

PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (EEA). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, MiFID II); or (ii) a customer within the meaning of Directive 2016/97(EU), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (as amended, the Prospectus Regulation). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the PRIIPs Regulation) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been or will be prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

MIFID II PRODUCT GOVERNANCE / RETAIL INVESTORS, PROFESSIONAL INVESTORS AND ELIGIBLE COUNTERPARTIES TARGET MARKET – Solely for the purposes of the manufacturer’s product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties, professional clients and retail clients, each as defined in MiFID II; (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate - investment advice and portfolio management, subject to the distributor’s suitability and appropriateness obligations under MiFID II, as applicable. Any person subsequently offering, selling or recommending the Notes (a “distributor”) should take into consideration the manufacturer’s target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer’s target market assessment) and determining appropriate distribution channels, subject to the distributor’s suitability and appropriateness obligations under MiFID II, as applicable.

UK MIFIR PRODUCT GOVERNANCE /RETAIL INVESTORS, PROFESSIONAL INVESTORS AND ELIGIBLE COUNTERPARTIES ONLY TARGET MARKET – Solely for the purposes of the manufacturer’s product approval process, the target market assessment in respect of the Notes, taking into account the five categories referred to in item 18 of the Guidelines published by the European Securities and Markets Authority on 5 February 2018 (in accordance with the FCA’s policy statement entitled “Brexit our approach to EU non-legislative materials”), has led to the conclusion that: (i) the target market for the Notes is retail clients, as defined in point 8 of article 2 of Regulation (EU) No 2017/565 as it forms part of the domestic law of the United Kingdom by virtue of the European Union (Withdrawal) Act 2018 (EUWA), and eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook (“COBS”), and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of the domestic law of the United Kingdom by virtue of the European Union (Withdrawal) Act 2018 (“UK MiFIR”); (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate - investment advice and portfolio management, subject to the distributor's suitability and appropriateness obligations under COBS, as applicable. The product is incompatible for any client outside the positive target market and/or sales contemplated outside of the channels for distribution of the Notes as identified above. Any person subsequently offering, selling or recommending the Notes (a distributor) should take into consideration the manufacturer's target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the UK MiFIR Product Governance Rules) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under COBS, as applicable.

¹ Supervisory Review and Evaluation Process

The statutory auditors' reports on the consolidated annual historical financial information of NATIXIS for the financial years ended 31 December 2022 and 31 December 2021 do not contain any qualifications. The statutory auditors' limited review reports on the half-yearly financial statements of NATIXIS for the half-years ended 30 June 2023 and 30 June 2022 do not contain any qualifications.

Most material risk factors pertaining to the Guarantor

The key risks with regard to NATIXIS' structure and operations are set out below:

1. NATIXIS is exposed to the credit and counterparties risks in its activities. Should one or more of its counterparties fail to honor their contractual obligations, NATIXIS could suffer varying degrees of financial loss depending on the concentration of its exposure to said counterparties;
2. A deterioration in the financial markets could generate significant losses in NATIXIS' capital markets and asset management activities. In recent years, the financial markets have fluctuated significantly in a sometimes exceptionally volatile environment which could recur and potentially result in significant losses in NATIXIS' capital market and adversely impact NATIXIS' asset management activities;
3. Should NATIXIS fail to comply with applicable laws and regulations, NATIXIS could be exposed to significant fines and other judicial, administrative, arbitral and disciplinary (including criminal) sanctions that could have a material adverse impact on its financial condition, business and reputation; and
4. NATIXIS is exposed to risks related to the economic conditions in which it operates. Its asset & wealth management and corporate & investment banking businesses are sensitive to changes in the financial markets and, in general, to economic conditions in France, Europe and worldwide. Adverse market or economic conditions could have an adversely impact on NATIXIS' profitability and financial position.

What are the key risks that are specific to the Notes?

There are also risks that are significant for the assessment of the Notes including:

General risks

Risk of volatility of the Notes: Noteholders face a risk of volatility, which refers to the risk of changes in the value of a Note, as well as any difference between the valuation level and the sale price of the Notes on the secondary market. Events in France, Europe or elsewhere could cause volatility in the secondary market of the Notes, which could result in a negative impact on the trading or sale price of the Notes.

Risk relating to the NATIXIS Guarantee (which includes reference to resolution or insolvency risk of the Guarantor): The Noteholders may suffer losses if a resolution proceeding is implemented at the level of the BPCE group or NATIXIS pursuant to European regulation and French transposition rules establishing a framework for the recovery and resolution of credit institutions and investment firms. In case of resolution proceedings, the Noteholders could face non-payment under the Guarantee or receive at an amount lower than the amount expected.

Risk of early redemption in the event of illegality, changes in taxation, force majeure: In the event of an early redemption of the Notes in the event of illegality or changes in rules on withholding taxes or if the performance of the Issuer's obligations under the Notes is impossible or insurmountable due to the occurrence of force majeure event, the Noteholders will receive an amount equal to the fair market value of the Notes. The fair market value of the Notes payable upon early redemption may be lower than the amount that Noteholders initially anticipated.

Risk of loss of capital for Notes whose redemption amount is determined by reference to a calculation formula and/or linked to an underlying asset: The amounts payable by the Issuer are linked to or make reference to the performance of one underlying asset (the "Underlying"). Such amounts may be determined by the application of a calculation formula and one or more observations or the occurrence of certain events in relation to the Underlying(s). If there is an adverse change in the performance of the Underlying(s), exacerbated, if relevant, by the terms of the formula or indexation provisions, Noteholders may suffer a significantly decreased redemption amount on the Notes or even a total loss of its investment.

Underlying dedicated risk factors

Exposure to the Preference Share Underlying: The underlying of the preference share may be one or more underlying asset(s) such as (without limitation) a share, an index, a fund and may change over time as a result of performance or other factors. Investors should carefully consider the risks associated with these asset classes on the basis that the preference share to which the Notes are linked will be affected by their exposure to the relevant underlying of the preference share.

Early redemption: The Issuer may (i) receive notice from the Preference Share Issuer that the preference share will be early redeemed following the occurrence of certain events affecting the preference share or the preference share issuer or (ii) determine that such events have occurred. In such cases, the Issuer will redeem the Notes early at their fair market value.

In the case of early redemptions of the Notes, at the fair market value, investors may receive less than their original investment and even an amount equal to zero. In addition, investors may not be able to reinvest the redemption proceeds so as to achieve a potential return similar to the potential return available under the Notes if the Notes had continued to maturity.

Credit and fraud risk of the Preference Share Issuer: The value of and return on the Notes depends on the performance of the preference share issued by the preference share issuer and is therefore exposed to risks (credit, misappropriation of funds or other fraudulent action risks) associated with persons acting on its behalf or the issuer of the Preference Share which is not an operating company, and whose sole business activity is the issuance of redeemable preference shares. The occurrence of such risks would have a significant effect on the value of the preference shares and consequently on the value of the Notes.

Past performance of the preference shares or the relevant underlying of the preference share is not indicative of future performance.

Risk relating to change in law or the inability to hold hedging position and/or increased cost of hedging: The Issuer enters into hedging agreements to cover the risks related to such Notes and in particular changes in the value of the relevant Underlying(s). In the event of a change in law or a hedging disruption, it may become unlawful or impracticable for the Issuer to hold, acquire, exercise or dispose of such hedging agreements. In these cases, the Issuer may elect to (i) request the Calculation Agent to adjust the terms of redemption and payment of, or (ii) redeem all (but not some only) of the Notes at the early redemption amount equal to the fair market value as determined by and at the sole discretion of the Calculation Agent. The adjustment of the terms of the Notes may have a material impact on the interest amounts and/or redemption amounts

due in respect of the Note and on the value of the Notes. Moreover, such fair market value may be less than the redemption amount initially set out in the terms of the Notes and consequently investors may lose all or some of their investment.

Risk relating to the discretionary power of the calculation agent: The Calculation Agent has the discretionary power to make the calculations, observations and adjustments and the amounts determined or calculations made by the Calculation Agent may affect the value and any payment to be made under Notes in a way that is unfavorable to investors. The decisions of the Calculation Agent may also result in an early redemption of the Notes.

Most material conflicts of interest pertaining to the offer or the admission to trading of the Notes

The dealer and its affiliates may also have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and the Guarantor and their respective affiliates in the ordinary course of business.

Various entities within the BPCE group (including the Issuer and the Guarantor) and affiliates undertake different roles in connection with the Notes, including Issuer of the Notes and may also engage in trading activities (including hedging activities) relating to the Underlying and other instruments or derivative products based on or relating to the Underlying which may give rise to potential conflicts of interest.

NATIXIS, which acts as arranger, permanent dealer, Calculation Agent and Determination Agent is an affiliate of the Issuer and the same legal entity as the Guarantor and potential conflicts of interest may exist between it and Noteholders, including with respect to certain determinations and judgments that the Calculation Agent must make that may influence the amounts payable under the Notes. The economic interests of the Issuer and of NATIXIS as arranger and permanent dealer are potentially adverse to a Noteholder's interests as an investor in the Notes.

Other than as mentioned above, and save for the commission payable to the distributor in connection with the offer, so far as the Issuer is aware, no person involved in the issue of the Notes has an interest material to the offer, including conflicting interests. The commission is calculated by taking the annual percentage fee of up to 0.25% (all taxes included) of the Specified Denomination per Note and multiplying it by the term (in years) of the Note. The commission is paid on the Issue Date.
