Financial Results

Reviewing FY2013, the world economy has seen ongoing gradual recovery in the U.S. mainly due to increasing personal consumption. Meanwhile, the European economy has continued to move sluggishly mainly due to the sovereign debt crisis, and the pace of economic expansion in emerging countries has slowed down. The Japanese economy is gradually showing movements of picking up, while weakness can be seen in some areas.

For the automobile industry, markets have progressed in a steady manner, especially in the U.S. and emerging countries such as Asia. The demand for products with advanced green technology has remained strong throughout all markets worldwide.

Toyota Motor Corporation ("TMC") deems the benefit of its shareholders as one of its priority management policies, and it is working to improve corporate structure towards the realization of sustainable growth in order to enhance its corporate value.

TMC will strive to continue to pay stable dividends with a consolidated dividend payout ratio of 30% while giving due consideration to factors such as business results for each term, investment plans and its cash reserves.

In order to successfully compete in this highly competitive industry, TMC plans to utilize its internal funds for the early commercialization of technologies for the next-generation environment and safety, giving priority to customer safety and sense of security.

Considering these factors, with respect to the dividends for FY2013, TMC plans to propose a year-end dividend of 60 yen per share, and an annual dividend of 90 yen per share, combined with the interim dividend of 30 yen per share.

TMC pays dividends twice a year – an interim dividend and a year-end dividend – and in order to secure an opportunity to directly seek shareholders' opinions, TMC will treat payments of year-end dividends as a matter to be resolved at the 109th Ordinary General Shareholders' Meeting, even though TMC's articles of incorporation stipulate that retained earnings can be distributed as dividends pursuant to the resolution of the board of directors. In FY2013, TMC did not repurchase its own shares, excluding shares constituting less than one unit that were purchased by TMC upon request.

(4) Forecast of Consolidated Financial Results for FY2014

As for our future business environment, the world economy is expected to benefit from ongoing moderate recovery in the U.S. and a pickup in the pace of economic expansion in emerging countries. Europe, meanwhile, still faces the risk of economic stagnation due to the sovereign debt crisis and other factors, though a gradual bottoming out is anticipated. The Japanese economy is expected to move gradually towards recovery supported by the effect of the policy package and monetary policy. However, slowing down of overseas economies is still downside risk of the Japanese economy. The automotive market is expected to see recovery in the U.S. and expansion in emerging countries. However, amid the change in market structure, as seen in the expansion and diversification of demand for eco-cars backed by rising environmental consciousness, fierce competition exists on a global scale.

Under these circumstances, the current forecast of consolidated financial results for the next fiscal year ending March 31, 2014 is set forth below. This forecast assumes average exchange rates through the fiscal year of 90 yen per US\$1 and 120 yen per 1 euro.

Forecast of consolidated results for FY2014

Net revenues	23,500.0 billion yen	(an increase of 6.5% compared with FY2013)

Income before income taxes and equity in earnings of affiliated companies	1,890.0 billion yen	(an increase of 34.6% compared with FY2013)
Net income attributable to Toyota Motor Corporation	1,370.0 billion yen	(an increase of 42.4% compared with FY2013)

This report contains forward-looking statements that reflect Toyota's plans and expectations. These forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties and other factors that may cause Toyota's actual results, performance, achievements or financial position to be materially different from any future results, performance, achievements or financial position expressed or implied by these forward-looking statements. (6) Summary of Significant Accounting Policies

“Summary of Significant Accounting Policies” has been omitted, as there were no significant changes from the most recent Securities Report (filed on June 25, 2012). Changes in accounting principles, procedures, and disclosures for consolidated financial statements by newly issued accounting pronouncements are set forth below.

In June 2011, the Financial Accounting Standards Board (“FASB”) issued updated guidance on the presentation of comprehensive income. This guidance requires to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. Toyota and its consolidated subsidiaries (“Toyota”) adopted this guidance from the fiscal year ended March 31, 2013. The adoption of this guidance did not have a material impact on Toyota’s consolidated financial statements.
