### REPORT ON REVIEW OF CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

To the Shareholders and the Board of Directors of Public Joint Stock Company "Polyus":

#### Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of PJSC "Polyus" and its subsidiaries (the "group") as of 30 June 2022, and the related interim condensed consolidated statements of profit or loss, comprehensive income, changes in equity and cash flows for the six months then ended, and selected explanatory notes. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

#### **Scope of Review**

We conducted our review in accordance with International Standard on Review Engagements 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*. A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34 *Interim Financial Reporting*.

#### 2.1. Going concern

In assessing the appropriateness of the going concern assumption, management has taken account of the group's financial position, expected future trading performance, its borrowings, available credit facilities and its capital expenditure commitments, expectations of the future gold price, currency exchange rates and other risks facing the group. After making appropriate enquiries, management considers that the group has adequate resources to continue in operational existence for at least the next 12 months from the date of signing these condensed consolidated interim financial statements and that it is appropriate to adopt the going concern basis in preparing these condensed consolidated interim financial statements.

#### 20. OPERATING ENVIRONMENT

**Special military operation in Ukraine.** Further to the developments described in the annual consolidated financial statements for the year ended 31 December 2021, on 21 July 2022 the EU and UK banned the import of gold produced in Russia. The group is analysing the impact of these measures.

At the date when these condensed consolidated interim financial statements are authorized for issuance the sanctions on certain Russian officials, businessmen, companies and governmental bodies imposed by US, UK, EU and other countries have not significantly affected the group's operations. The group monitors and analyses the geopolitical situation and takes necessary actions to mitigate possible negative consequences. There is still a high level of uncertainty regarding the impact of these events and possible subsequent changes in the economic situation on future operations and financial position of the group.

#### 21. FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying value of cash and cash equivalents, current trade and other receivables and accounts payable approximate their fair value given the short-term nature of these instruments. Non-current other receivables are discounted at discount rates derived from observable market input data. Trade receivables for gold-bearing products are carried at fair value through profit or loss (Level 2 of the fair value hierarchy in accordance with IFRS 13).

As of 30 June 2022, the group changed the approach of the fair value valuation of cross-currency swaps due to the absence of access to certain observable inputs. As of 30 June 2022, the fair value of cross-currency swaps is determined by independent banks using a discounted cash flow valuation technique and is based on inputs (spot currency exchange rates, USD and RUB interest rates), which are observable in the market, and unobservable adjustments categorised within Level 3 of the fair value hierarchy in accordance with IFRS 13. As of 31 December 2021, the fair value of cross-currency swaps was determined using a discounted cash flow valuation technique and was based on inputs (spot currency exchange rates), which are observable in the market, and unobservable adjustments categorised within Level 3 of the fair value hierarchy in accordance with IFRS 13. As of 31 December 2021, the fair value of cross-currency swaps was determined using a discounted cash flow valuation technique and was based on inputs (spot currency exchange rates, USD and RUB interest rates), which are observable in the market and are classified as Level 2 of the fair value hierarchy in accordance with IFRS 13. Unobservable inputs have a significant impact on the valuation of the fair value of cross-currency swaps (in particular, an increase in adjusted RUB interest rates will decrease the fair value of cross-currency swaps).

(in millions of US Dollars)

Borrowings are carried at amortised cost. The fair value of the group's borrowings excluding lease liabilities is estimated as follows:

	30 June 2022		31 December	2021
	Carrying amount	Fair value	Carrying amount	Fair value
Eurobonds (Level 1)	1,349	363	1,829	1,847
Borrowings (Level 2)	1,581	1,571	1,090	1,111
Rusbonds (Level 1)	390	377	269	262
Total	3,320	2,311	3,188	3,220

The fair value of all of the group's borrowings except for the Eurobonds and Rusbonds is within Level 2 of the fair value hierarchy in accordance with IFRS 13. The fair value of the Eurobonds and Rusbonds is within Level 1 of the fair value hierarchy in accordance with IFRS 13, because the Eurobonds and Rusbonds are publicly traded in an active market. The fair value of borrowings is determined using a discounted cash flow valuation technique with reference to observable market inputs: forward USD and RUB interest rates and the company's own credit risk. The fair value was determined on the basis of quotations obtained from an international provider of market information reflecting non-Russian market for the instruments.

#### 22. INVESTMENTS IN SIGNIFICANT SUBSIDIARIES

The basis of distribution of accumulated retained earnings for companies operating in the Russian Federation is defined by legislation as the current year net profit of the company, as calculated in accordance with Russian accounting standards. However, the legislation and other statutory laws and regulations dealing with profit distribution are open to legal interpretation and accordingly management believes at present it would not be appropriate to disclose an amount for distributable profits and reserves in these condensed consolidated interim financial statements.

(in millions of US Dollars)

Acquired companies give the group 100 percent stake in the Chulbatkan gold deposit, a high-grade greenfield project located in the Khabarovsk region of the Russian Far East. In accordance with IFRS 3 the group preliminary assessed amounts of fair values of the identified assets and liabilities of the acquired companies at the acquisition date. These amounts are provisional and may be adjusted during measurement period (not exceeding one year from the date of acquisition).

Description of fair values

For the period from the date of acquisition to 30 June 2022, the acquired companies had no effect on the group's profit for the period and revenue. The acquired companies would have decreased the group's profit for the six months ended 30 June 2022 by an additional USD 2 million, if the acquisition had occurred in January 2022, with no effect on revenue.

#### 23. EVENTS AFTER THE REPORTING DATE

In August 2022, the group issued yuan-denominated notes in the amount of CNY 4.6 billion (USD 665 million) with coupon rate 3.80% and maturity date in August 2027.

Since 30 June 2022, the group faced intermittence of communication from the paying agent in respect of the group's eurobonds coupon payments. The group transferred the funds within the applicable grace period to the trustee of the eurobonds due in 2024 («Eurobonds») for onward payment to the holders of the Eurobonds, the rights to which are recorded in foreign depositories. The group expects that the funds would be transferred to the clearing systems for onward payment to the holders of the Eurobonds, the rights to which are recorded in foreign depositories. According to the terms of the Eurobonds, the group considers that it has fulfilled its obligations under the Eurobonds. The group expects to apply the same measures to other issues of eurobonds should the situation develop in a similar way.
