The accompanying notes to the unaudited condensed interim consolidated financial statements are an integral part of these statements.

1. Nature of operations and going concern

Orosur Mining Inc. (“Orosur” or “the Company”) is a South American-focused gold development and exploration company.

Orosur was incorporated and is domiciled in Canada and is governed by the corporate laws of the Yukon Territory, Canada. The Company’s shares are listed on the Toronto Stock Exchange (TSX) in Canada and the Alternative Investment Market (AIM) of the London Stock Exchange in the United Kingdom. The Company’s registered office is Suite 1010 - 1075 West Georgia Street, Vancouver, British Columbia, Canada, V6E 3C9.

Orosur operates in Colombia and Uruguay. In Colombia, the Company conducts exploration activities and has a farm-in exploration agreement with Newmont Corporation ("Newmont") and Agnico Eagle Mines Limited ("Agnico") in Anzá. In Uruguay, the Company has historically operated the San Gregorio gold mine, which is presently in care and maintenance, and has reached an agreement to settle its liabilities in Uruguay by selling its assets at San Gregorio and the issuing of common shares of Orosur (note 4).

Going concern uncertainty

These unaudited condensed interim consolidated financial statements were prepared on a going concern basis under the historical cost method except for certain financial assets and liabilities that are accounted as assets and liabilities held for sale. Assets held for sale are measured at the lower of cost or recoverable amount. This accounting treatment is applied to the activities in Uruguay. In line with negotiations and the final agreement (the "Agreement") as of December 17, 2018 with creditors in Uruguay (see note 4), the Company’s Uruguayan subsidiary Loryser S.A. ("Loryser") is required to realize its assets and liquidate its liabilities and commitments in other than the normal course of business based on the payment plan agreed. Whether such proceeds will be sufficient to settle the debts in entirety is unknown at this time. The Agreement contemplates that net proceeds from the sale of Loryser’s assets in Uruguay together with the issuance of 10 million common shares of Orosur (see note 13) shall satisfy all amounts owing to Loryser’s creditors as well as provide funds for Loryser to conduct this process and close operation responsibly. Accordingly, the activities of Uruguay are consolidated in the financial statements as assets and liabilities held for sale and profit and loss from discontinuing operations. The Agreement was ratified by the Court in September 2019. The ratification by the Court means that the Agreement is legally binding on all trade creditors and that the Intervenor’s control over Loryser ceases. On December 6, 2019, 10,000,000 common shares were issued to a trust for the benefit of Loryser’s creditors as contemplated in the court-approved Agreement.

As at February 28, 2021, the Company had cash of $7,006 (May 31, 2020 - $782) and a net working capital deficiency of $11,850 (May 31, 2020 – $15,719). During the nine months ended February 28, 2021, the Company carried an accumulated deficit of $81,689 (May 31, 2020 - $78,429).

In March 2020, the World Health Organization declared the outbreak of the coronavirus (COVID-19) a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, have adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. In Colombia, the Company has established protocols to mitigate against the problems presented by COVID-19, which should allow activity to continue in Anzá. There can, of course, be no assurances that there will be no disruptions from any future outbreaks in the locality and in the wider region that would lead to a more protracted exploration program. In Uruguay, the impact of the pandemic has slowed down the realization of assets but sales are still being made, including to foreign buyers, in spite of travel restrictions.

1. Nature of operations and going concern (continued)

Going concern uncertainty (continued)

The Company's continuance as a going concern is dependent on its ability to obtain adequate financing. These material uncertainties may cast significant doubt on the Company's ability to realize its assets and discharge its liabilities in the normal course of business and, accordingly, the appropriateness of the use of accounting principles applicable to a going concern. Although the Company has been successful in the past in obtaining financing, with the Newmont deal in September 2018, the private placement post period end in December 2020, which raised $5,372 after expenses, and was successful in reaching a payment plan agreement with creditors in Uruguay in December 2018, (Court approval received September 13, 2019), there is no assurance on how the Newmont deal and the agreement with creditors in Uruguay will develop, or that the Company will be able to obtain adequate financing in the future on terms advantageous to the Company.

The unaudited condensed interim consolidated financial statements do not reflect the adjustments to carrying values of assets and liabilities and the reported expenses and consolidated statements of financial position classifications that would be necessary if the going concern assumption was deemed inappropriate. These adjustments could be material

2. Significant accounting policies for continued and discontinued operations

Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC"). These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC.

The policies applied in these unaudited condensed interim consolidated financial statements are based on IFRSs issued and outstanding as of April 13, 2021, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim consolidated financial statements as were followed in the most recent annual financial statements as at and for the year ended May 31, 2020. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending May 31, 2021 could result in restatement of these unaudited condensed interim consolidated financial statements.

2. Significant accounting policies for continued and discontinued operations (continued)

Functional and presentation currency

The functional and presentation currency of the Company is the United States dollar.

All of the Company's entities have the United States dollar as the functional currency, except for Waymar Resources Ltd., Cordillera Holdings International Ltd., Minera Anzá S.A., Fortune Valley Resources Inc. and Fortune Valley Resources Inc. BVI, whose functional currency is the Canadian dollar and Minera Anzá S.A. (Colombia branch), whose functional currency is the Colombian peso.

The results of operations and financial position of all the Company's entities that have a functional currency different from the presentation currency (United States dollar) are translated into the presentation currency as follows:

a) Assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet;
b) Income and expenses for each income statement are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the dates of the transactions); and
c) All resulting exchange differences are recognized in other comprehensive income under the caption "Currency translation reserve".

New standards adopted

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods commencing on or after May 31, 2020. Many are not applicable or do not have a significant impact to the Company's unaudited condensed interim consolidated financial statements.

New standards not yet adopted and interpretations issued but not yet effective

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods commencing on or after June 01, 2021. Many are not applicable or do not have a significant impact to the Company and have been excluded.

3. Critical accounting estimates, judgments and assumptions

The preparation of the Company's unaudited condensed interim consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and the reported amounts of revenue and expenses during the reporting period. Estimates and assumptions are continually evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. By definition, estimates and assumptions seldom equal actual results and have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities, and to the amounts of revenue and expenses presented in these unaudited condensed interim consolidated financial statements. The areas that require management to make significant judgments, estimates and assumptions are discussed below.

3. Critical accounting estimates, judgments and assumptions (continued)

Consolidation

The consolidated financial statements include the accounts of Orosur and its subsidiaries (collectively “the Group”). Subsidiaries are entities controlled directly or indirectly by Orosur. Control is the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The Company’s list of subsidiaries is included in note 16. All are 100% owned by Orosur and they include the Company’s subsidiaries in Uruguay, Chile and Colombia. In each case the management has deemed that Orosur has control over these and all other subsidiaries on the measures set out above.

Discontinued operations

A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single coordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately in the statement of profit or loss.

The Company is accounting for its activities in Chile and Uruguay as discontinued. Chile is recognized as a discontinued operation after all of its mining assets were sold or returned. In Uruguay, the operations are on a care and maintenance basis and the Company’s subsidiary, Loryser S.A. is well advanced in the sale of its assets and the liquidation of its liabilities and commitments in other than the normal course of business.

Exploration and evaluation expenditure

The recoverability of amounts shown for capitalized exploration and evaluation costs is dependent upon the discovery of economically recoverable reserves. Management reviews the carrying value of capitalized exploration and evaluation costs at least annually. The review is based on the Company’s intention for development of the underlying asset.

Environmental rehabilitation provisions

The fair value of the liability is determined based on the net present value of estimated future costs estimated by management based on feasibility and engineering studies on a site by site basis. While care was taken to estimate the retirement obligations, these amounts are estimates of expenditures that are not due until future years; the Company assesses its provision on an ongoing basis or when new material information becomes available.

Stock-based compensation

The Company uses the fair value method to account for stock-based employee compensation plans. The calculation of this benefit relies on estimates of the anticipated life of the option, risk free rate, forfeiture rate and the volatility of the Company’s share price.

4. Discontinued operations

Uruguay

On June 14, 2018, Loryser (the Company's operating subsidiary in Uruguay) applied to commence reorganization proceedings under Uruguayan legislation (Act N°18.387) (the "Loryser Reorganization Proceedings"). To have continued with the San Gregorio mine plan, a swift and timely transition from San Gregorio Underground to the Veta A Underground project would have been required, which itself would have required external financing plus an environmental permit for Veta A, both of which were not available at the time. As a result of those circumstances, the Board of Directors actively explored a number of alternatives for Orosur and its subsidiaries. The decision to apply for the Loryser Reorganization Proceedings and creditor protection was made in consultation with the Company's legal and financial advisors and the Company's management believed it to be in the best interests of Loryser, the Company and their stakeholders.

In December 2018, Loryser reached a payment plan agreement with creditors in Uruguay ("Agreement"). In May 2019, the Court approved the final list of creditors and Loryser´s independent assets valuation. In August 2019, the Intervenor filed a report informing the Court that it had verified that 71.48% of the trade creditors by value had adhered to the Agreement. Consequently, the Intervenor informed that majorities legally required were reached and the Court gave public notice of the Agreement.

The Agreement was approved by the Reorganization court in Montevideo and the Court decree was publicly posted on September 13, 2019. The Agreement is legally binding for all trade creditors.

On December 6, 2019, 10,000,000 common shares of Orosur were issued to a trust for the benefit of Loryser's creditors as contemplated in the court Agreement (note 13).

In line with negotiations and the Agreement with creditors in Uruguay, Loryser S.A. is required to realize its assets and liquidate its liabilities and commitments in other than the normal course of business based on the payment plan agreed. The Agreement contemplates that by September 2021 net proceeds from the sale of Loryser's assets in Uruguay together with the sale of the issued 10 million common shares of Orosur (see note 13) shall satisfy all amounts owing to Loryser's creditors, as well as provide funds for Loryser to pay its former employees and to conduct this process and close the operation responsibly.

Accordingly, the assets and liabilities related to Uruguay have been reclassified as assets and liabilities of discontinued operations in the unaudited condensed interim consolidated financial statements. Operating results and cash flows related to these assets and liabilities have been included as a net loss from discontinued operations in the unaudited condensed interim consolidated statements of loss and comprehensive income (loss), and as cash flows from discontinued operations in the unaudited condensed interim consolidated statements of cash flows.

Chile

In May 2018, the Company terminated the option agreement on its Anillo gold exploration project with Nacional del Cobre de Chile ("Codelco"), Chile's national mining company, located close to Antofagasta, in Region II, Chile.

Pantanillo

In October 2009, the Company entered in an option agreement with Anglo American Norte S.A ("Anglo"), a subsidiary of Anglo American plc.

Anglo and the Company signed on May 25, 2017 in Notary Public the repurchase of the Pantanillo properties by Anglo in line with the decision made to discontinue the project. The Company gave the mining concessions of this project back to Anglo in June 2017. As at February 28, 2021, the value of the related assets was $nil (May 31, 2020 - $nil).

Following the relinquishment by Fortune Valley Resources Chile S.A. ("FVRC") of the Pantanillo project, Anglo American sought the payment of minimum royalties totaling US$3 million and requested arbitration in September, 2017. Arbitration proceedings were conducted in Santiago, Chile. On March 28, 2019, the Arbitral Tribunal rendered its decision, ruling that FVRC is required to pay Anglo approximately US$1.6 million plus interest at Chile´s current interest rate calculated from December 2015 until its effective payment. The Tribunal´s decision is exclusively against FVRC. Orosur was not named in the decision from the Tribunal nor was Orosur a party to the relevant agreements. The Company has recognized on consolidation a provision of $1.9 million in relation to this decision as at February 28, 2021 for FVRC.

Accordingly, the assets and liabilities related to Chile have been reclassified as assets and liabilities of discontinued operations in the unaudited condensed interim consolidated financial statements as at February 28, 2021. Operating results and cash flows related to these assets and liabilities have been included as a net loss from continued operations in the unaudited condensed interim consolidated statement of loss and comprehensive income (loss), and as cash flows from discontinued operations in the unaudited condensed interim consolidated statements of cash flows, respectively.

As at February 28, 2021, a provision charge of $2,016, including interest (May 31, 2020 - $1,946, including interest) related to the Pantanillo arbitration decision against FVRC was recognized.

Strategic Alliance with Newmont and Agnico

On September 10, 2018, the Corporation completed an exploration agreement with venture option with Newmont Colombia S.A.S., a wholly-owned subsidiary of Newmont Corporation for the Anzá exploration property. The Exploration and Option Agreement includes a three-phase earn-in structure allowing Newmont to earn up to a 75% ownership interest in the Anzá Project by spending a minimum of $30.0 million in qualifying expenditures over twelve years, completing an NI 43-101 compliant feasibility study and making cash payments to Orosur equalling a total of $4.0 million over Phases 1 and 2. In Phase 1, Newmont may earn a 51% ownership interest by spending $10.0 million in qualifying expenditures over four years and making cash payments to Orosur equalling a total of $2.0 million during the first two years of the Phase 1 earn-in period. Upon Newmont's completion of Phase 1, it may elect, in its sole discretion, to exercise its option to form a joint venture with Orosur. In Phase 2, Newmont may elect to earn an additional 14% ownership interest in the Anzá Project by sole funding $20.0 million in qualifying expenditures within four years, completing an NI 43-101 compliant pre-feasibility study and making cash payments to Orosur equalling a total of $2.0 million. In Phase 3, Newmont may elect to earn an additional 10% ownership interest in the Anzá Project by completing an NI 43-101 compliant feasibility study within four years.

During the nine months ended February 28, 2021, Newmont Corporation entered into a Joint Venture Agreement ("Joint Venture") with Agnico whereby the two companies will jointly assume and advance Newmont's prior rights and obligations with respect to the Anzá Project in Colombia on a 50-50 basis, with Agnico as operator of the Joint Venture.

Loryser has a legal and constructive obligation to restore the San Gregorio operation as mining operations ceased. This estimate is revised annually. The Company advances rehabilitation work previous to the closure date at its discretion and in accordance with DINAMA, the Uruguayan environmental agency.

(Expressed in thousands of United States dollars)

11. Environmental rehabilitation provision (continued)

Uruguayan mining and environmental legislation require environmental obligations to be supported by guarantees. As a result, rehabilitation guarantee letters of credit with a total amount of $1,326 (May 31, 2020 - $1,326) have been provided by local Uruguayan insurance companies and financial institutions. Before the expiration of the coverage period, DINAMA executed these guarantees in order to secure the funds for the future remediation. Loryser has been in discussions with DINAMA apply these funds to contribute to the cost of remediation work at San Gregorio. In line with Company´s expectations during Q3 2020, Loryser managed to close and sign a Settlement Agreement with DINAMA in order to apply the $1,326 from the environmental guarantee that had been executed. Pursuant to the Settlement Agreement, Loryser is continuing with the reclamation of the tailings dam and DINAMA will pay in instalments on completion of a six-phased closure plan. The first such payment by DINAMA of $150 under the plan was received by the Company in May 2020, and a second payment of $269 was received in December 2020. The Settlement Agreement is now effective after getting final approval from the Audit Tribunal and a Civil court that oversees all Governmental accounts and settlements.
