

Drill plan for initial Phase 4 diamond drill holes at Bakassi Zone 1 prospect, Bibemi project

Previously reported cross-section for drill fence line BZ1_P2_L3 based on results from Phase 2 and Phase 3 drilling

Cross section through 3D mineralisation model for drill fence line BZ1_P2_L3, showing best intersections reported to date and the location of the planned vertical drill hole PBBDD030. The different colour wireframes reflect a separate distinct mineralised vein.

Geological map highlighting the extent and location of the recently completed ground based magnetic survey.
