Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements. Even though an Element may be required to be inserted in the summary because of the type of securities, issuers and credit support providers, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the Summary with the mention of 'Not Applicable'.

Section B – Issuers and Credit Support Providers

Element	Title	
B.1	Legal and commercial name of the Issuer	Toyota Motor Finance (Netherlands) B.V. (" <i>TMF</i> ")/ Toyota Credit Canada Inc. (" <i>TCCI</i> ")/ Toyota Finance Australia Limited (ABN 48 002 435 181) (" <i>TFA</i> ")/ Toyota Motor Credit Corporation (" <i>TMCC</i> ")
B.2	Domicile/ legal form/ legislation/ country of incorporation	If the Issuer is TMF, TMF is a private company with limited liability incorporated and domiciled in the Netherlands under the laws of the Netherlands, with its corporate seat in Amsterdam, the Netherlands. If the Issuer is TCCI, TCCI is a corporation incorporated under the Canada Business Corporations Act and domiciled in Ontario, Canada. If the Issuer is TFA, TFA is a public company limited by shares incorporated under the Corporations Act 2001 of Australia (the "Australian Corporations Act") and domiciled in New South Wales, Australia. If the Issuer is TMCC, TMCC is a corporation incorporated and domiciled in California,
B.4b	Trend information	United States under the laws of the State of California. Not Applicable with respect to TMF and TFA; there are no known trends, uncertainties, demands, commitments or events that are reasonably likely to have a material effect on the prospects of the Issuer for the current financial year. Applicable if the Issuer is TCCI: • prices of used vehicles have remained at recent high levels during fiscal 2018. There can be no assurance that future prices of used vehicles will remain high, and a decline in such prices may have an adverse effect on lease termination losses, residual value provisions and net write-offs.

		 Applicable if the Issuer is TMCC: used vehicle prices for Toyota and Lexus vehicles improved slightly in the first half of fiscal 2019 compared to the same period in fiscal 2018 and were relatively consistent overall for fiscal 2018 compared to fiscal 2017. Declines in used vehicle prices resulting from increases in the supply of used vehicles, increases in new vehicle sales incentives and a larger lease portfolio resulting in higher future maturities could unfavourably impact vehicle return rates, residual values, depreciation expense and credit losses in the future; new retail volume decreased during the first half of fiscal 2019 compared to the same period in fiscal 2018 due to lower demand for Toyota and Lexus vehicles. New retail volume increased during fiscal 2018 compared to fiscal 2017 primarily due to an increase in demand for Toyota vehicles as well as an increase in subvention. Used retail volume decreased during fiscal 2018 compared to fiscal 2017 due to increased competition from other financial institutions. Lease volume increased slightly during the first half of fiscal 2019 compared to the same period in fiscal 2018. Lease volume decreased during fiscal 2018 compared to fiscal 2017 due to competition from other financial institutions, particularly for non-subvened lease contracts. As a result of the increased focus on leasing in recent years by both TMCC and the automotive finance industry, TMCC expects that maturities will increase in fiscal 2019, which will result in an increase in the supply of used vehicles and could unfavourably impact used vehicle prices. Higher average operating lease units outstanding and the resulting increase in future maturities, a higher supply of used vehicles, as well as deterioration in actual and expected used vehicle prices for Toyota and Lexus vehicles could unfavourably impact return rates, residual values and depreciation expense; net charge-off rates decreased during the first half of fiscal 2019 compared to the same perio
		period in fiscal 2018. Average loss severity decreased during the first half of fiscal 2019 compared to the same period in fiscal 2018 due to recent focus on late stage collection activities as well as changes in TMCC's purchasing practices that have improved the overall quality of TMCC's portfolio. TMCC's delinquencies remained consistent during the first half of fiscal 2019 compared to the same period in fiscal 2018 but have increased from 31 March 2018 reflective of TMCC's typical seasonal pattern for delinquency. During fiscal 2018, net charge-offs, default frequency, and average loss severity decreased compared with fiscal 2017, and delinquencies increased compared with fiscal 2017. Changes in the economy that impact the consumer, such as increasing interest rates, and a rise in the unemployment rate as well as higher debt balances, coupled with deterioration in actual and expected used vehicle prices, could increase TMCC's credit losses. In addition, a decline in the effectiveness of TMCC's collections practices could also result in increases to TMCC's credit losses; and • during the first half of fiscal 2019, TMCC's interest expense increased compared to the
		same period in fiscal 2018 as a result of higher interest rates. Future changes in interest rates in the U.S. and foreign markets could result in further volatility in TMCC's interest expense, which could affect TMCC's results of operations. ⁽¹⁾
B.5	Description of the Group	If the Issuer is TMF, TCCI or TFA, the Issuer is a wholly-owned subsidiary of TFS, a Japanese corporation. If the Issuer is TMCC, TMCC is a wholly-owned subsidiary of Toyota Financial Services International Corporation ("TFSIC"), a California corporation which itself is a wholly-owned
		subsidiary of TFS. TFS is a wholly-owned holding company subsidiary of TMC, a Japanese corporation and the ultimate parent company of the Toyota group.
B.9	Profit forecast or estimate	Not Applicable; there are no profit forecasts or estimates made in the Prospectus.

⁽¹⁾ The trend information for TMCC has been updated by virtue of the publication of TMCC's Quarterly Report on Form 10-Q for the quarter ended 30 September 2018.

		and its consolidated subsidiaries (considered as a whole) since 30 September 2018, the date
		of the most recently published financial statements of TMCC. (4) There has been no material
		adverse change in the prospects of TMCC since 31 March 2018, the date of the most recently
		published audited financial statements of TMCC.
B.13	Events impacting the Issuer's solvency	Not Applicable; there have been no recent events particular to the Issuer which are to a material extent relevant to the evaluation of its solvency.

⁽³⁾ The financial information has been updated by virtue of the publication of TMCC's Quarterly Report on Form 10-Q for the quarter ended 30 September 2018.

⁽⁴⁾ The no significant change statement has been updated by virtue of the publication of TMCC's Quarterly Report on Form 10-Q for the quarter ended 30 September 2018.

B.14	Dependence upon other group entities	If the Issuer is TMF, the Issuer is dependent on the performance of the subsidiaries and affiliates of TMC and TFS to which TMF grants loans and/or in respect of which it issues guarantees. If the Issuer is TCCI, the Issuer's business is substantially dependent upon the sale of Toyota and Lexus vehicles in Canada by its primary distributor, Toyota Canada Inc.
		If the Issuer is TFA, the Issuer's business is substantially dependent upon the sale of Toyota and Lexus vehicles in Australia by its primary distributor, Toyota Motor Corporation Australia Limited. In addition, TFA is also dependent on Toyota Finance New Zealand Limited's performance, to the extent of TFA's interest in that company.
		If the Issuer is TMCC, the Issuer's business is substantially dependent upon the sale of Toyota and Lexus vehicles in the United States by its primary distributor, Toyota Motor Sales, U.S.A., Inc.
B.15	Principal activities	If the Issuer is TMF, TMF's principal activity is to act as a group finance company for some of the subsidiaries and affiliates of TMC and TFS. TMF raises funds by issuing bonds and notes in the international capital markets and from other sources and on-lends to other Toyota group companies. TMF also issues guarantees for debt issuances of certain other Toyota group companies.
		If the Issuer is TCCI, TCCI's principal activity is to provide financing services for authorised Toyota dealers and users of Toyota products. Financial products offered (i) to customers, include lease and loan financing and (ii) to Toyota dealers, include floor plan financing and dealership financing. Such financing programmes are offered in all provinces and territories of Canada.
		If the Issuer is TFA, TFA's principal activity is to provide retail finance (comprising loans and leases to personal and commercial customers) and wholesale finance (comprising loans and bailment facilities to motor vehicle dealerships) to customers and motor vehicle dealers throughout Australia.
		If the Issuer is TMCC, TMCC's principal activity is to provide a variety of finance and insurance products to authorised Toyota and Lexus vehicle dealers or dealer groups and, to a lesser extent, other domestic and import franchise dealers and their customers in the United States (excluding Hawaii) and Puerto Rico.
B.16	Controlling shareholders	If the Issuer is TMF, TCCI or TFA, all of the outstanding capital stock and voting stock of the Issuer is owned directly by TFS. If the Issuer is TMCC, all of the outstanding capital stock and voting stock of the Issuer is owned indirectly by TFS.
		TFS is a wholly-owned holding company subsidiary of TMC. As a result, TFS effectively controls the Issuer and is able to directly control the composition of the Issuer's Board of Directors and direct the management and policies of the Issuer.
B.17	Credit ratings	The senior long-term debt of the Issuer has been rated Aa3/Outlook Stable by, if the Issuer is TMF or TFA, Moody's Japan K.K. ("Moody's Japan"), or if the Issuer is TCCI or TMCC, Moody's Investors Service, Inc. ("Moody's"), and AA-/Outlook Stable by S&P Global Ratings, acting through S&P Global Ratings Japan Inc. ("Standard & Poor's Japan"). Moody's Japan, Moody's and Standard & Poor's Japan are not established in the European Union and have not applied for registration under Regulation (EC) No. 1060/2009 (the "CRA Regulation"). However, Moody's Investors Service Ltd. has endorsed the ratings of Moody's Japan and Moody's, and Standard and Poor's Credit Market Services Europe Limited has endorsed the ratings of Standard & Poor's Japan, in accordance with the CRA Regulation. Each of Moody's Investors Service Ltd. and Standard and Poor's Credit Market Services Europe Limited is established in the European Union and is registered under the CRA Regulation.
		Credit ratings of the Issuer depend, in large part, on the existence of the credit support arrangements with TFS and TMC described below and on the financial condition and the results of operations of TMC and its consolidated subsidiaries. See also "Credit ratings" below with respect to TMC.
		[The Notes to be issued [have been]/[are expected to be] rated [] by [].] / [The above ratings reflect ratings assigned to Notes of this type issued under the Programme generally.] A security rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time. / [The Issuer has not applied to Moody's [Japan] or Standard & Poor's Japan for ratings to be assigned to the Notes.]

B.18	Credit Support Agreements	The Notes have the benefit of certain Credit Support Agreements governed by Japanese law, one between TMC and TFS dated 14 July 2000 as supplemented by a Supplemental Credit Support Agreement dated 14 July 2000 and a Supplemental Credit Support Agreement No. 2 dated 2 October 2000 (collectively, the "TMC Credit Support Agreement") and between TFS and, if the Issuer is TMF, TCCI or TFA, dated 7 August Agreement" and, together with the TMC Credit Support Agreement, the "Credit Support Agreement" and, together with the TMC Credit Support Agreement, the "Credit Support Agreements"). The Credit Support Agreements do not constitute a direct or indirect guarantee by TMC or TFS of the Notes. TMC's obligations under its Credit Support Agreement and the obligations of TFS under its Credit Support Agreements, rank pari passu with its direct, unconditional, unsubordinated and unsecured debt obligations. Under the TMC Credit Support Agreement, TMC agrees that it will make available to TFS funds sufficient to make its payment obligations on securities issued by it (including securities issued by subsidiaries or affiliates of TFS such as the Issuer in respect of which TFS has credit support obligations) and agrees to ensure that TFS always has at least JPY10,000,000 in consolidated tangible net worth so long as TFS has credit support obligations outstanding. TFS agrees in its Credit Support Agreements with the Issuer to make available to the Issuer funds sufficient to make its payment obligations on securities issued by it and agrees to ensure that (i) if the Issuer is TMF, TMF always has at least EUR100,000 in tangible net worth, (ii) if the Issuer is TCCI, TCCI always has at least EUR100,000 in tangible net worth, and (iv) if the Issuer is TMCC, TMCC always has at least U.S.\$100,000 in consolidated tangible net worth, so long as the Issuer has securities outstanding. Tangible net worth means the aggregate amount of issued capital, capital surplus and retained earnings less any intangible assets.
B.19	Legal and commercial name of the Credit Support Providers	Toyota Financial Services Corporation (credit support provider to the Issuer) and Toyota Motor Corporation (credit support provider to Toyota Financial Services Corporation).
	Domicile/legal form/legislation/ country of incorporation	Each of TFS and TMC is a limited liability, joint-stock company incorporated and domiciled in Japan under the Commercial Code of Japan, and continues to exist under the Companies Act of Japan.
	Trend information	Not Applicable; there are no known trends, uncertainties, demands, commitments or events that are reasonably likely to have a material effect on the prospects of TFS or TMC for the current financial year.
	Description of the Group	TFS is a holding company established by TMC to oversee the management of Toyota's finance companies worldwide. TFS has 49 consolidated subsidiaries and seven affiliates, most of which are incorporated outside of Japan as of 31 March 2018. Section D - Risks

Element	Title	
D.2	Key risks regarding the Issuer	Each of the Issuer, TFS and TMC has identified in the Prospectus a number of factors which could adversely affect its business, results of operations and financial condition and, in the case of the Issuer, its ability to make payments due under the Notes or, in the case of TFS and TMC, to fulfil its obligations under the Credit Support Agreements. These factors include:
		• changes in general business, economic, geopolitical and market conditions, including the overall market for retail contracts, wholesale motor vehicle financing, leasing or dealer financing, changes in the level of sales of Toyota, Lexus or other vehicles in Toyota's (including, if the Issuer is TCCI, TFA or TMCC, its) market, and restrictive exchange or import controls or other disruptive trade policies, disruption of operations as a result of systemic political or economic instability, and changes in consumer behaviour;
		• recalls and other related announcements which could adversely affect sales, including as a result of the actual or perceived quality, safety or reliability of Toyota and Lexus vehicles as the Issuer's business is, substantially if the Issuer is TCCI, TFA or TMCC, dependent upon the sale of Toyota and Lexus vehicles;
		• a decrease in the level of sales of Toyota and Lexus vehicles will have a negative impact on the level of the Issuer's financing volume;

if the Issuer is TMF, TMF's role as a financing vehicle exposes it to a wide variety of financial risks that include credit risk, liquidity risk, interest rate risk and foreign currency exchange rate risk; changes to the senior long-term debt credit ratings of TMC and certain of its affiliates including the Issuer; if the Issuer is TCCI, TFA or TMCC, the failure of a customer or dealer to meet the terms of any contract with an Issuer or otherwise to perform as agreed; the failure of any of the financial institutions and other counterparties in the finance industry to perform their contractual obligations; if the Issuer is TCCI, TFA, or TMCC, the estimated residual values at lease origination may not be recoverable at the end of the lease terms; if the Issuer is TMCC, its insurance operations could suffer losses if TMCC's reserves are insufficient to absorb losses or if a reinsurer or other company that has assumed insurance risk is unable to meet its obligations under the terms of its agreement with TMCC: liquidity risk arising from the inability of the TFS group (including the Issuer) to maintain the capacity to fund assets and repay liabilities in a timely and cost-effective changes in market interest rates, foreign currency exchange rates and other relevant market parameters or prices and/or a decline in the value of the investment portfolio; inadequate or failed processes, systems or internal controls, models estimates or assumptions, the failure to perfect collateral, theft, fraud, cybersecurity breaches, earthquakes, other natural disasters or other catastrophes; the worldwide automotive market is highly competitive and volatile and the worldwide financial services industry is also highly competitive; the inability to offer new, innovative, competitively priced products that meet customer demand on a timely basis; an inability to cover ongoing expenses with ongoing income subsequent to the event of a major market contraction; if the Issuer is TCCI, TFA or TMCC, changes in law or regulation in relation to the financial services industry and the automotive industry, including those related to vehicle safety and environmental matters or a failure to comply with relevant laws or regulations applicable to it; and if the Issuer is TMCC, adverse economic conditions, changes in laws in states in which it has customer concentrations or its inability to retain existing, and attract, hire and integrate new key personnel and other necessary employees at its new corporate headquarters, may adversely affect its business, results of operations and financial condition. D.3 Key risks regarding There are also risks associated with the Notes including a range of risks relating to the the Notes structure of the Notes, market risks and risks relating to Notes generally including that: changes in market interest rates will affect the value of the Notes which bear interest at a fixed rate: if the Issuer has the right to redeem any Notes at its option, an investor may not be able to reinvest the redemption proceeds in a manner which achieves the return the investor would have received if the investor had been allowed to hold the Notes to maturity and the existence of the option may therefore adversely affect the market value and the secondary market for the Notes; if the Notes include a feature to convert the interest basis from a fixed rate to a floating rate, or vice versa, this may affect the secondary market and the market value of the Notes concerned; uncertainty about the future of "benchmarks" (such as "LIBOR" and "EURIBOR") and other interest rates or other types of rates and indices that are deemed "benchmarks" may adversely affect the value of, and return on, any Notes linked to a "benchmark" and the trading market for such Notes; Bearer Notes in new global note form and Registered Notes in global form held under

the new safekeeping structure may not satisfy Eurosystem eligibility criteria;

- Notes denominated in Renminbi are subject to additional risks; Renminbi is not completely freely convertible and there are still significant restrictions on the remittance of Renminbi into and outside the PRC which may adversely affect the liquidity of Notes denominated in Renminbi; there is only limited availability of Renminbi outside the PRC, which may affect the liquidity of such Notes and the Issuer's ability to source Renminbi outside the PRC to service such Notes; if the Issuer is unable to source Renminbi, it may pay holders of such Notes in U.S. dollars;
 - the Terms and Conditions of the Notes contain provisions which permit their modification without the consent of all investors in certain circumstances;
- the holder may not receive payment of the full amounts due in respect of the Notes as a result of amounts being withheld by the Issuer in order to comply with applicable law;
- investors are exposed to the risk of changes in law or regulation affecting the value of their Notes;
- the value of an investor's investment may be adversely affected by exchange rate movements where the Notes are not denominated in the investor's own currency;
- there may be no or only a limited secondary market in the Notes;
- any credit rating assigned to Notes may not adequately reflect all the risks associated with an investment in the Notes;
- interest on Notes issued with a floating interest rate which is capped will never exceed the maximum rate of interest specified for the relevant period and investors may earn less than the specified maximum interest rate;
- assuming no change in market conditions from the time of issue of the Notes, if the Issuer has hedged its payment obligations on the Notes with the purchaser distributing the Notes, the price, if any, at which a purchaser may be willing to purchase Notes in secondary market transactions will be lower than the issue price; and
- Notes issued with a specific use of proceeds, such as specified green projects, may not be suitable for the specific investment criteria of an investor.
