#### Note 1 – Interim Financial Data

#### Basis of Presentation

The information furnished in these unaudited interim consolidated financial statements as of and for the three and six months ended September 30, 2025 and 2024 has been prepared in accordance with generally accepted accounting principles in the United States ("U.S. GAAP"). In the opinion of management, the unaudited consolidated financial information reflects all adjustments, consisting of normal recurring adjustments, necessary for a fair statement of the results for the interim periods presented. The results of operations for the three and six months ended September 30, 2025, do not necessarily indicate the results which may be expected for the full fiscal year ending March 31, 2026 ("fiscal 2026").

These financial statements should be read in conjunction with the Consolidated Financial Statements and Notes to Consolidated Financial Statements included in Toyota Motor Credit Corporation's Annual Report on Form 10-K ("Form 10-K") for the fiscal year ended March 31, 2025 ("fiscal 2025"), which was filed with the Securities and Exchange Commission on June 3, 2025. References herein to "TMCC" denote Toyota Motor Credit Corporation, and references herein to "we", "our", and "us" denote Toyota Motor Credit Corporation and its consolidated subsidiaries.

#### Recently Adopted Accounting Guidance

On March 31, 2025, we adopted ASU 2023-07, Segment Reporting (Topic 280), Improvements to Reportable Segment Disclosure requirements. This ASU enhances disclosure requirements for reportable segments primarily through enhanced disclosures about significant segment expenses. The adoption of this guidance did not have a material impact on our consolidated financial statements or related disclosures. Refer to Note 13 - Segment Information for additional information.

#### Accounting Guidance Issued But Not Yet Adopted

In December 2023, the FASB issued ASU 2023-09, *Income Taxes (Topic 740)*, requiring more granular disclosure of the components of income taxes. This ASU is effective for us on March 31, 2026, with early adoption permitted. We are currently evaluating the impact of this standard on our consolidated financial statements and related disclosures.

In November 2024, the FASB issued ASU 2024-03, *Income Statement – Reporting Comprehensive Income – Expense Disaggregation Disclosures (Subtopic 220-40)*, requiring disclosure in the notes to the financial statements for specified information about certain costs and expenses. In January 2025, the FASB issued ASU 2025-01, clarifying the effective date of ASU 2024-03. This ASU is effective for us on March 31, 2028, with early adoption permitted. We are currently evaluating the impact of this standard on our consolidated financial statements and related disclosures.

In July 2025, the FASB issued ASU 2025-05, *Financial Instruments - Credit Losses (Topic 326)*, providing a practical expedient in developing reasonable and supportable forecasts as part of estimating expected credit losses for current accounts receivable and current contract assets that arise from transactions accounted for under ASC 606. This ASU is effective for us on April 1, 2026, with early adoption permitted. The adoption of this guidance is not expected to have a material impact on our consolidated financial statements and related disclosures.

In September 2025, the FASB issued ASU 2025-06, *Intangibles and Other - Internal-Use Software (Subtopic 350-40)*. This ASU improves the operability of the guidance by removing all references to software development project stages so that guidance is neutral to different software development methods, including methods that entities may use to develop software in the future. This ASU is effective for us on April 1, 2028, with early adoption permitted. We are currently evaluating the impact of this standard on our consolidated financial statements and related disclosures.

In September 2025, the FASB issued ASU 2025-07, *Derivatives and Hedging (Topic 815)* and *Revenue from Contracts with Customers (Topic 606)*. This ASU establishes accounting requirements for contracts that meet the characteristics-based definition of a derivative and are not otherwise excluded from the Topic 815's scope. This ASU is effective for us on April 1, 2027, with early adoption permitted. We are currently evaluating the impact of this standard on our consolidated financial statements and related disclosures.

#### Note 1 – Interim Financial Data (Continued)

#### **Other Matters**

In fiscal 2025, as it was deemed to be in the best interests of the Company and its sole shareholder, Toyota Financial Services International Corporation, the Board of Directors of TMCC approved transition of the origination and financing of new automotive finance and lease contracts under the Mazda Financial Services ("MFS") Agreement to Toyota Financial Savings Bank, an unconsolidated affiliate of TMCC (the "MFS Transition"). The MFS Transition commenced and was substantially completed during the fourth quarter of fiscal 2025.

#### Note 2 – Investments in Marketable Securities

Investments in marketable securities consist of debt securities and equity investments. We classify all of our debt securities as available-for-sale ("AFS"). Except when the fair value option is elected, AFS debt securities are recorded at fair value with unrealized gains or losses included in accumulated other comprehensive income ("AOCI"), net of applicable taxes. Interest income is recognized on an accrual basis and determined using the effective interest method. Realized gains and losses from sales of AFS debt securities are determined using the specific identification method or first in first out method. Dividend income, interest income, and realized gains and losses from the sales of AFS debt securities are included in Investment and other income, net in our Consolidated Statements of Income.

We elected the fair value option for certain debt securities held within one of our investment portfolios for operational ease given the size and composition of this portfolio. All debt securities within this specific portfolio are recorded at fair value with changes in fair value included in Investment and other income, net in our Consolidated Statements of Income. AFS debt securities for which the fair value option is elected are not subject to credit loss impairment evaluation. As of September 30, 2025 and March 31, 2025, we held AFS debt securities for which the fair value option was elected of \$907 million and \$829 million, respectively. The difference between the aggregate fair value and the aggregate unpaid principal balance of AFS debt securities for which the fair value option was elected was an unrealized loss of \$49 million and \$61 million as of September 30, 2025 and March 31, 2025, respectively.

All equity investments are recorded at fair value with changes in fair value included in Investment and other income, net in our Consolidated Statements of Income. Realized gains and losses from sales of equity investments are determined using the first in first out method and are included in Investment and other income, net in our Consolidated Statements of Income.

Investments in marketable securities consisted of the following:

September 30, 2025								
	Am	ortized	Unreali	Unrealized		Unrealized		Fair
	cost		gains		losses			value

Equity investments							-	3,014	
Total investments in marketable securities							\$	4,581	

A portion of our equity investments are investments in funds that are privately placed and managed by an open-end investment management company (the "Trust"). If we elect to redeem shares, the Trust will normally redeem all shares for cash, but may, in unusual circumstances, redeem amounts exceeding the lesser of \$250 thousand or 1 percent of the Trust's asset value by payment in kind of securities held by the respective fund during any 90-day period.

We also invest in actively traded open-end mutual funds. Redemptions are subject to normal terms and conditions as described in each fund's prospectus.

#### Unrealized Losses on Securities

The following table presents the aggregate fair value and unrealized losses on AFS debt securities in a continuous unrealized loss position:

	September 30, 2025										
	Le	ess than	12 mor	nths	12 months or longer				Total		
		Unrealized			Unrealized			ealized	·	Unrealized

An allowance for credit losses is established when it is determined that a credit loss has occurred. As of September 30, 2025 and March 31, 2025, management determined credit losses for securities in an unrealized loss position were not significant. This analysis considered a variety of factors including, but not limited to, performance indicators of the issuer, default rates, industry analyst reports, credit ratings, and other relevant information.

#### Gains and Losses on Securities

The following table represents gains and losses on our investments in marketable securities presented in our Consolidated Statements of Income:

	Three months ended September 30,					Six months ended September 30,				
		2025		2024		2025		2024		
Available-for-sale debt securities:										
Unrealized gains on securities										
for which the fair value option was elected	\$	11	\$	32	\$	12	\$	27		
Realized losses on sales, net	\$	(3)	\$	-	\$	(5)	\$	(4)		
Equity investments:										
Unrealized gains	\$	123	\$	170	\$	251	\$	184		
Realized losses on sales, net	\$	-	\$	(10)	\$	(1)	\$	(16)		

#### Contractual Maturities

The amortized cost and fair value by contractual maturities of available-for-sale debt securities are summarized in the following table. Actual maturities may differ from contractual maturities because certain borrowers have the right to call or prepay certain obligations.

		Septembe	r 30,	2025
	Amort	tized cost		Fair value
Available-for-sale debt securities:		_		
Due within 1 year	\$	85	\$	84
Due after 1 year through 5 years		421		413
Due after 5 years through 10 years		502		501
Due after 10 years		434		344
Mortgage-backed and asset-backed securities <sup>1</sup>		365		356
Total	\$	1,807	\$	1,698

Mortgage-backed and asset-backed securities are shown separately from other maturity groupings as these securities have multiple maturity dates.

#### Note 3 - Finance Receivables, Net

Finance receivables, net consists of the retail loan and dealer products portfolio segments, and includes deferred origination costs, deferred income, and allowance for credit losses. Finance receivables, net also includes securitized retail receivables, which represent retail receivables that have been sold for legal purposes to securitization trusts but continue to be included in our consolidated financial statements, as discussed further in Note 8 – Variable Interest Entities. Cash flows from these securitized retail receivables are available only for the repayment of debt issued by these trusts and other obligations arising from the securitization transactions. They are not available for payment of our other obligations or to satisfy claims of our other creditors.

Finance receivables, net consisted of the following:

	 September 30, 2025	M	farch 31, 2025
Retail receivables <sup>1</sup>	\$ 84,636	\$	87,418
Dealer financing	 17,353		16,521
	101,989		103,939
Deferred origination costs	1,126		1,227
Deferred income	(1,771)		(1,773)
Allowance for credit losses			
Retail receivables	(1,387)		(1,544)
Dealer financing	 (129)		(100)
Total allowance for credit losses	 (1,516)		(1,644)
Finance receivables, net	\$ 99,828	\$	101,749

<sup>&</sup>lt;sup>1</sup> Includes gross securitized retail receivables of \$33.4 billion and \$34.4 billion as of September 30, 2025 and March 31, 2025, respectively.

Accrued interest related to finance receivables is presented in Other assets on the Consolidated Balance Sheets and was \$383 million as of both September 30, 2025 and March 31, 2025.

(Dollars in millions) (Unaudited)

#### Note 3 - Finance Receivables, Net (Continued)

#### Credit Quality Indicators

We are exposed to credit risk on our finance receivables. Credit risk is the risk of loss arising from the failure of customers or dealers to meet the terms of their contracts with us or otherwise fail to perform as agreed.

#### Retail Loan Portfolio Segment

The retail loan portfolio segment consists of one class of finance receivables. While we use various credit quality metrics to develop our allowance for credit losses on the retail loan portfolio segment, we primarily utilize the aging of the individual accounts to monitor the credit quality of these finance receivables. Based on our experience, the payment status of borrowers is the strongest indicator of the credit quality of the underlying receivables. Payment status also impacts charge-offs.

Individual borrower accounts within the retail loan portfolio segment are segregated into aging categories based on the number of days past due. The aging of finance receivables is updated monthly.

The following tables present the amortized cost basis of our retail loan portfolio by origination fiscal year by credit quality indicator based on number of days past due:

		Amortized Co	ost Ba	sis by Originatio	n Fis	scal Year at Septer	nber :	30, 2025

		Amortized	Cost I	Basis by Originat	ion F	Fiscal Year at Mar	ch 31	, 2025			
	 2025	2024		2023		2022		2021	202	0 and Prior	Total
Aging of finance receivables:	 										
Current	\$ 32,049	\$ 24,235	\$	14,395	\$	9,095	\$	4,094	\$	941	\$ 84,809
30-59 days past due	198	377		384		295		147		57	1,458
60-89 days past due	57	110		112		80		41		18	418
90 days or greater past due	24	48		50		35		18		12	187
Total	\$ 32,328	\$ 24,770	\$	14,941	\$	9,505	\$	4,300	\$	1,028	\$ 86,872
Gross Charge-Offs	\$ 31	\$ 254	\$	304	\$	188	\$	72	\$	38	\$ 887

The amortized cost of retail loan portfolio excludes accrued interest of \$309 million and \$313 million at September 30, 2025 and March 31, 2025, respectively. The preceding tables include contracts greater than 120 days past due, which are recorded at the fair value of collateral less estimated costs to sell, and contracts in bankruptcy.

(Dollars in millions) (Unaudited)

#### Note 3 - Finance Receivables, Net (Continued)

#### Dealer Products Portfolio Segment

The dealer products portfolio segment consists of three classes of finance receivables: wholesale, real estate, and working capital (includes both working capital and revolving lines of credit). All loans outstanding for an individual dealer or dealer group, which includes affiliated entities, are aggregated and evaluated collectively by dealer or dealer group. This reflects the interconnected nature of financing provided to our individual dealer and dealer group customers, and their affiliated entities.

When assessing the credit quality of the finance receivables within the dealer products portfolio segment, we segregate the finance receivables account balances into four categories representing distinct credit quality indicators based on internal risk assessments. The internal risk assessments for finance receivables within the dealer products portfolio segment are updated quarterly.

The four credit quality indicators are:

- Performing Account not classified as either Credit Watch, At Risk or Default;
- Credit Watch Account designated for elevated attention;
- At Risk Account where there is an increased likelihood that default may exist based on qualitative and quantitative factors;
- Default Account is not currently meeting contractual obligations or we have temporarily waived certain contractual requirements.

The following tables present the amortized cost basis of our dealer products portfolio by credit quality indicator based on internal risk assessments by origination fiscal year:

			Amo	ortized Cost I	Basis t	y Originatio	n Fisca	al Year at Se	ptembe	er 30, 2025

Total	\$	2,639	\$	1,259	\$	711	\$	747	\$	880	\$	810	\$	9,475	\$ 16,521

For the twelve months ended March 31, 2025, there were no gross charge-offs in our dealer product portfolio.

The amortized cost of the dealer products portfolio excludes accrued interest of \$74 million and \$70 million at September 30, 2025 and March 31, 2025, respectively. As of September 30, 2025 and March 31, 2025, the amount of line-of-credit arrangements that are converted to term loans in each reporting period was not significant.

(Dollars in millions) (Unaudited)

#### Note 3 - Finance Receivables, Net (Continued)

#### Past Due Finance Receivables by Class

Substantially all finance receivables do not involve recourse to the dealer in the event of customer default. Finance receivables include contracts greater than 120 days past due, which are recorded at the fair value of collateral less estimated costs to sell, and contracts in bankruptcy. Contracts for which vehicles have been repossessed are excluded. For all finance receivables, we define "past due" as any payment, including principal and interest, that is at least 30 days past the contractual due date. For any customer who is granted a payment extension under an extension program, the aging of the receivable is adjusted for the number of days of the extension granted.

The following tables present the aging of the amortized cost basis of our finance receivables by class:

						S	epte	mber 30,	202	.5

Working capital	-	-	-	-	4,839	4,839	-
Total	\$ 1,458	\$ 418	\$ 187	\$ 2,063	\$ 101,330	\$ 103,393	\$ 110

#### Loan Modifications

Under certain circumstances, we may agree to modify the terms of an existing loan with a borrower for various reasons, including a borrower experiencing financial difficulties. We evaluate all loan modifications, which generally represent a continuation of the existing loan and not a new loan. For borrowers experiencing financial difficulties within the retail loan portfolio segment, we may provide contract term extensions. For borrowers experiencing financial difficulties within the dealer product portfolio segment, we may provide contract term extensions, interest rate adjustments, waivers of loan covenants, or any combination of the three. The effect of these modifications is already included in the allowance for credit losses because our estimated allowance represents currently expected credit losses.

The amortized cost at September 30, 2025 and 2024 of the loans modified during the three and six months ended September 30, 2025 and 2024 were not significant. The unpaid principal balances, net of recoveries, of loans charged off during the reporting period that were modified within 12 months preceding default were not significant for the three and six months ended September 30, 2025 and 2024.

(Dollars in millions) (Unaudited)

#### Note 4 – Allowance for Credit Losses

Ending balance, September 30, 2024 <sup>1</sup>	\$ 1,563	\$ 146	\$ 1,709

<sup>&</sup>lt;sup>1</sup> Ending balance includes \$53 million of allowance for credit losses recorded in Other liabilities on the Consolidated Balance Sheet which is related to off-balance sheet lending commitments in the dealer products portfolio.

(Dollars in millions) (Unaudited)

#### Note 4 – Allowance for Credit Losses (Continued)

We have elected to exclude accrued interest from the measurement of expected credit losses as we apply policies and procedures that result in the timely write-offs of accrued interest. Accrued interest is written off within allowance for credit losses at the earlier of when an account is deemed to be uncollectible or when an account is greater than 120 days past due.

Finance receivables for the dealer products portfolio segment as of September 30, 2025, includes \$1.4 billion in finance receivables that are guaranteed by Toyota Motor North America, Inc. ("TMNA"), and \$255 million in finance receivables that are guaranteed by third-party private Toyota distributors. Finance receivables for the dealer products portfolio segment as of September 30, 2024, includes \$1.3 billion in finance receivables that are guaranteed by TMNA, and \$273 million in finance receivables that are guaranteed by third-party private Toyota distributors. These finance receivables are related to certain Toyota and Lexus dealers and other third parties to whom we provided financing at the request of TMNA and third-party private Toyota distributors.

(Dollars in millions) (Unaudited)

#### Note 5 - Investments in Operating Leases, Net

Investments in operating leases, net consists of vehicle lease contracts acquired from dealers, and includes deferred origination fees and costs, deferred income, investment tax credits, and accumulated depreciation. Non-cash investing activities related to investment tax credits on investments in operating leases for the six months ended September 30, 2025 and 2024 were \$167 million and \$281 million, respectively. Securitized investments in operating leases represent beneficial interests in a pool of certain vehicle leases that have been sold for legal purposes to securitization trusts but continue to be included in our consolidated financial statements as discussed further in Note 8 - Variable Interest Entities. Cash flows from these securitized investments in operating leases are available only for the repayment of debt issued by these trusts and other obligations arising from the securitization transactions. They are not available for payment of our other obligations or to satisfy claims of our other creditors.

Investments in operating leases, net consisted of the following:

	Sep	tember 30,	1	March 31,
		2025		2025
Investments in operating leases <sup>1</sup>	\$	37,030	\$	36,523
Deferred income		(849)		(955)
Accumulated depreciation		(5,612)		(5,478)
Investments in operating leases, net	\$	30,569	\$	30,090

Includes gross securitized investments in operating leases of \$13.1 billion and \$13.6 billion as of September 30, 2025 and March 31, 2025, respectively.

(Dollars in millions) (Unaudited)

#### Note 6 – Derivatives, Hedging Activities and Interest Expense

#### Derivative Instruments

Our liabilities consist mainly of fixed and variable rate debt, denominated in U.S. dollars and various other currencies, which we issue in the global capital markets, while our assets consist primarily of U.S. dollar denominated, fixed rate receivables. We enter into interest rate swaps, and foreign currency swaps to economically hedge the interest rate and foreign currency risks that result from the different characteristics of our assets and liabilities. Our use of derivative transactions is intended to reduce long-term fluctuations in the fair value of assets and liabilities caused by market movements. All of our derivatives are categorized as not designated for hedge accounting, and all of our derivative activities are authorized and monitored by our management and our Asset-Liability Committee which provides a framework for financial controls and governance to manage market risk.

All derivative instruments are recorded on the balance sheet at fair value, taking into consideration the effects of legally enforceable master netting agreements that allow us to net settle asset and liability positions and offset cash collateral with the same counterparty on a net basis. Changes in the fair value of our derivative instruments are recorded in Interest expense in our Consolidated Statements of Income. The derivative instruments are included as a component of Other assets or Other liabilities on our Consolidated Balance Sheets.

#### Offsetting of Derivatives

Accounting guidance permits the net presentation on our Consolidated Balance Sheets of derivative receivables and derivative payables with the same counterparty and the related cash collateral when a legally enforceable master netting agreement exists, or when the derivative receivables and derivative payables meet all the conditions for the right of setoff to exist. When we meet this condition, we elect to present such balances on a net basis.

#### Over-the-Counter ("OTC") Derivatives

Our International Swaps and Derivatives Association Master Agreements are our master netting agreements which permit multiple transactions to be cancelled and settled with a single net balance paid to either party for our OTC derivatives. The master netting agreements also contain reciprocal collateral agreements which require the transfer of cash collateral to the party in a net asset position across all transactions. Our collateral agreements with substantially all our counterparties include a zero threshold, full collateralization arrangement. Although we have daily valuation and collateral exchange arrangements with all of our counterparties, due to the time required to move collateral, there may be a delay of up to one day between the exchange of collateral and the valuation of our derivatives. We would not be required to post additional collateral to the counterparties with whom we were in a net liability position at September 30, 2025, if our credit ratings were to decline, since we fully collateralize without regard to credit ratings with these counterparties. In addition, as our collateral agreements include legal right of offset provisions, collateral amounts are netted against derivative assets or derivative liabilities, and the net amount is included in Other assets or Other liabilities on our Consolidated Balance Sheets.

#### Centrally Cleared Derivatives

For our centrally cleared derivatives, variation margin payments are legally characterized as settlement payments and accounted for with corresponding derivative positions as one unit of account as opposed to collateral. Initial margin payments are separately recorded in Other assets on our Consolidated Balance Sheets. We perform valuation and margin exchange on a daily basis. Similar to the OTC swaps, there may be a delay of up to one day between the exchange of margin payments and the valuation of our derivatives.

(Dollars in millions) (Unaudited)

#### Note 6 – Derivatives, Hedging Activities and Interest Expense (Continued)

#### Derivative Activity Impact on Consolidated Financial Statements

The following tables show the financial statement line item and amount of our derivative assets and liabilities that are reported on our Consolidated Balance Sheets:

		Septembe	r 30,	2025	 March 3	31, 2	025
				Fair			Fair
	N	lotional		value	Notional		value
Other assets:				_	_		_
Interest rate swaps	\$	38,648	\$	210	\$ 41,880	\$	363
Foreign currency swaps		6,012		420	 3,497		132
Total	\$	44,660	\$	630	\$ 45,377	\$	495
Counterparty netting				(203)			(207)
Collateral held				(379)			(242)
Carrying value of derivative contracts – Other assets			\$	48		\$	46
Other liabilities:							
Interest rate swaps	\$	64,794	\$	39	\$ 64,440	\$	31
Foreign currency swaps		5,022		331	 7,026		717
Total	\$	69,816	\$	370	\$ 71,466	\$	748
Counterparty netting				(203)			(207)
Collateral posted				(159)			(514)
Carrying value of derivative contracts - Other liabilities			\$	8		\$	27

We held excess collateral and variation margin of \$4 million as of both September 30, 2025 and March 31, 2025, which we did not use to offset derivative assets and was recorded in Other liabilities on our Consolidated Balance Sheets. We posted initial margin, excess collateral, and variation margin of \$241 million and \$288 million as of September 30, 2025 and March 31, 2025, respectively, which we did not use to offset derivative liabilities and was recorded in Other assets on our Consolidated Balance Sheets.

The following table summarizes the components of interest expense, including the location and amount of gains and losses on derivative instruments and related hedged items, as reported in our Consolidated Statements of Income:

	 Three mor Septem			 Six mont Septem		1444
	2025	·	2024	2025	•	2024
Interest expense on debt	\$ 1,371	\$	1,424	\$ 2,765	\$	2,829
Interest expense (income) on derivatives	61		(39)	114		(97)
Interest expense on debt and derivatives	1,432		1,385	2,879		2,732
(Gains) losses on debt denominated in foreign currencies	(54)		374	624		394
Losses (gains) on foreign currency swaps	62		(606)	(723)		(599)
(Gains) losses on U.S. dollar interest rate swaps	(22)		431	(57)		500
Total interest expense	\$ 1,418	\$	1,584	\$ 2,723	\$	3,027

Interest expense on debt and derivatives represents net interest settlements and changes in accruals. Gains and losses on derivatives and debt denominated in foreign currencies exclude net interest settlements and changes in accruals. Cash flows associated with derivatives are reported in Net cash provided by operating activities in our Consolidated Statements of Cash Flows.

(Dollars in millions) (Unaudited)

#### Note 7 - Debt and Credit Facilities

Debt and the related weighted average contractual interest rates are summarized as follows:

			Sep	tember 30,	2025			M	[arch 31, 20	025
					Weighted					Weighted
					average					average
			(	Carrying	contractual			(	Carrying	contractual
	Fa	ace value		value	interest rates	Fa	ace value		value	interest rates
Unsecured notes and loans payable	\$	87,064	\$	86,600	4.03%	\$	90,496	\$	90,028	4.08%
Secured notes and loans payable		36,406		36,352	4.52%		37,765		37,717	4.53%
Total debt	\$	123,470	\$	122,952	4.17%	\$	128,261	\$	127,745	4.21%

The carrying value of our debt includes unamortized premiums, discounts, debt issuance costs and the effects of foreign currency translation adjustments.

Weighted average contractual interest rates approximate the effective interest rates and debt is callable at par value.

#### Unsecured Notes and Loans Payable

Our unsecured notes and loans payable consist of commercial paper and fixed and variable rate debt. Short-term funding needs are met through the issuance of commercial paper in the U.S. Amount outstanding under our commercial paper programs was \$17.3 billion as of both September 30, 2025 and March 31, 2025.

Upon issuance of fixed rate debt, we generally elect to enter into pay-float swaps to convert fixed rate payments on debt to floating rate payments. Certain unsecured notes and loans payable are denominated in various foreign currencies. The debt is translated into U.S. dollars using the applicable exchange rate at the transaction date and retranslated at each balance sheet date using the exchange rate in effect at that date. Concurrent with the issuance of these foreign currency unsecured notes and loans payable, we enter into currency swaps in the same notional amount to convert non-U.S. currency payments to U.S. dollar denominated payments. Gains and losses related to foreign currency transactions are included in Interest expense in our Consolidated Statements of Income.

Certain of our unsecured notes and loans payable contain covenants and conditions customary in transactions of this nature, including negative pledge provisions, cross-default provisions and limitations on certain consolidations, mergers and sales of assets. We are currently in compliance with these covenants and conditions.

#### Secured Notes and Loans Payable

Our secured notes and loans payable are denominated in U.S. dollars and consist of both fixed and variable rate debt. Secured notes and loans payable are issued using on-balance sheet securitization trusts, as further discussed in Note 8 – Variable Interest Entities. These notes are repayable only from collections on the underlying securitized retail finance receivables and the beneficial interests in investments in operating leases and from related credit enhancements. Some of our secured notes are backed by a revolving pool of finance receivables and cash collateral, with the ability to repay the notes in full after the revolving period ends, after which an amortization period begins.

(Dollars in millions) (Unaudited)

#### Note 7 – Debt and Credit Facilities (Continued)

#### Credit Facilities and Letters of Credit

For additional liquidity purposes, we maintain credit facilities, which may be used for general corporate purposes, as described below:

364-Day Credit Agreement, Three-Year Credit Agreement and Five-Year Credit Agreement

TMCC, Toyota Credit de Puerto Rico Corp. ("TCPR"), a wholly owned subsidiary, and other Toyota affiliates are party to a \$5.0 billion 364-day syndicated bank credit facility, a \$5.0 billion three-year syndicated bank credit facility, and a \$5.0 billion five-year syndicated bank credit facility, expiring in fiscal years ending March 31, 2026, 2028, and 2030, respectively.

The ability to make draws is subject to covenants and conditions customary in transactions of this nature, including negative pledge provisions, cross-default provisions and limitations on certain consolidations, mergers and sales of assets. These agreements were not drawn upon and had no outstanding balances as of September 30, 2025 and March 31, 2025. We are currently in compliance with the covenants and conditions of the credit agreements described above.

#### Committed Revolving Asset-backed Facility

We are party to a 364-day revolving securitization facility with certain bank-sponsored asset-backed conduits and other financial institutions expiring in fiscal year ending March 31, 2026. Under the terms and subject to the conditions of this facility, the committed lenders under the facility have committed to make advances up to a facility limit of \$9.0 billion backed by eligible retail finance receivables transferred by us to a special-purpose entity acting as borrower. We utilized \$4.3 billion and \$5.8 billion of this facility as of September 30, 2025 and March 31, 2025, respectively.

#### Other Unsecured Credit Agreements

TMCC is party to additional unsecured credit facilities with various banks. As of September 30, 2025, TMCC had committed bank credit facilities totaling \$4.1 billion, of which \$2.0 billion, \$1.7 billion, \$200 million, and \$200 million mature in fiscal years ending March 31, 2026, 2028, 2029, and 2031, respectively.

These credit agreements contain covenants and conditions customary in transactions of this nature, including negative pledge provisions, cross-default provisions and limitations on certain consolidations, mergers and sales of assets. These credit facilities were not drawn upon and had no outstanding balances as of September 30, 2025 and March 31, 2025. We are currently in compliance with the covenants and conditions of the credit agreements described above.

TMCC is party to a \$5.0 billion three-year revolving credit facility with Toyota Motor Sales U.S.A., Inc. expiring in fiscal year ending March 31, 2028. This credit facility was not drawn upon and had no outstanding balance as of September 30, 2025 and March 31, 2025.

From time to time, we may borrow from affiliates based upon a number of business factors such as funds availability, cash flow timing, relative cost of funds, and market access capabilities. Amounts borrowed from affiliates are recorded in Other liabilities on our Consolidated Balance Sheets.

(Dollars in millions) (Unaudited)

#### Note 8 – Variable Interest Entities

We use one or more special purpose entities that are considered Variable Interest Entities ("VIEs") to issue asset-backed securities to third-party bank-sponsored asset-backed securitization vehicles and to investors in securitization transactions. The securities issued by these VIEs are backed by the cash flows related to retail finance receivables and beneficial interests in investments in operating leases ("Securitized Assets"). We hold variable interests in the VIEs that could potentially be significant to the VIEs. We determined that we are the primary beneficiary of the securitization trusts because (i) our servicing responsibilities for the Securitized Assets give us the power to direct the activities that most significantly impact the performance of the VIEs, and (ii) our variable interests in the VIEs give us the obligation to absorb losses and the right to receive residual returns that could potentially be significant.

The following tables show the assets and liabilities related to our VIE securitization transactions that are included on our Consolidated Balance Sheets:

				9	Septem	nber 30, 2025	5			
				VIE A	Assets	-		VIE Lia	abili	ties
	an	cted cash d cash ivalents		securitized assets		Other assets		Debt		Other liabilities
Retail finance receivables	\$	1,844	\$	32,933	\$	143	\$	29,286	\$	50
Investments in operating leases		540		10,359		14		7,066		9
Total	\$	2,384	\$	43,292	\$	157	\$	36,352	\$	59
						rch 31, 2025				
				VIE	Assets	3		VIE Li	abili	ties
	a	ricted cash nd cash uivalents	Net	securitized assets		Other assets		Debt		Other liabilities
Retail finance receivables	\$	1,853	\$	33,958	\$	152	\$	30,448	\$	62
Investments in operating leases		637		10,722		15		7,269		10
Total	\$	2.490	\$	44 680	\$	167	\$	37 717	\$	72

Restricted cash and cash equivalents shown in the preceding tables represent collections from the underlying Net securitized assets and certain reserve deposits held by TMCC for the VIEs and is included as part of Restricted cash and cash equivalents on our Consolidated Balance Sheets. Net securitized assets shown in the preceding tables are presented net of deferred fees and costs, deferred income, accumulated depreciation and allowance for credit losses. Other assets represent accrued interests related to securitized retail finance receivables and used vehicles held-for-sale that were repossessed by or returned to TMCC for the benefit of the VIEs. The related debt of these consolidated VIEs is presented net of \$1.6 billion of securities retained by TMCC as of both September 30, 2025 and March 31, 2025. Other liabilities represent accrued interest on the debt of the consolidated VIEs.

The assets of the VIEs and the restricted cash and cash equivalents held by TMCC serve as the sole source of repayment for the asset-backed securities issued by these entities. Investors in the notes issued by the VIEs do not have recourse to us or our other assets, with the exception of customary representation and warranty repurchase provisions and indemnities.

As the primary beneficiary of these entities, we are exposed to credit, residual value, interest rate, and prepayment risk from the Securitized Assets in the VIEs. However, our exposure to these risks did not change as a result of the transfer of the assets to the VIEs. We may also be exposed to interest rate risk arising from the secured notes issued by the VIEs.

In addition, we entered into interest rate swaps with certain special purpose entities that issue variable rate debt. Under the terms of these swaps, the special purpose entities are obligated to pay TMCC a fixed rate of interest on certain payment dates in exchange for receiving a floating rate of interest on notional amounts equal to the outstanding balance of the secured debt. This arrangement enables the special purpose entities to mitigate the interest rate risk inherent in issuing variable rate debt that is secured by fixed rate Securitized Assets.

(Dollars in millions) (Unaudited)

#### Note 8 - Variable Interest Entities (Continued)

The transfers of the Securitized Assets to the special purpose entities in our securitizations are considered to be sales for legal purposes. However, the Securitized Assets and the related debt remain on our Consolidated Balance Sheets. We recognize financing revenue on the Securitized Assets and interest expense on the secured debt issued by the special purpose entities. We also maintain an allowance for credit losses on the securitized retail finance receivables using a methodology consistent with that used for our non-securitized asset portfolio. The interest rate swaps between TMCC and the special purpose entities are considered intercompany transactions and therefore are eliminated in our consolidated financial statements.

Amounts due from non-consolidated variable interest entities at September 30, 2025 and March 31, 2025 and revenues earned from non-consolidated variable interest entities for three and six months ended September 30, 2025 and 2024 were not significant.

(Dollars in millions) (Unaudited)

#### Note 9 – Commitments and Contingencies

#### Commitments and Guarantees

We have entered into certain commitments and guarantees for which the maximum unfunded amounts are summarized in the table below:

	ember 30, 2025	M	arch 31, 2025
Commitments:			
Credit facilities commitments with dealers	\$ 3,718	\$	3,643
Commitments under operating lease agreements	234		228
Total commitments	 3,952		3,871
Guarantees of affiliate pollution control and solid waste disposal bonds	100		100
Total commitments and guarantees	\$ 4,052	\$	3,971

Wholesale financing is not considered to be a contractual commitment as the arrangements are not binding arrangements under which TMCC is required to perform.

#### **Commitments**

We provide fixed and variable rate working capital loans, revolving lines of credit, and real estate financing to dealers and various multi-franchise organizations referred to as dealer groups for facilities construction and refurbishment, working capital requirements, real estate purchases, business acquisitions and other general business purposes. These loans are typically secured with liens on real estate, vehicle inventory, and/or other dealership assets, as appropriate, and may be guaranteed by individual or corporate guarantees of affiliated dealers, dealer groups, or dealer principals. Although the loans are typically collateralized or guaranteed, the value of the underlying collateral or guarantees may not be sufficient to cover our exposure under such agreements. Our pricing reflects market conditions, the competitive environment, the level of support dealers provide our retail, lease and voluntary protection business and the creditworthiness of each dealer. Amounts drawn under these facilities are reviewed for collectability on a quarterly basis, in conjunction with our evaluation of the allowance for credit losses. In addition to the total commitments and guarantees in the preceding table, we have also extended credit facilities to affiliates as described in Note 12 – Related Party Transactions in our fiscal 2025 Form 10-K.

#### Lease Commitments

Our operating lease portfolio consists of real estate leases. We have a lease agreement through August 2032 with TMNA for our headquarters facility in Plano, Texas. Commitments under operating lease agreements in the preceding table include \$50 million and \$54 million for facilities leases with affiliates at September 30, 2025 and March 31, 2025, respectively.

Lease terms may contain renewal and extension options or early termination features. Generally, these options do not impact the lease term because TMCC is not reasonably certain that it will exercise the options. These lease agreements do not impose restrictions on our ability to pay dividends, engage in debt or equity financing transactions or enter into further lease agreements, nor do they have residual value guarantees. We exclude from our Consolidated Balance Sheets, leases with a term equal to one year or less and do not separate non-lease components from our real estate leases. Total operating lease expense, including payments to affiliates, for the first half and second quarter of fiscal 2026 and fiscal 2025 were not significant.

Operating lease liabilities and right-of-use ("ROU") assets are recognized at the lease commencement date based on the present value of the future minimum lease payments over the lease term. As the interest rate implicit in the lease contract is typically not readily determinable, we utilize our incremental borrowing rate at the lease commencement date for the duration of the lease term. As of September 30, 2025 and March 31, 2025, operating lease liabilities and ROU assets related to our operating lease agreements for which we are the lessee were not significant.

(Dollars in millions) (Unaudited)

#### Note 9 - Commitments and Contingencies (Continued)

#### **Guarantees and Other Contingencies**

TMCC has guaranteed bond obligations totaling \$100 million in principal that were issued by Putnam County, West Virginia and Gibson County, Indiana to finance the construction of pollution control facilities at manufacturing plants of certain TMCC affiliates. The bonds mature in the following fiscal years ending March 31: 2028 - \$20 million; 2029 - \$50 million; 2030 - \$10 million; 2031 - \$10 million; and 2032 - \$10 million. TMCC would be required to perform under the guarantees in the event of non-payment on the bonds and other related obligations. TMCC is entitled to reimbursement by the applicable affiliates for any amounts paid. TMCC receives a nominal annual fee for guaranteeing such payments. TMCC has not been required to perform under any of these affiliate bond guarantees as of September 30, 2025 and March 31, 2025.

#### Indemnification

In the ordinary course of business, we enter into agreements containing indemnification provisions standard in the industry related to several types of transactions, including, but not limited to, debt funding, derivatives, securitization transactions, and our vendor, supplier and service agreements. Performance under these indemnities would generally occur upon a breach of the representations, warranties, covenants or other commitments made or given in the agreement, or as a result of a third-party claim. In addition, we have agreed in certain debt and derivative issuances, and subject to certain exceptions, to gross-up payments due to third parties in the event that withholding tax is imposed on such payments. In addition, certain of our funding arrangements may require us to pay lenders for increased costs due to certain changes in laws or regulations. Due to the difficulty in predicting events which could cause a breach of the indemnification provisions or trigger a gross-up or other payment obligation, we are not able to estimate our maximum exposure to future payments that could result from claims made under such provisions. We have not made any material payments in the past as a result of these provisions, and as of September 30, 2025, we determined that it is not probable that we will be required to make any material payments in the future. As of September 30, 2025 and March 31, 2025, no amounts have been recorded under these indemnification provisions.

#### Litigation and Governmental Proceedings

Various legal actions, governmental proceedings and other claims are pending or may be instituted or asserted in the future against us with respect to matters arising in the ordinary course of business. Certain of these actions are or purport to be class action suits, seeking sizeable damages and/or changes in our business operations, policies and practices. Certain of these actions are similar to suits that have been filed against other financial institutions and captive finance companies. In addition, we are subject to governmental and regulatory examinations, information-gathering requests, and investigations from time to time at the state and federal levels. It is inherently difficult to predict the course of such legal actions and governmental inquiries.

We perform periodic reviews of pending claims and actions to determine the probability of adverse verdicts and resulting amounts of liability. We establish accruals for legal claims when payments associated with the claims become probable and the costs can be reasonably estimated. When we are able, we also determine estimates of reasonable possibility of loss or range of loss, whether in excess of any related accrued liability or where there is no accrued liability. Given the inherent uncertainty associated with legal matters, the actual costs of resolving legal claims and associated costs of defense may be substantially higher or lower than the amounts for which accruals have been established. Based on available information and established accruals, we do not believe it is reasonably probable that the results of these proceedings, either individually or in the aggregate, will have a material adverse effect on our consolidated financial condition or results of operations.

(Dollars in millions) (Unaudited)

#### Note 10 - Income Taxes

Our provision for income taxes was \$190 million and \$443 million for the three and six months ended September 30, 2025, respectively, compared to \$137 million and \$242 million for the same periods in fiscal 2025. Our effective tax rate was 24 percent for both the three and six months ended September 30, 2025, as well as for the same periods in fiscal 2025. The change in the provision for income taxes for the three and six months ended September 30, 2025, compared to the same period in fiscal 2025, was primarily due to the increase in income before income taxes.

In July 2025, the One Big Beautiful Bill Act ("the Act") was signed into law. The Act permanently restores 100% bonus depreciation for property acquired and placed in service after January 19, 2025, reestablishes and makes permanent current deductibility of domestic research and experimental expenditures incurred in tax years beginning after December 31, 2024, and modifies clean energy corporate tax provisions, including the termination of the qualified commercial clean vehicle credit for vehicles acquired after September 30, 2025, among other changes. The legislation has been incorporated into our fiscal 2026 tax positions and did not have a material impact on our income tax expense for the three and six months ended September 30, 2025, and we do not expect it to materially change our effective income tax rate for fiscal 2026.

#### Tax-related Contingencies

As of September 30, 2025, we remain under IRS examination for fiscal 2018 through fiscal 2026.

We periodically review our uncertain tax positions. Our assessment is based on many factors including any ongoing IRS audits. For the three and six months ended September 30, 2025, our assessment did not result in a material change in unrecognized tax benefits.

Our deferred tax assets include the cumulative federal and state net operating loss carry forwards, deferred deduction of allowance for credit losses and residual value loss estimates, mark-to-market adjustment of derivatives, and other deferred costs. The total deferred tax liability, net of these deferred tax assets, was \$3.4 billion and \$3.0 billion at September 30, 2025 and March 31, 2025, respectively. Although realization of the deferred tax assets is not assured, management believes it is more likely than not that the deferred tax assets will be realized. The amount of the deferred tax assets considered realizable could be reduced if management's estimates change.

(Dollars in millions) (Unaudited)

#### Note 11 - Related Party Transactions

In April 2025, TMCC renewed a three-year revolving credit agreement with Toyota Motor Sales U.S.A., Inc. ("TMS"), pursuant to which TMCC is entitled to borrow a maximum amount of \$5 billion.

Except for the transaction noted above, there were no material changes to our related party agreements or relationships as described in our fiscal 2025 Form 10-K. The tables below show the financial statement line items and amounts included in our Consolidated Statements of Income and on our Consolidated Balance Sheets under various related party agreements or relationships:

		Three mor				k mon Septer

(Dollars in millions) (Unaudited)

#### Note 11 – Related Party Transactions (Continued)

TMCC receives subvention payments from TMNA which result in a gross monthly subvention receivable. As of September 30, 2025 and March 31, 2025, the subvention receivable from TMNA was \$108 million and \$106 million, respectively. We have a master netting agreement with TMNA which allows us to net settle payments for shared services and subvention transactions. Under this agreement, as of both September 30, 2025 and March 31, 2025, we had a net amount payable to TMNA which is recorded in Other payables, net in Other liabilities.

(Dollars in millions) (Unaudited)

#### Note 12 - Fair Value Measurements

#### Recurring Fair Value Measurements

Financial assets and financial liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The following tables summarize our financial assets and financial liabilities measured at fair value on a recurring basis by level within the fair value hierarchy except for certain investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient and are excluded from the leveling information provided in the tables below. Fair value amounts presented below are intended to permit reconciliation of the fair value hierarchy to the amounts presented on our Consolidated Balance Sheets.

			Se	eptember 30, 202	25

#### Level 3 Fair Value Measurements

The Level 3 financial assets and liabilities recorded at fair value which are subject to recurring and nonrecurring fair value measurement, and the corresponding activity and change in the fair value measurements of these assets and liabilities, were not significant to our Consolidated Balance Sheets as of September 30, 2025 and March 31, 2025, or Consolidated Statements of Income for the three and six months ended September 30, 2025 and 2024.

#### Nonrecurring Fair Value Measurements

Nonrecurring fair value measurements include Level 3 net finance receivables that are not measured at fair value on a recurring basis but are subject to fair value adjustments utilizing the fair value of the underlying collateral when there is evidence of impairment. We did not have any significant nonrecurring fair value items as of September 30, 2025 and March 31, 2025.

(Dollars in millions) (Unaudited)

#### Note 12 - Fair Value Measurements (Continued)

The following tables provide information about assets and liabilities not carried at fair value on a recurring basis on our Consolidated Balance Sheets:

				Se	eptem	ber 30, 20	25

Accrued interest related to finance receivables is in Other assets on the Consolidated Balance Sheets; however, TMCC measures the fair value of each class of finance receivables using scheduled principal and interest payments. Therefore, accrued interest has been included in the carrying value of each class of finance receivables in the preceding tables, along with the finance receivables, deferred origination costs, deferred income, and allowance for credit losses.

Finance receivables in the preceding tables exclude related party transactions which are classified as Level 3 within the fair value hierarchy. The preceding tables also exclude related party notes receivables and notes payables recorded in Other assets and Other liabilities on the Consolidated Balance Sheets which are classified as Level 3 within the fair value hierarchy. Refer to Note 11 - Related Party Transaction for additional information.

For Cash and cash equivalents and Restricted cash and cash equivalents on our Consolidated Balance Sheets, the fair value approximates the carrying value and these instruments are classified as Level 1 within the fair value hierarchy.

#### Note 13 - Segment Information

Our chief operating decision maker, the President and Chief Executive Officer, evaluates segment operating results through Income before income taxes. In assessing segment results and determining the allocations of resources, factors such as operating trends, period-over-period analytical comparisons, and budget-to-actual variances are considered.

Financial information for our reportable operating segments, which includes allocated corporate expenses, is summarized as follows:

#### Note 13 - Segment Information (Continued)

*Voluntary protection operations – Contract revenues* 

For the three months ended September 30, 2025 and 2024, approximately 87 percent and 86 percent, respectively, of voluntary protection contract revenues in the Voluntary protection operations segment were accounted for under the guidance for revenue from contracts with customers. For the six months ended September 30, 2025 and 2024, approximately to 87 percent and 85 percent, respectively, of voluntary protection contract revenues in the Voluntary protection operations segment were accounted for under the guidance for revenue from contracts with customers.

The Voluntary protection operations segment defers contractually determined incentives paid to dealers as contract costs for selling voluntary protection products. These costs are recorded in Other assets on our Consolidated Balance Sheets and are amortized to Operating and administrative expenses in the Consolidated Statements of Income using a methodology consistent with the recognition of revenue. The amount of capitalized dealer incentives and the related amortization was not significant to our consolidated financial statements as of and for the three and six months ended September 30, 2025 and 2024.

We had \$3.4 billion and \$3.1 billion of unearned voluntary protection contract revenues from contracts with customers included in Other liabilities on our Consolidated Balance Sheets as of March 31, 2025 and March 31, 2024, respectively. We recognized \$260 million and \$515 million of these balances in voluntary protection contract revenues in our Consolidated Statements of Income during the three and six months ended September 30, 2025, respectively, compared to \$234 million and \$466 million during the same periods in fiscal 2025. As of September 30, 2025, we had unearned voluntary protection contract revenues of \$3.6 billion included in Other liabilities on our Consolidated Balance Sheets, and with respect to this balance we expect to recognize revenue of \$571 million during fiscal 2026, and \$3.0 billion thereafter. At September 30, 2024, we had unearned voluntary protection contract revenues of \$3.3 billion associated with outstanding contracts.

# ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

# Cautionary Statement Regarding Forward-Looking Information

Certain statements contained in this Form 10-Q are "forward looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These statements are based on current expectations and currently available information. However, since these statements are based on factors that involve risks and uncertainties, our performance and results may differ materially from those described or implied by such forward-looking statements. Words such as "believe," "anticipate," "expect," "estimate," "project," "should," "intend," "will," "may" or words or phrases of similar meaning are intended to identify forward-looking statements. We caution that the forward-looking statements involve known and unknown risks, uncertainties and other important factors that may cause actual results to differ materially from those in the forward-looking statements, including, without limitation, the risk factors set forth in "Part II. Other Information – Item 1A. Risk Factors" and "Item 1A. Risk Factors" of our Annual Report on Form 10-K ("Form 10-K") for the fiscal year ended March 31, 2025 ("fiscal 2025"), including the following:

- Changes in general business, economic, and geopolitical conditions, including trade policy, as well as in consumer demand and the competitive environment in the automotive markets in the United States;
- Changes in interest rates and credit spreads;
- A decline in Toyota Motor North America, Inc. ("TMNA") sales volume and the level of TMNA sponsored subvention, cash, and contractual residual value support incentive programs;
- Extreme weather conditions, natural disasters, changes in fuel prices, manufacturing disruptions and production suspensions of Toyota and Lexus vehicles and related parts supply;
- Increased competition from other financial institutions seeking to increase their share of financing Toyota and Lexus vehicles;
- Changes in consumer behavior;
- Recalls announced by TMNA or private label companies and the perceived quality of Toyota, Lexus, and any private label vehicles;
- Availability and cost of financing;
- Failure or interruption in our operations, including our communications and information systems, or as a result of our failure to retain existing or to attract new key personnel;
- Increased cost, credit and operating risk exposure, or our failure to realize the anticipated benefits, from our private label financial services to third-party automotive and mobility companies;
- Changes in our credit ratings and those of our ultimate parent, Toyota Motor Corporation ("TMC") and changes in our credit support arrangements;
- Changes in our financial position and liquidity, or changes or disruptions in our funding sources or access to the global capital markets;
- Adequacy of our allowance for credit losses;
- Adequacy of our design, implementation and use of quantitative models and adequacy of the estimates and assumptions that are used to determine the value of certain assets;
- Fluctuations in the value or market prices of our investment securities;
- Changes in prices of used vehicles and their effect on residual values of our off-lease vehicles and return rates;
- Failure of our customers or dealers to meet the terms of any contract with us, or otherwise perform as agreed;
- Market risks including changes in interest rates and foreign currency exchange rates and market prices;
- Failure or changes in commercial soundness of our counterparties and other financial institutions;
- Insufficient establishment of reserves, or the failure of a reinsurer to meet its obligations, in our voluntary protection operations;
- A security breach or a cyber-attack;
- Failure to maintain compliant enterprise data practices, including the collection, use, sharing, and security of personally identifiable and financial information of our customers and employees;

- Compliance with current laws and regulations or becoming subject to more stringent laws, regulatory requirements and regulatory scrutiny; and
- Changes in the economies and applicable laws in the states where we have concentration risk.

Forward-looking statements speak only as of the date they are made. We will not update the forward-looking statements to reflect actual results or changes in the factors affecting the forward-looking statements.

# **OVERVIEW**

# Key Performance Indicators and Factors Affecting Our Business

In our finance operations, we generate revenue, income, and cash flows by providing retail, lease, and dealer financing to dealers and their customers. We measure the performance of our finance operations using the following metrics: financing volume, market share, Net financing revenues, Operating and administrative expense, residual value and credit loss metrics.

In our voluntary protection operations, we generate revenue primarily through underwriting and providing claims administration for products that cover certain risks of customers. We measure the performance of our voluntary protection operations using the following metrics: issued contract volume, average number of contracts in force, loss metrics and investment income.

Our financial results are affected by a variety of economic and industry factors including, but not limited to, new and used vehicle markets, Toyota, Lexus, and private label new vehicle production volume, vehicle inventory levels, vehicle sales and incentive programs, consumer behavior, employment levels, our ability to respond to changes in inflation and interest rates with respect to both contract pricing and funding, the actual or perceived quality, safety or reliability of Toyota, Lexus, and private label vehicles, the financial health of the dealers we finance, and competitive pressure. Our financial results may also be affected by the regulatory environment in which we operate, including as a result of new legislation or changes in regulation and any compliance costs or changes we may be required to make to our business practices. All of these factors can influence consumer contract and dealer financing volume, the number of consumer contracts and dealers that default and the loss per occurrence, our inability to realize originally estimated contractual residual values on leased vehicles, the volume and performance of our voluntary protection operations, and our Net financing revenues on consumer and dealer financing volume. Changes in the volume of vehicle sales, sales of our voluntary protection products, or the level of voluntary protection expenses and insurance losses could materially and adversely impact our voluntary protection operations. Additionally, our funding programs and related costs are influenced by changes in the global capital markets, prevailing interest rates, and our credit ratings and those of our parent companies, which may affect our ability to obtain cost-effective funding to support earning asset growth.

### Fiscal 2026 First Six Months Operating Environment

During the first half of the fiscal year ending March 31, 2026 ("fiscal 2026"), the U.S. economy continued to experience uncertainties surrounding geopolitical events, international trade policy, taxation policy, and the future path of monetary policy which impact the outlook for future economic growth. The imposition, or potential imposition, of tariffs and the expansion of import fees across various nations could continue to disrupt supply chains, increase costs, and limit market access, further complicating the economic outlook. Automotive industry specific tariffs could continue to impact costs of automotive suppliers and manufacturers, which may change levels of production and availability of new vehicles, as well as increase consumer costs and lower consumer demand. Changes in the economy that adversely impact the volume of Toyota and Lexus vehicles produced or sold in the U.S. could have a material adverse effect on our business, results of operations, and financial condition.

Industry-wide vehicle sales and sales incentives in the U.S. increased during the first half of fiscal 2026, as compared to the same period in fiscal 2025; however, our market share of TMNA sales decreased approximately 7 percentage points for the first half of fiscal 2026, compared to the same period in fiscal 2025, primarily due to increased competition from other financial institutions.

Average used vehicle values during the first half of fiscal 2026 were relatively consistent and remained elevated compared to historic levels.

While global capital markets experienced some volatility in response to proposed changes in trade policy and concerns about the growth prospects of the U.S. and global economies during the first half of fiscal 2026, we continue to maintain broad global access to both domestic and international markets. Future disruptions and changes in interest rates in the U.S. and foreign markets could result in volatility in our interest expense, which could affect our results of operations.

#### Mazda Financial Services Transition

In fiscal 2025, as it was deemed to be in the best interests of the Company and its sole shareholder, TFSIC, the Board of Directors of TMCC approved transition of the origination and financing of new automotive finance and lease contracts under the MFS Agreement to TFSB, an unconsolidated affiliate of TMCC (the "MFS Transition"). The MFS Transition commenced and was substantially completed during the fourth quarter of fiscal 2025. Refer to "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations - Mazda Financial Services Transition" in our fiscal 2025 Form 10-K for further discussion.

# RESULTS OF OPERATIONS

The following table summarizes total net income by our reportable operating segments:

		Three mor		nded 30,				
(Dollars in millions)	2025			2024		2025	2024	
Net income:								
Finance operations <sup>1</sup>	\$	432	\$	222	\$	1,073	\$	517
Voluntary protection operations <sup>1</sup>		173		207		344		269
Total net income	\$ 605		\$	429	\$	1,417	\$	786

Refer to Note 13 - Segment Information of the Notes to Consolidated Financial Statements for the total asset balances of our finance and voluntary protection operations.

Our consolidated net income was \$1.4 billion and \$605 million for the first half and second quarter of fiscal 2026, respectively, compared to \$786 million and \$429 million for the same periods in fiscal 2025.

The increase in net income for the first half of fiscal 2026, compared to the same period in fiscal 2025, was primarily due to a \$304 million decrease in interest expense, a \$245 million increase in total financing revenues, a \$219 million decrease in provision for credit losses, a \$101 million increase in investment and other income, net, and a \$53 million increase in voluntary protection contract revenues and insurance earned premiums, partially offset by a \$201 million increase in provision for income taxes, a \$34 million increase in depreciation on operating leases, and a \$33 million increase in voluntary protection contract expenses and insurance losses.

The increase in net income for the second quarter of fiscal 2026, compared to the same period in fiscal 2025, was primarily due to a \$166 million decrease in interest expense, a \$91 million increase in total financing revenues, a \$75 million decrease in provision for credit losses, and a \$28 million increase in voluntary protection contract revenues and insurance earned premiums, partially offset by a \$53 million increase in provision for income taxes, a \$45 million increase in depreciation on operating leases, a \$36 million increase in operating and administrative expense, and a \$32 million decrease in investment and other income, net.

Our overall capital position increased \$1.5 billion, bringing total shareholder's equity to \$18.7 billion at September 30, 2025 as compared to \$17.2 billion at March 31, 2025. Our debt decreased to \$123.0 billion at September 30, 2025 from \$127.7 billion at March 31, 2025. Our debt-to-equity ratio decreased to 6.6 at September 30, 2025 from 7.4 at March 31, 2025.

#### Finance Operations

The following table summarizes key results of our Finance Operations:

	Three months ended September 30,			Percentage		Six mont Septem			Percentage	
(Dollars in millions)		2025	2024		Change	2025		2024		change
Financing revenues:										
Operating lease	\$	1,627	\$	1,539	6%	\$	3,245	\$	3,060	6%
Retail		1,507		1,487	1%		3,003		2,907	3%
Dealer		254		271	(6)%	_	503		539	(7)%
Total financing revenues		3,388		3,297	3%		6,751		6,506	4%
Depreciation on operating leases		1,060		1,015	4%		2,083		2,049	2%
Interest expense		1,429		1,584	(10)%		2,740		3,027	(9)%
Net financing revenues	·	899	Ţ	698	29%	-	1,928	·	1,430	35%
Investment and other income, net		170		136	25%		342		302	13%
Net financing and other revenues	•	1,069	Ţ	834	28%		2,270	·	1,732	31%
Expenses:										
Provision for credit losses		131		206	(36)%		176		395	(55)%
Operating and administrative		369		332	11%		682		659	3%
Total expenses		500		538	(7)%		858		1,054	(19)%
Income before income taxes		569		296	92%		1,412		678	108%
Provision for income taxes		137		74	85%		339		161	111%
Net income from finance operations	\$	432	\$	222	95%	\$	1,073	\$	517	108%

Our finance operations reported net income of \$1.1 billion and \$432 million for the first half and second quarter of fiscal 2026, respectively, compared to \$517 million and \$222 million for the same periods in fiscal 2025.

The increase in net income from finance operations for the first half of fiscal 2026, compared to the same period in fiscal 2025 was primarily due to a \$287 million decrease in interest expense, a \$245 million increase in total financing revenues, a \$219 million decrease in provision for credit losses, and a \$40 million increase in investment and other income, net, partially offset by a \$178 million increase in provision for income taxes, and a \$34 million increase in depreciation on operating leases. The increase in net income from finance operations for the second quarter of fiscal 2026, compared to the same period in fiscal 2025 was due to a \$155 million decrease in interest expense, a \$91 million increase in total financing revenues, a \$75 million decrease in provision for credit losses, and a \$34 million increase in investment and other income, net partially offset by a \$63 million increase in provision for income taxes, a \$45 million increase in depreciation on operating leases, and a \$37 million increase in operating and administrative expenses.

#### Financing Revenues

Total financing revenues increased 4 percent and 3 percent during the first half and second quarter of fiscal 2026, respectively, compared to the same periods in fiscal 2025 due to the following:

- Operating lease revenues increased 6 percent for both the first half and second quarter of fiscal 2026, compared to the same periods in fiscal 2025, primarily due to higher average outstanding earning asset balances.
- Retail financing revenues increased 3 percent and 1 percent for the first half and second quarter of fiscal 2026, respectively, compared to the same periods in fiscal 2025, due to higher yields partially offset by lower average outstanding earning asset balances.
- Dealer financing revenues decreased 7 percent and 6 percent for the first half and second quarter of fiscal 2026, respectively, compared to the same periods in fiscal 2025, due to lower yields partially offset by higher average outstanding earning asset balances.

As a result of the above, our total portfolio yield, which includes operating lease, retail and dealer financing revenues, was 7.0 percent for both the first half and second quarter of fiscal 2026, compared to 6.7 percent and 6.8 percent for the same periods in fiscal 2025.

# Depreciation on Operating Leases

We recorded depreciation on operating leases of \$2.1 billion and \$1.1 billion for the first half and second quarter of fiscal 2026, respectively, compared to \$2.0 billion and \$1.0 billion for the same periods in fiscal 2025. The increase in depreciation on operating leases for the first half and second quarter of fiscal 2026, compared to the same periods in fiscal 2025, was due to higher average vehicle values.

Declines in used vehicle values resulting from increases in the supply of new vehicles and increases in new vehicle sales incentives could unfavorably impact return rates, residual values, and depreciation expense in the future.

#### Interest Expense

Our liabilities consist mainly of fixed and variable rate debt, denominated in U.S. dollars and various other currencies, which we issue in the global capital markets, while our assets consist primarily of U.S. dollar denominated, fixed rate receivables. We enter into interest rate swaps and foreign currency swaps to economically hedge the interest rate and foreign currency risks that result from the different characteristics of our assets and liabilities. The following table summarizes the components of interest expense:

	Three mor Septem			s ended er 30,		
(Dollars in millions)	2025	2	024	2025		2024
Interest expense on debt	\$ 1,382	\$	1,424	\$ 2,7	82	\$ 2,829
Interest expense (income) on derivatives	61		(39)	1	14	(97)
Interest expense on debt and derivatives	1,443		1,385	2,8	96	2,732
(Gains) losses on debt denominated in foreign currencies	(54)		374	6	24	394
Losses (gains) on foreign currency swaps	 62		(606)	(7	23)	(599)
Losses (gains) on foreign currency debt and swaps	8		(232)	(	99)	(205)
(Gains) losses on U.S. dollar interest rate swaps	 (22)		431	(	<u>57</u> )	500
Total interest expense	\$ 1,429	\$	1,584	\$ 2,7	40	\$ 3,027

During the first half of fiscal 2026, total interest expense decreased to \$2.7 billion from \$3.0 billion for the same period in fiscal 2025, due to net gains on U.S. dollar interest rate swaps, partially offset by an increase on interest expense on debt and derivatives and a decrease in gains on foreign currency debt and swaps. During the second quarter of fiscal 2026, total interest expense decreased to \$1.4 billion from \$1.6 billion for the same period in fiscal 2025, due to net gains on U.S. dollar interest rate swaps, partially offset by losses on foreign currency debt and swaps and an increase on interest expense on debt and derivatives. Gains or losses on foreign currency debt and swaps, and U.S. dollar interest rate swaps, are primarily driven by changes in the valuation of the swaps. The increase in interest expense on debt and derivatives for the first half and second quarter of fiscal 2026 compared to the same periods in fiscal 2025, is primarily attributable to changes in interest rates.

Future changes in interest and foreign currency exchange rates could continue to result in significant volatility in our interest expense, thereby affecting our results of operations.

# Investment and Other Income, Net

We recorded investment and other income, net of \$342 million and \$170 million for the first half and second quarter of fiscal 2026, respectively, compared to \$302 million and \$136 million for the same period in fiscal 2025. The increase in investment and other income, net for the first half and second quarter of fiscal 2026, compared to the same period in fiscal 2025, was primarily due to higher average balances on our cash and cash equivalents.

### Provision for Credit Losses

We recorded a provision for credit losses of \$176 million and \$131 million for the first half and second quarter of fiscal 2026, respectively, compared to \$395 million and \$206 million for the same periods in fiscal 2025. The decrease in the provision for credit losses for the first half and second quarter of fiscal 2026, compared to the same periods in fiscal 2025, was due to a decrease in the size in our retail loan portfolio as well as improvements in delinquencies and a decrease in charge-offs.

# Operating and Administrative Expenses

We recorded operating and administrative expenses of \$682 million and \$369 million for the first half and second quarter of fiscal 2026, respectively, compared to \$659 million and \$332 million for the same periods in fiscal 2025. The increase in operating and administrative expenses for the first half of fiscal 2026 compared to the same period in fiscal 2025, was due to higher employee and technology expenses, partially offset by lower general operating expenses. The increase in operating and administrative expenses for the second quarter of fiscal 2026 compared to the same period in fiscal 2025, was due to higher employee and technology expenses.

### Voluntary Protection Operations

The following table summarizes key results of our Voluntary Protection Operations:

	Three months ended September 30,			Percentage	 Six mont Septem	Percentage			
		2025		2024	Change	 2025	2024		change
Contracts (units in thousands)				_		 			
Issued		898		822	9%	1,790		1,651	8%
Average in force		12,019		11,168	8%	11,939		11,177	7%
(Dollars in millions)									
Voluntary protection contract revenues									
and insurance earned premiums	\$	328	\$	300	9%	\$ 648	\$	595	9%
Investment and other income, net		197		252	(22)%	387		309	25%
Revenues from voluntary protection	-		Ÿ				Ÿ		
operations		525		552	(5)%	1,035		904	14%
Expenses:									
Voluntary protection contract expenses									
and insurance losses		179		161	11%	353		320	10%
Operating and administrative		120		121	(1)%	234		234	0%
Total expenses	· ·	299		282	6%	 587		554	6%
Income before income taxes		226		270	(16)%	448		350	28%
Provision for income taxes		53		63	(16)%	104		81	28%
Net income from voluntary protection					·				
operations	\$	173	\$	207	(16)%	\$ 344	\$	269	28%

Our voluntary protection operations reported net income of \$344 million and \$173 million for the first half and second quarter of fiscal 2026, respectively, compared to \$269 million and \$207 million for the same periods in fiscal 2025.

The increase in net income from voluntary protection operations for the first half of fiscal 2026, compared to the same period in fiscal 2025, was primarily due to a \$78 million increase in investment and other income, net and a \$53 million increase in voluntary protection contract revenues and insurance earned premiums, partially offset by a \$33 million increase in voluntary protection contract expenses and insurance losses and a \$23 million increase in provision for income taxes.

The decrease in net income from voluntary protection operations for the second quarter of fiscal 2026, compared to the same period in fiscal 2025, was primarily due to a \$55 million decrease in investment and other income, net, and an \$18 million increase in voluntary protection contract expenses and insurance losses, partially offset by a \$28 million increase in voluntary protection contract revenues and insurance earned premiums, and a \$10 million decrease in provision for income taxes.

Contracts issued increased 8 percent and 9 percent for the first half and second quarter of fiscal 2026, respectively, compared to the same periods in fiscal 2025, due to higher issuances of all of our voluntary protection products. The average number of contracts in force increased 7 percent and 8 percent for the first half and second quarter of fiscal 2026, respectively, compared to the same periods in fiscal 2025, due to net growth in the voluntary protection portfolio, most notably in prepaid maintenance contracts, certified pre-owned vehicle limited warranties and vehicle service contracts.

# Revenue from Voluntary Protection Operations

Our voluntary protection operations reported voluntary protection contract revenues and insurance earned premiums of \$648 million and \$328 million for the first half and second quarter of fiscal 2026, respectively, compared to \$595 million and \$300 million for the same periods in fiscal 2025. Voluntary protection contract revenues and insurance earned premiums represent revenues from in force contracts and are affected by issuances as well as the level of coverage, age, and mix of in force contracts. Voluntary protection contract revenues and insurance earned premiums are recognized over the term of the contracts in relation to the timing and level of anticipated claims. The increase in voluntary protection contract revenues and insurance earned premiums for the first half and second quarter of fiscal 2026, compared to the same periods in fiscal 2025, was primarily due to an increase in our average in force contracts resulting from net growth in the voluntary protection portfolio.

#### Investment and Other Income, Net

Our voluntary protection operations reported investment and other income, net of \$387 million and \$197 million for the first half and second quarter of fiscal 2026, respectively, compared to investment and other income, net of \$309 million and \$252 million for the same period in fiscal 2025. Investment and other income, net, consists primarily of dividend and interest income, realized gains and losses on investments in marketable securities, changes in fair value from equity and available-for-sale debt securities for which the fair value option was elected, and credit loss expense on available-for-sale debt securities, if any. The increase in investment and other income, net for the first half of fiscal 2026, compared to the same period in fiscal 2025, was primarily due to gains from changes in fair value on our equity investments as a result of market volatility. The decrease in investment and other income, net for the second quarter of fiscal 2026, compared to the same period in fiscal 2025, was primarily due to lower gains from changes in fair value on our equity investments and available-for-sale debt securities for which fair value option was elected as result of market volatility.

# Voluntary Protection Contract Expenses and Insurance Losses

Our voluntary protection operations reported voluntary protection contract expenses and insurance losses of \$353 million and \$179 million for the first half and second quarter of fiscal 2026, respectively, compared to \$320 million and \$161 million for the same period in fiscal 2025. Voluntary protection contract expenses and insurance losses incurred are a function of the amount of covered risks, the frequency and severity of claims associated with in force contracts, and the level of risk retained by our voluntary protection operations. Voluntary protection contract expenses and insurance losses include amounts paid and accrued for reported losses, estimates of losses incurred but not reported, and any related claim adjustment expenses. The increase in voluntary protection contract expenses and insurance losses for the first half and second quarter of fiscal 2026, compared to the same periods in fiscal 2025, was primarily due to an increase in frequency and severity of claims on our prepaid maintenance contracts, as well as an increase in the severity of claims in our vehicle service contracts.

# Operating and Administrative Expenses

Our voluntary protection operations reported operating and administrative expenses of \$234 million and \$120 million for the first half and second quarter of fiscal 2026, respectively, compared to \$234 million and \$121 million for the same periods in fiscal 2025.

# **Provision for Income Taxes**

Our provision for income taxes was \$443 million and \$190 million for the first half and second quarter of fiscal 2026, respectively, compared to \$242 million and \$137 million for the same periods in fiscal 2025. Our effective tax rate was 24 percent for both the first half and second quarter of fiscal 2026, as well as for the same periods in fiscal 2025. The change in the provision for income taxes for the first half and second quarter of fiscal 2026, compared to the same periods in fiscal 2025 was primarily due to the increase in income before income taxes.

# FINANCIAL CONDITION

#### Vehicle Financing Volume and Net Earning Assets

The composition of our vehicle contract volume and market share is summarized below:

	Three month September		Percentage	Six months Septembe		Percentage
(Units in thousands):	2025	2024	change	2025	2024	Change
Vehicle financing volume 1:						
New retail contracts	176	200	(12)%	337	418	(19)%
Used retail contracts	56	74	(24)%	116	164	(29)%
Lease contracts	87	111	(22)%	165	229	(28)%
Total	319	385	(17)%	618	811	(24)%
TMNA subvened vehicle financing	g volume <sup>2</sup> :					
New retail contracts	130	112	16%	243	231	5%
Used retail contracts	12	13	(8)%	25	31	(19)%
Lease contracts	74	69	7%	142	140	1%
Total	216	194	11%	410	402	2%
Market share of TMNA sales <sup>3</sup> :	52.3%	55.4%		50.4%	56.9%	

<sup>&</sup>lt;sup>1</sup> Total financing volume comprised of approximately 97 percent Toyota/Lexus and 3 percent private label/non-Toyota/Lexus for both the first half and second quarter of fiscal 2026. Total financing volume comprised of approximately 77 percent Toyota/Lexus and 23 percent private label/non-Toyota/Lexus for the first half of fiscal 2025. Total financing volume comprised of approximately 75 percent Toyota/Lexus and 25 percent private label/non-Toyota/Lexus/private label for the second quarter of fiscal 2025.

### Vehicle Financing Volume

The volume of our retail and lease contracts, which are acquired primarily from Toyota, Lexus, and private label dealers, is dependent upon TMNA and private label sales volume, the level of TMNA, private label, and third-party sponsored subvention and other incentive programs, as well as TMCC competitive rate and other incentive programs.

Our financing volume decreased 24 percent and 17 percent for the first half and second quarter of fiscal 2026, respectively, compared to the same periods in fiscal 2025, due to the MFS Transition, increased competition from other financial institutions, and continuous evaluation and refinement of purchasing practices.

Our market share of TMNA sales decreased approximately 7 percentage points and approximately 3 percentage points for the first half and second quarter of fiscal 2026, respectively, compared to the same periods in fiscal 2025, primarily due to increased competition from other financial institutions.

<sup>&</sup>lt;sup>2</sup> TMNA subvened volume units are included in the total vehicle financing. Units exclude third-party subvened units.

Represents the percentage of total domestic TMNA sales of new Toyota and Lexus vehicles financed by us, excluding sales under dealer rental car and commercial fleet programs, sales of a private Toyota distributor and private label vehicles financed.

The composition of our net earning assets is summarized below:

(Dollars in millions)	September 30, 2025		M	March 31, 2025	Percentage change
Net Earning Assets					
Finance receivables, net					
Retail finance receivables, net	\$	82,604	\$	85,328	(3)%
Dealer financing, net <sup>1</sup>		17,224		16,421	5%
Total finance receivables, net		99,828		101,749	(2)%
Investments in operating leases, net		30,569		30,090	2%
Net earning assets	\$	130,397	\$	131,839	(1)%
Dealer Financing					
(Number of dealers serviced)					
Toyota, Lexus, and private label dealers <sup>1</sup>		1,176		1,197	(2)%
Dealers outside of the Toyota/Lexus/private label dealer network		389		383	2%
Total number of dealers receiving wholesale financing		1,565		1,580	(1)%

<sup>&</sup>lt;sup>1</sup> Includes wholesale and other credit arrangements in which we participate as part of a syndicate of lenders.

# Retail Contract Volume and Earning Assets

Our new retail contract volume decreased 19 percent and 12 percent for the first half and second quarter of fiscal 2026, respectively, compared to the same periods in fiscal 2025. The decreases were primarily due to the MFS Transition, partially offset by an increase in new retail contract volume as a result of higher levels of subvention and other incentive programs.

Our used retail contracts decreased 29 percent and 24 percent for the first half and second quarter of fiscal 2026, respectively, compared to the same periods in fiscal 2025, primarily due to lower levels of subvention and other incentive programs, increased competition in the used vehicle marketplace, and continuous evaluation and refinement of purchasing practices.

Our retail finance receivables, net decreased 3 percent at September 30, 2025, as compared to March 31, 2025 primarily due to lower retail contracts outstanding.

# Lease Contract Volume and Earning Assets

Our lease contract volume decreased 28 percent and 22 percent for the first half and second quarter of fiscal 2026, respectively, compared to the same periods in fiscal 2025, primarily due to the MFS transition. Our investments in operating leases, net increased 2 percent at September 30, 2025, compared to March 31, 2025 primarily due to higher average vehicle values.

### Dealer Financing and Earning Assets

Dealer financing, net increased 5 percent at September 30, 2025, as compared to March 31, 2025, primarily due to an increase in real estate and working capital.

### Residual Value Risk

The primary factors affecting our exposure to residual value risk are the levels at which residual values are established at lease inception, current economic conditions and outlook, projected end-of-term market values, and the resulting impact on depreciation expense and lease return rates. Higher average operating lease units outstanding and the resulting increase in future maturities, a higher supply of used vehicles, as well as future deterioration in actual and expected used vehicle values for Toyota, Lexus, and private label vehicles could unfavorably impact return rates, residual values, and depreciation expense.

On a quarterly basis, we review the estimated end-of-term market values of leased vehicles to assess the appropriateness of our carrying values. To the extent the estimated end-of-term market value of a leased vehicle is lower than the residual value established at lease inception, the residual value of the leased vehicle is adjusted downward so that the carrying value at lease end will approximate the estimated end-of-term market value. For investments in operating leases, adjustments are made on a straight-line basis over the remaining terms of the lease contracts and are included in Depreciation on operating leases in our Consolidated Statements of Income as a change in accounting estimate.

#### Depreciation on Operating Leases

Depreciation on operating leases and average operating lease units outstanding are as follows:

	Three months ended September 30,				Percentage		Six mont Septem	Percentage		
		2025		2024	change	2025		2024		change
Depreciation on operating leases (dollars in millions)	\$	1,060	\$	1,015	4%	\$	2,083	\$	2,049	2%
Average operating lease units outstanding (in thousands)		888		886	0%		889		893	0%

Depreciation expense on operating leases increased 2 percent and 4 percent for the first half and second quarter of fiscal 2026, compared to the same periods in fiscal 2025. The increase in depreciation on operating leases for the first half and second quarter of fiscal 2026, compared to the same periods in fiscal 2025, was due to higher average vehicle values.

Declines in used vehicle values resulting from increases in the supply of new vehicles and increases in new vehicle sales incentives could unfavorably impact return rates, residual values, and depreciation expense in the future.

### Origination, Credit Loss, and Delinquency Experience

Our credit loss experience may be affected by a number of factors including the economic environment, our purchasing, servicing and collections practices, used vehicle market conditions and subvention. Changes in the economy that impact the consumer such as increasing interest rates, and a rise in the unemployment rate as well as higher debt balances, coupled with deterioration in actual and expected used vehicle values, could increase our credit losses. In addition, a decline in the effectiveness of our collection practices could also increase our credit losses. We continuously evaluate and refine our purchasing practices and collection efforts to minimize risk. In addition, subvention contributes to our overall portfolio quality, as subvened contracts typically have higher credit scores than non-subvened contracts.

The following table provides information related to our origination experience:

	September 30,	March 31,	September 30,
	2025	2025	2024
Average consumer portfolio origination FICO score	754	759	758
Average consumer retail loan origination term (months) <sup>1</sup>	69	69	69

<sup>1</sup> Retail loan origination greater than or equal to 78 months was 11% as of September 30, 2025, March 31, 2025, and September 30, 2024.

While we have included the average origination FICO score to illustrate origination trends, we also use a proprietary credit scoring system to evaluate an applicant's risk profile. Refer to Part I. Item 1. Business "Finance Operations" in our fiscal 2024 Form 10-K for further discussion of the proprietary manner in which we evaluate risk.

The following table provides information related to our finance receivables and investment in operating leases:

	September 30, 2025	March 31, 2025	September 30, 2024
Net charge-offs as a percentage of average			
finance receivables 1,5	0.63%	0.72%	0.69%
Default frequency as a percentage of outstanding			
consumer finance receivables contracts	1.70%	1.59%	1.48%
Average consumer finance receivables			
loss severity per unit <sup>2</sup>	\$13,055	\$13,989	\$13,871
Aggregate balances for accounts 60 or more days past due as a percentage of earning assets 3, 4, 5			
Finance receivables	0.65%	0.58%	0.78%
Operating leases	0.36%	0.37%	0.54%

<sup>&</sup>lt;sup>1</sup> The ratio for net charge-offs and the ratio for default frequency have been annualized using three-month results for the periods ended September 30, 2025 and 2024. Net charge-off includes the write-offs of accounts deemed to be uncollectable and accounts greater than 120 days past due.

- <sup>2</sup> Average loss per unit upon disposition of repossessed vehicles or charge-off prior to repossession.
- <sup>3</sup> Substantially all retail receivables do not involve recourse to the dealer in the event of customer default.
- <sup>4</sup> Includes accounts in bankruptcy and excludes accounts for which vehicles have been repossessed.
- <sup>5</sup> Excludes accrued interest from average finance receivables.

Management considers historical credit loss information when assessing the allowance for credit losses. Historical credit losses are primarily driven by two factors: default frequency and loss severity. Our net charge-offs as a percentage of average finance receivables for the first half of fiscal 2026 decreased to 0.63 percent from 0.69 percent for the same period in fiscal 2025. Our average finance receivables loss severity per unit for the first half of fiscal 2026 decreased to \$13,055 from \$13,871 in the same period in fiscal 2025. The decrease in net charge-offs and loss severity per unit is primarily due to a refinement of purchasing and collection activities and a decrease in full term charge offs.

Our default frequency as a percentage of outstanding finance receivable contracts increased to 1.70 percent for the first half of fiscal 2026, compared to 1.48 percent in the same period in fiscal 2025. The increase in default frequency was due to an increased volume of repossessed vehicles resulting from a refinement of collection activities.

Our aggregate balances for accounts 60 or more days past due as a percentage of finance receivables was 0.65 percent at September 30, 2025, compared to 0.78 percent at September 30, 2024, and 0.58 percent at March 31, 2025. Our aggregate balances for accounts 60 or more days past due as a percentage of operating leases was 0.36 percent at September 30, 2025, compared to 0.54 percent at September 30, 2024, and 0.37 percent at March 31, 2025. The decrease in our aggregate balances for accounts 60 or more days past due as a percentage of finance receivables and operating leases as of September 30, 2025, compared to September 30, 2024, was primarily due to our continuous evaluation and refinement of purchasing practices and collections activities.

### Allowance for Credit Losses

We maintain an allowance for credit losses which is measured by an impairment model that reflects lifetime expected losses.

The allowance for credit losses for our retail loan portfolio is measured on a collective basis when loans have similar risk characteristics such as loan-to-value ratio, book payment-to-income ratio, FICO score at origination, collateral type (new or used, Lexus, Toyota, or private label), contract term, and other relevant factors. We use statistical models to estimate lifetime expected credit losses of our retail loan portfolio segment by applying probability of default and loss given default to the exposure at default on a loan level basis. Probability of default models are developed from internal risk scoring models which consider variables such as delinquency status, historical default frequency, and other credit quality indicators. Other credit quality indicators include loan-to-value ratio, book payment-to-income ratio, FICO score at origination, collateral type, and contract term. Loss given default models forecast the extent of losses given that a default has occurred and consider variables such as collateral, trends in recoveries, historical loss severity, and other contract structure variables. Exposure at default represents the expected outstanding principal balance, including the effects of expected prepayment when applicable. The lifetime expected credit losses incorporate the probability-weighted forward-looking macroeconomic forecasts for baseline, favorable, and adverse scenarios. The loan lifetime is regarded by management as the reasonable and supportable period. We use macroeconomic forecasts from a third party and update such forecasts quarterly. On an ongoing basis, we review our models, including macroeconomic factors, the selection of macroeconomic scenarios and their weighting to ensure they reflect the risk of the portfolio.

For the allowance for credit losses for our dealer portfolio, an allowance for credit losses is established for both outstanding dealer finance receivables and certain unfunded off-balance sheet lending commitments. The allowance for credit losses is measured on a collective basis when loans have similar risk characteristics such as dealer group internal risk rating and loan-to-value ratios. We measure lifetime expected credit losses of our dealer products portfolio segment by applying probability of default and loss given default to the exposure at default on a loan level basis. Probability of default is primarily established based on internal risk assessments. The probability of default model also considers qualitative factors related to macroeconomic outlooks. Loss given default is established based on the nature and market value of the collateral, loan-to-value ratios and other credit quality indicators. Exposure at default represents the expected outstanding principal balance. The lifetime of the loan or lending commitment is regarded by management as the reasonable and supportable period. On an ongoing basis, we review our models and the macroeconomic outlook, to ensure they reflect the risk of the portfolio.

If management does not believe the models adequately reflect lifetime expected credit losses, a qualitative adjustment is made to reflect management judgment regarding observable changes in recent or expected economic trends and conditions, portfolio composition, and other relevant factors.

The following table provides information related to our allowance for credit losses for finance receivables and certain off-balance sheet lending commitments:

		Three mor Septem			Six months ended September 30,			
(Dollars in millions)		2025		2024		2025	2024	
Allowance for credit losses at beginning of period	\$ 1,616			1,705		\$ 1,704		1,684
Charge-offs		(215)		(237)		(393)	3) (4	
Recoveries		40		35		85		65
Provision for credit losses		131		206		176		395
Allowance for credit losses at end of period <sup>1</sup>	\$ 1,572			1,709	\$	1,572	\$	1,709

<sup>&</sup>lt;sup>1</sup> Ending balances as of September 30, 2025 and 2024 include \$56 million and \$53 million, respectively, of allowance for credit losses recorded in Other liabilities on the Consolidated Balance Sheets which is related to off-balance-sheet lending commitments.

Our allowance for credit losses decreased by \$137 million from September 30, 2024 to September 30, 2025, primarily due to a decrease in the size of our retail loan portfolio as well as improvements in delinquencies and decrease in charge-offs.

Future changes in the economy that impact the consumer and consumer confidence such as increasing interest rates and a rise in the unemployment rate as well as higher debt balances, coupled with deterioration in actual and expected used vehicle values, could result in further increases to our allowance for credit losses. In addition, a decline in the effectiveness of our collection practices could also increase our allowance for credit losses.

# **LIQUIDITY AND CAPITAL RESOURCES**

### Cash Requirements

Our primary material cash requirements include the acquisition of finance receivables and investment in operating leases from dealers, providing various financing to dealers, payments related to debt and swaps, operating expenses, voluntary protection contract expenses, income taxes, and dividend payments.

#### Guarantees

TMCC has guaranteed the payments of principal and interest with respect to the bond obligations that were issued by Putnam County, West Virginia and Gibson County, Indiana to finance the construction of pollution control facilities at manufacturing plants of certain TMCC affiliates. Refer to <a href="Note 9">Note 9</a> - Commitments and Contingencies of the Notes to Consolidated Financial Statements for further discussion.

#### Commitments

A description of our lending commitments is included under "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations, Liquidity and Capital Resources" and Note 12 - Related Party Transactions of the Notes to Consolidated Financial Statements in our fiscal 2025 Form 10-K, as well as in Note 9 - Commitments and Contingencies of the Notes to Consolidated Financial Statements.

## Indemnification

Refer to Note 9 - Commitments and Contingencies of the Notes to Consolidated Financial Statements for a description of agreements containing indemnification provisions.

### Liquidity

Liquidity risk is the risk relating to our ability to meet our financial obligations when they come due. Our liquidity strategy is to ensure that we maintain the ability to fund assets and repay liabilities in a timely and cost-effective manner, even in adverse market conditions. Our strategy includes raising funds via the global capital markets and through loans, credit facilities, and other transactions as well as generating liquidity from our earning assets. This strategy has led us to develop a diversified borrowing base that is distributed across a variety of markets, geographies, investors, and financing structures.

Liquidity management involves forecasting and maintaining sufficient capacity to meet our cash needs, including unanticipated events. To ensure adequate liquidity through a full range of potential operating environments and market conditions, we conduct our liquidity management and business activities in a manner that will preserve and enhance funding stability, flexibility and diversity. Key components of this operating strategy include a strong focus on developing and maintaining direct relationships with commercial paper investors and wholesale market funding providers and maintaining the ability to sell certain assets when and if conditions warrant.

We develop and maintain contingency funding plans and regularly evaluate our liquidity position under various operating circumstances, allowing us to assess how we will be able to operate through a period of stress when access to normal sources of capital is constrained. The plans project funding requirements during a potential period of stress, specify and quantify sources of liquidity, and outline actions and procedures for effectively managing through the problem period. In addition, we monitor the ratings and credit exposure of the lenders that participate in our credit facilities to ascertain any issues that may arise with potential draws on these facilities if that contingency becomes warranted.

We maintain broad access to a variety of domestic and global markets and may choose to realign our funding activities depending upon market conditions, relative costs, and other factors. We believe that our funding sources, combined with operating and investing activities, provide sufficient liquidity to meet future funding requirements and business growth. For liquidity purposes, we hold cash in excess of our immediate funding needs. These excess funds are invested in short-term, highly liquid and investment grade money market instruments, which provide liquidity for our short-term funding needs and flexibility in the use of our other funding sources. We maintained excess funds ranging from \$7.1 billion to \$12.5 billion with an average balance of \$9.5 billion during the quarter ended September 30, 2025. The amount of excess funds we hold excludes amounts related to voluntary protection operations, and may fluctuate, depending on market conditions and other factors. We also have access to liquidity under a \$5.0 billion credit facility with Toyota Motor Sales U.S.A., Inc. ("TMS"), which as of September 30, 2025, was not drawn upon and had no outstanding balance as further described in Note 7 – Debt and Credit Facilities of the Notes to the Consolidated Financial Statements. We believe we have sufficient capacity to meet our short-term funding requirements and manage our liquidity, including payment of dividends.

Credit support is provided to us by our indirect parent Toyota Financial Services Corporation ("TFSC"), and, in turn to TFSC by TMC. Taken together, these credit support agreements provide an additional source of liquidity to us, although we do not rely upon such credit support in our liquidity planning and capital and risk management. The credit support agreements are not a guarantee by TMC or TFSC of any securities or obligations of TFSC or TMCC, respectively. The fees paid pursuant to these agreements are disclosed in Note 11 – Related Party Transactions of the Notes to Consolidated Financial Statements.

TMC's obligations under its credit support agreement with TFSC rank pari passu with TMC's senior unsecured debt obligations. Refer to Part II. Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations "Liquidity and Capital Resources" in our fiscal 2025 Form 10-K for further discussion.

We routinely monitor global financial conditions and our financial exposure to our global counterparties, particularly in those countries experiencing significant economic, fiscal or political strain, and the corresponding likelihood of default. As of September 30, 2025, our exposure to foreign sovereign and non-sovereign counterparties was not significant. Refer to the "Liquidity and Capital Resources - Credit Facilities and Letters of Credit" section and Part I, Item 1A. Risk Factors – "The failure or commercial soundness of our counterparties and other financial institutions may have an effect on our liquidity, results of operations or financial condition" in our fiscal 2025 Form 10-K for further discussion.

# **Funding**

The following table summarizes the components of our outstanding debt which includes unamortized premiums, discounts, debt issuance costs and the effects of foreign currency translation adjustments:

		September 30,	2025	March 31, 2025

<sup>&</sup>lt;sup>1</sup> Changes in Commercial paper and certain Other unsecured notes are shown net due to their short duration.

# Commercial paper

Short-term funding needs are met through the issuance of commercial paper in the U.S. Commercial paper outstanding under our commercial paper programs ranged from approximately \$17.1 billion to \$17.8 billion during the quarter ended September 30, 2025, with an average outstanding balance of \$17.5 billion. Our commercial paper programs are supported by the credit facilities discussed under the heading "Credit Facilities and Letters of Credit." We believe we have sufficient capacity to meet our short-term funding requirements and manage our liquidity.

# MTN program

We maintain a shelf registration statement with the Securities and Exchange Commission ("SEC") to provide for the issuance of debt securities in the U.S. capital markets to retail and institutional investors. We currently qualify as a well-known seasoned issuer under SEC rules, which allows us to issue under our registration statement an unlimited amount of debt securities during the three-year period ending January 2027. Debt securities issued under the U.S. shelf registration statement are issued pursuant to the terms of an indenture which requires TMCC to comply with certain covenants, including negative pledge and cross-default provisions. We are currently in compliance with these covenants.

# EMTN program

Our EMTN program, shared with our affiliates Toyota Motor Finance (Netherlands) B.V., Toyota Credit Canada Inc. and Toyota Finance Australia Limited (TMCC and such affiliates, the "EMTN Issuers"), provides for the issuance of debt securities in the international capital markets. In September 2025, the EMTN Issuers renewed the EMTN program for a one-year period. The maximum aggregate principal amount authorized under the EMTN Program to be outstanding at any time is €60.0 billion or the equivalent in other currencies. The authorized amount is shared among all EMTN Issuers. The authorized aggregate principal amount under the EMTN program may be increased from time to time. Debt securities issued under the EMTN program are issued pursuant to the terms of an agency agreement. Certain debt securities issued under the EMTN program are subject to negative pledge provisions. We are currently in compliance with these covenants.

#### Other debt

TMCC has entered into term loan agreements with various banks. These term loan agreements contain covenants and conditions customary in transactions of this nature, including negative pledge provisions, cross-default provisions and limitations on certain consolidations, mergers and sales of assets. We are currently in compliance with these covenants and conditions.

We may borrow from affiliates on terms based upon a number of business factors such as funds availability, cash flow timing, relative cost of funds, and market access capabilities. Amounts borrowed from affiliates are recorded in Other liabilities on our Consolidated Balance Sheets and are therefore excluded from Debt amounts.

### Secured Notes and Loans Payable

Asset-backed securitization of our earning asset portfolio provides us with an alternative source of funding. We regularly execute public or private securitization transactions.

The following table summarizes the significant activities of our Secured notes and loans payable:

Issuances 9 Maturities and terminations (11		Secured	
(Dollars in millions)payableBalance at March 31, 2025\$ 37Issuances9Maturities and terminations(11		notes and	
Balance at March 31, 2025  Issuances  Maturities and terminations  \$ 37  Maturities and terminations		loans	
Issuances 9 Maturities and terminations (11	(Dollars in millions)	 payable	
Maturities and terminations(11	Balance at March 31, 2025	\$ 37,765	
	Issuances	9,940	
Balance at September 30, 2025 \$ 36	Maturities and terminations	 (11,299)	
	Balance at September 30, 2025	\$ 36,406	

We securitize finance receivables and beneficial interests in investments in operating leases ("Securitized Assets") using a variety of structures. Our securitization transactions involve the transfer of Securitized Assets to bankruptcy-remote special purpose entities. These bankruptcy-remote entities are used to ensure that the Securitized Assets are isolated from the claims of creditors of TMCC and that the cash flows from these assets are available solely for the benefit of the investors in these asset-backed securities. Investors in asset-backed securities do not have recourse to our other assets, and neither TMCC nor our affiliates guarantee these obligations. We are not required to repurchase or make reallocation payments with respect to the Securitized Assets that become delinquent or default after securitization. As seller and servicer of the Securitized Assets, we are required to repurchase or make a reallocation payment with respect to the underlying assets that are subsequently discovered not to have met specified eligibility requirements. This repurchase obligation is customary in securitization transactions. With the exception of our revolving asset-backed securitization program, funding obtained from our securitization transactions is repaid as the underlying Securitized Assets amortize.

We service the Securitized Assets in accordance with our customary servicing practices and procedures. Our servicing duties include collecting payments on Securitized Assets and submitting them to a trustee for distribution to security holders and other interest holders. We prepare monthly servicer certificates on the performance of the Securitized Assets, including collections, investor distributions, delinquencies, and credit losses. We also perform administrative services for the special purpose entities.

Our use of special purpose entities in securitizations is consistent with conventional practice in the securitization market. None of our officers, directors, or employees hold any equity interests or receive any direct or indirect compensation from our special purpose entities. These entities do not own our stock or the stock of any of our affiliates. Each special purpose entity has a limited purpose and generally is permitted only to purchase assets, issue asset-backed securities, and make payments to the security holders, other interest holders and certain service providers as required under the terms of the transactions.

Our securitizations are structured to provide credit enhancement to reduce the risk of loss to security holders and other interest holders in the asset-backed securities. Credit enhancement may include some or all of the following:

- *Overcollateralization*: The principal of the Securitized Assets that exceeds the principal amount of the related secured debt.
- *Excess spread*: The expected interest collections on the Securitized Assets that exceed the expected fees and expenses of the special purpose entity, including the interest payable on the debt, net of swap settlements, if any.
- Cash reserve funds: A portion of the proceeds from the issuance of asset-backed securities may be held by the securitization trust in a segregated reserve fund and may be used to pay principal and interest to security holders and other interest holders if collections on the underlying receivables are insufficient.
- *Yield supplement arrangements*: Additional overcollateralization may be provided to supplement the future contractual interest payments from securitized receivables with relatively low contractual interest rates.
- Subordinated notes: The subordination of principal and interest payments on subordinated notes may provide additional credit enhancement to holders of senior notes.

In addition to the credit enhancement described above, we may enter into interest rate swaps with our special purpose entities that issue variable rate debt. Under the terms of these swaps, the special purpose entities are obligated to pay TMCC a fixed rate of interest on payment dates in exchange for receiving a floating rate of interest on notional amounts equal to the outstanding balance of the secured notes and loans payable. This arrangement enables the special purpose entities to mitigate the interest rate risk inherent in issuing variable rate debt that is secured by fixed rate Securitized Assets.

Securitized Assets and the related debt remain on our Consolidated Balance Sheets. We recognize financing revenue on the Securitized Assets. We also recognize interest expense on the secured notes and loans payable issued by the special purpose entities and maintain an allowance for credit losses on the Securitized Assets to cover estimated lifetime expected credit losses using a methodology consistent with that used for our non-securitized asset portfolio. The interest rate swaps between TMCC and the special purpose entities are considered intercompany transactions and therefore are eliminated in our consolidated financial statements.

Our secured notes also include a revolving asset-backed securitization program backed by a revolving pool of finance receivables and cash collateral. Cash flows from these receivables during the revolving period in excess of what is needed to pay certain expenses of the securitization trust and contractual interest payments on the related secured notes may be used to purchase additional receivables, provided that certain conditions are met following the purchase. The secured notes feature a scheduled revolving period, with the ability to repay the secured notes in full, after which an amortization period begins. The revolving period may also end with the amortization period beginning upon the occurrence of certain events that include certain segregated account balances falling below their required levels, credit losses or delinquencies on the pool of assets supporting the secured notes exceeding specified levels, the adjusted pool balance falling to less than 50% of the initial principal amount of the secured notes, or interest not being paid on the secured notes.

#### Public Securitization

We maintain a shelf registration statement with the SEC to provide for the issuance of securities backed by Securitized Assets in the U.S. capital markets during the three-year period ending December 2027. We regularly sponsor public securitization trusts that issue securities backed by retail finance receivables, including registered securities that we retain. None of these securities have defaulted, experienced any events of default or failed to pay principal in full at maturity. As of September 30, 2025 and March 31, 2025, we did not have any outstanding lease securitization transactions registered with the SEC.

### Credit Facilities and Letters of Credit

For additional liquidity purposes, we maintain credit facilities, which may be used for general corporate purposes, as described below:

364-Day Credit Agreement, Three-Year Credit Agreement and Five-Year Credit Agreement

TMCC, Toyota Credit de Puerto Rico Corp. ("TCPR"), and other Toyota affiliates are party to a \$5.0 billion 364-day syndicated bank credit facility, a \$5.0 billion three-year syndicated bank credit facility, and a \$5.0 billion five-year syndicated bank credit facility, expiring in fiscal years ending March 31, 2026, 2028, and 2030, respectively.

The ability to make draws is subject to covenants and conditions customary in transactions of this nature, including negative pledge provisions, cross-default provisions and limitations on certain consolidations, mergers and sales of assets. These agreements were not drawn upon and had no outstanding balances as of September 30, 2025 and March 31, 2025. We are currently in compliance with the covenants and conditions of the credit agreements described above.

# Committed Revolving Asset-backed Facility

We are party to a 364-day revolving securitization facility with certain bank-sponsored asset-backed conduits and other financial institutions expiring in fiscal year ending March 31, 2026. Under the terms and subject to the conditions of this facility, the committed lenders under the facility have committed to make advances up to a facility limit of \$9.0 billion backed by eligible retail finance receivables transferred by us to a special-purpose entity acting as borrower. We utilized \$4.3 billion and \$5.8 billion of this facility as of September 30, 2025 and March 31, 2025, respectively.

#### Other Unsecured Credit Agreements

TMCC is party to additional unsecured credit facilities with various banks. As of September 30, 2025, TMCC had committed bank credit facilities totaling \$4.1 billion of which \$2.0 billion, \$1.7 billion, \$200 million, and \$200 million mature in fiscal years ending March 31, 2026, 2028, 2029, and 2031, respectively.

These credit agreements contain covenants and conditions customary in transactions of this nature, including negative pledge provisions, cross-default provisions and limitations on certain consolidations, mergers and sales of assets. These credit facilities were not drawn upon and had no outstanding balances as of September 30, 2025 and March 31, 2025. We are currently in compliance with the covenants and conditions of the credit agreements described above.

TMCC is party to a \$5.0 billion three-year revolving credit facility with TMS expiring in fiscal year ending March 31, 2028. This credit facility was not drawn upon and had no outstanding balance as of September 30, 2025 and March 31, 2025.

From time to time, we may borrow from affiliates based upon a number of business factors such as funds availability, cash flow timing, relative cost of funds, and market access capabilities.

#### **Credit Ratings**

The cost and availability of unsecured financing is influenced by credit ratings, which are intended to be an indicator of the creditworthiness of a particular company, security, or obligation. Lower ratings generally result in higher borrowing costs as well as reduced access to capital markets. Credit ratings are not recommendations to buy, sell, or hold securities, and are subject to revision or withdrawal at any time by the assigning credit rating organization. Each credit rating organization may have different criteria for evaluating risk, and therefore ratings should be evaluated independently for each organization. Our credit ratings depend in part on the existence of the credit support agreements of TFSC and TMC. Refer to "Part I, Item 1A. Risk Factors - Our borrowing costs and access to the unsecured debt capital markets depend significantly on the credit ratings of TMCC and its parent companies and our credit support arrangements" in our fiscal 2025 Form 10-K.

#### **Derivative Instruments**

Our liabilities consist mainly of fixed and variable rate debt, denominated in U.S. dollars and various other currencies, which we issue in the global capital markets, while our assets consist primarily of U.S. dollar denominated, fixed rate receivables. We enter into interest rate swaps and foreign currency swaps to economically hedge the interest rate and foreign currency risks that result from the different characteristics of our assets and liabilities. Our use of derivative transactions is intended to reduce long-term fluctuations in the fair value of assets and liabilities caused by market movements. All of our derivatives are categorized as not designated for hedge accounting, and all of our derivative activities are authorized and monitored by our management and our Asset-Liability Committee which provides a framework for financial controls and governance to manage market risk.

Refer to Note 6 – Derivatives, Hedging Activities and Interest Expense of the Notes to Consolidated Financial Statements for further discussion and disclosure on derivative instruments.

# NEW ACCOUNTING STANDARDS

Refer to Note 1 – Interim Financial Data of the Notes to Consolidated Financial Statements.

### CRITICAL ACCOUNTING ESTIMATES

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make certain estimates which affect reported financial results. The evaluation of the factors used in determining each of our critical accounting estimates involves significant assumptions, complex analyses, and management judgment. Changes in the evaluation of these factors may have a significant impact on the consolidated financial statements. Additionally, due to inherent uncertainties in making estimates, actual results could differ from those estimates, and those differences could be material. The critical accounting estimates that affect the consolidated financial statements and the judgment and assumptions used are consistent with those described in Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations, Critical Accounting Estimates" in our fiscal 2025 Form 10-K.

# ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We have omitted this section pursuant to General Instruction H(2) of Form 10-Q.

### ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this report, we conducted an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer (the principal executive officer) and Chief Financial Officer (the principal financial officer), of the effectiveness of our "disclosure controls and procedures" as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act"). Based on this evaluation, the Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO") concluded that the disclosure controls and procedures were effective as of September 30, 2025, to ensure that information required to be disclosed in reports filed under the Exchange Act was recorded, processed, summarized and reported within the time periods specified by the SEC's rules, regulations, and forms and that such information is accumulated and communicated to our CEO and CFO, as appropriate, to allow timely decisions regarding required disclosures.

There have been no changes in our internal control over financial reporting that occurred during the three months ended September 30, 2025, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

# PART II. OTHER INFORMATION

# ITEM 1. LEGAL PROCEEDINGS

# Litigation

For a discussion of legal proceedings, see "Part I. Financial Information – Item 1. Financial Statements - Note 9 – Commitments and Contingencies of the Notes to Consolidated Financial Statements – Litigation and Governmental Proceedings."

# ITEM 1A. RISK FACTORS

There are no material changes from the risk factors set forth under "Item 1A. Risk Factors" in our fiscal 2025 Form 10-K.

# ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

We have omitted this section pursuant to General Instruction H(2) of Form 10-Q.

# ITEM 3. DEFAULTS UPON SENIOR SECURITIES

We have omitted this section pursuant to General Instruction H(2) of Form 10-Q.

# ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

### **ITEM 5. OTHER INFORMATION**

None.

Tellis Bethel Group Vice President and Chief Financial Officer (Principal Financial Officer)

#### **EXHIBIT 31.1**

#### **CERTIFICATIONS**

- I, Scott Cooke, certify that:
- 1. I have reviewed this quarterly report on Form 10-Q of Toyota Motor Credit Corporation;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
