Notes: (1) As NTT prepares quarterly consolidated financial reports, changes in non-consolidated key financial data, among others, are not provided.

- (2) The figures of "Operating revenues," "Net income attributable to NTT," and "Basic earnings per share attributable to NTT" in square brackets are those for the three months ended September 30, 2016 and 2017, respectively.
- (3) Operating revenues do not include consumption taxes.
- (4) Diluted earnings per share attributable to NTT is not stated because NTT did not have potentially dilutive common shares that were outstanding during the period.

# 2. Description of Business

The principal business segments of NTT Group (NTT and its affiliated companies) are its regional communications business, long distance and international communications business, mobile communications business, and data communications business.

There were no material changes in NTT Group's business during the six months ended September 30, 2017, nor were there any material changes in its subsidiaries and affiliated companies.

# **Item 2. Business Overview**

# 1. Risk Factors

There were no risks newly identified during the six months ended September 30, 2017. There was no material change in risk factors which were described in NTT's Annual Securities Report for the fiscal year ended March 31, 2017.

# 2. Material Contracts

There were no material contracts relating to NTT's operations that were agreed upon or entered into during the six months ended September 30, 2017.

### 3. Analysis of Consolidated Financial Condition, Results of Operations, and Cash Flows

### (1) Consolidated Results

Six-Month Period Ended September 30, 2017 (April 1, 2017 – September 30, 2017)

	(Billions of yen)			
	Six Months	Six Months		
	Ended	Ended		Percent

During the six months ended September 30, 2017, pursuant to its Medium-Term Management Strategy, adopted in May 2015, entitled "Towards the Next Stage 2.0," NTT implemented measures to embark on a profit growth track by accelerating its self-transformation as a "Value Partner."

# < Efforts to Expand NTT's Global Business and Increase Profit Generation>

NTT Group seeks to establish and expand its global cloud service as a cornerstone of its business operations, and strengthened its efforts to accelerate overseas profit generation through the following initiatives.

Specifically, NTT Group promoted cross-selling through collaboration among its group companies, including businesses related to global networks, cloud migration, and IT outsourcing. In addition, in response to increased demand for data center services, NTT launched its Rhein-Ruhr 1 Data Center in Germany, and began construction of new data center services in the cities of Mumbai and Bangalore in India.

Furthermore, each NTT Group Company has been engaged in strengthening and increasing the efficiency of its services and operations, and implementing cost reduction and profit generation measures through, among other things, reviewing its delivery systems.

### < Efforts to Optimize Domestic Network Businesses and Enhance Profitability>

NTT Group continued working to enhance profitability by creating high value-added services as well as optimizing capital investments and reducing costs for its domestic network businesses, and worked to improve the efficiency of its facility use and reduce procurement costs, in addition to simplifying and streamlining its network systems.

In the regional communications business segment, NTT promoted initiatives for its "Hikari Collaboration Model" and subscriptions for Hikari access services for the "Hikari Collaboration Model" surpassed 10.00 million. In the mobile communications business segment, NTT worked to continuously enhance profitability by promoting its "Kake-hodai & Pake-aeru" billing plan, for which subscriptions reached over 39.00 million, and by agreeing to a business alliance with Matsumoto Kiyoshi Holdings Co., Ltd., including marketing collaborations and establishing point-sharing systems.

<Efforts to Achieve Sustainable Growth >

NTT Group will support the communications services field as a Gold Partner (Telecommunications Services) for the Olympic and Paralympic Games Tokyo 2020, and sees the initiative to bring about Society 5.0 (the creation of a new smart society that helps to resolve social issues), which is being promoted through public-private partnerships, as a great opportunity to utilize its collective strength.

NTT Group plans to make use of these opportunities to further accelerate migration to the B2B2X model and, together with businesses in other fields and local governments, strengthen measures aimed at creating services that will become the standards of the next generation.

Specifically, NTT agreed with Komatsu Ltd., SAP Japan Co., Ltd. and OPTiM Corporation to collectively plan and operate "LANDLOG," a new platform that connects all construction production processes. In addition, NTT began joint experiments with NYK Group relating to IoT next generation platform development in vessel shipping.

As a result of these efforts, NTT Group's consolidated operating revenues for the six-month period ended September 30, 2017 were \(\frac{\pmathbf{5}}{5},664.8\) billion (an increase of 2.5% from the same period of the previous fiscal year), consolidated operating expenses were \(\frac{\pmathbf{4}}{4},689.6\) billion (an increase of 2.0% from the same period of the previous fiscal year), consolidated operating income was \(\frac{\pmathbf{4}}{975.2}\) billion (an increase of 5.3% from the same period of the previous fiscal year), consolidated income before income taxes and equity in earnings (losses) of affiliated companies was \(\frac{\pmathbf{4}}{982.0}\) billion (an increase of 9.5% from the same period of the previous fiscal year), and net income attributable to NTT was \(\frac{\pmathbf{5}}{527.5}\) billion (an increase of 10.8% from the same period of the previous fiscal year).

Notes: (1) The consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States.

(2) NTT, NTT East, NTT West, NTT Communications, and NTT DOCOMO are Gold Partners (Telecommunications Services) for the Olympic and Paralympic Games Tokyo 2020.

# (2) Segment Results

NTT Group has five business segments: regional communications business, long distance and international communications business, mobile communications business, data communications business and other business.

The regional communications business segment comprises fixed voice related services, IP/packet communications services, system integration services and other services.

The long distance and international communications business segment principally comprises fixed voice related services, IP/packet communications services, system integration services and other services.

The mobile communications business segment comprises mobile voice related services, IP/packet communications services and other services.

The data communications business segment comprises system integration services.

The other business segment principally comprises real estate, finance, construction and power, systems development, and other services related to advanced research and development.

Results by business segment are as follows (intersegment revenues are included in the operating revenues, operating expenses and operating income of operational results for each business segment):

# Regional Communications Business Segment

Six-Month Period Ended September 30, 2017 (April 1, 2017 – September 30, 2017)

	(Billions of yen)			
	Six Months Ended September 30, 2016	Six Months Ended September 30, 2017	Change	Percent Change
Operating revenues	1,620.4	1,580.6	(39.8)	(2.5)%
Fixed voice related services	604.3	568.9	(35.4)	(5.9)%
IP/packet communications services	771.9	766.5	(5.4)	(0.7)%
System integration services	64.5	64.2	(0.3)	(0.4)%
Other services	179.8	181.0	1.2	0.7%
Operating expenses	1,388.2	1,327.4	(60.7)	(4.4)%
Operating income	232.2	253.2	20.9	9.0%

Operating revenues in the regional communications business segment for the six-month period ended September 30, 2017 decreased 2.5% from the same period of the previous fiscal year to \$1,580.6 billion due to, among other things, a decrease in fixed voice related revenues. On the other hand, operating expenses for the six-month period ended September 30, 2017 decreased 4.4% from the same period of the previous fiscal year to \$1,327.4 billion due to a decrease in depreciation costs, among other factors. As a result, segment operating income for the six-month period ended September 30, 2017 increased 9.0% from the same period of the previous fiscal year to \$253.2 billion.

Hikari Denwa (thousand channels)	8,390	8,447	56	0.7%
FLET'S TV Transmission Services	570	597	27	4.8%

Notes: (1) Number of Telephone Subscriber Lines is the total of individual lines and central station lines (Subscriber Telephone Light Plan is included).

- (2) "INS-Net" includes "INS-Net 64" and "INS-Net 1500." In terms of number of channels, transmission rate, and line use rate (base rate), "INS-Net 1500" is in all cases roughly ten times greater than "INS-Net 64." For this reason, one "INS-Net 1500" subscription is calculated as ten "INS-Net 64" subscriptions (including subscriptions to the "INS-Net 64 Lite Plan").
- (3) Number of FLET'S Hikari (including Hikari Collaboration Model) subscribers includes subscribers to "B FLET'S," "FLET'S Hikari Next," "FLET'S Hikari Light," "FLET'S Hikari Lightplus" and "FLET'S Hikari WiFi Access" provided by NTT East, subscribers to "B FLET'S," "FLET'S Hikari Premium," "FLET'S Hikari Mytown," "FLET'S Hikari Next," "FLET'S Hikari Mytown Next," "FLET'S Hikari Light" and "FLET'S Hikari WiFi Access" provided by NTT West and subscribers to the "Hikari Collaboration Model," the wholesale provision of services to service providers by NTT East and NTT West.
- (4) Numbers of subscribers for "Hikari Denwa" and "FLET'S TV Transmission Services" include wholesale services provided to service providers by NTT East and NTT West.

### Long Distance and International Communications Business Segment

Six-Month Period Ended September 30, 2017 (April 1, 2017 – September 30, 2017)

	(Billions of yen)			
	Six Months Ended September 30, 2016	Six Months Ended September 30, 2017	Change	Percent Change
Operating revenues	1,038.8	1,064.8	26.0	2.5%
Fixed voice related services	130.8	119.5	(11.3)	(8.6)%
IP/packet communications services	194.7	202.7	8.0	4.1%
System integration services	633.3	656.6	23.4	3.7%
Other services	80.1	86.0	5.9	7.3%
Operating expenses	996.7	994.4	(2.2)	(0.2)%
Operating income	42.2	70.4	28.2	66.9%

Operating revenues in the long distance and international communications business segment for the six-month period ended September 30, 2017 increased 2.5% from the same period of the previous fiscal year to \(\frac{\pmathbf{1}}{1}\),064.8 billion. This increase was due to, among other things, an increase in system integration revenues due to increased revenues of data center services and an increase in IP/packet communications revenues due to the expansion of "OCN Hikari" and other services, partially offset by a decrease in fixed voice related revenues. On the other hand, operating expenses for the six-month period ended September 30, 2017 decreased 0.2% from the same period of the previous fiscal year to \(\frac{\pmathbf{9}}{9}\)4.4 billion due to impairment losses that were recorded for the six-month period ended September 30, 2016 that were not recorded for the six-month period ended September 30, 2017, among other things. As a result, segment operating income for the six-month period ended September 30, 2017 increased 66.9% from the same period of the previous fiscal year to \(\frac{\pmathbf{7}}{7}\)0.4 billion.

# Mobile Communications Business Segment

Six-Month Period Ended September 30, 2017 (April 1, 2017 – September 30, 2017)

	(Billions of yen)			
	Six Months Ended September 30, 2016	Six Months Ended September 30, 2017	Change	Percent Change
Operating revenues	2,288.0	2,300.1	12.1	0.5%
Mobile voice related services	435.4	472.6	37.2	8.5%
IP/packet communications services	1,034.4	1,089.4	55.0	5.3%
Other services	818.2	738.1	(80.1)	(9.8)%
Operating expenses	1,704.3	1,752.8	48.5	2.8%
Operating income	583.7	547.3	(36.5)	(6.2)%

Despite a decline in revenues due to enhancing returns to customers and the decrease in sales of equipment, operating revenues for the mobile communications business segment for the six-month period ended September 30, 2017 increased 0.5% from the same period of the previous fiscal year to ¥2,300.1 billion due to an increase in IP/packet communications revenues resulting from the expansion of "Kake-hodai & Pake-aeru" and "docomo Hikari." On the other hand, operating expenses for the six-month period ended September 30, 2017 increased 2.8% from the same period of the previous fiscal year to ¥1,752.8 billion due to an increase in revenue-linked expenses in "docomo Hikari", among other factors. As a result, segment operating income for the six-month period ended September 30, 2017 decreased 6.2% from the same period of the previous fiscal year to ¥547.3 billion.

Note: Number of Mobile Telecommunications Services (including "Telecommunications Services (LTE (Xi))" and "Telecommunications Services (FOMA (3G))") includes Communication Module Services.

### Data Communications Business Segment

Six-Month Period Ended September 30, 2017 (April 1, 2017 – September 30, 2017)

		(Billions of yen)		
	Six Months	Six Months		
	Ended	Ended		Percent
	<b>September 30, 2016</b>	<b>September 30, 2017</b>	Change	Change
Operating revenues	762.1	944.4	182.4	23.9%
Operating expenses	726.2	885.4	159.3	21.9%
Operating income	35.9	59.0	23.1	64.4%

Operating revenues in the data communications business segment for the six-month period ended September 30, 2017 increased 23.9% from the same period of the previous fiscal year to ¥944.4 billion due to, among other things, the impact of the increase in the number of and expansion of consolidated subsidiaries resulting from the acquisition of Dell Services and the expansion of NTT's domestic businesses. On the other hand, operating expenses for the six-month period ended September 30, 2017 increased 21.9% from the same period of the previous fiscal year to ¥885.4 billion due to, among other things, the impact of the increase in the number of and expansion of consolidated subsidiaries and an increase in revenue-linked expenses. As a result, segment operating income for the six-month period ended September 30, 2017 increased 64.4% from the same period of the previous fiscal year to ¥59.0 billion.

### Other Business Segment

Six-Month Period Ended September 30, 2017 (April 1, 2017 – September 30, 2017)

		(Billions of yen)		
	Six Months Ended September 30, 2016	Six Months Ended September 30, 2017	Change	Percent Change
Operating revenues	567.6	564.4	(3.2)	(0.6)%
Operating expenses	537.9	525.0	(12.9)	(2.4)%
Operating income	29.7	39.4	9.7	32.7%

Operating revenues in the other business segment for the six-month period ended September 30, 2017 decreased 0.6% from the same period of the previous fiscal year to \(\frac{\text{\$}}\)564.4 billion due to a decrease in revenues of NTT Group's systems development business, partially offset by an increase in revenues of NTT Group's real estate business, among other things. On the other hand, operating expenses for the six-month period ended September 30, 2017 decreased 2.4% from the same period of the previous fiscal year to \(\frac{\text{\$}}{255.0}\) billion due to, among other things, a decrease in revenue-linked expenses in NTT Group's systems development business and cost reductions by each group company. As a result, segment operating income for the six-month period ended September 30, 2017 increased 32.7% from the same period of the previous fiscal year to \(\frac{\text{\$}}{39.4}\) billion.

### (3) Cash Flows

Net cash provided by operating activities for the six-month period ended September 30, 2017 decreased by \(\xi\)277.5 billion (20.0%) from the same period of the previous fiscal year to \(\xi\)1,112.9 billion. This decrease was due to, among other factors, a decrease in collection of accounts receivable.

Net cash used in investing activities increased by \$198.2 billion (22.6%) from the same period of the previous fiscal year to \$1,074.7 billion. This increase was due to, among other factors, an increase in payments for capital investments.

Net cash used in financing activities decreased by ¥444.3 billion (79.0%) from the same period of the previous fiscal year to ¥118.1 billion. This decrease was due to, among other factors, a decrease in stock repurchases by NTT and a decrease in stock repurchases by NTT's subsidiaries.

As a result of the above, NTT Group's consolidated cash and cash equivalents as of September 30, 2017 totaled ¥840.7 billion, a decrease of ¥84.6 billion (9.1%) from the end of the previous fiscal year.

# NIPPON TELEGRAPH AND TELEPHONE CORPORATION AND SUBSIDIARIES

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

### 1. Summary of significant accounting policies:

As permitted by the "Ordinance on the Terminology, Forms, and Preparation Methods of Quarterly Consolidated Financial Statements" (Japanese Cabinet Office Ordinance No. 64 of 2007), the accompanying consolidated balance sheets at March 31 and September 30, 2017, the consolidated statements of income and the consolidated statements of comprehensive income for the three and six months ended September 30, 2016 and 2017 and the consolidated statements of cash flows for the six months ended September 30, 2016 and 2017 of NTT and its subsidiaries (collectively with NTT, "NTT Group") have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). Certain disclosures required by U.S. GAAP have been omitted.

### (1) Application of New Accounting Standards

#### **Balance Sheet Classification of Deferred Taxes –**

On November 20, 2015, the FASB issued ASU2015-17 "Balance sheet classification of deferred taxes" which requires that all deferred tax liabilities and assets be classified as noncurrent on the balance sheet.

Effective April 1, 2017, NTT Group adopted this ASU prospectively and prior periods were not retrospectively adjusted.

### Simplifying the Test for Goodwill Impairment -

On January 26, 2017, the FASB issued ASU 2017-04 "Simplifying the Test for Goodwill Impairment," which replaces the two-step goodwill impairment test with the one-step goodwill impairment test. The amendments in this update require that an entity should perform its annual, or interim, goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount and an entity should recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value.

The adoption of ASU 2017-04 would be permitted for goodwill impairment tests with measurement dates after January 1, 2017. NTT Group adopted this ASU for goodwill impairment test with measurement date on July 1, 2017.

### (2) Change in Fiscal Year End of Certain Subsidiaries

As of April 1, 2016, certain of NTT's consolidated subsidiaries changed their fiscal year ends from December 31 to March 31, thereby eliminating a three-month lag between their fiscal year ends and NTT's fiscal year end in NTT's quarterly consolidated financial statements. The elimination of this lag was applied as a change in accounting policy. NTT did not make any retrospective adjustments to its financial statements as these changes did not have a material impact on the consolidated financial statements for the fiscal year ended March 31, 2016. As a result of this change, NTT's retained earnings, accumulated other comprehensive income (loss), and noncontrolling interests have decreased by ¥214 million, ¥1,454 million and ¥1,408 million, respectively, as of the beginning of the previous fiscal year. In addition, the change in cash and cash equivalents resulting from this change in fiscal year end is presented in the consolidated statements of cash flows under "Increase (decrease) in cash and cash equivalents due to change in fiscal year end of consolidated subsidiaries."

As of April 1, 2017, certain of NTT's consolidated subsidiaries changed their fiscal year ends from December 31 or January 31 to March 31, thereby eliminating a three-month or two-month lag between their fiscal year ends and NTT's fiscal year end in NTT's quarterly consolidated financial statements. The elimination of this lag was applied as a change in accounting policy. NTT did not make any retrospective adjustments to its financial statements as these changes did not have a material impact on the consolidated financial statements for the six months ended September 30, 2016 or the year ended March 31, 2017. As a result of this change, NTT's retained earnings have increased by \(\frac{1}{2}\)964 million, and its accumulated other comprehensive income (loss) and noncontrolling interests have decreased by \(\frac{1}{2}\)351 million and \(\frac{1}{2}\)2012 million, respectively, as of the beginning of the current fiscal year. In addition, the change in cash and cash equivalents resulting from this change in fiscal year end is presented in the consolidated statements of cash flows under "Increase (decrease) in cash and cash equivalents due to change in fiscal year end of consolidated subsidiaries."

# (3) Earnings per Share

Basic earnings per share ("EPS") is computed based on the average number of shares outstanding during the period. Diluted EPS assumes the dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock. Since NTT did not issue dilutive securities for the six months ended September 30, 2016 and 2017, there is no difference between basic EPS and diluted EPS.

### (4) Reclassifications

Certain items for prior periods' financial statements have been reclassified to conform to the presentation for the six months ended September 30, 2017.

# (5) Recently Issued Accounting Standards

### Revenue from Contracts with Customers -

On May 28, 2014, the FASB issued ASU 2014-09 "Revenue from Contracts with Customers," which requires an entity to recognize revenue when the entity transfers control of promised goods or services to customers. Revenue is recognized in an amount that reflects the consideration an entity expects to receive in exchange for those goods or services. An entity also is required to disclose sufficient quantitative and qualitative information to enable users of financial statements to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The ASU will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective.

The FASB also issued ASU 2016-08 "Principal versus Agent Considerations (Reporting Revenue Gross versus Net)," ASU 2016-10 "Identifying Performance Obligations and Licensing," ASU 2016-12 "Narrow-Scope Improvements and Practical Expedients," ASU 2016-20 "Technical Corrections and Improvements to Topic 606," and ASU 2017-05 "Clarifying the Scope of Asset Derecognition Guidance and Accounting for Partial Sales of Nonfinancial Assets" in March, April, May and December 2016, and February 2017, respectively, to amend ASU 2014-09 partially.

On August 12, 2015, the FASB issued ASU 2015-14 "Revenue from Contracts with Customers: Deferral of the Effective Date," and deferred the effective date of ASU 2014-09 by one year. Consequently, the new standard is effective for annual reporting periods beginning after December 15, 2017. The standard is expected to take effect for NTT Group on April 1, 2018. Early adoption of the standard as of April 1, 2017 would also be permitted.

The two permitted transition methods under the new standard are the full retrospective method, or the modified retrospective method. Under the full retrospective method, all periods presented will be updated upon adoption to conform to the new standard and a cumulative adjustment for effects on periods prior to the reporting period will be recorded to retained earnings at the beginning of the initial reporting period. Under the modified retrospective approach, the current reporting period will be updated to conform to the new standard and a cumulative adjustment for effects of applying the new standard to periods prior to the reporting period that includes the date of initial application is recorded to retained earnings as of the date of initial application, and also incremental disclosures related to the amount affected by the application of this new standard are required.

NTT has not decided on a transition method and is currently evaluating the impact of the new standard on NTT's consolidated financial statements and related disclosures. The impact on revenue resulting from the application of the new standard will be subject to assessments that are dependent on many variables, including, but not limited to, the terms, the transaction prices including discounts and the mixture of the goods and services of NTT's contractual arrangements. While NTT is continuing to assess all potential impacts resulting from the application of the new standard, NTT believes that the most significant impacts may include the following items:

- The new standard requires the recognition of incremental costs of obtaining contacts and direct costs of fulfilling contracts with customers as assets. Under the current standard, those costs relating to communication services provided on the Regional communications business, the Long distance and international communications business, and the Mobile communications business are capitalized and amortized up to the upfront fees as the upper limit over the estimated average period of the subscription for each service. After adopting the new standard, all of those costs will be capitalized, and therefore, part of the sales commissions and other charges that have previously been treated as expenses will be recognized as additional assets.
- The new standard requires that if customers are granted by an entity the option to acquire additional goods or services at a discount by a contract agreed between the customer and the entity, the entity shall identify this option as a separate performance obligation upon granting such option as a part of the consideration of the transaction being recognized as contract liabilities, and recognize revenue when the additional good or service is transferred at a discount to the customer or when such option expires. Under the current standard, NTT Group records accrued liabilities relating to the points that customers earn. After adopting the new standard, NTT Group will recognize a part of the consideration for transactions of mobile communications and other services as contract liabilities at the time when the points are granted, and recognize revenue when points are used for additional goods or services at a discount.

NTT Group is in the process of setting up operating processes and internal controls for the adoption of the new revenue recognition standard.

### Recognition and Measurement of Financial Assets and Financial Liabilities -

On January 5, 2016, the FASB issued ASU 2016-01 "Recognition and Measurement of Financial Assets and Financial Liabilities," which makes targeted improvements to the accounting for, and presentation and disclosure of, financial instruments. ASU 2016-01 requires that most equity investments be measured at fair value, with subsequent changes in fair value recognized in net income. ASU 2016-01 does not affect the accounting for investments that would otherwise be consolidated or accounted for under the equity method. The new standard also affects the recognition of changes in fair value of financial liabilities under the fair value option and the presentation and disclosure requirements for financial instruments. ASU 2016-01 is effective for fiscal years beginning after December 15, 2017. The new standard is expected to take effect for NTT Group on April 1, 2018.

NTT is currently evaluating the effect of adopting the ASU.

#### Leases -

On February 25, 2016, the FASB issued ASU 2016-02 "Leases," which requires all lessees to recognize right-of-use assets and lease liabilities, principally. The new standard is effective for fiscal years beginning after December 15, 2018. The new standard is expected to take effect for NTT Group on April 1, 2019. Early adoption is permitted.

The adoption of the new accounting standard is expected to result in the recognition of additional right-of-use assets and lease liabilities. NTT is considering the scope and the amounts of assets and liabilities to be recognized.

# Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost -

On March 10, 2017, the FASB issued ASU2017-07 "Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost," which requires that employers report the service cost component in the same line item(s) as other employee compensation costs arising from services rendered during the period, and report the other components of net benefit cost separately from the service cost component and outside a subtotal of operating income. Only the service cost component will be eligible for capitalization. The updated presentation of net benefit cost in an employer's income statement is to be applied retrospectively while the change in capitalized benefit cost is to be applied prospectively. ASU 2017-07 is effective for fiscal years beginning after December 15, 2017. The standard is expected to take effect for NTT Group on April 1, 2018. Early adoption of the standard as of April 1, 2017 would also be permitted.

NTT is currently evaluating the effect of adopting the ASU.

### Equity transactions with noncontrolling interests –

On April 28, 2016, the Board of Directors of NTT DOCOMO, Inc. ("NTT DOCOMO"), a subsidiary of NTT, resolved that NTT DOCOMO may acquire up to 99,132,938 shares of its outstanding common stock for an amount in total not exceeding \(\frac{\pma}{192,514}\) million from May 2, 2016 through December 31, 2016. Based on this resolution, NTT DOCOMO repurchased 9,021,000 shares of its common stock at \(\frac{\pma}{24,433}\) million using the ToSTNeT-3 on May 18, 2016, and also repurchased 31,340,000 shares of its common stock at \(\frac{\pma}{24,749}\) million by way of market purchases based on the discretionary dealing contract until September 30, 2016. As a result, NTT's ownership interest in NTT DOCOMO increased from 65.7% to 66.4% and "Additional paid-in capital" decreased by \(\frac{\pma}{2},270\) million in the consolidated balance sheet as of September 30, 2016.

On October 26, 2017, the Board of Directors of NTT DOCOMO resolved that NTT DOCOMO may acquire up to 120 million shares of its outstanding common stock for an amount in total not exceeding \(\frac{1}{2}\)300 billion from October 27, 2017 through March 31, 2018.

#### 4. Fair value measurements:

The inputs to valuation techniques used to measure fair value are required to be categorized by fair value hierarchy. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 Quoted prices for identical assets or liabilities in active markets
- Level 2 Quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs derived principally from observable market data
- Level 3 Unobservable inputs

Assets and liabilities measured at fair value on a recurring basis as of March 31 and September 30, 2017 are as follows:

There were no transfers between Level 1 and Level 2.

Level 3 reconciliation is not disclosed, since the amounts in Level 3 are immaterial.

#### Available-for-sale securities -

Available-for-sale securities comprise marketable equity securities and debt securities. If active market prices are available, fair value is measured by quoted prices for identical assets in active markets, which is classified as Level 1. If active market prices are not available, fair value is measured by inputs derived principally from observable market data provided by financial institutions, which is classified as Level 2. In cases in which fair value is measured by inputs derived from unobservable data, it is classified as Level 3.

#### Derivatives -

Derivatives comprise forward exchange contracts, interest rate swap agreements, currency swap agreements and currency option agreements. Fair value of derivatives is measured by inputs derived principally from observable market data provided by financial institutions, which is classified as Level 2.

Assets and liabilities measured at fair value on a nonrecurring basis for the six months ended September 30, 2016 and 2017 were immaterial.

#### 5. Segment information:

Operating segments are components of NTT Group 1) that engage in business activities, 2) whose operating results are regularly reviewed by NTT Group's chief operating decision maker to make decisions on the allocation of financial resources and to evaluate business performance, and 3) for which discrete financial information is available. Accounting policies used to determine segment profit/loss are consistent with those used to prepare the consolidated financial statements in accordance with accounting principles generally accepted in the United States.

The regional communications business segment principally comprises revenues from fixed voice related services, IP/packet communications services, sales of telecommunications equipment and other operating revenues.

The long distance and international communications business segment principally comprises revenues from fixed voice related services, IP/packet communications services, system integration services and other operating revenues.

Transfers between operating segments are based on the values that approximate arm's-length prices. Operating income is operating revenue less costs and operating expenses.

There were no operating revenues from transactions with a single external customer amounting to 10% or more of NTT Group's revenues for the six months ended September 30, 2016 and 2017.

#### 6. Research and development expenses:

Research and development costs are charged to expenses as incurred. Research and development expenses amounted to \$102,702 million and \$98,350 million for the six months ended September 30, 2016 and 2017, respectively, and \$57,621 million and \$51,460 million for the three months ended September 30, 2016 and 2017, respectively.

### 7. Financing receivables:

NTT Group has certain "Financing receivables," including loans and lease receivables. These financing receivables are mainly held by the financial subsidiaries of NTT. NTT manages these financing receivables by classifying them into "Installment sales receivable," "Lease receivable," "Loans receivable," "Credit receivable" and "Others."

The allowance for doubtful accounts against financing receivables collectively evaluated for impairment is computed based on each historical bad debt experience. The allowance for doubtful accounts against financing receivables individually evaluated for impairment is computed based on the estimated uncollectible amount based on an analysis of certain individual accounts. In addition, financing receivables that are determined to be uncollectible due to, among other factors, the condition of the debtor are written off at the time of determination.

Rollforward of allowance for doubtful accounts and recorded investment in financing receivables for the six months ended September 30, 2016 and 2017, and the changes in doubtful accounts for the six months ended September 30, 2016 and 2017 are as follows:

### 8. Contingent liabilities:

Contingent liabilities at September 30, 2017 for loans guaranteed, among other things, amounted to ¥76,302 million.

As of September 30, 2017, NTT Group had no material litigation or claims outstanding, pending or threatened against it, which would be expected to have a material adverse effect on NTT's consolidated financial position or results of operations.

#### 9. Subsequent events:

### Payment Received in Respect of Arbitration Award Regarding Stake in Tata Teleservices

Tata Teleservices Limited ("TTSL") is a telecommunication operator in India and a privately held company.

As of September 30 2017, NTT Group held approximately 21.6% of the outstanding common shares of TTSL and accounted for the investment under the equity method.

Under the shareholders agreement (the "Agreement") entered into among TTSL, Tata Sons Limited ("Tata Sons") and NTT DOCOMO when NTT DOCOMO entered into a business alliance with TTSL in March 2009, NTT DOCOMO shall have certain shareholder rights, including the right to require Tata Sons to find a suitable buyer for NTT DOCOMO's entire stake (1,248,974,378 shares, or approximately 26.5% of outstanding shares) in TTSL for 50% of the NTT DOCOMO's acquisition price, which amounts to 72.5 billion Indian rupees (or ¥127.6 billion\*1), or at fair value, whichever is higher, in the event that TTSL fails to achieve certain specified performance targets by March 31, 2014. The right became exercisable on May 30, 2014, and NTT DOCOMO exercised the right on July 7, 2014.

The obligation of Tata Sons under the Agreement was not fulfilled, although NTT DOCOMO repeatedly held discussions with Tata Sons regarding the sale of NTT DOCOMO's entire stake in TTSL pursuant to the Agreement. Accordingly, NTT DOCOMO submitted a request for arbitration to the London Court of International Arbitration ("LCIA") on January 3, 2015.

NTT DOCOMO received a binding arbitration award from the LCIA on June 23, 2016. The award ordered that Tata Sons pay damages to NTT DOCOMO in the amount of approximately \$1,172 million (or ¥132.6 billion\*2) for Tata Sons' breach of the Agreement, upon NTT DOCOMO's tender of its entire stake in TTSL to Tata Sons or its designee.

On July 8, 2016, NTT DOCOMO submitted an application to the High Court in India ("the Court") requesting enforcement of the LCIA Award in India. On February 25, 2017, NTT DOCOMO and Tata Sons submitted a joint application to the Court requesting that the Court declare the LCIA Award enforceable in India. On April 28, 2017, the Court delivered a court decision approving the joint application.

On October 31, 2017, NTT DOCOMO received \( \frac{\pmathbb{4}}{144.9} \) billion\*3 from Tata Sons as payment of the arbitration award amount in accordance with the Court decision regarding NTT DOCOMO's stake in TTSL. As a result of this transaction, NTT Group expects to include the award amount of \( \frac{\pmathbb{4}}{144.9} \) billion in other income on the consolidated financial statements for the three month period ending December 31, 2017.

Concurrent with the receipt of the above award amount, all shares in TTSL held by NTT DOCOMO have been transferred to Tata Sons and companies designated by Tata Sons. Upon the transfer of NTT DOCOMO's shares in TTSL, NTT Group no longer accounts for investments in TTSL under the equity method. As a result, NTT Group expects to include a loss on transfer of investments in affiliates of ¥29.8 billion, equal to the reclassification adjustments of foreign currency translation adjustments, in other expense on its consolidated financial statements for the three month period ending December 31, 2017.

- \*1 1 rupee =  $\frac{1.76}{1.76}$  as of October 31, 2017
- \*2 \$1 = \$113.16 as of October 31, 2017
- \*3 The amount received included interest earned and other costs awarded.
