

MiFID II product governance/Retail investors, professional investors and ECPs target market

– Solely for the purposes of each manufacturer’s product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties, professional clients and retail clients each as defined in Directive 2014/65/EU (as amended, “**MiFID II**”); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate – investment advice, portfolio management, non-advised sales and pure execution services – subject to the distributor’s suitability and appropriateness obligations under MiFID II, as applicable. Any person subsequently offering, selling or recommending the Notes (a “**distributor**”) should take into consideration the manufacturers’ target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturers’ target market assessment) and determining appropriate distribution channels, subject to the distributor’s suitability and appropriateness obligations under MiFID II, as applicable.

Section D – Risks

Element	Text	
D.2	Key risks that are specific to the Issuer and the Guarantor	The key risks relating to the Issuer and the Guarantor which may adversely impact the Group's business, financial condition and results of operations are set out below: (a) the Group operates in a competitive environment and other corporations may apply significant resources to change areas of focus or to increase investment in marketing or in new products which could cause the Group's sales or margins to decrease in these markets; or if the Group is unable to adjust to new distribution channels and developments in e-commerce, the Group may be disadvantaged with certain consumers; (b) the Group is vulnerable to brand damage. Any major event triggered by a serious food safety issue, the failure to act with integrity or otherwise meet applicable standards or expectations with respect to environment, social and governance issues, such as sustainable development, product safety, renewable resources, environmental stewardship, supply chain management, climate change, diversity and inclusion, workplace conduct, human rights, philanthropy and support for local communities, could have a negative effect on the Group's reputation or brand image. Product recalls and product liability claims could adversely impact the Group;
		(c) the Group's success depends in part on anticipating the tastes and dietary habits of consumers and offering products that appeal to their preferences. The Group may be unable to anticipate and successfully respond to changes in consumer preferences and trends which may result in decreased demand for its products;

Element	Text	
		<p>(d) the Group is dependent on the sustainable supply of a number of raw materials, packaging material and services/utilities. Sourcing raw materials globally exposes the Group to price fluctuations and supply uncertainties which are subject to factors such as commodity market price volatility, currency fluctuations, changes in governmental agricultural programmes, harvest and weather conditions, crop disease, crop yields, alternative crops and by-product values. Underlying base material price changes may result in unexpected increases in costs of raw material and packaging, and the Group may be unable to fully reflect these increases by raising prices without suffering reduced volume, revenue and operating income;</p>
		<p>(e) prolonged negative perceptions concerning health implications of certain foods could lead to an increase in regulation of the food industry or influence consumer preferences which may adversely affect the Group's brands and reputation;</p> <p>(f) adverse weather conditions could reduce the demand for the Group's products and increased frequency or duration of extreme weather conditions could also impair production capabilities, disrupt the supply chain or impact demand for the Group's products;</p> <p>(g) a significant disruption in one or many of the Group's manufacturing facilities or to the Group's suppliers could impact the Group for reasons beyond the control of the Group;</p> <p>(h) adverse economic, political and business conditions or other developments, as well as geopolitical risks, such as terrorism, in the countries in which the Group operates could adversely impact the Group;</p> <p>(i) changes in, or failure to comply with, the laws and regulations applicable to the Group's products or its business, including laws and regulations relating to competition, product safety, advertising, labelling, recycling and product stewardship, the protection of the environment and employment and labour practices may, for example, result in increased compliance costs, capital expenditure and other financial obligations for the Group and significant additional labelling or warning requirements or limitations on the marketing or sale of the Group's products may reduce demand for such products;</p> <p>(j) changes to international trade policies, treaties and tariffs, or the emergence of a trade war could adversely impact the financial and economic conditions of some or all of the countries in which the Group operates;</p>
		<p>(k) the Group's strategy of growth through acquisitions and investments may not be successful or the Group may not realise the economic benefits it anticipates from its productivity and cost-saving initiatives or may be unable to manage them successfully;</p>

Element	Text	
		(l) disruption impacting the reliability, security and privacy of data, as well as the Group's software applications, is a threat;
		<p>(m) the Group may not be able to protect its intellectual property rights;</p> <p>(n) the results of litigation claims and legal proceedings cannot be predicted;</p> <p>(o) as the Group operates in many different countries, it is subject to currency fluctuations both in terms of its trading activities and the translation of its financial statements. The Group also holds a substantial volume of interest rate sensitive financial assets, liabilities and derivatives for operational, financing and investment activities that can be impacted by changes in interest rates; and</p> <p>(p) global capital and credit markets could adversely impact the Group's liquidity, increase its costs of borrowing and disrupt the operations of its suppliers and customers. The Group issues term debt to raise finance and depends on broad access to capital markets and investors. Changes in demand for term debt instruments on capital markets could limit the ability of the Group to fund operations.</p>
D.3	Key risks that are specific to the Notes	<p>There are also risks associated with the Notes including a range of risks relating to the structure of the Notes, market risks and risks relating to Notes generally including that:</p> <p>(i) changes in prevailing market interest rates could affect the value of the Notes which bear interest at a fixed rate;</p> <p>(ii) Notes may be subject to early redemption, which may limit the market value of the Notes and an investor may not be able to reinvest the redemption proceeds in a manner which achieves a similar effective return;</p> <p>(iii) Bearer Notes in new global note form or Registered Notes in global form held under the new safekeeping structure may not satisfy Eurosystem eligibility criteria;</p>

Element	Text	
		<p>(vi) investors are exposed to the risk of changes in law or regulation affecting the value of their Notes;</p> <p>(vii) the value of an investor's investment may be adversely affected by exchange rate movements where the Notes are not denominated in the investor's own currency;</p> <p>(viii) there may be no or only a limited secondary market in the Notes; and</p> <p>(ix) credit ratings assigned to the Notes may not adequately reflect all the risks associated with an investment in the Notes.</p>
