

APPENDIX 1.6.

CONTRACT AREA AND MAP

As of the date of execution of the Agreement, the Contract Area is the area inside the perimeter constituted by the geographical co-ordinates set forth below and as separately identified on the map attached hereto.

The Contract Area is bounded by straight lines on a Gauss-Kruger projection which is referenced to Pulkovo 1942 geodetic datum, Krassovski 1940 ellipsoid and with defining parameters of:

Latitude of Origin: 0 degrees North (the equator)

Longitude of Origin: 0 degrees East (of Greenwich)

Scale Factor at Origin 1.0

Grid co-ordinates at Origin: 500.000 meters East, 0 meters North

Grid units are meters

Geographic co-ordinates for the four corners of the Contract Area are:

Point	Pulkovo 1942 Datum		Gauss-Kruger gnd. Zona G-4	
	Latitude (North)	Longitude (East)	North (Y)	East (X)
1	39°10'30"	46°40'50"	4340000	8647000
2	39°03'00"	46°44'40"	4331000	8650000
3	38°51'30"	46°32'00"	4305500	8633500
4	39°57'00"	46°30'00"	4315000	8631500

The surface of the Contract Area above defined is approximately 300 square kilometres.
