## Independent Auditors' Report

[English Translation of Independent Auditors' Report Originally Issued in Korean on February 17, 2021]

**To the Shareholders and the Board of Directors of Samsung Electronics Co., Ltd.**

### Audit Opinion

We have audited the separate financial statements of Samsung Electronics Co., Ltd. (the "Company"), which comprise the separate statement of financial position as of December 31, 2020, and the separate statements of profit or loss, the separate statement of comprehensive income, the separate statement of changes in equity and the separate statement of cash flows, for the year then ended, and notes to the separate financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying separate financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2020, and its financial performance and its cash flows for the year then ended in accordance with Korean International Financial Reporting Standards ("K-IFRS").

We have also audited, in accordance with the Korean Standards on Auditing ("KSAs"), the internal control over financial reporting of the Company as of December 31, 2020, based on 'Conceptual Framework for Designing and Operating Internal Control over Financial Reporting' and our report dated February 17, 2021, expressed an unqualified opinion.

### Basis for Audit Opinion

We conducted our audit in accordance with the KSAs. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Separate Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the separate financial statements in the Republic of Korea, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

# Deloitte.

## Key Audit Matter

The key audit matter is a matter that, in our professional judgment, was of most significance in our audit of the separate financial statements of the current period. This matter was addressed in the context of our audit of the separate financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

### (A) Sales deduction related to sales promotion activities

Reasons why the matter was determined to be a key audit matter:

The Information technology & Mobile communications (IM) and Consumer Electronics (CE) business divisions perform sales promotion activities, such as price discounts and incentives, based on explicit or implicit agreements with customers, including retail and telecommunication companies. As disclosed in Notes 2.24 (Revenue Recognition) and 3 (Critical Accounting Estimates and Assumptions), these activities are recognized as deductions from revenue at the expected payment amount.

As for the appropriateness of the revenue deduction amounts, such amounts may involve significant management estimates and judgments. In addition, we believe that those amounts could be material to the separate financial statements. As such, we determined the sales deduction related to sales promotion activities as a key audit matter.

How the Key Audit Matter was addressed in the Audit

Our audit procedures with respect to the Company's sales promotion activities related to the sales of products are as follows:

- Obtained an understanding of management's accounting policies, processes and internal controls related to the sales deduction.
- Obtained an understanding and evaluated the Company's system related to the sales deduction.
- Evaluated the Company's internal controls relating to the approval process of the sales deduction policy.
- Evaluated the Company's internal controls relating to the approval process of the sales deduction estimation and post-settled amounts.
- Verified the estimates by inspecting supporting documentations relating to the sales deduction transactions.
- Examined the sales deduction amount by comparing the sales deduction estimates to post-settled amounts and inspecting supporting documentation.

## **Other Matters**

The separate financial statements of the Company as of and for the year ended December 31, 2019, were audited by Samil PwC, in accordance with the KSAs, whose audit report dated February 21, 2020, expressed an unmodified opinion on those separate financial statements.

## **Responsibilities of Management and Those Charged with Governance for the Separate Financial Statements**

Management is responsible for the preparation of the accompanying separate financial statements in accordance with K-IFRS, and for such internal control as they determine is necessary to enable the preparation of separate financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the separate financial statements, management of the Company is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

## **Auditor's Responsibilities for the Audit of the Separate Financial Statements**

Our objectives are to obtain reasonable assurance about whether the separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with KSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these separate financial statements.

As part of an audit in accordance with KSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

# Deloitte.

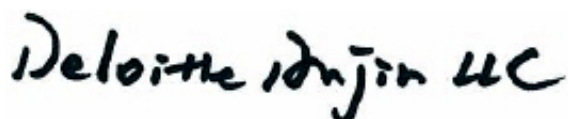

- Conclude on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the separate financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the separate financial statements, including the disclosures, and whether the separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the separate financial statements of the current period and are therefore the key audit matter. We describe this matter in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Byung Moon Yoo.

Seoul, Korea

February 17, 2021

## Notice to Readers

This report is effective as of February 17, 2021, the auditors' report date. Certain subsequent events or circumstances may have occurred between the auditors' report date and the time the auditors' report is read. Such events or circumstances could significantly affect the financial statements and may result in modifications to the auditors' report.

## Samsung Electronics Co., Ltd.

### NOTES TO THE SEPARATE FINANCIAL STATEMENTS

As of December 31, 2020 and 2019, and  
For the years ended December 31, 2020 and 2019

#### 1. General Information

Samsung Electronics Co., Ltd. (the “Company”) was incorporated under the laws of the Republic of Korea in 1969 and listed its shares on the Korea Stock Exchange in 1975. The Company operates three business divisions: Consumer Electronics (“CE”), Information technology & Mobile communications (“IM”), and Device Solutions (“DS”). CE division includes digital TVs, monitors, air conditioners and refrigerators and IM division includes mobile phones, communication systems, and computers. DS division includes semiconductor products such as memory, foundry and system LSI. The Company is domiciled in the Republic of Korea and is located in Suwon, the Republic of Korea.

These financial statements have been prepared in accordance with *Korean IFRS 1027, Separate Financial Statements*.

#### 2. Significant Accounting Policies

##### 2.1 Basis of Presentation

The principal accounting policies used to prepare the separate financial statements are set out below. Except for the effect of the amendments to the Korean IFRS and new interpretations set out below, the principal accounting policies used to prepare the separate financial statements as of and for the year ended December 31, 2020 are consistent with those used to prepare the separate financial statements as of and for the year ended December 31, 2019.

The Company maintains its accounting records in Korean won and prepares statutory financial statements in the Korean language (Hangul) in accordance with International Financial Reporting Standards as adopted by the Republic of Korea (“Korean IFRS”). The accompanying separate financial statements have been condensed, restructured and translated into English from the Korean language financial statements.

Certain information attached to the Korean language financial statements, but not required for a fair presentation of the Company’s financial position, financial performance or cash flows, is not presented in the accompanying separate financial statements.

The separate financial statements of the Company presented have been prepared in accordance with Korean IFRS. These are the standards, subsequent amendments and related interpretations issued by the International Accounting Standards Board (IASB) that have been adopted by the Republic of Korea.

Korean IFRS permits the use of critical accounting estimates in the preparation of the separate financial statements and requires management judgments in applying accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the separate financial statements, are disclosed in Note 3.

**Samsung Electronics Co., Ltd.**

**NOTES TO THE SEPARATE FINANCIAL STATEMENTS**

**2.2 Changes in Accounting Policies and Disclosures**

(A) New and amended standards adopted by the Company

The Company applied the following amended and enacted standards for the first time for their annual reporting period commencing January 1, 2020:

*Amendments to Korean IFRS 1103, Business Combination*

To consider the integration of the required activities and assets as a business, the amended definition of a business requires an acquisition to include an input and a substantive process that together significantly contribute to the ability to create outputs and excludes economic benefits from the lower costs. An entity can apply an optional concentration test, where substantially all of the fair value of gross assets acquired is concentrated in a single asset (or group of similar assets), the assets acquired would not represent a business. This amendment does not have a significant impact on the separate financial statements.

(B) New and amended standards not yet adopted by the Company

The amended accounting standard issued that is not mandatory for the annual reporting period commencing January 1, 2020 and has not been early adopted by the Company is as follows:

*Amendments to Korean IFRS 1116, Lease*

The amendments introduce a practical expedient that simplifies how a lessee accounts for COVID-19 related rent concessions, and a lessee may elect not to assess whether rent concessions occurring as a direct consequence of the COVID-19 pandemic are lease modifications. A lease that makes this election shall account for any change in lease payments resulting from the rent concession the same way it would account for the change applying this standard if the change were not a lease modification. The amendments are effective for annual reporting periods beginning on or after June 1, 2020, with early adoption permitted.

*Amendments to Korean IFRS 1016 Property, Plant and Equipment*

The amendments prohibit deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognizes the proceeds from selling such items, and the cost of producing those items, in profit or loss. The amendments are effective for annual reporting periods beginning on or after January 1, 2022, with early adoption permitted.

**2.3 Subsidiaries, Associates and Joint Ventures**

The Company, as the ultimate controlling company in accordance with Korean IFRS 1110 *Consolidated Financial Statements* recognizes investments in subsidiaries, associates and joint ventures are recognized under the cost method in accordance with Korean IFRS 1027 *Separate Financial Statements* on the Company's separate financial statements.

If there is any objective evidence that the investment in the subsidiaries, associates and joint ventures is impaired, the Company recognizes the difference between the recoverable amount and its carrying amount as an impairment loss.

## Samsung Electronics Co., Ltd.

### NOTES TO THE SEPARATE FINANCIAL STATEMENTS

#### 2.4 Foreign Currency Translation

##### (A) Functional and presentation currency

Items included in the separate financial statements of each of the Company's entities are measured using the currency of the primary economic environment in which each entity operates (the "functional currency"). The separate financial statements are presented in Korean won, which is the parent company's functional and presentation currency.

##### (B) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in profit or loss. Exchange differences arising on non-monetary financial assets and liabilities such as equity instruments at fair value through profit or loss and equity instruments at fair value through other comprehensive income are recognized in profit or loss and other comprehensive income, respectively, as part of the fair value gain or loss.

#### 2.5 Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, and other short-term investment assets with high liquidity that are readily convertible to a known amount of cash and are subject to an insignificant risk of change in value.

#### 2.6 Financial Assets

##### (A) Classification

From January 1, 2018, the initial application date for Korean IFRS 1109 *Financial Instruments*, the Company classifies its financial assets in the following measurement categories:

- Financial assets measured at fair value (changes in fair value recognized in either other comprehensive income, or profit or loss).
- Financial assets measured at amortized cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

For financial assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. The Company reclassifies debt investments only when its business model for managing those assets changes.

For investments in equity instruments that are not held for trading, classification will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income. Changes in fair value of the investments in equity instruments that are not elected to be accounted for as other comprehensive income are recognized in profit or loss.

## Samsung Electronics Co., Ltd.

### NOTES TO THE SEPARATE FINANCIAL STATEMENTS

#### (B) Measurement

At initial recognition, the Company measures a financial asset at its fair value. In the case of financial asset not measured at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset or the issuance of the financial liabilities are added to its fair value. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Hybrid (combined) contracts with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

#### a) Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. The Company classifies its debt instruments into one of the following three measurement categories:

##### ① Financial assets measured at amortized cost

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. A gain or loss on a debt investment that is subsequently measured at amortized cost and is not part of a hedging relationship is recognized in profit or loss when the asset is derecognized or impaired. Interest income from these financial assets is included in 'financial income' using the effective interest rate method.

##### ② Financial assets measured at fair value through other comprehensive income

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income. Movements in the carrying amount are taken through other comprehensive income, except for the recognition of impairment loss (reversal of impairment loss), interest income and foreign exchange gains and losses which are recognized in profit or loss. When the financial assets are derecognized, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss. Interest income from these financial assets is included in 'financial income' using the effective interest rate method. Foreign exchange gains and losses are presented in 'financial income' or 'financial expenses' and impairment losses are presented in 'other non-operating expenses'.

##### ③ Financial assets measured at fair value through profit or loss

Assets that do not meet the criteria for amortized cost or fair value through other comprehensive income are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognized in profit or loss and presented in the separate statement of profit or loss within 'other non-operating income' or 'other non-operating expenses' in the year in which it arises.

## Samsung Electronics Co., Ltd.

### NOTES TO THE SEPARATE FINANCIAL STATEMENTS

#### b) Equity instruments

The Company subsequently measures all equity investments at fair value. Where the Company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. When the financial asset is derecognized, the cumulative gain or loss on valuation of financial assets at fair value through other comprehensive income recognized in equity is reclassified to retained earnings. Dividend income from such investments continue to be recognized in profit or loss as 'other non-operating income' when the right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognized in 'other non-operating income' or 'other non-operating expenses' in the separate statements of profit or loss as applicable.

#### (C) Impairment

The Company assesses on a forward-looking basis the expected credit losses associated with its debt instruments carried at amortized cost and fair value through other comprehensive income. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade receivables, the Company applies the simplified approach, which requires expected lifetime losses to be recognized from initial recognition of the receivables.

#### (D) Recognition and derecognition

Regular way purchases and sales of financial assets are recognized or derecognized on a trade date basis. Financial assets are derecognized when the rights to receive cash flows from the financial assets have expired or have been transferred and the Company has transferred substantially all the risks and rewards of ownership. If a transfer does not result in derecognition because the Company has retained substantially all the risks and rewards of ownership of the transferred asset, the Company continues to recognize the transferred asset in its entirety and recognizes a financial liability for the consideration received. The Company classified the financial liability as 'borrowings' in the separate statement of financial position.

#### (E) Offsetting of financial instruments

Financial assets and liabilities are offset and the net amount reported in the separate statements of financial position where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the assets and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

### 2.7 Trade Receivables

Trade receivables are amounts due from customers for inventories sold or services performed in the ordinary course of business. If collection is expected in one year or less, they are classified as current assets. If collection is expected beyond one year, they are presented as non-current assets. Trade receivables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method, less loss allowance, unless trade receivables bear significant financial component.

## Samsung Electronics Co., Ltd.

### NOTES TO THE SEPARATE FINANCIAL STATEMENTS

#### 2.8 Inventories

Inventories are stated at the lower of cost and net realizable value. Cost is determined using the average cost method, except for materials in transit. The cost of finished goods and work in progress comprises raw materials, direct labor, other direct costs and related production overheads (based on normal operating capacity). It excludes costs of idle plant and abnormal waste. Net realizable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses.

The Company regularly estimates the future customer demand in the products that may cause a significant change in the valuation allowance and recognizes the valuation allowance if there is any case such as excess, obsolescence and decline in market value. Loss on valuation of inventories is recorded as cost of sales.

#### 2.9 Property, Plant and Equipment

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses. Historical cost includes expenditures that are directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of those parts that are replaced is derecognized and repairs and maintenance expenses are recognized in profit or loss in the period they are incurred.

Depreciation on tangible assets is calculated using the straight-line method to allocate the difference between their cost and their residual values over their estimated useful lives. Land is not depreciated. Costs that are directly attributable to the acquisition, construction or production of a qualifying asset, including capitalized interest costs, form part of the cost of that asset and are amortized over the estimated useful lives.

The Company's policy is that property, plant and equipment should be depreciated over the following estimated useful lives:

	<u>Estimated useful lives</u>
Buildings and structures	15, 30 years
Machinery and equipment	5 years
Other	5 years

The depreciation method, residual values and useful lives of property, plant and equipment are reviewed, and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognized in the separate statements of profit or loss as 'other non-operating income' or 'other non-operating expenses'.

#### 2.10 Borrowing Costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization. Other borrowing costs are expensed in the period in which they are incurred.

## Samsung Electronics Co., Ltd.

### NOTES TO THE SEPARATE FINANCIAL STATEMENTS

#### 2.11 Intangible Assets

Goodwill represents the excess of the cost of an acquisition over the fair value of the Company's share of the net identifiable assets of the acquired subsidiaries, associates, joint ventures and businesses at the date of acquisition. Goodwill on an acquisition of subsidiaries' businesses is included in intangible assets and goodwill on an acquisition of associates and joint ventures' shares is included in the investments in associates and joint ventures.

Intangible assets, except for goodwill, are initially recognized at their historical cost and carried at cost less accumulated amortization and accumulated impairment losses.

Internally generated development costs are the aggregate costs recognized after meeting the asset recognition criteria, including technical feasibility, and determined to have future economic benefits. Membership rights and certain trademarks are regarded as intangible assets with an indefinite useful life and not amortized because there is no foreseeable limit to the period over which the assets are expected to be utilized. However, the Company records impairment based on its reasonable estimation of the benefits associated with the membership rights and assessment of impairment indicators, such as a decline in the market value. Intangible assets with definite useful lives such as trademarks, licenses, and other intangible assets, are amortized using the straight-line method over their estimated useful lives.

The Company's policy is that intangible assets should be amortized over the following estimated useful lives:

	<u>Estimated useful lives</u>
Development costs	2 years
Trademarks, licenses and other intangible assets	5 - 10 years

#### 2.12 Impairment of Non-Financial Assets

Goodwill or intangible assets with indefinite useful lives are not subject to amortization and are tested annually for impairment. Assets that are subject to amortization are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

#### 2.13 Assets Held-for-Sale (Disposal Group)

Non-current assets (or disposal groups) are classified as assets held-for-sale when their carrying amount is to be recovered principally through a sale transaction and the sale is considered highly probable. The assets are measured at the lower of carrying amount and the fair value less costs to sell. Gain or loss on disposal is determined by comparing the proceeds with the carrying amount of relevant assets, and is recognized in the statements of profit or loss as 'other non-operating income' or 'other non-operating expenses'.

## Samsung Electronics Co., Ltd.

### NOTES TO THE SEPARATE FINANCIAL STATEMENTS

#### 2.14 Financial Liabilities

##### (A) Classification and measurement

The Company shall classify all financial liabilities as financial liabilities measured subsequently at amortized cost, except for the following:

- Financial liabilities at fair value through profit or loss. Such liabilities, including derivatives that are liabilities, shall be subsequently measured at fair value.
- Financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach applies. Such financial liabilities are measured based on the methodology described in Note 2.6 Financial Assets.
- Financial guarantee contracts. After initial recognition, an issuer of such a contract shall subsequently measure it at the higher of:
  - (a) The amount of the loss allowance determined based on expected credit losses.
  - (b) The amount initially recognized less, when appropriate, the cumulative amount of income recognized in accordance with the principles of Korean IFRS 1115 *Revenue from Contracts with Customers*.
- Commitments to provide a loan at a below-market interest rate. An issuer of such a commitment shall subsequently measure it at the higher of:
  - (a) The amount of the loss allowance determined based on expected credit losses.
  - (b) The amount initially recognized less, when appropriate, the cumulative amount of income recognized in accordance with the principles of Korean IFRS 1115 *Revenue from Contracts with Customers*.
- Contingent consideration recognized by an acquirer in a business combination to which Korean IFRS 1103 *Business Combinations* applies. Such contingent consideration shall subsequently be measured at fair value with changes recognized in profit or loss.

##### (B) Derecognition

Financial liabilities are removed from the separate statements of financial position when it is extinguished; for example, when the obligation specified in the contract is discharged or cancelled or expired or when the terms of an existing financial liability are substantially modified. The difference between the carrying amount of a financial liability extinguished or transferred to another party and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

#### 2.15 Trade Payables

Trade payables are amounts due to suppliers for inventories purchased or services received in the ordinary course of business. If payment is expected to be made within 12 months, they are classified as current liabilities. If not, they are presented as non-current liabilities. Non-current trade payables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method.

#### 2.16 Borrowings

Borrowings are recognized initially at fair value, net of transaction costs, and are subsequently measured at amortized cost. Any difference between cost and the redemption value is recognized in the separate statement of profit or loss over the period of the borrowings using the effective interest method. If the Company has an indefinite right to defer payment for a period longer than 12 months after the end of the reporting date, such liabilities are recorded as non-current liabilities, otherwise, they are recorded as current liabilities.

## **Samsung Electronics Co., Ltd.**

### **NOTES TO THE SEPARATE FINANCIAL STATEMENTS**

#### **2.17 Provisions and Contingent Liabilities**

A provision is recognized when the Company has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Provisions are not recognized for future operating losses.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognized as interest expense.

The Company discloses a contingent liability if there is a possible obligation from past events whose existence may only be identified by the occurrence of uncertain future events; or there is a present obligation that possibility on outflow of economic resources is uncertain; or amount of economic resources required to settle the present obligation cannot be reasonably estimated.

#### **2.18 Employee Benefits**

The Company has a variety of retirement pension plans including defined benefit and defined contribution plans.

A defined contribution plan is a pension plan under which the Company pays fixed contributions into a separate fund. The Company has no legal or constructive obligations to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods. For defined contribution plans, the Company pays contributions to annuity plans that are managed either publicly or privately on a mandatory, contractual or voluntary basis. The Company has no further future payment obligations once the contributions have been paid. The contributions are recognized as employee benefit expense when they are due. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in the future payments is available.

A defined benefit plan is a pension plan that is not a defined contribution plan. Typically defined benefit plans define an amount of pension benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and compensation. The liabilities (assets) recognized in the separate statements of financial position in respect to defined benefit pension plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid and that have terms to maturity approximating to the terms of the related pension obligation.

Actuarial gains and losses resulting from the changes in actuarial assumptions, and the differences between the previous actuarial assumptions and what has actually occurred, are recognized in other comprehensive income in the period in which they were incurred. When plan amendments, curtailments and settlements occur, past service costs or gain or loss from settlements are immediately recognized in profit or loss.

## Samsung Electronics Co., Ltd.

### NOTES TO THE SEPARATE FINANCIAL STATEMENTS

#### 2.19 Financial Guarantee Contract

Financial guarantee contracts are contracts that require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due.

The liability is initially measured at fair value and then subsequently at the higher of the following, and is recognized in the separate statements of financial position within 'other financial liabilities':

- the amount determined in accordance with the expected credit loss model under Korean IFRS 1109 *Financial Instruments* and
- the amount initially recognized less, where appropriate, the cumulative amount of income recognized in accordance with Korean IFRS 1115 *Revenue from Contracts with Customers*.

#### 2.20 Current and Deferred Tax

The tax expense for the year comprises current and deferred tax. Current and deferred tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. The tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period.

Deferred tax is recognized for temporary differences arising between the tax bases of assets and liabilities and their carrying amounts as expected tax consequences at the recovery or settlement of the carrying amounts of the assets and liabilities. However, deferred tax assets and liabilities are not recognized if they arise from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

A deferred tax liability is recognized for taxable temporary differences associated with investments in subsidiaries, associates, and interests in joint ventures, except to the extent that the Company is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. In addition, a deferred tax asset is recognized for deductible temporary differences arising from such investments to the extent that it is probable the temporary difference will reverse in the foreseeable future and taxable profit will be available against which the temporary difference can be utilized.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

#### 2.21 Derivative Instruments

The Company initially recognizes rights and obligations from derivative contracts as assets and liabilities at fair value. Gain or loss arising from these contracts are recognized in profit or loss. Qualified hedged amount from cash flow hedge and hedge of a net investment in a foreign operation is deferred in equity.

The Company applies cash flow hedge accounting to hedge the price risk associated with inventory purchase and other. The effective portion of changes in fair value of derivatives that are designated and qualify as cash flow hedges is recognized in other comprehensive income, and the ineffective portion is recognized in financial income or expenses.

#### 2.22 Dividend

Dividend is recognized as a liability when approved by the Company's shareholders.

## Samsung Electronics Co., Ltd.

### NOTES TO THE SEPARATE FINANCIAL STATEMENTS

#### 2.23 Share Capital

Ordinary shares and preference shares with no repayment obligations are classified as equity. When the Company purchases its ordinary shares, the acquisition costs, including direct transaction costs, are deducted from equity until the redemption or reissuance as treasury shares. Consideration received on the reissuance of treasury shares is credited to equity attributable to owners of the parent company.

#### 2.24 Revenue Recognition

Revenue mainly comprises the fair value of the consideration received or receivable for the sale of goods in the ordinary course of the Company's activities. Revenue is shown net of value-added tax, returns, sales incentives and discounts and after eliminating intercompany transactions.

The Company applied Korean IFRS 1115 *Revenue from Contracts with Customers* to the annual period beginning January 1, 2018. The Company shall recognize revenue in accordance with Korean IFRS 1115 *Revenue from Contracts with Customers* by applying the following 5 steps: ① Identify the contracts with the customers, ② Identify the separate performance obligations, ③ Determine the transaction price of the contract, ④ Allocate the transaction price to each of the separate performance obligations, and ⑤ Recognize the revenue as each performance obligation is satisfied.

##### (A) Identification of performance obligations

The Company exports various products and merchandise in accordance with Incoterms Group C trading conditions (Incoterms CIF, and other). According to Korean IFRS 1115 *Revenue from Contracts with Customers* since the seller provides the shipping service after control of the product or merchandise has been transferred to the customer, the shipping service (including insurance) is recognized as a separate performance obligation.

##### (B) Performance obligations satisfied over time

The Company delivers products to customers and installs them in accordance with the system air conditioner contracts awarded by the Public Procurement Service. According to Korean IFRS 1115 *Revenue from Contracts with Customers* the Company should recognize revenue over time if the Company creates or enhances an asset (for example, work in progress) that the customer controls as the asset is created or enhanced. The Company recognizes the revenue from system air conditioner installation over time as the customer controls the outcome of the service.

##### (C) Variable consideration

The Company estimates an amount of variable consideration by using the expected value which the Company expects to better predict the amount of consideration. The Company recognizes variable consideration only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the refund period has lapsed. The refund liability is measured at the amount of consideration received for which the Company does not expect to be entitled. The Company has a right to recover the product from the customer where the customer exercises his right of return and recognizes an asset and a corresponding adjustment to cost of sales. The asset is measured by reference to the former carrying amount of the product less the costs to recover the products.

##### (D) Allocation of the transaction price

The transaction price in an arrangement must be allocated to each separate performance obligation based on the relative standalone selling prices of the goods or services being provided to a customer. The Company determines the standalone selling price for each separate performance obligation by using methods such as the 'adjusted market assessment approach'.

## Samsung Electronics Co., Ltd.

### NOTES TO THE SEPARATE FINANCIAL STATEMENTS

#### 2.25 Leases

A lease is a contract, whereby the lessor conveys to the lessee, the right to control the use of an identified asset for a period of time in exchange for consideration.

At inception of a contract, the Company assesses whether the contract is, or contains, a lease. However, the Company did not reassess all contracts at initial application of Korean IFRS 1116 *Leases* because the Company applied the practical expedient to contracts entered into before January 1, 2019.

For a contract that is, or contains, a lease, both lessee and lessor account for each lease component within the contract as a lease separately from non-lease components of the contract. In lessee accounting, however, the Company does not account for them separately but instead applies the practical expedient to account for each lease component and any associated non-lease components as a single lease component.

##### (A) Lessee accounting

The Company recognizes a right-of-use asset representing its right to use the underlying leased asset and a lease liability representing its obligation to make lease payments at the commencement date of the lease.

The right-of-use asset is initially measured at cost and subsequently measured at cost less accumulated depreciation and accumulated impairment losses, adjusted for remeasurement of the lease liability. The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term from the commencement date of the lease and is classified as 'property, plant and equipment' in the separate financial statements.

At the commencement date, the lease liability is measured at present value of the lease payments that are not paid at that date. When measuring the present value, the lease payments are discounted using the interest rate implicit in the lease. If such implicit rate cannot be readily determined, the Company uses the Company's incremental borrowing rate. The lease liability is subsequently increased by the amount of interest expenses recognized on the lease liability and reduced by the lease payments made. Lease liabilities are remeasured when the future lease payments are changed due to the following:

- Changes in an index or a rate
- Changes in amounts expected to be payable by the lessee under residual value guarantees
- Changes in the assessment of whether a purchase option or an option to renew is reasonably certain to be exercised, or
- Changes in the assessment of whether it is reasonably certain that an option to terminate the lease will not be exercised.

Lease liabilities are classified as 'current portion of long-term liabilities' or 'long-term borrowings' in the separate financial statements.

The Company elected the practical expedient for short-term leases (leases that have a lease term of 12 months or less at the commencement date) and leases of low-value assets (leases for which the underlying asset is valued at USD 5,000 or less), and the lease payments are recognized as an expense on a straight-line basis over the lease term.

##### (B) Lessor accounting

The accounting policies as a lessor did not change significantly from the accounting policies applied before the initial application of the Korean IFRS 1116 *Leases* on January 1, 2019.

The Company classifies a lease as a finance lease if it transfers substantially all the risks and rewards incidental to ownership at the inception of the lease. A lease other than a finance lease is classified as an operating lease. Lease income from operating leases is recognized in income on a straight-line basis over the lease term. Initial direct costs incurred by the lessor in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized as an expense over the lease term on the same basis as the lease income.

## **Samsung Electronics Co., Ltd.**

### **NOTES TO THE SEPARATE FINANCIAL STATEMENTS**

#### **2.26 Government Grants**

Government grants are recognized at their fair values when there is reasonable assurance that the grant will be received and the Company will comply with the conditions attached to it. Government grants relating to costs are deferred and recognized in the separate statements of profit or loss over the period necessary to match them with the costs that they are intended to compensate. Government grants relating to assets are recognized in liabilities as deferred income government grants, depreciated over the expected lives of the related assets, and are credited to the separate statements of profit or loss.

#### **2.27 Earnings per Share**

Basic earnings per share is calculated by dividing net profit for the period available to ordinary shareholders by the weighted-average number of ordinary shares outstanding during the year.

Diluted earnings per share is calculated by dividing the profit for the year attributable to owners of the parent company from the separate statements of profit or loss by the weighted-average number of ordinary shares outstanding and potential dilutive shares. Potential dilutive shares are used in the calculation of dilutive earnings per share only when they have dilutive effects.

#### **2.28 Reportable Segments**

Reportable segments are disclosed in a manner consistent with the reporting provided to the chief operating decision-maker. The chief operating decision-maker is responsible for making strategic decisions on resource allocation and assessing performance of the reportable segments. The Management Committee, which makes strategic decisions, is regarded as the chief operating decision-maker.

#### **2.29 Convenience Translation into United States Dollar Amounts**

The Company operates primarily in Korean won and its official accounting records are maintained in Korean won. The US dollar amounts provided in the separate financial statements represent supplementary information solely for the convenience of the reader. All Korean won amounts are expressed in U.S. dollar at the rate of ₩ 1,180.46 to USD 1, the average exchange rate for the year ended December 31, 2020. Such presentation is not in accordance with generally accepted accounting principles, and should not be construed as a representation that the Korean won amounts shown could be readily converted, realized or settled in US dollar at this or at any other rate.

#### **2.30 Approval of the Separate Financial Statements**

These separate financial statements were approved by the Board of Directors on January 28, 2021, and may be modified and approved at the Annual General Shareholders' Meetings.

## Samsung Electronics Co., Ltd.

### NOTES TO THE SEPARATE FINANCIAL STATEMENTS

#### 3. Critical Accounting Estimates and Assumptions

The Company makes estimates and assumptions concerning the future. The estimates and assumptions are continuously assessed, considering historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The resulting accounting estimates will, by definition, seldom equal the related actual results. In particular, the recent spread of COVID-19 during the year ended December 31, 2020 may result in changes to the Company's assumptions and estimates but its potential financial impact cannot be reasonably estimated as of the reporting date.

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below.

##### (A) Revenue recognition

A refund liability and a right to the returned goods are recognized for the products expected to be returned at the time of sale. Accumulated experience is used to estimate such returns at the time of sale at a portfolio level (expected value method), and the Company's revenue is affected by changes in expected return rate.

Sales of goods are recognized based on considerations specified in the contract, net of sales incentives, when control of the products has transferred. The sales deduction, which affects the Company's revenue, is reasonably estimated based on historical experience and past contracts.

##### (B) Provision for warranty

The Company recognizes provision for warranty on products sold. The Company accrues provision for warranty based on the best estimate of amounts necessary to settle future and existing claims at the end of each accounting period. The amounts are estimated based on past experience.

##### (C) Fair value of financial instruments

The fair value of financial instruments that are not traded in an active market is determined by using a variety of methods and assumptions that are mainly based on market conditions existing at the end of each reporting period.

##### (D) Impairment of financial assets

The loss allowance for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

##### (E) Lease

In determining the lease term, the Company considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated).

The lease term is reassessed if an option is actually exercised (or not exercised) or the Company becomes obliged to exercise (or not exercise) it. The Company reassesses whether it is reasonably certain to exercise an extension option (or not to exercise such option), upon the occurrence of either a significant event or a significant change in circumstances that is within the control of the lessee.

## Samsung Electronics Co., Ltd.

### NOTES TO THE SEPARATE FINANCIAL STATEMENTS

#### (F) Net defined benefit liabilities (assets)

The net defined benefit liabilities (assets) depend on a number of factors that are determined on an actuarial basis using a number of assumptions including the discount rate. Any changes in these assumptions will impact the carrying amount of the net defined benefit liability. The Company, in consideration of the interest rates of high-quality corporate bonds, determines the appropriate discount rate at the end of each year. This is the interest rate that is used to determine the present value of estimated future cash outflows expected to be required to settle the net defined benefit liabilities (assets). The principal actuarial assumptions associated with the net defined benefit liabilities (assets) are based on the current market expectations.

#### (G) Impairment of goodwill and intangible assets that have an indefinite useful life

At the end of each reporting period, the Company tests whether goodwill and intangible assets that have an indefinite useful life have become impaired by comparing the carrying amounts of assets or cash-generating units to the recoverable amounts. The recoverable amounts of assets or cash-generating units have been determined based on value-in-use calculations, and these calculations are based on estimates.

#### (H) Income taxes

Income taxes on the Company's taxable income from operating activities are subject to various tax laws and determinations of each tax authority across various countries throughout the world. There is uncertainty in determining the eventual tax effects on the taxable income from operating activities. The Company has recognized current tax and deferred tax at the end of the fiscal year based on the best estimation of future taxes payable as a result of operating activities. However, the resulting deferred income tax assets and liabilities may not equal the actual future taxes payable and such difference may impact the current tax and deferred income tax assets and liabilities upon the determination of eventual tax effects.

Regarding taxes payable in Korea, if a certain portion of taxable income is not used for investments or for increases in wages or dividends, in accordance with the *Tax System For Recirculation of Corporate Income*, the Company is liable to pay additional income tax calculated based on Korean tax law. The current and deferred tax at the end of the fiscal year are based on the best estimation of future taxes payable, which can differ from actual future taxes payable as a result of changes in investments, wages and dividends, and thus results in additional uncertainty in measuring the final tax effects.

The Company assesses uncertainty over a tax treatment. When the Company concludes it is not probable that the taxation authority will accept an uncertain tax treatment, the Company will reflect the effect of uncertainty for each uncertain tax treatment by using either of the following methods, depending on which method the Company expects to better predict the resolution of the uncertainty:

- The most likely amount: the single most likely amount in a range of possible outcomes.
- The expected value: the sum of the probability-weighted amounts in a range of possible outcomes.

**Samsung Electronics Co., Ltd.**

**NOTES TO THE SEPARATE FINANCIAL STATEMENTS**

(B) Net gains or net losses on each category of financial assets and liabilities for the years ended December 31, 2020 and 2019 are as follows:

(1) For the year ended December 31, 2020

<i>(In millions of Korean won)</i>	<b>Financial assets measured at amortized cost</b>	<b>Financial assets measured at fair value through other comprehensive income</b>	<b>Financial assets measured at fair value through profit or loss</b>	<b>Total</b>
<b>Financial assets</b>				
Gain on valuation (other comprehensive income)	-	93,251	-	93,251
Gain on valuation/disposal (profit or loss)	-	-	(1)	(1)
Interest income	507,947	-	-	507,947
Foreign exchange differences (profit or loss)	(542,069)	-	-	(542,069)
Dividend income	-	2,160	1,343	3,503
Impairment/reversal (profit or loss)	(1,195)	-	-	(1,195)

<i>(In millions of Korean won)</i>	<b>Financial liabilities measured at amortized cost</b>	<b>Other financial liabilities<sup>1</sup></b>	<b>Total</b>
<b>Financial liabilities</b>			
Interest expense	(44,725)	(144,576)	(189,301)
Foreign exchange differences (profit or loss)	110,776	21,112	131,888

<sup>1</sup> Other financial liabilities include collateralized borrowings, lease liabilities which are not subject to categorizations.

**Samsung Electronics Co., Ltd.**

**NOTES TO THE SEPARATE FINANCIAL STATEMENTS**

(2) For the year ended December 31, 2019

<i>(In millions of Korean won)</i>	<b>Financial assets measured at amortized cost</b>	<b>Financial assets measured at fair value through other comprehensive income</b>	<b>Financial assets measured at fair value through profit or loss</b>	<b>Total</b>
<b>Financial assets</b>				
Gain on valuation (other comprehensive income)	-	73,199	-	73,199
Gain on valuation/disposal (profit or loss)	-	-	3,130	3,130
Interest income	777,225	-	-	777,225
Foreign exchange differences (profit or loss)	(188,482)	-	-	(188,482)
Dividend income	-	2,414	140	2,554
Impairment/reversal (profit or loss)	232,192	-	-	232,192

<i>(In millions of Korean won)</i>	<b>Financial liabilities measured at amortized cost</b>	<b>Other financial liabilities<sup>1</sup></b>	<b>Total</b>
<b>Financial liabilities</b>			
Interest expense	(74,701)	(300,151)	(374,852)
Foreign exchange differences (profit or loss)	85,078	95,496	180,574

<sup>1</sup> Other financial liabilities include collateralized borrowings, lease liabilities which are not subject to categorizations.

**5. Transfer of Financial Assets**

Trade receivables of the Company have been discounted through factoring agreements with banks during the years ended December 31, 2020 and 2019. Trade receivables provided as collaterals in such factoring transactions do not meet the requirements for asset derecognition as risks and rewards are not substantially transferred in the event the debtor defaults due to a recourse obligation, etc. Financial liabilities recognized in relation to these transactions are included as ‘short-term borrowings’ on the separate statements of financial position (refer to Note 12).

The following table presents a breakdown of discounted trade receivables as of December 31, 2020 and 2019:

<i>(In millions of Korean won)</i>	<b>December 31, 2020</b>	<b>December 31, 2019</b>
Carrying amount of the discounted trade receivables	12,520,367	10,228,216
Carrying amount of the related borrowings	12,520,367	10,228,216

**Samsung Electronics Co., Ltd.**

**NOTES TO THE SEPARATE FINANCIAL STATEMENTS**

**6. Financial Assets at Fair Value**

(A) Details of financial assets at fair value as of December 31, 2020 and December 31, 2019 are as follows:

(1) Financial assets at fair value through other comprehensive income

<i>(In millions of Korean won)</i>	<b>December 31, 2020</b>	<b>December 31, 2019</b>
Equity instruments	1,539,659	1,206,080

(2) Financial assets at fair value through profit or loss

<i>(In millions of Korean won)</i>	<b>December 31, 2020</b>	<b>December 31, 2019</b>
Debt instruments	3,107	3,181

(B) Changes in financial assets at fair value for the years ended December 31, 2020 and 2019 are as follows:

(1) Financial assets at fair value through other comprehensive income

<i>(In millions of Korean won)</i>	<b>2020</b>	<b>2019</b>
Balance as of January 1	1,206,080	1,098,565
Acquisition	204,957	6,701
Disposal	-	(331)
Fair value valuation gain	128,622	101,449
Other	-	(304)
<b>Balance as of December 31</b>	<b>1,539,659</b>	<b>1,206,080</b>

(2) Financial assets at fair value through profit or loss

<i>(In millions of Korean won)</i>	<b>2020</b>	<b>2019</b>
Balance as of January 1	3,181	7,413
Disposal	(74)	(2,774)
Fair value valuation loss	-	(1,458)
<b>Balance as of December 31</b>	<b>3,107</b>	<b>3,181</b>

**Samsung Electronics Co., Ltd.**

**NOTES TO THE SEPARATE FINANCIAL STATEMENTS**

- (C) Changes in gain (loss) on valuation of financial assets at fair value through other comprehensive income for the years ended December 31, 2020 and 2019 are as follows:

<i>(In millions of Korean won)</i>	<b>2020</b>	<b>2019</b>
Balance as of January 1	134,130	31,393
Fair value valuation gain	128,622	101,449
Reclassification to retained earnings due to disposals	-	1,288
Balance as of December 31	262,752	134,130
Income tax effects on equity	(72,257)	(36,886)
<b>Total</b>	<b>190,495</b>	<b>97,244</b>

<b>Total</b>			<b>1,082,567</b>	<b>1,412,524</b>	<b>1,124,725</b>

<sup>1</sup> Ownership represents the Company's ownership of the total ordinary shares issued by each entity.

**Samsung Electronics Co., Ltd.**

**NOTES TO THE SEPARATE FINANCIAL STATEMENTS**

**7. Trade and Non-Trade Receivables**

(A) Trade and non-trade receivables as of December 31, 2020 and 2019 are as follows:

<i>(In millions of Korean won)</i>	December 31, 2020		December 31, 2019	
	Trade	Non-trade	Trade	Non-trade
Receivables	24,841,610	1,915,583	26,520,599	2,434,262
Less: Loss allowance	(37,469)	(7,014)	(37,992)	(5,331)
Subtotal	24,804,141	1,908,569	26,482,607	2,428,931
Less: Non-current portion	(67,401)	(9,986)	(227,169)	(22,136)
<b>Current portion</b>	<b>24,736,740</b>	<b>1,898,583</b>	<b>26,255,438</b>	<b>2,406,795</b>

As of December 31, 2020, trade receivables discounted through factoring agreements were accounted for as collateral borrowings and amount of the trade receivables were ₩ 12,520,367 million (as of December 31, 2019, ₩ 10,228,216 million) (refer to Note 12).

(B) Movements in the loss allowance for receivables for the years ended December 31, 2020 and 2019 are as follows:

<i>(In millions of Korean won)</i>	2020		2019	
	Trade	Non-trade	Trade	Non-trade
Balance as of January 1	37,992	5,331	260,588	14,912
Bad debt expense (reversal)	(489)	1,739	(222,589)	(9,578)
Write-off	(34)	(56)	-	(3)
Other	-	-	(7)	-
<b>Balance as of December 31</b>	<b>37,469</b>	<b>7,014</b>	<b>37,992</b>	<b>5,331</b>

(C) The details of trade and non-trade receivables classified by past due date to measure expected credit losses as of December 31, 2020 and 2019 are as follows:

<i>(In millions of Korean won)</i>	December 31, 2020		December 31, 2019	
	Trade	Non-trade	Trade	Non-trade
Receivables not past due	24,504,533	1,576,620	26,096,358	2,360,059
Past due <sup>1</sup> :				
Less than 31 days overdue	69,437	54,393	158,726	28,330
31 days to 90 days overdue	18,924	31,398	117,619	12,179
Over 90 days overdue	248,716	253,172	147,896	33,694
Subtotal	337,077	338,963	424,241	74,203
<b>Total</b>	<b>24,841,610</b>	<b>1,915,583</b>	<b>26,520,599</b>	<b>2,434,262</b>

<sup>1</sup> The Company does not consider trade and non-trade receivables that are overdue for less than or equal to 31 days as impaired.

(D) The maximum exposure to current credit risk is equivalent to the carrying amount of receivables as of December 31, 2020. The Company has in place insurance contracts covering the Company's major receivables.

**Samsung Electronics Co., Ltd.**

**NOTES TO THE SEPARATE FINANCIAL STATEMENTS**

**8. Inventories**

Inventories as of December 31, 2020 and 2019 are as follows:

<i>(In millions of Korean won)</i>	<b>December 31, 2020</b>			<b>December 31, 2019</b>		
	<b>Gross amount</b>	<b>Valuation allowance</b>	<b>Carrying amount</b>	<b>Gross amount</b>	<b>Valuation allowance</b>	<b>Carrying amount</b>
Finished goods	2,535,410	(118,007)	2,417,403	2,621,083	(148,012)	2,473,071
Work in process	8,904,968	(65,773)	8,839,195	7,956,962	(275,685)	7,681,277
Raw materials and supplies	2,544,706	(379,326)	2,165,380	2,014,689	(358,132)	1,656,557
Materials in transit	409,394	-	409,394	390,807	-	390,807
<b>Total</b>	<b>14,394,478</b>	<b>(563,106)</b>	<b>13,831,372</b>	<b>12,983,541</b>	<b>(781,829)</b>	<b>12,201,712</b>

The inventories recognized as expense for the year ended December 31, 2020, amount to ₩ 116,543,552 million (2019: ₩ 113,382,792 million). The amount includes loss on valuation of inventories.

**Samsung Electronics Co., Ltd.**

**NOTES TO THE SEPARATE FINANCIAL STATEMENTS**

**9. Investments in Subsidiaries, Associates and Joint Ventures**

- (A) Changes in investments in subsidiaries, associates and joint ventures for the years ended December 31, 2020 and 2019 are as follows:

<i>(In millions of Korean won)</i>	<b>2020</b>	<b>2019</b>
Balance as of January 1	56,571,252	55,959,745
Acquisition	163,456	925,139
Disposal	(22,057)	(58,677)
Impairment	(125,103)	(254,955)
<b>Balance as of December 31</b>	<b>56,587,548</b>	<b>56,571,252</b>

- (B) Major investments in associates as of December 31, 2020 are as follows:  
(refer to Note 30 for list of the Company's subsidiaries)

<b>Investee</b>	<b>Nature of relationship with associate</b>	<b>Percentage of ownership (%)<sup>1</sup></b>	<b>Principal business location</b>	<b>Fiscal period-end</b>
Samsung Electro-Mechanics Co., Ltd.	Manufacture and supply electronic components including passive components, circuit boards, and modules	23.7	Korea	December
Samsung SDS Co., Ltd.	Provide IT services including computer programming, system integration and management, and logistical services	22.6	Korea	December
Samsung Biologics Co., Ltd.	New business investment	31.5	Korea	December
Samsung SDI Co., Ltd. <sup>2</sup>	Manufacture and supply electronic components including secondary cell batteries	19.6	Korea	December
Cheil Worldwide, Inc.	Advertising agency	25.2	Korea	December

<sup>1</sup> Ownership represents the Company's ownership of the total ordinary shares issued by each entity.

<sup>2</sup> The Company's ownership of ordinary shares outstanding is 20.6%.

**Samsung Electronics Co., Ltd.**

**NOTES TO THE SEPARATE FINANCIAL STATEMENTS**

(B) Goodwill

Goodwill is allocated to cash-generating unit. Details of goodwill as of December 31, 2020 and 2019 are as follows:

<i>(In millions of Korean won)</i>	<b>December 31, 2020</b>	<b>December 31, 2019</b>
DS segment	-	206,741

Goodwill impairment reviews are performed annually, and the recoverable amounts of cash-generating units have been determined based on value-in-use calculations, etc. These calculations generally use pre-tax cash flow projections based on financial budgets approved by management covering a five-year period, unless it is reasonable to use long-term financial budgets longer than five years in new technology business. Perpetual cash flows beyond the five-year period are extrapolated using a constant growth rate assumption. The growth rate applied was capped at the long-term average growth rate for the industry.

As a result of the impairment test on goodwill allocated to cash-generating units, the Company recognized impairment loss of ₩ 206,741 million for goodwill allocated to PLP cash-generating-unit of the DS segment's semiconductor business. Principle assumptions applied in calculation of value-in-use are as follows:

<i>(In percent)</i>	<b>Assumptions</b>
Permanent growth rate	0.0
Pre-tax discount rate <sup>1</sup>	11.5

<sup>1</sup> Pre-tax discount rate is applied to the projected cash flows

(C) Details of amortization of intangible assets for the years ended December 31, 2020 and 2019 are as follows:

<i>(In millions of Korean won)</i>	<b>2020</b>	<b>2019</b>
Cost of sales	2,171,952	1,963,720
Selling and administrative expenses and other	443,273	421,436
<b>Total</b>	<b>2,615,225</b>	<b>2,385,156</b>

**Samsung Electronics Co., Ltd.**

**NOTES TO THE SEPARATE FINANCIAL STATEMENTS**

**12. Borrowings**

(A) Details of the carrying amounts of borrowings as of December 31, 2020 and December 31, 2019 are as follows:

<i>(In millions of Korean won)</i>	<b>Financial institutions</b>	<b>Interest rate(%) as of Dec 31, 2020</b>	<b>December 31, 2020</b>	<b>December 31, 2019</b>
<b>Short-term borrowings</b>				
Collateralized borrowings <sup>1</sup>	Woori Bank and other	0.0~8.8	12,520,367	10,228,216
<b>Current portion of long-term borrowings</b>				
Lease liabilities <sup>2</sup>	-	1.8	82,253	148,296
<b>Long-term borrowings</b>				
Lease liabilities <sup>2</sup>	-	1.8	150,397	174,651

<sup>1</sup> Collateralized borrowings are secured by trade receivables.

<sup>2</sup> Interest expenses arising from the lease liabilities for the years ended December 31, 2020 and 2019 amounted to ₩ 4,696 million and ₩ 6,365 million, respectively, which were determined using the weighted average incremental borrowing rate. The right-of-use assets are pledged as collateral to lessors in the event of default. Short-term lease payments and low-valued asset lease payments that are not included in measurement of lease liabilities during the years ended December 31, 2020 and 2019 amount to ₩ 42,088 million and ₩ 69,557 million, respectively.

(B) Maturities of lease liabilities outstanding as of December 31, 2020 are as follows:

<i>(In millions of Korean won)</i>	<b>Lease liabilities</b>
<b>Repayment terms</b>

(I) The weighted average maturity of the defined benefit obligations is 9.51 years as of December 31, 2020.

**Samsung Electronics Co., Ltd.**

**NOTES TO THE SEPARATE FINANCIAL STATEMENTS**

**15. Provisions**

Changes in the provisions for the year ended December 31, 2020 are as follows:

<i>(In millions of Korean won)</i>	<b>Warranty (A)</b>	<b>Royalty expenses (B)</b>	<b>Long-term incentives (C)</b>	<b>Other (D, E)</b>	<b>Total</b>
Balance as of January 1	245,366	1,015,280	567,016	497,885	2,325,547
Charged to profit or loss	399,582	735,544	388,550	1,524,166	3,047,842
Payment	(304,130)	(357,148)	(388,562)	(781,974)	(1,831,814)
Other	-	(89,658)	-	(16,414)	(106,072)
<b>Balance as of December 31</b>	<b>340,818</b>	<b>1,304,018</b>	<b>567,004</b>	<b>1,223,663</b>	<b>3,435,503</b>

- (A) The Company accrues warranty reserves for estimated costs of quality assurance, exchanges, repairs, recalls, and future services based on historical experience and terms of warranty programs.
- (B) The Company recognizes provisions for the estimated royalty expenses that are under negotiation with counterparties. The timing and amount of payment depend on the settlement of the negotiation.
- (C) The Company has a long-term incentive plan for its executives based on a three-year management performance criteria and recognizes a provision for the estimated incentive cost for the accrued period.
- (D) The Company records provisions for future expenses expected to be incurred for products that have been discontinued from manufacturing and sales.
- (E) The Company makes provisions for the carrying amounts of emission rights held by the Company and the emission in excess of the emission rights for the applicable years. Details of emission rights and liabilities as of December 31, 2020 are as follows:

- (1) Allocated emission rights and estimated volume of emission as of December 31, 2020 are as follows:

<i>(In ten thousand metric tons)</i>	<b>December 31, 2020</b>
Allocated emission rights	1,132
Estimated volume of emission	1,293

- (2) Changes in the emission rights for the year ended December 31, 2020 are as follows:

<i>(In millions of Korean won)</i>	<b>2020</b>
Balance as of January 1	38,787
Acquisition	6,078
Balance as of December 31	44,865

- (3) Changes in the emission liabilities for the year ended December 31, 2020 are as follows:

<i>(In millions of Korean won)</i>	<b>2020</b>
Balance as of January 1	18,048
Charged to profit or loss	13,729
Balance as of December 31	31,777

**Samsung Electronics Co., Ltd.**

**NOTES TO THE SEPARATE FINANCIAL STATEMENTS**

**16. Commitments and Contingencies**

(A) Guarantees

- (1) Debt guarantees provided by the Company for overseas subsidiaries as of December 31, 2020 are as follows:

*(In millions of Korean won and thousands of US dollars)*

Debtor	Creditor	Period	Actual indebttness	Guaranteed amount
SETK	BNP and others	Dec 16, 2021	184,175	910,656
SAMCOL	Citibank and others	Dec 16, 2021	128,239	337,280
Other			-	7,743,618
<b>Total</b>			312,414	8,991,554
			USD 286,389	USD 8,264,296

- (2) The ceiling amount of guarantees provided by the Company for the execution of contracts by overseas subsidiaries is ₩ 383,269 million as of December 31, 2020.
- (3) The Company has not been provided any collateral or guarantees from its related parties as of December 31, 2020.

(B) Litigation

As of December 31, 2020, the Company is involved in various claims, disputes, and investigations conducted by regulatory bodies that arose during the normal course of business with numerous entities. Although the outflow of resources and timing of these matters are uncertain, the Company believes the outcome will not have a material impact on the financial position of the Company.

(C) Joint liabilities related to the divestiture

The Company, Samsung Display Co., Ltd. and others are jointly and severally liable to fulfill the debts of Samsung Display Co., Ltd. and others which relate to the periods prior to Samsung Display Co., Ltd.'s separation from the Company.

(D) Other commitments

- (1) As of December 31, 2020, the Company has trade financing agreements, trade notes receivable discounting facilities, and loan facilities with accounts receivable pledged as collateral with 5 financial institutions including Woori Bank, with a combined limit of up to ₩ 10,177,080 million. In addition, the Company has a trade financing agreement (up to USD 8,950 million) with 19 financial institutions including Shinhan Bank, and loan facilities with accounts receivable pledged as collateral related to purchase payments with 3 financial institutions including Industrial Bank of Korea (up to ₩ 401,600 million).
- (2) As of December 31, 2020, unfulfilled agreements relating to the acquisition of property, plant and equipment and intangible assets amount to ₩ 5,526,690 million.

**Samsung Electronics Co., Ltd.**

**NOTES TO THE SEPARATE FINANCIAL STATEMENTS**

**17. Contract Liabilities**

The Company has recognized the following contract liabilities related to revenue from contracts with customers:

<i>(In millions of Korean won)</i>	<b>December 31, 2020</b>	<b>December 31, 2019</b>
Contract liabilities <sup>1</sup>	1,065,465	998,532

<sup>1</sup> Contract liabilities include advances received, accrued expenses, other current liabilities and others.

The revenue recognized during the current reporting period in relation to carried-forward balance of contract liabilities amounts to ₩ 274,436 million.

**18. Share Capital**

As of December 31, 2020, the Company's total number of authorized shares is 25,000,000,000 shares (₩ 100 per share). The Company has issued 5,969,782,550 shares of ordinary shares and 822,886,700 shares of preference shares as of December 31, 2020, excluding retired shares. As of the December 31, 2020, the number of shares outstanding is the same as the number of shares issued above, and no changes were made to the number of shares outstanding during the years ended December 31, 2020 and 2019. Due to the retirement of shares, the total par value of the shares issued is ₩ 679,267 million (ordinary shares of ₩ 596,978 million and preference shares of ₩ 82,289 million), which does not agree with paid-in capital of ₩ 897,514 million.

**Samsung Electronics Co., Ltd.**

**NOTES TO THE SEPARATE FINANCIAL STATEMENTS**

**19. Retained Earnings**

(A) Retained earnings as of December 31, 2020 and 2019 consist of the following:

<i>(In millions of Korean won)</i>	<b>December 31, 2020</b>	<b>December 31, 2019</b>
<b>Appropriated retained earnings</b>		
Legal reserves:		
Earned profit reserves <sup>1</sup>	450,789	450,789
Discretionary reserves:		
Reserve for improvement of financial structure	204,815	204,815
Reserve for business rationalization <sup>2</sup>	40,199,966	37,699,966
Reserve for overseas market development	510,750	510,750
Reserve for overseas investment losses	164,982	164,982

<b>Total</b>	<b>10,402,829</b>	<b>(169,509)</b>	<b>105,440</b>	<b>257,569</b>	<b>10,596,329</b>

<sup>1</sup> Other includes amortization, effects of changes in foreign currency exchange rates and the cumulative effect of changes in accounting policies.

- (D) For the years ended December 31, 2020 and 2019, cash outflows from repayment of the principal (financial activities) were ₩ 128,575 million and ₩ 122,435 million, respectively, while cash outflows due to interest expenses (operating activities) in relation to the lease liabilities amount to ₩ 4,696 million and ₩ 6,365 million, respectively.
- (E) The Company reported cash receipts and payments arising from transactions occurring frequently, of large gross amounts, and with short-term maturities, such as short-term financial instruments, borrowings and other, on a net basis. As of December 31, 2020, most of the Company's cash and cash equivalents consist of bank deposits.

**Samsung Electronics Co., Ltd.**

**NOTES TO THE SEPARATE FINANCIAL STATEMENTS**

**28. Financial Risk Management**

The Company's financial risk management focuses on minimizing market risk, credit risk, and liquidity risk arising from operating activities. To mitigate these risks, the Company implements and operates a financial risk policy and program that closely monitors and manages such risks. In addition, the Company uses derivatives to hedge certain risk exposure.

The finance team mainly carries out the Company's financial risk management. After implementing the global financial risk management policies, the finance team periodically measures, evaluates, and hedges financial risk and also establishes and implements the global financial risk management policy.

The Company also manages foreign exchange risk by monitoring foreign exchange rate fluctuations at local finance centers across major regions (United States, United Kingdom, Singapore, China, Brazil, and Russia) and acting as an agent of foreign exchange transactions. In addition, the Company manages liquidity risk by utilizing a globally integrated finance structure.

The Company's financial assets that are under financial risk management are comprised of cash and cash equivalents, short-term financial instruments, trade receivables and others. The Company's financial liabilities under financial risk management are comprised of trade payables, borrowings, and others.

(A) Market risk

(1) Foreign exchange risk

The Company is exposed to foreign exchange risk arising from its global operations performed in currencies other than its functional currency. The major currencies that are exposed to foreign exchange risk are the US dollar, Euro, and Indian Rupee.

The Company focuses on minimizing the impact of foreign exchange fluctuation by maintaining the equal amount of assets and liabilities denominated in each foreign currency, irrespective of foreign exchange fluctuation considerations. To prevent exchange position, the Company's foreign exchange management policy requires normal business transactions, including import and export, as well as financing transactions such as depositing and borrowing, to be in local currency or for the cash-in currency to be matched up with the cash-out currency. Moreover, the Company periodically evaluates and monitors the foreign exchange risk to efficiently mitigate such risk, and the speculative foreign exchange transactions are strictly prohibited.

As of December 31, 2020 and 2019, when currency rates change by 5%, the impact on profit or loss (before income tax effects) arising from financial assets and liabilities denominated in foreign currencies other than functional currency are as follows:

<i>(In millions of Korean won)</i>	<b>December 31, 2020</b>		<b>December 31, 2019</b>	
	<b>Increase</b>	<b>Decrease</b>	<b>Increase</b>	<b>Decrease</b>
USD	25,761	(25,761)	72,735	(72,735)
EUR	(22,112)	22,112	(19,487)	19,487
INR	21,948	(21,948)	64,155	(64,155)
JPY	(5,662)	5,662	(6,274)	6,274

## Samsung Electronics Co., Ltd.

### NOTES TO THE SEPARATE FINANCIAL STATEMENTS

#### (2) Interest rate risk

Risk of changes in interest rates for floating interest rate financial instruments is defined as the risk that the fair value of components of the statements of financial position, and future cash flows of interest income (expenses) of a financial instrument, will fluctuate because of changes in market interest rates. The Company's position with regard to interest rate risk exposure is mainly driven by its floating interest rate debt obligations and interest-bearing deposits. The Company implemented policies and operates to minimize uncertainty arising from changes in interest rates and finance expenses.

#### (3) Price risk

The Company's investment portfolio consists of direct and indirect investments in equity instruments classified as financial assets at fair value through other comprehensive income, which is in line with the Company's strategy.

As of December 31, 2020 and 2019, price fluctuation of marketable equity securities (listed stocks) by 1% would result in changes in other comprehensive income (before income tax) of ₩ 14,125 million and ₩ 11,247 million, respectively.

#### (B) Credit risk

Credit risk arises during the normal course of transactions and investing activities where clients or other parties fail to discharge an obligation. The Company monitors and sets the client's and counterparty's credit limit on a periodic basis based on the client's and counterparty's financial conditions, default history and other important factors. Adequate insurance coverage is maintained for trade receivables related to trading partners situated in higher risk countries.

Credit risk can arise from transactions with financial institutions which include financial instrument transactions such as cash and cash equivalents, deposits, and derivative instruments. To minimize such risk, the Company transacts only with banks which have a strong international credit rating (S&P A and above), and all new transactions with financial institutions with no prior transaction history are approved, managed and monitored by the Company's finance team. The Company generally enters into a financial agreement with no restrictions, such as debt ratio covenants, provision of collateral and/or repayment of loans/ borrowings. The Company requires separate approvals for contracts with restrictions.

As of December 31, 2020 and 2019, the Company estimates that its maximum exposure to credit risk is the carrying amount of its financial assets, net of impairment losses.

#### (C) Liquidity risk

Due to large investments made by the Company, maintaining adequate levels of liquidity risk is critical. The Company strives to achieve this goal by periodically forecasting its capital balance, estimating required cash levels, and managing income and expenses.

The Company manages its liquidity risk by periodically forecasting projected cash flows. If abnormal signs are identified, the Company works with the local finance center and provides liquidity support by utilizing a globally integrated finance structure, such as Cash Pooling. In addition, the Company maintains a liquidity management process which provides additional financial support from the local finance center and the Company. The Cash Pooling program allows the sharing of surplus funds among entities and contributes to minimizing liquidity risk and strengthening the Company's competitive position by reducing capital operation expenses and financial expenses.

For the need of large scale of liquidity, the Company secures credit limit for the overseas subsidiaries through payment guarantees.

**Samsung Electronics Co., Ltd.**

**NOTES TO THE SEPARATE FINANCIAL STATEMENTS**

As of December 31, 2020 and 2019, the following table is an undiscounted cash flow analysis for financial liabilities according to their remaining contractual maturity.

<i>(In millions of Korean won)</i>	<b>December 31, 2020</b>				
	<b>Less than 3 months</b>	<b>4 – 6 months</b>	<b>7 – 12 months</b>	<b>1 - 5 years</b>	<b>More than 5 years</b>
Financial liabilities	31,594,935	131,341	608,538	1,121,448	35,383

<i>(In millions of Korean won)</i>	<b>December 31, 2019</b>				
	<b>Less than 3 months</b>	<b>4 – 6 months</b>	<b>7 – 12 months</b>	<b>1 - 5 years</b>	<b>More than 5 years</b>
Financial liabilities	28,627,758	192,584	619,092	1,441,604	167,293

The table above shows the Company's financial liabilities based on the remaining period at the separate statement of financial position date until the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

The maximum liquidity risk exposure from those other than the above financial liabilities (e.g., payment guarantees for affiliated companies, performance bonds, and other) as of December 31, 2020 and 2019 are ₩9,374,823 million and ₩9,871,982 million, respectively.

(D) Capital risk management

The purpose of capital management is to maintain a sound capital structure. The Company monitors capital on the basis of credit ratings and debt ratio. Debt ratio is calculated by dividing total liabilities by total equity in the financial statements.

The Company has maintained an AA- and Aa3 credit rating from S&P and Moody's, respectively.

The debt ratio as of December 31, 2020 and 2019 are as follows:

<i>(In millions of Korean won)</i>	<b>December 31, 2020</b>	<b>December 31, 2019</b>
Total liabilities	46,347,703	38,310,673
Total equity	183,316,724	177,870,247
<b>Debt ratio</b>	25.3%	21.5%

**Samsung Electronics Co., Ltd.**

**NOTES TO THE SEPARATE FINANCIAL STATEMENTS**

(E) Fair value estimation

- (1) Carrying amounts and fair value of financial instruments by category as of December 31, 2020 and 2019 are as follows:

<i>(In millions of Korean won)</i>	December 31, 2020		December 31, 2019	
	Carrying amount	Fair value	Carrying amount	Fair value
<b>Financial assets</b>				
Cash and cash equivalents	989,045	(*)	2,081,917	(*)
Short-term financial instruments	29,101,284	(*)	26,501,392	(*)
Trade receivables	24,736,740	(*)	26,255,438	(*)
Financial assets at fair value through other comprehensive income	1,539,659	1,539,659	1,206,080	1,206,080
Financial assets at fair value through profit or loss	3,107	3,107	3,181	3,181
Other	4,149,950	(*)	4,307,370	(*)
<b>Total financial assets</b>	<b>60,519,785</b>		<b>60,355,378</b>	
<b>Financial liabilities</b>				
Trade payables	6,599,025	(*)	7,547,273	(*)
Short-term borrowings	12,520,367	(*)	10,228,216	(*)
Other payables	9,671,280	(*)	9,031,752	(*)
Current portion of long-term liabilities	87,571	(*)	153,942	(*)
Debentures	31,909	36,507	39,520	52,144
Long-term borrowings	150,397	(*)	174,651	(*)

Other	3,423,251	(*)	2,458,165	(*)
<b>Total financial liabilities</b>	<b>33,418,838</b>		<b>30,938,797</b>	

(\*) Assets and liabilities whose carrying amount is a reasonable approximation of fair value are excluded from the fair value disclosures.

(\*) Lease liabilities, classified under the current portion of long-term liabilities and long-term borrowings, are excluded from the fair value disclosures in accordance with *Korean IFRS 1107*.

**Samsung Electronics Co., Ltd.**

**NOTES TO THE SEPARATE FINANCIAL STATEMENTS**

- (2) Fair value hierarchy classifications of the financial instruments that are measured at fair value or its fair value disclosed as of December 31, 2020 and 2019 are as follows:

<i>(In millions of Korean won)</i>	December 31, 2020			
	Level 1	Level 2	Level 3	Total balance
<b>1) Assets</b>				
Financial assets at fair value through other comprehensive income	1,412,524	-	127,135	1,539,659
Financial assets at fair value through profit or loss	-	-	3,107	3,107
<b>2) Liabilities</b>				
Debentures	-	36,507	-	36,507

<i>(In millions of Korean won)</i>	December 31, 2019			
	Level 1	Level 2	Level 3	Total balance
<b>1) Assets</b>				
Financial assets at fair value through other comprehensive income	1,124,725	-	81,355	1,206,080
Financial assets at fair value through profit or loss	-	-	3,181	3,181
<b>2) Liabilities</b>				
Debentures	-	52,144	-	52,144

The levels of the fair value hierarchy and its application to financial assets and liabilities are described below.

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs)

The fair value of financial instruments traded in active markets is based on quoted market prices at the statements of financial position date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the Company is the current bid price. These instruments are included in Level 1. The instruments included in Level 1 are listed equity investments, most of which are classified as financial assets at fair value through other comprehensive income.

The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined by using valuation techniques. These valuation techniques maximize the use of observable market data where it is available and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

If one or more of the significant inputs are not based on observable market data, the instrument is included in Level 3.

**Samsung Electronics Co., Ltd.**

**NOTES TO THE SEPARATE FINANCIAL STATEMENTS**

The Company performs the fair value measurements required for financial reporting purposes, including Level 3 fair values and discusses valuation processes and results at least once every quarter in line with the Company's quarterly reporting dates. The Company's policy is to recognize transfers between levels at the end of the reporting period, if corresponding events or changes in circumstances have occurred.

Specific valuation techniques used to value financial instruments include:

- Quoted market prices or dealer quotes for similar instruments
- The fair value of forward foreign exchange contracts is determined using forward exchange rates at the statements of financial position date, with the resulting value discounted back to present value

Other techniques, such as discounted cash flow analysis, are used to determine fair value for the remaining financial instruments. For trade and other receivables that are classified as current assets, the book value approximates a reasonable estimate of fair value.

(3) Valuation technique and the inputs

The Company utilizes a present value technique to discount future cash flows using a proper interest rate for corporate bonds, government and public bonds, and bank debentures that are classified as Level 2 in the fair value hierarchy.

The following table presents the valuation technique and the inputs used for major financial instruments classified as Level 3.

*(In millions of Korean won, and percentage)*

Classification	Fair value	Valuation technique	Level 3 inputs	Input range (Weighted average)
<b>Financial assets at fair value through other comprehensive income</b>				
Maltani	9,121	Discounted cash flow	Permanent growth rate Weighted average cost of capital	-1.0%~1.0%(0.0%) 8.7%~10.7%(9.7%)
Samsung Venture Investment	22,060	Discounted cash flow	Permanent growth rate Weighted average cost of capital	-1.0%~1.0%(0.0%) 18.7%~20.7%(19.7%)

**Samsung Electronics Co., Ltd.**

**NOTES TO THE SEPARATE FINANCIAL STATEMENTS**

(4) Changes in Level 3 instruments:

<i>(In millions of Korean won)</i>	<b>2020</b>	<b>2019</b>
<b>Financial assets</b>		
Balance as of January 1	84,536	83,258
Acquisitions	39,239	6,701
Disposals	(74)	(3,105)
Amount recognized in profit or loss	-	(1,458)
Amount recognized in other comprehensive income	6,541	733
Other	-	(1,593)
<b>Balance as of December 31</b>	<b>130,242</b>	<b>84,536</b>

(5) Sensitivity analysis for recurring fair value measurements categorized within Level 3

Sensitivity analysis of financial instruments is performed to measure favorable and unfavorable changes in the fair value of financial instruments which are affected by the unobservable parameters, using a statistical technique. When the fair value is affected by more than two input parameters, the amounts represent the most favorable or unfavorable.

The results of the sensitivity analysis for effect on other comprehensive income or loss (before-tax amount for other comprehensive income or loss) from changes in inputs for major financial instruments which are categorized within Level 3 and subject to sensitivity analysis are as follows:

<i>(In millions of Korean won)</i>	<b>Favorable changes</b>		<b>Unfavorable changes</b>	
	<b>Profit or loss</b>	<b>Equity</b>	<b>Profit or loss</b>	<b>Equity</b>
Financial assets at fair value through other comprehensive income <sup>1</sup>	-	3,906	-	(2,711)

<sup>1</sup> For equity securities, changes in fair value are calculated with the correlation between the discount rate and growth rate (-1% ~ 1%), which are significant unobservable inputs.

**Samsung Electronics Co., Ltd.**

**NOTES TO THE SEPARATE FINANCIAL STATEMENTS**

**29. Segment Information**

The chief operating decision-maker has been identified as the Management Committee. The Company determines operating segments based on the units reported to the Management Committee. The Management Committee reviews the operating profits of each operating segment in order to assess performance and to make strategic decisions regarding the allocation of resources to the segment.

Sales revenue consists mostly of product sales. The operating segments are product-based and are identified based on the internal organization and revenue streams. As of the reporting date, the operating segments are comprised of CE, IM, DS (Semiconductor), and others.

Total assets and liabilities of each operating segment are excluded from the disclosure as these have not been provided regularly to the Management Committee.

(1) For the year ended December 31, 2020

<i>(In millions of Korean won)</i>	<b>CE</b>	<b>IM</b>	<b>DS</b>	<b>Total<sup>1</sup></b>
Sales	30,618,259	64,473,747	70,874,770	166,311,191
Depreciation	98,409	202,568	15,413,851	16,125,530
Amortization	50,762	1,373,849	1,021,608	2,615,225
Operating profit	592,493	4,285,747	15,633,976	20,518,974

<sup>1</sup> Other operating segments are not separately disclosed.

(2) For the year ended December 31, 2019

<i>(In millions of Korean won)</i>	<b>CE<sup>1</sup></b>	<b>IM</b>	<b>DS</b>	<b>Total<sup>2</sup></b>
Sales	27,340,760	64,289,119	62,787,670	154,772,859
Depreciation	101,834	190,012	14,502,309	15,201,148
Amortization	47,939	1,366,641	806,368	2,385,156
Operating profit	891,195	1,425,024	11,793,296	14,115,067

<sup>1</sup> Segment information for the year ended December 31, 2019 has been restated due to the reclassification of Healthcare and Medical Equipment business to CE segment.

<sup>2</sup> Other operating segments are not separately disclosed.
