table, our respective loans, categorized stage-wise, and total loan assets represent the amount of principal outstanding, excluding interest accrued and due on loan assets.

The following table sets forth our non-consolidated credit impaired assets as of the dates indicated:

	As at	
	March 31, 2020	December 31, 2020
	<i>NPA as a % of loan assets</i>	
Gross credit impaired assets ratio.....	6.59	5.10
Net credit impaired assets ratio ⁽¹⁾	3.32	1.95

Notes:

- (1) Net credit impaired assets ratio is the percentage of net credit impaired assets to gross loan assets.

As of December 31, 2020, Rs. 182,206.2 million of our non-consolidated loan assets have been categorized as credit impaired assets. As of December 31, 2020, our non-consolidated gross credit impaired assets as a percentage of non-consolidated gross loan assets was 5.10 per cent. and our non-consolidated net credit impaired assets as a percentage of non-consolidated loan assets was 1.95 per cent. We define net credit impaired assets as gross credit impaired assets less its loan loss provisions. As of December 31, 2020, a provision of Rs. 112,740.0 million was created on gross credit impaired assets.

The following table sets forth the classification of our non-consolidated gross loan assets as of the dates indicated below:

	As at March 31,	As at December 31,
--	-----------------	--------------------

	2020		2020	
	Amount	Percentage	Amount	Percentage
Stage 1 assets	2,987,378.6	92.66	3,336,399.4	93.44
Stage 2 assets	24,312.7	0.75	52,065.0	1.46
Stage 3 assets (credit-impaired/non-performing assets) ⁽¹⁾ ...	212,555.5	6.59	182,206.2	5.10
Total loan assets	3,224,246.8	100.0	3,570,670.6	100.0

Note:

- (1) For the purposes of this table, our respective loans, categorized stage-wise, and total loan assets represent the amount of principal outstanding, excluding interest accrued and due on loan assets.

NPA Management

We make provisions for credit impaired assets in accordance with Ind-AS. The provisions are made on the basis of the ECL framework, which considers the probability of default and the expected loss to the Company. The ECL framework considers historical data along with forward looking information. Such forward looking information is based on the relevant entity's own estimates relating to its customers including expected recovery patterns, probability of default, time of recovery, as well as macro-economic factors such as recession and unemployment.

We have a system of monitoring the progress of all projects and under which all information relating to a project is available. In the case of power generation projects, a lender engineer who periodically provides all information relating to the progress of the project is appointed. We also have a mechanism of creating escrow accounts with most of our borrowers in the state sector. See "*Risk Factors – Risks relating to our Business – The escrow account mechanism for the payment obligations of our state sector borrowers may not be effective, which may reduce our recourse in the event of defaulted loans and could have a material adverse effect on our business, financial condition and results of operations*".

Enforcement of Security Interests under the Securitization and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002 (SARFAESI Act)

On August 27, 1993, following the recommendations of the Narasimham Committee, the Recovery of Debts due to Banks and Financial institutions Act, 1993 (the **Debt Recovery Act**) was enacted. The Debt Recovery Act provides for the establishment of tribunals for speedy resolution of litigation and recovery of debts owed to banks or financial institutions. Under the Debt Recovery Act, tribunals are established before which banks or financial institutions can file a suit for recovery of the amounts due to them. However, if a scheme of reconstruction is pending before the Board for Industrial and Financial Reconstruction, under the Sick Industrial Companies (Special Provision) Act, 1985 (the **1985 Act**), no proceeding for recovery can be initiated or continued before the tribunals. This protection from creditor action ceases if the secured creditor takes action under SARFAESI Act. While presenting its budget for fiscal year 2002, the Government announced measures for the setting up of more debt recovery tribunals and the eventual repeal of the 1985 Act. However, the Government has implemented the Sick Industrial Companies (Special Provision) Repeal Act, 2003 with effect from December 1, 2016, which has repealed the 1985 Act.

In 2002, the Indian Parliament passed the SARFAESI Act. This Act provides that a secured creditor may, in respect of loans classified as non-performing in accordance with the RBI guidelines, give notice in writing to the borrower requiring it to discharge its liabilities within 60 days, failing which the secured creditor may take possession of the assets constituting the security for the loan, and exercise management rights in relation thereto, including the right to sell or otherwise dispose of the assets. The

SARFAESI Act also provides for the setting up of asset reconstruction companies regulated by the RBI to acquire assets from banks and financial institutions. The RBI has issued guidelines for asset reconstruction companies in respect of their establishment, registration with and licensing by the RBI and their operations. Asset Reconstruction Company (India) (**Arcil**) is sponsored by prominent banks and financial institutions such as Avenue India Resurgence Pte. Ltd., State Bank of India (**SBI**), IDBI Bank Limited (**IDBI**), ICICI Bank Limited (**ICICI**) and Punjab National Bank (**PNB**)., Arcil was incorporated as a public limited company in 2002 and in pursuance of Section 3 under the Securitization Act, 2002. 100 per cent. FDI is now permitted in the equity capital of asset reconstruction companies and investment by foreign portfolio investments registered with the SEBI is permitted in security receipts issued by asset reconstruction companies, subject to certain conditions and restrictions.

Several petitions challenging the constitutional validity of the SARFAESI Act were filed before the Supreme Court of India. The Supreme Court, in April 2004 in the case of *Mardia Chemicals Ltd. and Ors. v. Union of India* AIR 2004 SC 2371, upheld the constitutionality of the SARFAESI Act, other than the requirement originally included in the SARFAESI Act that a borrower deposits 75.00 per cent. of the dues with the DRT as a pre-condition for appeal by the borrower against the enforcement measures.

In November 2004, the Government issued an ordinance amending the SARFAESI Act. The Indian Parliament has subsequently passed this ordinance as an Act. The SARFAESI Act, as amended, now provides that a borrower may make an objection or representation to a secured creditor after a notice is issued by the secured creditor to the borrower under such Act demanding the payment of dues. The secured creditor has to give reasons to the borrower for not accepting the objection or representation. The SARFAESI Act, as amended, also introduces a deposit requirement of fifty per cent of the debt due for borrowers if they wish to appeal against the decision of the DRT. Further, it permits a secured creditor to take over the business of a borrower under certain circumstances (unlike the provisions before amendment under which only assets could be taken over).

The Enforcement of Security Interest and Recovery of Debt Laws and Miscellaneous Provisions (Amendment) Act, 2016 (the **Amendment Act**) was passed by the Indian parliament on August 9, 2016 and received the assent of the President of India on August 12, 2016. The Amendment Act shall come into force as and when notified by the central government. The Amendment Act amends four laws: (i) the Securitization and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002; (ii) the Recovery of Debts due to Banks and Financial Institutions Act, 1993; (iii) the Indian Stamp Act, 1899; and (iv) the Depositories Act, 1996. See the section titled “*Regulations and Policies*”.

As of December 31, 2020, our Company had issued notices under SARFAESI Act to certain borrowers. In respect of one of the borrowers under the NPA category, our Company took over the management control of the aforesaid borrower company on November 7, 2017 under Section 13(4)(b) of the SARFAESI Act after issuing the necessary notice and publication. The above actions of the Company were challenged by the promoter of the borrower company in the Honorable DRT. The directors of the borrower have been suspended and replaced with three officers of the Company - one of which is responsible for managing the day to day activities as chief executive officer of the borrower. The matter, which is being heard in the Honorable DRT, is currently sub-judice. As of the date of this Offering Circular, our Company does not expect the proceedings to have a material adverse effect on our business, financial condition and results of our operations.

Insolvency & Bankruptcy Code 2016

Set out below are the completed and ongoing proceedings under the Insolvency and Bankruptcy Code 2016 (**IBC**) against borrowers of the Company as at December 31, 2020:

S.No.	Project	Exposure (Rs. in millions)	Proceeding Status	Remarks
1	Lanco Teesta Hydro Power Limited	2,360.0	Completed	NHPC has been declared as successful bidder. The resolution amount was received from NCLT as a OTSS in October, 2019. The project was resolved under NCLT.
2	Lanco Babandh Power Limited	12,005.5	Ongoing	The project is under liquidation under IBC. Sterlite Power Transmission Limited has been declared as a successful bidder. NCLT approved the resolution plan which is under implementation phase. The project has been referred for liquidation under IBC.
3	Facor Power Limited	5,109.8	Completed	
4	Konaseema gas Power Limited	2,231.8	Ongoing	
5	Ind-Barath Energy (Madras) Limited	4,162.1	Ongoing	The project is under liquidation under IBC. JSW Energy Limited has been declared as a successful bidder. NCLT yet to approve the resolution plan.
6	Ind-Barath Energy (Utkal) Limited	7,770.0	Ongoing	
7	Jhabua Power Limited	3,210.4	Ongoing	Proceedings under IBC are underway.
8	KSK Mahanadi Power Company Limited	25,963.6	Ongoing	Proceedings under IBC are underway. M/s Sherisha Technologies is the successful resolution applicant and the committee of creditor approved the resolution plan and NCLT has also approved the resolution plan.
9	Lanco Vidarbha Thermal Power Limited	5,395.6	Ongoing	
10	VS Lignite Power Private Limited.	542.4	Ongoing	Proceedings under IBC are underway.
11	Lanco Amarkantak Power Limited	22,142.1	Ongoing	Proceedings under IBC are underway.
12	Jas Infrastructure & Power Limited	332.4	Ongoing	Proceedings under IBC are underway.
13	Meenakshi Energy Private Limited (Ph – II)	7,108.4	Ongoing	Proceedings under IBC are underway.
14	Amrit Jal Ventures Limited	43.5	Ongoing	Proceedings under IBC are underway.
15	Corporate Power Limited	8,117.4	Ongoing	Proceedings under IBC are underway.
16	Essar Power Madhya Pradesh Limited	13,450.0	Ongoing	Proceedings under IBC are underway.

The lead lender, ICICI Bank, filed an application under the IBC before NCLT, Hyderabad for initiating the corporate insolvency resolution process (CIRP) against Lanco Teesta Hydro Power Limited. The CIRP was commenced vide order of the NCLT dated March 16, 2018. Mr. Huzefa Fakhri Sitabkhan of Think Capital Insolvency was acting as the resolution professional. NHPC, the resolution applicant was declared as successful/H1 bidder with the resolution amount of Rs. 8,950 million by the committee of creditors (COC). The resolution plan of NHPC was approved by the Board in its meeting held on December 5, 2018. The NCLT approved the resolution plan of NHPC vide its order dated July 26, 2019. The resolution amount was received from NCLT as OTS in October, 2019 and the account is now settled.

Our Company initiated CIRP against the corporate guarantor, FACOR Power Limited (**FACOR**), under the IBC which has been admitted by NCLT. IBC proceedings were initiated on July 6, 2017. During the CIRP period, several litigations had been filed by the borrower/promoter challenging the initiation of CIRP process against FACOR. Our Company contested these litigations and got a favorable order from the National Company Law Appellate Tribunal. Due to considerable lapse of time in contesting such litigations, NCLT gave several extensions with the last extension being granted till November 14, 2019 for concluding the CIRP process. The resolution plan has been submitted by the two bidders in the final stage of bidding process i.e. Sterlite Power Transmission Limited (**SPTL**) and IMR Metallurgical Resources AG. SPTL has been declared as successful bidder and the Resolution Plan of SPTL has been approved by COC. NCLT vide its order dated January 31, 2020 has approved the resolution plan of SPTL. The Plan is now been implemented.

Further, Bank of Baroda filed an application under the IBC before NCLT for initiating CIRP against Ind Barath Energy Utkal Limited (**IBEUL**) which was admitted by NCLT vide order dated August 29, 2018. CIRP concluded on October 5, 2019 with JSW Energy Limited was declared as successful bidder and the resolution plan has been approved by COC. The order of NCLT for approval of resolution plan is awaited.

For all of the other projects mentioned above, proceedings under IBC were admitted by the NCLT and the proceedings are currently underway and are at advanced stages.

Restructuring and One-Time Settlement

Set out below are the projects which have undergone restructuring and are either resolved or are at implementation stage as at December 31, 2020:

S.No.	Project	Exposure (Rs. in Million)	Stage	Remarks
1	Essar Power Transmission Limited	11,115.00	Completed	All lenders have approved and implemented restructuring plan in June 2020.
2	Rattan India Power Limited	7,490.0	Completed	OTS successfully implemented. OTS amount was received by our Company in December, 2019.
3	RKM Powergen Ltd.	23,020.0	Completed	All lenders have approved and implemented restructuring plan in December 2020.
4	Hiranmaye Energy Ltd	13,471.2	Ongoing	Upon obtaining the RP4 ratings from CRISIL and Brickworks, our Company has approved the revised restructuring plan on September 29, 2020 and draft documents being prepared by the lender's legal counsel.

FUNDING AND LIQUIDITY

Our funding operations are designed to ensure stability of funding, minimize funding costs and effectively manage liquidity. We derive funding from capital and reserves and borrowing.

Equity

Equity from the Government was an important source of funding for us in the earlier years of our operations. Since Fiscal 2002, we have become more reliant on other sources of funding, such as borrowings. In February 2008, we went for our initial public offering of 156,120,000 equity shares which included a fresh issue of 78,060,000 equity shares and an offer for sale by the Government of 78,060,000 equity shares and resulted in aggregate net proceeds to us of approximately Rs. 8,196.3 million.

In February 2010, we went for a further public offering (**FPO**) of 171,732,000 equity shares, which included an offer for sale of 42,933,000 equity shares by the Government, at a price determined through the alternate book building method in accordance with the SEBI Regulations. The total amount raised by the Company, including premium, from the fresh issue portion of the FPO was Rs. 26,475.3 million. This resulted in a decrease of the Government's shareholding to 66.80 per cent. from 81.82 per cent., with the remaining 33.20 per cent. being held by the public.

In March 2014, the Government, as a part of its disinvestment programme, launched a Central Public Sector Enterprises Exchange Traded Fund (**CPSE-ETF**). CPSE-ETF is a basket of the top ten CPSE stocks, of which our Company is also a part. As a result, the Government's holding was reduced by 1.16 per cent. and stood at 65.64 per cent.

During Fiscal 2016, the President of India acting through the MoP of the Government divested 5 per cent. of the total paid up capital of our Company through an offer for sale on April 8, 2015 and further divested 0.003 per cent. of the total paid up capital of our Company through an off-market transaction under the CPSE-ETF on April 10, 2015. Subsequently, the President of India acting through the MoP divested 1.28 per cent. and 0.5 per cent. of the total paid up capital of the Company on January 25, 2017 and March 22, 2017, respectively, through off market sale of shares under CPSE ETF. Accordingly, as on March 31, 2016, the President of India held 60.64 per cent. of the paid-up equity share capital of the Company.

During Fiscal 2017, the Company issued bonus shares in the ratio 1:1 (at a face value of Rs. 10 per equity share). Further, the President of India acting through the MoP divested 1.28 per cent. of the total paid up capital of the Company on January 25, 2017 and 0.50 per cent. of the total paid up capital of the Company on March 22, 2017 through off market sale of shares under the CPSE-ETF. Accordingly, as on March 31, 2017, the President of India held 58.86 per cent. of the paid up equity share capital of the Company.

In November 2017, the Government divested 0.54 per cent. of the total paid up capital of the Company through "Bharat 22" exchange traded fund. During the three-month period ended June 30, 2018, the Government divested 0.37 per cent. of the total paid up capital of the Company in connection with a follow-on-fund offer through the "Bharat 22" exchange traded fund. Subsequently, in July 2018, 0.04 per cent. of the total paid up capital in the Company was transferred back to the Government.

On 28 March 2019, PFC completed its acquisition of the entire GoI holding of 52.63 per cent. in our Company pursuant to the decision of the Cabinet Committee on Economic Affairs of India for a consideration of Rs. 145,000 million.

Loan Funds

Our loan funds are comprised of secured and unsecured loans. As at March 31, 2020, our consolidated loan funds (net) increased by Rs. 416,325.8 million or 15.39 per cent., to Rs. 3,120,835.0 million from Rs. 2,704,509.2 million as of March 31, 2019, due to an increase in the lending operations of the Company. As at December 31, 2020, our non-consolidated loan funds increased by 10.75 per cent. to Rs. 3,456,247.1 million from Rs. 3,120,835.0 million as at March 31, 2020. This increase was also primarily due to an increase in the lending operations of the Company. The Company's loan assets and

resultant borrowings have generally been growing at approximately 15 to 20 per cent. in the past, except for Fiscal 2017, where there were prepayments under the UDAY Scheme.

Our business consists of borrowing funds and on-lending such funds to our customers in the form of loan products. Consequently, growth in our business has been marked by an increase in our loan assets.

The following tables sets forth the breakdown of our consolidated borrowings into: (i) debt securities; (ii) borrowings (other than debt securities); and (iii) subordinated liabilities, as of the dates indicated:

Debt securities

Domestic Borrowings

In terms of domestic resources, a significant proportion of our Rupee denominated funds are raised through privately placed bond issues in the domestic market. We have a diverse investor base of banks, financial institutions, mutual funds, insurance companies, provident fund trusts, gratuity fund trusts and superannuation trusts and individuals.

The following table sets forth our outstanding consolidated Rupee-denominated indebtedness by type and the percentage such indebtedness constituted of our total consolidated Rupee-denominated indebtedness as of March 31, 2018, 2019 and 2020:

Taxable bonds. We issue secured and unsecured, non-convertible, non-cumulative, redeemable, taxable, senior and subordinate bonds typically with a maturity of three to fifteen years from the date of issuance and bearing a fixed interest rate that depends upon market conditions at the time of issuance.

54EC long term tax exemption bonds. We began issuing 54 EC – capital gain tax exemption bonds in Fiscal 2001 according to Section 54EC of the IT Act relating to exemption of taxes on long-term capital gains, if invested in these bonds, subject to limits and qualifications. We are, therefore, able to price such bonds at a lower rate of interest than would otherwise be available to us. In order to qualify for the tax exemption, these bonds must be held for not less than three years. Up to Fiscal 2007, these bonds have put dates or maturity dates at the end of three years from issuance and thereafter automatic redemption after the lock in period of three years. Since January 2007, the Government has limited the amount of our bonds which an individual investor can utilize to offset long-term capital gains to Rs.5.0 million in a financial year and this has reduced the amount of bonds we have been able to offer for subsequent periods. Since April 1, 2018, the holding period as well as automatic redemption period has been changed from 3 (three) to 5 (five) years by the Government. The 54EC – capital gain tax exemption bonds are offered on a domestic private placement basis and are not listed on any exchange.

Infrastructure bonds. We issued infrastructure bonds between Fiscals 2002 to 2005 under section 88 of the IT Act, and in Fiscals 2011 and 2012, issued such bonds under section 80CCF of the IT Act. Under provisions of Section 88 of the IT Act, deduction is allowed from the amount of income tax (as computed before allowing the deductions under Chapter VI) on an investor's total income from investment of these bonds. Under Section 80CCF of the IT Act, deduction is allowed from gross total income of an assessee on investment in these bonds and if terms of the issue were subject to Notification No 48/2010/F NO 149/84/2010- SO (TPL) issued by the CBDT.

Our infrastructure bonds typically have a maturity of 10 and 15 years from the date of issuance and bear a fixed interest rate with put option after five and seven years. The infrastructure bonds were offered on a domestic private placement basis and the bonds are listed on the NSE and tradable after the stipulated lock in period.

Tax-free bonds. We issued tax-free bonds up to Fiscal 2002 and thereafter issued such bonds in Fiscal 2012, Fiscal 2014 and Fiscal 2016. Under the IT Act, interest on these bonds was tax exempt for bondholders and we were therefore able to price such bonds at a lower rate of interest than would otherwise have been available to us.

Term loans from commercial banks and financial institutions. Rupee denominated term loan facilities from commercial banks and financial institutions are obtained on commercial terms and have varying maturity dates and interest rates.

Commercial Paper. We have mobilized funds through the issuance of commercial papers during various years. These are obtained on varying maturity dates and interest rates.

Foreign Currency Resources

We first began arranging for foreign currency borrowings during Fiscal 2007. As of December 31, 2020, our outstanding liability was Rs. 507,092.8 million based on foreign exchange rates as of December 31, 2020 for the relevant currencies.

External commercial borrowings (ECB) in foreign currency

In Fiscal 2018, we raised ECB as follows:

- Bilateral loan agreement for USD 200 million through State Bank of India, London Branch. The loan under this agreement bears a variable interest at a spread of 65 basis points over three-month

USD LIBOR and will mature in Fiscal 2023. As of December 31, 2020, this loan facility was fully drawn and is unhedged.

- USD Reg-S Green Bonds amounting to USD 450 million under the Company's MTN programme at a fixed cost of 3.875 per cent. for a tenure of 10 years, listed on Singapore Stock Exchange and the International Securities Market of the London Stock Exchange. The bonds will mature in Fiscal 2028. As of December 31, 2020, the funds under these bonds have been fully drawn and are unhedged.
- Bilateral loan agreement through MUFG Bank Limited for USD 57.50 million to part refinance the syndicated term loan of USD 250 million raised in Fiscal 2015. The loan under this agreement bears a variable interest at a spread of 35 basis points over six-month USD LIBOR and will mature in Fiscal 2020. As of December 31, 2020, this loan facility was fully drawn and repaid with the outstanding balance being nil.
- USD Reg-S Bonds amounting to USD 400 million under the Company's MTN programme at a fixed cost of 3.068 per cent. for a tenure of 3 years, listed on Singapore Stock Exchange and the International Securities Market of the London Stock Exchange, to refinance the syndicated term loan of USD 400 million raised in Fiscal 2015. The bonds will mature in Fiscal 2021. As of December 31, 2020, the funds under these bonds have been fully drawn and entire funds have been hedged.
- Syndicated loan agreement through MUFG Bank Limited, Singapore Branch, HSBC Bank (Mauritius) Limited and The Hongkong and Shanghai Banking Corporation Limited, Mauritius Branch for USD 240 million to part refinance syndicated term loan of USD 400 million raised in Fiscal 2015. The loan under this agreement bears a variable interest at a spread of 51 basis points over six-month USD LIBOR and will mature in Fiscal 2021. As of December 31, 2020, this loan facility was fully drawn and fully hedged. The loan has been repaid in March 2021 with the outstanding balance being nil.
- Bilateral loan agreement through Mizuho Bank Limited for USD 160 million to part refinance the syndicated term loan of USD 400 million raised in Fiscal 2015. The loan under this agreement bears a variable interest at a spread of 60 basis points over three-month USD LIBOR and will mature in Fiscal 2021. As of December 31, 2020, this loan facility was fully drawn and hedged. The loan has been repaid in March 2021 with the outstanding balance being nil.
- USD Reg-S Bonds amounting to USD 300 million under the Company's MTN programme at a fixed cost of 4.625 per cent. for a tenure of 10 years, listed on Singapore Stock Exchange and the International Securities Market of the London Stock Exchange. The bonds will mature in Fiscal 2028. As of December 31, 2020, the funds under these bonds have been fully drawn and are unhedged.

In Fiscal 2019, we raised ECB as follows:

- Bilateral loan agreement for USD 250 million through Bank of Baroda, New York branch. The loan under this agreement bears a variable interest at a spread of 90 basis points over six-month USD LIBOR and will mature in Fiscal 2024. As of December 31, 2020, this loan facility was fully drawn and the entire funds have been hedged.
- Bilateral loan agreement for JPY 10.33 billion through MUFG Bank Limited, Singapore. The loan under this agreement bears a variable interest at a spread of 20 basis points over six-month JPY LIBOR and will mature in Fiscal 2024. As of December 31, 2020, this loan facility was fully drawn and the entire funds have been hedged.

- USD 144A/Reg-S Bonds amounting to USD 700 million under the Company’s GMTN programme at a rate of 5.25 per cent. due 2023, listed on Singapore Stock Exchange and the International Securities Market of the London Stock Exchange, the India International Exchange IFSC Limited and NSE IFC Limited. The bonds will mature on November 13, 2023. As of December 31, 2020, the funds under these bonds have been fully drawn and the entire funds have been hedged.
- Bilateral loan agreement for USD 250 million through Bank of India, New York branch. The loan under this agreement bears a variable interest at a spread of 90 basis points over six-month USD LIBOR and will mature in Fiscal 2024. As of December 31, 2020, this loan facility was fully drawn and is unhedged.
- Bilateral loan agreement for USD 75 million through DBS Bank Limited with the option to increase the total amount of the facility up to USD 150 million. Mizuho Bank, Limited as the “Increased Lender” entered into an increase confirmation with DBS Bank Limited as the Facility Agent and as the Original Mandated Lead Arranger (under the Facility Agreement dated March 25, 2019) to increase the total commitment by USD 75 million on May 7, 2019. The loan under this agreement bears a variable interest at a spread of 100 basis points over three-month USD LIBOR and will mature in Fiscal 2024. As of December 31, 2020, this loan facility was fully drawn and the entire funds have been hedged.

In Fiscal 2020, we raised ECB as follows:

- Term loan facility agreement for USD 100 million between the Company and State Bank of India, London branch. The loan under this agreement bears a variable interest at a spread of 135 basis points over three-month USD LIBOR and will mature in Fiscal 2024. As of December 31, 2020, this loan facility was fully drawn and is 50 per cent. hedged.
- USD Reg-S Bonds amounting to USD 650 million under the Company’s GMTN programme at a rate of 3.375 per cent. due 2024, listed on Singapore Stock Exchange and the International Securities Market of the London Stock Exchange, the India International Exchange IFSC Limited and NSE IFC Limited. The bonds will mature on July 25, 2024. As of December 31, 2020, the funds under these bonds have been fully drawn and is unhedged.
- Term loan facility agreement for USD 150 million between the Company, MUFG Bank Ltd., and State Bank of India, London branch. The loan under this agreement bears a variable interest at a spread of 110 basis points over six-month USD LIBOR and will mature in Fiscal 2022. As of December 31, 2020, this loan facility was fully drawn and is fully hedged.
- USD Reg-S Bonds amounting to USD 500 million under the Company’s GMTN programme at a rate of 3.50 per cent. due 2024, listed on Singapore Stock Exchange and the International Securities Market of the London Stock Exchange, the India International Exchange IFSC Limited and NSE IFC Limited. The bonds will mature on December 12, 2024. As of December 31, 2020, the funds under these bonds have been fully drawn and are unhedged.
- Term loan facility agreement for Singapore Dollar equivalent of U.S.\$50 million between the Company and DBS Bank Limited in its capacities as the original mandated lead arranger, original lender and the facility agent. The rate of interest for the loan under this agreement for each interest period will be the percentage rate per annum equal to the aggregate of the margin (1.00 per cent.) and SOR, as applicable. As of December 31, 2020, this loan facility was fully drawn and is hedged.
- ECB facility agreement for U.S.\$75 million between the Company and State Bank of India (acting through its London branch) in its capacities as the mandated lead arranger and book

runner and the facility agent along with State Bank of India as the original lender. The rate of interest for the loan under this agreement for each term will be the percentage rate per annum equal to the aggregate of the margin (1.30 per cent.) and six-month LIBOR, as applicable. As of December 31, 2020, this loan facility was fully drawn and is unhedged.

In the nine-month period ended December 31, 2020, we raised ECB as follows:

- U.S.\$ bonds amounting to U.S.\$500 million under the Programme at a fixed rate of 4.75 per cent. for a tenure of 3 years, listed on Singapore Stock Exchange and the International Securities Market of the London Stock Exchange. The bonds will mature in May 2023. As of December 31, 2020, the funds under these bonds have been fully drawn and are 70 per cent. hedged.
- ECB facility agreement for U.S.\$300 million between the Company and New Development Bank, Shanghai as the original lender. The rate of interest for the loan under this agreement for each term will be the percentage rate per annum equal to the aggregate of the margin (1.90 per cent.) and six-month LIBOR, as applicable. As of December 31, 2020, this loan facility was fully drawn and is hedged.
- ECB facility agreement for U.S.\$170 million between the Company and India Infrastructure Finance Company (UK) Limited (**IIFCL(UK)**) as the original lender. The rate of interest for the loan under this agreement for each term will be the percentage rate per annum equal to the aggregate of the margin (2.10 per cent.) and six-month LIBOR, as applicable. As of December 31, 2020, this loan facility was fully drawn and is hedged.
- ECB facility agreement for JPY equivalent to U.S.\$100 million between the Company in its capacity as the borrower, MUFG Bank Ltd., Hong Kong branch in its capacity as the facility agent, MUFG Bank Ltd. in its capacity as the mandated lead arranger and book runner along with MUFG Bank Ltd., Singapore branch as the original lender. The rate of interest for the loan under this agreement for each term will be the percentage rate per annum equal to the aggregate of the margin (1.15 per cent.) or six-month JPY LIBOR, as applicable. As of December 31, 2020, this loan facility was fully drawn and is hedged.

Post-December 31, 2020, we raised ECB as follows:

- U.S.\$ bonds amounting to U.S.\$500 million under the Programme at a fixed rate of 2.25 per cent. for a tenure of 5.5 years, listed on Singapore Stock Exchange, the International Securities Market of the London Stock Exchange Global Securities Market of India, International Exchange (India INX) and NSE IFSC. The bonds will mature in September 2026. As of March 31, 2021, the funds under these bonds have been fully drawn and are unhedged.
- ECB facility agreement for U.S.\$425 million between the Company and State Bank of India, London, Canara Bank, London branch and Simutomo Mitsui Banking Corporation, Singapore in their capacity as the mandated lead arranger and book runner and State Bank of India in its capacity as the facility agent. The weighted average rate of interest for the loan under this agreement for each term will be the percentage rate per annum equal to the aggregate of the margin (1.254 per cent.) and six-month LIBOR, as applicable. As of March 31, 2021, this loan facility was fully drawn and is unhedged.

Bilateral credit agreements. We also have six foreign currency loan facilities from external bilateral credit agencies.

- In Fiscal 2008, we entered into a second loan agreement with JICA for financial assistance of JPY 20,902 million restated to JPY 13,000 million with effect from February 18, 2012 and further restated to JPY11,809 million with effect from March 31, 2016. A second amendment

letter dated August 1, 2016 was entered into for amending the amortization schedule of the loan agreement. This agreement bears a fixed interest rate of 0.65 per cent. per annum and matures in Fiscal 2023. The Government has guaranteed borrowings under this facility for which we pay a guarantee fee. As of December 31, 2020, this loan facility had been fully drawn and the outstanding balance is JPY 942.9 million.

- In Fiscal 2012, we entered into a third loan agreement with KfW for financial assistance of EUR100 million. This agreement bears a fixed interest rate of 1.86 per cent. per annum and matures in 2024. The Government has guaranteed borrowings under this facility for which we pay a guarantee fee. As of December 31, 2020, EUR 100 million had been fully drawn under this facility and the outstanding balance is EUR 36.8 million.
- In Fiscal 2019, we entered into our fourth loan agreement with KfW which provides for financial assistance of USD 228 million to be utilized for renewable energy projects. This agreement bears a variable interest at a spread of 13 basis points over six-month USD LIBOR and matures in 2030. The facility has been raised based on our Company's standalone strength and there is no Government guarantee fee on this facility. As of December 31, 2020, USD 168.85 million had been drawn under this facility and is outstanding.

Investment operations

The primary objective of our investment policy is the prudent management of surplus funds so as to achieve optimal returns. We aim to use our treasury operations to manage our liquidity. Our investments of short-term surplus are primarily in bank deposits and debt-based schemes of public mutual funds for a period of one year beginning July 9, 2009 or the date of any modification of the guidelines issued by the Government for investment of surplus funds in debt-based schemes of public mutual funds, whichever is earlier.

Capital Adequacy

The Company's capital to risk-weighted assets ratio as of December 31, 2020 is 19.27 per cent. The calculation and composition of our Tier-I and Tier-II capital is as follows:

Particulars	Rs. in millions
1. Tier-I Capital.....	362,448.3
2. Tier-II Capital.....	80,225.1
3. Total capital (1+2).....	442,673.4
4. Total Risk Weighted Assets	2,297,448.2
Capital to risk-weighted assets ratio (CRAR) (3/4)	19.27%

Our direct loans to state government are assigned a risk weight of 0 per cent. and state government guaranteed loans which have not remained in default/which are in default for a period not more than 90 days are assigned a risk weightage of 20 per cent. However, if the loans guaranteed by the state government have remained in default for a period of more than 90 days, a risk weightage of 100 per cent. is assigned to such loans.

Pursuant to the RBI Master Direction RBI/DNBR/2016-17/45 DNBR. PD. 008/03.10.119/2016-17 dated September 1, 2016, as updated from time to time, our Company, being an IFC is required to have a CRAR of 15 per cent. (with a minimum Tier-I capital of 10 per cent.).

RISK MANAGEMENT

Our Company has adopted a comprehensive risk management policy including the overarching framework for identifying, assessing, measuring, monitoring and mitigating/managing risks in all processes, products, activities as performed by all departments at the head office and project offices. The risks are classified under three categories, namely, credit risk, market risk and operational risk. Market risk management consists of the asset liability management policy and hedging policy. The asset liability management policy includes, *inter alia*, liquidity risk management, interest rate risk management as well as risk testing methodologies and risk reporting mechanisms. Hedging policy covers the management and reporting of risks associated with foreign currency borrowings and derivative transactions entered into by our Company.

Risk Management Structure

Our Board is entrusted with the overall responsibility for the management of risks of our business and implements our risk management policies and sets limits for our liquidity, interest rate and foreign currency exchange rate tolerances.

Asset Liability Management Committee (ALCO)

Our Company has constituted the ALCO which is functioning under the chairmanship of the Chairman and Managing Director, and it comprises the Chairman and Managing Director, Director (Finance), Director (Technical), Executive Directors and Chief General Managers from the finance and operating divisions of our Company as its members.

ALCO monitors risks related to liquidity, interest rates and currency rates. The liquidity risk is being monitored with the help of liquidity gap analysis and the committee manages the liquidity risk through a mix of strategies. The interest rate risk is monitored through an interest rate sensitivity analysis and managed through the review of lending rates, cost of borrowings and the term of lending and borrowing. Foreign currency risk associated with exchange rate and interest rate is managed through various derivative instruments.

Risk Management Committee (RMC)

Our Company has also constituted a RMC which is currently functioning with the under the chairmanship of a nominee director along with the Director (Finance) and the Director (Technical) as other members for monitoring the integrated risks of our Company. The main function of the RMC is to monitor various risks likely to arise and to initiate action for mitigation of risk arising in the operation and other related matters of our Company.

Chief Risk Officer (CRO)

Our Company has appointed the CRO pursuant to RBI circular RBI/2018-19/184 DNBR (PD) CC. No. 099/03.10.001/2018-19 dated May 16, 2019.

RISK MONITORED UNDER ALCO

Market Risk

Market risk is the potential loss arising from changes in market rates and market prices. Our primary market risk exposures result primarily from fluctuations in interest rates and foreign currency exchange rates.

Interest rate risk

Interest rate risk is the risk that is associated with the changes in market interest rates which may adversely affect our financial condition. The primary interest rate-related risks are from timing difference in the maturity of our fixed rate assets and liabilities (e.g. in an increasing interest rate environment, if our fixed rate liabilities mature prior to our fixed rate assets, it would require us to incur additional liabilities at a higher interest rate) and repricing risk, i.e. where there is an adverse mismatch between the repricing terms of our loan assets and our loan liabilities.

We have historically implemented and will in the future implement, interest rate risk management through the contractual terms of our loans, including pricing terms, maturities and prepayment and repricing provisions. Initially, most of our loans were on a fixed rate basis. We also include in our products provisions that allow us to reset the interest rate after one, three or ten years.

In order to mitigate the interest rate risk, we periodically review our lending rates based on our cost of borrowing. We then determine our lending rates based on prevailing market rates, our weighted average cost of funding and our post-tax margins.

In order to manage pre-payment risk, most of our contracts either prohibit pre-payment prior to an interest reset date or require a pre-payment premium if the loan is prepaid prior to an interest reset date. The interest rate reset dates typically occur at one-three-or-ten-year intervals. Additionally, the terms of most of our loans permit us to increase the interest rate on any undrawn portion of the overall sanction.

Under our interest rate risk management policies, we are instituting analytical techniques, such as gap analysis and sensitivity analysis in order to measure our interest rate risk. Under our gap analysis technique, we group our interest rate sensitive assets and liabilities based on their respective maturities (or repricing dates) to determine our susceptibility, from an interest income perspective, to both increasing and decreasing interest rate environments within the time period. We also perform sensitivity analysis based on assumed interest rate scenarios to determine our susceptibility to sudden changes in the interest rate environment.

As per the comprehensive risk management policy approved by our Board, our year-end mismatch of rate sensitive assets and rate sensitive liabilities may not exceed 40 per cent. of rate sensitive liabilities.

For additional information on our interest rate risk, see the relevant section in “*Risk Factors*” in this Offering Circular.

Foreign currency exchange rate risk.

Foreign currency exchange risk involves exchange rate movements among currencies that may adversely impact the value of foreign currency-denominated assets, liabilities and off-balance sheet arrangements. We have foreign currency borrowings that could expose us to foreign currency exchange rate risk and we expect to increase our foreign currency-denominated borrowings in the future. As of December 31, 2020, the Company’s total foreign currency liabilities outstanding are JPY 21,937.3 million, U.S.\$ 6,628.8 million, SGD 72.1 million and EUR 36.8 million. As of December 31, 2020, the Company has not engaged in foreign currency denominated lending.

Our Company manages foreign currency risk associated with exchange rate and interest rate through various derivative instruments. For this, our Company has put in place a hedging policy to manage risk associated with foreign currency borrowings. Foreign currency risk associated with exchange rate and interest rate is managed through various derivative instruments.

As per the comprehensive risk management policy approved by our Board, the net open exposure position shall not be more than 25 per cent. of our adjusted net worth at any point of time for exchange rate risk and not more than 20 per cent. of our net worth for interest rate risk.

For additional information on our foreign currency risk, see the relevant section in “*Risk Factors*” in this Offering Circular.

Liquidity Risk

Liquidity risk is the risk of our potential inability to meet our liabilities as they become due. We face liquidity risks, which could require us to raise funds or liquidate assets on unfavorable terms. We manage our liquidity risk through a mix of strategies, including through forward-looking resource mobilization based on projected disbursements and maturing obligations.

As per the comprehensive risk management policy approved by our Board, up to one month’s mismatch of assets and liabilities may not exceed 15 per cent. of cash outflow, the three months cumulative mismatch may not exceed 30 per cent. of aggregate cash outflow and the annual cumulative mismatch may not exceed 30 per cent. of aggregate cash outflow.

For additional information on our liquidity risk, see the relevant section in “*Risk Factors*” in this Offering Circular.

RISK MONITORED UNDER RMC

Credit Risk

Credit risk is a risk inherent in the financing industry and involves the risk of loss arising from the diminution in credit quality of a borrower and the risk that the borrower will default on contractual repayments under a loan or an advance.

We follow a systematic institutional and project appraisal process to assess and mitigate credit risk. These processes include a detailed appraisal methodology, identification of risks and its mitigation measures. We use a wide range of quantitative as well as qualitative parameters as part of the appraisal process to make a sound assessment to the extent of the underlying credit risk in a project.

Our current policies determine borrower's creditworthiness based on financial and operational strength, capability, competence and, *inter alia*, third party ratings of such borrowers that are made available to us. Lending policies are set out in the loan policy circulars and permit prioritization in the form of differential interest rates and project credit limits. We evaluate the credit quality of the borrower by assigning risk weightings on the basis of the various financial and non-financial parameters. For additional information on our lending policies, see the section titled "*Business – Our Lending Policies*" in this Offering Circular.

For additional information on our credit risk, see the section titled "*Risk Factors*" in this Offering Circular.

Operational Risk

Operational risks are risks arising from inadequate or failed internal processes, people, systems or external events. We have been continually strengthening our systems and procedures to recognize and reduce operational risk in our business. For this, our Company has the RMC which comprises of one nominee director along with the Director (Finance) and the Director (Technical) for managing the integrated risk of our Company.

Operational controls in project finance activities. We have operational guidelines that provide a detailed description of the systems and procedures to be followed in the course of appraisal and approval.

Operational controls in treasury activities. Our investment policy provides policies for deployment of short-term surplus funds and a description of operations to be followed, with suitable exposure and counterparty limits. Compliance with our guidelines is monitored through internal control and external and internal audits.

MANAGEMENT

Board of Directors

As on March 31, 2021, the Board consists of five directors out of which one is the chairman and managing director, two are whole time directors, one is nominee director of the Government of India and one is nominee director of Power Finance Corporation Limited.**

The following table sets out details regarding the Board as of March 31, 2021:

Name	Position	Other Directorships
Shri Sanjay Malhotra DIN 00992744.....	Chairman and Managing Director Whole-Time Director <i>Non-Independent Director</i>	<ul style="list-style-type: none"> • REC Power Distribution Company Limited
Shri Sanjeev Kumar Gupta DIN 03464342.....	Director (Technical) Whole-Time Director <i>Non-Independent Director</i>	<ul style="list-style-type: none"> • REC Power Distribution Company Limited
Shri Ajoy Choudhury DIN 06629871.....	Director (Finance) Whole-Time Director <i>Non-Independent Director</i>	<ul style="list-style-type: none"> • REC Power Distribution Company Limited

** Our Board of Directors is presently short of five independent directors including one woman independent director since March 12, 2020. Being a Government Company, the power to appoint directors on the board vests with the President of India acting through the administrative ministry, i.e., Ministry of Power. Our Company has already requested the Ministry of Power, Government of India, i.e., the appointing authority, for expediting the appointment of requisite number of Independent Directors including woman Independent Director on the Board of the Company. In view of the above, our Company is presently unable to comply with the corporate governance requirements in respect of board composition. Further, the said non-compliance is beyond the control of our Company as the power to appoint Independent Directors is vested with the Ministry of Power, Government of India. The BSE and NSE have imposed penalties on our Company for this non-compliance in the quarters ended March 30, 2020, June 30, 2020, September 30, 2020 and December 31, 2020. Our Company has requested the stock exchanges to waive the penalties.

The Board oversees the overall function of our Company, with meetings held, on average, once a month.

Brief Profile of our Directors

Shri Sanjay Malhotra, has been the Chairman and Managing Director (CMD) of the Board (with effect from November 9, 2020). He is an officer with the Indian Administrative Service of Rajasthan cadre. Prior to his position as the CMD of our Company, he was the Additional Secretary in the Ministry of Power. Shri Malhotra has obtained a bachelor of engineering degree in computer science from the Indian Institute of Technology, Kanpur and has a master in public policy degree from the Princeton University. With demonstrated leadership and excellence in his career of over 30 years, Shri Malhotra has worked in multifarious sectors such as including power, finance and taxation, information technology and mines.

He has an extensive experience in the Indian power sector both at the state and central Government. As a Principal Secretary, in-charge of the energy department in Rajasthan, he spearheaded many initiatives including appointment of distribution franchisees in four towns, introduction of public-private partnership in transmission and innovations in metering, billing and collection. As the Additional Secretary in the Ministry of Power, he was responsible for the transmission, distribution and restructuring and was deeply involved in reforms, policy initiatives and privatization of distribution utilities of the Union Territories.

Shri Sanjeev Kumar Gupta, is the Director (Technical) on the Board of our Company since October 16, 2015. He holds a bachelor's degree in Electrical Engineering from G.B. Pant University of Agriculture & Technology, Pant Nagar, Uttarakhand. He has 38 years of experience in the Indian power sector across diverse functions such as planning, design, construction, O&M, project management of large EHV & UHV Transmission projects, Financing of Generation, Transmission, Distribution and Renewable Projects, etc. in various power CPSU's, REC, PGCIL and NHPC. He was instrumental in the induction of new technologies (including 765 kV AC/1200 kV and \pm 800kV HVDC transmission, ROW optimization, uprating of transmission lines and conductors) in the Indian transmission grid. He was designated as the project manager for various prestigious international consultancy projects in Bhutan, Nepal, Myanmar and Bangladesh.

He is also a Nominee Director on the board of directors of two wholly-owned subsidiaries of our Company namely, REC Power Distribution Company Limited, since October 12, 2015 and REC Transmission Projects Company Limited, since October 26, 2015.

He has been working in our Company since March 16, 2010 at senior management positions including as the chief executive officer of REC Transmission Projects Company Limited as well as the nodal officer for the NEF. He is responsible for all technical functions and business development of the Company.

Shri Ajoy Choudhury, is the Director (Finance) on the Board of our Company since June 1, 2020. He is an Associate Member of the Institute of Cost and Management Accountants of India. He has over 31 years of experience in Indian Power Sector across diverse functions such as international finance, contracts management, loans and recovery, corporate accounts, resource mobilization and treasury. He has been working in our Company since April 16, 2007 at senior management positions and has been instrumental in implementation of various systemic improvements including formulation of loan recovery guidelines, improving communication and services to customers and managing overall resources and treasury division of our Company. He has also been a core team member for the implementation of 'Ujwal DISCOM Assurance Yojana' (UDAY), flagship programme of Government of India, aimed at the turnaround of distribution companies in the Indian power sector. Prior to joining our Company, he has worked at various levels with Powergrid Corporation of India Limited and NHPC Limited for over 19 years.

As the Director (Finance), he provides directions with respect to financial management and operations of the organization encompassing organizational and financial planning, formulation of financial policy,

financial accounting, management control systems, cash and funds management, tax planning, mobilization and management of resources, liaison with financial institutions and capital market players. He also supervises treasury functions, lending operations and advises on corporate risk management matters.

He is also a Nominee Director on the Board of two wholly-owned subsidiaries of REC namely, REC Power Distribution Company Limited since March 25, 2019 and REC Transmission Projects Company Limited since June 12, 2020. He has also served as a Nominee Director on the Board of TRN Energy Private Limited.

Shri Tanmay Kumar, is the Nominee Director of the Government of India on the Board of our Company since November 5, 2020. Shri Tanmay Kumar is an officer with the Indian Administrative Service of Rajasthan cadre and held various positions in Government of Rajasthan for over 27 years. He is currently the Joint Secretary in Ministry of Power, Government of India. He holds a bachelor of engineering degree in civil engineering from the Indian Institute of Technology, Delhi and a master of technology degree in soil mechanics and foundation engineering also from the Indian Institute of Technology, Delhi.

He is Government Nominee Director on the Board of NHPC Limited, SJVN Limited and Power Finance Corporation Limited. He was also the Chairman of Rajasthan Renewable Energy Corporation Limited for five years. He is highly experienced in the power sector.

Shri Praveen Kumar Singh, is Nominee Director of PFC on the Board of our Company since June 18, 2019. He has been the Director (Commercial) of PFC since August 10, 2018. Prior to that, he was an executive director (Projects) in PFC and worked in various units of the Projects Division in PFC for over 24 years. Earlier he had also worked for India’s largest power equipment manufacturer Bharat Heavy Electricals Limited and the Confederation of Indian Industries for over nine years. Shri Singh holds a bachelor of technology degree in the field of electrical engineering from the Indian Institute of Technology-Banaras Hindu University, Varanasi and master of technology degree in energy and environment management from the Indian Institute of Technology, Delhi. He also completed a “Global Energy MBA programme” from Bayer College of Business, University of Houston, USA. Shri Singh has been representing PFC in various committees of the Government of India.

He is also a director on the board of directors of Coastal Karnataka Power Limited, Orissa Integrated Power Limited, Sakhigopal Integrated Power Company Limited, Jharkhand Infrapower Limited, Ghogarpalli Integrated Power Company Limited and PFC Consulting Limited.

Shareholding of Directors

Except as set forth below, none of our Directors hold any of our Shares as of March 31, 2021:

S. No.	Name of Shareholder	Number of Shares held
1.	Shri Ajoy Choudhury	200
2.	Shri Praveen Kumar Singh.....	40

Corporate Governance

Our Company has been fully complying with all the requirements of Corporate Governance as prescribed under the SEBI LODR Regulations. As on date, the composition of the Board of Directors consists of one chairman and managing director, two whole time directors, one nominee director of the Government of India and one nominee director of Power Finance Corporation Limited. Further, our Board of Directors is presently short of five independent directors including one woman independent director. Being a Government Company, the power to appoint directors on the board vests with the

President of India acting through the administrative ministry, i.e., Ministry of Power. Our Company has already requested the Ministry of Power, Government of India, i.e., the appointing authority, for expediting the appointment of requisite number of Independent Directors including woman Independent Director on the Board of the Company. In view of the above, our Company is presently unable to comply with the corporate governance requirements in respect of board composition. Further, the said non-compliance is beyond the control of our Company as the power to appoint Independent Directors is vested with the Ministry of Power, Government of India. The BSE and NSE have imposed penalties on our Company for this non-compliance in the quarters ended March 30, 2020, June 30, 2020, September 30, 2020 and December 31, 2020. Our Company has requested the stock exchanges to waive the penalties.

The Board functions either as a full Board or through various committees constituted to oversee specific operational areas. Each committee of the Board is guided by its terms of reference, which defines the composition, scope and powers of the relevant committee. The committees meet at regular intervals and focus on specific areas and make informed decisions within the authority delegated to them. As of March 31, 2021, the Board had the following committees:

- (a) Audit Committee;
- (b) Nomination and Remuneration Committee;
- (c) Stakeholders Relationship Committee;
- (d) Risk Management Committee;
- (e) Corporate Social Responsibility Committee;
- (f) Loan Committee;
- (g) Executive Committee;
- (h) Sub-Committee for review of lending rates for Term Loans/STLs;
- (i) Sub-Committee on Investment/Deployment of Surplus Funds; and
- (j) Bond Committee of Directors for Public Issue.

Audit Committee

The Audit Committee currently comprises:

<u>Name of the Committee Members/Attendees</u>	<u>Designation</u>	<u>Position in Committee</u>
Shri Tanmay Kumar	Government Nominee Director	Chairman
Shri Sanjeev Kumar Gupta.....	Director (Technical)	Member
Shri Praveen Kumar Singh	PFC Nominee Director	Member

The quorum for an Audit Committee meeting shall either be two members or one third of the members of the Audit Committee, whichever is greater, with at least two Independent Directors. Further, Director (Finance), Head of Internal Audit and representatives of Statutory Auditors are invited for the meetings of the Audit Committee. The Company Secretary acts as the Secretary to the Committee.

The terms of reference of the Audit Committee are as follows:

- (a) to comply with the requirements of Section 177 of the Companies Act read with the Companies (Meetings of Board and its Powers) Rules, 2014, as amended from time to time;

- (b) to comply with the requirements relating to the Audit Committee as envisaged in Listing Regulations, as amended from time to time;
- (c) to comply with the guidelines on corporate governance for central public sector enterprises, 2010, as notified by the DPE, as amended from time to time; and
- (d) ensures compliance with any other applicable provisions, as amended from time to time, relating to the Audit Committee.

The Chairman of the Audit Committee possesses accounting and financial management expertise and all other members of the Audit Committee are financially literate. Further, the Chairman of the Audit Committee was present at the Annual General Meeting held on September 25, 2018 to respond to shareholders' queries.

Nomination and Remuneration Committee

As our Company is a CPSU, the appointment, tenure and remuneration of the Chairman, the Managing Director, whole-time functional directors and other directors are decided by the President of India according to the Articles of Association of our Company and such appointment is communicated by the relevant administrative ministry to our Company. The remuneration of the functional directors and employees of our Company is fixed according to extant guidelines issued by the DPE, from time to time. Further, the part-time non-official independent directors are paid sitting fees, as decided by the Board from time to time, for attending board and committee meetings well within the limits prescribed under the Companies Act, 2013. According to the norms of the Government, the Government nominee director is not entitled to get any remuneration or sitting fee from our Company. The composition of the Nomination and Remuneration Committee is in accordance with the provisions of regulation 19 of SEBI LODR Regulations and Section 178 of the Companies Act, 2013.

The terms of reference of the Nomination and Remuneration Committee to the extent applicable to our Company are as follows:

- (a) to comply with the requirements in accordance with Section 178 of the Companies Act, 2013 read with the Companies (Meetings of Board and its Powers) Rules, 2014, as amended from time to time;
- (b) to comply with the requirements relating to the Nomination and Remuneration Committee as envisaged in the Listing Regulations, as amended from time to time; and
- (c) to comply with the Guidelines on Corporate Governance for Central Public Sector Enterprises, 2010, including to decide on the quantum of annual bonus, variable pay and policy for the ESOP scheme and the pension scheme within the prescribed limits across whole time directors, executive and non-unionized supervisors, as notified by the DPE, and as amended from time to time.

The MCA, through its notification dated June 5, 2015, has exempted Government companies from the requirements relating to the formulation of criteria for determining qualifications, positive attributes, independence and annual evaluation of directors and policy relating to the remuneration of directors.

Further, the MCA through its notification dated July 5, 2017, prescribed that the provisions relating to review of performance of the independent directors and evaluation mechanism prescribed under Schedule IV of the Companies Act, 2013, is also not applicable to Government companies. During Fiscal 2019, the performance evaluation of the Non-Executive Independent Directors of our Company was carried out by the Administrative Ministry/Department of Public Enterprises as per their internal guidelines.

After completion of the tenures of Shri A. Krishna Kumar and Prof. T.T. Ram Mohan on November 12, 2019, followed by the completion of the tenure of Smt. Asha Swarup on February 7, 2020 and resignation of Dr. B.K. Karad on March 11, 2020, there has been an absence of the requisite number of independent directors on the Board of our Company, to re-constitute the Nomination and Remuneration Committee in conformity with the applicable statutory provisions. The Nomination and Remuneration Committee would thus be reconstituted upon appointment of requisite number of independent directors on the Board of our Company.

The quorum of the Nomination and Remuneration Committee is two members including the Chairman of the Committee. The Director (Finance), the Director (Technical) and Executive Director (Human Resource)/Chief General Manager (Human Resource) are standing invitees to the meetings of the Nomination and Remuneration Committee.

Stakeholders Relationship Committee

Our Company has constituted a Stakeholders Relationship Committee in terms of the provisions of Section 178 of the Companies Act, the provisions of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and other applicable laws. This Committee specifically looks into the redressal of complaints from various security holders (including shareholders, debenture holders), such as non-receipt of dividend credit/warrants, non-receipt of interest on debentures, annual reports, transfer of shares or debentures, issue of duplicate share/debenture certificate and matters connected with the transfer, transmission, rematerialization, dematerialization, splitting and consolidation of securities issued by the Company.

As of March 31, 2021 the composition of Stakeholders Relationship Committee was as follows:

Name of the Committee Member	Designation	Position in Committee
Shri Praveen Kumar Singh	PFC Nominee Director	Chairman
Shri Sanjeev Kumar Gupta	Director (Technical)	Member
Shri Ajoy Choudhury	Director (Finance)	Member

The quorum for a meeting of the Stakeholders Relationship Committee is two members, including the Chairman of the Committee. Further, the representatives of the registrar and share transfer agents appointed by our Company are standing invitees at the meetings of this committee. Shri J.S. Amitabh, General Manager and Company Secretary, is the compliance officer of our Company in terms of the SEBI (Listing Obligations and Disclosure Requirements) Regulations 2015. The Chairman of the Stakeholders Relationship Committee was present at the Annual General Meeting held on September 25, 2018.

Risk Management Committee

The Risk Management Committee has been constituted in line with the provisions of Regulation 21 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 to manage the integrated risk. The main function of the Risk Management Committee is to identify various risks likely to arise, evaluate overall risks faced by our Company including liquidity risk, monitor and review the risk management plan, policies and practices followed by our Company from time to time, oversee the mitigation of various risks and to perform all other risk management functions, which also cover cyber security.

As of March 31, 2021, the composition of the Risk Management Committee was as follows:

Name of the Committee Member	Designation	Position in Committee
Shri Sanjeev Kumar Gupta	Director (Technical)	Member
Shri Ajoy Choudhury	Director (Finance)	Member

Shri Praveen Kumar Singh Nominee Director-PFC Chairperson

The Executive Director (Finance-Resources), Executive Director (Private Sector Project Management), Executive Director (State Operations) and Chief General Manager (Asset-Liability Management) are standing invitees for all meetings of the committee; and the Chief Risk Officer is the convener of the Risk Management Committee.

Corporate Social Responsibility Committee

As per the provisions of Section 135 of the Companies Act, 2013 and rules made thereunder and the guidelines on corporate social responsibility and sustainability for CPSEs issued by the DPE, the Board of our Company has constituted the Corporate Social Responsibility Committee and the terms of reference of the Committee are as follows:

- (a) to formulate and recommend to the Board, a CSR policy which shall indicate the activities to be undertaken by our Company as specified in Schedule VII of the Companies Act, 2013;
- (b) to monitor the CSR policy of our Company from time to time;
- (c) to recommend the amount of expenditure to be incurred on the activities referred to in paragraph(a) above;
- (d) to recommend and/or review CSR projects, programs and/or proposals falling within the purview of Schedule VII of the Companies Act, 2013;
- (e) to institute a transparent monitoring mechanism for the implementation of the CSR projects, programs and/or activities undertaken by our Company;
- (f) to assist the Board of Directors to formulate strategies on CSR initiatives of our Company;
- (g) to approve the content of annual report on CSR activities according to the pro forma given in the rules *inter-alia* covering the responsibility statement that the implementation and monitoring of the CSR policy is in compliance with CSR objectives and policy of our Company;
- (h) to periodically submit the reports to the Board for their information, consideration and necessary directions; and
- (i) to comply with other requirements on the CSR policy, as amended from time to time.

As of March 31, 2021, the composition of the Corporate Social Responsibility Committee was as follows:

Name of the Committee Member	Designation	Position in Committee
Shri Sanjeev Kumar Gupta.....	Director (Technical)	Chairman
Shri Ajoy Choudhury	Director (Finance)	Member
Shri Praveen Kumar Singh	PFC Nominee Director	Member

The quorum of the meeting of the Corporate Social Responsibility Committee is two members including the Chairman of the Committee.

Loan Committee

The Loan Committee is constituted for sanctioning of loans to (a) central or state government power utilities or central or state government PSUs for an amount of up to Rs.5,000 million for each individual

scheme or project, with an annual ceiling of up to Rs.300,000 million, and (b) private sector power utilities for an amount of up to Rs.5,000 million for each individual scheme or project, with an annual ceiling of up to Rs.100,000 million. Further, the Loan Committee also has additional powers to sanction special long-term transition loans to DISCOMs as reliefs for COVID-19, special loans under the UDAY scheme etc., where the loan amount exceeds Rs.5,000 million for individual scheme/project.

The Loan Committee currently comprises:

Name of the Committee Member	Designation	Position in Committee
Shri Sanjay Malhotra.....	CMD	Chairman
Shri Sanjeev Kumar Gupta.....	Director (Technical)	Member
Shri Ajoy Choudhury	Director (Finance)	Member
Shri Tanmay Kumar	Government Nominee Director	Member

The quorum of the meetings of the Loan Committee is three members including the CMD and the Government nominee director.

Executive Committee

The Executive Committee has been constituted for the sanction of the financial assistance in the form of Rupee term loans subject to the following limits:

- (a) to central or state government power utilities or central or state PSUs – up to Rs.1,500 million for individual schemes or projects, with an overall ceiling of Rs.250,000 million in a Fiscal Year; and
- (b) to private sector power utilities – up to Rs.1,000 million for individual schemes or projects, with an overall ceiling of Rs.60,000 million in a Fiscal Year.

The composition of the Executive Committee of the Board of Directors currently comprises:

Name of the Committee Member	Designation	Position in Committee
Shri Sanjay Malhotra.....	CMD	Chairman
Shri Sanjeev Kumar Gupta.....	Director (Technical)	Member
Shri Ajoy Choudhury.....	Director (Finance)	Member

The quorum of the Executive Committee of the Board is two members including the CMD.

Sub-Committee for review of lending rates for Term Loans/STLs

The Sub-Committee for review of lending rates for Term Loans/STLs was constituted by the Board for reviewing the lending rates of term loans and STLs.

As of March 31, 2021, the composition of the Sub-Committee for review of lending rates for Term Loans/STLs was as follows:

Name of the Director	Designation	Position
Shri Sanjay Malhotra.....	CMD	Chairman
Shri Sanjeev Kumar Gupta.....	Director (Technical)	Member
Shri Ajoy Choudhury	Director (Finance)	Member

The quorum for the meeting of Sub-Committee for review of lending rates for Term Loans/STLs is two members including the CMD.

Sub-Committee on Investment/Deployment of Surplus Funds

Our Company has a committee on investment or deployment of surplus funds for the purpose of investment of surplus funds.

As of March 31, 2021, the composition of the Sub-Committee on investment or deployment of surplus funds was as follows:

Name of the Director	Designation	Position in Committee
Shri Sanjay Malhotra.....	CMD	Chairman
Shri Sanjeev Kumar Gupta.....	Director (Technical)	Member
Shri Ajoy Choudhury	Director (Finance)	Member

The quorum of the meeting of the Committee is two members including the CMD. As on date, the Committee is *inter alia*, authorized to approve the investment/deployment of short term surplus funds, at any time, of more than Rs.10,000 million in a single instance in certificates of deposits and commercial papers, and more than Rs.15,000 million in mutual funds and fixed deposits.

Bond Committee of Directors for Public Issue

The Bond Committee of Directors for Public Issue has been constituted by the Board to settle all questions and remove any difficulties or doubts that may arise from time to time with regard to the issue of the REC Taxable Secured Redeemable Non-Convertible Bonds, to approve and/or carry out required updates of the draft shelf prospectus/shelf prospectus/tranche prospectus(es) or any such offer document(s) and to take such actions, give such directions, obtain any approvals, permissions and sanctions which may be necessary or desirable, as it may deem fit, or as the Bond Committee may *suo-moto* decide in its absolute discretion in the best interest of our Company.

As of March 31, 2021, the composition of the Bond Committee of Directors for Public Issue was as follows:

Name of the Director	Designation	Position in Committee
Shri Sanjay Malhotra.....	CMD	Chairman
Shri Sanjeev Kumar Gupta.....	Director (Technical)	Member
Shri Ajoy Choudhury	Director (Finance)	Member

The Indian Economy

India has an estimated population of 1.38 billion people as in October 2020. The Indian economy is one of the largest economies in the world, with a GDP at current price of an estimated U.S.\$2.83 trillion for the fiscal year 2019-2020. The IMF has projected a contraction of 8.0 per cent. in the GDP of India in FY21; this is an upgrade from the earlier estimate of a 10.3 per cent. contraction. Indian GDP growth projection for FY22 is revised upward to 11.5 per cent. from an earlier estimate of 8.8 per cent.. (Source: *The International Monetary Fund's World Economic Outlook as October 2020*)

The GDP growth of India began to slow down in Q1 of FY2019 and lost speed continuously for the next eight quarters, reaching 3.1 per cent. in Q4 of FY2020, the lowest in the national account series based to 2011-2012. Until the onset of COVID-19, the moderation in India's annual growth rate reflected cyclical forces, both global and domestic. The deceleration phase was accentuated by idiosyncratic events such as credit events in the NBFC space. (Source: *RBI Annual Report, 2020*)

Country	Estimated GDP Growth in 2022 (%)
China	8.2
India	8.8
Singapore.....	5.0
Brazil.....	2.8
United States	3.1
United Kingdom.....	5.9
Japan	2.3

(Source: *IMF Database, October 2020*)

The real gross value added (GVA) growth at basic prices slowed down to 3.9 per cent. in 2019-2020, 2.1 percentage points lower than a year ago. On the supply side, the main locomotive of growth, the services sector, has been severely affected by lockdown and industrial GVA went into an accentuated deceleration in 2019-2020.

The MPC noted that global recovery slackened in Q4 of CY2020 as several countries continued their battle with COVID-19 infections. With massive vaccinations underway, economic activity is expected to gain momentum in the second half of CY2021. In its January 2021 update, the IMF has revised upward its estimate of global growth in CY2020 to -3.5 per cent. from -4.4 per cent. and increased the projection of global growth for CY2021 by 30 basis points to 5.5 per cent.. Barring some emerging market economies, inflation remains benign on weak aggregate demand, although rising commodity prices carry upside risks. Financial markets remain buoyant, supported by easy monetary conditions,

abundant liquidity and optimism from the vaccine rollout. Global trade is also expected to rebound in 2021, with services trade on a slower recovery than merchandise trade.

According to the Monetary Policy Statement 2020-2021 of February 2021, the outlook for the Indian economy is as follows:

(a) The outlook for core inflation is likely to be impacted by further easing in supply chains; however, broad-based escalation in cost-push pressures in services and manufacturing prices due to an increase in industrial raw material prices could impart upward pressure. Furthermore, there could be increased pass-through to output prices as demand normalizes as indicated in the Reserve Bank's industrial outlook, services and infrastructure outlook surveys and purchasing managers' indices (**PMIs**) and firms regain pricing power. International crude oil prices may remain supported by demand build up on optimism from vaccination and continuing production cuts by OPEC plus. The crude oil futures curve has become downward sloping since December 2020.

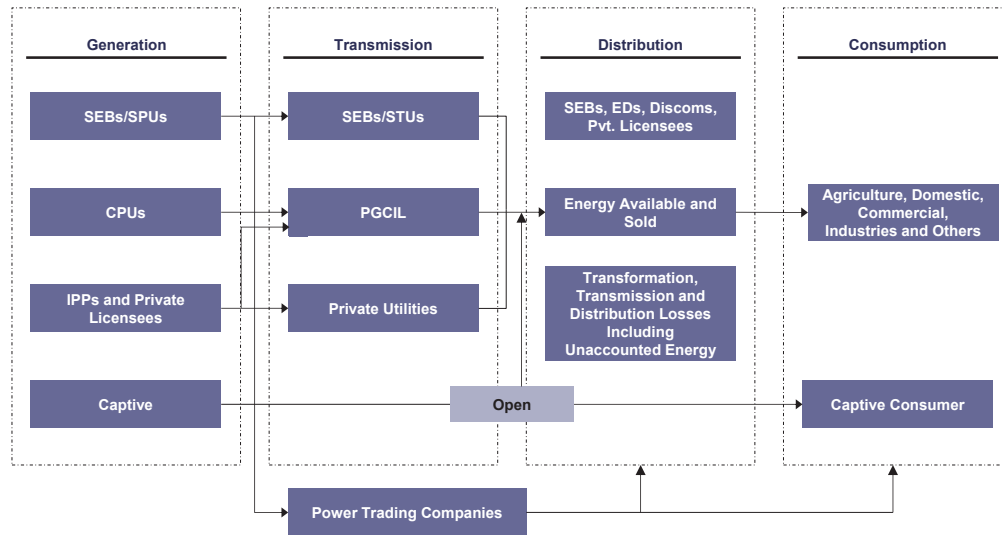

(b) Turning to the growth outlook, rural demand is likely to remain resilient on good prospects of agriculture. Urban demand and demand for contact-intensive services are expected to strengthen with the substantial fall in COVID-19 cases and the spread of vaccination. Consumer confidence is reviving and business expectations of manufacturing, services and infrastructure remain upbeat. The fiscal stimulus under the AtmaNirbhar 2.0 and 3.0 schemes of government will likely accelerate public investment, although private investment remains sluggish amidst still low capacity utilization. The Union Budget 2021-22, with its thrust on sectors such as health and well-being, infrastructure, innovation and research, among others, should help accelerate the growth momentum. Taking these factors into consideration, real GDP growth is projected at 10.5 per cent. in 2021-22 – in the range of 26.2 to 8.3 per cent. in H1 and 6.0 per cent. in Q3.

On the basis of an assessment of the current and evolving macroeconomic situation, MPC decided to continue with the accommodative stance as long as necessary – at least during the current financial year and into the next financial year – to revive growth on a durable basis and mitigate the impact of COVID-19 on the economy, while ensuring that inflation remains within the target going forward. The policy repo rate under the liquidity adjustment facility (**LAF**) was unchanged at 4 per cent. and the reverse repo rate under the LAF remains at 3.25 per cent. and the marginal standing facility (**MSF**) rate and the Bank rate at 4.25 per cent..

THE INDIAN POWER SECTOR

Structure of the Indian Power Sector

The following diagram depicts the structure of the Indian power industry for the generation, transmission, distribution and consumption:

Legend:

IPPs	Independent Power Producer
CPUs	Central Power Utilities
SEBs	State Electricity Boards
STUs	State Transmission Utilities
SPUs	State Power Utilities
PGCIL	Power Grid Corporation of India Limited
EDs	Electricity Departments
Discoms	Distribution Companies

Overview of the Indian power sector

India has continuously experienced shortages in energy and peak power requirements. According to CEA's monthly review of the power sector (**CEA Monthly Review**) published in February 2021, the provisional total energy deficit and peak power deficit during February 2021 was approximately 0.4 per cent. and 0.4 per cent., respectively. The shortages in energy and peak power have been primarily due to the sluggish progress in capacity addition. The Indian economy is based on planning through successive five year plans (**Five Year Plans**) that set out targets for economic development in various sectors, including the power sector. During the 9th Five Year Plan (1997-2002) (9th Plan), capacity addition achieved was 19,119 MW, which was 47.5 per cent. of the 40,245 MW targeted under the 9th Plan. During the course of the 10th Five Year Plan (2002 to 2007) (**10th Plan**), capacity addition achieved was 21,180 MW, which was 51.6 per cent. of the 41,110 MW targeted under the 10th Plan. During the 11th Five Year Plan (2007-2012) (**11th Plan**) capacity addition achieved has been 88.1 per cent. of the target addition or 62,374 MW. (Source: *Power Scenario at a Glance, MoP Website www.powermin.nic.in*) Owing to various reforms in the power sector, against the planned capacity addition in the 12th Five Year Plan (**12th Plan**) of 88,537 MW, 99,209 MW have been added comprising 91,730 MW of thermal projects, 5,479 MW of Hydro power projects and 2,000 MW of nuclear power projects. (Source: *Executive Summary, Power Sector, February 2021 from CEA, MoP*)

Power Demand in India

Rapid growth of the economy places a heavy demand on electric power. Reforms in the power sector, to make it efficient and more competitive, have been under way for several years and, while there has been some progress, a shortage of power and lack of access continue to be major constraints on

economic growth. The persistent shortages of electricity both for peak power and energy indicate the need for improving performance of the power sector in the country. (Source: website of the Planning Commission of India (*Planning Commission*))

The electricity generation target of conventional sources for the year 2020-21 has been fixed as 1330 Billion Unit (BU), i.e. growth of around 6.33 per cent. over actual conventional generation of 1250.784 BU for the previous year (2019-20). The conventional generation during 2019-20 was 1250.784 BU as compared to 1249.337 BU generated during 2018-19, representing growth of about 0.12 per cent..

Generation and growth in conventional generation (including renewable sources) in the country during 2009-10 to 2018-19 are as follows:

Year	Total Generation	% growth
2009-2010	808.498	7.56
2010-2011	850.387	5.59
2011-2012	928.113	9.14
2012-2013	969.506	4.46
2013-2014	1,020.200	5.23
2014-2015	1,110.392	8.84
2015-2016	1,173.603	5.69
2016-2017	1,241.689	5.80
2017-2018	1,308.146	5.35
2018-2019	1,376.095	5.19
2019-2020	1,389.102	0.95
2020-2021 up to Feb 2021	1,249.827	2.49

Provisional (Source: <http://powermin.nic.in/en/content/power-sector-glance-all-india>)

Power Supply in India

Historical Capacity Additions

Each successive Five Year Plan of the Government has had increased targets for the addition of power generation capacity. The energy deficit in India is a result of insufficient progress in the development of additional energy capacity. In each of the last three Five Year Plans (the 8th, 9th, and 10th Five Year Plans, covering Fiscal 1992 to Fiscal 2007), less than 55 per cent of the targeted additional energy capacity level was added. According to the white paper, India added an average of approximately 20,000 MW to its energy capacity in each of the 9th Plan and 10th Plan periods.

The total capacity addition during the past 30 years between the 6th Five Year Plan and the 11th Plan was approximately 154,374 MW.

Current Capacity

India's total installed capacity was 379.13 GW as of February 2021, including thermal projects, nuclear projects, hydro projects and renewable energy source projects. Thermal energy contributes to 2.33 GW of total capacity across Coal (201.08 GW), Lignite (6.62 GW), Gas (24.95 GW) and Diesel (510 MW). Hydro (Renewable) comprises 46.20 GW, RES contributes to 91.15 GW and Nuclear energy comprises 6.78 GW of the total installed capacity. (Source: *CEA Monthly Review February 2021*)

*RES – Renewable Energy Sources include Small Hydro projects, Biomass Gasifier, Biomass Power, Urban & Industrial Waste Power, Solar and Wind Energy.

(figures provided are in Mega Watts (MW))

Demand-Supply Imbalance in India

The Indian power sector has historically been beset by energy shortages which have been rising over the years. The following table provides the power supply position in the country during 2010-2011 to 2018-2019:

Year	Energy				Peak			
	Requirement (MU)	Availability (MU)	Surplus/Deficits (-)		Peak Demand (MW)	Peak Met (MW)	Surplus/Deficits (-)	
			(MU)	(%)			(MW)	(%)
2010-2011.....	861,591	788,355	-73,236	-8.5	122,287	110,256	12,031	-9.8
2011-2012.....	937,199	857,886	-79,313	-8.5	130,006	116,191	13,815	-10.6
2012-2013.....	995,557	908,652	-86,905	-8.7	135,453	123,294	12,159	-9.0
2013-2014.....	1,002,257	959,829	-42,428	-4.2	135,918	129,815	-6,103	-4.5
2014-2015.....	1,068,943	1,030,785	-38,138	-3.6	148,166	141,160	-7,006	-4.7
2015-2016.....	1,114,408	1,090,851	-23,557	-2.1	153,366	148,468	-4,903	-3.2
2016-2017.....	1,142,929	1,135,334	-7,595	-0.7	159,542	156,934	-2,608	-1.6
2017-2018	1,213,326	1,204,697	-8,629	-0.7	164,066	160,752	-3,314	-2.0
2018-2019	1,274,595	1,267,526	-7,070	-0.6	177,022	175,528	-1,494	-0.8
2019-2020	1,291,010	1,284,444	-6,566	-0.5	183,804	182,533	-1,271	-0.7
2020-2021 ⁽¹⁾	1,155,130	1,150,891	-4,329	-0.4	190,198	189,395	-802	-0.4

Future Capacity Additions

12th Five Year Plan (2012-2017) (the 12th Plan)

Capacity addition of 88,537 MW has been envisaged for the 12th Plan. This comprises an estimated 72,340 MW thermal power, 10,897 MW hydro power and 5,300 MW nuclear power. (Source: *Executive Summary, Power Sector, February 2021 from CEA, MoP*)

Power Transmission and Distribution

In India, the transmission and distribution system is a three-tiered structure comprising regional grids, state grids and distribution networks. The five regional grids, configured on a geographical contiguity basis, enable the transfer of power from a power-surplus state to a power-deficit state. The regional grids also facilitate the optimal scheduling of maintenance outages and better coordination between power plants. These regional grids are to be gradually integrated to form a national grid, whereby surplus power from a region could be redirected to another region facing power deficits, thereby allowing a more optimal utilization of the national generating capacity.

Most inter-regional and inter-state transmission links are owned and operated by PGCIL though some are jointly owned by the SEBs. State grids and distribution networks are mostly owned and operated by the respective SEBs, STUs, distribution companies, or state Governments (through state electricity departments). A direct consequence of the high AT&C losses that are experienced by the Indian power sector is the inadequate financial condition of SEBs and SPUs thereby restricting the SEBs from making any meaningful investments in the generation and the modernization of the transmission and distribution network.

POLICY INITIATIVES AND ECONOMIC REFORMS IN INDIA

Since 1991, India has witnessed reforms across the policy spectrum in the areas of fiscal and industrial policy, trade and finance. Some of the key reform measures are:

- (a) *Industrial Policy Reforms*: Removal of capacity licensing and opening up of various sectors to FDI;
- (b) *Trade Policy Reforms*: Lowering of import tariffs and restrictions on imports, across industries; and
- (c) *Monetary Policy and Financial Sector Reforms*: Lowering interest rates, relaxation of restrictions on fund movement and the introduction of private participation in insurance sectors.

In addition, FDI has been recognized as an important driver of economic growth in the country. The GoI has taken a number of steps to encourage and facilitate FDI and it is allowed in many key sectors of the economy, such as manufacturing, services, infrastructure and financial services. For many sectors, 100 per cent. FDI is allowed on an automatic basis, without prior approval from the Foreign Investment Promotion Board (**FIPB**). The cumulative amount of FDI Equity inflows in India from April 2000 to June 2019 (excluding amounts remitted through the RBI's NRI Schemes) is Rs. 24,918,640 million (U.S.\$436,350 million). Financial year wise equity inflows are elaborated as follows:

S. Nos.	Financial Year (April – March)	Amount of FDI Inflows		% growth over previous year (in terms of U.S.\$)	
		In ₹ million	In U.S.\$ million		
1.	2000-2001	107,330	2,463		
2.	2001-2002	186,540	4,065	(+)	65%
3.	2002-2003	128,710	2,705	(-)	33%
4.	2003-2004	100,640	2,188	(-)	19%
5.	2004-2005	146,530	3,219	(+)	47%
6.	2005-2006	245,840	5,540	(+)	72%
7.	2006-2007	563,900	12,492	(+)	125%
8.	2007-2008	986,420	24,575	(+)	97%
9.	2008-2009	1,428,290	31,396	(+)	28%
10.	2009-2010	1,231,200	25,834	(-)	18%
11.	2010-2011	973,200	21,383	(-)	17%
12.	2011-2012 ⁽²⁾	1,651,460	35,121	(+)	64%
13.	2012-2013	1,219,070	22,423	(-)	36%
14.	2013-2014	1,475,180	24,299	(+)	8%
15.	2014-2015	1,891,070	30,931	(+)	27%
16.	2015-2016 ⁽¹⁾	2,623,220	40,001	(+)	29%
17.	2016-2017 ⁽¹⁾	2,916,960	43,478	(+)	9%
18.	2017-2018 ⁽¹⁾	2,888,890	44,857	(+)	3%
19.	2018-2019	3,098,670	44,366	(-)	1%
20.	2019-2020 ⁽¹⁾	3,535,580	49,977	(+)	13%
21.	2020-2021 (up to Dec 2020)	3,830,550	51,470	(+)	40%
CUMULATIVE TOTAL					
(from April 2000 to Dec 2020)		31,229,250	522,783		–

Notes:

- (1) Figures for the years 2015-2016 to 2018-2019 are provisional subject to reconciliation with the RBI.
- (2) Inflows for the month of March 2012 are as reported by the RBI, consequent to the adjustment made in the figures of March 2011, August 2011 and October 2011.

Out of the total FDI inflows as mentioned, an amount of Rs. 854,500 million (U.S.\$15,359 million) has been invested in the power sector during April 2000 to December 2020. (Source: <https://dipp.gov.in/sites/default/files/FDI%20Factsheet%20December%202020.pdf>)

Further, in recent years, in light of persistent power shortages and given the estimated rate of increase in demand for electricity in India, the Government has taken significant action to restructure the power sector, increase capacity, improve transmission, sub-transmission and distribution, and attract investment to the sector. Some of the various strategies and reforms adopted by the Government and other initiatives in the power sector in India are summarized below:

Electricity Act, 2003

The Electricity Act is a Central legislation relating to generation, transmission, distribution, trading and use of electricity that seeks to replace the multiple legislations that govern the power sector. The Electricity Act aims to enable measures to be taken for the development of the electricity industry, promote competition, protect interest of consumers and supply of electricity to all areas, rationalize electricity tariff, ensure transparent policies regarding subsidies, promote efficient and environmentally benign policies, constitute the Central Electricity Agency and establish the Appellate Tribunal. The most significant reform initiative under the Electricity Act was the move towards a multi-buyer, multi-seller system as opposed to the existing structure which permitted only a single buyer to purchase power from power generators. In addition, the Electricity Act grants the electricity regulatory commissions freedom in determining tariffs. Under the Electricity Act, no license is required for generation of electricity if the generating station complies with the technical standards relating to connectivity with the grid. The Electricity Act was amended in 2007 to exempt captive power generation plants from licensing requirements for supply to any licensee or consumer and further amended in 2010 to provide that any developer of a special economic zone (SEZ) notified shall be deemed to be a licensee under the Electricity Act.

Electricity Amendment Bill, 2014

The Electricity (Amendment) Bill, 2014 (**Bill**) introduced by the government seeks to amend the Electricity Act. It seeks to segregate the distribution network business and the electricity supply business, and introduce multiple supply licensees in the market. The Bill was introduced in the Lok Sabha on December 19, 2014 and was referred to the Parliamentary Standing Committee on Energy (the **Panel**). The Panel gave its report on May 7, 2015; however, the Bill is yet to be passed in Parliament.

National Electricity Policy, 2005

The national electricity policy was notified in February 2005. This policy aims at accelerated development of the power sector, focusing on the supply of electricity to all areas and protecting the interests of consumers and other stakeholders, keeping in view the availability of energy resources and technology available to exploit these resources, economics of generations using different resources and energy security issues.

National Tariff Policy, 2016

In 2016, the Government, under the Electricity Act, notified the revised National Tariff Policy (the **Tariff Policy**) that replaces the existing tariff policy of 2006. The goals of the Tariff Policy are to ensure availability of electricity to consumers at reasonable and competitive rates, ensure the financial viability of the power sector, attract investment to the power sector, promote regulatory transparency, consistency and predictability across jurisdictions, minimize perceptions of regulatory risks, promote competition, ensure operational efficiency, improve the quality of the power supply, promote generation of electricity from renewable sources, promote hydroelectric power generation including pumped

storage projects (**PSP**) to provide adequate peaking reserves, reliable grid operation and integration of variable renewable energy sources, evolve a dynamic and robust electricity infrastructure for better consumer services, facilitate supply of adequate and uninterrupted power to all categories of consumers and ensure creation of adequate capacity including reserves in generation, transmission and distribution in advance, for reliability of supply of electricity to consumers. The Tariff Policy mandates that the relevant ERCs must reserve a minimum percentage for the purchase of solar energy equivalent to 8 per cent. of total consumption of energy by March 2022. In order to further encourage renewable sources of energy, the Tariff Policy mandates that no inter-State transmission charges and losses shall be levied until such period as may be notified on transmission of the electricity generated from solar power plants through the inter-State transmission system for sale. For transmission, the Tariff Policy aims to ensure optimal development of the transmission network with adequate margin for reliability, by efficient utilization of generation and transmission assets and attracting investment providing adequate returns. The benefits of improved efficiency and new technology are passed on to consumers through reduced tariffs. It emphasizes the need for the appropriate regulator to ensure the recovery of all prudent costs when approving the financial restructuring of a transmission company.

The Tariff Policy requires all future power requirements be procured competitively by distribution licensees except for the expansion of pre-existing projects or State Government owned or controlled companies. Regulators must resort to tariffs set by reference to standards of CERC, provided generating capacity expansion by private developers for this purpose is restricted to a one-time addition of not more than 100 per cent. of the existing capacity. Under the Tariff Policy, tariffs for all new generation and transmission projects are decided on a competitive bidding basis.

Rural Electrification Initiatives – Deendayal Upadhyaya Gram Jyoti Yojana

In April 2005, the GoI launched the Rajiv Gandhi Grameen Vidyutikaran Yojana (**RGGVY**), a comprehensive programme merging within it all the ongoing rural electrification schemes with the aim to further strengthen the pace of rural electrification and with the initial objective of electrifying over one lakh un-electrified villages and to provide free electricity connections for 17.3 million rural BPL households under the ambit of the Bharat Nirman Electrification plan. Under the RGGVY, electricity distribution infrastructure is envisaged to establish a rural electricity distribution backbone with at least a 33/11 kV sub-station in a block, a village electrification infrastructure with at least a distribution transformer in a village or hamlet, and standalone grids with generation where grid supply is not feasible. Subsidy towards capital expenditure to the tune of 90 per cent. is being provided, through our Company, which is a nodal agency for the implementation of the scheme. The RGGVY scheme has been subsumed into the new ‘Deendayal Upadhyaya Gram Jyoti Yojana’ (**DDUGJY**) scheme which was approved by the GoI in an office memorandum dated December 3, 2014. Electrification of un-electrified BPL households is being financed with a 100 per cent. capital subsidy at Rs. 3,000 per connection in all rural habitations. The services of CPSUs are available to the states for assisting them in the implementation of rural electrification projects.

The RGGVY scheme has been subsumed into the DDUGJY scheme according to the GoI’s notification on December 3, 2014. The components of the scheme are:

- (i) to separate agriculture and non-agriculture feeders for providing an adequate supply to agricultural and non-agricultural consumers in rural areas;
- (ii) strengthening and augmentation of sub-transmission and distribution infrastructure in rural areas including metering of feeders, distribution transformers and consumers; and
- (iii) rural electrification work covered under the erstwhile RGGVY subsumed into the DDUGJY.

The components at (i) and (ii) will have an estimated outlay of Rs. 430,330 million including budgetary support of Rs. 334,530 million from the GoI during the entire implementation period. For component

(iii) above, a scheme cost of Rs. 392,750 million including a budgetary support of Rs. 354,470 million has been approved.

Our Company is the nodal agency for operationalization of the scheme and our Company would be paid 0.5 per cent. of the total project cost as an agency fee.

Cumulatively up to August 2018, works in 185,883 un-electrified villages are in scope to be completed under the new plan out of 53,152 villages have been completed. Cumulative intensive electrification of 490,179 villages has been completed under Plan X, XI, XI – II, XII, representing a 100 per cent., 98 per cent., 82 per cent. and 61 per cent. achievement of the target respectively. Further, electricity connections to 30.36 million BPL households have been provided under the scheme. (Source: http://www.ddugjy.gov.in/portal/memo/executive_summary/executive_summary.pdf)

Rural Electrification Initiatives – Saubhagya

On September 25, 2017, the Government launched a Rs. 163.5 billion household electrification scheme named Pradhan Mantri Sahaj Bijli Har Ghar Yojana (translated as the Prime Minister’s Program to provide easy electricity access to all households), or ‘Saubhagya’.

The objective of the ‘Saubhagya’ is to provide energy access to all by last mile connectivity and electricity connections to all remaining un-electrified households in rural as well as urban areas. Projects under the scheme would be sanctioned based on the Detailed Project Reports to be submitted by the States, prepared by the State DISCOMs/Power Department and sanctioned by an inter-ministerial Monitoring Committee headed by the Secretary (Power), Government of India. Considering an average load of 1 KW per household and average uses of load for 8 hours in a day, estimated rise in demand for power after the inclusion of all households will be about 28,000 MW. With the enhancement of income and the habit of using electricity, the demand of electricity is bound to increase. Access to electricity is also expected to boost power-based ancillary economic and business activities, which will further increase the demand for power.

Our Company has been entrusted with the responsibility of operationalization of the Saubhagya scheme throughout India and will act as the nodal agency.

Ultra Mega Power Projects

For meeting the growing needs of the economy, generation capacity in India must rise significantly and sustainably over the coming decades. There is therefore a need to develop large capacity projects at the national level to meet the requirements of different states. Development of UMPPs is one of the steps that the MoP is taking to meet this objective. Each project is a minimum of 4,000 MW and involves an estimated investment of approximately U.S.\$4 billion. The projects are expected to substantially reduce power shortages in India. The UMPPs will be awarded to developers on a build-own-operate basis and are expected to be built at 16 different locations.

Independent Transmission Projects (ITP)

The MoP has initiated a tariff-based competitive bidding process for ITPs, which is a process similar to that followed for UMPPs, for the development of transmission systems through private sector participation. The ITPs aim to evacuate power from generating stations and transmit the power from pooling stations to other grid stations, resulting in system strengthening across India. (Source: *website of the MoP*)

Hydro Power Policy 2008

The Hydro Power Policy 2008 emphasizes increasing private investment in the development of hydroelectric projects. The policy aims at attracting private funds by encouraging joint ventures with private developers and the use of the IPP model, in addition to promoting power trading and speeding up the availability of statutory clearances. The policy provides guidelines for accelerated development of the hydropower industry in India, particularly in the Himalayan States. (Source: www.powermin.nic.in, *Hydropower Policy 2008, MoP*)

National Solar Mission

The Ministry of New and Renewable Energy (**MNRE**) has approved a new policy on the development of solar energy in India by the Jawaharlal Nehru National Solar Mission. The mission recommends the implementation of an installed capacity of 100,000 MW by the end of the 13th Five Year Plan. It proposes to establish a single window investor-friendly mechanism, which reduces risk and, at the same time, provides an attractive, predictable and sufficiently adequate tariff for the purchase of solar power from the grid. The key driver for promoting solar power would be through a renewable purchase obligation mandated for power utilities, with a specific solar component. (Source: www.mnre.gov.in)

Restructured Accelerated Power Development and Reform Program

The GoI introduced the Accelerated Power Development Program (**APDP**) in Fiscal 2001 as part of the reform of the Indian power sector. During the 10th Five Year Plan, the GoI subsequently upgraded the APDP programme to the APDRP in Fiscal 2003. In July 2008, the APDRP was restructured and the MoP launched the R-APDRP.

The R-APDRP is a GoI initiative launched for implementation during the 11th Five Year Plan. The focus of the programme is the actual demonstrable performance in terms of sustained loss reduction, establishment of reliable and automated systems for collection of accurate and reliable baseline data, and adoption of IT in the areas of energy accounting and the implementation of regular distribution strengthening projects. The programme envisaged objective performance evaluation of utilities in terms of AT&C losses.

Under the R-APDRP, projects are being undertaken in two parts. Part – A includes the projects for the establishment of baseline data and IT applications for energy accounting as well as IT-based customer care centers and Part – B includes the regular strengthening projects.

IPDS

The President of India sanctioned the launch and implementation of the “Integrated Power Development Scheme” (**IPDS**) with the following components:

- (i) strengthening of sub-transmission and distribution networks in urban areas;
- (ii) metering of distribution transformers, feeders and consumers in urban areas; and
- (iii) IT enablement of the distribution sector and strengthening of the distribution network, according to the CCEA approval dated June 21, 2013 for the completion of the targets laid down under the R-APDRP for the 12th and 13th Plans by carrying forward the approved outlay for the R-APDRP to the IPDS.

The components at (i) and (ii) above will have an estimated outlay of Rs. 326,120 million including a budgetary support of Rs. 253,540 million from the GoI during the entire implementation period.

The scheme of R-APDRP as approved by CCEA for continuation in the 12th and 13th Plans will get subsumed in this scheme as a separate component relating to IT enablement of the distribution sector and strengthening of the distribution network component (iii) above for which CCEA has already approved the scheme cost of Rs. 440,110 million, including a budgetary support of Rs. 227,270 million. Atmanirbhar Bharat Abhiyan

In response to COVID-19 related economic distress, the Government of India announced on May 12, 2020 government reforms and incentives across seven sectors under “Atmanirbhar Bharat Abhiyaan”, a special economic and comprehensive package of Rs. 20 trillion, equivalent to 10 per cent. of India’s GDP, for a Self-Reliant India Movement.

The package is proposed to cushion the economy of India and aims at having a self-reliant India by focusing on the need to manufacture international quality products to export to other countries. Following are key highlights of the package announced. (Source: *Press Information Bureau of India – Ministry of Finance Releases*)

As part of the package, Finance Minister Nirmala Sitharaman had announced Rs. 900 billion liquidity infusion into cash strapped DISCOMs facing demand slump due to the COVID-19 crisis. This package was later increased to Rs. 1,200 billion by the Ministry of Power. The loan disbursements under the package are co-funded by REC and PFC in equal proportion.

STRUCTURE OF INDIA’S FINANCIAL SERVICES INDUSTRY

The RBI is the central regulatory and supervisory authority for the Indian financial system. The Board for Financial Supervision, constituted in November 1994, is the principal body responsible for the enforcement of the RBI’s statutory regulatory and supervisory functions. SEBI and the IRDA regulate the capital markets and the insurance sectors, respectively.

A variety of financial institutions and intermediaries, in both the public and private sectors, participate in India’s financial services industry. These are:

- commercial banks;
- small banks and payment banks;
- long-term lending institutions;
- NBFCs, including housing finance companies;
- other specialized financial institutions and state-level financial institutions;
- insurance companies; and
- mutual funds.

Debt Market in India

The Indian debt market has two segments; namely, the government securities market and the corporate debt market.

Government securities market

During the years 2010 and 2011, the RBI undertook various measures related to the development of the Government securities (**G-Sec**) market. In particular, a working group was set up to examine ways to enhance liquidity in the G-Sec and interest rate derivatives markets.

Change in Auction Timing of G-Secs – To improve the efficiency of the auction process of G-Secs, GoI dated securities, treasury bills (**T-Bills**), cash management bills, and state development loans, the timings for primary auction under competitive bidding have been revised from 10.30am-12.30pm to 10.30am-12 noon from April 13, 2012. This will permit more time for secondary market transactions for the securities auctioned on that day.

Extension of DvP-III facility to Gilt Account Holders – To extend the benefits of net settlement of securities and funds in the G-Sec market to gilt account holders (**GAHs**), the DvP III facility was extended in July 2011 to all transactions undertaken by GAHs, except those undertaken between GAHs of the same custodian.

Revised Guidelines for Authorization of PDs – To make the primary dealer (**PD**) authorization policy more transparent and ensure that new PDs have sound capital and adequate experience/expertise in the G-Sec market, the PD authorization guidelines were revised in August 2011. The applicant entity is required to be registered as an NBFC and should have exposure in the securities business, in particular to the G-Sec market, for at least one year prior to the submission of an application for undertaking PD business.

Working Group on Enhancing Liquidity in the G-Sec and Interest Rate Derivatives Markets – Considering the important role of the G-Sec market and the prominence of G-Sec in the investment portfolio of financial institutions, particularly banks, the RBI has been constantly reviewing the developments to further broaden and deepen this market. Despite the developments in the G-Sec market in the past two decades, it was deemed necessary to promote liquidity in the secondary market for G-Secs, especially across the yield curve. As part of this endeavor, the RBI set up a working group (Chairman: Mr. R. Gandhi) in December 2011, comprising various stakeholders, to examine and suggest ways to enhance secondary market liquidity in the G-Sec market and interest rate derivatives markets. The group submitted its report on August 10, 2012.

Direct Access to Negotiated Dealing System – Order Matching (NDS-OM) – In November 2011, direct access to NDS-OM was extended to licensed urban cooperative banks and systemically important non-deposit taking non-banking financial companies (**NBFC-ND-SIs**) that fall under the purview of Section 45-I(c)(ii) of the RBI of India Act, 1934, subject to compliance with the stipulated financial norms and procurement of an NOC from the respective regulatory departments.

Introduction of a Web-based System for Access to NDS-Auction and NDS-OM – To facilitate direct participation by the retail and mid-segment investors in G-Sec auctions, the RBI has allowed web-based access to the negotiated dealing system (**NDS**)-auction developed by the Clearing Corporation of India Limited. The system allows GAHs to directly place their bids in the G-Sec auction through a primary member's portal, as against the earlier practice wherein the primary member used to combine bids of all constituents and bid in the market on their behalf. A similar web-based access to the NDS-OM system for secondary market transactions has been permitted since June 2012.

Extension of Short Sale Period from Five Days to Three Months – Short selling plays an important role in price discovery, promoting liquidity and better risk management. With the re-introduction of IRFs on exchanges, there was a need to revisit the guidelines on short selling to ensure parity between the cash and futures market vis-à-vis short selling. Accordingly, the period of short sale was extended from five days to three months from February 1, 2012. This is expected to stimulate the IRF market by

helping participants to hedge or arbitrage more effectively, and to develop the term repo market. (Source: www.rbi.org.in/scripts/annualreportpublications.aspx?Id=1042)

During 2019-20, the gross market borrowings through dated G-sec were higher by 24.3 per cent. than a year ago. Net market borrowing through dated G-sec also increased by 12.1 per cent. on account of higher borrowings during the year. Net market borrowing through dated G-sec financed 61.8 per cent. of the center's gross fiscal deficit (**GFD**) as against 65.1 per cent in the previous year. The net market borrowing through dated securities and T-Bills taken together also increased in 2019-20.

The net short-term market borrowing of the government through T-Bills (91, 182 and 364 days) marginally increased to `37,528 crore during 2019-20 as against `35,600 crore in the previous year.

The weighted average yield (**WAY**) on GoI dated securities issued during 2019-20 declined by 93 basis points (**bps**) on a year-on-year basis. The weighted average coupon on dated securities on the entire debt stock also decreased albeit marginally. Consequent upon the decision by the GoI to undertake more borrowings in the maturity bucket of over 15 years, the weighted average maturity (**WAM**) of issuances increased during 2019-20, resulting in a marginal increase in WAM on the outstanding debt.

During 2019-20, G-sec yields softened considerably with 10-year benchmark yield moderating by 121 basis points (bps) from 7.35 per cent to 6.14 per cent, attributed to cumulative reduction in repo rate by 185 bps during the year, coupled with accommodative policy stance and OMO purchases. A new 10-year G-sec paper (6.45 per cent. GS 2029) was also issued on October 7, 2019 with a coupon considerably lower than that of the previous issuance (7.26 per cent. GS 2029 issued on January 8, 2019). Further, the Reserve Bank announced various other monetary easing measures which impacted the yield curve. Specifically, special OMOs of `40,000 crore were conducted in December 2019 and January 2020, wherein the Reserve Bank bought long-term securities and sold short-term securities simultaneously. The Reserve Bank also conducted Long Term Repo Operations (**LTROs**) for 1-year and 3-year tenors at policy repo rate for `1,25,000 crore in February and March 2020 to provide durable liquidity to the system at reasonable cost. Since the credit offtake in the system remains muted, the LTROs resulted in significant softening in G-sec yields for short-tenor papers. These developments led to an increase in spreads between short-term and long-term G-sec yields, steepening the yield curve towards the end of March 2020. (Source: *RBI Annual Report FY 2019-2020*)

The weighted average yield (WAY) of cutoff yield for State Development Loans (**SDLs**) issued during 2019-20 was lower at 7.24 per cent than 8.32 per cent in the previous year. Accordingly, the weighted average spread (**WAS**) of SDL issuances over comparable central government securities was 55.02 bps in 2019-20 as compared with 64.66 bps in the previous year.

In 2019-20, 17 states and one union territory issued non-standard securities of tenors ranging from two to 40 years. As a strategic response to higher spreads, nine states rejected all the bids in some of the auctions. Following the policy of passive consolidation, 11 states (viz., Bihar, Gujarat, Haryana, Himachal Pradesh, Karnataka, Madhya Pradesh, Maharashtra, Punjab, Rajasthan, Tamil Nadu and Telangana) undertook re-issuances during 2019-20, which helped in creating liquidity for their securities in the secondary market. The average inter-state yield spread on 10 year fresh issuance was 6 bps in 2019-20, the same as observed in 2018-19, reflecting their continued disconnect from the fiscal health of issuing states. (Source: *RBI Annual Report FY 2019-2020*)

Corporate debt market

Pursuant to the guidelines of the High Level Expert Committee on Corporate Bonds and Securitization (December 2005) and the subsequent announcement made in the Union Budget 2006-07, SEBI authorized BSE (January 2007), NSE (March 2007) and the Fixed Income Money Market and Derivatives Association of India (**FIMMDA**) (August 2007) to set up and maintain corporate bond reporting platforms for information related to trading in corporate bonds.

BSE and NSE put in place corporate bonds trading platforms in July 2007 to enable efficient price discovery in the market. This was followed by the operationalization of a DvP-I (trade-by-trade)-based clearing and settlement system for over-the-counter trades in corporate bonds by the clearing houses of the exchanges. In view of these market developments, the RBI announced in its second quarter review of the annual policy statement for 2009-10, in October 2009, that the repo in corporate bonds could now be introduced. The RBI issued the Repo in Corporate Debt Securities (Reserve Bank of India) Directions, 2010, on January 8, 2010.

The private placement of corporate bonds increased to Rs. 6,747,028 million (through 1,787 issues) in FY20 from Rs. 6,103,176 million (through 2,358 issues) in FY19. (Source: SEBI Website: <https://www.sebi.gov.in/statistics/corporate-bonds/privateplacementdata.html>)

NBFC – Infrastructure Finance Companies

In February 2010, the RBI introduced IFCs as a new category of infrastructure funding entities. Non-deposit taking NBFCs which satisfy the following conditions are eligible to apply to the RBI to seek IFC status:

- a minimum of 75 per cent of its assets deployed in infrastructure loans;
- net owned funds of at least Rs. 3,000 million;
- minimum credit rating “A” or equivalent rating by CRISIL, India Ratings and Research Pvt Ltd, CARE, ICRA, Brickwork Rating India Pvt. Ltd. (**Brickwork**) or equivalent rating by any other credit rating agency accredited by the RBI; and
- capital to risk (weighted) assets ratio of 15 per cent. (with a minimum Tier 1 capital of 10 per cent.).

IFCs enjoy relaxation in their single party and group exposure norms and in turn lend more to the infrastructure sector. For more information, see the section titled “*Regulations and Policies*” on page 238 of this Offering Circular.

PROVIDERS OF FINANCE TO THE POWER SECTOR IN INDIA

The primary providers of power sector financing in India are power sector specific government companies, financing institutions, public sector banks and other public sector institutions, international development institutions and private banks. Besides our Company, the other public sector companies and agencies engaged in financing the power sector are as follows.

Power Finance Corporation Limited

Power Finance Corporation was incorporated in July 1986, with the main objective of financing power projects, transmission and distribution works and the renovation and modernization of power plants. PFC is a PSU and its main objective is to provide financial resources and encourage flow of investments to the power and associated sectors, to work as a catalyst to bring about institutional improvements in streamlining the functions of its borrowers in financial, technical and managerial areas to ensure optimum utilization of available resources and to mobilize various resources from domestic and international sources at competitive rates.

Indian Renewable Energy Development Agency

The Indian Renewable Energy Development Agency (**IREDA**) is a wholly owned government company, which is registered as an NBFC and has been notified as an IFC. It was established in 1987,

under the administrative control of the Ministry of Non-Conventional Energy Sources of the Government, with the objective of promoting, developing and extending financial assistance for renewable energy, energy efficiency and energy conservation projects.

Private Financial Institutions

Financial institutions were established to provide medium-term and long-term financial assistance to various industries for setting up new projects and for the expansion and modernization of existing facilities. These institutions provide fund-based and non-fund-based assistance to the industry in the form of loans, underwriting, direct subscription to shares, debentures and guarantees, and therefore they compete in the Indian Power Finance sector. The primary long-term lending institutions include Infrastructure Development Finance Company Limited and PTC India Financial Services Limited.

State Level Financial Institutions

State financial corporations operate at the state level and form an integral part of the institutional financing system. State financial corporations were set up to finance and promote small- and medium-sized enterprises. At the state level, there are also state industrial development corporations, which provide finance primarily to medium-sized and large-sized enterprises. Examples include the Delhi Financial Corporation, the Delhi State Industrial Development Corporation Limited, the Economic Development Corporation of Goa, Daman and Diu Limited, the Goa Industrial Development Corporation, the Western Maharashtra Development Corporation Limited, the Madhya Pradesh State Industrial Development Corporation Limited and the Orissa Industrial Infrastructure Development Corporation. (*Source: Website for the Council of State Industrial Development and Investment Corporations of India*)

Public Sector Banks and other Public Sector Institutions

Public sector banks are believed to make up the largest category of banks in the Indian banking system. The primary public sector banks operating in the power sector include the IDBI Bank, SBI, Punjab National Bank and the Bank of Baroda. Other public sector entities also provide financing to the power sector. These include organizations such as the Life Insurance Corporation of India, India Infrastructure Finance Company Limited, IFCI Limited and Small Industries Development Bank of India. During the financial year ended March 31, 2020, ten of the Public Sector Banks were merged into four entities. These included the merger of United Bank of India and Oriental Bank of Commerce with Punjab National Bank, Syndicate Bank merger with Canara Bank, Allahabad Bank merger with Indian Bank and merger of Andhra Bank and Corporation Bank with Union Bank of India. The merger has come into effect from April 1, 2020.

International Development Financial Institutions

International development financial institutions are supportive of power sector reform and of more general economic reforms aimed at mobilizing investment and increasing energy efficiency. The primary international development financial institutions involved in power sector lending in India include several international banking institutions such as the Japan Bank for International Cooperation, KfW, the World Bank, ADB and the International Finance Corporation.

In the early 1990s, the World Bank decided to mainly finance projects in states that “demonstrate a commitment to implement a comprehensive reform of their power sector, privatize distribution and facilitate private participation in generation and environment reforms”. Recent loans from the World Bank have gone to support the restructuring of SEBs. In general, the loans are for rehabilitation and capacity increase of the transmission and distribution systems, and for improvements in metering the power systems in Indian states that have agreed to reform their power sector.

The overall strategy of the ADB for the power sector is to support restructuring, especially the promotion of competition and private sector participation. Like the World Bank, the ADB also provides loans for restructuring the power sector in the states and improving transmission and distribution.

REGULATIONS AND POLICIES

This section provides a brief overview of the statutory and regulatory framework governing activities in the infrastructure financing industry in India. The regulations set out below may not be exhaustive, and are only intended to provide general information to potential investors and are neither designed nor intended to be a substitute for professional legal advice, and are a generic narration of the Indian laws applicable to the Company as on the date of this Offering Circular. Taxation statutes such as the Income Tax Act, the CST Act and other miscellaneous regulations and statutes, apply to the Company as they do to any other Indian company. The statements below are based on the current provisions of Indian law, and the judicial and administrative interpretations thereof, which are subject to change or modification by subsequent legislative, regulatory, administrative or judicial decisions.

The statements below are based on the current provisions of Indian laws, and the judicial and administrative interpretations thereof, which are subject to change or modification by subsequent statutory, legislative, regulatory, administrative or judicial decisions.

REGULATIONS GOVERNING NBFCs

The Company is a Non-Banking Finance Company, that is Non Deposit taking and Systemically Important (NBFC-ND-SI) and is notified as a public financial institution under section 2(72) of the Companies Act, 2013, as amended from time to time (corresponding to the erstwhile Section 4A of the Companies Act, 1956) and also classified as an Infrastructure Finance Company (IFC) by the RBI by its letter dated September 17, 2010. The Company is a leading public financial institution in the Indian power infrastructure sector and is engaged in the financing and promotion of transmission, distribution and generation projects throughout India. The business activities of NBFCs and public financial institutions are regulated by various RBI regulations, but as a Government company, the Company has the benefit of certain exemptions/extensions that have been granted, along with tax- related exemption for instruments issued by the Company as per directives of Ministry of Finance, Government of India (GoI) as further described below.

NBFCs are primarily governed by the Reserve Bank of India Act, 1934, as amended (the **RBI Act**), Non-Banking Financial Company Systemically Important NBFC Directions and the Non-Banking Financial Company – Non-Systemically Important Non-Deposit taking Company and Deposit taking Company (Reserve Bank) Directions, 2016. Additionally, NBFCs are also governed by various circulars, notifications, guidelines and directions issued by the RBI from time to time.

The RBI Act

The RBI Act defines an NBFC under Section 45-I (f) as:

- (a) a financial institution which is a company;
- (b) a non-banking institution which is a company, and which has as its principal business the receiving of deposits, under any scheme or arrangement or in any other manner, or lending in any manner; and
- (c) such other non-banking institution or class of such institutions, as the Bank may, with the previous approval of the Central Government and by notification in the Official Gazette, specify.

A “financial institution” and a “non-banking institution” have been defined under Sections 45-I(c) and 45-I (e) of the RBI Act, respectively. Section 45-I (c) of the RBI Act defines a “financial institution” as a non-banking institution carrying on as its business or part of its business, among other activities, the financing, whether by making loans or advances or otherwise, of any activity, other than its own. Also,

section 45-I (e) of the RBI Act defines a non-banking institution as a company, corporation or cooperative society.

The RBI has clarified that, while identifying a company as an NBFC, it will consider both the assets and the income pattern from the last audited balance sheet to decide its principal business. A company will be treated as a NBFC if: (a) its financial assets are more than 50 per cent. of its total assets (netted off by intangible assets); and (b) income from financial assets should be more than 50 per cent. of the gross income. Both these tests are required to be satisfied as the determinant factor for the principal business of a company.

NBFCs which are Government companies in which not less than 51 per cent. of the paid up capital is held by the Central Government or by any State Government or partly by the Central Government and partly by one or more State Governments, and includes a company which is a subsidiary of a Government company (**Government NBFCs**), have been provided with certain exemptions/extensions from complying with the various parts of the RBI Act relating to maintenance of liquid assets, creation of reserve funds and the directions relating to acceptance of public deposits and certain prudential norms.

Government owned companies, as defined under Section 2(45) of the Companies Act, 2013 and registered with RBI as NBFCs, were exempt from the following regulatory and statutory provisions:

- (i) Sections 45-IB and 45-IC of the RBI Act, 1934;
- (ii) Master Direction - Non-Banking Financial Company - Systemically Important Non-Deposit taking Company and Deposit taking Company (Reserve Bank) Directions, 2016 and Master Direction - Non-Banking Financial Company – Non-Systemically Important Non-Deposit taking Company (Reserve Bank) Directions, 2016 (except provisions contained in paragraph 23 of these directions); and
- (iii) Master Direction - Non-Banking Financial Companies Acceptance of Public Deposits (Reserve Bank) Directions, 2016 (except certain provisions contained in these Directions).

However, pursuant to its circular dated May 31, 2018, RBI has made the above set out regulations and provisions applicable to Government owned NBFCs, and Government owned NBFCs are required to comply with the same at the latest by March 31, 2022. The RBI Act states that an NBFC shall commence or carry on the business of a non-banking financial institution after obtaining a certificate of registration (**CoR**) and having a minimum net owned fund of Rs. 2.5 million and not exceeding Rs.1000 million. NBFCs that do not accept deposits from the public also need to obtain a CoR, however the same will not authorize them to accept public deposits. All NBFCs are required to submit a certificate from their statutory auditors every year stating that they continue to undertake the business of a non-banking financial institution.

Systemically Important NBFC Directions

The RBI has issued the Non-Banking Financial Company — Systemically Important Non-Deposit taking Company and Deposit taking Company (Reserve Bank) Directions, 2016, as amended from time to time (**Systemically Important NBFC Directions**). NBFC-NDs must comply with prescribed capital adequacy ratios, income recognition, asset classification and provisioning requirements applicable to NBFCs, exposure norms, constitution of audit committee, disclosures in the balance sheet, restrictions and concentration of credits and investments, norms for restructuring of advances and flexible structuring of long-term project loans to infrastructure and core industries, single and group exposure norms and other prudential requirements prescribed.

These norms are being implemented by the Company, to the extent applicable, subject to exemptions available from the RBI on credit concentration i.e., for exposure to central/state government entities, our Company is exempted from applicability of RBI's credit concentration norms up to March 31, 2022.

Classification of Infrastructure Finance Companies

All NBFC-NDs with an asset size of Rs.5,000 million or more in accordance with the last audited balance sheet will be considered as an NBFC-ND-SI. An Infrastructure Finance Company (IFC) NBFC-ND-SI in addition fulfils the following criteria:

- (a) a minimum of 75 per cent. of its total assets deployed in “infrastructure loans”;
- (b) net owned funds of Rs.3 billion or above;
- (c) minimum credit rating ‘A’ or equivalent of CRISIL, India Ratings and Research Pvt. Ltd., CARE, ICRA, Brickwork Rating India Pvt. Ltd. (Brickwork) or equivalent rating by any other credit rating agency accredited by RBI; and
- (d) CRAR of 15 per cent. (with a minimum Tier I capital of 10 per cent.).

The Company is a Government IFC NBFC-ND-SI and consequently is subject to the following lending and investment norms in private sector:

- (a) lend to: (i) any single borrower exceeding 25 per cent. of its owned fund; and (ii) any single group of borrowers exceeding 40 per cent. of its owned fund;
- (b) invest in: (i) the shares of another company exceeding 15 per cent. of its owned fund; and (ii) the shares of a single group of companies exceeding 25 per cent. of its owned fund; or
- (c) lend and invest (loans/investments taken together) exceeding: (i) 30 per cent. of its owned fund to a single party; and (ii) 50 per cent. of its owned fund to a single group of parties.

RBI has granted an exemption to our Company pursuant to a letter dated June 16, 2016 from concentration norms in respect of exposure to central and state entities in the power sector until March 31, 2022, our maximum credit exposure limits to such utilities varies from 50 per cent to 250 per cent of our net worth, depending on the entity appraisal and status of unbundling of the respective state utilities. In respect of Private Sector entities, the Company's credit exposure to single borrowers and group borrowers did not exceed the RBI prudential exposure limits as at 31st March 2019 and 31st March 2018.

Private Placement Guidelines

The RBI's Systemically Important NBFC Directions contain provisions with respect to NBFCs raising money through private placement of non-convertible debentures (NCDs). NBFCs need a board-approved policy for resource planning which, *inter alia*, should cover the planning horizon and the periodicity of private placement. The Company is governed by the following instructions:

- (a) The minimum subscription per investor is Rs.20,000.
- (b) The issuance of private placement of NCDs shall be in two separate categories, those with a maximum subscription of less than Rs. 1 crore and those with a minimum subscription of Rs. 1 crore and above per investor.
- (c) There shall be a limit of 200 subscribers for every financial year, for issuance of NCDs with a maximum subscription of less than Rs. 1 crore, and such subscription shall be fully secured.

- (d) There shall be no limit on the number of subscribers in respect of issuances with a minimum subscription of Rs. 1 crore and above; the option to create security in favor of subscribers shall be with the issuers. Such unsecured debentures shall not be treated as public deposits as defined in these Directions.
- (e) An NBFC shall issue debentures only for deployment of funds on its own balance sheet and not to facilitate resource requests of group entities / parent company / associates.
- (f) An NBFC shall not extend loans against the security of its own debentures (issued either by way of private placement or public issue).

The Company, in respect of any private placements of debentures, needs to comply with the regulations of SEBI from time to time. These include, but are not limited to, the following: (i) the electronic booking platform provided by a recognized stock exchange for any issuance by the Company by way of a private placement of securities. The bidding mechanism applies to: (a) a single issue, inclusive of green shoe option, if any, of Rs 200 crore or more; (b) a shelf issue, consisting of multiple tranches, which cumulatively amounts to Rs 200 crore or more, in a financial year; or (c) a subsequent issue, where aggregate of all previous issues by an issuer in a financial year equals or exceeds Rs 200 crore. Participants are then required to submit their bids through this platform to purchase securities.

The Company may be required to: (i) provide certain information and do certain acts in this respect; and (ii) provide circulars relating to the clubbing of international securities identification numbers for frequent issuers of debt issues with the same tenor during a quarter who, then, may club issuances under the same umbrella international securities identification numbers.

Measures for Capital Augmentation by NBFCs

NBFC-ND-SIs which meet the criteria prescribed in the Systemically Important NBFC Directions, may augment their capital funds by the issuance of perpetual debenture instruments in accordance with certain specified guidelines. Such perpetual debenture instruments shall be eligible for inclusion as Tier I capital to the extent of 15.0 per cent of the total Tier I capital as of March 31 of the previous accounting year. NBFC-ND-SIs may augment their Tier II capital by the issuance of hybrid capital instruments and subordinated debt within certain specified guidelines. Perpetual debenture instruments issued in excess of 15.0 per cent will be included in Tier II capital, subject to the proviso that Tier II capital does not exceed Tier I capital.

Every NBFC shall, after taking into account the degree of well-defined credit weaknesses and extent of dependence on collateral security for realization, classify its lease/hire purchase assets, loans and advances and any other forms of credit into the following classes, namely: (i) standard assets; (ii) sub-standard assets; (iii) doubtful assets; and (iv) loss assets.

A Non-Performing Asset (**NPA**) shall mean: (a) an asset, in respect of which, interest has remained overdue for a period of six months or more; (b) a term loan inclusive of unpaid interest, when the instalment is overdue for a period of six months or more or on which interest amount remained overdue for a period of six months or more; (c) a demand or call loan, which remained overdue for a period of six months or more from the date of demand or call or on which interest amount remained overdue for a period of six months or more; (d) a bill which remains overdue for a period of six months or more; (e) the interest in respect of a debt or the income on receivables under the head 'other current assets' in the nature of short term loans/advances, which facility remained overdue for a period of six months or more; (f) any dues on account of sale of assets or services rendered or reimbursement of expenses incurred, which remained overdue for a period of six months or more; (g) the lease rental and hire purchase instalment, which has become overdue for a period of twelve months or more; (h) in respect of loans, advances and other credit facilities (including bills purchased and discounted), the balance outstanding under the credit facilities (including accrued interest) made available to the same borrower/beneficiary when any of the above credit facilities become non-performing assets.

Norms for excessive interest rates

Interest rates beyond a certain level may be seen to be excessive and can neither be sustainable nor be conforming to normal financial practice. Boards of applicable NBFCs, therefore, are required to lay out appropriate internal principles and procedures in determining interest rates and processing and other charges. The Board of each applicable NBFC shall adopt an interest rate model taking into account relevant factors such as cost of funds, margin and risk premium and determine the rate of interest to be charged for loans and advances.

Asset Liability Management

The management of NBFCs is required to base its business decisions on a dynamic and integrated risk management system and process, driven by corporate strategy. It is, therefore, important that NBFCs introduce effective risk management systems that address the issues relating to interest rate and liquidity risks.

NBFCs are exposed to several major risks in the course of their business – credit risk, interest rate risk, equity / commodity price risk, liquidity risk and operational risk. It is, therefore, important that NBFCs introduce effective risk management systems that address the issues relating to interest rate and liquidity risks. The initial focus of the Asset Liability Management (**ALM**) function shall be to enforce the risk management discipline or manage the business after assessing the risks involved. The objective of good risk management systems shall be that these systems will evolve into a strategic tool for the management of NBFCs.

The ALM process rests on three pillars: (I) ALM Information Systems: (i) Management Information Systems; (ii) Information availability, accuracy, adequacy and expediency; (II) ALM Organization:- (i) Structure and responsibilities; (ii) Level of top management involvement; (III) ALM Process:- (i) Risk parameters; (ii) Risk identification; (iii) Risk measurement; (iv) Risk management; and (v) Risk policies and tolerance levels.

KYC Guidelines

All applicable NBFCs having customer interfaces are required to follow the Master Direction – Know Your Customer (**KYC**) Directions, 2016, as amended from time to time (**KYC Master Directions**) issued by the RBI. The RBI has extended the KYC Master Directions to NBFCs and has advised all NBFCs to adopt the same with suitable modifications depending upon the activity undertaken by them and ensure that a proper policy framework of anti-money laundering measures is put in place. The KYC policies are required to have certain key elements, including, *inter alia*, a customer acceptance policy, customer identification procedures, monitoring of transactions and risk management, adherence to KYC guidelines and the exercise of due diligence by persons authorized by the NBFC, including its brokers and agents.

Guidelines on liquidity risk management framework:

As per RBI's directions, all non-deposit taking NBFCs with asset size of Rs. 100 crore and above, shall adhere to the set of liquidity risk management guidelines. It will be the responsibility of the board of each NBFC to ensure that the guidelines are adhered to. The internal controls required to be put in place by NBFCs as per these guidelines shall be subject to supervisory review.

All non-deposit taking NBFCs with asset size of Rs. 10,000 crore and above, shall maintain a liquidity buffer in terms of LCR which will promote resilience of NBFCs to potential liquidity disruptions by ensuring that they have sufficient High Quality Liquid Asset (HQLA) to survive any acute liquidity stress scenario lasting for 30 days. The LCR requirement shall be binding on NBFCs from December 1, 2020 with the minimum HQLAs to be held being 50 per cent. of the LCR, progressively reaching up to the required level of 100 per cent. by December 1, 2024.

Fair Practice Code

Chapter VI of the NBFCND SI Master Directions prescribe the Fair Practice Code applicable to NBFCs, which, *inter alia*, include guidelines for application for loans and their processing, loan appraisal and terms/conditions, disbursement of loans, and regulation of excessive interest rate. Chapter VI of the NBFC-ND SI Master Directions further prescribe that the Board of each NBFC shall adopt an interest rate model taking into account relevant factors such as cost of funds, margin and risk premium and shall determine the rate of interest to be charged for loans and advances.

Corporate Governance Guidelines

The RBI has mandated certain corporate governance rules for all NBFC-NDs, which include the constitution of an audit committee, a nomination committee and a risk management committee. The guidelines have also issued instructions for the framing of internal guidelines on corporate governance with the approval of the board of directors of the NBFC and also for the rotation of the partners of the chartered accountancy firm conducting its audit every three years.

Anti-Money Laundering

The RBI has specified that a proper policy framework for the Prevention of Money Laundering Act, 2002, as amended (PMLA) is put into place in NBFCs. The PMLA seeks to prevent money laundering and extends to all banking companies and financial institutions, including NBFCs and intermediaries. In accordance with the provisions of the PMLA and the directions, all NBFCs are advised to appoint a principal officer for internal reporting of suspicious transactions.

Directions on the Acquisition of NBFCs

Prior written permission from the RBI is required for:

- (a) the takeover or acquisition of an NBFC, deposit and non-deposit accepting, whether by acquisition of shares or otherwise;
- (b) any change in the shareholding of the applicable NBFCs, including progressive increases over time, which would result in acquisition/transfer of shareholding of 26 per cent. or more of the paid up equity capital of the applicable NBFC. Prior approval would, however, not be required in the case of any shareholding going beyond 26 per cent. due to buyback of shares/reduction in capital where it has approval of a competent Court. The same is however required to be reported to the RBI not later than one month from its occurrence; and
- (c) any change in the management of the applicable NBFC which results in the change in more than 30 per cent. of the directors, excluding independent directors. Prior approval would not be required for those directors who get re-elected on retirement by rotation.

Non-compliance of the directions could lead to adverse regulatory action including cancellation of the certificate of registration of NBFCs.

Opening of Branch, Subsidiary or Representative Office of an NBFC outside India

Prior approval of the RBI is required for the opening of a branch, subsidiary, joint venture or representative office or for undertaking any investment abroad by an NBFC.

Department of Public Enterprises, Government of India

We are a Navratna Central Public Sector Undertaking under the administrative control of the MoP.

The Department for Public Enterprises is the nodal department for all the Central Public Sector Enterprises (CPSEs) and formulates policy pertaining to CPSEs. It lays down, in particular, policy guidelines on performance improvement and evaluation, autonomy and financial delegation and personnel management in CPSEs. It furthermore collects and maintains information in the form of a Public Enterprises Survey on several areas in respect of CPSEs. The Department for Public Enterprises formulates policy guidelines pertaining to CPSEs in areas like performance improvements and evaluation, financial management, personnel management, board structures, wage settlement, training, industrial relation, vigilance and performance appraisal.

Monitoring of Frauds in NBFCs (Reserve Bank) Directions, 2016 (Fraud Monitoring Directions)

The Fraud Monitoring Directions apply to all deposit taking NBFCs and systemically important non-deposit taking NBFCs. The Fraud Monitoring Directions require the relevant NBFCs to put in place a reporting system for reporting frauds and fix staff accountability in respect of delay in reporting of fraud cases to the RBI. All systemically important NBFCs are required to report all cases of fraud of Rs. 100,000 and above, and if the fraud is above Rs. 10 million, the NBFC would be required to report such fraud in a prescribed format within three weeks from the date of detection thereof. Such NBFCs are also required to report cases of fraud by unscrupulous borrowers including companies, partnership firms/proprietary concerns and/or their directors/partners and cases of attempted fraud.

Information Technology Framework

The RBI has issued a Master Direction on Information Technology Framework for the NBFC Sector dated June 8, 2017 (IT Master Direction). The focus of the IT Master Direction is on information technology governance, information technology policies, information and cyber security, information technology operations, information security audit, business continuity planning and information technology services outsourcing.

These directions are categorized into two parts, those which are applicable to all NBFCs with asset size above Rs. 5,000 million (considered as systemically important) and those for NBFCs with asset size below Rs. 5,000 million. The IT Master Directions, *inter alia*, mandate an information technology strategy committee, cyber security policy, policy for information security audit and information technology policy for systemically important NBFCs and to draft an information technology or information system policy for NBFCs with asset size below Rs. 5,000 million. The IT Master Directions prescribe the time frame within which the mandated activities should be completed by the NBFC.

Risk Management System – Appointment of Chief Risk Officer (CRO)

RBI has mandated that NBFCs with asset size of more than Rs.50 billion shall appoint a CRO with clearly specified role and responsibilities. The CRO is required to function independently so as to ensure highest standards of risk management. The CRO shall be appointed for a fixed tenure with the approval of the board. The board shall put in place policies to safeguard the independence of the CRO. The CRO shall be involved in the process of identification, measurement and mitigation of risks. In NBFCs that follow committee approach in credit sanction process for high value proposals, if the CRO is one of the decision makers in the credit sanction process, the CRO shall have voting power and all members who are part of the credit sanction process, shall individually and severally be liable for all the aspects, including risk perspective related to the credit proposal.

Ombudsman Scheme for Non-Banking Financial Companies

The RBI on April 26, 2019 has directed that the Non-banking Financial Companies, as defined in Section 45-I(f) of the Reserve Bank of India Act, 1934 and registered with the RBI under Section 45-IA of the Reserve Bank of India Act, 1934 which (a) are authorized to accept deposits; (b) are Non-Deposit Taking Non-Banking Financial Companies having customer interface, with assets size of Rupees 100 crore or above, as on the date of the audited balance sheet of the previous financial year, or

of any such asset size as the RBI may prescribe, will come within the ambit, and shall comply with the provisions of the Ombudsman Scheme for Non-Banking Financial Companies, 2018 as a forum for bank customers for resolution of complaints relating to certain services rendered by banks. It extends the Scheme to eligible Non-Deposit Accepting Non-Banking Financial Companies.

Prudential Framework for Resolution of Stressed Assets issued by the Reserve Bank of India (RBI)

The RBI recently issued the “Prudential Framework for Resolution of Stressed Assets by Banks” (the **Framework**) on June 7, 2019. These directions have been issued with a view to providing a framework for early recognition, reporting and time-bound resolution of stressed assets. The directions are issued without prejudice to the issuance of specific directions, from time to time, by the RBI to banks, in terms of the provisions of Section 35AA of the Banking Regulation Act, 1949, for the initiation of insolvency proceedings against specific borrowers under the Insolvency and Bankruptcy Code, 2016. The Honorable Supreme Court of India, *vide* its order dated April 2, 2019, held the RBI circular dated 12 February 2018 on Resolution of Stressed Assets as *ultra vires*. In light of this decision, the RBI issued the Framework for expeditious and effective resolution of stressed assets.

The RBI has mandated that the provisions of the directions in the Framework shall apply to the following entities: (a) Scheduled Commercial Banks (excluding Regional Rural Banks); (b) All India Term Financial Institutions (NABARD, NHB, EXIM Bank, and SIDBI); (c) Small Finance Banks; and (d) Systemically Important Non-Deposit Taking Non-Banking Financial Companies (**NBFC-ND-SI**) (including our Company) and Deposit-taking Non-Banking Financial Companies (**NBFC-D**).

The fundamental principles underlying the Framework for resolution of stressed assets are as follows:

- (i) early recognition and reporting of default in respect of large borrowers by banks, FIs and NBFCs;
- (ii) lenders to recognize incipient stress in loan accounts immediately upon default by a borrower and classify such assets as special mention assets;
- (iii) with respect to accounts with aggregate exposure of Rs. 20 billion and above, a resolution plan is to be implemented within two hundred and ten days from the date of the Framework;
- (iv) complete discretion to lenders with regards to design and implementation of resolution plans, in supersession of earlier resolution schemes (S4A, SDR, 5/25 etc.), subject to the specified timeline and independent credit evaluations;
- (v) a system of disincentives in the form of additional provisioning for delay in implementation of resolution plan or initiation of insolvency proceedings;
- (vi) withdrawal of asset classification dispensations on restructuring and future upgrades to be contingent on a meaningful demonstration of satisfactory performance for a reasonable period;
- (vii) for the purpose of restructuring, the definition of ‘financial difficulty’ to be aligned with the guidelines issued by the Basel Committee on Banking Supervision; and
- (viii) signing of inter-creditor agreement by all lenders to be mandatory, which will provide for a majority decision making criteria.

The RBI has further mandated that existing instructions on resolution of stressed assets, such as the Framework for Revitalizing Distressed Assets, Corporate Debt Restructuring Scheme, Flexible Structuring of Existing Long-Term Project Loans, Strategic Debt Restructuring Scheme (**SDR**), Change in Ownership outside SDR, and Scheme for Sustainable Structuring of Stressed Assets (**S4A**), are

withdrawn with immediate effect. Accordingly, the Joint Lenders' Forum (**JLF**), as a mandatory institutional mechanism for resolution of stressed accounts, is also discontinued.

REGULATION OF CORPORATES

Companies Act, 2013

The Company is a company incorporated and registered under the Companies Act, 1956 and therefore governed by the provisions and the rules made under the Companies Act, 1956. The Companies Act, 2013 has replaced the Companies Act, 1956.

The Companies Act intends to strengthen corporate regulation by increasing the robustness of the existing provisions and introducing new measures, such as: (i) increasing the accountability of management by making independent directors more accountable; (ii) improving corporate governance practices; (iii) enhancing disclosure norms in relation to capital raising; (iv) increasing investor protection and activism by way of provisions relating to class action suits; (v) ensuring protection of minority rights, including exit options; (vi) promoting e-governance initiatives; (vii) ensuring stricter enforcement standards, including establishment of the Serious Fraud Investigation Office for investigation of fraud relating to companies and special courts for summary trial for offences under the Companies Act; (viii) making CSR mandatory for every company having a net worth of Rs.5,000 million or more, turnover of Rs.10,000 million or more or a net profit of Rs.50 million or more during the immediately preceding financial year; (ix) introduction of the National Company Law Tribunal and its appellate authority the National Company Law Appellate Tribunal, which replaces the Company Law Board, the Board for Industrial and Financial Reconstruction and its appellate authority with the intention that all lawsuits relating to companies are made to one body; (x) providing rules on related party transactions and acceptance of deposits; and (xi) the implementation of a fixed and variable legislation model with various provisions of the Companies Act delegating rule making power to the Central Government.

The Companies Act, 2013, as amended from time to time, has introduced various sections which significantly and substantially modify, repeal and replace the entire framework of law governing Indian companies, including the Issuer. For transition purposes, the Companies Act, 2013, as amended from time to time, encapsulates grandfathering provisions whereby acts done, resolutions passed, documents entered into and registers maintained under the Companies Act, 1956, as amended from time to time, (unless contrary to the Companies Act) will continue to be valid under the Companies Act.

Large Corporates Framework

The Securities and Exchange Board of India issued a circular on “*Fund raising by issuance of Debt Securities by Large Entities*” dated November 26, 2018 (**Large Corporates Framework**). The Large Corporates Framework came into force on April 1, 2019 for entities following the April-March financial year. For the large corporates following calendar year as their financial year, the framework became applicable from January 1, 2020. The Large Corporates Framework applies to all listed entities that (i) specified securities or debt securities or non-convertible redeemable preference shares listed on a recognized stock exchange, (ii) have an outstanding long- term borrowing of Rs. 1000 million or more, and (iii) have a credit rating of “AA and above” (each such entity will be a **Large Corporate**).

The Large Corporates Framework mandates that any listed company that qualifies as a Large Corporate will be required to raise at least 25 per cent of its incremental borrowings in a subsequent fiscal year by way of issuance of debt securities.

For each Large Corporate, the requirement for meeting a minimum of 25 per cent of its incremental borrowings by way of issuance of debt securities (i) for the fiscal years 2019-20 and 2020-21 shall be on an annual basis and shall comply with the same by last day of fiscal year 2019-20 and fiscal year 2020-21, respectively and in case it is unable to comply with this requirement, it will be required to

provide an explanation for such shortfall to the stock exchanges; (ii) from fiscal year 2021-22 the said requirement of incremental borrowing will need to be complied with over a contiguous block of two years and in case at the end of two years, there is a shortfall in the requisite borrowing, a monetary penalty of 0.2 per cent. of the shortfall in the borrowed amount will be levied and the same will be paid to the relevant stock exchanges.

SEBI Regulations

Certain provisions of key SEBI Regulations, viz. Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011, and Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, and SEBI (Debenture Trustees) Regulations, 1993 are applicable to NBFCs.

SEBI (IFSC) Guidelines, 2015

The SEBI (IFSC) Guidelines were promulgated to regulate financial services relating to securities in an international financial services center (**IFSC**) created under Section 18(1) of the Special Economic Zones Act, 2005. The guidelines apply to any entity desirous of operating in an IFSC for rendering financial services relating to securities market and prescribe the eligibility and shareholding limit for stock exchanges, clearing corporations and depositories. The guidelines also prescribe conditions to be complied with for issuing capital in an IFSC.

The listing of the Notes is in compliance with the SEBI (IFSC) Guidelines, 2015, as amended from time to time.

LAWS RELATING TO THE RECOVERY OF DEBTS

Securitization Act

The Securitization and Reconstruction of Financial Assets and Enforcement of Securities Interest Act, 2002, as amended (the **Securitization Act**) provides the powers of “seize and desist” to banks and grants certain special rights to banks and financial institutions to enforce their security interests. The Securitization Act provides that a “secured creditor” may, in respect of loans classified as non-performing in accordance with RBI guidelines, give notice in writing to the borrower requiring it to discharge its liabilities within 60 days, failing which the secured creditor may take possession of the assets constituting the security for the loan, and exercise management rights in relation thereto, including the right to sell or otherwise dispose of the assets.

Under the Securitization Act, all mortgages and charges on immovable properties in favor of banks and financial institutions are enforceable without the intervention of the Courts. The Securitization Act also provides for the establishment of asset reconstruction companies regulated by RBI to acquire assets from banks and financial institutions.

The banks or financial institution selling financial assets should ensure that there is no known liability devolving on them and that they do not assume any operational, legal or any other type of risks relating to the financial assets sold. Furthermore, banks or financial institutions may not sell financial assets at a contingent price with an agreement to bear a part of the shortfall on ultimate realization. However, banks or financial institutions may sell specific financial assets with an agreement to share in any surplus realized by the asset reconstruction company in the future. While each bank or financial institution is required to make its own assessment of the value offered in the sale before accepting or rejecting an offer for purchase of financial assets by an asset reconstruction company, in consortium or multiple banking arrangements where more than 75 per cent. by value of the banks or financial institutions accept the offer, the remaining banks or financial institutions are obliged to accept the offer.

For financing of a financial asset by more than one secured creditor or joint financing of a financial asset by secured creditors, no secured creditor is entitled to exercise any rights unless such exercise is agreed by at least 60.0 per cent. of the secured creditors by value of outstanding and such action is binding on all the secured creditors.

Any securitization company or asset reconstruction company may acquire financial assets of a bank or financial institution by issuing a debenture, bond or any other security in the nature of a debenture, for agreed consideration or by entering into an agreement with such bank or financial institution to purchase such financial assets on terms and conditions as agreed. In respect of a shortfall in proceeds realized from the sale of secured assets, a secured creditor may file an application to the Debt Recovery Tribunal to recover the balance amount from a borrower under the Debt Recovery Act (as defined below).

The Government of India has issued the Securitization and Reconstruction of Financial Assets and Enforcement of Security Interest (Central Registry) Rules, 2011 (**CERSEI Rules**) under the Securitization and Reconstruction of Financial Assets and Enforcement of Securities Interest Act, 2002. Pursuant to the CERSEI Rules, as amended from time to time, all charges created by the Company in the form of mortgages or hypothecation of assets are required to be registered with the Central Registry of Securitization Asset Reconstruction and Security Interest of India. Further, upon non-compliance with the CERSEI Rules, the Company and every officer of the Company who is in default may be liable to a penalty, which may extend to Rs. 5,000 for every day during which the penalty continues.

Debt Recovery Act

The Recovery of Debts Due to Banks and Financial Institutions Act, 1993 as amended from time to time (**Debt Recovery Act**) provides for the establishment of Debt Recovery Tribunals and a Debt Recovery Appellate Tribunals for expeditious adjudication and recovery of debts due to any bank or public financial institution or to a consortium of banks and public financial institutions. Under the Debt Recovery Act, the procedures for the recovery of debt have been simplified and timeframes have been fixed to facilitate the disposal of cases.

The Debt Recovery Act lays down the rules for establishment of Debt Recovery Tribunals, the procedure for making an application to the Debt Recovery Tribunals and their powers and modes of recovery of debts. Upon establishment of the Debt Recovery Tribunals and the Debt Recovery Appellate Tribunal, no court or other authority can exercise jurisdiction in relation to matters covered by the Debt Recovery Act, except the Supreme Court exercising jurisdiction under Article 32 and the High Court exercising jurisdiction under Articles 226 and 227 of the Constitution of India, in relation to matters specified in Section 17 of the Debt Recovery Act.

Enforcement of Security Interest and Recovery of Debt Laws and Miscellaneous Provisions (Amendment) Act, 2016 (the Amendment Act)

The Amendment Act was passed by both houses of the Parliament on August 9, 2016 and received the assent of the President on August 12, 2016. The Amendment Act shall come into force as and when notified by the Central Government. The Amendment Act amends two laws: (i) the Securitization Act and (ii) the Debt Recovery Act. Under the Securitization Act, secured creditors can take possession over collateral, against which a loan had been provided, upon a default in repayment, which can be done with the assistance of the district magistrate. The Amendment Act provides that this process will have to be completed within 30 days by the district magistrate. In addition, the Amendment Act: (i) creates a central database to integrate records of property registered under various registration systems with this central registry and secured creditors will not be able to take possession over the collateral unless it is registered with the central registry; and (ii) provides that stamp duty will not be charged on transactions for transfer of financial assets in favor of asset reconstruction companies. In relation to the Debt Recovery Act, the Amendment Act (i) allows banks to file cases in tribunals having jurisdiction in the location of the bank branch and where the debt is pending; and (ii) provides further details of procedures that the tribunals will follow in case of debt recovery proceedings.

The sections of SARFAESI amendments, that have been notified to come in effect from January 24, 2020, which will in turn amend the SARFAESI Act are Sections 17, 18, and 19. Chiefly, these sections belong to Enforcement of Security Interest and Recovery of Debts Laws and Miscellaneous Provisions (Amendment) Act, 2016 that incorporates amendments to be brought under SARFAESI Act through Notification No SO. 4619 (E) dated December 26, 2019. These amendments mainly revolve around registration of security interest by Secured and other Creditors, effect of registration of transactions, and right of enforcement of securities and priority to Secured Creditors.

Notification relating to Securitisation and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002 (**SARFAESI Act**)

For NBFCs having assets worth Rs. 100 crore and above, the threshold of secured debt for enforcement of security interest under the SAEFAESI Act has been reduced to Rs. 20 Lakhs and above (this was earlier Rs. 50 Lakhs and above).

The Bankruptcy Code

The Insolvency and Bankruptcy Code, 2016 (the **Code**) was passed by Parliament on May 11, 2016, with a view to create a unified framework for resolving insolvency and bankruptcy in India. The Code seeks to repeal the Presidency Towns Insolvency Act, 1909 and Provincial Insolvency Act, 1920. The Code also amends eleven laws, including, *inter alia*, the Companies Act, 2013; the Recovery of Debts Act, the Bankruptcy Insolvency Resolution and Bankruptcy of Individuals and Partnership Firms Act, 1993; and the Sick Industrial Companies (Special Provisions) Repeal Act, 2003. The Code aims to consolidate the laws relating to insolvency of companies and limited liability entities (including limited liability partnerships and other entities with limited liability), unlimited liability partnerships and individuals into a single legislation.

The Code classifies creditors into financial creditors and operational creditors, which includes the financial loans for interest and loans arising from the operational nature of the debtor, respectively. According to the Code, the insolvency resolution process may be initiated by either the debtor or the creditors. Some of the new concepts introduced by this Code include, *inter alia*, the Insolvency and Bankruptcy Board of India, the Insolvency and Bankruptcy Fund and two separate tribunals having jurisdiction over insolvency cases, namely the National Company Law Tribunal (which shall have jurisdiction over companies and limited liability partnerships) and the debt recovery tribunal (**DRT**) (which shall have jurisdiction over individuals and partnership firms).

The Code provides a 330-day timeline for dealing with insolvency resolution applications. Subsequently, the insolvency resolution plan prepared by the resolution professional has to, subsequent to the amendment detailed below, be approved by 66.00 per cent. of creditors and, if rejected, the adjudicating authority will order liquidation. In a bid to boost the sentiment among lenders, even repayment of dues to unsecured creditors has been given a higher priority as against payment of taxes to the Government.

LAWS RELATING TO THE POWER SECTOR

In accordance with the Indian Constitution, the authority to regulate the electricity sector vests with both the State and the Central Governments.

The MoP acts as the administrative ministry governing the Central power sector in India. The MoP is responsible for the administration of the Electricity Act, 2003, as amended from time to time (the **Electricity Act**), the Energy Conservation Act, 2001 as amended and to undertake such amendments to these Acts, as may be necessary from time to time, in conformity with the government's policy objectives. The CEA advises the MoP, *inter alia*, on electricity policies and technical matters.

Electricity Act, 2003

The Electricity Act is a Central legislation relating to generation, transmission, distribution, trading and use of electricity that seeks to replace the multiple legislations that govern the power sector. The Electricity Act aims to enable measures to be taken for the development of the electricity industry, promote competition, protect the interest of consumers and supply of electricity to all areas, rationalize the electricity tariff, ensure transparent policies regarding subsidies, promote efficient and environmentally benign policies, constitute the Central Electricity Agency and establish the Appellate Tribunal.

The most significant reform initiative under the Electricity Act was the move towards a multi-buyer, multi-seller system as opposed to the existing structure which permitted only a single buyer to purchase power from power generators. In addition, the Electricity Act grants the electricity regulatory commissions freedom in determining tariffs. Under the Electricity Act, no license is required for generation of electricity if the generating station complies with the technical standards relating to connectivity with the grid.

The Electricity Act was amended in 2007 to exempt captive power generation plants from licensing requirements for supply to any licensee or consumer and further amended in 2010 to provide that any developer of a special economic zone (**SEZ**) notified shall be deemed to be a licensee under the Electricity Act.

Licensing Requirements

Under the Electricity Act, transmission and distribution of, and trading in, electricity require licences from the appropriate Central or State electricity regulatory commissions (respectively, **CERCs** and **SERCs**, and collectively, **ERCs**), unless exempted. CERC has jurisdiction over generating companies owned or controlled by the Government or which have a composite scheme for generation and sale in more than one State. SERCs have jurisdiction over generating stations within State boundaries, except those under CERC's jurisdiction.

The respective ERC determines the tariff for supply of electricity from a generating company to a licensee, transmission, wheeling, and retail sale of electricity. All States in India have ERCs in operation. There can be private distribution licensees as well.

Generation

Currently, any generating company in India can establish, operate and maintain a generating station if it complies with the technical standards relating to connectivity with the grid. Approvals from the Government, the State Government and the techno-economic clearance from the CEA are no longer required, except for hydroelectric projects. Generating companies are permitted to sell electricity to any licensees and where permitted by the respective SERCs, to consumers. The respective ERCs determine the tariff for the supply of electricity from a generating company to any distribution licensee, transmission of electricity, wheeling of electricity and retail sale of electricity. CERC has jurisdiction over generating companies owned or controlled by the Government and those generating companies who have entered into or otherwise have a composite scheme for generation and sale in more than one State. SERCs have jurisdiction over generating stations within State boundaries, except those under CERC's jurisdiction.

In order to qualify as a captive generating plant, the Electricity Rules, 2005 as amended (the **Electricity Rules**) require that not less than 26 per cent. of the ownership of the plant be held by a captive user and not less than 51 per cent. of the aggregate electricity generated in such plant, determined on an annual basis, be consumed for captive use. If the minimum percentage of captive use is not complied with in any year, the entire electricity generated is treated as supplied by a "generating company" and benefits

available to a “captive generating plant” (such as exemption from payment of certain levies and surcharges) will not apply in such year.

Transmission

Transmission, being a regulated activity, involves the intervention of various players. The Government is responsible for facilitating the transmission and supply of electricity, particularly inter-State, regional and inter-regional transmission. The Electricity Act vests the responsibility of efficient, economical and integrated transmission and supply of electricity with the Government and empowers it to make regional demarcations of the country for the same. In addition, the Government will facilitate voluntary inter-connections and co-ordination of facilities for the inter-State, regional and inter-regional generation and transmission of electricity. The CEA is required to prescribe certain grid standards under the Electricity Act and every transmission licensee must comply with such technical standards of operation and maintenance of transmission lines. In addition, every transmission licensee is required to obtain a license from the CERC and the SERCs, as the case may be.

The Electricity Act allows generating companies open access to transmission lines. The transmission licensee is required to comply with the technical standards of operation and maintenance of transmission lines specified by the CEA. The provision of open access is subject to the availability of adequate transmission capacity as determined by the Central Transmission Utility or the State Transmission Utility. The Electricity Act provides certain principles in accordance with which the appropriate ERC will specify terms and conditions for determination of the tariff. Under the Electricity Act, CERC is vested with the authority to determine the tariffs for inter-State transmission of electricity. A transmission licensee may, with prior intimation to CERC or the SERC, as the case may be, engage in any business for optimum utilization of its assets, provided that a proportion of its revenues from such business be utilized for reducing its charges for transmission and wheeling.

Under the Electricity Act, the Central Government is empowered to establish a center at the national level, to be known as the National Load Despatch Center (**NLDC**) for optimum scheduling and despatch of electricity among the Regional Load Despatch Centers (**RLDC**).

The primary responsibility of the NLDC is to ensure the optimum scheduling and despatch of electricity among the RLDCs. The RLDCs are responsible for: (i) optimum scheduling and despatch of electricity within the region, in accordance with the contracts entered into with the licensees or the generating companies operating in the region; (ii) monitoring grid operations; (iii) keeping accounts of the quantity of electricity transmitted through the regional grid; (iv) exercising supervision and control over the inter-state transmission system; and (v) carrying out real time operations for grid control and despatch of electricity within the region through secure and economic operation of the regional grid in accordance with the grid standards and grid code.

The Electricity Act also lays down provisions for intra-state transmission where the state commission facilitates and promotes transmission, wheeling and inter-connection arrangements within its territorial jurisdiction for the transmission and supply of electricity by economical and efficient utilization of the electricity.

Trading

The Electricity Act specifies trading in electricity as a licensed activity. This may involve wholesale supply or retail supply. The license to engage in electricity trading is required to be obtained from the appropriate ERC. The CERC issued the CERC (Procedure, Terms and Conditions for Grant of Trading License and Other Related Matters) Regulations, 2009, as amended (**Trading License Regulations**) to regulate the inter-State trading of electricity. The Trading License Regulations define inter-State trading as the transfer of electricity from the territory of one State for resale to the territory of another State, and includes electricity imported from any other country for resale in any State of India or exported to any other country subject to compliance with applicable laws and clearance by appropriate authorities.

Under the Trading License Regulations, any person desirous of undertaking inter-State trading in electricity shall apply to the CERC for the grant of a license. The Trading License Regulations set out various qualifications for the grant of a license for undertaking electricity trading, including certain technical and professional qualifications, and net worth requirements. Further, a licensee is subject to certain conditions including the extent of trading margin, maintenance of records and submission of auditors' reports. The existing licensees are required to meet the net worth, current ratio and liquidity ratio criteria and are required to pay the license fee as specified by the CERC, from time to time. The licensees need to submit monthly reports and annual returns on over-the-counter contracts and transaction volumes on a weekly basis.

The eligibility criteria include norms relating to capital adequacy and technical parameters. However, the NLDC and RLDCs, CTUs, STUs and other transmission licensees are not allowed to trade in power, to prevent unfair competition. Further, in case of non-compliance with any provision of the Electricity Act or the rules thereunder, the applicant can be debarred from making an application for up to three years. The relevant ERCs also have the right to fix a ceiling on trading margins in intra-state trading.

Tariff Principles

Under the Electricity Act, the ERCs determine the tariff for the supply of electricity by a generating company (as well as for transmission, wheeling and retail sale of electricity). In case of a shortage of electricity supply, the ERC may fix the minimum and maximum tariff for sale or purchase of electricity, pursuant to an agreement entered into between a generating company and licensee or between licensees, for up to one year.

The Electricity Act provides that the ERC shall adopt such tariff that has been determined through a transparent process of bidding in accordance with the guidelines issued by the Government. The MoP has issued detailed guidelines for competitive bidding as well as standard bidding documents for competitive bid projects. Under guidelines issued by the MoP, the determination of the tariff for a particular power project depends on the mode of participation in the project, being (i) the MoU route, based on tariff principles prescribed by CERC (cost plus basis, comprising capacity charge, energy charge, unscheduled interchange charge and incentive payments); or (ii) the competitive bidding route, where the tariff is market-based.

CERC (Terms and Conditions of Tariff) Regulations, 2019 (2019-2024 Tariff Regulations)

The 2019-24 Tariff Regulations are applicable for the determination of the tariff between April 1, 2019 and March 31, 2024 for a generating station and a transmission system or its elements. They are not applicable to generating stations or state transmission systems, where tariffs have been discovered through competitive bidding or determined in accordance with the CERC (Terms and Conditions for Tariff determination from Renewable Energy Sources) Regulations, 2017.

The tariff for the supply of electricity from a thermal generating station comprises of two parts, namely a capacity charge (for recovery of annual fixed cost) and an energy charge (for recovery of fuel cost and limestone cost (where applicable)). Tariffs for the supply of electricity from a hydro generating station comprises of a capacity charge and an energy charge, for the recovery of annual fixed costs. The tariff for the transmission of electricity on the inter-state transmission system comprises of a transmission charge for the recovery of annual fixed costs.

The capacity charges shall be derived on the basis of annual fixed costs and shall consist of the following components: (i) return on equity; (ii) interest on loan capital; (iii) depreciation; (iv) interest on working capital; and (v) operation and maintenance expenses. Energy charges shall be derived on the basis of the landed fuel cost of a generating station (excluding the hydro generation station) and shall comprise the following components: (i) landed fuel cost of primary fuel; (ii) cost of secondary fuel oil consumption; and (iii) cost of limestone or any other reagent, as applicable.

For the determination of the tariff, the return on equity shall be computed at the base rate of 15.50 per cent for thermal generating station, transmission system including communication system and run-of river hydro generating station, and at the base rate of 16.50 per cent. for the storage type hydro generating stations including pumped storage hydro generating stations and run-of river generating stations. In case of existing projects, additional capitalization shall be allowed on account of revised emission standards.

The 2019-24 Tariff Regulations also provide that for new projects, the debt-equity ratio of 70:30 as on date of commercial operation shall be considered. If the equity actually deployed is more than 30 per cent. of the capital cost, equity in excess of 30 per cent. shall be treated as normative loan. The special allowance admissible to a coal based thermal station which has completed its useful life, shall be computed at the rate of Rs 0.95 million per MW per year for the tariff period extending from 2019 and 2024. The non-tariff net income in case of generating station and transmission system from rent of land or buildings, sale of scrap and advertisements shall be shared between the beneficiaries or the long term customers and the generating company or the transmission licensee, as the case may be, in the ratio of 50:50.

The costs for computing working capital shall cover *inter alia* (i) receivables equivalent to 45 days of capacity charge and energy charge for sale of electricity calculated on the normative annual plant availability factors; (ii) operation and maintenance expenses, including water charges and security expenses, for one month; and (iii) cost of coal or lignite and limestone towards stock, if applicable, for 10 days for pit-head generating stations and 20 days for non-pit-head generating stations for generation corresponding to the normative annual plant availability factor or the maximum coal/lignite stock storage capacity whichever is lower. Target availability for high demand season or low demand season and peak or off-peak hours shall be effective from April 1, 2020.

The 2019-24 Tariff Regulations also provide that in addition to the capacity charge, an incentive shall be payable to a generating station or unit thereof at the rate of Rs. 0.65 per kWh for ex-bus scheduled energy during peak hours and at the rate of Rs. 0.50 per kWh for ex-bus scheduled energy during off-peak hours which shall also be applicable from April 1, 2020. The generating company or the transmission licensee shall workout gains based on the actual performance of applicable controllable parameters such as (i) station heat rate; (ii) secondary fuel oil consumption; and (iii) auxiliary energy consumption.

In case the payment of any bill for charges payable under the 2019-24 Tariff Regulations is delayed by a beneficiary or long term customers as the case may be, beyond a period of 45 days from the date of presentation of bills, a late payment surcharge at the rate of 1.50 per cent. per month shall be levied by the generating company or the transmission licensee, as the case may be.

Pursuant to the 2019-24 Tariff Regulations, the generating company shall recover the statutory charges imposed by the State and Central Government such as electricity duty, water cess by considering normative parameters specified in the 2019-24 Tariff Regulations.

The 2019-24 Tariff Regulations provide that the generating company or the transmission licensee, as the case may be, may apply for the determination of a tariff in respect of a new generating station or units thereof or a transmission system including an element thereof completed or projected to be completed within 60 days of the anticipated date of commercial operation. However, until such time as the tariff for the generating stations is determined by the CERC in accordance with the CERC Tariff Regulations, the generating company or the transmission licensee, as the case may be, shall continue to provisionally bill the beneficiaries or long-term customers with the tariff approved by the CERC and applicable as of March 31, 2019 for the period starting from April 1, 2019. On approval of the tariff by the CERC in accordance with the 2019-24 Tariff Regulations, adjustment shall be made on a retrospective basis.

The Central Electricity Regulatory Commission (Terms and Conditions of Tariff) (Second Amendment) Regulations, 2021 have included annual target quantity in respect of integrated mines which mean the quantity of coal or lignite to be extracted during a year from integrated mines as specified in the mining plan. These regulations shall apply in all cases where a generating company has the arrangement for supply of coal or lignite from the integrated mine allocated to it, for one or more of its specified end use generating stations, whose tariff is required to be determined by the Commission under the Electricity Act.

Central Electricity Regulatory Commission (Grant of Connectivity, Long-term Access and Medium-Term Open Access in Inter-State Transmission and Related Matters) Regulations, 2009

The Central Electricity Regulatory Commission (Grant of Connectivity, Long-term Access and Medium-Term Open Access in Inter-State Transmission and Related Matters) Regulations, 2009 as amended (the **CERC Regulations**) provide various transmission products, standardize procedures, define timelines and ensure a level playing field between market players. They provide the procedures and requirements for obtaining connectivity to inter-State transmission systems, obtaining medium-term open access and obtaining long-term access. The CERC Regulations were amended on February 17, 2017 changing the definition of long-term access and medium-term open access to extend the right to use inter-State transmission systems (**ISTS**) for a period exceeding seven years and a period equal to or exceeding three months but not exceeding five years, respectively. There have been several amendments to the CERC Regulations in relation to the appointment of a principal generator on behalf of the renewable energy generating stations and provisions for connectivity and long-term access to renewable energy generators and renewable energy parks. The CERC Regulations were further amended on January 9, 2019 making it mandatory for the applicant generating company or any other entity on its behalf to develop, own and operate the dedicated transmission line from generating station of the applicant generating company or any other entity on behalf of generating company to the pooling station of the transmission licensee (including deemed transmission licensee).

Central Electricity Regulatory Commission (Sharing of Inter-State Transmission Charges and Losses) Regulations, 2020

The Central Electricity Regulatory Commission (Sharing of Inter State Transmission Charges and Losses) Regulations, 2020 as amended (the **Inter-State Regulations**) came into force on November 1, 2020. It applies to all designated ISTS customers (**DICs**), inter-state transmission licensees, national load dispatch centre (**NLDC**), regional load dispatch centres (**RLDCs**), state load dispatch centres (**SLDCs**) and regional power committees (**RPCs**). According to the Inter-State Regulations, transmission charges shall be shared amongst the DICs on a monthly basis based on the yearly transmission charges such that: (i) yearly transmission charges are fully recovered; and (ii) any adjustment on account of revision of the yearly transmission charges are recovered. Long term access or medium-term open access for projects shall not be considered for appointment of yearly transmission charges. The Inter-State Regulations provide for components and sharing of national component, regional component, transformer component, AC system component, sharing of transmission charges under AC-UBC, short-term open access and transmission deviation. It also provides for late payment surcharge at the rate of 1.50 per cent. per month by the DIC in case charges payable under the regulations are delayed by a DIC, notwithstanding any provision contrary to tariff regulations or transmission service agreement. Bills for the first two billing periods after Inter-State Regulations come into force, i.e., November 1, 2020, shall be based on Central Electricity Regulatory Commission (Sharing of Inter-State Transmission Charges and Losses) Regulations, 2010. The Central Electricity Regulatory Commission (Sharing of Inter-State Transmission Charges and Losses) Regulations, 2010 stand repealed.

The Central Electricity Regulatory Commission has been entrusted with the functions under Section 79(1)(c) and Section 79(1)(d) of the Electricity Act, 2003 to regulate inter-State transmission of electricity and to determine the tariff of inter-State transmission system (ISTS). The Regulations were last amended on March 27, 2019 whereby no transmission charges and losses for the use of ISTS

network shall be payable for the generation based on solar and wind power resources for a period of 25 years from the date of commercial operation of such generation projects if they fulfill certain conditions.

Central Electricity Regulatory Commission (Standards of Performance of Inter-State Transmission Licensees) Regulations, 2012

The Central Electricity Regulatory Commission (Standards of Performance of Inter-State Transmission Licensees) Regulations, 2012 as amended (the **Standard of Performance Regulations**) apply to all the inter-State transmission licensees to ensure compliance with performance standards and to provide for an efficient, reliable, coordinated and economic system of electricity transmission. The Standard of Performance Regulations also covers the methodology for calculating compensation in the case of loss on account of non-adherence.

National Electricity Policy, 2005

The National Electricity Policy was notified in February 2005. This policy aims at accelerated development of the power sector, focusing on the supply of electricity to all areas and protecting interests of consumers and other stakeholders, keeping in view availability of energy resources technology available to exploit these resources, economics of generation using different resources and energy security issues.

The Government has issued the draft “National Electricity Policy” in April 2018 which aims at achieving the following:- (i) Access of electricity to all un-electrified households by December 2018 and 24x7 Power to All by March 2019; (ii) To fully meet demand for all consumers with adequate reserve margin; (iii) Supply of reliable and quality power of specified standards in an efficient manner and at reasonable rates; (iv) Enhancement of per capita consumption of electricity to 1500 units by the year 2022; (v) Achieve financial sustainability and commercial viability of the electricity sector; (vi) To promote renewable and environmentally sustainable sources of power keeping in view the environmental benefits and India’s commitment as stated in the nationally determining contributions; (vii) Provide an impetus to hydro generation, including pumped storage plants, which would provide balancing capacity for load and renewable generation fluctuations; (viii) To enhance efficiency and optimal utilization of assets in generation, transmission and distribution, promote energy conservation, and reduce carbon emissions; and (ix) Promoting consumers interest.

National Tariff Policy, 2016

In 2016, the Government, under the Electricity Act, notified the revised National Tariff Policy (the **Tariff Policy**) that replaces the existing tariff policy of 2006. The goals of the Tariff Policy are to ensure availability of electricity to consumers at reasonable and competitive rates, ensure the financial viability of the power sector, attract investment to the power sector, promote regulatory transparency, consistency and predictability across jurisdictions, minimize perceptions of regulatory risks, promote competition, ensure operational efficiency, improve the quality of the power supply, promote generation of electricity from renewable sources, promote hydroelectric power generation including pumped storage projects (**PSP**) to provide adequate peaking reserves, reliable grid operation and integration of variable renewable energy sources, evolve a dynamic and robust electricity infrastructure for better consumer services, facilitate supply of adequate and uninterrupted power to all categories of consumers and ensure the creation of adequate capacity including reserves in generation, transmission and distribution in advance, for the reliability of supply of electricity to consumers.

The Tariff Policy mandates that the relevant ERCs must reserve a minimum percentage for the purchase of solar energy equivalent to 8 per cent. of total consumption of energy by March 2022. In order to further encourage renewable sources of energy, the Tariff Policy mandates that no inter-State transmission charges and losses shall be levied until such period as may be notified on transmission of the electricity generated from solar power plants through the inter-State transmission system for sale.

For transmission, the Tariff Policy aims to ensure optimal development of the transmission network with adequate margin for reliability, by efficient utilization of generation and transmission assets and attracting investment providing adequate returns. The benefits of improved efficiency and new technology are passed on to consumers through reduced tariffs. It emphasizes the need for the appropriate regulator to ensure the recovery of all prudent costs when approving the financial restructuring of a transmission company.

The Tariff Policy requires that all future power requirements be procured competitively by distribution licensees except for expansion of pre-existing projects or State Government owned or controlled companies. Regulators must resort to tariffs set by reference to standards of the CERC, provided that the generating capacity expansion by private developers for this purpose is restricted to a one-time addition of not more than 100 per cent. of the existing capacity. Under the Tariff Policy, tariffs for all new generation and transmission projects are decided on a competitive bidding basis.

National Electricity Plan 2017-2022

The Electricity Act, 2003 provides an enabling legislation conducive to development of the Power Sector in transparent and competitive environment, keeping in view the interest of the consumers. As per Section 3(4) of the Electricity Act 2003, CEA is required to prepare a National Electricity Plan in accordance with the National Electricity Policy and notify such Plan once in five years. The draft plan has to be published and suggestions and objections invited thereon from licensees, generating companies and the public within the prescribed time. The Plan has to be notified after obtaining the approval of the Central Government.

The National Electricity Policy stipulates that the Plan prepared by CEA and approved by the Central Government can be used by prospective generating companies, transmission utilities and transmission/distribution licensees as reference document.

The aims and objectives of the National Electricity Policy, 2005 are as follows:

- Access to Electricity - Available for all households in next five years.
- Availability of Power - Demand to be fully met by 2012. Energy and peaking shortages to be overcome and adequate spinning reserve to be available.
- Supply of Reliable and Quality Power of specified standards in an efficient manner and at reasonable rates.
- Per capita availability of electricity to be increased to over 1000 units by 2012.
- Minimum lifeline consumption of 1 unit/household/day as a merit good by year 2012.
- Financial Turnaround and Commercial Viability of Electricity Sector.
- Protection of consumers' interests.

As per the Policy, the National Electricity Plan would be for a short-term framework of five years while giving a 15 year perspective and would include:

- Short-term and long term demand forecast for different regions;
- Suggested areas/locations for capacity additions in generation and transmission keeping in view the economics of generation and transmission, losses in the system, load center requirements, grid stability, security of supply, quality of power including voltage profile, etc; and environmental considerations including rehabilitation and resettlement;

- Integration of such possible locations with transmission system and development of national grid including type of transmission systems and requirement of redundancies;
- Different technologies available for efficient generation, transmission and distribution; and
- Fuel choices based on economy, energy security and environmental considerations.

The Policy also stipulates that while evolving the National Electricity Plan, CEA will consult all the stakeholders including state governments and the state governments would, at state level, undertake this exercise in coordination with stakeholders including distribution licensees and STUs. While conducting studies periodically to assess short-term and long-term demand, projections made by distribution utilities would be given due weightage. CEA will also interact with institutions and agencies having economic expertise, particularly in the field of demand forecasting.

Projected growth rates for different sectors of the economy will also be taken into account in the exercise of demand forecasting. The Policy stipulates that in addition to enhancing the overall availability of installed capacity to 85 per cent., a spinning reserve of at least 5 per cent. at national level would need to be created to ensure grid security, quality and reliability of power supply. The Policy states that efficient technologies, like super-critical technology, Integrated Gasification Combined Cycle etc. and large size units would be gradually introduced for generation of electricity as their cost effectiveness gets established.

A committee was constituted in 2016 to create a 13th five year plan for India (the **13th Five Year Plan**) and the major highlights of the 13th Five Year Plan are as follows:

- 115 per cent. of the 12th Five Year Plan target for capacity addition from conventional sources has been met;
- revised renewable energy capacity target to 175 gigawatt (GW) by the year 2021-2022;
- incremental energy savings due to implementation of various energy saving measures, during the year 2016/17, 2021/22 and 2026/27 estimated to be 26 billion units (BU), 137 BU and 204 BU respectively over the year 2015-16;
- the projected peak demand is 235 GW and the energy requirement is 1,611 BU (after considering demand side management measures) at the end of year 2021/22 which is around 17 per cent. and 15.4 per cent. lower than the corresponding projections made by the 18th Electric Power Survey (EPS) issued by the MoP;
- the projected peak demand is 317 GW and energy requirement is 2132 BU at the end of year 2026/27 which is around 20.7 per cent. and 21.3 per cent. lower than the corresponding projections made by the EPS;
- no coal based capacity addition is required during the years 2017/22. Total capacity of 50,025 megawatt (MW) coal based power project is currently under different stages of construction and is likely to yield benefits during the period 2017/22. Total capacity addition during 2017/22 is likely to be 1,87,821 MW;
- demand projection for the period 2022/27 reveals a coal based capacity addition of 44,085 MW is required. Coal based capacity of 50,025 MW is already under construction which is likely to yield benefits during 2017/22, consequently this coal based capacity will fulfil the capacity requirement for the years 2022/27;
- expected that the share of non-fossil based installed capacity will increase to 46.8 per cent. by the end of 2021/22 and will further increase to 56.5 per cent. by the end of 2026/27 considering

a capacity addition of 50,025 MW coal based capacity is already under construction and likely to yield benefits during 2017/22 and there will be no coal based capacity addition during 2022/27;

- (i) adequate manufacturing facilities exist in India for the main plant equipment. The lack of orders is a concern of all equipment manufacturers;
- (j) total fund requirement for generation capacity addition estimated to be Rs.10, 33,375 Crores during the period 2017/2022 which includes the funds required for the renewable energy sources capacity addition, as well as the expenditure made during this period for projects during the years 2022/27;
- (k) total fund requirement for 2022/2027 is estimated to be Rs.6, 05,965 Crores excluding advance action for projects coming up during the period 2027/2032; and
- (l) estimated that 6.073 million tons of carbon dioxide emissions have been avoided during 2015/16 due to the commissioning of super-critical technology based coal power plants.

The CEA has revised the National Electricity Plan (NEP) after receiving feedback from more than 30 state-owned and private institutions, mostly questioning the redundancy of coal. To retire coal-based power completely, according to the CEA, India would need 6,440 Mw thermal power during 2017-22. In the earlier version of the NEP, which was released in 2017, the CEA had stated that the country did not need coal-based capacity addition until 2022. Government Initiatives and Policies.

Power for All – “24 x 7 POWER FOR ALL” PROGRAMME (A Joint Initiative of Central Government and State Governments)

The 24 x 7 programme is joint initiative of the Government of India which is proposed to include participation of all States and Union Territories to facilitate 24 x 7 power for all by 2019.

Programme Objectives:

- (i) Reliable 24x7 supply to domestic, industrial and other consumers.
- (ii) Adequate power supply to agricultural consumers.
- (iii) To provide access to electricity to all unconnected households in next five years i.e. by FY 2018-19.

To meet the above objectives, a state specific roadmap for ‘Power for All’ has been finalized in consultation with the states in the form of the Power for All (PFA) documents. The PFA document covers:

- (i) **Generation:** To ensure adequate capacity addition planning and tie ups for power from various sources at affordable prices to meet the projected increase in power demand for the future.
- (ii) **Transmission:** Strengthen the transmission (inter-state or intra-state) network to cater to the expected growth in demand of existing as well as new consumers.
- (iii) **Distribution:** Providing access to all households along with the creation of a new distribution network or strengthening of existing infrastructure.
- (iv) **Financial Viability:** Financial measures including optimizing investments and undertaking necessary balance sheet restructuring measures to ensure liquidity in the utility finances. To

ensure reduction of aggregate technical and commercial losses as per the agreed loss reduction trajectory.

- (v) **Renewable Energy:** Plan for enhancement of renewable energy sources along with an associated evacuation system (including the green energy corridor which aims at synchronizing electricity produced from renewable sources, such as solar and wind, with conventional power stations in the grid).
- (vi) **Energy Efficiency:** Adoption of various energy efficiency measures like replacement with energy efficient agriculture pumps, encouraging use of light-emitting diode bulbs, solar street lights etc.

Expectation from the State:

States are required to take the following actions:-

- (i) Bring to the notice of the central government such issues that require assistance from any central ministry or need coordination between various ministries.
- (ii) Adopt best practices and emulate other States which have come up with innovative approach in providing electricity to every households.
- (iii) Explore possibilities of using renewable energy sources in providing electricity to remote areas where the extension of grid connection is not viable.
- (iv) Approach the central government for assistance in arranging gap funding requirement, if any.
- (v) Constitute a monitoring team to review progress of the projects regularly.
- (vi) Appoint a dedicated nodal officer for regular coordination with the Central Project Monitoring Unit at the MoP so that central and state government always remain coordinated in fulfilling the mission of 24X7 PFA.

Monitoring Mechanism

States are supposed to implement the following:-

- (i) Paperless monitoring of the “24x7 Power For All” mission.
- (ii) A Central Programme Monitoring Unit under the chairmanship of the Joint Secretary (Distribution) with the Executive Director (T&D). The Company as convener has been constituted with officials from REC, PFC, NHPC and CEA.
- (iii) Each State to appoint a nodal officer for monitoring of the PFA Programme.
- (iv) Monitoring of the PFA Programme is being performed entirely through a dedicated web portal.

Our Company is the nodal agency appointed by the Government of India for the implementation of Pradhanmantri Sahaj Bijli Har Ghar Yojana (**Saubhagya**) and Deendayal Upadhyaya Gram Jyoti Yojana (**DDUGJY**), the schemes which aim at providing 24x7 sustainable and affordable power to all households in the country. We have also been entrusted with the responsibility of being the coordinating agency for rolling out Ujwal Discom Assurance Yojana (**UDAY**) which seeks to operationally reform and financially turn around the power distribution companies of the country.

Rural Electrification Initiatives - Deendayal Upadhyaya Gram Jyoti Yojana

In April 2005, the Government launched the Rajiv Gandhi Grameen Vidyutikaran Yojana (**RGGVY**), a comprehensive programme merging within it all the on-going rural electrification schemes with the aim to further strengthen the pace of rural electrification and with the initial objective of electrifying over one lakh unelectrified villages and to provide free electricity connections to 1.73 crore rural below poverty line (**BPL**) households under the ambit of the Bharat Nirman Electrification Plan.

Under the RGGVY, electricity distribution infrastructure is envisaged to establish Rural Electricity Distribution Backbone (**REDB**) with at least a 33/11KV sub-station in a block, Village Electrification Infrastructure (**VEI**) with at least a distribution transformer in a village or hamlet, and standalone grids with generation where grid supply is not feasible. Subsidy towards capital expenditure of 90 per cent. is being provided, through our Company, which is a nodal agency for implementation of the scheme.

The RGGVY scheme has been subsumed in new 'Deendayal Upadhyaya Gram Jyoti Yojana' (**DDUGJY**) scheme which was approved by the Government on December 3, 2014. Electrification of unelectrified BPL households is financed with 100 per cent. capital subsidy at 3000 per connection in all rural habitations. The services of Central Public Sector Undertakings (**CPSUs**) are available to the States for assisting them in the implementation of rural electrification projects.

The components of DDUGJY are:

- (a) separating agriculture and non-agriculture feeders for providing adequate supply to agricultural and non-agricultural consumers in rural areas;

strengthening and augmentation of sub transmission and distribution infrastructure in rural areas;
- (b) including metering of feeders, distribution transformers and consumers; and
- (c) rural electrification works covered under the RGGVY subsumed in DDUGJY.

Under DDUGJY, the MoP has sanctioned 921 projects to electrify 121,225 un-electrified villages, intensive electrification of 592,979 partially electrified villages and provide free electricity connections to 397.45 lakh BPL rural households. As on June 30, 2015, works in 110,146 un-electrified villages and the intensive electrification of 320,185 partially electrified villages has been completed and 220.63 lakh free electricity connections have been released to BPL households. The Government provides a 100 per cent. grant towards expenditure incurred on activities for bridging the missing links of National Optical Fibre Network (NOFN), the Creation of Rural Electrification Data Hub at Rural Electrification Corporation & Project Management Agency (**PMA**) as per provision in the scheme.

Our Company is the nodal agency for operationalization of DDUGJY and our Company is paid 0.5 per cent. of the total project cost as agency fee.

Rural Electrification Initiatives – Saubhagya

On September 25, 2017, the Government launched Rs. 163.5 household electrification scheme named Pradhan Mantri Sahaj Bijli Har Ghar Yojna (translated as the Prime Minister's Programme to provide easy electricity access to all households), or 'Saubhagya'.

The objective of the 'Saubhagya' is to provide energy access to all by last mile connectivity and electricity connections to all remaining un-electrified households in rural as well as urban areas. Projects under the scheme would be sanctioned based on the Detailed Project Reports to be submitted by the States, prepared by the State DISCOMs / Power Department and sanctioned by an inter-ministerial Monitoring Committee headed by the Secretary (Power), Government of India.

Further, considering an average load of 1 KW per household and average uses of load for 8 hours in a day, estimated rise in demand for power after inclusion of all households will be about 28,000 MW. With the enhancement of income and habit of using electricity, the demand of electricity is bound to increase. Access to electricity is also expected to boost power-based ancillary economic and business activities, which will further increase the demand for power.

The MoP, in April 2018 partnered with the Ministry of Skill Development & Entrepreneurship to train the manpower in six states for speedy implementation of its Saubhagya scheme. Saubhagya (Pradhan Mantri Sahaj Bijli Har Ghar Yojna) aims to achieve universal household electrification in all parts of the country in a time bound manner. Around 4 crore households are expected to get electricity connections under the scheme.

Our Company has been entrusted the responsibility of operationalization of the Saubhagya scheme throughout India and will act as the nodal agency

National Solar Mission

The Ministry of New and Renewable Energy (**MNRE**) has approved a new policy on the development of solar energy in India by the Jawaharlal Nehru National Solar Mission (**Mission**).

The Mission has set the ambitious target of deploying 20,000 MW of grid connected solar power by 2022 and is aimed at reducing the cost of solar power generation in the country through: (i) long term policy; (ii) large scale deployment goals; (iii) aggressive research and development; and (iv) domestic production of critical raw materials, components and products, as a result to achieve grid tariff parity by 2022.

The Mission will create an enabling policy framework to achieve this objective and make India a global leader in solar energy. The Government has revised the target of grid connected solar power projects from 20,000 MW by the year 2021-22 to 100,000 MW by the year 2021-22 under the Mission.

National Electricity Fund

The Government has approved the National Electricity Fund (Interest Subsidy) Scheme (the **NEF Scheme**) to promote capital investment in the power distribution sector by providing interest subsidies, linked with reform measures, on the loans taken by public and private power utilities for various capital works under distribution projects. This scheme shall be applicable to the entire country and all the capital works except the works covered under and restructured accelerated power development and reforms programme projects (to ensure non-duplication and non-overlapping of grant or subsidy towards investment).

The NEF Scheme has the provision to provide interest subsidies and other charges aggregating to Rs. 8,466 crore for a period of 14 years on loans availed by distribution utilities in both the public and private sectors.

The requirement of funds for the power sector for the XI Plan was estimated at Rs. 10,59,515 crore which includes Rs. 5,91,734 crore for the generation sector, Rs. 15875 Crores for renovation and modernization of existing generation plants and Rs. 4,49,577 crore for the transmission and distribution sector. The actual expenditure in the distribution sector was much below the estimates due to various reasons during the XI Plan, resulting in the huge funding gap. The creation of the National Electricity Fund thereby became more relevant since the NEF Scheme seeks to encourage utility to match the investments with the planned generation during XII Plan. As per the Working Group on Power of Twelfth plan, the requirement of funds for the power sector was estimated as Rs. 10,31,600 crore.

UDAY

State DISCOMs in the country have huge accumulated losses and outstanding debt. Financially stressed DISCOMs are not able to supply adequate power at affordable rates, which hampers quality of life and overall economic growth and development. Efforts towards 100 per cent. village electrification, 24X7 power supply and clean energy cannot be achieved without performing DISCOMs.

Power outages also adversely affect national priorities like “Make in India” and “Digital India”. In addition, default on bank loans by financially stressed DISCOMs has the potential to seriously impact the banking sector and the economy at large. To improve the situation, a scheme called Ujwal DISCOM Assurance Yojana (**UDAY**) for financial turnaround of power distribution companies was formulated and launched by the Government on November 20, 2015 in consultation with various stakeholders for the financial and operational turnaround of DISCOMs and to ensure a sustainable permanent solution to the problem.

UDAY envisages reform measures in all sectors- generation, transmission, distribution, coal and energy efficiency.

The Highlights of UDAY are as follows:

- (a) Formulated and launched for a sustainable financial and operational turnaround of DISCOMs.
- (b) To provide for permanent solutions to legacy debts and address potential future losses.
- (c) Empowering DISCOMs with the opportunity to break even in the next 2-3 years through four initiatives.
- (d) Increasing operational efficiency improvements inter alia compulsory smart metering, upgrading of transformers, meters etc., energy efficiency measures like efficient light-emitting diode bulbs, agricultural pumps, fans and air-conditioners etc. to reduce the average aggregate technical and commercial loss from around 22 per cent. to 15 per cent.
- (e) Reducing the cost of power through measures such as increased supply of cheaper domestic coal, coal linkage rationalization, liberal coal swaps from inefficient to efficient plants, coal price rationalization based on gross calorific value, supply of washed and crushed coal, and faster completion of transmission lines.
- (f) DISCOM debt not taken over by the State shall be converted by the banks and financial institutions into loans or bonds with interest rates not more than the bank’s base rate plus 0.1 per cent. Alternately, this debt may be fully or partly issued by the DISCOM as State guaranteed DISCOM bonds at the prevailing market rates which shall be equal to or less than bank base rate plus 0.1 per cent.
- (g) Further provisions for spreading the financial burden on states over three years to give flexibility in managing interest payments within their fiscal place in initial years.
- (h) States which are not stressed or where power is managed through state run power department and not through DISCOMs were allowed to join UDAY on operational parameters and need not take over DISCOM debt.

UDAY and REC

The Company provides debt for a fairly long tenure and a strategic programme like UDAY which essentially addresses the core issues of the sector. In addition, UDAY has also provided the Company with opportunities to participate in the DISCOMs rebuilding process. There are areas including loss reduction, smart metering financing, smart grids, green energy infrastructure where the Company or its subsidiaries are playing a large role.

Recent Development

Indian Union Budget – 2021-2022

As part of the Indian Finance Bill, 2021, it is proposed to introduce reforms-based scheme to provide assistance to power distribution companies for infrastructure creation to address concerns over viability. Ujjwala scheme will be extended to cover one crore more beneficiaries.

ENVIRONMENTAL LAWS

The three major statutes in India which seek to regulate and protect the environment against pollution related activities in India are the Water (Prevention and Control of Pollution) Act 1974 as amended, the Air (Prevention and Control of Pollution) Act, 1981 as amended and the Environment Protection Act, 1986 as amended (the **EPA**). The Pollution Control Boards (**PCBs**), which are vested with diverse powers to deal with water and air pollution, have been set up in each State to control and prevent pollution. The PCBs are responsible for setting the standards for maintenance of clean air and water, directing the installation of pollution control devices in industries and undertaking investigations to ensure that industries are functioning in compliance with the standards prescribed. All industries and factories are required to obtain consent orders from the PCBs, and these orders are required to be renewed annually.

The Ministry of Environment and Forests, through its notification dated September 14, 2006, issued the environmental impact assessment notification (the **EIA Notification**) (which supersedes the notification dated January 27, 1994 – except in respect of acts done/omitted to be done before such supersession) pursuant to the provisions of the EPA. Projects and activities have been classified into two categories, category A and category B, based on the spatial extent of potential impacts and potential impacts on human health and natural and man-made resources.

An amendment has been proposed to the EPA by way of the Environmental Laws (Amendment) Bill, 2015. Currently, the maximum fine that can be imposed on a polluting industry or other entities is Rs.1 lakh and a jail sentence of up to five years. Even this requires the Government agencies to first file a complaint with a magistrate at the district level and secure a favorable order against the polluter. It is proposed by way of the amendment (though not yet notified) that the level of fines for a polluting industry to be increased from Rs.1 Lakh to Rs.1 Crores and the fine is to be imposed without going through a judicial process prescribed in the current law. A designated officer is the final authority to decide. There is also a plan to make pollution a civil offence for which the Government can demand costs from polluters without going to court.

The Environment Impact Assessment (EIA) Notification dated September 14, 2006

The MoEFCC mandates that Environment Impact Assessment (**EIA**) must be conducted for specified projects. In the process, the MoEFCC receives proposals for the setting up of projects and assesses their impact on the environment before granting clearances to the projects

The EIA Notification S.O. 1533, issued on September 14, 2006 (**EIA Notification**) and amended from time to time, under the provisions of the Environment Act, prescribes that new construction of specified projects require prior environmental clearance from the MoEFCC. The environmental clearance must be obtained from the MoEFCC according to the procedure specified in the EIA Notification. No construction work or preparation of land by the project management except for securing the land, relating to the setting up of a specified project can be undertaken until such clearance is obtained.

Under the EIA Notification, the environmental clearance process for new projects consists of four stages – screening, scoping, public consultation and appraisal. After completion of public consultation, the applicant is required to make appropriate changes in the draft ‘EIA Report’ and the ‘Environment Management Plan.’ The final EIA Report has to be submitted to the concerned regulatory authority for

appraisal. The regulatory authority is required to give its decision within 105 days of the receipt of the final EIA Report. The EIA Guidance Manual for Highways, 2010 explains the four stages of the environmental clearance process and the contents of the EIA Report required to be submitted by highway projects.

Draft Environmental Impact Assessment Notification, 2020 dated March 23, 2020

The Ministry of Environment, Forest and Climate Change, GoI proposed a draft Environmental Impact Assessment Notification, 2020 dated March 23, 2020 (**Draft EIA Notification**) on April 11, 2020. The Draft EIA Notification is intended to replace the previous notification implemented since September 14, 2006.

The Draft EIA Notification is intended to promote transparency and streamline compliance, as it integrates numerous notifications, amendments, office orders, circulars, court and tribunal directions since the last EIA notification in 2006, which is currently in force.

The primary concern regarding the Draft EIA Notification has been the dilution of thresholds for assessment of environmental impact and whittling down of clearance related checks and balances to ensure that environmentally sensitive projects are properly assessed – post-facto clearance being the most contentious. However, the Draft EIA Notification has not been implemented yet,

The Draft EIA Notification proposes a new set of rules for various industrial projects and aims to make the process of issuing environmental clearances more transparent and expedient through implementation of an online system.

The two most significant changes in the new Draft EIA Notifications are provisions for a post facto clearance of projects and abandoning the public trust doctrine. The notification codifies the process to identify and evaluate the environmental effects of proposed development and industrial projects and also provides the basis of a plan to mitigate these effects.

Public Liability Insurance Act, 1991

The Public Liability Insurance Act, 1991 (**Public Liability Act**), imposes liability on the owner or controller of hazardous substances for any damage arising out of an accident involving such hazardous substances. A list of ‘hazardous substances’ covered by the legislation has been enumerated by the Government by way of a notification. The owner or handler is also required to take out an insurance policy insuring against liability under the legislation. The rules made under the Public Liability Act mandate that the employer has to contribute towards the Environment Relief Fund, a sum equal to the premium paid on the insurance policies. This amount is payable to the insurer.

Water (Prevention and Control of Pollution) Act, 1974

The Water (Prevention and Control of Pollution) Act, 1974 as amended (the **Water Act**) aims to prevent and control water pollution and to maintain or restore wholesomeness of water. The Water Act provides for a Central Pollution Control Board and for various State Pollution Control Boards to be constituted to implement its provisions. The Water Act debars any person from establishing any industry, operation or process or any treatment and disposal system likely to discharge sewage or trade effluents into a water body, without prior consent of the State Pollution Control Board (the **SPCB**)

Air (Prevention and Control of Pollution) Act, 1981

The Air (Prevention and Control of Pollution) Act, 1981, as amended from time to time (the **Air Act**) under which any individual, industry or institution responsible for emitting smoke or gases by way of

use of fuel or chemical reactions must obtain consent from the SPCB prior to commencing any mining activity. The consent may contain conditions relating to specifications of pollution control equipment to be installed.

Hazardous Wastes (Management and Handling) Rules, 1989

The Hazardous Wastes (Management and Handling) Rules, 1989, as amended from time to time fixes the responsibility of the occupier and the operator of the facility that treats hazardous wastes to properly collect, treat, store or dispose the hazardous wastes without adverse effects on the environment. Moreover, they must take steps to ensure that persons working on the site are given adequate training and equipment for performing their work. When an accident occurs in a hazardous site or during transportation of hazardous wastes, then the SPCB has to be immediately alerted and the occupier will have to pay for remedial and restoration expenses.

LABOR LAWS

The Payment of Gratuity Act, 1972

The Payment of Gratuity Act, 1972 as amended (the **Gratuity Act**) establishes a scheme for the payment of gratuity to employees engaged in every factory, mine, oil field, plantation, port and railway company, every shop or establishment in which ten or more persons are employed or were employed on any day of the preceding 12 months and in such other establishments in which ten or more persons are employed or were employed on any day of the preceding 12 months, as the Central Government may, by notification, specify. Penalties are prescribed for non-compliance with statutory provisions.

Under the Gratuity Act, an employee who has been in continuous service for a period of five years will be eligible for gratuity upon his retirement, resignation, superannuation, death or disablement due to accident or disease. However, the entitlement to gratuity in the event of death or disablement will not be contingent upon an employee having completed five years of continuous service. The maximum amount of gratuity payable may not exceed Rs.20 Lakhs continuous service.

The Payment of Gratuity (Amendment) Act, 2018 has aimed to ensure harmony amongst employees in the private sector and in PSUs/ autonomous organizations under the Government who are not covered under CCS (Pension) Rules, 1972. These employees will be entitled to receive higher amount of gratuity at par with their counterparts in the Government sector. An employee is entitled to receive gratuity if he has rendered continuous service for at least five years with an organization and usually given at the time of retirement under certain terms and conditions. This gratuity is payable to the employee on his superannuation, or on his retirement or resignation or in case of death or disablement caused due to accident or disease.

Employees Provident Fund and Miscellaneous Provisions Act, 1952

The Employees Provident Fund and Miscellaneous Provisions Act, 1952, as amended from time to time (the **EPF Act**) provides for the institution of compulsory provident fund, pension fund and deposit linked insurance funds for the benefit of employees in factories and other establishments. Liability is placed both on the employer and the employee to make certain contributions to the funds mentioned above.

Shops and Establishments Legislation in Various States

The provisions of various Shops and Establishments legislation, as applicable, regulate the conditions of work and employment in shops and commercial establishments and generally prescribe obligations in respect of *inter alia* registration, opening and closing hours, daily and weekly working hours, holidays, leave, health and safety measures and wages for overtime work.

The Industrial Disputes Act, 1947

The Industrial Disputes Act, 1947, as amended from time to time, provides the procedure for investigation and settlement of industrial disputes. When a dispute exists or is apprehended, the appropriate Government may refer the dispute to a labor court, tribunal or arbitrator, to prevent the occurrence or continuance of the dispute, or a strike or lock-out while a proceeding is pending. The labor courts and tribunals may grant appropriate relief, including ordering modification of contracts of employment or reinstatement of workmen.

The Industrial Disputes (Amendment) Act, 2010 passed by the Rajya Sabha on August 3, 2010, inter alia, provides direct access for workmen to labor courts or tribunals in the case of individual disputes, expands the scope of qualifications of presiding officers of labor courts or tribunals, constitute grievance settlement machineries in any establishment having 20 or more workmen.

New labour –law related Codes

The National Commission on Labour (2002) had emphasised the need for universal and comprehensive social security coverage to avoid deprivation of basic needs of workers and recommended the simplification and consolidation of existing laws towards this end. The Industrial Relations Code, 2019 (**Industrial Relations Code**) has been introduced in Lok Sabha on November 28, 2019 and it subsumes three existing laws: the Industrial Disputes Act, 1947, the Trade Unions Act, 1926, and the Industrial Employment (Standing Orders) Act, 1946 (collectively the **Industrial Acts**). After the enactment of the Industrial Relations Code, the Industrial Acts will get repealed.

Industrial Relations Code, 2020

The GoI amalgamated the existing labour laws, namely, the Trade Unions Act, 1926, the Industrial Employment (Standing Orders) Act, 1946 (**SO Act**), and the Industrial Disputes Act, 1947 (**ID Act**), under a new legislation enacted as 'the Industrial Relations Code, 2020' (**Code**) on September 29, 2020. This Code will come into effect from a date to be notified by the GoI.

Broadly speaking, the Code seeks to benefit both employers and their workers. It streamlines the dispute resolution mechanism, protects fixed-term workers, requires all large industrial establishments to implement standing orders, creates a re-skilling fund for retrenched workers, and enhances penalties to deter non-compliance. It adopts a business-friendly approach to promote industrial harmony through the prescription of a single negotiating body and greater flexibility to employers to take operational decisions.

The key changes introduced by the Code is a New Definition of 'Industry'. Institutions run by organizations engaged in charitable, social, or philanthropic service, and sovereign activities of the government and domestic service have been specifically excluded from the definition. Further, the GoI has been empowered to exclude any other activity from the ambit of 'industry'. There is enhanced wage ceiling for coverage of supervisory employees under workers. The Code strengthens the grievance redressal machinery. Under the Code, a maximum of 10 members is required to constitute a grievance redressal committee (**GRC**) as against the maximum of six members required under the existing law. There is increase in threshold for Standing Orders. The benefits of permanent employees has been extended to more fixed-term workers. By expanding the scope of strikes and imposing a prior notice requirement, the Code seeks to deter workers and employers from indulging in arbitrary strikes and lock-outs, balancing the interests of all parties affected by such strikes and lock-outs. The Code provides for the recognition of a negotiating union/council as the sole negotiating body for negotiating with the employer of the industrial establishment on matters to be prescribed. A registered trade union that is the only trade union in an establishment, or has a membership of a minimum 51 per cent. workers, will be recognized as the sole negotiating body of such establishment. The Code introduces a time limit of 90

days for the completion of an investigation or inquiry into any misconduct by a worker that involves his suspension by the employer. This will protect the interest of workers.

Under the Code, industrial establishments operating as factories, mines, and plantations need appropriate Government permission for closure of their establishments or lay-off/ retrenchment of their workers only if they, in the previous year, employed 300 or more workers on an average per working day.

Amendments to Labor Laws

The Code on Wages, 2019

The Code on Wages Bill, 2019, (**Code on Wages**) passed by both houses of the Parliament received presidential assent on August 8, 2019 and subsumes on the Minimum Wages Act, 1948, the Payment of Wages Act, the Payment of Bonus Act, 1965 and the Equal Remuneration Act, 1976 into one statute. However, the Code is yet to be notified.

The primary aim of the Code on Wages is to remove multiplicity of definitions and authorities leading to ease of compliance, without compromising the wage security and social security of workers. A concept of statutory national minimum wage for different geographical areas has been introduced. It will ensure that no state government fixes the minimum wage below the national minimum wages for that particular area as notified by the Central Government. Before the implementation of the Code, minimum wage was implemented by factoring in occupation, skill levels and geographical area. Under the Code, the minimum wage will be fixed by primarily taking into account skills and/or geography. It drops “type of employment” as one of the criteria. Under the Code, a government may take into account the arduousness or hazardousness of a particular occupation to fix the wage.

The Code on Wages, 2019 (**Wage Code**) seeks to consolidate and amend four existing labour laws relating to wages, namely, the Equal Remuneration Act, 1976, the Minimum Wages Act, 1948, the Payment of Wages Act, 1936 and the Payment of Bonus Act, 1965. It may be noted that the GoI is empowered to bring into force the various provisions of the Wage Code in a staggered manner. The Wage Code proposes to extend the benefits and make the requirements prescribed with respect to payment of wages and minimum wages applicable to all types of establishments irrespective of their nature of business or activities.

The Wage Code proposes a common definition of the term “wages” as opposed to the separate definitions in the erstwhile laws. This will enable employers to take a consistent and uniform approach and avoid multiple interpretations. The Wage Code makes it mandatory for the employer to pay within seven days from expiry of succeeding month, irrespective of the size of the establishment. The Wage Code has introduced stringent penalties in cases of contravention. It introduces the concept of “floor wages”, which will be fixed by the GoI taking into account the minimum living standards of a worker. Once the Wage Code comes into force, the minimum rates of wages fixed by the state government cannot be less than floor wages as determined by the GoI.

The Code on Social Security, 2020

The Code on Social Security, 2020 (**Social Security Code**) amends and consolidates nine existing labour laws, namely the Employees’ Compensation Act, 1923, the Employees’ State Insurance Act, 1948, the Employees’ Provident Funds and Miscellaneous Provisions Act, 1952, the Maternity Benefit Act, 1961, the Payment of Gratuity Act, 1972, the Cine Workers Welfare Fund Act, 1981, the Building and Other Construction Workers’ Welfare Cess Act, 1996, the Employment Exchanges (Compulsory Notification of Vacancies) Act, 1959, and the Unorganised Workers’ Social Security Act, 2008. It proposes to universalize social security and extend it to all workers.

The Social Security Code proposes the creation of the following social security organizations namely, the Central Board of Trustees for the Employees Provident Fund, the Employees State Insurance Corporation, the National Social Security Board for unorganized workers, the State Unorganised Workers' Social Security Board, and the State Building and Other Construction Workers' Welfare Boards to administer the various social security schemes included in the Social Security Code. The benefits of the schemes are proposed to be paid out of funds comprising employer and employee contribution and may also include funds from the central or state government or from the corporate social responsibility fund. The Social Security Code empowers the GoI to exempt an establishment or class of establishment, from any or all provisions of the Social Security Code.

Corporate and Securities Laws

In addition to the above, the Company is required to comply with the provisions of the Companies Act, 2013, as amended, Companies Act, 1956, to the extent applicable, and rules framed thereunder, and other applicable statutes imposed by the central or the state government and authorities for the day-to-day business and operations. The Company is also subject to various central and state tax laws.

Moreover, there are various rules and regulations which are framed and amended from time to time by the SEBI in order to regulate the functioning of the securities market, which the Company is required to comply with, being a listed company. The various laws and regulations that are primarily applicable to a listed company in India are Securities Contracts (Regulation) Act, 1956, Securities and Exchange Board of India Act, 1992, and regulations and guidelines, Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeover) Regulations, 2011, Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015, Depositories Act, 1996, and other key SEBI regulations include, SEBI (Delisting of Equity Shares) Regulations, 2009, SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018 and SEBI (Issue and Listing of Debt Securities) Regulations, 2008.

LAWS RELATING TO INTELLECTUAL PROPERTY

In India, trademarks enjoy protection under both statutory laws and common law jurisprudence. The Trademarks Act, 1999 as amended (the **Trademarks Act**) and the Copyright Act, 1957 as amended among others govern the law in relation to intellectual property, including brand names, trade names and service marks and research works. The Trademarks Act governs the statutory protection of trademarks in India.

The Trademarks Act governs the registration, acquisition, transfer and infringement of trademarks and remedies available to a registered proprietor or user of a trademark. The registration of a trademark is valid for a period of ten years, and can be renewed in accordance with the specified procedure.

TAX LAWS

Income Tax Act, 1961

Income Tax Act is applicable to every domestic and foreign company whose income is taxable depending upon its 'residential status' and 'type of income' involved.

Goods and Services Tax

Goods and Services Tax (**GST**) has been effective in India since July 1, 2017. GST is a unified and comprehensive indirect tax which aims to expand the tax base, rationalize the input tax credit and harmonize the current multiple taxation laws in India which are levied by the State Governments such as the service tax, Central excise duty, sales tax and State value added tax. India has adopted a dual model GST. Therefore, under the GST regime, a tax called the Central Goods and Services Tax (**CGST**)

along with the State Goods and Services Tax (SGST) or the Union Territory Goods and Services Tax (UTGST) will be simultaneously levied on all intra-State supplies of goods and/or services at the rates specified in this regard. Further, an Integrated Goods and Services Tax (IGST) is levied on all supplies of goods and/or services made in the course of inter-State trade or commerce.

As per the notification No. 12/2017 (Central Rates) notification No. 12/2017 (Central Rates) dated June 28, 2017 as per the entry no.25 – ‘Transmission or distribution of electricity by an electricity transmission or distribution utility’ are taxable under GST @ ‘NIL’.

Ancillary services rendered by DISCOMs are taxable as per the **Circular No. 34/8/2018-GST dated March 1 2018**. The following services are taxable under GST @ 18 per cent.:- (i) Application fee for releasing connection of electricity; (ii) Rental Charges against metering equipment; (iii) Testing fee for meters/ transformers, capacitors etc.; (iv) Labor charges from customers for shifting of meters or shifting of service lines; and (v) Charges for duplicate bill.

REGULATION OF FOREIGN INVESTMENT

Foreign investment in India is governed primarily by the provisions of the FEMA which relates to regulation primarily by the RBI and the rules, regulations and notifications thereunder.

Foreign Exchange Management (Debt Instruments) Regulations, 2019 (Debt Instrument Regulations)

The Debt Instrument Regulations were issued by RBI in supersession of the Foreign Exchange Management (Transfer of Issue of Security by a Person Resident outside India) Regulations, 2017. The Debt Instruments Regulations lays down, for an investment made by a person resident outside India, the attendant conditionality's, the investment limits and the entry routes. Further, a person resident outside India may trade in all exchange trade derivative contracts approved by SEBI subject to the limits prescribed by SEBI and the conditions specified under the Debt Instruments Regulations.

RBI made changes in directions issued on investment by Foreign Portfolio Investors in Debt by a notification dated January 23, 2020. The Short-term investment limit by an FPI in Govt. securities/ State development loans and corporate bonds increased from 20 per cent. to 30 per cent. and FPI investments in Security Receipts are currently exempted from the short-term investment limit.

Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019

The Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019, as amended from time to time, were issued by RBI to regulate the mode of payment and reporting requirements for investment in India by a person resident outside India.

In accordance with the Consolidated FDI policy effective from October 15, 2020, foreign direct investment in NBFCs regulated by the RBI comes under the automatic route for FDI investment up to 100 per cent.

EXTERNAL COMMERCIAL BORROWINGS

The laws relating to ECBs are embodied in FEMA, the Foreign Exchange Management (Borrowing and Lending) Regulations, 2018, the RBI Master Directions on External Commercial Borrowings, Trade Credits and Structured Obligations dated March 26, 2019 and the Master Direction on Reporting under FEMA dated January 1, 2016, each as amended (the **ECB Guidelines**).

ECBs can be accessed under two routes, namely (i) the automatic route and (ii) the approval route. The automatic route does not require a borrower to obtain any RBI approvals, whereas the approval route

refers to circumstances where prior RBI approval is mandatory before raising an ECB. The ECB Guidelines are subject to amendment from time to time. Investors are urged to consult their own advisors in connection with the applicability of any Indian laws or regulations.

The maximum amount which can be raised every financial year under the automatic route is: U.S.\$750 million or its equivalent. The ECB Guidelines classify ECBs under two categories:(i) foreign currency denominated ECBs (which would include Notes other than the Rupee Denominated Notes) (**FCNY ECBs**); and (ii) Rupee denominated ECBs (which would include Rupee Denominated Notes) (**Rupee ECBs**).

Automatic Route

All entities eligible to receive foreign direct investment in India, port trusts, special economic zones units, Small Industries Development Bank of India, Export Import Bank of India can raise FCNY ECB and in addition registered micro-finance entities can raise Rupee ECBs.

The all-in cost (which includes rate of interest, other fees, charges and expenses, guarantees fees or export credit agency fees payable in foreign currency or Rupees but does not include commitment fees or payments for withholding tax in Rupees) ceilings for (i) FCNY ECBs is 450 basis points per annum over 6 month London interbank offered rate (or applicable benchmark for the respective currency) and (ii) for Rupee ECBs will be is 450 basis points per annum over the prevailing yield of the Government securities of corresponding maturity.

Foreign investors (including Noteholders) are eligible to lend ECBs under the ECB Guidelines. The lender should be resident of Financial Action Task Force or International Organization of Securities Commission compliant country. In addition, multilateral and regional financial institutions where India is a member country and individuals if they are foreign equity holders or for subscription to bonds or debentures listed abroad are eligible to lend ECBs. Foreign branches or subsidiaries of Indian banks are also permitted as recognized lenders only for FCNY ECB.

Foreign branches or subsidiaries of Indian banks, subject to applicable prudential norms, can participate as arrangers, underwriters, market-makers or traders for Rupee Denominated Notes issued overseas. However, underwriting by foreign branches or subsidiaries of Indian banks for issuances by Indian banks will not be allowed. The ECB Guidelines apply in respect of in respect of transfers of any ECB, including transfers of any of the Notes. For further information, please see section “*Subscription and Sale - India*”.

ECB proceeds cannot be utilized for (i) real estate activities; (ii) investment in the capital markets; (iii) equity investment; (iv) working capital, general corporate purposes or repayment of Rupee loans, unless the ECB minimum average maturity period (**MAMP**) is 5 years; (v) repayment of Rupee loans for capital expenditure purposes, unless (where the eligible lender is not a foreign equity holder), the ECB MAMP is 7 years; or (vi) working capital or general corporate purposes or repayment of Rupee loans utilized in India for purposes other than capital expenditure, unless (where the eligible lender is not a foreign equity holder), the ECB MAMP is 10 years.

ECB proceeds cannot be utilized for on-lending for any of the above activities, except that non-banking financial companies can raise ECB to on-lend for the purposes set out in (iv), (v) and (vi) above. ECBs by manufacturing companies up to 1 year can be raised up to U.S.\$50 million. No call and put option, if any, can be exercised prior to the expiry of the MAMP.

Approval Route

All ECBs falling outside the automatic route limits are considered by the RBI under the approval route.

Creation of Security

Under the present ECB Guidelines, the choice of security to be provided is left to the borrower. ECBs may be secured, after approval by an AD Bank, by creation of a charge on immovable assets, movable assets, financial securities and the issue of corporate or personal guarantees in favor of an overseas lender or a security trustee, to secure the ECB, subject to certain conditions.

Creation of Charge on Movable Assets

In the event of enforcement of the charge over movable assets, the claim of the lender, whether the lender takes possession over the movable asset or otherwise, will be restricted to the outstanding claim against the ECB. Encumbered movable assets may also be taken out of the country subject to getting 'no objection certificate' from domestic lenders, if any.

Filing and regulatory requirements in relation to issuance of the Notes

An ECB borrower is required to obtain a loan registration number (LRN) from the RBI before an issuance of Notes is effected. To obtain this, ECB borrowers are required to submit a completed form ECB certified by a company secretary or a chartered accountant to the AD Bank of the ECB borrower. The AD Bank is then required to forward a copy of the completed form ECB to the RBI. Any ECB borrower is required to submit a form ECB-2 filing on a monthly basis via its AD Bank to the RBI.

Procedure in relation to any change to the Terms and Conditions of the Notes

Any change in the terms and conditions of the Notes after obtaining the LRN are required to be reported to Department of Statistics and Information Management through a revised form ECB at the earliest, and in any case not later than 7 days from the changes effected. Further, the borrowers are required to report actual ECBs transactions through form ECB 2 filing through AD Bank on a monthly basis so as to reach RBI within seven working days from the close of month to which it relates and the changes, if any, in ECB parameters should also be incorporated therein.

Further, any change in the terms and conditions of the Notes after obtaining the LRN may require prior approval of the RBI or AD Bank, as the case may be. Certain changes (such as change of AD Bank, cancellation of LRN, refinancing of existing of ECB, conversion of ECB into equity, security for ECB) may be approved by the AD Bank under a delegated authority from the RBI subject to certain conditions being complied with. Any redemption of the Notes prior to their stated maturity, including on occurrence of an event of Default or for taxation reasons (as further described in the Conditions) may require the prior approval of the RBI or the AD Bank, as the case may be.

Hedging

Indian companies raising FCNY ECB are required to follow guidelines for hedging if any, by relevant sectoral or prudential regulators in respect of foreign currency exposure. Infrastructure space companies (being companies in the infrastructure sector, NBFCs undertaking infrastructure financing, holding companies or core investment companies undertaking infrastructure financing, housing finance companies and port trusts) raising FCNY ECBs are required to (i) have a board approved risk management policy; and (ii) mandatorily hedge 70 per cent. of their FCNY ECB exposure if the MAMP is less than 5 years.

An AD Bank is required to confirm that the hedging requirement has been complied with during the currency of the ECB and report the position to the RBI by way of Form ECB 2 filing. ECB investors are eligible to hedge their exposure for Rupee ECBs through permitted derivative products with AD Banks in India or through branches or subsidiaries of Indian banks abroad or branches of foreign banks with Indian presence on a back to back basis.

Payment of Indemnity

The various reports and forms prescribed by the RBI and required to be submitted under FEMA are provided under the ECB Guidelines. Further, in accordance with the FEMA and the regulations framed thereunder, a person resident in India will be required to obtain the approval of the RBI for any payment in respect of any indemnities that may be required to be made by such person to, or for the credit of, any person resident outside India, in Rupees or foreign currency, before any such payment is made. Consequently, any indemnity payment by the Company to Noteholders will require RBI approval.

Issuance of Overseas Rupee Denominated Notes (Masala Bonds)

Pursuant to the ECB Guidelines, any company or body corporate (including NBFCs), as well as real estate investment trusts and infrastructure investment trusts, can issue plain vanilla Rupee Denominated Notes up to U.S.\$50 million (equivalent in Rs.) with a three-year minimum maturity period and above U.S.\$50 million with a five-year minimum maturity period.

The Rupee Denominated Notes issuances, commonly and popularly referred as ‘Masala Bonds’, can be listed or unlisted and can only be subscribed or purchased by a resident of a country that is a member of the FATF or member of a FATF Style Regional Body and whose securities market regulator is a signatory to the International Organization of Securities Commission’s (IOSCO) Multilateral Memorandum of Understanding (Appendix A Signatories) or a signatory to bilateral Memorandum of Understanding with the Securities and Exchange Board of India for information sharing arrangements. Additionally, investors should not be resident of a country identified in the public statement of the FATF as: (i) a jurisdiction having a strategic anti-money laundering or combating the financing of terrorism deficiencies to which counter measures apply; or (ii) a jurisdiction that has not made sufficient progress in addressing the deficiencies or has not committed to an action plan developed with the FATF to address the deficiencies.

Multilateral and Regional Financial Institutions where India is a member country will also be considered as recognized investors. Indian banks, subject to applicable prudential norms, can participate as arrangers/underwriters/market makers/traders in Rupee Denominated Notes issued overseas. However, underwriting by overseas branches/subsidiaries of Indian banks for issuances by Indian banks will not be allowed.

The all-in-cost ceiling for such Rupee Denominated Notes will be 450 basis points over the prevailing yield of the Government securities of corresponding maturity. The proceeds of such issuance can be used for all purposes except for: (i) real estate activities; (ii) investment in capital markets; (iii) equity investment (iv) working capital purposes except from foreign equity holder; (v) general corporate purposes except from foreign equity holder; (vi) repayment of rupee loans, except from a foreign equity holder; and (vii) on-lending for any of the abovementioned activities.

The foreign currency to Rupee conversion will be at the market rate on the settlement date. Furthermore, overseas investors are allowed to hedge their Rupee exposure through permitted derivative products with: (a) an AD Category I Bank in India; or (b) the offshore branches or subsidiaries of Indian banks on a back to back basis; or (c) branches of foreign banks with a presence in India on a back to back basis. Issuers issuing Rupee Denominated Notes offshore are required to comply with other provisions of the ECB Guidelines, *inter alia*, in relation to reporting requirement, security creation and parking of proceeds offshore.

In relation to Rupee Denominated Notes, the Company is required to provide the list of primary Noteholders procured from the relevant Dealer to the relevant regulatory authorities in India as and when required.

Recent Indian Regulatory Developments

Asset Classification and Income Recognition following the expiry of COVID-19 regulatory package- RBI Circular dated April 7, 2021

The RBI in its circular dated April 7, 2021 has stated that the Honorable Supreme Court of India has pronounced its judgement in the matter of Small-Scale Industrial Manufacturers Association vs. Union of India and Others and other connected matters on March 23, 2021. In this connection, RBI has advised hereunder:

1. Refund/adjustment of ‘interest on interest’

- (a) All lending institutions shall immediately put in place a Board-approved policy to refund/adjust the ‘interest on interest’ charged to the borrowers during the moratorium period, i.e. March 1, 2020 to August 31, 2020 in conformity with the above judgement.
- (b) The above reliefs shall be applicable to all borrowers, including those who had availed of working capital facilities during the moratorium period, irrespective of whether moratorium had been fully or partially availed, or not availed, in terms of the circulars dated March 27, 2020 and May 23, 2020 (“**COVID-19 Regulatory Package**”).
- (c) The RBI further mandates that lending institutions shall disclose the aggregate amount to be refunded/adjusted in respect of their borrowers based on the above reliefs in their financial statements for the year ending March 31, 2021.

2. Asset Classification

The RBI has further directed that asset classification of borrower accounts by all lending institutions following the above judgment shall continue to be governed by the extant instructions as clarified below.

- (a) In respect of accounts which were not granted any moratorium in terms of the COVID-19 Regulatory Package, asset classification shall be as per the criteria laid out in the Master Circular - Prudential norms on Income Recognition, Asset Classification and Provisioning pertaining to Advances dated July 1, 2015 or other relevant instructions as applicable to the specific category of lending institutions (**IRAC Norms**).
- (b) In respect of accounts which were granted moratorium in terms of the COVID-19 Regulatory Package, the asset classification for the period from March 1, 2020 to August 31, 2020 shall be governed in terms of the circular dated April 17, 2020, read with circular dated May 23, 2020. For the period commencing September 1, 2020, asset classification for all such accounts shall be as per the applicable IRAC Norms.

RBI Statement on Developmental and Regulatory Policies dated February 5, 2021

The statement dated February, 5 2021 sets out various developmental and regulatory policy measures on (i) liquidity management and support to targeted sectors; (ii) regulation and supervision (iii) deepening financial markets; (iv) upgrading payment and settlement systems and (v) consumer protection.

Key policy measures are as follows:

(a) *Integrated Ombudsman Scheme*

Financial consumer protection has gained significant policy priority across jurisdictions. In line with the global initiatives on consumer protection, RBI has taken various initiatives to strengthen Grievance Redress Mechanism of regulated entities. As an alternate dispute resolution mechanism, three Ombudsman schemes, i.e. (i) Banking Ombudsman Scheme (ii) Ombudsman Scheme for Non-Banking

Financial Companies and (iii) Ombudsman Scheme for Digital Transactions are in operation from 22 ombudsman offices of RBI located across the country. RBI had operationalised complaint management system (CMS) portal as one stop solution for alternate dispute resolution of customer complaints not resolved satisfactorily by the regulated entities. To make the alternate dispute redress mechanism simpler and more responsive to the customers of regulated entities, it has been decided to implement, inter alia, integration of the three Ombudsman schemes and adoption of the 'One Nation One Ombudsman' approach for grievance redressal. This is intended to make the process of redress of grievances easier by enabling the customers of the banks, NBFCs and non-bank issuers of PPIs to register their complaints under the integrated scheme, with one centralised reference point. The Integrated Ombudsman Scheme will be rolled out in June 2021.

(b) *TLTRO on Tap Scheme – Inclusion of NBFCs*

With a view to increasing the focus of liquidity measures on revival of activity in specific sectors that have both backward and forward linkages and having multiplier effects on growth, the RBI had announced the TLTRO on Tap Scheme on October 9, 2020 which is available up to March 31, 2021. In addition to the five sectors announced under the scheme on October 21, 2020, 26 stressed sectors identified by the Kamath Committee were also brought within the ambit of sectors eligible under on tap TLTRO on December 4, 2020. Liquidity availed by banks under the scheme is to be deployed in corporate bonds, commercial paper, and non-convertible debentures issued by entities in these sectors. The liquidity availed under the scheme can also be used to extend bank loans and advances to these sectors. Investments made by banks under this facility can be classified as held to maturity even above the 25 per cent. of total investment permitted to be included in the HTM portfolio. All exposures under this facility are exempted from reckoning under the large exposure framework. Given that NBFCs are well recognised conduits for reaching out last mile credit and act as a force multiplier in expanding credit to various sectors, it is now proposed by the RBI to provide funds from banks under the TLTRO on Tap scheme to NBFCs for incremental lending to these sectors. Further, by RBI Statement on Developmental and Regulatory Policies dated April 7, 2021, the TLTRO on tap scheme is extended by a period of six months, i.e., till September 30, 2021.

(c) *Basel III Capital Regulations: Deferment of the Full Phase-in of Capital Conservation Buffer*

As part of the regulatory measures taken in the wake of COVID-19, the implementation of last tranche of the capital conservation buffer (CCB) of 0.625 per cent., which was scheduled to take effect from April 1, 2020, was deferred until April 1, 2021. Considering the continuing stress on account of COVID-19, and in order to aid in the recovery process, it has been decided by the RBI to defer the implementation of the last tranche of the CCB of 0.625 per cent. from April 1, 2021 to October 1, 2021.

(d) *Review of the Regulatory Framework for Microfinance Institutions*

Recently, the RBI has released a discussion paper on January 22, 2021 on Revised Regulatory Framework for NBFCs – A Scale Based Approach (**Discussion Paper**). Taking into consideration the constantly evolving milieu in the financial sector, it is proposed to review the regulatory framework for Non-Banking Financial Company – Micro Finance Institutions (**NBFC-MFIs**). There is a case for having a framework which is uniformly applicable to all regulated lenders in the microfinance space including scheduled commercial banks, small finance banks and NBFC-Investment and Credit Companies, rather than prescribing these guidelines for NBFC-MFIs alone. Accordingly, the RBI will issue a consultative document harmonising the regulatory frameworks for various regulated lenders in the microfinance space in March 2021.

The objective of the Discussion Paper is to revisit the broad principles which underpin the current regulatory framework and examine the need to develop a scale-based approach to regulation from a 'systemic significance' vantage point and recommend appropriate regulatory measures in support of a strong and resilient financial system. The primary focus of the Discussion Paper is examination of the principles and processes for identification of NBFCs that have significant systemic risk spill-overs and development of a conceptual framework on which regulations could be based. The RBI is conscious and aware that NBFCs serve niche sectors/ geographies and their uniqueness must be preserved to ensure continued flexibility of their operations in the last mile of credit delivery.

Priority Sector Lending (PSL) - Lending by banks to NBFCs for On-Lending (RBI circular dated April 7, 2021)

The RBI in its previous circular dated March 23, 2020 had, *inter alia*, advised that the bank loans to registered NBFCs (other than MFIs) for on-lending will be eligible for classification as priority sector under Agriculture and Micro & Small Enterprises up to March 31, 2021 and will be reviewed thereafter. As announced in the Statement on Developmental and Regulatory Policies dated April 7, 2021, with a view to ensure continued availability of credit to these sectors to aid faster economic recovery, the RBI has decided to extend the PSL classification for lending by banks to NBFCs for on-lending by six months i.e. up to September 30, 2021. However, bank loans to HFCs for on-lending for the purpose of housing, as prescribed in para 23 of the Master Direction on PSL dated September 4, 2020, will continue on an on-going basis. Further, existing loans disbursed under the on-lending model will continue to be classified under Priority Sector till the date of repayment/maturity. All other guidelines as issued vide circulars dated August 13, 2019, March 23, 2020 and Master Directions on PSL dated September 4, 2020 will continue to apply.

Risk based internal audit – RBI Circular dated February 3, 2021

An independent and effective internal audit function in a financial entity provides vital assurance to the Board and its senior management regarding the quality and effectiveness of the entity's internal control, risk management and governance framework. The essential requirements for a robust internal audit function include, *inter alia*, sufficient authority, proper stature, independence, adequate resources and professional competence. RBI in its circular dated February 3, 2021 has been decided to mandate RBIA framework for the following NBFCs and Primary (Urban) Co-operative Banks (UCBs): (a) All deposit taking NBFCs, irrespective of their size; (b) All Non-deposit taking NBFCs (including Core Investment Companies) with asset size of Rs. 5,000 crore and above; and (c) All UCBs having asset size of Rs. 500 crore and above

The Supervised Entities as indicated above shall implement the RBIA framework by March 31, 2022 in accordance with the Guidelines on Risk-Based Internal Audit. The Guidelines are intended to enhance the efficacy of internal audit systems and processes followed by the NBFCs and UCBs. Further, in order to ensure smooth transition from the existing system of internal audit to RBIA, the concerned NBFCs and UCBs may constitute a committee of senior executives with the responsibility of formulating a suitable action plan. The committee may address transitional and change management issues and should report progress periodically to the Board and senior management. The Board of Directors (**the Board**) / Audit Committee of Board (**ACB**) of NBFCs and the Board of UCBs are primarily responsible for overseeing the internal audit function in the organization.

Investment in NBFCs from FATF non-compliant jurisdictions Circular dated February 12, 2021

RBI in its Circular dated February 12, 2021 has directed that new investors from or through non-compliant Financial Action Task Force (FATF) jurisdictions, whether in existing NBFCs or in companies seeking Certification of Registration (COR), should not be allowed to directly or indirectly acquire 'significant influence' in the investee, as defined in the applicable accounting standards. In other words, fresh investors (directly or indirectly) from such jurisdictions in aggregate should be less than the threshold of 20 per cent of the voting power (including potential voting power) of the NBFC. Investors in existing NBFCs holding their investments prior to the classification of the source or intermediate jurisdiction/s as FATF non-compliant, may continue with the investments or bring in additional investments as per extant regulations so as to support continuity of business in India.

Revised regulatory framework for NBFCs dated January 22, 2021

Recently in its discussion paper dated January 22, 2021 on Revised regulatory framework for NBFC's, the RBI proposed for a four-tier structure for tighter regulatory framework of NBFCs.

The proposed 4-tier are as follows:

1. **NBFC-Base Layer** – under this layer, least regulatory intervention is warranted for the NBFCs. RBI has proposed the classification of Non-Performing assets (NPAs) of this layer NBFCs from 180 days to 90 days.
2. **NBFC-Middle Layer** – this layer has a stricter regulation as compared to the base layer. Under it, the banks can be addressed for NBFCs falling so as to reduce the systemic risk spill-overs.
3. **NBFC Upper Layer** – It comprises of the NBFCs which have large potential of systemic risks and those impacting the financial stability. The regulatory framework under this layer will be bank-like.
4. **NBFC Top Layer** – This layer is supposed to be empty unless supervisors take a view on specific NBFCs.

The proposed framework is aimed at protecting financial stability while ensuring that smaller NBFCs continue to enjoy light regulations and grow with ease.

MEASURES TO ADDRESS STRESS ON ACCOUNT OF COVID-19 PANDEMIC

Reserve Bank of India

In order to mitigate the disruptions due to the COVID-19 pandemic, the RBI has issued COVID-19 regulatory packages with relaxations from regulatory compliances for restructuring, of stressed assets under the Framework. The RBI on March 27, 2020, April 17, 2020 and May 22, 2020 has announced various measures.

COVID-19 – Operational and Business Continuity Measures dated March 16, 2020 - Operational Measures by the RBI

The RBI issued guidelines on March 16, 2020, to ensure operational and business continuity plans on account of disruptions in the functioning of institutions including NBFCs due to COVID-19 pandemic. The guidelines, *inter alia*, requires NBFCs to: (i) devise a strategy and monitoring mechanism concerning the spread of the disease within the organisation; (ii) make timely interventions for preventing further spread in case of detection of infected employees; (iii) take stock of critical processes and revisiting business continuity plan in the emerging situations/scenarios with the aim of continuity in critical interfaces; (iv) take steps of sharing important instructions/ strategy with the staff members at all levels, for soliciting better response and participation and sensitizing the staff members about preventive measures/steps to be taken in suspected cases; and (v) appoint quick response team to provide regular updates to the top management on significant developments and act as a single point of contact with regulators/outside institutions/agencies.

COVID-19 – Regulatory Package dated March 27, 2020 - Moratorium permitted by the Reserve Bank of India

The RBI in its “Statement of Development and Regulatory Policies” released on March 27, 2020, *inter alia*, has announced certain regulatory measures to mitigate the burden of debt servicing brought about by disruptions on account of COVID-19 and to ensure the continuity of viable businesses. The RBI’s statement sets out various developmental and regulatory policies that directly address the stress in financial condition caused by COVID-19. They consist of: (i) expanding liquidity in the system sizeably to ensure that financial markets and institutions are able to function normally in the face of COVID-related dislocations; (ii) reinforcing monetary transmission so that bank credit flows on easier terms are sustained to those who have been affected by the pandemic; (iii) easing financial stress caused by COVID-19 disruptions by relaxing repayment pressures and improving access to working capital; and (iv) improving the functioning of markets in view of the high volatility experienced with the onset and spread of the pandemic. The significant features of this package are as below:

- (a) **Moratorium on term loans:** The RBI has permitted all commercial banks (including regional rural banks, small finance banks and local area banks), co-operative banks, all-India financial institutions, and non-banking financial companies (including housing finance companies) (**Lending Institutions**) to grant a moratorium in respect of term loans given by them (including agricultural term loans, retail and crop loans), of three months on payment of all “instalments” falling due between March 1, 2020 and May 31, 2020. The “instalments” will include (i) principal and/or interest components; (ii) bullet repayments; (iii) equated monthly instalments; and (iv) credit card dues. The repayment schedule for such loans as also the residual tenor, will be shifted across the board by three months after the moratorium period ends. However, interest will continue to accrue on the outstanding portion of the term loans during the moratorium period. It is noteworthy that the moratorium related provisions are not applicable to foreign lenders, foreign portfolio investors, mutual funds or alternative investment funds that have extended any debt to Indian borrowers.
- (b) **Deferment of interest on working capital facilities:** In relation to working capital facilities sanctioned in the form of cash credit/overdraft, Lending Institutions have been permitted by RBI to defer the recovery of interest applied in respect of all such facilities during the period from March 1, 2020 up to May 31, 2020. The accumulated accrued interest will be recovered immediately after the completion of this period.
- (c) **Recalculation of drawing power:** Lending Institutions can also recalculate the drawing power of borrowers facing stress due to COVID-19 in relation to cash credit/overdraft facilities sanctioned to them. The recalculation can be by reducing the margins and/or by reassessing the working capital cycle. This relief is available in respect of all such changes effected up to May 31, 2020 and contingent on the Lending Institutions being satisfied that the change is necessitated due to COVID-19.
- (d) **Asset classification: Special Mention Accounts (SMAs) and Non-Performing Assets (NPAs):** Any moratorium or deferment or recalculation of drawing power will not be treated as a concession or change in terms and conditions of loan agreements due to the financial difficulty of the borrower under the RBI’s ‘Prudential Framework or Resolution of Stressed Assets’ dated June 7, 2019 (the **Framework**). Therefore, such measure in itself will not result in a downgrade of asset classification. The asset classification of term loans which are granted any relief mentioned above will be determined based on the revised due dates and the revised repayment schedule. Further, for working capital facilities where relief is provided, the SMA status and the out of order status will be evaluated considering the application of accumulated interest immediately after the completion of the deferment period as well as the revised terms.
- (e) **No adverse impact on credit history:** Any rescheduling of payments, including interest, will not qualify as a default for the purposes of supervisory reporting and reporting to credit information companies by the Lending Institutions. Credit information companies shall ensure that the actions taken by Lending Institutions pursuant to the above announcements do not adversely impact the credit history of the beneficiaries.
- (f) **Board approved policy:** The board of each Lending Institution must frame appropriate policies to deal with the above measures. The policies must set out objective criteria for considering the abovementioned reliefs and these must also be made available in the public domain. NBFCs which are required to comply with Indian Accounting Standards shall, as hitherto, continue to be guided by the guidelines duly approved by their boards and in accordance with ICAI advisories relating to the recognition of the impairments.

Additional measures announced on 23 May 2020

The RBI, on May 23, 2020, announced further developmental and regulatory policy measures to ease financial stress, including the following:

- (a) The RBI has allowed Lending Institutions to extend the moratorium on instalments of all term loans, by *another* three months, from June 1, 2020 to August 31, 2020, along with

similar measure for deferment of interest for another three months on working capital facilities.

- (b) Asset classification benefits (i.e. not resulting in downgrade) on account of moratorium will continue till August 31, 2020.
- (c) With regards to resolution of stressed assets, Lending Institutions have been permitted to exclude the entire moratorium/deferment period from March 1, 2020 to August 31, 2020 from the calculation of 30-day review period or 180-day resolution period, if the review/ resolution period had not expired as on March 1, 2020.

COVID-19 Regulatory Package – Review of Resolution Timelines under the Prudential Framework on Resolution of Stressed Assets dated April 17, 2020

The RBI has also announced certain additional regulatory measures aimed at alleviating the lingering impact of COVID-19 on businesses and financial institutions in India, consistent with the globally coordinated action committed by the Basel Committee on Banking Supervision. In this regard, the detailed instructions dated April 17, 2020 relating to the extension of resolution timelines under the Framework are as under:

- (a) In terms of paragraph 11 of the Prudential Framework, lenders are required to implement a resolution plan in respect of entities in default within 180 days from the end of a review period (**Review Period**) of 30 days. RBI has mandated that in respect of accounts which were within the Review Period as on March 1, 2020, the period from March 1, 2020 to May 31, 2020 shall be excluded from the calculation of the 30-day timeline for the Review Period. In respect of all such accounts, the residual Review Period shall resume from June 1, 2020, upon expiry of which the lenders shall have the usual 180 days for resolution.
- (b) In respect of accounts where the Review Period was over, but the 180-day resolution period had not expired as on March 1, 2020, the timeline for resolution shall get extended by 90 days from the date on which the 180-day period was originally set to expire. Consequently, the requirement of making additional provisions specified in paragraph 17 of the Framework shall be triggered as and when the extended resolution period, as stated above, expires.

COVID-19 Economic Stimulus Package – Liquidity Infusion Scheme for Discoms

In view of the economic disruption caused by the lockdown imposed to contain the COVID-19 outbreak, to facilitate liquidity flow in the power sector, the Ministry of Finance, Government of India, on May 13, 2020, as part of the economic stimulus package, announced a credit package of Rs. 900,000 million to enable Discoms for clearance of their outstanding dues as on March 31, 2020. The Company and Power Finance Corporation Limited have been mandated as key lending partners for this package. To facilitate funding under the liquidity package, the Company has formulated a lending scheme in line with the broad contours prescribed by Ministry of Power. Under the scheme, loans will be given to the Discoms in two tranches, 50 per cent. of the sanctioned loan amount shall be considered in tranche-I and balance in tranche-II. The loans shall have a maximum tenor of 10 years. A principal moratorium may be considered on a case -to- case basis, which shall not exceed 3 years. The loan amounts to be sanctioned (in the form of special long-term transition loans up to 10 years) shall be restricted to the outstanding dues of central public sector undertakings, electricity generation companies, transmission companies, IPPs and renewable energy generators. The interest rate shall be charged at the cost of funds of the Company plus margins as may be decided. The loans shall be secured with unconditional and irrevocable guarantees by state governments covering the loan amounts along with interest and any other charges towards the loan. Also, the loans to the Discoms under tranche II are subject to progress achieved in implementation of conditions such as clearance of unpaid electricity dues and unpaid subsidies dues by the respective state governments, installation of smart meters, digital payments of electricity bill. Further, it has also been approved to allow Utilities in States which do not have adequate headroom against State receivables or working capital limits under UDAY to avail the benefits of the liquidity infusion scheme.

Further, in September 2020, the GoI allowed enhanced funding to Discoms for clearance of their outstanding dues as on June 30, 2020. Also, the GoI has now allowed funding to Discoms in exemption of the working capital limits under the UDAY scheme. Thus, pursuant to the MoP order dated September 2, 2020, Discoms are now eligible for loans to clear outstanding dues of CPSU generation companies and transmission companies, IPPs and renewable energy generators up to June 30, 2020. The Company estimates that the total funding to the Discoms following the MoP order dated September 2, 2020 shall be approximately up to Rs. 1,200,000 million.

Reduced rate of Late Payment Surcharge

In order to address the problems faced by electricity Distribution Companies due to COVID-19 pandemic, MoP, GoI, has on March 28, 2020 issued directions to CERC under Section 107 of the Electricity Act 2003, for specifying reduced rate of Late Payment Surcharge (LPS) for payments which become delayed beyond a period of 45 days (from the date of presentation of the bill) during the period from March 24, 2020 to June 30, 2020 to generating companies and licensees treating the restrictions placed by the central government vide its order dated March 24, 2020 to contain COVID-19 as an event of force majeure.

It was also provided by the MoP in its directive that for generating companies and transmission licensees whose tariff was determined under section 63 by the Central Commission, Discoms may claim relief from its obligations regarding the rate at which LPS is to be paid, as per force majeure provisions given in respective power purchase agreement. On directions of the Ministry of Power, Government of India, CERC has issued necessary orders on April 3, 2020.

On September 20, 2020, MoP, GoI has advised Generating Companies and Transmission Companies to charge LPS at a rate not exceeding 1 per cent. per month on the principal dues (excluding LPS) for all payments made by Discoms under the Liquidity Infusion Scheme of PFC and REC.

COVID-19 – RBI Circular dated August 6, 2020 on resolutions plans for borrower accounts facing stress due to the COVID-19 outbreak (the Resolution Plan Circular)

The RBI, pursuant to the Resolution Plan Circular, has permitted Lending Institutions to implement resolution plans in respect of certain eligible corporate exposures for borrowers having stress on account of the COVID-19 outbreak while classifying such exposures as standard. Some of the significant features of the Resolution Plan Circular are as follows:

- (a) ***Board approved policy:*** Lending Institutions shall frame board approved policies pertaining to the implementation of viable resolution plans for eligible borrowers under this framework, ensuring that the resolution is provided only to the borrowers having stress on account of the COVID-19 outbreak. Such policy shall, among other things, detail the eligibility of borrowers and lay down the due diligence considerations to be followed by the Lending Institutions to establish the necessity of implementing a resolution plan in respect of the concerned borrower. The reference date for the outstanding amount of debt to be considered for resolution shall be March 1, 2020.

Only those borrower accounts shall be eligible for resolution which were classified as standard, but not in default for more than 30 days with any lending institution as on March 1, 2020. Further, the accounts should continue to remain standard till the date of invocation.

Where multiple Lending Institutions have exposure to the borrower, the resolution process for such borrower shall be treated as invoked if Lending Institutions representing 75 per cent. by value of the total outstanding credit facilities, and not less than 60 per cent. of Lending Institutions by number agree to invoke resolution.

Resolution may be invoked not later than December 31, 2020 and must be implemented within 180 days from the date of such invocation.

For borrowers with exposure to multiple Lending Institutions, and in respect of whom the resolution process is invoked an inter-creditor agreement (ICA) is required to be signed by all

Lending Institutions within 30 days from the date of invocation. If Lending Institutions representing not less than 75 per cent by value of the total outstanding credit facilities and not less than 60 per cent of Lending Institutions by number, do not sign the ICA within 30 days from the invocation, the invocation will be treated as lapsed. In respect of such borrowers, the resolution process cannot be invoked again under this framework. The terms of the ICA shall include the provisions specified in the Resolution Plan Circular.

- (b) *Permitted features of the resolution plan:* Set forth below are some of the significant features permitted under the Resolution Plan Circular in respect of the resolution plan, in addition to involving any action under the relevant provisions of the Framework except compromise settlements:
- (i) The resolution plan may include sanctioning of additional credit facilities to address the financial stress of the borrower;
 - (ii) Lending Institutions may allow an extension of the residual tenor of the loan, with or without a payment moratorium, by a period of not more than two years which, if granted, shall come into force immediately upon implementation of the resolution plan.
 - (iii) The resolution plan may provide for conversion of a portion of the debt into equity or other marketable, non-convertible debt securities issued by the borrower, provided the amortisation schedule and the coupon carried by such debt securities are similar to the terms of the debt held on the books of the Lending Institutions, post implementation of the resolution plan. In case the Lending Institutions convert any portion of the debt into any other security, the same shall collectively be valued at Rs. 1.
 - (iv) In respect of accounts where the aggregate exposure of the Lending Institutions at the time of invocation is Rs. 100 crore or above, the resolution plan shall require an independent credit evaluation by an RBI authorised credit rating agency.

The resolution plan shall provide that in accounts involving consortium or multiple banking arrangements, all receipts and repayments by the borrower and additional disbursements, if any, to the borrower as part of the resolution plan shall be routed through an escrow account maintained with one of the Lending Institutions.

- (c) *Asset classification and provisioning:* If additional finance was sanctioned before implementation of the plan to the borrower, such additional finance may be classified as 'standard asset' until implementation of the plan. If the resolution plan is not implemented within the stipulated timelines the asset classification of such additional finance shall be as per the actual performance of the borrower with respect to such additional finance or the rest of the credit facilities, whichever is worse.

Lending Institutions are required to keep provisions in their books as per the extant norms for income recognition and asset classification, or 10 per cent. of the total debt on their books in cases where the ICA is signed within 30 days of invocation, and 20 per cent. of the total debt on their books in cases where the ICA is not signed within 30 days of invocation, whichever is higher. Such provisions may be reversed as specified in the Resolution Plan Circular.

- (d) *Post implementation performance:* Any default by the borrower with any of the signatories to the ICA during the monitoring period (as defined in the Resolution Plan Circular) shall trigger a review period of 30 days. If the borrower is in default with any of the signatories to the ICA at the end of the said review period, the asset classification of the borrower with all Lending Institutions shall be downgraded to NPA from the date of implementation of the resolution plan or the date from which the borrower had been classified as NPA before implementation of the plan, whichever is earlier.
- (e) *Disclosures and credit reporting:* Lending Institutions are required to make disclosures in the formats prescribed and in the manner prescribed in the Resolution Plan Circular, in their financial statements till, all exposures on which the resolution plan was implemented are either

fully extinguished or completely fall under NPA, whichever is earlier. Credit reporting by such Lending Institutions shall also reflect the “restructured” status of the account if the resolution plan involves renegotiation that would be classified as restructuring under the Prudential Framework.

RBI Circular on Resolution Framework for COVID-19-related Stress – Financial Parameters dated September 7, 2020

The RBI has constituted an expert committee under the chairmanship of Mr. K.V. Kamath (**Expert Committee**) to suggest financial parameters and other sector specific benchmark ranges to be factored in a resolution plan. The Expert Committee selected 5 key parameters for Lending Institutions to consider when finalising a resolution plan and set out range of parameters in 26 sectors. The Expert Committee is also required to vet resolution plans with large exposures exceeding Rs. 15 billion to verify the process followed by NBFCs without interfering with the commercial judgment of lenders.

Regulatory Measures

Various ministries and regulators, including the Ministry of Finance, Ministry of Corporate Affairs and SEBI implemented measures to minimise the compliance burden and impact of the economic slowdown and to protect the interest of investors during market volatility due to the COVID-19 pandemic.

NBFC REGULATIONS

Declaration of Dividend by NBFCs dated December 9, 2020

RBI has published draft guidelines on dividend distribution by NBFCs specifying criteria to be satisfied prior to dividend declaration. The guidelines, once implemented, will be applicable for fiscal year 2021 onwards.

The NBFC must be in compliance with the RBI Act and all RBI regulations and not be expressly restricted in declaring dividends. Dividend can only be paid from current year’s profits. Conditions to be included but are not limited to: (i) each of net NPA ratio must be less than 6 per cent. and capital adequacy must have been maintained for the last 3 years including the accounting year for which dividend it proposed; (ii) minimum CRAR of 15 per cent.; (iii) the NBFC board must consider its long term growth plans, auditors’ qualification on the statement of accounts and any RBI findings relating to divergence in identification of NPA and provisioning shortfalls.

NBFCs that satisfy the criteria can declare a dividend in accordance with a prescribed matrix. The dividend payout ratio, calculated as a ratio of dividend over net profits, must be adjusted for auditors’ qualifications having an adverse bearing on profits and exclude extraordinary profits. In other words, the requirements prescribed are in relation to the following:-

- i. eligibility criteria for declaration of dividend, including minimum thresholds for capital adequacy and leverage ratio, and limit on NPAs. The net NPA ratio should be less than 6 per cent. in each of the last three years, including the accounting year for which it proposes to declare dividend;
- ii. NBFCs should comply with the provisions of Section 45 IC of the RBI Act, 1934 and prevailing regulations/guidelines issued by the RBI;
- iii. proposed dividend should be payable only out of the current year's profit;
- iv. the RBI should not have placed any explicit restrictions on the NBFC on declaration of dividend;
- v. restrictions upon quantum of dividend payable; and
- vi. reporting.

NBFCs should comply with the prescribed minimum capital adequacy and leverage ratio, as prescribed.

Legislative Framework For Recovery Of Debts

Recovery of Debts Due to Banks and Financial Institutions Act, 1993

The Recovery of Debts Due to Banks and Financial Institutions Act, 1993 (**RDDBFI Act**) provides for establishment of Debt Recovery Tribunals (**DRTs**) and Debt Recovery Appellate Tribunals (**DRATs**), which are specialized tribunals to deal with recovery of debts and no court or other authority can exercise jurisdiction in relation to matters covered by the RDDBFI Act, except Supreme Court and High Courts. The RDDBFI Act provides for expeditious adjudication and recovery of debts due to any bank or financial institution or to a consortium of banks and public financial institutions. Under the RDDBFI Act, the procedures for recovery of debt have been simplified and indicative timeframes have been fixed for speedy disposal of cases. Any appeal from any order of a DRT is referred to DRAT.

The DRTs may pass orders for recovery of debts including: (i) a recovery certificate adjudicating the claim of a bank or financial institution against a borrower; and (ii) injunctive orders restraining the debtors from alienating, transferring or disposing of its moveable and immoveable properties. After a recovery certificate is issued, the recovery officer appointed for each DRT recovers the amount by any mode including: (i) attachment or sale of moveable and immoveable properties; (ii) taking possession of secured property or any other property of debtor and appointing receiver to sell them; (iii) arrest of debtor and detention in prison; and (iv) appointment of receivers and/or local commissioners for management of moveable and immoveable properties.

Application to the Bankruptcy Code to NBFCs and suspension of the Bankruptcy Code

Pursuant to the Insolvency and Bankruptcy (Insolvency and Liquidation Proceedings of Financial Service Providers and Application to Adjudicating Authority) Rules, 2019 and Ministry of Corporate Affairs Notification S.O. 4139(E) dated November 18, 2019, the Bankruptcy Code has now been made applicable to NBFCs. Only RBI can now commence insolvency against NBFCs with an asset size of at least Rs. 5 billion.

As a result of the uncertain economic scenario surrounding the COVID-19 pandemic, the difficulty in finding resolution applicants and to prevent such Indian corporates being subjected to insolvency during this unprecedented time, the Bankruptcy Code has been amended to prohibit filings to commence any insolvency for any defaults occurring from March 25, 2020 to March 25, 2021.

Insolvency and Bankruptcy Code (Second Amendment) Act, 2020

In light of the outbreak of the COVID-19 pandemic, by a notification dated March 24, 2020 issued by the Ministry of Corporate Affairs (**MCA**), the minimum amount of default to initiate insolvency proceedings has been increased from Rs. 0.1 million to Rs. 10 million. The IBC has further been amended by Insolvency and Bankruptcy Code (Second Amendment) Act, 2020 (**Bankruptcy Code Amendment**) inserting Section 10A in the IBC which states that notwithstanding anything contained in Sections 7, 9 and 10 of the IBC no application for initiation of corporate insolvency resolution process of a corporate debtor shall ever be filed for any default arising on or after March 25, 2020 for a period of six months or such further period, not exceeding one year from such date, as may be notified in this behalf. Exercising its powers under Section 4 of the IBC, the Government of India has issued a notification on March 24, 2020 increasing the *de minimus* amount for filing an application to initiate Corporate Insolvency Resolution Process of a corporate debtor from Rs. 1 lakh to Rs. 1 crore.

Suspension of IBC

On June 5, 2020, an Ordinance was promulgated barring initiation of the corporate insolvency resolution process for defaults committed within six months (extendable up to one year) from March 25, 2020. The Ordinance states that no application can ever be filed in respect of such defaults, thereby, giving a permanent immunity to such defaulting companies under the IBC. This suspension was extended in September 2020 for another three months. It was important for the Government of India to provide relief to businesses which have been severely impacted by the pandemic and continue to reel under the global crisis.

The Ministry of Corporate Affairs, the Government of India, on December 22, 2020 issued a notification to extend the suspension of insolvency proceedings by another three months, until March 31, 2021.

The Insolvency and Bankruptcy (Insolvency and Liquidation Proceedings of Financial Service Providers and Application to Adjudicating Authority) Rules, 2019

The MCA by a notification dated 15 November 2019, issued the Insolvency and Bankruptcy (Insolvency and Liquidation Proceedings of Financial Service Providers and Application to Adjudicating Authority) Rules, 2019 (**FSP Rules**) inter alia, governing the corporate insolvency resolution process and liquidation process of Financial Service Providers (**FSPs**) under the Bankruptcy Code. The issuance of the FSP Rules has made viable and unified resolution process accessible for the FSPs and their creditors.

Promulgation of Insolvency and Bankruptcy Code (Amendment) Ordinance, 2021 (the Ordinance)

The Ordinance allows for pre-packaged insolvency resolution process for corporate debtors classified as micro, small or medium enterprises (MSME) under the MSME Development Act, 2006. A new Chapter III A has inserted with provisions for entities eligible to take the benefit of pre-packaged insolvency resolution process, its initiation, duties of the resolution professional, approval of a plan, list of claims and preliminary information memorandum, punishment for offences related to pre-packaged insolvency resolution process. The Ordinance allows the corporate debtor to submit a ‘base resolution plan’ to the resolution professional who further presents it to the Committee of Creditors. If the adjudicating authority does not approve the resolution plan, it may *inter alia* terminate the pre-packaged insolvency resolution process and pass a liquidation order. Further, the pre-packaged insolvency resolution process must be completed within 120 days from the pre-packaged insolvency commencement date.

The Code had been suspended for a year from March 24, 2020 to March 25, 2021, on account of COVID-19 and its impact on the economy. However, the suspension has been lifted now and fresh insolvency applications can be filed.

Laws Relating to the Power Sector

Electricity (Amendment) Bill, 2020

On April 17, 2020, the MoP released the draft Electricity (Amendment) Bill, 2020 for public comments. The bill aims to ensure sustainable growth of the electricity sector in the country by addressing few issues that have weakened commercial and investment activities. Salient features of the bill are as follows:

- (a) Establishment of an electricity contract enforcement authority, which will have original jurisdiction over matters of specific performance of contracts, and prescribe minimum renewable and hydro purchase obligation, leading to speedy disposal of disputes and thereby attracting greater investments.
- (b) Preparation of a national renewable energy policy for the promotion of generation of electricity from renewable sources of energy and prescribe a minimum percentage of purchase of electricity from renewable and hydro sources of energy.
- (c) Empowering load dispatch centres to oversee the payment security mechanism prior to scheduling dispatch of electricity in order to prevent accumulation of unrealized revenues.
- (d) Simplification of the tariff structure and cross subsidy and restriction on deferment of revenue recovery. Further, tariffs discovered under competitive bids must be adopted in a timely manner.
- (e) The Bill adds that a franchisee will be authorised with the information given to the SERC. The Bill provides for a new entity called Distribution Sub-licensee. A distribution licensee can

authorise a sub-licensee to distribute electricity on its behalf with the prior permission of the SERC.

- (f) Government subsidy will not be accounted for while determining the tariff. Such subsidy will be provided directly to consumers. State and regional load despatch centres will not schedule or despatch electricity if the distribution licensee has not provided adequate payment security, as agreed in the contract.

Trading

The Electricity Act specifies trading in electricity as a licensed activity. Trading has been defined as the purchase of electricity for resale. This may involve wholesale supply or retail supply. The license to engage in electricity trading is required to be obtained from the appropriate ERC. The CERC issued the CERC (Procedure, Terms and Conditions for Grant of Trading License and Other Related Matters) Regulations, 2020, as amended from time to time (**Trading License Regulations**) to regulate the inter-State trading of electricity including fixation of trading margin. Under the Trading License Regulations, any person desirous of undertaking inter-State trading in electricity shall apply to the CERC for the grant of a license. The trading margin is applicable to all transactions under short term contracts, long term contracts, banking of electricity, transactions under back to back contracts, cross border trade of electricity undertaken by the trading licensee.

The Trading License Regulations set out various qualifications for the grant of a license for undertaking electricity trading, including certain technical and professional qualifications, and net worth requirements. Further, a licensee is subject to certain conditions including the extent of trading margin, maintenance of records and submission of auditors' report. The existing licensees are required to meet the net worth, current ratio and liquidity ratio criteria and are required to pay the license fee as specified by the CERC, from time to time. However, all licensees can apply to upgrade or downgrade their license. The licensees need to submit monthly reports on over-the-counter contracts and annual returns of transaction volumes. The Trading License Regulations also specify acts of contravention and penalties for the same. These regulations also set out the grounds of revocation of the license.

Master Directions – Priority Sector Lending (PSL) (September 4, 2020)

The RBI has comprehensively reviewed the Priority Sector Guidelines (**PSL**) to align it with emerging national priorities and bring sharper focus on inclusive development. These guidelines will enable better credit penetration to credit deficient areas; increase the lending to small and marginal farmers and weaker sections; boost credit to renewable energy, and health infrastructure. Some new categories have been included as fresh categories, eligible for finance under priority sector: bank finance to start-ups (up to Rs. 50 Crores); loans to farmers for installation of solar power plants for solarization of grid connected agriculture pumps and loans for setting up compressed bio gas (**CBG**) plants.

Some of the salient features of revised PSL guidelines are:

- To address regional disparities in the flow of priority sector credit, higher weightage has been assigned to incremental priority sector credit in 'identified districts' where priority sector credit flow is comparatively low.
- The targets prescribed for "small and marginal farmers" and "weaker sections" are being increased in a phased manner.
- Higher credit limit has been specified for Farmers Producers Organizations (**FPOs**)/Farmers Producers Companies (**FPCs**) undertaking farming with assured marketing of their produce at a pre-determined price.
- Loan limits for renewable energy have been increased.
- For improvement of health infrastructure, credit limit for health infrastructure (including those under 'Ayushman Bharat') has been doubled.

Priority Sector Lending (PSL) - Lending by banks to Non-Banking Financial Companies (NBFCs) for On-Lending

To ensure continued availability of credit to registered NBFCs (other than Micro Finance Institutions), there has been extension in the PSL classification for lending by banks for on-lending by six months i.e., up to September 30, 2021. However, bank loans to Housing Finance Companies for on-lending for the purpose of housing, will continue on an on-going basis. Further, existing loans disbursed under the on-lending model will continue to be classified under Priority Sector till the date of repayment/maturity.

Co-Lending by Banks and NBFCs to Priority Sector (November 5, 2020)

RBI has announced co-lending scheme for banks and NBFCs for priority sector vide Circular dated November 5, 2020. The primary focus of the revised scheme is to improve the flow of credit to the unserved and underserved sector of the economy and make available funds to the ultimate beneficiary at an affordable cost, considering the lower cost of funds from banks and greater reach of the NBFCs.

Key Highlights

- (1) In terms of the co-lending model (**CLM**), banks are permitted to co-lend with all registered NBFCs (including HFCs) based on a prior agreement.
- (2) The co-lending banks will take their share of the individual loans on a back-to-back basis in their books. NBFCs shall be required to retain a minimum of 20 per cent. share of the individual loans on their books.
- (3) All transactions (disbursements/ repayments) between the banks and NBFCs relating to CLM have to be routed through an escrow account maintained with the banks, in order to avoid intermingling of funds.
- (4) The banks and NBFCs shall formulate Board approved policies for entering into the CLM and place the approved policies on their websites. Based on their Board approved policies, a Master Agreement may be entered into between the two partner institutions which shall inter-alia include, terms and conditions of the arrangement, the criteria for selection of partner institutions, the specific product lines and areas of operation, along with provisions related to segregation of responsibilities as well as customer interface and protection issues.

Fair Practices Code and Outsourcing Guidelines- RBI Circular dated June 24, 2020

On June 24, 2020, the RBI reiterated that banks and NBFCs, irrespective of whether they lend through their own digital lending platform or through an outsourced lending platform, must adhere to the Fair Practices Code guidelines in letter and spirit. They must also meticulously follow regulatory instructions on outsourcing of financial services and IT services. Wherever banks and NBFCs engage digital lending platforms as their agents to source borrowers and/or to recover dues, they must follow the following instructions:

- a) Names of digital lending platforms engaged as agents shall be disclosed on the website of banks/ NBFCs.
- b) Digital lending platforms engaged as agents shall be directed to disclose upfront to the customer, the name of the bank/NBFC on whose behalf they are interacting with him.
- c) Immediately after sanction but before execution of the loan agreement, the sanction letter shall be issued to the borrower on the letter head of the bank/NBFC concerned.
- d) A copy of the loan agreement along with a copy each of all enclosures quoted in the loan agreement shall be furnished to all borrowers at the time of sanction/ disbursement of loans.
- e) Effective oversight and monitoring shall be ensured over the digital lending platforms engaged by the banks/ NBFCs.
- f) Adequate efforts shall be made towards creation of awareness about the grievance redressal mechanism.

Special Liquidity scheme for NBFCs dated July 1, 2020

The Government of India has approved a scheme to improve the liquidity position of NBFCs/HFCs through a Special Purpose Vehicle (SPV) to avoid any potential systemic risks to the financial sector. To be eligible under the Scheme, the following conditions should be met:

- a) NBFCs including Microfinance Institutions that are registered with the RBI under the Reserve Bank of India Act, 1934, excluding those registered as Core Investment Companies;
- b) Housing Finance Companies that are registered under the National Housing Bank Act, 1987;
- c) CRAR/CAR of NBFCs/HFCs should not be below the regulatory minimum, i.e., 15 per cent. and 12 per cent. respectively as on March 31, 2019;
- d) The net non-performing assets should not be more than 6 per cent. as on March 31, 2019;
- e) They should have made net profit in at least one of the last two preceding financial years (i.e. 2017-18 and 2018-19);
- f) They should not have been reported under SMA-1 or SMA-2 category by any bank for their borrowings during last one year prior to August 1, 2018;
- g) They should be rated investment grade by a SEBI registered rating agency;
- h) They should comply with the requirement of the SPV for an appropriate level of collateral from the entity, which, however, would be optional and to be decided by the SPV.

As per the Government decision, SBICAP which is a subsidiary of the State Bank of India has set up a SPV (**SLS Trust**) to manage this operation. The SPV will purchase the short-term papers from eligible NBFCs/HFCs, who shall utilise the proceeds under this scheme solely for the purpose of extinguishing existing liabilities. The instruments will be CPs and NCDs with a residual maturity of not more than three months and rated as investment grade. The facility will not be available for any paper issued after September 30, 2020 and the SPV would cease to make fresh purchases after September 30, 2020 and would recover all dues by December 31, 2020; or as may be modified subsequently under the scheme.

Dividend Distribution by Banks

In view of the COVID-19 related economic shock, it was announced by the RBI in April 2020 that scheduled commercial banks (SCBs) and cooperative banks shall not make any dividend payouts from profits pertaining to the financial year ended March 31, 2020 until further instructions, which shall be reassessed based on financial results of banks for the quarter ending September 30, 2020.

In view of the ongoing stress and the heightened uncertainty on account of COVID-19, it is imperative that banks continue to conserve capital to support the economy and absorb losses, if any. In order to further strengthen the banks' balance sheets while at the same time supporting lending to the real economy, it has been decided by the RBI, on a review, that SCBs and cooperative banks shall not make any dividend pay-out from the profits pertaining to financial year 2019-2020. Guidelines on the above are awaited from the RBI.

Statement on Developmental and Regulatory Policies issued by the RBI dated 4 December 2020 (Statement)

The Statement sets out various developmental and regulatory policy measures to (i) enhance liquidity support to targeted sectors of the economy with linkages to other sectors; (ii) deepen financial markets; (iii) conserve capital among banks and NBFCs through regulatory initiatives; (iv) strengthen supervision through the audit function; (v) facilitate external trade by improving ease of doing business for exporters; and (vi) upgrade payment system services so as to expand financial inclusion and improve customer service.

The regulatory response of the RBI since the onset of the COVID-19 pandemic has focused on mitigation of the immediate impact on debt repayments by the borrowers, enabling credible resolution of stress of the borrower entities and, facilitating credit flow to the economy, while keeping a watch on the financial stability imperatives.

In furtherance of the same, certain key measures by RBI are set out below:

- (i) ***Strengthening Audit Systems of Supervised Entities (SEs): (i) issuance of guidelines to large UCBs and NBFCs on adoption of Risk Based Internal Audit (RBIA); (ii) harmonisation of guidelines on appointment of statutory auditors for commercial banks, UCBs and NBFCs***

In the recent past, weakness in three lines of defence mechanism have often proved to be major fault line affecting certain banks and NBFCs adversely. These three lines of defence are: (a) the business unit itself; (b) risk management and compliance; and (c) internal audit. Hence, supervisory focus in strengthening the governance and assurance functions in supervised entities (SEs) continues to be a dominant theme with the RBI. One of the goals of unification of supervisory functions in RBI was to bring the standard of supervision of UCBs and NBFCs proportionately at par with that for commercial banks.

The Internal Audit function, as third line of defence, needs to be strengthened in UCBs and NBFCs. Risk Based Internal Audit (RBIA) was mandated by RBI for commercial banks in 2002. It has now been decided to issue guidelines to large UCBs and NBFCs on adoption of RBIA. This will enable the creation of independent risk focussed internal audit system.

While external statutory auditors remain outside the internal mechanisms of a supervised entity, they are often termed as fourth line of defence given the vital role they play. Recent amendment in Banking Regulation Act, 1949 bestowing certain additional responsibilities to RBI in appointment of statutory auditors in UCBs is also a pointer in that direction. Hence, it has been decided to harmonise guidelines on appointment of Statutory Auditors for commercial banks, UCBs and NBFCs. The new guidelines will enable SEs to appoint the audit firms as per their needs in a timely, transparent and effective manner. This is expected to improve the quality of financial reporting of SEs. Guidelines in this regard will be issued separately by the RBI.

- (ii) ***Guidelines on Risk-based Internal Audit System for Select NBFCs and Urban Co-operative Banks (the RBIA Guidelines)***

The RBIA for non-deposit taking NBFCs with an asset size of Rs. 5000 crore and above (the **Applicable NBFCs**), was mandated by the RBI through its notification dated February 3, 2021. Under the RBIA Guidelines, Applicable NBFCs are required to implement the RBIA framework by March 31, 2022. The RBIA Guidelines, *inter alia*, are intended to enhance the efficacy of internal audit systems and contribute to the overall improvement of governance, risk management and control processes followed by the Applicable NBFCs. Under the RBIA Guidelines, the board of directors of the Applicable NBFC must approve a policy clearly documenting the purpose, authority, and responsibility of the internal audit activity, with a clear demarcation of the role and expectations from risk management function and the RBIA function. It is also mandated that the policy be reviewed periodically, and that the internal audit function not be outsourced. Further, the RBIA Guidelines also require that the risk assessment of business and other functions of Applicable NBFCs should be conducted at least on an annual basis.

- (iii) ***Digital Payment Security Controls***

Going by the pre-eminent role being played by digital payment systems in India, RBI gives highest importance to the security controls around it. Now it is proposed to issue Reserve Bank of India (Digital Payment Security Controls) Directions, 2020 for regulated entities to set up a robust governance structure for such systems and implement common minimum standards of security controls for channels like internet, mobile banking, card payments, among others. While the guidelines will be technology and platform agnostic, it will create an enhanced and enabling environment for customers to use digital payment products in more safe and secure manner. Necessary guidelines will be issued separately by the RBI in this regard.

- (iv) ***24x7 Availability of Real Time Gross Settlement (RTGS) System dated December 4, 2020***

Pursuant to a directive issued under Section 10 (2) read with Section 18 of Payment and Settlement Systems Act, 2007 (Act 51 of 2007), RBI has issued a Circular dated December 4, 2020, in connection with making available the Real Time Gross Settlement (RTGS) system round the clock on all days with effect from 12:30 a.m. on December 14, 2020.

Key Features:

- (a) RTGS shall be available for customer and inter-bank transactions round the clock, except for the interval between ‘end-of-day’ and ‘start-of-day’ processes, whose timings would be duly broadcasted through the RTGS system.
- (b) RTGS shall continue to be governed by the RTGS System Regulations, 2013, as amended from time to time.
- (c) Intra-day liquidity facility shall be made available to facilitate smooth operations. The intra-day liquidity availed, if any, shall be reversed before the ‘end-of-day’ process begins.
- (d) RTGS transactions undertaken after normal banking hours are expected to be automated using ‘Straight Through Processing (STP) modes.
- (e) The minimum amount that can be remitted through RTGS is Rs. 2 Lakhs. There is no upper limit.

The Banking Regulation (Amendment) Act, 2020

The Banking Regulation (Amendment) Act, 2020 (**Amendment Act**) passed by both houses of Parliament on September 22, 2020 replaced the Banking Regulation (Amendment) Ordinance, 2020 dated June 26, 2020. The Amendment Act has been notified in the Official Gazette of India on September 29, 2020. The Banking Regulation (Amendment) Act, 2020 amends the Banking Regulation Act, 1949 to expand RBI’s regulatory control over co-operative banks in terms of management, capital, audit and liquidation.

Key Highlights of the Amendment Act:

- (a) Co-operative banks are exempted from several provisions of the Banking Regulation Act, 1949 with respect to conditions on employment and qualifications for the Chairman and Board of Directors. The Amendment Act provides that co-operative banks cannot employ as Chairman, someone who is insolvent or has been convicted of a crime involving moral turpitude, among other restrictions. The Amendment Act applies some of these provisions to cooperative banks, making their regulation under the Act similar to that of commercial banks.
- (b) Co-operative banks may raise equity or unsecured debt capital from the public subject to prior RBI approval.
- (c) RBI may prescribe conditions on and qualifications for employment of Chairman of co-operative banks. RBI may remove a Chairman not meeting ‘fit and proper’ criteria and appoint a suitable person. It may issue directions to reconstitute the Board of Directors in order to ensure sufficient number of qualified members.
- (d) RBI may supersede the Board of Directors of a co-operative bank after consultation with the State Government.
- (e) Under the Amendment Act, audit of co-operative banks would be conducted on par with scheduled commercial banks. Accounts would be audited by a qualified person and RBI approval would be required before appointing, re-appointing or removing an auditor.
- (f) The Amendment Act allows RBI to undertake reconstruction or amalgamation of a bank without imposing a moratorium.

Implementation of Indian Accounting Standards (IndAS) by NBFCs and Asset Reconstruction Companies (ARCs) (March 13, 2020)

The RBI has framed regulatory guidance for NBFCs and ARCs implementing IndAS while preparing their financial results. NBFCs/ARCs must put in place board-approved policies that clearly articulate and document their business models and portfolios. Specific prudential aspects of IndAS have also been prescribed.

Foreign Direct Investment (FDI) Policy

Foreign investment in Indian securities is regulated through the Consolidated FDI Policy and FEMA. The government bodies responsible for granting foreign investment approvals are the concerned ministries or departments of the Government of India and the RBI.

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases. The Department for Promotion of Industry and Internal Trade (**DPIIT**), under the Ministry of Commerce and Industry, the Government of India has issued the FDI Policy by way of circular bearing number DPIIT File Number 5(2)/2020-FDI Policy dated October 15, 2020 which, with effect from October 15, 2020, consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government of India proposes to update the consolidated circular on FDI Policy nce every year and therefore, the FDI Policy will be valid until the DPIIT issues an updated circular. Foreign Investment Facilitation Portal (FIFP <https://fifp.gov.in/>) is the new online single point interface of the Government of India for investors to facilitate FDI. There are about 11 notified sectors/activities requiring government approval.

BOOK-ENTRY CLEARANCE SYSTEMS

*The information set out below is subject to any change in or reinterpretation of the rules, regulations and procedures of DTC, Euroclear or Clearstream, Luxembourg (together, the **Clearing Systems**) currently in effect. Investors wishing to use the facilities of any of the Clearing Systems are advised to confirm the continued applicability of the rules, regulations and procedures of the relevant Clearing System. None of the Issuer, the Arrangers, the Dealers nor any other party to the Agency Agreement will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Notes held through the facilities of any Clearing System or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests. The applicable Pricing Supplement will specify the Clearing system(s) applicable for each series.*

BOOK-ENTRY SYSTEMS

DTC

DTC has advised the Issuer that it is a limited purpose trust company organized under the New York Banking Law, a member of the Federal Reserve System, a “banking organization” within the meaning of the New York Banking Law, a “clearing corporation” within the meaning of the New York Uniform Commercial Code and a “clearing agency” registered pursuant to Section 17A of the Exchange Act. DTC holds securities that its participants (**Direct Participants**) deposit with DTC. DTC also facilitates the settlement among Direct Participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in Direct Participants’ accounts, thereby eliminating the need for physical movement of securities certificates. Direct Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust and Clearing Corporation (**DTCC**). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC System is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (**Indirect Participants** and, together with Direct Participants, **Participants**). More information about DTC can be found at www.dtcc.com and www.dtc.org but such information is not incorporated by reference in and does not form part of this Offering Circular.

Under the rules, regulations and procedures creating and affecting DTC and its operations (the **DTC Rules**), DTC makes book-entry transfers of Registered Notes among Direct Participants on whose behalf it acts with respect to Notes accepted into DTC’s book-entry settlement system (**DTC Notes**) as described below and receives and transmits distributions of principal and interest on DTC Notes. The DTC Rules are on file with the Securities and Exchange Commission. Direct Participants and Indirect Participants with which beneficial owners of DTC Notes (**Owners**) have accounts with respect to the DTC Notes similarly are required to make book-entry transfers and receive and transmit such payments on behalf of their respective Owners. Accordingly, although Owners who hold DTC Notes through Direct Participants or Indirect Participants will not possess Registered Notes, the DTC Rules, by virtue of the requirements described above, provide a mechanism by which Direct Participants will receive payments and will be able to transfer their interest in respect of the DTC Notes.

Purchases of DTC Notes under the DTC system must be made by or through Direct Participants, which will receive a credit for the DTC Notes on DTC’s records. The ownership interest of each actual purchaser of each DTC Note (**Beneficial Owner**) is in turn to be recorded on the Direct Participant’s and Indirect Participant’s records. Beneficial Owners will not receive written confirmation from DTC of their purchase, but Beneficial Owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct Participant or Indirect

Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the DTC Notes are to be accomplished by entries made on the books of Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in DTC Notes, except in the event that use of the book-entry system for the DTC Notes is discontinued.

To facilitate subsequent transfers, all DTC Notes deposited by Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of DTC Notes with DTC and their registration in the name of Cede & Co. or such other DTC nominee effect no change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the DTC Notes; DTC's records reflect only the identity of the Direct Participants to whose accounts such DTC Notes are credited, which may or may not be the Beneficial Owners. The Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices shall be sent to DTC. If less than all of the DTC Notes within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to DTC Notes unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the Issuer as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the DTC Notes are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Principal and interest payments on the DTC Notes will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the Issuer or the relevant agent (or such other nominee as may be requested by an authorized representative of DTC), on the relevant payment date in accordance with their respective holdings shown in DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers, and will be the responsibility of such Participant and not of DTC or the Issuer, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal and interest to DTC is the responsibility of the Issuer, disbursement of such payments to Direct Participants is the responsibility of DTC, and disbursement of such payments to the Beneficial Owners is the responsibility of Direct Participants and Indirect Participants.

Under certain circumstances, including if there is an Event of Default under the Notes, DTC will exchange the DTC Notes for definitive Registered Notes, which it will distribute to its Participants in accordance with their proportionate entitlements and which will be legended as set forth under in "*Subscription and Sale*" and "*Transfer Restrictions*".

A Beneficial Owner shall give notice to elect to have its DTC Notes purchased or tendered, through its Participant, to the relevant agent, and shall effect delivery of such DTC Notes by causing the Direct Participant to transfer the Participant's interest in the DTC Notes, on DTC's records, to the relevant agent. The requirement for physical delivery of DTC Notes in connection with an optional tender or a mandatory purchase will be deemed satisfied when the ownership rights in the DTC Notes are

transferred by Direct Participants on DTC's records and followed by a book-entry credit of tendered DTC Notes to the relevant agent's DTC account.

DTC may discontinue providing its services as depository with respect to the DTC Notes at any time by giving reasonable notice to the Issuer or the relevant agent. Under such circumstances, in the event that a successor depository is not obtained, DTC Note certificates are required to be printed and delivered.

The Issuer may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, DTC Note certificates will be printed and delivered to DTC.

Since DTC may only act on behalf of Direct Participants, who in turn act on behalf of Indirect Participants, any Owner desiring to pledge DTC Notes to persons or entities that do not participate in DTC, or otherwise take actions with respect to such DTC Notes, will be required to withdraw its Registered Notes from DTC as described below.

Euroclear and Clearstream, Luxembourg

Euroclear and Clearstream, Luxembourg each holds securities for its customers and facilitates the clearance and settlement of securities transactions by electronic book-entry transfer between their respective accountholders. Euroclear and Clearstream, Luxembourg provide various services including safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Euroclear and Clearstream, Luxembourg also deal with domestic securities markets in several countries through established depository and custodial relationships. Euroclear and Clearstream, Luxembourg have established an electronic bridge between their two systems across which their respective participants may settle trades with each other.

Euroclear and Clearstream, Luxembourg customers are world-wide financial institutions, including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations. Indirect access to Euroclear and Clearstream, Luxembourg is available to other institutions that clear through or maintain a custodial relationship with an accountholder of either system.

BOOK-ENTRY OWNERSHIP OF AND PAYMENTS IN RESPECT OF DTC NOTES

The Issuer may apply to DTC in order to have any Tranche of Notes represented by a Registered Global Note accepted in its book-entry settlement system. Upon the issue of any such Registered Global Note, DTC or its custodian will credit, on its internal book-entry system, the respective nominal amounts of the individual beneficial interests represented by such Registered Global Note to the accounts of persons who have accounts with DTC. Such accounts initially will be designated by or on behalf of the relevant Dealer. Ownership of beneficial interests in such a Registered Global Note will be limited to Direct Participants or Indirect Participants, including, in the case of any Regulation S Global Note, the respective depositories of Euroclear and Clearstream, Luxembourg. Ownership of beneficial interests in a Registered Global Note accepted by DTC will be shown on, and the transfer of such ownership will be effected only through, records maintained by DTC or its nominee (with respect to the interests of Direct Participants) and the records of Direct Participants (with respect to interests of Indirect Participants).

Payments in U.S. dollars of principal and interest in respect of a Registered Global Note accepted by DTC will be made to the order of DTC or its nominee as the registered holder of such Note. In the case of any payment in a currency other than U.S. dollars, payment will be made to the Exchange Agent on behalf of DTC or its nominee and the Exchange Agent will (in accordance with instructions received by it) remit all or a portion of such payment for credit directly to the beneficial holders of interests in the Registered Global Note in the currency in which such payment was made and/or cause all or a

portion of such payment to be converted into U.S. dollars and credited to the applicable Participants' account.

The Issuer expects DTC to credit accounts of Direct Participants on the applicable payment date in accordance with their respective holdings as shown in the records of DTC unless DTC has reason to believe that it will not receive payment on such payment date. The Issuer also expects that payments by Participants to beneficial owners of Notes will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers, and will be the responsibility of such Participant and not the responsibility of DTC, the Principal Paying Agent, the Registrar or the Issuer. Payment of principal, premium, if any, and interest, if any, on Notes to DTC is the responsibility of the Issuer.

TRANSFERS OF NOTES REPRESENTED BY REGISTERED GLOBAL NOTES

Transfers of any interests in Notes represented by a Registered Global Note within DTC, Euroclear and Clearstream, Luxembourg will be effected in accordance with the customary rules and operating procedures of the relevant clearing system. The laws in some States within the United States require that certain persons take physical delivery of securities in definitive form. Consequently, the ability to transfer Notes represented by a Registered Global Note to such persons may depend upon the ability to exchange such Notes for Notes in definitive form. Similarly, because DTC can only act on behalf of Direct Participants in the DTC system who in turn act on behalf of Indirect Participants, the ability of a person having an interest in Notes represented by a Registered Global Note accepted by DTC to pledge such Notes to persons or entities that do not participate in the DTC system or otherwise to take action in respect of such Notes may depend upon the ability to exchange such Notes for Notes in definitive form. The ability of any holder of Notes represented by a Registered Global Note accepted by DTC to resell, pledge or otherwise transfer such Notes may be impaired if the proposed transferee of such Notes is not eligible to hold such Notes through a Direct Participant or Indirect Participant in the DTC system.

Subject to compliance with the transfer restrictions applicable to the Registered Notes described under “*Subscription and Sale*” and “*Transfer Restrictions*”, cross-market transfers between DTC, on the one hand, and directly or indirectly through Clearstream, Luxembourg or Euroclear accountholders, on the other, will be effected by the relevant Clearing System in accordance with its rules and through action taken by the Registrar, the Principal Paying Agent and any custodian (**Custodian**) with whom the relevant Registered Global Notes have been deposited.

On or after the Issue Date for any Series, transfers of Notes of such Series between accountholders in Clearstream, Luxembourg and Euroclear and transfers of Notes of such Series between participants in DTC will generally have a settlement date three business days after the trade date (T+3). The customary arrangements for delivery versus payment will apply to such transfers.

Cross-market transfers between accountholders in Clearstream, Luxembourg or Euroclear and DTC participants will need to have an agreed settlement date between the parties to such transfer. Because there is no direct link between DTC, on the one hand, and Clearstream, Luxembourg and Euroclear, on the other, transfers of interests in the relevant Registered Global Notes will be effected through the Registrar, the Principal Paying Agent and the Custodian receiving instructions (and, where appropriate, certification) from the transferor and arranging for delivery of the interests being transferred to the credit of the designated account for the transferee. In the case of cross-market transfers, settlement between Euroclear or Clearstream, Luxembourg accountholders and DTC participants cannot be made on a delivery versus payment basis. The securities will be delivered on a free delivery basis and arrangements for payment must be made separately.

DTC, Clearstream, Luxembourg and Euroclear have each published rules and operating procedures designed to facilitate transfers of beneficial interests in Registered Global Notes among participants and accountholders of DTC, Clearstream, Luxembourg and Euroclear. However, they are under no

obligation to perform or continue to perform such procedures, and such procedures may be discontinued or changed at any time. None of the Issuer, the Agents or any Dealer will be responsible for any performance by DTC, Clearstream, Luxembourg or Euroclear or their direct or indirect participants or accountholders of their obligations under the rules and procedures governing their operations nor will the Issuer, any Agent or any Dealer have any liability for any aspect of the records relating to or payments made on account of beneficial interests in the Notes represented by Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial interests.

TAXATION

The information provided below does not purport to be a comprehensive description of all tax considerations which may be relevant to a decision to purchase the Notes. In particular, the information does not consider any specific facts or circumstances that may apply to a particular purchaser or investor of the Notes. Neither these statements nor any other statements in this Offering Circular are to be regarded as advice on the tax position of any holder of the Notes or of any person acquiring, selling or otherwise dealing with the Notes or on any tax implications arising from the acquisition, sale or other dealings in respect of the Notes. The statements do not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to purchase, own or dispose of the Notes and do not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities) may be subject to special rules and regulations.

Prospective purchasers of the Notes are advised to consult their own tax advisers as to the tax consequences of the purchase, ownership and disposal of the Notes, including the effect of any state or local taxes, under the tax laws applicable in India and each country of which they are residents or countries of purchase, holding or disposal of the Notes. Additionally, in view of the number of jurisdictions where local laws may apply, this Offering Circular does not discuss the local tax consequences to a potential holder, purchaser, investor, or seller arising from the acquisition, holding or disposal of the Notes. Prospective investors must therefore keep themselves informed as to any tax, foreign exchange control legislation or other laws, regulations and guidelines in force relating to the subscription, holding or disposal of the Notes at their place of residence, and the countries of which they are citizens or countries of purchase, holding or disposal of the Notes.

Indian Taxation

The following is a summary of the existing principal Indian tax consequences for non-resident investors subscribing to the Notes issued by the Issuer. The summary is based on existing Indian taxation laws and practice in force at the date of this Offering Circular and is subject to change, possibly also with retroactive or retrospective effect. The summary does not constitute specific legal or tax advice and is not intended to represent a complete analysis of the tax consequences under Indian laws, of the acquisition, ownership or transfer of the Notes. Prospective investors should, therefore, consult their own tax advisers regarding the Indian tax consequences, as well as the tax consequences under any other applicable taxing jurisdiction, of acquiring, owning and disposing of the Notes.

Payments from India

Any payments which the Issuer makes on the Notes, including additional amounts, made from India are subject to the relevant RBI guidelines regulations.

Taxation of Interest

Since the proceeds of the issuance of the Notes are to be used for the purposes of the business of the Issuer in India, non-resident investors are liable to pay tax on the interest paid on the Notes. As of the date of this Offering Circular, the rate of tax in accordance with section 115A read with section 194LC of the Income-tax Act, 1961 (**IT Act**) is 5.0 per cent. (plus applicable surcharge and cess),² subject to and in accordance with the conditions of section 194LC of the IT Act read with CBDT Circular no. 15/2014 dated October 17, 2014, for: (i) any Notes (other than the Rupee Denominated Notes) being long-term bonds including infrastructure bonds issued before July 1, 2023; or (ii) any Indian Rupee Denominated Notes issued before July 1, 2023.

² All rates mentioned are exclusive of applicable surcharge and health and education cess.

The Finance Act, 2020 (with effect from April 1, 2020) has reduced the withholding tax to 4.0 per cent. for interest payable to non-residents on issue of any long-term bonds or Rupee denominated bonds issued on or after April 1, 2020 but before July 1, 2023, which are listed only on a recognized stock exchange located in any International Financial Services Centre (IFSC).

A non-resident Noteholder is obligated to pay such income tax in an amount equal to, or would be entitled to a refund of as the case may be, any difference between amounts withheld in respect of interest paid on the Notes from India and its ultimate Indian tax liability for such interest, subject to and in accordance with the provisions of the IT Act. The non-resident Noteholders shall be obliged to provide all necessary information and documents, as may be required by our Company.

Withholding Tax on Interest

Since the interest payable on the Notes is subject to taxation in India, there is a requirement to withhold tax on the interest paid on the Notes and the Rupee Denominated Notes at 5 per cent. (plus applicable surcharge and cess), subject to satisfaction of conditions specified in section 194LC of the IT Act read with CBDT Circular no. 15/2014 dated October 17, 2014. any lower rate of tax provided by an applicable tax treaty.

Pursuant to the Terms and Conditions of the Notes, all payments of, or in respect of, principal and interest on the Notes, will be made free and clear of and without withholding or deduction on account of any present or future taxes within India unless it is required by law, in which case pursuant to Condition 8.1, the Issuer will pay additional amounts as may be necessary in order that the net amounts received by the Noteholders after the withholding or deduction shall equal the respective amounts which would have been receivable in respect of the Notes in the absence of the withholding or deduction, subject to certain exceptions.

Taxation on gains arising on disposal of Notes

Any gains arising to a non-resident investor from the transfer of a capital asset held (or deemed to be held) will be chargeable to income tax in India if such capital asset is regarded as property situated in India. A non-resident investor generally will not be chargeable to income tax in India upon disposal of the Notes held as a capital asset provided the Notes are regarded as being situated outside India. The issue as to where the Notes should properly be regarded as being situated is not free from doubt. The ultimate decision, however, will depend on the view taken by the Indian tax authorities on the position with respect to the situs of the Notes. There is a possibility that the Indian tax authorities may treat the Notes as being situated in India as the Issuer is incorporated in and resident in India.

If the Notes are regarded as situated in India by the Indian tax authorities, upon disposition of the Notes:

- (i) a non-resident investor, who has held the Notes for a period of more than 36 months immediately preceding the date of their disposal, will be liable to pay capital gains tax at 10 per cent. of the capital gains (plus applicable surcharge and cess) in accordance with the provisions of the IT Act;
- (ii) a non-resident investor who has held the Notes for a period of 36 months or less will be liable to pay capital gains tax at rates ranging up to 40 per cent. (plus applicable surcharge and cess), depending on the legal status of the non-resident investor and his taxable income in India;
- (iii) any income arising to a non-resident investor from the transfer of the Notes held as stock-in-trade will be considered as business income. Business income would be subject to income tax in India only to the extent, it is attributable to a “business connection in India” or, in case where a tax treaty is applicable, to a “permanent establishment” of the non-resident investor in India. A non-resident investor will be liable to pay Indian tax on such income at rates ranging up to

40 per cent. (plus applicable surcharge and cess) depending on the legal status of the non-resident investor and his taxable income in India;

- (iv) in the case of a non-resident investor, any gains arising on account of appreciation of the Rupee against a foreign currency at the time of redemption of Rupee denominated Notes of an Indian company held by such non-resident investor, shall be ignored or not be taken into consideration for the computation of full value of consideration. Accordingly, such gains arising to the non-resident investor on account of the appreciation of the Rupee against a foreign currency at the time of redemption of the Notes held by such non-resident investor, shall not be taxable as capital gains; and
- (v) capital gains, if any, arising pursuant to any transfer made outside India by a non-resident to another non-resident of a capital asset being a Rupee denominated Note issued outside India are not subject to tax in India.

Withholding Tax on gains arising from disposal of Notes

If applicable, under the Indian tax laws, tax shall be withheld by the person making any payment to a non-resident on long-term capital gains at 10 per cent. (plus applicable surcharge and cess) and short-term capital gains at 30 per cent. or 40 per cent. (plus applicable surcharge and cess), depending on the legal status of the recipient of income. Tax is computed in such manner as set out in the IT Act.

Tax Treaty

The rates of tax set out in this section will be reduced if the beneficial recipient is a resident of a country with which the Government of India has entered into an agreement for, *inter alia*, granting relief of tax or for avoidance of double taxation (**Tax Treaty**), which, if the conditions of such Tax Treaty are complied with, provides for the taxation in India of income by way of interest at a rate lower than that stated above.

The non-resident Noteholders are obliged to provide details of their permanent account number as allotted by the Indian tax authorities and all prescribed information and documents, including a tax residency certificate (issued by the tax authorities of the country in which the Noteholder is resident) for claiming Tax Treaty benefits. Further, the permanent account number of non-resident Noteholders is not required if Noteholders provide documentation including a tax residency certificate, a tax identification number and other details including their name, address, email details and contact number in respect of the instruments set out in section 206AA(7) of the IT Act and rule 37BC of the Income-tax Rules, 1962, as amended from time to time.

Anti-Avoidance Provisions

Under the IT Act, there are both specific as well as generic anti-avoidance provisions relating to tax-like transfer pricing provisions and general anti-avoidance rules.

Taxation of persons ordinarily resident in India

Any income received in respect of the Notes by a person ordinarily resident in India under the provisions of the IT Act, may generally be subject to tax in India according to the personal rates applicable.

Estate Duty

No estate duty is payable at present in India in relation to the Notes.

Gift Tax

There is no gift tax payable at present in India in relation to the Notes. However, a person receiving the Notes at a price less than fair market value of Notes (except when received from a relative or where it falls under certain other exceptions) shall be subject to income tax in India on the difference between the price paid by him for the Notes and the fair market value of the Notes as determined by the Category 1 Merchant Banker or an accountant in India. Tax shall be payable at the rates applicable to the respective category of the taxpayers. Non-resident taxpayers qualifying for the benefit of application of a Tax Treaty, may not be taxed in India in respect of such deemed, benefit subject to provisions of such Tax Treaty.

Stamp Duty

A transfer of the Notes outside India will not give rise to any Indian stamp duty liability unless the Notes are brought into India. Stamp duty will be payable if the Notes are brought into India for enforcement or for any other purpose. The amount of stamp duty payable will depend on the applicable State Stamp Act in India and the stamp duty will have to be paid within a period of three months from the date the Notes are first received in India.

The proposed financial transactions tax (FTT)

On February 14, 2013, the European Commission published a proposal (the **Commission's Proposal**) for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the **participating Member States**). However, Estonia has since stated that it will not participate.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in Notes (including secondary market transactions) in certain circumstances. Primary market transactions referred to in Article 5(c) of Regulation (EC) No 1287/2006 are expected to be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between the participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate.

Prospective holders of Notes are advised to seek their own professional advice in relation to the FTT.

United States Federal Income Taxation

The following is a general summary of certain U.S. federal income tax consequences that may be relevant with respect to the purchase, ownership and disposition of the Notes. This summary does not address the material U.S. federal income tax consequences of every type of Note which may be issued under the Programme and the relevant Pricing Supplement may contain additional or modified disclosure concerning the material U.S. federal income tax consequences relevant to such type of Note as appropriate. In general, this summary assumes that U.S. Holders acquire the Notes at original issuance at their issue price (as defined below) and will hold the Notes as capital assets. It does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to purchase Notes. In particular, it does not discuss special tax considerations that may apply to certain types of taxpayers, including, without limitation, the following: (i) financial institutions; (ii) insurance

companies; (iii) dealers or traders in stocks, securities, notional principal contracts or currencies; (iv) tax-exempt entities; (v) real estate investment trusts; (vi) regulated investment companies; (vii) persons that will hold the Notes as part of a “hedging” or “conversion” transaction or as a position in a “straddle” or as part of a “synthetic security” or other integrated transaction for U.S. federal income tax purposes; (viii) persons that own (or are deemed to own) 10 per cent. or more of the equity of the Issuer (by vote or value); (ix) partnerships, pass-through entities, or persons that hold Notes through partnerships or pass-through entities; (x) U.S. Holders (as defined below) that have a “functional currency” other than the U.S. dollar; and (xi) certain U.S. expatriates and former long-term residents of the United States. In addition, this summary does not address alternative minimum tax or Medicare contribution tax consequences, special tax accounting rules as a result of any item of gross income with respect to the Notes being taken into account on an applicable financial statement or the indirect effects on the holders of interests in a holder of Notes. This summary also does not describe any tax consequences arising under the laws of any taxing jurisdiction other than the U.S. federal government.

Each prospective investor should consult its own tax adviser with respect to the U.S. federal, state, local and non-U.S. tax consequences of acquiring, owning or disposing of the Notes. This summary is based on the U.S. Internal Revenue Code of 1986, as amended (the **Code**), U.S. Treasury regulations and judicial and administrative interpretations thereof, in each case as in effect or available on the date of this Offering Circular. All of the foregoing is subject to change, and any such change may apply retroactively and could affect the tax consequences described below.

As used in this section, the term **U.S. Holder** means a beneficial owner of Notes that is for U.S. federal income tax purposes: (i) a citizen or individual resident of the United States; (ii) a corporation created or organized in or under the laws of the United States or any state thereof (including the District of Columbia); (iii) any estate the income of which is subject to U.S. federal income tax regardless of its source; or (iv) any trust if a court within the United States is able to exercise primary supervision over its administration and one or more U.S. persons have the authority to control all substantial decisions of the trust. A **Non-U.S. Holder** is a beneficial owner of Notes that is neither a U.S. Holder nor a partnership for U.S. federal income tax purposes. If an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds Notes, the tax treatment of a partner generally will depend upon the status of the partner and upon the activities of the partnership. Partners of entities or arrangements treated as partnerships for U.S. federal income tax purposes that hold Notes should consult their own tax advisers.

This discussion applies only to holders of Registered Notes. Bearer Notes are not being offered to U.S. Holders. A U.S. Holder who owns a Bearer Note may be subject to limitations under U.S. federal income tax laws, including the limitations provided in sections 165(j) and 1287(a) of the Code.

Characterization of the Notes

This summary should be read in conjunction with any discussion of U.S. federal income tax consequences to holders in the applicable Pricing Supplement. To the extent there is any inconsistency in the discussion of the U.S. federal income tax consequences to holders between this Offering Circular and the applicable Pricing Supplement, holders should rely on the tax consequences described in the applicable Pricing Supplement instead of this Offering Circular. Any special U.S. federal income tax consequences relevant to a particular issue of Notes, including any such as Index Linked Notes, Dual Currency Notes, Instalment Notes and Partly Paid Notes may be specified in the applicable Pricing Supplement. The balance of this discussion, unless otherwise specified, assumes that the Notes will be treated as debt and will not be treated as contingent payment debt instruments for U.S. federal income tax purposes. A prospective investor in the Notes should consult its tax adviser in determining the tax consequences of an investment in the Notes, including the application of state, local or other tax laws and the proper characterization of the Notes for tax purposes.

Taxation of U.S. Holders of the Notes

Payments of Interest

Interest paid on a Note, including the payment of any additional amounts whether payable in U.S. dollars or a currency other than U.S. dollars (a **foreign currency**), other than interest on a “Discount Note” that is not “qualified stated interest” (each as defined below under “*Original Issue Discount*”), will be taxable to a U.S. Holder as ordinary interest income at the time it is received or accrued, depending on the U.S. Holder’s method of accounting for U.S. federal income tax purposes. Interest income on the Notes, original issue document (**OID**) if any, accrued with respect to the Notes (as described below under “*Original Issue Discount*”) and payments of additional amounts generally will be treated as foreign source income for U.S. federal income tax purposes.

As discussed in “*Taxation—Indian Taxation—Withholding Tax*”, under current law, payments of interest and OID on the Notes to foreign investors may be subject to Indian withholding taxes. As discussed under “*Terms and Conditions of the Notes—Taxation—Payment without Withholding*”, in certain cases the Issuer is liable for the payment of additional amounts to U.S. Holders so that U.S. Holders receive the same amounts they would have received had no Indian withholding taxes been imposed. For U.S. federal income tax purposes, U.S. Holders will be treated as having actually received the amount of Indian taxes withheld by the Issuer with respect to a Note, and as then having actually paid over the withheld taxes to the Indian taxing authorities. As a result of this rule, the amount of interest income included in gross income for U.S. federal income tax purposes by a U.S. Holder with respect to a payment of interest or OID may be greater than the amount of cash actually received (or receivable) by the U.S. Holder from the Issuer with respect to the payment.

Subject to certain limitations, a U.S. Holder will generally be entitled to a credit against its U.S. federal income tax liability, or a deduction in computing its U.S. federal taxable income, for Indian income taxes withheld by the Issuer. The U.S. foreign tax credit limitation is calculated separately with respect to specific classes of income. The foreign tax credit rules are complex, and U.S. Holders should consult their tax advisers regarding the availability of a foreign tax credit and the application of the limitation in their particular circumstances.

Original Issue Discount

The following is a summary of the principal U.S. federal income tax consequences of the ownership of Notes issued with OID. In the event the Issuer issues contingent payment debt instruments, the applicable Pricing Supplement may describe the material U.S. federal income tax consequences thereof.

A Note, other than a Note with a term of one year or less (a **Short-Term Note**), will be treated as issued with OID (a **Discount Note**) if the excess of the Note’s “stated redemption price at maturity” over its issue price is equal to or more than a *de minimis* amount (0.25 per cent. of the Note’s stated redemption price at maturity multiplied by the number of complete years to its maturity). An obligation that provides for the payment of amounts other than qualified stated interest before maturity (an **instalment obligation**) will be treated as a Discount Note if the excess of the Note’s stated redemption price at maturity over its issue price is equal to or greater than 0.25 per cent. of the Note’s stated redemption price at maturity multiplied by the weighted average maturity of the Note. A Note’s weighted average maturity is the sum of the following amounts determined for each payment on a Note (other than a payment of qualified stated interest): (i) the number of complete years from the issue date until the payment is made multiplied by (ii) a fraction, the numerator of which is the amount of the payment and the denominator of which is the Note’s stated redemption price at maturity. Generally, the issue price of a Note will be the first price at which a substantial amount of Notes included in the issue of which the Note is a part is sold to persons other than bond houses, brokers, or similar persons or organizations acting in the capacity of underwriters, placement agents, or wholesalers. The stated redemption price at maturity of a Note is the total of all payments provided by the Note that are not payments of “qualified

stated interest.” A qualified stated interest payment is generally any one of a series of stated interest payments on a Note that are unconditionally payable at least annually at a single fixed rate (with certain exceptions for lower rates paid during some periods), or a variable rate (in the circumstances described below under “*Variable Interest Rate Notes*”), applied to the outstanding principal amount of the Note. Solely for the purposes of determining whether a Note has OID, the Issuer will be deemed to exercise any call option that has the effect of decreasing the yield on the Note, and the U.S. Holder will be deemed to exercise any put option that has the effect of increasing the yield on the Note.

U.S. Holders of Discount Notes must generally include OID in income calculated on a constant-yield method before the receipt of cash attributable to the income, and generally will have to include in income increasingly greater amounts of OID over the life of the Discount Notes. The amount of OID includible in income by a U.S. Holder of a Discount Note is the sum of the daily portions of OID with respect to the Discount Note for each day during the taxable year or portion of the taxable year on which the U.S. Holder holds the Discount Note. The daily portion is determined by allocating to each day in any “accrual period” a pro rata portion of the OID allocable to that accrual period. Accrual periods with respect to a Note may be of any length selected by the U.S. Holder and may vary in length over the term of the Note as long as (i) no accrual period is longer than one year and (ii) each scheduled payment of interest or principal on the Note occurs on either the final or first day of an accrual period. The amount of OID allocable to an accrual period equals the excess of (a) the product of the Discount Note’s adjusted issue price at the beginning of the accrual period and the Discount Note’s yield to maturity (determined on the basis of compounding at the close of each accrual period and properly adjusted for the length of the accrual period) over (b) the sum of the payments of qualified stated interest on the Note allocable to the accrual period. The “adjusted issue price” of a Discount Note at the beginning of any accrual period is the issue price of the Note increased by (x) the amount of accrued OID for each prior accrual period, and decreased by (y) the amount of any payments previously made on the Note that were not qualified stated interest payments.

Short-Term Notes

In general, an individual or other cash basis U.S. Holder of a Short-Term Note is not required to accrue OID (as specially defined below for the purposes of this paragraph) for U.S. federal income tax purposes unless it elects to do so (but may be required to include any stated interest in income as the interest is received). Accrual basis U.S. Holders and certain other U.S. Holders are required to accrue OID on Short-Term Notes on a straight-line basis or, if the U.S. Holder so elects, under the constant-yield method (based on daily compounding). In the case of a U.S. Holder not required and not electing to include OID in income currently, any gain realized on the sale, exchange or other disposition of the Short-Term Note will be ordinary income to the extent of the OID accrued on a straight-line basis (unless an election is made to accrue the OID under the constant-yield method) through the date of sale, exchange or other disposition. U.S. Holders who are not required and do not elect to accrue OID on Short-Term Notes will be required to defer deductions for interest on borrowings allocable to Short-Term Notes in an amount not exceeding the deferred income until the deferred income is realized.

For purposes of determining the amount of OID subject to these rules, all interest payments on a Short-Term Note are included in the Short-Term Note’s stated redemption price at maturity. A U.S. Holder may elect to determine OID on a Short-Term Note as if the Short-Term Note had been originally issued to the U.S. Holder at the U.S. Holder’s purchase price for the Short-Term Note. This election will apply to all obligations with a maturity of one year or less acquired by the U.S. Holder on or after the first day of the first taxable year to which the election applies, and may not be revoked without the consent of the Internal Revenue Service (the **IRS**).

Variable Interest Rate Notes

Notes that provide for interest at variable rates (**Variable Interest Rate Notes**) generally will bear interest at a “qualified floating rate” and thus will be treated as “variable rate debt instruments” under

U.S. Treasury regulations governing accrual of OID. A Variable Interest Rate Note will qualify as a “variable rate debt instrument” if (a) its issue price does not exceed the total noncontingent principal payments due under the Variable Interest Rate Note by more than a specified *de minimis* amount, (b) it provides for stated interest, paid or compounded at least annually, at (i) one or more qualified floating rates, (ii) a single fixed rate and one or more qualified floating rates, (iii) a single objective rate, or (iv) a single fixed rate and a single objective rate that is a qualified inverse floating rate, and (c) it does not provide for any principal payments that are contingent (other than as described in (a) above).

A “qualified floating rate” is any variable rate where variations in the value of the rate can reasonably be expected to measure contemporaneous variations in the cost of newly borrowed funds in the currency in which the Variable Interest Rate Note is denominated. A fixed multiple of a qualified floating rate will constitute a qualified floating rate only if the multiple is greater than 0.65 but not more than 1.35. A variable rate equal to the product of a qualified floating rate and a fixed multiple that is greater than 0.65 but not more than 1.35, increased or decreased by a fixed rate, will also constitute a qualified floating rate. In addition, two or more qualified floating rates that can reasonably be expected to have approximately the same values throughout the term of the Variable Interest Rate Note (e.g., two or more qualified floating rates with values within 25 basis points of each other as determined on the Variable Interest Rate Note’s issue date) will be treated as a single qualified floating rate. Notwithstanding the foregoing, a variable rate that would otherwise constitute a qualified floating rate but which is subject to one or more restrictions such as a maximum numerical limitation (i.e., a cap) or a minimum numerical limitation (i.e., a floor) may, under certain circumstances, fail to be treated as a qualified floating rate.

An “objective rate” is a rate that is not itself a qualified floating rate but which is determined using a single fixed formula and which is based on objective financial or economic information (e.g., one or more qualified floating rates or the yield of actively traded personal property). A rate will not qualify as an objective rate if it is based on information that is within the control of the Issuer (or a related party) or that is unique to the circumstances of the Issuer (or a related party), such as dividends, profits or the value of the Issuer’s stock (although a rate does not fail to be an objective rate merely because it is based on the credit quality of the Issuer). Other variable interest rates may be treated as objective rates if so designated by the IRS in the future. Despite the foregoing, a variable rate of interest on a Variable Interest Rate Note will not constitute an objective rate if it is reasonably expected that the average value of the rate during the first half of the Variable Interest Rate Note’s term will be either significantly less than or significantly greater than the average value of the rate during the final half of the Variable Interest Rate Note’s term. A “qualified inverse floating rate” is any objective rate where the rate is equal to a fixed rate minus a qualified floating rate, as long as variations in the rate can reasonably be expected to inversely reflect contemporaneous variations in the qualified floating rate. If a Variable Interest Rate Note provides for stated interest at a fixed rate for an initial period of one year or less followed by a variable rate that is either a qualified floating rate or an objective rate for a subsequent period and if the variable rate on the Variable Interest Rate Note’s issue date is intended to approximate the fixed rate (e.g., the value of the variable rate on the issue date does not differ from the value of the fixed rate by more than 25 basis points), then the fixed rate and the variable rate together will constitute either a single qualified floating rate or objective rate, as the case may be.

A qualified floating rate or objective rate in effect at any time during the term of the instrument must be set at a “current value” of that rate. A “current value” of a rate is the value of the rate on any day that is no earlier than 3 months prior to the first day on which that value is in effect and no later than one year following that first day.

If a Variable Interest Rate Note that provides for stated interest at either a single qualified floating rate or a single objective rate throughout the term thereof qualifies as a “variable rate debt instrument”, then any stated interest on the Note which is unconditionally payable in cash or property (other than debt instruments of the Issuer) at least annually will constitute qualified stated interest and will be taxed accordingly. Thus, a Variable Interest Rate Note that provides for stated interest at either a single

qualified floating rate or a single objective rate throughout the term thereof and that qualifies as a “variable rate debt instrument” will generally not be treated as having been issued with OID unless the Variable Interest Rate Note is issued at a “true” discount (i.e., at a price below the Note’s stated principal amount) equal to or in excess of a specified *de minimis* amount. OID on a Variable Interest Rate Note arising from “true” discount is allocated to an accrual period using the constant-yield method described above by assuming that the variable rate is a fixed rate equal to (i) in the case of a qualified floating rate or qualified inverse floating rate, the value, as at the issue date, of the qualified floating rate or qualified inverse floating rate, or (ii) in the case of an objective rate (other than a qualified inverse floating rate), a fixed rate that reflects the yield that is reasonably expected for the Variable Interest Rate Note.

In general, any other Variable Interest Rate Note that qualifies as a “variable rate debt instrument” will be converted into an “equivalent” fixed rate debt instrument for purposes of determining the amount and accrual of OID and qualified stated interest on the Variable Interest Rate Note. Such a Variable Interest Rate Note must be converted into an “equivalent” fixed rate debt instrument by substituting any qualified floating rate or qualified inverse floating rate provided for under the terms of the Variable Interest Rate Note with a fixed rate equal to the value of the qualified floating rate or qualified inverse floating rate, as the case may be, as at the Variable Interest Rate Note’s issue date. Any objective rate (other than a qualified inverse floating rate) provided for under the terms of the Variable Interest Rate Note is converted into a fixed rate that reflects the yield that is reasonably expected for the Variable Interest Rate Note. In the case of a Variable Interest Rate Note that qualifies as a “variable rate debt instrument” and provides for stated interest at a fixed rate in addition to either one or more qualified floating rates or a qualified inverse floating rate, the fixed rate is initially converted into a qualified floating rate (or a qualified inverse floating rate, if the Variable Interest Rate Note provides for a qualified inverse floating rate). Under these circumstances, the qualified floating rate or qualified inverse floating rate that replaces the fixed rate must be such that the fair market value of the Variable Interest Rate Note as at the Variable Interest Rate Note’s issue date is approximately the same as the fair market value of an otherwise identical debt instrument that provides for either the qualified floating rate or qualified inverse floating rate rather than the fixed rate. Subsequent to converting the fixed rate into either a qualified floating rate or a qualified inverse floating rate, the Variable Interest Rate Note is converted into an “equivalent” fixed rate debt instrument in the manner described above.

Once the Variable Interest Rate Note is converted into an “equivalent” fixed rate debt instrument pursuant to the foregoing rules, the amount of OID and qualified stated interest, if any, are determined for the “equivalent” fixed rate debt instrument by applying the general OID rules to the “equivalent” fixed rate debt instrument and a U.S. Holder of the Variable Interest Rate Note will account for the OID and qualified stated interest as if the U.S. Holder held the “equivalent” fixed rate debt instrument. In each accrual period, appropriate adjustments will be made to the amount of qualified stated interest or OID assumed to have been accrued or paid with respect to the “equivalent” fixed rate debt instrument in the event that these amounts differ from the actual amount of interest accrued or paid on the Variable Interest Rate Note during the accrual period.

If a Variable Interest Rate Note, such as a Note the payments on which are determined by reference to an index, does not qualify as a “variable rate debt instrument”, then the Variable Interest Rate Note will be treated as a contingent payment debt obligation. The proper U.S. federal income tax treatment of Variable Interest Rate Notes that are treated as contingent payment debt obligations may be more fully described in the applicable Pricing Supplement.

Election to Treat All Interest as Original Issue Discount

A U.S. Holder may elect to include in gross income all interest that accrues on a Note using the constant-yield method described above under “*Original Issue Discount*”, with certain modifications. For purposes of this election, interest includes stated interest, OID and *de minimis* OID. This election will generally apply only to the Note with respect to which it is made and may not be revoked without the

consent of the IRS. U.S. Holders should consult their tax advisers concerning the propriety and consequences of this election.

Sale, Exchange or Other Disposition

A U.S. Holder's adjusted tax basis in a Note will generally equal its cost, increased by the amount of any OID included in the U.S. Holder's income with respect to the Note and the amount, if any, of income attributable to *de minimis* OID included in the U.S. Holder's income with respect to the Note, and reduced by the amount of any payments that are not qualified stated interest payments. A U.S. Holder will generally recognize gain or loss on the sale, exchange or other disposition of a Note in an amount equal to the difference between the amount realized on the sale, exchange or other disposition and the U.S. Holder's adjusted tax basis in the Note. The amount realized does not include the amount attributable to accrued but unpaid qualified stated interest, which will be taxable as interest income to the extent not previously included in income. Except to the extent described above under "*Short-Term Notes*" or attributable to changes in exchange rates (as discussed below), gain or loss recognized on the sale, exchange or other disposition of a Note will be U.S.-source capital gain or loss and will be long-term capital gain or loss if the U.S. Holder's holding period in the Notes exceeds one year. Because gain on the disposition of a Note is generally treated as U.S. source, the use of foreign tax credits relating to any Indian income tax imposed upon such gain (as discussed in "*Taxation—Indian Taxation—Taxation on gains arising from disposal of Notes*") may be limited. Prospective investors should consult their own tax advisers with respect to the treatment of capital gains (which may be taxed at lower rates than ordinary income for taxpayers who are individuals, trusts or estates that hold the Notes for more than one year) and capital losses (the deductibility of which is subject to limitations).

Foreign Currency Notes

Interest

If a qualified stated interest payment is denominated in, or determined by reference to, a foreign currency, the amount of income recognized by a cash basis U.S. Holder will be the U.S. dollar value of the interest payment, based on the exchange rate in effect on the date of receipt, regardless of whether the payment is in fact converted into U.S. dollars.

An accrual basis U.S. Holder may determine the amount of income recognized with respect to an interest payment denominated in, or determined by reference to, a foreign currency in accordance with either of two methods. Under the first method, the amount of income accrued will be based on the average exchange rate in effect during the interest accrual period (or, in the case of an accrual period that spans two taxable years of a U.S. Holder, the part of the period within the taxable year). Under the second method, the U.S. Holder may elect to determine the amount of income accrued on the basis of the exchange rate in effect on the last day of the accrual period (or, in the case of an accrual period that spans two taxable years, the exchange rate in effect on the last day of the part of the period within the taxable year). Additionally, if a payment of interest is actually received within five business days of the last day of the accrual period, an electing accrual basis U.S. Holder may instead translate the accrued interest into U.S. dollars at the exchange rate in effect on the day of actual receipt. Any such election will apply to all debt instruments held by the U.S. Holder at the beginning of the first taxable year to which the election applies or thereafter acquired by the U.S. Holder, and will be irrevocable without the consent of the IRS.

Upon receipt of an interest payment (including a payment attributable to accrued but unpaid interest upon the sale, exchange or other disposition of a Note) denominated in, or determined by reference to, a foreign currency, the U.S. Holder will generally recognize U.S.-source exchange gain or loss (taxable as ordinary income or loss) equal to the difference between the amount received (translated into U.S. dollars at the spot rate on the date of receipt) and the amount previously accrued, regardless of whether the payment is in fact converted into U.S. dollars.

OID

OID for each accrual period on a Discount Note that is denominated in, or determined by reference to, a foreign currency, will be determined in the foreign currency and then translated into U.S. dollars in the same manner as stated interest accrued by an accrual basis U.S. Holder, as described above. Upon receipt of an amount attributable to OID (whether in connection with a payment on the Note or a sale, exchange or other disposition of the Note), a U.S. Holder may recognize U.S.-source exchange gain or loss (taxable as ordinary income or loss) equal to the difference between the amount received (translated into U.S. dollars at the spot rate on the date of receipt) and the amount previously accrued, regardless of whether the payment is in fact converted into U.S. dollars.

Sale or Retirement

As discussed above under “*Sale, Exchange or other Disposition*”, a U.S. Holder will generally recognize gain or loss on the sale or retirement of a Note equal to the difference between the amount realized on the sale or retirement and its tax basis in the Note. A U.S. Holder’s tax basis in a Note that is denominated in a foreign currency will be determined by reference to the U.S. dollar cost of the Note. The amount realized on a sale or retirement for an amount in foreign currency will be the U.S. dollar value of this amount. If the Notes are traded on an established securities market, as defined in the applicable U.S. Treasury regulations, the amount realized will be, in the case of a cash basis U.S. Holder (or an accrual basis U.S. Holder that so elects), determined using the spot rate on the settlement date for the purchase. Such an election by an accrual basis U.S. Holder must be applied consistently from year to year and cannot be revoked without the consent of the IRS.

A U.S. Holder will recognize U.S.-source exchange rate gain or loss (taxable as ordinary income or loss) on the sale or retirement of a Note equal to the difference, if any, between the U.S. dollar values of the U.S. Holder’s purchase price for the Note (or, if less, the principal amount of the Note) (i) on the date of sale or retirement and (ii) the date on which the U.S. Holder acquired the Note. Any such exchange rate gain or loss will be realized only to the extent of total gain or loss realized on the sale or retirement (including any exchange gain or loss with respect to the receipt of accrued but unpaid interest). An accrual basis U.S. Holder that does not elect to determine its amount realized using the spot rate on the settlement date of the sale or retirement will also recognize U.S. source exchange rate gain or loss on the difference between the U.S. dollar amount realized and the U.S. dollar value of the foreign currency on the date of receipt.

Disposition of Foreign Currency

Foreign currency received as interest on a Note or on the sale or retirement of a Note will have a tax basis equal to its U.S. dollar value at the time the foreign currency is received. Foreign currency that is purchased will generally have a tax basis equal to the U.S. dollar value of the foreign currency on the date of purchase. Any gain or loss recognized on a sale or other disposition of a foreign currency (including its use to purchase Notes or upon exchange for U.S. dollars) will be U.S.-source ordinary income or loss.

Base Rate Change

It is possible that a change in the interest rate benchmark referenced by a Floating Rate Note from the Original Reference Rate to an Alternative Rate or a Successor Rate (a **Base Rate Change**) will be treated as a deemed exchange of the existing note for a new note, which may be taxable to U.S. Holders, or will affect the calculation of OID. U.S. Holders should consult with their own tax advisers regarding the potential consequences of a Base Rate Change.

Proposed Treasury regulations describe circumstances under which a Base Rate Change (or related adjustments to the interest rate) would not be treated as a deemed exchange and would not affect the

calculation of OID or the determination of whether Floating Rate Notes qualify as “variable rate debt instruments”, provided certain conditions are met. Although it cannot be determined at this time whether the final Treasury regulations on this issue will contain the same standards as the proposed Treasury regulations, taxpayers may rely on the proposed Treasury regulations until the final Treasury regulations adopting such rules are published in the Federal Register.

Taxation of Non-U.S. Holders of the Notes

Subject to the discussion under “*Backup Withholding and Information Reporting*”, “*Foreign Account Tax Compliance Act*” and “*U.S. Dividend Equivalent Withholding*” below, a Non-U.S. Holder generally should not be subject to U.S. federal income or withholding tax on any payments on a Note or gain from the sale, exchange or other disposition of a Note unless: (i) that payment or gain is effectively connected with the conduct by that Non-U.S. Holder of a trade or business within the United States; or (ii) in the case of any gain realized on the sale, exchange or other disposition of a Note by an individual Non-U.S. Holder, that holder is present in the United States for 183 days or more in the taxable year of the sale, exchange or other disposition and certain other conditions are met. Non-U.S. Holders should consult their own tax advisers regarding the U.S. federal income and other tax consequences of purchasing, owning and disposing of Notes.

IRS Disclosure Reporting Requirements

Certain U.S. Treasury regulations (the **Disclosure Regulations**) meant to require the reporting of certain tax shelter transactions (**Reportable Transactions**) could be interpreted to cover transactions generally not regarded as tax shelters. Under the Disclosure Regulations, it may be possible that certain transactions with respect to the Notes may be characterized as Reportable Transactions requiring a U.S. Holder of Notes to disclose such transaction, such as a sale, exchange, retirement or other taxable disposition of a Note that results in a loss that exceeds certain thresholds and other specified conditions are met. A penalty in the amount of U.S.\$10,000 in the case of a natural person and U.S.\$50,000 in all other cases is generally imposed on any taxpayer that fails to timely file an information return with the IRS with respect to a transaction resulting in a loss that is treated as a reportable transaction. Accordingly, if a U.S. Holder realizes a loss on any Note (or, possibly, aggregate losses from the Notes) satisfying the monetary thresholds discussed above, the U.S. Holder could be required to file an information return with the IRS, and failure to do so may subject the U.S. Holder to the penalties described above. In addition, the Issuer and its advisers may also be required to disclose the transaction to the IRS, and to maintain a list of U.S. Holders, and to furnish this list and certain other information to the IRS upon written request. Prospective investors in the Notes should consult their tax advisers to determine the tax return obligations, if any, with respect to an investment in the Notes, including any requirement to file IRS Form 8886 (Reportable Transaction Statement).

Backup Withholding and Information Reporting

Backup withholding and information reporting requirements may apply to certain payments on the Notes and proceeds of the sale, exchange or other disposition of the Notes to U.S. Holders. A U.S. Holder may be subject to backup withholding if it fails to furnish (usually on IRS Form W-9) the U.S. Holder’s taxpayer identification number to certify that such U.S. Holder is not subject to backup withholding, or to otherwise comply with the applicable requirements of the backup withholding rules. Certain U.S. Holders are not subject to the backup withholding and information reporting requirements. Non-U.S. Holders may be required to comply with applicable certification procedures (usually on IRS Form W-8BEN or W-8BEN-E) to establish that they are not U.S. Holders in order to avoid the application of such information reporting requirements and backup withholding. Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules from a payment to a U.S. Holder generally may be claimed as a credit against such U.S. Holder’s U.S. federal income tax liability or refunded, provided that the required information is timely furnished to the IRS. Prospective

investors in the Notes should consult their own tax advisers as to their qualification for exemption from backup withholding and the procedure for obtaining an exemption.

Foreign Financial Asset Reporting

Certain U.S. Holders that own “specified foreign financial assets” that meet certain U.S. dollar thresholds generally are required to file an information report with respect to such assets with their tax returns. The Notes generally will constitute specified foreign financial assets subject to these reporting requirements unless the Notes are held in an account at certain financial institutions. U.S. Holders are urged to consult their tax advisers regarding the application of these disclosure requirements to their ownership of the Notes.

THE U.S. FEDERAL INCOME TAX DISCUSSION SET FORTH ABOVE IS INCLUDED FOR GENERAL INFORMATION ONLY AND MAY NOT BE APPLICABLE DEPENDING UPON A HOLDER’S PARTICULAR SITUATION. PROSPECTIVE INVESTORS IN THE NOTES SHOULD CONSULT THEIR OWN TAX ADVISERS WITH RESPECT TO THE TAX CONSEQUENCES TO THEM OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF THE NOTES, INCLUDING THE TAX CONSEQUENCES UNDER STATE, LOCAL, NON-U.S. AND OTHER TAX LAWS AND THE POSSIBLE EFFECTS OF CHANGES IN FEDERAL OR OTHER TAX LAWS.

U.S. Dividend Equivalent Withholding

Section 871(m) of the Code treats a “dividend equivalent” payment as a dividend from sources within the United States. Under Section 871(m), such payments generally will be subject to a 30 per cent. U.S. withholding tax that may be reduced by an applicable tax treaty, eligible for credit against other U.S. tax liabilities or refunded, provided that the beneficial owner timely claims a credit or refund from the IRS. A “dividend equivalent” payment is (i) a substitute dividend payment made pursuant to a securities lending or a sale-repurchase transaction that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, (ii) a payment made pursuant to a “specified notional principal contract” that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, and (iii) any other payment determined by the IRS to be substantially similar to a payment described in (i) or (ii) above. U.S. Treasury regulations issued under Section 871(m) and applicable guidance (the **Section 871(m) Regulations**) require withholding on certain non-U.S. holders of the Notes with respect to amounts treated as attributable to dividends from certain U.S. securities (**871(m) Withholding**). Under the Section 871(m) Regulations, only a Note that has an expected economic return sufficiently similar to that of the underlying U.S. security, based on tests set forth in the Section 871(m) Regulations, will be subject to the Section 871(m) Withholding regime (making such Note a **Specified Note**). The Section 871(m) Regulations provide certain exceptions to this withholding requirement, in particular for instruments linked to certain broad-based indices.

Withholding in respect of dividend equivalents will generally be required when cash payments are made on a Specified Note to a holder on the date of maturity, lapse or other disposition by the holder of the Specified Note. If the underlying or referenced U.S. security or securities are treated as paying dividends during the term of the Specified Note, withholding generally will still be required even if the Specified Note does not provide for payments explicitly linked to such dividends. Additionally, the Issuer may withhold the full 30 per cent. tax on any payment on the Notes in respect of any dividend equivalent arising with respect to such Notes regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law (including, for the avoidance of doubt, where a non-U.S. Noteholder is eligible for a reduced tax rate under an applicable tax treaty with the United States). A holder may be able to claim a refund of any excess withholding provided the required information is timely furnished to the IRS.

While a payment with respect to a Note could be subject to U.S. withholding tax under both FATCA (as discussed below) and as a result of being treated as a dividend equivalent payment, the maximum rate of U.S. withholding tax on such payment would not exceed 30 per cent.

The Section 871(m) Regulations generally apply to Specified Notes issued on or after January 1, 2017. However, the Section 871(m) Regulations will not apply to certain financial instruments issued prior to January 1, 2023 if such financial instruments are not “delta one” transactions. If the terms of a Note are subject to a “significant modification” (as defined for U.S. tax purposes), the Note generally would be treated as retired and reissued on the date of such modification for purposes of determining, based on economic conditions in effect at that time, whether such Note is a Specified Note. Similarly, if additional Notes of the same series are issued (or deemed issued for U.S. tax purposes, such as certain sales of Notes out of inventory) after the original issue date, the IRS could treat the issue date for determining whether the existing Notes are Specified Notes as the date of such subsequent sale or issuance. Consequently, a previously out of scope Note, might be treated as a Specified Note following such modification or further issuance.

In addition, payments on the Specified Notes may be calculated by reference to dividends on underlying U.S. securities that are reinvested at a rate of 70 per cent. In such case, in calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer will be deemed to withhold, 30 per cent. of any dividend equivalent payments (as defined in Section 871(m) of the Code) in respect of the relevant U.S. securities. The Issuer will not pay any additional amounts to the holder on account of the Section 871(m) amount deemed withheld.

The applicable Pricing Supplement will indicate whether the Issuer has determined that Notes are Specified Notes and may specify contact details for obtaining additional information regarding the application of Section 871(m) to Notes. If Notes are Specified Notes, a holder of the Notes should expect to be subject to withholding in respect of any dividend equivalent payments on such Notes. The Issuer’s determination generally is binding on holders of the Notes, but it is not binding on the IRS. The Section 871(m) Regulations require complex calculations to be made with respect to Notes linked to U.S. securities and their application to a specific issue of Notes may be uncertain. In the event that any withholding would be required pursuant to Section 871(m) with respect to payments on the Notes, no person will be required to pay any additional amounts with respect to amounts so withheld.

Prospective investors should consult their tax advisers regarding the potential application of Section 871(m) to the Notes.

Foreign Account Tax Compliance Act

Pursuant to certain provisions of the Code, commonly known as FATCA, withholding may be required on, among other things, (i) certain payments made by “foreign financial institutions” (**foreign passthru payments**) and (ii) dividend equivalent payments (as described above in “*U.S. Dividend Equivalent Withholding*”), in each case, to persons that fail to meet certain certification, reporting, or related requirements. The Issuer may be a foreign financial institution for these purposes. A number of jurisdictions (including India) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA (**IGAs**), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes.

Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to foreign passthru payments, are uncertain and may be subject to change. If withholding would be required pursuant to FATCA or an IGA with respect to foreign passthru payments, such withholding would not apply prior to the date that is two years after the date on which final regulations defining

foreign passthru payments are published in the U.S. Federal Register. Additionally, Notes characterized as debt (or which are not otherwise characterized as equity and have a fixed term) for U.S. federal tax purposes that are issued on or before the relevant grandfathering date would be “grandfathered” for purposes of FATCA withholding unless materially modified after such date. The grandfathering date for (A) Notes that give rise solely to foreign passthru payments, is the date that is six months after the date on which final U.S. Treasury regulations defining the term foreign passthru payment are filed with the Federal Register, and (B) Notes that give rise to a dividend equivalent pursuant to Section 871(m) of the Code and the U.S. Treasury regulations promulgated thereunder, is six months after the date on which obligations of its type are first treated as giving rise to dividend equivalents. If additional notes (as described under “*Terms and Conditions of the Notes—Further Issues*”) that are not distinguishable from such previously issued grandfathered Notes are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Notes, including the Notes offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Holders should consult their own tax advisers regarding how these rules may apply to their investment in the Notes. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Notes, no person will be required to pay additional amounts as a result of the withholding.

TRANSFER RESTRICTIONS

As a result of the following restrictions, purchasers of Notes in the United States are advised to consult legal counsel prior to making any purchase, offer, sale, resale or other transfer of such Notes.

Each purchaser of Registered Notes (other than a person purchasing an interest in a Registered Global Note with a view to holding it in the form of an interest in the same Global Note) or person wishing to transfer an interest from one Registered Global Note to another or from global to definitive form or vice versa, will be required to acknowledge, represent and agree, and each person purchasing an interest in a Registered Global Note with a view to holding it in the form of an interest in the same Global Note will be deemed to have acknowledged, represented and agreed, as follows (terms used in this paragraph that are defined in Rule 144A or in Regulation S are used herein as defined therein):

- (a) that either: (i) it is a QIB, purchasing (or holding) the Notes for its own account or for the account of one or more QIBs and it is aware that any sale to it is being made in reliance on Rule 144A or (ii) it is an Institutional Accredited Investor which has delivered an IAI Investment Letter or (iii) it is outside the United States and, if Category 2 is specified in the applicable Pricing Supplement, is not a U.S. person;
- (b) that the Notes are being offered and sold in a transaction not involving a public offering in the United States within the meaning of the Securities Act, and that the Notes have not been and will not be registered under the Securities Act or any other applicable U.S. State securities laws and may not be offered or sold within the United States or, if Category 2 is specified in the applicable Pricing Supplement, to, or for the account or benefit of, U.S. persons except as set forth below;
- (c) that, unless it holds an interest in a Regulation S Global Note and is a person located outside the United States and, if Category 2 is specified in the applicable Pricing Supplement, is not a U.S. person, if in the future it decides to resell, pledge or otherwise transfer the Notes or any beneficial interests in the Notes, it will do so, prior to the date which is one year after the later of the last Issue Date for the Series and the last date on which the Issuer or an affiliate of the Issuer was the owner of such Notes, only (i) to the Issuer or any affiliate thereof, (ii) inside the United States to a person whom the seller reasonably believes is a QIB purchasing for its own account or for the account of a QIB in a transaction meeting the requirements of Rule 144A, (iii) outside the United States in compliance with Rule 903 or Rule 904 under the Securities Act, (iv) pursuant to the exemption from registration provided by Rule 144 under the Securities Act (if available) or (v) pursuant to an effective registration statement under the Securities Act, in each case in accordance with all applicable U.S. State securities laws;
- (d) it will, and will require each subsequent holder to, notify any purchaser of the Notes from it of the resale restrictions referred to in paragraph (c) above, if then applicable;
- (e) that Notes initially offered in the United States to QIBs will be represented by one or more Rule 144A Global Notes, that Notes offered to Institutional Accredited Investors will be in the form of Definitive IAI Registered Notes and that Notes offered outside the United States in reliance on Regulation S will be represented by one or more Regulation S Global Notes;
- (f) that the Notes in registered form, other than the Regulation S Global Notes, will bear a legend to the following effect unless otherwise agreed to by the Issuer:

“THIS SECURITY HAS NOT BEEN AND WILL NOT BE REGISTERED UNDER THE U.S. SECURITIES ACT OF 1933, AS AMENDED (THE **SECURITIES ACT**), OR ANY OTHER APPLICABLE U.S. STATE SECURITIES LAWS MAY NOT BE OFFERED OR

SOLD WITHIN THE UNITED STATES OR, IF CATEGORY 2 IS SPECIFIED IN THE APPLICABLE PRICING SUPPLEMENT, TO, OR FOR THE ACCOUNT OR BENEFIT OF, U.S. PERSONS EXCEPT AS SET FORTH IN THE FOLLOWING SENTENCE. BY ITS ACQUISITION HEREOF, THE HOLDER (A) REPRESENTS THAT (1) IT IS A “QUALIFIED INSTITUTIONAL BUYER” (AS DEFINED IN RULE 144A UNDER THE SECURITIES ACT), PURCHASING THE SECURITIES FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF ONE OR MORE QUALIFIED INSTITUTIONAL BUYERS OR (2) IT IS AN INSTITUTIONAL “ACCREDITED INVESTOR” (AS DEFINED IN RULE 501(a)(1), (2), (3) OR (7) UNDER THE SECURITIES ACT) (AN **INSTITUTIONAL ACCREDITED INVESTOR**) IN A MINIMUM PRINCIPAL AMOUNT OF U.S.\$500,000 (OR THE EQUIVALENT AMOUNT IN A FOREIGN CURRENCY); (B) AGREES THAT IT WILL NOT RESELL OR OTHERWISE TRANSFER THE SECURITIES EXCEPT IN ACCORDANCE WITH THE AGENCY AGREEMENT AND, PRIOR TO THE DATE WHICH IS ONE YEAR AFTER THE LATER OF THE LAST ISSUE DATE FOR THE SERIES AND THE LAST DATE ON WHICH THE ISSUER OR AN AFFILIATE OF THE ISSUER WAS THE OWNER OF SUCH SECURITIES OTHER THAN (1) TO THE ISSUER OR ANY AFFILIATE THEREOF, (2) INSIDE THE UNITED STATES TO A PERSON WHOM THE SELLER REASONABLY BELIEVES IS (i) A QUALIFIED INSTITUTIONAL BUYER WITHIN THE MEANING OF RULE 144A UNDER THE SECURITIES ACT PURCHASING FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF A QUALIFIED INSTITUTIONAL BUYER IN A TRANSACTION MEETING THE REQUIREMENTS OF RULE 144A OR (ii) AN INSTITUTIONAL ACCREDITED INVESTOR PURCHASING FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF AN INSTITUTIONAL ACCREDITED INVESTOR, (3) OUTSIDE THE UNITED STATES IN COMPLIANCE WITH RULE 903 OR RULE 904 UNDER THE SECURITIES ACT, (4) PURSUANT TO THE EXEMPTION FROM REGISTRATION PROVIDED BY RULE 144 UNDER THE SECURITIES ACT (IF AVAILABLE) OR (5) PURSUANT TO AN EFFECTIVE REGISTRATION STATEMENT UNDER THE SECURITIES ACT, IN EACH CASE IN ACCORDANCE WITH ALL APPLICABLE SECURITIES LAWS OF THE STATES OF THE UNITED STATES AND ANY OTHER JURISDICTION; AND (C) IT AGREES THAT IT WILL DELIVER TO EACH PERSON TO WHOM THIS SECURITY IS TRANSFERRED A NOTICE SUBSTANTIALLY TO THE EFFECT OF THIS LEGEND. NO REPRESENTATION CAN BE MADE AS TO THE AVAILABILITY OF THE EXEMPTION PROVIDED BY RULE 144A FOR REALES OF THE SECURITY.

THIS SECURITY AND RELATED DOCUMENTATION (INCLUDING, WITHOUT LIMITATION, THE AGENCY AGREEMENT REFERRED TO HEREIN) MAY BE AMENDED OR SUPPLEMENTED FROM TIME TO TIME, WITHOUT THE CONSENT OF, BUT UPON NOTICE TO, THE HOLDERS OF SUCH SECURITIES SENT TO THEIR REGISTERED ADDRESSES, TO MODIFY THE RESTRICTIONS ON AND PROCEDURES FOR REALES AND OTHER TRANSFERS OF THIS SECURITY TO REFLECT ANY CHANGE IN APPLICABLE LAW OR REGULATION (OR THE INTERPRETATION THEREOF) OR IN PRACTICES RELATING TO REALES OR OTHER TRANSFERS OF RESTRICTED SECURITIES GENERALLY. THE HOLDER OF THIS SECURITY SHALL BE DEEMED, BY ITS ACCEPTANCE OR PURCHASE HEREOF, TO HAVE AGREED TO ANY SUCH AMENDMENT OR SUPPLEMENT (EACH OF WHICH SHALL BE CONCLUSIVE AND BINDING ON THE HOLDER HEREOF AND ALL FUTURE HOLDERS OF THIS SECURITY AND ANY SECURITIES ISSUED IN EXCHANGE OR SUBSTITUTION THEREFOR, WHETHER OR NOT ANY NOTATION THEREOF IS MADE HEREON).”; and

- (g) that the Issuer and others will rely upon the truth and accuracy of the foregoing acknowledgements, representations and agreements and agrees that if any of such

acknowledgements, representations or agreements made by it are no longer accurate, it shall promptly notify the Issuer; and if it is acquiring any Notes as a fiduciary or agent for one or more accounts it represents that it has sole investment discretion with respect to each such account and that it has full power to make, and does make, the foregoing acknowledgements, representations and agreements on behalf of each such account.

Institutional Accredited Investors who purchase Registered Notes in definitive form offered and sold in the United States in reliance upon the exemption from registration provided by the Securities Act are required to execute and deliver to the Registrar an IAI Investment Letter. Upon execution and delivery of an IAI Investment Letter by an Institutional Accredited Investor, Notes will be issued in definitive registered form, see “*Form of the Notes*”.

The IAI Investment Letter will state, among other things, the following:

- (a) that the Institutional Accredited Investor has received a copy of this Offering Circular and such other information as it deems necessary in order to make its investment decision;
- (b) that the Institutional Accredited Investor understands that any subsequent transfer of the Notes is subject to certain restrictions and conditions set forth in this Offering Circular and the Notes and it agrees to be bound by, and not to resell, pledge or otherwise transfer the Notes except in compliance with, such restrictions and conditions and the Securities Act;
- (c) that the Institutional Accredited Investor understands that the offer and sale of the Notes have not been registered under the Securities Act, and that the Notes may not be offered or sold except as permitted in the following sentence: The Institutional Accredited Investor agrees, on its own behalf and on behalf of any accounts for which it is acting, not to offer, sell or otherwise transfer such Notes except (A) to the Issuer or any affiliate thereof, (B) inside the United States to a person whom it reasonably believes is a qualified institutional buyer within the meaning of Rule 144A under the Securities Act purchasing for its own account or for the account of a qualified institutional buyer in a transaction which meets the requirements of Rule 144A, (C) to another Institutional Accredited Investor that, prior to such transfer, furnishes to the Issuer a signed letter containing certain representations and agreements relating to the transfer of the Notes, (D) outside the United States in compliance with Rule 903 or Rule 904 under the Securities Act, (E) pursuant to an effective registration statement under the Securities Act or (F) pursuant to any other available exemption from the registration requirements of the Securities Act, in each case, in accordance with any applicable securities laws of any State of the United States or any other jurisdiction; the Institutional Accredited Investor understand that, on any proposed resale of any Notes, it and each subsequent holder will be required to deliver to the transferee of the Notes or any interest or participation therein a notice substantially to the foregoing effect;
- (d) that the Institutional Accredited Investor understands that, on any proposed resale of any Notes, it will be required to furnish to the Issuer such certifications, legal opinions, and other information (including a letter from any purchaser who is an Institutional Accredited Investor) as it may reasonably require to confirm that the proposed sale complies with the foregoing restrictions; the Institutional Accredited Investor further understands that the Notes purchased by it will bear a legend to substantially the foregoing effect;
- (e) that, in the normal course of business, the Institutional Accredited Investor invests in or purchase securities similar to the Notes, that it is an “accredited investor” within the meaning of Rule 501(a)(1), (2), (3) or (7) under the Securities Act and have such knowledge and experience in financial and business matters as to be capable of evaluating the merits and risks of its investment in the Notes, and that it and any accounts for which it is acting is each able to bear the economic risk of its investment;

- (f) that the Institutional Accredited Investor is acquiring the Notes purchased by it for its own account or for one or more accounts (each of which is an Institutional Accredited Investor) as to each of which it exercises sole investment discretion and not with a view to any distribution of the Notes in a transaction that would violate the Securities Act or the Securities laws of any State of the United States or any other applicable jurisdiction; and
- (g) that the Institutional Accredited Investor is acquiring Notes having a minimum purchase price of at least U.S.\$500,000 (or the approximate equivalent in another currency).

No sale of Legended Notes in the United States to any one purchaser will be for less than U.S.\$200,000 (or its foreign currency equivalent) principal amount or, in the case of sales to Institutional Accredited Investors, U.S.\$500,000 (or its foreign currency equivalent) principal amount and no Legended Note will be issued in connection with such a sale in a smaller principal amount. If the purchaser is a non-bank fiduciary acting on behalf of others, each person for whom it is acting must purchase at least U.S.\$200,000 (or its foreign currency equivalent) or, in the case of sales to Institutional Accredited Investors, U.S.\$500,000 (or its foreign currency equivalent) principal amount of Registered Notes.

SUBSCRIPTION AND SALE

The Dealers have, in an amended and restated programme agreement dated April 20, 2021 (the **Programme Agreement**), agreed with us a basis upon which it may from time to time agree to purchase Notes. Any such agreement will extend to those matters stated under “*Form of the Notes*” and “*Terms and Conditions of the Notes*”. In the Programme Agreement, we have agreed to reimburse the Dealers for certain of their expenses in connection with the update of the Programme and the issue of Notes under the Programme and to indemnify the Dealers against certain liabilities incurred by them in connection therewith. The Programme Agreement entitles the Dealers to terminate any agreement that they make to subscribe Notes in certain circumstances prior to payment for such Notes being made to us.

In order to facilitate the offering of any Tranche of the Notes, a nominated Dealer participating in the offering of the Tranche may engage in transactions that stabilize, maintain or otherwise affect the price of the relevant Notes, which support the market price of the relevant Notes during and after the offering of the Tranche. Specifically, such persons may over-allot or create a short position in the Notes for their own account by selling more Notes than have been sold to them by us. Such persons may also elect to cover any such short position by purchasing Notes in the open market. In addition, such persons may stabilize or maintain the price of the Notes by bidding for or purchasing Notes in the open market and may impose penalty bids, under which selling concessions allowed to syndicate members or other broker-dealers participating in the offering of the Notes are reclaimed if Notes previously distributed in the offering are repurchased in connection with stabilization transactions or otherwise. The effect of these transactions may be to stabilize or maintain the market price of the Notes at a level higher than that which might otherwise prevail in the open market. The imposition of a penalty bid may also affect the price of the Notes to the extent that it discourages resales thereof. No representation is made as to the magnitude or effect of any such stabilizing or other transactions. Such transactions, if commenced, may be discontinued at any time, and must be brought to an end after a limited period. Under U.K. laws and regulations stabilizing activities may only be carried on by the Stabilization Manager (or any person acting for the Stabilization Manager) named in the applicable Pricing Supplement and only for a period of 30 days following the Issue Date of the relevant Tranche of Notes.

The Dealers and their affiliates may engage in investment or commercial banking and other dealings in the ordinary course of business with the Issuer or its affiliates from time to time and may receive fees and commissions for these transactions. In addition to the transactions noted above, the Dealers and their affiliates may, from time to time after completion of the offering of Notes, engage in other transactions with, and perform services for, the Issuer or its affiliates in the ordinary course of their business. The Dealers or their affiliates may also purchase Notes for asset management and/or proprietary purposes but not with a view to distribution or may hold the Notes on behalf of clients or in the capacity of investment advisers. While the Dealers and their affiliates have policies and procedures to deal with conflicts of interests, any such transactions may cause the Dealers or their affiliates or their clients or counterparties to have economic interests and incentives which may conflict with those of an investor in the Notes. The Dealers may receive returns on such transactions and have no obligation to take, refrain from taking or cease taking any action with respect to any such transactions based on the potential effect on a prospective investor in the Notes. Further, the Dealers and their affiliates are full service financial institutions engaged in various activities which may include securities trading, commercial and investment banking, financial advice, investment management, principal investment, hedging, financing and brokerage activities. The Dealers may have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with the Issuer or its subsidiaries, jointly controlled entities or associated companies from time to time. In the ordinary course of their various business activities, the Dealers and their affiliates may make or hold (on their own account, on behalf of clients or in their capacity of investment advisers) a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial

instruments (including bank loans) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments and enter into other transactions, including credit derivatives (such as asset swaps, repackaging and credit default swaps) in relation thereto. Such transactions, investments and securities activities may involve securities and instruments of the Issuer or its subsidiaries, jointly controlled entities or associated companies, including Notes issued under the Programme, may be entered into at the same time or proximate to offers and sales of Notes or at other times in the secondary market and be carried out with counterparties that are also purchasers, holders or sellers of Notes. Notes issued under the Programme may be purchased by or be allocated to any Dealer or an affiliate for asset management and/or proprietary purposes but not with a view to distribution.

United States

Each Dealer has represented and agreed and each further Dealer appointed under the Programme will be required to represent and agree that:

- (a) the Notes have not been and will not be registered under the Securities Act or the securities laws of any state or other jurisdiction of the United States, and may not be offered or sold within the United States (or, in certain circumstances, to, or for the account or benefit of, U.S. persons) except in certain transactions exempt from or not subject to, the registration requirements of the Securities Act;
- (b) the Notes in bearer form are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. Treasury regulations. Notes will be issued in accordance with the provisions of U.S. Treasury Regulation §1.163-5(c)(2)(i)(D) (or any successor rules in substantially the same form that are applicable for purposes of Section 4701 of the U.S. Internal Revenue Code of 1986, as amended (the **Code**)) (**TEFRA D**), unless the relevant Pricing Supplement specifies that Notes will be issued in accordance with the provision of U.S. Treasury Regulation §1.163-5(c)(2)(i)(C) (or any successor rules in substantially the same form that are applicable for purposes of Section 4701 of the Code) (**TEFRA C**) or in circumstances in which the Notes will not constitute “registration required obligations” under the United States Tax Equity and Fiscal Responsibility Act of 1982 (**TEFRA**), which circumstances will be referred to in the applicable Pricing Supplement as a transaction to which TEFRA is not applicable. Terms used in this paragraph have the meanings given to them by the Code and Treasury regulations promulgated thereunder;
- (c) in connection with any Notes which are offered or sold outside the United States in reliance on an exemption from the registration requirements of the Securities Act provided under Category 2 of Regulation S (**Category 2 Notes**), each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it will not offer, sell or deliver such Category 2 Notes (i) as part of their distribution at any time or (ii) otherwise until 40 days after the completion of the distribution, as determined and certified by the relevant Dealer or, in the case of an issue of Notes on a syndicated basis, the relevant lead manager, of all Notes of the Tranche of which such Category 2 Notes are a part, within the United States or to, or for the account or benefit of, U.S. persons except in accordance with Regulation S of the Securities Act. Each Dealer has further agreed, and each further Dealer appointed under the Programme will be required to agree, that it will send to each dealer to which it sells any Category 2 Notes during the distribution compliance period (as defined in Regulation S) a confirmation or other notice setting forth the restrictions on offers and sales of the Category 2 Notes within the United States or to, or for the account or benefit of, U.S. persons;

- (d) accordingly, if Category 1 is specified in the Pricing Supplement, the Notes are being offered and sold only outside the United States in offshore transaction in reliance on, and in compliance with, Regulation S; and
- (e) until 40 days after the commencement of the offering of any Series of Notes, an offer or sale of such Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

Terms used in paragraphs (a) to (e) above have the meanings given to them by Regulation S.

Notwithstanding anything above to the contrary, it is understood that Registered Notes may be offered and sold pursuant to a private placement in the United States, and in connection therewith each Dealer has represented and agreed and each further Dealer appointed under the Programme will be required to represent and agree that:

- (i) offers, sales, resales and other transfers of Notes made in the United States made or approved by a Dealer (including offers, resales or other transfers made or approved by a Dealer in connection with secondary trading) shall be made with respect to Registered Notes only and shall be effected pursuant to an exemption from the registration requirements of the Securities Act;
- (ii) offers, sales, resales and other transfers of Notes made in the United States will be made only in private transactions to (1) a limited number of institutional investors that are accredited investors (as defined in Rule 501(a) (1), (2), (3) and (7) under the Securities Act each such institutional investor being hereinafter referred to as an **accredited investor**) that has executed and delivered to a Dealer an IAI Investment Letter, or (2) institutional investors that are reasonably believed to qualify as qualified institutional buyers within the meaning of Rule 144A (each such institutional investor being hereinafter referred to as a **QIB**);
- (iii) the Notes will be offered in the United States only by approaching prospective purchasers on an individual basis. No general solicitation or general advertising within the meaning of Rule 502(c) under the Securities Act will be used in connection with the offering of the Notes in the United States;
- (iv) no sale of Notes in the United States to (1) any one accredited investor will be for less than U.S.\$500,000 principal amount and (2) any one QIB will be for less than U.S.\$200,000 principal amount or (in each case) its equivalent rounded upwards and no Note will be issued in connection with such a sale in a smaller principal amount. If such purchaser is a non-bank fiduciary acting on behalf of others, each person for whom it is acting must purchase at least U.S.\$500,000 (in the case of (1) above) or U.S.\$200,000 (in the case of (2) above) principal amount of the Notes; and
- (v) each Note sold as a part of a private placement in the United States and each Regulation S Global Note shall contain a legend in substantially the form set out on the face of such Note in the Agency Agreement.

The Issuer has represented and agreed that any resale or other transfer, or attempted resale or other transfer of Notes sold as part of a private placement in the United States made other than in compliance with the restrictions set out in paragraphs (i) to (v) above shall not be recognized by the Issuer or any agent of the Issuer and shall be void.

Each issuance of Index Linked Notes or Dual Currency Notes shall be subject to such additional U.S. selling restrictions as the Issuer and the relevant Dealer may agree as a term of the issuance and purchase of such Notes, which additional selling restrictions shall be set out in the applicable Pricing Supplement.

Prohibition of sales to EEA Retail Investors

Unless the Pricing Supplement in respect of any Notes specifies “Prohibition of Sales to EEA Retail Investors” as “Not Applicable”, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Offering Circular as completed by the Pricing Supplement in relation thereto to any retail investor in the European Economic Area. For the purposes of this provision:

- (a) the expression **retail investor** means a person who is one (or more) of the following:
 - (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, **MiFID II**); or
 - (ii) a customer within the meaning of Directive (EU) 2016/97 (the **Insurance Distribution Directive**), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
 - (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (the **Prospectus Regulation**); and
- (b) the expression **offer** includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes.

If the Pricing Supplement in respect of any Notes specifies the “Prohibition of Sales to EEA Retail Investors” as “Not Applicable”, in relation to each Member State of the EEA (each, a **Relevant State**), each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Offering Circular as completed by the Pricing Supplement in relation thereto to the public in that Relevant State except that it may make an offer of such Notes to the public in that Relevant State:

- (a) if the Pricing Supplement in relation to the Notes specifies that an offer of those Notes may be made other than pursuant to Article 1(4) of the Prospectus Regulation in that Relevant State (a **Non-exempt Offer**), following the date of publication of a prospectus in relation to such Notes which has been approved by the competent authority in that Relevant State or, where appropriate, approved in another Relevant State and notified to the competent authority in that Relevant State, provided that any such prospectus has subsequently been completed by Pricing Supplement contemplating such Non-exempt Offer, in accordance with the Prospectus Regulation, in the period beginning and ending on the dates specified in such prospectus or final terms, as applicable and the Issuer has consented in writing to its use for the purpose of that Non-exempt Offer;
- (b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Regulation;

- (c) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Regulation), subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (d) at any time in any other circumstances falling within Article 1(4) of the Prospectus Regulation,

provided that no such offer of Notes referred to in (b) to (d) above shall require us or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

For the purposes of this provision:

- (a) the expression an **offer of Notes to the public** in relation to any Notes in any Relevant State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes; and
- (b) the expression **Prospectus Regulation** means Regulation (EU) 2017/1129.

United Kingdom

Prohibition of sales to UK Retail Investors

Unless the Pricing Supplement in respect of any Notes specifies “Prohibition of Sales to UK Retail Investors” as “Not Applicable”, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Offering Circular as completed by the Pricing Supplement in relation thereto to any retail investor in the United Kingdom. For the purposes of this provision:

- (a) the expression **retail investor** means a person who is one (or more) of the following:
 - (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (EUWA); or
 - (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (the FSMA) and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or
 - (iii) not a qualified investor as defined in Article 2 of the Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA; and
- (b) the expression an **offer** includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes.

If the Pricing Supplement in respect of any Notes specifies “Prohibition of Sales to UK Retail Investors” as “Not Applicable”, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Offering Circular as completed by

the Pricing Supplement in relation thereto to the public in the United Kingdom except that it may make an offer of such Notes to the public in the United Kingdom:

- (a) if the Pricing Supplement in relation to the Notes specify that an offer of those Notes may be made other than pursuant to section 86 of the FSMA (a **Public Offer**), following the date of publication of a prospectus in relation to such Notes which either (i) has been approved by the Financial Conduct Authority, or (ii) is to be treated as if it has been approved by the Financial Conduct Authority in accordance with the transitional provision in Regulation 74 of the Prospectus (Amendment etc.) (EU Exit) Regulations 2019, provided that any such prospectus has subsequently been completed by Pricing Supplement contemplating such Public Offer, in the period beginning and ending on the dates specified in such prospectus or final terms, as applicable, and the Issuer has consented in writing to its use for the purpose of that Public Offer;
- (b) at any time to any legal entity which is a qualified investor as defined in Article 2 of the UK Prospectus Regulation;
- (c) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in Article 2 of the UK Prospectus Regulation) in the United Kingdom subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (d) at any time in any other circumstances falling within section 86 of the FSMA,

provided that no such offer of Notes referred to in (b) to (d) above shall require the Issuer or any Dealer to publish a prospectus pursuant to section 85 of the FSMA or supplement a prospectus pursuant to Article 23 of the UK Prospectus Regulation.

For the purposes of this provision:

- the expression the expression **FSMA** means the Financial Services and Markets Act 2000; and
- the expression **an offer of Notes to the public** in relation to any Notes in the United Kingdom means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes; and
- the expression **UK Prospectus Regulation** means Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA.

Other regulatory restrictions

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that:

- (a) in relation to any Notes having a maturity of less than one year, (i) it is a person whose ordinary activities involve it in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of its business and (ii) it has not offered or sold and will not offer or sell any Notes other than to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or as agent) for the purposes of their businesses or who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or agent) for the purposes of their businesses where the issue of the Notes would otherwise constitute a contravention of Section 19 of the FSMA by the Issuer;
- (b) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the

meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of any Notes in circumstances in which Section 21(1) of the FSMA does not apply to the Issuer; and

- (c) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Notes in, from or otherwise involving the United Kingdom.

Italy

The offering of the Notes has not been registered with the *Commissione Nazionale per le Società e la Borsa (CONSOB)* pursuant to Italian securities legislation and, accordingly, no Notes may be offered, sold or delivered, nor may copies of the Offering Circular or of any other document relating to any Notes be distributed in Italy, except, in accordance with any Italian securities, tax and other applicable laws and regulations.

Each Dealer has represented and agreed and each further Dealer appointed under the Programme will be required to represent and agree that it has not offered, sold or delivered, and will not offer, sell or deliver any Notes or distribute any copy of the Offering Circular or any other document relating to the Notes in Italy except:

- (a) to qualified investors (*investitori qualificati*), pursuant to Article 2 of the Prospectus Regulation, as amended from time to time; or
- (b) in other circumstances which are exempted from the rules on public offerings pursuant to Article 1 of the Prospectus Regulation, Article 100 of Legislative Decree no. 58 of 24 February 1998 (the “**Financial Services Act**”) and Article 34-*ter* of CONSOB Regulation 11971/99 of May 14, 1999, all as amended from time to time.

In any event, any offer, sale or delivery of the Notes or distribution of copies of the Offering Circular or any other document relating to the Notes in Italy under paragraphs (a) or (b) above must be:

- (i) made by an investment firm, bank or financial intermediary permitted to conduct such activities in Italy in accordance with the Financial Services Act, Legislative Decree No. 385 of September 1, 1993 (the “**Banking Act**”) and CONSOB Regulation No. 20307 of February 15, 2018, all as amended from time to time;
- (ii) in compliance with Article 129 of the Banking Act, as amended from time to time, and the implementing guidelines of the Bank of Italy, as amended from time to time; and
- (iii) in compliance with any other applicable laws and regulations, including any limitation or requirement which may be imposed from time to time by CONSOB or the Bank of Italy or other competent authority.

Investors should note that, in accordance with Article 5 of the Prospectus Regulation and Article 100-bis of the Prospectus Regulation and the Financial Services Act, where no exemption from the rules on public offerings applies under paragraphs (a) and (b) above, the subsequent distribution of the Notes on the secondary market in Italy must be made in compliance with the public offer and the prospectus requirement rules provided under the Prospectus Regulation and the Financial Services Act. Furthermore, where no exemption from the rules on public offerings applies, the Notes which are initially offered and placed in Italy or abroad to professional investors only but in the following year are “systematically” distributed on the secondary market in Italy become subject to the public offer and the prospectus requirement rules provided under the Prospectus Regulation and the Financial Services Act. Failure to comply with such rules may result in the sale of such Notes being declared null

and void and in the liability of the intermediary transferring the financial instruments for any damages suffered by the purchasers of Notes who are acting outside of the course of their business or profession.

India

The Dealer has represented and acknowledged that (a) the Offering Circular has not been and will not be registered, produced or published as an offer document (whether a prospectus in respect of either a public offer or information memorandum or other offering material in respect of any private placement under the Companies Act, 2013, as amended from time to time, and the rules framed thereunder or any other applicable Indian laws) with any Registrar of Companies, the Securities and Exchange Board of India, the RBI, any Indian stock exchanges or any other statutory, regulatory body and adjudicatory of like nature in India, save and except for any information from any part of the Offering Circular which is (i) mandatorily required to be disclosed or filed in India under any applicable Indian laws, including but not limited to, the Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations 2015, as amended from time to time, and under the listing agreements with any Indian stock exchanges pursuant to the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations 2015, as amended from time to time, or (ii) pursuant to the directives of any statutory, regulatory and adjudicatory body in India and (b) the Notes have not been and will not be offered or sold in India by means of the Offering Circular or any document, other than to persons permitted to acquire the Notes under Indian law, whether as a principal or an agent, and (c) the Offering Circular or any other offering document or material relating to the Notes has not been and will not be circulated or distributed, directly or indirectly, to any person or to the public or any member of the public in India or otherwise generally distributed or circulated in India which would constitute an advertisement, invitation, offer, sale or solicitation of an offer to subscribe for or purchase any securities in violation of applicable Indian securities laws, and (d) the Offering Circular or any material relating to the Notes has not been and will not be circulated or distributed to any prospective investor who is not a resident of an FATF or IOSCO compliant jurisdiction and (e) the Notes will not be offered or sold or transferred and have not been offered or sold or transferred in compliance with requirements specified by the RBI from time to time in relation to external commercial borrowings by Indian entities only to (i) any person who is not a resident of an FATF or IOSCO compliant jurisdiction; or (ii) multilateral and regional financial institutions where India is a member country and are not otherwise prohibited under any applicable law or regulation from acquiring, owning or selling the Notes.

For the purposes of this section:

FATF means Financial Action Task Force;

FATF compliant jurisdiction means a country that is a member of a Financial Action Task Force (**FATF**) or a member of a FATF style regional body; and should not be a country identified in the public statement of the FATF as: (a) a jurisdiction having a strategic anti-money laundering or combating the financing of terrorism deficiencies to which counter measures apply; or (b) a jurisdiction that has not made sufficient progress in addressing the deficiencies or has not committed to an action plan developed with the FATF to address the deficiencies; and

IOSCO compliant jurisdiction means a country whose securities market regulator is a signatory to the International Organization of Securities Commission's (**IOSCO's**) Multilateral Memorandum of Understanding (Appendix A Signatories) or a signatory to bilateral Memorandum of Understanding with the Securities and Exchange Board of India for information sharing arrangements.

Multilateral and regional financial institutions where India is a member country will also be considered as recognized investors. Offshore branches and subsidiaries of Indian banks are permitted as recognized lenders only for foreign currency denominated Notes.

Additional Selling Restrictions Applicable to the Issuance of Rupee denominated Notes

Each Dealer represents and agrees, and each further Dealer appointed under the Programme will be required to represent and agree that in relation to any issuance of Notes denominated in Rupees and payable in a currency other than Rupees (**Rupee Denominated Notes**), such Rupee Denominated Notes are not being issued to any offshore branch or subsidiary of an Indian bank. Offshore branches or subsidiaries of Indian banks, subject to applicable prudential norms, may only participate as arrangers, underwriters, market makers or traders for Rupee Denominated Notes issued overseas in accordance with the ECB Guidelines.

Singapore

Each Dealer has acknowledged, and each further Dealer appointed under the Programme will be required to acknowledge, that this Offering Circular has not been and will not be registered as a prospectus with the Monetary Authority of Singapore. Accordingly, each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree, that it has not offered or sold any Notes or caused the Notes to be made the subject of an invitation for subscription or purchase and will not offer or sell any Notes or cause the Notes to be made the subject of an invitation for subscription or purchase, and has not circulated or distributed, nor will it circulate or distribute, this Offering Circular or any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the Notes, whether directly or indirectly, to any person in Singapore other than (i) to an institutional investor (as defined in Section 4A of the SFA (Chapter 289) of Singapore, as modified or amended from time to time) pursuant to Section 274 of the SFA, (ii) to a relevant person (as defined in Section 275(2) of the SFA) pursuant to Section 275(1) of the SFA, or any person pursuant to Section 275(1A) of the SFA, and in accordance with the conditions specified in Section 275 of the SFA, or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

Where the Notes are subscribed or purchased under Section 275 of the SFA by a relevant person which is:

- (a) a corporation (which is not an accredited investor (as defined in Section 4A of the SFA)) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or
- (b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary of the trust is an individual who is an accredited investor,

securities or securities-based derivatives contracts (each term as defined in Section 2(1) of the SFA) of that corporation or the beneficiaries' rights and interest (howsoever described) in that trust shall not be transferred within six months after that corporation or that trust has acquired the Notes pursuant to an offer made under Section 275 of the SFA except:

- (i) to an institutional investor or to a relevant person or to any person arising from an offer referred to in Section 275(1A) or Section 276(4)(i)(B) of the SFA; or
- (ii) where no consideration is or will be given for the transfer; or
- (iii) where the transfer is by operation of law; or
- (iv) as specified in Section 276(7) of the SFA; or
- (v) as specified in Regulation 37A of the Securities and Futures (Offers of Investments) (Securities and Securities-based Derivatives Contracts) Regulations 2018.

Singapore SFA Product Classification: In connection with Section 309B of the SFA and the CAMP Regulations 2018, unless otherwise specified before an offer of Notes, the Issuer has determined, and hereby notifies all relevant persons (as defined in Section 309A(1) of the SFA), that the Notes are ‘prescribed capital markets products’ (as defined in the CAMP Regulations 2018) and Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

Hong Kong

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree that:

- (a) it has not offered or sold and will not offer or sell in the Hong Kong Special Administrative Region of the People’s Republic of China (**Hong Kong**), by means of any document, any Notes other than:
 - (i) to “professional investors” as defined in the Securities and Futures Ordinance (Cap. 571) of Hong Kong (the **SFO**) and any rules made under the SFO; or
 - (ii) in other circumstances which do not result in the document being a “prospectus” as defined in the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32) of Hong Kong (the **C(WUMPO)**) or which do not constitute an offer to the public within the meaning of the C(WUMPO); and
- (b) it has not issued nor had in its possession for the purposes of issue and will not issue or have in its possession for the purposes of issue whether in Hong Kong or elsewhere, any advertisement, invitation or document relating to the Notes, which is directed at, or the contents of which are likely to be accessed or read by, the public of Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to Notes which are or are intended to be disposed of only to persons outside Hong Kong or only to “professional investors” as defined in the SFO and any rules made under the SFO.

Japan

The Notes have not been and will not be registered under the Financial Instruments and Exchange Act of Japan (Act No. 25 of 1948, as amended; the **FIEA**). Accordingly each Dealer represents and agrees that it has not, directly or indirectly, offered or sold and will not, directly or indirectly, offer or sell any Notes, in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organized under the laws of Japan) or to others for re-offering or re-sale, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the FIEA and other relevant laws and regulations of Japan.

General

Each Dealer has represented, warranted and undertaken and each further Dealer appointed under the Programme will be required to represent, warrant and undertake that it will (to the best of its knowledge and belief) comply with all applicable securities laws and regulations in force in any jurisdiction in which it purchases, offers, sells or delivers Notes or possesses or distributes this Offering Circular and will obtain any consent, approval or permission required by it for the purchase, offer, sale or delivery by it of Notes under the laws and regulations in force in any jurisdiction to which it is subject or in which it makes such purchases, offers, sales or deliveries and neither we, the Principal Paying Agent nor the Dealers shall have any responsibility therefor.

None of the Issuer, the Principal Paying Agent, the Arrangers and the Dealers represents that Notes may at any time lawfully be sold in compliance with any applicable registration or other requirements in any jurisdiction, or pursuant to any exemption available thereunder, or assumes any responsibility for facilitating such sale.

With regard to each Tranche, the relevant Dealer will be required to comply with such other restrictions as we and the relevant Dealer shall agree and as shall be set out in the applicable Pricing Supplement.

Other Relationships

Each Dealer and its affiliates are full service financial institutions engaged in various activities which may include securities trading, commercial and investment banking, financial advice, investment management, principal investment, hedging, financing and brokerage activities. Each Dealer may have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with the Issuer or its subsidiaries, jointly controlled entities or associated companies from time to time. In the ordinary course of their various business activities, each Dealer and its affiliates may make or hold (on their own account, on behalf of clients or in their capacity as investment advisers) a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments and enter into other transactions, including credit derivatives (such as asset swaps, repackaging and credit default swaps) in relation thereto. Such transactions, investments and securities activities may involve securities and instruments of the Issuer or its subsidiaries, jointly controlled entities or associated companies, including Notes issued under the Programme, may be entered into at the same time or proximate to offers and sales of Notes or at other times in the secondary market and be carried out with counterparties that are also purchasers, holders or sellers of Notes. Notes issued under the Programme may be purchased by or be allocated to any Dealer or an affiliate for asset management and/or proprietary purposes but not with a view to distribution.

Broker-dealer Affiliates

If a jurisdiction requires that such offering be made by a licensed broker or dealer and an Arranger or a Dealer or any affiliate of it is a licensed broker or dealer in that jurisdiction, such offering shall be deemed to be made by it or such affiliate on behalf of us in such jurisdiction.

SUMMARY OF SIGNIFICANT DIFFERENCES BETWEEN IFRS AND IND-AS

The Issuer's annual financial statements included in this Offering Circular have been prepared in accordance with accounting policies followed by the Issuer which conform to Ind-AS as applicable to the Issuer. This Offering Circular also includes unaudited but reviewed non-consolidated financial results of the Company which conform to Ind-AS. Ind-AS differs in certain significant respects from IFRS. Such differences involve methods for measuring amounts in the financial statements as well as in disclosures.

The following table summarizes certain general differences between IFRS, and IND-AS that could have a significant impact on the financial position and operations of the Issuer if its financial statements were prepared under IFRS. The summary below should not be considered exhaustive and no attempt has been made to identify possible future differences among Ind-AS and IFRS as a result of prescribed changes in accounting standards nor to identify future differences that may affect the Issuer's financial statements as a result of transactions or events that may occur in the future. No attempt has been made by the Issuer to quantify the effects of those differences, nor has a reconciliation of Ind-AS to IFRS been undertaken by the Issuer. Had any such quantification or reconciliation been undertaken, other potential significant accounting and disclosure differences may have come to its attention, which are not identified below.

Prospective investors should consult their own professional advisers for an understanding of the principal differences between IFRS and Ind-AS and how these differences might affect the financial statements of the Issuer presented in this Offering Circular.

Summary of Certain Differences

<u>Topic</u>	<u>IFRS</u>	<u>Ind-AS</u>
Presentation of Financial Statements — Components of financial statements	The requirements for the presentation of financial statements, and the guidelines for their structure and content are set out in IAS 1. A complete set of financial statements under IFRS comprises: (a) a statement of financial position; (b) a statement of profit or loss and other comprehensive income (presented as a single statement or by presenting the profit and loss section in a separate statement of profit or loss, immediately followed by a statement presenting comprehensive income beginning with profit or loss); (c) statement of cash flow; (d) statement of changes in equity; and (e) notes comprising a summary of significant accounting policies and explanatory notes.	Similar to IFRS. Further, Schedule III, Division III, to the Companies Act, 2013 sets out the minimum requirements for the presentation of financial statements for a Non-Banking Financial Company which are required to be modified to meet any additional minimum requirements specified in Ind-AS 1. Disclosure requirements specified in Division III to Schedule III are in addition to and not in substitution of the disclosure requirements specified in Ind-AS.
Presentation of Financial Statements — Balance sheet/statement of financial position	An entity is required to present current and non-current assets, and current and non-current liabilities, as separate classifications on the cover of the statement of financial position except when a presentation based on liquidity provides information that is more reliable and more relevant. Minimum	Similar to IFRS, except presentation of assets & liabilities as current and non-current. Minimum line item requirements are set out in Division III to Schedule III to the Companies Act, 2013.

	line item requirements are set out in IAS 1.	
Presentation of Financial Statements — Presentation of income statement	An analysis of expenses is presented using a classification based on either the nature of those expenses or their function or by whichever method that provides information that is reliable and more relevant. If presented by function, specific disclosures by nature are provided in the notes. Profit or loss attributable to non-controlling interests and equity holders of the parent are disclosed in the statement of comprehensive income/income statement (if presented separately) as allocations of profit or loss for the period.	Similar to IFRS except that entities should present an analysis of expenses recognized in profit or loss using a classification based only on the nature of the expense.
Cash Flow Statement — Interest and dividend	Interest paid and interest and dividends received are usually classified as operating cash flows for a financial institution. However, for other entities may be classified as operating, investing or financing activities in a manner consistent from period to period.	Interest paid and interest and dividends received in the case of a financial institution should be classified as cash flows arising from operating activities. For other entities, cash flows arising from interest paid should be classified as cash flows from financing activities while interest and dividends received should be classified as cash flows from investing activities.
Employee benefits — Discount rate	Market yields at the date of the statement of financial position on high-quality corporate bonds are used as discount rates. In countries where there are no deep markets for such bonds, market yields on government bonds are used.	The rate used to discount shall be determined by reference to market yields at the end of the reporting period on government bonds.
Investments in Associates and Joint Ventures — Capital Reserve/Negative Goodwill	Any excess of the entity's share of the net fair value of the investee's identifiable assets and liabilities over the cost of the investment is included as income in the determination of the entity's share of the associate or joint venture's profit or loss in the period in which the investment is acquired.	Any excess of the entity's share of the net fair value of the investee's identifiable assets and liabilities over the cost of the investment is recognized directly in equity as capital reserve in the period in which the investment is acquired.
Business combinations — scope	IFRS 3 applies to a transaction or other event in which an acquirer obtains control of one or more businesses. IFRS 3 does not apply to: <ul style="list-style-type: none"> (i) The formation of a joint arrangement in the financial statements of the joint arrangement itself. 	Similar to IFRS except that Ind-AS 103 contains guidance on common control transactions.

	(ii) Combinations of entities or business under common control.	
	(iii) Acquisition of an asset or group of assets that do not constitute a business.	
Business combinations — acquisition date	The date on which the acquirer obtains control of the acquired entity is the acquisition date.	<p>Similar to IFRS.</p> <p>Relevant extract to MCA Circular dated August 21, 2019</p> <p>Para 5 Section 232(6) of the Act states that the scheme shall be deemed to be effective from the ‘appointed date’ and not a date subsequent to the ‘appointed date’. This is an enabling provision to allow the companies to decide and agree upon an ‘appointed date’ from which the scheme shall come into force.</p> <p>Para 6 In view of para 5, it is hereby clarified that:</p> <p>8. The provision of section 232(6) of the Act enables the companies in question to choose and state in the scheme an ‘appointed date’. This date may be a specific calendar date or may be tied to the occurrence of an event such as grant of license by a competent authority or fulfilment of any preconditions agreed upon by the parties, or meeting any other requirement as agreed upon between the parties, etc. which are relevant to the scheme.</p> <p>9. The ‘appointed date’ identified under the scheme shall also be deemed to be the ‘acquisition date’ and date of transfer of control for the purpose of conforming to accounting standards (including Ind-AS 103).</p> <p>Assessment: MCA circular mentions that the appointed date as per the scheme shall be the acquisition date under Ind-AS 103.</p>

Business combinations — combination of entities under common control

IFRS 3 does not apply to combination of entities or businesses under common control.

Ind-AS 103 includes accounting for combination of entities or businesses under common control.

Common control business combinations will include transactions, such as transfer of subsidiaries or businesses, between entities within a group. Business combinations involving entities or businesses under common control should be accounted for using the pooling of interests method. This involves the following:

- The assets and liabilities of the combining entities are reflected at their carrying amounts.
- No adjustments are made to reflect fair values, or recognize any new assets or liabilities. The only adjustments that are made are to harmonize accounting policies.
- The financial information in the financial statements in respect of prior periods should be restated as if the business combination had occurred from the beginning of the preceding period in the financial statements, irrespective of the actual date of the combination. However, if business combination had occurred after that date, the prior period information should be restated only from that date.
- The balance of the retained earnings appearing in the financial statements of the transferor is aggregated with the corresponding balance appearing in the financial statements of the transferee. Alternatively, it is transferred to General reserve, if any.
- The identity of the reserves should be preserved and should appear in the financial statements of the transferee in

the same form in which they appeared in the financial statements of the transferor.

- Difference, if any, between the amount recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor should be transferred to capital reserve and should be presented separately from other capital reserves with disclosure of its nature and purpose in the notes.

First Time Adoption

Previous GAAP

IFRS 1 defines previous GAAP as the basis of accounting that a first-time adopter used immediately before adopting IFRS.

Ind-AS 101 defines previous GAAP as the basis of accounting that a first-time adopter used for its reporting requirement in India immediately before adopting Ind-AS.

Treatment of Changes in Retained Earnings

The first-time adopter shall account for the resulting change in the retained earnings as at the transition date except in specific instances to make adjustment with goodwill.

The first-time adopter shall account for the resulting change in the retained earnings as at the transition date except in certain specific instances where it requires adjustment in goodwill. In such specific instances, Ind-AS allowed adjustment to be made with capital reserve to the extent such adjustment amount does not exceed the balance available in capital reserve.

Exemptions

Several exemptions exists. An entity may elect to measure an item of property, plant and equipment at the date of transition to IFRSs at its fair value and use that fair value as its deemed cost at that date.

Also, an entity may elect to use a previous GAAP revaluation of an item of property, plant and equipment at, or before, the date of transition to IFRSs as deemed cost at the date of the revaluation, if the revaluation was, at the date of the revaluation, broadly comparable to:

- fair value; or
- cost or depreciated cost in accordance with IFRSs, adjusted to

Similar to IFRS and Ind-AS offers certain other exemptions as follows:

10. Ind-AS 101 provides certain optional exemptions relating to the long-term foreign currency monetary items and service concession arrangements relating to toll roads. An entity may continue the policy adopted for accounting for exchange differences arising from the translation of long-term foreign currency monetary items recognized in the financial statements for the period ending immediately after the beginning of the first

reflect, for example, changes in a general or specific price index.

Ind-AS financial reporting period as per previous GAAP.

11. Paragraph D7AA provides the option to use carrying values of all of its property, plant and equipment as at the date of transition to Ind-AS, measured as per previous GAAP and to use them at its deemed cost as at the date of transition.

Presentation of Financial Statements — Classification of Financial Liabilities upon breach of covenants.

When an entity breaches a provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand, it classifies the liability as current, even if the lender agreed, after the reporting period and before the authorization of the financial statements for issue, not to demand payment as a consequence of the breach. However, the liability can be classified as non-current if the lender has agreed before the end of the reporting period to provide a grace period of minimum 12 months after the reporting period within which the breach can be rectified and the lender cannot demand immediate repayment.

Where there is a breach of a material provision of a long-term arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, if the lender has agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach, the loan will not be classified as current.

GENERAL INFORMATION

Authorization

1. The update of the Programme and the issue of Notes thereunder have been duly authorized by resolutions of our Board dated March 10, 2021. The borrowing limits have been duly authorized by the resolution of our shareholders dated September 25, 2020.

RBI approvals

2. In-principle approval has been granted by the RBI for the raising of ECB of up to U.S.\$2,000,000,000 by us through its letter dated October 9, 2020 and e-mail dated March 30, 2021. We are required to seek final approval of the RBI prior to the issuance of any Notes under the Programme in accordance with the ECB Guidelines.

Listing

3. Application has been made to the SGX-ST for permission to deal in and quotation for any Notes that may be issued pursuant to the Programme and which are agreed at or prior to the time of issue thereof to be so listed on the SGX-ST. Such permission will be granted when such Notes have been admitted to the Official List.

The SGX-ST assumes no responsibility for the correctness of any of the statements made or opinions expressed or reports contained herein. Admission to the Official List and quotation of any Notes on the SGX-ST are not to be taken as an indication of the merits of our Company, our subsidiaries, our associated companies, the Programme or such Notes.

Notes issued under the Programme will be traded on the SGX-ST in a minimum board lot size of SGD 200,000 (or its equivalent in other currencies) for so long as the Notes are listed on the SGX-ST and the rules of the SGX-ST so require.

So long as the Notes are listed on the SGX-ST and the rules of the SGX-ST so require, we shall appoint and maintain a paying agent in Singapore, where the Notes may be presented or surrendered for payment or redemption, in the event that a Global Note is exchanged for definitive Notes. In addition, in the event that the a Global Note is exchanged for definitive Notes, an announcement of such exchange shall be made by or on behalf of the Issuer through the SGX-ST and such announcement will include all material information with respect to the delivery of the definitive Notes, including details of the paying agent in Singapore.

4. Application has been made to the London Stock Exchange for the listing and quotation on the ISM of Notes that may be issued pursuant to the Programme and which are agreed at or prior to the time of issue thereof to be listed on the ISM. Notes so admitted to trading on the ISM are

not admitted to the Official List of the UKLA. The London Stock Exchange has not approved or verified the contents of this Offering Circular.

5. Application has been made to the India INX for the trading on the India INX of the Notes that may be issued pursuant to the Programme. The listing of the Notes is in compliance with the SEBI (IFSC) Guidelines, 2015, as amended from time to time.
6. Application has been made to the NSE IFSC for the trading on the NSE IFSC of the Notes that may be issued pursuant to the Programme. The listing of the Notes is in compliance with the SEBI (IFSC) Guidelines, 2015, as amended from time to time.

Clearing systems

7. The Notes to be issued under the Programme have been accepted for clearance through Euroclear and Clearstream Luxembourg. The appropriate common code and ISIN for each Tranche of Notes allocated by Euroclear and Clearstream, Luxembourg will be specified in the applicable Pricing Supplement. In addition, the Issuer may make an application for each series of Registered Notes intended to be eligible for sale pursuant to Rule 144A of such Notes to be accepted for trading in book-entry form by DTC. The CUSIP and/or CINS numbers for each Tranche of Registered Notes, together with the relevant ISIN and common code, will be specified in the applicable Pricing Supplement. If the Notes are to clear through an additional or alternative clearing system, the appropriate information will be specified in the applicable Pricing Supplement.

No significant change

8. Save as disclosed in this Offering Circular, there has been no significant or material adverse change in the financial or trading position of our Company since December 31, 2020.

Litigation

9. We are not involved in any legal or arbitration proceedings (including any proceedings which are pending or threatened of which we are aware) which may have or have had in the 12 months preceding the date of this document a significant effect on our financial position.

Accounts

10. The auditors of our Company in respect of the unaudited but reviewed non-consolidated and consolidated financial statements for the nine months ended December 31, 2020 were as follows:

- S.K. Mittal & Co.
- O.P. Bagla & Co. LLP

The auditors of our Company in respect of the audited non-consolidated and consolidated financial statements for the year ended March 31, 2020 were as follows:

- S.K. Mittal & Co.
- O.P. Bagla & Co. LLP

The auditors of our Company in respect of the audited non-consolidated and consolidated financial statements for the year ended March 31, 2019 were as follows:

- G. S. Mathur & Co.
- A.R. & Co.

Such auditors have audited or reviewed (as the case may be) our financial statements, without qualification, in accordance with generally accepted auditing standards in India.

Documents Available

11. So long as Notes are capable of being issued under the Programme, copies of the following documents will, when published, be available from our corporate office and from the specified office of the Paying Agent in London:
 - (a) our audited consolidated financial statements in respect of the financial years ended March 31, 2019 and 2020;
 - (b) our unaudited but reviewed financial statements for the nine months ended December 31, 2020;
 - (c) the Agency Agreement and the forms of the Global Notes, the Notes in definitive form, the Receipts, the Coupons and the Talons;
 - (d) a copy of this Offering Circular;
 - (e) any future offering circulars, prospectuses, information memoranda and supplements, including Pricing Supplements (save that a Pricing Supplement relating to an unlisted Note will only be available for inspection by a holder of such Note and such holder must produce evidence satisfactory to us and or the Principal Paying Agent as to its holding of Notes and identity) to this Offering Circular and any other documents incorporated herein or therein by reference; and
 - (f) in the case of each issue of listed Notes subscribed pursuant to a subscription agreement, the subscription agreement (or equivalent document).

**INDEPENDENT AUDITOR'S REVIEW REPORT ON THE STANDALONE UNAUDITED
FINANCIAL RESULTS FOR THE QUARTER AND NINE MONTHS ENDED 31ST
DECEMBER 2020**

The Board of Directors,
REC Limited
Core-4, SCOPE Complex,
7, Lodi Road,
New Delhi – 110003

1. We have reviewed the accompanying statement of standalone unaudited financial results (including annexed Standalone Balance Sheet as on 31st December 2020, Statement of Profit & Loss (including Other Comprehensive Income), Statement of Changes in Equity and Statement of Cash Flows for the period ended as on that date and summarised Notes to Accounts, including Significant Accounting Policies) of **REC Limited** ("the Company") for the quarter and nine months ended 31st December 2020 ("the Statement") being submitted by the Company pursuant to the requirement of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended.
2. This statement, which is the responsibility of the Company's Management and approved by the Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in the Indian Accounting Standard 34 'Interim Financial Reporting', prescribed under section 133 of the Companies Act, 2013, as amended ("the Act") read with relevant rules issued thereunder and other accounting principles generally accepted in India. Our responsibility is to issue a report on these financial statements based on our review.
3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. We have not performed an audit and accordingly, we do not express an audit opinion.

4. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying statement of unaudited financial results, prepared in accordance with recognition and measurement principles laid down in the Indian Accounting Standards specified under Section 133 of the Act, as amended, read with relevant rules issued there under and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in terms of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended, including the manner in which it is to be disclosed, or that it contains any material misstatement.

Other Matters

5. Refer Note No. 3 to the Statement regarding the provision of impairment allowance in respect of loan assets and undisbursed Letters of Comfort based on the Board approved Expected Credit Loss (ECL) methodology and calculation done by an independent agency. We have relied upon the basis of determination of impairment allowance as mentioned above, in so far as it relates to technical aspects/parameters considered by independent agency.
6. Refer Note No. 9 of the financial results regarding the impact of COVID-19 pandemic on the Company. Management is of the view that there are no reasons to believe that the pandemic will have any significant impact on the ability of the company to continue as a going concern.

Our opinion on the Statement is not modified in respect of above matters.

**INDEPENDENT AUDITOR'S REVIEW REPORT ON THE CONSOLIDATED UNAUDITED
FINANCIAL RESULTS FOR THE QUARTER AND NINE MONTHS ENDED 31ST
DECEMBER 2020**

The Board of Directors,
REC Limited
Core-IV, SCOPE Complex,
7, Lodi Road,
New Delhi – 110003

1. We have reviewed the accompanying Statement of Consolidated Unaudited Financial Results (including annexed Standalone Balance Sheet as on 31st December 2020, Statement of Profit & Loss (including Other Comprehensive Income), Statement of Changes in Equity and Statement of Cash Flows for the period ended as on that date and summarised Notes to Accounts, including Significant Accounting Policies) of REC Limited ("the Parent") and its subsidiaries (the Parent and its subsidiaries together referred to as "the Group"), and its share of the net profit after tax and total comprehensive income of its joint venture for the quarter and nine months ended 31st December 2020 ("the Statement"), being submitted by the Parent pursuant to the requirement of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended.
2. This Statement, which is the responsibility of the Parent's Management and approved by the Parent's Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34 "Interim Financial Reporting" ("Ind AS 34"), prescribed under Section 133 of the Companies Act, 2013, and other accounting principles generally accepted in India. Our responsibility is to express a conclusion on the Statement based on our review.
3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", issued by the Institute of Chartered Accountants of India. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
4. We also performed procedures in accordance with the circular issued by the SEBI under Regulation 33 (8) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended, to the extent applicable.

5. The Statement includes the results of the following entities:

List of Subsidiaries:

- i) REC Power Distribution Company Limited
- ii) REC Transmission Projects Company Limited

List of Joint Venture:

- i) Energy Efficiency Services Limited, using equity method

6. Based on our review conducted and procedures performed as stated in paragraph 3 above and based on the consideration of the review reports other auditors referred to in paragraph 7 below, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with the Indian Accounting Standards as specified under Section 133 of the Act, as amended, read with relevant rules issued there under and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in terms of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended, including the manner in which it is to be disclosed, or that it contains any material misstatement.

Other Matters

7. We did not review the interim financial results of two subsidiaries included in the consolidated unaudited financial results, whose interim financial results reflect total assets of ₹ 542.48 crores as at 31st December 2020 and total revenue of ₹ 44.71 crores and ₹ 114.65 crores, total net profit after tax of ₹ 5.97 crores and ₹ 21.86 crores and total comprehensive income of ₹ 5.97 crores and ₹ 21.86 crores for the quarter and nine months ended 31st December 2020 respectively, as considered in the consolidated unaudited financial results. These interim financial results have been reviewed by other auditors whose reports have been furnished to us by the Management and our conclusion on the Statement, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries is based solely on the reports of the other auditors and the procedures performed by us as stated in paragraph 3 above.
8. The consolidated unaudited financial results also include the Group's share of net profit after tax of ₹ -10.94 crores and ₹ -6.42 crores, total comprehensive income of ₹ -10.94 crores and ₹ -5.13 crores for the quarter and nine months ended 31st December 2020 respectively, as considered in the consolidated unaudited financial results, in respect of one joint venture based on their interim financial information which have not been reviewed/audited by their auditors. These interim financial results/ information are certified by the Management. According to the information and explanations given to us by the Management, these interim financial information are not material to the Group.
9. Refer Note No. 3 to the Statement regarding the provision of impairment allowance in respect of loan assets and undisbursed Letters of Comfort based on the Board approved Expected Credit Loss (ECL) methodology and calculation done by an independent agency.

We have relied upon the basis of determination of impairment allowance as mentioned above, in so far as it relates to technical aspects/parameters considered by independent agency.

10. Refer Note No. 9 of the financial results regarding the impact of COVID-19 pandemic on the Company. Management is of the view that there are no reasons to believe that the pandemic will have any significant impact on the ability of the company to continue as a going concern.

Our opinion on the Statement is not modified in respect of the above matters.

See accompanying notes to the financial results.

Notes:

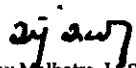

- The above financial results of the Company were reviewed by the Audit Committee and approved and taken on record by the Board of Directors at the meetings held on 4th February, 2021. These results have been subjected to limited review by the Statutory Auditors of the Company.
- The accounts of the subsidiary companies, REC Power Distribution Company Limited (standalone) and REC Transmission Projects Company Limited (consolidated) subjected to the limited review and unaudited standalone accounts of joint venture (Energy Efficiency Services Limited) have been consolidated in accordance with the Indian Accounting Standard 110 'Consolidated Financial Statements', Indian Accounting Standard 111 'Joint Arrangements' and Indian Accounting Standard 28 'Investments in Associates and Joint Ventures'.
- Provisioning on loan assets is provided as per the board-approved ECL methodology and calculations done by an independent agency along with management overlays, wherever necessary. Details of impairment loss allowance maintained in respect of loan assets are as under:

S. No.	Particulars	As at 31.12.2020			As at 31.03.2020		
		Stage 1 & 2	Stage 3	Total	Stage 1 & 2	Stage 3	Total
		1.	Loan assets	3,38,846.44	18,220.62	3,57,067.06	3,01,169.13
2.	Impairment loss allowance (net of movements)	1,284.30	11,274.00	12,558.30	1,443.91	10,552.13	11,996.04
	Provisioning Coverage (%) (2/1)	0.38%	61.87%	3.52%	0.48%	49.64%	3.72%

Additionally, the Company has also maintained an Impairment Reserve of ₹ 793.29 crores in accordance with RBI Notification No. DOR (NBFC).CC.PD.No.109/22.10.106/2019-20 dated 13th March 2020.

- Interest income on credit-impaired loan assets is not being recognised as a matter of prudence, pending the outcome of resolutions of such assets.
- During the quarter, the Company has implemented restructuring plan of one of the borrowers with an outstanding loan amount of Rs. 2,301.99 crores. According to the restructuring agreement, the outstanding loan has been converted into a fresh term loan of 1,396.55 crores along with allotment of equity/ debt instruments and balance amount of Rs. 905.44 crores has been written off with the reversal of the corresponding provision thereof.
- The Company's main business is to provide finance to power sector. Accordingly, the company does not have more than one segment eligible for reporting in terms of Indian Accounting Standard (Ind AS) 108 'Operating Segments'.
- The Company raises funds in different currencies through a mix of term loans from banks/ financial institutions/ Govt. agencies and bonds of different tenors through private placement of debt securities. The amounts raised during the period have been utilized for the stated objects in the offer document/ information memorandum. Further, there has been no default as on 31st December, 2020 in the repayment of debt securities, borrowings and subordinated liabilities and the Company has met all its debt servicing obligations, whether principal or interest, during the period.
- Disclosures in respect of Liquidity Risk Management in accordance with RBI Guidelines dated 4th November 2019 are annexed at **Annexure-A**.
- The Covid-19 situation has been under close watch by the Company to take prompt actions for continuity of business operations in an optimised manner. An update on the impact of Covid-19 outbreak on the business operations of the Company is annexed as **Annexure-B**.
- For all the secured bonds issued by the Company and outstanding as at 31st December 2020, 100% security cover has been maintained by way of mortgage on certain immovable properties and/ or charge on the receivables of the Company.
- The Balance Sheet, Statement of Profit & Loss, Statement of Changes in Equity (SOCIE), Statement of Cash Flows and summarised Notes to Accounts, including Significant Accounting Policies on Standalone basis and Consolidated basis for the period ended 31st December 2020 have been annexed herewith this statement as **Annexure-C** and **Annexure-D** respectively.
- Previous period/ years' figures have been regrouped/ reclassified, wherever necessary, in order to make them comparable.

* Significant counterparty/ significant instrument/ product is defined as a single counterparty/ single instrument/ product or group of connected or affiliated counterparties accounting in aggregate to more than 1% of the company's total liabilities.

(iv) **Liquidity Coverage Ratio Disclosure**

RBI vide its Liquidity Framework dated 04 Nov, 2019 has stipulated the implementation of Liquidity Coverage Ratio (LCR) for Non-Deposit taking NBFCs with asset size of more than Rs. 10000 Crore w.e.f 01 Dec, 2020. LCR aims to ensure that Company has an adequate stock of unencumbered High-Quality Liquid Assets (HQLA) that can be converted into cash easily and immediately to meet its liquidity needs for a 30 calendar day liquidity stress scenario. Accordingly REC Limited has started computing and making investments in High Quality Liquid Assets under LCR Regime of the regulator.

Company is maintaining the LCR at 50% level as per RBI Guidelines under different class of HQLAs such as Govt.-Securities/SDRs/AAA/AA Corporate and auto swap balances with banks. Also, the management is of the view that the Company has sufficient liquidity cover to meet its likely future short-term requirements.

Liquidity Coverage Ratio Disclosure for the period ended 31.12.2020

(₹ in Crores)

Particulars	Total Unweighted Value (average)*	Total Weighted Value (average)*

* For average, the observations as on 01.12.2020 (i.e implementation date) and 31.12.2020 (quarter closing date) has been considered.

Impact of Covid-19 Pandemic on the Company

Post the lockdown period, the improvement in electricity consumption and generation reflects expansion in economic activity. The Company continues to leverage digital technology for review & monitoring, information-sharing and knowledge management to continue the business operations without any significant disruptions.

Liquidity Buffers with the Company

The Company has not experienced any significant impact on its liquidity position due to the access to diversified sources of borrowings. The Company has available limits of more than Rs. 7,000 crores towards Working Capital/ Term Loans from various banks apart from High Quality Liquid Assets of more than Rs. 1,000 crores as on 31 January 2021.

Covid-19 Relief Package for the Power Sector

The Govt. of India, as a part of its Covid-19 relief package, had announced liquidity injection to the State Discoms in the form of State Govt. guaranteed loans through REC and PFC (Power Finance Corporation Ltd.) to clear the outstanding dues of Power Generation and Transmission Companies. As at 27 January 2021, the Company has sanctioned and disbursed a sum of Rs. 65,932 crores and Rs. 24,204 crores respectively to the discoms as part of this liquidity package.

Considering the resurgence in the business and commercial activity leading to increase in power demand and generation and other mitigating factors including REC's liquidity position and access to diverse sources of funds, there are no reasons to believe that the current crisis will have any significant impact on the Company's ability to maintain its operations, including the going concern assessment. However, the impact will continue to be dependent on future developments, which are uncertain, including, among other things, any new information concerning the severity or new variants of the Covid-19 virus and any further action by the Govt. or the Company to contain its spread or mitigate its impact.

REC Limited

Registered Office - Core-4, SCOPE Complex, 7, Lodhi Road, New Delhi – 110003

CIN: L40101DL1969GOI005095

Notes to Accounts

1. Company Overview

REC Limited ("REC" or the "Company") was incorporated in the year 1969. The Company is domiciled in India and is limited by shares, having its registered office and principal place of business at Core-4, SCOPE Complex, 7, Lodhi Road, New Delhi-110003, India. The Company has 22 State offices spread across the country, mainly in the State Capitals and one training center at Hyderabad.

The Company is a Government Company engaged in extending financial assistance across the power sector value chain and is a Systemically Important (Non-Deposit Accepting or Holding) Non-Banking Finance Company (NBFC) registered with Reserve Bank of India (RBI) as an Infrastructure Finance Company (IFC).

REC is a leading public Infrastructure Finance Company in India and the principal products of REC are interest-bearing loans to State Electricity Boards, State Power utilities/State Power Departments and Private sector for all segments of Power infrastructure.

The shares of the Company are listed on National Stock Exchange of India Limited and BSE Limited.

2. Statement of Compliance and Basis of Preparation

These Standalone Financial Statements comply with Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended), applicable provisions of the Companies Act, 2013 and other applicable regulatory norms / guidelines.

The financial statements for the period ended 31st December 2020 were authorized and approved for issue by the Board of Directors on 4th February 2021.

These standalone financial statements have been prepared on going concern basis following accrual system of accounting and are in accordance with the Indian Accounting Standards (referred to as "Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended), applicable provisions of the Companies Act, 2013 and other applicable regulatory norms/ guidelines.

3. Significant Accounting Policies

The significant accounting policies applied in preparation of the financial statements are as given below:

3.1 Basis of Preparation and Measurement

The financial statements have been prepared on historical cost basis except for certain financial assets and financial liabilities which are measured at fair values as explained in relevant accounting policies. These policies have been applied consistently for all the periods presented in the financial statements.

Functional and presentation currency

The financial statements are presented in Indian Rupee ("INR") which is also the functional currency of the Company.

3.2 Income recognition

Interest income

Interest income is recognized on time proportion basis taking into account the amount outstanding and rate applicable.

Unless otherwise specified, the recoveries from the borrowers are appropriated in the order of (i) costs and expenses of REC (ii) delayed and penal interest including interest tax, if any (iii) overdue interest including interest tax, if any and (iv) repayment of principal; the oldest being adjusted first, except for credit impaired loans and recalled loans, where principal amount is appropriated only after the complete recovery of other costs, expenses, delayed and penal interest and overdue interest including interest tax, if any. The recovery under One Time Settlement (OTS)/ Insolvency and Bankruptcy Code (IBC) proceedings is appropriated first towards the principal outstanding and remaining recovery thereafter, towards interest and other charges, if any.

For all financial assets measured at amortized cost, interest income is recorded using the effective interest rate (EIR), i.e. the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial assets.

Interest on financial assets subsequently measured at fair value through profit and loss is recognized on an accrual basis in accordance with the terms of the respective contract and is disclosed separately under the head interest income.

Rebate on account of timely payment of interest by borrowers is recognized on receipt of entire interest amount due in time, in accordance with the terms of the respective contract and is netted against the corresponding interest income.

Income from Government schemes

Income of agency fee on Government schemes is recognized on accrual basis based on the services rendered.

Dividend income

Income from dividend on shares of corporate bodies and units of mutual funds is taken into account on accrual basis when REC's right to receive payment is established.

Provided that in case of final dividend, the right to receive payment shall be considered as established only upon approval of the dividend by the shareholders in the Annual General Meeting.

Dividend on financial assets subsequently measured at fair value through profit and loss is recognised separately under the head 'Dividend Income'.

Other services

Fees/ charges on loan assets, other than those considered an adjustment to EIR, are accounted for on accrual basis. Pre-payment premium is accounted for by the Company in the year of receipt.

3.3 Borrowing costs

Borrowing costs consist of interest and other costs that the Company incurred in connection with the borrowing of funds. Borrowing costs that are directly attributable to the acquisition and/ or construction of a qualifying asset, till the time such a qualifying asset becomes ready for its intended use sale, are

capitalized. A qualifying asset is one that necessarily takes a substantial period to get ready for its intended use.

All other borrowing costs are charged to the Statement of Profit and Loss on an accrual basis as per the effective interest rate method.

3.4 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period.

To calculate diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

3.5 Foreign Currency Translation

Foreign currency transactions and balances

Foreign currency transactions are translated into the functional currency of the Company using the exchange rates prevailing on the date of the transaction.

Foreign exchange gains and losses resulting from the settlement of such transactions and the re-measurement of monetary items denominated in foreign currency at period-end exchange rates are recognized in the Statement of Profit or Loss. However, for the long-term monetary items recognized in the financial statements before 1 April 2018, such gains and losses are accumulated in a "Foreign Currency Monetary Item Translation Difference Account" and amortized over the balance period of such long term monetary item, by recognition as income or expense in each of such periods.

Non-monetary items are not retranslated at period-end and are measured at historical cost (translated using the exchange rates at the transaction date).

3.6 Intangible assets

Recognition and initial measurement

Intangible assets mainly comprise of computer software which is initially measured at cost. Such assets are recognized where it is probable that the future economic benefits attributable to the assets will flow to the company.

Subsequent measurement (amortization method, useful lives and residual value)

All intangible assets with finite useful life are amortized on a straight line basis over the estimated useful lives, and a possible impairment is assessed if there is an indication that the intangible asset may be impaired. Residual values and useful lives for all intangible assets are reviewed at each reporting date. Changes, if any, are accounted for as changes in accounting estimates. Management estimates the useful life of intangible assets to be five years.

Intangible Assets under Development

Expenditure incurred which are eligible for capitalization under intangible assets is carried as 'Intangible assets under development' till they are ready for their intended use.

Derecognition of Intangible Assets

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognized in the Statement of Profit and Loss when the asset is derecognized.

3.7 Property, Plant and Equipment (PPE)

Recognition and initial measurement

Land

Land held for use is initially recognized at cost. For land, as no finite useful life can be determined, related carrying amounts are not depreciated.

Land also includes land treated as a Right of Use asset under lease agreement earlier classified as finance lease and is amortised over the lease term.

Other Tangible assets

PPE other than land is initially recognized at acquisition cost or construction cost, including any costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by the Company's management.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company beyond one year. Maintenance or servicing costs of PPE are recognized in the Statement of Profit and Loss as incurred.

Subsequent measurement (depreciation method, useful lives, residual value, and impairment)

PPE are subsequently measured at cost less accumulated depreciation and impairment losses. Depreciation on PPE is provided on the straight-line method over the useful life of the assets as prescribed under Part 'C' of Schedule II of the Companies Act, 2013.

Depreciation on assets purchased/sold during the year is charged for the full month if the asset is in use for more than 15 days, instead of charging the same on pro-rata basis from the date of purchase/sale. Depreciation on assets purchased during the year up to Rs. 5,000/- is provided @ 100%.

The residual values, useful lives, and method of depreciation are reviewed at the end of each financial year. PPE other than land is tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

De-recognition

An item of PPE and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of an item of PPE is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognized in the Statement of Profit and Loss.

Capital Work-in-Progress

The cost of PPE under construction at the reporting date is disclosed as 'Capital work-in-progress.' The cost comprises purchase price, borrowing cost, if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates

are deducted in arriving at the purchase price. Advances paid for the acquisition/ construction of PPE which are outstanding at the balance sheet date are classified under 'Capital Advances.'

3.8 Investment property

Investment properties are the assets which have undetermined future use. Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, the investment properties are stated at cost less accumulated depreciation. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company beyond one year. All other repair and maintenance costs are recognized in the Statement of Profit and Loss as incurred.

Subsequent measurement (depreciation and useful lives)

The Company only has land as an investment property, which is not depreciated.

De-recognition

An investment property is derecognized upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognized.

3.9 Financial Instruments

A Financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Initial recognition and measurement

Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted by transactions costs, except for those carried at fair value through profit or loss which are measured initially at fair value. Subsequent measurement of financial assets and financial liabilities is described below.

Classification and subsequent measurement of financial assets

For the purpose of subsequent measurement, financial assets are classified into the following categories upon initial recognition:

- Amortized cost
- Financial assets at fair value through profit or loss (FVTPL)
- Financial assets at fair value through other comprehensive income (FVOCI)
- Investments in equity shares of subsidiaries and joint ventures (carried at cost in accordance with Ind AS 27)

All financial assets except for those at FVTPL or equity instruments at FVOCI are subject to review for impairment at least at each reporting date to identify whether there is any objective evidence that a financial asset or a group of financial assets is impaired. Different criteria to determine impairment are applied to each category of financial assets, which are described below.

Amortized cost

A financial asset is measured at amortized cost using Effective Interest Rate (EIR) if both of the following conditions are met:

- a) the financial asset is held within a business model whose objective is to hold financial assets to collect contractual cash flows; and
- b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A loss allowance for expected credit losses is recognized on financial assets carried at amortized cost.

Modification of cash flows

When the contractual cash flows of a financial asset are renegotiated or otherwise modified, and the renegotiation or modification does not result in derecognition of that financial asset, the Company recalculates the gross carrying amount of the financial asset and recognizes a modification gain or loss in profit or loss. The gross carrying amount of the financial asset shall be recalculated as the present value of the renegotiated or modified contractual cash flows that are discounted at the financial asset's original effective interest rate. Any costs or fees incurred adjust the carrying amount of the modified financial asset and are amortized over the remaining term of the modified financial asset.

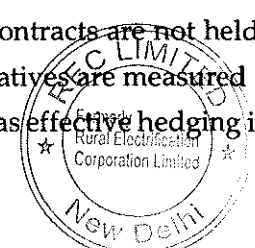

Financial assets at FVTPL

Financial assets at FVTPL include financial assets that are either do not meet the criteria for amortized cost classification or are equity instruments held for trading or that meet certain conditions and are designated at FVTPL upon initial recognition. All derivative financial instruments also fall into this category, except for those designated and effective as hedging instruments, for which the hedge accounting requirements may apply. Assets in this category are measured at fair value with gains or losses recognized in profit or loss. The fair values of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

Embedded derivatives

An embedded derivative is a component of a hybrid instrument that also includes a non-derivative host contract with the effect that some of the cash flows of the combined instrument vary in a way similar to a stand-alone derivative. An embedded derivative causes some or all of the cash flows that otherwise would be required by the contract to be modified according to a specified interest rate, foreign exchange rate, or other variable, provided that, in the case of a non-financial variable, it is not specific to a party to the contract.

Derivatives embedded in all host contracts are accounted for as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contracts or if the embedded derivative feature leverages the exposure and the host contracts are not held for trading or designated at fair value through profit or loss. These embedded derivatives are measured at fair value with changes in fair value recognised in profit or loss, unless designated as effective hedging instruments.

Financial assets at FVOCI

FVOCI financial assets comprise of equity instruments measured at fair value. An equity investment classified as FVOCI is initially measured at fair value plus transaction costs. Gains and losses are recognized in other comprehensive income and reported within the FVOCI reserve within equity, except for dividend income, which is recognized in profit or loss. There is no recycling of such gains and losses from OCI to Statement of Profit & Loss, even on the derecognition of the investment. However, the Company may transfer the same within equity.

De-recognition of financial assets

De-recognition of financial assets due to a substantial modification of terms and conditions

The Company derecognizes a financial asset, such as a loan to a customer, when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new loan, with the difference recognized as a derecognition gain or loss, to the extent that an impairment loss has not already been recorded.

De-recognition of financial assets other than due to substantial modification

Financial assets (or where applicable, a part of financial asset or part of a group of similar financial assets) are derecognized (i.e. removed from the Company's balance sheet) when the contractual rights to receive the cash flows from the financial asset have expired, or when the financial asset and substantially all the risks and rewards are transferred. The Company also derecognizes the financial asset if it has both transferred the financial asset and the transfer qualifies for derecognition.

Classification and subsequent measurement of financial liabilities

Financial liabilities are measured subsequently at amortized cost using the effective interest method, except for financial liabilities held for trading or designated at FVTPL, that are carried subsequently at fair value with gains or losses recognized in profit or loss. All host contracts which are in nature of a financial liability and separated from embedded derivative are measured at amortised cost using the effective interest method.

Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or canceled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

Hedge accounting

To qualify for hedge accounting, the hedging relationship must meet all of the following requirements:

- there is an economic relationship between the hedged item and the hedging instrument
- the effect of credit risk does not dominate the value changes that result from that economic relationship
- the hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the Company actually hedges and the quantity of the hedging instrument that the Company actually uses to hedge that quantity of hedged item.

All derivative financial instruments designated under hedge accounting are recognised initially at fair value and reported subsequently at fair value at each reporting date. To the extent that the hedge is effective, changes in the fair value of derivatives designated as hedging instruments in cash flow hedges are recognised in other comprehensive income and included within the cash flow hedge reserve in equity. Any ineffectiveness in the hedge relationship is recognised immediately in profit or loss.

At the time the hedged item affects profit or loss, any gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss and presented as a reclassification adjustment within other comprehensive income.

At the inception of each hedging relationship, the Company formally designates and documents the hedge relationship, in accordance with the Company's risk management objective and strategies. The documentation includes identification of the hedged item, hedging instrument, the nature of risk(s) being hedged, the hedge ratio and how the hedging relationship meets the hedging effectiveness requirements.

3.10 Impairment of financial assets

Loan assets

The Company follows a 'three-stage' model for impairment based on changes in credit quality since initial recognition as summarised below:

- Stage 1 includes loan assets that have not had a significant increase in credit risk since initial recognition or that have low credit risk at the reporting date.
- Stage 2 includes loan assets that have had a significant increase in credit risk since initial recognition but that do not have objective evidence of impairment.
- Stage 3 includes loan assets that have objective evidence of impairment at the reporting date.

The Expected Credit Loss (ECL) is measured at 12-month ECL for Stage 1 loan assets and lifetime ECL for Stage 2 and Stage 3 loan assets. ECL is the product of the Probability of Default, Exposure at Default and Loss Given Default, defined as follows:

Probability of Default (PD) - The PD represents the likelihood of the borrower defaulting on its obligation either over next 12 months or over the remaining lifetime of the instrument.

Loss Given Default (LGD) – LGD represents the Company's expectation of loss given that a default occurs. LGD is expressed in percentage and it shows the proportion of the amount that will actually be lost post recoveries in case of a default.

Exposure at Default (EAD) – EAD represents the amounts, including the principal outstanding, interest accrued and outstanding Letters of Comfort that the Company expects to be owed at the time of default.

Forward-looking economic information is included in determining the 12-month and lifetime PD, EAD and LGD. The assumptions underlying the expected credit loss are monitored and reviewed on an ongoing basis.

Financial assets other than Loans

In respect of its other financial assets, the Company assesses if the credit risk on those financial assets has increased significantly since initial recognition. If the credit risk has not increased significantly since

initial recognition, the Company measures the loss allowance at an amount equal to 12-month expected credit losses, else at an amount equal to the lifetime expected credit losses.

To make that assessment, the Company compares the risk of a default occurring on the financial asset as at the balance sheet date with the risk of a default occurring on the financial asset as at the date of initial recognition. The Company also considers reasonable and supportable information, that is available without undue cost or effort that is indicative of significant increases in credit risk since initial recognition. The Company assumes that the credit risk on a financial asset has not increased significantly since initial recognition if the financial asset is determined to have low credit risk at the balance sheet date.

Write-offs

Financial assets are written off either partially or in their entirety only when the Company has stopped pursuing the recovery.

3.11 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits, together with other short-term, highly liquid investments (original maturity less than three months) that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

3.12 Dividend

Proposed dividends and interim dividends payable to the shareholders are recognized as changes in equity in the period in which they are approved by the shareholders' meeting and the Board of Directors respectively.

3.13 Material prior period errors

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest period presented, the opening balances of assets, liabilities and equity for the earliest period presented, are restated.

3.14 Prepaid Expenses

A prepaid expense up to Rs. 1,00,000/- is recognized as expense upon initial recognition.

3.15 Taxation

Tax expense recognized in profit or loss comprises the sum of deferred tax and current tax. It is recognized in Statement of Profit and Loss, except when it relates to an item that is recognised in OCI or directly in equity, in which case, the tax is also recognised in OCI or directly in equity.

Current tax is determined as the tax payable in respect of taxable income for the year, using tax rates enacted or substantively enacted and as applicable at the reporting date, and any adjustments to tax payable in respect of previous years.

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable income. Deferred tax on temporary differences associated with investments in subsidiaries and joint ventures is not provided if reversal of these temporary differences can be controlled by the Company and it is probable that reversal will not occur in the foreseeable future.

Deferred tax assets and liabilities are calculated, without discounting, at tax rates that are expected to apply to their respective period of realization, provided those rates are enacted or substantively enacted by the end of the reporting period. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority.

Deferred tax liability is recognized for all taxable temporary differences. A deferred tax asset is recognized for all deductible temporary differences to the extent that it is probable that future taxable profits will be available against which the deductible temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Changes in deferred tax assets or liabilities are recognized as a component of tax income or expense in profit or loss, except where they relate to items that are recognized in other comprehensive income or directly in equity, in which case the related deferred tax is also recognized in other comprehensive income or equity, respectively.

Dividend Distribution Tax is recognized at the same time when the liability to pay a dividend is recognized.

3.16 Employee benefits

Short-term employee benefits

Short-term employee benefits including salaries, short term compensated absences (such as a paid annual leave) where the absences are expected to occur within twelve months after the end of the period in which the employees render the related service, profit sharing and bonuses payable within twelve months after the end of the period in which the employees render the related services and non-monetary benefits for current employees are estimated and measured on an undiscounted basis.

Post-employment benefit plans are classified into defined benefits plans and defined contribution plans as under:

Defined contribution plan

A defined contribution plan is a plan under which the Company pays fixed contributions in respect of the employees into a separate fund. The Company has no legal or constructive obligations to pay further contributions after its payment of the fixed contribution. The contributions made by the Company towards defined contribution plans are charged to the profit or loss in the period to which the contributions relate.

Defined benefit plan

The Company has an obligation towards gratuity, Post Retirement Medical Facility (PRMF) and Other Defined Retirement Benefit (ODRB) which are being considered as defined benefit plans covering eligible employees. Under the defined benefit plans, the amount that an employee will receive on retirement is defined by reference to the employee's length of service, final salary, and other defined parameters. The legal obligation for any benefits remains with the Company, even if plan assets for funding the defined benefit plan have been set aside.

The Company's obligation towards defined benefit plans is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. The liability recognized in the statement of financial position for defined benefit plans is the present value of the Defined Benefit Obligation (DBO) at the reporting date less the fair value of plan assets. Management estimates the DBO annually with the assistance of independent actuaries.

Actuarial gains/losses resulting from re-measurements of the liability/asset are included in Other Comprehensive Income.

Other long-term employee benefits:

Liability in respect of compensated absences becoming due or expected to be availed more than one-year after the balance sheet date is estimated on the basis of actuarial valuation performed by an independent actuary using the projected unit credit method.

Actuarial gains and losses arising from past experience and changes in actuarial assumptions are charged to statement of profit and loss in the period in which such gains or losses are determined.

Loan to employees at concessional rate

Loans given to employees at concessional rate are initially recognized at fair value and subsequently measured at amortised cost. The difference between the initial fair value of such loans and transaction value is recognised as deferred employee cost, which is amortised on a straight-line basis over the expected remaining period of the Loan. In case of change in expected remaining period of the Loan, the unamortised deferred employee cost on the date of change is amortised over the updated expected remaining period of the loan on a prospective basis.

3.17 Provisions, Contingent Liabilities, and Contingent Assets

Provisions are recognized when the Company has a present legal or constructive obligation as a result of a past event; it is probable that an outflow of economic resources will be required from the Company and amounts can be estimated reliably. Timing or amount of the outflow may still be uncertain. Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the reporting date, including the risks and uncertainties associated with the present obligation. Provisions are discounted to their present values, where the time value of money is material.

A contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

In those cases, where the outflow of economic resources as a result of present obligations is considered improbable or remote, no liability is recognized or disclosure is made.

Any reimbursement that the Company can be virtually certain to collect from a third party concerning the obligation (such as from Insurance) is recognized as a separate asset. However, this asset may not exceed the amount of the related provision.

Contingent assets are not recognized. However, when the inflow of economic benefits is probable, the related asset is disclosed.

3.18 Fair value measurement

The Company measures financial instruments, such as derivatives at fair value at each reporting date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, including assumptions about risk, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements regularly, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

3.19 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

4. Implementation of New/ Modified Standards Ind AS 116 - Leases

Ind AS 116 supersedes Ind AS 17 and related interpretations. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases. Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. The Standard also contains enhanced disclosure requirements for lessees.

The Company adopted Ind AS 116 using modified retrospective method of adoption, with the date of initial application being 01.04.2019. The adoption did not have any material impact on the financial statements of the Company.

Ind AS 12 - Appendix C, Uncertainty over Income Tax Treatments:

The Appendix is to be applied while performing the determination of taxable profit (or loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to the appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which has to be considered to compute the most likely amount or the expected value of the tax treatment when determining taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates.

Upon adoption of the Appendix C to Ind AS 12, the Company considered whether it has any uncertain tax positions. The Group determined, based on its tax compliance, that it is probable that its tax treatments will be accepted by the taxation authorities. The Appendix did not have an impact on the financial statements of the Company.

Amendment to Ind AS 12 – Income taxes

The amendments to the guidance in Ind AS 12, 'Income Taxes', is in connection with accounting for dividend distribution taxes. The amendment clarifies that an entity shall recognise the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events.

Since, the Company's current practice is in line with these amendments, they had no impact on the financial statements of the Company.

Amendment to Ind AS 19 – Plan amendment, curtailment or settlement

The amendments to Ind AS 19, 'Employee Benefits', is in connection with accounting for plan amendments, curtailments and settlements requiring an entity to use updated assumptions to determine current service cost and net interest for the remainder of the period after a plan amendment, curtailment or settlement; and to recognise in profit or loss as part of past service cost, or a gain or loss on settlement, any reduction in a surplus, even if that surplus was not previously recognised because of the impact of the asset ceiling.

The amendments had no impact on the consolidated financial statements of the Company as it did not have any plan amendments, curtailment or settlement during the year.

4.1 Adoption of Hedge Accounting

The Company has applied hedge accounting requirements in Ind AS 109 prospectively from 1 January 2020, wherein certain derivative contracts have been designated as hedging instruments in 'Cash flow hedge' relationships. These arrangements have been entered into to mitigate foreign currency exchange risk and interest rate risk arising from certain debt instruments denominated in foreign currency.

4.2 Standards issued but not yet effective

There are no new amendments issued by MCA which are effective for period w.e.f. 01.04.2021.

5. **Significant management judgment in applying accounting policies and estimation of uncertainty**

The preparation of the Company's financial statements requires management to make judgments, estimates, and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the related disclosures. Actual results may differ from these estimates.

Significant management judgments

Recognition of deferred tax assets/ liability – The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilized. Further, the Company Management has no intention to make withdrawal from the Special Reserve created and maintained under section 36(1)(viii) of the Income tax Act, 1961 and thus, the special reserve created and maintained is not capable of being reversed. Hence, the company does not create any deferred tax liability on the said reserve.

Evaluation of indicators for impairment of assets – The evaluation of the applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

Non recognition of Interest Income on Credit Impaired Loans - Interest income on credit-impaired loan assets is not being recognised as a matter of prudence, pending the outcome of resolutions of stressed assets.

Significant estimates

Impact of Covid-19 Outbreak - The extent to which the Covid-19 pandemic will impact the Company will depend on future developments, which are uncertain, including, among other things, any new information concerning the severity of the Covid-19 pandemic and any further action by the Govt. or the Company to contain its spread or mitigate its impact.

Useful lives of depreciable/amortizable assets – Management reviews its estimate of the useful lives of depreciable/amortizable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of assets.

Defined benefit obligation (DBO) – Management's estimate of the DBO is based on a number of underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

Fair value measurements – Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument. In estimating the fair value of an asset or a liability, the Company uses market-observable data to the extent it is available. In case of non-availability of market-observable data, Level 2 & Level 3 hierarchy is used for fair valuation.

Income Taxes – Significant estimates are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions and also in respect of expected future profitability to assess deferred tax asset.

Expected Credit Loss ('ECL') – The measurement of an expected credit loss allowance for financial assets measured at amortized cost requires the use of complex models and significant assumptions about future

economic conditions and credit behavior (e.g., likelihood of customers defaulting and resulting losses). The Company makes significant judgments about the following while assessing expected credit loss to estimate ECL:

- Determining criteria for a significant increase in credit risk;
- Establishing the number and relative weightings of forward-looking scenarios for each type of product/ market and the associated ECL; and
- Establishing groups of similar financial assets to measure ECL.
- Estimating the probability of default and loss given default (estimates of recoverable amounts in case of default)

6. Cash and Cash Equivalents

(₹ in Crores)

Particulars	As at 31-12-2020	As at 31-03-2020
- Balances with Banks	607.18	1,173.41

Total (Other Bank Balances)	498.83	2,021.96

8. Derivative Financial Instruments

The Company enters into derivatives for hedging foreign exchange risks and interest rate risks. Derivatives held for risk management purposes include hedges that are either designated as effective hedges under the hedge accounting requirements or hedges that are economic hedges. The table below shows the fair values of derivative financial instruments recorded as assets or liabilities together with their notional amounts.

Part I

(₹ in Crores)

Particulars	As at 31-12-2020			As at 31-03-2020		
	Notional Amounts	Fair Value - Assets	Fair Value - Liabilities	Notional Amounts	Fair Value - Assets	Fair Value - Liabilities

REC Limited

Registered Office - Core-4, SCOPE Complex, 7, Lodhi Road, New Delhi – 110003

CIN: L40101DL1969GOI005095

Notes to Accounts

1. Company Overview

REC Limited ("REC" or the "Company" or the "holding company") was incorporated in the year 1969. The Company is domiciled in India and is limited by shares, having its registered office and principal place of business at Core-4, SCOPE Complex, 7, Lodhi Road, New Delhi-110003, India. The Company has 22 State offices spread across the country, mainly in the State Capitals and one training centre at Hyderabad.

The Company is a Government Company engaged in extending financial assistance across the power sector value chain and is a Systemically Important (Non-Deposit Accepting or Holding) Non-Banking Finance Company (NBFC) registered with Reserve Bank of India (RBI) as an Infrastructure Finance Company (IFC).

REC is a leading Infrastructure Finance Company in India and the principal products of REC are interest-bearing loans to State Electricity Boards, State Power utilities/State Power Departments and Private sector for all segments of Power infrastructure.

The shares of the Company are listed on National Stock Exchange of India Limited and BSE Limited.

The Company together with its subsidiaries is hereinafter referred to as 'the Group'.

2. Statement of Compliance and Basis of Preparation

These Consolidated Financial Statements comply with Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended), applicable provisions of the Companies Act, 2013 and other applicable regulatory norms / guidelines.

The consolidated financial statements for the period ended 31st December 2020 were authorized and approved for issue by the Board of Directors on 4th February 2021.

These consolidated financial statements have been prepared on going concern basis following accrual system of accounting and are in accordance with the Indian Accounting Standards (referred to as "Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended), applicable provisions of the Companies Act, 2013 and other applicable regulatory norms/ guidelines.

3. Significant Accounting Policies

The significant accounting policies applied in preparation of the consolidated financial statements are as given below:

3.1 Basis of consolidation

Subsidiary

Subsidiary is the entity controlled by the Group. The Group controls an entity when it has power over the investee, is exposed to or has rights to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiary

are included in the consolidated financial statements from the date on which control commences until the date on which control ceases. The Group combines the financial statements of the holding company and its subsidiary line by line adding together like items of assets, liabilities, equity, income and expenses.

Equity accounted investees

The Group's interests in equity accounted investees comprise of the interests in associates and joint venture.

An associate is an entity, including an unincorporated entity, over which the Company has significant influence and that is neither a subsidiary nor an interest in a joint venture. Interests in associates are accounted for using the equity method. These interests are initially recognised at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of Profit and Loss and Other Comprehensive Income (OCI) of equity-accounted investees until the date on which significant influence ceases. However, in case where it is assessed that the investment/ interest in associates is held for sale, the interest in associates is accounted for under Ind AS 105.

A joint venture is an arrangement in which the Group has joint control and has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

Interests in joint venture are accounted for using the equity method. They are initially recognised at cost which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of Profit and Loss and Other Comprehensive Income (OCI) of equity-accounted investees until the date on which significant influence or joint control ceases.

Transactions eliminated on consolidation

- 3.2 Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated. Unrealised gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

3.3 **Basis of Preparation and Measurement**

The consolidated financial statements have been prepared on historical cost basis except for certain financial assets and financial liabilities which are measured at fair values as explained in relevant accounting policies. These policies have been applied consistently for all the periods presented in the consolidated financial statements.

Functional and presentation currency

The consolidated financial statements are presented in Indian Rupee ('INR') which is also the functional currency of the Group.

3.4 **Revenue recognition**

Interest income

Interest income is recognized on time proportion basis taking into account the amount outstanding and rate applicable.

Unless otherwise specified, the recoveries from the borrowers are appropriated in the order of (i) costs and expenses of REC (ii) delayed and penal interest including interest tax, if any (iii) overdue interest including interest tax, if any and (iv) repayment of principal; the oldest being adjusted first, except for credit impaired loans and recalled loans, where principal amount is appropriated only after the complete recovery of other costs, expenses, delayed and penal interest and overdue interest including interest tax, if any. The recovery under One Time Settlement (OTS)/ Insolvency and Bankruptcy Code (IBC) proceedings is appropriated first towards the principal outstanding and remaining recovery thereafter, towards interest and other charges, if any.

For all financial assets measured at amortized cost, interest income is recorded using the effective interest rate (EIR), i.e. the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial assets.

Interest on financial assets subsequently measured at fair value through profit and loss is recognized on an accrual basis in accordance with the terms of the respective contract and is disclosed separately under the head interest income.

Rebate on account of timely payment of interest by borrowers is recognized on receipt of entire interest amount due in time, in accordance with the terms of the respective contract and is netted against the corresponding interest income.

Income from Government schemes

Income of agency fee on Government schemes is recognized on accrual basis based on the services rendered.

Dividend income

Income from dividend on shares of corporate bodies and units of mutual funds is taken into account on accrual basis when REC's right to receive payment is established.

Provided that in case of final dividend, the right to receive payment shall be considered as established only upon approval of the dividend by the shareholders in the Annual General Meeting.

Dividend on financial assets subsequently measured at fair value through profit and loss is recognised separately under the head 'Dividend Income'.

Other services

Fees/ charges on loan assets, other than those considered an adjustment to EIR, are accounted for on accrual basis. Pre-payment premium is accounted for by the Group in the year of receipt.

Revenue from sale of services

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured.

The Group uses the principles laid down by the Ind AS 115 to determine that how much and when revenue is recognized, what is the nature, amount, timing and uncertainty of revenues etc. In accordance with the same, revenue is recognised through a five-step approach:

- (i) Identify the contract(s) with customer;
- (ii) Identify separate performance obligations in the contract;
- (iii) Determine the transaction price;
- (iv) Allocate the transaction price to the performance obligations; and
- (v) Recognise revenue when a performance obligation is satisfied.

Revenues are measured at the fair value of the consideration received or receivable, net of discounts and other indirect taxes.

In Cost Plus Contracts - Revenue is recognised by including eligible contractual items of expenditures plus proportionate margin as per contract;

In Fixed Price Contracts – Revenue is recognised on the basis of stage of completion of the contract. The Group has assessed that the stage of completion is determined as the proportion of the total time expected to complete the performance obligation to that has lapsed at the end of the reporting period, which is an appropriate measure of progress towards complete satisfaction of these performance obligations under Ind AS 115.

Estimates of revenues, costs or extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by management.

Professional charges to be charged from the selected bidders/developers for transmission projects put on tariff based bidding is accounted for in the year in which it is reasonably certain that the ultimate collection of the professional charges will be made.

Sale proceeds of Request for Proposal (RFP) documents is credited to the respective SPV and sale proceeds of Request for Qualification (RFQ) documents is retained by the Group and accounted as income of the Group.

3.5 Borrowing costs

Borrowing costs consist of interest and other costs that the Group incurred in connection with the borrowing of funds. Borrowing costs that are directly attributable to the acquisition and/ or construction of a qualifying asset, till the time such a qualifying asset becomes ready for its intended use sale, are capitalized. A qualifying asset is one that necessarily takes a substantial period to get ready for its intended use.

All other borrowing costs are charged to the Statement of Profit and Loss on an accrual basis as per the effective interest rate method.

3.6 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period.

To calculate diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

3.7 Foreign Currency Translation

Foreign currency transactions and balances

Foreign currency transactions are translated into the functional currency of the Group using the exchange rates prevailing on the date of the transaction.

Foreign exchange gains and losses resulting from the settlement of such transactions and the re-measurement of monetary items denominated in foreign currency at period-end exchange rates are recognized in the Statement of Profit or Loss. However, for the long-term monetary items recognized in the consolidated financial statements before 01st April 2018, such gains and losses are accumulated in a "Foreign Currency Monetary Item Translation Difference Account" and amortized over the balance period of such long term monetary item, by recognition as income or expense in each of such periods.

Non-monetary items are not retranslated at period-end and are measured at historical cost (translated using the exchange rates at the transaction date).

3.8 Intangible assets

Recognition and initial measurement

Intangible assets mainly comprise of computer software which is initially measured at cost. Such assets are recognized where it is probable that the future economic benefits attributable to the assets will flow to the Group.

Subsequent measurement (amortization method, useful lives and residual value)

All intangible assets with finite useful life are amortized on a straight line basis over the estimated useful lives, and a possible impairment is assessed if there is an indication that the intangible asset may be impaired. Residual values and useful lives for all intangible assets are reviewed at each reporting date. Changes, if any, are accounted for as changes in accounting estimates. Management estimates the useful life of intangible assets to be five years.

Intangible Assets under Development

Expenditure incurred which are eligible for capitalization under intangible assets is carried as 'Intangible assets under development' till they are ready for their intended use.

Derecognition of Intangible Assets

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognized in the Statement of Profit and Loss when the asset is derecognized.

3.9 Property, Plant and Equipment (PPE)

Recognition and initial measurement

Land

Land held for use is initially recognized at cost. For land, as no finite useful life can be determined, related carrying amounts are not depreciated.

Other Tangible assets

PPE other than land is initially recognized at acquisition cost or construction cost, including any costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by the Group's management.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group beyond one year. Maintenance or servicing costs of PPE are recognized in the Statement of Profit and Loss as incurred.

Subsequent measurement (depreciation method, useful lives, residual value, and impairment)

PPE are subsequently measured at cost less accumulated depreciation and impairment losses. Depreciation on PPE is provided on the straight-line method over the useful life of the assets as prescribed under Part 'C' of Schedule II of the Companies Act, 2013.

Depreciation on assets purchased/sold during the year is charged for the full month if the asset is in use for more than 15 days, instead of charging the same on pro-rata basis from the date of purchase/sale. Depreciation on assets purchased during the year up to Rs. 5,000/- is provided @ 100%.

The residual values, useful lives, and method of depreciation are reviewed at the end of each financial year. PPE other than land is tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

De-recognition

An item of PPE and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of an item of PPE is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognized in the Statement of Profit and Loss.

Capital Work-in-Progress

The cost of PPE under construction at the reporting date is disclosed as 'Capital work-in-progress.' The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Advances paid for the acquisition/ construction of PPE which are outstanding at the balance sheet date are classified under 'Capital Advances.'

3.10 Lease Accounting:

The Group recognises a right-of-use asset and related lease liability in connection with all former operating leases except for those identified as short-term or low-value lease.

The Group assesses at contract inception whether a contract is, or contains, a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'.

To apply this definition, the Group assesses whether the contract meets three key evaluations which are whether:

- the contract contains an identified asset, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to the Group
- the Group has the right to obtain substantially all of the economic benefits from use of the identified asset throughout the period of use, considering its rights within the defined scope of the contract
- the Group has the right to direct the use of the identified asset throughout the period of use. The Group assess whether it has the right to direct 'how and for what purpose' the asset is used throughout the period of use.

At lease commencement date, the Group recognizes a right-of-use asset and a lease liability on the balance sheet. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Group, an estimate of any costs to dismantle and remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date (net of any incentives received).

The Group depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Group also assesses the right-of-use asset for impairment when such indicators exist.

At the commencement date, the Group measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Group's incremental borrowing rate.

Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed), variable payments based on an index or rate, amounts expected to be payable under a residual value guarantee and payments arising from options reasonably certain to be exercised.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments.

When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

3.11 Investment property

Investment properties are the assets which have undetermined future use. Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, the investment properties are stated at cost less accumulated depreciation. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group beyond one year. All other repair and maintenance costs are recognized in the Statement of Profit and Loss as incurred.

Subsequent measurement (depreciation and useful lives)

The Group only has land as an investment property, which is not depreciated.

De-recognition

An investment property is derecognized upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognized.

3.12 Financial Instruments

A Financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Initial recognition and measurement

Financial assets and financial liabilities are recognized when the Group becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted by transactions costs, except for those carried at fair value through profit or loss which are measured initially at fair value. Subsequent measurement of financial assets and financial liabilities is described below.

Classification and subsequent measurement of financial assets

For the purpose of subsequent measurement, financial assets are classified into the following categories upon initial recognition:

- Amortized cost
- Financial assets at fair value through profit or loss (FVTPL)
- Financial assets at fair value through other comprehensive income (FVOCI)

All financial assets except for those at FVTPL or equity instruments at FVOCI are subject to review for impairment at least at each reporting date to identify whether there is any objective evidence that a financial asset or a group of financial assets is impaired. Different criteria to determine impairment are applied to each category of financial assets, which are described below.

Amortized cost

A financial asset is measured at amortized cost using Effective Interest Rate (EIR) if both of the following conditions are met:

- a) the financial asset is held within a business model whose objective is to hold financial assets to collect contractual cash flows; and
- b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A loss allowance for expected credit losses is recognized on financial assets carried at amortized cost.

Modification of cash flows

When the contractual cash flows of a financial asset are renegotiated or otherwise modified, and the renegotiation or modification does not result in derecognition of that financial asset, the Group recalculates the gross carrying amount of the financial asset and recognizes a modification gain or loss in

profit or loss. The gross carrying amount of the financial asset shall be recalculated as the present value of the renegotiated or modified contractual cash flows that are discounted at the financial asset's original effective interest rate. Any costs or fees incurred adjust the carrying amount of the modified financial asset and are amortized over the remaining term of the modified financial asset.

Financial assets at FVTPL

Financial assets at FVTPL include financial assets that either do not meet the criteria for amortized cost classification or are equity instruments held for trading or that meet certain conditions and are designated at FVTPL upon initial recognition. All derivative financial instruments also fall into this category, except for those designated and effective as hedging instruments, for which the hedge accounting requirements may apply. Assets in this category are measured at fair value with gains or losses recognized in profit or loss. The fair values of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

Financial assets at FVOCI

FVOCI financial assets comprise of equity instruments measured at fair value. An equity investment classified as FVOCI is initially measured at fair value plus transaction costs. Gains and losses are recognized in other comprehensive income and reported within the FVOCI reserve within equity, except for dividend income, which is recognized in profit or loss. There is no recycling of such gains and losses from OCI to Statement of Profit & Loss, even on the derecognition of the investment. However, the Group may transfer the same within equity.

De-recognition of financial assets

De-recognition of financial assets due to a substantial modification of terms and conditions

The Group derecognizes a financial asset, such as a loan to a customer, when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new loan, with the difference recognized as a derecognition gain or loss, to the extent that an impairment loss has not already been recorded.

De-recognition of financial assets other than due to substantial modification

Financial assets (or where applicable, a part of financial asset or part of a group of similar financial assets) are derecognized (i.e. removed from the Group's balance sheet) when the contractual rights to receive the cash flows from the financial asset have expired, or when the financial asset and substantially all the risks and rewards are transferred. The Group also derecognizes the financial asset if it has both transferred the financial asset and the transfer qualifies for derecognition.

Classification and subsequent measurement of financial liabilities

Financial liabilities are measured subsequently at amortized cost using the effective interest method, except for financial liabilities held for trading or designated at FVTPL, that are carried subsequently at fair value with gains or losses recognized in profit or loss.

Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or

modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

Hedge accounting

To qualify for hedge accounting, the hedging relationship must meet all of the following requirements:

- there is an economic relationship between the hedged item and the hedging instrument
- the effect of credit risk does not dominate the value changes that result from that economic relationship
- the hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the entity actually hedges and the quantity of the hedging instrument that the entity actually uses to hedge that quantity of hedged item.

All derivative financial instruments designated under hedge accounting are recognised initially at fair value and reported subsequently at fair value at each reporting date. To the extent that the hedge is effective, changes in the fair value of derivatives designated as hedging instruments in cash flow hedges are recognised in other comprehensive income and included within the cash flow hedge reserve in equity. Any ineffectiveness in the hedge relationship is recognised immediately in profit or loss.

At the time the hedged item affects profit or loss, any gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss and presented as a reclassification adjustment within other comprehensive income.

At the inception of each hedging relationship, the Company formally designates and documents the hedge relationship, in accordance with the Company's risk management objective and strategies. The documentation includes identification of the hedged item, hedging instrument, the nature of risk(s) being hedged, the hedge ratio and how the hedging relationship meets the hedging effectiveness requirements.

3.13 Impairment of financial assets

Loan assets

The Group follows a 'three-stage' model for impairment based on changes in credit quality since initial recognition as summarised below:

- Stage 1 includes loan assets that have not had a significant increase in credit risk since initial recognition or that have low credit risk at the reporting date.
- Stage 2 includes loan assets that have had a significant increase in credit risk since initial recognition but that do not have objective evidence of impairment.
- Stage 3 includes loan assets that have objective evidence of impairment at the reporting date.

The Expected Credit Loss (ECL) is measured at 12-month ECL for Stage 1 loan assets and lifetime ECL for Stage 2 and Stage 3 loan assets. ECL is the product of the Probability of Default, Exposure at Default and Loss Given Default, defined as follows:

Probability of Default (PD) - The PD represents the likelihood of the borrower defaulting on its obligation either over next 12 months or over the remaining lifetime of the instrument.

Loss Given Default (LGD) - LGD represents the Company's expectation of loss given that a default occurs. LGD is expressed in percentage and it shows the proportion of the amount that will actually be lost post recoveries in case of a default.

Exposure at Default (EAD) – EAD represents the amounts, including the principal outstanding, interest accrued and outstanding Letters of Comfort that the Company expects to be owed at the time of default.

Forward-looking economic information is included in determining the 12-month and lifetime PD, EAD and LGD. The assumptions underlying the expected credit loss are monitored and reviewed on an ongoing basis.

Financial assets other than Loans

In respect of its other financial assets, the Group assesses if the credit risk on those financial assets has increased significantly since initial recognition. If the credit risk has not increased significantly since initial recognition, the Group measures the loss allowance at an amount equal to 12-month expected credit losses, else at an amount equal to the lifetime expected credit losses.

To make that assessment, the Group compares the risk of a default occurring on the financial asset as at the balance sheet date with the risk of a default occurring on the financial asset as at the date of initial recognition. The Group also considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition. The Group assumes that the credit risk on a financial asset has not increased significantly since initial recognition if the financial asset is determined to have low credit risk at the balance sheet date.

Write-offs

Financial assets are written off either partially or in their entirety only when the Group has stopped pursuing the recovery.

3.14 Assets/ Disposal Groups held for sale

Assets are classified as held for sale if their carrying amount will be recovered principally through sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at lower of their carrying amount or fair value less cost to sell, except for assets such as deferred tax, assets arising from employee benefit, financials assets and contractual rights under insurance contracts, which are specifically exempted from this requirement.

Non-current assets are not depreciated or amortised while they are classified as held for sale. Non-current assets held for sale are presented separately from other assets in the balance sheet.

Where the Group is committed to a sale plan involving loss of control of an entity, it classifies investment in the entity (i.e. all the assets and liabilities of that entity) as held for sale.

3.15 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits, together with other short-term, highly liquid investments (original maturity less than three months) that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

3.16 Dividend

Proposed dividends and interim dividends payable to the shareholders are recognized as changes in equity in the period in which they are approved by the shareholders' meeting and the Board of Directors respectively.

3.17 Material prior period errors

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest period presented, the opening balances of assets, liabilities and equity for the earliest period presented, are restated.

3.18 Prepaid Expenses

A prepaid expense up to Rs. 1,00,000/- is recognized as expense upon initial recognition.

3.19 Taxation

Tax expense recognized in profit or loss comprises the sum of deferred tax and current tax. It is recognized in Statement of Profit and Loss, except when it relates to an item that is recognised in OCI or directly in equity, in which case, the tax is also recognised in OCI or directly in equity.

Current tax is determined as the tax payable in respect of taxable income for the year, using tax rates enacted or substantively enacted and as applicable at the reporting date, and any adjustments to tax payable in respect of previous years.

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable income.

Deferred tax assets and liabilities are calculated, without discounting, at tax rates that are expected to apply to their respective period of realization, provided those rates are enacted or substantively enacted by the end of the reporting period. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority.

Deferred tax liability is recognized for all taxable temporary differences. A deferred tax asset is recognized for all deductible temporary differences to the extent that it is probable that future taxable profits will be available against which the deductible temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Changes in deferred tax assets or liabilities are recognized as a component of tax income or expense in profit or loss, except where they relate to items that are recognized in other comprehensive income or directly in equity, in which case the related deferred tax is also recognized in other comprehensive income or equity, respectively.

Dividend Distribution Tax is recognized at the same time when the liability to pay a dividend is recognized.

3.20 Employee benefits

Short-term employee benefits

Short-term employee benefits including salaries, short term compensated absences (such as a paid annual leave) where the absences are expected to occur within twelve months after the end of the period in which the employees render the related service, profit sharing and bonuses payable within twelve months after

the end of the period in which the employees render the related services and non-monetary benefits for current employees are estimated and measured on an undiscounted basis.

Post-employment benefit plans are classified into defined benefits plans and defined contribution plans as under:

Defined contribution plan

A defined contribution plan is a plan under which the Group pays fixed contributions in respect of the employees into a separate fund. The Group has no legal or constructive obligations to pay further contributions after its payment of the fixed contribution. The contributions made by the Group towards defined contribution plans are charged to the profit or loss in the period to which the contributions relate.

Defined benefit plan

The Group has an obligation towards gratuity, Post-Retirement Medical Facility (PRMF) and Other Defined Retirement Benefit (ODRB) which are being considered as defined benefit plans covering eligible employees. Under the defined benefit plans, the amount that an employee will receive on retirement is defined by reference to the employee's length of service, final salary, and other defined parameters. The legal obligation for any benefits remains with the Group, even if plan assets for funding the defined benefit plan have been set aside.

The Group's obligation towards defined benefit plans is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. The liability recognized in the statement of financial position for defined benefit plans is the present value of the Defined Benefit Obligation (DBO) at the reporting date less the fair value of plan assets. Management estimates the DBO annually with the assistance of independent actuaries.

Actuarial gains/losses resulting from re-measurements of the liability/asset are included in Other Comprehensive Income.

Other long-term employee benefits:

Liability in respect of compensated absences becoming due or expected to be availed more than one-year after the balance sheet date is estimated on the basis of actuarial valuation performed by an independent actuary using the projected unit credit method.

Actuarial gains and losses arising from past experience and changes in actuarial assumptions are charged to statement of profit and loss in the period in which such gains or losses are determined.

Loan to employees at concessional rate

Loans given to employees at concessional rate are initially recognized at fair value and subsequently measured at amortised cost. The difference between the initial fair value of such loans and transaction value is recognised as deferred employee cost, which is amortised on a straight-line basis over the expected remaining period of the Loan. In case of change in expected remaining period of the Loan, the unamortised deferred employee cost on the date of change is amortised over the updated expected remaining period of the loan on a prospective basis.

3.21 Provisions, Contingent Liabilities, and Contingent Assets

Provisions are recognized when the Group has a present legal or constructive obligation as a result of a past event; it is probable that an outflow of economic resources will be required from the Group and

amounts can be estimated reliably. Timing or amount of the outflow may still be uncertain. Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the reporting date, including the risks and uncertainties associated with the present obligation. Provisions are discounted to their present values, where the time value of money is material.

A contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Group or
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

In those cases, where the outflow of economic resources as a result of present obligations is considered improbable or remote, no liability is recognized or disclosure is made.

Any reimbursement that the Group can be virtually certain to collect from a third party concerning the obligation (such as from insurance) is recognized as a separate asset. However, this asset may not exceed the amount of the related provision.

Contingent assets are not recognized. However, when the inflow of economic benefits is probable, the related asset is disclosed.

3.22 Fair value measurement

The Group measures financial instruments, such as derivatives at fair value at each reporting date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, including assumptions about risk, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the consolidated financial statements regularly, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

3.23 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

4. Implementation of New/ Modified Standards

Ind AS 116 - Leases

Ind AS 116 supersedes Ind AS 17 and related interpretations. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases. Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. The Standard also contains enhanced disclosure requirements for lessees.

With the date of initial application being 01st April 2019, the Group adopted Ind AS 116 using modified retrospective method of adoption using the modified retrospective approach, where right-to-use asset is measured equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments existed at the date of transition. Refer Note 51 for more details.

For accounting periods before the adoption of Ind AS 116, the Group classified a lease as a finance lease or operating lease, by applying judgement and evaluates whether it transfers substantially all the risks and rewards incidental to ownership of the lease asset. A lease classified as a finance lease resulted in recognition of asset with a corresponding finance lease obligation. In case of operating leases, rental payments were recognised as expense in year of payment.

Ind AS 12 - Appendix C, Uncertainty over Income Tax Treatments:

The Appendix is to be applied while performing the determination of taxable profit (or loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to the appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which has to be considered to compute the most likely amount or the expected value of the tax treatment when determining taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates.

Upon adoption of the Appendix C to Ind AS 12, the Group considered whether it has any uncertain tax positions. The Group determined, based on its tax compliance, that it is probable that its tax treatments will be accepted by the taxation authorities. The Appendix did not have an impact on the consolidated financial statements of the Group.

Amendment to Ind AS 12 – Income taxes

The amendments to the guidance in Ind AS 12, 'Income Taxes', is in connection with accounting for dividend distribution taxes. The amendment clarifies that an entity shall recognise the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events.

Since, the Group's current practice is in line with these amendments, they had no impact on the consolidated financial statements of the Group.

Amendment to Ind AS 19 – Plan amendment, curtailment or settlement

The amendments to Ind AS 19, 'Employee Benefits', is in connection with accounting for plan amendments, curtailments and settlements requiring an entity to use updated assumptions to determine current service cost and net interest for the remainder of the period after a plan amendment, curtailment or settlement; and to recognise in profit or loss as part of past service cost, or a gain or loss on settlement, any reduction in a surplus, even if that surplus was not previously recognised because of the impact of the asset ceiling.

The amendments had no impact on the consolidated financial statements of the Group as it did not have any plan amendments, curtailment or settlement during the year.

4.1 Adoption of Hedge Accounting

The Group has applied hedge accounting requirements in Ind AS 109 prospectively from 01st January 2020, wherein certain derivative contracts have been designated as hedging instruments in 'Cash flow hedge' relationships. These arrangements have been entered into to mitigate foreign currency exchange risk and interest rate risk arising from certain debt instruments denominated in foreign currency.

4.2 Standards issued but not yet effective

There are no new amendments issued by MCA which are effective for period w.e.f. 01st April 2021.

5. Significant management judgment in applying accounting policies and estimation of uncertainty

The preparation of the Group's consolidated financial statements requires management to make judgments, estimates, and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the related disclosures. Actual results may differ from these estimates.

Significant management judgments

Recognition of deferred tax assets/ liability – The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilized. Further, the Management has no intention to make withdrawal from the Special Reserve created and maintained under section 36(1)(viii) of the Income tax Act, 1961 and thus, the special reserve created and maintained is not capable of being reversed. Hence, the Group does not create any deferred tax liability on the said reserve.

Recognition of Deferred Tax Liability on Undistributed Reserves of Group Companies – The applicable tax laws provide for tax deduction in respect of dividend income from equity investments, to the extent of dividend declared by the Company to its shareholders during the year. Considering the historical information and dividend distribution policy of the Company, the Company does not expect any tax liability on the undistributed reserves of the Group Companies, as and when such reserves are distributed. Hence, the Company does not create any deferred tax liability on undistributed reserves of Group Companies.

Evaluation of indicators for impairment of assets – The evaluation of the applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

Investment in SPVs – Transmission projects are managed as per the mandate from Government of India and the Group does not have the practical ability to direct the relevant activities of these projects unilaterally. The Group therefore considers its investment in respective SPVs as associates having significant influence despite the Company holding 100% of their paid-up equity share capital.

Non recognition of Interest Income on Credit Impaired Loans - Interest income on credit-impaired loan assets is not being recognised as a matter of prudence, pending the outcome of resolutions of stressed assets.

Significant estimates

Impact of Covid-19 Outbreak - The extent to which the Covid-19 pandemic will impact the Group will depend on future developments, which are uncertain, including, among other things, any new information concerning the severity of the Covid-19 pandemic and any further action by the Govt. or the Group to contain its spread or mitigate its impact.

Useful lives of depreciable/amortizable assets – Management reviews its estimate of the useful lives of depreciable/amortizable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of assets.

Defined benefit obligation (DBO) – Management’s estimate of the DBO is based on a number of underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

Fair value measurements – Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument. In estimating the fair value of an asset or a liability, the Group uses market-observable data to the extent it is available. In case of non-availability of market-observable data, Level 2 & Level 3 hierarchy is used for fair valuation.

Income Taxes – Significant estimates are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions and also in respect of expected future profitability to assess deferred tax asset.

Expected Credit Loss ('ECL') – The measurement of an expected credit loss allowance for financial assets measured at amortized cost requires the use of complex models and significant assumptions about future economic conditions and credit behaviour (e.g., likelihood of customers defaulting and resulting losses). The Group makes significant judgments about the following while assessing expected credit loss to estimate ECL:

- Determining criteria for a significant increase in credit risk;
- Establishing the number and relative weightings of forward-looking scenarios for each type of product/ market and the associated ECL; and
- Establishing groups of similar financial assets to measure ECL.
- Estimating the probability of default and loss given default (estimates of recoverable amounts in case of default)

9 Derivative Financial Instruments

The Company enters into derivatives for hedging foreign exchange risks and interest rate risks. Derivatives held for risk management purposes include hedges that are either designated as effective hedges under the hedge accounting requirements or hedges that are economic hedges. The table below shows the fair values of derivative financial instruments recorded as assets or liabilities together with their notional amounts.

Part I

(₹ in Crores)

CONSOLIDATED NOTES TO ACCOUNTS

1. Company Overview

REC Limited ("REC" or the "Company" or the "holding company") was incorporated in the year 1969. The Company is domiciled in India and is limited by shares, having its registered office and principal place of business at Core-4, SCOPE Complex, 7, Lodhi Road, New Delhi-110003, India. The Company has 22 State offices spread across the country, mainly in the State Capitals and one training centre at Hyderabad.

The Company is a Government Company engaged in extending financial assistance across the power sector value chain and is a Systemically Important (Non-Deposit Accepting or Holding) Non-Banking Finance Company (NBFC) registered with Reserve Bank of India (RBI) as an Infrastructure Finance Company (IFC).

REC is a leading Infrastructure Finance Company in India and the principal products of REC are interest-bearing loans to State Electricity Boards, State Power utilities/State Power Departments and Private sector for all segments of Power infrastructure.

The shares of the Company are listed on National Stock Exchange of India Limited and BSE Limited.

The Company together with its subsidiaries is hereinafter referred to as 'the Group'.

2. Statement of Compliance and Basis of Preparation

These Consolidated Financial Statements comply with Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended), applicable provisions of the Companies Act, 2013 and other applicable regulatory norms / guidelines.

The consolidated financial statements for the year ended 31st March 2020 were authorized and approved for issue by the Board of Directors on 17th June 2020.

These consolidated financial statements have been prepared on going concern basis following accrual system of accounting and are in accordance with the Indian Accounting Standards (referred to as "Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended), applicable provisions of the Companies Act, 2013 and other applicable regulatory norms/ guidelines.

3. Significant Accounting Policies

The significant accounting policies applied in preparation of the consolidated financial statements are as given below:

3.1 Basis of consolidation

Subsidiary

Subsidiary is the entity controlled by the Group. The Group controls an entity when it has power over the investee, is exposed to or has rights to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiary are included in the consolidated financial statements from the date on which control commences until the date on which control ceases. The Group combines the financial statements of the holding company and its subsidiary line by line adding together like items of assets, liabilities, equity, income and expenses.

Equity accounted investees

The Group's interests in equity accounted investees comprise of the interests in associates and joint venture.

An associate is an entity, including an unincorporated entity, over which the Company has significant influence and that is neither a subsidiary nor an interest in a joint venture. Interests in associates are accounted for using the equity method. These interests are initially recognised at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of Profit and Loss and Other Comprehensive Income (OCI) of equity-accounted investees until the date on which significant influence ceases. However, in case where it is assessed that the investment/ interest in associates is held for sale, the interest in associates is accounted for under Ind AS 105.

A joint venture is an arrangement in which the Group has joint control and has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

Interests in joint venture are accounted for using the equity method. They are initially recognised at cost which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of Profit and Loss and Other Comprehensive Income (OCI) of equity-accounted investees until the date on which significant influence or joint control ceases.

CONSOLIDATED NOTES TO ACCOUNTS

Transactions eliminated on consolidation

- 3.2** Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated. Unrealised gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

3.3 Basis of Preparation and Measurement

The consolidated financial statements have been prepared on historical cost basis except for certain financial assets and financial liabilities which are measured at fair values as explained in relevant accounting policies. These policies have been applied consistently for all the periods presented in the consolidated financial statements.

Functional and presentation currency

The consolidated financial statements are presented in Indian Rupee ('INR') which is also the functional currency of the Group.

3.4 Revenue recognition

Interest income

Interest income is recognized on time proportion basis taking into account the amount outstanding and rate applicable.

Unless otherwise specified, the recoveries from the borrowers are appropriated in the order of (i) costs and expenses of REC (ii) delayed and penal interest including interest tax, if any (iii) overdue interest including interest tax, if any and (iv) repayment of principal; the oldest being adjusted first, except for credit impaired loans and recalled loans, where principal amount is appropriated only after the complete recovery of other costs, expenses, delayed and penal interest and overdue interest including interest tax, if any. The recovery under One Time Settlement (OTS)/ Insolvency and Bankruptcy Code (IBC) proceedings is appropriated first towards the principal outstanding and remaining recovery thereafter, towards interest and other charges, if any.

For all financial assets measured at amortized cost, interest income is recorded using the effective interest rate (EIR), i.e. the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial assets.

Interest on financial assets subsequently measured at fair value through profit and loss is recognized on an accrual basis in accordance with the terms of the respective contract and is disclosed separately under the head interest income.

Rebate on account of timely payment of interest by borrowers is recognized on receipt of entire interest amount due in time, in accordance with the terms of the respective contract and is netted against the corresponding interest income.

Income from Government schemes

Income of agency fee on Government schemes is recognized on accrual basis based on the services rendered.

Dividend income

Income from dividend on shares of corporate bodies and units of mutual funds is taken into account on accrual basis when REC's right to receive payment is established.

Provided that in case of final dividend, the right to receive payment shall be considered as established only upon approval of the dividend by the shareholders in the Annual General Meeting.

Dividend on financial assets subsequently measured at fair value through profit and loss is recognised separately under the head 'Dividend Income'.

Other services

Fees/ charges on loan assets, other than those considered an adjustment to EIR, are accounted for on accrual basis. Pre-payment premium is accounted for by the Group in the year of receipt.

Revenue from sale of services

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured.

The Group uses the principles laid down by the Ind AS 115 to determine that how much and when revenue is recognized, what is the nature, amount, timing and uncertainty of revenues etc. In accordance with the same, revenue is recognised through a five-step approach:

CONSOLIDATED NOTES TO ACCOUNTS

- (i) Identify the contract(s) with customer;
- (ii) Identify separate performance obligations in the contract;
- (iii) Determine the transaction price;
- (iv) Allocate the transaction price to the performance obligations; and
- (v) Recognise revenue when a performance obligation is satisfied.

Revenues are measured at the fair value of the consideration received or receivable, net of discounts and other indirect taxes.

In Cost Plus Contracts - Revenue is recognised by including eligible contractual items of expenditures plus proportionate margin as per contract;

In Fixed Price Contracts – Revenue is recognised on the basis of stage of completion of the contract. The Group has assessed that the stage of completion is determined as the proportion of the total time expected to complete the performance obligation to that has lapsed at the end of the reporting period, which is an appropriate measure of progress towards complete satisfaction of these performance obligations under Ind AS 115.

Estimates of revenues, costs or extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by management.

Professional charges to be charged from the selected bidders/developers for transmission projects put on tariff based bidding is accounted for in the year in which it is reasonably certain that the ultimate collection of the professional charges will be made.

Sale proceeds of Request for Proposal (RFP) documents is credited to the respective SPV and sale proceeds of Request for Qualification (RFQ) documents is retained by the Group and accounted as income of the Group.

3.5 Borrowing costs

Borrowing costs consist of interest and other costs that the Group incurred in connection with the borrowing of funds. Borrowing costs that are directly attributable to the acquisition and/ or construction of a qualifying asset, till the time such a qualifying asset becomes ready for its intended use sale, are capitalized. A qualifying asset is one that necessarily takes a substantial period to get ready for its intended use.

All other borrowing costs are charged to the Statement of Profit and Loss on an accrual basis as per the effective interest rate method.

3.6 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period.

To calculate diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

3.7 Foreign Currency Translation

Foreign currency transactions and balances

Foreign currency transactions are translated into the functional currency of the Group using the exchange rates prevailing on the date of the transaction.

Foreign exchange gains and losses resulting from the settlement of such transactions and the re-measurement of monetary items denominated in foreign currency at period-end exchange rates are recognized in the Statement of Profit or Loss. However, for the long-term monetary items recognized in the consolidated financial statements before 01st April 2018, such gains and losses are accumulated in a "Foreign Currency Monetary Item Translation Difference Account" and amortized over the balance period of such long term monetary item, by recognition as income or expense in each of such periods.

Non-monetary items are not retranslated at period-end and are measured at historical cost (translated using the exchange rates at the transaction date).

CONSOLIDATED NOTES TO ACCOUNTS

3.8 Intangible assets

Recognition and initial measurement

Intangible assets mainly comprise of computer software which is initially measured at cost. Such assets are recognized where it is probable that the future economic benefits attributable to the assets will flow to the Group.

Subsequent measurement (amortization method, useful lives and residual value)

All intangible assets with finite useful life are amortized on a straight line basis over the estimated useful lives, and a possible impairment is assessed if there is an indication that the intangible asset may be impaired. Residual values and useful lives for all intangible assets are reviewed at each reporting date. Changes, if any, are accounted for as changes in accounting estimates. Management estimates the useful life of intangible assets to be five years.

Intangible Assets under Development

Expenditure incurred which are eligible for capitalization under intangible assets is carried as 'Intangible assets under development' till they are ready for their intended use.

Derecognition of Intangible Assets

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognized in the Statement of Profit and Loss when the asset is derecognized.

3.9 Property, Plant and Equipment (PPE)

Recognition and initial measurement

Land

Land held for use is initially recognized at cost. For land, as no finite useful life can be determined, related carrying amounts are not depreciated.

Other Tangible assets

PPE other than land is initially recognized at acquisition cost or construction cost, including any costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by the Group's management.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group beyond one year. Maintenance or servicing costs of PPE are recognized in the Statement of Profit and Loss as incurred.

Subsequent measurement (depreciation method, useful lives, residual value, and impairment)

PPE are subsequently measured at cost less accumulated depreciation and impairment losses. Depreciation on PPE is provided on the straight-line method over the useful life of the assets as prescribed under Part 'C' of Schedule II of the Companies Act, 2013.

Depreciation on assets purchased/sold during the year is charged for the full month if the asset is in use for more than 15 days, instead of charging the same on pro-rata basis from the date of purchase/sale. Depreciation on assets purchased during the year up to ₹5,000/- is provided @ 100%.

The residual values, useful lives, and method of depreciation are reviewed at the end of each financial year. PPE other than land is tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

De-recognition

An item of PPE and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of an item of PPE is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognized in the Statement of Profit and Loss.

Capital Work-in-Progress

The cost of PPE under construction at the reporting date is disclosed as 'Capital work-in-progress.' The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working

CONSOLIDATED NOTES TO ACCOUNTS

condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Advances paid for the acquisition/ construction of PPE which are outstanding at the balance sheet date are classified under 'Capital Advances.'

3.10 Lease Accounting:

The Group recognises a right-of-use asset and related lease liability in connection with all former operating leases except for those identified as short-term or low-value lease.

The Group assesses at contract inception whether a contract is, or contains, a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'.

To apply this definition, the Group assesses whether the contract meets three key evaluations which are whether:

- the contract contains an identified asset, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to the Group
- the Group has the right to obtain substantially all of the economic benefits from use of the identified asset throughout the period of use, considering its rights within the defined scope of the contract
- the Group has the right to direct the use of the identified asset throughout the period of use. The Group assess whether it has the right to direct 'how and for what purpose' the asset is used throughout the period of use.

At lease commencement date, the Group recognizes a right-of-use asset and a lease liability on the balance sheet. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Group, an estimate of any costs to dismantle and remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date (net of any incentives received).

The Group depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Group also assesses the right-of-use asset for impairment when such indicators exist.

At the commencement date, the Group measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Group's incremental borrowing rate.

Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed), variable payments based on an index or rate, amounts expected to be payable under a residual value guarantee and payments arising from options reasonably certain to be exercised.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments.

When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

3.11 Investment property

Investment properties are the assets which have undetermined future use. Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, the investment properties are stated at cost less accumulated depreciation. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group beyond one year. All other repair and maintenance costs are recognized in the Statement of Profit and Loss as incurred.

Subsequent measurement (depreciation and useful lives)

The Group only has land as an investment property, which is not depreciated.

De-recognition

An investment property is derecognized upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property

CONSOLIDATED NOTES TO ACCOUNTS

(calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognized.

3.12 Financial Instruments

A Financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Initial recognition and measurement

Financial assets and financial liabilities are recognized when the Group becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted by transactions costs, except for those carried at fair value through profit or loss which are measured initially at fair value. Subsequent measurement of financial assets and financial liabilities is described below.

Classification and subsequent measurement of financial assets

For the purpose of subsequent measurement, financial assets are classified into the following categories upon initial recognition:

- Amortized cost
- Financial assets at fair value through profit or loss (FVTPL)
- Financial assets at fair value through other comprehensive income (FVOCI)

All financial assets except for those at FVTPL or equity instruments at FVOCI are subject to review for impairment at least at each reporting date to identify whether there is any objective evidence that a financial asset or a group of financial assets is impaired. Different criteria to determine impairment are applied to each category of financial assets, which are described below.

Amortized cost

A financial asset is measured at amortized cost using Effective Interest Rate (EIR) if both of the following conditions are met:

- a) the financial asset is held within a business model whose objective is to hold financial assets to collect contractual cash flows; and
- b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A loss allowance for expected credit losses is recognized on financial assets carried at amortized cost.

Modification of cash flows

When the contractual cash flows of a financial asset are renegotiated or otherwise modified, and the renegotiation or modification does not result in derecognition of that financial asset, the Group recalculates the gross carrying amount of the financial asset and recognizes a modification gain or loss in profit or loss. The gross carrying amount of the financial asset shall be recalculated as the present value of the renegotiated or modified contractual cash flows that are discounted at the financial asset's original effective interest rate. Any costs or fees incurred adjust the carrying amount of the modified financial asset and are amortized over the remaining term of the modified financial asset.

Financial assets at FVTPL

Financial assets at FVTPL include financial assets that either do not meet the criteria for amortized cost classification or are equity instruments held for trading or that meet certain conditions and are designated at FVTPL upon initial recognition. All derivative financial instruments also fall into this category, except for those designated and effective as hedging instruments, for which the hedge accounting requirements may apply. Assets in this category are measured at fair value with gains or losses recognized in profit or loss. The fair values of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

Financial assets at FVOCI

FVOCI financial assets comprise of equity instruments measured at fair value. An equity investment classified as FVOCI is initially measured at fair value plus transaction costs. Gains and losses are recognized in other comprehensive income and reported within the FVOCI reserve within equity, except for dividend income, which is recognized in profit or loss. There is no recycling of such gains and losses from OCI to Statement of Profit & Loss, even on the derecognition of the investment. However, the Group may transfer the same within equity.

CONSOLIDATED NOTES TO ACCOUNTS

De-recognition of financial assets

De-recognition of financial assets due to a substantial modification of terms and conditions

The Group derecognizes a financial asset, such as a loan to a customer, when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new loan, with the difference recognized as a derecognition gain or loss, to the extent that an impairment loss has not already been recorded.

De-recognition of financial assets other than due to substantial modification

Financial assets (or where applicable, a part of financial asset or part of a group of similar financial assets) are derecognized (i.e. removed from the Group's balance sheet) when the contractual rights to receive the cash flows from the financial asset have expired, or when the financial asset and substantially all the risks and rewards are transferred. The Group also derecognizes the financial asset if it has both transferred the financial asset and the transfer qualifies for derecognition.

Classification and subsequent measurement of financial liabilities

Financial liabilities are measured subsequently at amortized cost using the effective interest method, except for financial liabilities held for trading or designated at FVTPL, that are carried subsequently at fair value with gains or losses recognized in profit or loss.

Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

Hedge accounting

To qualify for hedge accounting, the hedging relationship must meet all of the following requirements:

- there is an economic relationship between the hedged item and the hedging instrument
- the effect of credit risk does not dominate the value changes that result from that economic relationship
- the hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the entity actually hedges and the quantity of the hedging instrument that the entity actually uses to hedge that quantity of hedged item.

All derivative financial instruments designated under hedge accounting are recognised initially at fair value and reported subsequently at fair value at each reporting date. To the extent that the hedge is effective, changes in the fair value of derivatives designated as hedging instruments in cash flow hedges are recognised in other comprehensive income and included within the cash flow hedge reserve in equity. Any ineffectiveness in the hedge relationship is recognised immediately in profit or loss.

At the time the hedged item affects profit or loss, any gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss and presented as a reclassification adjustment within other comprehensive income.

At the inception of each hedging relationship, the Company formally designates and documents the hedge relationship, in accordance with the Company's risk management objective and strategies. The documentation includes identification of the hedged item, hedging instrument, the nature of risk(s) being hedged, the hedge ratio and how the hedging relationship meets the hedging effectiveness requirements.

3.13 Impairment of financial assets

Loan assets

The Group follows a 'three-stage' model for impairment based on changes in credit quality since initial recognition as summarised below:

- Stage 1 includes loan assets that have not had a significant increase in credit risk since initial recognition or that have low credit risk at the reporting date.
- Stage 2 includes loan assets that have had a significant increase in credit risk since initial recognition but that do not have objective evidence of impairment.
- Stage 3 includes loan assets that have objective evidence of impairment at the reporting date.

CONSOLIDATED NOTES TO ACCOUNTS

The Expected Credit Loss (ECL) is measured at 12-month ECL for Stage 1 loan assets and lifetime ECL for Stage 2 and Stage 3 loan assets. ECL is the product of the Probability of Default, Exposure at Default and Loss Given Default, defined as follows:

Probability of Default (PD) - The PD represents the likelihood of the borrower defaulting on its obligation either over next 12 months or over the remaining lifetime of the instrument.

Loss Given Default (LGD) – LGD represents the Company's expectation of loss given that a default occurs. LGD is expressed in percentage and it shows the proportion of the amount that will actually be lost post recoveries in case of a default.

Exposure at Default (EAD) – EAD represents the amounts, including the principal outstanding, interest accrued and outstanding Letters of Comfort that the Company expects to be owed at the time of default.

Forward-looking economic information is included in determining the 12-month and lifetime PD, EAD and LGD. The assumptions underlying the expected credit loss are monitored and reviewed on an ongoing basis.

Financial assets other than Loans

In respect of its other financial assets, the Group assesses if the credit risk on those financial assets has increased significantly since initial recognition. If the credit risk has not increased significantly since initial recognition, the Group measures the loss allowance at an amount equal to 12-month expected credit losses, else at an amount equal to the lifetime expected credit losses.

To make that assessment, the Group compares the risk of a default occurring on the financial asset as at the balance sheet date with the risk of a default occurring on the financial asset as at the date of initial recognition. The Group also considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition. The Group assumes that the credit risk on a financial asset has not increased significantly since initial recognition if the financial asset is determined to have low credit risk at the balance sheet date.

Write-offs

Financial assets are written off either partially or in their entirety only when the Group has stopped pursuing the recovery.

3.14 Assets/ Disposal Groups held for sale

Assets are classified as held for sale if their carrying amount will be recovered principally through sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at lower of their carrying amount or fair value less cost to sell, except for assets such as deferred tax, assets arising from employee benefit, financial assets and contractual rights under insurance contracts, which are specifically exempted from this requirement.

Non-current assets are not depreciated or amortised while they are classified as held for sale. Non-current assets held for sale are presented separately from other assets in the balance sheet.

Where the Group is committed to a sale plan involving loss of control of an entity, it classifies investment in the entity (i.e. all the assets and liabilities of that entity) as held for sale.

3.15 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits, together with other short-term, highly liquid investments (original maturity less than three months) that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

3.16 Dividend

Proposed dividends and interim dividends payable to the shareholders are recognized as changes in equity in the period in which they are approved by the shareholders' meeting and the Board of Directors respectively.

3.17 Material prior period errors

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest period presented, the opening balances of assets, liabilities and equity for the earliest period presented, are restated.

3.18 Prepaid Expenses

A prepaid expense up to ₹1,00,000/- is recognized as expense upon initial recognition.

CONSOLIDATED NOTES TO ACCOUNTS

3.19 Taxation

Tax expense recognized in profit or loss comprises the sum of deferred tax and current tax. It is recognized in Statement of Profit and Loss, except when it relates to an item that is recognised in OCI or directly in equity, in which case, the tax is also recognised in OCI or directly in equity.

Current tax is determined as the tax payable in respect of taxable income for the year, using tax rates enacted or substantively enacted and as applicable at the reporting date, and any adjustments to tax payable in respect of previous years.

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable income.

Deferred tax assets and liabilities are calculated, without discounting, at tax rates that are expected to apply to their respective period of realization, provided those rates are enacted or substantively enacted by the end of the reporting period. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority.

Deferred tax liability is recognized for all taxable temporary differences. A deferred tax asset is recognized for all deductible temporary differences to the extent that it is probable that future taxable profits will be available against which the deductible temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Changes in deferred tax assets or liabilities are recognized as a component of tax income or expense in profit or loss, except where they relate to items that are recognized in other comprehensive income or directly in equity, in which case the related deferred tax is also recognized in other comprehensive income or equity, respectively.

Dividend Distribution Tax is recognized at the same time when the liability to pay a dividend is recognized.

3.20 Employee benefits

Short-term employee benefits

Short-term employee benefits including salaries, short term compensated absences (such as a paid annual leave) where the absences are expected to occur within twelve months after the end of the period in which the employees render the related service, profit sharing and bonuses payable within twelve months after the end of the period in which the employees render the related services and non-monetary benefits for current employees are estimated and measured on an undiscounted basis.

Post-employment benefit plans are classified into defined benefits plans and defined contribution plans as under:

Defined contribution plan

A defined contribution plan is a plan under which the Group pays fixed contributions in respect of the employees into a separate fund. The Group has no legal or constructive obligations to pay further contributions after its payment of the fixed contribution. The contributions made by the Group towards defined contribution plans are charged to the profit or loss in the period to which the contributions relate.

Defined benefit plan

The Group has an obligation towards gratuity, Post-Retirement Medical Facility (PRMF) and Other Defined Retirement Benefit (ODRB) which are being considered as defined benefit plans covering eligible employees. Under the defined benefit plans, the amount that an employee will receive on retirement is defined by reference to the employee's length of service, final salary, and other defined parameters. The legal obligation for any benefits remains with the Group, even if plan assets for funding the defined benefit plan have been set aside.

The Group's obligation towards defined benefit plans is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. The liability recognized in the statement of financial position for defined benefit plans is the present value of the Defined Benefit Obligation (DBO) at the reporting date less the fair value of plan assets. Management estimates the DBO annually with the assistance of independent actuaries.

Actuarial gains/losses resulting from re-measurements of the liability/asset are included in Other Comprehensive Income.

Other long-term employee benefits:

Liability in respect of compensated absences becoming due or expected to be availed more than one-year after the balance sheet date is estimated on the basis of actuarial valuation performed by an independent actuary using the projected unit credit method.

CONSOLIDATED NOTES TO ACCOUNTS

Actuarial gains and losses arising from past experience and changes in actuarial assumptions are charged to statement of profit and loss in the period in which such gains or losses are determined.

Loan to employees at concessional rate

Loans given to employees at concessional rate are initially recognized at fair value and subsequently measured at amortised cost. The difference between the initial fair value of such loans and transaction value is recognised as deferred employee cost, which is amortised on a straight-line basis over the expected remaining period of the Loan. In case of change in expected remaining period of the Loan, the unamortised deferred employee cost on the date of change is amortised over the updated expected remaining period of the loan on a prospective basis.

3.21 Provisions, Contingent Liabilities, and Contingent Assets

Provisions are recognized when the Group has a present legal or constructive obligation as a result of a past event; it is probable that an outflow of economic resources will be required from the Group and amounts can be estimated reliably. Timing or amount of the outflow may still be uncertain. Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the reporting date, including the risks and uncertainties associated with the present obligation. Provisions are discounted to their present values, where the time value of money is material.

A contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Group or
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

In those cases, where the outflow of economic resources as a result of present obligations is considered improbable or remote, no liability is recognized or disclosure is made.

Any reimbursement that the Group can be virtually certain to collect from a third party concerning the obligation (such as from insurance) is recognized as a separate asset. However, this asset may not exceed the amount of the related provision.

Contingent assets are not recognized. However, when the inflow of economic benefits is probable, the related asset is disclosed.

3.22 Fair value measurement

The Group measures financial instruments, such as derivatives at fair value at each reporting date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, including assumptions about risk, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the consolidated financial statements regularly, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

CONSOLIDATED NOTES TO ACCOUNTS

3.23 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

4. Implementation of New/ Modified Standards

Ind AS 116 - Leases

Ind AS 116 supersedes Ind AS 17 and related interpretations. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases. Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. The Standard also contains enhanced disclosure requirements for lessees.

With the date of initial application being 01st April 2019, the Group adopted Ind AS 116 using modified retrospective method of adoption using the modified retrospective approach, where right-to-use asset is measured equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments existed at the date of transition. Refer Note 51 for more details.

For accounting periods before the adoption of Ind AS 116, the Group classified a lease as a finance lease or operating lease, by applying judgement and evaluates whether it transfers substantially all the risks and rewards incidental to ownership of the lease asset. A lease classified as a finance lease resulted in recognition of asset with a corresponding finance lease obligation. In case of operating leases, rental payments were recognised as expense in year of payment.

Ind AS 12 - Appendix C, Uncertainty over Income Tax Treatments:

The Appendix is to be applied while performing the determination of taxable profit (or loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to the appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which has to be considered to compute the most likely amount or the expected value of the tax treatment when determining taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates.

Upon adoption of the Appendix C to Ind AS 12, the Group considered whether it has any uncertain tax positions. The Group determined, based on its tax compliance, that it is probable that its tax treatments will be accepted by the taxation authorities. The Appendix did not have an impact on the consolidated financial statements of the Group.

Amendment to Ind AS 12 – Income taxes

The amendments to the guidance in Ind AS 12, 'Income Taxes', is in connection with accounting for dividend distribution taxes. The amendment clarifies that an entity shall recognise the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events.

Since, the Group's current practice is in line with these amendments, they had no impact on the consolidated financial statements of the Group.

Amendment to Ind AS 19 – Plan amendment, curtailment or settlement

The amendments to Ind AS 19, 'Employee Benefits', is in connection with accounting for plan amendments, curtailments and settlements requiring an entity to use updated assumptions to determine current service cost and net interest for the remainder of the period after a plan amendment, curtailment or settlement; and to recognise in profit or loss as part of past service cost, or a gain or loss on settlement, any reduction in a surplus, even if that surplus was not previously recognised because of the impact of the asset ceiling.

The amendments had no impact on the consolidated financial statements of the Group as it did not have any plan amendments, curtailment or settlement during the year.

4.1 Adoption of Hedge Accounting

The Group has applied hedge accounting requirements in Ind AS 109 prospectively from 01st January 2020, wherein certain derivative contracts have been designated as hedging instruments in 'Cash flow hedge' relationships. These arrangements have been entered into to mitigate foreign currency exchange risk and interest rate risk arising from certain debt instruments denominated in foreign currency.

4.2 Standards issued but not yet effective

There are no new amendments issued by MCA which are effective for period w.e.f. 01st April 2020.

CONSOLIDATED NOTES TO ACCOUNTS

5. Significant management judgment in applying accounting policies and estimation of uncertainty

The preparation of the Group's consolidated financial statements requires management to make judgments, estimates, and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the related disclosures. Actual results may differ from these estimates.

Significant management judgments

Recognition of deferred tax assets/ liability – The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilized. Further, the Management has no intention to make withdrawal from the Special Reserve created and maintained under section 36(1)(viii) of the Income tax Act, 1961 and thus, the special reserve created and maintained is not capable of being reversed. Hence, the Group does not create any deferred tax liability on the said reserve.

Recognition of Deferred Tax Liability on Undistributed Reserves of Group Companies – The applicable tax laws provide for tax deduction in respect of dividend income from equity investments, to the extent of dividend declared by the Company to its shareholders during the year. Considering the historical information and dividend distribution policy of the Company, the Company does not expect any tax liability on the undistributed reserves of the Group Companies, as and when such reserves are distributed. Hence, the Company does not create any deferred tax liability on undistributed reserves of Group Companies.

Evaluation of indicators for impairment of assets – The evaluation of the applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

Investment in SPVs – Transmission projects are managed as per the mandate from Government of India and the Group does not have the practical ability to direct the relevant activities of these projects unilaterally. The Group therefore considers its investment in respective SPVs as associates having significant influence despite the Company holding 100% of their paid-up equity share capital.

Non recognition of Interest Income on Credit Impaired Loans - Interest income on credit-impaired loan assets is not being recognised as a matter of prudence, pending the outcome of resolutions of stressed assets.

Significant estimates

Impact of Covid-19 Outbreak - The extent to which the Covid-19 pandemic will impact the Group will depend on future developments, which are uncertain, including, among other things, any new information concerning the severity of the Covid-19 pandemic and any further action by the Govt. or the Group to contain its spread or mitigate its impact.

Useful lives of depreciable/amortizable assets – Management reviews its estimate of the useful lives of depreciable/ amortizable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of assets.

Defined benefit obligation (DBO) – Management's estimate of the DBO is based on a number of underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

Fair value measurements – Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument. In estimating the fair value of an asset or a liability, the Group uses market-observable data to the extent it is available. In case of non-availability of market-observable data, Level 2 & Level 3 hierarchy is used for fair valuation.

Income Taxes – Significant estimates are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions and also in respect of expected future profitability to assess deferred tax asset.

Expected Credit Loss ('ECL') – The measurement of an expected credit loss allowance for financial assets measured at amortized cost requires the use of complex models and significant assumptions about future economic conditions and credit behaviour (e.g., likelihood of customers defaulting and resulting losses). The Group makes significant judgments about the following while assessing expected credit loss to estimate ECL:

- Determining criteria for a significant increase in credit risk;
- Establishing the number and relative weightings of forward-looking scenarios for each type of product/ market and the associated ECL; and
- Establishing groups of similar financial assets to measure ECL.
- Estimating the probability of default and loss given default (estimates of recoverable amounts in case of default)

(₹ in Crores)

Particulars	As at 31.03.2020	As at 31.03.2019
Investment in Joint Ventures		
- Energy Efficiency Services Ltd. (21,81,00,000 Equity shares of ₹ 10 each)	258.47	179.63
Total	258.47	179.63

Under the Right Issue Offer of Energy Efficiency Services Limited (EESL), the Company has been allotted 7,16,00,000 shares of Energy Efficiency Services Limited (EESL) for a consideration of ₹71.60 crores on 8th June 2019. As at 31st March, 2020, the shareholding of the company in EESL stands at 22.18% as against 21.70% as at 31st March, 2019.

CONSOLIDATED NOTES TO ACCOUNTS

- 11.1** Pursuant to the One Time Settlement arrangement executed on 23rd December 2019 in respect of RattanIndia Power Ltd, the Company has been allotted 9,25,68,105 no of equity shares, 2,87,20,978 no of redeemable preference shares and 4,33,03,616 no. of optionally convertible cumulative redeemable preference shares. Refer note 10.3 for further details.
- 11.2** The Company has elected an irrevocable option to designate some of the equity instruments at FVOCI (Fair Value through Other Comprehensive Income). The Company's main operation is to provide financial assistance to power sector. Thus, in order to isolate Standalone Statement of Profit & Loss from price fluctuations of these instruments, management believes that this provides a more meaningful presentation, rather than classifying them at FVTPL (Fair Value through Profit & Loss).

Details of FVOCI investments derecognised during the year

(₹ in Crores)

Name of the company	FY 2019-20			FY 2018-19		
	No. of shares derecognised	Fair Value as on de-recognition	Cumulative Gain/ loss on de-recognition	No. of shares derecognised	Fair Value as on de-recognition	Cumulative Gain/ loss on de-recognition
Indian Energy Exchange Limited	228,789.0	4.23	4.21	-	-	-
Lanco Teesta Hydro Power Limited	102,000,000.0	-	(102.00)	-	-	-
NHPC Limited	-	-	-	8,709,659.00	24.39	5.42

Under the Buy Back Offer of Indian Energy Exchange Limited, The Company has sold and consequently derecognised 2,28,789 shares for a consideration of ₹4.23 crores on 10th April 2019. The shares had been offered to be bought back at a price higher than the prevailing market price and the Company considered it as an opportunity to sell a large lot of equity shares through this mode, instead of selling the shares in open market at lower prices.

Pursuant to the approval of Resolution Plan passed by the Hon'ble National Company Law Tribunal (NCLT), Hyderabad Bench dated 26th July, 2019 in respect of Lanco Teesta Hydro Power Ltd, the Company has written off the equity investment of ₹102 crore (10.20 crore equity shares of ₹10 each) upon extinguishment of such equity shares as per the order.

Subsequent to the derecognition of the investments on account of actual sale of the equity shares, the Company has transferred the cumulative gain or loss net of tax impact on such shares from other comprehensive income to retained earnings during the period.

12. Other financial assets

FY 2018-19	0.01	-	-	0.01

15.1 The company has classified the land held for undeterminable future use as investment property and is not earning any rental income on it.

15.2 Fair value of investment property:

(₹ in Crores)

Particulars	As at 31-03-20	As at 31-03-19
Carrying Value	0.01	0.01
Fair Value	0.61	0.61

The Company obtains independent valuations for its investment properties at least annually. The best evidence of fair value is current prices in an active market for similar properties. Where such information is not available, the Company consider information from variety of sources including:

- current prices in an active market of similar properties of different nature or recent prices of similar properties in less active markets, adjusted to reflect those differences.
- current circle rates in the jurisdiction where the investment property is located.

The fair values of investment property has been determined by an independent valuer and the main inputs used are circle rates and current prices of similar properties. All resulting fair value estimates for investment property are included in Level 3.

* these SPVs are in process of Incorporation. However as RFP was issued by March 2020 therefore as per allocation policy, expense have been allocated.

Management had incorporated these entities with a view to sell them off as per the guidelines of Ministry of Power, through the bid process prescribed by Ministry of Power. There is no possibility that management will have benefits from these entities other than selling them off, hence all these investments (along with the related assets and liabilities) has been classified as 'held for sale'.

23.1 Unpaid dividends, unpaid principal and interest on bonds include the amounts which have either not been claimed by the investors or are on hold pending formalities pursuant to investors' claims etc. The amount due to be transferred to Investor Education and Protection Fund (IEPF) as at 31st March 2020 is ₹ 0.47 crores (₹ 0.54 crores as at 31st March 2019) which has been transferred within the prescribed time limit.

23.2 Subsidy Under Accelerated Generation & Supply Programme (AG&SP):

The Company is maintaining an Interest Subsidy Fund Account and was given AG&SP subsidy (for disbursement to the eligible borrowers) by Govt. of India at net present value calculated at indicative rates and year in accordance with GOI's letter vide D.O.No. 32024/17/97-PFC dated 23.09.1997 and O.M.No.32024/23/2001-PFC dated 07.03.2003 irrespective of the actual repayment schedule, moratorium year and duration of repayment of the eligible schemes. The impact of difference between the indicative rate and year considered at the time of drawl and the actual can be ascertained only after the end of the respective schemes.

Net amount of ₹ 0.69 Crores as at 31st March 2020 (₹ 0.63 Crores as at 31st March 2019) represents the balance amount of interest subsidy fund, which is to be passed on to the borrowers against their interest liability arising in future, under Accelerated Generation & Supply Programme (AG&SP), which comprises of the following :-

(₹ in Crores)

Particulars	Year ended 31.03.2020	Year ended 31.03.2019
Opening Balance of Interest Subsidy Fund	0.63	0.53
Add: Interest earned during the year	0.06	0.11
Less: Interest subsidy passed on to the borrower	-	0.01
Closing Balance of Interest Subsidy Fund	0.69	0.63

CONSOLIDATED NOTES TO ACCOUNTS

23.3 Government of India has appointed the company as a nodal agency for implementation of Deen Dayal Upadhyaya Gram Jyoti Yojna (DDUGJY) and Pradhan Mantri Sahaj Bijli Har Ghar Yojana (SAUBHAGYA). The funds received for disbursement to various agencies under the scheme are kept in a separate bank account. The undisbursed funds for the scheme (including the funds received under erstwhile RGGVY Scheme) including interest earned thereto are classified under "Undisbursed Subsidy/ grant" under the head "Other Financial Liabilities".

23.4 The movement in Interest on Subsidy/ Grant is explained as under:

(₹ in Crores)

Particulars	Year ended 31.03.2020	Year ended 31.03.2019
Opening Balance	42.57	24.41
Add: Interest earned during the year	50.10	93.70
Less: Amount refunded to Govt. during the year	60.71	75.53
Less: Disbursement out of Interest earned on account of AG&SP Grant	-	0.01
Closing Balance	31.96	42.57

23.5 For meeting GOI's funding requirement of DDUGJY Scheme, during the year, the Company has raised an aggregate amount of ₹ 3,782.30 crores (Previous year ₹ 13,827 crores) through unsecured, redeemable, non-convertible, taxable bonds in the nature of debentures of face value of ₹ 10 lacs at par on private placement basis. As per Ministry of Finance (MoF) letter dated 9th September 2019, the repayment of principal and interest of the above bonds shall be made by Gol by making suitable budget provisions in the demand of Ministry of Power. Accordingly, the amount of such bonds along-with interest is also appearing as recoverable by the Company from Govt. of India (Note 12).

Details of the Gol Fully Serviced Bonds raised are as follows:

Additions and deductions to the components of 'Other Equity' has been disclosed in 'Statement of Changes in Equity'.

27.1 Drawdown/ Transfer from Reserves

Pursuant to statutory changes and utilisation of reserves created for specific purposes, the Company has transferred the following amounts from different reserves to General Reserve during the year 2019-20:

- ₹ 1,367.27 crores from Debenture Redemption Reserve (DRR) pursuant to the Notification No. G.S.R. 574(E) dated 16th August 2019 issued by the Ministry of Corporate Affairs (MCA). Refer Note 27.5.
- ₹ 378.41 crores from Reserve for Bad & Doubtful Debts under Section 36(1)(viiia)(c) of the Income Tax Act, 1961 on account of actual write-offs on loan assets

No amount has been drawn from the reserves during the financial year 2018-19.

27.2 Special Reserve created u/s 36(1) (viii) of the Income Tax Act, 1961

Special Reserve created u/s 36(1) (viii) of the Income Tax Act, 1961 is maintained by the Company in order to enable the Company to avail tax benefits. As per section 36(1)(viii) of the Income Tax Act, 1961, the company is eligible for deduction

CONSOLIDATED NOTES TO ACCOUNTS

not exceeding 20% of profit derived from long term finance activity, provided such amount is transferred and maintained in special reserve account.

27.3 Reserve for Bad and doubtful debts u/s 36(1)(vii) of the Income Tax Act, 1961

Reserve for Bad and doubtful debts u/s 36(1)(vii) of the Income Tax Act, 1961 is maintained by the Company in order to enable the Company to avail tax benefits. As per Section 36(1)(vii) of the Income Tax Act, 1961, the Company is eligible to avail deduction in respect of any provision/ reserve made for bad and doubtful debts, not exceeding five per cent of the total income as per Income Tax Act. The reserve so maintained shall be primarily utilised for adjustment of actual bad debts or part thereof.

27.4 Reserve Fund u/s 45-IC of Reserve Bank of India Act, 1934

The Company is creating the Reserve Fund as required u/s 45IC of Reserve Bank of India Act, 1934, wherein at least 20% of net profit is required to be transferred before the declaration of dividend. No appropriation is allowed to be made from the reserve fund except for the purpose as may be specified by the Reserve Bank of India from time to time and further, any such appropriation is also required to be reported to the Reserve Bank of India within 21 days from the date of such withdrawal.

27.5 Debenture Redemption Reserve (DRR)

In accordance with provisions of Section 71(4) of the Companies Act, 2013 as further clarified by the Companies (Share Capital and Debentures) Rules, 2014 issued by Ministry of Corporate Affairs, Govt. of India, the company created Debenture Redemption Reserve (DRR) upto 25% of the value of debentures issued through public issue as per present SEBI (Issue and Listing of Debt Securities) Regulations, 2008 during the maturity period of such debentures, and no DRR is required in the case of privately placed debentures. However, subsequent to the notification by the Ministry of Corporate Affairs during the year, the Company is not required to create Debenture Redemption Reserve (DRR) pursuant to Sec. 71 of the Companies Act, 2013, read with Rule 18 of the Companies (Share Capital & Debentures) Rules 2014.

27.6 Securities Premium

Securities Premium represents the premium received by the Company on issue of shares and debt securities. It is utilised in accordance with the provisions of the Companies Act, 2013.

27.7 Foreign Currency Monetary Item Translation Difference Account

The company had opted towards an irrevocable option for amortising the foreign exchange fluctuation loss/gain on the long term foreign currency monetary items over the balance period of such items in accordance with Para 46A of the erstwhile applicable Accounting Standard 11 'The Effects of Changes in Foreign Exchange Rates'. The Company opted to continue the policy of such amortisation as per the previous GAAP in respect of the exchange differences arising from translation of long-term foreign currency monetary items as on 31st March 2018 in line with the provisions of Ind-AS. The balance in this account represents the unamortised gain/ (loss) which will be amortised over the balance period of the eligible long term foreign currency monetary liabilities.

27.8 General Reserve

General Reserve includes the amounts appropriated from the profits of the Company and also amounts transferred from Statutory Reserves. In view of the erstwhile provisions of the Companies Act, 1956, the Company had transferred certain percentage of the profits to General Reserve before declaration of dividend. However, Companies Act, 2013 does not mandate transfer of profits to General Reserve before declaration of dividend.

27.9 Impairment Reserve

Reserve Bank of India (RBI) issued Notification No. DOR (NBFC).CC.PD.No.109/22.10.106/2019-20 dated 13th March 2020 in respect of 'Implementation of Indian Accounting Standards' by NBFCs. In terms of the said circular, in case the impairment allowance under Ind AS 109 is lower than the provisioning required under Income Recognition, Asset Classification and Provisioning (IRACP) Norms (including standard asset provisioning) issued by RBI, the Company is required to appropriate the difference from their net profit after tax to "Impairment Reserve". No withdrawals are permitted from this reserve without prior permission from the Department of Supervision, RBI. Refer Note. 50.1.3 (W) in respect of the disclosure in respect of comparison between impairment allowance and provisioning under IRACP Norms.

27.10 Equity Instruments through Other Comprehensive Income (OCI)

The Company has elected to recognise changes in the fair value of certain investments in equity securities through other comprehensive income. These changes are accumulated within the OCI reserve within equity. The Group transfers amounts from this reserve to retained earnings when the related equity securities are derecognised.

CONSOLIDATED NOTES TO ACCOUNTS

27.11 Effective Portion of Cash Flow Hedges

The Company uses derivative instruments in pursuance of managing its foreign currency risk and interest rate risk associated on borrowings. For hedging foreign currency and interest rate risk, the Company uses foreign currency forward contracts, cross currency swaps, foreign currency option contracts and interest rate swaps. To the extent the derivative contracts designated under the hedge accounting are effective hedges, the change in fair value of the hedging instrument is recognised in 'Cash Flow Hedging reserve'. Amounts recognised in such reserve are reclassified to the Statement of Profit or Loss when the hedged item affects profit or loss.

27.12 Cost of Hedging Reserve

The Company designates the intrinsic value of foreign currency option contracts as hedging instruments in 'Cash Flow Hedge' relationships. The changes in fair value of the time value of an option are recognised in OCI and amortised to the Statement of Profit and Loss on a rational basis.

(iii) Legal Entity Identifier (LEI) Code	Global Legal Entity Identifier Foundation (GLEIF)	335800B4YRYWAMIJZ374

47. Implementation of Govt. Schemes

47.1 Pradhan Mantri Sahaj Bijli Har Ghar Yojana (SAUBHAGYA)

Government of India has launched a scheme "Pradhan Mantri Sahaj Bijli Har Ghar Yojana" - Saubhagya to achieve universal household electrification in the country. The scheme envisages to provide last mile connectivity and electricity connections to all remaining un-electrified households in rural areas and poor households in urban areas. The capital outlay of Saubhagya Scheme is ₹ 16,320 Crore including Gross Budgetary Support of ₹ 12,320 Crore during the entire implementation period. Ministry of Power designated REC as the Nodal agency for operationalization of Saubhagya Scheme.

47.2 Deen Dayal Upadhyaya Gram Jyoti Yojana (DDUGJY)

Deendayal Upadhyaya Gram Jyoti Yojana (DDUGJY) is the flagship scheme of Government of India covering all aspects of rural power distribution. Under the scheme 60% of the project cost (85% for special States) is provided as grant by Government

CONSOLIDATED NOTES TO ACCOUNTS

of India and additional grant upto 15% (5% for special States) on achievement of prescribed milestones. DDUGJY facilitates towards achievement of '24x7 Power for All' in the country through the following project components:

- (i) Separation of agriculture and non-agriculture feeders facilitating adequate power supply to agriculture & continuous power supply to non-agricultural consumers in the rural areas;
- (ii) Strengthening and augmentation of sub-transmission & distribution infrastructure in rural areas, including metering of distribution transformers/ feeders/ consumers;
- (iii) Micro-grid and Off-grid distribution network;
- (iv) Rural Electrification component under the RGGVY 12th and 13th plans, subsumed to DDUGJY.

The components at (i) and (ii) of the above scheme will have an estimated outlay of ₹43,033 Crore including budgetary support of ₹33,453 Crore from Government of India during the entire implementation period. The scheme of RGGVY as approved by CCEA for continuation in 12th and 13th plan have been subsumed in this scheme as a separate Rural Electrification (RE) component.

47.3 National Electricity Fund (NEF)

The National Electricity Fund (NEF), an interest subsidy scheme, has become operational since FY 2012-13. The scheme has been introduced by the Government of India to promote capital investment in the distribution sector. The scheme provides interest subsidy linked with reform measures, on the loans taken by public and private distribution power utilities for various capital works in the Distribution sector. NEF would provide interest subsidy aggregating up to ₹8,466 Crore (including interest subsidy to the borrowers, Service Charges to the Nodal Agency, payments to Independent Evaluators and other incidental expenses) spread over 14 years for loan disbursement against projects approved during 2012-13 and 2013-14. REC has been nominated as the Nodal Agency for operationalization of NEF scheme across the country.

47.4 J&K Prime Minister's Development Plan (PMDP)

Government of Jammu & Kashmir, Power Development Department has appointed RECPDCL and RECTPCL as a Project Implementing Agency (PIA) for design, engineering, procurement, supply, erection, testing and commissioning of all the material and services works to be taken-up for execution of distribution work under PMDP in J&K state on nomination basis, as per actual cost to be discovered through competitive biddings.

47.5 Urja Mitra and 11 kV Feeder Monitoring

Ministry of Power has initiated two schemes namely Urja Mitra and 11 kV Feeder Monitoring. Urja Mitra is an initiative which aims to provide information about power outage/cuts /breakdown/shutdown (both planned and unplanned) to the consumers. Feeder Monitoring scheme is to develop a Self-sustained independent web based system for automated 11 kV Rural Feeder Monitoring System through Data Logging of various essential parameters of all the Outgoing 11kV rural feeders from 66, 33/11 kV sub stations and make the information available online for various stake holders including public portal, on real time basis for power supply monitoring, alerts, meter data analysis, information dissemination and energy audit. RECTPCL has been appointed as nodal agency for the both the schemes.

48. Capital management

The Group manages its capital to ensure that it will continue as going concern while maximizing the return to stakeholders. The capital structure of the Group consists of the equity and the long-term borrowings made by the Group.

Management assesses the Group's capital requirements in order to maintain an efficient overall financing structure while avoiding excessive leverage. The Group manages the capital structure and raises funds through the suitable instruments, in light of the dynamic business environment and liquidity position within the sector. Further, with regard to capital restructuring, the Group is also guided, inter alia, by guidelines on "Capital Restructuring of Central Public Sector Enterprises" issued by Department of Investment and Public Asset Management (DIPAM), Ministry of Finance, Department of Public Enterprises in respect of issue of bonus shares, dividend distribution, buy back of equity shares etc. The Group has complied with all externally imposed capital requirements.

The debt-equity ratio of the Group is as below:

Particulars	(₹ in Crores)	
	As at 31.03.2020	As at 31.03.2019
Total debt	280,065.46	239,216.01
Net Worth	35,396.43	34,546.34
Debt-equity ratio	7.91	6.92

Total debt represents principal outstanding.

CONSOLIDATED NOTES TO ACCOUNTS

Dividend Distribution Policy

BoD monitors the dividend pay-out to the shareholders of the Company. Dividend distribution policy of the Company focuses on various factors including but not limited to the present & future capital requirements, profits earned during the financial year, Capital to Risk-weighted Assets Ratio (CRAR), cost of raising funds from alternate sources, cash flow position and applicable taxes including tax on dividend, subject to the guidelines as applicable from time to time, cash flow position and net worth of the Company, subject to the guidelines as applicable from time to time.

As per the extant guidelines issued by DIPAM, Govt. of India, Company is required to pay a minimum annual dividend of 30% of PAT or 5% of the net-worth, whichever is higher. Though the Company endeavors to declare the dividend as per these guidelines, the Company may propose lower dividend after analysis of various financial parameters, cash flow position and funds required for future growth.

The Company has also adopted various policies for the management of the Company which inter-alia include Comprehensive Risk Management Policy, Whistle Blower Policy, Code for Prevention of Insider Trading in REC Equity Shares/Securities, Policy for prevention of Fraud, The Code of Business Conduct and Ethics for Board Members and Senior Management, Fair Practices Code, etc.

49. Capital to Risk-weighted Assets Ratio

The Company is complying with the Capital Adequacy requirements as prescribed by the Reserve Bank of India. Being an NBFC and Infrastructure Finance Company (NBFC-IFC), REC is required to maintain a Capital to Risk Weighted Assets Ratio (CRAR) of 15% (with a minimum Tier I Capital of 10%)

Particulars	As at 31.03.20	As at 31.03.19
(i) CRAR (%)	16.06%	17.77%
(ii) CRAR - Tier I Capital (%)	13.17%	14.44%
(iii) CRAR - Tier II Capital (%)	2.89%	3.33%

Details of Tier II capital and perpetual debt instruments raised during the financial year are as under:

(₹ in Crores)

Particulars	FY 2019 20	FY 2018-19
Amount of subordinated debt raised as Tier-II capital	-	2,151.20
Amount raised by issue of Perpetual Debt Instruments	-	-

50. Financial Risk Management

The Group's board of directors has overall responsibility for the establishment and oversight of the Company risk management framework. The Group has formulated a comprehensive Risk Management Policy, which covers, inter-alia, Credit Risk, Operational Risk and Market Risk of the organization. The Group's risk management policies are guided by well-defined policies appropriate for various risk categories, independent risk oversight and periodic monitoring. A Risk Management Committee (RMC) has also been constituted under the chairmanship of an Independent Director, whose main function is to identify and monitor various risks of the organization and to suggest actions for mitigation of the same.

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the related impact in the financial statements.

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, loans, financial assets measured at amortised cost, investment in debt securities	Ageing analysis	Bank deposits, liquid funds, diversification of asset base, credit limits and collateral.
Liquidity risk	Borrowings, debt securities, subordinated liabilities, and other financial liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities
Market risk - Currency risk	Recognised financial assets and liabilities not denominated in Indian Rupee (INR)	Cash flow forecasting	Derivative contracts
Market risk - interest rate risk	Borrowings, debt securities and subordinated liabilities at variable interest rates	Sensitivity analysis	Derivative contracts
Market risk - equity price risk	Investments in quoted equity securities	Sensitivity analysis	Diversification of portfolio, with focus on strategic investments

In order to avoid excessive concentrations of risk, the Group's policies and procedures include specific guidelines to focus on maintaining a diversified portfolio. Identified concentrations of credit risks are controlled and managed accordingly.

CONSOLIDATED NOTES TO ACCOUNTS

For managing these risks, the Company has put in place an integrated enterprise-wide risk management mechanism to ensure that these risks are monitored carefully and managed efficiently. Pursuant to RBI notification DNBR (PD) CC.NO./099/03.10.001/2018-19, to augment risk management practices in the Company, the Board has also appointed a Chief Risk Officer (CRO) who is involved in the process of identification, measurement and mitigation of risks. The risk management approach i.e. Company's objectives, policies and processes for measuring and managing each of above risk is set out in the subsequent paragraphs.

50.1 Credit Risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group's exposure to credit risk is influenced mainly by cash and cash equivalents, other bank balances, investments, loan assets, trade receivables and other financial assets. The Group continuously monitors defaults of customers and other counterparties and incorporates this information into its credit risk controls.

50.1.1 Financial assets that expose the entity to credit risk

(₹ in Crores)

Particulars	As at 31.03.2020	As at 31.03.2019
(i) Low credit risk on financial reporting date		
Cash and cash equivalents	1,717.71	381.99
Bank balances other than above	2,257.45	1,733.08
Loans *	299,697.53	256,448.62
Trade Receivables	87.92	117.03
Investments **	1,601.06	1,636.14
Other financial assets	22,099.67	18,363.99
(ii) Moderate credit risk		
Loans *	2,431.27	4,412.62
Trade Receivables	52.01	34.89
(iii) High credit risk		
Loans *	21,255.55	20,348.44
Trade Receivables	33.60	23.83
Other financial assets	30.85	26.69

* Represents the principal outstanding (along with undisbursed amount towards Letters of Comfort) without deduction for expected credit losses

** This does not include investments in equity instruments and venture capital funds as they are carried at FVOCI or FVTPL.

Cash and cash equivalents and bank deposits

Credit risk related to cash and cash equivalents and bank deposits is managed by parking funds in investment grade rated instruments and highly rated banks and also diversifying the deposit base by investing in different instruments/ banks across the country.

Loans

Credit risk related to borrowers are mitigated through adequate security arrangements for the loans by way of hypothecation of future project loan assets, receivables, inventories or any other assets, Govt. Guarantees, Corporate guarantees etc. and additionally Collaterals wherever required. The Company closely monitors the credit-worthiness of the promoters through well-defined entity appraisal guidelines that are configured from systematic institutional and project appraisal process analysis to assess the credit risk and define credit limits of borrower, thereby, limiting the credit risk to pre-calculated amounts. These processes include a detailed appraisal methodology, identification of risks and suitable structuring and credit risk mitigation measures in form of pre-disbursement conditions.

Trade Receivables

Credit risk related to Trade Receivables is mitigated by assessing the credit worthiness of debtors and is managed by monitoring the recoverability of such amounts continuously.

Other financial assets measured at amortized cost

Other financial assets measured at amortized cost includes loans and advances to employees and subsidiaries, security deposits and other amounts recoverable, including from Govt. of India. Credit risk related to these other financial assets is managed by monitoring the recoverability of such amounts continuously.

CONSOLIDATED NOTES TO ACCOUNTS

50.1.2 Expected Credit Losses (ECL) for financial assets other than loans and trade receivables

Company provides for expected credit losses on financial assets other than loans and trade receivables by assessing individual financial instruments for expectation of any credit losses:

- For cash and cash equivalents and other bank balances - Since the Company deals with only high-rated banks and financial institutions for banking operations and the liquid funds category in the debt funds with consistent track record for short term investment of surplus funds, credit risk in respect of cash and cash equivalents, other bank balances and bank deposits is evaluated as very low.
- For investments - Considering that the investments are in debt securities of the State Govt./ minimum investment grade rated Government Companies and Public Sector Banks, credit risk is considered low.
- For other financial assets - Credit risk is evaluated based on Company's knowledge of the credit worthiness of those parties and loss allowance is measured for 12 month expected credit losses upon initial recognition and provide for lifetime expected credit losses upon significant increase in credit risk.

Details of expected credit loss for financial assets other than Loans and Trade Receivables is disclosed as follows:

(₹ in Crores)

Particulars	As at 31.03.2020			As at 31.03.2019		
	Gross Carrying Amount	ECL	Net Carrying amount	Gross Carrying Amount	ECL	Net Carrying amount
Cash and cash equivalents	1,717.71	-	1,717.71	381.99	-	381.99
Bank balances other than above	2,257.45	-	2,257.45	1,733.08	-	1,733.08
Investments	1,601.06	-	1,601.06	1,636.14	-	1,636.14
Other financial assets*	22,130.52	30.85	22,099.67	18,390.68	26.69	18,363.99

*The impairment allowance has been provided in full on other financial assets considered as credit-impaired.

50.1.3 Expected Credit Loss for loans

For risk management reporting purposes, the Company considers and consolidates following elements of credit risk:

- (i) Credit default risk: The risk of loss arising from a debtor being unlikely to pay its loan obligations in full or the debtor is more than 90 days past due on any material credit obligation; default risk may impact all credit-sensitive transactions, including loans and securities.
- (ii) Concentration risk: The risk associated with any single exposure or group of exposures with the potential to produce large enough losses to threaten Company's core operations.

(A) Credit Risk Management

The credit risk is managed at different levels including at appraisal, disbursements and post disbursement monitoring. The Company has "Integrated Rating Guidelines" and "Comprehensive Risk Management Policy". To mitigate credit risk, the company follows systematic institutional and project appraisal process to assess the credit risk. These processes include a detailed appraisal methodology, identification of risks and suitable structuring and credit risk mitigation measures. Further, on regular basis the projects risk are reviewed and categorized as High/Moderate/Low based on different risk parameters and exposure of the project as per Project Risk Categorization Frameworks. The process for Credit Risk Management are as under:

- (i) The Company has "Integrated Rating Guidelines" covering credit assessment, risk grading, collateral requirements, reporting, monitoring of end utilisation of funds etc. Further, independent Lender legal counsels are appointed to ensure effective documentation and mitigation of legal risk
- (ii) For all existing private sector projects, where the Company is Lead Financial Institution, the Company engages Lender's Independent Engineers (LIE), Lender's Financial Advisors (LFA) and Lender's Insurance Advisors (LIA), which are independent agencies who act on behalf of various lenders and consortium members. LIE conducts periodic site visits and submits reports on progress status of the project, after discussion with borrower and inspection/ review of relevant documents. LFA submit the statements of fund flow and utilization of funds in the project periodically. In cases where the Company is not the lead Financial Institution, the tasks related to LIE and LFA services are being coordinated with the lead lender.

CONSOLIDATED NOTES TO ACCOUNTS

The Company also endeavors to appoint a separate Project Management Agency (PMA) for new projects being financed, which subsumes the entire works of LIE /Project Management Consultant (PMC), LFA and LIA for better coordination among the agencies. PMA is stationed at project site to closely monitor various day to day project execution activities including monitoring of project progress, review of EPC/non-EPC contracts & invoices, fund utilization and insurance for the project. PMA also verifies the bills of original equipment manufacturer/ supplier, composite works contractor and give its recommendation for disbursement. Initial due diligence is also be performed by PMA taking the sanctity of technical and financial parameters including original project cost & COD.

Concurrent Auditors/Agencies for Specialized monitoring/Cash Flow monitoring agencies are being appointed by REC/Lenders on case to case basis for effective monitoring of Trust & Retention Account (TRA) for stressed projects.

- (iii) The Company has an authorisation structure for the approval and renewal of credit facilities. Authorisation limits have been established commensurating with the size of business proposal at CMD/Executive Committee/Loan Committee/Board of Directors based on the recommendation of Screening Committee, as appropriate.
- (iv) The Company has developed risk grading structure to categorise its exposures according to the degree of risk of default by charging appropriate interest rates and security package.
- (v) Regular reports on the credit quality of loan portfolios are provided to Risk Management Committee and Board, which may require appropriate corrective action to be taken.
- (vi) External agencies are appointed from time to time to review the guidelines, policy and existing practices being followed by business units along with providing the specialist skills to promote best practice throughout the Company for management of credit risk.
- (vii) Individual and Group Credit Exposures are assessed against designated limits, before facilities are committed to borrowers by the business unit concerned. Sanction of additional facilities are also subject to the same review process.
- (viii) The Company continuously monitors delays and/ or default of borrowers & other counterparties and their recoverability. On occurrence of default in the borrower's account, the Company initiates necessary steps to cure the default which may involve action(s) including, but not limited to, Special Mention Account (SMA) reporting to RBI, credit information reporting to Central Repository of Information on Large Credits (CRILC), etc., monitoring of the TRA account, conversion of loan into equity as per loan agreement, restructuring of loan account, formulating resolution plan with the borrower, change in ownership, Corporate Insolvency Resolution Process (CIRP), sale of the exposures to other entities/ investors and other recovery mechanisms including invocation of guarantees/ securities to recover the dues.

(B) Credit risk Measurement

The impairment loss allowance on loan assets is provided as per Ind AS 109 in accordance with a board-approved policy, which measures the credit risk on the basis of key financial and operational parameters to assess improvement/ deterioration in credit quality. Management overlays to the model output, if any, are duly documented and approved by the Audit Committee. The evaluation of Expected Credit Loss (ECL) is undertaken by an independent agency, ICRA Analytics Limited (formerly ICRA Online Limited).

The Company has an internal system of grading for State Governments, Public Sector Undertakings and State Power Utilities. However, for Distribution Companies (DISCOMs), the Company adopts the ratings by the Ministry of Power as and when they are updated. These ratings are mapped with external rating grades published by various credit rating agencies as part of rating transition matrix. For private borrowers, the Company uses the external rating as published by various credit rating agencies, or proxy risk score in case such rating is not available. The proxy risk score model considers following parameters :

Quantitative Factors

- Debt/ EBITDA (30% weightage)
- Return on Capital Employed (15% weightage)
- Interest Coverage (25% weightage)
- Gearing (Debt/Equity) (30% weightage)

Qualitative Factors

- Quarter wise Operational Parameters like PPA, PLF, ACS – ARR Gap, and LAF
- Actual Default dates, loan restructuring details
- Status of the Project

CONSOLIDATED NOTES TO ACCOUNTS

(C) Measurement of Expected Credit Loss (ECL)

Ind AS 109 outlines a “three stage” model for impairment based on changes in credit quality since initial recognition as summarised below:

- A financial instrument that is not credit impaired on initial recognition and whose credit risk has not increased significantly since initial recognition is classified as “Stage 1”.
- If a significant increase in credit risk since initial recognition is identified, the financial instrument is moved to “Stage 2” but is not yet deemed to be credit impaired.
- If a financial instrument is credit impaired, it is moved to “Stage 3”.
- Financial instrument in Stage 1 have their ECL measured at an amount equal to expected credit loss that results from default events possible within the next 12 months. Instruments in Stage 2 or Stage 3 criteria have their ECL measured on lifetime basis.

(D) Significant Increase in Credit Risk (SICR)

The Company considers a financial instrument to have experienced a significant increase in credit risk when on any financial instrument if the payment is more than 30 days past due on its contractual payments. However, based on historical data, it has been noticed that such overdue amounts for more than 30 days do not signify significant increase in credit risk for state utilities.. Therefore, the Company has applied this criteria only for private entities. However, In case of State sector borrowers with dues more than 60 days but less than 90 days, the external rating or risk score computed using the model will be downgraded by one notch to better capture the riskiness of the borrower.

(E) Low credit risk exemption

Ind-AS provides an optional simplification to assume that the credit risk on a financial asset has not increased significantly since initial recognition (and thus remain in stage 1) if the financial asset is considered to have a low credit risk at the reporting date.

Credit risk is considered to be ‘low’ when the financial instrument has a low risk of default, the borrower has a strong capacity to meet its contractual cash flow obligations in the near term and adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfill its contractual cash flow obligations.

The Company considers loan assets having External credit rating between AAA to A, to have low credit risk. Further, the Company has taken low credit risk exemption for all state utilities as the Company considers that loans to state sector have a low credit risk in comparison to lending to private sector mainly due to low default/ loss history in state sector and availability of government guarantee in certain loans. Further, presence of Government interest in these projects lowers the risk of non-recoverability of dues.

(F) Definition of default and credit-impaired assets

The Company defines a financial instrument as in default, which is fully aligned with the definition of credit-impaired, when the loan account is more than 90 days past due on its contractual payments or or any such period allowed by the company in line with circular issued by the Reserve Bank of India.

(G) Measuring ECL - explanation of inputs, assumptions and estimation techniques

Expected credit losses are the product of the probability of default (PD), exposure at default (EAD) and loss given default (LGD), defined as follows:

- PD represents the likelihood of the borrower defaulting on its obligation either over next 12 months or over the remaining lifetime of the instrument.
- ‘EAD represents the amounts, including the principal outstanding, interest accrued and outstanding Letters of Comfort that the Company expects to be owed at the time of default.
- LGD represents the Company’s expectation of loss given that a default occurs. LGD is expressed in percentage and it shows the proportion of the amount that will actually be lost post recoveries in case of a default.

Determination of Probability of Default (PD)

The Company has analysed the rating transition matrix published by ICRA to arrive at annual transition matrix. This annual transition matrix was extrapolated to arrive at the lifetime probability of default of various rating grades by loan tenure / maturity profile i.e. lifetime PD.

Loss Given Default (LGD) computation model

Based on the historical trend, research and industry benchmarking the Company has constructed a LGD model. Factors reviewed in the LGD model include Project cost per unit, PPA status, FSA status etc. Based on internal research the company has benchmarked these factors for Thermal, Renewable in Private Sector. In case of Private sector Transmission and Distribution companies the realizable value of the assets were arrived at using suitable assumptions to arrive at LGD. For State Government

CONSOLIDATED NOTES TO ACCOUNTS

and Public sector projects, the Company has factored in the state support and assumed that the State/Central governments would step in to repay debt obligations of the state utilities as witnessed in the past.

(H) Alignment of LGD in case of Stage 3 Assets

Stage-3 assets where REC and PFC (Group Companies) are in Consortium for Stage-III Loan accounts, LGD is taken on the following basis:

- (a) In cases where either REC or PFC is lead lender, LGD % calculated by the lead lender is adopted.
- (b) In cases where neither REC nor PFC is lead lender, higher of the LGD% worked out by REC and PFC is adopted.

(I) Key assumptions used in measurement of ECL

- (i) The Company considers the date of initial recognition as the base date from which significant increase in credit risk is determined.
- (ii) EAD represents the amounts, including the principal outstanding, interest accrued and outstanding Letters of Comfort that the Company expects to be owed at the time of default.

(J) Credit Risk Exposure

Credit Risk Exposure in respect of the borrowers with different credit ratings is as under

(₹ in Crores)

External/Mapped credit rating	As at 31.03.2020				As at 31.03.2019			
	Stage 1	Stage 2	Stage 3	Total	Stage 1	Stage 2	Stage 3	Total
AAA	37,832.86	-	-	37,832.86	-	-	-	-
AA	82,131.73	-	-	82,131.73	3,239.02	-	-	3,239.02
A	71,840.30	-	-	71,840.30	56,158.84	-	-	56,158.84
BBB	28,629.56	-	-	28,629.56	40,834.51	-	-	40,834.51
BB	60,555.15	36.22	-	60,591.37	57,967.67	519.32	-	58,486.99
B	9,876.29	23.37	-	9,899.66	47,683.74	1,030.31	-	48,714.05
C	2,215.02	29.68	-	2,244.70	46,119.65	2,862.99	-	48,982.64
D	-	2,342.00	21,255.55	23,597.55	-	-	20,348.44	20,348.44
Government Loan	6,616.62	-	-	6,616.62	4,445.19	-	-	4,445.19
Gross carrying amount	299,697.53	2,431.27	21,255.55	323,384.35	256,448.62	4,412.62	20,348.44	281,209.68
Loss allowance	488.46	963.83	10,552.13	12,004.42	525.26	1,273.72	9,698.95	11,497.93
Carrying amount	299,209.07	1,467.44	10,703.42	311,379.93	255,923.36	3,138.90	10,649.49	269,711.75

(K) Collateral and other credit enhancements

The Company employs a range of policies and practices to mitigate credit risk. The most common of these is accepting collateral for funds disbursed. The Company has internal policies on the acceptability of specific classes of collateral or credit risk mitigation. The principal collateral types for loans and advances are:

- Mortgage of Immovable properties
- Hypothecation of Moveable property
- Assignment of project contract documents
- Pledge of instruments through which promoters' contribution is infused in the project
- Pledge of Promoter Shareholding
- Corporate and personal Guarantee of Promoters

(L) Loss allowance

The loss allowance recognized in the period is impacted by a variety of factors, as described below:

- Transfers between Stage 1 and Stages 2 or 3 due to financial instruments experiencing significant increases (or decreases) of credit risk or becoming credit-impaired in the period, and the consequent "step up" (or "step down") between 12-month and Lifetime ECL
- Additional allowances for new financial instruments recognised during the period, as well as releases for financial instruments de-recognised in the period
- Impact on the measurement of ECL due to changes in PDs, EADs and LGDs in the period, arising from regular refreshing of inputs to models
- Financial assets derecognised during the period and write-offs of allowances related to assets that were written off during the period

The following tables explain the changes in the loan assets (including undisbursed Letters of Comfort) and the corresponding ECL allowance between the beginning and the end of the reporting period:

(₹ in Crores)

FY 2019-20	Stage 1		Stage 2		Stage 3		Total	
	Gross Amount	12 months ECL	Gross Amount	Lifetime ECL	Gross Amount	Lifetime ECL	Gross Amount	ECL
Opening Balance	256,448.63	525.25	4,412.61	1,273.73	20,348.44	9,698.95	281,209.68	11,497.93
Transfer to 12 months ECL	1,557.46	107.88	(1,549.63)	(105.92)	(7.83)	(1.96)	(0.00)	(0.00)
Transfer to life time ECL not credit impaired	(25.11)	(1.64)	92.99	18.61	(67.89)	(16.97)	(0.01)	-

(Q) Write off policy

The Company writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include ceasure of enforcement activity or where the Company's recovery method is foreclosing on collateral and the value of collateral is such that there is no reasonable expectation of recovery in full.

(R) Business Model Policy

The Company determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective. The Company's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios.

The Company is in the business of lending loans across power sector value chain and such loans are managed to realize the cash flows by collecting contractual payments (including principal and interest) over the tenure of the loan. Further, investments in the nature of debt investments and other financial assets may also be held by the Company to collect the contractual payments as per the agreed terms.

The Company's business model therefore is "hold to collect" for Loans, certain Financial Investments and Other Financial Assets. Such financial assets are measured at amor tised cost if the contractual terms gives rise to cash flows that are solely payments of principal and interest on the amount outstanding.

CONSOLIDATED NOTES TO ACCOUNTS

(S) Policy for sales out of amortised cost business

The Company does not resort to the sale of financial assets, including loan assets, in ordinary course of business.

However, the company may proceed for realization of amount due in respect of credit-impaired assets, as per the regulatory framework in India. As a result, the credit impaired loan may be either restructured/renegotiated or settled as part of IBC proceedings or otherwise and is assessed for derecognition as per the requirements of Ind AS 109 – Financial Instruments.

The Company has also not entered into any transaction of sale/ purchase of credit-impaired assets, except as below:

Particulars	FY 2019-20	FY 2018-19
No. of Accounts sold/settled as part of IBC proceedings	1	-
Aggregate Outstanding (₹ in Crores)	236.80	-
Aggregate consideration received (₹ in Crores)	124.13	-

(T) The Company has not entered into any securitisation/ assignment transactions during the year ended 31st March 2020 (Previous year Nil). Further, no assets have been sold to securitisation/ reconstruction company for asset reconstruction.

(U) Accounts with overdues beyond 90 days but not treated as credit impaired (excluding accounts to whom relief under RBI Covid-19 Relief package has been allowed)

(₹ in Crores)

Particulars	Number of accounts	Total Amount outstanding	Overdue amount
As at 31.03.2020	1	2,342.00	2,244.97
As at 31.03.2019	1	2,302.00	1,536.01

One of the borrowers, M/s RKM Powergen Pvt Ltd. has obtained an ad-interim order from Hon'ble High Court of Madras on 18th September 2015 not to classify the account as Non-Performing Asset. Accordingly, the loan outstanding of the borrower has not been classified as Stage III Asset, even though the overdues are more than 90 days old and the asset is credit impaired. However, the Company has created an adequate provision of ₹961.63 crore @ 41.06% of the loan outstanding of ₹2,342 crore (As at 31st March 2019 - ₹942.67 crore @ 40.95% of loan outstanding of ₹2,302 crore) as per Expected Credit Loss (ECL) Methodology as on 31st March 2020 after considering the financial and operational parameters of the project.

(V) Disclosure in respect of Moratorium and Asset Classification with regards to RBI Covid-19 Regulatory Package pursuant to RBI Circular D.O.R.NO.BP.BC.63/21.04.048/2020-21 dated 17 April 2020

(₹ in Crores)

The difference between the impairment allowance under Ind AS 109 and the provisioning required under Income Recognition, Asset Classification and Provisioning (IRACP) Norms (including standard asset provisioning) issued by RBI is appropriated to "Impairment Reserve". Refer Note 27.9.

CONSOLIDATED NOTES TO ACCOUNTS

50.1.4 Expected Credit Loss for Trade Receivables

The entity provides for lifetime credit losses in respect of trade receivables of RECPDCL, one of the subsidiary of REC using simplified approach under ECL method

(Amount ₹ in Crores)

Particulars	Less than 1 year	1 year- 2 year	2 year- 3 year	More than 3 year	Total
As at 31st March 2020					
Gross carrying value	70.93	42.14	9.86	33.60	156.53
Expected loss rate	14.70%	25.20%	50.00%	100.00%	38.06%
Expected credit loss (provision)	10.43	10.62	4.93	33.60	59.58
Carrying amount (net of impairment)	60.50	31.52	4.93	-	96.95
As at 31st March 2019					
Gross carrying value	94.13	31.52	3.37	23.83	152.85
Expected loss rate	10.36%	8.76%	50.15%	100.00%	24.88%
Expected credit loss (provision)	9.75	2.76	1.69	23.83	38.03
Carrying amount (net of impairment)	84.38	28.76	1.68	-	114.82

RECPDCL assumes significant increase in credit risk on Trade Receivables outstanding for more than 1 year.

In case of RECTPCL, there is no history of losses and expected losses, hence the Company has not prepared any general provisions in the current year. The impairment provisions as at 31 March 2020 represents impairment provision on trade receivables created over specific assets rather than a general approach, due to some delay expected from recoveries of certain projects from a debtor JKPDD. The same delay is not originated from the date of recognition, but developed during the due course of operations. The company has created impairment loss allowance against the following trade receivables during the year:

(₹ in Crores)

Particulars	As at 31.03.2020		
	Gross Trade Receivables	Impairment Loss allowance	Net Trade Receivables
JKPDD-UDAY	4.98	0.97	4.01
JKPDD-PMA	4.78	0.92	3.86
JKPDD-PIA	7.08	1.34	5.74
Total	16.84	3.23	13.61

Impairment loss allowance as at 31st March, 2019 is Nil.

As at 31st March 2020, other trade receivables included in the financial statements of RECTPCL for which there is no Expected Credit Loss amounts to ₹ 3.93 crores (₹ 22.90 crores as on 31.03.2019)

50.2 Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due.

The Company manages its liquidity risk through a mix of strategies, including forward-looking resource mobilization based on projected disbursements and maturing obligations. The Company has put in place an effective Asset Liability Management System and has also constituted an Asset Liability Management Committee ("ALCO") which monitors the liquidity risk with the help of liquidity gap analysis.

The Company maintains adequate bank balances, short term investments that are readily convertible into cash and adequate borrowing and overdraft facilities by continuously monitoring the forecast and actual cash flows.

50.2. 1 Maturity Pattern of Future Undiscounted Cash Flows

The cash flows towards items of financial liabilities (representing future undiscounted cash flows towards principal and interest) is as under:

CONSOLIDATED NOTES TO ACCOUNTS

50.3 Market Risk - Currency Risk

The Company is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the US Dollar, EURO and JPY. Foreign exchange risk arises from recognised liabilities denominated in a currency, other than the functional currency of the Company. To mitigate the Company's exposure to foreign currency risk, non-INR cash flows are monitored and derivative contracts are entered into in accordance with the Company's risk management policies.

The Company has a board-approved Risk Management Policy which inter-alia aims to manage risks associated with foreign currency borrowings. Parameters like hedge ratio, un-hedged exposure, mark-to market position, exposure limit with banks etc. are monitored as a part of foreign exchange risk and interest rate risk management. This policy provides the guiding parameters within which the Company can take decisions for managing the Currency Risk and interest risk that it is exposed to on account of foreign currency loan, including debt securities. The purpose of the policy is to provide a framework to the Company for management of its foreign currency risk and interest rate risk.

An Asset Liability Management Committee (ALCO) is currently functioning under the chairmanship of CMD with Functional Directors, executive directors and Chief General Managers from Finance and Operating Divisions as its members. ALCO monitors Foreign currency risk with exchange rate and interest rate managed through various derivative instruments. The Company enters into various derivative transactions to cover exchange rate through various instruments like foreign currency forwards contracts, currency options, principal only swaps and forward rate agreements. These derivative transactions are done for hedging purpose and not for trading or speculative purpose.

In respect of foreign currency debt securities and borrowings, the company has also executed cross currency swaps (principal and/or interest) to hedge the Foreign Currency Exposure. The outstanding position of Foreign Currency Exposure as at 31st March 2020 is as under:

(Foreign Currency amounts in Millions, INR equivalent in ₹ Crores)

Currency	As at 31.03.2020			As at 31.03.2019		
	Total Exposure	Hedged through Derivatives	Unhedged Exposure	Total Exposure	Hedged through Derivatives	Unhedged Exposure

JPY/INR	2.95	(2.95)	3.07	(3.07)
EUR/INR	7.91	(7.91)	6.43	(6.43)
SGD/INR	-	-	-	-

* Holding all other variables constant

Hedge accounting

The Company is exposed to foreign currency risk from various foreign currency borrowings primarily denominated in USD, EURO, JPY and SGD. These borrowings also exposed to interest rate risk as most of the borrowings are carry interest rate linked to LIBOR, EURIBOR etc. The Company has a risk management policy which aims to hedge foreign currency and interest rate arising from its borrowings denominated in a currency other than the functional currency of the Company. The Company uses combination of foreign currency options structures, forward contracts, cross currency swap and interest rate swaps to hedge its exposure to foreign currency and interest rate risk.

The Company designates certain derivatives as hedging instruments in respect of foreign currency risk and interest rate risk in cash flow hedges. For option contracts, the Company designates only the intrinsic value of option contracts as a hedged item by excluding the time value of the option. The changes in the fair value of the aligned time value of the option are recognised in other comprehensive income and accumulated in the cost of hedging reserve. The time value of the options at the inception of the hedging relationship is reclassified to profit or loss on a straight-line basis.

Hedge ineffectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument. The Company applies the following effectiveness testing strategies:

- (i) For cross currency swaps and interest rate swaps that exactly match the terms of the terms of the hedged item, the economic relationship and hedge effectiveness are based on the qualitative factors using critical terms match method.
- (ii) For other interest rate swaps (in cases of late designation), the Company uses dollar offset method using a hypothetical derivatives, dollar offset method is a quantitative method that consists of comparing the change in fair value or cash flows of the hedging instrument with the change in fair value or cash flows of the hedged item attributable to the hedged risk.
- (iii) For option structures, the Company analyses the behaviour of the hedging instrument and hedged item using regression analysis based dollar offset method.

The Company has established a hedge ratio of 1:1 for the hedging relationships as the underlying risk and notional amount of the hedging instruments are identical to the hedged items.

(a) Effects of hedge accounting on balance sheet as at 31st March, 2020

(₹ in Crores)

50.4 Market Risk - Interest Rate Risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in interest rates. Interest rates are dynamic and dependent on various internal and external factors including but not limited to RBI policy changes, liquidity in the market, movement of external benchmarks such as AAA bond/ G-Sec yields etc. The Company manages its interest rate risk through various derivative contracts like interest rate swap contracts, forward interest rate contracts to minimize the risk of fluctuation in interest rates.

The table below shows the overall exposure of the Company to interest rate risk on the floating rate liabilities, along with the bifurcation under hedged/ un-hedged category as at 31st March 2020 is as under:

(Foreign Currency amounts in Millions, INR equivalent in ₹ Crores)

Currency	As at 31.03.2020			As at 31.03.2019		
	Floating Interest Rate Exposure	Hedged through Derivatives	Unhedged Exposure	Floating Interest Rate Exposure	Hedged through Derivatives	Unhedged Exposure

Total INR Equivalent	45,439.70	22,434.32	23,005.38	40,808.70	14,514.50	26,294.20

The Company's lending portfolio carries interest at semi-fixed rate i.e. fixed rate of interest with 1/3/10 year reset option with the borrower. The Company reviews its lending rates periodically based on prevailing market conditions, borrowing cost, yield, spread, competitors' rates, sanctions and disbursements etc. In order to manage pre-payment risks, the Company charges pre-payment premium from borrowers in case of pre- payment of loan. The interest rate risk is managed by the analysis of interest rate sensitivity gap statements and by evaluating the creation of assets and liabilities with a mix of fixed and floating interest rates.

CONSOLIDATED NOTES TO ACCOUNTS

The Company is exposed to interest rate risk on following Loan Assets which are at semi-fixed rates:

(₹ in Crores)

Description	As at 31.03.2020	As at 31.03.2019
Rupee Loans	312,065.92	279,021.68

Sensitivity Analysis

The table below represents the impact on P&L (Gain / (Loss) for 50 basis points increase or decrease in interest rate on Company's floating rate assets and liabilities on the unhedged exposures:

(₹ in Crores)

Particulars	As at 31.03.2020		As at 31.03.2019	
	Increase	(Decrease)	Increase	(Decrease)
Floating Rate Loan Liabilities	(86.08)	86.08	(85.53)	85.53
Floating/ semi-fixed Rate Loan Assets	1,167.63	(1,167.63)	907.60	(907.60)

* Holding all other variables constant

The above sensitivity analysis has been prepared assuming that the amount outstanding at the end of the reporting period remains outstanding for the whole year. A 50 basis point increase or decrease represents management's assessment of the reasonably possible change in interest rates.

50.5 Market Risk - Price risk

The Company is exposed to price risks arising from investments in equity shares and units of venture capital funds. The Company's investments are held for strategic rather than trading purposes.

Sensitivity Analysis

The table below represents the impact on OCI Gain / (Loss) for 5% increase or decrease in the respective prices on Company's equity investments, outside the group:

(₹ in Crores)

Particulars	As at 31.03.2020		As at 31.03.2019

52. Impact of Covid-19 Pandemic on the Company

The SARS-COV-2 virus responsible for Covid-19 continues to spread across the Globe including India, which has resulted in a significant decline and volatility in global and Indian financial markets. It has also caused a significant disruption in the Global and Indian economic activities. On 11 March 2020, the Covid-19 outbreak was declared a global pandemic by the World Health Organisation (WHO). The situation has been under close watch by the Company to take prompt actions for continuity of business operations in an optimised manner.

Impact on Business Operations

Amidst the tumult of this unprecedented period, the Company had allowed the employees to "Work From Home" even before the announcement of national lockdown with priority to safeguard the health and well-being of our employees. The Company extensively leveraged the digital technology for review & monitoring, information-sharing and knowledge management. The strong Information Technology capability coupled with the availability of E-Office and ERP applications through secure Virtual Private Network (VPN) allowed the Company to continue the business operations without any significant disruptions due to lockdown. During the last fortnight of the year 2019-20, the Company disbursed loans amounting to ₹ 6,476 crores, while ending the year with disbursements of ₹ 75,667 crores.

Impact on Lending Operations

The Govt. and various regulators have also introduced a variety of measures to contain the spread of virus and to mitigate the impacts of economic disruptions.

The Reserve Bank of India (RBI), in order to mitigate the burden of debt servicing brought about by disruptions of business activities, permitted Lending Institutions for rescheduling of payments in respect of term loans and Working Capital facilities vide Notification No. RBI/ 2019-20/186 DOR.No.BP.BC.47/21.04.048/2019-20 dated 27 March 2020 hereinafter refer to as "RBI Notification". In line with the RBI notification, the Company has put in place a board-approved policy framework according to which the borrowers can avail a maximum of three months moratorium on payment of principal and/or interest (including additional interest/ further interest/ charges, wherever applicable) on term loans falling due between 1 March 2020 and 31 May 2020. Such moratorium is eligible to the borrowers if the borrowers do not have any overdues as on 1 March, 2020 or if such overdues have been cleared subsequently upto 31st May 2020. The Company has already recovered more than 78% of the total recoveries of more than ₹ 9,500 crore due for March 2020. In accordance with the board approved policy, an amount of ₹ 5,172 crores has been deferred representing the amounts falling due between the moratorium period.

Further in line with RBI circular dated 17 April 2020, in case of the standard borrowers and to whom such moratorium has been granted, the period of such moratorium has been excluded from the number of 'Days Past Due' for the purpose of asset classification. However, had this relaxation benefit not been provided, only one borrower with loan outstanding of ₹ 23.37 crores would have otherwise been downgraded as Stage- 3 asset.

CONSOLIDATED NOTES TO ACCOUNTS

Availability of Funds from Diverse Sources

The Company has access to various sources for funding its operations including domestic institutional bonds as well as foreign currency bonds, which enhances the reach of the Company to obtain funds from various geographies including United States of America and Europe. Post 31st March 2020, the Company has been able to raise more than ₹ 14,000 crores through domestic bonds and loans from banks & financial institutions. Further, the Company has also raised bonds and term loans amounting to USD 800 Million, amounting to ₹ 6,047 crores during the same period. This includes USD 500 Million raised through USD Bonds wherein REC became the first Indian company to successfully raise USD bonds during the Covid-19 pandemic on 12 May 2020.

Additionally, the Company has available limits of more than ₹ 7,000 crores towards long term loans and ₹ 5,000 crores towards Working Capital Loans from various banks. As such, the company has been able to mitigate any negative impact on its liquidity position, allowing the Company to sustain its lending operations without any material impact.

Covid-19 Relief Package for the Power Sector

Majority of the Power Generation Companies had their power plants operational throughout the lockdown period with limited disruptions in early times of Lockdown. As per the guidelines by Central & State Governments issued from time to time, industries, offices and other commercial places representing major electricity consumers have started resuming their operations with limited capacity. This is steadily increasing the demand for electricity which suffered temporary dips during the lockdown period.

The Govt. of India, as a part of its Covid-19 relief package, has announced liquidity injection to the State discoms in the form of State Govt. guaranteed loans through REC and PFC to clear the outstanding dues of Power Generation and Transmission Companies. Further, the State Governments have been allowed additional borrowing limits from RBI, provided they provide a roadmap for several reform measures, which inter alia includes power sector reforms. The Govt. has also announced to release a tariff policy shortly laying out several reforms for the Power sector, including but not limited to privatisation of discoms in Union Territories etc.

In conjunction with the above cited actions taken by RBI and Government of India and REC's liquidity position and access to diverse sources of funds, at present, there are no reasons to believe that the current crisis will have any significant impact on the ability of the Company to maintain its operations, including the assessment of going concern for the Company. However, the extent to which the Covid-19 pandemic will impact the Company will depend on future developments, which are uncertain, including, among other things, any new information concerning the severity of the Covid-19 pandemic and any further action by the Govt. or the Company to contain its spread or mitigate its impact.

53. Exposure Related Disclosures

RBI, vide its letter dated 17th September 2010 had categorized REC as an Infrastructure Finance Company (IFC) in terms of instructions contained in RBI Circular CC No.168 dated 12th February 2010. As an IFC, the total permissible exposure for lending in the private sector is 25% of owned funds in case of single borrower and 40% in case of a single group of borrowers and exposure for lending and investing taken together can be upto 30% and 50% of owned funds, respectively.

In respect of Central/State Government entities, RBI vide its letter No.DNBR.PD.CO.No.2184/03.10.001/2015-16 dated 16th June 2016 has exempted REC from applicability of RBI's concentration of credit/investment norms till 31st March, 2022. In view of the above, our maximum credit exposure limits to Central and State power Utilities continue to vary from 50% to 250% of owned funds, depending upon entity appraisal.

In respect of Private Sector entities, the Company's credit exposure to single borrowers and group borrowers did not exceed the RBI prudential exposure limits as at 31st March 2020 and 31st March 2019.

53.1 Exposure to Real Estate Sector

The Company has no exposure to real estate sector as at 31st March 2020 (As at 31st March 2019 Nil).

Total		311,442.65	263,702.57

54.1 Fair values hierarchy

The fair value of financial instruments as referred above has been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities [Level 1 measurements] and lowest priority to unobservable inputs [Level 3 measurements].

The categories used are as follows:

Level 1: Quoted prices (unadjusted) for identical instruments in an active market;

Level 2: Directly (i.e. as prices) or indirectly (i.e. derived from prices) observable market inputs, other than Level 1 inputs; and

Level 3: Inputs which are not based on observable market data (unobservable inputs).

The Company's policy is to recognize transfers into and transfer out of fair value hierarchy at the date of event or change in circumstances that caused the transfer.

Valuation Techniques for fair value disclosures (Level 1, Level 2 and Level 3)

- (A) Investment in Quoted Equity Investments - Level 1 - Investment in listed equity instruments are measured at their readily available quoted price in the market.
- (B) Investment in Venture Capital Fund - Level 2 - Investment in venture capital fund are measured at their fair value as per the Net Asset Value (NAV) Certificate shared by the fund.
- (C) Derivative Financial Instruments - Level 2 - The fair value has been determined on the basis of mark to market value provided by the banks that have contracted to hedge the underlying risk. Such valuation is calculated using market observable inputs including forward exchange rates, interest rates corresponding to the maturity of the contract and implied volatilities.
- (D) Investment in Perpetual Bond Investments - Level 3 - The Company has made investments in perpetual bonds of Indian Bank, Bank of Baroda and Syndicate Bank which are quoted on NSE/BSE. The Company checks for active market transactions for these bonds. However, there is no history of any market activity in these bonds held by the Company, and therefore, quoted price for such bonds is not available. The Company checks for any significant changes in credit rating of the investee banks, and if no change is noted, then, coupon rate is considered for computing the fair value using discounted cash flow method.
- (E) Investment in Unquoted Equity Investments - Level 3 - Investment in unquoted equity shares of Universal Commodity Exchange Ltd. (UCX) is classified as Level 3. It has been carried at Nil value by the Company due to the company specific reasons. UCX was shut down in 2014, thereby, ceasing to exist as a going concern.
- (F) Investment in Unquoted Preference Shares - Level 3 - Investment in unquoted Optionally Convertible Cumulative Redeemable Preference Shares (OCCRPS) of Rattan India Power Ltd. (RIPL) are classified as Level 3. The company has been allotted OCCRPS of the borrower company i.e. RattanIndia Power Ltd. pursuant to One Time Settlement arrangement executed on 23rd December 2019. The fair value has been derived by present value technique by discounting estimated future cash flows as per the terms of the agreement. Any change in expectation of future cash flow is adjusted to reflect change in fair value of the investment. (For details refer Note: 11.1).

Valuation methodologies of financial instruments not measured at fair value

Below are the methodologies and assumptions used to determine fair values for the above financial instruments which are not recorded and measured at fair value in the Company's financial statements. These fair values were calculated for disclosure purposes only. The below methodologies and assumptions relate only to the instruments in the above tables:

CONSOLIDATED NOTES TO ACCOUNTS

Financial assets and liabilities

For financial assets and financial liabilities that have a short-term maturity (less than twelve months), the carrying amounts, which are net of impairment, are a reasonable approximation of their fair value. Such instruments include: cash and balances, Trade receivables, Contract assets, balances other than cash and cash equivalents, trade payables and contract liability without a specific maturity.

Loans and advances to customers

Fair values of loan assets are calculated using a portfolio-based approach, grouping loans as far as possible into homogenous groups based on similar characteristics. The Company then calculates and extrapolates the fair value to the entire portfolio, using discounted cash flow models that incorporate interest rate estimates considering all significant characteristics of the loans. Where such information is not available, the Company uses historical experience and other information used in its collective impairment models.

Financial assets at amortised cost

The fair values of debt securities measured at amortised cost are estimated using a discounted cash flow model based on contractual cash flows using actual or estimated yields and discounting by yields incorporating the counterparties' credit risk.

Issued debt

The fair values of the Company fixed interest-bearing debt securities, borrowings and subordinated liabilities are determined by applying discounted cash flows ('DCF') method, using discount rate that reflects the issuer's borrowing rate as at the end of the reporting period. The own non-performance risk as at 31st March 2020 was assessed to be insignificant.

All other debt securities, borrowings and subordinated liabilities availed by the Company are variable rate facilities which are subject to changes in underlying Interest rate indices. Further, the credit spread on these facilities are subject to change with changes in Company creditworthiness. The management believes that the current rate of interest on these loans are in close approximation from market rates applicable to the Company. Therefore, the management estimates that the fair value of these borrowings are approximate to their respective carrying values.

55. Disclosure under Micro, Small and Medium Enterprises Development Act, 2006:

(₹ in Crores)

56.4 Terms and conditions of transactions with related parties

The Company makes transactions with the related parties are being made at arm's length basis. The remuneration and the staff loans to Key Managerial Personnel are in line with the service rules of the Company. Further, the finance costs paid to the related parties are on account of their investments in the debt securities of the Company and the interest rate payable on such debt securities is uniformly applicable to all the bondholders.

56.5 Managerial Remuneration

The details of remuneration to Key Managerial Personnel (KMP) during the reporting period is as below:

(₹ in Crores)

Particulars	FY 2019-20	FY 2018-19
(i) Short-term employee benefits	2.25	2.44
(ii) Post employment benefits	0.20	0.21
Total	2.45	2.65

As the liabilities for the gratuity and compensated absence are provided on an actuarial basis for the Company as a whole rather than each individual employee, the amounts pertaining specifically to KMP are not known and hence, not included in the above table. Gratuity and compensated absence, are included based on actual payment in respective year based in the above table.

CONSOLIDATED NOTES TO ACCOUNTS

56.6 Disclosure in respect of entities under the control of the same government (Government related entities)

List of Government related entities

The Company had transactions with the following government related entities during the year:

Bhartiya Rail Bijlee Company Ltd
 Bhilai Electric Supply Company Ltd.
 Bihar Grid Company Ltd
 Damodar Valley Corporation
 Nabinagar Power Generating Co. Pvt. Ltd.
 Neyveli Uttar Pradesh Power Ltd
 NTPC Tamil Nadu Energy Company Ltd.
 Patratu Vidut Utpadan Nigam Ltd.
 THDC India Ltd.
 Singareni Collieries Company Limited

Aggregate transactions with such government related entities are as under:

(₹ in Crores)

Particulars	Year ended 31.03.2020	Year ended 31.03.2019
Disbursement of Loans	1,437.18	3,583.67
Interest income recognised	2,139.65	1,935.27

Aggregate balance outstanding from such government related entities are as under:

(₹ in Crores)

Particulars	As at 31-03-20	As at 31-03-19

Interest Accrued	248.04	15.88

Refer Note No. 12, 21.2.(i), 23 and 33 in respect of material transactions with the Central Govt.

57. Disclosures in respect of Ind AS 116 'Leases'

The Company had adopted Ind AS 116 - 'Leases' using modified retrospective approach w.e.f. 01.04.2019 as notified by the Ministry of Corporate Affairs (MCA) vide Companies (Indian Accounting Standards) Second Amendment Rules, 2019 dated 30.03.2019. The Standard requires the Company to recognise each lease on the Balance Sheet as a Right-of-Use asset with corresponding lease liability in respect of the amounts payable towards such leases in future periods. However, the Company has exercised the recognition exemption in respect of short-term leases and leases of low-value underlying assets. Short term leases include leases with termination options, where there are no material economic disincentives to terminate such leases. Such agreements to provide flexibility in managing the leased-asset portfolio and align with the Company's business needs.

The Company has leases for office building, warehouses, office equipment and related facilities. Each lease generally imposes a restriction that, unless there is a contractual right for the Company to sublease the asset to another party, the right-of-use asset can only be used by the Company. Some leases contain an option to extend the lease for a further term. The Company is prohibited from selling or pledging the underlying leased assets as security. For leases over office buildings and other premises the Company must keep those properties in a good state of repair and return the properties in their original condition at the end of the lease. Further, the Company is required to pay maintenance fees in accordance with the lease contracts.

A. Lease payments not included in measurement of lease liability

The expense relating to payments not included in the measurement of the lease liability is as follows:

(₹ in Crores)

Particulars	FY 2019-20
Short-term leases	12.84
Leases of low value assets	0.02
Variable lease payments	-
Total	12.86

CONSOLIDATED NOTES TO ACCOUNTS

B. Cash outflow for leases

(₹ in Crores)

Particulars	FY 2019-20
Short-term leases	12.89
Leases of low value assets	0.02
Payment of lease liabilities	0.88
Total	13.79

C. Transition Impact

The following is a reconciliation of the financial statement line items from Ind AS 17 to Ind AS 116 at 1 April 2019:

(₹ in Crores)

Particulars	Carrying amount as at 31 March, 2019	Remeasurement	Ind AS 116 carrying amount as at 1 April, 2019
Right of Use asset	1.28	2.65	3.93
Lease liabilities	(0.11)	(2.65)	(2.76)
Total	1.17	-	1.17

D. Set out below are the carrying amounts of lease liabilities and the movements during the year:

(₹ in Crores)

Particulars	FY 2019-20
Opening Balance	2.76
Finance Cost accrued during the period	0.29
Payments made during the year	(0.93)
Closing Balance	2.12

E. The table below provides details regarding the contractual maturities of lease liabilities as at 31st March 2020:

(₹ in Crores)

Particulars	As at 31-03-20
Upto 1 year	1.00
1-5 years	1.42
More than 5 years	-

F. Extension and termination options

There are several lease contracts that include extension and termination options which are further discussed below.

The Company has several lease contracts that include extension and termination options. These options are negotiated by management to provide flexibility in managing the leased-asset portfolio and align with the Company's business needs. Management exercises significant judgment in determining whether these extension and termination options are reasonably certain to be exercised.

The Company has benefited from the use of hindsight for determining the lease term when considering options to extend and terminate leases.

Critical judgments in determining the lease term

In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated).

The assessment is reviewed if a significant event or a significant change in circumstances occurs which affects this assessment and that is within the control of the lessee.

CONSOLIDATED NOTES TO ACCOUNTS

G. Other transition details

- (i) Effective 1 April 2019, the Company has adopted Ind AS 116 "Leases" and applied modified retrospective approach where right of use as on the date of transition has been assumed to be equal to lease liability recognized at transition, with suitable adjustments of prepaid and accruals of rentals to all lease contracts existing as at 1 April 2019.

On transition, the adoption of new standard resulted in recognition of lease liability of ₹ 2.65 crores and corresponding right of use asset of ₹ 2.65 crores.

- (ii) For contracts in place as at 1 April 2019, Company has elected to apply the definition of a lease from Ind AS 17 and has not applied Ind AS 116 to arrangements that were previously not identified as lease under Ind AS 17.
- (iii) Instead of performing an impairment review on the right-of-use assets at the date of initial application, the Company has relied on its historic assessment as to whether leases were onerous immediately before the date of initial application of Ind AS 116.
- (iv) On transition, for leases previously accounted for as operating leases with a remaining lease term of less than 12 months and for leases of low-value assets the Group has applied the optional exemptions to not recognize right-of-use assets but to account for the lease expense on a straightline basis over the remaining lease term.

58. Disclosures for Employee Benefits as required under Ind AS 19 'Employee Benefits':

58.1 Defined Contribution Plans

A. Provident Fund

The Company pays fixed contribution of Provident Fund at pre-determined rates to a separate trust registered under The Provident Fund Act, 1925 which invests the funds in permitted securities. The trust must declare the rate of interest on contribution to the members based upon the returns earned on its investments during the year, subject to minimum interest rate prescribed by Employees' Provident Fund Organisation. Any shortfall for payment of interest to members as per specified rate of return has to be compensated by the Company. The Company estimates that no liability will arise in this regard in the near future and hence, no further provision is considered necessary.

In case of RECPDCL & RECTPCL, there is no separate trust and the companies makes provident fund contributions to defined contribution plans.

B. Defined Contribution Superannuation Scheme

The Company pays fixed contribution towards superannuation scheme at pre-determined rates to NPS Trust/ separate trust which invests the funds in the permitted securities. The balance with the NPS Trust/ separate trust includes the monthly contributions in the members' account along with the accumulated returns. When the pension becomes payable to the member, the amount standing to the credit of the member is appropriated towards the member's accumulation and annuities, as opted for by the member is allotted.

The Group has recognised an expense of ₹ 15.42 Crores (Previous year ₹ 14.87 Crores) towards defined contribution plans.

58.2 Defined Benefit Plans - Post-Employment Benefits

A. Gratuity

The Company has a defined gratuity scheme which is managed by a separate trust. Every employee who has rendered continuous service of five years or more is entitled to gratuity at 15 days salary for each completed year of service subject to a maximum of ₹ 0.20 crores on superannuation, resignation, termination, disablement or on death, considering the provisions of the Payment of Gratuity Act, 1972, as amended. The liability of Gratuity is recognized on the basis of actuarial valuation.

Closing Balance	4.25	3.69

CONSOLIDATED NOTES TO ACCOUNTS

58.2.1 Risk exposure

Through its defined benefit plans, the Company is exposed to a number of risks, the most significant of which are detailed below:

(i) Asset volatility

Most of the plan asset investments are in government securities, other fixed income securities with high rating grades and mutual funds. The fair value of these assets is subject to volatility due to change in interest rates and other market and macro-economic factors.

(ii) Changes in discount rate

The present value of defined benefit plan liabilities is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period. A decrease in discount rate will increase present values of defined benefit obligations, although this will be partially offset by an increase in the value of the plans' investments.

(iii) Longevity risk

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

(iv) Salary risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

58.2.2 Plan Assets

The fair value of plan assets at the end of reporting period for each category, are as follows:

(₹ in Crores)

Particulars	Gratuity		PRMF	
	As at 31.03.2020	As at 31.03.2019	As at 31.03.2020	As at 31.03.2019
Cash & Cash Equivalents	0.93	0.61	3.40	0.65
Unquoted Plan Assets				
Corporate Bonds/ Debentures	-	-	137.24	97.34
Others - Insurer managed funds & T-bills	34.54	43.54	-	-
Sub-total - Unquoted Plan Assets	34.54	43.54	137.24	97.34
Total	35.47	44.15	140.64	97.99

Actual return on plan assets is ₹ 13.86 crores (previous year ₹ 5.16 crores).

58.2.3 Significant Actuarial Assumptions

The most recent actuarial valuation of the plan assets and the present value of the defined benefit obligation were carried out as at March 31, 2020 by M/s Transvalue Consultants. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the projected unit credit method. The principal assumptions used for actuarial valuations are:-

(₹ in Crores)

Particulars	Gratuity		PRMF		ERS	
	FY 2019-20	FY 2018-19	FY 2019-20	FY 2018-19	FY 2019-20	FY 2018-19
Method Used	PUCM	PUCM	PUCM	PUCM	PUCM	PUCM
Discount Rate & Expected Return on Plan Assets, if funded	6.72%	7.71%	6.72%	7.71%	6.72%	7.71%
Future Salary Increase / medical inflation	6.00%	6.00%	6.00%	6.00%	6.00%	6.00%
Expected average remaining working lives of employees (years)	15.41	13.12	15.41	13.12	15.41	13.12

The Principle assumptions are the discount rate, salary growth rate and expected average remaining working lives of employees. The discount rate is generally based on the market yields available on govt. bonds at the reporting date with a term that matches the liabilities and the salary growth rate takes account of inflation, seniority, promotions and other relevant factors as long term basis. The above information is certified by the Actuary.

CONSOLIDATED NOTES TO ACCOUNTS

58.2.4 Sensitivity Analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below:

(₹ in Crores)

Particulars	As at 31.03.2020		As at 31.03.2019	
	Increase	Decrease	Increase	Decrease
Discount rate (0.50% movement)				
- Gratuity	(0.77)	0.94	(0.89)	1.10
- PRMS	(10.02)	10.48	(0.77)	0.84
- ERS	(0.15)	0.17	(0.13)	0.15
Salary Escalation Rate (0.50% movement)				
- Gratuity	0.14	(0.11)	0.15	(0.12)
- PRMS	-	-	-	-
- ERS	0.16	(0.14)	0.14	(0.12)
Medical inflation Rate (0.50% movement)				
- PRMS	9.74	(9.39)	6.31	(5.92)
Medical Cost (10% movement)				
- PRMS	13.99	(13.42)	12.98	(12.98)

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

The Company actively monitors how the duration and expected yield of investments are matching the expected cash outflows arising from employee benefit obligations. Investments are well diversified, such that the failure of any single investment would not have a material impact on overall level of assets. There has been no change in the process used by the Company to manage its risks from prior periods.

58.2.5 Expected maturity analysis of the defined benefit plans in future years

(₹ in Crores)

Particulars	Gratuity		PRMF		ERS	
	As at 31.03.20	As at 31.03.19	As at 31.03.20	As at 31.03.19	As at 31.03.20	As at 31.03.19
Less than 1 year	11.95	13.10	9.89	10.38	1.26	0.88
From 1 to 5 years	21.20	31.68	58.86	64.73	3.89	3.35
Beyond 5 years	32.68	31.98	231.09	254.11	5.35	3.12
Total	65.83	76.76	299.84	329.22	10.50	7.35

58.2.6 Expected contribution for the next year.

(₹ in Crores)

Particulars	Gratuity		PRMF		ERS	
	FY 2019-20	FY 2018-19	FY 2019-20	FY 2018-19	FY 2019-20	FY 2018-19
Expected contribution	3.29	1.72	-	34.74	-	-

The weighted average duration of the defined benefit plan obligation at the end of the reporting period is 12.57 years (as at 31.03.2019 - 12.76 years).

CONSOLIDATED NOTES TO ACCOUNTS

58.3 Other Long-term Employee Benefits

58.3.1 Earned Leave and Half Pay Leave

REC provides for earned leave benefit and half-pay leave benefit to the credit of the employees, which accrues on half-yearly basis at 15 days and 10 days respectively. A maximum of 300 days of earned leave can be accumulated at any point of time during the service, while there is no limit for accumulation of half pay leave. In case of RECPDCL, the Employees are entitled for Leave Encashment after completion of one year of service only and amount is paid in full, at the time of separation. The liability for the same is recognised on the basis of actuarial valuation. Total expenses amounting to ₹ 8.00 crore (Previous year ₹ 7.41 crore) have been made towards these employee benefits and debited to the Statement of Profit and Loss on the basis of actuarial valuation.

58.3.2 Other employee benefits

Expenses towards long service award and settlement allowance amounting to ₹ 0.93 crore (Previous year ₹ 1.43 crore) have been debited to the Statement of Profit and Loss on the basis of actuarial valuation.

In case of RECPDCL and RECTPCL, the Loyalty incentive to the employees is payable after completion of three years of continuous service only, except in case of separation due to death. The payment of dues to outgoing employee is released at the time of separation. Expenses amounting to ₹ 0.15 crore (Previous year ₹ 0.18 crore) have been debited to the Statement of Profit and Loss on the basis of actuarial valuation.

59. Status of Documentation Subsequent to Unbundling of SEBs

Some of the erstwhile State Electricity Boards (SEBs) against whom loans were outstanding or on whose behalf guarantees were given, were restructured by the respective State Governments and new entities were formed in the past. Consequently, the liabilities of the erstwhile SEBs stand transferred to new entities.

Status of Documentation Subsequent to Reorganisation of the State of Jammu & Kashmir

After the bifurcation of the State of Jammu & Kashmir into two Union Territories (UTs) – Jammu & Kashmir UT and Ladakh UT, the existing entities pertaining to the erstwhile state of J&K have been restructured vide unbundling order dated 23rd October 2019. The addendums to the agreements with new restructured departments are yet to be executed. Pending the execution of such documentation, the existing loans for Generation, T&D and Govt. schemes are being serviced / repaid in line with the existing loan agreements.

Status of Documentation Subsequent to Reorganisation of the State of Andhra Pradesh

Subsequent to the reorganisation of erstwhile State of Andhra Pradesh, the state of Telangana has been formed on 2 June 2014. However, the assets and liabilities are yet to be transferred to the respective power utilities through a formal Gazette Notification.

Status of Documentation is as under:

- (i) Where ever the loans have been sanctioned to erstwhile APCPDCL, APNPDCL and APGENCO prior to bifurcation and documentation has not been done, these schemes have been re-sanctioned in the name of newly formed utilities and documentation formalities completed and accordingly the charge has been registered with the Ministry of Corporate Affairs (MCA).
- (ii) Where ever the loans sanctioned in the name of erstwhile APCPDCL, APNPDCL prior to bifurcation and documentation formalities completed and drawls have been made, in these schemes an undertaking has been obtained from the name changed / newly formed utility and disbursements have been made to the newly formed utility by changing the name of the borrower in the name of new / name changed utility.
- (iii) Where ever the Loan is sanctioned in the name of erstwhile APCPDCL, APNPDCL prior to bifurcation and documentation formalities completed with Government Guarantee and drawls have been made, further documentation for these schemes shall be done on Gazette Notification.
- (iv) Once the final transfer scheme is notified through Gazette Notification by Govt, duly indicating the transfer of assets and liabilities among the power utilities, action for execution of documentation formalities will be taken up in respect of all the outstanding loans with the new / name changed utilities. Till that time, the demand for payment of interest / principal is being segregated by the Utilities and the respective portions are being paid by Utilities in Telangana and Andhra Pradesh.

CONSOLIDATED NOTES TO ACCOUNTS

60. The Company's operations comprise of only one business segment - lending loans to power sector companies engaged in construction of power plants and in generation, supply, distribution and transmission of electricity: in the context of reporting business/ geographical segment as required by Ind AS 108 - Operating Segments. Based on "management approach" as defined in Ind AS 108 Operating Segments, the Chief Operating Decision Maker evaluates the Company's performance based on analysis of various factors of one business segment.

60.1 Information about Revenue from major products and services.

(₹ in Crores)

Particulars	FY 2019 20	FY 2018-19

INDEPENDENT AUDITORS' REPORT

To the Members of
REC Limited (Formerly Rural Electrification Corporation Limited)

Report on the Audit of the Consolidated Ind AS Financial Statements

Opinion

We have audited the accompanying consolidated Ind AS financial statements of REC Limited (formerly Rural Electrification Corporation Limited) (hereinafter referred to as "the Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group") and jointly controlled entity, which comprise the Consolidated Balance Sheet as at 31st March, 2020, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Cash Flow Statement for the year then ended, and notes to the consolidated Ind AS financial statements, including a summary of significant accounting policies (hereinafter referred to as "the Consolidated Ind AS Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated Ind AS financial statements give the information required by the Companies Act, 2013, ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of their consolidated state of affairs of the Group and its jointly controlled entity as at 31st March, 2020, of consolidated profit (including other comprehensive Income), consolidated changes in equity and its consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by ICAI, and we have fulfilled our other ethical responsibilities in accordance with the provisions of the Act, 2013. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter

- We draw attention to Note No. 50.1.3 of the consolidated Ind AS financial statements regarding, the provision of impairment allowance in respect of its loan assets and undisbursed Letters of Comfort based on the report provided by the credit rating agency appointed by the company in this regard. The basis of determination of impairment allowance, which we have relied upon, is arrived at by the agency, considering the parameters which involve certain technicalities and professional expertise.
- We draw attention to Note No. 52 of the consolidated Ind AS financial statements regarding the impact of COVID-19 pandemic on the Company. Management is of the view that there are no reasons to believe that the pandemic will have any significant impact on the ability of the company to continue as a going concern. Nevertheless, the impact in sight of evolution of pandemic in future period is uncertain and could impact the impairment allowance in future years.

Our opinion is not modified in respect of these matters.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated Ind AS financial statements of the current period. These matters were addressed in the context of our audit of the consolidated Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the following matters described below to be the key audit matters to be communicated in our report:

S. No.	Key Audit Matter	Auditor's Response
1.	<p>Impairment allowance of Loan Assets – (Refer Note No. 50.1.3 to the consolidated Ind AS Financial Statements read with accounting policy No. 3.10)</p> <p>The Company follows a Board approved methodology wherein assessment for allowance is carried out by an external agency for impairment based on certain criterion/framework classifying the assets into various stages depending upon credit risk and level of evidence of impairment.</p>	<p>We have applied following audit procedures in this regard</p> <p>According to the provisions of Ind AS 109 "Financial Instruments", we have obtained the report of the third party and verified the criterion/framework with various regulatory updates alongwith Company's internal guidelines and procedures in respect of the impairment allowance.</p> <p>Verification of loan assets with respect to monitoring thereof for recovery/performance aspects and assessment of the loan impairment.</p> <p>Recoveries are verified applying the standard audit procedures. Loan balances are confirmed and quality of the borrower is evaluated and tested with key control parameters.</p>

S. No.	Key Audit Matter	Auditor's Response
	<p>Impairment allowance is measured as product of the Probability of Default, Exposure at Default and Loss Given Default being the key parameters for assessing the impairment allowance.</p> <p>The key indicators underlying for assessment of impairment allowance are appraised on an ongoing basis by the management.</p> <p>Further the management has adopted a methodology which in addition to the model adopted as above is further analyzed on case to case basis and wherever impairment impact need to be changed the same is considered in the financial statements.</p> <p>Since the company is an non banking finance company involved in business of financing and if any of the key parameter/criteria/assumptions mentioned as above is applied improperly, it can result in impacting the carrying value of loan assets materially either individually or collectively.</p> <p>In view of the significance of the amount of loan assets in the standalone Ind AS Financial Statements i.e. 90.07% of total assets, the impairment of loan assets thereon has been considered as Key Audit Matter in our audit.</p>	<p>Assessment of performance of the loan assets is carried out on the basis of available documents comprising loan papers, financial data, valuation reports progress report, periodical financial information etc, information on public domain etc, procedure applied by the management e.g. inspection of loans, physical verification, assessing borrower past records etc Recoveries in the loan assets are verified to ascertain level of stress thereon and impact as impairment allowance on financial statement.</p> <p>We have discussed with the management wherever underlying weakness is observed and management assessment is carried out in detail in such cases.</p> <p>Components and calculations in the study for impairment allowance carried out by third party are relied upon by us and test checks are carried out for the same. Such components are credit rating of borrowers, calculation of probability of default/loan given defaults etc. Our audit procedure in the same are limited in view of not sharing certain parameters of study being considered confidential by such third party.</p> <p>Further management pursuing a board approved methodology reviews the impairment allowance in the report of the third party and modified the impairment on case to case basis. We have obtained a detailed analysis from the management for such modification. Our audit procedure in this regard is constrained by the management appraisal and we have relied upon the same.</p> <p>Verification of Impairment reserve in terms of Income Recognition, Assets classification and provisioning norms (IRACP) of Reserve Bank of India created in pursuance of RBI Notification No. DOR (NBFC).CC.PD. No.109/22.10.106/2019-20 dated 13th March 2020.</p>
2.	<p>Fair valuation of Derivative Financial Instruments</p> <p>(Refer Note No. 9 to the consolidated Ind AS Financial Statements read with accounting policy No. 3.9)</p> <p>To mitigate the Company's exposure to foreign currency risk and interest rate risk, non-INR cash flows are monitored and derivative contracts are entered into in accordance with the Company's board approved risk management policies and RBI guidelines.</p> <p>The derivatives are measured at fair value as per Ind AS 109.</p>	<p>We have applied following audit procedure in this regard</p> <p>Discussing and understanding management's perception and studying policy of the company for risk management. Motive of derivative transactions are studies and observed underlying exposure is not more than the volume of derivatives.</p> <p>Verification of fair value of derivative in terms of Ind AS 109</p> <p>Testing the accuracy and completeness of derivative transactions.</p> <p>Evaluation of management's key internal controls over classification, valuation, and valuation models of derivative instruments.</p> <p>Obtained details of various financial derivative contracts as outstanding/pending for settlement as on 31st March 2020 from the Company.</p> <p>Verification of underlying assumptions in estimating the fair valuation arrived at for those financial derivative contracts</p>

S. No.	Key Audit Matter	Auditor's Response
	<p>The Company has applied hedge accounting requirements as per Ind AS 109 'Financial Instruments' prospectively from 1st January 2020, wherein certain derivative contracts have been designated as hedging instruments in 'Cash flow hedge' relationships. These arrangements have been entered into to mitigate foreign currency exchange risk and interest rate risk arising from certain debt instruments denominated in foreign currency.</p> <p>Hedge accounting has resulted in significant impact on financial statements coupled with complexity of its accounting/assumptions and numerous parameters therein for establishing hedge relationship. Mark to market gain/loss on these derivatives are recognised in the other comprehensive income.</p> <p>In view of facts of the matter we have identified it as a key audit matter.</p>	<p>Reliance on reports evaluating the appropriateness of the valuation methodologies applied and testing the same on sample basis for the derivative instruments.</p> <p>We also obtained confirmations from the banks with whom such financial derivative contracts have been entered into and independently compared the valuation so arrived at by the contracting banks.</p> <p>Additionally, we verified the accounting of gain/loss on mark to market basis in the other comprehensive income.</p> <p>Assessing whether the financial statement disclosures appropriately reflect the Company's exposure to derivatives valuation risks with reference to the requirements of the prevailing accounting standards and Reserve Bank of India Guidelines.</p>
3.	<p>Modified audit procedures carried out in light of COVID-19 outbreak</p> <p>(Refer Note No. 52 to the consolidated Ind AS Financial Statements)</p> <p>The SARS-COV-2 virus responsible for Covid-19 continues to spread across the Globe including India, which has resulted in a significant decline and volatility in global and Indian financial markets. It has also caused a significant disruption in the Global and Indian economic activities. On 11th March 2020, the Covid-19 outbreak was declared a global pandemic by the World Health Organisation (WHO).</p> <p>Due to COVID-19 pandemic, nation-wide lockdown and travel restrictions imposed by Central/ State Government/ local authorities. The lockdown period has been over the period of closing activities of the financial year 2019-2020 and thereafter. It has also effected the period of our audit. Since the access to audit evidence in person/ physically was disrupted due to the unprecedented situation, the audit had to be conducted with modified audit procedures.</p> <p>We have identified such modified audit procedures as a key audit matter.</p>	<p>We have applied following audit procedures in this regard</p> <p>Due to COVID-19 pandemic, nation-wide lockdown and travel restrictions imposed by Central/ State Government/ local authorities during the period of closing of the financial year and period of our audit, the company facilitated carrying out audit remotely as physical access was restricted.</p> <p>Wherever the physical access was not possible, necessary records/ reports/ documents/ certificates were made available to us by the company through digital medium/ emails and other application softwares. To this extent, the audit process was carried out on the basis of such documents, reports and records made available to us which were relied upon by us as audit evidence for conducting the audit and reporting for the year under audit.</p> <p>We modified our audit procedures as follows :</p> <ol style="list-style-type: none"> Carried out the verification of scanned copies of the documents, certificates and the related records made available to us through emails. Making inquiries and gathering necessary audit evidence through video conferencing, dialogues and discussions over phone calls/ conference calls, emails and other similar communication channels. Resolution of our audit observations telephonically/ through emails instead of a face to face interaction with the designated officials except during the finalisation of annual accounts. The situation of lockdown due to pandemic, may have impacted working/reporting etc of other professional e.g. third party agency submitting report of impairment allowance, independent valuers, internal auditors etc. and we have relied upon the same. Certain information/explanations we have relied upon during our audit were provided to us through verbal assertions by the company. In entire communication through various modes as mentioned hereinabove the records of the company which is confidential have been sent and, though utmost care has been taken as explained to us by encrypting such data, there are possibility of damage to such data in different ways. We have informed the company in this regard.

Information Other than the Consolidated Ind AS Financial Statements and Auditor's Report thereon

The Company's management and Board of Directors are responsible for the other information. The other information comprises the Directors' report, Corporate Governance report, Business responsibility report and Management Discussion and Analysis etc in the Annual report but does not include the consolidated Ind AS financial statements and our report thereon. Such other information is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated Ind AS financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated Ind AS financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read such other information if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Consolidated Ind AS Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated Ind AS financial statements in term of the requirements of the Companies Act, 2013 that give a true and fair view of the consolidated financial position, consolidated financial performance (including other comprehensive income), consolidated changes in equity and consolidated cash flows of the Group including its Jointly controlled entity in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS"). The respective Board of Directors of the companies included in the Group and of Jointly controlled entity are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group & its jointly controlled entity and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Ind AS Financial Statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated Ind AS financial statements, the respective Board of Directors of the companies included in the Group and its jointly controlled entity are responsible for assessing the ability of the Group and jointly controlled entity to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and its jointly controlled entity are responsible for overseeing the financial reporting process of the Group and its jointly controlled entity.

Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its jointly controlled entity to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its jointly controlled entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated Ind AS financial statements, including the disclosures, and whether the consolidated Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its jointly controlled entity to express an opinion on the consolidated Ind AS financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated Ind AS financial statements of which we are the independent auditors. For the other entities included in the consolidated Ind AS financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated Ind AS financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit **subject to our audit procedures as referred in para 3 of key audit matters here in above.**

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

- (a) We did not audit the financial statements of two subsidiaries and whose financial statements reflect total assets of ₹ 570.19 Crores (₹ 841.33 Crores as at 31st March 2019) as at 31st March 2020, total revenues of ₹ 222.17 Crores (Previous year ₹ 200.22 Crores) and net cash flows amounting to ₹ 0.63 Crores (Previous year ₹ 2.62 Crores) for the year ended on that date, as considered in the Consolidated Ind AS Financial Statements. The Consolidated Ind AS Financial Statements also include the subsidiary's share of net profit after tax of ₹ 66.91 crores (Previous Year ₹ 50.94 crores) and total comprehensive income of ₹ 66.91 crores (Previous Year ₹ 50.94 crores) as considered in the Consolidated Ind AS Financial Statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, is based solely on the reports of the other auditors.
- (b) The Consolidated Ind AS Financial Statements also include the jointly controlled entity's share of net profit after tax of ₹ 9.14 crores (Previous Year ₹ 9.95 crores) and total comprehensive income of ₹ 5.08 crores (previous year ₹ 9.90 crores) using equity method for the year ended 31st March 2020 as considered in the Consolidated Ind AS Financial Statements. This financial information have been furnished to us by the Management and our opinion on the consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of the jointly controlled entity, and our report in terms of sub-sections (3) and sub section (11) of Section 143 of the Act in so far as it relates to the aforesaid jointly controlled entity, is based solely on such financial information. In our opinion and according to the information and explanations given to us by the Management, the jointly controlled entity's share of net profit and total comprehensive income and disclosures included in respect of this joint venture in these consolidated Ind AS financial statements is not material to the Group.
- (c) The audited consolidated Ind AS financial statements for the year ended 31st March 2019 were audited by the then Statutory Auditors of the Company, both of whom were predecessor audit firms, and they had expressed an unmodified opinion vide their reports dated 24th May 2019 on such financial statements.

Our opinion on the consolidated Ind AS financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements/financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

As required by section 143(3) of the Act, we report, to the extent applicable, that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Ind AS Financial Statements.
- (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidated Ind AS Financial Statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
- (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss, Consolidated Changes in Equity and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the Consolidated Ind AS Financial Statements.
- (d) In our opinion, the aforesaid Consolidated Ind AS Financial Statements comply with the Accounting Standards specified under Section 133 of the Act.
- (e) Vide Notification No. G.S.R. 463(E) dated 5th June, 2015 issued by Ministry of Corporate Affairs, Government Companies have been exempted from applicability of the provisions of Section 164(2) of the Companies Act, 2013.
- (f) with respect to the adequacy of the internal financial controls with reference to the Consolidated Ind AS Financial Statements of the Group and Jointly controlled entity and the operating effectiveness of such controls, refer to our separate report in "Annexure-A"; and
- (g) Pursuant to Notification no. GSR463(E) dated 5th June 2015 issued by the Ministry of Corporate Affairs, provisions of Section 197 of the Act are not applicable to the holding/subsidiaries/jointly controlled company being government companies.
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of report of the other auditors on separate Ind AS financial statements as also the other financial information of the subsidiaries and joint venture:
 - i) The Consolidated Ind AS Financial Statements disclose the impact of pending litigations on the consolidated financial position of the Group and its jointly controlled entity- Refer Note 45.1 to the Consolidated Ind AS Financial Statements;
 - ii) The Group and its jointly controlled entity do not have any material foreseeable losses on long term contracts including derivative contracts.
 - iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company and its subsidiary companies and its jointly controlled entity incorporated in India.

ANNEXURE-A TO THE INDEPENDENT AUDITORS' REPORT OF EVEN DATE ON THE CONSOLIDATED IND AS FINANCIAL STATEMENTS OF REC LIMITED (FORMERLY RURAL ELECTRIFICATION CORPORATION LIMITED)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated Ind AS financial statements of the Company as of and for the year ended 31 March 2020, we have audited the internal financial controls over financial reporting of REC Limited (Formerly Rural Electrification Corporation Limited) (hereinafter referred to as "the Holding Company") and its subsidiary companies and jointly controlled entity, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company, its subsidiary companies and its jointly controlled entity, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Group and its jointly controlled entity considering the essential components of internal control stated in the "Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the subsidiaries, incorporated in India, in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to consolidated Ind AS financial statements.

Meaning of Internal Financial Controls over Financial Reporting

A Group's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Group's internal financial control over financial reporting includes those policies and procedures that:

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Group;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Group; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Group's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the holding company, its subsidiaries and jointly controlled entity, which are companies incorporated in India, have, in all material aspects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as of 31 March 2020, based on the internal control over financial reporting criteria established by the Group considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

We have considered the areas of improvement identified which needs further strengthening as reported above in determining the nature, timing, and extent of audit tests applied in our audit of the 31st March 2020 Consolidated Ind AS financial statements of the Group and its jointly controlled entity. However, these areas of improvement do not affect our opinion on the operating effectiveness of the Internal Financial Control over financial reporting of the Group and its jointly controlled entity.

Other Matters

Our aforesaid reports under Section 143(3) (i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to two subsidiary companies, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

Our aforesaid reports under Section 143(3) (i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to one jointly controlled entity, which is a company incorporated in India, whose financial information is unaudited and our opinion on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated Ind AS financial statements of the Group is not affected as the Group's share of net profit (including Other Comprehensive Income) and disclosures included in respect of this jointly controlled entity in these consolidated Ind AS financial statements are not material to the Group.

Further, we have considered the disclosure reported above in determining the nature, timing and extent of audit tests applied in our report of the financial statements of the Group, and the above disclosure does not affect our opinion on the operating effectiveness of the Internal Financial Control over financial reporting of the Group.

CONSOLIDATED NOTES TO ACCOUNTS

1. Company Overview

REC Limited (“REC” or the “Company”) was incorporated in the year 1969. The Company is domiciled in India and is limited by shares, having its registered office and principal place of business at Core-4, SCOPE Complex, 7, Lodhi Road, New Delhi-110003, India. The Company has 23 State offices spread across the country, mainly in the State Capitals and one training center at Hyderabad.

The Company is a Government Company engaged in extending financial assistance across the power sector value chain and is a Systemically Important (Non-Deposit Accepting or Holding) Non-Banking Finance Company (NBFC) registered with Reserve Bank of India (RBI) as an Infrastructure Finance Company (IFC).

REC is a leading public Infrastructure Finance Company in India and the principal products of REC are interest-bearing loans to State Electricity Boards, State Power utilities/State Power Departments and Private sector for all segments of Power infrastructure.

The Registrar of Companies, NCT of Delhi & Haryana has issued Fresh Certificate of Incorporation dated 13th October 2018, consequent upon change in the name of the Company from ‘Rural Electrification Corporation Limited’ to ‘REC Limited’. Further, the Company has also received requisite approvals/No Objection Certificate for the said change in name from Ministry of Power, Reserve Bank of India & Stock Exchanges.

Power Finance Corporation Ltd. (PFC) has acquired 103,93,99,343 equity shares of the Company, representing 52.63% of the share capital, from the President of India. Consequently, PFC has become the holding Company of REC.

The shares of the Company are listed on National Stock Exchange of India Limited and BSE Limited.

The Company together with its subsidiaries is hereinafter referred to as ‘the Group’.

2. Statement of Compliance and Basis of Preparation

The Group has adopted Indian Accounting Standards (referred to as “Ind AS”) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended) with effect from 01.04.2018. These Consolidated Financial Statements comply with Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended), applicable provisions of the Companies Act, 2013 and other applicable regulatory norms/ guidelines. These are the Group’s first Ind AS Consolidated financial statements and the date of transition is 01.04.2017.

The Group has prepared its Consolidated Financial Statements up to the year ended 31.03.2018, in accordance with the requirements of previous Generally Accepted Accounting Principles (previous GAAP), which included Accounting Standards (AS) specified under Section 133 of the Companies Act, 2013 read with rules made thereunder and applicable RBI directions. The Group followed the provisions of Ind AS 101- ‘First Time adoption of Indian Accounting Standards’ in preparing its opening Ind AS Consolidated Balance Sheet as of the date of transition and adjustments were made to restate the opening balances as per Ind AS. The impact of transition has been accounted for in the opening reserves as at 01.04.2017. The comparative figures have been presented in accordance with the same accounting principles that are used in preparation of the Company’s first Ind AS Consolidated financial statements.

The mandatory exceptions and optional exemptions availed by the Group on First-time adoption have been detailed in Note 63. Along with this, the reconciliation of total equity under previous GAAP and under Ind-AS as at 1st April 2017 & 31st March 2018 and of the Profit after tax as per Previous GAAP and Total Comprehensive Income under Ind AS for the year ended 31st March 2018 has also been presented in the same note.

The Consolidated Financial Statements for the year ended 31st March 2019 were authorized and approved for issue by the Board of Directors on 24th May 2019.

These Consolidated Financial Statements have been prepared on going concern basis following accrual system of accounting and are in accordance with the Indian Accounting Standards (referred to as “Ind AS”) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended), applicable provisions of the Companies Act, 2013 and other applicable regulatory norms/ guidelines.

CONSOLIDATED NOTES TO ACCOUNTS

2.1 Standards issued but not yet effective

Ind AS 116 - Leases:

On 30.03.2019, Ministry of Corporate Affairs (MCA) has notified Ind AS 116, Leases. Ind AS 116 will replace Ind AS 17 and related interpretations. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases. Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. The Standard also contains enhanced disclosure requirements for lessees.

Ind AS 12 - Appendix C, Uncertainty over Income Tax Treatments:

On 30.03.2019, MCA has notified Ind AS 12 Appendix C, Uncertainty over Income Tax Treatments which is to be applied while performing the determination of taxable profit (or loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to the appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which has to be considered to compute the most likely amount or the expected value of the tax treatment when determining taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates.

Amendment to Ind AS 12 – Income taxes

On 30.03.2019, MCA issued amendments to the guidance in Ind AS 12, 'Income Taxes', in connection with accounting for dividend distribution taxes. The amendment clarifies that an entity shall recognise the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events.

Amendment to Ind AS 19 – Plan amendment, curtailment or settlement

On 30.03.2019, Ministry of Corporate Affairs issued amendments to Ind AS 19, 'Employee Benefits', in connection with accounting for plan amendments, curtailments and settlements requiring an entity to use updated assumptions to determine current service cost and net interest for the remainder of the period after a plan amendment, curtailment or settlement; and to recognise in profit or loss as part of past service cost, or a gain or loss on settlement, any reduction in a surplus, even if that surplus was not previously recognised because of the impact of the asset ceiling.

The effective date for application of these amendments is annual period beginning on or after 01.04.2019. The Group is currently evaluating the effect of these amendments on the Consolidated Financial Statements.

3. Significant Accounting Policies

The significant accounting policies applied in preparation of the Consolidated Financial Statements are as given below:

3.1 Basis of consolidation

Subsidiary

Subsidiary is the entity controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiary are included in the consolidated financial statements from the date on which control commences until the date on which control ceases. The Group combines the financial statements of the holding company and its subsidiary line by line adding together like items of assets, liabilities, equity, income and expenses.

Equity accounted investees

The Group's interests in equity accounted investees comprise of the interests in associates and joint venture.

An associate is an entity, including an unincorporated entity, over which the Company has significant influence and that is neither a subsidiary nor an interest in a joint venture. Interests in associates are accounted for using the equity method. They are initially recognised at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of Profit and Loss and Other Comprehensive Income (OCI) of equity-accounted investees until the date on which significant influence ceases. However, in case where it is considered that the investment/ interest in associates is held for sale, the interest in associates is accounted for under Ind AS 105.

CONSOLIDATED NOTES TO ACCOUNTS

A joint venture is an arrangement in which the Group has joint control and has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

Interests in joint venture are accounted for using the equity method. They are initially recognised at cost which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of Profit and Loss and Other Comprehensive Income (OCI) of equity-accounted investees until the date on which significant influence or joint control ceases.

Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated. Unrealised gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

3.2 Basis of Preparation and Measurement

The Consolidated Financial Statements have been prepared on historical cost basis except for certain financial assets and financial liabilities which are measured at fair values as explained in relevant accounting policies. These policies have been applied consistently for all the periods presented in the Consolidated Financial Statements.

Functional and presentation currency

The Consolidated Financial Statements are presented in Indian Rupee ('INR') which is also the functional currency of the Group.

3.3 Income recognition

Interest income

Interest income is recognized on time proportion basis taking into account the amount outstanding and rate applicable.

For all financial assets measured at amortized cost, interest income is recorded using the effective interest rate (EIR), i.e. the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial assets.

Interest on financial assets subsequently measured at fair value through profit and loss is recognized on an accrual basis in accordance with the terms of the respective contract.

Rebate on account of timely payment of interest by borrowers is recognized on receipt of entire interest amount due in time, in accordance with the terms of the respective contract and is netted against the corresponding interest income.

Income from Government schemes

Income of agency fee on Government schemes is recognized on accrual basis based on the services rendered.

Dividend income

Income from dividend on shares of corporate bodies and units of mutual funds is taken into account on accrual basis when REC's right to receive payment is established.

Provided that in case of final dividend, the right to receive payment shall be considered as established only upon approval of the dividend by the shareholders in the Annual General Meeting.

Other services

Fees/ charges on loan assets, other than those considered an adjustment to EIR, are accounted for on accrual basis. Pre-payment premium is accounted for by the Group in the year of receipt.

Revenue from sale of services

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. Revenues are measured at the fair value of the consideration received or receivable, net of discounts and other indirect taxes.

CONSOLIDATED NOTES TO ACCOUNTS

In Cost Plus Contracts - Revenue is recognised by including eligible contractual items of expenditures plus proportionate margin as per contract;

In Fixed Price Contracts – Revenue is recognised on the basis of stage of completion of the contract. The Group has assessed that the stage of completion determined as the proportion of the total time expected to complete the performance obligation that has lapsed at the end of the reporting period is an appropriate measure of progress towards complete satisfaction of these performance obligations under Ind AS 115.

Estimates of revenues, costs or extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by management.

Professional charges to be charged from the selected bidders/developers for transmission projects put on tariff based bidding is accounted for in the year in which it is reasonably certain that the ultimate collection of the professional charges will be made.

Sale proceeds of Request for Proposal (RFP) documents is credited to the respective SPV and sale proceeds of Request for Qualification (RFQ) documents is retained by the Group and accounted as income of the Group.

3.4 Borrowing costs

Borrowing costs consist of interest and other costs that the Group incurred in connection with the borrowing of funds. Borrowing costs that are directly attributable to the acquisition and/ or construction of a qualifying asset, till the time such a qualifying asset becomes ready for its intended use sale, are capitalized. A qualifying asset is one that necessarily takes a substantial period to get ready for its intended use.

All other borrowing costs are charged to the Statement of Profit and Loss on an accrual basis as per the effective interest rate method.

3.5 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period.

To calculate diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

3.6 Foreign Currency Translation

Foreign currency transactions and balances

Foreign currency transactions are translated into the functional currency of the Group using the exchange rates prevailing on the date of the transaction.

Foreign exchange gains and losses resulting from the settlement of such transactions and the re-measurement of monetary items denominated in foreign currency at period-end exchange rates are recognized in the Statement of Profit or Loss. However, for the long-term monetary items recognized in the Consolidated Financial Statements before 1 April 2018, such gains and losses are accumulated in a "Foreign Currency Monetary Item Translation Difference Account" and amortized over the balance period of such long term monetary item, by recognition as income or expense in each of such periods.

Non-monetary items are not retranslated at period-end and are measured at historical cost (translated using the exchange rates at the transaction date).

3.7 Intangible assets

Recognition and initial measurement

Intangible assets mainly comprise of computer software which is initially measured at cost. Such assets are recognized where it is probable that the future economic benefits attributable to the assets will flow to the Group.

CONSOLIDATED NOTES TO ACCOUNTS

Subsequent measurement (amortization method, useful lives and residual value)

All intangible assets with finite useful life are amortized on a straight line basis over the estimated useful lives, and a possible impairment is assessed if there is an indication that the intangible asset may be impaired. Residual values and useful lives for all intangible assets are reviewed at each reporting date. Changes, if any, are accounted for as changes in accounting estimates. Management estimates the useful life of intangible assets to be five years.

Intangible Assets under Development

Expenditure incurred which are eligible for capitalization under intangible assets is carried as 'Intangible assets under development' till they are ready for their intended use.

Derecognition of Intangible Assets

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognized in the Statement of Profit and Loss when the asset is derecognized.

3.8 Property, Plant and Equipment (PPE)

Recognition and initial measurement

Land

Land held for use is initially recognized at cost. For land, as no finite useful life can be determined, related carrying amounts are not depreciated. Land also includes land held under finance lease, which is depreciated over the lease term.

Other Tangible assets

PPE other than land is initially recognized at acquisition cost or construction cost, including any costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by the Group's management.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group beyond one year. Maintenance or servicing costs of PPE are recognized in the Statement of Profit and Loss as incurred.

Subsequent measurement (depreciation method, useful lives, residual value, and impairment)

PPE are subsequently measured at cost less accumulated depreciation and impairment losses. Depreciation on PPE is provided on the straight-line method over the useful life of the assets as prescribed under Part 'C' of Schedule II of the Companies Act, 2013.

Depreciation on assets purchased/sold during the year is charged for the full month if the asset is in use for more than 15 days, instead of charging the same on pro-rata basis from the date of purchase/sale. Depreciation on assets purchased during the year up to Rs. 5,000/- is provided @ 100%.

Leasehold land is amortized over the lease period.

The residual values, useful lives, and method of depreciation are reviewed at the end of each financial year. PPE other than land is tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

De-recognition

An item of PPE and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of an item of PPE is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognized in the Statement of Profit and Loss.

Capital Work-in-Progress

The cost of PPE under construction at the reporting date is disclosed as 'Capital work-in-progress.' The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working

CONSOLIDATED NOTES TO ACCOUNTS

condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Advances paid for the acquisition/ construction of PPE which are outstanding at the balance sheet date are classified under 'Capital Advances.'

3.9 Leases

Company as a lessee

At the inception of each lease, the lease arrangement is classified as either a finance lease or an operating lease, based on the substance of the lease arrangement.

Finance leases

Assets leased by the Group in its capacity as lessee where substantially all the risks and rewards of ownership vest in the Group are classified as finance leases. A finance lease is recognized as an asset and a liability at the commencement of the lease, at the lower of the fair value of the asset and the present value of the minimum lease payments.

Minimum lease payments made under finance leases are apportioned between finance charges and reduction of the lease liability. The Finance expense is allocated to each period during the lease term to produce a constant periodic rate of interest on the remaining balance of the liability.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Group will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Operating Leases

Leases in which the lessor does not transfer substantially all the risks and rewards of ownership of an asset to the lessee are classified as operating leases. Lease rentals are charged to statement of profit and loss on straight-line basis except where a scheduled increase in rent compensates the lessor for expected inflationary costs.

3.10 Investment property

Investment properties are the assets which have undetermined future use. Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, the investment properties are stated at cost less accumulated depreciation. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group beyond one year. All other repair and maintenance costs are recognized in the Statement of Profit and Loss as incurred.

Subsequent measurement (depreciation and useful lives)

The Group only has land as an investment property, which is not depreciated.

De-recognition

An investment property is derecognized upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognized.

3.11 Financial Instruments

A Financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Initial recognition and measurement

Financial assets and financial liabilities are recognized when the Group becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted by transactions costs, except for those carried at

CONSOLIDATED NOTES TO ACCOUNTS

fair value through profit or loss which are measured initially at fair value. Subsequent measurement of financial assets and financial liabilities is described below.

Classification and subsequent measurement of financial assets

For the purpose of subsequent measurement, financial assets are classified into the following categories upon initial recognition:

- Amortized cost
- Financial assets at fair value through profit or loss (FVTPL)
- Financial assets at fair value through other comprehensive income (FVOCI)

All financial assets except for those at FVTPL or equity instruments at FVOCI are subject to review for impairment at least at each reporting date to identify whether there is any objective evidence that a financial asset or a group of financial assets is impaired. Different criteria to determine impairment are applied to each category of financial assets, which are described below.

Amortized cost

A financial asset is measured at amortized cost using Effective Interest Rate (EIR) if both of the following conditions are met:

- a) the financial asset is held within a business model whose objective is to hold financial assets to collect contractual cash flows; and
- b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A loss allowance for expected credit losses is recognized on financial assets carried at amortized cost.

Modification of cash flows

When the contractual cash flows of a financial asset are renegotiated or otherwise modified, and the renegotiation or modification does not result in derecognition of that financial asset, the Group recalculates the gross carrying amount of the financial asset and recognizes a modification gain or loss in profit or loss. The gross carrying amount of the financial asset shall be recalculated as the present value of the renegotiated or modified contractual cash flows that are discounted at the financial asset's original effective interest rate. Any costs or fees incurred adjust the carrying amount of the modified financial asset and are amortized over the remaining term of the modified financial asset.

Financial assets at FVTPL

Financial assets at FVTPL include financial assets that are either do not meet the criteria for amortized cost classification or are equity instruments held for trading or that meet certain conditions and are designated at FVTPL upon initial recognition. All derivative financial instruments also fall into this category, except for those designated and effective as hedging instruments, for which the hedge accounting requirements may apply. Assets in this category are measured at fair value with gains or losses recognized in profit or loss. The fair values of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

Financial assets at FVOCI

FVOCI financial assets comprise of equity instruments measured at fair value. An equity investment classified as FVOCI is initially measured at fair value plus transaction costs. Gains and losses are recognized in other comprehensive income and reported within the FVOCI reserve within equity, except for dividend income, which is recognized in profit or loss. There is no recycling of such gains and losses from OCI to Statement of Profit & Loss, even on the derecognition of the investment. However, the Group may transfer the same within equity.

De-recognition of financial assets

De-recognition of financial assets due to a substantial modification of terms and conditions

The Group derecognizes a financial asset, such as a loan to a customer, when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new loan, with the difference recognized as a derecognition gain or loss, to the extent that an impairment loss has not already been recorded.

CONSOLIDATED NOTES TO ACCOUNTS

De-recognition of financial assets other than due to substantial modification

Financial assets (or where applicable, a part of financial asset or part of a group of similar financial assets) are derecognized (i.e. removed from the Group's balance sheet) when the contractual rights to receive the cash flows from the financial asset have expired, or when the financial asset and substantially all the risks and rewards are transferred. The Group also derecognizes the financial asset if it has both transferred the financial asset and the transfer qualifies for derecognition.

Classification and subsequent measurement of financial liabilities

Financial liabilities are measured subsequently at amortized cost using the effective interest method, except for financial liabilities held for trading or designated at FVTPL, that are carried subsequently at fair value with gains or losses recognized in profit or loss.

Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or canceled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

Derivative financial instruments and hedge accounting

The derivative financial instruments are accounted for at FVTPL. The Group does not apply hedge accounting.

3.12 Impairment of financial assets

Loan assets

The Group follows a 'three-stage' model for impairment based on changes in credit quality since initial recognition as summarised below:

- Stage 1 includes loan assets that have not had a significant increase in credit risk since initial recognition or that have low credit risk at the reporting date.
- Stage 2 includes loan assets that have had a significant increase in credit risk since initial recognition but that do not have objective evidence of impairment.
- Stage 3 includes loan assets that have objective evidence of impairment at the reporting date.

The Expected Credit Loss (ECL) is measured at 12-month ECL for Stage 1 loan assets and lifetime ECL for Stage 2 and Stage 3 loan assets. ECL is the product of the Probability of Default, Exposure at Default and Loss Given Default, defined as follows:

Probability of Default (PD) - The PD represents the likelihood of a borrower defaulting on its financial obligation, either over the next 12 months (12 months PD), or over the remaining lifetime (Lifetime PD) of the obligation.

Loss Given Default (LGD) – LGD represents the Company's expectation of the extent of loss on a defaulted exposure. LGD varies by type of counterparty, type, and preference of claim and availability of collateral or other credit support.

Exposure at Default (EAD) – EAD is based on the amount of outstanding exposure as on the assessment date on which ECL is computed including undisbursed amounts in respect of Letters of Comfort.

Forward-looking economic information is included in determining the 12-month and lifetime PD, EAD and LGD. The assumptions underlying the expected credit loss are monitored and reviewed on an ongoing basis.

Financial assets other than Loans

In respect of its other financial assets, the Group assesses if the credit risk on those financial assets has increased significantly since initial recognition. If the credit risk has not increased significantly since initial recognition, the Group measures the loss allowance at an amount equal to 12-month expected credit losses, else at an amount equal to the lifetime expected credit losses.

CONSOLIDATED NOTES TO ACCOUNTS

To make that assessment, the Group compares the risk of a default occurring on the financial asset as at the balance sheet date with the risk of a default occurring on the financial asset as at the date of initial recognition. The Group also considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition. The Group assumes that the credit risk on a financial asset has not increased significantly since initial recognition if the financial asset is determined to have low credit risk at the balance sheet date.

Write-offs

Financial assets are written off either partially or in their entirety only when the Group has stopped pursuing the recovery.

3.13 Assets/ Disposal Groups held for sale

Assets are classified as held for sale if their carrying amount will have recovered principally through sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at lower of their carrying amount or fair value less cost to sell, except for assets such as deferred tax, assets arising from employee benefit, financials assets and contractual rights under insurance contracts, which are specifically exempted from this requirement.

Non-current assets are not depreciated or amortised while they are classified as held for sale. Non-current assets held for sale are presented separately from other assets in the balance sheet.

Where the Group is committed to a sale plan involving loss of control of an entity, it classifies investment in the entity (i.e. all the assets and liabilities of that entity) as held for sale.

3.14 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits, together with other short-term, highly liquid investments (original maturity less than three months) that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

3.15 Dividend

Proposed dividends and interim dividends payable to the shareholders are recognized as changes in equity in the period in which they are approved by the shareholders' meeting and the Board of Directors respectively.

3.16 Material prior period errors

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest period presented, the opening balances of assets, liabilities and equity for the earliest period presented, are restated.

3.17 Prepaid Expenses

A prepaid expense up to Rs. 1,00,000/- is recognized as expense upon initial recognition.

3.18 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

3.19 Taxation

Tax expense recognized in profit or loss comprises the sum of deferred tax and current tax. It is recognized in Statement of Profit and Loss, except when it relates to an item that is recognised in OCI or directly in equity, in which case, the tax is also recognised in OCI or directly in equity.

Current tax is determined as the tax payable in respect of taxable income for the year, using tax rates enacted or substantively enacted and as applicable at the reporting date, and any adjustments to tax payable in respect of previous years.

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the Consolidated financial statements and the corresponding tax bases used in the computation of taxable income. Deferred tax liability is created on temporary difference between the carrying amount and tax base of investments in subsidiaries and joint ventures.

CONSOLIDATED NOTES TO ACCOUNTS

Deferred tax assets and liabilities are calculated, without discounting, at tax rates that are expected to apply to their respective period of realization, provided those rates are enacted or substantively enacted by the end of the reporting period. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority.

Deferred tax liability is recognized for all taxable temporary differences. A deferred tax asset is recognized for all deductible temporary differences to the extent that it is probable that future taxable profits will be available against which the deductible temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Changes in deferred tax assets or liabilities are recognized as a component of tax income or expense in profit or loss, except where they relate to items that are recognized in other comprehensive income or directly in equity, in which case the related deferred tax is also recognized in other comprehensive income or equity, respectively.

Dividend Distribution Tax is recognized at the same time when the liability to pay a dividend is recognized.

3.20 Employee benefits

Short-term employee benefits

Short-term employee benefits including salaries, short term compensated absences (such as a paid annual leave) where the absences are expected to occur within twelve months after the end of the period in which the employees render the related service, profit sharing and bonuses payable within twelve months after the end of the period in which the employees render the related services and non-monetary benefits for current employees are estimated and measured on an undiscounted basis.

Post-employment benefit plans are classified into defined benefits plans and defined contribution plans as under:

Defined contribution plan

A defined contribution plan is a plan under which the Group pays fixed contributions in respect of the employees into a separate fund. The Group has no legal or constructive obligations to pay further contributions after its payment of the fixed contribution. The contributions made by the Group towards defined contribution plans are charged to the profit or loss in the period to which the contributions relate.

Defined benefit plan

The Group has an obligation towards gratuity, Post Retirement Medical Facility (PRMF) and Other Defined Retirement Benefit (ODRB) which are being considered as defined benefit plans covering eligible employees. Under the defined benefit plans, the amount that an employee will receive on retirement is defined by reference to the employee's length of service, final salary, and other defined parameters. The legal obligation for any benefits remains with the Group, even if plan assets for funding the defined benefit plan have been set aside.

The Group's obligation towards defined benefit plans is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. The liability recognized in the statement of financial position for defined benefit plans is the present value of the Defined Benefit Obligation (DBO) at the reporting date less the fair value of plan assets. Management estimates the DBO annually with the assistance of independent actuaries.

Actuarial gains/losses resulting from re-measurements of the liability/asset are included in Other Comprehensive Income.

Other long-term employee benefits:

Liability in respect of compensated absences becoming due or expected to be availed more than one-year after the balance sheet date is estimated on the basis of actuarial valuation performed by an independent actuary using the projected unit credit method.

Actuarial gains and losses arising from past experience and changes in actuarial assumptions are charged to statement of profit and loss in the period in which such gains or losses are determined.

CONSOLIDATED NOTES TO ACCOUNTS

Loan to employees at concessional rate

Loans given to employees at concessional rate are initially recognized at fair value and subsequently measured at amortised cost. The difference between the initial fair value of such loans and transaction value is recognised as deferred employee cost, which is amortised on a straight-line basis over the expected remaining period of the Loan. In case of change in expected remaining period of the Loan, the unamortised deferred employee cost on the date of change is amortised over the updated expected remaining period of the loan on a prospective basis.

3.21 Provisions, Contingent Liabilities, and Contingent Assets

Provisions are recognized when the Group has a present legal or constructive obligation as a result of a past event; it is probable that an outflow of economic resources will be required from the Group and amounts can be estimated reliably. Timing or amount of the outflow may still be uncertain. Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the reporting date, including the risks and uncertainties associated with the present obligation. Provisions are discounted to their present values, where the time value of money is material.

A contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Group or
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

In those cases, where the outflow of economic resources as a result of present obligations is considered improbable or remote, no liability is recognized or disclosure is made.

Any reimbursement that the Group can be virtually certain to collect from a third party concerning the obligation (such as from insurance) is recognized as a separate asset. However, this asset may not exceed the amount of the related provision.

Contingent assets are not recognized. However, when the inflow of economic benefits is probable, the related asset is disclosed.

3.22 Fair value measurement

The Group measures financial instruments, such as derivatives at fair value at each reporting date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, including assumptions about risk, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

CONSOLIDATED NOTES TO ACCOUNTS

For assets and liabilities that are recognized in the Consolidated financial statements regularly, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

4. Significant management judgment in applying accounting policies and estimation of uncertainty

The preparation of the Group's Consolidated financial statements requires management to make judgments, estimates, and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the related disclosures. Actual results may differ from these estimates.

Significant management judgments

Recognition of deferred tax assets/ liability – The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilized. Further, the Group's Management has no intention to make withdrawal from the Special Reserve created and maintained under section 36(1)(viii) of the Income Tax Act, 1961 and thus, the special reserve created and maintained is not capable of being reversed. Hence, the Group does not create any deferred tax liability on the said reserve.

Evaluation of indicators for impairment of assets – The evaluation of the applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

Investment in SPVs – Transmission projects are managed as per the mandate from Government of India and the Group does not have the practical ability to direct the relevant activities of these projects unilaterally. The Group therefore considers its investment in respective SPVs as associates having significant influence despite the Company holding 100% of their paid-up equity share capital.

Non recognition of Interest Income on Credit Impaired Loans - Interest income on credit-impaired loan assets is not being recognised as a matter of prudence, pending the outcome of resolutions of stressed assets.

Significant estimates

Useful lives of depreciable/amortizable assets – Management reviews its estimate of the useful lives of depreciable/ amortizable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of assets.

Defined benefit obligation (DBO) – Management's estimate of the DBO is based on a number of underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

Fair value measurements – Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument. In estimating the fair value of an asset or a liability, the Group uses market-observable data to the extent it is available. In case of non-availability of market-observable data, Level 2 & Level 3 hierarchy is used for fair valuation.

Income Taxes – Significant estimates are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions and also in respect of expected future profitability to assess deferred tax asset.

Expected Credit Loss ('ECL') – The measurement of an expected credit loss allowance for financial assets measured at amortized cost requires the use of complex models and significant assumptions about future economic conditions and credit behavior (e.g., likelihood of customers defaulting and resulting losses). The Group makes significant judgments about the following while assessing expected credit loss to estimate ECL:

- Determining criteria for a significant increase in credit risk;
- Establishing the number and relative weightings of forward-looking scenarios for each type of product/ market and the associated ECL; and
- Establishing groups of similar financial assets to measure ECL.
- Estimating the probability of default and loss given default (estimates of recoverable amounts in case of default)

CONSOLIDATED NOTES TO ACCOUNTS

9.1 Reconciliation between the figures reported under Ind-AS and actual amounts outstanding in respect of Loans:

Particulars	(₹ in Crores)		
	As at 31-03-19	As at 31-03-18	As at 01-04-17
Net Loans	270,450.92	228,878.25	193,934.52
Less: Interest accrued and due on Loans classified under the same head as per Ind-AS	(445.05)	(462.37)	(781.26)
Less: Interest accrued and not due on Loans classified under the same head as per Ind-AS	(341.01)	(303.23)	(288.31)
Add: Allowance for Expected Credit Loss netted off as per Ind-AS	11,497.93	11,275.45	8,961.20
Add: Ind-AS Adjustments in respect of fees based income at Effective Interest Rate (EIR)	46.89	61.22	102.52
Gross Loans	281,209.68	239,449.32	201,928.67

9.2 Loan balance confirmations for 88.56% of total loan assets as at 31st March 2019 have been received from the borrowers. Out of the remaining 11.44% loan assets amounting to ₹ 32,163 crore for which balance confirmations have not been received, 72% loans are secured by way of hypothecation of assets, 25% by way of Government Guarantee/ Loans to Government and 3% are unsecured loans.

9.3 One of the borrowers, M/s RKM Powergen Pvt Ltd. has obtained an ad-interim order from Hon'ble High Court of Madras on 18 September 2015 not to classify the account as Non-Performing Asset. Accordingly, the loan outstanding of the borrower has not been classified as Stage III Asset, even though the overdues are more than 3 months old and the asset is credit impaired.

However, the Company has created an adequate provision of ₹ 942.67 crore (As at 31st March 2018 - ₹ 942.67 crore, as at 1st April 2017 - ₹ 942.67 crore) @ 40.95% of Loan outstanding of ₹ 2,302 crore (As at 31st March 2018 - ₹ 2,302 crore, as at 1st April 2017 - ₹ 2,302 crore) in the books of accounts as per Expected Credit Loss (ECL) as on 31st March 2019 after considering the financial and operational parameters of the project.

(14,65,00,000 Equity shares of ₹ 10 each)			
Total	179.63	172.63	176.07

10.1 Under the Right Issue Offer of Energy Efficiency Services Limited (EESL), the Company has applied for 7,16,00,000 shares of Energy Efficiency Services Limited (EESL) for a consideration of Rs. 71.60 crores on 8th April 2019. The final allotment of shares is pending as on date and subsequent to this, the shareholding of the Company may increase in EESL.

10.2 The Company has elected an irrevocable option to designate some of the equity instruments at FVOCI (Fair Value through Other Comprehensive Income). The Company's main operation is to provide financial assistance to power sector. Thus, in order to isolate Statement of Profit & Loss from price fluctuations of these instruments, management believes that this provides a more meaningful presentation, rather than classifying them at FVTPL (Fair Value through Profit & Loss).

Details of FVOCI investments derecognised during the year

(₹ in Crores)

Name of the company	FY 2018-19			FY 2017-18		
	No. of shares derecognised	Fair Value as on de-recognition	Cumulative Gain/ loss on de-recognition	No. of shares derecognised	Fair Value as on de-recognition	Cumulative Gain/ loss on de-recognition
NHPC Limited	0.87	24.39	5.42	-	-	-

The shares of NHPC Ltd. were sold under buyback offer of the company, under which the shares were offered to be bought back at a price higher than the prevailing market price and the Company considered it as an opportunity to sell a large lot of equity shares through this mode, instead of selling the shares in open market at lower prices.

Subsequent to the derecognition of the investments on account of actual sale of the equity shares, the Company has transferred the cumulative gain or loss on such shares within equity during the period.

10.3 Under the Buy Back Offer of Indian Energy Exchange Limited, The Company has sold and consequently derecognised 2,28,789 shares for a consideration of Rs. 4.23 crores on 10th April 2019. The shares had been offered to be bought back at a price higher than the prevailing market price and the Company considered it as an opportunity to sell a large lot of equity shares through this mode, instead of selling the shares in open market at lower prices.

15 Investment Property

(₹ in Crores)

Particulars	Opening Balance	Additions during the period	Sales/ adjustment during the period	Closing Balance
FY 2018-19	0.01	-	-	0.01
FY 2017-18	0.01	-	-	0.01

15.1 The company has classified the land held for undeterminable future use as investment property and is not earning any rental income on it.

15.2 Fair value of investment property:

(₹ in Crores)

Particulars	As at 31-03-19	As at 31-03-18	As at 01-04-17
Carrying Value	0.01	0.01	0.01
Fair Value	0.61	0.51	0.41

The Company obtains independent valuations for its investment properties at least annually. The best evidence of fair value is current prices in an active market for similar properties. Where such information is not available, the Company consider information from variety of sources including:

- current prices in an active market of similar properties of different nature or recent prices of similar properties in less active markets, adjusted to reflect those differences.
- current circle rates in the jurisdiction where the investment property is located.

The fair values of investment property has been determined by an independent valuer and the main inputs used are circle rates and current prices of similar properties. All resulting fair value estimates for investment property are included in Level 3.

21.4 There has been no default as on the Balance Sheet date in repayment of borrowings and interest.

21.5 Term Loans from Govt./ banks/ financial institutions as mentioned in Note No. 21.1 (i) and 21.2 (i) to (iii) have been raised at interest rates ranging from 8.15% to 9.20% payable on monthly/ quarterly/ semi annual rests.

21.6 Foreign Currency Borrowings in Note No. 21.2 (iv) (2) have been raised at interest rates ranging from a spread of 65 bps to 150 bps over 6 Months' USD/JPY LIBOR (London Inter Bank Offered Rate)

21.7 Subsequent to the announcement of the strategic sale of Government of India's existing 52.63% of total paid up equity shareholding in REC Limited to Power Finance Corporation Ltd. (PFC), the Company had undertaken a consent solicitation exercise during the financial year ended 31st March 2019 for the modification in the 'Change of Control' covenant of certain External Commercial Borrowings (ECBs). In terms of the approval of the Reserve Bank of India and in compliance with the extant ECB framework, the Company has paid Consent Fees to the international bondholders/ lenders consenting to such modification, falling within the prescribed annual all-in-cost ceiling considering the remaining maturities of the related borrowings. The Company has accordingly amortised the Consent Fees as per Effective Interest Rate (EIR) method under Ind-AS 109 over the remaining maturities of the ECBs.

21.8 Security Details of Secured Debt Securities and Borrowings

For all the secured bonds issued by the Company and outstanding as at 31st March 2019, 100% security cover has been maintained by way of mortgage on certain immovable properties and/or charge on the receivables of the Company.

23.1 Subsidy Under Accelerated Generation & Supply Programme (AG&SP):

The Company is maintaining an Interest Subsidy Fund Account and was given AG&SP subsidy (for disbursement to the eligible borrowers) by Govt. of India at net present value calculated at indicative rates and year in accordance with GOI's letter vide D.O.No. 32024/17/97-PFC dated 23.09.1997 and O.M.No.32024/23/2001-PFC dated 07.03.2003 irrespective of the actual repayment schedule, moratorium year and duration of repayment of the eligible schemes. The impact of difference between the indicative rate and year considered at the time of drawl and the actual can be ascertained only after the end of the respective schemes.

Net amount of ₹ 0.63 Crores as at 31st March 2019 (₹ 0.53 Crores as at 31st March 2018, ₹ 0.86 Crores as at 1st April 2017) represents the balance amount of interest subsidy fund, which is to be passed on to the borrowers against their interest liability arising in future, under Accelerated Generation & Supply Programme (AG&SP), which comprises of the following :-

(₹ in Crores)

Particulars	FY 2018-19	FY 2017-18
Opening Balance of Interest Subsidy Fund	0.53	0.86
Add: Interest earned during the year	0.11	0.02
Less: Interest subsidy passed on to the borrower	0.01	0.35
Closing Balance of Interest Subsidy Fund	0.63	0.53

23.2 Government of India has appointed REC Ltd. as a nodal agency for implementation of Deen Dayal Upadhyaya Gram Jyoti Yojna (DDUGJY). The funds received for disbursement to various agencies under the scheme are kept in a separate bank account. The undisbursed funds for the scheme (including the funds received under erstwhile RGGVY Scheme) including interest earned thereto are classified under "Undisbursed Subsidy/ grant" under the head "Other Financial Liabilities".

During the year, interest earned of ₹ 25.03 Crores (Previous year ₹ 18.15 Crores) has been taken to DDUGJY Subsidy account. Further, during the year, an amount of ₹ 23.51 crores (Previous year ₹ 10.33 crores) has been refunded back to MoP out of the total interest on subsidy.

23.3 The movement in Interest on Subsidy/ Grant is explained as under:

(₹ in Crores)

Particulars	FY 2018-19	FY 2017-18
Opening Balance	24.41	2.18
Add: Interest earned during the year	93.70	33.77
Less: Amount refunded to Govt. during the year	75.53	11.32
Less: Disbursement out of Interest earned on account of AG&SP Grant	0.01	0.22
Closing Balance	42.57	24.41

CONSOLIDATED NOTES TO ACCOUNTS

23.4 For meeting GOI's funding requirement of DDUGJY Scheme, during the year, the Company has raised an aggregate amount of ₹ 13,827 crores (Previous year ₹ 4,000 crores) through unsecured, redeemable, non-convertible, taxable bonds in the nature of debentures of face value of ₹ 10 lacs at par on private placement basis. As per Ministry of Power (MoP) letter dated 16th July 2018 and 19th July 2018, the repayment of principal and interest of the above bonds shall be made by GOI by making suitable budget provisions in the demand of Ministry of Power. Accordingly, the amount of such bonds along-with interest is also appearing as recoverable by the Company from Govt. of India.

Details of the GOI Fully Serviced Bonds raised are as follows:

Particulars	Coupon Rate	Interest Frequency	Redemption Date	(₹ in Crores)

Additions and deductions to the components of 'Other Equity' has been disclosed in 'Statement of Changes in Equity'.

28.1 Draw down from Reserves

No amount has been drawn from the reserves during the financial year 2018-19 and financial year 2017-18.

28.2 Securities Premium

Securities Premium represents the premium received by the Company on issue of shares and debt securities. It is utilised in accordance with the provisions of the Companies Act, 2013.

28.3 Debenture Redemption Reserve (DRR)

In accordance with provisions of Section 71(4) of the Companies Act, 2013 as further clarified by the Companies (Share Capital and Debentures) Rules, 2014 issued by Ministry of Corporate Affairs, Govt. of India, the company creates Debenture Redemption Reserve (DRR) upto 25% of the value of debentures issued through public issue as per present SEBI (Issue and Listing of Debt Securities) Regulations, 2008 during the maturity period of such debentures, and no DRR is required in the case of privately placed debentures. The amounts credited to the DRR may not be utilised except to redeem debentures. On redemption of debentures, the amount may be transferred from DRR to retained earnings.

28.4 Foreign Currency Monetary Item Translation Difference Account

The company had opted towards an irrevocable option for amortising the foreign exchange fluctuation loss/gain on the long term foreign currency monetary items over the balance period of such items in accordance with Para 46A of the erstwhile applicable Accounting Standard 11 'The Effects of Changes in Foreign Exchange Rates'. Ind AS 101 allows an entity to continue the policy adopted for accounting for exchange differences arising from translation of long-term foreign currency monetary items recognised in the financial statements for the period ending immediately before the beginning of the first Ind AS financial reporting period as per the previous GAAP. The balance in this account represents the unamortised gain/ (loss) which will be amortised over the balance period of the eligible long term foreign currency monetary liabilities.

28.5 Special Reserve created u/s 36(1) (viii) of the Income Tax Act, 1961

Special Reserve created u/s 36(1) (viii) of the Income Tax Act, 1961 is maintained by the Company in order to enable the Company to avail tax benefits. As per section 36(1)(viii) of the Income Tax Act, 1961, the company is eligible for deduction not exceeding 20% of profit derived from long term finance activity, provided such amount is transferred and maintained in special reserve account.

CONSOLIDATED NOTES TO ACCOUNTS

28.6 Reserve for Bad and doubtful debts u/s 36(1)(vii) of the Income Tax Act, 1961

Reserve for Bad and doubtful debts u/s 36(1)(vii) of the Income Tax Act, 1961 is maintained by the Company in order to enable the Company to avail tax benefits. As per Section 36(1)(vii) of the Income Tax Act, 1961, the Company is eligible to avail deduction in respect of any provision/ reserve made for bad and doubtful debts, not exceeding five per cent of the total income as per Income Tax Act. The reserve so maintained shall be primarily utilised for adjustment of actual bad debts or part thereof.

28.7 Reserve Fund u/s 45-IC of Reserve Bank of India Act, 1934

Till the financial year 2017-18, the Company, being a Govt. NBFC, was exempt from creation and maintenance of Reserve Fund as specified u/s 45-IC of Reserve Bank of India Act, 1934. However, the said exemption has been withdrawn by the Reserve Bank of India (RBI) vide Notification No. DNBR (PD) CC.No.092/03.10.001/2017-18 dated 31st May 2018. Accordingly, the Company is now creating the Reserve Fund as required u/s 45IC of RBI Act, 1934, wherein at least 20% of net profit every year will be transferred before the declaration of dividend. No appropriation is allowed to be made from the reserve fund except for the purpose as may be specified by the Bank from time to time and further, any such appropriation is also required to be reported to the Bank within 21 days from the date of such withdrawal.

28.8 General Reserve

In view of the erstwhile provisions of the Companies Act, 1956, the Company had transferred certain percentage of the profits to General Reserve before declaration of dividend. However, Companies Act, 2013 does not mandate transfer of profits to General Reserve before declaration of dividend.

28.9 Other Comprehensive Income (OCI)

The Company has elected to recognise changes in the fair value of certain investments in equity securities through other comprehensive income. These changes are accumulated within the OCI reserve within equity. The Group transfers amounts from this reserve to retained earnings when the related equity securities are derecognised.

50 Implementation of Govt. Schemes

50.1 Pradhan Mantri Sahaj Bijli Har Ghar Yojana (SAUBHAGYA)

Government of India has launched a scheme "Pradhan Mantri Sahaj Bijli Har Ghar Yojana" - Saubhagya to achieve universal household electrification in the country. The scheme envisages to provide last mile connectivity and electricity connections to all remaining un-electrified households in rural areas and poor households in urban areas by 31st March, 2019. The capital outlay of Saubhagya Scheme is Rs 16,320 Crore including Gross Budgetary Support of Rs 12,320 Crore during the entire implementation period. Ministry of Power designated REC as the Nodal agency for operationalization of Saubhagya Scheme.

With the active support and cooperation of States/Power Utilities and other stakeholders, cumulatively 2.62 Crore Households Were electrified since launch of Saubhagya scheme upto 31st March, 2019. During FY 2018-19, 2.22 Crore households were electrified. Accordingly, All States (except Chhattisgarh with 18,734 un-electrified Households) have declared achievement of saturation of household electrification.

50.2 Deen Dayal Upadhyaya Gram Jyoti Yojana (DDUGJY)

Deendayal Upadhyaya Gram Jyoti Yojana (DDUGJY) is the flagship scheme of Government of India covering all aspects of rural power distribution. Under the scheme 60% of the project cost (85% for special States) is provided as grant by Government of India and additional grant upto 15% (5% for special States) on achievement of prescribed milestones. DDUGJY facilitates towards achievement of '24x7 Power for All' in the country through the following project components:

- (i) Separation of agriculture and non-agriculture feeders facilitating adequate power supply to agriculture & continuous power supply to non-agricultural consumers in the rural areas;
- (ii) Strengthening and augmentation of sub-transmission & distribution infrastructure in rural areas, including metering of distribution transformers/ feeders/ consumers;
- (iii) Micro-grid and Off-grid distribution network;
- (iv) Rural Electrification component under the RGGVY 12th and 13th plans, subsumed to DDUGJY.

The components at (i) and (ii) of the above scheme will have an estimated outlay of Rs. 43,033 Crore including budgetary support of Rs. 33,453 Crore from Government of India during the entire implementation period. The scheme of RGGVY as approved by CCEA for continuation in 12th and 13th plan have been subsumed in this scheme as a separate Rural Electrification (RE) component. During FY 2018-19, grant of Rs. 20,593 Crore has been received from Ministry of Power for utilization of implementing Government programmes (DDUGJY & Saubhagya) by the State Power Utilities/ Discoms across the Country.

CONSOLIDATED NOTES TO ACCOUNTS

50.3 National Electricity Fund (NEF)

The National Electricity Fund (NEF), an interest subsidy scheme, has become operational since FY 2012-13. The scheme has been introduced by the Government of India to promote capital investment in the distribution sector. The scheme provides interest subsidy linked with reform measures, on the loans taken by public and private distribution power utilities for various capital works in the Distribution sector. NEF would provide interest subsidy aggregating up to ₹ 8,466 Crore (including interest subsidy to the borrowers, Service Charges to the Nodal Agency, payments to Independent Evaluators and other incidental expenses) spread over 14 years for loan disbursement against projects approved during 2012-13 and 2013-14. REC has been nominated as the Nodal Agency for operationalization of NEF scheme across the country.

50.4 J&K Prime Minister's Development Plan (PMDP)

Government of Jammu & Kashmir, Power Development Department has appointed RECPDCL and RECTPCL as a Project Implimenting Agency (PIA) for design, engineering, procurement, supply, erection, testing and commssioning of all the material and services works to be taken-up for execution of distribution work under PMDP in J&K state on nomination basis, as per actual cost to be discovered through competitive biddings.

50.5 Urja Mitra and 11 kV Feeder Monitoring

Ministry of Power has initiated two schemes namely Urja Mitra and 11 kV Feeder Monitoring. Urja Mitra is an initiative which aims to provide information about power outage/cuts /breakdown/shutdown (both planned and unplanned) to the consumers. Feeder Monitoring scheme is to develop a Self-sustained independent web based system for automated 11 kV Rural Feeder Monitoring System through Data Logging of various essential parameters of all the Outgoing 11kV rural feeders from 66, 33/11 kV sub stations and make the information available online for various stake holders including public portal, on real time basis for power supply monitoring, alerts, meter data analysis, information dissemination and energy audit. RECTPCL has been appointed as nodal agency for the both the schemes.

51 Capital management

The Group manages its capital to ensure that it will continue as going concern while maximizing the return to stakeholders. The capital structure of the Group consists of the equity and the long-term borrowings made by the Group.

Management assesses the Group's capital requirements in order to maintain an efficient overall financing structure while avoiding excessive leverage. The Group manages the capital structure and raises funds through the suitable instruments, in light of the dynamic business environment and liquidity position within the sector. Further, with regard to capital restructuring, the Group is also guided, inter alia, by guidelines on "Capital Restructuring of Central Public Sector Enterprises" issued by Department of Investment and Public Asset Management (DIPAM), Ministry of Finance, Department of Public Enterprises in respect of issue of bonus shares, dividend distribution, buy back of equity shares etc. The Group has complied with all externally imposed capital requirements.

The debt-equity ratio of the Group is as below:

Particulars	(₹ in Crores)		
	As at 31.03.2019	As at 31.03.2018	As at 01.04.2017
Total debt	239,215.90	198,721.04	167,446.95
Net Worth	34,546.34	32,587.61	30,809.43
Debt-equity ratio	6.92	6.10	5.43

Total debt represents principal outstanding.

Dividend Distribution Policy

BoD monitors the dividend pay-out to the shareholders of the Company. Dividend distribution policy of the Company focuses on various factors including but not limited to the present & future capital requirements, profits earned during the financial year, Capital to Risk-weighted Assets Ratio (CRAR), cost of raising funds from alternate sources, cash flow position and applicable taxes including tax on dividend, subject to the guidelines as applicable from time to time, cash flow position and net worth of the Company, subject to the guidelines as applicable from time to time.

CONSOLIDATED NOTES TO ACCOUNTS

As per the extant guidelines issued by DIPAM, Govt. of India, Company is required to pay a minimum annual dividend of 30% of PAT or 5% of the net-worth, whichever is higher. Though the Company endeavors to declare the dividend as per these guidelines, the Company may propose lower dividend after analysis of various financial parameters, cash flow position and funds required for future growth.

52 Capital to Risk-weighted Assets Ratio

The Company has also adopted various policies for the management of the Company which inter-alia include Comprehensive Risk Management Policy, Whistle Blower Policy, Code for Prevention of Insider Trading in REC Equity Shares/Securities, Policy for prevention of Fraud, The Code of Business Conduct and Ethics for Board Members and Senior Management, Fair Practices Code, etc.

The Company is complying with the Capital Adequacy requirements as prescribed by the Reserve Bank of India. Being an NBFC and Infrastructure Finance Company (NBFC-IFC), REC is required to maintain a Capital to Risk Weighted Assets Ratio (CRAR) of 15% (with a minimum Tier I Capital of 10%).

Particulars	(₹ in Crores)		
	As at 31.03.2019	As at 31.03.2018	As at 01.04.2017
(i) CRAR (%)	17.77%	17.00%	18.97%
(ii) CRAR - Tier I Capital (%)	14.44%	14.40%	16.16%
(iii) CRAR - Tier II Capital (%)	3.33%	2.60%	2.81%

Details of Tier II capital and perpetual debt instruments raised during the financial year are as under:

Particulars	(₹ in Crores)	
	FY 2018-19	FY 2017-18
Amount of subordinated debt raised as Tier-II capital	2,151.20	-
Amount raised by issue of Perpetual Debt Instruments	-	-

53 Financial Risk Management

The Group's board of directors has overall responsibility for the establishment and oversight of the Company risk management framework. The Group has formulated a comprehensive Risk Management Policy, which covers, inter-alia, Credit Risk, Operational Risk and Market Risk of the organization. The Group's risk management policies are guided by well-defined policies appropriate for various risk categories, independent risk oversight and periodic monitoring. A Risk Management Committee (RMC) has also been constituted under the chairmanship of an Independent Director, whose main function is to identify and monitor various risks of the organization and to suggest actions for mitigation of the same.

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the related impact in the financial statements.

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, loans, trade receivables, financial assets measured at amortised cost, investment in debt securities	Ageing analysis	Bank deposits, liquid funds, diversification of asset base, credit limits and collateral.
Liquidity risk	Borrowings, debt securities, subordinated liabilities, and other financial liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities
Market risk - Currency risk	Recognised financial assets and liabilities not denominated in Indian Rupee (INR)	Cash flow forecasting	Derivative contracts/ hedging, if required
Market risk - interest rate risk	Borrowings, debt securities and subordinated liabilities at variable interest rates	Sensitivity analysis	Derivative contracts
Market risk - equity price risk	Investments in quoted equity securities	Sensitivity analysis	Diversification of portfolio, with focus on strategic investments

CONSOLIDATED NOTES TO ACCOUNTS

In order to avoid excessive concentrations of risk, the Group's policies and procedures include specific guidelines to focus on maintaining a diversified portfolio. Identified concentrations of credit risks are controlled and managed accordingly.

53.1 Credit Risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group's exposure to credit risk is influenced mainly by cash and cash equivalents, other bank balances, investments, loan assets, trade receivables and other financial assets. The Group continuously monitors defaults of customers and other counterparties and incorporates this information into its credit risk controls.

53.1.1 Financial assets that expose the entity to credit risk

Particulars	(₹ in Crores)		
	As at 31.03.2019	As at 31.03.2018	As at 01.04.2017
(i) Low credit risk on financial reporting date			
Cash and cash equivalents	381.99	248.43	4,468.51
Bank balances other than above	1,733.08	1,946.84	72.98
Loans *	256,448.62	207,067.88	184,379.61
Trade Receivables	148.55	145.93	142.47
Investments **	1,636.14	2,056.52	2,121.01
Other financial assets	18,390.68	4,293.80	68.24
(ii) Moderate credit risk			
Loans *	4,412.62	15,266.53	12,850
Trade Receivables	3.37	0.04	3.07
(iii) High credit risk			
Loans *	20,348.44	17,128.42	4,872.69
Trade Receivables	23.83	23.78	20.71

* Represents the principal outstanding (along with undisbursed amount towards Letters of Comfort) without deduction for expected credit losses

** This does not include investments in quoted equity instruments and venture capital funds as they are carried at FVOCI

Cash and cash equivalents and bank deposits

Credit risk related to cash and cash equivalents and bank deposits is managed by parking funds in investment grade rated instruments and highly rated banks and also diversifying the deposit base by investing in different instruments/ banks across the country.

Loans

Credit risk related to borrowers are mitigated through adequate security arrangements for the loans by way of hypothecation of future project loan assets, receivables, inventories or any other assets, Govt. Guarantees, Corporate guarantees etc. and additionally Collaterals wherever required. The Company closely monitors the credit-worthiness of the promoters through well-defined entity appraisal guidelines that are configured from systematic institutional and project appraisal process analysis to assess the credit risk and define credit limits of borrower, thereby, limiting the credit risk to pre-calculated amounts. These processes include a detailed appraisal methodology, identification of risks and suitable structuring and credit risk mitigation measures in form of pre-disbursement conditions.

Trade Receivables

Credit risk related to Trade Receivables is mitigated by assessing the credit worthiness of debtors and is managed by monitoring the recoverability of such amounts continuously.

CONSOLIDATED NOTES TO ACCOUNTS

Other financial assets measured at amortized cost

Other financial assets measured at amortized cost includes loans and advances to employees and subsidiaries, security deposits and other amounts recoverable, including from Govt. of India. Credit risk related to these other financial assets is managed by monitoring the recoverability of such amounts continuously.

53.1.2 Expected Credit Losses (ECL) for financial assets other than loans and trade receivables

Company provides for expected credit losses on financial assets other than loans and trade receivables by assessing individual financial instruments for expectation of any credit losses:

- For cash and cash equivalents and other bank balances - Since the Company deals with only high-rated banks and financial institutions for banking operations and the liquid funds category in the debt funds with consistent track record for short term investment of surplus funds, credit risk in respect of cash and cash equivalents, other bank balances and bank deposits is evaluated as very low.
- For investments - Considering that the investments are in debt securities of the State Govt./ minimum investment grade rated Government Companies and Public Sector Banks, credit risk is considered low.
- For other financial assets - Credit risk is evaluated based on Company's knowledge of the credit worthiness of those parties and loss allowance is measured for 12 month expected credit losses upon initial recognition and provide for lifetime expected credit losses upon significant increase in credit risk.

Details of expected credit loss for financial assets other than Loans and Trade Receivables is disclosed as follows:

Particulars	(₹ in Crores)		
	Gross Carrying Amount	ECL	Net Carrying Amount
As at 31st March 2019			
Cash and cash equivalents	381.99	-	381.99
Bank balances other than above	1,733.08	-	1,733.08
Investments	1,636.14	-	1,636.14
Other financial assets *	18,390.68	26.69	18,363.99
As at 31st March 2018			
Cash and cash equivalents	248.43	-	248.43
Bank balances other than above	1,946.84	-	1,946.84
Investments	2,056.52	-	2,056.52
Other financial assets *	4,293.80	12.27	4,281.53
As at 1st April 2017			
Cash and cash equivalents	4,468.51	-	4,468.51
Bank balances other than above	72.98	-	72.98
Investments	2,121.01	-	2,121.01
Other financial assets *	68.24	5.59	62.65

* The impairment allowance has been provided in full on other financial assets considered as credit-impaired.

53.1.3 Expected Credit Loss for loans

For risk management reporting purposes, the Company considers and consolidates following elements of credit risk:

- Credit default risk: The risk of loss arising from a debtor being unlikely to pay its loan obligations in full or the debtor is more than 90 days past due on any material credit obligation; default risk may impact all credit-sensitive transactions, including loans and securities.

CONSOLIDATED NOTES TO ACCOUNTS

- (ii) Concentration risk: The risk associated with any single exposure or group of exposures with the potential to produce large enough losses to threaten Company's core operations.

Credit Risk Management

Credit risk is the single largest risk of the Company's business, and therefore the Company has developed several processes and controls to manage it. The credit risk are managed at different levels including at appraisal, disbursements and post disbursement monitoring. To mitigate this risk, the company follows systematic institutional and project appraisal process to assess the credit risk. These processes include a detailed appraisal methodology, identification of risks and suitable structuring and credit risk mitigation measures. Further, on regular basis the projects risk are reviewed and categorised as High/Moderate/Low on the basis of different risk parameters and exposure of the project as per Project Risk Categorization Frameworks. The process for Credit Risk Management are as under :

- (i) The Company has "Integrated Rating Guidelines" and "Comprehensive Risk Management Policy" covering credit assessment, risk grading, collateral requirements, reporting, monitoring of end utilisation of funds etc.. Further, independent Lender legal counsels are appointed to ensure effective documentation and mitigation of legal risk.
- (ii) For all existing private sector projects, where the Company is Lead Financial Institution, the Company engages lender's engineers, financial advisors and insurance advisors, which are independent agencies who act on behalf of various lenders and consortium members. The Lenders' Engineers conducts periodic site visits and submits reports on progress status of the project, after discussion with borrower and inspection/ review of relevant documents. Lender's financial advisors submit the statements of fund flow and utilization of funds in the project periodically. In cases where the Company is not the lead FI, the tasks related to LE and LFA services are being coordinated with the lead lender.

A separate Project Management Agency (PMA) is being appointed for each of new project being financed by REC , which shall be stationed at project site to closely monitor various project execution activities including review of invoices, fund utilization and insurance for the project. PMA shall verify the bills of original equipment manufacturer/ supplier, composite works contractor and give its recommendation for disbursement.

- (iii) The Company has an authorisation structure for the approval and renewal of credit facilities. Authorisation limits have been established commensurating with the size of business proposal at CMD/Executive Committee/Loan Committee/ Board of Directors based on the recommendation of Screening Committee, as appropriate.
- (iv) The Company has developed risk grading structure to categorise its exposures according to the degree of risk of default by charging appropriate interest rates and security package.
- (v) Regular reports on the credit quality of loan portfolios are provided to Risk Management Committee and Board, which may require appropriate corrective action to be taken.
- (vi) External agencies are appointed from time to time to review the guidelines, policy and existing practices being followed by business units along with providing the specialist skills to promote best practice throughout the Company for management of credit risk.
- (vii) Individual and Group Credit Exposures are assessed against designated limits, before facilities are committed to borrowers by the business unit concerned. Sanction of additional facilities are also subject to the same review process.
- (viii) The Company continuously monitors delays and/ or default of borrowers & other counterparties and their recoverability. On occurrence of default in the borrower's account, the Company initiates necessary steps to cure the default which may involve action(s) including, but not limited to, Special Mention Account (SMA) reporting to RBI, credit information reporting to Central Repository of Information on Large Credits (CRILC), etc. regularization of the account by recovering all over dues, invocation of guarantees/ securities to recover the dues, conversion of loan into equity as per loan agreement, restructuring of loan account, formulating resolution plan with the borrower, change in ownership, Corporate Insolvency Resolution Process (CIRP), sale of the exposures to other entities/ investors and other recovery mechanisms.

(B) Credit risk Measurement

REC has appointed an independent agency, IRR Advisory Services Pvt. Ltd. for developing the methodology, evaluation and calculation of ECL as per Ind AS 109. A comprehensive model for measurement of Credit risk has been developed based on key financial and operational parameters to assess improvement/ deterioration in credit quality. The credit risk model also provides a rating and the expected loss in case of default. The Company has considered following parameters in the model:

CONSOLIDATED NOTES TO ACCOUNTS

Quantitative factors

Debt/ EBITDA (20% weightage)

Return on Capital Employed (30% weightage)

Interest Coverage (20% weightage)

Cash Interest Coverage (30% weightage)

Qualitative Factors

- (i) Quarter wise Operational Parameters like PPA, PLF, ACS – ARR Gap, and LAF
- (ii) Actual Default dates, loan restructuring details
- (iii) Cost run over and time delay in commissioning of the project for under construction projects
- (iv) Parent support
- (v) Turnover caps
- (vi) Conduct of account

(C) Measurement of Expected Credit Loss (ECL)

Ind AS 109 outlines a "three stage" model for impairment based on changes in credit quality since initial recognition as summarised below:

- A financial instrument that is not credit impaired on initial recognition and whose credit risk has not increased significantly since initial recognition is classified as "Stage 1".
- If a significant increase in credit risk since initial recognition is identified, the financial instrument is moved to "Stage 2" but is not yet deemed to be credit impaired.
- If a financial instrument is credit impaired, it is moved to "Stage 3".
- Financial instrument in Stage 1 have their ECL measured at an amount equal to expected credit loss that results from default events possible within the next 12 months. Instruments in Stage 2 or Stage 3 criteria have their ECL measured on lifetime basis.

(D) Significant Increase in Credit Risk (SICR)

The Company considers a financial instrument to have experienced a significant increase in credit risk when one or more of the following quantitative or qualitative criteria are met.

Quantitative criteria

The company has assumed that a 2 notch downgrade in credit rating since inception to be considered as significant increase in credit risk.

Qualitative criteria

In case of significant delay in commissioning in under construction projects, it is assumed that there is significant increase in risk and loan is moved to stage 2.

Backstop

A backstop is applied by the Company on any financial instrument if the payment is greater than or equal to Rs. 1 crore and the borrower is more than 30 days past due on its contractual payments. However, based on historical data, it has been noticed that such overdue amounts for more than 30 days do not signify significant increase in credit risk for state utilities. Therefore, the Company has applied this criteria only for private entities.

(E) Low credit risk exemption

Ind-AS provides an optional simplification to assume that the credit risk on a financial asset has not increased significantly since initial recognition (and thus remain in stage 1) if the financial asset is considered to have a low credit risk at the reporting date.

CONSOLIDATED NOTES TO ACCOUNTS

Credit risk is considered to be 'low' when the financial instrument has a low risk of default, the borrower has a strong capacity to meet its contractual cash flow obligations in the near term and adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfill its contractual cash flow obligations.

The Company considers loan assets having External credit rating between AAA to A, to have low credit risk. Further, the Company has taken low credit risk exemption for all state utilities as the Company considers that loans to state sector have a low credit risk in comparison to lending to private sector mainly due to low default/ loss history in state sector and availability of government guarantee in certain loans. Further, presence of Government interest in these projects lowers the risk of non-recoverability of dues.

(F) Definition of default and credit-impaired assets

The Company defines a financial instrument as in default, which is fully aligned with the definition of credit-impaired, when the loan account is more than 90 days past due on its contractual payments.

(G) Measuring ECL - explanation of inputs, assumptions and estimation techniques

Expected credit losses are the product of the probability of default (PD), exposure at default (EAD) and loss given default (LGD), defined as follows:

- PD represents the likelihood of the borrower defaulting on its obligation either over next 12 months or over the remaining lifetime of the instrument.
- EAD is based on the amounts that the Company expects to be owed at the time of default over the next 12 months or remaining lifetime of the instrument.
- LGD represents the Company's expectation of loss given that a default occurs. LGD is expressed in percentage and remains unaffected from the fact that whether the financial instrument is a Stage 1 asset, or Stage 2 or even Stage 3. However, it varies by type of borrower, availability of collateral or other credit support.

Determination of Probability of Default (PD)

The Company has analysed the transition matrix of various rating agencies (CRISIL, Care and India Ratings) and has taken average of transition matrix of these rating agencies to arrive at the annual average transition matrix. This average annual transition matrix was extrapolated to arrive at the lifetime probability of default of various rating grades by loan tenure / maturity profile i.e. lifetime PD.

Loss Given Default (LGD) computation model

Based on the historical trend, research and industry benchmarking the Company has constructed a LGD model. Factors reviewed in the LGD model include Project cost per unit, current PLF, parent / state support, PPA status, FSA, fuel cost pass-through status, years of existing default etc. Based on internal research, for Thermal plants company has benchmarked project cost and PLF level to estimate viable scenario for operating profitably and recoverability is calculated accordingly. Similarly company assumes that although Renewable companies and Transmission companies face collection issues from distribution companies leading to longer working capital cycle but they are sustainable on long term basis. For State Utilities, the Company has factored in the state support and assumed that the State governments would step in to repay debt obligations of the state utilities as witnessed in the past during the Uday scheme, thus state credit rating and corresponding PD is considered to compute LGD.

Further, where REC and PFC (Group Companies) are in Consortium for Stage-III Loan accounts, LGD is taken on the following basis:

- (a) In cases where either REC or PFC is lead lender, LGD % calculated by the lead lender is adopted
- (b) In cases where neither REC nor PFC is lead lender, higher of the LGD% worked out by REC and PFC is adopted.

(H) Key assumptions used in measurement of ECL

- (i) The Company considers the date of initial recognition as the base date from which significant increase in credit risk is determined.
- (ii) Cost Overrun and time delay in commissioning is considered for computing credit rating for under construction projects.

CONSOLIDATED NOTES TO ACCOUNTS

- (iii) Turnover Cap and Parent support is considered for assigning final ratings.
- (iv) Since the Company has a right to cancel any sanctioned but undrawn limits to any of its borrowers, EAD is assumed to be outstanding balance as on the reporting date.

(I) Forward looking information incorporated in ECL models

The assessment of significant increase in risk and the calculation of ECL both incorporate forward-looking information. Further, the Credit Rating Models also consider the forward looking information in the determination of the credit rating to be assigned to the borrower, by taking into consideration various financial ratios and extension of the project completion. As such, the Base Case Scenario reflects the most appropriate basis for the computation of ECL for the Company. After analysis of the forward looking information and the economic situation, no upturn/downturn scenario seems to be applicable or requiring any consideration in inputs used for ECL computation.

(J) Credit Risk Exposure

Credit Risk Exposure in respect of the borrowers with different credit ratings is as under

As at 31st March 2019

(₹ in Crores)

(K) Collateral and other credit enhancements

The Company employs a range of policies and practices to mitigate credit risk. The most common of these is accepting collateral for funds disbursed. The Company has internal policies on the acceptability of specific classes of collateral or credit risk mitigation. The principal collateral types for loans and advances are:

- Mortgage of Immovable properties
- Hypothecation of Moveable property
- Assignment of project contract documents
- Pledge of instruments through which promoters' contribution is infused in the project
- Pledge of Promoter Shareholding
- Corporate and personal Guarantee of Promoters

(L) Loss allowance

The loss allowance recognized in the period is impacted by a variety of factors, as described below:

- Transfers between Stage 1 and Stages 2 or 3 due to financial instruments experiencing significant increases (or decreases) of credit risk or becoming credit-impaired in the period, and the consequent "step up" (or "step down") between 12-month and Lifetime ECL
- Additional allowances for new financial instruments recognised during the period, as well as releases for financial instruments de-recognised in the period
- Impact on the measurement of ECL due to changes in PDs, EADs and LGDs in the period, arising from regular refreshing of inputs to models
- Financial assets derecognised during the period and write-offs of allowances related to assets that were written off during the period

CONSOLIDATED NOTES TO ACCOUNTS

The following tables explain the changes in the loan assets (including undisbursed Letters of Comfort) and the corresponding ECL allowance between the beginning and the end of the reporting period:

	FY 2018-19						Total	
	Stage 1		Stage 2		Stage 3

(d) Closing balance	9,698.95	8,490.53

(Q) Write off policy

The Company writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include ceasure of enforcement activity or where the Company's recovery method is foreclosing on collateral and the value of collateral is such that there is no reasonable expectation of recovery in full.

53.1.4 Expected Credit Loss for Trade Receivables

The entity provides for lifetime credit losses in respect of trade receivables of RECPDCL, one of the subsidiary of REC using simplified approach under ECL method

Particulars	Less than 6 months	6 months- 1 year	1 year- 2 year	2 year- 3 year	More than 3 year	Total
As at 31st March 2019

Other trade receivables included in the financial statements pertain to RECTPCL, for which there is no Expected Credit Loss. The figure for the same as on 31.03.2019 is Rs 22.90 crores (Rs 17.17 crores as on 31.03.2018 and Rs 0.58 crores as on 01.04.2017)

53.2 Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due.

The Company manages its liquidity risk through a mix of strategies, including forward-looking resource mobilization based on projected disbursements and maturing obligations. The Company has put in place an effective Asset Liability Management System and has also constituted an Asset Liability Management Committee ("ALCO") which monitors the liquidity risk with the help of liquidity gap analysis.

The Company maintains adequate bank balances, short term investments that are readily convertible into cash and adequate borrowing and overdraft facilities by continuously monitoring the forecast and actual cash flows.

CONSOLIDATED NOTES TO ACCOUNTS
53.2.1 Maturity Pattern of Future Undiscounted Cash Flows

The cash flows towards items of financial liabilities (representing future undiscounted cash flows towards principal and interest) is as under:

CONSOLIDATED NOTES TO ACCOUNTS

53.2.3 Financing arrangements

The Company had access to the following undrawn borrowing facilities at the end of the reporting period:

Particulars	(₹ in Crores)		
	As at 31.03.2019	As at 31.03.2018	As at 01.04.2017
Expiring within one year (cash credit and other facilities)			
- Floating rate	11,440.00	10,340.00	5,710.00
Expiring beyond one year (loans/ borrowings)			
- Floating rate	1,577.11	-	-

53.3 Market Risk - Currency Risk

The Company is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the US Dollar, EURO and JPY. Foreign exchange risk arises from recognised liabilities denominated in a currency, other than the functional currency of the Company. To mitigate the Company's exposure to foreign currency risk, non-INR cash flows are monitored and derivative contracts are entered into in accordance with the Company's risk management policies.

The Company has a board-approved Risk Management Policy which inter-alia aims to manage risks associated with foreign currency borrowings. Parameters like hedge ratio, un-hedged exposure, mark-to market position, exposure limit with banks etc. are monitored as a part of foreign exchange risk and interest rate risk management. This policy provides the guiding parameters within which the Company can take decisions for managing the Currency Risk and interest risk that it is exposed to on account of foreign currency loan, including debt securities. The purpose of the policy is to provide a framework to the Company for management of its foreign currency risk and interest rate risk.

An Asset Liability Management Committee (ALCO) is currently functioning under the chairmanship of CMD, Director (Finance), Director (Technical), Executive Directors and General Managers from Finance and Operating Divisions as its members. ALCO monitors Foreign currency risk with exchange rate and interest rate managed through various derivative instruments. The Company enters into various derivative transactions to cover exchange rate through various instruments like foreign currency forwards contracts, currency options, principal only swaps and forward rate agreements. These derivative transactions are done for hedging purpose and not for trading or speculative purpose. In respect of foreign currency debt securities and borrowings, the company has also executed cross currency swaps (principal and/or interest) to hedge the Foreign Currency Exposure. The outstanding position of Foreign Currency Exposure as at 31st March 2019 is as under:

Currency	As at 31.03.2019			As at 31.03.2018			As at 01.04.2017

EUR/INR	1.27	(1.27)	10.26	(10.26)	8.81	(8.81)

* Holding all other variables constant

53.4 Market Risk - Interest Rate Risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in interest rates.

The Company manages interest rate risk by entering into various derivative contracts like use of interest rate swap contracts and forward interest rate contracts. Hedging activities are evaluated regularly to align with interest rate views and defined risk appetite, ensuring the most cost-effective hedging strategies are applied.

The table below shows the overall exposure of the Company to interest rate risk on the floating rate liabilities, along with the bifurcation under hedged/ un-hedged category as at 31st March 2019 is as under:

(Foreign Currency amounts in Millions, INR equivalent in ₹ Crores)

Currency	As at 31.03.2019			As at 31.03.2018			As at 01.04.2017		
	Floating Interest Rate Exposure	Hedged through Derivatives	Unhedged Exposure	Floating Interest Rate Exposure	Hedged through Derivatives	Unhedged Exposure	Floating Interest Rate Exposure	Hedged through Derivatives	Unhedged Exposure

INR Equivalent	645.65	645.65	-	-	-	-	1,102.92	-	1,102.92
Total INR Equivalent	40,808.70	14,514.50	26,294.20	21,275.07	15,187.80	6,087.27	19,868.14	13,561.69	6,306.45

The Company's lending portfolio carries interest at semi-fixed rate i.e. fixed rate of interest with 3/10 year reset option with the borrower. The Company reviews its lending rates periodically based on prevailing market conditions, borrowing cost, yield, spread, competitors' rates, sanctions and disbursements etc. In order to manage pre-payment risks, the Company charges pre-payment premium from borrowers in case of pre-payment of loan. The interest rate risk is managed by the analysis of interest rate sensitivity gap statements and by evaluating the creation of assets and liabilities with a mix of fixed and floating interest rates.

CONSOLIDATED NOTES TO ACCOUNTS

The Company is exposed to interest rate risk on following Loan Assets which are at semi-fixed rates:

(₹ in Crores)

Description	As at 31.03.2019	As at 31.03.2018	As at 01.04.2017
Rupee Loans	279,021.68	233,801.39	198,339.83

Sensitivity Analysis

The table below represents the impact on P&L (Gain / (Loss) for 50 basis points increase or decrease in interest rate on Company's floating rate assets and liabilities on the unhedged exposures:

(₹ in Crores)

Particulars	As at 31.03.2019		As at 31.03.2018		As at 01.04.2017	
	Increase	(Decrease)	Increase	(Decrease)	Increase	(Decrease)
Floating Rate Loan Liabilities	(85.53)	85.53	(19.80)	19.80	(20.62)	20.62
Floating/ semi-fixed Rate Loan Assets	907.60	(907.60)	760.51	(760.51)	648.49	(648.49)

* Holding all other variables constant

The above sensitivity analysis has been prepared assuming that the amount outstanding at the end of the reporting period remains outstanding for the whole year. A 50 basis point increase or decrease represents management's assessment of the reasonably possible change in interest rates.

53.5 Market Risk - Price risk

The Company is exposed to equity price risks arising from investments in quoted equity shares and venture capital funds. The Company's equity investments are held for strategic rather than trading purposes.

Sensitivity Analysis

The table below represents the impact on OCI Gain / (Loss) for 5% increase or decrease in the respective prices on Company's equity investments, outside the group:

55 Exposure Related Disclosures

RBI, vide its letter dated 17th September 2010 had categorized REC as an Infrastructure Finance Company (IFC) in terms of instructions contained in RBI Circular CC No.168 dated 12th February 2010. As an IFC, the total permissible exposure for lending in the private sector is 25% of owned funds in case of single borrower and 40% in case of a single group of borrowers and exposure for lending and investing taken together can be upto 30% and 50% of owned funds, respectively.

In respect of Central/State Government entities, RBI vide its letter No.DNBR.PD.CO.No.2184/03.10.001/2015-16 dated 16th June 2016 has exempted REC from applicability of RBI's concentration of credit/investment norms till 31st March, 2022. In view of the above, our maximum credit exposure limits to Central and State power Utilities continue to vary from 50% to 250% of owned funds, depending upon entity appraisal.

In respect of Private Sector entities, the Company's credit exposure to single borrowers and group borrowers did not exceed the RBI prudential exposure limits as at 31st March 2019, 31st March 2018 and 1st April 2017.

55.1 Exposure to Real Estate Sector

The Company has no exposure to real estate sector as at 31st March 2019 (As at 31st March 2018 Nil, as at 1st April 2017 Nil).

55.2 Exposure to Capital Market

(₹ in Crores)

57.1 Fair values hierarchy

The fair value of financial instruments as referred above has been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities [Level 1 measurements] and lowest priority to unobservable inputs [Level 3 measurements].

The categories used are as follows:

Level 1: Quoted prices (unadjusted) for identical instruments in an active market;

Level 2: Directly (i.e. as prices) or indirectly (i.e. derived from prices) observable market inputs, other than Level 1 inputs; and

Level 3: Inputs which are not based on observable market data (unobservable inputs).

The Company's policy is to recognize transfers into and transfer out of fair value hierarchy at the date of event or change in circumstances that caused the transfer.

Derivative financial instruments	-	159.40	-	-	317.75	-	-	354.46	-

Valuation Techniques for fair value disclosures (Level 1 , Level 2 and Level 3)

- (A) Investment in Quoted Equity Investments - Level 1 - Investment in listed equity instruments are measured at their readily available quoted price in the market.
- (B) Investment in Venture Capital Fund - Level 2 - Investment in venture capital fund are measured at their fair value as per the Net Asset Value (NAV) Certificate shared by the fund.
- (C) Derivative Financial Instruments - Level 2 - The fair value has been determined by an independent valuer using observable inputs including forward exchange rates, interest rates corresponding to the maturity of the contract, implied volatilities, etc.
- (D) Investment in Perpetual Bond Investments - Level 3 - The Company has made investments in perpetual bonds of Indian Bank, Vijaya Bank and Syndicate Bank which are quoted on NSE/BSE. The Company checks for active market transactions for these bonds. In such investments held by the Company, there is no history of any market activity in these bonds, and therefore, quoted price for such bonds is not available. The Company checks for any significant changes in credit rating of the borrower bank, and if no change is noted, then, coupon rate is considered for computing the fair value using discounted cash flow method.
- (E) Investment in Unquoted Equity Investments - Level 3 - Investment in unquoted equity instruments of Universal Commodity Exchange Ltd. (UCX) and Lanco Teesta Hydro Power Pvt. Ltd. are classified as Level 3 and have been carried at Nil value by the Company due to the company specific reasons. UCX was shut down in 2014, thereby, ceasing to exist as a going concern. Further, the Company had acquired investment in Lanco Teesta Hydro Power Pvt. Ltd., on conversion of its credit-impaired loan. Since the Company has already recognised lifetime Expected Credit Loss on the loan, the equity value is considered to be Nil.

57.2 Reconciliation of Financial Instruments fair valued through Level 3 inputs

The following tables show the reconciliation of the opening and closing amounts of Level 3 financial assets and liabilities measured at fair value:

(₹ in Crores)

Particulars	FVTPL	FVOCI	Total
	Investment in Perpetual Bonds	Investment in Equity Instruments	
FY 2017-18			
Opening Balance	1,500.62	109.25	1,609.87
Settlement	(168.25)	-	(168.25)
Transfer from Level 3	-	(109.25)	(109.25)
Net interest income, net trading income and other income	168.25	-	168.25
Closing Balance	1,500.62	-	1,500.62
Unrealised gains/ (losses) on balances held at the end of the period	0.62	-	0.62
FY 2018-19			
Opening Balance	1,500.62	-	1,500.62
Settlement	(112.00)	-	(112.00)
Net interest income, net trading income and other income	168.25	-	168.25
Closing Balance	1,556.87	-	1,556.87
Unrealised gains/ (losses) on balances held at the end of the period	56.87	-	56.87

CONSOLIDATED NOTES TO ACCOUNTS

57.3 Fair value of instruments measured at amortised cost

Fair value of instruments measured at amortised cost for which fair value is disclosed is as follows, these fair values are calculated using Level 3 inputs:

(₹ in Crores)

Particulars	As at 31.03.2019		As at 31.03.2018		As at 01.04.2017	
	Carrying value	Fair value	Carrying value	Fair value	Carrying value	Fair value
Financial assets						
Cash and cash equivalents	381.99	381.99	248.43	248.43	4,468.51	4,468.51
Bank balances other than above	1,733.08	1,733.08	1,946.84	1,946.84	72.98	72.98

Total	263,475.88	264,949.60	209,069.68	213,519.50	173,278.42	180,769.08

Valuation methodologies of financial instruments not measured at fair value

Below are the methodologies and assumptions used to determine fair values for the above financial instruments which are not recorded and measured at fair value in the Company's financial statements. These fair values were calculated for disclosure purposes only. The below methodologies and assumptions relate only to the instruments in the above tables:

Financial assets and liabilities

For financial assets and financial liabilities that have a short-term maturity (less than twelve months), the carrying amounts, which are net of impairment, are a reasonable approximation of their fair value. Such instruments include: cash and balances, Trade receivables, Contract assets, balances other than cash and cash equivalents, trade payables and contract liability without a specific maturity.

Loans and advances to customers

Fair values of loan assets are calculated using a portfolio-based approach, grouping loans as far as possible into homogenous groups based on similar characteristics. The Company then calculates and extrapolates the fair value to the entire portfolio, using discounted cash flow models that incorporate interest rate estimates considering all significant characteristics of the loans. Where such information is not available, the Company uses historical experience and other information used in its collective impairment models.

Financial assets at amortised cost

The fair values of debt securities measured at amortised cost are estimated using a discounted cash flow model based on contractual cash flows using actual or estimated yields and discounting by yields incorporating the counterparties' credit risk.

CONSOLIDATED NOTES TO ACCOUNTS

Issued debt

The fair values of the Company fixed interest-bearing debt securities, borrowings and subordinated liabilities are determined by applying discounted cash flows ('DCF') method, using discount rate that reflects the issuer's borrowing rate as at the end of the reporting period. The own non-performance risk as at 31st March 2019 was assessed to be insignificant.

All other debt securities, borrowings and subordinated liabilities availed by the Company are variable rate facilities which are subject to changes in underlying Interest rate indices. Further, the credit spread on these facilities are subject to change with changes in Company creditworthiness. The management believes that the current rate of interest on these loans are in close approximation from market rates applicable to the Company. Therefore, the management estimates that the fair value of these borrowings are approximate to their respective carrying values.

58 Disclosure under Micro, Small and Medium Enterprises Development Act, 2006:

Description	(₹ in Crores)		
	As at 31.03.2019	As at 31.03.2018	As at 01.04.2017
Principal amount remaining unpaid as at year end	2.65	1.83	0.30

60 Disclosures for Employee Benefits as required under Ind AS 19 'Employee Benefits':

60.1 Defined Contribution Plans

A. Provident Fund

REC pays fixed contribution of Provident Fund at pre-determined rates to a separate trust registered under The Provident Fund Act, 1925 which invests the funds in permitted securities. The trust fixes the rate of interest on contribution to the members of the fund based upon the returns earned on investments during the year. Since the Act does not prescribe the minimum interest to be paid to the members of the fund, it is considered as Defined Contribution Plan as per the provisions of Ind AS 19.

In case of RECPDCL, there is no separate trust and the Company makes Provident Fund Contributions to defined contribution plans.

B. Defined Contribution Superannuation Scheme

The Company pays fixed contribution towards superannuation scheme at pre-determined rates to NPS Trust/ separate trust which invests the funds in the permitted securities. The balance with the NPS Trust/ separate trust includes the monthly contributions in the members' account along with the accumulated returns. When the pension becomes payable to the member, the amount standing to the credit of the member is appropriated towards the member's accumulation and annuities, as opted for by the member is allotted.

The Group has recognised an expense of ₹ 14.87 Crores (Previous year ₹ 14.10 Crores) towards defined contribution plans.

60.2 Defined Benefit Plans - Post-Employment Benefits

A. Gratuity

The Company has a defined gratuity scheme which is managed by a separate trust. Every employee who has rendered continuous service of five years or more is entitled to gratuity at 15 days salary for each completed year of service subject to a maximum of ₹ 0.20 crores on superannuation, resignation, termination, disablement or on death, considering the provisions of the Payment of Gratuity Act, 1972, as amended. The liability of Gratuity is recognized on the basis of actuarial valuation.

CONSOLIDATED NOTES TO ACCOUNTS

60.2.1 Risk exposure

Through its defined benefit plans, the Company is exposed to a number of risks, the most significant of which are detailed below:

(i) Asset volatility

Most of the plan asset investments are in government securities, other fixed income securities with high rating grades and mutual funds. The fair value of these assets is subject to volatility due to change in interest rates and other market and macro-economic factors.

(ii) Changes in discount rate

The present value of defined benefit plan liabilities is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period. A decrease in discount rate will increase present values of defined benefit obligations, although this will be partially offset by an increase in the value of the plans' investments.

(iii) Longevity risk

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

(iv) Salary risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

60.2.2 Plan Assets

The fair value of plan assets at the end of reporting period for each category, are as follows:

(₹ in Crores)

Particulars	Gratuity			PRMF		
	As at 31.03.2019	As at 31.03.2018	As at 01.04.2017	As at 31.03.2019	As at 31.03.2018	As at 01.04.2017
Cash & Cash Equivalents	0.61	0.39	0.78	0.65		
Unquoted Plan Assets						
Corporate Bonds/ Debentures				97.34		
Others - Insurer managed funds & T-bills	43.54	48.27	34.91			
Sub-total - Unquoted Plan Assets	43.54	48.27	34.91	97.34	-	-
Total	44.15	48.66	35.69	97.99	-	-

Actual return on plan assets is ₹ 5.16 crores (previous year ₹ 2.94 crores).

60.2.3 Significant Actuarial Assumptions

The most recent actuarial valuation of the plan assets and the present value of the defined benefit obligation were carried out as at March 31, 2019 by M/s Transvalue Consultants. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the projected unit credit method. The principal assumptions used for actuarial valuations are:-

(₹ in Crores)

	FY 2018-19	FY 2017-18	FY 2018-19	FY 2017-18	FY 2018-19	FY 2017-18
Method Used	PUCM	PUCM	PUCM	PUCM	PUCM	PUCM
Discount Rate & Expected Return on Plan Assets, if funded	7.71%	7.60%	7.71%	7.60%	7.71%	7.60%
Future Salary Increase / medical inflation	6.00%	6.50%	6.00%	6.50%	6.00%	6.50%
Expected average remaining working lives of employees (years)	13.12	12.82	13.12	12.82	13.12	12.82

CONSOLIDATED NOTES TO ACCOUNTS

- The Principle assumptions are the discount rate, salary growth rate and expected average remaining working lives of employees. The discount rate is generally based on the market yields available on govt. bonds at the reporting date with a term that matches the liabilities and the salary growth rate takes account of inflation, seniority, promotions and other relevant factors as long term basis. The above information is certified by the Actuary.

60.2.4 Sensitivity Analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below:

(₹ in Crores)

Particulars	As at 31.03.2019		As at 31.03.2018		As at 01.04.2017	
	Increase	Decrease	Increase	Decrease	Increase	Decrease
Discount rate (0.50% movement)						
- Gratuity	(0.89)	1.10	(1.12)	1.19	(1.16)	1.23
- PRMS	(0.77)	0.84	(0.43)	0.46	(4.83)	5.07
- ERS	(0.13)	0.15	(0.12)	0.13	(0.12)	0.14
Salary Escalation Rate (0.50% movement)						
- Gratuity	0.15	(0.12)	0.46	(0.50)	0.62	(0.69)
- PRMS	-	-	-	-	-	-
- ERS	0.14	(0.12)	0.12	(0.11)	0.13	(0.11)
Medical inflation Rate (0.50% movement)						
- PRMS	6.31	(5.92)	-	-	-	-
Medical Cost (0.50% movement)						
- PRMS	12.98	(12.98)	-	-	-	-

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

The Company actively monitors how the duration and expected yield of investments are matching the expected cash outflows arising from employee benefit obligations. Investments are well diversified, such that the failure of any single investment would not have a material impact on overall level of assets. There has been no change in the process used by the Company to manage its risks from prior periods.

60.2.5 Expected maturity analysis of the defined benefit plans in future years

60.2.6 Expected contribution for the next year.

(₹ in Crores)

Particulars	Gratuity		PRMF		ERS	
	FY 2018-19	FY 2017-18	FY 2018-19	FY 2017-18	FY 2018-19	FY 2017-18
Expected contribution	1.72	2.89	34.74	4.98	-	-

The weighted average duration of the defined benefit plan obligation at the end of the reporting period is 12.76 years (as at 31.03.2018 - 12.82 years, as at 01.04.2017 - 13.08 years).

60.3 Other Long-term Employee Benefits

60.3.1 Earned Leave and Half Pay Leave

REC provides for earned leave benefit and half-pay leave benefit to the credit of the employees, which accrues on half-yearly basis at 15 days and 10 days respectively. A maximum of 300 days of earned leave can be accumulated at any point of time during the service, while there is no limit for accumulation of half pay leave. In case of RECPDCL, the Employees are entitled for Leave Encashment after completion of one year of service only and amount is paid in full, at the time of separation. The liability for the same is recognised on the basis of actuarial valuation. Total expenses amounting to ₹ 7.40 crore (Previous year ₹ 8.55 crore) have been made towards these employee benefits and debited to the Statement of Profit and Loss on the basis of actuarial valuation.

60.3.2 Other employee benefits

Expenses towards long service award and settlement allowance amounting to ₹ 1.43 crore (Previous year ₹ -0.41 crore) have been debited to the Statement of Profit and Loss on the basis of actuarial valuation.

In case of RECPDCL and RECTPCL, the Loyalty incentive to the employees is payable after completion of three years of continuous service only, except in case of separation due to death. The payment of dues to outgoing employee is released at the time of separation. Expenses amounting to ₹ 0.17 crore (Previous year ₹ 0.13 crore) have been debited to the Statement of Profit and Loss on the basis of actuarial valuation.

61 Status of Documentation Subsequent to Unbundling of SEBs

Some of the erstwhile State Electricity Boards (SEBs) against whom loans were outstanding or on whose behalf guarantees were given, were restructured by the respective State Governments and new entities were formed in the past. Consequently, the liabilities of the erstwhile SEBs stand transferred to new entities. However, transfer agreements in the case of Chhattisgarh State Electricity Board (CSEB) are yet to be executed amongst the Company, new entity and the State Government.

Agreements in case of erstwhile Tamil Nadu State Electricity Board (TNEB) have been executed based on the provisional provisions of the Tamil Nadu Electricity (Re-organisation and Reforms) Transfer Scheme, 2010. However further transfer agreements in this regard shall be executed, once finalized based on the discussion with the Tamilnadu utilities.

Status of Documentation Subsequent to Reorganisation of the State of Andhra Pradesh

Subsequent to the reorganisation of erstwhile State of Andhra Pradesh, the state of Telangana has been formed on 2 June 2014. However, the assets and liabilities are yet to be transferred to the respective power utilities through a formal Gazette Notification.

Status of Documentation is as under:

- (i) Where ever the loans have been sanctioned to erstwhile APCPDCL, APNPDCL and APGENCO prior to bifurcation and documentation has not been done, these schemes have been re-sanctioned in the name of newly formed utilities and documentation formalities completed and accordingly the charge has been registered with the Ministry of Corporate Affairs (MCA).

CONSOLIDATED NOTES TO ACCOUNTS

- (ii) Where ever the loans sanctioned in the name of erstwhile APCPDCL, APNPDCL prior to bifurcation and documentation formalities completed and drawls have been made, in these schemes an undertaking has been obtained from the name changed / newly formed utility and disbursements have been made to the newly formed utility by changing the name of the borrower in the name of new / name changed utility.
- (iii) Where ever the Loan is sanctioned in the name of erstwhile APCPDCL, APNPDCL prior to bifurcation and documentation formalities completed with Government Guarantee and drawls have been made, further documentation for these schemes shall be done on Gazette Notification.
- (iv) Once the final transfer scheme is notified through Gazette Notification by Govt, duly indicating the transfer of assets and liabilities among the power utilities, action for execution of documentation formalities will be taken up in respect of all the outstanding loans with the new / name changed utilities. Till that time, the demand for payment of interest / principal is being segregated by the Utilities and the respective portions are being paid by Utilities in Telangana and Andhra Pradesh.
- 62 The Company's operations comprise of only one business segment - lending loans to power sector companies engaged in construction of power plants and in generation, supply, distribution and transmission of electricity: in the context of reporting business/ geographical segment as required by Ind AS 108 - Operating Segments. Based on "management approach" as defined in Ind AS 108 Operating Segments, the Chief Operating Decision Maker evaluates the Company's performance based on analysis of various factors of one business segment.

62.1 Information about Revenue from major products and services

(₹ in Crores)

Particulars	FY 2018-19	FY 2017-18
(A) Income from Loan Assets	24,869.97	21,908.17
(B) Fee for Implementation of Govt. Schemes	83.02	187.79
(C) Income from Management of Short-term Surplus Funds	55.48	88.76
(D) Revenue from sale of services	169.93	227.05
Total	25,178.40	22,411.77

62.2 The Group does not have any reportable geographical segment as the primary operations of the Group are carried out within the country.

62.3 No single borrower has contributed 10% or more to the Group's revenue during the financial year 2018-19 and 2017-18.

63 First time adoption of Ind AS

These financial statements, for the year ended March 31, 2019, are the first financial statements the Company has prepared in accordance with Ind AS. For periods up to and including the year ended March 31, 2018, the Company prepared its financial statements in accordance with accounting standards notified under section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP or previous GAAP).

Accordingly, the Company has prepared financial statements which comply with Ind AS applicable for periods ending on March 31, 2019, together with the comparative period data as at and for the year ended March 31, 2018, as described in the summary of significant accounting policies. In preparing these financial statements, the Company's opening balance sheet was prepared as at 1 April 2017, the Company's date of transition to Ind AS. This note explains the principal adjustments made by the Company in restating its Indian GAAP financial statements, including the balance sheet as at 1 April 2017 and the financial statements as at and for the year ended March 31, 2018.

CONSOLIDATED NOTES TO ACCOUNTS

63.1 Ind AS optional exemptions

Deemed cost for property, plant and equipment, investment property and intangible assets

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the Previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for intangible assets covered by Ind AS 38 Intangible Assets and investment property covered by Ind AS 40 Investment Property. Accordingly, the Group has elected to measure all of its property, plant and equipment, intangible assets and investment property at their Previous GAAP carrying value.

Designation of previously recognised financial instruments

Ind AS 101 allows an entity to designate investments in equity instruments at FVOCI on the basis of the facts and circumstances at the date of transition to Ind AS. The Company has elected to apply this exemption for its investment in equity investments.

Amortisation of Exchange Differences on Existing Long Term Foreign Currency Monetary Items

The Company has availed the exemption to continue the policy as per the previous GAAP with respect to amortization of the exchange differences arising from translation of long-term foreign currency monetary items recognised in the financial statements up to 31.03.2018

63.2 Ind AS mandatory exceptions

(i) Estimates

An entity's estimates in accordance with Ind ASs at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with Previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error.

Ind AS estimates as at 1 April 2017 are consistent with the estimates as at the same date made in conformity with Previous GAAP. The Company made estimates for impairment of financial assets based on expected credit loss model in accordance with Ind AS at the date of transition as these were not required under Previous GAAP.

(ii) Classification and measurement of financial assets and liabilities

The classification and measurement of financial assets will be made considering whether the conditions as per Ind AS 109 are met based on facts and circumstances existing at the date of transition.

Financial assets can be measured using effective interest method by assessing its contractual cash flow characteristics only on the basis of facts and circumstances existing at the date of transition and if it is impracticable to assess the use of effective interest method, fair value of financial asset at the date of transition shall be the new carrying amount of that asset. The measurement exemption applies for financial liabilities as well.

(iii) Impairment of financial assets

At the date of transition to Ind AS, determining whether there has been a significant increase in credit risk since the initial recognition of a financial instrument would require undue cost or effort, the Company has recognised a loss allowance at an amount equal to lifetime expected credit losses at each reporting date until that financial instrument is derecognised.

(iv) De-recognition of financial assets and liabilities

Ind AS 101 requires a first-time adopter to apply the de-recognition provisions of Ind AS 109 prospectively for transactions occurring on or after the date of transition to Ind AS. However, Ind AS 101 allows a first-time adopter to apply the de-recognition requirements in Ind AS 109 retrospectively from a date of the entity's choosing, provided that the information needed to apply Ind AS 109 to financial assets and financial liabilities derecognised as a result of past transactions was obtained at the time of initially accounting for those transactions. The Company has elected to apply the de-recognition provisions of Ind AS 109 prospectively from the date of transition to Ind AS.

CONSOLIDATED NOTES TO ACCOUNTS

63.3 Reconciliations between Previous GAAP and Ind AS

Ind AS 101 requires an entity to reconcile equity, total comprehensive income and cash flows for prior periods. The following tables represent the reconciliations from Previous GAAP to Ind AS.

Reconciliation of total equity as at March 31, 2018

Description	Notes to First time adoption	₹ in Crores	
		As at 31.03.2018	As at 01.04.2017

Tax impact on undistributed reserves of subsidiaries and joint venture		(11.07)	
Other Miscellaneous Adjustments	Note 5	12.96	
Prior period items (net)		(0.18)	
Total adjustments			(980.85)
Income tax effect of above adjustments	Note 5	34.48	
Tax impact on accumulated impairment allowance in excess of Reserve for Bad & Doubtful Debts		707.43	
Profit as per Ind AS for the year ended 31st March 2018			4,450.52
Other Comprehensive Income	Note 3	5.67	
Total comprehensive income as per Ind AS for the year ended 31st March 2018			4,456.19

Previous year figures have been reclassified/ regrouped to conform to the current classification.

CONSOLIDATED NOTES TO ACCOUNTS

Impact of Ind AS adoption on the Statement of cash flows for the year ended 31st March 2018

(₹ in Crores)

Particulars	Per Previous GAAP	Ind AS adjustments*	Per Ind AS
Net cash flow from operating activities	(30,825.94)	(1,683.87)	(32,509.81)
Net cash flow from investing activities	(245.28)	291.16	45.88
Net cash flow from financing activities	28,622.23	(378.38)	28,243.85
Net increase in cash and cash equivalents	(2,448.99)	(1,771.09)	(4,220.08)
Cash and cash equivalents as at 1st April 2017	4,580.28	(111.77)	4,468.51
Cash and cash equivalents as at 31st March 2018	2,131.29	(1,882.86)	248.43

Previous year figures have been reclassified/ regrouped to conform to the current classification.

The transition from previous GAAP to Ind AS has not made a material impact on the statement of cash flows, except for the following:

- (1) Earmarked bank balances are being classified as 'Other Bank Balances' instead of 'Cash & Cash Equivalents'. Accordingly, the bank balances in respect of grants are being adjusted under 'Cash Flow from Operating Activities'. To nullify the impact of the movement in such balances, the net cash flow from receipt and disbursement of grants, hitherto classified under 'Cash Flow From Financing Activities' is now being adjusted as 'Cash Flow from Operating Activities'.
- (2) The interest accrued on term deposits is classified under the same head as that of the principal term deposit.
- (3) The cash flow in respect of derivatives, hitherto classified as 'Cash Flow from Financing Activities' is now classified as 'Cash Flow from Operating Activities', considering the presentation under the Schedule III Division III notified for NBFCs wherein the fair value in changes of derivatives form part of 'Revenue from Operations'.
- (4) Finance Costs, to the extent capitalised towards qualifying assets, are now being classified as 'Cash Flow from Investing Activities'.

Previous year figures have been reclassified/ regrouped to conform to the current classification.

63.4 Notes to First time adoption

Explanation of major impact on adoption on Ind AS on the reported standalone financial statements of the Company as on the date of transition is as under:

(1) Loan assets and interest income

The Company's loan assets, satisfying the business model test of held to collect contractual cash flows and SPPI (Solely Payment of Principal and Interest) test as on transition date, have been measured at amortized cost using effective interest rate (EIR) method. These loans were measured at cost under previous GAAP.

This adjustment of retrospective application of EIR method, has resulted in the reduction of retained earnings by ₹ 109.02 crore, with a corresponding reduction in value of loan assets as on transition date. Subsequent to the transition date, the impact on profit and loss for the year ended March 31, 2018 is ₹ 37.70 crores.

(2) Financial liabilities and interest expense

All financial liabilities except derivatives have been subsequently measured at Amortised Cost using the EIR method. The effect of the adjustments resulted in increase in retained earnings by ₹ 332.10 crore with corresponding reduction in the value of financial liabilities on transition date. Subsequent to the transition date, the impact on profit and loss for the year ended March 31, 2018 is ₹ 84.16 crore. The impact on profit and loss includes ₹ 1.14 crore due to effects of restatement of foreign exchange amounts.

CONSOLIDATED NOTES TO ACCOUNTS

(3) Investments

Under Ind AS, the Company has designated equity investments other than investments in subsidiaries/ JVs as measured at Fair Value through Other Comprehensive Income (FVOCI). The resulting fair value changes in these investments have been recognized in OCI reserve as at the date of transition and subsequently in other comprehensive income.

This has resulted in increase in retained earnings by ₹ 201.82 crore with corresponding increase in value of investments in equity instruments as at the date of transition. Subsequent to the transition date, the impact on 'Other Comprehensive Income' for the year ended March 31, 2018 is ₹ 37.89 crore.

(4) Expected Credit Loss

Under previous GAAP, the provision on loan assets was maintained as per RBI Master Directions. However, the Company is now creating Expected Credit Loss allowance on the outstanding balance of loan assets and the undisbursed Letters of Comfort (LOC) as per the requirements of Ind AS 109. The transition to ECL model has resulted in the reduction of retained earnings by ₹ 5,501.19 crore as at the date of transition. Subsequent to the transition date, the impact on profit and loss due to impairment of loan assets for the year ended March 31, 2018 is ₹ 904.79 crore.

(5) Deferred Taxes

Under previous GAAP, deferred tax accounting was done using the income statement approach. However, Ind AS requires the accounting of deferred taxes using the balance sheet approach, which includes identification of temporary differences based on the difference in carrying amount of an asset/ liability in the standalone balance sheet and its tax base. These differences have been suitably recognized in the financial statements. Deferred tax liability has also been created on temporary difference between the carrying amount and tax base of investments in subsidiaries and joint ventures.

(6) Derivative Financial Instruments

Under Indian GAAP, the Company measured interest rate swap derivatives at mark to market and cross currency swap were measured at exchange rate on the reporting date through FCMITD A/c with gain/loss on restatement amortised over the remaining life of the instrument.

According to Ind AS 109, all derivatives are measured at fair value and any gains/losses, except gains/losses on derivatives used for hedge purposes, are recognized in profit or loss.

These adjustments and the consequential impact due to the adoption of Ind AS have resulted in a increase in the retained earnings by ₹ 95.97 crore as on April 1, 2017 and an increase in retained earnings by ₹ 155.02 crore as on March 31, 2018.

(7) Joint Venture accounted for using equity method

Share of undistributed reserves of joint venture has been accounted for as per numbers finalised under previous GAAP, in the financial statements of EESL. However, as the EESL has also transitioned to Ind-AS, therefore, the impact of Ind-AS adjustments has been taken into account in the consolidated financial statements. Further, the method of consolidation of Joint Venture has also been changed from proportionate consolidation method to equity method of accounting as per Ind-AS 28.

(8) Prior Period

Any material adjustments in the prior periods has been accounted for in the respective years as per the principles of Ind-AS i.e. previous financial years has been restated.

64 Subsidiaries, joint venture and associates considered for consolidation

A. Wholly owned subsidiaries of the Company:

Name of entity	Place of business/ country of incorporation	Ownership interest held by the Group

INDEPENDENT AUDITORS' REPORT

To,

The Members of REC Limited
(Formerly Rural Electrification Corporation Limited)

Report on the Audit of the Consolidated Ind AS Financial Statements

Opinion

We have audited the accompanying consolidated Ind AS financial statements of **REC Limited (formerly Rural Electrification Corporation Limited)** (hereinafter referred to as "the Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group") and jointly controlled entity, which comprise the Consolidated Balance Sheet as at 31st March, 2019, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Cash Flow Statement for the year then ended, and notes to the consolidated Ind AS financial statements, including a summary of significant accounting policies (hereinafter referred to as "the Consolidated Ind AS Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated Ind AS financial statements give the information required by the Companies Act, 2013, ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of their consolidated state of affairs of the Group and its jointly controlled entity as at 31st March, 2019, of consolidated profit (including other comprehensive Income), consolidated changes in equity and its consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by ICAI, and we have fulfilled our other ethical responsibilities in accordance with the provisions of the Act, 2013. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated Ind AS financial statements of the current period. These matters were addressed in the context of our audit of the consolidated Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the following matters described below to be the key audit matters to be communicated in our report:

Sr No.	Key Audit Matter	Auditor's Response
1.	<p>Impairment of Loan Assets – Expected Credit loss (Refer Note no. 53.1.3 to the consolidated Ind AS Financial Statements read with accounting policy No. 3.12)</p> <p>The Company follows a 'three-stage' model for impairment based on changes in credit quality since initial recognition as summarized below:</p> <ul style="list-style-type: none"> Stage 1 includes loan assets that have not had a significant increase in credit risk since initial recognition or that have low credit risk at the reporting date. Stage 2 includes loan assets that have had a significant increase in credit risk since initial recognition but that do not have objective evidence of impairment. Stage 3 includes loan assets that have objective evidence of impairment at the reporting date. <p>The Expected Credit Loss (ECL) is measured at 12-month ECL for Stage 1 loan assets and lifetime ECL for Stage 2 and Stage 3 loan assets. ECL is the product of the Probability of Default, Exposure at Default and Loss Given Default, defined as follows:</p>	<p>Our Audit Procedure:</p> <p>We have obtained an understanding of the guidelines as specified in Ind AS 109 "Financial Instruments", various regulatory updates and the Company's internal instructions and procedures in respect of the expected credit loss on and adopted the following audit procedures:</p> <p>Evaluation and testing of the key internal control mechanisms with respect to the loan assets monitoring, assessment of the loan impairment including testing of relevant data quality, and review of the real data entered</p> <p>Verification / review of the documentations, operations / performance and monitoring of the loan asset accounts, on test check basis of the large and stressed loan assets, to ascertain any overdue, unsatisfactory conduct or weakness in any loan asset account.</p> <ul style="list-style-type: none"> Review of the reports of the internal audit and any other audit / inspection mechanisms to ascertain the loan assets having any adverse indication / comments, and review of the control mechanisms of the Company to ensure the proper classification of such loan assets and expected credit loss thereof.

Sr No.	Key Audit Matter	Auditor's Response
1.	<p>Impairment of Loan Assets – Expected Credit loss (Contd.)</p> <p>Probability of Default (PD) - The PD represents the likelihood of a borrower defaulting on its financial obligation, either over the next 12 months (12 months PD), or over the remaining lifetime (Lifetime PD) of the obligation.</p> <p>Loss Given Default (LGD) – LGD represents the Company's expectation of the extent of loss on a defaulted exposure. LGD varies by type of counterparty, type, and preference of claim and availability of collateral or other credit support.</p> <p>Further, where REC and PFC(Holding company) are in Consortium for Stage III Loan accounts, LGD is taken on the following basis:</p> <ul style="list-style-type: none"> • In cases where either REC or PFC is a lead lender, LGD % calculated by the lead lender is adopted. • In cases where neither REC nor PFC is lead lender, higher of the LGD % worked out by REC and PFC is adopted. <p>Exposure at Default (EAD) – EAD is based on the amount of outstanding exposure as on the assessment date on which ECL is computed including undisbursed amounts in respect of Letters of Comfort.</p> <p>Key assumptions used in measurement of ECL</p> <ul style="list-style-type: none"> • The Company considers the date of initial recognition as the base date from which significant increase in credit risk is determined. • Cost Overrun and time delay in commissioning is considered for computing credit rating for under construction projects • Turnover Cap and Parent support is considered for assigning final ratings • Since the Company has a right to cancel any sanctioned but undrawn limits to any of its borrowers, EAD is assumed to be outstanding balance as on the reporting date. <p>The assumptions underlying the expected credit loss are monitored and reviewed on an ongoing basis.</p> <p>In the event of any improper application of assumptions mentioned as above the carrying value of loan assets could be materially misstated either individually or collectively and in view of the significance of the amount of loan assets in the Consolidated Ind AS Financial Statements i.e. 90.62% of total assets, the impairment of loan assets thereon has been considered as Key Audit Matter in our audit.</p>	<p>Our Audit Procedure:</p>
2.	<p>Fair valuation of derivative financial instruments</p> <p>(Refer Note no. 8 to the consolidated Ind AS Financial Statements read with accounting policy No. 3.11)</p> <p>REC Limited being NBFC-IFC has primary business of lending funds to power sector. For the same, REC raises the funds through the mix of various instruments such as Institutional Bonds, Capital Gain Exemption Bonds, Term Loans, Commercial Paper, Foreign Currency Term Loans/Bonds, FCNR(B), ODA Loans etc depending upon various maturities based on the annual market borrowing programme approved by Board of Directors of REC.</p>	<p>Our Audit Procedure:</p> <p>Assessing the design, implementation and operating effectiveness of management's key internal controls over classification, valuation, and valuation models of derivative instruments.</p> <p>Obtained details of various financial derivative contracts as outstanding/ pending for settlement as on March 31, 2019 from management.</p>

Sr No.	Key Audit Matter	Auditor's Response
2.	<p>Fair valuation of derivative financial instruments (Contd.)</p> <p>Further, in respect of foreign currency borrowings, REC is exposed to foreign exchange risk and interest rate risk arising from foreign currency transactions, primarily with respect to the US Dollar, EURO and JPY.</p> <p>To mitigate the Company's exposure to foreign currency risk and interest rate risk, non-INR cash flows are monitored and derivative contracts are entered into in accordance with the Company's board approved risk management policies and RBI guidelines.</p> <p>The derivatives are accounted for on fair value (mark to market) in the books of account as prescribed by Ind AS.</p> <p>We identified assessing the fair value of derivatives as a key audit matter because of the degree of complexity involved in valuing certain derivative instruments</p>	<p>Our Audit Procedure:</p> <p>We involved our team to review the management's underlying assumptions in estimating the fair valuation arrived at for those financial derivative contracts and the possible outcome of the underlying contracts accruing any profit or loss to the company. Our team also considered general market practices and other underlying assumptions in arriving at such fair valuation of the financial derivative contracts as outstanding/ pending for settlement as on March 31, 2019.</p> <p>We also obtained counterparty confirmation (which in this case were mostly banks with whom such financial derivative contracts have been entered into and independently compared the valuation so arrived at by the contracting banks.</p> <p>Additionally, we considered the effect of such fair valuation (marked to market) being charged to the Statement of Profit and Loss of the company in the near future.</p> <p>Assessing whether the financial statement disclosures appropriately reflect the Company's exposure to derivatives valuation risks with reference to the requirements of the prevailing accounting standards and Reserve Bank of India Guidelines.</p>

Information Other than the Consolidated Ind AS Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in Board's Report and annexures to Board Report but does not include the Consolidated Ind AS financial statements and our auditor's report thereon. The Board's Report and annexures to Board's Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated Ind AS financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated Ind AS financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Board's Report and annexures to the Board's Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Consolidated Ind AS Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated Ind AS financial statements in term of the requirements of the Companies Act, 2013 that give a true and fair view of the consolidated financial position, consolidated financial performance (including other comprehensive income), consolidated changes in equity and consolidated cash flows of the Group including its Jointly controlled entity in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group and of Jointly controlled entity are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group & its jointly controlled entity and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Ind AS Financial Statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated Ind AS financial statements, the respective Board of Directors of the companies included in the Group and its jointly controlled entity are responsible for assessing the ability of the Group and jointly controlled entity to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and its jointly controlled entity are responsible for overseeing the financial reporting process of the Group and its jointly controlled entity.

Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its jointly controlled entity to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its jointly controlled entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated Ind AS financial statements, including the disclosures, and whether the consolidated Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its jointly controlled entity to express an opinion on the consolidated Ind AS financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated Ind AS financial statements of which we are the independent auditors. For the other entities included in the consolidated Ind AS financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated Ind AS financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

- (a) We did not audit the financial statements of two subsidiaries and whose financial statements reflect total assets of ₹ 841.33 Crores (₹ 826.98 Crores as at 31 March 2018 and ₹ 371.90 crores as at 1 April 2017) as at 31 March 2019, total revenues of ₹ 200.22 Crores (Previous year ₹ 260.06 Crores) and net cash flows amounting to ₹ 2.62 Crores (Previous year ₹ 33.87 Crores) for the year ended on that date, as considered in the Consolidated Ind AS Financial Statements. The Consolidated Ind AS Financial Statements also include the subsidiary's share of net profit after tax of ₹ 50.94 crores (Previous Year ₹ 69.86 crores) and total comprehensive income of ₹ 50.94 crores (Previous Year ₹ 69.86 crores) as considered in the Consolidated Ind AS Financial Statements. These financial statements have been audited by other auditors whose reports have been

furnished to us by the Management and our opinion on the consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, is based solely on the reports of the other auditors.

- (b) The Consolidated Ind AS Financial Statements also include the jointly controlled entity's share of net profit after tax of ₹ 9.95 crores (Previous Year ₹ 10.67 crores) and total comprehensive income of ₹ 9.90 crores (previous years ₹ 12.10 crores) using equity method for the year ended 31 March 2019 as considered in the Consolidated Ind AS Financial Statements. This financial information have been furnished to us by the Management and our opinion on the consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of the jointly controlled entity, and our report in terms of sub-sections (3) and sub section (11) of Section 143 of the Act in so far as it relates to the aforesaid jointly controlled entity, is based solely on such financial information. In our opinion and according to the information and explanations given to us by the Management, the jointly controlled entity's share of net profit and total comprehensive income and disclosures included in respect of this joint venture in these consolidated Ind AS financial statements is not material to the Group.

Our opinion on the consolidated Ind AS financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements/financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

As required by section 143(3) of the Act, we report, to the extent applicable, that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Ind AS Financial Statements.
- (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidated Ind AS Financial Statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
- (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss, Consolidated Changes in Equity and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the Consolidated Ind AS Financial Statements.
- (d) In our opinion, the aforesaid Consolidated Ind AS Financial Statements comply with the Accounting Standards specified under Section 133 of the Act.
- (e) Vide Notification No. G.S.R. 463(E) dated 5th June, 2015 issued by Ministry of Corporate Affairs, Government Companies have been exempted from applicability of the provisions of Section 164(2) of the Companies Act, 2013.
- (f) with respect to the adequacy of the internal financial controls over financial reporting of the Group and Jointly controlled entity and the operating effectiveness of such controls, refer to our separate report in "Annexure-A"; and
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of report of the other auditors on separate Ind AS financial statements as also the other financial information of the subsidiaries and joint venture:
- The Consolidated Ind AS Financial Statements disclose the impact of pending litigations on the consolidated financial position of the Group and its jointly controlled entity- Refer Note 48.1 to the Consolidated Ind AS Financial Statements;
 - The Group and its jointly controlled entity do not have any material foreseeable losses on long term contracts including derivative contracts.
 - There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company and its subsidiary companies and its jointly controlled entity incorporated in India.

ANNEXURE-A TO THE INDEPENDENT AUDITORS' REPORT OF EVEN DATE ON THE CONSOLIDATED IND AS FINANCIAL STATEMENTS OF REC LIMITED (FORMERLY RURAL ELECTRIFICATION CORPORATION LIMITED)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated Ind AS financial statements of the Company as of and for the year ended 31 March 2019, we have audited the internal financial controls over financial reporting of REC Limited (Formerly Rural Electrification Corporation Limited) (hereinafter referred to as "the Holding Company") and its subsidiary companies and jointly controlled entity, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company, its subsidiary companies and its jointly controlled entity, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Group and its jointly controlled entity considering the essential components of internal control stated in the "Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the subsidiaries, incorporated in India, in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to consolidated Ind AS financial statements.

Meaning of Internal Financial Controls over Financial Reporting

A Group's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Group's internal financial control over financial reporting includes those policies and procedures that:

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Group;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Group; and

- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Group's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the holding company, its subsidiaries and jointly controlled entity, which are companies incorporated in India, have, in all material aspects, an adequate internal financial controls system except (i) strengthening of procedures for monitoring of utilization of funds disbursed to the borrowers, (ii) rotation of duties amongst some of the staff as per HR Policy to be implemented, (iii) improvement in the system of allocation of common expenses by subsidiaries to its associates (SPV's) , (iv) procedure to obtain periodical balance confirmation and timely obtaining Internal Audit Report and compliances thereon by subsidiaries, over financial reporting and such internal financial controls over financial reporting were operating effectively as of 31 March 2019, based on the internal control over financial reporting criteria established by the Group considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

We have considered the areas of improvement identified which needs further strengthening as reported above in determining the nature, timing, and extent of audit tests applied in our audit of the 31st March 2019 Consolidated Ind AS financial statements of the Group and its jointly controlled entity. However, these areas of improvement do not affect our opinion on the operating effectiveness of the Internal Financial Control over financial reporting of the Group and its jointly controlled entity.

Other Matters

Our aforesaid reports under Section 143(3) (i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to two subsidiary companies, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

Our aforesaid reports under Section 143(3) (i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to one jointly controlled entity, which is a company incorporated in India, whose financial information is unaudited and our opinion on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated Ind AS financial statements of the Group is not affected as the Group's share of net profit (including Other Comprehensive Income) and disclosures included in respect of this jointly controlled entity in these consolidated Ind AS financial statements are not material to the Group.

Further, we have considered the disclosure reported above in determining the nature, timing and extent of audit tests applied in our report of the financial statements of the Group, and the above disclosure does not affect our opinion on the operating effectiveness of the Internal Financial Control over financial reporting of the Group.
