

Accounts

Report of the Directors

The Directors submit their Annual Report together with the audited financial statements for the year ended 31 December 2009.

Principal activities

Kerry Group is a major international food corporation. The Group is a world leader in food ingredients and flavour technologies serving the food and beverage industries and is also a leading consumer foods processor and supplier in selected EU markets.

Listed on the Irish and London Stock Exchanges and operating a Level 1 American Depositary Receipt (ADR) Programme through the Bank of New York, USA, Kerry has 140 manufacturing facilities across five continents and provides over 15,000 food and ingredient products via its network of international sales and technical centres to a wide customer base in 140 countries.

Through a commitment to excellence, technological creativity, total quality, superior customer service and the wholehearted commitment of all employees, Kerry aims to continue to enhance its leadership position as a global food ingredients and flavours supplier and to further develop its consumer foods business in Ireland and the United Kingdom.

Results and dividends

The Directors are pleased to report profit attributable to equity shareholders of **€201m** for the year. Earnings per share (EPS) before intangible asset amortisation and non-trading items (net of related tax) increased **8.2%** over 2008 to **166.5 cent**. Basic EPS for the year is reported at **115.0 cent** (2008: 101.3 cent). Revenue for the year amounted to **€4.5 billion** (2008: €4.8 billion). Further details of the results for the year are set out in the Consolidated Income Statement, in the related notes forming part of the financial statements and in the Business Review. The Group's key performance indicators are outlined in the Financial Review.

On 22 February 2010, the Directors recommended a final dividend totalling **€30.3m** in respect of the year ended 31 December 2009 (see note 9 to the financial statements). This dividend is in addition to the interim dividend paid to shareholders on 20 November 2009, which amounted to **€13.5m**.

The payment date for the final dividend will be 14 May 2010 to shareholders registered on the record date 16 April 2010. This dividend per share is an increase of **10.9%** over the final dividend paid on 22 May 2009.

Share capital

Details of the share capital are shown in note 23 of the financial statements. The authorised share capital of the Company is €35,000,000 divided into 280,000,000 A ordinary shares of 12.5 cent each, of which **175,164,051** shares were in issue at 31 December 2009.

The A ordinary shares rank equally in all respects. There are no limitations on the holding of securities in the Company.

There are no restrictions on the transfer of fully paid shares in the Company but the Directors have the power to refuse the transfer of shares that are not fully paid. There are no deadlines for exercising voting rights other than proxy votes, which must be received by the Company at least 48 hours before the time of the meeting at which a vote will take place. There are no restrictions on voting rights except:

- where the holder or holders of shares have failed to pay any call or instalment in the manner and at the time appointed for payment; or
- the failure of any shareholder to comply with the terms of Article 14 of the Company's Articles of Association (disclosure of beneficial interest).

The Company is not aware of any agreements between shareholders which may result in restrictions on the transfer of securities or on voting rights.

The Directors have the authority to issue new shares in the Company up to the authorised but unissued share capital of the Company but may only allot shares for cash on a non pro-rata basis up to a maximum of 5% of the issued share capital. This authority will expire on 12 August 2010 and it is intended to seek shareholder approval for its renewal at the Annual General Meeting (AGM) to be held on 5 May 2010.

During the year, **307,070** share options were exercised under the Group's Executive Share Option Scheme. Further details are shown in note 23 to the financial statements.

In September 2009 the Board, upon the recommendation of the Remuneration and Nomination Committee, allotted **54,847** shares in the Company and **166,600** share options to 565 executives, including executive Directors and the Company Secretary under the terms of the Group's Long Term Incentive Plan (LTIP). The allocations of both shares and options were made at nominal value. Since their issue in September 2009, **40,449** options have been exercised. Further details are shown in note 23 to the financial statements. Details of the allocations made to the executive Directors and Company Secretary are set out on page 34.

The Company may purchase its own shares in accordance with the Companies Acts and the Company's Articles of Association. At the 2009 AGM, shareholders passed a resolution authorising the Company to purchase up to 5% of its own issued share capital but the authority was not exercised. This authority is due to expire on 5 May 2010 and it is intended to seek shareholder approval for its renewal at the AGM.

Articles of Association

The Articles of Association empower the Board to appoint Directors but also require Directors to retire and submit themselves for re-election at the first AGM following their appointment. Specific rules regarding the re-election of Directors are referred to in the Corporate Governance Report on pages 35 to 37.

The regulations contained in the Articles of Association of the Company may be amended by special resolution with the sanction of shareholders in a general meeting.

Significant agreements

The Company's financing arrangements include 'Change of Control' provisions which give its lending institutions the right to withdraw their facilities in the event of a change of control occurring unless they agree otherwise in writing. Other than change of control provisions in those arrangements, the Company is not a party to any other significant agreements which contain such a provision.

Acquisitions

The Group completed a number of acquisitions during the year. The businesses acquired are described in the Chief Executive's Review and in note 27 to the financial statements.

Research and development

The Group is fully committed to ongoing technological innovation in all sectors of its business, providing integrated customer-focused product development. To facilitate this development the Group has, and will continue, to invest in highly focused research, development and application centres of excellence. It is by leveraging these global resources and sharing industry, academic and Group-wide scientific developments and knowledge, that Kerry will continue to lead in its chosen sectors and proactively meet customer and market needs. The Group recognises the need to evaluate market trends, stay at the forefront of technological development and bring these together to deliver commercially successful solutions in the dynamic and competitive food and beverage marketplace.

Expenditure on research and development amounted to **€147.8m** in 2009 (2008: €147.5m).

Employees

Kerry Group's success is built around the commitment, skills and creativity of the Group's employees. Retaining and developing their enthusiasm and determination to succeed is central to the Group's growth strategy in the years ahead.

The diverse international structures within the Group require a dedication to communication and the exchange of ideas to facilitate creativity and effective knowledge management.

Kerry will continue to ensure excellence in management practice through the ongoing development of business aligned human resource systems and initiatives. The Group provides structured training and development programmes for employees through which they can enhance the skills, knowledge and capability necessary for further growth within the organisation.

The Group is committed to the principle of equality and complies with all relevant equality and anti-discrimination legislation.

The average employment of the Group worldwide in 2009 was **21,997** (2008: 22,312).

Corporate social responsibility

Kerry Group is committed to the highest standards of business and ethical behaviour, to fulfil its responsibilities to the communities it serves and to the creation of long term value for all stakeholders on a socially and environmentally sustainable basis. This commitment is borne out by its continued investment in facilities, systems and processes that manage waste emissions, energy consumption and materials/packaging conservation. Through the adoption of best practice procurement policies, the Group recognises the requirement to source sustainable raw materials as it continuously seeks to enhance its role as a leading international food company and supplier of quality products to its valued customers. The Group is fully committed to environmental protection as a fundamental part of all business activities and continues to develop employees' knowledge regarding environmental responsibilities and best practice.

Future developments

Kerry Group is well positioned across global growth markets and its strong technology platforms will continue to lead innovation and category growth. The Group is confident that good growth rates are achievable through application of its ingredients and flavours technologies in global food and beverage markets. In addition, in consumer foods categories the underlying strength of Kerry Foods' brands, its focus on product innovation and positioning in convenience growth categories, will ensure that the Consumer Foods division continues to outperform market growth rates. The Group is well positioned to actively pursue strategic

acquisition opportunities which will support top-line and earnings growth into the future.

Board of Directors

The Board consists of four executive and eleven non-executive Directors. The current Directors are as listed on page 30.

Chairman

Mr. Denis Buckley (64) is Chairman of the Company and a member of the Remuneration and Nomination Committee. He is also Chairman of Irish Agricultural Wholesale Society Limited, Chairman of One Fifty One plc and is a director of Aryzta AG.

Executive Directors

Mr. Stan McCarthy (52) is the Group's Chief Executive.

Mr. Brian Mehigan, FCA, (48) is the Group's Chief Financial Officer.

Mr. Flor Healy (47) is CEO of Kerry Foods, the Group's Consumer Foods Division.

Mr. Gerry Behan (45) is President & CEO of Kerry Ingredients & Flavours Americas.

Non-executive Directors

Mr. Denis Carroll (59) is a director of Kerry Co-operative Creameries Limited. He was appointed to the Audit Committee on 14 January 2010 to fill the vacancy following Mr. Desmond O'Connor's retirement.

Mr. Michael Dowling (65) is a director of a number of private companies. He is a former Secretary General of the Department of Agriculture and Food in Ireland and is a visiting professor in the Faculty of Food Science and Technology at National University of Ireland, Cork. He is head of Agri Strategy in Allied Irish Banks plc. He is Chairman of the Audit Committee and a member of the Remuneration and Nomination Committee.

Mr. Michael J. Fleming (46) was appointed to the Board on 14 January 2010. He is a director of Kerry Co-operative Creameries Limited.

Mr. Noel Greene (53) is a director of Kerry Co-operative Creameries Limited.

Mr. Kevin Kelly, FCA, (68) is Chairman of Schroeder Private Equity Funds plc, Project Management Limited and is a director of a number of other private companies. He was formerly managing director of AIB Bank. He is Chairman of the Remuneration and Nomination Committee and a member of the Audit Committee.

Mr. Donal O'Donoghue (65) is a director of Kerry Co-operative Creameries Limited.

Mr. Gerard O'Hanlon (61) is a director of Kerry Co-operative Creameries Limited.

Mr. Michael J. Sullivan, JD, (70) served as the US Ambassador to Ireland from January 1999 to June 2001 and as Governor of the State of Wyoming between January 1987 and January 1995. He is a non-executive director of Sletten Construction Inc. and Cimarex Energy Inc. He is a member of the Bar, State of Wyoming.

Mr. John Twomey (65), a director of Kerry Co-operative Creameries Limited, was appointed to the Board on 14 January 2010. He is a director of the Irish Co-operative Society Limited and National Cattle Breeding Centre Limited.

Mr. Denis Wallis (60) is a director of Kerry Co-operative Creameries Limited and is a member of the Audit Committee.

Report of the Directors

Board changes

Mr. Michael J. Fleming and Mr. John Twomey were appointed to the Board on 14 January 2010 to fill the vacancies caused by the retirement of Mr. James O'Connell and Mr. Desmond O'Connor. On the same date, Mr. Denis Carroll replaced Mr. Desmond O'Connor on the Audit Committee.

Election of Directors

In accordance with the provisions of the Combined Code on Corporate Governance the Chairman, Mr. Denis Buckley and Mr. Michael Dowling being Directors who have each served a period in excess of nine years on the Board will retire at the 2010 AGM and are seeking re-election at that meeting.

Under Article 102 of the Company's Articles of Association, Mr. Michael J. Fleming and Mr. John Twomey who were appointed to the Board since the previous AGM will retire at the next AGM and, being eligible, are seeking re-election.

Mr. Denis Carroll, Mr. Stan McCarthy, Mr. Donal O'Donoghue and Mr. Gerard O'Hanlon will retire by rotation at the same meeting and, being eligible, are offering themselves for re-election.

The Board recommends the re-election of all Directors seeking re-election.

Directors' and Company Secretary's interests

There has not been any contract or arrangement with the Company or any subsidiary during the year in which a Director of the Company was materially interested and which was significant in relation to the Group's business.

The interests of the Directors and Company Secretary of the Company and their spouses and minor children in the share capital of the Company, all of which were beneficial, were as follows:

	31 December 2009 Number	31 December 2008 Number
Directors		
Gerry Behan	8,913	4,582
Denis Buckley	169,775	169,775
Denis Carroll	4,236	4,236
Michael Dowling	4,200	4,200
Noel Greene	4,299	4,299
Flor Healy	46,342	46,342
Kevin Kelly	23,200	23,200
Stan McCarthy	40,679	36,279
Brian Mehigan	40,334	40,334
Donal O'Donoghue	4,948	4,948
Gerard O'Hanlon	40,558	40,558
Michael J. Sullivan	–	–
Denis Wallis	3,567	3,567
Company Secretary		
Brian Durran	10,000	10,000

The above holdings in A ordinary shares have not changed between 31 December 2009 and the date of this report.

Directors' and Company Secretary's interest in Long Term Incentive Plan

The criteria under which the Long Term Incentive Plan (LTIP) awards vest in full are explained on page 37, and in note 24 to the financial statements. The following table shows the executive Directors' interests under the LTIP.

	Conditional Awards at 1 January 2009	Awards Lapsed/ Cancelled during the year	Share Awards Vested during the year	Share Option Awards Vested during the year	Conditional Awards made during the year	Conditional Awards at 31 December 2009	Share Options Outstanding at 31 December 2009
Directors							
Stan McCarthy	20,000	15,600	4,400	–	55,441	55,441	–
Brian Mehigan	20,000	15,600	–	4,400	28,336	28,336	4,400
Flor Healy	20,000	15,600	–	4,400	30,800	30,800	4,400
Gerry Behan	12,000	9,360	2,640	–	30,800	30,800	–
Company Secretary							
Brian Durran	3,000	2,343	–	660	8,230	8,230	660

No share options were exercised during the year.

Conditional awards at 1 January 2009 relate to awards made in 2006. The performance period for these awards expired on 31 December 2008 and a proportion of awards vested at nominal cost. The closing mid-market share price on the vesting date, 21 September 2009 was €19.45.

Conditional awards made during the year relate to a three year performance period from 2009 to 2011. Share options vested during 2009 are exercisable in the period up until 20 September 2016.

Directors' and Company Secretary's interest in Executive Share Option Scheme

No Director currently holds executive share options in the Company under this scheme. The Company Secretary, Brian Durran, held 10,900 share options through the year 2009 at an Option Price of €8.00 which are exercisable not later than 1 October 2010.

Substantial interests

The Directors have been notified of the following shareholdings of 3% or more in the issued share capital of the Company:

Shareholder	Number Held	%
Kerry Co-operative Creameries Limited (KCC)	41,567,612	23.7%
Capital Research and Management Company	8,965,824	5.1%
Prudential plc Group of Companies	7,777,713	4.4%

Apart from the aforementioned, the Company has not been notified of any interest of 3% or more in the issued share capital of the Company.

Statement of Directors' responsibilities

Irish company law requires the Directors to prepare financial statements for each financial year, which give a true and fair view of the state of affairs of the Company and the Group and of the profit or loss of the Group for that period. In preparing those financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping proper books of account which disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the financial statements are prepared in accordance with International Financial Reporting Standards as adopted by the European Union and comply with Irish statute comprising the Companies Acts, 1963 to 2009, Article 4 of the IAS Regulations and the Listing Rules of the Irish and London Stock Exchanges. They are also responsible for safeguarding the assets of the Company and the Group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities. The Directors are responsible for the maintenance and integrity of the corporate and financial information included in the company website.

The Directors of Kerry Group plc acknowledge these responsibilities and accordingly have prepared this consolidated Annual Report for the year ended 31 December 2009 in compliance with the provisions of Regulation (EC) No. 1606/2002, regulations 4 and 5 of Statutory Instrument 277 of 2007 of Ireland, the Transparency Rules of the Irish Financial Services Regulatory Authority and the applicable International Financial Reporting Standards as adopted by the European Union.

The Directors also confirm that to the best of their knowledge:

- the Group consolidated financial statements for the year ended 31 December 2009 have been prepared in accordance with the applicable International Financial Reporting Standards and give a true and fair view of the assets, liabilities, financial position and profit or loss of the Group and the undertakings included in the consolidation taken as a whole as at that date;
- the Business Review includes a fair review of the development and performance of the business for the year ended 31 December 2009 and the position of the Group and the undertakings included in the consolidation taken as a whole at the year end; and

- the Report of the Directors provides a description of the principal risks and uncertainties which may impact the future performance of the Group and the undertakings included in the consolidation taken as a whole.

Corporate governance

Kerry Group plc is committed to achieving high standards of corporate governance throughout the Group. The Board considers that it has complied throughout the period with the provisions of the Combined Code on Corporate Governance, except in relation to the requirement to appoint a senior independent Director, the reasons for which are detailed below.

The Board of Directors

The Board leads and maintains effective control over the Group's activities and comprises a non-executive Chairman, a Chief Executive, three other executive Directors and ten non-executive Directors.

The Directors are responsible for managing the business of the Company and may exercise all the powers of the Company subject to the provisions of relevant statutes, to any directions given by shareholders in General Meeting and to the Company's Memorandum and Articles of Association.

The Board has a formal schedule of matters specifically reserved to it for decision which includes approval of the overall Group strategic plan, annual budgets (revenue and capital), acquisitions and divestitures, financial risk management, treasury policy and major corporate activities. The division of duties between the Chairman and the Chief Executive is formally established, set out in writing and agreed by the Board. The Chairman ensures that all Directors have full and timely access to such information as they require to discharge their responsibilities fully and effectively – they receive monthly Group management financial statements and reports. Board papers are sent to each member in sufficient time before Board meetings. Each Director has access to the advice and services of the Company Secretary, whose responsibility it is to ensure that Board procedures are followed and that applicable rules and regulations are complied with. In accordance with an agreed procedure, in the furtherance of their duties, each Director is, in addition, able to take independent professional advice at the Company's expense. Appropriate training and briefing is available to all Directors on appointment to the Board, with further training available subsequently as required.

The Board is of the opinion that the non-executive Directors as a group are of sufficient calibre and number to bring strength and independence to the Board and hence has not nominated a non-executive Director to be a senior independent Director.

The non-executive Directors meet, at least annually, as a group without the executive Directors present. During such meetings, the non-executive Directors have the opportunity to discuss any issues and, at least annually, appraise the Chairman's performance.

Seven of the non-executive Directors of the Company are directors of KCC, which at the date of this report is the holder of 23.7% of the issued share capital of the Company. The shareholding of KCC in Kerry Group plc is a financial investment based on the expectation, similar to other shareholders, of dividend income and capital appreciation. These non-executive Directors, in their ordinary course of business, have traded on standard commercial terms with the Group's Agribusiness Division, the details of which are disclosed in note 30 to the financial statements. Notwithstanding the above, the Board has determined that these non-executive Directors are independent in character and judgement.

Report of the Directors

Mr. Denis Buckley and Mr. Michael Dowling have each served on the Board for more than nine years from the date of their respective first elections as Directors. The Board has considered the knowledge, skills and experience of these Directors and believes each of them to be independent in character and judgement and to be of significant benefit to the Board.

At a meeting in November 2009 the non-executive Board members, led by the Chairman, undertook a formal review of its own performance, its committees and individual Directors. In relation to the Board itself, performance evaluation was conducted through a review of a range of issues including Board composition, ability and effectiveness, its role and responsibilities, strategic development benchmarking and its financial control and risk management policies. A similar process was conducted for the evaluation of the Audit Committee and the Remuneration and Nomination Committee with additional focus given to the experience, expertise and knowledge of the committee members on the respective committees.

The Chairman appraised each of the non-executive Directors individually on issues such as independence, contribution and attendance at Board meetings, interaction with executive Directors, the Company Secretary and senior management, their ability to communicate issues of importance and concern, their knowledge and effectiveness at meetings and the overall time spent and commitment to their role on the Board.

At the same meeting, the non-executive Directors formally appraised the performance of the Chairman, who was not present for this part of the meeting. The appraisal was in the same format as that used for the evaluation of the other non-executive Directors but where leadership, communication and agenda-setting skills were also addressed.

In accordance with the Articles of Association, all newly appointed Directors are subject to election by shareholders at the AGM following their appointment. Excluding any such newly appointed Directors and those Directors, if any, who are required to retire annually by virtue of having served more than nine years on the Board, one third of the Board is subject to re-election each year.

The Board meets on a regular basis with specific meetings to consider the interim and full year results. It met on ten occasions during the year under review. Attendances at scheduled Board and Board Committee Meetings during the year ended 31 December 2009 were as follows:

Directors	Board		Audit Committee		Remuneration & Nomination Committee	
	Held	Attended	Held	Attended	Held	Attended
Gerry Behan	10	10	–	–	–	–
Denis Buckley	10	10	–	–	4	4
Denis Carroll	10	10	–	–	–	–
Michael Dowling	10	10	6	6	4	4
Noel Greene	10	9	–	–	–	–
Flor Healy	10	10	–	–	–	–
Kevin Kelly	10	10	6	5	4	4
Stan McCarthy	10	10	–	–	–	–
Brian Mehigan	10	10	–	–	–	–
James O'Connell	10	8	–	–	–	–
Desmond O'Connor	10	9	6	5	–	–
Donal O'Donoghue	10	10	–	–	–	–
Gerard O'Hanlon	10	10	–	–	–	–
Michael J. Sullivan	10	7	–	–	–	–
Denis Wallis	10	10	6	6	–	–

The Board has delegated authority to two committees of the Board on a number of specific matters as detailed below:

Audit Committee

The Audit Committee in 2009 comprised Mr. Kevin Kelly, Mr. Desmond O'Connor, Mr. Denis Wallis and was chaired by Mr. Michael Dowling, all of whom are non-executive Directors. Mr. Desmond O'Connor retired from the Committee and was replaced by Mr. Denis Carroll in January 2010. The Committee meets at least four times a year.

The Board has determined that Mr. Kevin Kelly, FCA, in particular has recent and relevant financial experience and that the other members of the committee have a wide range of business experience.

The main role and responsibilities of the Committee are set out in written terms of reference and are available from the Group's website www.kerrygroup.com and upon request.

The Committee reviews the employee disclosure arrangements in place that allow employees to raise any concerns about possible improprieties in financial reporting or other matters. If required it will ensure that appropriate investigation and follow up action is taken.

The Audit Committee reviews the Interim and Annual Consolidated Financial Statements, and any formal announcements relating to the statements before submission to the Board of Directors with a recommendation whether or not to approve. This review focuses on, but is not limited to, any changes in accounting policies and practices, major judgemental areas and compliance with accounting standards, legal, corporate governance and stock exchange requirements. The Committee also reviews the Interim Management Statements.

The Committee has agreed a process under which it reviews its own effectiveness and recommends any necessary changes to the Board.

The Committee monitors and reviews the effectiveness of the internal audit function. When assessing the work carried out by the internal audit function, the Committee considers the annual work programme, significant findings, reports and the role of the function in the context of the group risk management procedures.

The Audit Committee makes recommendations to the Board in relation to the appointment of the external auditors. Each year the Audit Committee meets with the external auditors and reviews their report on quality control procedures and on the safeguards which they have put in place to ensure their objectivity and independence in accordance with regulatory and professional requirements. The Audit Committee also reviews the external audit plan and the findings from the audit of the financial statements.

The Audit Committee is responsible for the policies and procedures on the use of the external auditor for non-audit services. These policies are kept under strict review to meet the objective of ensuring that the Group benefits in a cost effective manner from the knowledge and experience of its auditor whilst also ensuring that the auditor maintains the necessary degree of independence and objectivity. Non-audit services provided by the external auditor are approved by the Audit Committee.

The Board, through the Audit Committee, completes an annual assessment of risk and controls. The internal audit function facilitates the Board in this assessment by preparing a consolidated Group Risk and Control Report for their review. Where necessary, the Audit Committee will convene to deal with any significant control weaknesses reported by internal audit and management.

Remuneration and Nomination Committee

During the year, the Remuneration and Nomination Committee comprised Mr. Kevin Kelly (Chairman), Mr. Denis Buckley and Mr. Michael Dowling, all of whom are non-executive Directors. The Committee met on four occasions during the year.

The Remuneration and Nomination Committee has written terms of reference covering the authority delegated to it by the Board. The role of the Remuneration and Nomination Committee is two-fold. The first role is to determine executive Directors' remuneration, which is reviewed annually. The Committee consults with the Group's Chief Executive in relation to executive Directors' remuneration and has access to internal and external professional advice as required. Decisions are made within agreed reference terms, with meetings held as required. Members of the Committee have no personal interest in the outcome of their decisions and give due regard to the interests of shareholders and the performance of the Company.

The second role of the Committee relates to nomination responsibilities, which include considering the need for and the making of Board appointments, both executive and non-executive. When appropriate external search consultants are used in the appointment of Directors.

The full terms of reference of the Remuneration and Nomination Committee are available on the Group's website.

Remuneration

Remuneration policy

The Group's remuneration policy is to ensure that executive Directors' remuneration properly reflects their duties and responsibilities, and is sufficient to attract, retain and motivate people of the highest quality worldwide. Remuneration includes performance related elements designed to align Directors' interests with those of shareholders and to encourage performance at the highest levels. In setting remuneration levels, the Remuneration and Nomination Committee has regard to comparable companies in terms of both the size of the Group and the geographical spread and complexity of its business. It also considers pay and employment conditions elsewhere in the Group. Full details of the Directors' remuneration are given on pages 38 and 39.

Executive Directors' remuneration comprises basic salary, participation in pension schemes, performance related incentive awards, share-based incentives and other benefits.

Executive Directors' basic salary

The Remuneration and Nomination Committee sets the basic salary and other benefits of each executive Director by reference to individual performance and external market data.

Pensions

The executive Directors participate in the Group's general pension scheme with contributions and pension benefits based on basic salary (performance related incentive awards are excluded).

Performance related incentive awards

Executive Directors participate in performance related annual bonus schemes, which are based on achieving predetermined earnings growth and other targets set by the Remuneration and Nomination Committee. The structure of the scheme is reviewed regularly to ensure that it develops in line with the Group's strategic goals.

Share-based incentives

a) Executive Share Option Scheme

The Remuneration and Nomination Committee approves the terms, conditions and allocation of share options under the Executive Share Option Scheme to executive Directors and senior executives. No share options are currently held by executive Directors under this scheme.

b) Long Term Incentive Plan

The Remuneration and Nomination Committee approves the terms, conditions and allocation of awards under the Group's LTIP to executive Directors, the Company Secretary and senior executives. Further information on the rules of the scheme is given on page 39. Details of executive Directors' and Company Secretary's LTIP interests are shown on page 34.

Other benefits

Other benefits relate primarily to motor vehicles.

Non-executive Directors' remuneration

Non-executive Directors' fees, which are determined by the Board as a whole, fairly reflect the responsibilities and time spent by the directors on the Group's affairs. In determining the fees, which are set within the limits approved by shareholders, consideration is given to both the complexity of the Group and the level of fees paid to non-executive Directors in comparable companies. Non-executive Directors do not participate in the Group's incentive plans, pension/superannuation arrangements or other elements of remuneration provided to the executive Directors.

Service contracts

The Group does not have any service contracts with its Directors which extend beyond one year.

Report of the Directors

Directors' remuneration

Disclosures regarding Directors' remuneration have been drawn up on an individual Director basis in accordance with the requirements of both the Combined Code and the Irish and London Stock Exchanges:

a) Executive Directors' remuneration

	Salaries 2009 €'000	Performance related 2009 €'000	Benefits- in-kind 2009 €'000	Pensions 2009 €'000	Total 2009 €'000	Total 2008 €'000

2009	182	989	864
2008	217	822	1,530

c) Non-executive Directors' remuneration

	Fees 2009 €	Fees 2008 €
Denis Buckley	209,000	209,000
Denis Carroll	38,160	38,128
Michael Dowling	110,000	110,000
Noel Greene	38,160	38,128
Kevin Kelly	110,000	110,000
James O'Connell	31,800	38,128
Desmond O'Connor	49,500	53,943
Donal O'Donoghue	38,160	38,128
Gerard O'Hanlon	38,160	38,128
Michael J. Sullivan	73,000	73,000
Denis Wallis	53,820	53,967
	789,760	800,550

Non-executive Directors' remuneration consists of fees only. The total remuneration for all Directors in 2009 amounted to **€5,712,760** (2008: €5,224,262). There were no other emoluments paid to the executive or non-executive Directors other than as disclosed above.

d) Payments to former Directors

Payments made to former Directors in relation to consultancy and other accrued fees amounted to **€976,000** in 2009 (2008: €595,000).

Executive Share Option Scheme

The Group has an Executive Share Option Scheme, the terms and conditions of which were approved by shareholders. In the past it was used to grant options under the scheme to key executives including executive Directors across the Group to encourage identification with shareholder interests. No options have been granted by the Company under this scheme since 2000. Currently, approximately 63 executives worldwide still hold outstanding options. This scheme will terminate on 1 October 2010. Details of the options outstanding are presented in note 24 to the financial statements. Currently none of the executive Directors hold share options under this scheme.

Long Term Incentive Plan

The Group also operates a Long Term Incentive Plan (LTIP), the terms and conditions of which were approved by shareholders in 2006. Under this plan, senior executives (including executive Directors) are invited to participate in conditional awards over shares or share options in the Company. The proportion of each award which vests depends on the performance of the Group.

Up to 50% of the award vests according to the Group's adjusted TSR performance over the period measured against the TSR performance of a peer group of listed companies.

The remaining 50% of the award vests according to the Group's adjusted EPS growth over the performance period compared with the increase in the Irish Consumer Price Index over the same period.

The first conditional awards were made in 2006 and these awards partially vested in September 2009. New conditional awards were granted during the year and these awards potentially vest in 2012.

The Remuneration and Nomination Committee administer the LTIP.

Relations with shareholders

Communication with shareholders is of significant importance and the Company undertakes this principally through its Annual and Interim Reports, Interim Management Statements, at the AGM and through the processes described below.

Although most shareholder contact is with the Chief Executive and the Chief Financial Officer, supported by management specialising in investor relations, it is the responsibility of the Board as a whole to ensure that a satisfactory channel of communication with shareholders exists. The Board strongly supports a programme of regular ongoing communication with the Company's shareholders. The programme, which is formalised within an investor relations framework, includes presentations of interim and full year results and regular meetings of senior management with the Company's institutional investors. The Group's website enables a significant amount of published material, including results and presentations, to be readily accessible to all shareholders on demand. Regular communication is also entered into with individual shareholders on a wide range of issues through this medium.

The AGM provides an opportunity for the Directors to deliver presentations on the business and for shareholders, both institutional and private, to question the Directors directly. The Chairman of the Board, together with the Chairmen of the Audit Committee and the Remuneration and Nomination Committee, are available to answer

questions as required. Notice of the AGM, proxy statement and the Annual Report and Accounts, are sent to shareholders at least 20 working days before the meeting. A separate resolution is proposed at the AGM on each substantially separate issue including a particular resolution relating to the report and accounts. Details of the proxy votes for and against each resolution, together with details of votes withheld are announced after the result of the votes by hand. These details are published on the Group's website following the conclusion of the AGM.

Accountability and audit

A statement relating to the Directors' responsibilities in respect of the preparation of the financial statements is set out on page 35 with the responsibilities of the Company's Independent Auditors outlined on page 42.

Going concern

The financial statements have been prepared on the going concern basis and, as required by the Combined Code, the Directors report that they have satisfied themselves that the Group is a going concern, having adequate resources to continue in operational existence for the foreseeable future. In forming this view the Directors have reviewed the Group's budget for 2010, the medium term plans as set out in the rolling five year plan, and have taken into account the cash flow implications of the plans, including proposed capital expenditure, and compared these with the Group's committed borrowing facilities and projected gearing ratios.

The Group's business activities, together with the main trends and factors that are likely to affect the future development, performance and position of the Group are outlined in the Business Review on pages 8 to 19 and the Financial Review on pages 20 to 23. The principal risks and uncertainties facing the Group are identified and described on pages 39 and 40. The financial position of the Group, its cash flows, liquidity position, borrowing facilities and financial risk management are discussed in the Financial Review on pages 20 to 23. In addition note 20 to the financial statements includes details of the Group's borrowings, financial instruments and its exposures to credit and liquidity risk.

Principal risks and uncertainties

The Group operates in the dynamic and global food ingredients and flavours industry and in the consumer food industry in the UK and Ireland. As is the case with competitors in these industries the Group is exposed to many and varied risks and uncertainties which are managed in order to make a profitable return for shareholders. The risks are managed, both in the short and long term, utilising the standard management processes adopted in the businesses along with the Group's internal control and risk management processes described in the next section.

The principal risks and uncertainties facing the Group are discussed below:

Commercial risks

The Group may experience loss of revenue growth momentum due to unforeseen events that impact brands, customers' brands, consumer dietary changes or food consumption patterns. The spread of the Group's business and experience in numerous territories limits the concentration of these risks and allows mitigation through management actions.

Fluctuating raw material costs, competition between customers, unusual competitive actions by competitors and the resultant difficulties in adjusting prices appropriately can have a detrimental impact on operating margins. The Group deploys senior managers and subject matter experts in such areas to manage and mitigate such risks and adopt strategies over time to improve the positioning of the businesses in this regard.

Report of the Directors

A sudden acceleration or slow down in the rate of innovation in significant markets can impact both ingredients and flavours and consumer foods businesses if the Group is not appropriately aligned. Investing a significant level of resources ensures the right technological response to each market.

In a given market, a slow rate of innovation or stagnation of consumer trends can lead to commoditisation of a particular category of ingredients. The Group supports customers drive for choice and market stimulation through new product development. Where this dynamic is absent for a period of time the impact on margins can be negative. Kerry Group works closely with customers and consumers to ensure awareness of trends occurring in the market place both positive and negative.

Other commercial risks can be considered under the heading of operational and technical compliance. These risks include such matters as managing compliance in an ever changing regulatory environment, specifically in the areas of health and safety, emissions and effluent and indeed in relation to the potential outbreak of disease in an animal population or contamination in any particular food category. The products and raw materials the Group employs in its operations are substantially all natural in make up and where disease or contamination could potentially occur the Group employs strict quality policies and disciplines to reduce the level of risk encountered to a minimal level.

Possibly the largest commercial risk is the Group executing a value destroying acquisition or large capital project. The Group has significant experience in this area within its management team and employs a thorough and disciplined approach to pre-acquisition due diligence and post-acquisition integration and restructuring. However the risk inherent in this area is very much to the fore in contemplating and managing such projects.

To support our One Kerry Strategy and to facilitate future business growth and expansion, in 2009 the Board approved our Kerryconnect programme which will establish a common Information Communication and Technology (ICT) strategic development approach and integrated systems throughout the Group. The Kerryconnect programme is a major undertaking and investment by the Group. The Group has a professional governance structure, program development and implementation teams in place led by two executive Directors of the Group.

Financial risks

The geographic spread of the Group's business (across 23 countries of manufacture and 140 in terms of revenue) provides a number of challenges in relation to financial and market risks and uncertainties. These risks include, ensuring finance is available to the Group to carry out its mission, treasury risks, foreign exchange risks, interest rate risks, credit rating risk and market risk in relation to employee retirement obligations. Specifically, currency volatility and credit availability have become more significant than in the past. In addition risks such as inaccurate or delayed stock market reporting, internal control systems failure and IT systems failure could be considered under this heading. These risks and the Group's response to managing these risks are set out in detail in note 20 to the financial statements.

Human resources

The Group is critically aware that its performance in the short or longer term is only as good as the people that manage and run its operations. To this extent every effort is made to ensure optimal procedures and policies are in place to attract, train and retain the capabilities and skill levels appropriate to succeed in the Group's mission and business objectives.

Internal control

The Company, as required by the Irish and London Stock Exchanges, has complied with the Combined Code provisions on internal control, having established the procedures necessary to implement the guidance issued in the Turnbull Committee Report, and by reporting in accordance with that guidance.

The Board of Directors has overall responsibility for the Group's systems of internal control and risk management. It is also responsible for monitoring the effectiveness of these systems on an ongoing basis. The system of internal control provides reasonable, but not absolute, assurance of:

- The safeguarding of assets against unauthorised use or disposition; and
- The maintenance of proper accounting records and the reliability of the financial information it produces, for both internal use and for publication.

The key elements of the system are as follows:

- The Board of Directors reviews and approves a detailed annual budget each year which is used for comparison with monthly management accounts throughout the year. The Board also approves the Interim and Annual Consolidated Financial Statements;
- The Board of Directors also approves all major strategic decisions. Responsibility for each business unit is passed to local management and is overseen by the respective business manager in line with Group responsibility structures;
- Written policies and procedures are issued centrally for all material functional areas and are approved by the executive Directors. Specific responsibility is allocated to individual managers to monitor compliance with these policies;
- The Group operates a centralised treasury function which manages the financial risks of the Group;
- The Group has a clearly defined process and information system for controlling capital expenditure including the use of appropriate authorisation levels. The overall capital expenditure programme for the year is reviewed by the Board of Directors on an ongoing basis with specific projects being approved by the Board at each meeting;
- Business acquisition and disposal decisions are taken exclusively by the Board of Directors;
- The Group Finance Committee has responsibility for raising finance, reviewing foreign currency risk, making decisions on foreign currency and interest rate hedging and managing the Group's relationship with its finance providers;
- The Group uses a standardised consolidation system for the preparation of the Group's monthly management accounts, Interim and Annual Consolidated Financial Statements;
- The Group has a central financial reporting department which facilitates training and financial standards updates for the maintenance of expertise in the Group's finance personnel; and
- A procedure is in place across the Group for the submission of periodic risk and control reports from management, through the Audit Committee, to the Board. These reports emanate from the Group's Risk Assessment and Reporting System which covers financial, operational, business and compliance risks.

The Directors have procedures in place to enable them to continually monitor the effectiveness of the system of internal controls. These procedures include:

- The operations of the Audit Committee whose function it is to approve audit plans and deal with significant control issues raised by the internal and external auditors;
- The Group's internal audit function which continually reviews the internal controls and systems in all businesses and makes recommendations for improvement and reports to the Audit Committee;
- The Group has a Corporate Compliance function to establish compliance policy and monitor compliance across the Group's countries of operation, carry out compliance reviews and share best practice among the compliance functions in these countries;
- The Group has successfully rolled out a self assessment system covering the key controls for the finance and treasury functions of the Group. The system facilitates a self assessment at a local level and consolidation to a group level. The internal audit function independently verifies a number of these assessments each year and all scores, issues and areas for improvement are reported to the Audit Committee as part of our overall governance program;
- As part of their normal audit procedures, the external auditors test the systems of internal control and report material weaknesses, if any, to the Audit Committee;
- The Board, through the Audit Committee, completes an annual assessment of risk and controls. The internal audit function facilitates the Board in this assessment by preparing a consolidated Group Risk and Control Report for their review. Where necessary, the Audit Committee will convene to deal with any significant control weaknesses reported by internal audit and management;
- Adherence to the policies outlined in the Group's procedures manual ensures all the key controls in the internal control system are complied with; and
- Any significant variance between the budget and the detailed monthly management accounts is investigated by management and remedial action is taken as necessary.

The Directors confirm that they have reviewed the effectiveness of the system of internal control operated during the period covered by these accounts and up to the date of this report. No significant failings or weaknesses were identified from the internal controls review. The procedures adopted comply with the guidance contained in *Internal Control: Guidance for Directors on the Combined Code*.

Finally, to ensure that proper books of account are kept for the Company in accordance with section 202 of the Companies Act, 1990, the Directors employ appropriately qualified accounting personnel and maintain appropriate computerised accounting systems. The books of account are located at the Company's registered office.

Subsidiaries

The principal subsidiaries are listed in note 33 to the financial statements.

Auditors

The Auditors, Deloitte & Touche, Chartered Accountants, continue in office in accordance with section 160(2) of the Companies Act, 1963.

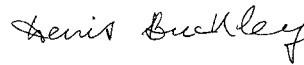

Retirement benefits

Information in relation to the Group's retirement benefit schemes is given in note 22 to the financial statements.

Taxation

So far as the Directors are aware, the Company is not a close company within the definition of the Taxes Consolidation Act, 1997. There has been no change in this respect since 31 December 2009.

Signed on behalf of the Board:

Denis Buckley, Chairman

Stan McCarthy, Chief Executive

22 February 2010

We have audited the financial statements of Kerry Group plc for the year ended 31 December 2009 which comprise the Group Financial Statements including the Statement of Accounting Policies, the Consolidated Income Statement, the Consolidated Balance Sheet, the Consolidated Statement of Recognised Income and Expense, the Consolidated Reconciliation of Changes in Shareholders' Equity, the Consolidated Cash Flow Statement, the Company Financial Statements including the Company Balance Sheet, the Company Reconciliation of Changes in Shareholders' Equity, the Company Cash Flow Statement and the related notes 1 to 33. These financial statements have been prepared under the accounting policies set out in the Statement of Accounting Policies.

This report is made solely to the company's members, as a body, in accordance with Section 193 of the Companies Act 1990. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditors

The directors are responsible, as set out in the Statement of Directors' Responsibilities, for preparing the Annual Report, including the preparation of the Group Financial Statements and the Parent Company Financial Statements in accordance with applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union.

Our responsibility, as independent auditor, is to audit the financial statements in accordance with relevant legal and regulatory requirements and International Standards on Auditing (UK and Ireland).

We report to you our opinion as to whether the Group Financial Statements and the Parent Company Financial Statements give a true and fair view, in accordance with IFRSs as adopted by the European Union and are properly prepared in accordance with Irish statute comprising the Companies Acts, 1963 to 2009, and Article 4 of the IAS Regulation. We also report to you whether in our opinion: proper books of account have been kept by the company; and whether, at the balance sheet date, there exists a financial situation requiring the convening of an extraordinary general meeting of the company; and whether the information given in the Report of the Directors is consistent with the financial statements. In addition, we state whether we have obtained all information and explanations necessary for the purpose of our audit and whether the company's balance sheet is in agreement with the books of account.

We also report to you if, in our opinion, any information specified by law or the Listing Rules of the Irish Stock Exchange regarding directors' remuneration and directors' transactions is not given and, where practicable, include such information in our report.

We are required by law to establish that the company has produced an annual corporate governance statement and whether such statement contains the information required by law. We review whether the Corporate Governance Statement reflects the company's compliance with the nine provisions of the 2008 FRC Combined Code specified for our review by the Listing Rules of the Irish Stock Exchange and we report if it does not. We also consider and report to you whether the description in the annual corporate governance statement of the main features of the internal control and risk management systems in relation to the process for preparing the parent and group financial statements is consistent with our evaluation and testing of the relevant systems which we considered necessary for the purpose of this audit report. We also consider and report to you whether the information required under Section 158 (6D) (d) of the Companies Act 1963 given in the annual corporate governance statement is consistent. We are not required to consider whether the board's statements on internal control cover all risks and controls, or form an opinion on the effectiveness of the group's corporate governance procedures or its internal controls.

We read the other information contained in the Annual Report and consider whether it is consistent with the financial statements. The other information comprises only the Chairman's Statement, the Chief Executive's Review, the Business Review, the Financial Review, the Corporate Social Responsibility Report and the Report of the Directors. Our responsibilities do not extend to other information.

Basis of audit opinion

We conducted our audit in accordance with International Standards on Auditing (UK and Ireland) issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the directors in the preparation of the financial statements and of whether the accounting policies are appropriate to the company's and the group's circumstances consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we evaluated the overall adequacy of the presentation of information in the financial statements.

Opinion

In our opinion;

- the Group Financial Statements give a true and fair view, in accordance with IFRSs as adopted by the European Union, of the state of the affairs of the Group as at 31 December 2009 and of its profit for the year then ended;
- the Group Financial Statements have been properly prepared in accordance with the Companies Acts, 1963 to 2009 and Article 4 of the IAS Regulations;
- the Parent Company Financial Statements give a true and fair view, in accordance with IFRSs, as adopted by the European Union as applied in accordance with the provisions of the Companies Acts 1963 to 2009, of the state of the parent company affairs as at 31 December 2009; and
- the Parent Company Financial Statements have been properly prepared in accordance with the Companies Acts, 1963 to 2009.

We have obtained all the information and explanations we considered necessary for the purpose of our audit. In our opinion proper books of account have been kept by the company. The company's balance sheet is in agreement with the books of account.

In our opinion the information given in the Report of the Directors is consistent with the financial statements.

In our opinion the description given in the annual corporate governance statement of the main features of the internal control and risk management systems in relation to the process for preparing the parent and group financial statements is consistent with our evaluation and testing of the relevant systems which we considered necessary for the purposes of this audit report.

In our opinion the information required under section 158 (6D)(d) of the Companies Act 1963 given in the annual corporate governance statement is consistent.

The net assets of the company, as stated in the balance sheet are more than half the amount of its called-up share capital and, in our opinion, on that basis there did not exist at 31 December 2009 a financial situation which, under Section 40(1) of the Companies (Amendment) Act, 1983, would require the convening of an extraordinary general meeting of the company.

Dublin

22 February 2010

Statement of Accounting Policies

General information

Kerry Group plc is a public limited company incorporated in the Republic of Ireland. The address of its registered office is Prince's Street, Tralee, Co. Kerry. The principal activities of the Company and its subsidiaries are described in the Business Review.

Basis of preparation

The Group's financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs), applicable Irish law and the Listing Rules of the Irish and London Stock Exchanges. The Group's financial statements have also been prepared in accordance with IFRSs adopted by the European Union and therefore comply with Article 4 of the EU IAS Regulation.

The consolidated financial statements have been prepared under the historical cost convention, as modified by the revaluation of available-for-sale financial assets, financial asset investments and financial liabilities (including derivative financial instruments), which are held at fair value.

The financial statements have been prepared on a going concern basis and further details can be found on page 39 of the Director's Report.

The consolidated financial statements contained herein are presented in Euro, which is the functional currency of the parent company, Kerry Group plc. The functional currencies of the Group's main subsidiaries are Euro, US Dollar and Sterling.

IFRS does not define certain Income Statement headings. For clarity, the following are the definitions as applied by the Group:

- 'Trading profit' refers to the operating profit generated by the businesses before intangible asset amortisation and gains or losses generated from non-trading items.
- 'Non-trading items' refers to gains or losses on the disposal of non-current assets or businesses, material restructuring and other one off costs. It is determined by management that each of these items relate to events or circumstances that are non-recurring in nature.
- 'Operating profit' is profit before taxation and finance costs.

The Group makes this distinction to give a better understanding of the financial performance of the business.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and the entities controlled by the Company (its subsidiaries) all of which prepare financial statements up to 31 December. Accounting policies of subsidiaries are consistent with the policies adopted by the Group. Control is achieved where the Company has the power to govern the financial and operating policies of an entity.

The results of subsidiaries acquired or disposed of during the year are included in the Consolidated Income Statement from the date of their acquisition or up to the effective date of their disposal. All inter-group transactions and balances are eliminated on consolidation.

The purchase method of accounting is used for the acquisition of subsidiaries. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under IFRS 3 'Business Combinations' are recognised at their fair value at the acquisition date, which is fair value less costs to sell. The cost of the acquisition is measured at the aggregate fair value of the consideration given and any directly attributable acquisition costs.

Revenue

Revenue represents the fair value of the consideration received or receivable, for ingredients and flavours applications and consumer foods branded and non-branded products, from third party customers. Revenue is recorded at invoice value, net of discounts, allowances, volume and promotional rebates and excludes VAT. Revenue is recognised when the significant risks and rewards of ownership of the goods have been transferred to the customer, which is usually upon shipment, or in line with terms agreed with individual customers and when the amount of revenue and costs incurred can be measured reliably. Revenue is recorded when the collection of the amount due is reasonably assured. An estimate is made on the basis of historical sales returns and is recorded to allocate these returns to the same period as the original revenue is recorded. Rebate and discount accruals are established based on best estimates of the amounts necessary to meet claims by the Group's customers. An accrual is created at the time of sale and released, if unutilised, after assessment that the likelihood of such a claim being made is remote.

Segmental analysis

The Group's operating segments are identified on the basis of the Group's management structure, the components of which engage in revenue and expense generating activities. The operating segments present their results and financial information to be regularly reviewed by the Group's Chief Operating Decision Maker, which the Group has defined as the executive Directors. Trading profit is the key measure utilised in assessing the performance of operating segments within the Group.

The Group has two operating segments: Ingredients & Flavours and Consumer Foods. The Ingredients & Flavours operating segment manufactures and distributes application specific ingredients and flavours spanning a number of technology platforms while the Consumer Foods segment supplies added value brands and customer branded foods to the Irish and UK markets. Corporate activities, such as the cost of corporate stewardship, are reported along with the elimination of inter-group activities under the heading 'Group Eliminations and Unallocated'. Inter-segment pricing is determined on an arm's length basis.

Property, plant and equipment

Property, plant and equipment, other than freehold land, are stated at cost less accumulated depreciation and any accumulated impairment losses. Cost comprises purchase price and other directly attributable costs. Freehold land is stated at cost and is not depreciated. Depreciation on the remaining property, plant and equipment is calculated by charging equal annual instalments, to the Consolidated Income Statement at the following annual rates:

– Buildings	2% – 5%
– Plant, machinery and equipment	7% – 25%
– Motor vehicles	20%

The charge in respect of periodic depreciation is calculated after establishing an estimate of the asset's useful life and the expected residual value at the end of its life. Increasing/(decreasing) an asset's expected life or its residual value would result in a (decreased)/increased depreciation charge to the Consolidated Income Statement.

The useful lives of Group assets are determined by management at the time the assets are acquired and reviewed annually for appropriateness. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology. Historically, changes in useful lives or residual values have not resulted in material changes to the Group's depreciation charge.

Assets in the course of construction for production or administrative purposes, are carried at cost, less any recognised impairment loss. Cost includes professional fees and other directly attributable costs. Depreciation of these assets commences when the assets are ready for their intended use, on the same basis as other property assets.

Non-current assets classified as held for sale

Non-current assets are classified as held for sale if their carrying value will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met if the sale is highly probable, the asset is available for immediate sale in its present condition, management is committed to the sale and the sale is expected to be completed within one year from the date of classification.

Non-current assets, including related liabilities, classified as held for sale are measured at the lower of carrying value and fair value less costs to sell.

Intangible assets

(a) Goodwill

Goodwill only arises on business combinations and represents the difference between the cost of businesses acquired and the aggregate fair values of their identifiable net assets at the date of acquisition. The fair value of the assets and liabilities are based on valuations using assumptions deemed by management to be appropriate. Professional valuers are engaged when it is deemed appropriate to do so.

Goodwill arising on acquisitions before the date of transition to IFRS has been retained at the previous Irish/UK GAAP amounts subject to impairment testing. Goodwill written off to reserves under Irish/UK GAAP prior to 1998 has not been reinstated and is not included in determining any subsequent profit or loss on disposal.

At the date of acquisition, goodwill is allocated, for the purpose of impairment testing, to one or more cash generating units (CGU). Goodwill is tested for impairment at least annually and is carried at cost less accumulated impairment losses, where identified. Impairment is recognised immediately in the Consolidated Income Statement and is not subsequently reversed. On disposal of a subsidiary, the attributable amount of goodwill (not previously written off to reserves) is included in the determination of the profit or loss on disposal.

(b) Brand related intangibles

Brand related intangibles acquired as part of a business combination are valued at their fair value at the date of acquisition. Intangible assets determined to have an indefinite useful life are not amortised and are tested for impairment at least annually. Indefinite life intangible assets are those for which there is no foreseeable limit to their expected useful life. In arriving at the conclusion that these brand related intangibles have an indefinite life, management considers that the Group is a technology business and expects to acquire, hold and support technology for an indefinite period. The Group supports this through spending on research and development. The classification of intangible assets as indefinite is reviewed annually.

Finite life brand related intangible assets are amortised over the period of their expected useful lives, which range from 2 to 20 years, by charging equal annual instalments to the Consolidated Income Statement. The useful life used to amortise finite intangible assets relates to the future performance of the assets acquired and management's judgement of the period over which economic benefit will be derived from the asset. Historically, changes in useful lives has not resulted in material changes to the Group's amortisation charge.

(c) Computer software

Intangible assets separately acquired, including computer software which is not an integral part of an item of computer hardware, are stated at cost less any accumulated amortisation and any accumulated impairment losses. Cost comprises purchase price and other directly attributable costs. These intangible assets are amortised over their expected useful lives, which range from 3 to 7 years, by charging equal annual instalments to the Consolidated Income Statement.

Costs associated with the development of internally generated computer software, including external direct costs of materials and services consumed in developing or obtaining the software and payroll and payroll-related costs for employees who are directly involved with the project are capitalised once they meet the recognition criteria in IAS 38 'Intangible Assets'.

These costs are amortised over their expected useful lives on a straight-line basis. Amortisation commences when the assets are ready for their intended use.

Impairment of non-financial assets

Goodwill and other intangible assets that have an indefinite useful life are not subject to amortisation. They are tested annually in the last quarter of the year for impairment and whenever there is an indication that the asset may be impaired. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (CGU) which is by region within operating segment. An impairment loss is recognised immediately in the Consolidated Income Statement for the amount by which the asset's carrying value exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or its value in use. Value in use is determined as the discounted future cash flows of the CGU. The key assumptions for the value in use calculations are discount rates, growth rates and expected changes in selling price and direct costs during the year. These assumptions reflect management's best estimates but these estimates involve inherent uncertainties which may not be controlled by management.

When an impairment loss (other than on goodwill) subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, not exceeding its carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate the carrying amount may not be recoverable. Impairment is reviewed by assessing the asset's value-in-use when compared to its carrying value.

Inventories

Inventories are valued at the lower of their weighted average cost or estimated net realisable value. Cost includes all expenditure incurred in the normal course of business in bringing the products to their present location and condition. Net realisable value is the estimated selling price of inventory on hand less all further costs to completion and all costs expected to be incurred in marketing, distribution and selling.

Income taxes

Income taxes include both current and deferred taxes. Income taxes are charged or credited to the Consolidated Income Statement except when they relate to items charged or credited directly to shareholders' equity. In this instance the income taxes are also charged or credited to shareholders' equity.

Statement of Accounting Policies

The current tax charge is calculated as the amount payable based on taxable profit and the tax rates applying to those profits in the year together with adjustments relating to prior years. Deferred taxes are calculated using the tax rates that are expected to apply in the period when the liability is settled or the asset is realised, based on tax rates that have been enacted or substantively enacted at the balance sheet date.

The calculation of the income tax charge involves a degree of estimation and judgement as the Group operates in many jurisdictions and the tax treatment of certain items cannot be fully determined at the time of the original transaction. The Group can also be subject to tax audits in any of the jurisdictions in which it operates, which by their nature are often complex and can require several years to conclude. Amounts accrued in respect of tax audits are determined based on management's interpretation of the relevant tax laws and likelihood of a successful conclusion. When the final tax outcome for these items is different from amounts initially recorded, such differences will impact the income tax and deferred tax in the period in which such a determination is made, as well as the Group's cash position.

Deferred taxes are calculated based on the temporary differences that arise between the tax base of the asset or liability and its carrying value in the Consolidated Balance Sheet. Deferred taxes are recognised on all temporary differences in existence at the balance sheet date except for:

- temporary differences which arise from the initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction does not affect accounting or taxable profit or loss, or on the initial recognition of goodwill for which a tax deduction is not available; and
- temporary differences which arise on investments in subsidiaries where the timing of the reversal is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

The recognition of a deferred tax asset is based upon whether it is probable that sufficient and suitable taxable profits will be available in the future, against which the reversal of temporary differences can be deducted. Recognition, therefore, involves judgement regarding the future financial performance of the particular legal entity or tax group in which the deferred tax asset exists. Deferred tax assets are reviewed at each reporting date.

Current and deferred income tax assets and liabilities are offset where taxes are levied by the same taxation authority, there is a legal right of offset between the assets and liabilities and the Group intends to settle on a net basis.

Retirement benefits

Payments to defined contribution plans are recognised in the Consolidated Income Statement as they fall due and any contributions outstanding at the year end are included as an accrual in the Consolidated Balance Sheet.

Actuarial valuations for accounting purposes are carried out at each balance sheet date in relation to defined benefit plans, using the projected unit credit method, to determine the schemes' liabilities and the related cost of providing benefits.

Current service cost, expected return on pension schemes' assets and interest on schemes' liabilities are recognised in the Consolidated Income Statement as they arise. Actuarial gains and losses are recognised in full in the period in which they occur in the Consolidated Statement of Recognised Income and Expense. Past service cost, which can be positive or negative, is recognised immediately in the Consolidated Income Statement to the extent the change in benefits is already vested. Otherwise, past service cost is recognised on a straight line basis over

the average period until the benefits become vested. Gains or losses on the curtailment or settlement of a plan are recognised in the Consolidated Income Statement when the curtailment or settlement occurs.

The defined benefit liability recognised in the Consolidated Balance Sheet represents the present value of the defined benefit obligation less any past service cost not yet recognised and less the fair value of any plan assets. Defined benefit assets are also recognised in the Consolidated Balance Sheet but are limited to the total of unrecognised past service cost and the present value of available refunds from, and reductions in future contributions, to the plan.

Provisions

Provisions can be distinguished from other types of liability by considering the events that give rise to the obligation and the degree of uncertainty as to the amount of the liability. These are recognised in the Consolidated Balance Sheet when:

- the Group has a present obligation (legal or constructive) as a result of a past event;
- it is probable that the Group will be required to settle the obligation; and
- a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the amount required to settle the present obligation at the balance sheet date, taking account of the risks and uncertainties surrounding the obligation.

Research and development expenditure

Expenditure on research activities is recognised as an expense in the financial year it is incurred.

Development expenditure is assessed and capitalised as an internally generated intangible asset only if it meets all of the following criteria:

- it is technically feasible to complete the asset for use or sale;
- it is intended to complete the asset for use or sale;
- the Group has the ability to use or sell the intangible asset;
- it is probable that the asset created will generate future economic benefits;
- adequate resources are available to complete the asset for sale or use; and
- the development cost of the asset can be measured reliably.

Capitalised development costs are amortised over their expected economic lives. Where no internally generated intangible asset can be recognised, development expenditure is recognised as an expense in the financial year it is incurred. The Group has not capitalised development expenditure to date.

Grants

Grants of a capital nature are accounted for as deferred income in the Consolidated Balance Sheet and are released to the Consolidated Income Statement at the same rates as the related assets are depreciated. Grants of a revenue nature are credited to the Consolidated Income Statement to offset the matching expenditure.

Dividends

Dividends are accounted for when they are approved, through the retained earnings reserve. Dividends proposed do not meet the definition of a liability until such time as they have been approved.

Operating leases

Annual rentals payable under operating leases are charged to the Consolidated Income Statement on a straight line basis over the period of the lease.

Share-based payments

The Group has granted share-based payments to employees under an Executive Share Option Scheme and a Long Term Incentive Plan.

(a) Executive Share Option Scheme

In accordance with IFRS 2 'Share-based Payment', there is no requirement to recognise any compensation expense in the consolidated financial statements, as no new options have been granted under the Executive Share Option Scheme since 7 November 2002.

(b) Long Term Incentive Plan

The equity-settled share-based awards granted under this plan are measured at the fair value of the equity instruments at the date of grant. The fair value is measured using the Monte Carlo Pricing Model. It is charged to the Consolidated Income Statement over the vesting period of the awards based on the probable number of awards that will eventually vest, with a corresponding credit to shareholders' equity. At the balance sheet date, the estimate of the level of vesting is reviewed and any adjustment necessary is recognised in the Consolidated Income Statement and in shareholders' equity.

Foreign currency

Foreign currency transactions are translated into functional currency at the rate of exchange ruling at the date of the transaction. Exchange differences arising from either the retranslation of the resulting monetary assets or liabilities at the exchange rate at the balance sheet date or from the settlement of the balance at a different rate are recognised in the Consolidated Income Statement when they occur.

On consolidation the income statements of foreign currency subsidiaries are translated into Euro at the average exchange rate, which approximates to the actual exchange rates for the year. The balance sheets of such subsidiaries are translated at the rate of exchange at the balance sheet date. Resulting exchange differences arising on the translation of foreign currency subsidiaries are taken directly to a separate component of shareholders' equity.

Goodwill and fair value adjustments arising on the acquisition of foreign subsidiaries are treated as assets and liabilities of the foreign subsidiaries and are translated at the closing rate.

On disposal of a foreign currency subsidiary, the cumulative translation difference for that foreign subsidiary is transferred to the Consolidated Income Statement as part of the gain or loss on disposal.

Borrowing costs

Borrowing costs incurred for assets, which take a substantial period of time to construct, are added to the cost of the asset during the period of time required to complete and prepare the asset for its intended use. Other borrowing costs are expensed to the Consolidated Income Statement in the period in which they are incurred.

Financial instruments

Financial assets and financial liabilities are recognised on the Consolidated Balance Sheet when the Group becomes party to the contractual provisions of the instrument.

Financial assets and liabilities are initially measured at fair value, plus transaction costs, except for those classified as fair value through profit or loss, which are initially measured at fair value.

All financial assets are recognised and derecognised on a trade date basis, where the purchase or sale of a financial asset is under a contract whose terms require delivery of the financial asset within the timeframe of the market concerned.

Financial assets and liabilities are classified into specified categories in accordance with IAS 39 'Financial Instruments: Recognition & Measurement'. These categories are as follows:

- loans and receivables;
- available-for-sale financial assets;
- financial assets at fair value through profit or loss (FVTPL);
- held to maturity investments;
- financial liabilities measured at amortised cost; and
- financial liabilities at fair value through profit or loss (FVTPL).

The classification is determined at the time of initial recognition of the financial asset or liability and is based upon its nature and purpose.

Loans and receivables

Trade and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as 'loans and receivables'.

Trade and other receivables are stated at amortised cost, which approximates fair value given the short term nature of these assets. A provision for doubtful trade receivables is created based on incurred loss experience or where there is objective evidence that amounts are irrecoverable. Movements in this provision are recorded in general overheads in the Consolidated Income Statement.

Available-for-sale financial assets

Group financial asset investments, classified as available-for-sale, are stated at their fair value at the balance sheet date. Movements in fair value are recorded in shareholders' equity until the asset is disposed of unless there is deemed to be an impairment on the original cost in which case the loss is taken directly to the Consolidated Income Statement. Upon disposal the fair value movement in shareholders' equity is transferred to the Consolidated Income Statement. Quoted market prices are used to determine the fair value of listed shares. Income from investments is recognised in the Consolidated Income Statement in the period in which it is received.

Financial assets at fair value through profit or loss (FVTPL)

Financial assets are classified as FVTPL when the financial assets are either held for trading or they are designated upon initial recognition as FVTPL.

Certain derivatives that are not designated and effective as a hedging instrument are classified as held for trading. The Group does not have any other financial assets classified as held for trading.

Held to maturity investments

The Group currently does not have any held to maturity investments.

Statement of Accounting Policies

Financial liabilities at amortised cost

Other non-derivative financial liabilities consist primarily of trade and other payables and borrowings.

Financial liabilities at fair value through profit or loss (FVTPL)

Financial liabilities at FVTPL arise when the financial liabilities are either held for trading or they are designated upon initial recognition as FVTPL.

The Group classifies as held for trading certain derivatives that are not designated and effective as a hedging instrument. The Group does not have any other financial liabilities classified as held for trading.

Investments in subsidiaries

Investments in subsidiaries held by the Company are carried at cost less accumulated impairment losses.

Impairment of financial assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. Financial assets are impaired when objective evidence highlights that the estimated future cash flows from the investment have been affected.

For quoted and unquoted equity investments classified as available-for-sale, a significant and prolonged decline in the fair value of the asset below its cost is considered to be objective evidence of impairment.

For trade receivables, unusual or increasingly delayed payments, increase in average credit period taken or known financial difficulties of a customer, in addition to observable changes in national or local economic conditions in the country of the customer are considered indicators that the trade receivable balance may be impaired. The carrying amount of the asset is reduced through the use of a provision account and the amount of the loss is recognised in the Consolidated Income Statement. When a trade receivable is uncollectable, it is written off against the provision account for trade receivables. Subsequent recoveries of amounts previously written off are credited to general overheads in the Consolidated Income Statement.

For all other financial assets, objective evidence of impairment could include:

- significant financial difficulty of the counterparty, indicated through unusual or increasingly delayed payments or increase in average credit period taken;
- evidence that they are entering bankruptcy or financial re-organisation; and
- observable changes in local or economic conditions.

Cash and cash equivalents

Cash and cash equivalents consists of cash at bank held by the Group and short term bank deposits with a maturity of three months or less and are shown under current assets on the Consolidated Balance Sheet. Bank overdrafts are shown within 'Borrowings and overdrafts' in current liabilities on the Consolidated Balance Sheet. The carrying amount of these assets and liabilities approximates to their fair value.

Trade and other payables

Trade and other payables are stated at amortised cost, which approximates to their fair value given the short term nature of these liabilities. Trade payables are non interest bearing.

Borrowings

Debt instruments are initially recorded at the value of proceeds received, net of transaction costs. Subsequently they are reported at amortised cost, except for hedged debt. Discounts between the net proceeds received and the principal value due on redemption are recognised as a finance cost in the Consolidated Income Statement. To the extent that debt instruments are hedged under qualifying fair value hedges, the hedged item is adjusted for changes in the fair value of the hedging instruments with changes arising recognised in the Consolidated Income Statement. The fair value of the hedged debt is primarily determined using the discounted cash flow basis.

Derecognition of financial liabilities

The Group derecognises financial liabilities only when the Group's obligations are discharged, cancelled or when they expire.

Derivative financial instruments and hedge accounting

The Group's activities expose it to risks of changes in foreign currency exchange rates and interest rates in relation to international trading and long-term debt. The Group uses foreign exchange forward contracts, interest rate swaps and forward rate agreements to hedge these exposures. The Group does not use derivative financial instruments for speculative purposes.

Hedge accounting is applied to the derivative instruments where they are effective in offsetting the changes in fair value or cash flows of the hedged item. The relevant criteria required in order to apply hedge accounting is as follows:

- the hedged item and the hedging instrument are specifically identified;
- the hedging relationship is formally documented to identify the hedged risk and how the effectiveness is assessed;
- the effectiveness of the hedge can be reliably measured;
- the hedge must be expected to be highly effective and this is tested regularly throughout its life; and
- a forecast transaction that is the subject of the hedge must be highly probable.

Fair value of financial instrument derivatives

The fair values of financial assets and financial instrument derivatives are determined as follows:

- the fair value of financial assets with standard terms and conditions, and traded on active liquid markets is determined with reference to quoted market prices, which are observable; and
- the fair value of derivative instruments is calculated using discounted cash flow analysis based on the applicable yield curve for the duration and currency of the instrument, which are observable:
 - foreign currency forward contracts are measured using quoted forward exchange rates to match the maturities of these contracts; and
 - interest rate swaps are measured at the present value of future cash flows estimated and discounted based on the applicable yield curves.

The carrying values of financial assets and financial liabilities recorded at amortised cost in the financial statements approximate to their fair values. In the case of derivative financial instruments their fair value has been recognised on the face of the Consolidated Balance Sheet.

Cash flow hedges

Where derivatives, including forward foreign currency, forward commodity contracts and floating to fixed interest rate swaps are used, they are primarily treated as cash flow hedges. Changes in the fair value of derivative financial instruments that are designated, and are effective, as hedges of future cash flows are recognised directly in shareholders' equity. Any ineffective portion of the hedge is recognised in the Consolidated Income Statement. When a firm commitment or forecasted transaction occurs and results in the recognition of an asset or a liability, then, at that time the associated gains or losses on the hedging instrument that had previously been recognised in shareholders' equity are recognised in the Consolidated Income Statement.

If a hedge is no longer effective or a hedging relationship ceases to exist, hedge accounting is discontinued prospectively and any cumulative gain or loss on the instrument previously recognised in shareholders' equity is retained in shareholders' equity until the forecasted transaction occurs, at which time it is released to the Consolidated Income Statement. If the hedged transaction is no longer expected to occur, the net cumulative gain or loss in shareholders' equity is transferred to the Consolidated Income Statement immediately.

Cash flow hedge accounting is applied to foreign exchange forward contracts which are expected to be effective in offsetting the changes in fair value or cash flows of expected future cash flows. In order to achieve and maintain cash flow hedge accounting, it is necessary for management to determine, at inception and on an ongoing basis, whether a forecast transaction is highly probable and whether the hedge is effective.

Fair value hedges

Where fixed to floating interest rate swaps are used they are treated as fair value hedges. Changes in the fair value of derivatives that are designated as fair value hedges are recognised directly in the Consolidated Income Statement, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk.

Hedge accounting is discontinued prospectively when the hedging relationship ceases to exist or the Group revokes the designation. The fair value adjustment to the carrying amount of the hedged item arising from the hedged risk is amortised through the Consolidated Income Statement from that date.

Trading Derivatives

Certain derivatives which comply with the Group's financial risk management policies either; a) do not qualify for hedge accounting or b) management have decided not to apply hedge accounting to and are therefore classified as trading derivatives. In these cases the instrument is reported independently at fair value with any changes recognised in the Consolidated Income Statement. In all other instances, cash flow or fair value hedge accounting is applied.

Critical accounting estimates and judgements

Preparation of the consolidated financial statements requires management to make certain estimates and assumptions that affect the reported profits, assets and liabilities. The significant estimates and assumptions used in the preparation of the Group's financial statements are outlined in the relevant accounting policies and notes to the financial statements and include:

- Property, plant and equipment;
- Intangibles assets;
- Impairment of intangible assets and property, plant & equipment;
- Income taxes;
- Retirement benefits obligation;
- Provisions for liabilities and charges;
- Non-trading items.

New standards and interpretations

Certain new and revised accounting standards and new IFRIC interpretations are mandatory for the Group for accounting periods beginning on or after 1 January 2009. The Group's assessment of the impact of these new standards and interpretations is set out as follows:

Statement of Accounting Policies

Standards and Interpretations effective in 2009 but not material to the Group:		Effective Date
– IFRS 1 (amendment)	First-time adoption of International Financial Reporting Standards	1 July 2009
– IFRS 2 (amendment)	Share Based Payments	1 January 2009
– IFRS 5 (amendment)	Non-current Assets Held for Sale and Discontinued Operations	1 July 2009
– IFRS 7 (amendment)	Financial Instruments: Disclosures – Improving Disclosures about Financial Instruments	1 January 2009
– IFRS 8	Operating Segments	1 January 2009
– IAS 1 (amendment)	Presentation of Financial Statements	1 January 2009
– IAS 16 (amendment)	Property, Plant and Equipment	1 January 2009
– IAS 19 (amendment)	Employee Benefits	1 January 2009
– IAS 20 (amendment)	Accounting for Government Grants and Disclosure of Government Assistance	1 January 2009
– IAS 23 (amendment)	Borrowing Costs	1 January 2009
– IAS 27 (amendment)	Consolidated and Separate Financial Statements	1 January 2009
– IAS 27 (revised)	Consolidated and Separate Financial Statements	1 July 2009
– IAS 28 (amendment)	Investments in Associates	1 January 2009
– IAS 29 (amendment)	Financial Reporting in Hyperinflation Economies	1 January 2009
– IAS 31 (amendment)	Interests in Joint Ventures	1 January 2009
– IAS 32 (amendment)	Financial Instruments: Presentation	1 January 2009
– IAS 36 (amendment)	Impairment of Assets	1 January 2009
– IAS 38 (amendment)	Intangible Assets	1 January 2009
– IAS 39 (amendment)	Financial Instruments: Recognition and Measurement	1 July 2009
– IAS 40 (amendment)	Investment Property	1 January 2009
– IAS 41 (amendment)	Agriculture	1 January 2009
– IFRIC 9 (amendment)	Reassessment of Embedded Derivatives	1 July 2009
– IFRIC 13	Customer Loyalty Programmes	1 July 2008
– IFRIC 15	Agreements for the Construction of Real Estate	1 January 2009
– IFRIC 16	Hedges of a Net Investment in a Foreign Operation	1 October 2008
– IFRIC 16 (amendment)	Hedges of a Net Investment in a Foreign Operation	1 July 2009
– IFRIC 17	Distributions of Non-cash Assets to Owners	1 July 2009
– IFRIC 18	Transfers of Assets from Customers	1 July 2009

Standards and Interpretations which are not yet effective and not expected to have a material effect:		Effective Date
– IFRS 1 (amendment)	First-time adoption of International Financial Reporting Standards	1 January 2010
– IFRS 2 (amendment)	Share Based Payments	1 July 2009
– IFRS 5 (amendment)	Non-current Assets Held for Sale and Discontinued Operations	1 January 2010
– IFRS 8 (amendment)	Operating Segments	1 January 2010
– IFRS 9	Financial Instruments	1 January 2013
– IAS 1 (amendment)	Presentation of Financial Statements	1 January 2010
– IAS 7 (amendment)	Statement of Cash Flows	1 January 2010
– IAS 17 (amendment)	Leases	1 January 2010
– IAS 24 (amendment)	Related Party Transactions	1 January 2011
– IAS 32 (amendment)	Financial Instruments: Presentation	1 February 2010
– IAS 36 (amendment)	Impairment of Assets	1 January 2010
– IAS 38 (amendment)	Intangible Assets	1 July 2009
– IAS 39 (amendment)	Financial Instruments: Recognition and Measurement	1 January 2010
– IFRIC 14 (amendment)	IAS 19 – The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction	1 January 2011
– IFRIC 19	Extinguishing Financial Liabilities with Equity Instruments	1 July 2010

The following revised standard is not yet effective and may have a material effect on the results or financial position of the Group and is currently under review:		Effective Date
– IFRS 3 (revised)	Business Combinations	1 July 2009
	The standard continues to apply the acquisition method to business combinations, with some significant changes. These changes include a requirement that all payments to purchase a business be recorded at fair value at the acquisition date, with some contingent payments subsequently re-measured through income. Goodwill may be calculated based on the parent's share of net assets or it may include goodwill related to minority interest. All transaction costs will be expensed. However this revised standard will only have a material effect on the Group's financial position if a material acquisition is undertaken in the future.	

Consolidated Income Statement
for the year ended 31 December 2009

	<i>Notes</i>	Before Non-Trading Items 2009 €'000	Non-Trading Items 2009 €'000	Total 2009 €'000	2008 €'000

1. Analysis of results

The Group has adopted IFRS 8 'Operating Segments' with effect from 1 January 2009. The Business Segments reported have not changed as a result of the adoption of this standard. There has however been some minor changes to the basis of measurement of segment performance, (principally inter-segment trading) which has necessitated some immaterial changes to prior year comparatives.

Kerry Group plc is domiciled in the Republic of Ireland and the revenues from third party customers in the Republic of Ireland was €641,161,000 (2008: €672,108,000). The segment assets located in the Republic of Ireland are €1,108,089,000 (2008: €981,758,000).

The accounting policies of the reportable segments are the same as the Group's accounting policies as outlined in the Statement of Accounting Policies.

2. Operating profit

Operating profit for the year has been arrived at after charging/(crediting) the following operating costs:

	Notes	Continuing Operations 2009 €'000	Continuing Operations 2008 €'000
Revenue		4,520,746	4,790,770
<i>Less operating costs:</i>			
Cost of sales		2,856,120	3,128,842
General overheads		728,038	722,621
Depreciation of property, plant and equipment	10	99,360	96,662
Capital grants amortisation	17	(2,113)	(2,638)
Operating charges		416,967	436,049
Trading profit		422,374	409,234
Intangible asset amortisation	11	16,811	14,891
Non-trading items	4	83,887	76,311
Operating profit		321,676	318,032

And is stated after charging:

Research and development costs		147,760	147,458
Auditors' remuneration			
– audit		2,531	2,453
– audit related		210	148
– non-audit		2,236	2,001
		4,977	4,602

Directors' emoluments

Directors' emoluments are set out in the Directors' remuneration section of the Report of the Directors on pages 38 and 39.

3. Staff numbers and costs

The average number of people employed by the Group was:

	Ingredients & Flavours 2009 Number	Consumer Foods 2009 Number	Total 2009 Number	Ingredients & Flavours 2008 Number	Consumer Foods 2008 Number	Total 2008 Number
EMEA	4,577	10,289	14,866	4,659	10,258	14,917
Americas	5,368	–	5,368	5,693	–	5,693
Asia Pacific	1,763	–	1,763	1,702	–	1,702
	11,708	10,289	21,997	12,054	10,258	22,312

The aggregate payroll costs of employees (including executive Directors) were:

	Ingredients & Flavours 2009 €'000	Consumer Foods 2009 €'000	Total 2009 €'000	Ingredients & Flavours 2008 €'000	Consumer Foods 2008 €'000	Total 2008 €'000
EMEA	235,343	323,276	558,619	213,725	339,032	552,757
Americas	238,161	–	238,161	257,578	–	257,578
Asia Pacific	44,425	–	44,425	42,810	–	42,810
	517,929	323,276	841,205	514,113	339,032	853,145

Social welfare costs of **€79,622,000** (2008: €82,470,000) are included in payroll costs above. Payroll costs include a Long Term Incentive Plan expense of **€691,000** (2008: credit of €1,491,000). Pension costs included in the above are disclosed in note 22.

4. Non-trading items

	Gross (Cost)/ Income 2009 €'000	Tax 2009 €'000	Net (Cost)/ Income 2009 €'000	Net (Cost)/ Income 2008 €'000
Kerry Ingredients & Flavours reorganisation	(56,636)	5,099	(51,537)	(50,602)
Breeo Foods integration and Consumer Foods plant restructuring	(35,655)	4,706	(30,949)	(7,784)
(Loss)/profit on disposal of businesses	(12,935)	–	(12,935)	20,130
(Loss)/profit on disposal of non-current assets	(1,814)	750	(1,064)	3,119
Incomplete acquisition	23,153	–	23,153	(23,153)
Tax charge due to a change in legislation	–	–	–	(18,706)
	(83,887)	10,555	(73,332)	(76,996)

Kerry Ingredients & Flavours reorganisation

This investment programme was aimed at capturing operational synergies associated with the Group's 'go-to-market' strategy. This strategy consolidated sales and sales support centres, realigned research and development centres into centres of excellence and resulted in operational and manufacturing streamlining affecting 22 sites globally (Total: 50 sites over 2 years).

Breeo Foods integration and Consumer Foods plant restructuring

The Breeo Foods integration affected both the acquired business and the Consumer Foods business as the optimal structure was implemented. Consumer Foods also undertook significant restructuring of its other Irish operating facilities due to the current trading environment and the extreme impact of sterling exchange rates on both import and export competitiveness.

Included in the non-trading items detailed above are redundancies and contract compensation of **€59,607,000**, impairment of assets of **€10,744,000** (note 10) and reversal of provisions related to pension schemes of **€8,719,000** (note 21).

Loss on disposal of businesses

The loss on disposal of businesses relates primarily to the disposal of a non-core business in France.

Loss on disposal of non-current assets

The loss on disposal of non-current assets relates to the sale of properties, plant and equipment mainly in the USA.

Incomplete acquisition

In 2008 a provision was created for the deposit and pre-acquisition costs relating to the Breeo Foods acquisition as the High Court decision in relation to the Group's appeal to annul the determination of the Competition Authority of Ireland to prohibit the Group's proposed acquisition of Breeo Foods was outstanding at that stage. In the current year, a judgement in Kerry Group's favour allowed the acquisition to proceed, therefore the provision has been reversed.

On 8 April 2009, the Competition Authority of Ireland served Notice of Appeal against the judgement of the High Court in relation to this matter. Kerry is determined to defend its position and will resist this appeal in the Supreme Court.

Tax

A net tax credit of **€10,555,000** arose on 2009 non-trading items due to tax deductions available on the restructuring, acquisition integration programme and the sale of non-current assets (note 6).

2008 Non-trading items

The gross cost of the 2008 non-trading items was €76,311,000 and after the net tax charge of €685,000, the net cost was €76,996,000. These costs related to the relocation of research and development facilities and the rationalisation of manufacturing facilities in Kerry Ingredients & Flavours, Consumer Foods plant restructuring programme and incomplete acquisition costs in relation to Breeo Foods. 2008 profits related to the disposal of the fragrance business in the USA, a non-core animal feed business in Ireland and property, plant and equipment. The tax charge also included a non-cash deferred tax charge as a result of the withdrawal of UK Industrial Buildings Allowances.

Cash impact

The non-trading items resulted in a net cash outflow (after related tax) of **€9,415,000** (2008: €3,070,000), which includes the reversal of incomplete acquisition costs of **€23,153,000**. The expected cash outflow in 2010 on 2009 non-trading items already provided is estimated to be **€35,482,000**.

5. Finance costs

	2009 €'000	2008 €'000
Interest payable	71,398	82,372
Less amounts included in the cost of qualifying assets	(150)	(1,025)
	71,248	81,347
Interest income on deposits	(1,438)	(3,670)
	69,810	77,677

6. Income taxes

	Notes	2009 €'000	2008 €'000
Recognition in the Consolidated Income Statement			
Current tax expense		43,484	47,647
Adjustments to current tax in respect of prior years		(2,978)	(4,456)
Deferred tax relating to the origination and reversal of temporary differences		10,138	20,189
Income tax expense		50,644	63,380
Included in the above are the following tax (credit)/charge on non-trading items:			
Current tax		(5,426)	5,274
Deferred tax		(5,129)	(4,589)
	4	(10,555)	685

The applicable notional tax rate of **18.7%** (2008: 21.4%) used by the Group is calculated based on the weighted average of the standard tax rates applying to profits earned by the Group in the jurisdictions in which it operates. The variation in the applicable notional tax rate is caused by changes in profits by jurisdiction, as well as changes in local statutory tax rates.

The applicable notional tax rate for the year can be reconciled to the income tax expense as follows:

	2009 €'000	2008 €'000
Profit before taxation	251,866	240,355
Applicable notional tax	47,215	51,520
Adjustments to current and deferred tax in respect of prior years	(1,612)	(5,482)
Income taxed at rates other than standard tax rates	(372)	786
Withholding taxes and other local taxes	3,021	3,571
Income not subject to tax	(5,929)	(7,584)
Withdrawal of UK Industrial Buildings Allowances	–	18,706
Other adjusting items	8,321	1,863
Income tax expense	50,644	63,380

6. Income taxes (continued)

An increase in the Group's applicable tax rate by 1% would reduce profit after tax by €2,519,000 (2008: €2,404,000).

The total tax value of deductible temporary differences which have not been recognised is **€77,900,000** (2008: €16,828,000) consisting mainly of tax losses forward. Unrecognised tax losses with a value of **€6,600,000** (2008: €6,250,000) expire within 5 years, **€4,975,000** (2008: €4,700,000) expire within 9 years, and **€32,800,000** (2008: €nil) expire within 20 years. All other losses may be carried forward indefinitely. A review of recognised temporary differences and tax accruals carried has resulted in a net charge to the Consolidated Income Statement in the year of **€6,237,000**.

Temporary differences have not been recognised in respect of withholding taxes and other taxes that would be payable on the unremitted earnings of foreign subsidiaries, as the Group is in a position to control the timing of the reversal of the temporary differences and it is probable that such differences will not reverse in the foreseeable future.

The following is an analysis of the movement in the major categories of deferred tax liabilities/(assets) recognised by the Group:

<i>Notes</i>	Property, Plant and Equipment €'000	Intangible Assets €'000	Tax Losses and Credits €'000	Retirement Benefits Obligation €'000	Other Temporary Differences €'000	Total €'000
At 1 January 2008	65,157	133,134	(25,737)	(35,287)	(3,101)	134,166

Recognised in shareholders' equity during year	–	–	–	(23,827)	1,211	(22,616)
Related to businesses acquired/disposed	85	717	–	–	(35)	767
Exchange translation adjustment	26	(3,621)	(2,307)	3,814	(457)	(7,675)
At 31 December 2008	86,741	139,431	(44,306)	(41,007)	(16,028)	124,831
Consolidated Income Statement movement	(10,849)	(20,015)	37,415	5,656	(2,069)	10,138
Recognised in shareholders' equity during year	–	–	–	(21,777)	2,091	(19,686)
Related to businesses acquired/disposed	27	31,864	–	–	(126)	31,421
Exchange translation adjustment	26	778	1,289	(223)	(1,618)	710
At 31 December 2009	76,353	151,764	(5,602)	(57,351)	(17,750)	147,414

The other temporary differences recognised in shareholders' equity of **€2,091,000** (2008: €1,211,000) relate to cashflow hedges and unrealised foreign exchange gains.

The following is an analysis of the deferred tax balances (after offset) for balance sheet purposes:

	2009 €'000	2008 €'000
Deferred tax assets	(7,366)	(22,962)
Deferred tax liabilities	154,780	147,793
	147,414	124,831

Factors that may affect the Group's future tax charge include the effects of restructuring, acquisitions and disposals, changes in tax legislation and rates and the use of brought forward tax losses.

7. Profit attributable to Kerry Group plc

In accordance with section 148 (8) of the Companies Act, 1963 and section 7 (1A) of the Companies (Amendment) Act, 1986, the Company is availing of the exemption from presenting its individual profit and loss account to the Annual General Meeting and from filing it with the Registrar of Companies. The Company's profit for the financial year as determined in accordance with IFRS as adopted by the European Union is **€3,727,000** (2008: €93,398,000).

8. Earnings per A ordinary share

	Notes	EPS cent	2009 €'000	EPS cent	2008 €'000
Basic earnings per share					
Profit after taxation and attributable to equity shareholders		115.0	201,222	101.3	176,975
Intangible asset amortisation	11	9.6	16,811	8.5	14,891
Non-trading items (net of related tax)	4	41.9	73,332	44.1	76,996
Adjusted earnings*		166.5	291,365	153.9	268,862
Diluted earnings per share					
Profit after taxation and attributable to equity shareholders		114.9	201,222	101.1	176,975
Adjusted earnings*		166.3	291,365	153.6	268,862

* In addition to the basic and diluted earnings per share, an adjusted earnings per share is also provided as it is considered more reflective of the Group's underlying trading performance. Adjusted earnings is profit after taxation before intangible asset amortisation and non-trading items (net of related tax).

	Number of Shares 2009 000's	Number of Shares 2008 000's
Basic weighted average number of shares for the year	174,989	174,714
Impact of executive share options outstanding	202	301
Diluted weighted average number of shares for the year	175,191	175,015
Actual number of shares in issue as at 31 December	175,164	174,762

9. Dividends

	2009 €'000	2008 €'000
Group and Company:		
Amounts recognised as distributions to equity shareholders in the year		
Final 2008 dividend of 15.60 cent per A ordinary share paid 22 May 2009 (Final 2007 dividend of 13.90 cent per A ordinary share paid 23 May 2008)	27,313	24,251
Interim 2009 dividend of 7.70 cent per A ordinary share paid 20 November 2009 (Interim 2008 dividend of 6.90 cent per A ordinary share paid 21 November 2008)	13,451	12,092
	40,764	36,343

Since the year end the Board has proposed a final 2009 dividend of 17.30 cent per A ordinary share. The payment date for the final dividend will be 14 May 2010 to shareholders registered on the record date as at 16 April 2010. These consolidated financial statements do not reflect this dividend payable.

At 31 December 2009		1,378,350	461,090	32,191	1,871,631

Allocation of the purchase price in a business combination affects the results of the Group as finite life intangible assets are amortised, whereas indefinite life intangible assets, including goodwill, are not amortised. This could result in differing amortisation charges based on the allocation to indefinite life and finite life intangible assets.

Included in the cost of brand related intangibles are intangibles of **€365,189,000** (2008: €265,819,000) which have indefinite lives.

There are no material internally generated brand related intangibles.

11. Intangible assets (continued)

Intangible assets acquired in a business combination are allocated to cash generating units (CGUs) that are expected to benefit from the business acquisition, rather than where the assets are owned. A summary of the allocation of the carrying value of goodwill and indefinite life intangible assets by beneficial region within segment, is as follows:

	Goodwill 2009 €'000	Goodwill 2008 €'000	Indefinite Life Intangibles 2009 €'000	Indefinite Life Intangibles 2008 €'000
Ingredients & Flavours				
EMEA	385,066	360,524	105,418	106,776
Americas	514,431	506,124	159,567	136,896
Asia Pacific	67,665	61,269	10,475	10,560
Consumer Foods				
EMEA	411,188	305,719	89,729	11,587
	1,378,350	1,233,636	365,189	265,819

Some intangibles, which are centrally held and legally owned by Kerry Group Services International Limited, have been allocated above to customers/users of the intellectual property.

The Group tests goodwill and indefinite life intangibles annually for impairment, or more frequently if there are indications they might be impaired. No impairments arose in 2009 or 2008.

The recoverable amounts of the CGUs are determined from value in use calculations. The key assumptions for the value in use calculations are discount rates, growth rates and expected changes to selling price and direct costs during the year.

Management estimate discount rates using pre-tax rates that reflect current market assessments of the time value of money and the risks specific to the CGUs. The discount rate used is between 5% and 10% (2008: 6% and 10%). A higher discount rate is applied to higher risk markets such as South America, while a lower rate is applied to more stable markets such as the USA. A 1% increase in the discount rate would not have resulted in an impairment charge in 2009 or 2008.

Growth rates are based on forecasts in line with assumed long-term industry growth rates ranging from 2% to 7% (2008: 2% to 10%). Generally, lower growth rates are used in mature markets such as Ireland while higher growth rates are used in emerging markets such as Asian countries. A 1% decrease in the growth rate would not have resulted in an impairment charge in 2009 or 2008.

Changes in selling price and direct costs are based on past practices and expectations of future changes in the market.

The Group prepares cash flow forecasts derived from the most recent financial forecasts approved by the Board of Directors. The cash flows are extrapolated for 5 years based on applicable estimated growth rates extended to perpetuity. Key assumptions include management's estimates of future profitability, replacement capital expenditure requirements and working capital investment needs. The duration of the discounted cash flow model is a significant factor in determining the fair value of the CGUs, which has been arrived at after taking account of the Group's strong financial position, its established history of earnings growth and cash flow generation, its proven ability to pursue and integrate value-enhancing acquisitions and the nature of the Ingredients & Flavours and Consumer Foods industries. A 5% decrease in estimated cash flow forecasts would not have resulted in an impairment charge in 2009 or 2008.

Management believes that no reasonable change, in normal circumstances, in any of the above key assumptions would cause the carrying value of any cash generating unit to exceed its recoverable amount.

The Group has no separate individual intangible asset that is material, as all intangibles acquired are integrated and developed within the existing business.

12. a) Financial asset investments

	2009 €'000	2008 €'000
Group:		
Available-for-sale investments at fair value		
At beginning of year	18,486	18,905
Fair value movements	(6,984)	(419)
At end of year	11,502	18,486

The available-for-sale investments represent investments in securities. These investments have no fixed maturity or coupon rate. The fair value of these securities is based on quoted prices.

b) Investments in subsidiaries at cost

	2009 €'000	2008 €'000
Company:		
Investments in subsidiaries at cost		
At beginning of year	638,697	544,946
Additions	39	93,787
Disposals	–	(36)
At end of year	638,736	638,697

During the year, the Company increased its investment in its Indonesian subsidiary. In 2008, the Company increased its investment in US subsidiaries.

13. Inventories

	2009 €'000	2008 €'000
Group:		
Raw materials and consumables	193,744	226,284
Finished goods and goods for resale	233,223	269,993
Expense inventories	17,204	16,511
	444,171	512,788

14. Assets classified as held for sale

	Notes	2009 €'000	2008 €'000
Group:			
Property, plant and equipment	10	3,881	–

In 2009, the Group has classified certain property, plant and equipment in the Americas as assets held for sale. The sales are expected to be completed in 2010. The proceeds on the disposal of these assets is not expected to be less than their carrying amount.

15. Trade and other receivables

	2009 €'000	2008 €'000
Group:		
Trade receivables	522,442	518,979
Less impairment provision for doubtful trade receivables	(26,968)	(22,896)
Trade receivables due within one year	495,474	496,083
Other receivables and prepayments	30,206	40,490
VAT receivable	19,700	18,878
Trade receivables due after one year	1,739	1,571
	547,119	557,022

The following table shows an analysis of trade receivables split between past due and within terms accounts, where past due is deemed to be when an account exceeds the agreed terms of trade.

	2009 €'000	2008 €'000
Within terms	396,508	375,510
Past due not more than 1 month	74,151	93,346
Past due more than 1 month but less than 2 months	16,031	14,588
Past due more than 2 months but less than 3 months	5,392	8,031
Past due more than 3 months	3,392	4,608
Trade receivables, net	495,474	496,083

Trade and other receivables are stated at amortised cost, which approximates to fair value given the short term nature of these assets. Hence, the maximum exposure to credit risk at the reporting date is the carrying value of each class of receivable.

Credit terms and the charging of interest are determined in individual countries. The Group has provided for all receivables where there is objective evidence, based on historical loss experience, that amounts are unrecoverable. The Group does not typically require collateral in respect of trade receivables.

The quality of past due not impaired trade and other receivables is considered good, therefore no significant impairment charge has been recorded in the Consolidated Income Statement in 2009 or 2008.

Before accepting any new customer, the Group uses a credit scoring system to assess the potential customer's credit quality and defines credit limits by customer. These credit limits are reviewed regularly throughout the year.

There is no concentration of credit risk or currency risk with respect to trade receivables, as the Group has a large number of internationally dispersed customers.

16. Trade and other payables

	Group 2009 €'000	Group 2008 €'000	Company 2009 €'000	Company 2008 €'000
Trade payables	747,226	725,190	–	–
Other payables and accruals	144,582	151,682	365	7
Deferred payments on acquisition of subsidiaries	8,575	18,992	6,279	6,324
PAYE	8,102	7,451	–	–
Social security costs	3,959	6,519	–	–
Amounts due to Group companies	–	–	5,313	6,387
	912,444	909,834	11,957	12,718

Trade and other payables are stated at amortised cost, which approximates to fair value given the short term nature of these liabilities.

The above balances are all due within 1 year.

17. Deferred income

<i>Notes</i>	Group 2009 €'000	Group 2008 €'000	Company 2009 €'000	Company 2008 €'000
Capital grants				
At beginning of year	18,073	20,404	254	272
Businesses acquired	5	100	–	–
Disposals/businesses disposed	(301)	(83)	–	–
Grants received	801	845	–	–
Amortised during year	(2,113)	(2,638)	(18)	(18)
Exchange translation adjustment	72	(555)	–	–
At end of year	16,537	18,073	236	254
Analysed as:				
Current liabilities	1,952	2,163	18	18
Non-current liabilities	14,585	15,910	218	236
	16,537	18,073	236	254

There are no material unfulfilled conditions or other contingencies attaching to capital grants received.

18. Other non-current liabilities

	Group 2009 €'000	Group 2008 €'000	Company 2009 €'000	Company 2008 €'000
Other payables and accruals	48,601	42,588	–	–
Deferred payments on acquisition of subsidiaries	12,601	12,289	–	–
Amounts due to Group companies	–	–	76,353	41,050
	61,202	54,877	76,353	41,050

The above balances are all due within 1 to 5 years except for €364,000 (2008: €708,000) of deferred payments on acquisition of subsidiaries which is due after 5 years.

19. Analysis of financial instruments by category

The following table outlines the financial assets and liabilities held by the Group at the balance sheet date.

	Notes	Loans & Receivables & Other Financial Liabilities at Amortised Cost 2009 €'000	Assets/ (Liabilities) at Fair Value through Profit and Loss 2009 €'000	Derivatives Used for Hedging 2009 €'000	Available- for-sale Investments 2009 €'000	Total 2009 €'000

Total net debt	(1,131,594)	18,201	(46,083)	-	(1,159,476)

In 2009 and 2008 all Group borrowings are guaranteed by Kerry Group plc and its material asset holding companies through a cross-guarantee structure. All borrowings are unsecured.

19. Analysis of financial instruments by category (continued)

20. Financial instruments**Capital risk management**

The financing structure of the Group is managed in order to optimise shareholder value while allowing the Group to take advantage of opportunities that might arise to grow the business. The Group targets acquisition and investment opportunities that are value enhancing and the Group's policy is to fund these transactions from cash flow or borrowings while maintaining its investment grade debt status.

The capital structure of the Group consists of financial liabilities, cash and cash equivalents and equity attributable to equity holders of the parent Company, comprising issued capital, reserves and retained earnings as disclosed in the Consolidated Reconciliation of Movements in Shareholders' Equity.

This is managed by setting net debt to earnings before interest, taxes, depreciation and amortisation (EBITDA) targets while allowing flexibility to accommodate significant acquisition opportunities. Any expected variation from these targets should be reversible within 12 to 18 months; otherwise consideration would be given to issuing additional equity in the Group.

Net debt is subject to seasonal fluctuations that can be up to 25% above year end debt levels.

The majority of Group borrowings are subject to financial covenants calculated in accordance with lenders' facility agreements. Principal among these are:

- the ratio of net debt to EBITDA of a maximum of 3.5 times; and
- EBITDA to net interest charge of a minimum of 4.75 times.

At 31 December these ratios were as follows:

	2009 Times	2008 Times
Net debt: EBITDA	2.2	2.3
EBITDA: Net interest	7.8	6.5

As at 31 December 2009 the Group had a firm commitment for the issuance of US\$600,000,000 of senior notes in January 2010. The disclosures on financial risk management below do not take this expected issuance into account. Further information is disclosed in note 31 to the accounts.

20. Financial instruments (continued)**Financial risk management objectives**

The Group has a clearly defined Financial Risk Management Programme, which is approved by the Board of Directors and is subject to regular monitoring by the Finance Committee and Group Internal Auditors. The Group operates a centralised treasury function, which manages the principal financial risks of the Group and Company.

The principal objectives of the Group's Financial Risk Management Programme are:

- to manage the Group's exposure to foreign exchange rate risk;
- to manage the Group's exposure to interest rate risk;
- to ensure that the Group has sufficient credit facilities available; and
- to ensure that counter-party credit risk is monitored and managed.

Residual exposures not managed commercially are hedged using approved financial instruments. The use of financial derivatives is governed by the Group's policies and procedures. The Group does not engage in speculative trading.

(i) Foreign exchange rate risk management

The Group is exposed to transactional foreign currency risk on trading activities conducted by subsidiaries in currencies other than their functional currency. Group policy is to manage foreign currency exposures commercially and through netting of exposures wherever possible. Any residual exposures arising on foreign exchange transactions are hedged in accordance with Group policy using approved financial instruments, which consist primarily of spot and forward exchange contracts and currency swaps.

The table below shows the Group's currency exposures which consists of those transactional (or non-structural) exposures that give rise to the net currency gains and losses recognised in the Consolidated Income Statement. These exposures comprise the monetary assets and liabilities of the Group not denominated in the operating (or functional) currency of the operating unit involved, other than certain borrowings which are borrowed in the same currency as the investment in the overseas operation. As at 31 December these exposures were as follows:

	Net Foreign Currency Monetary Assets/(Liabilities) in €'000							
	Euro 2009	Sterling 2009	US Dollar 2009	Other 2009	Euro 2008	Sterling 2008	US Dollar 2008	Other 2008
Functional currency of Group operation								
Euro	–	1,247	28,188	3,214	–	14,483	12,584	1,825
Sterling	(53)	–	(2,479)	(560)	168	–	3,330	(566)
US Dollar	(162)	–	–	(3)	19	–	–	66
Other	(1,805)	(172)	11,279	726	3,390	88	4,803	1,137
Total	(2,020)	1,075	36,988	3,377	3,577	14,571	20,717	2,462

The amounts shown in the above table take into account the effect of forward contracts entered into to manage currency exposures. As at 31 December 2009 the Group held various open foreign currency forward contracts that were undertaken to hedge expected future transactions. Based on these net positions, as at 31 December 2009, a weakening of 5% of the US dollar and sterling against all other key operational currencies, and holding all other items constant, would have impacted the Group's profit before taxation for the year by €1,900,000 (2008: €1,800,000).

The Group's exposure on the retranslation of the net assets of foreign currency subsidiaries is taken directly to the translation reserve. As at 31 December 2009 a 5% strengthening of the Euro against the US dollar and sterling, holding all other items constant would have resulted in an additional translation reserve loss of €5,000,000 (2008: €10,000,000) and €15,000,000 (2008: €12,000,000) respectively.

Forward foreign exchange contracts

The Group's activities expose it to risks of changes in foreign currency exchange rates in relation to international trading, primarily sales in US dollar and sterling out of the Eurozone. The Group uses forward foreign exchange contracts to hedge these exposures. Derivative financial instruments are held in the Consolidated Balance Sheet at their fair value.

	Fair Value (Liability)/Asset		Notional Principal	
	2009 €'000	2008 €'000	2009 €'000	2008 €'000
Forward foreign exchange contracts	(39)	12,289	76,000	86,000

20. Financial instruments (continued)*(i) Foreign exchange rate risk management (continued)**Forward foreign exchange contracts (continued)*

At 31 December 2009 a liability of **€120,000** (2008: an asset of €8,590,000) of the fair value is included in the hedging reserve, which will be released to the Consolidated Income Statement within 6 months (2008: 6 months) of the balance sheet date. All forward contracts relate to sales revenue made in their respective currencies.

During 2009, an amount of **€8,611,000** (2008: €10,622,000) has been credited to general overheads in the Consolidated Income Statement in respect of forward foreign exchange contracts that matured during the year. There were no transactions during 2009 or 2008 which were designated as hedges that did not occur, nor are there hedges on forecast transactions that are no longer expected to occur.

The gains and losses in shareholders' equity on forward foreign exchange contracts as at 31 December 2008 were released to the Consolidated Income Statement in 2009 as follows:

- within 3 months: **€5,458,000** (2008: €3,275,000);
- within 3 to 6 months: **€3,132,000** (2008: €nil); and
- within 6 to 12 months: **€nil** (2008: €nil).

At 31 December 2009 and 2008 no ineffectiveness was recognised in the Consolidated Income Statement from foreign currency cash flow hedges.

(ii) Interest rate risk management

The Group is exposed to interest rate risk as the Group holds borrowings on both a fixed and floating basis. This exposure to interest rate risk is managed by optimising the mix of fixed and floating rate borrowings and by using interest rate swaps and forward rate agreements to hedge these exposures. Derivative financial instruments are held in the Consolidated Balance Sheet at their fair value.

Interest rate profile of financial liabilities excluding related derivatives fair value

The Group's exposure to interest rates on financial assets and liabilities are detailed in the table below:

	Floating Rate Debt €'000	Fixed Rate Debt €'000	Total €'000
Euro	499,612	–	499,612
Sterling	118,957	–	118,957
US Dollar	79,551	368,056	447,607
Others	65,418	–	65,418
At 31 December 2009	763,538	368,056	1,131,594
Euro	490,279	–	490,279
Sterling	121,811	–	121,811
US Dollar	64,009	381,295	445,304
Others	76,257	–	76,257
At 31 December 2008	752,356	381,295	1,133,651

The weighted average interest rate for fixed borrowings was **6.33%** (2008: 6.17%) and the weighted average period for which the rate was fixed was **1.3 years** (2008: 2.3 years).

The floating rate financial liabilities are at rates which fluctuate mainly based upon LIBOR and comprise bank borrowings and other financial liabilities bearing interest rates fixed in advance for periods ranging from 1 to 6 months. At the year end **67%** (2008: 66%) of debt was held at floating rates. If the interest rates applicable to floating rate debt were to rise by 1% over the year to December 2010 the net finance charge of the Group before taxation could increase by 14% (2008: 13%).

Interest rate swap contracts

The Group's activities expose it to risks of changes in interest rates in relation to long-term debt. The Group uses interest rate swaps and forward rate agreements to hedge these exposures. Derivative financial instruments are held in the Consolidated Balance Sheet at their fair values.

Certain short term interest rate derivatives whereby the Group receives floating interest rates and pays fixed interest rates, which provide an economic hedge of interest rate liabilities are classified as trading derivatives and held at fair value through profit or loss. As at 31 December 2009 these contracts had a fair value of **€1,909,000** (2008: €nil), with a notional value of **€580,075,000** (2008: €nil), an average contracted fixed interest rate of **1.70%** and expire within 6 months.

All other interest rate derivatives are accounted for using hedge accounting.

20. Financial instruments (continued)*(ii) Interest rate risk management (continued)**Cash flow hedges*

Under interest rate swap contracts, the Group agrees to exchange the difference between the fixed and floating rate interest amounts calculated on the agreed notional principal amounts.

The following table details the notional principal amounts and remaining terms of the cash flow hedges, where the Group receives floating interest rate and pays fixed interest rate on swaps as at 31 December:

	Average Contracted Fixed Interest Rate		Fair Value Asset/(Liability)		Notional Principal	
	2009 %	2008 %	2009 €'000	2008 €'000	2009 €'000	2008 €'000
Interest rate swap contracts						
less than 1 year	-	3.98	-	1,574	-	427,219
1 – 2 years	5.44	-	(23,691)	-	347,222	-
2 – 5 years	-	5.44	-	(31,426)	-	359,712
> 5 years	4.38	-	(2,282)	-	63,889	-
Total			(25,973)	(29,852)		

The gain or loss relating to the effective portion of interest rate swaps is recognised in the Consolidated Income Statement within finance costs.

The interest rate swaps settle on either a 3 or 6 monthly basis, the difference between the floating rate due to be received and the fixed rate to be paid are settled on a net basis. Where interest rate swaps had a maturity of less than 6 months at the balance sheet date, the underlying hedged debt is disclosed as floating rate debt. At 31 December 2009, this amounted to **€nil** (2008: €427,219,000).

During 2009 and 2008 no amount was recognised in the Consolidated Income Statement in relation to hedge ineffectiveness recognised in interest rate swap cash flow hedges during the year. All hedges are deemed to be highly effective on a prospective and retrospective basis.

Fair value hedges

Under interest rate swap contracts, the Group agrees to exchange the difference between the floating and fixed interest amounts calculated on the agreed notional principal amounts.

The following table details the notional principal amounts and remaining terms of the fair value hedges, where the Group receives fixed interest rate and pays floating interest rate on swaps as at 31 December:

	Average Contracted Fixed Interest Rate		Fair Value Asset/(Liability)		Notional Principal	
	2009 %	2008 %	2009 €'000	2008 €'000	2009 €'000	2008 €'000
Interest rate swap contracts						
> 5 years	4.91	-	(20,110)	-	283,333	-

The interest rate swaps settle on a 6 monthly basis. The floating interest rate paid by the Group is based on 6 month EURIBOR.

The interest rate swaps are forward starting swaps for a firm commitment of the Group to undertake a senior notes issuance in January 2010. Further information is disclosed in note 31. During the period the forward starting interest rate swaps were 100% effective in hedging the fair value exposure to interest rate movements and as a result the carrying amount of the firm commitment for the new senior notes was adjusted by an equal amount and included in profit or loss during the year. The fair value adjustment of **€20,110,000** has been included within borrowings and overdrafts. The adjustment is categorised in note 19 under assets/(liabilities) at fair value through the profit or loss.

20. Financial instruments (continued)*(iii) Liquidity risk management*

Liquidity risk considers the risk that the Group could encounter difficulties in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

Group funding and liquidity is managed by ensuring that sufficient facilities are available from diverse funding sources with an appropriate spread of debt maturities to match the underlying assets. The Group uses cash flow forecasts to constantly monitor the funding requirements of the Group.

Group businesses are funded from cash generated from operations, borrowings from banks and senior notes from capital markets. It is Group policy to ensure that:

- sufficient facilities are available to cover its gross forecast debt by at least 1.25 times; and
- 75% of total facilities available are committed.

Both targets were met at 31 December 2009 and 2008.

Funding is sourced from banks via syndicated and bilateral arrangements and from institutional investors.

All Group credit facilities are arranged and managed by Group treasury and approved by the Board of Directors. Where possible, facilities have common security, financial covenants and terms and conditions.

The following table details the Group's remaining contractual maturity of its non-derivative financial instruments excluding trade & other receivables and trade & other payables which have a maturity of under 1 year. This information has been drawn up based on the undiscounted cash flows of financial liabilities to the earliest date on which the Group can be required to repay. The analysis includes both interest rate and principal cash flows. To the extent that interest rates are floating, the rate used is derived from interest rate yield curves at the end of the reporting date.

	On demand & up to 1 year €'000	Up to 2 years €'000	2 – 5 years €'000	> 5 years €'000	Total €'000

At 31 December 2008	106,440	374,737	808,061	249,627	1,538,865

20. Financial instruments (continued)*(iii) Liquidity risk management (continued)*

The following table details the Group's remaining contractual maturity of its derivative financial instruments. The table has been drawn up based on the undiscounted net cash inflows and outflows on derivative instruments that settle on a net basis. To the extent that the amount payable or receivable is not fixed, the rate used is derived from interest rate yield curves at the end of the reporting date.

	On demand & up to 1 year €'000	Up to 2 years €'000	2 – 5 years €'000	> 5 years €'000	Total €'000
Interest rate swaps (outflow)/inflow	(8,762)	7	10,190	17,683	19,118
Forward foreign exchange contracts outflow	(39)	–	–	–	(39)
At 31 December 2009	(8,801)	7	10,190	17,683	19,079
Interest rate swaps outflow	(12,236)	(11,515)	(3,838)	–	(27,589)
Forward foreign exchange contracts inflow	12,289	–	–	–	12,289
At 31 December 2008	53	(11,515)	(3,838)	–	(15,300)

*Summary of borrowing arrangements**(a) Bank loans*

Bank loans comprise committed term loan facilities, committed revolving credit facilities, bilateral term loans and other uncommitted facilities:

- Demand facilities;
- Syndicate revolving credit facilities maturing within 3 years;
- Bilateral term loans with maturities ranging from 1 to 2 years; and
- Syndicate term loans with maturities ranging from 2 to 3 years.

(b) Senior notes

The Group placed senior notes with US institutional investors in three tranches with maturity as follows:

- Tranche A – maturing on 30 April 2010
- Tranche B – maturing on 30 April 2013
- Tranche C – maturing on 30 April 2015

Both the committed syndicate facilities and the senior notes have financial covenants attached to them. The Group was in full compliance with these covenants as at 31 December 2009 and 2008.

The following table details the Group's non-derivative financial assets all of which are available on demand and have no fixed interest return:

	2009 €'000	2008 €'000
Cash and cash equivalents	270,011	195,818
Available-for-sale investments	11,502	18,486
	281,513	214,304

(iv) Credit risk management

Cash deposits and other financial instruments give rise to credit risk on the amounts due from counter-parties.

The Group controls and monitors the distribution of this exposure by ensuring that all financial instruments are held with reputable and financially secure institutions and that exposure to credit risk is distributed across a number of institutions. At 31 December 2009 and 2008 all cash, short-term deposits and other liquid investments had a maturity of less than 3 months.

Credit risk is actively managed across the portfolio of institutions by ensuring that material surplus funds are placed with counter-parties that are either covered by Government guarantee schemes or have a credit rating of at least AA.

The Group's exposure to its counter-parties is continuously monitored and the aggregate value of transactions entered into is spread amongst approved counter-parties.

Trade receivables consist of a large number of customers, spread across diverse geographical areas. Ongoing credit evaluation is performed on the financial condition of accounts receivable at operating unit level at least on a monthly basis.

(v) Price risk

The Group's exposure to equity securities price risk due to financial asset investments held is considered to be low as the level of securities held versus the Group's net assets is not material.

20. Financial instruments (continued)*(vi) Fair value of financial instruments*

The fair value of financial assets and liabilities are determined as follows:

- assets and liabilities with standard terms and conditions and traded on active liquid markets are determined with reference to quoted market prices;
- other financial assets and liabilities (excluding derivatives) are determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions and dealer quotes for similar instruments; and
- derivative financial instruments are calculated using quoted prices. Where such prices are not available, a discounted cash flow analysis is performed using the applicable yield curve for the duration of the instruments. Forward foreign exchange contracts are measured using quoted forward exchange rates and yield curves derived from quoted interest rates matching maturities of the contracts. Interest rate swaps are measured at the present value of future cash flows estimated and discounted based on the applicable yield curves derived from quoted interest rates.

(a) Fair value of financial instruments carried at amortised cost

	Carrying Amount 2009 €'000	Fair Value 2009 €'000	Carrying Amount 2008 €'000	Fair Value 2008 €'000

(b) Fair value of financial instruments recognised in the Consolidated Balance Sheet

Financial instruments recognised at fair value are analysed between those based on:

- quoted prices in active markets for identical assets or liabilities (Level 1);
- those involving inputs other than quoted prices included in Level 1 that are observable for the assets or liabilities, either directly (as prices) or indirectly (derived from prices) (Level 2); and
- those involving inputs for the assets or liabilities that are not based on observable market data (unobservable inputs) (Level 3).

Insurance

The insurance provision represents amounts provided in respect of claims that are classified as incurred but not reported and are covered by the Group's self insurance schemes.

Non-trading items

Restructuring provisions related to non-trading items as detailed in note 4. The majority of which relates to redundancy and contract compensation owing to people who are in the process of transitioning out of the business and is expected to be spent in the first half of 2010.

Other

These provisions relate primarily to the present value of costs associated with pension schemes relating to businesses that were restructured. The movement in this provision was recorded in non-trading items in the Consolidated Income Statement as detailed in note 4.

22. Retirement benefits obligation

The Group operates post-retirement benefit plans in a number of its businesses throughout the world. These plans are structured to accord with local conditions and practices in each country they operate in and can include both defined contribution and defined benefit plans. The assets of the schemes are held, where relevant, in separate trustee administered funds.

(a) Recognition in the Consolidated Income Statement

The following amounts have been recognised in the Consolidated Income Statement in relation to defined benefit and defined contribution post-retirement plans:

<i>Notes</i>	Pension 2009 €'000	Post-Retirement Medical 2009 €'000	Pension 2008 €'000	Post-Retirement Medical 2008 €'000
Current service cost relating to defined contribution schemes	16,115	–	15,621	–
Current service cost relating to defined benefit schemes	9,531	185	16,014	332
Total current service cost	25,646	185	31,635	332
Past service cost	364	(1,463)	(9,110)	1,114
Expected return on pension schemes' assets	(31,986)	–	(50,257)	–
Interest on schemes' liabilities	40,400	619	44,103	725
Curtailement/settlement gains	(736)	–	(7,854)	(822)
Settlement (gains)/losses arising from withdrawal from multi employer plans	(8,719)	–	18,692	–
Included in staff costs	24,969	(659)	27,209	1,349

In 2009 and 2008, certain one-off post-retirement (gains)/losses arose due to the restructuring of the Group's businesses as outlined in note 4 and due to restructuring of the Group's post-retirement benefit schemes.

(b) Additional disclosures relating to defined benefit plans

The Group operates defined benefit post-retirement schemes in a number of countries in which it operates, primarily in Ireland, the UK, the USA, Canada and the Netherlands. The defined benefit plans operated by the Group mostly include final salary pension plans but also include career average salary pension plans and post-retirement medical plans. The post-retirement medical plans are in respect of a number of the Group's US and Canadian employees.

The values used in the Group's financial statements are based on the most recent actuarial valuations and have been updated by the individual schemes' independent and professionally qualified actuaries to incorporate the requirements of IAS 19 'Employee Benefits' in order to assess the liabilities of the various schemes as at 31 December 2009 using the projected unit credit method. All assets in the schemes have been measured at their fair value at the balance sheet date.

Full actuarial valuations for funding purposes are carried out for the Group's pension plans in line with local requirements. The actuarial reports are not available for public inspection.

22. Retirement benefits obligation (continued)*(i) Financial and demographic assumptions*

The principal financial assumptions used by the Group's actuaries in order to calculate the post-retirement benefit schemes' liabilities at 31 December, which have been shown in range format to reflect the differing assumptions in each scheme, were as follows:

	2009 %	2008 %
Inflation assumption	2.00 – 3.20	1.75 – 2.80
Rate of increase in salaries	3.00 – 5.00	2.75 – 3.80
Rate of increase for pensions in payment and deferred pensions	2.00 – 3.20	1.75 – 2.80
Rate used to discount schemes' liabilities	5.70 – 6.00	5.85 – 6.50

The most significant demographic assumption is mortality. The mortality assumptions used are based on advice from the pension schemes' actuaries and reflect each scheme's population. The life expectancy of a member retiring at 31 December at age 65, which has been shown in range format to reflect the differing assumptions in each scheme, is as follows:

	2009 Years	2008 Years
Male	18 – 21	18 – 20
Female	21 – 24	21 – 23

The expected rates of return for each of the categories of schemes' assets are determined based on current market long term expectations for such rates and input from investment advisors. The rates of return on equities and property are based on current long term government bond yields (approximating risk free rates) plus an appropriate risk premium. The long term rates of return on bond and cash investments are set in line with market yields currently available at the balance sheet date. The overall expected rate of return for each scheme is calculated by weighting the expected return on each category of asset by the anticipated balance in that asset category during the year in accordance with the scheme's investment strategy. The long term rates of return on each class of the pension schemes' assets expected at 31 December, shown as a range to reflect the differing returns in each scheme, were as follows:

	2009 %	2008 %
Equities	7.30 – 8.10	7.10 – 8.70
Bonds	3.70 – 6.00	3.75 – 6.00
Property	7.40	6.90
Other	0.50 – 8.50	2.00 – 5.90
Overall expected return on pension schemes' assets	4.00 – 7.60	4.00 – 7.30

There are inherent uncertainties surrounding the financial and demographic assumptions adopted by the Group. The assumptions may differ from the actual data as a result of changes in economic and market conditions as well as the actual experience within each scheme. The present value of post-retirement benefit schemes' liabilities is heavily dependent on the discount rate. As the discount rate is based on a market driven measure, which is the interest yield on high quality corporate bonds at the balance sheet date, the present value of post-retirement benefit schemes' liabilities can fluctuate significantly from valuation to valuation. In relation to demographic assumptions, differing expectations regarding current and future changes in mortality rates can have a significant impact on schemes' liabilities.

As an indication of the impact of changes in assumptions on the Group's schemes, an increase/(decrease) of 25 basis points in discount rates would result in a (decrease)/increase respectively of approximately 4.5% in the schemes' liabilities holding all other assumptions constant and likewise, an increase in life expectancy of 1 year would result in an increase of approximately 2.5% in the schemes' liabilities.

22. Retirement benefits obligation (continued)*(ii) Recognition in the Consolidated Statement of Recognised Income and Expense*

The following amounts, in relation to defined benefit plans, have been recognised in the Consolidated Statement of Recognised Income and Expense:

	Pension 2009 €'000	Post-Retirement Medical 2009 €'000	Pension 2008 €'000	Post-Retirement Medical 2008 €'000
Actual return less expected return on pension schemes' assets	45,335	–	(215,196)	–
Experience (losses)/gains on schemes' liabilities	(5,560)	957	(16,491)	(80)
Changes in assumptions underlying the present value of the schemes' liabilities*	(110,988)	(791)	114,108	(454)
Actuarial (losses)/gains recognised in the Consolidated Statement of Recognised Income and Expense	(71,213)	166	(117,579)	(534)
Cumulative amount of actuarial (losses)/gains recognised in the Consolidated Statement of Recognised Income and Expense	(180,747)	2,198	(109,534)	2,032
Actual return on schemes' assets for the year	77,321	N/A	(164,939)	N/A

* In 2009, the loss arising from changes in assumptions underlying the present value of the schemes' liabilities primarily related to the UK schemes resulting from a decrease in the discount rate and an increase in the inflation rate. The assumed rates of life expectancy in Ireland and the UK were further strengthened in 2009. In 2008, the main changes in assumptions underlying the present value of the schemes' liabilities were increases in the prevailing discount rates and decreases in long term inflation expectations (and consequent decreases in salary rate and pension increase rate expectations) in both Ireland and the UK. Members' expected longevity was also improved in 2008 in a number of smaller schemes.

(iii) Reconciliations for defined benefit plans

The movements in the defined benefit schemes' obligation during the year were:

	Pension 2009 €'000	Post-Retirement Medical 2009 €'000	Pension 2008 €'000	Post-Retirement Medical 2008 €'000
Present value of schemes' liabilities at beginning of year	(639,526)	(10,676)	(805,731)	(8,850)
Current service cost	(9,531)	(185)	(16,014)	(332)
Past service cost	(133)	1,888	9,325	(1,114)
Interest on schemes' liabilities	(40,400)	(619)	(44,103)	(725)
Curtailment/settlement gains	736	–	7,854	822
Contributions by employees	(8,999)	(172)	(9,201)	(172)
Benefits paid	40,067	683	23,483	771
Actuarial (losses)/gains	(116,548)	166	97,617	(534)
Impact of businesses acquired/disposed and other movements	(1,109)	–	(217)	–
Exchange translation adjustment	(16,464)	318	97,461	(542)
Present value of schemes' liabilities at end of year	(791,907)	(8,597)	(639,526)	(10,676)
Present value of schemes' liabilities at end of year that relates to:				
Wholly unfunded plans	(12,555)	(8,597)	(5,810)	(10,676)
Wholly or partly funded plans	(779,352)	–	(633,716)	–
	(791,907)	(8,597)	(639,526)	(10,676)

22. Retirement benefits obligation (continued)*(iii) Reconciliations for defined benefit plans (continued)*

The movements in the schemes' assets during the year were:

	Pension 2009 €'000	Post-Retirement Medical 2009 €'000	Pension 2008 €'000	Post-Retirement Medical 2008 €'000
Fair value of assets in plans at beginning of year	492,786	–	699,997	–
Expected return on pension schemes' assets	31,986	–	50,257	–
Contributions by employer	50,572	511	47,779	599
Contributions by employees	8,999	172	9,201	172
Benefits paid	(40,067)	(683)	(23,483)	(771)
Actuarial gains/(losses)	45,335	–	(215,196)	–
Impact of businesses acquired/disposed and other movements	426	–	1,537	–
Exchange translation adjustment	14,381	–	(77,306)	–
Fair value of assets in plans at end of year	604,418	–	492,786	–

The fair values of each of the categories of the pension schemes' assets at 31 December were as follows:

	Pension 2009 €'000	Pension 2008 €'000
Equities	395,058	279,903
Bonds	177,407	181,742
Property	9,489	12,196
Other	22,464	18,945
Total fair value of pension schemes' assets	604,418	492,786

The schemes' assets are invested with professional investment managers or in insurance contracts. Investments in the Group's own financial instruments, if any, are solely at the discretion of the investment managers concerned.

During the year ending 31 December 2010, the Group expects to make contributions of approximately €52,000,000 in relation to its defined benefit plans.

(iv) Amounts recognised in the Consolidated Balance Sheet

The Group's net defined benefit post-retirement schemes' deficit at 31 December, which has been recognised in the Consolidated Balance Sheet, was as follows:

	Pension 2009 €'000	Post- Retirement Medical 2009 €'000	Total 2009 €'000	Pension 2008 €'000	Post- Retirement Medical 2008 €'000	Total 2008 €'000
Present value of schemes' liabilities	(791,907)	(8,597)	(800,504)	(639,526)	(10,676)	(650,202)
Fair value of assets in plans	604,418	–	604,418	492,786	–	492,786
Net deficit	(187,489)	(8,597)	(196,086)	(146,740)	(10,676)	(157,416)
Unrecognised past service cost	2,139	(413)	1,726	2,370	–	2,370
Net recognised deficit in plans before deferred tax	(185,350)	(9,010)	(194,360)	(144,370)	(10,676)	(155,046)
Net related deferred tax asset	49,477	3,500	52,977	35,088	4,364	39,452
Net recognised deficit in plans after deferred tax	(135,873)	(5,510)	(141,383)	(109,282)	(6,312)	(115,594)

22. Retirement benefits obligation (continued)*(v) Historical information*

The history of the net deficit and experience gains and losses in the defined benefit schemes for the current and four previous years at 31 December are as follows:

	2009 €'000	2008 €'000	2007 €'000	2006 €'000	2005 €'000
Defined benefit pension schemes					
Present value of schemes' liabilities	(791,907)	(639,526)	(805,731)	(855,198)	(846,366)
Fair value of plans' assets	604,418	492,786	699,997	686,834	611,046
Net deficit in defined benefit pension plans	(187,489)	(146,740)	(105,734)	(168,364)	(235,320)
Experience (losses)/gains on schemes' liabilities	(5,560)	(16,491)	1,105	3,563	594
Experience gains/(losses) on schemes' assets	45,335	(215,196)	(41,330)	4,761	51,657
Defined benefit post-retirement medical schemes					
Present value of schemes' liabilities	(8,597)	(10,676)	(8,850)	(11,905)	(13,783)
Experience gains/(losses) on schemes' liabilities	957	(80)	1,957	1,352	(46)
Total defined benefit schemes					
Net recognised deficit in plans after deferred tax	(141,383)	(115,594)	(75,888)	(122,147)	(178,641)

23. Share capital

	2009 €'000	2008 €'000
Group and Company:		
Authorised		
280,000,000 A ordinary shares of 12.50 cent each	35,000	35,000
Allotted, called-up and fully paid (A ordinary shares of 12.50 cent each)		
At beginning of year	21,845	21,836
Shares issued during year	50	9
At end of year	21,895	21,845

The Company has one class of ordinary share which carries no right to fixed income.

Shares issued

During 2009 a total of **307,070** A ordinary shares were issued each with a nominal value of 12.50 cent, of which 106,070 were issued at €13.42 per share and a further 201,000 were issued at €8.00 per share to executives in the Group under the Executive Share Option Scheme. Also, **95,296** A ordinary shares, each with a nominal value of 12.50 cent, were issued at nominal value per share to executives in the Group under the Long Term Incentive Plan (LTIP).

During 2008, 16,500 A ordinary shares, each with a nominal value of 12.50 cent, were issued at €8.00 per share to executives in the Group under the Executive Share Option Scheme. Also, 55,550 A ordinary shares, each with a nominal value of 12.50 cent, were issued at €13.42 per share to executives in the Group under the Executive Share Option scheme.

The total number of shares in issue at 31 December 2009 was **175,164,051** (2008: 174,761,685).

Share buy back programme

At the 2009 Annual General Meeting shareholders passed a resolution authorising the Company to purchase up to 5% of its own issued share capital which was not exercised in the year. In 2008 no shares were purchased under this programme.

24. Share-based payments**(a) Executive Share Option Scheme**

	<i>Notes</i>	Number of Share Options 2009	Weighted Average Exercise Price 2009 €	Number of Share Options 2008	Weighted Average Exercise Price 2008 €
Outstanding at beginning of year		656,760	10.58	731,810	10.75
Exercised	23	(307,070)	9.87	(72,050)	12.18
Forfeited		–	–	(3,000)	13.42
Outstanding and exercisable at end of year		349,690	11.20	656,760	10.58

Details of the Executive Share Option Scheme are given in the Report of the Directors. Options are equity settled and are exercisable at a price equal to the average quoted market price of the Company's shares at the date of grant. The earliest exercisable date for all share options was 30 June 2000 and the latest exercisable date is 1 October 2010.

The exercise price range for options outstanding at the end of the year is **€8.00 – €13.42** (2008: €8.00 – €13.42). The remaining weighted average contractual life of the options is **0.75 years** (2008: 1.25 years).

(b) Long Term Incentive Plan

The Group operates an equity settled Long Term Incentive Plan (LTIP), under which an invitation to participate was made to executive Directors and senior executives. These invitations were made on two occasions to date, once in July 2006 and again in March 2009. The proportion of each invitation which vests will depend on the Total Shareholder Return (TSR) and Earnings Per Share (EPS) performance of the Group during a three year period ("the performance period"). A proportion of invitations made in 2006 vested during 2009 and the invitations made in 2009 will potentially vest in 2012 if the targets set are achieved.

Up to 50% of the shares subject to an invitation will vest according to the Group's TSR performance during the performance period measured against the TSR performance of a peer group of listed companies. The remaining 50% of the shares subject to an invitation will vest according to the Group's adjusted EPS growth compared with the increase in the Irish Consumer Price Index during the performance period. An invitation may lapse if a participant ceases to be employed within the Group before the vesting date.

A summary of the status of the LTIP as at 31 December and the changes during the year is presented below:

	Number of Conditional Awards 2009	Number of Conditional Awards 2008
Outstanding at beginning of year	1,076,792	1,135,500
Forfeited	(69,621)	(58,708)
Lapsed	(785,724)	–
Shares vested	(54,847)	–
Share options	(166,600)	–
New conditional awards	200,793	–
Outstanding at end of year	200,793	1,076,792
Exercisable at end of year	–	–

24. Share-based payments (continued)

	Number of Share Options 2009	Number of Share Options 2008
Share options arising under the LTIP		
Outstanding at beginning of year	–	–
Vested under the LTIP scheme	166,600	–
Exercised	(40,449)	–
Outstanding and exercisable at end of year	126,151	–

Share options awarded under the LTIP scheme have an exercise price of 12.5 cent.

The remaining life for share options outstanding is **6.75 years** (2008: nil).

The fair value per award and the assumptions used in the calculations are as follows:

	2009 Conditional Award at Grant Date	2006 Conditional Award at Grant Date
Share price at grant date	€14.30	€15.90
Exercise price per share	€0.125	€0.125
Expected volatility	31.1%	16.3%
Expected life	3 years	3 years
Risk free rate	2.0%	3.6%
Expected dividend yield	1.0%	1.0%
Expected forfeiture rate	5.0%	5.0%
Weighted average fair value at grant date	€12.16	€6.24
Valuation model	Monte Carlo Pricing	Monte Carlo Pricing

Expected volatility was determined by calculating the historical volatility of the Group's share price over the previous 3 years. Market based vesting conditions, such as the TSR condition, have been taken into account in establishing the fair value of equity instruments granted.

Non-market based performance conditions, such as the EPS condition, were not taken into account in establishing the fair value of equity instruments granted, however the number of equity instruments included in the measurement of the transaction is adjusted so that the amount recognised is based on the number of equity instruments that eventually vest.

The Group recognised an expense of **€691,000** (2008: credit of €1,491,000) related to equity-settled share-based payment transactions in the Consolidated Income Statement during the year. The expectation of meeting performance criteria was taken into account when calculating this expense/(credit).

25. Analysis of cash flow components

The components of net cash flow from operating activities can be analysed as follows:

	<i>Notes</i>	Group 2009 €'000	Group 2008 €'000	Company 2009 €'000	Company 2008 €'000
Depreciation (net)					
Depreciation	10	99,360	96,662	199	199
Capital grants amortisation	17	(2,113)	(2,638)	(18)	(18)
		97,247	94,024	181	181
Change in working capital					
Decrease/(increase) in inventories		95,831	(11,459)	–	–
Decrease/(increase) in trade and other receivables		66,395	(1,545)	–	20,410
(Decrease)/increase in trade and other payables		(30,479)	33,257	35,431	15,881
Long term incentive plan expense/(credit)	24	691	(1,491)	691	(1,491)
		132,438	18,762	36,122	34,800

26. Effect of exchange translation adjustments

	<i>Notes</i>	2009 €'000	2008 €'000
Group:			
Decrease/(increase) in assets			
Property, plant and equipment	10	18,051	(59,922)
Intangible assets	11	32,352	(118,782)
Inventories		9,381	(25,840)
Trade and other receivables		16,847	(52,143)
Cash and cash equivalents		4,128	(13,536)
(Increase)/decrease in liabilities			
Trade and other payables		(23,967)	57,401
Tax liabilities		(1,551)	5,154
Financial liabilities		(8,707)	43,832
Retirement benefits obligation		(1,753)	19,613
Other non-current liabilities		(6,740)	1,061
Deferred tax liabilities	6	(710)	7,675
Provisions for liabilities and charges	21	(1,853)	–
Deferred income	17	(72)	555
Retained earnings		4,203	(5,106)
		39,609	(140,038)

The above exchange translation adjustments arise primarily on the retranslation of the Group's opening net investment in its foreign currency subsidiaries.

27. Business combinations

During 2009, the Group completed eight bolt on acquisitions, all of which were 100% acquired. The total consideration for acquisitions amounted to **€276,890,000** analysed as follows:

	Notes	Acquiree's Carrying Amount Before Combination 2009 €000	Fair Value Adjustment		Fair Value 2009 €000
			Revaluations 2009 €000	Alignment of Accounting Policies 2009 €000	
Net assets acquired:					
<i>Non-current assets</i>					
Property, plant and equipment	10/17	39,743	(5,387)	–	34,356
Brand related intangibles	11	5,004	137,796	–	142,800
Computer software	11	–	416	–	416
<i>Current assets</i>					
Inventories		19,698	–	(1,515)	18,183
Trade and other receivables		52,980	–	(1,575)	51,405
<i>Current liabilities</i>					
Trade and other payables		(43,630)	–	(8,708)	(52,338)
<i>Non-current liabilities</i>					
Deferred tax liabilities		–	(31,421)	–	(31,421)
Other non-current liabilities		(1,822)	–	–	(1,822)
		71,973	101,404	(11,798)	161,579
Goodwill	11				115,311
					276,890
Purchase consideration:					
Cash					268,305
Deferred payments					2,090
Acquisition expenses					6,495
					276,890

The acquisition method of accounting has been used to consolidate the businesses acquired in the Group's financial statements. Since the valuation of the fair value of assets and liabilities recently acquired is still in progress, the above values are determined provisionally. Historically adjustments to prior year fair values are not material. The cash discharged figure above includes **€1,003,000** of net cash taken over at the date of acquisition.

The goodwill is attributable to the expected profitability, revenue growth, future market development and assembled workforce of the acquired businesses and the synergies expected to arise within the Group after the acquisition.

The principal acquisitions completed during 2009 are summarised as follows:

The acquisition of Breeo Foods from Reox Holdings plc was completed in March 2009 following the High Court's decision to annul the Determination of the Competition Authority of Ireland to prohibit the Group's proposed acquisition of Breeo Foods. The acquired business includes a portfolio of leading added-value dairy and meat product brands which are household names in Ireland, including Dairygold, Galtee, Shaws and Roscrea.

In March 2009, the Group acquired Dera Holding NV. Dera is a savoury ingredients business serving meat, convenience foods and snack markets in Europe. The business, headquartered in Bornem, Belgium, has manufacturing facilities in Belgium, the UK and the Czech Republic and also has sales offices in Russia, Ukraine, Turkey and France with a growing presence in Middle Eastern markets.

In January 2009, the Group acquired Prima S.A. Located in San Jose, Costa Rica, Prima is a leading supplier of meat and culinary ingredients in Central America.

In February 2009, the Group acquired the business and assets of George Adams Pastry business. Based in Spalding, UK, the acquired business manufactures pastry products for large retailers.

In December 2009, the Group acquired Nutritional Food Products (NFP). Located in California, USA, NFP manufactures ready-to-eat cereal products and ingredients.

During the year, the Group also completed other smaller acquisitions in Australia and the USA.

27. Business combinations (continued)

The Breeo and Dera acquisitions in 2009 contributed approximately **€143,000,000** to revenue and a marginal operating loss after applicable restructuring costs between their respective dates of acquisition and the balance sheet date.

The identifiable net assets acquired as part of the Breeo Foods and Dera Holding NV acquisitions were not material to the Group, therefore were not disclosed separately in this note.

28. Contingent liabilities

	2009 €'000	2008 €'000
Company:		
(a) Guarantees in respect of borrowings of subsidiaries	1,401,605	1,329,469

(b) For the purposes of Section 17 of the Companies (Amendment) Act, 1986, the Company has undertaken by Board resolution to indemnify the creditors of its subsidiaries incorporated in the Republic of Ireland, as set out in note 33, in respect of all losses and liabilities as referred to in Section 5(c) of the Companies (Amendment) Act, 1986 for the financial year ending on 31 December 2009 or any amended financial period incorporating the said financial year. The Company has given similar indemnities in relation to its subsidiaries in the Netherlands, as set out in note 33.

The Company does not expect any material loss to arise from these guarantees.

29. Other financial commitments

(a) Commitments for the acquisition of property, plant and equipment at 31 December for which no provision has been made in the accounts are as follows:

	2009 €'000	2008 €'000
Group:		
Commitments for the acquisition of property, plant and equipment in respect of contracts placed	23,293	13,105
Expenditure for the acquisition of property, plant and equipment authorised by the Directors but not contracted for at the year end	33,252	37,263
	56,545	50,368

(b) At the balance sheet date the Group had commitments under non-cancellable operating leases which fall due as follows:

	2009 €'000	2008 €'000
Within 1 year	23,807	24,840
Within 2 to 5 years	44,676	44,631
After 5 years	25,507	24,621
	93,990	94,092

The operating lease charges during 2009 amounted to **€27,767,000** (2008: €26,447,000).

The Group leases various buildings, plant and machinery and motor vehicles under non-cancellable lease arrangements. The leases have various terms, escalation clauses and renewal rights. The leases typically range from less than 1 year to 66 years.

30. Related party transactions

(a) Transactions with key management personnel

The Board of Directors are deemed to be key management personnel of Kerry Group plc as they are responsible for planning, directing and controlling the activities of the Group. The Report of the Directors includes details of remuneration of Directors.

(b) Trading with Directors

In their ordinary course of business as farmers, certain Directors have traded on standard commercial terms with the Group's Agribusiness Division. Aggregate purchases from, and sales to, these Directors amounted to **€821,000** (2008: €1,488,000) and **€311,000** (2008: €454,000) respectively. The trading balance outstanding to the Group at the year end was **€18,000** (2008: €20,000).

All transactions with Directors were on standard commercial terms. The amounts outstanding are unsecured and will be settled in cash. No expense has been recognised in the year for bad or doubtful debts in respect of amounts owed by Directors.

(c) Trading with Parent Company

Other than as disclosed in earlier notes, transactions in the year between the Company and its subsidiaries included dividends received of **€8,246,000** (2008: €97,875,000) and cost recharges of **€3,560,000** (2008: €3,664,000).

(d) Trading with other related parties

Kerry Co-operative Creameries Limited is considered to be a related party of the Group as a result of its significant shareholding in the Parent Company, and the number of Directors in common as detailed in the Report of the Directors. During 2009 dividends of **€9,685,000** (2008: €8,646,000) were paid to Kerry Co-operative Creameries Limited.

31. Events after the balance sheet date

Since the year end, the Group has:

- completed the issuance of US\$600,000,000 of senior notes across four tranches with maturities ranging from 7 to 15 years. These senior notes were raised in the US private placement market and will primarily be used for the prepayment of near term debt at the balance sheet date.
- proposed a final dividend of 17.30 cent per A ordinary share (see note 9).

There have been no other significant events, outside the ordinary course of business, affecting the Group since 31 December 2009.

32. Reserves

Capital redemption reserve

Capital redemption reserve represents the nominal cost of the cancelled shares in 2007.

Capital conversion reserve fund

This reserve represents the amount transferred to reserves as a result of renominating the share capital of the parent company due to the euro conversion in 2002.

Long term incentive plan reserve

This reserve relates to invitations made to employees to participate in the Group's Long Term Incentive Plan. Further information in relation to this share based payment is set out in note 24.

Available-for-sale investment reserve

Accumulated gains and losses arising on the revaluation of available-for-sale financial assets that have been recognised in other comprehensive income. Net amounts are reclassified to profit or loss when those assets have been disposed of or are determined to be impaired.

Translation reserve

Exchange differences relating to the translation of the balance sheets of the Group's foreign currency operations from their functional currencies to the Group's presentation currency (i.e. euros) are recognised directly in other comprehensive income and accumulated in the translation reserve.

Hedging reserve

The hedging reserve represents the cumulative portion of gains and losses on hedging instruments deemed effective in hedging. The cumulative deferred gain or loss on the hedging instrument is reclassified to profit or loss only when the hedged transaction affects the profit or loss.

Retained earnings

Retained earnings refers to the portion of net income which is retained by the Group rather than distributed to shareholders as dividends.
