Notes: (1) NTT's consolidated financial statements are prepared in accordance with International Financial Reporting Standards ("IFRS").

- (3) Operating revenues do not include consumption taxes.
- (4) Diluted earnings per share attributable to NTT is not stated because NTT did not have potentially dilutive common shares that were outstanding during the period.

⁽²⁾ As NTT prepares condensed consolidated financial statements, changes in the non-consolidated financial data, are not provided.

2. Description of Business

The principal business segments of NTT Group (NTT and its affiliated companies) are its mobile communications business, regional communications business, long distance and international communications business, and data communications business.

There were no material changes in NTT Group's business during the three months ended June 30, 2019, nor were there any material changes in its subsidiaries and affiliated companies.

Item 2. Business Overview

1. Risk Factors

There were no risks newly identified during the three months ended June 30, 2019. There was no material change in risk factors which were described in NTT's Annual Securities Report for the fiscal year ended March 31, 2019.

2. Management's Analysis of Consolidated Financial Condition, Results of Operations, and Cash Flows

(1) Consolidated Results

Three-Month Period Ended June 30, 2019 (April 1, 2019 – June 30, 2019)

(Billions of yen)

	Three Months Ended June 30, 2018	Three Months Ended June 30, 2019	Change	Percent Change
Operating revenues	2,852.7	2,915.4	62.7	2.2%
Operating expenses	2,315.5	2,410.2	94.7	4.1%
Operating profit	537.2	505.2	(32.0)	(6.0)%
Profit before taxes	542.7	526.8	(15.9)	(2.9)%
Profit attributable to NTT	289.7	280.5	(9.2)	(3.2)%

During the three months ended June 30, 2019, pursuant to the outline of NTT Group's Medium-Term Management Strategy "Your Value Partner 2025," which was announced in November 2018, NTT Group, in its role as "Your Value Partner," promoted initiatives through its business operation and worked with its partners to resolve social issues.

<Support Our Customer's Digital Transformation>

NTT Group worked on promoting the B2B2X model to support new value creation, including initiatives to roll out the 5th-Generation Wireless System, and providing personalized services to support individuals' lifestyle changes, among other things.

• In June 2019, NTT DOCOMO launched new rate plans called "Gigaho" and "Gigalight", which are simple and provide great value. There are two simple plans: "Gigaho" is for users who use a large amount of data communication, and, on the other hand, "Gigalight" is for users who use a little data communication.

<Accelerate Our Own Digital Transformation>

NTT Group has advanced its "One NTT" global business growth strategy, aimed toward enhancing its global business competitiveness and its self-digital transformation in the domestic business, among other initiatives.

- NTT Group has integrated the overseas businesses of NTT Communications, Dimension Data Holdings plc, and NTT Security Corporation, and has promoted initiatives aimed towards starting the business development of a new NTT-branded global operating company, "NTT Ltd."
- NTT Communications acquired the site for the "Indonesia Jakarta 3 Data Center" through the
 Indonesian group company PT. NTT Indonesia Nexcenter, and announced plans for construction. This
 data center is the first project that NTT Global Data Centers Corp. (GDC), which was established to
 centrally implement construction, ownership and wholesale equipment provision for data centers in the
 NTT Group globally, has invested in at the construction stage.

<Leverage Talent, Technologies, and Assets>

NTT Group worked on studies into reinforcing and globalizing its R&D and creating new lines of business (real estate and electric power).

- NTT has established NTT Anode Energy Corporation, which is a company for the promotion of new
 business in "smart energy." Under the new organization driven by the energy promoting company in
 the leading role, NTT Group will pursue business in the three domains of power generation,
 transmission / distribution / storage, and retailing / wholesaling, in addition to its existing initiatives.
 Through these businesses, NTT aims to achieve strengthened competitiveness and increased revenues
 in its energy business.
- NTT and NTT Communications have successfully tested long-distance transmissions of 1 terabit per second optical signals in commercial environments. This technology is expected to achieve transmission speeds 10 times faster than current practical systems (100 Gbit/s per channel) and reduce power consumption per bit by more than 80%, and is expected to become a large-capacity communications network technology that will lead to the spread of 5G services and the realization of IOWN initiatives in the future.

<Promote ESG Management, and Enhance Returns to Shareholders to Improve Corporate Value>

By promoting ESG management, NTT has continuously set the returning of profits to shareholders, while ongoing improvements of corporate value as one of its important management challenges. With respect to shareholder returns, NTT has a basic policy of steady dividend increases. In addition, NTT will flexibly carry out buybacks based on performance trends and other factors in order to improve its capital efficiency.

• In order to improve its capital efficiency and enhance returns to shareholders, at a meeting of its Board of Directors held on May 10, 2019, NTT authorized matters relating to the repurchase of either up to 53 million shares of its common stock or shares of its common stock in an aggregate cost not exceeding \(\frac{4}{2}\)50.0 billion.

As a result of these efforts, NTT Group's consolidated operating revenues for the three-month period ended June 30, 2019 were \(\frac{4}{2}\),915.4 billion (an increase of 2.2% from the same period of the previous fiscal year),

consolidated operating expenses were \(\frac{\pmathbb{2}}{2}\),410.2 billion (an increase of 4.1% from the same period of the previous fiscal year), consolidated operating profit was \(\frac{\pmathbb{2}}{5}\)505.2 billion (a decrease of 6.0% from the same period of the previous fiscal year), profit before taxes was \(\frac{\pmathbb{2}}{5}\)26.8 billion (a decrease of 2.9% from the same period of the previous fiscal year), and profit attributable to NTT was \(\frac{\pmathbb{2}}{2}\)80.5 billion (a decrease of 3.2% from the same period of the previous fiscal year)

(2) Segment Results

NTT Group has five business segments: mobile communications business, regional communications business, long distance and international communications business, data communications business and other business. (See "Note 6. Segment Information")

The mobile communications business segment comprises mobile voice related services, IP/packet communications services, sales of telecommunications equipment and other services.

The regional communications business segment comprises fixed voice related services, IP/packet communications services, sales of telecommunications equipment, system integration services and other services.

The long distance and international communications business segment comprises fixed voice related services, IP/packet communications services, sales of telecommunications equipment, system integration services and other services.

The data communications business segment comprises system integration services.

The other business segment principally comprises services related to building maintenance, real estate rental, systems development, leasing, and other services related to research and development.

Results by business segment are as follows (intersegment revenues are included in the operating revenues, operating expenses and operating profit of operational results for each business segment):

Mobile Communications Business Segment

Three-Month Period Ended June 30, 2019 (April 1, 2019 – June 30, 2019)

(Billions of yen)

	Three Months Ended June 30, 2018	Three Months Ended June 30, 2019	Change	Percent Change
Operating revenues	1,176.7	1,159.3	(17.4)	(1.5)%
Mobile voice related services	236.9	233.6	(3.3)	(1.4)%
IP/packet communications services	544.6	541.2	(3.4)	(0.6)%
Sales of telecommunications equipment	178.6	167.7	(11.0)	(6.1)%
Other	216.5	216.8	0.3	0.2%
Operating expenses	866.7	880.6	13.8	1.6%
Operating profit	309.9	278.7	(31.2)	(10.1)%

Operating revenues for the mobile communications business segment for the three-month period ended June 30, 2019 decreased 1.5% from the same period of the previous fiscal year to ¥1,159.3 billion. This decrease

was due to, among other things, a decrease in revenues due to enhancing returns to customers through the "Gigaho" and "Gigalight" plans and other service plans, and a decrease in sales of telecommunications equipment, partially offset by an increase in revenues due to growth in the smart life business.

On the other hand, operating expenses for the three-month period ended June 30, 2019 increased 1.6% from the same period of the previous fiscal year to ¥880.6 billion. This increase was due to, among other things, an increase in point expenses, despite cost reductions.

As a result, segment operating profit for the three-month period ended June 30, 2019 decreased 10.1% from the same period of the previous fiscal year to \(\frac{4}{2}78.7\) billion.

Notes: (1) Number of Telephone Subscriber Lines is the total of individual lines and central station lines (Subscriber Telephone Light Plan is included).

- (2) "INS-Net" includes "INS-Net 64" and "INS-Net 1500." In terms of number of channels, transmission rate, and line use rate (base rate), "INS-Net 1500" is in all cases roughly ten times greater than "INS-Net 64." For this reason, one "INS-Net 1500" subscription is calculated as ten "INS-Net 64" subscriptions (including subscriptions to the "INS-Net 64 Lite Plan").
- (3) Number of FLET'S Hikari (including Hikari Collaboration Model) subscribers includes subscribers to "B FLET'S," "FLET'S Hikari Next," "FLET'S Hikari Light," "FLET'S Hikari Lightplus" and "FLET'S Hikari WiFi Access" provided by NTT East, subscribers to "FLET'S Hikari Next," "FLET'S Hikari Mytown Next," "FLET'S Hikari Light" and "FLET'S Hikari WiFi Access" provided by NTT West and subscribers to the "Hikari Collaboration Model," the wholesale provision of services to service providers by NTT East and NTT West.
- (4) Numbers of subscribers for "Hikari Denwa" and "FLET'S TV Transmission Services" include wholesale services provided to service providers by NTT East and NTT West.

Long Distance and International Communications Business Segment

Three-Month Period Ended June 30, 2019 (April 1, 2019 – June 30, 2019)

(Billions of yen)

	Three Months Ended June 30, 2018	Three Months Ended June 30, 2019	Change	Percent Change
Operating revenues	541.2	555.9	14.7	2.7%

Operating expenses	509.1	526.8	17.7	3.5%
Operating profit	32.0	29.1	(3.0)	(9.3)%

Operating revenues in the long distance and international communications business segment for the three-month period ended June 30, 2019 increased 2.7% from the same period of the previous fiscal year to ¥555.9 billion. This increase was due to, among other things, an increase in system integration revenues due to an expansion in overseas business, partially offset by a decrease in fixed voice related revenues.

On the other hand, operating expenses for the three-month period ended June 30, 2019 increased 3.5% from the same period of the previous fiscal year to \$526.8 billion due to an increase in personnel expenses, among other things.

As a result, segment operating profit for the three-month period ended June 30, 2019 decreased 9.3% from the same period of the previous fiscal year to \(\frac{1}{2}\)29.1 billion.

Operating revenues in the other business segment for the three-month period ended June 30, 2019 increased 26.7% from the same period of the previous fiscal year to \(\frac{2}{3}38.5\) billion. On the other hand, operating expenses for the three-month period ended June 30, 2019 increased 28.4% from the same period of the previous fiscal year to \(\frac{2}{3}39.7\) billion. These increases were due to, among other things, the impact from the increase in its stake in its consolidated subsidiary, ENNET Corporation. As a result, segment operating profit for the three-month period ended June 30, 2019 increased 11.0% from the same period of the previous fiscal year to \(\frac{2}{2}8.9\) billion.

(3) Cash Flows

Cash flows provided by operating activities, excluding the impact of non-business days and adopting IFRS 16 (Leases), for the three-month period ended June 30, 2019 increased by ¥9.9 billion (2.3%) from the same period of the previous fiscal year to ¥444.4 billion. This increase was due to, among other factors, an increase in collection of trade receivables. Cash flows provided by operating activities for the three-month period ended June 30, 2019 was ¥475.0 billion.

Cash flows used in investing activities decreased by ¥165.6 billion (30.3%) from the same period of the previous fiscal year to ¥380.1 billion. This decrease was due to, among other factors, proceeds from sale of investments.

Cash flows provided by financing activities, excluding the impact of adopting IFRS 16 (Leases), for the three-month period ended June 30, 2019 increased by ¥15.0 billion (98.5%) from the same period of the previous fiscal year to ¥30.3 billion. This increase was due to, among other factors, an increase in debt. Cash flows used by financing activities for the three-month period ended June 30, 2019 was ¥11.1 billion.

As a result of the above, NTT Group's consolidated cash and cash equivalents, excluding the impact of non-business days, as of June 30, 2019 was \(\xi\)1,256.1 billion, an increase of \(\xi\)86.3 billion (7.4%) from the end of the previous fiscal year. Cash and cash equivalents as of June 30, 2019 was \(\xi\)1,021.5 billion.

Item 4. Financial Information

1. Basis of Preparation of Condensed Quarterly Consolidated Financial Statements

In accordance with Article 93 of the "Ordinance on the Terminology, Forms, and Preparation Methods of Quarterly Consolidated Financial Statements" (Cabinet Office Ordinance No. 64 of 2007) (the "Ordinance on Consolidated Financial Statements"), NTT Group prepares condensed quarterly consolidated financial statements pursuant to International Accounting Standard ("IAS") No. 34, "Interim Financial Reporting."

2. Auditor's Report

In accordance with Article 193-2, Paragraph 1 of the Financial Instruments and Exchange Act of Japan, NTT Group's condensed quarterly consolidated financial statements for the first quarter of the consolidated accounting period (from April 1, 2019 to June 30, 2019) have been reviewed by KPMG AZSA LLC.

3. Special Measures to Ensure the Appropriateness of the Consolidated Financial Statements

NTT Group undertakes special measures to ensure the appropriateness of its consolidated financial statements and put in place a structure to properly disclose consolidated financial statements in accordance with IFRS. The details of such measures are below:

- (1) NTT Group participates in organizations such as the Financial Accounting Standards Foundation in order to put in place a system in which NTT Group can ensure it has an appropriate grasp on the contents of accounting standards and can accurately respond to changes in accounting standards. In addition, NTT Group periodically undertakes reviews of accounting standards, and maintains internal regulations.
- (2) With respect to the application of IFRS, NTT Group obtains press releases and statements of accounting principles published by the International Accounting Standards Board from time to time in order to gain an understanding of most recent standards. Furthermore, in order to prepare appropriate consolidated financial statements in accordance with IFRS, NTT Group has developed group accounting policies and accounting guidelines in compliance with IFRS, and conducts its accounting in accordance with those policies and guidelines.

1. Reporting Entity

NIPPON TELEGRAPH AND TELEPHONE CORPORATION ("NTT") is a corporation domiciled in Japan. The address of NTT's registered headquarters is disclosed on its website (http://www.ntt.co.jp/index.html). The consolidated financial statements comprise NTT and its subsidiaries ("NTT Group" or "the Group").

NTT Group's business segments and material subsidiaries are as follows:

Mobile communications business (mobile phone business and other related business)

• NTT DOCOMO Corporation ("NTT DOCOMO")

Regional communications business (the provision of communications services within prefectures and other incidental business under the Group's domestic telecommunications business)

- NIPPON TELEGRAPH AND TELEPHONE EAST CORPORATION ("NTT East")
- NIPPON TELEGRAPH AND TELEPHONE WEST CORPORATION ("NTT West")

Long distance and international communications business (the provision of communications services between prefectures under the Group's domestic telecommunications business, the Group's international communications business, solutions business, and other related business)

- NTT Communications Corporation ("NTT Communications")
- Dimension Data Holdings plc ("Dimension Data")

Data communications business (systems integration, network systems services, and other business)

• NTT DATA Corporation ("NTT DATA")

2. Basis of Preparation

(1) Matters Regarding Compliance with IFRS

NTT Group meets the requirements of a "Specified Company complying with Designated International Accounting Standards" pursuant to Article 1-2 of the "Order on the Terminology, Forms, and Preparation Methods of Quarterly Consolidated Financial Statements" (Cabinet Office Order No. 64 of 2007) (the "Order on Consolidated Financial Statements"). Consequently, in accordance with Article 93 of the Order on Consolidated Financial Statements, NTT Group prepares condensed quarterly consolidated financial statements pursuant to International Accounting Standard ("IAS") No. 34, "Interim Financial Reporting." The condensed quarterly consolidated financial statements were approved by the Board of Directors on August 6, 2019.

Since they do not include all the information and disclosures required for a complete set of financial statements, they should be read in conjunction with the consolidated financial statements for the year ended March 31, 2019.

(2) Basis for Measurement

The condensed quarterly consolidated financial statements are prepared on the basis of acquisition cost, with the exception of financial instruments measured at fair value, and assets and liabilities recognized in relation to defined benefit plans.

(3) Functional Currency and Presentation Currency

The currency used to present the condensed quarterly consolidated financial statements is the Japanese yen, which is the currency used in the primary economic environment where NTT conducts its business activities (hereinafter referred to as the "functional currency"). Amounts are rounded to the nearest million yen.

3. Significant Accounting Policies

The accounting policies applied on the condensed consolidated financial statements are consistent with those applied on the consolidated financial statements for the year ended March 31, 2019, except for changes in accounting policies stated below.

(1) Leases

NTT Group has applied IFRS 16 "Leases" ("IFRS 16") from the beginning of the current fiscal year.

① Accounting treatment as a lessee

Lease transactions as a lessee were classified as finance leases when the lessor transfers substantially all of the risks and rewards incidental to ownership of the asset to the lessee, while other lease transactions were classified as operating leases under IAS 17 "Leases" for the year ended March 2019.

As a result of the application of IFRS 16, when NTT Group assesses whether a contract is, or contains, a lease, at the inception of the contract initially recognizes a Right-of-use assets and Lease liabilities in the Condensed Interim Consolidated Statements of Financial Position at the commencement date of the contract without classifying finance leases or operating leases except for leases with a lease term of 12 months or less or when the underlying assets are of low value. NTT Group does not apply IFRS 16 to leases of intangible assets.

(i) Lease liabilities

Lease liabilities are initially measured at the present value of unpaid lease payments at the commencement date of the contract, discounted using NTT Group's incremental borrowing rate*. Lease payments are accounted as payments for interest calculated applying the effective interest method and payments for principal. Payments for interest are presented as finance cost in the condensed consolidated statement of profit or loss and classified as cash flows from operating activities condensed consolidated statement of cash flows. Payments for principal are classified as cash flows from financing activities.

* As interest rate implicit in the lease can not be readily determined, NTT Group uses incremental borrowing rate as discount rate.

(ii) Right-of-use assets

Right-of-use assets are initially measured at cost, which comprises the amount of the initial measurement of the lease liabilities, adjusted for any initial direct costs incurred and prepaid lease payments, etc. After the initial measurements, Right-of-use assets are depreciated over the useful life or the lease term of the underlying asset, whichever is shorter, from the commencement date of the contract. The estimated useful life of Right-of-use assets is determined as same as owned property, plant and equipment. Right-of-use assets are deducted by impairment if identified and adjusted at remeasurement of the specific lease liabilities.

A part of Right-of-use assets which satisfies the definition of investment property is presented as Investment property in the Condensed Interim Consolidated Statements of Financial Position.

② Accounting treatment as a lessor

For leases in which NTT Group is the lessor, excluding subleases, NTT Group is not required to make any adjustments at the time of the application of IFRS 16.

Regarding the subleases in which NTT Group is intermediate lessor, NTT Group reassessed subleases by referencing Right-touse assets recognized from head leases in which NTT Group is the lessee rather than the underlying asset that is the subject of a lease then some sublease contracts classified as operating leases in or prior to the previous fiscal year are classified as finance leases. As a result, NTT Group derecognizes Right-of-use assets and recognizes Trade and Other Receivables (Lease receivables) in the Condensed Interim Consolidated Statements of Financial Position.

3 Transitional Measures

NTT Group applies IFRS 16 using the modified retrospective approach, under which recognizing the cumulative effect of applying the standard as an adjustment to the beginning balance of retained earnings at the date of initial application with no restatement of the comparative period. For the assessment of whether a contract that was concluded in or prior to the previous fiscal year is, or contains a lease, the NTT Group has applied the practical expedient of maintaining its previous assessment...

4 The impact of the application of IFRS 16

The impact of the application of IFRS 16 is described below.

(2)Revenue

Sales of telecommunications terminal equipment

NTT Group offers a program in which we give a waiver of up to 12 months of installment payments to customers who choose the installment payment plan in 36 months on the sale of handset, on condition of returning the handset to NTT Group after use in the Mobile communications business segment from the three months ended June 30, 2019. The estimated amount of consideration received for which we do not expect to be entitled is recognized as refund liabilities upon the sale of handset, and the same amount is deducted from revenues. The liability is included in "Other non-current liabilities" in the condensed consolidated statement of financial position. The above estimations are made for each type of product based on our past experience and other factors, and included in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur. On the other hand, the right of collection of handset from customers in exchange for settlement of the refund liability is recorded in "Other current assets" and "Other non-current assets" respectively in the condensed consolidated statement of financial position. These assets are measured at the amount equal to carrying amount of the product less any expected costs to recover those handsets (including potential decreases in the value to the entity of returned handsets) when they are sold.

4. Significant Accounting Estimates and Judgments Involving Estimates

In preparing the condensed quarterly consolidated financial statements, management makes judgments, estimates and assumptions that affect the application of accounting policies as well as the amounts reported for assets, liabilities, revenue and expenses. These estimates and assumptions involve past experience and the collection of available data, and they are based on management's best judgment in consideration of various factors considered reasonable as of the reporting date. However, due to the nature of such judgments, future results may vary from these estimates and assumptions.

Estimates and their underlying assumptions are continuously reviewed. The effect of revisions to accounting estimates is recognized in the consolidated accounting period during which the estimates were reviewed and in future consolidated accounting periods.

The significant accounting judgements, estimates, and assumptions made in preparing the condensed consolidated financial statements are consistent with those made in preparing the consolidated financial statements for the year ended March 31, 2019, except for Changes in Accounting estimates stated below.

Estimates of useful lives and estimates for impairment of Right-of-use assets

Description is presented in "Note 3. Significant Accounting Policies (1) Leases".

Estimates of useful lives of property, plant and equipment

NTT Group revised its estimate of the expected useful lives of optical cables (a part of Cables in Telecommunications service lines) and extended expected useful life based on current actual utilization. This change in estimate has been accounted for prospectively. Regarding the impact from this change in accounting estimate in Condensed Consolidated Statement of Profit or Loss for the three months ended June 30, 2019, "Depreciation and amortization" was decreased \(\frac{1}{2}\)10,859 million, "Profit attributable to NTT" and "Basic earnings per share" were increased \(\frac{1}{2}\)7,446 million, \(\frac{1}{2}\)3.91, respectively.

Regarding the impact in segment profit were presented in "Note 6. Segment Information".

5. New Standards Not Yet Applied

Standards and interpretations that were newly issued or revised prior to the date these condensed quarterly consolidated financial statements were approved that NTT Group has not adopted earlier, and whose adoption may impact NTT Group, are not applicable.

6. Segment Information

NTT Group's business segments are as below, for which discrete financial information is available and whose operating results are utilized by NTT Group's management to make decisions about the allocation of resources and to assess business performance.

Services included in each segment are as follows:

Mobile communications business segment

Mobile voice-related services, IP/packet communications services, sales of telecommunications terminal equipment, and other services

8. Assets Held for Sale

Sumitomo Mitsui Card Company, Limited

Overview

As of the end of the fiscal year ended March 31, 2019, NTT Group held 34% of the outstanding common shares of Sumitomo Mitsui Card Company, Limited ("Sumitomo Mitsui Card"). Sumitomo Mitsui Card is a credit card operator in Japan and a privately held company.

In July 2005, NTT DOCOMO, a subsidiary of NTT, entered into an agreement with Sumitomo Mitsui Card, Sumitomo Mitsui Financial Group, Inc. (SMFG), and Sumitomo Mitsui Banking Corporation to jointly promote credit transaction services which use mobile phones compatible with the "Osaifu-Keitai" (mobile wallet) service. The investment NTT DOCOMO made in Sumitomo Mitsui Card in accordance with this agreement had been accounted for using the equity method. In September 2018, NTT DOCOMO concluded an agreement for new business cooperation with Sumitomo Mitsui Card and SMFG. NTT DOCOMO group and SMFG will jointly develop a business to facilitate cashless payments by leveraging each of their customer bases and know-how and further expanding their "iD" electronic money service, while looking into the possibility of a new collaboration in areas such as FinTech. As a result of this arrangement, NTT DOCOMO agreed to sell all Sumitomo Mitsui Card shares to SMFG in April 2019.

On April 1, 2019, NTT DOCOMO sold all of its Sumitomo Mitsui Card shares to SMFG.

Impact on accounting treatment and on the consolidated financial statements

For the fiscal year ended March 31, 2019, in accordance with IFRS 5 "Non-current Assets Held for Sale and Discontinued Operations," NTT Group reclassified its investment in Sumitomo Mitsui Card from "Investment accounted for using the equity method" to "Assets held for sale". As a result, the subsequent application of the equity method was discontinued and the amount of the asset was measured at its carrying amount at that time. Assets held for sale comprise ¥234,160 million of investments in associates attributable to Mobile communications business, which had been accounted for using the equity method

Accumulated other comprehensive income (net of taxes) related to "Assets held for sale" amounted to ¥30,620 million (credit side) and was included in "Other components of equity" in the Condensed Consolidated Statement of Financial position as of March 31, 2019. This total amount represents the changes in the fair value of financial assets measured at fair value through other comprehensive income.

Due to the decision to recover this investment by sale, deferred tax liabilities arising from the temporary differences on this investment increased by ¥42,530 million and were offset against deferred tax assets on the Consolidated Statement of Financial Position. As a result, "Income taxes" on the Consolidated Statement of Profit or Loss increased by ¥20,667 million, and "Share of other comprehensive income of entities accounted for using the equity method (items that will not be reclassified to profit or loss)" (credit side) on the consolidated statement of comprehensive income decreased by ¥21,863 million. There is no impact on the Consolidated Statement of Profit or Loss and Consolidated Statement of Comprehensive Income.

For the three months ended June 30, 2019, Accumulated other comprehensive income (net of taxes) related to "Assets held for sale" amounted to \(\frac{4}{30}\),620 million (credit side) was not recognized in profit or loss, but will be directly reclassified to retained earnings when the asset is sold because NTT DOCOMO sold all of its Sumitomo Mitsui Card shares. The impact of this sales to Consolidated Statement of Profit or Loss was not material. The amount of proceeds from the sale is included in "Proceeds from sale or redemption of investments" in the Condensed Consolidated Statement of Cash Flows.

13. Fair Value of Financial Instruments

(1) Carrying Amount and Fair Value of Financial Instruments Not Measured at Fair Value

(Millions of yen)

	Year E March 31		Three Mont June 30,	
	Carrying amount	Carrying amount	Carrying amount	Fair value
Long-term debt (including current portion or balance due for repayment)	3,371,759	3,436,096	3,211,285	3,281,659

With regard to the above-mentioned items, the assumptions (inputs) used to measure fair value are classified as Level 2. With the exception of the above-mentioned items, the financial instruments not measured at fair value are not included in the table, because their carrying amounts approximate their fair values. No changes have been made to the measurement method of fair value after the end of previous fiscal year.
