Notes to Unaudited Consolidated Financial Statements

1. Basis of preparation:

The accompanying unaudited condensed consolidated financial statements of Toyota Motor Corporation (the "parent company") as of and for the period ended June 30, 2008, have been prepared in accordance with accounting principles generally accepted in the United States of America and on substantially the same basis as its annual consolidated financial statements except for certain disclosures which have been omitted. The unaudited condensed consolidated financial statements should be read in conjunction with the Annual Report on Form 20-F for the year ended March 31, 2008. The unaudited condensed consolidated financial statements reflect all adjustments, consisting of only normal recurring adjustments, necessary for a fair presentation of the result for that period and the financial condition at that date. The consolidated result for the three-month period is not necessarily indicative of results to be expected for the full year.

Reclassifications -

Certain prior year amounts have been reclassified to conform to the presentations as of and for the first quarter ended June 30, 2008.

2. Accounting changes:

In September 2006, the Financial Accounting Standard Board ("FASB") issued FAS No. 157, Fair Value Measurements ("FAS 157"), which defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. The parent company and its consolidated subsidiaries ("Toyota") adopted FAS 157 from the fiscal year begun after November 15, 2007. The adoption of FAS 157 did not have material impact on Toyota's consolidated financial statements.

In September 2006, FASB issued FAS No. 158, Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans - an amendment of FASB Statements No. 87, 88, 106, and 132(R) ("FAS 158"). FAS 158 requires employers to measure the funded status of their defined benefit postretirement plans as of the date of their year-end statement of financial position. Toyota adopted this provision in FAS 158 regarding a measurement date from the fiscal year ending after December 15, 2008. The adoption of this provision in FAS 158 did not have material impact on Toyota's consolidated financial statements.

In February 2007, FASB issued FAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities - Including an amendment of FASB Statement No. 115 ("FAS 159"). FAS 159 permits entities to measure many financial instruments and certain other assets and liabilities at fair value on an instrument-by-instrument basis and subsequent change in fair value must be recorded in earnings at each reporting date. Toyota adopted FAS 159 from the fiscal year begun after November 15, 2007. Because Toyota has not elected the fair value

Notes to Unaudited Consolidated Financial Statements

option for the first quarter ended June 30, 2008, the adoption of FAS 159 did not have material impact on Toyota's consolidated financial statements.

3. Accounting procedures specific to quarterly consolidated financial statements:

Provision for income taxes

The provision for income taxes is computed by multiplying income before income taxes, minority interest and equity in earnings of affiliated companies for the first quarter by estimated effective tax rates. These estimated effective tax rates reflect anticipated investment tax credits, foreign tax credits and other items including changes in valuation allowances, that affect estimated effective tax rates.

4. U.S. dollar amounts:

U.S. dollar amounts presented in the condensed consolidated financial statements and related notes are included solely for the convenience of the reader and are unaudited. These translations should not be construed as representations that the yen amounts actually represent, or have been or could be converted into, U.S. dollars. For this purpose, the rate of \(\frac{\text{\$\text{\$\text{\$Y}}}106.42 = \text{\$\text{\$U.S.\$}\$}\$1, the approximate current exchange rate at June 30, 2008, was used for the translation of the accompanying condensed consolidated financial amounts of Toyota as of and for the period ended June 30, 2008.

Notes to Unaudited Consolidated Financial Statements

5. Contingencies:

Toyota enters into contracts with Toyota dealers to guarantee customers' payments of their installment payables that arise from installment contracts between customers and Toyota dealers, as and when requested by Toyota dealers. Toyota is required to execute its guarantee primarily when customers are unable to make required payments. The maximum potential amount of future payments as of June 30, 2008 is \mathbb{\frac{1}{3}},512,768 million (\mathbb{\frac{1}{4}},215 million). Liabilities for guarantee totaling \mathbb{\frac{2}{3}},929 million (\mathbb{\frac{3}{3}} million) have been provided as of June 30, 2008. Under these guarantee contracts, Toyota is entitled to recover any amount paid by Toyota from the customers whose original obligations Toyota has guaranteed.

Toyota, certain other automobile manufacturers, the National Automobile Dealers Association and the Canadian Automobile Dealers Association were named as defendants in purported nationwide class action lawsuits on behalf of all purchasers of new motor vehicles in the United States. The complaints allege that the defendants violated the Sherman Antitrust Act by conspiring to prevent the sale to United States citizens of vehicles produced for the Canadian market. The complaints seek injunctions against the alleged antitrust violations and treble damages in an unspecified amount. Toyota believes that its actions have been lawful. In the interest of quickly resolving these legal actions, however, Toyota entered into a settlement agreement with the plaintiffs. The settlement agreement is pending the approval of the court, and immediately upon approval the plaintiffs will, in accordance with the terms of the settlement agreement, withdraw all pending actions in the court and all related actions will be closed.

Toyota has various other legal actions, governmental proceedings and other claims pending against it, including product liability claims in the United States. Toyota cannot currently determine its potential liability or the damages, if any, with respect to these claims. However, based upon information currently available to Toyota, Toyota believes that its losses from these matters, if any, would not have a material adverse effect on Toyota's financial position, operating results or cash flows.

The European Union brought into effect a directive that requires member states to promulgate regulations implementing automobile manufacturers shall bear the costs for taking back end-of-life vehicles and dismantling and recycling those vehicles. Currently, there are uncertainties surrounding the implementation of the applicable regulations in different European Union member states, particularly regarding manufacturer responsibilities and resultant expenses that may be incurred. Based on the legislation that has been enacted to date, Toyota has provided for its estimated liability. Although Toyota does not expect its compliance

Notes to Unaudited Consolidated Financial Statements

with the directive to result in significant cash expenditures, Toyota is continuing to assess the impact of this future legislation on its results of operations, cash flows and financial position.

Notes to Unaudited Consolidated Financial Statements

6. Segment data:

The operating segments reported below are the segments of Toyota for which separate financial information is available and for which operating income/loss amounts are evaluated regularly by executive management in deciding how to allocate resources and in assessing performance.

The major portions of Toyota's operations on a worldwide basis are derived from the Automotive and Financial Services business segments. The Automotive segment designs, manufactures and distributes sedans, minivans, compact cars, sport-utility vehicles, trucks and related parts and accessories. The Financial Services segment consists primarily of financing, and vehicle and equipment leasing operations to assist in the merchandising of the parent company and its affiliate companies products as well as other products. The All Other segment includes the design, manufacturing and sales of housing, telecommunications and other business.

The following tables present certain information regarding Toyota's industry segments and operations by geographic areas and overseas revenues by destination for the first quarter ended June 30, 2008.

Segment operating results -

Notes to Unaudited Consolidated Financial Statements

Revenues are attributed to geographies based on the country location of the parent company or subsidiary that transacted the sale with the external customer.

There are no any individually material countries with respect to revenues, operating expenses or operating income included in other foreign countries.

Transfers between industries or geographic segments are made at amounts which Toyota's management believes approximate arm's-length transactions. In measuring the reportable segments' income or losses, operating income consists of revenue less operating expenses.

Overseas Revenues by destination -

The following information shows revenues that are attributed to countries based on location of customers, excluding customers in Japan. In addition to the disclosure requirements under FAS No. 131, Disclosure about Segments of an Enterprise and Related Information ("FAS 131"), Toyota discloses this information in order to provide financial statement users with valuable information.

7. Per share amounts:

Reconciliations of the differences between basic and diluted net income per share for the first quarter ended June 30, 2008 are as follows:

	Yen in millions	Thousands of shares	Yen	U.S. dollars		
	Net income	Weighted- average shares	Net income per share	Net income per share		
For the first quarter ended June						
30, 2008						
Basic net income						
per common share	¥ 353,659	3,149,288	¥ 112.30	\$ 1.06		
Effect of diluted securities						
Assumed exercise of						
dilutive stock options	(0)	458				
Diluted net income						
per common share	¥ 353,659	3,149,746	¥ 112.28	\$ 1.06		

Certain stock options were not included in the computation of diluted net income per share for the first quarter ended June 30, 2008 because the options' exercise prices were greater than the average market price per common share during the period.

In addition to the disclosure requirements under FAS No. 128, Earnings per Share, Toyota discloses the information below in order to provide financial statement users with valuable information.

The following table shows Toyota's net assets per share as of June 30, 2008 and March 31, 2008. Net assets per share amounts are calculated by dividing net assets' amount at the end of each period by the number of shares issued and outstanding, excluding treasury stock at the end of the corresponding period.

Yen in millions	Thousands of shares	<u>Yen</u>	U.S. dollars
