PROGRAMME ADMISSION PARTICULARS

SOUTHERN HOUSING

(incorporated in England with limited liability under the Co-operative and Community Benefit Societies Act 2014 with registration number 8983 and registered with the Regulator of Social Housing under the Housing and Regeneration Act 2008, as amended by the Localism Act 2011, with number 5171)

£1,000,000,000 NOTE PROGRAMME

Under this £1,000,000,000 Note Programme (the **Programme**), Southern Housing (the **Issuer**) may from time to time issue notes (the **Notes**) as agreed between the Issuer and the relevant Dealer (as defined below).

The Issuer's obligations under the Notes may be secured in accordance with the provisions of Condition 4 (Security) (such Notes, **Secured Notes**) or not so secured (such Notes, **Unsecured Notes**), in each case, as specified in the applicable Pricing Supplement (as defined below).

The maximum aggregate principal amount of all Notes from time to time outstanding under the Programme will not exceed £1,000,000,000 (or its equivalent in other currencies calculated as described in the Programme Agreement (as defined below)), subject to increase as described herein.

The Notes may be issued on a continuing basis to one or more of the Dealers specified under "*Overview of the Programme*" and any additional Dealer appointed under the Programme from time to time by the Issuer (each a **Dealer** and together the **Dealers**), which appointment may be for a specific issue or on an ongoing basis. References in these Programme Admission Particulars to the **relevant Dealer** shall, in the case of an issue of Notes being (or intended to be) subscribed for by more than one Dealer, be to all Dealers agreeing to subscribe for such Notes.

An investment in Notes issued under the Programme involves certain risks. For a discussion of these risks see "*Risk Factors*" below.

Application has been made to the London Stock Exchange plc (the **London Stock Exchange**) for Notes issued under the Programme during the period of 12 months from the date of these Programme Admission Particulars to be admitted to trading on the London Stock Exchange's International Securities Market (the **ISM**). The ISM is not a regulated market for the purposes of the Markets in Financial Instruments Directive 2014/65/EU (**MiFID II**) or for the purposes of Regulation (EU) No. 600/2014 on markets in financial instruments as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (as amended, the **EUWA**) (**UK MiFIR**). In respect of any Notes which are specified as "Social Bonds", "Green Bonds" or "Sustainable Bonds" in the applicable Pricing Supplement, application may also (if so specified in the applicable Pricing Supplement) be made for such Notes to be admitted to trading on the London Stock Exchange's Sustainable Bond Market (the **SBM**).

The ISM is a market designated for qualified investors (as defined in Regulation 16 of the Public Offers and Admissions to Trading Regulations 2024 (SI 2024/105) (the POATRs)). The London Stock Exchange, as a Recognised Investment Exchange, does not make assessments of investor eligibility. Given that under Regulation 16 of POATRs, only qualified investors are permitted to trade on the ISM and no qualified investor is permitted to trade on behalf of persons who are not themselves qualified investors, financial intermediaries acting for investors are responsible for ensuring that only investors who are qualified investors as prescribed by Regulation 16 of POATRs are permitted to trade on ISM. Securities admitted to trading on the ISM are not admitted to the Official List of the Financial Conduct Authority (the FCA). The London Stock Exchange has not approved or verified the contents of these Programme Admission Particulars.

References in these Programme Admission Particulars to Notes being **admitted to trading** (and all related references) shall mean that such Notes have been admitted to trading on the ISM, so far as the context permits.

Notice of the aggregate principal amount of Notes, interest payable in respect of Notes, the issue price of Notes and certain other information which is applicable to each Tranche (as defined under "*Conditions of the Notes*") of Notes will be set out in a pricing supplement (the **Pricing Supplement**) which, with respect to Notes to be admitted to trading on the ISM, will be delivered to the London Stock Exchange. Copies of Pricing Supplements in relation to Notes to be admitted to trading on the ISM will also be published on the website of the London Stock Exchange through a regulatory information service or will be published in such other manner permitted by the International Securities Market Rulebook effective as of 19 January 2026 (as may be modified and/or supplemented and/or restated from time to time, the **ISM Rulebook**).

These Programme Admission Particulars do not constitute a base prospectus for the purposes of (a) the POATRs and the Prospectus Rules: Admission to Trading on a Regulated Market sourcebook (**PRM Rules**) and, in accordance with the POATRs and the PRM Rules,

no base prospectus is required in connection with the issuance of the Notes and (b) a listing or an admission to trading on any market in the European Economic Area (the **EEA**) or the United Kingdom (the **UK**) which has been designated as a regulated market for the purposes of MiFID II or UK MiFIR, respectively.

The Programme provides that Notes may be listed or admitted to trading, as the case may be, on such other or further stock exchanges or markets as may be agreed between the Issuer and the relevant Dealer. The Issuer may also issue unlisted Notes and/or Notes not admitted to trading on any market.

The Notes have not been and will not be registered under the U.S. Securities Act of 1933, as amended, (the **Securities Act**) or any U.S. State securities laws and may not be offered or sold in the United States or to, or for the account or the benefit of, U.S. persons as defined in Regulation S under the Securities Act unless an exemption from the registration requirements of the Securities Act is available and in accordance with all applicable securities laws of any state of the United States and any other jurisdiction.

The Issuer and the Programme (both in relation to Secured Notes and Unsecured Notes) have each been rated "A-" by Fitch Ratings Ltd. (**Fitch**) and "A3" by Moody's Investors Service Limited (**Moody's**). Notes issued under the Programme may be rated by Fitch and/or Moody's or may be unrated. Where a Tranche of Notes is rated, such rating will be disclosed in the Pricing Supplement and will not necessarily be the same as the rating assigned to the Programme by Fitch and/or Moody's. A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

None of the Arranger, the Dealers and any of their respective affiliates and the Note Trustee accepts any liability in relation to the information contained or incorporated by reference in these Programme Admission Particulars or any other information provided by the Issuer in connection with the Programme.

No person is or has been authorised by the Issuer, the Arranger, any Dealer or any of their respective affiliates or the Note Trustee to give any information or to make any representation not contained in or not consistent with these Programme Admission Particulars or any other information supplied in connection with the Programme or the Notes and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer, the Arranger, any Dealer or any of their respective affiliates or the Note Trustee.

If a jurisdiction requires that the offering be made by a licensed broker or dealer and the Dealers or any affiliate of the Dealers is a licensed broker or dealer in that jurisdiction, the offering shall be deemed to be made by the Dealers or such affiliate on behalf of the Issuer in such jurisdiction.

Neither these Programme Admission Particulars nor any other information supplied in connection with the Programme or any Notes (a) is intended to provide the basis of any credit or other evaluation, (b) should be considered as a recommendation by the Issuer, the Arranger, any Dealer or any of their respective affiliates or the Note Trustee that any recipient of these Programme Admission Particulars or any other information supplied in connection with the Programme or any Notes should purchase any Notes or (c) should be construed as legal, business, tax or other advice. Each investor contemplating purchasing any Notes should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Issuer. Neither these Programme Admission Particulars nor any other information supplied in connection with the Programme or the issue of any Notes constitutes an offer or invitation by or on behalf of the Issuer, the

Arranger, any Dealer or any of their respective affiliates or the Note Trustee to any person to subscribe for or to purchase any Notes.

Neither the delivery of these Programme Admission Particulars nor the offering, sale or delivery of any Notes shall in any circumstances imply that the information contained in it concerning the Issuer is correct at any time subsequent to its date or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date indicated in the document containing the same. The Arranger, the Dealers and the Note Trustee expressly do not undertake to review the financial condition or affairs of the Issuer during the life of the Programme or to advise any investor in Notes issued under the Programme of any information coming to their attention.

The Issuer has confirmed to the Arranger and the Dealers that these Programme Admission Particulars contain all information which is (in the context of the Programme and the issue, offering and sale of the Notes) material; that such information is true and accurate in all material respects and is not misleading in any material respect; that any opinions, predictions, or intentions expressed herein are honestly held or made and are not misleading in any material respect; that these Programme Admission Particulars do not omit to state any material fact necessary to make such information, opinions, predictions or intentions (in the context of the Programme and the issue, offering and sale of the Notes) not misleading in any material respect; and that all proper enquiries have been made to verify the foregoing.

To the extent so specified in the applicable Pricing Supplement, Notes issued under the Programme are intended to be Social Bonds, Green Bonds or Sustainable Bonds (each as defined in the Sustainable Finance Framework (as defined in the section headed "*Use of Proceeds and Sustainable Finance Framework*" below)) and the net proceeds from the issue of Notes of each Series will be used by the Issuer for social, green or sustainable purposes as set out in the applicable Pricing Supplement. None of the Arranger, the Dealers and any of their respective affiliates and the Note Trustee will verify or monitor the proposed use of proceeds for any such Notes and no assurance is given by the Issuer, the Arranger, the Dealers or any of their respective affiliates, the Note Trustee or any other person that the use of the proceeds of issue of any such Notes will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which any investor or its investments are required to comply. The Issuer's Sustainable Finance Framework and the Second Party Opinion (as defined in the section headed "*Use of Proceeds and Sustainable Finance Framework*" below) do not form part of, nor are they incorporated by reference in, these Programme Admission Particulars. See further "*Risk Factors – Use of Proceeds / Social, Green and Sustainable Bonds*" below.

PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a *retail investor* means a person who is one (or both) of the following: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended or superseded, the *Insurance Distribution Directive*), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently, no key information document required by Regulation (EU) No 1286/2014 (as amended or superseded, the *PRIIPs Regulation*) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Notes are not intended to be offered, sold, distributed or otherwise made available to and should not be offered, sold, distributed or otherwise made available to any retail investor in the UK. For these purposes, a *retail investor* means a person who is one (or both) of the following: (i) not a professional client, as defined in point (8) of Article 2(1) of UK MiFIR; or (ii) not a qualified investor as defined in paragraph 15 of Schedule 1 to the POATRs. Consequently, no disclosure document required by the FCA Product Disclosure Sourcebook (the *DISC*) for offering, selling or distributing the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering, selling or distributing the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the DISC and the Consumer Composite Investments (Designated Activities) Regulations 2024.

MIFID II PRODUCT GOVERNANCE / TARGET MARKET – The Pricing Supplement in respect of any Notes will include a legend entitled "*MiFID II product governance*" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a *distributor*) should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the product governance rules under EU Delegated Directive 2017/593 (as amended or superseded, the *MiFID Product Governance Rules*), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise none of the Arranger, the Dealers and any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

UK MIFIR PRODUCT GOVERNANCE / TARGET MARKET – The Pricing Supplement in respect of any Notes will include a legend entitled "*UK MiFIR product governance*" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a *UK distributor*) should take into consideration the target market assessment; however, a UK distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (as amended or superseded, the *UK MiFIR Product Governance Rules*) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise none of the Arranger, the Dealers and any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

These Programme Admission Particulars do not constitute an offer to sell or the solicitation of an offer to buy any Notes in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of these Programme Admission Particulars and the offer or sale of Notes may be restricted by law in certain jurisdictions. The Issuer, the Arranger, the Dealers and any of their respective affiliates and the Note Trustee do not represent that these Programme Admission Particulars may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by the Issuer, the Arranger, the Dealers or any of their respective affiliates or the Note Trustee which is intended to permit a public offering of any Notes or distribution of these Programme Admission Particulars in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither these Programme Admission Particulars nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession these Programme Admission Particulars or any Notes may come must inform themselves about, and observe, any such restrictions on the distribution of these Programme Admission Particulars and the offering and sale of Notes. In particular, there are restrictions on the distribution of these Programme Admission Particulars and the offer or sale of Notes in the United States, the UK, Hong Kong, Japan, the Republic of Korea and Singapore and a prohibition on the sale of any Notes to EEA and UK retail investors, see "*Subscription and Sale*" below.

SUITABILITY OF INVESTMENT

The Notes may not be a suitable investment for all investors. Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor may wish to consider, either on its own or with the help of its financial and other professional advisers, whether it:

Notwithstanding the foregoing, Secured Notes will not be issued in any currency other than Sterling unless and until a replacement or a supplement to these Programme Admission Particulars is published.

Floating Rate Notes: Floating Rate Notes will bear interest at a rate determined:

(a) on the same basis as the floating rate under a notional interest rate swap transaction in the relevant Specified Currency governed by an agreement incorporating the 2006 ISDA Definitions (as published by the International Swaps and Derivatives Association, Inc. (**ISDA**), and as amended and updated as at the Issue Date of the first Tranche of the Notes of the relevant Series), or the latest version of the 2021 ISDA Interest Rate Derivatives Definitions (as published by ISDA as at the Issue Date of the first Tranche of the Notes of the relevant Series) as specified in the applicable Pricing Supplement; or

(b) where Instalment Redemption is specified as applicable in the applicable Pricing Supplement, in the Instalment Amounts on the Instalment Dates specified in the applicable Pricing Supplement.

Notes having a maturity of less than one year are subject to restrictions on their denomination and distribution. See "*Certain Restrictions*" above.

Early Redemption: The applicable Pricing Supplement will indicate either that the relevant Notes cannot be redeemed prior to their stated maturity date or stated instalment dates (other than for taxation reasons or following an Event of Default) or that such Notes will be redeemable at the option of the Issuer and/or the Noteholders upon giving notice to the Noteholders or the Issuer, as the case may be, on a date or dates specified prior to such stated maturity or instalment date(s) (where Retained Notes are specified to be applicable in the applicable Pricing Supplement, in the case of a redemption at the option of the Issuer, at any time after the relevant Final Retained Note Disposal Date) and at a price or prices and on such other terms, and/or subject to such conditions, as may be agreed between the Issuer and the relevant Dealer.

Purchases: The Retained Notes (if specified as being applicable in any Pricing Supplement) will be immediately purchased by the Issuer on the applicable Issue Date.

The Issuer or any other member of the Southern Group may also at any time purchase Notes at any price in the open market or otherwise. Such Notes purchased by the Issuer or such other member of the Southern Group may be held, reissued, resold or, at the option of the Issuer or such other member of the Southern Group, surrendered to any Paying Agent for cancellation.

Retained Notes: Pursuant to the terms of the Retained Note Custody Agreement, the Retained Note Custodian will hold the Retained Notes (if any) of each Series on the Issuer's behalf and the Issuer has instructed the Retained Note Custodian to waive its rights to receive payments (of interest, principal or otherwise) on the Retained Notes for so long as the Retained Notes are held on the Issuer's behalf. Such waiver may not be revoked without the consent of the Note Trustee.

Pursuant to Condition 5.1(e)(iii) (*Information Covenant*), the Issuer has covenanted with the Note Trustee that it will, not later than three Business Days prior to the sale of any Retained Notes which are Secured Notes, deliver to the Note Trustee a certificate in writing signed by Authorised Signatories of the Issuer confirming that, immediately following such sale, the Issuer will be in compliance with the Asset Cover Test in respect of the relevant Series of Retained Notes.

The Retained Notes may only be held on the Issuer's behalf until (but not including) the Retained Note Cancellation Date specified in the applicable Pricing Supplement (if any), and the Issuer must therefore sell the Retained Notes prior to that Retained Note Cancellation Date, or else any Retained Notes that have not been so sold will be cancelled in accordance with Condition 9.11 (*Cancellation*).

Secured Notes and Unsecured Notes: If the applicable Pricing Supplement specifies that a Series of Notes will be Secured Notes, the Issuer's obligations in respect of such Series of Notes shall be secured in accordance with the provisions of Condition 4 (*Security*) (such Notes, **Secured Notes**). The applicable Pricing Supplement may also specify that the Issuer's obligations in respect of a Series of Notes shall not be so secured (such Notes, **Unsecured Notes**).

Security (*in respect of Secured Notes Only*): The Issuer's obligations in respect of each Series of Secured Notes are secured pursuant to each Security Agreement by:

(a) first legal mortgages over all of the right, title and interest from time to time in the Charged Properties;

(b) first fixed charges over all, *inter alia*, plant and machinery which form part of the Charged Property and the benefit of Insurances and all present and future licences, consents and authorisations in respect thereof; and

(c) assignments by way of security of the Issuer's rights, title and interest arising in and to certain agreements and covenants held by the Issuer.

The security created pursuant to the Security Agreements will be apportioned to the Series Secured Parties on:

(i) a Numerical Apportionment Basis; or

(ii) a Specific Apportionment Basis,

in each case, as specified in the applicable Pricing Supplement and in accordance with and subject to the terms of the Security Trust Deed.

The Issuer's obligations in respect of each Series of Notes are also secured pursuant to the Note Trust Deed by:

(a) a first fixed charge over all moneys from time to time standing to the credit of the Series Charged Account in relation to such Series and all debts represented thereby;

(b) an assignment by way of security of the Issuer's rights, title and interest arising under the Agency Agreement and the Account Agreement, to the extent they relate to such Series; and

(c) a first fixed charge over all of the rights of the Issuer in respect of any sums held from time to time by the Paying Agents for the payment of principal, premium or interest in respect of such Series.

The claims of the Series Secured Parties in respect of such Series will rank in priority to the claims of the unsecured creditors.

Negative Pledge (*in respect of Secured Notes only*)

In respect of each Series of Secured Notes, the Issuer has covenanted (pursuant to Condition 5.1(b) (*Negative Pledge and Disposals*)), for so long as any of the Secured Notes of such Series remain outstanding, not to create or permit to subsist any mortgage or charge or any other security interest ranking in priority to, or *pari passu* with, the Series Security over any of the Series Charged Property, save as expressly permitted by the Note Trust Deed and/or the Security Documents and excluding, for this purpose, any security interest created by or pursuant to the Note Trust Deed or by operation of law.

There is no negative pledge in respect of the Unsecured Notes.

Asset Cover Covenant (*in respect of Secured Notes only*)

Pursuant to Condition 5.1(c) (*Asset Cover Covenant*) the Issuer has covenanted, for so long as any of the Secured Notes of each Series remain outstanding, that it shall at all times ensure that the sum of:

(a) the Minimum Value of the Charged Properties in respect of the relevant Series of Secured Notes multiplied by the Series Security Percentage; and

(b) the Charged Cash in respect of such Series of Secured Notes,

will not be less than the aggregate principal amount of the Secured Notes of such Series that remain outstanding (excluding, for this purpose, any Retained Notes held by or on behalf of the Issuer in respect of such Series).

In calculating the Minimum Value of the Charged Properties, a discount is applied in accordance with the definition thereof such that any value given in a valuation of Charged Properties on an EUV-SH basis is divided by 105, and any value given in a valuation of Charged Properties on an MV-ST basis is divided by 115, and, in each case, is multiplied by 100.

Valuations (*in respect of Secured Notes only*):

In respect of each Series of Secured Notes, the Issuer has covenanted, pursuant to Condition 5.1(d) (*Valuations*) (and subject as provided therein), for so long as any of the Secured Notes of such Series remain outstanding, that it shall deliver a Rolling Valuation to the Note Trustee and the Security Trustee in the period between 31 March and the date falling 60 days thereafter in each year, whereby the valuer values:

(a) not less than 20 per cent. of the Charged Properties on a Full Valuation Basis; and

(b) the remaining Charged Properties on a Desk Top Valuation Basis.

For these purposes, (i) the Charged Properties to be valued on a Full Valuation Basis in any year must not include any Charged Properties which have been valued on a Full Valuation Basis in the preceding two years; and (ii) in any five-year period, 100 per cent. of the Charged Properties must be valued on a Full Valuation Basis, taking into account any additions or withdrawals of Charged Properties.

Notwithstanding the above, pursuant to Condition 5.1(d)(ii), the Issuer may elect, by notice to the Note Trustee and the Security Trustee, to provide Valuations as follows:

(a) a Full Valuation at least once in every period of five calendar years. Unless the Note Trustee agrees otherwise, the first Full Valuation must be delivered in the period between 31 March next following an election made in accordance with Condition 5.1(d)(ii) and the date falling 60 days thereafter, and subsequent Full Valuations must be delivered in the period between 31 March and the date falling 60 days after 31 March in each fifth year after the previous Full Valuation delivered in accordance with this paragraph (a) (or within the same period in any prior calendar year); and

(b) a Desk Top Valuation in the period between 31 March and the date falling 60 days thereafter in each year (beginning in the year following the year in which a Full Valuation is first produced in accordance with paragraph (a) above other than a year in respect of which a Full Valuation is required to be delivered pursuant to paragraph (a) above.

Addition, Substitution and Release of Charged Properties and Charged Cash (*in respect of Secured Notes only*):

The Issuer may, in respect of each Series of Secured Notes, charge and/or allocate, substitute or release and/or reallocate Charged Properties from the Series Property Security (and the Note Trustee, in its capacity as Representative, shall consent to such charging and/or allocation, substitution or release and/or reallocation and countersign an amended Apportionment Certificate to reflect the same) subject to, and in accordance with, the requirements set out in Conditions 6.1 (*Addition of New Charged Properties*), 6.2 (*Substitution of Charged Properties*), 6.3 (*Release and/or Reallocation of Charged Properties*) and 6.4 (*Statutory Disposals*).

The Issuer may also, at any time, deposit money into the applicable Series Charged Account relating to a Series of Secured Notes to ensure compliance with the Asset Cover Covenant relating to that Series.

Unencumbered Assets Covenant (*in respect of Unsecured Notes only*)

Pursuant to Condition 5.2(b) (*Unencumbered Assets Covenant*) the Issuer has covenanted that, for so long as any of the Unsecured Notes of any Series remain outstanding, it shall ensure that the Unencumbered Assets of the Issuer shall not be less than 125 per cent. of the Unsecured Financial Indebtedness of the Issuer.

Information Covenant:

In respect of each Series of Notes, the Issuer has covenanted to deliver to the Note Trustee, within 180 days after the end of each Financial Year:

(a) a copy of its own and its consolidated audited financial statements for such Financial Year; and

(b) a Compliance Certificate,

and, upon request by a Noteholder to the Issuer, (i) to make copies of such documents available to any of the Noteholders at the Issuer's registered office or (ii) to provide copies of such documents by email upon request, subject to satisfactory evidence of the Noteholder's holding of Notes and identity.

In addition to the rights of the Noteholders of each Series to convene a meeting pursuant to Condition 18 (*Meetings of Noteholders, Modification, Waiver and Authorisation*), at the request of the requisite number of the Noteholders of any Series, the Issuer shall hold a meeting of the Noteholders of such Series (including by way of conference call) to discuss the financial position of the Issuer, provided that the Issuer shall not be required to hold any such meeting more than once in any calendar year.

Events of Default:

Following the occurrence of an Event of Default the Note Trustee may, and if so requested by the holders of at least 25 per cent. in principal amount of the Notes of the relevant Series then outstanding shall (subject to it being secured and/or indemnified and/or prefunded to its satisfaction and, upon certain events, the Note Trustee having certified to the Issuer that such event is, in its opinion, materially prejudicial to the interests of the Noteholders of such Series), give notice to the Issuer and the Notes of such Series shall become immediately due and repayable at their principal amount, together with accrued interest, and (in respect of a Series of Secured Notes) the Series Security shall become enforceable.

The Events of Default in relation to each Series of Secured Notes include, *inter alia*, non-payment of any principal, premium and interest due in respect of the Notes of the relevant Series and failure of the Issuer to perform or observe any of its other obligations under the Conditions of the Notes, the Note Trust Deed or the Security Documents (in each case, upon the expiry of the relevant grace period), insolvency, unlawfulness and acceleration, or non-payment, in respect of other indebtedness in an aggregate amount equal to or in excess of £20,000,000 (or its equivalent).

The Events of Default in relation to each Series of Unsecured Notes include, *inter alia*, non-payment of any principal, premium and interest due in respect of the Notes of the relevant Series and failure of the Issuer to perform or observe any of its other obligations under the Conditions of the Notes or the Note Trust Deed (in each case, upon the expiry of the relevant grace period), insolvency, unlawfulness and acceleration, or non-payment, in respect of other indebtedness in an aggregate amount equal to or in excess of £20,000,000 (or its equivalent).

Taxation:

All payments in respect of the Notes will be made without deduction for or on account of withholding taxes imposed by any Tax Jurisdiction as provided in Condition 10 (*Taxation*). In the event that any such deduction is made, the Issuer will, save in certain limited circumstances provided in Condition 10 (*Taxation*), be required to pay additional amounts to cover the amounts so deducted.

Meetings of Noteholders:	The Conditions of the Notes and the Note Trust Deed contain provisions for calling meetings of Noteholders (including by way of conference call) of the relevant Series to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders of the relevant Series including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.
Modification and Waiver:	The Note Trustee may, pursuant to Condition 18 (*Meetings of Noteholders, Modification, Waiver and Authorisation*), without the consent of Noteholders, Receiptholders, Couponholders or, in respect of a Series of Secured Notes, any Series Secured Party, agree to any modification of, or to the waiver or authorisation of any breach or proposed breach of, the Conditions, the Note Trust Deed or any other Programme Document or determine that any Potential Event of Default or Event of Default shall not be treated as such (subject to the proviso in Condition 18.2) or consent to any modification which, in its opinion, is of a formal, minor or technical nature or to correct a manifest error or an error which is, in the opinion of the Note Trustee, proven. In respect of each Series of Secured Notes, no modification shall be made to Condition 4.2 (*Post-enforcement*) without the consent of each Series Secured Party.
Risk Factors:	There are certain factors that may affect the Issuer's ability to fulfil its obligations under Notes issued under the Programme. In addition, there are certain factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme and risks relating to the structure of a particular Series of Notes issued under the Programme. All of these are set out under "*Risk Factors*".
Rating:	The Issuer and the Programme (both in relation to Secured Notes and Unsecured Notes) have each been rated "A-" by Fitch and "A3" by Moody's. Series of Notes issued under the Programme may be rated or unrated. Where a Series of Notes is rated, such rating will be disclosed in the applicable Pricing Supplement and will not necessarily be the same as the ratings assigned to the Programme. A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.
Admission to trading:	Application has been made for Notes issued under the Programme to be admitted to trading on the ISM and, in respect of any Notes which are specified as "Social Bonds", "Green Bonds" or "Sustainable Bonds" in the applicable Pricing Supplement, application may also (if so specified in the applicable Pricing Supplement) be made for such Notes to be admitted to trading on the SBM. Notes may be listed or admitted to trading, as the case may be, on other or further stock exchanges or markets agreed between the Issuer and the relevant Dealer in relation to the Series. Notes which are neither listed nor admitted to trading on any market may also be issued. The applicable Pricing Supplement will state whether or not the relevant Notes are to be listed and/or admitted to trading and, if so, on which stock exchanges and/or markets.

Risk Factors

In purchasing Notes, investors assume the risk that the Issuer may become insolvent or otherwise be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in the Issuer becoming unable to make all payments due. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuer may not be aware of all relevant factors and certain factors which it currently deems not to be material may become material as a result of the occurrence of events outside the Issuer's control. The Issuer has identified in these Programme Admission Particulars a number of factors which could materially adversely affect its business and ability to make payments due.

In addition, factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below.

Prospective investors should also read the detailed information set out elsewhere in these Programme Admission Particulars and reach their own views prior to making any investment decision.

Factors which may affect the Issuer's ability to fulfil its obligations under the Notes

A. Risks relating to the Issuer's business activities and industry

Housing assets

The Issuer owns, maintains, manages and develops residential accommodation across a range of tenure types, principally homes for social and affordable rent and low-cost home ownership. If the Issuer was faced with material property cost increases which it could not effectively fund or which materially reduced the value of its housing assets, or was faced with unforeseen circumstances which made a material proportion of its housing assets unavailable for income generation, this could adversely affect the Issuer's ability to meet its payment obligations on a timely basis under the Notes.

Energy efficiency and decarbonisation

The Climate Change Act 2008 established a legal framework for delivering greenhouse gas emissions reductions across the UK, including a 2050 carbon reduction target and interim carbon budgets. The Climate Change Act 2008 (2050 Target Amendment) Order 2019 created a legally binding requirement to accelerate reductions from the earlier target, to reduce greenhouse gas emissions by 100 per cent. compared to 1990 levels. This is known as a 'net-zero' target across the UK.

The Clean Growth Strategy published by Government in 2017 set an ambition to upgrade homes across the social housing sector to Energy Performance Certificate (**EPC**) rating Band C or better by 2030. As at 31 March 2026 77 per cent. of the Issuer's housing stock was EPC Band A-C. The Issuer owns or manages 13,991 properties with EPC Band D or lower. The Issuer has a fully costed plan of work to address the 2030 target, based upon current cost estimates.

In 2021, the UK Government launched a Future Buildings Standard consultation which included proposals to improve standards when works such as refurbishment are carried out in existing homes. The outcome of the consultation was published in December 2021 and compliance with the standard is now mandatory. Interim requirements, by way of amendments to the building regulations for both domestic and non-domestic buildings came into force on 15 June 2022. Following further consultation, the Future Homes and Buildings Standards (**FHBS**) proposed a set of building regulations and guidance for new homes and non-domestic buildings in England with the aim of significantly reducing carbon emissions compared to current standards and so to avoid the need for retrofit in future. The regulations to implement the FHBS were laid before Parliament in March 2026 and will come into force from March 2027 (and for Higher Risk Buildings (**HRBs**), September 2027). If, in future, the requirements were changed or additional requirements were introduced then the Issuer's costs may rise. If the Issuer was faced with material unforeseen costs in relation to meeting energy efficiency targets which it could not effectively fund, this could have an adverse impact on the Issuer's ability to meet its payment obligations on a timely basis under the Notes.

Building safety

Following the tragic fire and loss of life and property at Grenfell Tower in the Royal Borough of Kensington and Chelsea in 2017, the Issuer has undertaken a comprehensive programme of investigations and assessments of external wall systems across its residential portfolio. As at 31 March 2026, the Issuer had 79 HRBs where it is the Principal Accountable Person. 28 HRBs have been identified as requiring remediation, works have been completed at 7 buildings and are planned at the remaining 21.

The Issuer uses PAS 9980 assessments to inform the fire risk appraisal of external wall construction and cladding systems and to support a risk-based approach to remediation prioritisation. This approach is consistent with the UK Government's recent reforms to the building safety regime, including the Written Ministerial Statement published on 9 July 2026, which confirmed a move towards prioritisation based on risk to life and building-specific evidence rather than building height alone.

The Issuer recognised a provision of £49 million for future building safety works in its accounts for the year ended 31 March 2026, reflecting improved data and greater certainty over the scope, timing and cost of remedial and safety-related activity. The provision relates principally to leasehold and shared ownership properties requiring investigation, remediation and other building safety interventions. The Issuer's Board has approved that in most cases leaseholders will not be recharged for remediation works identified through PAS 9980 assessments.

The UK Government has also announced the extension of funding support for a limited number of lower-rise residential buildings with serious cladding-related fire safety risks, to be administered through the Cladding Safety Scheme. The Issuer will continue to review the eligibility of affected buildings for available funding and cost recovery opportunities.

Laws, regulations, guidance and policy relating to building safety continue to evolve and may impose additional requirements on the Issuer in relation to its housing stock. The Issuer maintains a fully costed programme of works to address known building safety risks. However, should applicable standards change further, additional defects be identified, or remediation requirements emerge from ongoing investigations and assessments, the Issuer's costs of compliance may increase. While future UK Government funding initiatives and third-party cost recovery opportunities may partially mitigate such costs, there can be no assurance that these will be available or sufficient. If the Issuer were to incur material unforeseen remediation, maintenance or modernisation costs that it could not effectively fund, this could adversely affect the Issuer's ability to meet its payment obligations under the Notes.

Damp and mould

Damp and mould have always been pervasive hazards which could potentially impact the social housing sector. However, following the death of Awaab Ishak in December 2020 from a respiratory condition largely caused by exposure to untreated mould in his home, these issues have been brought to the forefront of the political agenda.

The Issuer has an action plan covering 10 recommendations required to achieve a zero-tolerance approach to damp and mould and keeps these under review to ensure it is improving its response to reports of damp and mould. The Issuer actively encourages its residents to report damp and mould in their homes, to have oversight of any issues to mitigate the risk.

Should the Issuer incur any unexpected significant costs and/or should it fail to comply with any regulatory obligations in relation to damp and mould, this could have an adverse impact on the Issuer's results from operations and, in turn, the ability of the Issuer to meet its payment obligations on a timely basis under the Notes.

Demand

External factors including economic, demographic, sociological and technological changes, as well as the availability of competing or substitute accommodation, could affect demand for the Issuer's homes. Internal factors including the Issuer's business decisions about the locations, tenures and types of housing assets they choose to build and own, the price point at which they offer them for rent or home ownership, as well as the standard to which they develop and maintain them, could also affect demand.

A reduction in demand for the Issuer's homes could adversely affect the Issuer's ability to meet its payment obligations on a timely basis under the Notes.

Disruption of housing stock availability

If there was an occurrence in the Issuer's geographical operating areas of a material event or series of events such as industrial accidents, environmental pollution, acts of terrorism, natural disasters or other unforeseen events, whether or not directly attributable to the Issuer's housing assets, which collectively had a material impact on the availability of the Issuer's housing stock for income generation, this could adversely affect the Issuer's ability to meet its payment obligations on a timely basis under the Notes.

Social Housing Rent

By virtue of its investment in, and management of, social housing assets, the majority of the Issuer's properties are social rented (general needs, sheltered housing and supported housing), all of which have limited exposure to housing market downturn risk. The Issuer's social housing letting turnover for the financial year ended 31 March 2026 represented 92 per cent. of its turnover.

This income is sensitive to UK Government policy in relation to social housing rent and, in particular, could be affected by policies impacting either the rent the Issuer is able to charge on social housing assets or its ability to recover rents due from residents, such as:

(a) the rate at which social housing rents may index over time, under powers conferred through the Housing and Regeneration Act 2008. Current policy allows rents to index at CPI+1 per cent., which will continue from April 2026 for a 10 year period;

(b) the rate of increase or decrease of the Local Housing Allowance. This is the rate which is used in some cases to determine the maximum level of housing benefit receivable by residents; and

(c) the availability of benefit payments to support residents unable to otherwise pay rents due. If there is a reduction or termination by the UK Government of housing benefit, then this may accordingly have an adverse impact on the payment of rent, as the tenants would have to pay a higher proportion of the rent themselves.

Lower rental income could adversely affect the ability of the Issuer to meet its obligations to the Noteholders in respect of the Notes.

Income collection

The Issuer's turnover depends on its capacity to collect rents due (**arrears**), and to let properties which are empty while minimising rental income foregone while they are not let (**void losses**). Both depend on effective operations and a sound policy framework. If either arrears or voids increased significantly it could adversely affect the ability of the Issuer to meet its payment obligations on a timely basis under the Notes.

The Issuer estimates 45 per cent. of general needs and independent living rent is backed by some form of state benefits. As at 31 March 2026, the Issuer's rent arrears were at 4.5 per cent.

Rising inflation will affect some of the Issuer's tenants and their ability to meet energy bills and rent obligations, which may increase rental arrears and bad debts and could adversely affect the ability of the Issuer to meet its obligations to the Noteholders in respect of the Notes.

In the year ended 31 March 2026, the Issuer's void losses were 1.20 per cent. of its maximum chargeable rent.

Cost risk

Against turnover of £719 million in its financial year ended 31 March 2026, the Issuer's operating costs were £568 million. As developers, owners and operators of residential accommodation, the Issuer has a principal risk exposure to the cost of construction, maintenance and repair of buildings. Costs in this area may increase due to factors such as changes to materials costs, health and safety regulation and/or energy efficiency regulation.

A sustained period in which cost inflation exceeded income inflation would put the Issuer's business under financial strain and ultimately could affect the ability of the Issuer to meet its payment obligations on a timely basis under Notes.

Contractor risk

The Issuer depends on an extensive network of contracted parties. The Issuer's ability to meet its obligations is in part a function of the capacity and capability of these contractors. The impact of inflation has led to challenges in the housing development sector. The Issuer has not experienced any of its contractors entering into administration since April 2025. Where contractors have previously entered administration, the Issuer promptly took control of affected sites and, where necessary, re-procured contracts. When entering new development contracts, the Issuer prioritises safeguards such as parent company guarantees and performance bonds which respond in the event of a contractor insolvency to mitigate risks this presents. However, a contractor failure such as, for example, breach of contract or financial default, could leave the Issuer exposed in relation to compliance risks and/or significant financial costs in finding alternative contractors and resolving any issues arising. Any costs incurred by the Issuer in relation to a contractor failure could have an effect on the Issuer's income and cash flow and therefore the Issuer's ability to meet its obligations to the Noteholders in respect of the Notes.

Construction delay risk

A delay to completion of an asset under construction represents an income risk as the income anticipated from the asset once completed is due at a later date. Delay also represents a liquidity risk, as anticipated sales and rental income from the completed asset are also received later. Any delay in receiving the anticipated sales and rental income could have an adverse effect on the Issuer's cash flow and its ability to meet its obligations to the Noteholders in respect of the Notes.

Development risk

Residential property is subject to varying degrees of market and development risk. Market risks include the economic environment and the risk of changes to UK Government regulation, including, but not limited to, regulation relating to planning, taxation, landlords and tenants and welfare benefits which could positively and negatively affect tenant trends in the United Kingdom. Development of existing sites and acquisition of additional sites may be subject to economic and political conditions, the availability of finance facilities and the cost of facilities where interest rates and inflation may also have an effect.

The Issuer depends on an extensive network of contracted third party suppliers for its housing development programme. The Issuer's ability to meet its obligations under the Notes are in part a function of the capacity and capability of these suppliers.

The development of units will be subject to the risks referred to above. This could have an adverse impact on the Issuer's cashflows and therefore its ability to meet its payment obligations under the Notes.

Current assets sales risk

The Group has exposure to housing market downturn risk through shared ownership first tranche sales and open market sales. In its financial year ended 31 March 2026, the income on sale by the Group of these assets was £72 million compared to total turnover for the year of the Group of £719 million. The impact of inflation and the rising cost of living on the wider economy and employment in areas where the Issuer has tenants may significantly reduce market confidence and demand as well as reduce sales values. The exposure to market risk could have an impact on the Issuer's ability to meet its payment obligations under the Notes.

Fixed assets sales risk

The Issuer sells its residual equity interest in shared ownership homes, after first tranche sales, to lessees in further tranches over time (**staircasing**). This gives the Issuer exposure to demand for staircasing. If lessees were to slow down their rate of staircasing then the Issuer's capital receipts (on the unsold tranches to be sold) would be delayed but rental income (on the unsold tranches) would continue to be received. As at 31 March 2026, the Issuer had 9,945 shared ownership properties.

The Issuer reviews its existing housing stock regularly and disposes of homes through open market sales and property auctions if it considers they are no longer economically beneficial to own. A downturn in the property market could reduce or delay the proceeds the Issuer realises from such sales.

Investment risk

The Issuer has investment in assets which are not social housing, principally student accommodation but also including a portfolio of small retail units and offices. The financial return, and value, of these assets is driven to a large extent by market factors. Any market volatility

in relation to these investments has the potential to reduce income, increase costs or decrease values, any of which has the potential to have an effect on the Issuer's ability to meet its obligations to the Noteholders in respect of the Notes.

Social housing rent linked to market levels

The regulatory framework for social housing in England introduced from April 2012 (and revised with effect from 1 April 2015) (the **Regulatory Framework**) issued by the Regulator of Social Housing (the **Regulator**) introduced a new category of social housing rent which allows Registered Providers of Social Housing (**Registered Providers**) to charge rents of up to a maximum of 80 per cent. of the local market rent level on both newly developed stock and on new lettings of a proportion of existing stock as long as it has entered into a housing supply delivery agreement with Homes England (in its capacity as a grant giving authority) and/or Greater London Authority (**GLA**). This rent is known as Affordable Rent and, as at 31 March 2026, there were 6,816 affordable rent tenancies owned and/or managed by the Issuer. As the rent level is linked to local market levels each time a new tenancy is granted, this has the potential to increase cashflow volatility because rent will fluctuate as the market does.

As at 31 March 2026, the Issuer owned and managed a portfolio of 1,386 units of key worker accommodation. The rent on these homes is also set with reference to the market rent, with discounts ranging between 15 per cent. and 25 per cent., and re-benchmarked annually.

Rental volatility could affect the ability of the Issuer to meet its obligations to the Noteholders in respect of the Notes.

B. Legal, regulatory and health and safety compliance risks

Regulatory risk

The funding and regulation of Registered Providers has undergone significant change in recent years.

Changes in the Regulatory Framework could lead to the Issuer facing increased costs in order to comply with the Regulatory Framework which could have an adverse effect on its ability to fund payments in respect of the Notes.

The Regulator has introduced a Standard on tenant satisfaction measures, which came into force on 1 April 2023. The Tenant Satisfaction Measures Standard requires Registered Providers to collect and (annually) report prescribed and meaningful tenant satisfaction data, enabling both tenants and the Regulator to better hold social landlords to account for their performance.

The Social Housing (Regulation) Act 2023 strengthens the role of the Housing Ombudsman in order to provide tenants with a means of complaint and redress for inadequate housing provision by Registered Providers. A revised Complaints Handling Code (the **Code**), setting out good practice for Registered Providers in responding to complaints fairly and effectively, was published in April 2022 and is actively enforced by the Housing Ombudsman.

These measures increase legislative obligations on the Issuer in relation to health and safety matters and will also place further reporting obligations on the Issuer in terms of its communications with tenants. It is likely that there will be associated costs for the Issuer in complying with these measures. Please refer to the "*Description of the Regulation and Funding Environment applicable to the Issuer*" for further details of the measures.

Any breach of the new measures once they are in force could lead to the exercise of the Regulator's statutory powers. As part of the new measures, there is an intention to strengthen the Regulator's enforcement powers to tackle failing Registered Providers. This will include removing the cap on the level of fines the Regulator may charge. Any such intervention by the Regulator in respect of the Issuer may affect the ability of the Issuer to meet its payment obligations under the Notes.

Legal and compliance risk

The Issuer knows the significance to its operations of, and is focused on, adhering to all legal and compliance legislation. The Issuer is continually reviewing and updating its policies and procedures to ensure the condition and safety of each property is compliant with prevailing legal and regulatory requirements. The Issuer also carries out health and safety checks of its properties on an on-going basis, including, but not limited to gas safety checks and fire risk assessments. The Issuer is not currently aware of any material failure to adhere to applicable health and safety or environmental laws, litigation or breach of regulatory laws, or failure to comply with corporate, employee or taxation laws that has not already been reported and accounted for. To date, claims made against the Issuer have not had a material impact on the revenue or business of the Issuer.

If there was any material litigation in the future or any material failure to comply with relevant legislation or regulations, this could have cost implications for the Issuer and an adverse impact on the Issuer's results or operations, which could adversely affect its ability to meet its payment obligations to Noteholders in respect of the Notes.

C. Risks relating to the Issuer's financial situation

Housing grant risk

The Issuer receives grant funding from a variety of sources, including Homes England and the GLA. Due to the nature of grant funding, there is a risk the amount of funding available and the terms of grants will vary. Following approval of a grant there is a risk Homes England and/or the GLA may revise the terms of a grant and reduce entitlement, suspend or cancel any instalment of such a grant. In certain circumstances (including, but not limited to, failure to comply with conditions or a disposal of the property funded by a grant), the grant may be required to be repaid or reused. Any such reduction in, or withdrawal of, repayment or re-use of grant funding could adversely impact the future development and/or the financial standing of the Issuer and which, in turn, could adversely affect the Issuer's ability to make payments on the Notes.

Capital resources risk: liquidity and medium-term debt funding

To mitigate liquidity risk and augment its capital resources, the Issuer relies on financing through committed lines of credit from major banks and building societies and through secured term and revolving credit facilities. The Issuer could find itself unable to access sources of financing if bank or building society lines become unavailable to it (for example, if banks and building societies are unable to provide new facilities, or extend existing facilities, or to meet commitments to provide funds under existing committed lines). This may affect the Issuer's ability to meet its payment obligations under the Notes.

Capital resources risk: long term debt funding

The Issuer raises long term funding by borrowing from a range of public and private debt market sources, including the capital markets. The Issuer's ability to raise attractively priced long term debt in the public capital markets could be adversely affected by public debt capital markets conditions, general perception of credit risk in the social housing sector and specific perception of the Issuer's credit risk, such as a reduction in their respective credit ratings which could increase the cost of accessing the public and private debt markets. If the Issuer were unable to raise long term debt in the public capital markets, or if the cost of debt issuance were to rise or the terms to become onerous, this could affect the Issuer's profitability which, in turn, may have an adverse effect on the Issuer's ability to meet its obligations to the Noteholders in respect of the Notes.

Interest rate risk

The Issuer is subject to interest rate risk in respect of its variable rate borrowing although the Group's hedging strategy seeks to reduce interest rate risk volatility and uncertainty by allowing for a balance of fixed, floating and inflation-linked debt.

Property security

The Issuer secures the majority of its long-term debt finance and standalone financial derivatives with charges over property assets. The number of properties available to secure debt increases as and when the Issuer completes its construction of new housing stock. If the Issuer were unable to charge properties on a timely basis or if there were a decline in valuation of properties that are already in charge or to be charged, that may affect the Issuer's ability to raise attractively-priced debt finance, which could affect the Issuer's profitability which, in turn, may have an adverse effect on the Issuer's ability to meet its obligations to the Noteholders in respect of the Notes.

Insurance risk

The Issuer insures its business and assets against such risks and to such extent as is usual for Registered Providers. The Issuer has the benefit of insurance for, among others, employer's liability, public liability and directors' and officers' liability at levels which the management of the Issuer considers to be prudent for the type of business in which the Issuer is engaged and commensurate with Registered Providers of a similar size. However, it is possible the Issuer's insurance cover may prove inadequate in the event insurance limits are exceeded, or if the policy of insurance does not extend to cover the specific circumstances of a case. In such cases the Issuer could be exposed to significant financial costs which could affect the Issuer's profitability and ability to meet its payment obligations to the Noteholders in respect of the Notes.

Change in UK tax policy risk

The current economic environment and any changes to UK Government policy on tax and national insurance could affect the Issuer. Any unanticipated additional or increased taxes could have an effect on the finances of the Issuer. As an employer, the Issuer is required to calculate and pay National Insurance contributions in respect of the earnings of its employees. From 6 April 2025 the employers' National Insurance rate went up from 13.8 per cent. to 15 per cent.. Additionally, any changes to UK tax policy could affect some of the Issuers' tenants and their ability to meet rent obligations, which may increase rental arrears. In such circumstances, increased costs and/or an increase the rental income arrears and bad debts, could adversely affect the ability of the Issuer to meet their obligations to the Noteholders in respect of the Notes.

Defined benefit pensions risk

The Issuer actively participates in the following defined benefit pension schemes:

- the Optivo Defined Benefit Pension Scheme administered by The Pensions Trust (**ODBPS**);
- Horizon Housing Group Pension Scheme (**HHGPS**); and
- The Southern Housing Group Pension Plan (**SHGPP**).

The defined benefit structure for each scheme is closed to new members, however the Issuer did permit the admission of nine (in total) new members into SHGPP where those members were removed from the Local Government Pension Scheme (**LGPS**) funds which the Issuer closed to accrual during the 2025/26 financial year. The Issuer is now in consultation with the active members of ODBPS and HHGPS about moving them into one of the sections of SHGPP (the 2017 section – see further below) for future accrual, which would mean the admission of further new members into SHGPP, but with their accrued benefits remaining in the current schemes.

The Issuer has ceased accrual in the East Sussex County Council Pension Fund (**ESPF**) and is in the process of finalising the exit position with the administering authority.

The Issuer also previously participated in the Kent County Council Pension Fund (**KPF**) and Isle of Wight Pension Fund (**IWPF**).

ODBPS: ODBPS is a scheme administered by The Pensions Trust (**TPT**) which was created when the Issuer bulk-transferred certain assets and liabilities associated with its members out of the Social Housing Pension Scheme and into a single employer scheme under the same TPT umbrella. The Issuer paid contributions of £6.0 million during the financial year 2025/26 as part of an agreed plan to aim to eliminate the deficit from the last triennial valuation (as at 30 September 2023) by 28 February 2026. As at 31 March 2026, the position of the Issuer in the ODBPS was assessed to be £3.4 million in surplus on an FRS102 basis.

TPT has undertaken a benefit review and has asked the High Court for a determination on whether historic changes to the TPT rules and SHPS scheme documents were validly made. If there is a finding that the changes were not valid, this could result in the liabilities of the Issuer in ODBPS increasing, necessitating additional payments into the scheme. The case has been heard but the outcome will not be known until at least Autumn 2026.

HHGPS: The HHGPS is a scheme specific to current and former employees of the Issuer. As at 31 March 2026, the position of the Issuer in the HHGPS was assessed to be £13.9 million in surplus on an FRS102 basis (however the Issuer does not recognise any of that surplus). The Issuer paid contributions of £29,000 during the financial year 2025/26.

SHGPP: The SHGPP is a plan specific to current and former employees of the Issuer. It has three sections: the 1964 section, the 2017 section and the "Third Fund" section.

(a) In the 1964 section, the position of the Issuer was assessed to be £2.2 million in surplus on a FRS102 basis as at 31 March 2026 (however the Issuer does not recognise any of that surplus). The Issuer paid contributions of £0.2 million during the financial year 2025/26.

(b) In the 2017 section, the position of the Issuer was assessed to be £1.3 million in deficit on an FRS102 basis as at 31 March 2026. The Issuer paid contributions of £0.9 million during the financial year 2025/26. The 2017 section was formed by a separate bulk transfer out of the Social Housing Pension Scheme (and there was then a further bulk transfer which followed), but because these were transfers to a scheme outside of TPT then any additional liabilities arising out of the benefit review referred to above are less likely to become the responsibility of the Issuer. However, TPT has not ruled out potential pursuit against any employer who has fully transferred out its liabilities.

(c) The Issuer jointly employs a small number of members in the Third Fund section but the level of pension payments under the Third Fund is nominal and so the deficit (if any) is insignificant.

As noted above, the Issuer may move the active members in ODBPS and HHGPS into the SHGPP 2017 section in respect of future accrual, making them deferred members in those schemes and leaving those schemes with no active members.

All of the above schemes may be adversely affected by, but have made no allowance for, the impact of the *Virgin Media v NTL Pension Trustees Limited* case. The case determined that changes made between 6 April 1997 and 5 April 2016 for contracted-out pension schemes which did not have the necessary actuarial confirmation were invalid. The UK Government has legislated to allow schemes to retrospectively obtain written actuarial confirmation that historic benefit changes met the necessary standards. Whether or not there are any changes that would be invalid as a result of the Virgin Media judgment and not resolvable by the statutory fix is unknown.

LGPS: The LGPS is a public sector pension scheme independently administered locally through various regional pension funds in accordance with the LGPS Regulations 2013. The LGPS is a defined benefit scheme which is currently based on average revalued earnings over a member's career. ESPF, KPF and IWPF are all LGPS funds.

ESPF: The Issuer closed ESPF to future accrual with effect from 31 March 2026. The exit actuarial valuation process is ongoing but as at 31 March 2026 (which will be treated as the Issuer's exit date from ESPF), the position of the Issuer in the ESPF was assessed to be £16.0 million in surplus on an FRS102 basis (however the Issuer does not recognise any of the surplus – it is not guaranteed to receive any of it as an exit credit when ESPF has completed the exit actuarial valuation process).

IWPF: The Issuer exited IWPF on 30 June 2025 and received an exit credit from IWPF.

KPF: The Issuer exited the KPF on 8 January 2024 and has paid its exit deficit but has an ongoing liability in relation to unfunded pension benefits of approximately £30,000 per annum.

General: The Issuer is not guaranteed to be paid any surplus which exists in any pension scheme at point of exit.

There may be certain circumstances in which the sponsoring employers of the pension arrangements listed above are required to make good the funding deficit in short order. Certain forms of re-structuring of the Issuer may result in circumstances in which a funding deficit has to be met. For example, a transfer of engagements or a transfer under the Transfer of Undertakings (Protection of Employment) Regulations 2006 (SI 2006/246) could lead to a crystallisation of a net pension liability. However, the Issuer always carefully considers the pension implications of restructuring proposals and wherever possible ensures such restructurings are organised to avoid material pension liabilities crystallising.

There is also a risk the Issuer could be required to contribute to pension schemes on the basis that it is "connected to" or "associated with" the relevant employers, whether or not it is classified as an "employer".

The Pensions Regulator may require certain parties to make contributions to certain pension schemes (this power does not apply to LGPS) that have a deficit. A contribution notice could be served on the Issuer if it is, or is connected/associated with, a defined benefit scheme, and if it was a party to an act, or a deliberate failure to act:

(i) the main purpose or one of the main purposes of which it was to prevent the recovery of an employer debt under Section 75 of the Pensions Act 1995, prevent the debt becoming due, or compromise, settle or reduce that debt. Such act or deliberate failure to act must have occurred in the 6 years preceding the Pensions Regulator issuing a statutory warning notice; or

(ii) where the effect (regardless of intention) was to materially weaken the respective pension scheme by detrimentally affecting in a material way the likelihood of accrued scheme benefits being received by or in respect of members unless the Pensions Regulator is satisfied the Issuer has a statutory defence. Such act or deliberate failure to act must have occurred in the 6 years preceding the Pensions Regulator issuing a statutory warning notice; or

(iii) immediately following which the value of the assets of the scheme was less than the amount of its liabilities and had a debt fallen due under Section 75 of the Pensions Act 1995 then the act or failure to act would have materially reduced the amount of the debt likely to be recovered by the scheme, unless the Pensions Regulator is satisfied the Issuer has a statutory defence. Such act or deliberate failure to act must have occurred on or after 1 October 2021; or

(iv) which reduced the value of the employer's resources and that reduction was a material reduction relative to the estimated debt under Section 75 of the Pensions Act 1995 unless the Pensions Regulator is satisfied the Issuer has a statutory defence. Such act or deliberate failure to act must have occurred on or after 1 October 2021.

A financial support direction could be served on the Issuer if the Issuer is connected to/associated with a defined benefit scheme where the employer is insufficiently resourced or where the employer is a service company (i.e. a company whose turnover is solely or mainly derived from providing services to other group companies). An employer is deemed to be insufficiently resourced pursuant to the Pensions Act 2004 if the value of its resources is less than 50 per cent. of its estimated employer debt, and there is a (or more than one) connected or associated person whose resources, when added to those of the participating employer, are at least equal to 50 per cent. of the estimated employer debt.

However, the Pensions Regulator can only issue a contribution notice or financial support direction where it considers that it is reasonable to do so, having regard to a number of factors. If a contribution notice or financial support direction were to be issued against the Issuer, this could adversely affect the Issuer's ability to fulfil its payment obligations under the Notes.

Margin call risk

The Issuer makes use of standalone financial derivatives with swap counterparties to manage its interest rate risk. As interest rates fall, the Issuer can be required to provide collateral to reduce the exposure a swap counterparty has to the Issuer. All current swap counterparties of the Issuer permit it to provide property as collateral.

Risks relating to the cost of living

As a social housing provider and developer, the Issuer has a principal risk exposure to the cost of construction, maintenance and repair of buildings. Costs in this area may increase due to factors such as changes to materials, health and safety regulation and/or energy efficiency regulation. A sustained period in which cost inflation exceeds income inflation would put the Issuer under financial strain and could have an adverse impact on its ability to meet its payment obligations on a timely basis, under the Notes. In addition, the tenants of the social housing properties (as defined in Part 2 of the Housing and Regeneration Act 2008) owned by the Issuer are personally responsible for the rental payments on their tenancies and, consequently, the Issuer is exposed to the risk of tenant arrears and bad debts if the effect of rises in the cost of living on inflationary factors, and more so on utility costs, has a negative impact on the tenants' ability to pay rents. This could affect the ability of the Issuer to meet its payment obligations under the Notes.

D. Internal control risk

Permitted Reorganisations and Integration risk

The Issuer, itself the product of an amalgamation, has in the past, merged, and it may, in the future, merge, with other businesses or make business acquisitions that could impact on the performance and risk profile of the Group and, in particular, the Issuer.

The Conditions of the Notes permit the undertaking of Permitted Reorganisations (including amalgamations and transfers of engagements) by the Issuer. In the event of such a reorganisation, the resulting entity's credit risk may change, which could affect the Issuer's ability to meet its payment obligations under the Notes. Mergers and acquisitions can involve a number of risks, such as the underlying business performing less well than expected after a merger or an acquisition, the possibility of the integration diverting management's attention, the possible loss of key personnel within the merged or acquired business and other risks inherent in the systems of the merged or acquired business and associated with unanticipated events or liabilities. In addition, the Issuer may incur significant merger or acquisition, administrative and other costs in connection with any such transactions, including costs related to the integration of the merged or acquired business. These costs may include unanticipated costs or expenses, legal, regulatory and contractual costs, and expenses associated with eliminating duplicate facilities. All of the factors above could have an adverse effect on the Issuer's business, results of operations, financial condition or prospects of such merger or acquisition. In turn, this could have an adverse effect on the ability of the Issuer to meet its payment obligations on a timely basis under the Notes.

Fraud and error

The Issuer operates a system of internal controls including a three lines of defence control framework, approved delegations and transaction authorisation procedures in order to reduce the risk of fraud or error. However, if a material fraud or error were to occur that the Issuer failed to control, rectify or mitigate, it could affect the Issuer's ability to meet its payment obligations to the Noteholders in respect of the Notes.

Cyber security and fraud risks

Failure or disruption of IT systems would have a significant impact on service delivery to residents. The Issuer maintains a cyber security and business resilience framework supported by Board level oversight, a cyber security strategy, continuous monitoring through a 24/7 Security Operations Centre, regular assurance activities (including penetration testing and Cyber Essentials Plus accreditation), mandatory staff training, and supplier due diligence arrangements. Disaster recovery and business continuity plans are tested regularly, with supporting policies approved through established governance.

The risk is influenced by an increasingly complex threat landscape, including rising cyber incidents across the UK and the social housing sector and rapid advances in AI enabled vulnerability discovery and exploitation, which are narrowing patching and response timeframes. This could put pressure on the Issuer's resources in order to combat or react to such activities, which in turn could affect its ability to meet its payment obligations under the Notes. The Issuer continues to review and strengthen its cyber posture and resilience arrangements.

Data quality risk

Poor quality data could lead to operational failings, impaired decision making and fines, and could put residents at risk. Ultimately, this could have a negative impact on the Issuer's revenues and its ability to meet its payment obligations under the Notes.

Business interruption

The Issuer relies upon internet-based communication to undertake the majority of its financial transactions and banking services. The Issuer operates flexible working arrangements for its staff, working in part in the Issuer's offices as well as remotely. A major disruption in internet services or another event that renders its staff unable to work effectively or unable to complete financial transactions on a timely basis could affect the Issuer's ability to meet its payment obligations on a timely basis under the Notes.

Personnel risk

The Issuer's success depends upon the efforts of its personnel and the ability to attract and retain skilled staff. Whilst the Issuer has entered into employment contracts or letters of appointment with its personnel, no assurance can be given that changes in employees will not have a material adverse effect on the results of operations of the Issuer.

The Issuer's continued success depends upon its continuing ability to recruit and retain employees of suitable skill and experience, particularly those with experience of the housing and construction sector. The Issuer relies on recruiting and retaining employees with professional and other specialist skills, such as those with financial, IT and management skills. The Issuer competes with other Registered Providers and their organisations for such personnel and could incur costs to recruit and retain such persons. This could have an adverse effect on the Issuer's financial condition and its ability to meet its payment obligations under the Notes.

Factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme

Redemption prior to maturity: In the event that the Notes become repayable prior to maturity either following an Event of Default (as defined in the Conditions), due to taxation reasons (pursuant to Condition 9.2 (*Redemption for tax reasons*) or at the option of the Issuer (pursuant to Condition 9.3 (*Redemption at the option of the Issuer* (*Issuer Call*), Condition 9.4 (*Maturity Par Call Option*) or Condition 9.5 (*Residual Call Option*)), the Notes will be redeemed in full in an amount equal to that specified in the Conditions or the applicable Pricing Supplement, plus accrued interest. In such circumstances it may not be possible for an investor to reinvest the redemption proceeds at an effective rate of interest as high as the interest rate on the Notes. Furthermore, the optional redemption feature of the Notes is likely to limit their market value as the market value generally will not rise substantially above the price at which they can be redeemed.

B. The regulation and reform of "benchmarks" may adversely affect the value of Notes linked to or referencing such "benchmarks"

Interest rates and indices which are deemed to be "benchmarks" have been subject to significant regulatory reform in recent years. This relates not only to creation and administration of benchmarks, but, also, to the use of a benchmark rate. Most reforms have now reached their planned conclusion and "benchmarks" remain subject to ongoing monitoring. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to or referencing such a benchmark.

Regulation (EU) 2016/1011 as it forms part of domestic law by virtue of the EUWA (the **UK Benchmarks Regulation**) applies, subject to certain transitional provisions, to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the UK. Among other things, it:

(a) requires benchmark administrators to be authorised or registered (or, if non-UK-based, to be subject to an equivalent regime or otherwise recognised or endorsed); and

(b) prevents certain uses by UK supervised entities of benchmarks of administrators that are not authorised or registered (or, if non-UK based, not deemed equivalent or recognised or endorsed).

The UK Benchmarks Regulation could have a material impact on any Notes linked to, or referencing, a benchmark, in particular, if the methodology or other terms of the benchmark are changed in order to comply with the requirements of the UK Benchmarks Regulation. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the benchmark.

More broadly, any of the international or national reforms, or the general increased regulatory scrutiny of benchmarks, could increase the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any such regulations or requirements.

Such factors may have (without limitation) the following effects on certain benchmarks: (a) discouraging market participants from continuing to administer or contribute to a benchmark; (b) triggering changes in the rules or methodologies used in the benchmark; and/or (c) leading to the disappearance of the benchmark.

Any of the above changes, or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any Notes linked to, referencing, or otherwise dependent (in whole or in part) upon, a benchmark.

The Conditions of the Notes provide for certain fallback arrangements in the event that an Original Reference Rate and/or any page on which an Original Reference Rate may be published (or any other successor service) becomes unavailable or a Benchmark Event (as defined in the Conditions) otherwise occurs. Such fallback arrangements include the possibility that the Rate of Interest could be set by reference to a Successor Rate or an Alternative Rate (both as defined in the Conditions), with or without the application of an adjustment spread and may include amendments to the Conditions of the Notes to ensure the proper operation of the successor or replacement benchmark, all as determined by the Issuer (acting in good faith and in consultation with an Independent Adviser). An adjustment spread, if applied, could be positive or negative or zero and would be applied with a view to reducing or eliminating, to the fullest extent reasonably practicable in the circumstances, any economic prejudice or benefit (as applicable) to investors arising out of the replacement of an Original Reference Rate. However, it may not be possible to determine or apply an adjustment spread and, even if an adjustment is applied, such adjustment spread may not be effective to reduce or eliminate economic prejudice to investors. If no adjustment spread can be determined, a Successor Rate or Alternative Rate may nevertheless be used to determine the Rate of Interest. The use of a Successor Rate or Alternative Rate (including with the application of an adjustment spread) may still result in any Notes linked to or referencing an Original Reference Rate performing differently (which may include payment of a lower Rate of Interest) than they would if the Original Reference Rate were to continue to apply in its current form.

If, following the occurrence of a Benchmark Event, no Successor Rate or Alternative Rate is determined, the ultimate fallback for the purposes of calculating the Rate of Interest for a particular Interest Period may result in the Rate of Interest for the last preceding Interest Period being used. This may result in the effective application of a fixed rate for Floating Rate Notes based on the rate which was last observed on the Relevant Screen Page. Due to the uncertainty concerning the availability of Successor Rates and Alternative Rates, the involvement of an Independent Adviser and the potential for further regulatory developments, there is a risk that the relevant fallback provisions may not operate as intended at the relevant time. It should also be noted that fallbacks for benchmarks in hedges may operate differently than under Notes. Investors are recommended to consult their own independent advisers.

C. The market in relation to risk-free rates (including overnight rates) as reference rates is relatively new

Interest on the Notes may be determined by reference to a risk-free rate such as SONIA. SONIA, whether determined on a compounded daily basis or as a weighted average rate for a specified period, is a backwards-looking, risk-free overnight rate. As such, investors should be aware that SONIA may behave materially differently from other forward-looking term rates. The adoption of SONIA may also see component inputs into swap rates or other composite rates transferring from another reference rate to SONIA.

The development of SONIA as interest reference rates for the bond markets, as well as continued development of SONIA-based rates for such market and the market infrastructure for adopting such rates, could result in reduced liquidity or increased volatility or could otherwise affect the market price of any SONIA-referenced Notes issued under the Programme from time to time.

Investors should carefully consider these matters when making their investment decision with respect to any such Notes.

D. If the Notes include a feature to convert the interest basis from a fixed rate to a floating rate, or vice versa, this may affect the secondary market and the market value of the Notes concerned

Fixed/Floating Rate Notes are Notes which bear interest at a rate that converts from a fixed rate to a floating rate, or from a floating rate to a fixed rate. Such a feature to convert the interest basis, and any conversion of the interest basis, may affect the secondary market in, and the market value of, such Notes as the change of interest basis may result in a lower interest return for Noteholders. Where the Notes convert from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. Where the Notes convert from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on those Notes and could affect the market value of an investment in the relevant Notes.

E. Notes which are issued at a substantial discount or premium may experience price volatility in response to changes in market interest rates

The market values of securities issued at a substantial discount or premium to their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for more conventional interest-bearing securities. Generally, the longer the remaining term of such securities, the greater the price volatility as compared to more conventional interest-bearing securities with comparable maturities.

F. Modification, waivers and substitution

The Conditions of the Notes and the Note Trust Deed contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders, including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

The Conditions of the Notes and the Note Trust Deed also provide that the Note Trustee may, without the consent of the Noteholders:

(a) agree to any modification (except as stated in the Note Trust Deed) of, or to the waiver or authorisation of any breach or proposed breach of, any of the provisions of the Notes or any Programme Document (to which it is a party);

(b) determine without the consent of the Noteholders that any Potential Event of Default or Event of Default shall not be treated as such; or

(c) agree to the substitution of another company, registered society or other entity as principal debtor under the Notes in place of the Issuer, in the circumstances described in the Conditions,

provided, in each case, that the Note Trustee is of the opinion that to do so would not be materially prejudicial to the interests of Noteholders.

G. Denominations involve integral multiples: definitive Notes

In relation to any issue of Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Notes may be traded in amounts in excess of the minimum Specified Denomination that are not integral multiples of such minimum Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in its account with the relevant clearing system would not be able to sell the remainder of such holding without first purchasing a principal amount of Notes at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination. Further, a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in its account with the relevant clearing system at the relevant time may not receive a definitive Note in respect of such holding (should definitive Notes be printed) and would need to purchase a principal amount of Notes at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination.

If such Notes in definitive form are issued, holders should be aware that definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

H. Change in law

Changes in law may affect the rights of Noteholders as well as the market value of the Notes. The Conditions of the Notes are based on English law and regulatory and administrative practice in effect as at the date of these Programme Admission Particulars. No assurance can be given as to the impact of any possible judicial decision or change to English law or regulatory or administrative practice in the United Kingdom after the date of these Programme Admission Particulars. Such changes in law may include changes in statutory, tax and regulatory regimes during the life of the Notes, which may have an adverse effect on an investment in the Notes.

I. Risks related to early redemption for taxation reasons

Under Condition 10 (*Taxation*), the Issuer will not be entitled to make any deduction or withholding on account of tax from payments in respect of the Notes unless such withholding or deduction is required by law. In the event that any deduction or withholding on account of tax is required by law, the Issuer shall be required (except in the limited circumstances set out in Condition 10 (*Taxation*)) to pay such additional amounts as will result in the receipt by the Noteholders of such amounts as would have been received by them if no such withholding or deduction had been required. Where the deduction or withholding is required as a result of a change in applicable law or regulations, the Issuer may exercise its option to redeem the Notes of the relevant Series in full in an amount equal to that specified in the applicable Pricing Supplement, plus accrued interest, pursuant to Condition 9.2 (*Redemption for tax reasons*). As mentioned above, in such circumstances an investor may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the Notes. For a description of the current United Kingdom law and practice relating to withholding tax treatment of the Notes, see below in "*Taxation*".

J. Use of proceeds / Social, Green and Sustainable Bonds

To the extent specified in the applicable Pricing Supplement, Notes issued under the Programme are intended to be Social Bonds, Green Bonds or Sustainable Bonds (as defined in the Sustainable Finance Framework (as defined in the section headed "*Use of Proceeds and Sustainable Finance Framework*" below)), as applicable, and an amount equivalent to the net proceeds from the issue of Notes of each Series will be used by the Issuer for social, green or sustainable purposes, respectively, as set out in the applicable Pricing Supplement.

Notes issued as Social Bonds, Green Bonds or Sustainable Bonds may not be a suitable investment for an investor's investment criteria. Prospective investors should have regard to the information set out in the relevant Pricing Supplement and must determine for themselves the relevance of such information for the purpose of any investment in such Notes together with any other investigation such investor deems necessary.

No assurance is given by the Issuer, the Arranger, the Dealers or any of their respective affiliates or any other person that the use of the proceeds of issue of any Notes will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates. Neither the Arranger nor the Dealers nor any of their respective affiliates shall be responsible for the ongoing monitoring or verification of the use of proceeds in respect of any such Notes or any of the other targets set out in the Sustainable Finance Framework relating to any such Notes.

If the use of proceeds of any issue of Notes is a factor in a prospective investor's decision to invest in such Notes, they should consider the disclosure in the section headed "*Use of Proceeds and Sustainable Finance Framework*" below and in the applicable Pricing

Supplement and consult with their legal or other advisers before making an investment in the Notes and must determine for themselves the relevance of such information for the purpose of any investment, together with any other investigation such investor deems necessary.

It should be noted that there is currently no clearly agreed definition (legal, regulatory or otherwise) of, nor market consensus as to what constitutes, a "social", "green" or "sustainable" or an equivalently-labelled project or as to what precise attributes are required for a particular project to be defined as "social", "green" or "sustainable" or such other equivalent label nor can any such assurance be given that such a clear definition or consensus will develop over time. On 18 June 2020, Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment was adopted by the Council and the European Parliament (the **EU Taxonomy Regulation**). The EU Taxonomy Regulation establishes a single EU-wide classification system, or "taxonomy", which provides companies and investors with a common language for determining which economic activities can be considered environmentally sustainable. In addition, the FCA has, on 31 May 2024, introduced its Anti-Greenwashing Rule which requires communications to be (a) consistent with the sustainability characteristics of the product or service and (b) fair, clear and not misleading. The "*Finalised non-handbook guidance on the Anti-Greenwashing Rule*" further clarifies that sustainability references should be correct and capable of being substantiated, clear and presented in a way that can be understood and complete (they should not omit or hide important information and should consider the full life cycle of the product or service), and comparisons to other products or services should be fair and meaningful. The guidance recognises that the terms "environmental", "social" and "governance" are used to refer to sustainability, but also notes that there is no single definition of sustainability.

Accordingly, no assurance is or can be given by the Issuer, the Arranger, the Dealers or any of their respective affiliates or any other person to investors that any projects or uses of the proceeds will meet any or all investor expectations regarding such "sustainable" or other equivalently-labelled performance objectives or that any adverse sustainable and/or other impacts will not occur during the implementation of any projects or uses of the proceeds. In addition, no assurance can be given by the Issuer, the Arranger, the Dealers or any of their respective affiliates or any other person to investors that any Notes will comply with any future standards or requirements for being Social Bonds, Green Bonds or Sustainable Bonds and, accordingly, the Social Bond, Green Bond or Sustainable Bond status of the Notes, as applicable, could be withdrawn at any time.

Furthermore, there is no contractual obligation to allocate the proceeds of any Notes to finance eligible businesses and projects or to provide annual progress reports as described in the applicable Pricing Supplement. The Issuer's failure to allocate the proceeds of any particular Social Bond, Green Bond or Sustainable Bond to finance an eligible project or to provide annual progress reports, the failure of any of the eligible projects to meet any or all investor expectations regarding such performance objectives, or the failure of an independent external review provider to issue a second party opinion on the allocation of the bond proceeds, will not constitute an Event of Default or breach of contract with respect to any particular Social Bond, Green Bond or Sustainable Bond and none of the Note Trustee, the Arranger or the Dealers or any of their respective affiliates will have any responsibility for the ongoing monitoring or verification of any such proceeds.

No assurance or representation is given by the Issuer, the Arranger, the Dealers or any of their respective affiliates or any other person as to the suitability or reliability for any purpose whatsoever of any opinion or certification of any third party (whether or not solicited by the Issuer) which may be made available in connection with the issue of any Notes (including, without limitation, any second party opinion). For the avoidance of doubt, any such opinion or certification is not, nor shall it be deemed to be, incorporated in and/or form part of these Programme Admission Particulars. Any such opinion or certification is not, nor should it be deemed to be, a recommendation by the Issuer, the Arranger, the Dealers or any of their respective affiliates or any other person to buy, sell or hold any such Notes. No such opinion or certification is intended to address any credit, market or other aspects of any investment in any Notes, including without limitation market price, marketability, investor preference or suitability of any security or any other factors that may affect the value of the Notes. The Noteholders have no recourse against the Issuer, the Arranger, any Dealer or any of their respective affiliates or the provider of any such opinion or certification for the contents of any such opinion or certification. Any such opinion or certification is only current as at the date that opinion was initially issued and the providers of such opinions and certifications are under no obligation to update them following their issue. Prospective investors must determine for themselves the relevance of any such opinion or certification and/or the information contained therein and/or the provider of such opinion or certification for the purpose of any investment in any Notes. Currently, the providers of such opinions and certifications are not subject to any specific or regulatory or other regime or oversight, although the Financial Services and Markets Act 2000 (Regulated Activities) ESG Ratings) Order 2025 which came into force in December 2025 introduces reforms to bring certain ESG rating activities (which may include the provision of any second party opinion) under the regulatory remit of the Financial Conduct Authority from June 2028. The criteria and/or considerations that form the basis of the Second Party Opinion and any other such opinion or certification may change at any time and the Second Party Opinion may be amended, updated, supplemented, replaced and/or withdrawn at any time. Any withdrawal of the Second Party Opinion or any other opinion or certification may have a material adverse effect on the value of any Social Bonds, Green Bonds or Sustainable Bonds in respect of which such opinion or certification is given and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose. As at the date of these Programme Admission Particulars, the providers of such opinions and certifications are not subject to any specific regulatory or other regime or oversight. Prospective investors must determine for themselves the relevance of the Second Party Opinion and any such opinion or certification and/or the information contained therein.

In the event that any such Notes are listed or admitted to trading on any dedicated "social", "green" or "sustainable" or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated), including the SBM of the London Stock Exchange, no representation or assurance is given by the Issuer, the Arranger, the Dealers or any of their respective affiliates or any other person that such listing or admission satisfies, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect sustainable impact of any projects or uses, the subject of or related to, any sustainability reports. Furthermore, it should be noted that the criteria for any such listings or admission to trading may vary from one stock exchange or securities market to another. Nor is any representation or assurance given or made by the Issuer, the Arranger, the Dealers or any of their respective affiliates or any other person that any such listing or admission to trading will be obtained in respect of any such Notes or, if obtained, that any such listing or admission to trading will be maintained during the life of the Notes.

Any such event or failure to apply an amount equivalent to the net proceeds of any Notes issued as Social Bonds, Green Bonds or Sustainable Bonds for any eligible social, green or sustainable project and/or any withdrawal of any such opinion or certification or any such opinion or certification attesting that the Issuer is not complying in whole or in part with any matters for which such opinion or certification is opining or certifying on and/or any such Notes no longer being listed or admitted to trading on any stock exchange or

securities market as aforesaid may have a material adverse effect on the value of such Notes and also potentially the value of any other Notes and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose.

K. The impact on investor demand for Green Bonds or Sustainable Bonds of the European Green Bond Standard is unclear

Regulation (EU) 2023/2631 introduced European Green Bond Standard with effect from 21 December 2024, which is a voluntary label for issuers of green use of proceeds bonds (such as any Green Bonds or Sustainable Bonds which may be issued under the Programme) where the proceeds will be invested in economic activities aligned with the EU Taxonomy Regulation. Any Green Bonds or Sustainable Bonds issued under the Programme are intended to comply with the criteria and processes set out in the Sustainable Finance Framework and are not aligned with the European Green Bond Standard. As the European Green Bond Standard is a voluntary label, it is not clear, at this stage, whether the European Green Bond Standard may impact investor demand for, and pricing of, green use of proceeds bonds (such as any Green Bonds or Sustainable Bonds which may be issued under the Programme) that do not meet such standard. It could reduce demand and liquidity for Green Bonds or Sustainable Bonds and their price.

Risks Relating to the Security for the Secured Notes

A. Considerations relating to the Series Security

The validity of any security given by the Issuer in connection with additions of Charged Properties may depend on the solvency of the Issuer at the time of the grant. If any Series Security is found to be invalid as a result, this will affect the amounts available to Noteholders in the event of a default under the Secured Notes.

B. Environmental considerations

Under relevant UK environmental legislation, liability for environmental matters can be imposed on the "owner" or any "person in control" of land. The term "person in control" is not specifically defined and could include a representative of a trustee as a mortgagee in possession (in respect of which see the risk factor entitled "*Mortgagee in Possession Liability*" below). Environmental laws may impose liability on the owner for clean-up costs if a property is or becomes contaminated. The Issuer may therefore be liable for the entire amount of the clean-up and redemption costs for a contaminated site regardless of whether the contamination was caused by it or not. These costs may be significant and may affect its ability to meet its payment obligations under the Secured Notes.

In addition, the presence of hazardous or toxic substances, or the failure to adequately remedy adverse environmental conditions at a Charged Property, may adversely affect the market value of the Charged Property, as well as the Issuer's ability to sell, lease or refinance the Charged Property. Any environmental liability imposed on the Issuer could also affect its ability to meet its payment obligations under the Secured Notes.

C. Sufficiency of insurance

Although each Charged Property is required to be insured at appropriate levels and against customary risks, there can be no assurance that any loss incurred will be of a type covered by such insurance, nor can there be any assurance that the loss will not exceed the limits of such insurance. Any reduction in income or any loss or damage caused to a Charged Property not adequately covered by insurance could result in a shortfall in funds available to meet the Issuer's payment obligations under the Secured Notes.

D. Fixed charges may take effect under English law as floating charges

Pursuant to the Note Trust Deed, the Issuer has purported to grant fixed charges over, amongst other things, all moneys and/or securities from time to time standing to the credit of each Series Charged Account. English law relating to the characterisation of fixed charges is unsettled. The fixed charges purported to be granted by the Issuer (other than assignment of security) may take effect under English law only as floating charges if, for example, it is determined that the Note Trustee does not exert sufficient control over the charged assets for the security to be said to "fix" over those assets. If the charges take effect as floating charges instead of fixed charges, then the claims of the Note Trustee will be subject to claims which are given priority over a floating charge by law, including, amongst other things, prior charges, certain subsequent charges, the expenses of any winding up or administration and the claims of preferential creditors. Consequently, there may be less money available to pay Noteholders what is owed to them under the Secured Notes.

E. Mortgagee in possession liability

There is a risk that the Security Trustee may be deemed to be a mortgagee in possession if it physically enters into possession of a Charged Property or performs an act of control or influence which may amount to possession, such as submitting a demand direct to tenants requiring them to pay rents to the Security Trustee. In such circumstances the Security Trustee may incur further costs and expenses which will be recoverable by it from the enforcement proceeds prior to any payment being made to the Issuer, thereby reducing the amounts available to the Issuer to pay amounts owing under the Secured Notes.

F. Moratorium and housing administration

The Security Trustee must notify the Regulator of its intention to enforce its security and cannot enforce its security during the resulting moratorium without the consent of the Regulator. This may adversely affect the Security Trustee's ability to enforce the security over the Charged Properties.

The Security Trustee's ability to enforce the security over the Charged Properties may also be adversely affected for so long as any housing administration order is in place in respect of the Issuer or could result in a housing administrator disposing of Charged Property belonging to the Issuer at a time when proceeds are not sufficient to discharge the Issuer's obligations under the Secured Notes.

Risks Relating to the Unsecured Notes

Unencumbered Assets Test: The Unencumbered Assets Test calculates the number of unencumbered assets based on the value of total assets less the secured debt of the Issuer.

All secured debt facilities and secured standalone derivatives of the Issuer contain an asset cover covenant, requiring the Issuer to charge real property assets with an aggregate value in excess of the principal amount of the secured debt or hedging liabilities (such excess being the **Asset Cover Haircut**). The Asset Cover Haircut is typically 105-110 per cent. EUV-SH and 115-125 per cent. MV-ST.

A calculation of the unencumbered assets on the basis of the value of total assets less the aggregate of (a) secured debt plus (b) the Asset Cover Haircut would produce a lower figure.

As the Unencumbered Assets Test takes no account of the Asset Cover Haircut (i.e. the additional security that the Issuer must charge in excess of the principal amount of the secured debt facilities and standalone derivatives) it will artificially inflate the unencumbered assets figure which holders of Unsecured Notes may have access to in an enforcement scenario. Consequently, there may be less money available to pay Noteholders in such circumstances as may be implied by the Unencumbered Assets Test.

Risks related to the market generally

A. Potential limited liquidity

Notes may have no established trading market when issued, and one may never develop. If a market for the Notes does develop, it may not be very liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities.

B. The value of Fixed Rate Notes may be adversely affected by movements in market interest rates

Investment in Fixed Rate Notes involves the risk that if market interest rates subsequently increase above the rate paid on the Fixed Rate Notes, this will adversely affect the value of the Fixed Rate Notes.

C. Exchange rate risks and exchange controls

The Issuer does not have any control over factors that generally affect exchange rate risks, such as economic, financial and political events, and the supply and demand for applicable currencies. In recent years, exchange rates between certain currencies have been volatile and volatility between such currencies or with other currencies may be expected in the future.

The Issuer will pay principal and interest on the Notes in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the **Investor's Currency**) other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (a) the Investor's Currency-equivalent yield on the Notes, (b) the Investor's Currency equivalent value of the principal payable on the Notes and (c) the Investor's Currency equivalent market value of the Notes. Even if there are no actual exchange controls, it is possible that the Specified Currency for any particular Series of Notes would not be available at maturity of such Series of Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate or the ability of the Issuer to make payments in respect of the Notes. As a result, investors may receive less interest or principal than expected, or no interest or principal.

D. Credit ratings may not reflect all risks

The on-going creditworthiness of the Issuer depends on many factors, including the link to national government, industry, competitive, financial and operational performance, economic factors, the level of drawn debt, the ability to access new debt and the strength of the Issuer's management and governance structure. Actual deterioration or a perceived deterioration in any of these factors or a combination of these factors may result in a downgrade in the Issuer's perceived creditworthiness as indicated by the Issuer's issued credit ratings that could, in turn, cause the trading price of the Notes to decline and may result in a loss of all or part of an investment in the Notes.

As with any rated entity, the rating of the Issuer may be susceptible to further adjustments (whether upward or downward) and, in particular, any adjustments which may be made as a result of a rating agency's methodology as applied to the Issuer or any other member of the Southern Group.

As at the date of these Programme Admission Particulars, each of Fitch and Moody's is established in the UK and is registered under Regulation (EC) No. 1060/2009 as it forms part of domestic law by virtue of the EUWA (the **UK CRA Regulation**). Neither Fitch nor Moody's is established in the European Union nor have they applied for registration under Regulation (EC) No. 1060/2009 (as amended)

(the **CRA Regulation**). However, the ratings issued by Fitch and Moody's have been endorsed by Fitch Ratings Ireland Limited and Moody's Deutschland GmbH, respectively, in accordance with the CRA Regulation. As at the date of these Programme Admission Particulars each of Fitch Ratings Ireland Limited and Moody's Deutschland GmbH is established in the European Union and registered under the CRA Regulation. As such, each of Fitch Ratings Ireland Limited and Moody's Deutschland GmbH is included in the list of credit rating agencies published by the ESMA on its website in accordance with the CRA Regulation.

In general, UK and European regulated investors are restricted under the UK CRA Regulation and CRA Regulation, respectively, from using credit ratings for regulatory purposes, unless such ratings are issued by (or endorsed by) a credit rating agency established, as applicable, in the UK or EU and registered under the UK CRA Regulation or the CRA Regulation (and such registration has not been withdrawn or suspended). If the status of Fitch, Fitch Ratings Ireland Limited, Moody's and/or Moody's Deutschland GmbH changes, UK and European regulated investors, as applicable, may no longer be able to use the relevant rating for regulatory purposes and the Notes may have a different regulatory treatment. This may result in UK and European regulated investors, as applicable, selling Notes held by them which may have an impact on the value of the Notes in the secondary market.

Form of the Notes

Each Tranche of Notes will be in bearer form and will initially be issued in the form of a temporary global note (a **Temporary Global Note**) or, if so specified in the applicable Pricing Supplement, a permanent global note (a **Permanent Global Note** and, together with a Temporary Global Note, each a **Global Note**) which, in either case, will:

(a) if the Global Notes are intended to be issued in new global note (**NGN**) form, as stated in the applicable Pricing Supplement, be delivered on or prior to the original issue date of the Tranche to a common safekeeper (the **Common Safekeeper**) for Euroclear Bank SA/NV (**Euroclear**) and Clearstream Banking S.A. (**Clearstream, Luxembourg**); and

(b) if the Global Notes are not intended to be issued in NGN Form, be delivered on or prior to the original issue date of the Tranche to a common depositary (the **Common Depositary**) for Euroclear and Clearstream, Luxembourg.

Where the Global Notes issued in respect of any Tranche are in NGN form, the applicable Pricing Supplement will also indicate whether such Global Notes are intended to be held in a manner which would allow Eurosystem eligibility. Any indication that the Global Notes are to be so held does not necessarily mean that the Notes of the relevant Tranche will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any time during their life as such recognition depends upon satisfaction of the Eurosystem eligibility criteria. The Common Safekeeper for NGNs will be The Bank of New York Mellon, London Branch (unless, at the time of issue of a Tranche of Notes, such Notes would satisfy the Eurosystem eligibility criteria and Euroclear or Clearstream, Luxembourg agrees to act as Common Safekeeper, in which case the Common Safekeeper will be Euroclear or Clearstream, Luxembourg or another entity approved by Euroclear and Clearstream, Luxembourg).

Whilst any Note is represented by a Temporary Global Note, payments of principal, interest (if any) and any other amount payable in respect of the Notes due prior to the Exchange Date (as defined below) will be made (against presentation of the Temporary Global Note if the Temporary Global Note is not intended to be issued in NGN form) only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of interests in the Temporary Global Note are not U.S. persons or persons who have purchased for resale to any U.S. person, as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream, Luxembourg and Euroclear and/or Clearstream, Luxembourg, as applicable, has given a like certification (based on the certifications it has received) to the Principal Paying Agent.

On and after the date which is 40 days after a Temporary Global Note is issued (the **Exchange Date**), interests in such Temporary Global Note will be exchangeable (free of charge) upon a request as described therein either for:

(a) interests in a Permanent Global Note of the same Series; or

(b) definitive Notes of the same Series with, where applicable, principal receipts, interest coupons and talons attached (as indicated in the applicable Pricing Supplement),

in each case against certification of beneficial ownership as described above unless such certification has already been given.

The holder of a Temporary Global Note will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due certification, exchange of the Temporary Global Note for an interest in a Permanent Global Note or for definitive Notes is improperly withheld or refused.

The option for an issue of Notes to be represented on issue by a Temporary Global Note exchangeable for definitive Notes should not be expressed to be applicable in the applicable Pricing Supplement if the Notes are issued with a minimum Specified Denomination such as €100,000 (or its equivalent in another currency) plus one or more higher integral multiples of another smaller amount such as €1,000 (or its equivalent in another currency).

Payments of principal, interest (if any) or any other amounts on a Permanent Global Note will be made through Euroclear and/or Clearstream, Luxembourg (against presentation or surrender (as the case may be) of the Permanent Global Note if the Permanent Global Note is not intended to be issued in NGN form) without any requirement for certification.

The applicable Pricing Supplement will specify that a Permanent Global Note will be exchangeable (free of charge), in whole but not in part, for definitive Notes with, where applicable, principal receipts, interest coupons and talons attached upon the occurrence of an Exchange Event. For these purposes, **Exchange Event** means that:

(a) an Event of Default (as defined in the Conditions) has occurred and is continuing;

(b) the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and no successor clearing system satisfactory to the Note Trustee is available; or

(c) the Issuer has or will become subject to adverse tax consequences which would not be suffered if the Notes represented by the Permanent Global Note were in definitive form and a certificate to such effect signed by two Directors of the Issuer is given to the Note Trustee.

The Issuer will promptly give notice to Noteholders in accordance with Condition 16 (Notices) if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Global Note) or the Note Trustee may give notice to the Principal Paying Agent requesting exchange and, in the event of the occurrence of an Exchange Event as described in (c) above, the Issuer may also give notice to the Principal Paying Agent requesting

exchange. Any such exchange shall occur not later than 45 days after the date of receipt of the first relevant notice by the Principal Paying Agent.

The following legend will appear on all Notes (other than Temporary Global Notes), principal receipts and interest coupons relating to such Notes where TEFRA D is specified in the applicable Pricing Supplement:

"ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE."

The sections referred to provide that United States holders, with certain exceptions, will not be entitled to deduct any loss on Notes, principal receipts or interest coupons and will not be entitled to capital gains treatment in respect of any gain on any sale, disposition, redemption or payment of principal in respect of Notes, principal receipts or interest coupons.

Notes which are represented by a Global Note will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be.

General

Pursuant to the Agency Agreement (as defined under "*Conditions of the Notes*"), the Principal Paying Agent shall arrange that, where a further Tranche of Notes is issued which is intended to form a single Series with an existing Tranche of Notes at a point after the Issue Date of the further Tranche, the Notes of such further Tranche shall be assigned a common code and ISIN which are different from the common code and ISIN assigned to Notes of any other Tranche of the same Series until such time as the Tranches are consolidated and form a single Series, which shall not be prior to the expiry of the distribution compliance period (as defined in Regulation S under the Securities Act) applicable to the Notes of such Tranche.

Any reference herein to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Pricing Supplement.

The Issuer may agree with any Dealer and the Note Trustee that Notes may be issued in a form not contemplated by the Conditions of the Notes, in which event a new Programme Admission Particulars or a supplement to these Programme Admission Particulars will be made available which will describe the effect of the agreement reached in relation to such Notes.

Conditions of the Notes

The following are the Conditions of the Notes which will be incorporated by reference into each Global Note (as defined below) and each definitive Note, in the latter case only if permitted by the relevant stock exchange or other relevant authority (if any) and agreed by the Issuer and the relevant Dealer at the time of issue but, if not so permitted and agreed, such definitive Note will have endorsed thereon or attached thereto such Conditions. The applicable Pricing Supplement (or the relevant provisions thereof) will be endorsed upon, or attached to, each Global Note and definitive Note. Reference should be made to "Applicable Pricing Supplement" for a description of the content of the Pricing Supplement which will specify which of such terms are to apply in relation to the relevant Notes.

This Note is one of a Series (as defined below) of Notes issued by Southern Housing (the **Issuer**) and constituted by an Amended and Restated Note Trust Deed dated 24 September 2026 (as further modified and/or supplemented and/or restated from time to time, the **Note Trust Deed**) made between the Issuer and M&G Trustee Company Limited (the **Note Trustee**, which expression shall include any successor as Note Trustee).

References herein to the Notes shall be references to the **Notes** of this Series and shall mean:

(a) in relation to any Notes represented by a global Note (a **Global Note**), units of each Specified Denomination in the Specified Currency;

(b) any Global Note; and

(c) any definitive Notes issued in exchange for a Global Note.

The Notes, the Receipts (as defined below) and the Coupons (as defined below) have the benefit of an Agency Agreement dated 18 June 2024 (as amended and/or supplemented and/or restated from time to time, the **Agency Agreement**) between the Issuer, the Note Trustee, The Bank of New York Mellon, London Branch as issuing and principal paying agent (the **Principal Paying Agent**, which expression shall include any successor principal paying agent) and the other paying agents named therein (together with the Principal Paying Agent, the **Paying Agents**, which expression shall include any additional or successor paying agents) and The Bank of New York Mellon, London Branch as agent bank (the **Agent Bank**, which expression shall include any duly appointed successor agent bank).

The final terms for this Note (or the relevant provisions thereof) are set out in Part A of the Pricing Supplement attached to or endorsed on this Note which supplement these Conditions (the **Conditions**). References to the **applicable Pricing Supplement** are, unless otherwise stated, to Part A of the Pricing Supplement (or the relevant provisions thereof) attached to or endorsed on this Note.

Interest bearing definitive Notes have interest coupons (**Coupons**) and, in the case of Notes which, when issued in definitive form, have more than 27 interest payments remaining, talons for further Coupons (**Talons**) attached on issue. Any reference herein to Coupons or coupons shall, unless the context otherwise requires, be deemed to include a reference to Talons or talons. Where Instalment Redemption is specified as applicable in the applicable Pricing Supplement, definitive Notes will have receipts (**Receipts**) attached. Global Notes do not have Receipts, Coupons or Talons attached on issue.

The Note Trustee acts for the benefit of the Noteholders (which expression shall mean the holders of the Notes and shall, in relation to any Notes represented by a Global Note, be construed as provided below), the holders of the Receipts (the **Receiptholders**) and the holders of the Coupons (the **Couponholders**, which expression shall, unless the context otherwise requires, include the holders of the Talons), in accordance with the provisions of the Note Trust Deed.

As used herein, **Tranche** means Notes which are identical in all respects (including as to listing and admission to trading) and **Series** means a Tranche of Notes together with any further Tranche or Tranches of Notes which:

(a) are expressed to be consolidated and form a single series and

(b) have the same terms and conditions or terms and conditions which are the same in all respects save for the amount and date of the first payment of interest thereon and the date from which interest starts to accrue.

The applicable Pricing Supplement shall specify whether the Issuer's obligations in respect of a Series of Notes will be secured in accordance with the provisions of Condition 4 (*Security*) (such Notes, **Secured Notes**) or not so secured (such Notes, **Unsecured Notes**).

Copies of the Note Trust Deed, the Agency Agreement, the Retained Note Custody Agreement and, in respect of Secured Notes, the Account Agreement and the Security Documents are available for inspection during normal business hours at the specified office of each of the Paying Agents. If the Notes are to be admitted to trading on the London Stock Exchange's International Securities Market, the applicable Pricing Supplement will be published on the website of the London Stock Exchange through a regulatory information service or published in any other manner permitted by the International Securities Market Rulebook effective as of 19 January 2026 (as may be modified and/or supplemented and/or restated from time to time). The Noteholders, the Receiptholders and the Couponholders are deemed to have notice of, and are entitled to the benefit of, all the provisions of the Note Trust Deed, the Agency Agreement, the Retained Note Custody Agreement, the Account Agreement and the Security Documents and the applicable Pricing Supplement which are applicable to them. The statements in the Conditions include summaries of, and are subject to, the detailed provisions of the Note Trust Deed, the Agency Agreement, the Retained Note Custody Agreement, the Account Agreement and the Security Documents.

Words and expressions defined in the Note Trust Deed or the Agency Agreement or used in the applicable Pricing Supplement shall have the same meanings where used in the Conditions unless the context otherwise requires or unless otherwise stated and provided that, in the event of inconsistency between the Note Trust Deed and the Agency Agreement, the Note Trust Deed will prevail and, in the event of inconsistency between the Note Trust Deed or the Agency Agreement and the applicable Pricing Supplement, the applicable Pricing Supplement will prevail.

Notwithstanding Condition 5.1(d)(i) above, the Issuer may elect, by notice to the Note Trustee and the Security Trustee, to provide Valuations as follows:

(A) a Full Valuation at least once in every period of five calendar years. Unless the Note Trustee agrees otherwise, the first Full Valuation must be delivered in the period between 31 March next following an election made in accordance with this Condition 5.1(d)(ii) and the date falling 60 days thereafter, and subsequent Full Valuations must be delivered in the period between 31 March and the date falling 60 days after 31 March in each fifth year after the previous Full Valuation delivered in accordance with this Condition 5.1(d)(ii)(A) (or within the same period in any prior calendar year); and

(B) a Desk Top Valuation in the period between 31 March and the date falling 60 days thereafter in each year (beginning in the year following the year in which a Full Valuation is first produced in accordance with Condition 5.1(d)(ii)(A) above) other than a year in respect of which a Full Valuation is required to be delivered pursuant to Condition 5.1(d)(ii)(A) above.

Upon the request of Noteholders to convene any such meeting, as aforesaid, the Issuer shall notify all Noteholders of the date (which such date shall be no more than 21 days following such request), time and place of the meeting in accordance with Condition 16 (*Notices*). The Issuer shall act in good faith in addressing any questions regarding the financial position of it raised at any such meeting, provided, however, that the Issuer shall not be obliged to disclose any information which it, in its absolute discretion, considers to be of a confidential nature. For the avoidance of doubt, the provisions of this Condition 5.1(e)(ii) are in addition to the meetings provisions set out in Condition 18.1 (*Meetings of Noteholders*); and

(iii) (if Retained Notes have been issued in respect of such Series) not later than three Business Days prior to the sale of any or all of the Retained Notes of such Series, supply to the Note Trustee a certificate signed by two Authorised Signatories of the Issuer confirming that, immediately following such sale, the Issuer will be in compliance with the Asset Cover Test in respect of such Series.

Unsecured Financial Indebtedness of the Issuer means, in respect of each financial year, the consolidated value of the principal amount of all unsecured borrowings of the Issuer as reflected in the statement of financial position (and related notes) from the published consolidated audited financial statements of the Issuer for such financial year, provided that no amount shall be added (or deducted) more than once.

(iii) A Compliance Certificate confirming compliance with the Unencumbered Assets Test, and setting out the relevant calculations, may, in the absence of manifest error, be relied on by the Note Trustee and, if so relied on, shall be conclusive and binding on the Issuer, the Noteholders, the Receiptholders and the Couponholders.

(c) **Information Covenant**

For so long as any of the Notes remains outstanding, the Issuer shall:

(i) send to the Note Trustee not later than 180 days after the end of each Financial Year:

and, upon request by any Noteholder to the Issuer:

2) provide copies of such documents by email to a Noteholder requesting a copy, subject to such Noteholder producing evidence satisfactory to the Issuer as to its holding of Notes and identity; and

(ii) at the request of Noteholders holding not less than 33 per cent. in principal amount of the Notes for the time being outstanding, convene a meeting of the Noteholders (including by way of conference call) to discuss the financial position of the Issuer, provided, however, that the Issuer shall not be required to convene any such meeting pursuant to this Condition 5.2(c)(ii) more than once in any calendar year. Upon the request of Noteholders to convene any such meeting, as aforesaid, the Issuer shall notify all Noteholders of the date (which such date shall be no more than 21 days following such request), time and place of the meeting in accordance with Condition 16 (*Notices*). The Issuer shall act in good faith in addressing any questions regarding its financial position raised at any such meeting, provided, however, that the Issuer shall not be obliged to disclose any information which it, in its absolute discretion, considers to be of a confidential nature. For the avoidance of doubt, the provisions of this Condition 5.2(c)(ii) are in addition to the meetings provisions set out in Condition 18.1 (*Meetings of Noteholders*).

6. Charged properties and Charged Cash

This Condition 6 applies to Secured Notes only.

6.1 Addition of New Charged Properties

The Issuer may, in respect of each Series of Secured Notes, charge additional properties pursuant to the Security Documents and/or allocate such additional properties as Charged Properties (the **Additional Properties**) for the benefit of the NAB Beneficiaries (where the Numerical Apportionment Basis applies) or the Series Secured Parties (where the Specific Apportionment Basis applies) (and the Note Trustee, in its capacity as Representative, shall consent (without requiring the consent or sanction of the Noteholders or any other Series Secured Party) to such charging and/or allocation and countersign an amended Apportionment Certificate to reflect the same) subject to:

(a) the delivery by the Issuer to the Security Trustee of the condition precedent documents specified in Schedule 2 to the Security Trust Deed in a form satisfactory to the Security Trustee (acting reasonably) in respect of the charging of such Additional Properties; and

(b) the delivery by the Issuer to the Note Trustee of:

(i) a completed New Property Approval Certificate certifying that, inter alia, the Additional Properties are residential properties of a type and nature that are usually owned by Registered Providers of Social Housing; and

(ii) a Full Valuation in relation to the Additional Properties prepared by the Valuer as at a valuation date no earlier than 3 months prior to the date on which the Additional Properties are to be/were charged.

Notwithstanding the foregoing, the requirements of Condition 6.1(b)(i) and (ii) shall not apply to the extent that the Numerical Apportionment Basis is applicable at the relevant time and the allocation occurs solely as a result of them ceasing to be allocated to any Specific Beneficiary on a Specific Apportionment Basis.

6.2 Substitution of Charged Properties

(a) This Condition 6.2 applies in the event that the Specific Apportionment Basis is specified as applicable in the applicable Pricing Supplement or Specific Apportionment is otherwise applicable at the relevant time.

(b) The Issuer may substitute any one or more of the Charged Properties (the **Substitute Properties**) with other properties (the **New Substitute Properties**) (and the Note Trustee, in its capacity as Representative, shall consent (without requiring the consent or sanction of the Noteholders or any other Series Secured Party) to such substitution and countersign an amended Apportionment Certificate to reflect the same) subject to:

(i) the delivery by the Issuer to the Security Trustee of the condition precedent documents specified in Schedule 2 to the Security Trust Deed in a form satisfactory to the Security Trustee in respect of the charging of such New Substitute Properties; and

(ii) the delivery by the Issuer to the Note Trustee of:

(A) a completed Substitute Property Certificate certifying, *inter alia*, that (x) the New Substitute Properties are residential properties of a type and nature that are usually owned by Registered Providers of Social Housing, (y) the Issuer is (as at the date of the Substitute Property Certificate) in compliance with the Asset Cover Test and that, immediately following the substitution, the Issuer will be in compliance with the Asset Cover Test and (z) no Secured Note Event of Default or Secured Note Potential Event of Default has occurred and is continuing; and

(B) a Full Valuation in relation to the New Substitute Properties prepared by the Valuer as at a valuation date no earlier than 3 months prior to the date on which the New Substitute Properties are to be/were charged.

6.3 **Release and/or Reallocation of Charged Properties**

(a) The Issuer may withdraw or reallocate any one or more of the Charged Properties from the Series Property Security (and the Note Trustee, in its capacity as Representative, shall consent (without requiring the consent or sanction of the Noteholders or any other Series Secured Party) to such withdrawal or reallocation and countersign an amended Apportionment Certificate to reflect the same), provided that the Issuer delivers to the Note Trustee a completed Property Release/Reallocation Certificate, certifying that:

(i) the Issuer is (as at the date of the Property Release/Reallocation Certificate) in compliance with the Asset Cover Test and that, immediately following such release, the Issuer will be in compliance with the Asset Cover Test; and

(ii) no Secured Note Event of Default or Secured Note Potential Event of Default has occurred and is continuing.

(b) The above requirement for a Property Release/Reallocation Certificate shall not apply to the extent that the Numerical Apportionment Basis is applicable at the relevant time and the reallocation and/or release would not require an adjustment to the Series Secured Parties' Apportioned Part.

6.4 **Statutory Disposals**

(a) The Issuer shall have the right to withdraw a Charged Property from the Series Property Security pursuant to any Statutory Disposal without the need for the consent of the Security Trustee or the Note Trustee (in its capacity as Representative), provided however, that the Issuer shall deliver to the Note Trustee, as soon as reasonably practicable after the Issuer has received notice of such Statutory Disposal, a completed Statutory Disposal Certificate, certifying that the relevant withdrawal relates to a Statutory Disposal.

(b) The above requirement for a Statutory Disposal Certificate shall not be required to the extent that the Numerical Apportionment Basis is applicable at the relevant time and the Statutory Disposal would not require an adjustment to the Series Secured Parties' Apportioned Part.

(c) Without prejudice to the aforementioned right to withdraw a Charged Property from the Series Property Security pursuant to any Statutory Disposal, the Issuer covenants that, if following such withdrawal the Issuer will no longer be in compliance with the Asset Cover Test, as soon as practicable thereafter (and, in any event, prior to the expiry of the applicable grace period in Condition 12.1(a)(iii) (*Secured Note Events of Default*), it shall charge and/or allocate additional properties as Series Charged Properties pursuant to Condition 6.1 (*Addition of New Charged Properties*) and/or it shall deposit money into the Series Charged Account relating to the relevant Series pursuant to Condition 6.6 (*Charged Cash*) in an aggregate amount sufficient to ensure that the Issuer will be in compliance with the Asset Cover Test.

6.5 **Apportionment**

Without prejudice to the other provisions of this Condition 6, the Note Trustee shall agree (and shall be deemed to have confirmed to the Security Trustee under the Security Trust Deed its agreement) to any adjustment of the Series Secured Parties' Apportioned Part provided that the Issuer would continue to be in compliance with the Asset Cover Test immediately after such adjustment.

6.6 **Charged Cash**

The Issuer may, at any time, deposit money into the Series Charged Account in respect of a Series of Secured Notes to ensure compliance with the Asset Cover Test relating to that Series. The Issuer may only withdraw Charged Cash from such Series Charged Account if:

(a) it is, at the relevant time, in compliance with the Asset Cover Test and no Secured Note Event of Default or Secured Note Potential Event of Default has occurred and is continuing; and

(b) either:

(i) such Charged Cash is to be applied by the Issuer in the acquisition of a Property which is to be charged pursuant to the Security Documents and allocated for the benefit of the Series Secured Parties and, immediately following the acquisition, charging and allocation of such property, the Issuer will be in compliance with the Asset Cover Test; or

(ii) such Charged Cash is to be used for any other purpose permitted by its Rules and, immediately following the withdrawal, the Issuer will be in compliance with the Asset Cover Test.

For these purposes, the Note Trustee may call for and shall be at liberty to accept a certificate signed by any two Authorised Signatories of the Issuer (including, for the avoidance of doubt, a Compliance Certificate), as sufficient

evidence that (a) the Issuer is, at the relevant time, in compliance with the Asset Cover Test and that no Secured Note Event of Default or Secured Note Potential Event of Default has occurred and is continuing and/or (b) the requirements of (i) or (ii) above, as the case may be, are met.

7. Interest

The applicable Pricing Supplement will indicate whether the Notes are Fixed Rate Notes and/or Floating Rate Notes.

7.1 Interest on Fixed Rate Notes

This Condition 7.1 applies to Fixed Rate Notes only. The applicable Pricing Supplement contains provisions applicable to the determination of fixed rate interest and must be read in conjunction with this Condition 7.1 for full information on the manner in which interest is calculated on Fixed Rate Notes. In particular, the applicable Pricing Supplement will specify the Interest Commencement Date, the Rate(s) of Interest, the Interest Payment Date(s), the Maturity Date, the Fixed Coupon Amount, any applicable Broken Amount, the Calculation Amount, the Day Count Fraction and any applicable Determination Date.

Each Fixed Rate Note bears interest from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest. Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date.

If the Notes are in definitive form, except as provided in the applicable Pricing Supplement, the amount of interest payable on each Interest Payment Date in respect of the Fixed Interest Period ending on (but excluding) such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Pricing Supplement, amount to the Broken Amount so specified.

As used in the Conditions, **Fixed Interest Period** means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.

Except in the case of Notes in definitive form where an applicable Fixed Coupon Amount or Broken Amount is specified in the applicable Pricing Supplement, interest shall be calculated in respect of any period by applying the Rate of Interest to:

(a) in the case of Fixed Rate Notes which are represented by a Global Note, the aggregate outstanding principal amount of the Fixed Rate Notes represented by such Global Note; or

(b) in the case of Fixed Rate Notes in definitive form, the Calculation Amount;

and, in each case, multiplying such sum by the applicable Day Count Fraction.

The resultant figure (including after application of any Fixed Coupon Amount or Broken Amount, to the Calculation Amount in the case of Fixed Rate Notes in definitive form) shall be rounded to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Where the Specified Denomination of a Fixed Rate Note in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

In these Conditions:

Day Count Fraction means, in respect of the calculation of an amount of interest, in accordance with this Condition 7.1:

(a) if "Actual/Actual (ICMA)" is specified in the applicable Pricing Supplement:

(i) in the case of Notes where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the **Accrual Period**) is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates (as specified in the applicable Pricing Supplement) that would occur in one calendar year; or

(ii) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:

(A) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and

(B) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and

(b) if "30/360" is specified in the applicable Pricing Supplement, the number of days in the period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (such number of days being calculated on the basis of a year of 360 days with 12 30-day months) divided by 360.

Determination Period means each period from (and including) a Determination Date to (but excluding) the next Determination Date (including, where either the Interest Commencement Date or the final Interest Payment Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date); and

sub-unit means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, one cent.

7.2 **Interest on Floating Rate Notes**

This Condition 7.2 (other than any defined terms which are also used in the context of Fixed Rate Notes) applies to Floating Rate Notes only. The applicable Pricing Supplement contains provisions applicable to the determination of floating rate interest and must be read in conjunction with this Condition 7.2 for full information on the manner in which interest is calculated on Floating Rate Notes. In particular, the applicable Pricing Supplement will identify any Specified Interest Payment Dates, any Specified Period, the Interest Commencement Date, the Business Day Convention, any Additional Business Centres, whether ISDA Determination or Screen Rate Determination applies to the calculation of interest, the party who will calculate the amount of interest due if it is not the Agent, the Margin, any maximum or minimum interest rates (if applicable) and the Day Count Fraction. Where ISDA Determination applies to the calculation of interest, the applicable Pricing Supplement will also specify the applicable Floating Rate Option, Designated Maturity and Reset Date. Where Screen Rate Determination applies to the calculation of interest, the applicable Pricing Supplement will also specify the applicable Reference Rate, Interest Determination Date(s) and Relevant Screen Page.

(a) **Interest Payment Dates**

Each Floating Rate Note bears interest from (and including) the Interest Commencement Date and such interest will be payable in arrear on either:

(i) the Specified Interest Payment Date(s) in each year specified in the applicable Pricing Supplement; or

(ii) if no Specified Interest Payment Date(s) is/are specified in the applicable Pricing Supplement, each date (each such date, together with each Specified Interest Payment Date, an **Interest Payment Date**) which falls the number of months or other period specified as the Specified Period in the applicable Pricing Supplement after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

Such interest will be payable in respect of each Interest Period. In these Conditions, **Interest Period** means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date or the relevant payment date if the Notes become payable on a date other than an Interest Payment Date.

If a Business Day Convention is specified in the applicable Pricing Supplement and (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

(A) in any case where Specified Periods are specified in accordance with Condition 7.2(a)(ii) above, the Floating Rate Convention, such Interest Payment Date:

1) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (2) below shall apply mutatis mutandis; or

2) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event:

a) such Interest Payment Date shall be brought forward to the immediately preceding Business Day; and

b) each subsequent Interest Payment Date shall be the last Business Day in the month which falls the Specified Period after the preceding applicable Interest Payment Date occurred; or

(B) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day; or

(C) the Modified Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the

next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or

(D) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.

In these Conditions, **Business Day** means:

(i) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in London and each Additional Business Centre (other than T2) specified in the applicable Pricing Supplement;

(ii) if T2 is specified as an Additional Business Centre in the applicable Pricing Supplement, a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer System (or any successor thereto or replacement thereof (T2)) is open; and

(iii) either:

(A) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency; or

(B) in relation to any sum payable in euro, a day on which T2 is open.

(b) **Rate of Interest**

The Rate of Interest payable from time to time in respect of Floating Rate Notes will be determined in the manner specified in the applicable Pricing Supplement.

(i) **ISDA Determination for Floating Rate Notes**

Where ISDA Determination is specified in the applicable Pricing Supplement as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any). For the purposes of this subparagraph (i), **ISDA Rate** for an Interest Period means a rate equal to the Floating Rate that would be determined by the Agent Bank (or other agent, if the Agent Bank is unable to make such determination) under an interest rate swap transaction if the Agent Bank (or such other agent) were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating (x) if "2006 ISDA Definitions" is specified in the applicable Pricing Supplement, the 2006 ISDA Definitions, as published by the International Swaps and Derivatives Association, Inc. (**ISDA**) and as amended and updated as at the Issue Date of the first Tranche of the Notes; or (y) if "2021 ISDA Definitions" is specified in the applicable Pricing Supplement, the latest version of the 2021 ISDA Interest Rate Derivatives Definitions as published by ISDA as at the Issue Date of the first Tranche of the Notes (together, the **ISDA Definitions**) and under which:

(A) the Floating Rate Option is as specified in the applicable Pricing Supplement;

(B) the Designated Maturity is a period specified in the applicable Pricing Supplement; and

(C) the relevant Reset Date is the day specified in the applicable Pricing Supplement.

For the purposes of this subparagraph (i), **Floating Rate**, **Calculation Agent**, **Floating Rate Option**, **Designated Maturity** and **Reset Date** have the meanings given to those terms in the ISDA Definitions.

Unless otherwise stated in the applicable Pricing Supplement the Minimum Rate of Interest shall be deemed to be zero.

(ii) **Screen Rate Determination for Floating Rate Notes**

(A) Where Screen Rate Determination is specified in the applicable Pricing Supplement as the manner in which the Rate of Interest is to be determined, and the Calculation Method is specified in the applicable Pricing Supplement as being Compounded Daily SONIA Formula, the Rate of Interest for an Interest Period will, subject to Condition 7.2(c) (*Benchmark Replacement*) and as provided below, be the Compounded Daily SONIA Formula Rate with respect to such Interest Period plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any);

Compounded Daily SONIA Formula Rate means, with respect to an Interest Period, the rate of return of a daily compound interest investment in Sterling (with the Sterling Overnight Index Average as the reference rate for the calculation of interest) as calculated by the Agent Bank (or such other party responsible for the calculation of the Rate of Interest, as specified in the applicable Pricing Supplement) on the relevant Interest Determination Date in accordance with the following formula (and the resulting percentage will be rounded, if necessary, to the nearest fourth decimal place, with 0.00005 being rounded upwards):

$$\left[\prod_{i=1}^{do}\left(1+\frac{SONIAi\ xni}{365}\right)-1\right] \times \frac{365}{d}$$

(a) where "Lag" is specified as the Observation Method in the applicable Pricing Supplement, the SONIA reference rate in respect of the London Banking Day falling "p" London Banking Days prior to the relevant London Banking Day "i"; or

(b) where "Observation Shift" is specified as the Observation Method in the applicable Pricing Supplement, the SONIA reference rate in respect of the relevant London Banking Day "i".

(B) Where Screen Rate Determination is specified in the applicable Pricing Supplement as the manner in which the Rate of Interest is to be determined, and the Calculation Method is specified in the applicable Pricing Supplement as being SONIA Index Determination, the Rate of Interest for an Interest Period will, subject to Condition 7.2(c) (Benchmark Replacement) and as provided below, be the SONIA Compounded Index Rate with respect to such Interest Period plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any).

SONIA Compounded Index Rate means, with respect to an Interest Period, the rate of return of a daily compound interest investment as calculated by the Agent Bank (or such other party responsible for the calculation of the Rate of Interest, as specified in the Pricing Supplement) on the relevant Interest Determination Date in accordance with the following formula (and the resulting percentage will be rounded, if necessary, to the nearest fourth decimal place, with 0.00005 being rounded upwards):

$$\left(\frac{SONIA\ Compounded\ Index\ (End)}{SONIA\ Compounded\ Index\ (Start)} - 1\right) \times \frac{365}{d}$$

where:

d is the number of calendar days from (and including) the day in relation to which "SONIA Compounded IndexStart" is determined to (but excluding) the day in relation to which "SONIA Compounded IndexEnd" is determined (being the number of calendar days in the applicable reference period);

London Banking Day has the meaning set out in Condition 7.2(b)(ii)(A) above;

Relevant Number means 5 (five) or such higher number (or if agreed with the Agent Bank (or, if applicable/required, such other party responsible for the calculation of the Rate of Interest), such lower number) as is specified in the applicable Pricing Supplement;

SONIA Compounded Index$_{End}$ means the SONIA Compounded Index value relating to the London Banking Day falling the Relevant Number of London Banking Days prior to

(a) the Interest Payment Date for the relevant Interest Period; or

(b) if applicable, the relevant payment date if the Notes become due and payable on a date other than an Interest Payment Date;

SONIA Compounded Index$_{Start}$ means the SONIA Compounded Index value relating to the London Banking Day falling the Relevant Number of London Banking Days prior to the first day of the relevant Interest Period; and

SONIA Compounded Index means, with respect to any London Banking Day, the value of the SONIA Compounded Index that is provided by the administrator of the SONIA reference rate to authorised distributors and as then published on the Relevant Screen Page (or, if the Relevant Screen Page is unavailable, as otherwise published by such authorised distributors) in respect of such London Banking Day

If the relevant SONIA Compounded Index is not published or displayed by the administrator of the SONIA reference rate or other information service at the Relevant Time specified in the applicable Pricing Supplement on the relevant Interest Determination Date, the SONIA Compounded Index Rate for the applicable Interest Period for which the SONIA Compounded Index is not available shall be the Compounded Daily SONIA Formula Rate determined in accordance with Condition 7.2(b)(ii)(A) above as if the Calculation Method specified in the applicable Pricing Supplement were Compounded Daily SONIA Formula (and not SONIA Index Determination), and for these purposes:

(a) the "Observation Method" shall be deemed to be "Observation Shift"; and

(b) the "Observation Shift Period" shall be deemed to be equal to the Relevant Number of London Banking Days,

as if those alternative elections had been made in the applicable Pricing Supplement.

(C) For the purposes of Condition 7.2(b)(ii)(A) above, and subject to Condition 7.2(c) below, if, in respect of any London Banking Day in the relevant Observation Period or the relevant Interest Period, as applicable, the Agent Bank (or such other party responsible for the calculation of the Rate of Interest, as specified in the applicable Pricing Supplement) determines that the applicable SONIA reference rate has not been made available on the Relevant Screen Page or has not otherwise been published by the relevant authorised distributors, then the Agent Bank (or such other party responsible for the calculation of the Rate of Interest, as specified in the applicable Pricing Supplement, as applicable) shall determine the SONIA reference rate in respect of such London Banking Day as being:

1)

a) the Bank of England's Bank Rate (the **Bank Rate**) prevailing at 5.00 p.m. (or, if earlier, close of business) on such London Banking Day; plus

b) the mean of the spread of the SONIA reference rate to the Bank Rate over the previous five London Banking Days in respect of which the SONIA reference rate has been published, excluding the highest spread (or, if there is more than one highest spread, one only of those highest spreads) and the lowest spread (or, if there is more than one lowest spread, one only of those lowest spreads) to the Bank Rate; or

2) if the Bank Rate under 1) a) above is not available at the relevant time, either:

a) the SONIA reference rate published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors) for the first preceding London Banking Day in respect of which the SONIA reference rate was published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors); or

b) if this is more recent, the latest rate determined under 1) a) above,

and in each case **SONIA reference rate** shall be interpreted accordingly.

(D) In the event that the Rate of Interest cannot be determined in accordance with the foregoing provisions, the Rate of Interest shall be:

1) that determined as at the last preceding Interest Determination Date (though substituting, where a different Margin, Maximum Rate of Interest and/or Minimum Rate of Interest is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin, Maximum Rate of Interest and/or Minimum Rate of Interest (as the case may be) relating to the relevant Interest Period, in place of the Margin, Maximum Rate of Interest and/or Minimum Rate of Interest (as applicable) relating to that last preceding Interest Period); or

2) if there is no such preceding Interest Determination Date, the initial Rate of Interest which would have been applicable to such Series of Notes for the first scheduled Interest Period had the Notes been in issue for a period equal in duration to the first

scheduled Interest Period but ending on (and excluding) the Interest Commencement Date (and applying the Margin and, if applicable, any Maximum Rate of Interest and/or Minimum Rate of Interest, applicable to the first scheduled Interest Period).

(E) If the relevant Series of Notes becomes due and payable in accordance with Condition 12, the final Rate of Interest shall be calculated for the period from (and including) the previous Interest Payment Date to (but excluding) the date on which the Notes become so due and payable, and such Rate of Interest shall continue to apply to the Notes for so long as interest continues to accrue thereon as provided in Condition 7.3 and the Note Trust Deed.

(c) **Benchmark Replacement**

This Condition 7.2(c) applies only where Screen Rate Determination is specified in the applicable Pricing Supplement as the manner in which the Rate of Interest is to be determined.

(i) **Independent Adviser**

If the Issuer determines that a Benchmark Event has occurred in relation to an Original Reference Rate when any Rate of Interest (or any component part thereof) remains to be determined by reference to such Original Reference Rate, then the Issuer shall use its reasonable endeavours to appoint an Independent Adviser, as soon as reasonably practicable, to determine, following consultation with the Issuer and no later than five Business Days prior to the relevant Interest Determination Date relating to the next succeeding Interest Period (the **IA Determination Cut-off Date**), a Successor Rate, failing which an Alternative Rate (in accordance with Condition 7.2(c)(ii) (*Successor Rate or Alternative Rate*)) and, in either case, an Adjustment Spread (in accordance with Condition 7.2(c)(iii) (*Adjustment Spread*)) and any Benchmark Amendments (in accordance with Condition 7.2(c)(iv) (*Benchmark Amendments*)).

An Independent Adviser appointed pursuant to this Condition 7.2(c) shall act in good faith and in a commercially reasonable manner following consultation with the Issuer. In the absence of wilful default, bad faith or fraud, the Independent Adviser shall have no liability whatsoever to the Noteholders, the Note Trustee, the Paying Agents or the Agent Bank for any determination it makes pursuant to this Condition 7.2(c). No Independent Adviser appointed in connection with the Notes (acting in such capacity), shall have any relationship of agency or trust with the Noteholders.

If:

(A) the Issuer is unable to appoint an Independent Adviser; or

(B) the Independent Adviser fails to determine a Successor Rate or, failing which, an Alternative Rate in accordance with this Condition 7.2(c)(i) prior to the relevant IA Determination Cut-off Date,

the Rate of Interest applicable to the next succeeding Interest Period shall be equal to the Rate of Interest last determined in relation to the Notes in respect of the immediately preceding Interest Period. If there has not been a first Interest Payment Date, the Rate of Interest shall be the initial Rate of Interest. Where a different Margin or Maximum Rate of Interest or Minimum Rate of Interest is to be applied to the relevant Interest Period from that which applied to the immediately preceding Interest Period, the Margin, Maximum Rate of Interest or Minimum Rate of Interest relating to the relevant Interest Period shall be substituted in place of the Margin, Maximum Rate of Interest or Minimum Rate of Interest relating to that immediately preceding Interest Period. For the avoidance of doubt, this sub-paragraph shall apply to the relevant next succeeding Interest Period only and any subsequent Interest Periods are subject to the subsequent operation of, and to adjustment as provided in, this Condition 7.2(c).

(ii) **Successor Rate or Alternative Rate**

If the Independent Adviser, following consultation with the Issuer and acting in good faith and in a commercially reasonable manner, determines that:

(A) there is a Successor Rate, then such Successor Rate shall (subject to adjustment as provided in Condition 7.2(c)(iii) (Adjustment Spread)) subsequently be used in place of the Original Reference Rate to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the further operation of this Condition 7.2(c)); or

(B) there is no Successor Rate but that there is an Alternative Rate, then such Alternative Rate shall (subject to adjustment as provided in Condition 7.2(c)(iii) (Adjustment Spread)) subsequently be used in place of the Original Reference Rate to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the subsequent operation of this Condition 7.2(c)).

(iii) **Adjustment Spread**

The Adjustment Spread (or the formula or methodology for determining the Adjustment Spread) shall be applied to the Successor Rate or the Alternative Rate (as the case may be).

Following any such determination by the Independent Adviser, following consultation with the Issuer, of the Adjustment Spread, the Issuer shall give notice thereof in accordance with Condition 7.2(c)(v) (Notices). The Principal Paying Agent or the Agent Bank, as applicable, shall apply such Adjustment Spread to the Successor Rate or the Alternative Rate (as the case may be) for each subsequent determination of a relevant Rate of Interest (or any component part(s) thereof) by reference to such Successor Rate or Alternative Rate (as applicable).

(iv) **Benchmark Amendments**

If any Successor Rate or Alternative Rate and Adjustment Spread is determined in accordance with this Condition 7.2(c) and the Independent Adviser, following consultation with the Issuer and acting in good faith and in a commercially reasonable manner, determines:

(A) that amendments to the Conditions, the Note Trust Deed or the Agency Agreement are necessary to ensure the proper operation of such Successor Rate, Alternative Rate and/or Adjustment Spread (such amendments, the **Benchmark Amendments**); and

(B) the terms of the Benchmark Amendments,

then the Issuer shall, following consultation with the Independent Adviser and subject to the Issuer giving notice thereof in accordance with Condition 7.2(c)(v) (Notices), without any requirement for the consent or approval of the Noteholders, the Receiptholders, the Couponholders or any other Series Secured Party, vary the Conditions, the Note Trust Deed and/or the Agency Agreement to give effect to such Benchmark Amendments with effect from the date specified in such notice, provided that neither the Principal Paying Agent nor the Agent Bank shall be bound by or be obliged to give effect to any Successor Rate, Alternative Rate, Adjustment Spread or Benchmark Amendment, if in the opinion of the Principal Paying Agent or the Agent Bank the same would not be operable or would impose more onerous obligations upon it or expose it to any additional duties, responsibilities or liabilities or reduce or amend the rights and/or the protective provisions afforded to it in these Conditions and/or the Agency Agreement and/or any documents to which it is a party in any way.

At the request of the Issuer, but subject to receipt by the Note Trustee of a certificate signed by two Authorised Signatories of the Issuer pursuant to Condition 7.2(c)(v), the Note Trustee shall (at the expense and direction of the Issuer), without any requirement for the consent or approval of the Noteholders, the Receiptholders or the Couponholders (or, in the case of Secured Notes, any other Series Secured Party), be obliged to use its best endeavours to implement any Benchmark Amendments (including, *inter alia*, by the execution of a deed supplemental to or amending the Note Trust Deed) and the Note Trustee shall not be liable to any party for any consequences thereof (irrespective of whether such Benchmark Amendment(s) relate(s) to a Basic Terms Modification (as defined in the Note Trust Deed)), provided that the Note Trustee shall not be obliged so to implement, if in the opinion of the Note Trustee doing so would impose more onerous obligations upon it or expose it to any additional duties, responsibilities or liabilities or reduce or amend the rights and/or the protective provisions afforded to it in these Conditions and/or the Note Trust Deed and/or any documents to which it is a party (including, for the avoidance of doubt, any supplemental note trust deed) in any way.

In connection with any such modifications in accordance with this Condition 7.2(c)(iv), the Issuer and the Independent Adviser shall comply with the rules of any stock exchange on which the Notes are for the time being listed or admitted to trading.

(v) **Notices**

Any Successor Rate, Alternative Rate, Adjustment Spread and the specific terms of any Benchmark Amendments determined under this Condition 7.2(c) will be notified promptly by the Issuer to the Note Trustee, the Paying Agents, the Agent Bank (if applicable) and, in accordance with Condition 16 (Notices), the Noteholders. Such notice shall be irrevocable and shall specify the effective date of the Benchmark Amendments, if any.

No later than notifying the Note Trustee of the same, the Issuer shall deliver to the Note Trustee a certificate signed by two Authorised Signatories of the Issuer:

(A) confirming (I) that a Benchmark Event has occurred, (II) the Successor Rate or, as the case may be, the Alternative Rate, (III) any Adjustment Spread and (IV) the specific terms of any Benchmark Amendments, in each case as determined in accordance with the provisions of this Condition 7.2(c); and

(B) certifying that the Benchmark Amendments are necessary to ensure the proper operation of such Successor Rate, Alternative Rate and/or Adjustment Spread.

The Note Trustee shall be entitled to rely on such certificate (without enquiry or liability to any person) as sufficient evidence thereof. The Successor Rate or Alternative Rate and the Adjustment Spread and the Benchmark Amendments (if any) specified in such certificate will (in the absence of manifest error in the determination of the Successor Rate or Alternative Rate and the Adjustment Spread and the Benchmark Amendments (if any) and without prejudice to the ability of the Note Trustee to rely on such certificate as aforesaid) be binding on the Issuer, the Note Trustee, the Principal Paying Agent, the Agent Bank and the Noteholders.

(vi) **Survival of Original Reference Rate**

Without prejudice to the obligations of the Issuer or the Independent Adviser under Conditions 7.2(c)(i), (ii), (iii), (iv) and 7.2(c)(iv), the Original Reference Rate and the fallback provisions provided for in Condition 7.2(b) and the Agency Agreement will continue to apply unless and until a Benchmark Event has occurred and the Note Trustee has been notified of the Successor Rate or the Alternative Rate (as the case may be), the Adjustment Spread and any Benchmark Amendments, in accordance with Condition 7.2(c)(v).

(vii) **Definitions**

As used in this Condition 7.2(c):

Adjustment Spread means either a spread (which may be positive, negative or zero), or the formula or methodology for calculating a spread, in either case, which the Independent Adviser, following consultation with the Issuer and acting in good faith and in a commercially reasonable manner, determines is required to be applied to the Successor Rate or the Alternative Rate (as the case may be) to reduce or eliminate, to the fullest extent reasonably practicable in the circumstances, any economic prejudice or benefit (as the case may be) to Noteholders as a result of the replacement of the Original Reference Rate with the Successor Rate or the Alternative Rate (as the case may be) and is the spread, formula or methodology which:

(A) in the case of a Successor Rate, is formally recommended in relation to the replacement of the Original Reference Rate with the Successor Rate by any Relevant Nominating Body; or

(B) (if no such recommendation has been made, or in the case of an Alternative Rate) the Independent Adviser, following consultation with the Issuer and acting in good faith and in a commercially reasonable manner determines, is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the Original Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Rate (as the case may be); or

(C) (if the Independent Adviser, in consultation with the Issuer, determines that no such industry standard is recognised or acknowledged), the Independent Adviser, in its discretion, following consultation with the Issuer and acting in good faith and in a commercially reasonable manner, determines to be appropriate;

Alternative Rate means an alternative benchmark or screen rate which the Independent Adviser, following consultation with the Issuer and acting in good faith and in a commercially reasonable manner, determines in accordance with Condition 7.2(c)(ii) has replaced the Original Reference Rate in customary market usage in the international debt capital markets for the purposes of determining floating rates of interest (or the relevant component part thereof) in the same Specified Currency as the Notes;

Benchmark Event means the Original Reference Rate ceasing to be published for a period of at least 5 Business Days or ceasing to exist; or

(A) the later of (i) the making of a public statement by the administrator of the Original Reference Rate that it will, on or before a specified date, cease publishing the Original Reference Rate permanently or indefinitely (in circumstances where no successor administrator has been appointed that will continue publication of the Original Reference Rate) and (ii) the date falling six months prior to the date specified in (i); or

(B) the making of a public statement by the supervisor of the administrator of the Original Reference Rate that (i) the Original Reference Rate has been permanently or indefinitely discontinued or (ii) the Original Reference Rate is no longer representative of an underlying market;

(C) the later of (i) the making of a public statement by the supervisor of the administrator of the Original Reference Rate that the Original Reference Rate will, on or before a specified date, be permanently or indefinitely discontinued and (ii) the date falling 6 months prior to the date specified in (i); or

(D) the later of (i) the making of a public statement by the supervisor of the administrator of the Original Reference Rate as a consequence of which the Original Reference Rate will, on or before a specified date, be prohibited from being used either generally, or in respect of the Notes and (ii) the date falling 6 months prior to the date specified in (i); or

(E) it has or will prior to the next Interest Determination Date become unlawful for the Agent Bank or the Issuer to determine any Rate of Interest and/or calculate any payments due to be made to any Noteholders using the Original Reference Rate;

Independent Adviser means an independent financial institution of international repute or an independent financial adviser with appropriate expertise appointed by the Issuer at its own expense under Condition 7.2(c)(i) (*Independent Adviser*) and notified in writing to the Note Trustee;

Original Reference Rate means the benchmark or screen rate (as applicable) specified in the applicable Pricing Supplement for the purposes of determining the relevant Rate of Interest (or any component part(s) thereof) in respect of the Notes or (if applicable) any other successor or alternative rate (or any component part(s) thereof) determined and applicable to the Notes pursuant to the earlier operation of this Condition 7.2(c); and

Relevant Nominating Body means, in respect of a benchmark or screen rate (as applicable):

(A) the central bank for the currency to which the benchmark or screen rate (as applicable) relates, or any central bank or other supervisory authority which is responsible for supervising the administrator of the benchmark or screen rate (as applicable); or

(B) any working group or committee sponsored by, chaired or co-chaired by or constituted at the request of (a) the central bank for the currency to which the benchmark or screen rate (as applicable) relates, (b) any central bank or other supervisory authority which is responsible for supervising the administrator of the benchmark or screen rate (as applicable), (c) a group of the aforementioned central banks or other supervisory authorities or (d) the Financial Stability Board or any part thereof; and

Successor Rate means a successor to or replacement of the Original Reference Rate which is formally recommended by any Relevant Nominating Body.

(d) **Minimum Rate of Interest and/or Maximum Rate of Interest**

If the applicable Pricing Supplement specifies a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of Condition 7.2(b) (*Rate of Interest*) is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest.

If the applicable Pricing Supplement specifies a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of Condition 7.2(b) (*Rate of Interest*) is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.

(e) **Determination of Rate of Interest and calculation of Interest Amounts**

The Agent Bank will, at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period.

The Agent Bank will calculate the amount of interest (the **Interest Amount**) payable on the Floating Rate Notes for the relevant Interest Period by applying the Rate of Interest to:

(i) in the case of Floating Rate Notes which are represented by a Global Note, the aggregate outstanding principal amount of the Notes represented by such Global Note; or

(ii) in the case of Floating Rate Notes in definitive form, the Calculation Amount;

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Floating Rate Note in definitive form is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination without any further rounding.

Day Count Fraction means, in respect of the calculation of an amount of interest in accordance with this Condition 7.2:

(i) if "Actual/Actual (ISDA)" or "Actual/Actual" is specified in the applicable Pricing Supplement, the actual number of days in the Interest Period divided by 365 (or, if any portion of that Interest Period falls in a leap year, the sum of (I) the actual number of days in that portion of the Interest Period falling in a leap year divided by 366 and (II) the actual number of days in that portion of the Interest Period falling in a non-leap year divided by 365);

(ii) if "Actual/365 (Fixed)" is specified in the applicable Pricing Supplement, the actual number of days in the Interest Period divided by 365;

(iii) if "Actual/365 (Sterling)" is specified in the applicable Pricing Supplement, the actual number of days in the Interest Period divided by 365 or, in the case of an Interest Payment Date falling in a leap year, 366;

(iv) if "Actual/360" is specified in the applicable Pricing Supplement, the actual number of days in the Interest Period divided by 360;

(v) if "30/360", "360/360" or "Bond Basis" is specified in the applicable Pricing Supplement, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \, x \, (Y2 - Y1)] + [30 \, x \, (M2 - M1)] + (D2 - D1)}{360}$$

where:

Y1 is the year, expressed as a number, in which the first day of the Interest Period falls;

Y2 is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

M1 is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

M2 is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

D1 is the first calendar day, expressed as a number, of the Interest Period, unless such number is 31, in which case D1 will be 30; and

D2 is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31 and D1 is greater than 29, in which case D2 will be 30;

(vi) if "30E/360" or "Eurobond Basis" is specified in the applicable Pricing Supplement, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \, x \, (Y2 - Y1)] + [30 \, x \, (M2 - M1)] + (D2 - D1)}{360}$$

where:

Y1 is the year, expressed as a number, in which the first day of the Interest Period falls;

Y2 is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

M1 is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

M2 is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

D1 is the first calendar day, expressed as a number, of the Interest Period, unless such number would be 31, in which case D1 will be 30; and

D2 is the calendar day, expressed as a number, immediately following the last day included

in the Interest Period, unless such number would be 31, in which case D2 will be 30;

(vii) if "30E/360 (ISDA)" is specified in the applicable Pricing Supplement, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \, x \, (Y2 - Y1)] + [30 \, x \, (M2 - M1)] + (D2 - D1)}{360}$$

where:

Y1 is the year, expressed as a number, in which the first day of the Interest Period falls;

Y2 is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

M1 is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

M2 is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

D1 is the first calendar day, expressed as a number, of the Interest Period, unless (i) that day is the last day of February or (ii) such number would be 31, in which case D1 will be 30; and

D2 is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless (i) that day is the last day of February but not the Maturity Date or (ii) such number would be 31, in which case D2 will be 30.

(f) **Linear Interpolation**

Where Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Pricing Supplement, the Rate of Interest for such Interest Period shall be calculated by the Agent Bank by straight line linear interpolation by reference to two rates based on the relevant Reference Rate (where Screen Rate Determination is specified as applicable in the applicable Pricing Supplement) or the relevant Floating Rate Option (where ISDA Determination is specified as applicable in the applicable Pricing Supplement), one of which shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period provided however that if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the Agent Bank shall determine such rate at such time and by reference to such sources as the Issuer shall determine appropriate for such purposes.

Designated Maturity means, in relation to Screen Rate Determination, the period of time designated in the Reference Rate.

(g) **Notification of Rate of Interest and Interest Amounts**

The Agent Bank will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer, the Note Trustee and any stock exchange on which the relevant Floating Rate Notes are for the time being listed and notice thereof to be published in accordance with Condition 16 (*Notices*) as soon as possible after their determination but in no event later than (other than where Screen Rate Determination is specified in the applicable Pricing Supplement) the fourth London Business Day thereafter or (where Screen Rate Determination is specified in the applicable Pricing Supplement) the second London Banking Day (as defined in Condition 7.2(b)(ii)(A)) thereafter. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Period. Any such amendment will promptly be notified to each stock exchange on which the relevant Floating Rate Notes are for the time being listed and to the Noteholders in accordance with Condition 16 (*Notices*). For the purposes of this paragraph, the expression **London Business Day** means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for general business in London.

(h) **Inability or failure of Agent Bank to make determinations or calculations**

The Agent Bank shall not be obliged to make any determination or calculation required by the Conditions if it is not legally permitted to do so. If for any reason at any relevant time the Agent Bank is unable, or fails, to determine the Rate of Interest or to calculate any Interest Amount in accordance with Condition 7.2(b)(i) (*ISDA Determination for Floating Rate Notes*) or Condition 7.2(b)(ii) (*Screen Rate Determination for Floating Rate Notes*), as the case may be, the Issuer shall be obliged to appoint an alternative agent approved by the Note Trustee to make such determination or calculation or a successor Agent Bank in accordance with Condition 7.2(j) (*Agent Bank*).

(i) **Certificates to be final**

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 7 (*Interest*) by the Agent Bank shall (in the absence of wilful default, gross negligence, bad faith, fraud or manifest error) be binding on the Issuer, the Paying Agents, the Agent Bank, the Note Trustee and all Noteholders, Receiptholders and Couponholders and (in the absence of wilful default or bad faith) no liability to the Issuer, the Note Trustee, the Noteholders, the Receiptholders or the Couponholders shall attach to the Agent Bank in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

(j) **Agent Bank**

The Issuer shall procure that, so long as any of the Notes remains outstanding, there is at all times an Agent Bank for the purposes of the Notes and the Issuer may, subject to the prior written approval of the Note Trustee, terminate the appointment of the Agent Bank. In the event of the appointed office of any bank being unable or unwilling to continue to act as the Agent Bank or failing duly to determine the Rate of Interest and the Interest Amount for any Interest Period, the Issuer shall, subject to the prior written approval of the Note Trustee, appoint the London office of another major bank engaged in the London interbank market to act in its place. The Agent Bank may not resign its duties or be removed without a successor having been appointed.

7.3 **Accrual of interest**

Each Note (or in the case of the redemption of part only of a Note, that part only of such Note) will cease to bear interest (if any) from the date for its redemption unless payment of principal is improperly withheld or refused. In such event, interest will continue to accrue until whichever is the earlier of:

(a) the date on which all amounts due in respect of such Note have been paid; and

(b) as provided in the Note Trust Deed.

8. **Payments**

8.1 **Method of payment**

(a) Subject as provided below:

(i) payments in a Specified Currency other than euro will be made by credit or transfer to an account in the relevant Specified Currency maintained by the payee with a bank in the principal financial centre of the country of such Specified Currency; and

(ii) payments will be made in euro by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee.

(b) Payments will be subject in all cases to:

(i) any fiscal or other laws and regulations applicable thereto in the place of payment, but without prejudice to the provisions of Condition 10 (*Taxation*); and

(ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the **Code**) or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or (without prejudice to the provisions of Condition 10 (*Taxation*)) any law implementing an intergovernmental approach thereto.

8.2 **Presentation of definitive Notes, Receipts and Coupons**

(a) Subject as follows in respect of Instalment Redemption, payments of principal in respect of definitive Notes will (subject as provided below) be made in the manner provided in Condition 8.1 (*Method of payment*) only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of definitive Notes.

(B) it has been secured and/or indemnified and/or prefunded to its satisfaction.

(ii) The Note Trustee may refrain from taking any action, step or proceeding in any jurisdiction if the taking of such action, step or proceeding in that jurisdiction would, in its opinion based upon legal advice in the relevant jurisdiction, be contrary to any law of that jurisdiction. The Note Trustee may also refrain from taking such action, step or proceeding if it would otherwise render it liable to any person in that jurisdiction or if, in its opinion based upon such legal advice, it would not have the power to do the relevant thing in that jurisdiction by virtue of any applicable law in that jurisdiction or if it is determined by any court or other competent authority in that jurisdiction that it does not have such power.

(iii) No Noteholder, Receiptholder or Couponholder shall be entitled:

(d) In acting under the Agency Agreement, the Agents act solely as agents of the Issuer and, in certain circumstances specified therein, of the Note Trustee and do not assume any obligation to, or relationship of agency or trust with, any Noteholder, Receiptholder or Couponholder. Any such notice shall be deemed to have been given to the holders of the Notes on the day after the day on which the said notice was given to Euroclear and/or Clearstream, Luxembourg.

In connection with the exercise by it of any of its trusts, powers, authorities and discretions (including, without limitation, any modification, waiver, authorisation, determination or substitution), the Note Trustee shall have regard to the general interests of the Noteholders as a class but shall not have regard to any interests arising from circumstances particular to individual Noteholders, Receiptholders or Couponholders (whatever their number) and, in particular but without limitation, shall not have regard to the consequences of any such exercise for individual Noteholders, Receiptholders or Couponholders (whatever their number) resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory or any political sub-division thereof and the Note Trustee shall not be entitled to require, nor shall any Noteholder, Receiptholder or Couponholder be entitled to claim, from the Issuer, the Note Trustee or any other person any indemnification or payment in respect of any tax consequence of any such exercise upon individual Noteholders, Receiptholders or Couponholders except to the extent already provided for in Condition 10 (*Taxation*) and/or any undertaking or covenant given in addition to, or in substitution for, Condition 10 (*Taxation*) pursuant to the Note Trust Deed.

(c) The Note Trust Deed and (in the case of Secured Notes) the Security Trust Deed also contain provisions pursuant to which the Note Trustee and the Security Trustee, respectively, are entitled, *inter alia*:

Use of Proceeds and Sustainable Finance Framework

Use of Proceeds

The net proceeds from each issue of Notes (or, in the case of any Retained Notes, the net proceeds of sale of such Retained Notes to a third party) (each after deduction of expenses payable by the Issuer) shall be applied in furtherance of the Issuer's objects as permitted by its Rules including, without limitation, on-lending to other members of the Southern Group and the repayment of any existing indebtedness of the Issuer.

If, in respect of an issue, there is a particular identified use of proceeds, this will be stated in the applicable Pricing Supplement.

If the Notes are specified as "Social Bonds", "Green Bonds" or "Sustainable Bonds" in the applicable Pricing Supplement, the net proceeds from the issue of the Notes (or, in the case of any Retained Notes, the net proceeds of the sale of such Retained Notes to a third party) (each after deduction of expenses payable by the Issuer) will be used for social, green or sustainable purposes, as applicable, and, unless otherwise specified in the applicable Pricing Supplement, will be applied in accordance with the Sustainable Finance Framework as described below.

Sustainable Finance Framework

The Issuer has appointed DNV Business Assurance Services UK Limited (**DNV**) (an independent provider of environmental, social and governance research, ratings and analysis) to review the alignment of the Issuer's Sustainable Finance Framework with industry practice. DNV has evaluated the Issuer's Sustainable Finance Framework and has issued an independent opinion dated 17 May 2024 (the **Second Party Opinion**) confirming its alignment with ICMA's Social Bond Principles (June 2023 edition), ICMA's Sustainability Bond Guidelines (June 2021 edition), ICMA's Green Bond Principles (June 2021 edition with June 2022 Appendix I) and the Green Loan Principles (February 2023 edition) and the Social Loan Principles (February 2023 edition), each as administered by the Loan Market Association (**LMA**). The Second Party Opinion is available for viewing at: https://www.southernhousinginvestors.co.uk/document-centre/sustainable-finance-framework.

The Sustainable Finance Framework supports the Issuer's potential issuance of green, social or sustainability (combining green and social) labelled debt instruments (each a **Sustainable Finance Instrument**), including any Social Bonds, Green Bonds or Sustainable Bonds issued under the Programme.

The Sustainable Finance Framework contains four core components:

(a) *Use of Proceeds*: the Issuer will allocate an amount equivalent to the net proceeds raised under the Sustainable Finance Framework to finance or refinance in whole or in part new or existing Eligible Projects (as defined in the Sustainable Finance Framework) in the following categories: affordable housing, access to essential services, socioeconomic advancement and empowerment, green buildings, energy efficiency, clean transportation, renewable energy and terrestrial and aquatic biodiversity conservation.

Dependent on the nature of the project, the investment in the Eligible Projects can be measured through asset value, capital expenditure (CapEx) or operating expenditure (OpEx). For OpEx, the Issuer will apply a look-back period of up to 36 months prior to the time of debt issuance. The Issuer will not restrict the financing or refinancing of CapEx and assets with a time limit, however it has committed to endeavour to align recent or future expenditures to Sustainable Finance Instruments where feasible. The Issuer's funding needs will be driven by its new build and renovation strategy (which can be found within the Issuer's 2023-2026 Environmental Sustainability Strategy), and it expects to direct its financial resources (including proceeds from Sustainable Finance Instruments) to support its energy efficiency refurbishments and its affordable and low emission new build programmes. Core housing assets, which will become increasingly energy efficient through its planned investments, naturally have a long useable life and will need to be refinanced over time.

The Issuer intends to allocate an amount equivalent to the net proceeds raised by a Sustainable Finance Instrument to Eligible Projects within 24 months of issuance.

(b) *Process for Project Evaluation and Selection*: the Issuer's ESG Programme Board includes senior representatives from the following Issuer's Group Directorates: Communications, Strategic Asset Management, Delivery, Treasury and Finance. The ESG Programme Board meets at least 3 times per financial year and has the overall accountability for the Sustainable Finance Framework.

Investment decisions are initially proposed to the Risk Appraisal Group, which assesses risks associated with potential investments and ensures expenditures are in line with the Group's Strategic Plan. Investments are then reviewed by the ESG Programme Board to determine if they meet the Eligibility Criteria and can be allocated to Sustainable Finance Instrument proceeds.

The ESG Programme Board is responsible for overseeing the Issuer's annual ESG reporting, adhering to the Sustainable Reporting Standards (**SRS**), and the implementation and execution of the Sustainable Finance Framework, including:

(i) overseeing the establishment of the Sustainable Finance Framework and review of content, updating it over time to reflect changes in market standards on a best efforts basis (such as relevant ICMA and LMA principles and other environmental standards) and the Issuer's strategy;

(ii) approving the addition of Eligible Projects/expenditures in accordance with defined eligibility criteria;

(iii) supervising the utilisation of proceeds to ensure adherence to the eligibility criteria, with a focus on achieving a high level of allocation;

(iv) overseeing the Eligible Project portfolio and confirming its continued compliance with the Issuer's Sustainable Finance Framework;

(v) ensuring that any social and environmental risks associated with Eligible Projects have been appropriately assessed (and have been or will be mitigated) as required under legislation and the Issuer's internal processes;

(vi) excluding projects or investments that no longer comply with the eligibility criteria defined in the Sustainable Finance Framework relevant to an issuance or which have been disposed of, for example, by bulk stock transfer, and replacing them where feasible, on a best efforts basis;

(vii) overseeing the introduction and operation of arrangements to generate the information required to produce periodic allocation or impact reports, in accordance with the Sustainable Finance Framework; and

(viii) commissioning, managing and reviewing the external assurance of the Sustainable Finance Framework and any instruments issued in relation to it.

(c) *Management of Proceeds*: The ESG Programme Board and treasury operations team work together to track and manage the proceeds of Sustainable Finance Instruments. The receipts from Social Bonds, Green Bonds and Sustainable Bonds will be paid into the Issuer's main receipts account and recorded on a daily cashflow file (and separately on a treasury transactions log). This process includes verification to bank statements of the incoming Social Bonds, Green Bonds or Sustainable Bonds proceeds and any re-financing repayments. Thereafter, the Issuer intends to allocate an amount equal to the net proceeds from its Sustainable Finance Instruments to Eligible Projects, selected in accordance with the eligibility criteria and project evaluation and selection process presented in the Sustainable Finance Framework.

In alignment with ICMA and LMA principles, the ESG Programme Board will use its best endeavours to ensure that Eligible Projects financed exceed net proceeds raised under the Sustainable Finance Framework over time whilst the relevant Sustainable Financing Instrument remains outstanding.

Pending the full allocation to Eligible Projects, the Issuer may use any unallocated funds for transactions in line with its treasury policy – which can include deposits, money market funds and other similar products, prioritising ESG-aligned products where possible. The Issuer may also consider liability management or temporary refinancing as necessary and appropriate. The Issuer's finance team will take principal responsibility for managing this process.

(d) *Reporting*: The Issuer intends to make and keep publicly available reporting on the impact and allocation of amounts equivalent to the net proceeds of Sustainable Finance Instruments. Once material expenditure is available, the Issuer intends to publish a combined allocation and impact report annually until full allocation is achieved. Funders of Sustainable Finance Instruments will be updated in a timely manner to the extent there are material changes in allocation.

Allocation reporting will include information such as:

(i) the amount issued and outstanding for the Sustainable Finance Instrument(s);

(ii) the total value of Eligible Projects to which allocations have been made;

(iii) a list of and description of the portfolio of Eligible Projects including a breakdown of the allocated amounts by ICMA/LMA categories where appropriate;

(iv) the amount and/or percentage of new and existing projects (including share of financing and refinancing); and

(v) any further information on how unallocated proceeds are held.

The combined allocation and impact report will also provide details on selected environmental and social impacts of Eligible Projects. The Issuer's impact reporting will, on a best-efforts-basis, recognise key aspects of the SRS as well as ICMA's Harmonised Framework for Impact Reporting and the Harmonised Framework for Impact Reporting for Social Bonds. Where feasible and appropriate, the Issuer will include underlying methodologies and assumptions used in the calculation of the impact metrics and demonstrate the links between allocated funds the associated impacts that have been achieved.

No assurance or representation is given by the Issuer, the Arranger, the Dealers or any of their respective affiliates or any other person as to the suitability or reliability for any purpose whatsoever of any opinion or certification of any third party (whether or not solicited by the Issuer) which may be made available in connection with the issue of any Notes. For the avoidance of doubt, any such opinion or certification is not, nor shall it be deemed to be, incorporated in and/or form part of these Programme Admission Particulars. Any such opinion or certification is not, nor should it be deemed to be, a recommendation by the Issuer, the Arranger, the Dealers or any of their respective affiliates or any other person to buy, sell or hold any such Notes. The Noteholders have no recourse against the Issuer, the Arranger, any Dealer or any of their respective affiliates or the provider of any such opinion or certification for the contents of any such opinion or certification. Any such opinion or certification is only current as at the date that opinion was initially issued and the providers of such opinions and certifications are under no obligation to update them following their issue. Prospective investors must determine for themselves the relevance of any such opinion or certification and/or the information contained therein and/or the provider of

such opinion or certification for the purpose of any investment in any Notes. Currently, the providers of such opinions and certifications are not subject to any specific or regulatory or other regime or oversight.

No assurance is given by the Issuer, the Arranger, the Dealers or any of their respective affiliates or any other person that the use of the proceeds of issue of any Notes will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates. None of the Note Trustee, Issuer, the Arranger or the Dealers or any of their respective affiliates will have any responsibility for monitoring the application of any such proceeds.

The Issuer may amend or update the Sustainable Finance Framework in the future.

For the avoidance of doubt, the Sustainable Finance Framework, the Second Party Opinion and any further second party opinion(s) referred to in the applicable Pricing Supplement are not, nor shall they be deemed to be, incorporated in and/or form part of these Programme Admission Particulars.

Investors in Social Bonds, Green Bonds and Sustainable Bonds should have particular regard to the risk factors under the headings "*Use of Proceeds / Social, Green and Sustainable Bonds*" and "*The impact on investor demand for Green Bonds or Sustainable Bonds of the European Green Bond Standard is unclear*" in the section headed "*Risk Factors*" above.

Description of the Retained Note Custody Agreement

The Issuer has appointed The Bank of New York Mellon, London Branch as its Retained Note Custodian pursuant to the Retained Note Custody Agreement in relation to the issue of Retained Notes under the Programme.

The following description of the Retained Note Custody Agreement consists of a summary of certain provisions of the Retained Note Custody Agreement and is qualified by reference to the detailed provisions thereof. The Retained Note Custody Agreement is not, however, incorporated by reference into, and therefore does not form part of, these Programme Admission Particulars.

Definitions used in this section but not otherwise defined in these Programme Admission Particulars have the meanings given to them in the Retained Note Custody Agreement.

Pursuant to the Retained Note Custody Agreement, the Retained Note Custodian shall, subject to receipt of such documents as it may require, open, in the name of the Issuer, the Retained Note Custody Sub-Account and the Retained Note Cash Sub-Account (together with the Retained Note Custody Sub-Account, the **Retained Note Custody Account**).

Transfer of Retained Notes

Pursuant to the Retained Note Custody Agreement, the Retained Note Custodian shall not effect a transfer of any Retained Notes which are Secured Notes except with the prior written consent of the Note Trustee in the form of a Retained Note Consent Letter which has been countersigned on behalf of the Note Trustee. The Note Trustee shall countersign the relevant Retained Note Consent Letter upon receipt of a signed Retained Note Compliance Certificate from the Issuer confirming, to the Note Trustee's satisfaction, that the Issuer will be in compliance with the Asset Cover Test in respect of the relevant Series of Secured Notes immediately following such transfer.

Payment Waiver

Notwithstanding any other provision of the Retained Note Custody Agreement to the contrary and subject to the following paragraph, the Issuer has, pursuant to the Retained Note Custody Agreement, unconditionally and irrevocably:

(a) waived its rights to receive payments of interest, principal or otherwise in respect of the Retained Notes and, for the avoidance of doubt, such waiver by the Issuer of such rights will continue to be effective following the occurrence of an Event of Default or a Potential Event of Default in respect of the relevant Series;

(b) authorised the Retained Note Custodian to disclose the waiver referred to in (a) above in respect of the Retained Notes (and the Retained Notes position with the Retained Note Custodian) to the Principal Paying Agent and any applicable international clearing system for the Retained Notes to ensure that the waiver of the right to receive payments of interest, principal or otherwise in respect of the Retained Notes is effected; and

(c) directed the Retained Note Custodian, in respect of each Retained Note held by the Retained Note Custodian on behalf of the Issuer in the Retained Note Custody Sub-Account in definitive form:

  (i) on each Interest Payment Date, to surrender the interest coupon for such Retained Note corresponding to such Interest Payment Date to the Principal Paying Agent for cancellation;

  (ii) in respect of Retained Notes where Instalment Redemption is specified as applicable in the applicable Pricing Supplement, on each Instalment Date, to surrender the principal receipt for such Retained Note corresponding to such Instalment Date to the Principal Paying Agent for cancellation; and

  (iii) to surrender the definitive bond representing such Retained Note to the Principal Paying Agent for cancellation on any date on which the Retained Notes are to be redeemed in full.

The Retained Note Custodian and the Issuer have each acknowledged and agreed that the waiver, authorisation and direction provided by the Issuer as described above are irrevocable except with the prior written consent of the Note Trustee in the form of a Retained Note Consent Letter which has been countersigned on behalf of the Note Trustee.

Termination of Retained Note Custody Agreement

Either the Issuer or the Retained Note Custodian may terminate the Retained Note Custody Agreement by giving at least 30 days' written notice to the other parties.

Either of the Issuer or the Retained Note Custodian may further terminate the Retained Note Custody Agreement with immediate effect by giving notice to the other parties if the Retained Note Custodian or the Issuer, as applicable, has committed a material breach of the terms of the Retained Note Custody Agreement which is not remedied within 30 days of notice of the same or upon the occurrence of an insolvency event with respect to that party.

Pursuant to the Retained Note Custody Agreement, the Issuer has covenanted for the benefit of the Note Trustee that, in the event that the Retained Note Custody Agreement is terminated, it shall appoint a successor custodian to hold the Retained Notes on substantially the same terms as the Retained Note Custody Agreement, in particular, but without limitation, with respect to the payment waiver and transfer restrictions applicable to the Retained Notes, as described above.

Description of the Regulation and Funding Environment applicable to the Issuer

The Social Housing Sector

Social housing is housing which is:

- rented below market level rents; or
- bought through schemes such as shared ownership,

in each case, that is made available to those whose needs are not served by the commercial housing market. As at 17 September 2026, the Regulator of Social Housing (the **Regulator**) reported that there were 1,577 Registered Providers of Social Housing (**Registered Providers**) in England.

Regulation

The *Housing and Regeneration Act 2008* (as amended, the **HRA 2008**) makes provision for the regulation of social housing provision in England.

The Regulator is an independent regulator and statutory non-departmental public body, established under the HRA 2008. It is sponsored by the Ministry of Housing, Communities and Local Government (previously named the Department for Levelling Up, Housing and Communities) (**MHCLG**) with responsibility for the regulation of Registered Providers. The Regulator's statutory objectives and powers of enforcement are set out in the HRA 2008.

The Regulator sets statutory economic and consumer standards that apply to Registered Providers (the **Standards**) as a means of defining the outcomes that social landlords must deliver for tenants. Registered Providers are expected to comply with the Standards and to establish arrangements to ensure that they are accountable to their tenants, the Regulator and relevant stakeholders.

In relation to the Regulator's economic regulation objective, there are three Standards that are classified as **Economic Standards**. These are:

- the Governance and Financial Viability Standard;
- the Value for Money Standard; and
- the Rent Standard.

In relation to the Regulator's consumer regulation objective, there are four Standards that are classified as **Consumer Standards**:

- the Safety and Quality Standard;
- the Transparency, Influence and Accountability Standard (the **TIA Standard**);
- the Neighbourhood and Community Standard; and
- the Tenancy Standard.

A further Competence and Conduct Standard, introducing mandatory professional qualification requirements for senior staff of Registered Providers, will come into force on 1 October 2026, subject to a transition period (see below).

The Regulator has issued three codes of practice to support and amplify the requirements of the Governance and Financial Viability Standard, the Value for Money Standard and the Consumer Standards. It has published a suite of information explaining its operational approach to regulation, programmed and unprogrammed inspections, assessments of Registered Providers' compliance with the Standards, dealing with regulatory issues and taking action on serious failures.

Regulatory oversight and intervention

The Regulator firmly endorses a co-regulatory approach, meaning that housing associations' boards are responsible for their respective organisations and are held to account for how they are run and the outcomes they deliver. The Regulator forms judgements to reflect its view of how well each Registered Provider is delivering the outcomes of the Standards. It carries out programmed inspections of all large landlords (those who own 1,000 or more social homes) on a four yearly cycle and issues gradings for governance ("G1" to "G4"), viability ("V1" to "V4") and, for all regulatory inspections undertaken after 1 April 2024, consumer standards ("C1" to "C4"). The Regulator is also able to carry out inspections that are not programmed, including of small landlords, if the Regulator judges it to be appropriate.

The Regulator has a wide range of statutory intervention powers available to it to tackle sub-standard performance by Registered Providers under the HRA 2008 (as extended, strengthened and supplemented by the *Social Housing (Regulation) Act 2023* (the **SHRA 2023**)). These include imposition of penalties and/or compensation, procuring emergency remedial action, undertaking a statutory inquiry, performance improvement notices and plans, appointment and removal of board members, transfers of land and amalgamations. However, the Regulator generally aims to work cooperatively with Registered Providers to achieve any necessary corrective actions. It is more likely to intervene in circumstances where self-improvement has not succeeded, or where a Registered Provider is unable or

unwilling to respond positively (in each case, within an appropriate timeline), or where the Regulator concludes that such an approach is not appropriate (for instance, where urgent action is necessary or there is an immediate and significant risk to a Registered Provider's tenants).

Following changes introduced by the SHRA 2023, the Consumer Standards were significantly revised and strengthened with effect from 1 April 2024. Prior to that, the Regulator took a reactive approach to regulating the Consumer Standards. Its intervention and enforcement powers were restricted to cases in which there were reasonable grounds to suspect that actual or a significant risk of serious detriment to tenants. The "serious detriment" test was removed by the SHRA 2023 and, since 1 April 2024, the Regulator has applied the same scrutiny and focus across all the Standards.

The current Economic Standards (with the exception of the Rent Standard) have remained largely unchanged for more than ten years, being widely perceived to operate well in facilitating stability within the English social housing sector and maintaining levels of general investor confidence. During this period the sector has undergone profound change including increased financial and operational pressures, more complex funding structures, the growth of for-profit providers and rising expectations on building safety, stock quality and decarbonisation. In June 2026 the Regulator published a call to evidence on the recalibration of the economic regulatory regime. The Regulator is considering how their regulatory approach can become more targeted, data-driven and risk-based to help the sector meet the challenges of today and the future. The name and key theme of the paper is delivery of *More and Better Social Homes*. The Regulator anticipates consulting on revised Economic Standards in 2027, with the new Standards being implemented the following year.

Transparency

Since 1 April 2023 Registered Providers have been required to collect and annually report prescribed and meaningful tenant satisfaction data against prescribed Tenant Satisfaction Measures (**TSM**), with the stated aim of enabling both tenants and the Regulator to better hold Registered Providers to account for their performance. The first set of TSM data was published on 1 April 2024.

Also in pursuit of increased transparency, *Social Tenant Access to Information Requirements* (**STAIRS**) will be introduced from October 2026. STAIRS includes both proactive disclosure of management information related to governance, decision-making, spending and performance as well as reactive responses to requests for relevant information by tenants. From October 2026, Registered Providers will be required to proactively publish information relating to the management of their social housing. From April 2027, they will also be required to respond to information requests from tenants. These requirements will be implemented through updates to the TIA Standard and the Consumer Standards Code of Practice. The Housing Ombudsman is the designated complaints body for STAIRs-related matters.

Housing quality

In recent years a confluence of factors has been driving substantial increased investment by Registered Providers in their existing housing stock.

Awaab's Law

The UK social housing sector has been subject to intense scrutiny following the death of a child in 2020 from a respiratory condition largely caused by extensive and untreated damp and mould in a local authority owned home. In response to the tragedy, the SHRA 2023 included new requirements with a view to maintaining housing quality standards and holding Registered Providers to account for failures to deal adequately with disrepair, poor quality housing and health and safety concerns. Following consultation on detailed implementation proposals, on 27 October 2025 *The Hazards in Social Housing (Prescribed Requirements) (England) Regulations 2025*, commonly known as Awaab's Law, officially came into force, beginning a two year phased introduction of mandatory timeframes for remediation of significant hazards to health and safety in social housing. MHCLG has also published non-statutory guidance for both social landlords and tenants in social housing, and has signalled a "test and learn" approach, meaning the framework may evolve as each phase is implemented.

Phase 1 of Awaab's Law, which came into force on 27 October 2025, introduced strict statutory timeframes which apply to damp and mould hazards that present a significant risk of harm (significant hazards), and all emergency hazards. Registered Providers must investigate any potential emergency hazards and, if the investigation confirms emergency hazards, undertake relevant safety work as soon as reasonably practicable. The investigation and the work must both take place within 24 hours of becoming aware of the hazard. On 30 November 2026, Phase 2 will extend the requirements to seven additional hazard categories: electrical hazards, falls, fire and explosion risks, excess cold, excess heat, structural collapse and falling elements, and domestic hygiene issues such as pest infestations. In 2027, Phase 3 will include most remaining hazards under the Housing Health and Safety Rating System excluding overcrowding. Awaab's Law inserts terms to this effect into social housing tenancy agreements and tenants can take legal action through the courts for breach of contract. The Housing Health and Safety Rating System was also significantly revised and updated in June 2026, and MHCLG recently published guidance on how the revised system will operate, be assessed and enforced by local authorities.

Housing Ombudsman

Since 2020, the Regulator and the Housing Ombudsman have been increasingly proactive in their oversight capacities in seeking to ensure Registered Providers give due attention and undertake timely corrective action in respect of housing quality issues, including the issuance of specific regulatory guidance. The Regulator may investigate individual complaints where they consider that the issue may be material to a landlord's delivery of the outcomes required by a Standard, and the Housing Ombudsman also has statutory powers to deal with individual complaints.

The SHRA 2023 strengthened the role of the Housing Ombudsman in order to provide tenants with a means of complaint and redress for inadequate housing provision by Registered Providers. A revised *Complaints Handling Code* (the **Code**), setting out good practice for Registered Providers in responding to complaints fairly and effectively, was given a statutory footing with effect from 1 April 2024. Registered Providers are required to carry out an annual assessment against the Code to ensure their complaints handling remains in line with its requirements and to publish the results. The Housing Ombudsman has a statutory duty to monitor compliance (regardless of whether complaints are received) and is actively enforcing the Code. These changes have resulted in the Housing Ombudsman

experiencing a significant increase in enquiries and complaints, determinations made, and remedies awarded (including financial compensation) with almost a 500 per cent. rise in cases over 5 years, reaching over 13,000 cases in 2025-26.

Decent Homes Standard

The *Decent Homes Standard* defines minimum standards which apply to all social housing in England. An updated and modernised draft of the *Decent Homes Standard* was published in January 2026, containing significant changes to the previous version (which had not been updated since 2006). The updated *Decent Homes Standard* includes new requirements relating to the state of repair, complete absence of damp and mould, safety and security of homes and minimum energy efficiency standards (see below). It no longer has age limits for building components but rather focuses on the actual condition as the primary factor. It goes further by specifying the minimum facilities required for a residence to meet the criteria for a "decent home". The updated *Decent Homes Standard* will apply to all rented properties in both the social housing and the private rented sectors from 2035. The extended implementation period gives landlords time to phase work and spread costs, to support spending on routine repairs and new supply. The *Decent Homes Standard* is enforced in the social housing sector by the Regulator within its consumer standards.

The revised *Decent Homes Standard* includes minimum energy efficiency standards (**MEES**) and, to this end, a separate consultation ran simultaneously in Q3 of 2025 on improving energy efficiency in social rented homes. The consultation outcome published in April 2026 confirmed that, from April 2030, all new and existing social rented properties will be required to meet EPC C using reformed EPC metrics (see below) relating to fabric performance, smart readiness or heating system. Registered Providers will be required to meet one metric by 2030 and two metrics by 2039. Registered Providers will have a choice of what metrics are best suited to their stock. Any property with a valid EPC certificate meeting the current EPC C standard will be considered compliant for the validity period of its EPC certificate. There will also be a time limited 10 year "spend exemption" of £10,000 for the first metric and £10,000 for the second metric. MEES requirements will also apply to private rented homes from 1 October 2030.

Electrical Safety

The Electrical Safety Standards in the Private Rented Sector (England) (Amendment) (Extension to the Social Rented Sector) Regulations 2025 introduced mandatory electrical safety checks within the social rented sector. This brings the statutory requirements for the social rented sector into alignment with the requirements already applicable to private sector landlords. The regulations came into force on 1 November 2025 for social housing tenancies granted after 1 December 2025 and on 1 May 2026 for existing tenancies. Alongside this, the Regulator has added a new Tenant Satisfaction Measure relating to electrical safety checks. In practice many Registered Providers already follow a five yearly cycle for electrical inspections.

Professionalisation of social housing staff

In December 2025 the Regulator consulted, among other things, on the introduction of competence and conduct standards and mandatory professional qualification requirements for staff of Registered Providers. The requirements are aimed at driving greater professionalism and higher standards by ensuring relevant housing staff have the required skills, knowledge, experience, and behaviours to deliver a high standard of service to tenants. As a result of the feedback received through the consultation, and in order to increase visibility for tenants and landlords, the Regulator decided to create a separate Standard (the **C&C Standard**), which will come into force on 1 October 2026 with a 3 year transition period (4 years for Registered Providers with fewer than 1000 homes).

Cost implications

There have been, and inevitably will continue to be, cost implications for Registered Providers arising from compliance with the obligations and regulatory requirements that have already been implemented and those that are still to come into force. Registered Providers are reliant on the availability of skilled labour to deliver programmes of major repairs and maintenance, comply with safety requirements (including building safety, see below), and deliver key services to tenants. The Regulator's latest sector risk profile highlighted that a tight market for such labour is currently driving up costs and exacerbating underlying skills shortages.

Moratorium and Housing Administration

In order to protect the interests of tenants and to preserve the housing stock of a Registered Provider within the social housing sector and within the regulatory regime, a 28 day moratorium is automatically triggered when certain steps are taken in relation to a Registered Provider such as presenting a winding up petition, application being made for its winding up or an administration order, the appointment of an administrator or notice served of intention to enforce security over its property. During such moratorium period any disposal of land (including the enforcement of any security) by the Registered Provider without the Regulator's prior consent will be void. Exceptions are made for specific types of lettings, and disposals pursuant to a right to buy or right to acquire. The Regulator may then appoint an interim manager of the Registered Provider and/or seek to agree proposals about the future ownership and management of the provider's land with its secured creditors. The Security Trustee is required to notify the Regulator of its intention to enforce the security created pursuant to the Legal Mortgages and it cannot enforce its security during the resulting moratorium without the consent of the Regulator.

The Issuer is a registered society within the meaning of the *Co-operative and Community Benefit Societies Act 2014* and is therefore not subject to administration under the *Insolvency Act 1986*. However, the HPA 2016, the *Insolvency of Registered Providers of Social Housing Regulations 2018* and the *Housing Administration (England and Wales) Rules 2018* introduced a special administration regime called housing administration which was brought into force on 5 July 2018 and is available in addition to the moratorium regime. This provides for a court to appoint a qualified insolvency practitioner known as a "housing administrator" to manage the affairs, business and property of a Registered Provider, following an application from the Secretary of State or (with the permission of the Secretary of State) the Regulator.

An interim moratorium will run from the date of issue of an application for a housing administration order until the application is either dismissed or a housing administration order takes effect. Upon the making of a housing administration order, a Registered Provider shall

become subject to a moratorium, for so long as such Registered Provider is subject to a housing administration order, during which secured creditors may not enforce their security without the consent of the housing administrator or the permission of a court.

Each housing administration order will last for 12 months (subject to certain exceptions) but may be extended. In certain circumstances a court may make an order enabling a housing administrator to dispose of property belonging to a Registered Provider which is subject to a fixed charge, albeit only on terms that the fixed charge holder receives the proceeds up to the value of the security and those proceeds are topped up to market value if the property is sold for less than this.

Housing Grant

Grant funding (**Grant**) is allocated by central UK Government periodically to support the capital costs of developing affordable housing for rent or sale on shared ownership terms. Allocation of funding outside London under these programmes is administered by Homes England, an executive non-departmental public body sponsored by the MHCLG. Grant for affordable housing development within London is administered by the Greater London Authority (the **GLA**).

Historically, Grant has been a critical part of the funding mix for Registered Providers, sustaining their ability to provide housing for rent at below market level rents or on subsidised home ownership terms. Under the *Affordable Homes Programme 2021-2026* (**AHP 2021-26**), £7.39 billion was made available for the supply of new-build affordable housing in England outside London, with top up funding of £400 million and £240 million announced in October 2024 and February 2025 respectively, and a further £2 billion bridging fund announced in March 2025. A further £4 billion was made available under the *Homes for Londoners: Affordable Homes Programme 2021-2026*.

At the June 2025 Spending Review, the UK Government announced a new ten year £39 billion funding programme to succeed the AHP 2021-26 (the *Social and Affordable Homes Programme* or **SAHP**). £2 billion of this had previously been announced as bridge funding and was made available on the same terms as AHP 2021-26. Up to 30 per cent (£11.7 billion) is allocated to housing delivery in London through the GLA. The remainder continues to be administered by Homes England. Over time, the UK Government is seeking to move towards full devolution of funds and delivery for affordable housing. As an interim step, the six Established Mayoral Strategic Authorities (**EMSAs**) have provided details of their strategic priorities in the SAHP guidance. Partners using Grant to deliver social and affordable housing in EMSA areas must demonstrate how the funding will support the relevant EMSA priorities alongside national priorities.

Grant under AHP 2021-2026 and SAHP may support a variety of tenures including social rent, affordable rent and shared ownership. As a general rule, AHP 2021-26 Grant could not be used for regeneration, major repairs or the purchase of homes built under section 106 agreements. The SAHP will continue to focus on new supply but it will also support some regeneration schemes that provide a net increase in homes on a site, subject to satisfying the additionality rules in the SAHP guidance.

SAHP funding may be accessed either:

- on an ongoing basis under the *Continuous Market Engagement* (**CME**) funding route, either scheme-by-scheme or (new to this programme) across a portfolio of sites for partners able to demonstrate delivery confidence across schemes at different stages, the latter approach being designed to de-risk and accelerate delivery. Grant is paid in stages as delivery milestones for the funded homes are met, with Grant becoming recoverable if the funded homes are not completed; or

- under the *Strategic Partnership* route (i) for Registered Providers delivering at scale, local authorities, developers (that either plan to sell homes to Registered Providers for additional affordable housing over and above planning requirements or are Registered Providers contracting with developers to acquire additional affordable housing at scale) and (ii) a new category for specialist and supported housing delivery. Grant is paid in stages as delivery milestones are met but is only formally counted against a Strategic Partner's allocation ('attributed') once the new Grant funded homes are completed. The volume of paid-but-unattributed Grant is capped, so continued access to funding depends on converting allocations into completions. The first 33 successful Strategic Partners outside of London were announced in August 2026, with the GLA expected to announce allocations for London shortly thereafter. Homes England expects to run further rounds during the programme.

Under both routes, all homes must start on site by 31 March 2036 and complete by 31 March 2039, with early completions (by 31 March 2029) prioritised.

The City Hall Developer Investment Fund is a further £324 million pot of funding announced in October 2025 and administered by the GLA for London-based housing development projects that will achieve practical completion by summer 2029 or earlier. The funding could take the form of grant, loans at sub-market interest rates, senior or mezzanine debt or equity investment. The UK Government and the GLA have described the £324 million as an initial allocation, with the potential for the fund to grow with additional investment.

Social Housing Rents

Rent levels and rental increases for social rent and affordable rent within the social housing sector are strictly controlled in line with government policy. Registered Providers are required to set and increase social rents as prescribed in the Rent Standard and the *Policy Statement on Rents for Social Housing* published by the MHCLG. Service charges are outside the scope of the Rent Standard.

Since 1 April 2020, under the Rent Standard 2020, social rent and affordable rent were permitted to increase each year by up to Consumer Price Index (**CPI**) plus 1 per cent. However, due to sharp inflation in 2022-2023, MHCLG's predecessor department imposed a cap in 2023-2024 on increases to social rent or affordable rent at the lower of (i) 7 per cent or (ii) CPI plus 1 per cent, with limited exceptions. Many Registered Providers also committed to a voluntary equivalent cap to the rental increase on their shared ownership leases. Nonetheless this cap did not apply to the calculation of the maximum initial rent when properties were first let or subsequently relet. In the four years immediately prior (2016 to 2020), Registered Providers were required by the *Welfare Reform and Work Act 2016* (the **WRWA 2016**) to reduce the social rent payable by their tenants by 1 per cent annually.

The mandated rent reductions of 2016 to 2020 and the cap imposed in 2023-2024 (notably in the context of building safety requirements, rising repair costs, interest rates and inflation being in excess of such cap) have significantly weakened the sector's financial capacity. MHCLG acknowledged this and committed to rent policy reform as a means to rebuild financial capacity. In January 2026 the MHCLG announced a 10-year rent settlement allowing annual rent increases of up to CPI plus 1 per cent, which has been implemented through the *Policy Statement on Rents for Social Housing* and current Rent Standard, with effect from 1 April 2026 for a ten-year period to 2036.

In the second limb of social housing rent policy reform, the *Policy Statement on Rents for Social Housing* and Rent Standard 2026 include a ten-year period of "rent convergence". Convergence allows Registered Providers to gradually increase rents that are below the social rent formula to correct the disparities caused by historical regulation and achieve alignment across their social rented stock. For properties where the rent is below formula rent, Registered Providers will be permitted to increase the weekly rent on their social rent homes by up to an additional £1 from 1 April 2027 over and above the CPI plus 1 per cent limit, before rising to an additional £2 each year from 1 April 2028, until formula rent is reached. The consultation outcome estimated that rent convergence will generate an additional £2.7 billion in rental income for private Registered Providers and £3.1 billion for local authority Registered Providers over the 10 year period.

Affordable rent

Since 2011, where a Registered Provider has entered into a housing supply delivery agreement with Homes England or the GLA, that agreement may permit the Registered Provider to charge "affordable rent" in respect of accommodation provided pursuant to it, if certain conditions apply. "Affordable rent" means the rent (inclusive of service charge) for a new tenant under a new tenancy may be set at up to 80 per cent of market rent (and where 80 per cent of market rent would be lower than the social rent for the property, the rent may instead be set at up to social rent) plus service charges. The *Policy Statement on Rents for Social Housing* (given regulatory effect through the Rent Standard) sets out how market rent is to be calculated, including the treatment of service charges. A grant agreement in respect of funding given under the AHP 2021-26 and (in future) SAHP is a housing supply delivery agreement permitting the letting of grant-funded homes at an affordable rent, and Registered Providers must comply with the terms of that agreement (and have regard to the relevant programme framework) when setting rents.

The *Policy Statement on Rents for Social Housing* and Rent Standard applicable from April 2026 includes a new category of affordable rent which does not require any form of agreement with Homes England, the GLA or the Secretary of State. Provided the property has not been converted from housing let on a social rent basis - in effect, that it has never been let at social rent - it may be let at an affordable rent (subject to the usual exceptions for categories such as specialised supported housing and intermediate rent). This provides more flexibility with new housing stock.

Shared ownership

Many Registered Providers own and manage shared ownership portfolios. "Shared ownership" refers to a tenure where the terms allow tenant to pay a percentage (previously between 25 per cent and 75 per cent, but the minimum has been reduced to 10 per cent for shared ownership homes funded under the AHP 2021-26 or the SAHP) of the value of their home. Under a lease agreement with the Registered Provider landlord, the tenant will pay rent on the remaining percentage share. The lease includes a right to purchase the remaining share of the property in incremental stages (staircasing). Any sales receipt, including the appropriate proportion of Homes England funding, must be reinvested in the further new supply of shared ownership homes.

The Right to Shared Ownership applies as a condition of grant funding to all social and affordable homes built through the AHP 2021-2026 (save where certain limited exemptions apply). Model leases are published by Homes England and may only be varied with consent. Rent increases apply annually in line with the prescribed terms. In October 2023, the Department for Levelling Up, Housing and Communities released new guidance changing the basis of the rent review in future shared ownership leases that are grant funded by either Homes England or the GLA (and some section 106 arrangements). The change from an RPI basis to a CPI basis for rent reviews brings shared ownership rents more into line with general needs rents.

The legal framework for renting and owning property in England real estate sector is undergoing a period of significant ongoing reforms, which are outlined in the next section insofar as they impact social housing more generally. These reforms include major reforms to shared ownership. Previously shared ownership leaseholders were treated as assured tenants under the *Housing Act 1988*. Pursuant to section 31 of the *Renters' Rights Act 2025* (the **RR Act**), shared ownership leases are now considered "long leases" and must be treated as such. This will mean that landlords of shared ownership properties will be unable to use Section 8 possession proceedings as a method of recovering rent or service charge arrears. Instead, landlords would need to use the forfeiture process, a discretionary equitable remedy that requires court action.

Furthermore, the *Leasehold and Freehold Reform Act 2024* (the **LFRA 2024**) bans the sale of new leasehold houses. Shared ownership leases are expressly permitted, provided they meet the conditions set out in paragraph 7 of Schedule 1 of LFRA 2024. The LFRA 2024 imposes statutory requirements on permitted leases in relation to the content of promotional material and advance transaction warning notices. Breach of these requirements could invoke financial penalties. It also clarifies the legal position of shared ownership leaseholders in respect of lease extensions and valuation mechanisms, collective enfranchisement and right to acquire the freehold. These provisions of the LFRA 2024 are not yet in force. Likewise, within the proposals for a new commonhold legal framework that will replace leasehold, shared ownership leases of flats are expected to continue via an exemption, subject to formal UK Government consultation on the details of how this can be achieved.

Reform of real estate legal framework

Tenancy reform

The RR Act received royal assent on 27 October 2025. The RR Act will impact all residential tenancies including social and other low-cost rented accommodation as well as market rent housing. It requires practical changes to the business of Registered Providers including to their policies, third party contractual arrangements, tenancies, nominations agreements, the management of shared ownership leases, headleases, and any market rent elements of their business.

The reforms of the RR Act became effective in relation to market rent products owned by social landlords or their subsidiaries on 1 May 2026. On its implementation date, all assured shorthold tenancies converted to assured periodic tenancies. Fixed term tenancies no longer exist and tenancies continue on a periodic basis until ended by the tenant or by the landlord in accordance with their contractual and statutory rights. Landlords of market rent tenancies are no longer able to use Section 21 of *Housing Act 1988* ("no fault" eviction) to regain possession, subject to some transitional provisions if notices were served before this date. To compensate for the removal of Section 21, there are a number of additional mandatory grounds for possession. Landlords must follow the Section 8 eviction procedure and apply to the courts if the tenants do not leave voluntarily. In response to concerns that the courts will not have capacity to deal with legitimate applications in a timely manner, the UK Government has confirmed that more funding will be provided to the courts and the possession process will be relocated within a new digital end-to-end possession service in the county courts. The rules governing this digital possession service are contained in *The Online Procedure (Rules and Practice Directions) Rules 2026*, which come into force for possession proceedings on 7 September 2026.

The RR Act also introduced other protections for private sector tenants such as:

- it is illegal for landlords to discriminate against tenants in receipt of benefits or with children when choosing to let their property;
- landlords cannot rely on rent increase clauses within their tenancy agreements but must instead rely on an amended Section 13 *Housing Act 1988* procedure which limits the frequency of rent increases to no more than once a year in accordance with a prescribed statutory process, including 2 months' notice. Tenants may challenge the level of rent increases;
- prescribed information must be provided by landlords to their tenants, with non-compliance being a civil and potentially criminal offence; and
- local housing authorities' enforcement powers are strengthened by the ability to issue civil financial penalties (up to £7,000) and they have new investigatory powers to enforce housing standards more effectively.

The UK Government intends that the tenancy reforms of the RR Act will be extended to apply to social housing tenancies from October 2027. The regulatory Standards, primarily the Tenancy Standard and the Rent Standard, will be impacted by the reforms and will need to be updated. In 2026 MHCLG consulted on a new Tenure Direction that will require the Regulator to create a regulatory Standard on tenure to align the sector with the updated assured tenancy framework introduced by the RR Act.

The RR Act also establishes the legal framework for a digital database of all private landlords, which will be known as the PRS Database. Registration requirements are likely to include any market rent tenancies let by social landlords. Following implementation of the database, a new PRS Landlord Ombudsman will be created to provide a redress service for private rented sector tenants and support for landlords handling tenant complaints. These measures will be funded by mandatory landlord registration and contributions and will be introduced from late 2026 onwards.

In Phase 3 of the implementation of the RR Act, the updated Decent Homes Standard and Awaab's Law will be extended to apply to the private rented sector. This is envisaged to be in force by the mid-2030s.

Some Registered Providers may be landlords of commercial premises under mixed-use developments. For these entities, it is notable that Schedule 37 of the English Devolution and Community Empowerment Act 2026 abolishes upward-only rent review provisions in new business tenancies by rendering review mechanisms capable of operating both upwards and downwards. The provisions have not yet been brought into force but are expected to apply from 2027, subject to transitional arrangements and the special rules affecting certain renewal leases.

Leasehold reform

The LFRA 2024 gained Royal Assent on 24 May 2024. The LFRA 2024 seeks to introduce significant reforms to long leasehold ownership and freehold property owners on private estates. Most of the LFRA 2024 requires an extensive programme of secondary legislation for its implementation and is therefore being delivered in stages.

Its headline changes include a ban on new leasehold houses, changes to the rights of existing long leasehold owners to extend their lease and to buy their freehold (enfranchisement), and removal of certain legislative barriers to the same. The removal of the two-year qualifying criteria for certain lease extensions and freehold purchases was implemented in January 2025, and changes to the Right to Manage were implemented in March 2025.

The LFRA 2024 also introduces greater transparency around service charges and measures to alleviate the cost burden on leaseholders wishing to bring challenges against landlord poor practice. In furtherance of implementing these provisions, a consultation ran until 26 September 2025 with the UK Government releasing their response on 15 July 2026. This represents the most significant shake-up of the law relating to residential service charges since the introduction of the *Landlord and Tenant Act 1985*. The consultation confirmed a major package of leasehold reforms aimed at improving transparency and strengthening leaseholders' rights, including mandatory annual building management reports, standardised service charge information, greater access to records, enhanced insurance disclosure requirements, and restrictions on landlords recovering litigation costs from leaseholders. These measures are likely to lead to more challenges by leaseholders and could result in higher litigation costs for Registered Providers. Most measures are expected to be implemented from 2027 onwards. However, although Registered Providers are not exempt from the reforms, the UK Government has confirmed that they will be subject to a modified regime in recognition of the enhanced regulatory and accounting arrangements that already apply to them. Provision of information to social housing tenants will be primarily mandated by STAIRS, rather than the LFRA 2024. Separate responses are awaited on the UK Government's proposals related to the major works regime, mandatory reserve funds, and mandatory qualifications for managing agents.

The LFRA 2024 also extends equivalent rights of redress and transparency to freehold owners on private estates. A consultation was launched in December 2025 on a new regulatory framework designed to give homeowners on freehold estates greater rights and

protections, increasing accountability for estate managers, and proposals aimed at improving transparency around estate management charges and removing disproportionate enforcement remedies and addressing other long-standing concerns.

A further consultation was launched in December 2025 on reducing the prevalence of private estate management arrangements. The consultation is aimed at tackling problems arising on privately managed freehold estates where roads, drainage, green spaces and other amenities remain unadopted by public authorities and are instead maintained by private management companies. Amongst other items, this consultation seeks views on implementing common standards for adoptable amenities and mandatory adoption for certain public amenities. While social landlords are not the primary target audience, the proposals could affect them where they own units on private estates managed by third-party estate companies, and where they act as a developer of mixed-tenure estates. Maintenance responsibilities could be removed from social landlords (in the above circumstances), where adoption of public amenities is taken up by local authorities. The proposals could also require greater transparency and may result in improved dispute resolution mechanisms.

The UK Government ran two further consultations between July and September 2026. The first of these consultations, *Leasehold enfranchisement valuation rates* looks at key valuation rates in regulations, with the aim of giving leaseholders greater certainty about the cost of extending a lease or purchasing the freehold. The consultation seeks views on setting the deferment and capitalisation rates used in the calculation. The second consultation, *Leasehold enfranchisement costs*, concerns the UK Government's proposal to protect leaseholders from having to pay certain costs incurred by their landlord - such as legal, valuation and administrative costs - when exercising enfranchisement rights or extending leases.

Registered Providers will be affected by the changes under the LFRA 2024, with impact varying based on the legal basis and tenures utilised for affordable housing development, private market and/or mixed tenure developments and shared ownership activities in which they are engaged.

Commonhold

The LFRA 2024 implemented some of the Law Commission's 2020 recommendations on leasehold enfranchisement and the right to manage. The UK Government has committed to taking forward the Law Commission's companion report, "*Reinvigorating commonhold: the alternative to leasehold ownership*", also published in 2020. To that end, on 3 March 2025, the MHCLG published the *Commonhold White Paper* which proposed landmark reforms to replace the leasehold tenure.

Commonhold ownership is a form of freehold ownership where individual property owners each own their unit outright. This allows individual properties within a building or larger development to be owned on a freehold basis. Commonhold tenure was introduced in 2004 by the *Commonhold and Leasehold Reform Act 2002* but it has not been widely adopted. The *Commonhold White Paper* proposed a comprehensive new commonhold framework and a ban on the sale of leasehold flats, so that commonhold becomes the default tenure for new housing and mixed-use developments (the ban on the sale of new leasehold houses already being provided for in the LFRA 2024).

The draft *Commonhold and Leasehold Reform Bill* was published in January 2026 (as a "Command Paper") for pre-legislative scrutiny by the Housing, Communities and Local Government Select Committee and allowing consultation before formal introduction of the draft new legislation to Parliament. Its publication was accompanied by a substantive package of legislative reform proposals, including new commonhold rules that aim to make commonhold more accessible and fit for purpose as the default tenure on new flats, a consultation on *Moving to commonhold: banning leasehold for new flats* (which closed on 24 April 2026), abolition of forfeiture in favour of a fairer enforcement regime, a cap on ground rents in existing leases at £250 a year changing to a peppercorn after 40 years, and the repeal of the draconian enforcement remedies currently available for estate rent charges on freehold estates. The draft *Leasehold and Commonhold Reform Bill* envisages collective conversion of existing leasehold units to commonhold, on a threshold of at least 50 per cent of qualifying leaseholders, as a route aligned with collective enfranchisement, as well as a ban on the use of leasehold for most new-build flats (shared ownership will be permitted leases, and blocks built exclusively for rent – including social rent – are excluded while used only for that purpose). The pre-legislative scrutiny report, published on 27 May 2026, supported the majority of the proposals and added further recommendations including, significantly for Registered Providers, independent statutory regulation of property managing agents. The UK Government's response to the scrutiny report is due within two months of its publication, with the final text of the *Leasehold and Commonhold Reform Bill* expected to be introduced in Parliament in autumn 2026, along with the outcome of the *Moving to commonhold: banning leasehold for new flats* consultation.

Commonhold, being essentially a new tenure, has the potential to affect most areas of operation for Registered Providers and wider elements of the property industry. The G15 group of the largest London housing associations flagged in their response to the *Moving to Commonhold* consultation that "as designed, the model is likely to increase complexity, costs and governance challenges, particularly in mixed-tenure developments" for social landlords. They highlighted a number of areas where further work is needed to ensure the model is workable and supports continued housing delivery. These include system readiness, the interaction with shared ownership, the management of mixed-tenure buildings, and the alignment between responsibility and decision-making, noting that providers may remain accountable for statutory standards (such as the Decent Homes Standard) while lacking the control needed to secure agreement to works. They reiterated the need for a phased and carefully managed transition, supported by clear frameworks for lenders, developers, managing agents and regulators.

Welfare Benefits

Background

Most social housing tenants rely on one or more welfare benefits for at least part of their income. According to research in 2014 by the Joseph Rowntree Foundation on the impact of welfare reform on social landlords and tenants, 90 per cent of social housing tenants receive some form of income support through the welfare benefit system. As a result, changes to the welfare benefit system can materially impact the ability of social housing tenants to meet their housing costs. There have been a range of reforms of the welfare benefit system in the last twenty years that have had and still have the potential to impact housing affordability for social housing tenants, including capping the overall amount of benefits households can receive, consolidating multiple benefits into a single payment (**Universal Credit**) and reforms specific to housing such as the Occupation Size Criteria.

Universal Credit

Universal Credit, introduced under the *Welfare Reform Act 2012*, replaced six existing means-tested benefits and tax credits for working-age families (income support, income-based jobseeker's allowance, income-related employment and support allowance, housing benefit, child tax credit and working tax credit) with a single means-tested monthly payment, transferred directly into a household bank account of choice. Deductions may be made at source for overpayments, arrears and advance loans.

There are three types of alternative payment arrangements available for claimants:

- direct payment of the housing cost element to landlords (known as managed payments) for those claimants who may need extra support in managing the payments;
- splitting of payments between members of a couple (in exceptional circumstances); and
- more frequent payment of benefit where a claimant is two months or more behind in paying rent or where a claimant has continually underpaid their rent and has accrued arrears of an amount equal to or more than one month's rent.

If the Department of Work and Pensions (the **DWP**) does not set up a managed payment, Registered Providers can request a managed payment and inform the DWP of other reasons why a managed payment might be needed. Landlords can request deductions from a claimant's Universal Credit to repay existing rent arrears, known as third party deductions. Deductions will be a minimum of 10 per cent and a maximum of 20 per cent of a claimant's Universal Credit standard allowance.

Household Benefit Cap

The total household benefit cap (the combined income from a number of welfare benefits for those that are of working age) is £22,020 per year for couples or single parents with resident children (or £25,323 in Greater London) and £14,753 per year for single people without children (or £16,967 in Greater London).

Exemptions to the total household benefit cap can apply to tenants who qualify for working tax credit, or are above the qualifying age for pensions credit, or obtain certain benefits for sickness and disability, or claim a war pension. The benefit cap will not apply in circumstances where a tenant or a tenant's partner is in receipt of (or is responsible for a child or young person who is in receipt of) benefits such as disability living allowance, personal independence payment or carer's allowance.

Occupation Size Criteria/Bedroom Entitlement

There is a size criterion for working age social housing tenants in receipt of housing benefit known as the ‘removal of the spare room subsidy’ or ‘bedroom tax’. The arrangements allow each of certain defined categories of people (such defined categories being: (a) a couple, (b) an adult (over 16), (c) two children of the same sex, (d) two children under the age of 10, (e) any other child, (f) those with a disability, and (g) a non-resident overnight carer) to be entitled to one bedroom. Exceptions will also be applied to properties adapted under a sanctuary scheme. Where a household has one extra bedroom, housing benefit is reduced by 14 per cent of the rent charge. Where a household has two or more extra rooms, the reduction to housing benefit is 25 per cent.

Right to Buy

Since October 1980, tenants of council-owned properties have had a form of statutory right to buy their home (**RTB**). Many councils subsequently transferred their stock to housing associations, and on such transfers the RTB was preserved. Under the scheme eligible tenants have a right to purchase their home at a discount. Assured tenants of housing associations do not have the RTB on the same terms as council (or former council) tenants. A tenant with the RTB carries this right with them provided they move to a property owned by the same Registered Provider (or to a group company).

From 2012 onwards, the maximum cash discounts were boosted significantly from regional levels (ranging from £16,000 to £38,000) to a new national level with higher maximum discounts in London, with annual increases in line with the percentage change in the CPI rate of inflation. By 2024, the maximum discounts available reached £136,400 in London and £102,400 in other parts of England.

A voluntary right to buy (**VRTB**) for tenants of Registered Providers was agreed in 2015 between the English Government and the National Housing Federation as representative body for Registered Providers and was piloted on a small scale in 2016 and then regionally in the Midlands in 2018. One of the conditions was that a new affordable property must be built for every home sold under VRTB, but the pilot evaluations found that one-for-one replacement was not achieved in practice. These pilot schemes have now closed, and the VRTB has not been implemented nationally; the UK Government has confirmed it will not proceed with the scheme, citing the substantial cost to the taxpayer and the likely reduction in social housing stock.

A statutory right to acquire (**RTA**) applies to certain tenants of Registered Providers under the *Housing Act 1996*. Under the RTA, eligibility is dependent on the tenant living in a "qualifying property" as defined in the legislation. The RTA operates in broadly the same way as the statutory right to buy, except for two key differences: (i) the Registered Provider may sell an alternative property, and (ii) the discount is substantially smaller (£9,000 to £16,000 depending on location, with a maximum of £16,000) and does not vary depending on the number of qualifying years as a tenant.

RTB, VRTB and RTA sales have had a detrimental impact on the volume of stock available for social rented housing and have been a major contributory factor in the current shortage of UK social housing (see below). In November 2024 MHCLG introduced changes that reduced RTB maximum cash discounts to their pre-2012 levels (£16,000 to £38,000 depending on location, no longer indexed to inflation) and extended the 'cost floor' period from 15 to 30 years, reducing the discount if the landlord has spent money on building, buying, repairing or maintaining the home during that period. If the landlord has spent more than the current value of the property, no discount will

be available. The UK Government predicts that the reduction in cash discounts will reduce RTB sales by around 25,000 over 5 years (from around 7,000 sales a year to around 1,700).

Further consultation was undertaken in late 2024 on wider reforms to RTB, covering tenant eligibility, exemptions, discount as a percentage of property value, restriction on future sales and lettings of homes bought using RTB, supporting the replacement of social housing and measures preventing any newly built social and affordable homes from being purchased under the RTB. In addition, the RTB will not be extended to housing associations. The *Social Housing Bill*, introduced in the House of Lords on 14 May 2026, seeks to implement these measures. The *Social Housing Bill* extends the qualifying tenancy period from 3 to 10 years; restructures discounts to start at 5 per cent of the property value, rising by 1 per cent for each year of tenancy to a maximum of 15 per cent or the cash cap (whichever is lower); exempts newly built social and affordable homes from the RTB for 35 years after completion; exempts rural homes; extends the discount repayment period on resale from 5 to 10 years; gives the former landlord an indefinite right of first refusal on resale; prevents repeat use of the scheme; and aligns the RTA with the reformed RTB (RTA discounts themselves are unchanged). Significantly for Registered Providers, the *Social Housing Bill* also introduces a requirement for private Registered Providers to notify the relevant local authority and other providers before disposing of social housing dwellings outside the sector. Councils retain 100 per cent of RTB receipts, which from 2026-27 can be combined with Grant funding to deliver replacement homes. If passed by the House of Lords, the *Social Housing Bill* will be considered by the House of Commons and is expected to become law before the end of 2026.

Housing Shortage

In recognition and response to the cumulative shortage of housing, since being elected in July 2024, the UK Government has reiterated its commitment to deliver 1.5 million new homes, with specific reference to a necessary increase in new social housing. This is an ambitious target. Development of new-build social housing is secondary to core housing association activities. Many Registered Providers have scaled back their development programmes in the wake of high inflation and to prioritise the remediation of existing damp, mould and other housing quality issues (see above), fire safety (see below) and decarbonisation retrofit works (see below). The reform of UK building regulation has also contributed to the slowdown of development activity generally. Gateway 2 approvals (see below) are taking much longer than the statutory 8-12 weeks and this has been causing project delays and exacerbating the decline in new build completions that are desperately needed. In addition, the UK Government consulted in 2025 on changes to landfill tax that, if implemented, will significantly impact the cost of building new homes.

The current UK Government is taking a multi-faceted approach to reinvigorating residential development.

It has created a National Housing Bank as the delivery vehicle for government financial support for housebuilding. The UK Government says the National Housing Bank will help to deliver 60,000 new homes in this parliamentary term and 500,000 overall. The National Housing Bank is a publicly owned entity established as a subsidiary of Homes England and has £16 billion of financial capacity to support housebuilding through government guarantees, loans and equity investment, including £2.5 billion of low-interest (0.1 per cent), long-term (25 year) loans allocated for social housing development. These loans will be used to deliver the same social and affordable tenures and strategic priorities as Grant funding under the SAHP, with up to 10 per cent being available for acquiring homes built under section 106 schemes. £1.5 billion (60 per cent) will be devolved to the GLA towards alleviating the acute challenges facing new-build provision in the capital. Registered Providers will be able to bid for the unsecured and subordinated funding after the initial Grant allocations have been made under SAHP, with the bidding window expected to open in autumn 2026.

The UK Government has also committed to reform of the planning system in order to remove barriers to construction of new homes, through the *Planning and Infrastructure Act 2025* that received royal assent on 18 December 2025. The *Planning and Infrastructure Act 2025* includes various UK-wide measures to streamline local plans, update the *National Planning Policy Framework* and reform planning committees. The reforms aim to boost housing and infrastructure development as well as support wider economic growth and achieve environmental goals. The changes to the planning system will interface with the *10-Year Infrastructure Plan* (published on 19 June 2025) and are together expected to assist Registered Providers who are looking to increase development activity over the next decade.

From June to August 2026, HM Revenue & Customs and HM Treasury ran a consultation on proposed VAT relief for land intended for construction of social housing. It is hoped this measure will simplify and accelerate the construction of social housing by removing an unfavourable VAT position when taking title of the land at an earlier stage in the development cycle and support the ability of Registered Providers and councils to more effectively use funding to invest in new homes.

Building Safety

On 14 June 2017 a fire on the fourth floor of Grenfell Tower quickly spread up the walls of the 23 storey residential building due to its combustible exterior cladding panels and insulation. The tragedy resulted in the loss of 72 lives and highlighted significant deficiencies in building safety regulations and fire safety measures. It has since led to widespread reviews and changes in building safety standards in the UK. Various legislation has been enacted pursuant to the *Phase 1 Report* issued by the Grenfell Tower Public Inquiry and the recommendations of Dame Judith Hackitt in her independent review of fire safety and building regulations. The *Phase 2 Report*, issued in September 2024, recommended further changes that will impact the residential construction industry. In February 2025 the UK Government accepted the findings of the *Phase 2 Report* and promised to implement the vast majority of its recommendations.

Building Safety Act 2022

The *Building Safety Act 2022* (together with related secondary legislation, the **BSA**) introduces fundamental reform of building safety requirements with the aim of ensuring that residents are safe in their own homes. The BSA laid a new framework of building safety requirements that impact the complete lifecycle of all residential buildings, from planning and design, through to procurement and construction and then also, post-construction, to occupation and property management. It affects many aspects of the business of a Registered Provider, in particular the construction, maintenance and management of high-rise residential buildings.

A Building Safety Regulator has been established with statutory responsibility for oversight of the new building control regulatory regime, supervision of all building control bodies and enforcement of building safety standards. It is also responsible for implementing and enforcing a new, more stringent, regulatory regime for defined higher-risk residential buildings (**HRBs**), both existing and yet to be constructed.

Construction of HRBs

The new building control regime for HRBs includes prescriptive and intricate building control processes, handover of key compliance and safety information, mandatory occurrence reporting, mandatory registration for building control inspectors and (as applicable to all building works including, but not limited to, HRBs) new dutyholder and competence requirements.

A three-stage (referred to as **Gateways**) building control process has been introduced in relation to the construction of new HRBs and/or building works to existing HRBs. Applications for Gateway approval are overseen by the Building Safety Regulator as the building control authority for those buildings. Each Gateway must be applied for at the relevant stage of the project: Gateway 1 relates to planning permission (where applicable) and Gateway 2 approval must be obtained prior to the commencement of construction. Gateway 3 approval must be obtained following completion and prior to registration and occupation of the HRB. The building must also be added to the register of HRBs as a pre-condition of the building being occupied. The UK Government has recently introduced reforms of the Building Safety Regulator in relation to its processes, investment and recruitment, and certain disproportionately rigorous building control requirements, to help expedite Gateway applications.

From 1 October 2026, developers of new residential buildings that provide at least 10 dwellings or at least 30 purpose-built student accommodation bedspaces and requiring building control approval will need to pay a building safety levy. Certain developments are exempt including (inter alia) affordable housing and non-social homes built by not-for profit Registered Providers.

Occupation of HRBs

During the entire occupation phase of each completed (and registered) HRB, the law defines specified persons as 'Accountable Persons' and a 'Principal Accountable Person' for the building. Accountable Persons and the Principal Accountable Person carry statutory responsibility for the safety of the building, with prescribed duties covering registration, ongoing safety assessments, mandatory occurrence reporting, repairs, resident engagement, complaints management, and keeping and provision of prescribed information (referred to as **Golden Thread** information). Accountable Persons are not able to contract out statutory liability for their duties, although they are able to appoint third parties to assist with carrying out the function of specific duties.

Since October 2023, it has been a criminal offence to fail to register an occupied HRB with the Building Safety Regulator or to allow a newly constructed HRB to be occupied before it has been registered. The *Remediation Bill* (see below) will include proposals for mandatory registration of all residential buildings between 11-18 metres in height. If passed, this will mean that there is a complete register of all residential buildings above 11 metres.

The BSA implies rights and obligations into certain leases of premises that consist of or include a dwelling in an HRB. Residents are required to cooperate with landlords and to ensure they do not undermine the fire and structural safety for the building in which they live. The BSA also imports a new building safety service charge regime, providing for landlords to recharge limited standard building safety costs to leaseholders.

A breach of the new building safety regime will be an offence, with potential for incurring fines and/or imprisonment for serious breaches. Individuals with dutyholder responsibilities may also be held liable where a breach occurred as a result of that person's consent or connivance.

Fire Safety Remediation

The Grenfell Tower fire immediately brought to light the necessity of large-scale remediation works, for which landlords are legally responsible. Over 1 in 7 existing social housing buildings in England have been found to be affected, and many Registered Providers have had to allocate substantial resources to address fire safety issues in their housing stock. The pace of remediation is slow, with landlords reporting to the Regulator in the fourth *Fire Safety Remediation Quarterly Survey* of 2025-6 completed remediation works on only 35.5 per cent of affected buildings.

MHCLG's *Remediation Acceleration Plan* of December 2024, and updated in July 2025 and June 2026 (the **RAP**), acknowledged barriers such as capacity, access to funding, capability and lengthy cost-recovery processes. In a move towards resolving the volume of social housing buildings in England which still have unsafe cladding, MHCLG has invited all social landlords with one or more residential buildings over 11 metres to sign up to a voluntary *Joint Plan to Accelerate Remediation of Social Housing,* incorporating a commitment to meet target dates for the remediation of unsafe cladding on residentials buildings over 11 metres. Signing up to the *Joint Plan* gives Registered Providers access to support and other measures aimed at accelerating the remediation works, but they must commit to pursuing out-of-court routes, for example mediation or adjudication, to resolve cost recovery disputes.

The UK Government established the Building Safety Fund (relating to buildings higher than 18 metres) (the **BSF**) and a Cladding Safety Scheme (relating to buildings 11 to 18 metres high) (the **CSS**) to assist with remediation costs. Registered Providers initially found it difficult to access these funds as easily as private owners due to certain eligibility criteria, with private landlords receiving 90 per cent of the available funding up to mid-2025. In June 2025, the UK Government confirmed over £1 billion of new investment to accelerate the remediation of social housing. The eligibility criteria for the CSS has now been expanded to address the previous impediments for social housing providers, with a short window for applications for remediation funding for eligible buildings under 11 metres during late summer 2026.

MHCLG intends to introduce a statutory 'Duty to Remediate' and enshrine RAP target dates in law through a *Remediation Bill*. Once enacted, it will be an offence to obstruct the assessment or remediation of an unsafe building over 11 metres in height without reasonable

excuse. Those hindering progress will face financial penalties as a deterrent. The *Remediation Bill* will put into statute the timescales for the completion of remediation currently set out in the RAP, with consequences for non-compliance:

- buildings over 18 metres must be remediated by the end of 2029. Any landlord who has failed to meet this deadline will face criminal prosecution, with unlimited fines and/or imprisonment; and

- buildings over 11 metres must be either remediated or have a date for completion by the end of 2029. Failing this, the landlord will be escalated to the UK Government's regulatory partners for investigation and enforcement.

Where the deadline for remediation has passed, and enforcement options have not been effective, the First Tier Tribunal may grant permission to a local authority or Homes England to carry out the remedial works themselves and recover the costs of the same from the landlord or, if a landlord fails to repay, enforce the sale of the building to fund repayment. There is currently no clear timeline for when the draft *Remediation Bill* is to be published.

The UK Government also intends, through new legislation, to strengthen sanctions and enforcement for non-compliance of Remediation Orders.

These plans may be superseded by a private members bill, the *Leaseholder Remediation (Building Safety) Bill*, that was introduced to Parliament in June 2026. This Bill, inter alia, proposes new provisions intended to further accelerate the remediation of building safety defects in residential leasehold properties. It proposes a statutory obligation for the UK Government to publish, within 6 months of passing the Bill, a *Remediation Acceleration Plan* including target dates for completion of such remediation works and details of how the UK Government intends to resource and monitor its targets. It also proposes a prohibition on any developer that is a *responsible person* of an unremedied *systemic defect,* commencing, continuing or completing any new residential development, and applying for planning permission for a new residential development. This would provide a strong incentive on developers to cooperate and fix defects as quickly as possible. See below regarding the *Leaseholder Remediation (Building Safety) Bill* proposals.

Liability for remediation

The BSA now:

- requires landlords and associated persons to undertake and pay for remediation works for defects in ‘relevant buildings’ (containing at least two dwellings being at least 11 metres high or having at least five storeys). Case law has confirmed that this extends beyond fire-related hazards to include remediation of other issues that are unsafe. It also limits the recovery of remediation costs from leaseholders;

- enhances the rights of property owners, leaseholders and occupiers to bring claims for defective work in their buildings, defective construction products and non-compliant work;

- retrospectively extends relevant limitation periods and widens the scope of who can be held liable to include associated entities; and

- ushers in draconian new sanctions and restrictions for companies that refuse to remediate their buildings.

The *Leaseholder Remediation (Building Safety) Bill,* proposes to significantly extend the BSA protections for qualifying leaseholders from the costs of historical building safety failures. This Bill includes a general prohibition on passing costs of systemic defects in buildings that would apply equally to buildings that contain at least one leasehold, without reference to its height, regardless of when the defect arose and irrespective of any agreement or lease provision. Any purported service charge levied at a protected leaseholder on or after 14 February 2022 would be void and can be recovered no later than six years from payment. The "systemic defect" definition is extremely wide, with the burden of proof explicitly falling upon the building owner (current or at time of the work), developer, any contractor who carried out the work and any manufacturer or supplier of components or materials (collectively known as the *responsible persons*) to demonstrate that the defect does not fall within the Bill’s remit. All *responsible persons* will have joint and several liability for the defects. Insolvency would not extinguish liability.

The *Leaseholder Remediation (Building Safety) Bill* also proposes new criminal offences, a licensing scheme, direct cause of action for leaseholders against manufacturers and suppliers, a new ombudsman and a deadline of 6 months for emergency work and 2 years for all other remediation work. It would give the Building Safety Regulator power to investigate, issue remediation notices to “responsible persons” (which triggers an obligation to provide a programme of remediation works within 28 days), apply to the High Court for injunctions and prosecute offences. The Bill is still in its infancy and will undergo substantive scrutiny during its passage through Parliament. However, if enacted in its current form, this Bill would have far-reaching ramifications and greatly alter the approach to remediation of building safety defects for Registered Providers in their capacity as building owners, landlords and/or leaseholders.

Fire Safety Order

The *Regulatory Reform (Fire Safety) Order 2005* (the **FSO**) contains the majority of existing fire safety requirements applicable in England and Wales. It represents a consolidated regime under which any person with some level of control over premises would be required to take reasonable steps to identify and reduce the risk from fire and ensure that people could safely escape in the event of a fire. The FSO is primarily enforced by local fire and rescue authorities. The *Fire Safety Act 2021* was enacted to clarify that the fire risk assessment of any building covered by the FSO must include the risks posed by the building’s structure and external walls (including cladding, balconies, doors and windows), as well as all doors between domestic premises and common parts.

Under the FSO, the *responsible person* for each relevant building (being the person in control, usually as owner or manager, of relevant premises) must assess the risk of fire arising from the whole structure and take steps to mitigate any such risks. The BSA extends the

statutory responsibilities of the responsible person under the FSO in relation to fire risk assessments and accessibility of certain information. The *Fire Safety (England) Regulations 2022* further amended the FSO to legally require 'responsible persons' to keep records and share certain information with residents and local fire and rescue services on the design and materials of existing multiple-occupied residential buildings in England. It also requires responsible persons in buildings over 11 metres to undertake checks of fire doors in flat entrances at least every 12 months and of communal doors at least every 3 months. Registered Providers are the statutory *responsible persons* in respect of all buildings that they either own or occupy.

Construction personnel and products

With a view to bringing coherence to a fragmented regulatory system, the UK Government plans to bring in a single construction regulator with jurisdiction over construction products regulation as well as building safety regulation. A call for evidence ran in summer 2026 to gather information needed to form the new strategy for built environment professions, trades and occupations.

Trust in construction products is a vital element of ensuring that residential buildings are safe. Landlords therefore want to ensure that only properly regulated material are used in the buildings for which they are responsible. Golden Thread requirements are likely to include information on the construction products used in that building. In February 2025, MHCLG published a green paper on reforms to the construction products regime, aiming to address gaps in regulatory coverage and make manufacturers responsible for assessing the safety risks associated with their products. The proposals include:

- labelling of all construction products with critical safety information;
- a requirement for full and updated test data of their products to be provided by the manufacturer to the national regulator;
- a strengthened assurance in product testing and conformity bodies;
- a central library of construction products;
- clearer responsibilities across the whole of the supply chain; and
- stronger enforcement powers and penalties for non-compliance.

MHCLG also intends to review and improve legal routes for redress from construction product manufacturers by enhancing enforcement powers and resources. A White Paper was published in February 2026, setting out key headline proposals such as a general safety requirement for all products, enhanced requirements for critical construction products, improved product information and enhanced enforcement powers with greater sanctions. Regulations to begin implementation of the general safety requirement are expected to be introduced by the end of 2026, for commencement in 2027, with other reforms requiring primary legislation in future legislative sessions ‘subject to parliamentary time’.

Insurance

Registered Providers have experienced a significant shift in, and hardening of, the insurance market which has affected price and availability of the insurances required to operate their business. There is limited capacity and appetite within the insurance market to underwrite social housing risks.

As well as catalysing building and fire safety reform, the Grenfell Tower fire has resulted in a sharp change in the insurance market in respect of residential buildings. Concerns around poor building methods, cladding and insulation are leading to greater caution among insurers in relation to insuring large residential buildings such as high-rise and multiple occupancy blocks. Insurers now require more data in relation to remediation works and the composition of the properties to be insured. If Registered Providers are unable to provide this level of information, the pool of willing insurers is further reduced. The frequency and/or value of claims due to climate-related incidences such as flooding and subsidence, and modern threats to cybersecurity, are also aggravating the difficulties experienced by Registered Providers in relation to insurance and increasing premiums.

Some Registered Providers, local authorities and other landlords have reported that they are unable to obtain competitive or comparative quotes or, in some cases, any quotes, for their buildings and leasehold insurance. Where insurance is available, many have faced extreme price hikes on the renewal of their insurances. Some insurers only offer more restrictive terms, under which the insured party may not be able to recover full rebuilding costs after major damage to a building. Registered Providers have no choice but to engage, meet insurer requirements and pay the increased premiums.

Since 1 April 2024, the Fire Safety Reinsurance Facility has been available to improve capacity in the multi-occupancy buildings insurance market. The Fire Safety Reinsurance Facility is an industry-led, time-limited intervention which was initially anticipated to run for between three and five years. Building owners are encouraged by the UK Government to take advantage of the facility where it is required to ensure the best possible deal for residents. The ongoing remediation of fire safety defects by Registered Providers should also help to restore insurer confidence and should, in turn, improve the availability and cost of insurance cover. As a consequence of these changes, it is reported that the market has improved more recently with rates reducing.

The UK Government is also looking to address through legislation some of the issues experienced within the residential buildings insurance market. At the end of 2023, the FCA implemented new rules to protect leaseholders, whereby insurers and intermediaries are required to treat leaseholders as customers and act in their best interests, commission-driven recommendations are prohibited, fair value requirements apply to insurance products and remuneration arrangements, and greater transparency has been introduced around cover, pricing and commissions paid in connection with the insurance. Further reforms are proposed in relation to insurance commissions under section 59 of LFRA 2024. The UK Government consulted in 2025 on proposals to replace insurance commissions that are embedded within buildings insurance premiums with a transparent, separately charged "permitted insurance payment" that reflects genuine

insurance-related services provided. The objective is to ensure that all insurance-related charges that are passed on to leaseholders are fair, transparent and justifiable. The timing of implementation of these measures is not yet known.

Energy reform, Climate Change, 'Net Zero' Targets and the Impact on the Social Housing Sector

The *Climate Change Act 2008* (the **CCA 2008**) introduced a legal duty for the UK Government to act to reduce greenhouse gas emissions and provides the framework for the UK's approach to climate change. The CCA 2008 as amended by the *Climate Change Act 2008 (2050 Target Amendment) Order 2019* committed the UK (by law) to a 100 per cent reduction of greenhouse gas emissions by 2050, compared to 1990 levels (**Net Zero**). The CCA 2008 requires the UK Government to set legally-binding 'carbon budgets' which act as formal milestones towards the 2050 target. A carbon budget is essentially a cap enshrined in law on the amount of greenhouse gases emitted in the UK over a five-year period and set 12 years in advance of the start of the period. The UK Government must put policies in place to ensure the cap on greenhouse gas emissions is met (i.e. not exceeded).

The UK has also committed to meet international emissions reduction targets under the *Paris Agreement to the United Nations Framework Convention on Climate Change*. Under the *Paris Agreement*, by 2030 the UK must reduce total greenhouse gas emissions by at least 68 per cent, compared to 1990 levels.

Decarbonising the UK's housing stock is a key priority in order to meet these legal binding targets. Key recommendations under the *Sixth Carbon Budget* relating to buildings include increasing energy efficiency of building stock and switching to low-carbon heating. Since 2013, there have been at least 10 UK Government support schemes aiming to accelerate the rollout of energy efficiency measures and low carbon heating systems in homes.

The current UK Government's national energy-efficiency policy looks to consolidate and harmonise such support under a single but multi-faceted programme. The *Warm Homes Plan* includes a strengthened framework and a new national delivery body (the **Warm Homes Agency**), which will consolidate the administration of funding schemes that were previously split across multiple government departments and Ofgem. The *Warm Homes Plan* combines regulatory reform, infrastructure investment and targeted support and commits around £15 billion of public investment to upgrade up to 5 million homes by 2030, with grants, loans and targeted support for low-income households, renters and social housing residents. The UK Government is working towards devolution of delivery of the *Warm Homes Plan* to mayoral combined authorities. For Registered Providers, it is hoped that the strengthened regulatory framework and availability of funding via the *Warm Homes: Social Housing Fund* and the *Warm Homes Fund* (see below*)* will drive large-scale retrofit programmes, earlier compliance with energy-efficiency requirements and improved conditions for tenants (with a focus on damp, mould and heat loss).

Funding for retrofit

Since 2021 the UK Government has provided financial aid to Registered Providers through the *Warm Homes: Social Housing Fund* and its predecessor, the *Social Housing Decarbonisation Fund,* for the installation of energy efficiency upgrades and low carbon heating technologies, and in April 2026 it announced additional funding to support solar panel installations. In 2025 it committed to continue this support for at least a further 5 years and this was reiterated in the *Warm Homes Plan,* which sets out the UK Government's intention to combine the *Warm Homes: Social Housing Fund* with the *Warm Homes: Local Grant* and a combined funding allocation of £4.4 billion spread across a 5 year period from 2025/26 and 2029/2030. Registered Providers who bid successfully must currently contribute a minimum of 50 per cent of eligible costs by way of co-funding.

In London, the *Warm Homes: Social Housing Fund* and the *Warm Homes: Local Grant* are administered by Warmer Homes London, a consortium between the GLA, London Councils and housing associations, who have each committed additional funding and resources on top of the £121 million received from the UK Government. As part of their plans for devolution within England, the UK Government has devolved administration of the *Warm Homes: Social Housing Fund* to Greater Manchester Combined Authority and West Midlands Combined Authority. Therefore, instead of applying through the national process, eligible Registered Providers in Greater Manchester and the West Midlands apply directly through regional scheme by reference to the rules and award process set by the relevant authority. The UK Government is working towards further devolution to the North East, South Yorkshire, West Yorkshire, and Liverpool City Region Mayoral Combined Authorities during the current rounds of the national schemes, to transition delivery by, at the latest, 2028. For projects split across areas and/or elsewhere in the country, Registered Providers are required to apply for funding from the appropriate scheme for each project.

In addition to grant funding under the *Warm Homes: Social Housing Fund, the Warm Homes Plan* includes a substantial programme of financial support delivered through consumer lending, loans, guarantees and investment mechanisms (the *Warm Homes Fund*). Since 2025, the UK Government has pledged to continue to work with public financial institutions such as the National Wealth Fund to support delivery of the *Warm Homes Plan*. The National Wealth Fund has to date provided guarantees to support £1.65 billion of private sector loans to housing associations for retrofit and decarbonisation works.

Reform of the Energy Performance of Buildings regime

Energy Performance Certificates (**EPC**s) are used as a key measurement tool for assessing the performance of UK buildings. EPCs are widely used beyond their original scope, for example as the basis for regulatory requirements and eligibility for grant funding. They are often used to meet sustainability reporting requirements and/or as a Key Performance Indicator for sustainability-linked funding. From December 2024 to February 2025 the UK Government ran a public consultation on *Reforms to the Energy Performance of Buildings regime*, in order to update the metrics and requirements that feed into EPC ratings. A partial response was published in January 2026, with a response on the remainder promised later in 2026. Reformed EPC requirements are likely to combine multiple metrics relating to fabric, heating systems and smart readiness, with a time limited spend exemption of £10,000 per home.

Minimum Energy Efficiency Standards (MEES)

The *Energy Efficiency (Private Rented Property) (England and Wales) Regulations 2015 (SI 2015/962)* prescribe a minimum level of energy efficiency for private lets and give private tenants certain rights in relation to energy efficiency improvements with landlord consent.

In 2017 the UK Government indicated an aspiration of "as many private rented homes as possible being upgraded to EPC Band C by 2030, where practical, cost-effective and affordable" and looked to apply the same criteria across the social rented sector.

In September 2023 the UK Government cancelled its own targets but many Registered Providers have continued to work towards the same 2030 target in respect of their new and existing stock. The legislative agenda was revived with new consultations (i) from 7 February to 2 May 2025 (*Improving the energy performance of privately rented homes*) proposing higher MEES for the private rent sector and (ii) from 2 July 2025 to 12 September 2025 (*Improving the energy efficiency of socially rented homes in England*) proposing the introduction of MEES in the social rent sector, in each case applying reformed EPC metrics (see previous paragraph).

The implementation of MEES will be included as a regulatory requirement in the revised *Decent Homes Standard (*as set out above). All new and existing social rented properties will be required to meet EPC C using reformed EPCs metrics. Registered Providers will be required to meet one metric by 2030 and two metrics by 2039. They will have a choice of what metrics are best suited to their stock and any property with a valid EPC certificate meeting the current EPC C standard will be considered compliant for the validity period of its EPC certificate. MEES requirements will also apply to private rented homes from 1 October 2030.

Energy security measures and heat networks

Heat networks are pivotal in the UK's net-zero strategy, with a UK Government ambition to grow from around 3 per cent to 20 per cent. of the heat market by 2050. A large amount of social housing is heated by such systems. Until now there has been little regulation of the mixed assortment of public, private and third-sector operators and little pricing transparency. A new regulatory framework for heat networks has been created under the *Energy Act 2023* (the **EA 2023**) and the *Heat Networks (Market Framework) (Great Britain) Regulations 2025 (as amended)*. The new regulatory regime sits within the wider objectives of the EA 2023 of helping to increase the resilience and reliability of energy systems across the UK, support the delivery of the UK's climate change commitments and reform the UK's energy system while minimising costs to consumers and protecting them from unfair pricing. Together, the legislation establishes a comprehensive authorisation and consumer protection regime for heat networks that is designed to maintain continuity of supply, including when a heat network operator or supplier experiences financial distress.

Ofgem (on behalf of the Gas and Electricity Markets Authority, **Ofgem**) is responsible for regulation of 'relevant heat networks' across Great Britain, with powers to monitor, grant or manage authorisations to operate or supply heating, cooling or hot water via a relevant heat network, set authorisation conditions and enforce compliance. Carrying out a regulated activity without authorisation is a criminal offence, with personal liability in some circumstances for officers including directors and senior managers.

Any person, including Registered Providers, landlords and building owners who operate a heat network or supplies heat, cooling or hot water through a relevant heat network is required to register by 26 January 2027 (existing heat networks are deemed authorised in the interim). The operation and supply activities carried out on their relevant heat networks are carried out under the new regulatory regime. When fully operational, the regime will encompass:

- Consumer protections including binding standards of conduct for suppliers and operators, an obligation to ensure fair and transparent pricing, guaranteed standards of performance such as repair times and outage response (not yet in force), support for vulnerable customers (including a requirement to establish a Priority Services Register) restrictions on disconnection practices, protections for customers using pre-payment arrangements and a right to refer complaints to a relevant dispute resolution body, such as the Energy Ombudsman.

- Mandatory minimum standards relating to the design, installation and operation of existing and future heat networks through a Heat Network Technical Assurance Scheme (**HNTAS**) underpinned by new technical standards. This is not yet in force and is expected to be phased in from 2027 onwards, once detailed requirements have been finalised.

- Coordinated network expansion to increase the number of buildings connected to district heat networks through zoning (with certain buildings within designated zones potentially required to connect), balanced by regulatory oversight through the General Authorisation Conditions to protect consumers given the monopoly characteristics of networks. The zoning regime is being implemented separately from the General Authorisation Conditions and is not yet fully in force.

- Continuity of supply protections covering availability of resources, financial responsibility and continuity arrangements, supported by a new special administration regime that will allow a court to appoint an administrator to manage the authorised person's affairs, business and property with the aim of supporting the continued maintenance and development of a heat network and continued supply to consumers at the lowest cost reasonably practicable where commercial outcomes have failed or been exhausted and there is a risk customers will lose supply.

All authorised persons are required to comply with General Authorisation Conditions, that apply to them, covering matters such as consumer protection, fair pricing/billing, fit and proper person requirements for certain managers, continuity planning, performance reporting, independent audits, standards of conduct and record-keeping. Existing governance and contractual arrangements will likely need to be updated in order to ensure that a Registered Provider who is an authorised person can comply with the new requirements. Where the authorised person is also a Registered Provider, the General Authorisation Conditions apply alongside existing housing legislation, the social housing regulatory framework and housing administration process. It is currently unclear how the heat network regulatory regime would interact with the housing regulatory regime in all circumstances. Neither regime is generally subordinate to the other, so those to whom both apply will need to consider the requirements of both regimes and ensure that their arrangements comply with each as applicable. The regimes are nevertheless generally complementary, meaning that outright conflicts are likely to be rare.

Future Homes and Buildings Standard (FHBS)

The FHBS is a set of building regulations and guidance for new homes and non-domestic buildings in England with the aim of ensuring that new homes and non-domestic buildings are built with low carbon heating and high levels of energy efficiency, so that buildings constructed to these standards will not require retrofitting to become zero carbon in use as the electricity grid decarbonises. The FHBS

mandates, among other things, on-site renewable electricity generation (such as solar panels), high levels of energy efficiency, clear information provisions to homeowners. Updated statutory guidance includes routes to compliance for homes connected to heat networks, guidance on limiting heat loss from low-carbon heating technologies, and upgrades to how building services should be commissioned, installed and certified. Minimum fabric requirements will remain broadly aligned with current criteria.

The regulations to implement FHBS will come into force from March 2027 (and for HRBs, September 2027) with a transition period for projects already in progress. The FHBS will apply to any new build homes provided by Registered Providers and to certain retrofit building works on existing buildings.

Impact of climate change

Climate change is expected to have an impact on the built environment in the UK. For housing the risks associated with climate change could include overheating, subsidence, indoor air quality, flood, water scarcity and damage from extreme weather events. In December 2021, a new legal requirement was introduced in the Building Regulations (Approved Document O) to reduce the risk of overheating in residential buildings. Based on feedback to the consultation that preceded the FHBS, the UK Government additionally plans to undertake a comprehensive technical review seeking improvements to the requirement (in Approved Document O) that new residential buildings must be designed and built to mitigate the risk of overheating. This does not address adaptation in the existing building stock and landlords are also having to consider retrofit of existing properties to deal with climate-related risks.

Reporting on environmental, social and governance (ESG) metrics

The *Sustainability Reporting Standard for Social Housing* (the **SRS**) was launched in November 2020 as a voluntary reporting framework to enable housing providers to measure, manage and report on their ESG performance in a transparent, comparable and consistent manner. It was developed collaboratively by certain Registered Providers, funders and other stakeholders in the social housing sector. In 2021 Sustainability for Housing was established to oversee and embed the use of the SRS in the sector and to ensure its continued development is in line with wider market trends and regulatory requirements.

As at 7 July 2026, 140 housing providers and 38 investors had adopted the SRS. The adopting housing providers manage around 2.5 million homes across the whole of the UK and the adopting funders represent the majority of private investment into UK social housing. Registered Provider adopters commit to annual reporting against the SRS and to public disclosure of their report. Lender and investor adopters commit to integrating the SRS into investment and credit policies, processes and/or product design. 50 housing providers have reported for three consecutive years, allowing progress tracking for those providers on the various metrics reported in the SRS. The Issuer is an adopter of the SRS.

The SRS also seeks to facilitate ongoing alignment with relevant international reporting frameworks and regulatory developments. Sustainability for Housing Limited regularly analyses reporting trends and feedback from adopters to ensure the SRS remains relevant, usable, useful and up to date. The latest SRS (version 2.1) was released in April 2026 and adopters will report against the new version in the October 2026 reporting cycle. Sustainability for Housing also publishes guidance to support reporting and analysis, with updated guidance most recently issued in April 2026 that aims to standardise reporting practices and improve consistency.

UK Public Procurement Regime

Public procurement is governed by the *Procurement Act 2023*, which came into force on 24 February 2025. The *Procurement Act 2023* constitutes wholesale reform and replacement of the previous public procurement legislation, much of which was derived from EU law. It provides a unified framework of streamlined procedures to speed up and simplify the public procurement of works, goods and services covering public contracts, utilities contracts, concessions, framework agreements, defence and security, while keeping faith with the familiar principles of fair and equal treatment. Registered Providers fall within scope because they are treated as bodies governed by public law by virtue of their regulation. Specified financial thresholds apply, depending on the type of contract, and a lighter touch regime continues to apply to certain social, health, education and similar services, with its own higher thresholds. Certain contracts sit outside the *Procurement Act 2023* altogether, whatever their value. As before, these include contracts for the acquisition or disposal of an interest in land, employment contracts and certain financial services arrangements.

Defined benefit pension schemes

Most Registered Providers participate in (and/or have participated in) one or more defined benefit (**DB**) pension schemes, which are subject to the funding legislation outlined in the *Pensions Act 2004* which came into force on 30 December 2005.

The 'moral hazard' regime, introduced by the *Pensions Act 2004*, aims to protect the position of DB pension schemes by granting powers to the Pensions Regulator to require employers to provide additional support to schemes in certain circumstances. These powers allow the Pensions Regulator to issue contribution notices (**CNs**) and financial support directions (**FSDs**) to either the scheme employer or a person associated or connected with the scheme employer. FSDs are more general in nature and permit the UK Pensions Regulator to require employers to provide additional financial support for the pension scheme's obligations where the Regulator believes it is reasonable to do so to maintain the solvency of a scheme. CNs may be imposed following the occurrence of specific actions (or failures to act) that have negatively affected the DB pension scheme.

DB scheme liabilities have received renewed focus since the enactment of the *Pensions Schemes Act 2021* (**PSA**). The PSA strengthened the powers of the UK Pensions Regulator to intervene in corporate activities that threaten DB pension scheme benefits and recoveries by introducing new grounds for the issuance of both CNs and FSDs. It also introduces new criminal and civil penalties for misconduct in relation to a DB scheme.

Community Benefit Society Status

Many Registered Providers are registered as community benefit societies (**CBS**s) with the Financial Conduct Authority (the **FCA**) under the *Co-operative and Community Benefit Societies Act 2014* (the **CCBSA 2014**). This is an alternative business structure to, for example, companies and partnerships. Those that are charities are exempt from registration with the Charity Commission but are otherwise subject to charity law. In 2024 the Law Commission was asked by HM Treasury to review the CBBSA 2014 to ensure that it is fitting to the nature and needs of co-operatives and community benefit societies, and to ensure that regulation is proportionate and effective. The Law Commission ran a consultation from September to December 2024, seeking views on their proposals.

The consultation paper discusses a long list of reforms; the length of the list reflects the fact that parts of CBS law have not been systematically reviewed for over a century. Some of the proposals would negatively impact on Registered Providers that are CBSs as follows:

- **Removal of 'exempt charity' status**: Currently, CBSs are classified as exempt charities, meaning they do not register with the Charity Commission and are subject to different regulatory requirements in relation to charity law compliance. The Law Commission proposed that these societies should cease being exempt charities and instead be required to register with the Charity Commission like other charities. This change would mean that Registered Providers who are CBSs would face dual regulation by both the Charity Commission and the Regulator, potentially complicating compliance requirements, adding to their regulatory burden with additional reporting obligations and governance requirements and becoming subject to more stringent oversight by the Charity Commission in relation to property disposals; and

- **Membership and voting rights**: One of the central proposals in the Law Commission consultation paper was the introduction of a statutory definition of co-operatives and CBSs that emphasises open membership and democratic governance. The consultation suggested a "one member, one vote" rule as a fundamental principle for both types of societies. This rule would aim to ensure that each member has equal voting power in decision-making processes but it would disrupt current governance practices and require Registered Providers, who often have a closed shareholding, to restructure their membership frameworks. If implemented as proposed, Registered Providers would find themselves with large numbers of shareholders with each having a vote, meaning that mergers (and particularly rescue mergers) could be made more difficult.

Given the unhelpful implications of the proposals for Registered Providers who are CBSs, many stakeholders responded to the consultation accordingly. It has been reported that the Law Commission's early policy position paper indicates an intention to retain exempt charity status for Registered Providers and not to mandate voluntary and open memberships. The publication of the Law Commission's final recommendations for reform is awaited. It will then be for the UK Government to decide on whether to progress any recommendation.

Numerical Apportionment Basis

Where the applicable Pricing Supplement states that a Series of Notes will be Secured Notes and that the Series Property Security is allocated on a Numerical Apportionment Basis, the Notes will be secured by, *inter alia*, an allocation of charged properties from a shared security pool (the **Residual Charged Properties**). On an ongoing basis, the Security Trustee will apportion such number of units of the Residual Charged Properties between all the NAB Beneficiaries (including the Series Secured Parties in respect of each Series of Secured Notes that has specified Numerical Apportionment Basis as being applicable) as is appropriate.

The Valuation Reports were prepared by Jones Lang LaSalle Limited, Registered Chartered Surveyors of 1 Broadgate, London EC2M 2QS. The Valuation Reports are included in these Programme Admission Particulars, in the form and context in which it is included, with the consent of the Valuer and the Valuer has authorised the contents of this section.

Dear Sirs

Valuation of housing stock of Southern Housing relating to the update of the £1,000,000,000 Note Programme of Southern Housing (the *Programme*) (the *Programme Update*)

Jones Lange LaSalle Limited original report dated 26 May 2026 (the *Original Report*)

1. **Scope of this Report**

1.1 We provided valuations in the Original Report in respect of the properties listed therein which form part of the security for the holders of the Notes issued under the Programme (the **Original Properties**) as at 26 May 2026. A copy of the Original Report is scheduled to this Report.

1.2 We understand that the Programme is being updated and any Notes to be issued by the Issuer under the Programme will be secured by, *inter alia*, the charged properties from a shared security pool. Consequently, we have been instructed to confirm whether there have been any material changes in respect of the valuations of the Original Properties set out in the Original Report.

1.3 This Report is issued for the benefit of the addressees and for inclusion in the Programme Admission Particulars for the update of the Programme by the Issuer and may only be used in connection with the transaction referred to in this Report and for the purposes of the Programme Admission Particulars. The addressees to this Report may rely on the Original Report.

1.4 This Report is given in connection with the update of the Programme by the Issuer and is subject to our engagement letter with the Issuer dated 24 April 2026. We hereby give consent to the publication of this Report within the Programme Admission Particulars, and accept responsibility for the information contained in this Report. Having taken all reasonable care to ensure that such is the case, the information given in this Report is, to the best of our knowledge, in accordance with the facts and contains no omission likely to affect its import.

1.5 For the avoidance of doubt this is not a revaluation exercise. This letter in no way purports to comment on market value later than the respective valuation dates in the Original Report. We have not re-inspected, and our opinion is subject to the condition and characteristics of the Original Properties and the location in which they are situated; and we assume these have not changed materially since the valuation date.

1.6 All representations, undertakings and other obligations provided by us in the Original Report shall remain valid and in full force and effect in accordance with their terms and the terms upon which the Original Report were issued.

1.7 With the exception of this Report (and subject to the terms on which the Original Report was issued), we do not accept any liability in relation to the information contained in Programme Admission Particulars or any other information provided by the Issuer or any representative or agent of the Issuer related to the Programme Admission Particulars. To the extent that any summary or part of the Original Report is included in the Programme Admission Particulars, such summaries or extracts should be considered in conjunction with the entire Original Report.

2. Valuation

2.1 The Original Report refers to the position as at the date that it was originally issued and, unless otherwise confirmed by us in writing, we have taken no action to review or update the Original Report since the date it was originally issued. However, we have not been made aware by the Issuer or any other party of any material change in any matter relating to the Original Properties.

2.2 We understand that four units within the Original Properties have been removed from charge since the date of the Original Report, and ten units have either fully staircased or sold on a leasehold basis subject to the retention of the freehold title, and so moved from the valued list to the nil value list. These properties are set out in the attached schedule.

2.3 The aggregate valuation of the Original Properties (less such removed and nil value properties) as stated in the Original Report is therefore as follows:

(a) the aggregate Existing Use Value for Social Housing (EUV-SH) value of the 3,796 units restricted to this basis of valuation is – **£379,050,000 (three hundred and seventy-nine million and fifty thousand pounds);**

(b) the aggregate Market Value – Subject to Tenancies (MV-T) value of the 5,582 units valued on this basis of valuation is – **£1,128,490,000 (one billion, one hundred and twenty-eight million, four hundred and ninety thousand pounds)**.

2.4 A further 1,006 units have been given a nil value.

Introduction

The date of this Report is 26 May 2026.

Jones Lang LaSalle Limited has been instructed to value a portfolio of 10,388 properties for loan security purposes.

Properties

The portfolio comprises 9,392 social housing units located across Greater London, East of England, the South East, East Midlands and West Midlands. From our inspections and research, the properties are a mixture of ages (from pre-1919 through to 2010s) and of traditional brick and brick/concrete and steel construction.

The portfolio contains a mixture of different tenures as summarised in the table overleaf and set out in greater detail in section 3 of this Report.

In addition, there are 974 units in the portfolio which either form ancillary accommodation, or have been sold on long leases or fully staircased. The Borrower's interest in these units is considered to be de minimis for the purpose of this exercise and so they have been included at nil value. Also, there is one scheme, The Round House, Gunwharf Quay, Portsmouth PO1 3SG, comprising 22 units, that has been included at nil value until further fire safety information is provided by the Borrower. Furthermore, please note that these properties have not been included in any unit counts or other statistics in this report.

We have inspected 20% of the portfolio externally and 5% of this sample internally. The remaining 80% of the portfolio has been valued on a desktop basis (section 3).

Portfolio Analysis

Location

- the properties within the Portfolio are located across Greater London, East of England, the South East, East Midlands and West Midlands.

Description

- the Portfolio comprises 7,240 general needs, 723 affordable rent, 615 sheltered/supported, 203 intermediate and London Living rent, and 611 shared ownership units;
- the property types are a mixture of houses, bungalows and flats; and
- the properties are a mixture of ages, predominantly comprised of solid brick and brick/concrete cavity, and steel construction, with pitched/ slate clad roofs, with the majority of windows of UPVC casement and being double glazed.

Tenure

- unless otherwise stated in this Report, we understand that the Borrower holds the freehold interest in 9.160 properties and the long leasehold interest in 232 properties, and for the leasehold properties we have assumed that there not less than 80 years unexpired in the properties.

Tenancy Summary Income Profile

- there are 8,515 rented properties let on assured tenancies;
- there are 266 units let on secure tenancies;
- the Portfolio includes 611 properties that are subject to Shared Ownership leases; and
- the total annual income that the Borrower receives from the Portfolio is £67,041,269.

Analysis

Strengths

- given the divergence between property prices and local average earnings, demand for these properties should be sustainable in the medium to long term;
- the level of rental income for all areas is broadly in line with other Registered Providers of social housing ("RPs") in the respective areas;
- the level of rental income is, in aggregate, below the relevant levels of Local Housing Allowance (LHA) for each region;
- the EUV-SH and MV-T values per unit and percentage relationships to MV-VP, are at levels

Weaknesses

- the age of some of the properties mean they require continued investment in order to be able to maintain the same level of rental income in the long term;
- downward pressure on house prices in the medium-term and falling transaction volumes could impact upon values going forward; and
- there are short-term risks for RPs' income not supported by housing benefit and a greater number of voids and arrears.

© 2026 Jones Lang LaSalle IP, Inc. All rights reserved

appropriate to the current climate, having regard to the Portfolio's location and composition;

- we have made conservative assumptions with regard to the respective rent and sales contributions to the valuations of the shared ownership units and they are not overly dependent on proceeds from sales;
- EUV-SH values are likely to maintain their current levels as stock transactions within the sector and access to debt markets continue to take place, albeit with more hesitancy due to market fluctuations; and
- based on local authority waiting lists, there is excess demand for affordable housing properties across the localities within the Portfolio.

Threats

- the social housing sector's financial performance is weakening due to increased spending on existing homes and higher interest rates;
- the strongest financial pressures are seen in London and other urban areas with large numbers of flats still needing building safety works.
- RPs' spending on repairs and maintenance is at record levels and development plans are being scaled back due to financial constraints; and
- there is an increased focus both within the sector and the media on tenant safety and service delivery, and failure to deliver quality services or engage with tenants effectively can harm tenants and damage reputation.

Opportunities

- increased efficiencies are continuing to be driven by mergers between RPs;
- rationalisation of RPs' stock allowing for more efficient asset management;
- investment of REITs and other funds into the sector as whole; and
- reactive changes to working conditions and government policy could drive further efficiencies in the sector and wider economy in the longer-term.

Suitability of Security

Your instructions require us to comment on whether the properties we have valued provide adequate security for the issue.

It is difficult for any valuer, without being asked to consider a specific credit or risk assessment policy, to make an absolute, unqualified statement that those assets will provide suitable security because our instructions do not explain what criteria the Security Trustee is applying in making this assessment.

© 2026 Jones Lang LaSalle IP, Inc. All rights reserved

However, we confirm that, in our opinion, should the Security Trustee become a mortgagee in possession of this portfolio of properties, then it would be possible to achieve a sale to another RP that would be at a price at least equivalent to our valuation on the basis of EUV-SH or, in principle, to a private purchaser at a price equivalent to our valuation on the basis of MV-T as set out in this Report. However, the valuation assumes implicitly that a purchaser could obtain debt finance on commercially viable terms to facilitate a purchase of the portfolio.

Based on the sample of inspections undertaken as a part of this valuation exercise, we are satisfied that the properties are being maintained to an acceptable social housing standard in line with the Regulator of Social Housing ("RSH") regulatory requirements and commensurate with the likely demands of the target tenant group.

Overall, we have assumed that each property has a useful economic life of at least 50 years provided that the properties continue to be properly maintained in the future.

Please see section 3.4 in terms of our approach relating to any potential remedial works in the wake of the Grenfell Tower disaster of June 2017. We have assumed that all properties conform to the Fire Precaution Regulations and any other statutory requirements.

With the above factors in mind, and with specific regard to the continuing need for well-maintained social housing accommodation, we believe it reasonable to conclude an acceptable demand for a portfolio of this nature from commensurate social housing landlords and private institutional investment firms.

Subject to the information presented within this Report, and at the values formally reported, we are satisfied to recommend to the Security Trustee that this portfolio is suitable for security purposes.

1 Introduction

1.1 Background

Jones Lang LaSalle Limited (hereafter "JLL") has been instructed to prepare a valuation of 10,388 properties owned by Southern Housing Group (the "Borrower").

1.2 Compliance

Our valuations have been prepared in accordance with the current RICS Valuation – Global Standards, incorporating the IVS, and the RICS Valuation – Global Standards – UK National Supplement published by the Royal Institution of Chartered Surveyors (commonly known as the "Red Book").

Our valuations may be subject to monitoring by the RICS and have been undertaken by currently Registered RICS Valuers.

This Report has been prepared by Shuab Mirza MRICS (Valuer Number: #0103367) and countersigned by Fiona Hollingworth MRICS (Valuer Number: #0099707), Vacar Zeb (Valuer Number: #00118896), and Marc Burns (Head of Affordable Housing at JLL).

In accordance with PS 2.3 of the Red Book, we confirm that we have sufficient knowledge and skills to undertake this valuation competently.

We can confirm that no conflict of interest has occurred as a result of our production of this Report.

The valuation date is 26 May 2026.

For the avoidance of doubt, we confirm that it would not be appropriate or possible to compare this valuation with any values appearing in the Borrower's accounts. This Report has been prepared in accordance with the Red Book. The valuations are prepared on this basis so that we can determine the value recoverable if the charges over the properties were enforced at the date of this Report. We understand that values given in the Borrower's accounts are prepared on an historic cost basis which considers how much the properties have cost and will continue to cost the Borrower. This is an entirely different basis of valuation from that used for loan security purposes.

This valuation qualifies as a Regulated Purpose Valuation ("RPV") as defined by the Red Book. A RPV is a valuation which is intended for the information of third parties in addition to the Addressees. It is a requirement of UKVS 4.3 of the Red Book in relation to disclosures that we declare our prior involvement with the Borrower, or the properties being valued, to ensure that there is no conflict of interest.

We confirm that the total fee income earned from the Borrower is substantially less than 5% of the fee income earned by JLL in our last financial year (ending 31 December 2025) and that we do not anticipate this situation changing in the foreseeable future.

1.3 Instructions

This Report is prepared in accordance with the Borrower's formal instructions.

We have been instructed to prepare our valuations on the following bases:

© 2026 Jones Lang LaSalle IP, Inc. All rights reserved

- Existing Use Value for Social Housing ("EUV-SH"); and
- Market Value subject to existing Tenancies ("MV-T").

Please note that the properties that have been valued on the basis of MV-T have also been valued on the basis of EUV-SH, for information purposes only.

1.4 Status of Valuer

In preparing this valuation we have acted as external valuer as defined by RICS, subject to any disclosures made to you.

In accordance with RICS guidance, and our own rotation policy, we recommend that a rotation of overall responsibility within JLL is considered no later than the end of 2030.

1.5 The Stock Rationalisation Market – EUV-SH Transactions

As you will be aware, an active market exists for the sale of tenanted stock between Registered Providers ("RPs"). This can be driven by strategic decisions about the type and location of accommodation that RPs wish to provide, and the viability of investing in properties to bring them up to the required standards.

Where competition is generated, a market has emerged in which RPs bid against one another on price. The resulting values, even though presented on an EUV-SH basis, tend to be in excess of base EUV-SH values that might be expected for balance sheet or loan security purposes.

Although this may appear hard to justify, the underlying rationale is as follows:

- the bidding price is still much less than the cost of development;
- the marginal cost of taking additional units into management, in an area where the acquiring RP already has stock, justifies a financial model based on relatively low costs for management, repairs and maintenance;
- the judgement of all-round risk formed by the acquiring RP, as reflected in the discount rate, is often lower (and the rate therefore keener) than would be acceptable to either a funder or an auditor in a balance sheet context;
- the price is worth paying to achieve strategic objectives around increasing a presence in a particular area or market; and/or
- the price may be supported by future void sales and/or changes of tenure (for example, from Social Rent to Affordable Rent).

1.6 Regulation

The Borrower is regulated by the Regulator of Social Housing ("RSH"). The RSH is a non-departmental public body that oversees social housing providers in England. It was established in 2018 and is sponsored by the Ministry of Housing, Communities and Local Government. The RSH's primary responsibilities include monitoring and regulating registered social housing providers to ensure they meet certain standards of governance, financial viability, and value for money. It also provides guidance and support to social housing providers and publish information on the performance of the sector.

© 2026 Jones Lang LaSalle IP, Inc. All rights reserved

The RSH in England provides ratings to social housing providers based on their financial viability, governance and (from 1 April 2024) consumer standards. The Borrower is currently rated as follows:

Registered Provider	Governance Rating	Viability Rating	Consumer Regulation Rating	Last Update
Southern Housing Group	G1	V2	C2	2024

A package of deregulatory measures for which the primary legislation was the Housing & Planning Act 2016 came into force on 6 April 2017. These were very significant for the UK social housing sector, as they gave RPs greater freedom in terms of commercial decision making than they have ever previously enjoyed in terms of the reduced ability of the regulator to prevent asset management actions.

The deregulatory measures introduced, give RPs the freedom to dispose of assets without the regulator's consent, either with or without tenants in place. Disposals include the grant of leases and the creation of charges when assets are pledged as security for loan security purposes.

Since the commencement of this legislation, RPs have adapted their business plans and have adopted a more commercial approach to asset management as one of the tools at their disposal to respond to the greater financial pressures and expectations upon them. For example, this is now a key part of asset management decisions, around investment, remodelling and sale; and an element of sales being built into some stock rationalisation bids.

To be clear this does not mean that RPs have in any way sacrificed their fundamental social ethos. Rather, it is a recognition that, as for any charitable organisation, making best use of its assets to enable it to meet its charitable objectives is an obligation rather than an option; and that commercial behaviour is not at all incompatible with a strong social ethos, within a framework of strong governance.

Whilst this is now a common part of RP asset management strategy, in accordance with our instructions, we have not considered or built in any rate for sales of void properties within our EUV-SH valuations.

1.7 Market Conditions

Macro events such as geo-political disputes, wars or acts of aggression, and restrictions on trade can cause market conditions to change quickly thereby impacting real estate values. Specifically, events in Iran and the wider Middle East region may have global repercussions resulting in increased oil prices, market stagnation and general uncertainty.

In recognition of this, we highlight the importance of the valuation date and confirm the conclusions in our report are valid at the time of reporting only. We advise you to keep the valuation under regular review. For the avoidance of doubt, we are not reporting Material Uncertainty.

2 Methodology

2.1 Valuation Model

We have undertaken our valuation of the portfolio using fully explicit discounted cashflow models, over a 50-year period, with the net income in the final year capitalised into perpetuity.

For the purposes of our valuation, we have split this portfolio by tenure in order to reflect the different risks and opportunities associated with each business stream. We have further split the portfolio geographically by region to reflect the different markets in which the properties are located and the associated risks and opportunities.

In accordance with section 1.5, whilst we recognise that there is a growing active market for the sale of tenanted stock between RPs, we have not split the portfolio into 'lots' to reflect this and have, in accordance with our instructions, valued the properties as a single portfolio.

Against the income receivable for each property, we have made allowances for voids and bad debts; the costs of management and administration; major repairs; cyclical maintenance; day-to-day repairs; and for future staircasing. We have assumed an appropriate level of future growth in these costs (expenditure inflation).

We have then discounted the resulting net income stream at an appropriate rate which reflects our judgement of the overall level of risk associated with the long-term income. A more detailed explanation of the discount rate is included in section 4.

2.2 Information Provided

The principal source of background data for the portfolio has been the rent roll for each property provided by the Borrower. This detailed the number and type of units, the rent payable, tenancy type, and equity retained by the association (where applicable).

This information was supplemented with our market research and other data we have gathered from similar instructions undertaken recently and involving comparable stock. From these sources we have collated information on the following:

- rents;
- bad debts, voids and arrears;
- cost of maintenance and repairs; and
- management and administration expenses.

A location plan of the portfolio is provided as Appendix 2.

2.3 Inspections

We derived our inspections strategy by giving full regard to:

- the geographical spread of the stock;
- the concentration (and thereby its exposure to risk); and
- the property types.

© 2026 Jones Lang LaSalle IP, Inc. All rights reserved

We have satisfied ourselves as to the quality of location and the general condition of and level of fixtures and fittings provided to the properties, and we have derived our valuation assumptions accordingly.

In accordance with our instructions, we have inspected all schemes externally and a representative sample of 5.0% of the stock was inspected internally. Our inspections were carried out between 01 September 2025 and 12 September 2025, and then between 11 May 2026 and 29 May 2026.

A representative selection of photographs is provided as Appendix 3.

2.4 Market Research

In arriving at our valuation, we have undertaken a comprehensive programme of research to supplement our knowledge and understanding of the properties. This has included:

- researching local vacant possession values through conversations with local estate agents together with internet research and using RightmovePlus, a bespoke tool for comparable evidence;
- examining local benchmark affordable rents and comparing these with the Borrower's rents; and
- analysing data provided by the Borrower.

3 General Commentary

Schedules summarising the following data for each property within the portfolio form Appendix 1 of this Report:

- address;
- unit type;
- title number; and
- tenure.

3.1 Locations

The properties within the portfolio are located across Greater London, East of England, the South East, East Midlands and West Midlands as shown in the table below:

County	Units
Bedfordshire	9
Berkshire	548
Buckinghamshire	22
East Sussex	1,401
Essex	70
Greater London	3,549
Hampshire	309
Isle of Wight	503
Kent	2,171
Leicestershire	8
Northamptonshire	30
Surrey	198
West Midlands	71
West Sussex	503
Total	**9,392**

38% of the portfolio is in London and mainly formed from pre-1919 through to post-1990s modern schemes. The properties are located within built up urban areas, but in established residential positions. A further 60% of the portfolio is located in the South East, with the balance 2% made up from small parcels in East of England, and East and West Midlands, with the majority being a relatively even mix of properties in 1950-1979 Local Authority estates and 1980s cul-de-sac type developments, together with some post-1990s modern schemes. It is dominated by estates, but these are generally established and in more suburban areas (comparative to the London stock). The bulk of the portfolio will have acceptable access to transport and general amenities.

A location plan of the portfolio is provided at Appendix 2.

3.2 Property Types

The following table summarises the unit types within the portfolio.

Property Type	Units

1 bed flat	2,542
2 bed flat	2,476
3 bed flat	478
4 bed flat	36
5 bed flat	7

5 bed house	29
6 bed house	3
1 bed bungalow	151
2 bed bungalow	97
3 bed bungalow	7
4 bed bungalow	2
Total	**9,392**

3.3 Condition

We have not carried out a condition survey, this being outside the scope of our instructions.

The properties within the portfolio are a mixture of ages as shown in the table below:

Age	House	Flat	Bungalow	Total
Pre-1919	88	584	19	**691**
1920-1949	23	412	2	**437**
1950-1979	996	982	79	**2,057**
1980s	420	1,282	73	**1,775**
1990s	1,187	770	68	**2,025**
2000s	467	806	14	**1,287**

© 2026 Jones Lang LaSalle IP, Inc. All rights reserved

Age	House	Flat	Bungalow	Total
2010s	237	864	2	**1,103**
Post 2020	5	12	-	**17**
Total	**3,423**	**5,712**	**257**	**9,392**

The property ages and construction methodology have been factored into the assumptions we have made regarding voids, discount rates and repairs and maintenance.

Based on our inspections, we are satisfied that the properties we inspected internally, are being maintained to an acceptable social housing standard, in line with RSH regulatory requirements and commensurate with the likely demands of the target tenant group.

Overall, we have assumed that each property has a useful economic life of at least 50 years provided that the properties continue to be properly maintained in the future.

3.4 Fire Safety

Our valuations have been provided in accordance with the RICS' Guidance Note: "Valuation approach for properties in multi-storey, multi-occupancy residential buildings with cladding, 2nd Edition December 2023" (the 'Guidance Note'), effective from 1 January 2024.

The purpose of the Guidance Note is to help valuers undertaking valuations of domestic residential blocks of flats in the UK for secure lending purposes. It sets out criteria for buildings of different heights that can be used to identify where possible remediation work to cladding for fire safety purposes is likely to be required and may materially affect the value of the property.

From information provided to us by the Borrower and our inspections, there are eighteen blocks of 6 storeys and above and a further eleven blocks below 6 storeys where we have queried the construction of the external wall system and whether potentially combustible cladding or timber balconies are present. We understand that Fire Risk Assessments have been carried out and – with consultation with the Borrower and previous engagement with our Building Consultancy Team – we have reviewed the information provided and allocated estimated budgeted costs yet to be expended for the remedial works within our valuations, as detailed in the table below.

3.5 Energy Performance Certificates (EPCs)

We have not been provided with copies of any Energy Performance Certificates by the Borrower. The Energy Efficiency (Private Rented Property) (England and Wales) Regulations 2015 make it unlawful for landlords in the private rented sector to let properties that have an EPC rating of F or G, from 1 April 2018. The Regulations do not apply to the majority of properties owned by RPs.

However, the Borrower has confirmed the EPC rating applicable for 8,781 properties in the portfolio which are summarised in the table overleaf:

© 2026 Jones Lang LaSalle IP, Inc. All rights reserved

EPC Rating	Units
A	2
B	837
C	5,936
D	1,888
E	91
F	27
Unknown	611
Total	**9,392**

We note that some of the properties have an EPC rating below C which falls below the minimum EPC threshold required for lettings in the private rental market. However, we have valued these properties on the basis of EUV-SH or MV-T (where appropriate). In respect to these properties we have made an allowance of between £4,086 and £11,028 in our cashflow to bring the properties up to EPC standard C by 2030.

3.6 Climate Change Risk and Net Zero Carbon

Global warming targets set in the Paris Agreement are 1.5-2.0° Celsius above pre-industrial levels. Even the lower end of this range will produce significant changes to global climate systems, including extreme heat or cold events, higher frequency and severity of precipitation or drought, and sea level rise. Therefore, the level of physical climate-related risk of the subject property is likely to fluctuate over its useful life. High levels of climate risk could affect occupier and investor demand, as well as ability to obtain building insurance.

There is an increased focus on Environmental, Social & Governance (ESG) criteria for investment across all asset classes, including real estate. There are also various new, ESG-focused funds entering the real estate market. As a result, the value of property assets of all types is likely to be increasingly affected over time by long term, sustainability challenges. We note that, under the Paris Agreement, the 2050 vision is for all buildings, both new and existing, to be net zero carbon across the whole life cycle. As an interim ambition, the agreement envisages that all new buildings should be able to achieve zero carbon in operations, and aim to reduce carbon emissions by 40%, by 2030.

To achieve the best sustainability credentials and, in particular, to achieve Net Zero Carbon specification, the cost of a refurbishment of a building is currently higher than it would be for a refurbishment which fell short of the standards. However, given the speed at which both the legislation and ESG requirements are advancing, there is a risk that, within the next ten years, further capital expenditure will be required. However, such costs may be mitigated in the future through the principles of the Circular Economy, with a greater focus on recycling materials, and the development of more flexible buildings which can be refurbished and adapted to alternative uses more economically.

Therefore, in terms of cashflow, we anticipate that the technological advances, combined with the increased supply of products and competition, will lower these costs over time and we have not, at this stage, included in our valuation any additional allowance for costs to support the move to net zero carbon over the period covered by our valuation models.

4 Valuation Commentary – Rented Stock

4.1 Introduction

There are 8,781 rented affordable housing properties in the portfolio. These are summarised in the table below.

Category	Units	% of the Portfolio
GN Affordable Rent	723	8.0%
GN Social Rent	7,240	82.5%
HOP self-contained	601	7.0%
Intermediate Rent	141	1.5%
London Living Rent	62	<1%
Supported self-contained	14	<1%
Total	**8,781**	**100%**

4.2 Tenancies

The majority of the rented properties (circa 96.9%) are let on assured tenancies. We have assumed that these are 'standard' assured tenancies although we have not seen example tenancy agreements. The remaining 266 units are let on secure tenancies.

4.3 Rental Income

The following table summarises the total income that the Borrower receives from the portfolio annually:

Category	Annual Income	Average Rent
GN Affordable Rent	£7,051,004	£187.55
GN Social Rent	£49,969,511	£132.73
HOP self-contained	£3,633,326	£116.26
Intermediate Rent	£1,652,952	£225.44
London Living Rent	£898,879	£278.81
Supported self-contained	£115,069	£158.06
Total	**£63,320,742**	**£138.68**

The Statistical Data Return ("SDR") is an annual online survey completed by all private RPs of social housing in England. The latest return for 2024/25 provides the average social rents charged by all RPs for general needs and sheltered/supported properties. The following table compares the Borrower's average rents with the average sector rents in the same localities:

According to the Valuation Office Agency, LHA is set at the 30th centile point between what in the local Rent Officer's opinion are the highest and lowest non-exceptional rents in a given Broad Rental Market Area. This analysis looks at local properties and differentiates by bedroom number but not by property type (i.e. houses and flats). These statistics are used as a reference for housing benefit and are a good indication of rent levels which are affordable in a given area.

The following table sets out a comparison of the Borrower's average rents with the average LHA in the portfolio and also our opinion of Market Rents for comparable properties in the same areas (rents are shown on the basis of 52 weeks).

Category	Average Passing Rent	Average LHA	% of LHA	Average Market Rent	% of Market Rent
GN Affordable Rent	£187.55	£258.24	72.6%	£282.24	66.4%
GN Social Rent	£132.73	£282.65	47.0%	£351.85	37.7%
HOP self-contained	£116.26	£204.79	56.8%	£233.68	49.8%

Supported self-contained	£158.06	£144.41	109.5%	£192.48	82.1%

We are unable to verify the accuracy of the rent roll provided to us by the Borrower.

4.4 Rent Convergence

On 28 January 2026, the government confirmed updates to the rent standard allowing properties with rents currently below formula rent to increase by an additional £1 per week from April 2027, rising to £2 per week from 2028 until formula rent is reached.

The rent convergence provisions will not apply to all properties. The following accommodation types are specifically excluded from the updated Rent Standard: shared ownership low cost rental accommodation, intermediate rent accommodation, specialised supported housing, relevant local authority accommodation, student accommodation, PFI social housing, temporary social housing, and care homes.

© 2026 Jones Lang LaSalle IP, Inc. All rights reserved

To accurately model rent convergence within our valuation methodology, we require Registered Providers to confirm the formula rent for each eligible property in the portfolio. This enables property-by-property assessment of whether current passing rents fall below formula rent levels.

SHG was unable to provide formula rent data for this portfolio. Consequently, we have assumed that passing rents are already at formula rent levels and have not incorporated additional rent convergence into our valuation model.

4.5 Affordability

In addition, we have looked at the passing rents as a proportion of local net weekly earnings as reported by the Office of National Statistics in its provisional 2025 Annual Survey of Hours and Earnings. The results for each of the regions in our valuations are shown in the table below and, in our opinion, demonstrate that the rents being charged by the Borrower are affordable.

Region	Average Weekly Earnings	General Needs	General Needs as %	Affordable Rent	Affordable Rent as %	Supported	Supported as %
East Midlands	£517.23	£122.45	23.7%	-	-	-	-
West Midlands	£548.71	£134.00	24.4%	-	-	-	-
East of England	£557.42	£116.68	20.9%	£157.37	28.2%	-	-
Greater London	£763.46	£153.14	20.1%	£234.43	30.7%	£135.27	17.7%
South East	£576.25	£120.28	20.9%	£159.78	27.7%	£113.23	19.7%

4.6 EUV-SH Rental Growth

We have modelled rental growth of 1.0% in the first year of our cashflow, and rental growth of CPI plus 1% in all years thereafter into perpetuity.

4.7 MV-T Rental Growth

Passing rents are currently below market levels, resulting in good prospects for future rental growth when considering the market value of the portfolio.

We have assumed that it will take between 2 and 7 years for assured rents to increase to market levels and thereafter for rents to rise at 1% (real) per annum. In making our assumptions regarding the number of years and annual increases, we have had regard to typical gross and net yields on private residential portfolios of a similar age profile and in comparable locations.

4.8 Relet Rates

Our EUV-SH model allows for a rate at which secure tenancies are relet as assured tenancies. The annual rates of tenancy turnover experienced by housing associations vary considerably between localities and between different property types. Regarding assured tenancies, national turnover rates are typically within the range of 5.0% to 11.0%, with higher rates of turnover in the North than in the South.

© 2026 Jones Lang LaSalle IP, Inc. All rights reserved

The rates that we have adopted are set out in the table below and have assumed that those properties will be relet at the prevailing average target rent. In addition, we have included an allowance for incidental voids as outlined in section 4.11.

Property Type	Relet Rate
House	2.5% - 3.3%
Flat	4.5% - 5.3%
Room	4.5% - 5.3%

4.9 Sales Rates

In accordance with section 1.6, we have not included the sale of any void units under the deregulatory measures introduced by the Housing and Planning Act 2016 in any of our EUV-SH valuations.

In our MV-T cashflows we have assumed that some of the units which become void are sold on the open market. In establishing the sales rates, we have had regard to Land Registry's information on the number of sales and average prices across the same localities over the past 12 months.

The average sales rates we have applied per annum for houses and flats are shown in the table below:

Category	Annual Sales Rates	Sales (Year 1)
Sales rate (houses)	3.0% - 50.0%	69
Sales rate (flats)	3.0% - 50.0%	74

The above figures equate 4,423 sales in total over 50 years. This, in our view, is a sustainable level of sales which would not adversely impact local house prices or marketability.

4.10 Right to Buy

We anticipate that the tenants of some of the properties within the portfolio may have either the Right to Buy ("RTB") or the Right to Acquire ("RTA"). However, we consider it imprudent to reflect additional value from capital receipts and we have therefore assumed that neither RTB nor RTA will be available to exercise at the date of valuation.

4.11 Outgoings

In forming our opinion of the net rental income generated by the portfolio, we have considered the following outgoings:

- bad debts, voids and arrears;
- cost of maintenance and repairs; and
- management and administration expenses.

© 2026 Jones Lang LaSalle IP, Inc. All rights reserved

We emphasise that, under the definitions of the bases of valuation we have been instructed to adopt, we are not valuing the Borrower's stewardship of the stock, rather we are assessing what a hypothetical purchaser in the market would pay for the stock, based on the market's judgement of the capabilities of the portfolio.

The assumptions we have made in our appraisal reflect our opinion of the view the market would adopt on the future performance of the portfolio. In forming our opinion, we have had regard to other recent valuations we have undertaken of comparable stock.

4.12 Bad Debts and Voids

We have incorporated into our valuations the potential for future voids and bad debts. Any loss of income for both void properties and bad debts is reflected in a deduction made from the gross rental income.

The rates applied take into consideration the figures in the 2025 Global Accounts data provided by the RSH and are similar to allowances used by other RPs providing a management and maintenance service in the areas where the properties are situated.

The 2025 Global Accounts data shows that across the whole affordable housing sector, RPs have lost approximately 0.59% of their gross income through bad debts and 1.76% through void losses. The void losses reflect a decrease from 0.66% in the 2024 data whilst bad debts have remained at similar levels over the same period.

In our MV-T valuations we are assuming greater increases in rents than a social landlord would impose. In our opinion, these rent increases would inevitably be reflected in a higher level of voids and bad debts than would otherwise be the case. The associated risk has been factored into our MV-T discount rate.

The rates we have adopted for bad debts and voids as a percentage of gross income for each of our EUV-SH and MV-T valuations are summarised in the table below:

Category	Units Count	Bad debts & voids Year 1 (EUV-SH)	Bad debts & voids Year 1 (MV-T)
GN Affordable Rent	723	3.00%	8.25%
GN Social Rent	7,240	2.75%	8.00%
HOP self-contained	601	2.25%	7.50%
Intermediate Rent	141	3.00%	8.00%
London Living Rent	62	3.00%	-
Supported self-contained	14	3.00%	8.25%

4.13 Management Costs

We have adopted rates for management and administration based on our experience of other RPs operating in similar areas to the Borrower. Our rates are subject to an annual inflator of 0.5% (real) for the duration of the cashflow reflecting long-term earnings, growth predictions and potential management savings.

From the information provided in the 2025 Global Accounts, the average cost of management across the sector is £1,363 per unit and the average management cost for SHG is £1,348 per unit.

© 2026 Jones Lang LaSalle IP, Inc. All rights reserved

In arriving at our opinion of value, we are assessing what a hypothetical purchaser in the market would pay for the properties, and in our experience, bids are likely to reflect a marginal approach to management costs. That is, the incremental cost to the organisation of managing the acquired stock is likely to be significantly less than the organisation's overall unit cost. Furthermore, a growth in stock numbers could give rise to potential economies of scale, rationalisation of services and other efficiencies which would reduce unit costs.

Taking the above into account, we have adopted an average rate of £942 per unit for management and administration in our valuations on the basis of EUV-SH.

We have assumed that a mortgagee in possession would expect to spend between 9.0% and 10.0% of rental income on management and administration in our valuations on the basis of MV-T.

4.14 Repairs and Maintenance

Although the majority of the properties are generally in a reasonable or good condition, renewal, day-to-day and cyclical maintenance will be required to keep the stock in its present condition.

From the information provided in the 2025 Global Accounts, the total average cost of carrying out major repairs, planned and routine maintenance across the sector is £3,330 per unit and the average maintenance cost for the Borrower is £4,592 per unit. The Global Accounts average figure for the sector is an increase of 10.0% on the 2024 Edition.

The above figures are broad averages; costs will vary according to a property's age, type, size and form of construction. In particular, the profile of expenditure will be different for a newly built property compared to an older property. The former should only require modest routine maintenance over the first 5 to 10 years of its life, with major repairs only arising from years 15 to 20. Hence there is a low start cost profile, rising steeply in the medium term, whilst an older property is likely to have a flatter profile with a higher starting point.

In accordance with section 3.3 we have had due consideration to the age and construction type for each of the tenure types in our valuations.

The following table sets out the average cost assumptions we have made in the first year of our EUV-SH cashflows. All of our appraisals assume that these costs will inflate at 0.5% (real) per annum.

Category of Expenditure	Period	Rented Properties
Major repairs and renewals	Year 1	£1,942
Cyclical repairs	Year 1	£466
Day-to-day repairs	Year 1	£681
Total Average Costs	**Year 1**	**£3,089**

We have adopted higher costs for major repairs in the first 2 years of our MV-T valuations as some of the properties will require refurbishment and redecoration in order to attract buyers or to be let in the private residential market. After this initial period, our costs settle to a lower level similar to the costs used in our EUV-SH valuation.

4.15 Discount Rate

Our cashflow valuations are based on constant prices and therefore explicitly exclude inflation. The chosen discount rate reflects our judgement of the economic conditions at the time of the valuation and the level of risk involved in each cashflow, taking all factors and assumptions into account. To determine the risk involved we have looked at:

- the sustainability of the existing rental income;
- the likely rate of future rental growth;
- the condition of the portfolio;
- the level of outgoings required to maintain the maximum income stream;
- the likely performance of the portfolio in relation to its profile and location;
- the real cost of borrowing; and
- the long-term cost of borrowing.

For our EUV-SH valuations of the rented properties we have adopted real discount rates of between 5.00% and 5.75% on net rental income.

In our MV-T model we have adopted a higher rate on rental income to reflect additional risk resulting from the significant rental growth that we have assumed during the first 2-7 years. In addition, we have adopted a higher rate on income from sales to reflect the additional premium on the yield which an investor would expect from a sales income stream.

We have adopted real discount rates of between 7.00% and 7.75% (rental income), and between 7.00% and 8.25% (sales) for our MV-T cashflows.

5 Valuation Commentary - Shared Ownership

5.1 Introduction

There are 611 shared ownership properties within the portfolio. The Borrower currently owns 58.7% of the equity in the units and a rent is charged on this percentage.

5.2 Rental Levels

According to the information provided by the Borrower, the average gross weekly rental level is £117.10 against the average retained equity. All rents are expressed on the basis of 52 rent weeks per year.

We have not included the value of any current or future ground rent income in our valuations.

5.3 Rental Growth

The RSH's restriction on future rental growth through section 2.4.5 of the Capital Funding Guide allows a maximum of 0.5% real growth per annum only. The imposition of this formula effectively constrains the net present value of the cashflow to the basis of EUV-SH.

It should also be noted that although, in general, rents in the sector will be linked to CPI, the rents for shared ownership properties will grow as set out in the signed leases for each property. We have not had sight of these leases and assume that they have the standard rent review provisions (upwards only, indexed linked at RPI plus 0.5%) set out in the model shared ownership lease, published by the National Housing Federation.

We have grown rents at a rate of RPI plus 0.5% in line with this guidance and the terms of the existing leases.

5.4 Outgoings

In forming an opinion of the net rental income generated by the portfolio, we have allowed 5.0% of gross rental income for management.

5.5 Voids and Bad Debts

We understand that all of the properties are now let and so we would not expect any voids going forward. We have allowed for the incidence of bad debts in the discount rate.

5.6 Repairs and Maintenance

We have assumed any repair obligations will lie with the leaseholders. We would expect that repair/renewal, day-to-day and cyclical maintenance would be required to keep the stock in its present condition. However, we have assumed that, where appropriate, service charge income fully covers expenditure.

5.7 Discount Rate

For our EUV-SH valuation we have adopted a discount rate of 5.25%% on the rental income and 7.75%% on sales.

© 2026 Jones Lang LaSalle IP, Inc. All rights reserved

5.8 Market Value subject to Vacant Possession (MV-VP)

The average MV-VP of the retained equity in the shared ownership properties in the portfolio is £182,500.

5.9 Rate of Sales

We have adopted what we would expect to be a long-term sustainable rate of sales of further tranches over the 50 years of our cashflow model. We have assumed that equity is sold in 1.0% tranches.

The rates we have adopted in our cashflow are as follows:

Years	Tranche Sales p.a.
Yrs 0-2	1.00%
Yrs 3-15	1.50%
Yrs 16-30	1.00%
Yrs 31-50	0.50%

It is difficult to judge when tenants will purchase additional tranches so the income from sales proceeds has been discounted at a higher rate, in line with section 5.7, to reflect the additional risk of realising the value. However, it should be noted that in our valuation, the majority of the value (circa 74.1%) is attributed to the rental income.

7 Bases of Valuation

Our valuations have been prepared in accordance with the RICS Red Book.

7.1 Existing Use Value for Social Housing

The basis of Existing Use Value for Social Housing is defined in UK VPGA 7 of the RICS Valuation Global Standards – UK National Supplement as follows:

"Existing use value for social housing (EUV-SH) is an opinion of the best price at which the sale of an interest in a property would have been completed unconditionally for a cash consideration on the valuation date, assuming:

- *a willing seller;*
- *that prior to the valuation date there had been a reasonable period (having regard to the nature of the property and the state of the market) for the proper marketing of the interest for the agreement of the price and terms and for the completion of the sale;*
- *that the state of the market, level of values and other circumstances were on any earlier assumed date of exchange of contracts, the same as on the date of valuation;*
- *that no account is taken of any additional bid by a prospective purchaser with a special interest;*
- *that both parties to the transaction had acted knowledgeably, prudently and without compulsion;*
- *that the property will continue to be let by a body pursuant to delivery of a service for the existing use;*
- *the vendor would only be able to dispose of the property to organisations intending to manage their housing stock in accordance with the regulatory body's requirements;*
- *that properties temporarily vacant pending re-letting should be valued, if there is a letting demand, on the basis that the prospective purchaser intends to re-let them, rather than with vacant possession; and*
- *that any subsequent sale would be subject to all the same assumptions above."*

7.2 Market Value

The basis of Market Value is defined in VPS 4.4 of the Red Book as follows:

"The estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm's length transaction after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion."

Market Value subject to Tenancies is in accordance with the above definition, with the addition of the point below:

"That the properties would be subject to any secure or assured tenancies that may prevail, together with any other conditions or restrictions to which property may be subject."

7.3 Expenses

No allowance is made in our valuations for any expenses of realisation.

7.4 Tax

No allowance is made in our valuations for any liability for payment of Corporation Tax, or for any liability for Capital Gains Tax, whether existing or which may arise in the future.

The transfer of properties between RPs is exempt from Stamp Duty Land Tax ("SDLT"). Our MV-T valuations include fees of 3.0% on individual unit sales, however we have not included SDLT or other costs of acquisition within our valuation.

7.5 VAT

Our valuations are exclusive of VAT on disposal.

8 Sources of Verification of Information

8.1 General

We have relied upon the description, tenancy type and current rental income provided to us by the Borrower and we have been unable to verify the accuracy of that data.

8.2 Tenure

Unless otherwise stated in this Report, the Borrower holds a freehold interest or long leasehold interest with not less than 80 years unexpired in respect of its properties. We confirm that there will be no material difference in the MV-T and EUV-SH cashflow valuations between these two holding interests.

8.3 Title

We reviewed – at the time of initial charging in 2024 – the final Certificate of Title (prepared by Devonshires Solicitors LLP and Bevan Brittan LLP) and the accompanying Overview Report on Title and the Overview Report of Material Disclosures (prepared by Addleshaw Goddard LLP) for the portfolio and forwarded to us by Addleshaw Goddard LLP between 08 May and 16 May 2024 and then – for additional stock – on 08 December 2025 (respectively "the Certificate" and "the Overview Report"), and can confirm that our valuations fully reflect the disclosures contained therein..

In respect of each property that we have valued on the basis of MV-T we confirm that we have reviewed the Certificates and confirm that each such property can be disposed of on an unfettered basis (subject only to existing tenancies disclosed in the Certificates but not subject to any security interest, option of other encumbrance or to any restriction preventing or restricting its sale to or use by any person for residential use).

8.4 Nomination Agreements

Our valuations are prepared on the basis that there are no nomination agreements. If any nomination rights are found to be in existence, they are assumed not to be binding on a mortgagee in possession unless otherwise stated in this Report.

8.5 Measurements/Floor Areas

We have not measured the properties, this being outside the scope of a valuation of a portfolio of this nature, unless otherwise stated in this Report.

However, where measurements have been undertaken, we have adhered to the RICS Code of Measuring Practice, 6th edition, except where we specifically state that we have relied on another source. The areas adopted are purely for the purpose of assisting us in forming an opinion of capital value. They should not be relied upon for other purposes nor used by other parties without our written authorisation.

Where floor areas have been provided to us, we have relied upon these and have assumed that they have been properly measured in accordance with the Code of Measuring Practice referred to above.

8.6 Structural Surveys

Unless expressly instructed, we do not carry out a structural survey, nor do we test the services and we, therefore, do not give any assurance that any property is free from defect. We seek to reflect in our valuations any readily apparent defects or items of disrepair, which we note during our inspection, or costs of repair which are brought to our attention. Otherwise, we assume that each building is structurally sound and that there are no structural, latent or other material defects.

In our opinion the economic life of each property should exceed 50 years providing the properties are properly maintained.

8.7 Deleterious Materials

We do not normally carry out or commission investigations on site to ascertain whether any building was constructed or altered using deleterious materials or techniques (including, by way of example high alumina cement concrete, woodwool as permanent shuttering, calcium chloride or asbestos). Unless we are otherwise informed, our valuations are on the basis that no such materials or techniques have been used.

8.8 Reinforced Autoclaved Aerated Concrete ("RAAC")

The presence of RAAC in buildings and its potential to fail with little or no warning is receiving media attention at the moment following the closure of schools which are considered to be at risk.

RAAC is a lightweight form of concrete commonly used in construction between the 1950s and mid-1990s. It is predominantly found as precast panels in roofs, commonly flat roofs, and occasionally in floors and walls.

Although the majority of reported cases are within education and public sector buildings, there is potential for RAAC to be present in other property types and sectors. Whether this poses a risk will depend on several factors including location, condition and quality of the original installation and each case will need to be assessed on its own merits.

Within the residential sector, the RICS advise that they expect the exposure to be low. The RSH has also said that it believes RAAC is not widespread in social housing.

We have not carried out or commissioned investigations on site to ascertain whether any building was constructed using RAAC. Unless we are otherwise informed, our valuations are provided on the basis that no such material has been used.

8.9 Site Conditions

We do not normally carry out or commission investigations on site in order to determine the suitability of ground conditions and services for the purposes for which they are, or are intended to be, put; nor do we undertake archaeological, ecological or environmental surveys. Unless we are otherwise informed, our valuations are on the basis that these aspects are satisfactory and that, where development is contemplated, no extraordinary expenses, delays or restrictions will be incurred during the construction period due to these matters.

8.10 Environmental Contamination

Unless expressly instructed, we do not carry out or commission site surveys or environmental assessments, or investigate historical records, to establish whether any land or premises are, or have been, contaminated. Therefore, unless advised to the contrary, our valuations are carried out on the basis that properties are not affected by environmental contamination. However, should our site inspection and further reasonable enquiries during the preparation of the valuation lead us to believe that the land is likely to be contaminated we will discuss our concerns with you.

8.11 Japanese Knotweed

Our inspections are for valuation purposes only and carried out on an external and internal sample basis only, therefore we cannot confirm whether invasive vegetation has been or is present on the site, our valuation assumes that none exists within the demise or proximity of any of the properties.

8.12 Energy Performance Certificates (EPCs)

We have not been provided with copies of any Energy Performance Certificates by the Borrower. The Energy Efficiency (Private Rented Property) (England and Wales) Regulations 2015 make it unlawful for landlords in the private rented sector to let properties that have an EPC rating of F or G, from 1 April 2018. The Regulations do not apply to the majority of properties owned by RPs.

Based on our inspections and our wider knowledge of energy ratings within the social housing sector, we do not consider this issue to present a material valuation risk.

8.13 Market Rental Values

Our assessment of rental values is formed purely for the purposes of assisting in the formation of an opinion of MV-T and is generally on the basis of Market Rent, as defined in the “the Red Book”. Such figures should not be used for any other purpose other than in the context of this valuation.

8.14 Insurance

Unless expressly advised to the contrary we assume that appropriate cover is and will continue to be available on commercially acceptable terms.

8.15 Planning

We have prepared our valuations on the basis that each property exists in accordance with a valid planning permission.

8.16 The Equality Act

We have assumed the properties appear to comply with the requirements of the Equality Act 2010.

© 2026 Jones Lang LaSalle IP, Inc. All rights reserved

8.17 Outstanding Debts

In the case of property where construction works are in hand, or have recently been completed, we do not normally make allowance for any liability already incurred, but not yet discharged, in respect of completed works, or obligations in favour of contractors, subcontractors or any members of the professional or design team.

8.18 Services

We do not normally carry out or commission investigations into the capacity or condition of services. Therefore, we assume that the services, and any associated controls or software, are in working order and free from defect. We also assume that the services are of sufficient capacity to meet current and future needs.

8.19 Plans and Maps

All plans and maps included in this Report are strictly for identification purposes only, and, whilst believed to be correct, are not guaranteed and must not form part of any contract. All are published under licence and may include mapping data from Ordnance Survey © Crown Copyright. All rights are reserved.

8.20 Compliance with Building Regulations and Statutory Requirements

Our valuations have been provided in accordance with the RICS' Guidance Note: "Valuation approach for properties in multi-storey, multi-occupancy residential buildings with cladding, 2nd Edition December 2023" (the 'Guidance Note'), effective from 1 January 2024.

The purpose of the Guidance Note is to help valuers undertaking valuations of domestic residential blocks of flats in the UK for secure lending purposes. It sets out criteria for buildings of different heights that can be used to identify where possible remediation work to cladding for fire safety purposes is likely to be required and may materially affect the value of the property.

Unless otherwise stated in this Report none of the properties are of 18m or 6 storeys or more or are subject to any remedial works in the wake of the Grenfell Tower disaster of June 2017. We have therefore assumed that the properties conform to the Fire Precaution Regulations and any other statutory requirements.

8.21 Transfer Slabs

Transfer slabs are a floor arrangement where a column sits on top of a reinforced concrete slab without a supporting column directly underneath. The issue was first raised by the Institution of Structural Engineers in November 2024 due to a perceived lack of industry-wide guidance covering their design.

The Government has subsequently contacted landlords and building owners in December 2025 to highlight specific concerns about "punching shear in transfer slabs". While the Government is not aware of any building collapse caused by this in the UK, there is concern about the risk of a failure mechanism causing partial building collapse. The Government is currently recommending that where there are visible signs of distress, building owners should seek professional advice and RICS recommends the Institution of Structural Engineers are contacted for suitable competent engineers. The Building Safety Regulator commissioned research in late 2024 in order to establish structural risk, which is ongoing with MHCLG. Further advice is anticipated in due course, and building owners should remain informed.

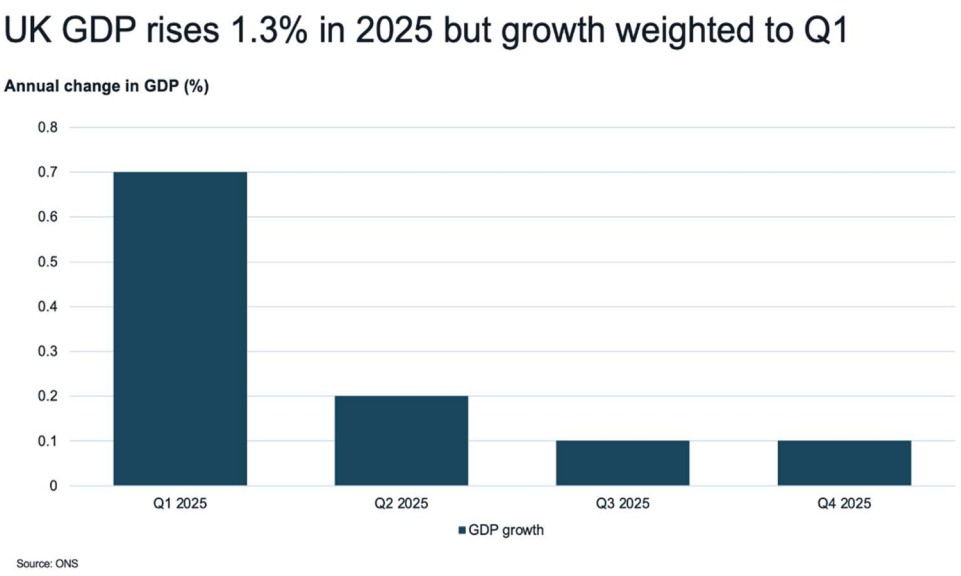
Housing Market Commentary

JLL Residential Market Commentary – February 2026

UK Economy

Following a surprise 0.3 per cent uptick in GDP in the three months to November, the December (Q4) figures came in at a somewhat underwhelming 0.1 per cent, the same as recorded in Q3. This took full-year 2025 growth to 1.3 per cent, notably above the figure most forecasters predicted earlier in the year.

Looking ahead, the OBR expects growth of 0.9 per cent in 2026, whereas consensus forecasts are a little higher at 1.0 per cent.



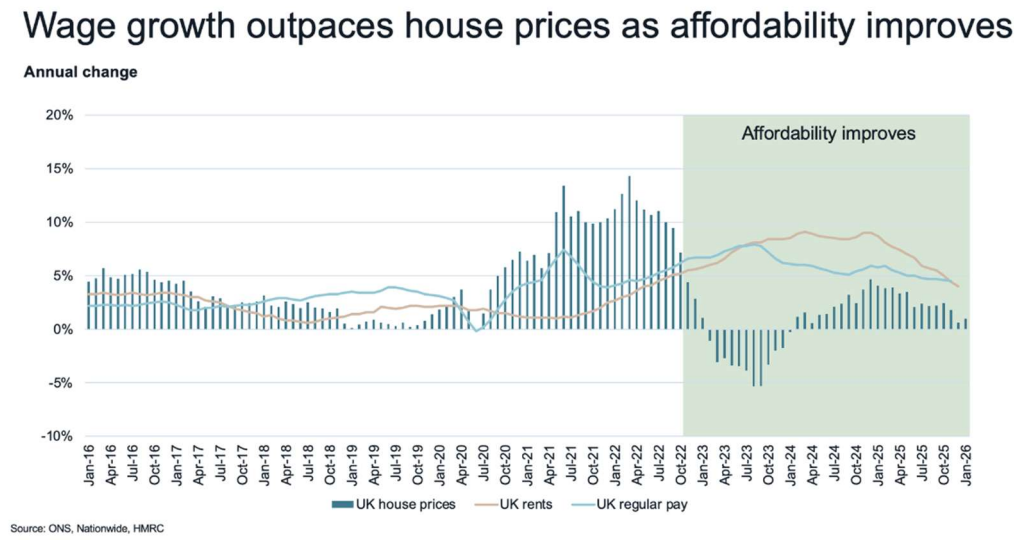
The labour market has continued its gradual cooling from the post-pandemic tightness that characterised recent years. The unemployment rate remained at 5.1 per cent in the three months to November—October, the highest level since 2016 when excluding the pandemic disruption. But there are now 3.7 million more people in employment than when unemployment last reached this level. Job vacancies remained stable in November at 2.3 per 100 employee jobs for the fourth consecutive month, sitting modestly below the pre-pandemic average of 2.6.

The inflation picture presents a much brighter outlook than we've seen over the past two years, despite some uneven progress. Core inflationary pressures, particularly in goods, continue to subside, and slower wage growth is expected to gradually filter through to services inflation.

The labour market has continued its gradual cooling from the post-pandemic tightness that characterised recent years. The unemployment rate remained at 5.1 per cent in the three months to November—October, the highest level since 2016 when excluding the pandemic disruption. But there are now 3.7 million more people in employment than when unemployment last reached this level. Job vacancies remained stable in November at 2.3 per 100 employee jobs for the fourth consecutive month, sitting modestly below the pre-pandemic average of 2.6.

The inflation picture presents a much brighter outlook than we've seen over the past two years, despite some uneven progress. Core inflationary pressures, particularly in goods, continue to subside, and slower wage growth is expected to gradually filter through to services inflation.

Most forecasters anticipate inflation will continue its downward trajectory throughout 2026, drawing closer to the Bank of England's 2 per cent target. Financial markets expect this will permit further gradual monetary easing as we move through 2026. The Bank of England maintained its policy rate at 3.75 per cent at the beginning of February but signalled the possibility of additional cuts. Markets and economists are forecasting up to two further 25 basis point reductions in the year ahead.



UK wage growth dropped to its lowest level since 2022 in the three months to November, rising 4.5 per cent year-on-year. Yet despite the recent drop in the rate of wage inflation, increases in earnings have been outpacing house prices for some time now. This has resulted in house price to earnings ratio dropping from a high of 6.9 times earnings in Q2 2022 to 5.6 times in Q4 2025. This means house prices, when measured as a multiple of earnings are at their most affordable for over a decade.

London has followed a similar trajectory. Back in 2016 average London house price hit 11.7 times earnings but almost a decade on the ratio had fallen to 8.8. The last time London had a similar ratio was back in Q4 2013.

The challenge more recently has been around mortgage costs, with higher rates effectively wiping out affordability advantages. But rates are improving, best-buys are under 3.6 per cent and the effective interest rate on new mortgages edged down to 4.15 per cent in December from 4.20 per cent in the previous month.

Leasehold Reform

The government has finally published the Draft Commonhold and Leasehold Reform Bill. Reactions differ depending on which side of the leasehold fence one sits. Owners of freeholds bought as investments (which include individuals and larger institutions) will be assessing the implications for income. Developers too will be keen for more clarity on the impact of commonhold structures for future development. But for individuals owning leasehold properties or those looking to buy the reaction remains positive. The proposed capping of annual ground rents at £250 from 2028 (dropping to a peppercorn rent after 40 years) will mean existing homeowners who own properties with more complex ground rent structures (doubling ground rents being one of the most challenging) finding it easier to secure a mortgage or sell their homes. It also reassures prospective owners that costs will not escalate going forward, supporting increased activity in the market. With challenges around

escalating service charges, the greater transparency a commonhold structure brings may mean common holders have more control (or at least better oversight) of fees charged too.

Renters Rights Act

The Renters' Rights Bill gained Royal Assent on 27 October. With the bill now an Act, we have clarity on the content of the new legislation which will be phased in over months, or some cases years, rather than implemented immediately.

We do have timings for some of the major reforms. The first key date was 27 December 2025, when measures to strengthen the powers of local authorities came into force. Councils now have stronger powers to enforce housing regulations. They can request information from any landlord, letting agent, or property manager who has worked in the past 12 months and can visit properties to investigate suspected rule-breaking. They can also conduct more compliance checks, including verifying that letting agents have proper Client Money Protection schemes and by using tax and benefit databases to identify non-compliance.

From 1 May 2026, Section 21 no fault evictions will be abolished, and most new and existing tenancies will become Assured Periodic Tenancies. Landlords with unexpired Section 21 notices will only be able to make a valid possession claim for the first three months. Tenants will be able to stay in their property for as long as they want, or until a landlord serves a valid section 8 notice. Tenants will be able to end their tenancy by giving two months' notice. Landlords retain access to specific grounds for possession when they have legitimate reasons to reclaim their property. These include persistent rent arrears, anti-social behaviour, or a genuine need to sell or move back in.

Landlords who already have a written tenancy agreement in place do not need to change it or issue a new one. They will be required to provide tenants with a copy of the government 'Information Sheet' on or before 31 May 2026 – this will be published online in March 2026. For new PRS tenancies created after 1 May 2026, Landlords will need to provide tenants with a written tenancy agreement. Details on the exact information to include will require secondary legislation, with a draft expected in January 2026 to allow landlords and their agents to prepare new tenancy agreement templates in advance of 1 May.

Rent increases will be limited to one a year, with landlords being required to follow a revised section 13 procedure. Notice of rent increases must be given at least two months before it is due to take effect. From 1 May all rent increases can be challenged by tenants at the Property Tribunal. Properties must be advertised at a specific asking rent and offers above this amount cannot legally be accepted. Landlords or their agents can no longer request more than one month's rent in advance.

Tenants have strengthened rights to request pets, which must be considered within 28 days. Landlords must provide a valid reason to refuse. In addition, it will be illegal to discriminate against tenants with children or those receiving benefits. Landlords and letting agents cannot take any action to discourage or prevent these groups from renting, including hiding property information, refusing viewings, or denying tenancies based on having children or receiving benefits.

Phase 2 of the Act is to be rolled out in two stages beginning from late 2026. This will include a PRS Landlord Database which will be a legal requirement for all PRS landlords, who will be required to pay an annual fee – cost yet to be confirmed. It is expected that landlords will need to provide contact details, details on the property and its inhabitants alongside safety information including Gas, Electric and EPC certificates. To allow time for landlords to comply, Stage 1 will be introduced 12-18 months

before implementation. It is expected that the completion of Phase 1 and commencement of Phase 2 will not occur until 2028.

Stage 2 of Phase 2 is the Public access to the Database will be introduced, with a fully operational Database a pre-requisite for the introduction of the PRS Landlord Ombudsman who will handle tenant complaints, provide binding resolutions, as well as support landlords with tools and guidance on handling tenant complaints. The implementation of the Ombudsman will only take place once the Database is fully operational.

Stage 3 are plans to extend the Decent Homes Standard to private rentals, requiring landlords to maintain properties to specific safety and quality benchmarks. No date has been set, with a consultation still to take place.

Housing Delivery

The government's commitment to 1.5 million homes appears unwavering, however 18 months from coming to power the delivery of new homes has reached near record lows. The government will welcome some positive headlines, with an 18 per cent annual increase in housing starts in the year to September 2025. However, changes to building regulations meant starts spiked and then dropped back in Q2 2023, meaning the hike in starts comes off an abnormally low base.

In London Molior's latest release was mixed too. The number of starts totalled just over 5,500 in 2025 - it was 34,000 a decade earlier - meaning Molior's London starts in 2025 were just 6 per cent of London's 88,000 housing needs target. But there was a glimmer of hope, with Q4 starts rising, accounting for 41 per cent of the albeit low 2025 total.

Affordable Housing – Rent Convergence

The government has set out the detail behind rent convergence for social housing. The announcements are designed to address the difference in rents charged for some social homes and formula rents for comparable properties. This means more fairness for tenants who won't pay vastly different rates for similar homes just because they've lived in a property for longer or have a different social landlord. From April 2027 affordable housing providers will be able to increase rents by £1 per week over and above CPI plus 1 per cent rising to £2 per week above CPI+1 from April 2028. Rent convergence can run for up to ten years, or until they reach parity. London has the widest gap and is expected to take the longest with some regional markets needing only a year or so to regain lost ground. The announcements on rent convergence are seen as key in underpinning providers' balance sheets and ensuring they have the confidence and financial ability to deliver more homes.

Details were also shared on the £2.5bn of low-cost loans for housing associations announced at the spending review. The 25-year loans will have an interest rate of 0.1 per cent. £250m will be set aside to support section 106, with the remaining 90 per cent supporting the delivery of social housing through grant-funding.

UK Investment – Living Sector

A record £22.8bn was invested in UK Living in 2025, with healthcare contributing more than half of the total as it ended the year with several £1bn+ M&A deals. Excluding healthcare, investment grew a more modest 2 per cent to £10.1bn, rising for the second year running from the trough in 2023 (£8.9bn). Single family investment overtook multifamily in 2025 with £2.6bn invested, accounting for just over half of all build-to-rent investment last year.

The 2024/25 student data released by HESA gives us a glimpse at the first full year impact of restrictions on international students brought in at the start of 2024. The number of international students has fallen 10 per cent from its 2022/23 peak, totalling 686,000 in 2024/25. Though still above the UK's (now scrapped) 600,000 target, it does represent a significant fall at a time that universities remain reliant on international tuition fees. The slowdown among international students resulted in a marginal 1 per cent decline in total university students. Despite a degree of uncertainty, investors were still active in the student market, with £4.6bn of investment completing across the year, up 22 per cent annually.

JLL data on UK real estate investment volumes (all sectors), shows volumes increased 64 per cent quarter on quarter to £16.4bn in Q4, from £10.0bn in Q3. This represented a 28 per cent increase on 2024 where volumes reached £12.8bn in Q4. Growth also remained higher than the long-run average, at 10 per cent above the 10-year Q4 average.

A strong Q4 means total 2025 volumes rose to £49.0bn, 27 per cent above 2024 volumes of £38.7bn and 2 per cent above the 10-year average.

Forecasts

Following the 2025 Budget and with a positive response from the bond markets and the Bank of England in rate cutting mode means we are seeing more competitive mortgage rates enter the market, which will, we expect, support activity and price growth over the next five years, albeit at the lower end of historic norms.

The High Value Council Tax Surcharge is perhaps the least damaging to market activity of the proposed ‘mansion’ taxes floated pre-budget. And while we expect that it may impact some buyers and homeowners’ decision to purchase, the annual charge is more likely to be begrudgingly absorbed rather than directly impacting decision-making.

The 2% additional tax rate for property income also hits smaller landlords, many of whom have seen profit margins shrink and are facing additional regulatory hoops with the introduction of the Renters’ Rights Act.

We expect this will further encourage landlords on the fence to exit, constraining supply and putting upward pressure on rents.

The Budget contained many references to growth, but there were few clear policies that signalled it, a view shared by the OBR in their downbeat forecast for growth and productivity.

So, in the absence of any demand side incentives for housing we are relying on an improvement in wider market conditions to support growth. Here there is some more positive news, with the Bank of England now in the rate cutting phase of the cycle, and expectation for up to three further cuts to the Base Rate by next summer. An easing in rates and some improvements in housing affordability, with house prices having underperformed wage growth, will help here too. But we expect this will mean a recovery to long term norms, rather than any significant outperformance.

House price forecasts

House Prices

JLL forecast house prices will rise by 20% over the next five years UK-wide. More affordable regions are expected to outperform in the near-term, with London and southern England forecast to see stronger growth towards the back end of our five-year period.

Overall, we expect growth of 17.6% across Greater London between 2026 and 2030, compared with 23.4% in the strongest performing English region the North West. Scotland and Wales, usually seeing stronger growth at the tail end of the housing cycle are expected to see prices rise by 24.6% and 23.4%, respectively.

For central London, clarity around taxation, and the absence of some of the more draconian policies floated pre-Budget will confine the most significant price falls to 2025. JLL's central London sales business had its busiest month in 17 months in November, with anxious central London buyers holding off until the Budget now transacting.

Price falls in central London are expected to bottom out in H1 2026, as fears of more onerous tax changes subside post-Budget. But with a more domestic focussed buyer pool still looking for value we don't expect this will translate into meaningful price increase until later in the five-year forecast period. Meaning prices ending 2026 flat and rising 17% in the five years to 2030.

Rental Market

The additional tax burden for landlords post-Budget, alongside concerns over the implementation of the Renters' Rights Act will mean constrained supply continues, as more landlords exit than enter the sector, supporting rental growth.

We forecast rents will rise at marginally above wage growth over the next five years, with 15.9% growth between 2026 and 2030 nationally. A more settled outlook for inflation and wages means our expectations on rental growth are more muted than recent highs. However, this reflects a return to pre-pandemic norms rather than a fundamental shift in market dynamics. Rental growth is forecast to be marginally higher in London, with growth of 17% across Greater London and 16.5% in central London over the same period.

94% of affordable homes delivered in England were new build (excluding unknowns), the same percentage as the previous year.

58,409 of affordable homes delivered in England were new build in 2023-24, the highest number of new build affordable housing on record.

There were 44,027 starts on site in England in 2023-24, a fall of 38% compared to the previous year and the lowest number since this data started being collected in 2015-16.

MHCLG - A New Plan

On 2 July 2025, MHCLG announced the following five step plan to deliver a decade of renewal for social and affordable housing:

- Step 1 - Deliver the biggest boost to grant funding in a generation
- Step 2 - Rebuild the sector's capacity to borrow and invest in new and existing homes
- Step 3 - Establish an effective and stable regulatory regime
- Step 4 - Reinvigorate council housebuilding
- Step 5 - Forge a renewed partnership with the sector to build at scale.

Unprecedented Investment in Social and Affordable Housing

The UK government has announced the largest long-term investment in social and affordable housing in recent memory launching a new 10-year £39 billion Social and Affordable Homes Programme (SAHP) running from 2026-2036. This programme aims to maximize housing supply with an ambitious target of delivering around 300,000 social and affordable homes, with at least 60% designated as Social Rent properties. If successful, this would deliver approximately 180,000 Social Rent homes - six times more than the grant-funded Social Rent homes delivered in the previous decade. The programme is designed to be flexible, supporting diverse housing types including council-built homes, supported housing, and rural developments, while maintaining value-for-money assessments.

Financial Capacity Restoration and Investment Support

Recognising that housing associations and councils have weakened financial capacity due to building safety requirements, rising costs, and previous rent cuts, the government is implementing comprehensive financial reforms. Social housing rents will be permitted to increase by CPI+1% annually from April 2026, with this settlement extended to 10 years for greater certainty.

A consultation on a rent convergence mechanism has recently closed. Such a mechanism will allow below-formula rents to increase gradually to standard levels by either £1 or £2 per week until the formula rent is reached. Additionally, £2.5 billion in low-interest loans will be made available to complement commercial lending, while social landlords will gain equal access to government building safety remediation funding for the first time, receiving over £1 billion between 2026-30.

Modernized Regulatory Standards and Safety Requirements

The government is establishing updated regulatory standards to ensure the 4 million existing social homes are safe, decent, and warm. Key safety measures include implementing Awaab's Law with strict timeframes for addressing damp, mould, and emergency hazards, and new electrical safety requirements mandating 5-yearly installation checks. The government is currently consulting on revised Decent Homes Standards that will be implemented by 2035, incorporating updated Minimum Energy Efficiency Standards requiring EPC band C by 2030. New professional competence requirements will come into force in 2026, alongside improved tenant access to information and a £1 million Resident Experience Innovation Fund.

Council Housebuilding Revival and Right to Buy Reforms

To reinvigorate council housebuilding, which has averaged only 8,000 homes annually over the past five years, the government is implementing comprehensive Right to Buy reforms. These include extending the eligibility period from 3 to 10 years of public sector tenancy, reducing discounts to start at 5% rising to a maximum 15%, and exempting newly built social homes from Right to Buy for 35 years. The government is also reviewing Housing Revenue Account thresholds, launching a £12 million Council Housebuilding Skills and Capacity Programme, and establishing a new Association of Directors of Housing to facilitate collaboration and best practice sharing among councils.

Sector-Wide Partnership and Delivery Commitment

The government is issuing a "call to arms" to all stakeholders in the social and affordable housing sector, including local authorities, housing associations, investors, developers, and regulators, to collaborate in delivering this ambitious renewal programme. The focus extends beyond new construction to include upgrading existing homes and unlocking Section 106 affordable housing agreements, which historically contribute nearly half of all affordable homes annually. The government will work intensively with providers over the coming months to agree joint delivery ambitions and will actively engage with tenant groups through their Resident Panel to ensure voices are heard throughout this transformational decade-long initiative.

JLL Research Analysis on the New Affordable Homes Programme

JLL Research has conducted an analysis of the government's new £39 billion Affordable Homes Programme (AHP), finding that while it represents the largest government commitment to affordable housing in half a century, significant challenges remain in meeting national housing targets. Our research suggests the programme could potentially deliver up to 500,000 affordable homes over the next decade - approximately 50,000 homes per year at a stretch - but this would still fall short of the government's ambitious 1.5 million new homes target for this parliament.

Funding Gap and Private Finance Requirements

The core challenge is a substantial viability gap that would require approximately £100 billion in additional private finance to bridge. While £39 billion sounds substantial, if used purely for full funding, it could only cover around 130,000 three-bedroom homes over the decade when accounting for land, build costs, and other expenses. The grant money is not designed to cover the full cost of affordable homes, meaning the social housing sector - already operating near its borrowing limits - would need to secure significant additional private investment to make the programme viable.

Structural and Market Challenges

Beyond funding constraints, there are several systemic challenges that could impact delivery. The construction industry faces a severe workforce shortage, with 200,000 fewer workers than pre-pandemic levels and 500,000 fewer than before the global financial crisis. Additionally, the success of planning reforms in delivering increased permissions remains uncertain. Our research emphasises the critical importance of the 10-year rent settlement and rent convergence in addressing these viability challenges, alongside the expectation that a significant portion of affordable housing delivery will continue through Section 106 agreements.

Market Optimism and Additional Investment

Despite the challenges, we've identified positive market trends that could support the programme's success. Confidence is gradually improving in the UK housing market, with the Bank of England expected to continue reducing interest rates. This improved affordability environment benefits not only first-time buyers but also landlords, with JLL's Landlord Survey revealing that half would consider expanding their portfolios if rates fell below 3%. The Spending Review's allocation of

£10 billion for financial investments, with roughly half going to Homes England, is expected to unlock new homes across all tenures, particularly private rental housing.

Stock Rationalisation Market

As you will be aware, an active market exists for the sale of tenanted stock between RPs. This can be driven by strategic decisions about the type and location of accommodation that RPs wish to provide, and the viability of investing in properties to bring them up to the required standards.

Where competition is generated, a market has emerged in which RPs bid against one another on price. The resulting values, even though presented on an EUV-SH basis, tend to be in excess of base EUV-SH values that might be expected for balance sheet or loan security purposes.

Although this may appear hard to justify, the underlying rationale is as follows:

- the bidding price is still much less than the cost of development;
- the marginal cost of taking additional units into management, in an area where the acquiring RP already has stock, justifies a financial model based on relatively low costs for management, repairs and maintenance;
- the judgement of all-round risk formed by the acquiring RP, as reflected in the discount rate, is often lower (and the rate therefore keener) than would be acceptable to either a funder or an auditor in a balance sheet context;
- the price is worth paying to achieve strategic objectives around increasing a presence in a particular area or market; and/or
- the price may be supported by future void sales and/or changes of tenure (for example, from Social Rent to Affordable Rent).

Since 2020, trades of general needs and shared ownership homes among Registered Providers have topped £3.6bn, with transaction volumes growing in recent years and in the last 12 months our Portfolio Transactions team has been directly involved in £900m of affordable housing transactions.

Portfolios have ranged in size between c.150 to over 1,000 homes, and £10m and £100m, with larger portfolios being lotted according to interest from RPs in each area. These prices represent a gross yield range between 5.0% and 8%. In the majority of cases these portfolios have been marketed via competitive tender process and have received multiple bids. Premiums on these transactions have ranged between having no premium and trading at EUV-SH to c.135% of EUV-SH.

Taxation

Tax legislation, including in the country where the investor is domiciled or tax resident and in the Issuer's country of incorporation, may have an impact on the income that an investor receives from the Notes.

United Kingdom Taxation

The following is a summary of the Issuer's understanding of current United Kingdom law and published HM Revenue & Customs' practice relating only to the United Kingdom withholding tax treatment of payments of interest (as that term is understood for United Kingdom tax purposes) in respect of Notes. It does not deal with any other United Kingdom taxation implications of acquiring, holding or disposing of Notes. The United Kingdom tax treatment of prospective Noteholders depends on their individual circumstances and may be subject to change in the future. Prospective Noteholders who may be subject to tax in a jurisdiction other than the United Kingdom or who may be unsure as to their tax position should seek their own professional advice.

Payments of interest on the Notes may be made without deduction of or withholding for or on account of United Kingdom income tax provided that the Notes carry a right to interest and the Notes are and continue to be "quoted Eurobonds" for the purposes of section 987 of the Income Tax Act 2007. A Note will be a quoted Eurobond provided that it is admitted to trading on a "multilateral trading facility" operated by a "regulated recognised stock exchange". The ISM is a multilateral trading facility for the purposes of the amended section 987, and the London Stock Exchange is expected to be a regulated recognised stock exchange.

Provided, therefore, that the Notes carry a right to interest and are and remain admitted to trading on a multilateral trading facility operated by a regulated recognised stock exchange, interest on the Notes will be payable without deduction of or withholding on account of United Kingdom tax.

Payments of interest on Notes may be made without deduction of or withholding on account of United Kingdom tax where the maturity of the Notes is less than 365 days and those Notes do not form part of a scheme or arrangement of borrowing intended to be capable of remaining outstanding for more than 364 days.

In other cases, an amount must generally be withheld from payments of interest on the Notes that has a United Kingdom source on account of United Kingdom income tax at the basic rate, subject to any other available exemptions and reliefs. For example, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a non-UK tax resident Noteholder, HM Revenue & Customs can issue a notice to the Issuer to pay interest to the Noteholder without deduction of tax (or for interest to be paid with tax deducted at the rate provided for in the relevant double tax treaty), provided that first certain procedural formalities are complied with.

Foreign Account Tax Compliance Act

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a foreign financial institution (as defined by FATCA) may be required to withhold on certain payments it makes (**foreign passthru payments**) to persons that fail to meet certain certification, reporting or related requirements. The Issuer may be a foreign financial institution for these purposes. A number of jurisdictions (including the United Kingdom) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA (**IGAs**), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as Notes, such withholding would not apply prior to the date that is two years after the date on which final regulations defining foreign passthru payments are published in the U.S. Federal Register and Notes characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or prior to the date that is six months after the date on which final regulations defining foreign passthru payments are filed with the U.S. Federal Register generally would be grandfathered for purposes of FATCA withholding unless materially modified after such date (including by reason of a substitution of the relevant Issuer). However, if additional Notes (as described Condition 20 (*Further issues*)) that are not distinguishable from previously issued Notes are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Notes, including the Notes offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Holders should consult their own tax advisers regarding how these rules may apply to their investment in the Notes.

Any such agreement will extend to those matters stated under "*Form of the Notes*" and "*Conditions of the Notes*". In the Programme Agreement, the Issuer has agreed to reimburse the Dealers for certain of their expenses in connection with the establishment and any future update of the Programme and the issue of Notes under the Programme and to indemnify the Dealers against certain liabilities incurred by them in connection therewith.

Each Dealer has further agreed, and each further Dealer appointed under the Programme will be required to agree, that it will send to each dealer to which it sells any Notes during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Until 40 days after the commencement of the offering of any Series of Notes, an offer or sale of such Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

There has been no significant change in the financial or trading position of the Issuer or the Southern Group, in each case since 31 March 2026 or, if later, the date to which the latest published audited annual financial statements or published unaudited interim financial statements of the Issuer or the Southern Group, as the case may be, have been prepared.

Material Change

There has been no material adverse change in the prospects of the Issuer or the Southern Group, in each case since 31 March 2026 or, if later, the date to which the latest published audited annual financial statements (if any) of the Issuer or the Southern Group, as the case may be, have been prepared.

Litigation

The Issuer is not and has not been involved in any governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which the Issuer is aware) in the 12 months preceding the date of these Programme Admission Particulars which may have, or have in such period had, a significant effect on the ability of the Issuer to meet its obligations to Noteholders.

Auditors

The auditors of the Issuer are BDO LLP of 55 Baker Street, London W1U 7EU, who have audited the Issuer's statutory accounts, without qualification, in accordance with International Standards on Auditing (UK) and applicable law for each of the two financial years ended on 31 March 2026 and 31 March 2025. The auditors of the Issuer have no material interest in the Issuer.

Certifications

The Note Trust Deed provides that any certificate or report of the Auditors or Valuers (each as defined in the Note Trust Deed) or any other person called for by, or provided to, the Note Trustee (whether or not addressed to the Note Trustee) in accordance with or for the purposes of the Note Trust Deed may be relied upon by the Note Trustee as sufficient evidence of the facts stated therein notwithstanding that such certificate or report and/or any engagement letter or other document entered into by the Note Trustee in connection therewith contains a monetary or other limit on the liability of the Auditors or Valuers (as the case may be) or such other person in respect thereof and notwithstanding that the scope and/or basis of such certificate or report may be limited by any engagement or similar letter or by the terms of the certificate or report itself.

Post-issuance information

Save as set out in the Pricing Supplement, the Issuer does not intend to provide any post-issuance information in relation to any issue of Notes or the Series Security, other than as is required pursuant to Condition 5.1(e) (*Information Covenant*) (in respect of Secured Notes) or Condition 5.2(c) *(Information Covenant*) (in respect of Unsecured Notes) and as described in "*Use of Proceeds and Sustainable Finance Framework*" above.

Dealers transacting with the Issuer

Certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other financial advisory and other services for the Issuer and its affiliates in the ordinary course of business. Certain of the Dealers and their affiliates may have positions, deal or make markets in the Notes issued under the Programme, related derivatives and reference obligations, including (but not limited to) entering into hedging strategies on behalf of the Issuer and its affiliates, investor clients, or as principal in order to manage their exposure, their general market risk, or other trading activities. Certain of the Dealers may from time to time also enter into swap and other derivative transactions with the Issuer and its affiliates.

In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer and its affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Note Trustee's action

The Conditions and the Note Trust Deed provide for the Note Trustee to take action on behalf of the Noteholders in certain circumstances, but only if the Note Trustee is indemnified and/or secured and/or pre-funded to its satisfaction. It may not always be possible for the Note Trustee to take certain actions, notwithstanding the provision of an indemnity and/or security and/or pre-funding to it. Where the Note Trustee is unable to take any action, the Noteholders are permitted by the Conditions and the Note Trust Deed to take the relevant action directly.

Potential Conflicts of Interest

Each of the Programme Parties (other than the Issuer) and their affiliates in the course of each of their respective businesses may provide services to other Programme Parties and to third parties and in the course of the provision of such services it is possible that conflicts of interest may arise between such Programme Parties and their affiliates or between such Programme Parties and their affiliates and such third parties. Each of the Programme Parties (other than the Issuer) and their affiliates may provide such services and enter into arrangements with any person without regard to or constraint as a result of any such conflicts of interest arising as a result of it being a Programme Party.

Yield

In relation to any Tranche of Fixed Rate Notes, an indication of the yield in respect of such Notes will be specified in the applicable Pricing Supplement. The yield is calculated at the Issue Date of the Notes on the basis of the relevant Issue Price. The yield indicated will be calculated as the yield to maturity as at the Issue Date of the Notes and will not be an indication of future yield.
