## Capital

- Repurchased 33.8 million shares, or $\$ 1.5$ billion, of common stock in third quarter 2023

## Third quarter 2023 results included:

- $\$ 349$ million, or $\$ 0.09$ per share, of discrete tax benefits related to the resolution of prior period tax matters
- The sale of approximately $\$ 2$ billion of private equity investments, which had a minimal impact to net income, but resulted in an increase of $\sim 14$ basis points to our CET1 ${ }^{2}$ ratio
Chief Executive Officer Charlie Scharf commented, "Our third quarter results were solid with net income of $\$ 5.8$ billion and revenue of $\$ 20.9$ billion. Our revenue growth from a year ago included both higher net interest income and noninterest income as we benefited from higher rates and the investments we are making in our businesses. Expenses declined from a year ago due to lower operating losses. While the economy has continued to be resilient, we are seeing the impact of the slowing economy with loan balances declining and charge-offs continuing to deteriorate modestly."
"In addition to making progress on our risk and control work, which is our top priority, we also continued to take steps to advance our business strategy. In the third quarter, we sold certain private equity investments; announced a new strategic relationship with Centerbridge Partners that will provide our middle market clients greater access to alternative sources of capital; continued to enhance our digital capabilities including adding a Spanish-language capability to Fargo ${ }^{T M}$, our AI-powered virtual assistant; and made important hires across the businesses we are looking to grow," Scharf added.
"In the third quarter, we increased our common stock dividend by $17 \%$ and our CET1 ratio was $11.0 \%, 210$ basis points above our new regulatory minimum plus buffers starting in the fourth quarter. While proposed bank capital rules include higher capital requirements, we are starting from a strong capital position and returning excess capital to shareholders remains a priority," Scharf concluded.

[^0]Financial results reported in this document are preliminary. Final financial results and other disclosures will be reported in our Quarterly Report on Form 10-Q for the quarter ended September 30, 2023, and may differ materially from the results and disclosures in this document due to, among other things, the completion of final review procedures, the occurrence of subsequent events, or the discovery of additional information.

Common Equity" tables on pages 25-26 of the 3Q23 Quarterly Supplement.
(c) The efficiency ratio is noninterest expense divided by total revenue (net interest income and noninterest income).

## Third Quarter 2023 vs. Third Quarter 2022

- Net interest income increased 8\%, primarily due to the impact of higher interest rates, partially offset by lower deposit balances
- Noninterest income increased 4\%, driven by higher trading revenue in our Markets business, higher investment banking fees, and an increase in asset-based fees in Wealth and Investment Management on higher market valuations, partially offset by lower mortgage banking income and lower deposit-related fees
- Noninterest expense decreased 8\%, driven by lower operating losses and the impact of efficiency initiatives, partially offset by higher severance expense, technology and equipment expense, revenue-related compensation, advertising costs, and FDIC assessments
- Provision for credit losses in third quarter 2023 included a $\$ 333$ million increase in the allowance for credit losses primarily for commercial real estate office loans, as well as for higher credit card loan balances, partially offset by a lower allowance for auto loans
- Income tax expense in third quarter 2023 included $\$ 349$ million of discrete tax benefits related to the resolution of prior period tax matters

| As a \% of total loans |  | 1.60 \% | 1.56 | 1.40 |

## Third Quarter 2023 vs. Second Quarter 2023

- Commercial net loan charge-offs as a percentage of average loans were $0.13 \%$ (annualized), down from $0.15 \%$, driven by lower net loan charge-offs in the commercial and industrial portfolio, partially offset by higher commercial real estate net loan charge-offs. The consumer net loan charge-off rate increased to $0.67 \%$ (annualized), up from $0.58 \%$, primarily due to higher net loan charge-offs in the auto and credit card portfolios
- Nonperforming assets were up $\$ 1.2$ billion, or $17 \%$, driven by higher commercial real estate nonaccrual loans, predominantly in the office portfolio, partially offset by lower commercial and industrial nonaccrual loans

## Operating Segment Performance

## Third Quarter 2023 vs. Third Quarter 2022

- Revenue increased 3\%
- Consumer, Small and Business Banking was up 7\% driven by the impact of higher interest rates, partially offset by lower deposit balances and lower deposit-related fees reflecting our efforts to help customers avoid overdraft fees
- Home Lending was down $14 \%$ due to a decline in mortgage banking income driven by lower originations and lower servicing income, which included the impact of sales of mortgage servicing rights
- Credit Card was up 2\% driven by higher loan balances, including the impact of higher point of sale volume and new product launches, partially offset by the impact of introductory promotional rates and higher credit card rewards expense
- Auto was down $15 \%$ driven by loan spread compression and lower loan balances
- Personal Lending was up $14 \%$ on higher loan balances

Noninterest expense was down $13 \%$ due to lower operating losses and the impact of efficiency initiatives, partially offset by higher operating costs and advertising costs

Commercial Banking provides financial solutions to private, family owned and certain public companies. Products and services include banking and credit products across multiple industry sectors and municipalities, secured lending and lease products, and treasury management.

## Third Quarter 2023 vs. Third Quarter 2022

- Revenue increased 1\%
- Net interest income was down $7 \%$ driven by lower deposit balances as customers reallocated cash into higher yielding alternatives, as well as lower loan balances, partially offset by the impact of higher interest rates
- Noninterest income was up 5\% on higher asset-based fees driven by an increase in market valuations
- Noninterest expense increased 8\% due to higher revenue-related compensation and operating costs, partially offset by the impact of efficiency initiatives

Corporate includes corporate treasury and enterprise functions, net of allocations (including funds transfer pricing, capital, liquidity and certain expenses), in support of the reportable operating segments, as well as our investment portfolio and venture capital and private equity investments. Corporate also includes certain lines of business that management has determined are no longer consistent with the long-term strategic goals of the Company as well as results for previously divested businesses. In third quarter 2023, we sold investments in certain private equity funds, which had a minimal impact to net income.

## Forward-Looking Statements

This document contains forward-looking statements. In addition, we may make forward-looking statements in our other documents filed or furnished with the Securities and Exchange Commission, and our management may make forward-looking statements orally to analysts, investors, representatives of the media and others. Forward-looking statements can be identified by words such as "anticipates," "intends," "plans," "seeks," "believes," "estimates," "expects," "target," "projects," "outlook," "forecast," "will," "may," "could," "should," "can" and similar references to future periods. In particular, forward-looking statements include, but are not limited to, statements we make about: (i) the future operating or financial performance of the Company, including our outlook for future growth; (ii) our expectations regarding noninterest expense and our efficiency ratio; (iii) future credit quality and performance, including our expectations regarding future loan losses, our allowance for credit losses, and the economic scenarios considered to develop the allowance; (iv) our expectations regarding net interest income and net interest margin; (v) loan growth or the reduction or mitigation of risk in our loan portfolios; (vi) future capital or liquidity levels, ratios or targets; (vii) our expectations regarding our mortgage business and any related commitments or exposures; (viii) the expected outcome and impact of legal, regulatory and legislative developments, as well as our expectations regarding compliance therewith; (ix) future common stock dividends, common share repurchases and other uses of capital; (x) our targeted range for return on assets, return on equity, and return on tangible common equity; (xi) expectations regarding our effective income tax rate; (xii) the outcome of contingencies, such as legal proceedings; (xiii) environmental, social and governance related goals or commitments; and (xiv) the Company's plans, objectives and strategies.

Forward-looking statements are not based on historical facts but instead represent our current expectations and assumptions regarding our business, the economy and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict. Our actual results may differ materially from those contemplated by the forward-looking statements. We caution you, therefore, against relying on any of these forward-looking statements. They are neither statements of historical fact nor guarantees or assurances of future performance. While there is no assurance that any list of risks and uncertainties or risk factors is complete, important factors that could cause actual results to differ materially from those in the forward-looking statements include the following, without limitation:

- current and future economic and market conditions, including the effects of declines in housing prices, high unemployment rates, declines in commercial real estate prices, U.S. fiscal debt, budget and tax matters, geopolitical matters (including the conflict in Ukraine), and any slowdown in global economic growth;
- the effect of the COVID-19 pandemic, including on our credit quality and business operations, as well as its impact on general economic and financial market conditions;
- our capital and liquidity requirements (including under regulatory capital standards, such as the Basel III capital standards) and our ability to generate capital internally or raise capital on favorable terms;
- current, pending or future legislation or regulation that could have a negative effect on our revenue and businesses, including rules and regulations relating to bank products and financial services;
- developments in our mortgage banking business, including any negative effects relating to our mortgage servicing, loan modification or foreclosure practices, and any changes in industry standards, regulatory or judicial requirements, or our strategic plans for the business;
- our ability to realize any efficiency ratio or expense target as part of our expense management initiatives, including as a result of business and economic cyclicality, seasonality, changes in our business composition and operating environment, growth in our businesses and/or acquisitions, and unexpected expenses relating to, among other things, litigation and regulatory matters;
- the effect of the current interest rate environment or changes in interest rates or in the level or composition of our assets or liabilities on our net interest income, net interest margin and our mortgage originations, mortgage servicing rights and mortgage loans held for sale;
- significant turbulence or a disruption in the capital or financial markets, which could result in, among other things, reduced investor demand for mortgage loans, a reduction in the availability of funding or increased funding costs, and declines in asset values and/or recognition of impairments of securities held in our debt securities and equity securities portfolios;
- the effect of a fall in stock market prices on our investment banking business and our fee income from our brokerage and wealth management businesses;
- negative effects from the retail banking sales practices matter and from instances where customers may have experienced financial harm, including on our legal, operational and compliance costs, our ability to engage in certain business activities or offer certain products or services, our ability to keep and attract customers, our ability to attract and retain qualified employees, and our reputation;
- regulatory matters, including the failure to resolve outstanding matters on a timely basis and the potential impact of new matters, litigation, or other legal actions, which may result in, among other things, additional costs, fines, penalties, restrictions on our business activities, reputational harm, or other adverse consequences;
- a failure in or breach of our operational or security systems or infrastructure, or those of our third-party vendors or other service providers, including as a result of cyber attacks;
- the effect of changes in the level of checking or savings account deposits on our funding costs and net interest margin;
- fiscal and monetary policies of the Federal Reserve Board;
- changes to U.S. tax guidance and regulations as well as the effect of discrete items on our effective income tax rate;
- our ability to develop and execute effective business plans and strategies; and
- the other risk factors and uncertainties described under "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2022.

In addition to the above factors, we also caution that the amount and timing of any future common stock dividends or repurchases will depend on the earnings, cash requirements and financial condition of the Company, market conditions, capital requirements (including under Basel capital standards), common stock issuance requirements, applicable law and regulations (including federal securities laws and federal banking regulations), and other factors deemed relevant by the Company, and may be subject to regulatory approval or conditions.

For additional information about factors that could cause actual results to differ materially from our expectations, refer to our reports filed with the Securities and Exchange Commission, including the discussion under "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2022, as filed with the Securities and Exchange Commission and available on its website at www.sec.gov ${ }^{5}$.

Any forward-looking statement made by us speaks only as of the date on which it is made. Factors or events that could cause our actual results to differ may emerge from time to time, and it is not possible for us to predict all of them. We undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future developments or otherwise, except as may be required by law.

Forward-looking Non-GAAP Financial Measures. From time to time management may discuss forward-looking non-GAAP financial measures, such as forward-looking estimates or targets for return on average tangible common equity. We are unable to provide a reconciliation of forward-looking non-GAAP financial measures to their most directly comparable GAAP financial measures because we are unable to provide, without unreasonable effort, a meaningful or accurate calculation or estimation of amounts that would be necessary for the reconciliation due to the complexity and inherent difficulty in forecasting and quantifying future amounts or when they may occur. Such unavailable information could be significant to future results.

(1) Ratios and metrics for September 30, 2023, are preliminary estimates.
(3) Represents TLAC divided by risk-weighted assets (RWAs), which is our binding TLAC ratio, determined by using the greater of RWAs under the Standardized and Advanced Approaches
(4) Represents average high-quality liquid assets divided by average projected net cash outflows, as each is defined under the LCR rule.

(1) All other business activities that are not included in the reportable operating segments have been included in Corporate. Corporate includes corporate treasury and enterprise functions, net of allocations (including funds transfer pricing, capital, liquidity and certain expenses), in support of the reportable operating segments, as well as our investment portfolio and venture capital and private equity investments. Corporate also includes certain lines of business that management has determined are no longer consistent with the long-term strategic goals of the Company as well as results for previously divested businesses. In third quarter 2023, we sold investments in certain private equity funds, which had a minimal impact to net income.

(1) Our commercial real estate (CRE) loan portfolio is comprised of CRE mortgage and CRE construction loans
(2) Total commitments consists of loans outstanding plus unfunded credit commitments, excluding issued letters of credit
(3) In second quarter 2023, we reclassified certain CRE loans to better align with regulatory reporting guidance, which resulted in a decrease in loans outstanding of approximately $\$ 2.0$ billion to the office property type.

## TANGIBLE COMMON EQUITY

We also evaluate our business based on certain ratios that utilize tangible common equity. Tangible common equity is a non-GAAP financial measure and represents total equity less preferred equity, noncontrolling interests, goodwill, certain identifiable intangible assets (other than MSRs) and goodwill and other intangibles on investments in consolidated portfolio companies, net of applicable deferred taxes. The ratios are (i) tangible book value per common share, which represents tangible common equity divided by common shares outstanding; and (ii) return on average tangible common equity (ROTCE), which represents our annualized earnings as a percentage of tangible common equity. The methodology of determining tangible common equity may differ among companies. Management believes that tangible book value per common share and return on average tangible common equity, which utilize tangible common equity, are useful financial measures because they enable management, investors, and others to assess the Company's use of equity.

The tables below provide a reconciliation of these non-GAAP financial measures to GAAP financial measures.

(1) - Not meaningfur "apital rules provide for two capital frameworks (the Standardized Approach and the Advanced Approach applicable to certain institutions), and we must calculate our CET1, Tier 1 and total capital ratios under both
2) approaches. 2023, we adopted Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2018-12. We adopted this ASU with retrospective application, which required revision of prior period financial statements. Prior period risk-based capital and certain other regulatory related metrics were not revised.
In fourth quarter 2022, we redeemed all outstanding shares of our ESOP Cumulative Convertible Preferred Stock in exchange for shares of the Company's common stock.
In third quarter 2023, we sold investments in certain private equity funds. As a result, we have removed the related goodwill and other intangible assets on investments in consolidated portfolio companies
(6) In second quarter 2020, the Company elected to apply a modified transition provision issued by federal banking regulators related to the impact of CECL on regulatory capital. The rule permits certain banking organizations to exclude from regulatory capital the initial adoption impact of CECL, plus $25 \%$ of the cumulative changes in the allowance for credit losses (ACL) under CECL for each period until December 31, 2021, followed by a three-year
Under the Advanced Approach, the ACL that exceeds expected credit losses is eligible for inclusion in Tier 2 capital, to the extent the excess allowance does not exceed $0.60 \%$ of Advanced credit RWAs with any excess ACL deducted from total RWAs.

## 3Q23 Financial Results

- Net income of $\$ 5.8$ billion, or $\$ 1.48$ per diluted common share, included:
- $\$ 349$ million, or $\$ 0.09$ per share, of discrete tax benefits related to the resolution of prior period tax matters
- The sale of $\sim \$ 2$ billion of private equity investments, which had a minimal impact to net income, but resulted in an increase of $\sim 14$ bps to our Common Equity Tier 1 (CET1) ratio ${ }^{3}$
- Revenue of $\$ 20.9$ billion, up $7 \%$
- Net interest income of \$13.1 billion, up 8\%
- Noninterest income of $\$ 7.8$ billion, up $4 \%$
- Noninterest expense of $\$ 13.1$ billion, down $8 \%$
- Pre-tax pre-provision profit ${ }^{4}$ of $\$ 7.7$ billion, up $47 \%$
- Effective income tax rate of $12.3 \%$ included $\$ 349$ million of discrete tax benefits
- Average loans of $\$ 943.2$ billion
- Average deposits of $\$ 1.3$ trillion, down $5 \%$

Credit Quality

- Provision for credit losses ${ }^{5}$ of $\$ 1.2$ billion
- Total net loan charge-offs of $\$ 850$ million, up $\$ 451$ million, with net loan charge-offs of $0.36 \%$ of average loans (annualized)
- Allowance for credit losses for loans of $\$ 15.1$ billion, up $\$ 1.8$ billion

## Capital and Liquidity <br> CET1 ratio: $11.0 \%^{3}$ <br> LCR: $123 \%^{6}$

- CET1 capital of $\$ 136.2$ billion ${ }^{3}$
- CET1 ratio of $11.0 \%$ under the Standardized Approach and $12.0 \%$ under the Advanced Approach ${ }^{3}$
- Liquidity coverage ratio (LCR) of $123 \%^{6}$

4. Pre-tax pre-provision profit (PTPP) is total revenue less noninterest expense. Management believes that PTPP is a useful financiail measure because it enables investors and others to assess the Company in . losses through a credit cycle.
6. Liquididity coverage ratio (LCR) represents average high-quality liquid assets divided by average proiected net cash outflows, as each is defined under the LCR rule. LCR is a preliminary estimate.
7. Represents total loss absorbing capacity (TLAC) divided by risk-weighted assets (RWAS), which is our binding TLAC ratio, determined by using the greater of RWAA under the Standardized and Advanced Approaches. TLAC is a preliminary estimate, 3 Q23 Financial Results

## Capital Position

- Common Equity Tier 1 (CET1) ratio of $11.0 \%{ }^{1}$ at September 30, 2023 remained above our regulatory minimum and buffers of $9.2 \%$
- CET1 ratio up $\sim 70$ bps from 3Q22 and up $\sim 30$ bps from 2Q23, which included:
- A decline in accumulated other comprehensive income driven by higher interest rates and wider mortgage-backed securities spreads, which resulted in declines in the CET1 ratio of 8 bps from 3Q22 and 16 bps from 2Q23
- A $\sim 14$ bps increase resulting from the $3 Q 23$ sale of certain private equity - A 14 bps increase resulting from the $3 Q 23$ sale of certain private equity investments and the resulting removal of the related goodwill and oth
intangible assets on investments in consolidated portfolio companies
- As of $10 / 1 / 23$, the Company's stress capital buffer (SCB) decreased to $2.9 \%$, which decreased our CET1 regulatory minimum and buffers to $8.9 \%$

## Capital Return

- Period-end common shares outstanding down 157.5 million, or $4 \%$, from $3 Q 22$
- $\$ 1.5$ billion in gross common stock repurchases, or 33.8 million shares, in 3 Q23
- $3 Q 23$ common stock dividend increased to $\$ 0.35$ per share, up from $\$ 0.30$ per share in 2Q23

## Total Loss Absorbing Capacity (TLAC)

- As of September 30, 2023, our TLAC as a percentage of total risk-weighted assets was $24.0 \%$ compared with the required minimum of $21.5 \%$

## Liquidity Position

Strong liquidity position with a 3Q23 liquidity coverage ratio ${ }^{4}$ of $123 \%$ which remained above our regulatory minimum of $100 \%$

# Tangible Common Equity 

TANGIBLE COMMON EQUITY
We also evaluate our business based on certain ratios that utilize tangible common equity. Tangible common equity is a non-GAAP financial measure and represents total equity less preferred equity, noncontrolling interests, goodwill, certain identifiable intangible assets (other than MSRs) and goodwill and other intangibles on investments in
consolidated portfolio companies, net of applicable deferred taxes. One of these ratios is return on average tangible common equity (ROTCE), which represents our annualized earnings as a percentage of tangible common equity. The methodology of determining tangible common equity may differ among companies. Management believes that retur on average tangible common equity, which utilizes tangible common equity, is a useful financial measure because it enables management, investors, and others to assess the Company's use of equity.

The table below provides a reconciliation of this non-GAAP financial measure to GAAP financial measures.
