Any person subsequently offering, selling or recommending the Instruments (a "distributor") should take into consideration the manufacturers' target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "UK MiFIR Product Governance Rules") is responsible for undertaking its own target market assessment in respect of the Instruments (by either adopting or refining the manufacturers' target market assessment) and determining appropriate distribution channels.

2 RATINGS

Ratings: The Instruments to be issued are expected to be rated:

S&P: BBB+

An obligation rated 'BBB' exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to weaken the obligor's capacity to meet its financial commitments on the obligation. The plus (+) sign shows relative standing within the rating categories. (Source: S&P, https://www.standardandpoors.com/en_US/web/guest/article/-/view/sourceId/504352)

Moody's: Baa1

Obligations rated 'Baa' are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics. The modifier '1' indicates that the obligation ranks in the higher end of its generic rating category. (Source: Moody's, <https://www.moody's.com/Pages/amr002002.aspx>)

Fitch: BBB+

'BBB' ratings indicate that expectations of credit risk are currently low. The capacity for payment of financial commitments is considered adequate, but adverse business or economic conditions are more likely to impair this capacity. The modifier "+" is appended to a rating to denote relative status within the rating category. (Source: Fitch, <https://www.fitchratings.com/products/rating-definitions>)
