Schroders

Schroder Japan Growth Fund plc

Annual Report and Accounts

For the year ended 31 July 2018

Investment objective

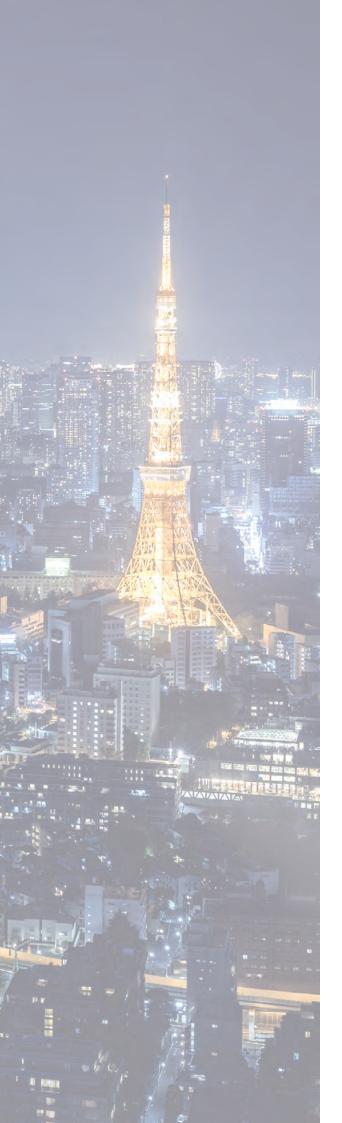

The principal investment objective of the Company is to achieve capital growth from an actively managed portfolio principally comprising securities listed on the Japanese stock markets, with the aim of achieving growth in excess of the TSE First Section Total Return Index in sterling over the longer term.

Investment policy

The Manager utilises an active stock driven investment approach, drawing on Schroders' extensive research resources in Japan. The portfolio is principally invested in a broad range of companies quoted on the Tokyo Stock Exchange, the regional stock markets of Fukuoka, Hiroshima, Kyoto, Nagoya, Niigata, Osaka and Sapporo and the Japanese over the counter (OTC) market. Investments may also be made in companies listed elsewhere but controlled from Japan or with a material exposure to the Japanese economy. There are no constraints on size of company or sector allocation. This flexibility will allow the Manager to take advantage of changes in market sentiment and in the domestic economic cycle as it develops.

The portfolio is mainly invested in equities but may also be invested in warrants, convertibles and other derivative instruments where appropriate. The Company may invest up to 5% of its assets in securities which are not listed on any stock exchange, but would not normally make such investment except where the Manager expects that the securities will shortly become listed on a Japanese stock market.

Chairman's Statement

In my final statement as Chairman, I am pleased to report that the year to 31 July 2018 has been good for shareholders, with the Company's net asset value ("NAV") and share price outperforming the TSE First Section Total Return Index, producing total returns of 10.2% and 10.6%, respectively, compared with 9.7% produced by the Index.

Further comment on performance and investment policy may be found in the Manager's Review.

Revenue and dividend

I'm pleased to report that revenue per share has continued to grow, increasing by 12.7% to 4.08p. In accordance with the Company's policy to pay out substantially all net revenue, the Directors have declared a final dividend for the year ended 31 July 2018 of 4.00p per share, representing an increase of 14.3% over the final dividend paid in 2017. This dividend will be paid on 9 November 2018 to shareholders on the Register on 19 October 2018, subject to approval by shareholders at the Annual General Meeting on 1 November 2018.

Gearing

The Company has in place a yen 6 billion three year term loan (expiring January 2019) and also has access to a revolving credit facility of yen 1 billion. The gearing level increased slightly beginning and ending the year at 11.2% and 11.7% respectively. The Company's gearing continues to operate within pre-agreed limits so that net effective gearing does not represent more than 25% of shareholders' funds.

Purchase of shares for cancellation

The Directors did not use the authority given to them to purchase shares for cancellation during the financial year ended 31 July 2018, as the discount remained within a relatively small band during the year, starting at 9.5% and ending at 9.3%. Average discount for the year was 7.1%.

Nevertheless, as the ability to buy back shares is one of a number of tools that may be used to enhance shareholder value and to reduce the discount volatility, the Board will be seeking to renew the share buy back authority granted at the Company's Annual General Meeting ("AGM") in November 2017 to purchase up to 14.99% of the Company's issued share capital for cancellation.

Board refreshment

Following her appointment as a Director on 1 January 2018, Belinda Richards will be put forward for election by shareholders at the AGM. Belinda's biographical details may be found on page 15.

As mentioned in my statement for the half year, Anja Balfour will be succeeding me as Chairman, effective 1 November 2018, and Belinda will succeed Anja as Chairman of the Audit and Risk Committee following my retirement at the AGM. After the AGM Anja will no longer be a member of the Audit and Risk Committee.

Outlook

There cannot be many investment trust directors who retire after nearly two decades with the local stock market and economy at much the same levels as when he joined. Proud and honoured as I am of the first part of the last sentence, thankfully our Manager Schroders' stock picking and the yen have led to the share price nearly trebling during my time on the board, but it is a salutary reminder of the challenges of a mature economy.

The good news is that corporate Japan seems to be embracing the challenge. Profits in aggregate are materially higher than in the late 1990s and of better quality, both in terms of returns on equity and a greater awareness of shareholder value. It is possible that even parts of the political framework are more prepared for the future, thanks to Mr Abe. At the least, share valuations are much lower than they were, and therefore, perhaps, more sustainable, and I note the enthusiasm with which the Manager's Review describes the value in the current holdings.

Realisation of that value requires companies to keep growing their business and for our Manager to keep finding good opportunities, but I hand over to Anja and our colleagues confident that the share price will continue to rise over time.

Annual General Meeting

The AGM will be held at 1 London Wall Place, London EC2Y 5AU, at 2.30 p.m. on Thursday, 1 November 2018, and I hope as many of you as possible will be able to come along to participate. The meeting, as in previous years, will include a presentation by the portfolio manager on the prospects for the Japanese market and the Company's investment strategy.

Jonathan Taylor

Chairman

28 September 2018

Manager's Review

Market background

The Company's NAV total return for the year ended 31 July 2018 of 10.2% outperformed the Benchmark total return of 9.7% (source: Morningstar, Thomson Reuters).

The positive return for the market was due to robust performance during the first half of the year, after which the market weakened somewhat. The yen spent the bulk of the 12 months trading weaker than its July 2017 level relative to sterling but ended virtually unchanged.

Prime Minster Abe's winning of a snap general election, the calling of which was mentioned in last year's review although it had not yet been held, provided a positive impetus to the market. Together with a supportive global economic cycle and generally positive Japanese fundamentals, the market rallied through to January. At that point markets in general became more risk averse and the global macro backdrop less supportive. Japan underwent a short spell of political uncertainty in the form of the re-emergence of an alleged cronyism scandal involving the Prime Minister, but the main concerns for the market have been global uncertainties such as trade friction, Chinese economic slowdown and instability in some emerging markets. In 2018 Japan has lagged the US market returns but outperformed the world outside the US.

In general more defensive sectors performed better than cyclicals for the 12 month period, the opposite of the previous year. The exception to this broad trend was commodity pricesensitive sectors, reflecting firm pricing in commodities such as oil. Otherwise deep cyclicals such as steel and shipping occupied the lower echelons of sectoral performance ranking as did most financial sectors. By contrast more defensive areas such as pharmaceuticals, transportation and retail performed relatively well.

Portfolio performance

Net gearing was generally 10-12% and this made a small contribution to returns given higher market levels. Sector selection was slightly positive and stock selection neutral. The largest positive stock contributor was electronic component manufacturer TDK followed by oil refiner JXTG Holdings. The two largest detractors were small cap positions Sakata Inx and Hi-Lex. Bridgestone also disappointed. Not owning Takeda was positive as the shares sold off following its bid for Shire Pharmaceuticals. On the negative side cosmetics manufacturer, Shiseido, which we viewed as expensive a year ago, continued to perform strongly.

Stock selection impact – 12 months to 31 July 2018

Five largest contributors to performance

	Portfolio weight (%)	Load difference (%)	Absolute return (%)	Impact (%)
TDK	2.6	+2.4	+52.4	+0.8
JXTG Holdings	1.8	+1.4	+72.5	+0.6
Sankyu	2.3	+2.2	+43.5	+0.6
Takeda Pharma	0.0	-0.8	-17.3	+0.2
Shimadzu	0.8	+0.7	+47.8	+0.2

Five largest detractors to performance

	Portfolio weight (%)	Load difference (%)	Absolute return (%)	Impact (%)
Sakata Inx	0.9	+0.9	-18.1	-0.3
Hi-Lex	2.1	+2.1	-1.8	-0.3
Shiseido Co	0.0	-0.5	+111.4	-0.3
Bridgestone	3.1	+2.4	-2.4	-0.3
Dowa Holdings	0.8	+0.8	-17.6	-0.2

Activity

The number of new holdings and complete sales was higher than average. A number of the additions were switches from companies within the same sector and, accordingly, did not represent significant sector shifts. Examples include Sompo Holdings into Tokio Marine Holdings in the insurance sector, Hoya into Murata in the technology sector and Sumitomo Heavy Industries into IHI in the machinery sector. New exposure included computer game developer Bandai Namco and recently privatised Japan Post Holdings. Partial profit taking was made in holdings such as TDK and Shimadzu.

Outlook

Short-term economic data may be volatile, not least due to the impact of several natural disasters (earthquakes, flooding and typhoons), but Japan's underlying backdrop remains broadly positive. The economy has grown in eight of the last nine quarters and continues to head, albeit slowly, out of deflation. The consumption tax increase planned for October 2019 is coming into view but monetary policy remains accommodating, at a time when tightening is already occurring or may be about to occur in other developed economies. The central bank has made several tweaks to its policy of maintaining 10 year bond yields at around 0% but consensus

now is that no substantive change is likely before 2020. The Prime Minister seems to have ridden out the scandal mentioned earlier, and as a result looks set to win his internal party election and potentially become Japan's longest serving post-war prime minister.

At the corporate level profits growth has slowed reflecting the stronger yen and higher input costs, but a positive revisions cycle looks set to resume in the second half of the current fiscal year. Notwithstanding the emergence of examples of poor corporate governance, the broad trend of improvement mentioned in previous reviews remains. For example, 2018 looks set to be another record year for share buybacks. Reflecting the above and in view of the market recording negative returns so far in 2018, relative valuations continue to look attractive.

Why the negative returns so far this year and why have foreign investors been selling at a record pace (if futures selling is included)? Not for the first time it seems that the Japanese stock market is reacting in exaggerated fashion to uncertainties outside the country, namely trade friction, emerging market unrest and a slowdown in the Chinese economy. The extreme outcome of an imposition of 25% tariffs on Japanese car imports to US would be a significant negative, not least for sentiment, but the direct impact of other iterations surrounding trade friction seem less threatening. Were this to become more widely accepted, the more positive Japanese backdrop could see reversal of outflows from foreign investors.

Policy

The portfolio's outperformance over the last 12 months was in spite of some factors which were unhelpful, specifically many fully-priced large cap steady-growth companies remaining in favour, at the expense of cyclicals and small cap value stocks. As a result we are finding more opportunities amongst the latter category, including financials, machinery and trading companies. The portfolio is underweight defensive sectors such as food and utilities.

Business model

The Company carries on business as an investment trust. It has been approved by HM Revenue & Customs as an investment trust in accordance with Section 1158 of the Corporation Tax Act 2010, by way of a one-off application and it is intended that the Company will continue to conduct its affairs in a manner which will enable it to retain this status.

The Company is a public company limited by shares. It is domiciled in the UK and is an investment company within the meaning of Section 833 of the Companies Act 2006. The Company is not a close company for taxation purposes.

It is not intended that the Company should have a limited life but the Directors consider it desirable that shareholders should have the opportunity to review the future of the Company at appropriate intervals. Accordingly, the Articles of Association contain provisions requiring the Directors to put a proposal for the continuation of the Company to shareholders at the Annual General Meeting in 2019 and thereafter at five yearly intervals.

The Company's business model is illustrated by the diagram above.

Investment objective and policy

Details of the Company's investment objective and policy may be found on the inside front cover.

The Board has appointed the Manager, Schroder Unit Trusts Limited, to implement the investment strategy and to manage the Company's assets in line with the appropriate restrictions placed on it by the Board, including limits on the type and relative size of holdings which may be held in the portfolio and on the use of gearing, cash, derivatives and other financial instruments as appropriate.

Investment process

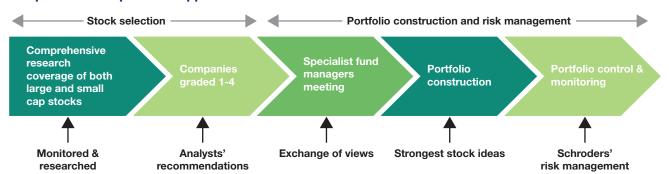

Investment philosophy and process

The Manager's Japanese equity investment philosophy is based on the belief that a competitive advantage can be gained from in-house research which should translate into superior investment performance through disciplined portfolio construction.

The research focuses on long-term value creation and strength of franchise, targeting undervalued companies where the long-term growth prospects are not fully priced in. The Manager prefers companies that can generate and sustain above average returns on their capital, and also looks for opportunities in turnaround situations where companies can improve returns from depressed levels.

The Manager uses a disciplined approach to managing the portfolio. It has a repeatable process that starts with research and portfolio construction, and is supported by ongoing monitoring and portfolio control. The research is based on an intensive programme of company meetings: over 2,300 a year.

Disciplined and repeatable approach

The portfolio manager, Andrew Rose, has been part of Schroders' Japanese team since 1981. While he is currently based in London, he relies heavily on the in-house research team in Tokyo. Being based in London gives the portfolio manager the best of both worlds: access to an experienced group of specialists in Japan and exposure to broader investment input in London.

Management of the portfolio is "bottom up" and long-term: the screening process begins with fundamental company analysis rather than shorter term macroeconomic impacts like changes in exchange rates. Given the long-term approach, portfolio turnover tends to be low. A stock will not be bought unless the Manager has met the management of the company concerned. Risk monitoring tools check that the bottom up approach is on track.

Portfolio construction

An important part of the portfolio construction process is the debate and peer group challenge which takes place at a formal meeting twice a month. This meeting provides a forum to discuss and debate investment views and strategy, together with stock positions and stock ideas, and, importantly, serves to ensure vigorous debate.

Portfolio construction for the Company is then the responsibility of the portfolio manager. His focus is on the highest conviction stock ideas within the context of an appropriate risk management framework, while also setting, in conjunction with the Board, the gearing of the portfolio.

Investment restrictions and spread of investment risk

The key restrictions imposed on the Manager are that: a) no more than 15% of the Company's total net assets, at the date of acquisition, may be invested in any one company; b) no more than 10% of the value of the Company's gross assets may be invested in other listed investment companies unless such companies have a stated investment policy not to invest more than 15% of their gross assets in other listed companies; c) the Company will not invest more than 15% of its gross assets in other listed investment companies or investment trusts; d) no more than 15% of the Company's total net assets may be invested in open-ended funds; and e) no more than 25% of the Company's total net assets may be invested in the aggregate

of unlisted investments and holdings representing 20% or more of the equity capital of any company.

In accordance with the investment objective, the Company, while being invested in a single country, ensures that the objective of spreading risk has been achieved through portfolio diversification (88 investments spread over 25 sectors at 31 July 2018).

Promotion

The Company promotes its shares to a broad range of investors who have the potential to be long-term supporters of the investment strategy. The Company seeks to achieve this through its Manager and Corporate Broker, which promote the shares of the Company through regular contact with both current and potential shareholders.

Promotion is focused via three channels:

- Discretionary fund managers. The Manager promotes the Company via both London and regional teams. This market is the largest channel by a significant margin.
- Execution-only investors. The Company promotes its shares via engaging with platforms and through its website. Volume is smaller but platforms have experienced strong growth in recent times and are an important focus for the Manager.
- Institutional investors.

These activities consist of investor lunches, one-on-one meetings, regional road shows and attendances at conferences for professional investors. In addition, the Company's shares are supported by the Manager's wider marketing of investment companies targeted at all types of investors; this includes maintaining close relationships with adviser and execution-only platforms, advertising in the trade press, maintaining relationships with financial journalists and the provision of digital information on Schroders' website. The Board also seeks active engagement with investors and meetings with the Chairman are offered to professional investors where appropriate.

Details of the Board's approach to discount management and share issuance may be found in the Chairman's Statement on page 3 and in the Explanation of Special Business at the AGM on page 46.

Key performance indicators

The Board measures the development and success of the Company's business through achievement of its investment objective, as set out on the inside front cover, which is considered to be the most significant key performance indicator for the Company. Comment on performance against the investment objective can be found in the Chairman's Statement.

The Board continues to review the Company's Ongoing Charges to ensure that the total costs incurred by shareholders in the running of the Company remain competitive when measured against peer group funds. An analysis of the Company's costs, including management fees, Directors' fees and general expenses, is submitted to each board meeting. Management fees are reviewed at least annually.

Corporate and social responsibility

Board diversity

As at 31 July 2018, the Board comprised three men and two women. The Board's approach to diversity is that candidates for Board vacancies are selected based on their skills and experience, which are matched against the balance of skills and experience of the overall Board taking into account the specific criteria for the role being offered. Candidates are not specifically selected on the grounds of their gender but this is taken into account when the Board examines its overall balance, skill set and experience.

Responsible investment policy

The Company delegates to its Manager the responsibility for taking environmental, social and governance (ESG) issues into account when assessing the selection, retention and realisation of investments. The Board expects the Manager to engage with investee companies on social, environmental and business ethics issues and to promote best practice. The Board expects the Manager to exercise the Company's voting rights in consideration of these issues.

A description of the Manager's policy on these matters can be found on the Schroders website at www.schroders.com/ri. The Board notes that Schroders believes that companies with good ESG management often perform better and deliver superior returns over time. Engaging with companies to understand how they approach ESG management is an integral part of the investment process. Schroders is compliant with the UK Stewardship Code and its compliance with the principles therein is reported on its website.

The Board monitors the implementation of this policy through regular reporting by the Manager on its engagement activity, how it is integrated into the investment process, and the outcomes of the activity.

Anti-bribery and corruption policy

The Company continues to be committed to carrying out its business fairly, honestly and openly and continues to operate an anti-bribery policy.

Greenhouse gas emissions

As the Company outsources its operations to third parties, it has no greenhouse gas emissions to report.

Principal risks and uncertainties

The Board is responsible for the Company's system of risk management and internal control and for reviewing its effectiveness. The Board has adopted a detailed matrix of principal risks affecting the Company's business as an investment trust and has established associated policies and processes designed to manage and, where possible, mitigate those risks, which are monitored by the Audit and Risk Committee on an ongoing basis. This system assists the Board in determining the nature and extent of the risks it is willing to take in achieving the Company's strategic objectives. Both the principal risks and the monitoring system are also subject to robust assessment at least annually. The last assessment took place in September 2018.

Although the Board believes that it has a robust framework of internal control in place this can provide only reasonable, and not absolute, assurance against material financial misstatement or loss and is designed to manage, not eliminate, risk.

The principal risks and uncertainties faced by the Company have remained unchanged throughout the year under review. Cyber risk relating to all of the Company's key service providers is considered an ongoing threat in light of the rising propensity and impact of cyber attacks on businesses and institutions. To address the risk, the Board receives reporting on cyber risk mitigation and management from its key service providers to ensure that it is managed and mitigated appropriately.

Actions taken by the Board and, where appropriate, its Committees, to manage and mitigate the Company's principal risks and uncertainties are set out in the table below.

Risk	Mitigation and management
Strategic The Company's investment objectives may become out of line with the requirements of investors, resulting in a wide discount of the share price to underlying NAV per share.	Appropriateness of the Company's investment remit periodically reviewed and success of the Company in meeting its stated objectives monitored. Share price relative to NAV per share monitored. Marketing and distribution activity actively reviewed.
Investment management The Manager's investment strategy, if inappropriate, may result in the Company underperforming the market and/or peer group companies, leading to the Company and its objectives becoming unattractive to investors.	Review of: the Manager's compliance with the agreed investment restrictions, investment performance and risk against investment objectives and strategy; relative performance; the portfolio's risk profile; and appropriate strategies employed to mitigate any negative impact of substantial changes in markets. Annual review of the ongoing suitability of the Manager.
Financial and currency The Company is exposed to the effect of market fluctuations due to the nature of its business. A significant fall in Japanese equity markets could have an adverse impact on the market value of the Company's underlying investments and, as the Company invests predominantly in assets which are denominated in yen, its exposure to changes in the exchange rate between sterling and yen has the potential to have a significant impact on returns.	Risk profile of the portfolio considered and appropriate strategies to mitigate any negative impact of substantial changes in markets discussed with the Manager. Board considers overall hedging policy on a regular basis.
The Company's cost base could become uncompetitive, particularly in light of open-ended alternatives.	Ongoing competitiveness of all service provider fees subject to periodic benchmarking against competitors. Annual consideration of management fee levels.

Risk	Mitigation and management
Custody Safe custody of the Company's assets may be compromised through control failures by the Depositary, including cyber hacking.	The Depositary reports on safe custody of the Company's assets, including cash, and portfolio holdings independently reconciled with the Manager's records. Review of audited internal controls reports covering custodial arrangements. Annual report from the Depositary on its activities, including matters arising from custody operations.
Gearing and leverage The Company utilises credit facilities. These arrangements increase the funds available for investment through borrowing. While this has the potential to enhance investment returns in rising markets, in falling markets the impact could be detrimental to performance.	Gearing is monitored and strict restrictions on borrowings imposed: gearing continues to operate within pre-agreed limits so as not to exceed 25% of shareholders' funds.
Accounting, legal and regulatory In order to continue to qualify as an investment trust, the Company must comply with the requirements of Section 1158 of the Corporation Tax Act 2010. Breaches of the UK Listing Rules, the Companies Act or other regulations with which the Company is required to comply, could lead to a number of detrimental outcomes.	Confirmation of compliance with relevant laws and regulations by key service providers. Shareholder documents and announcements, including the Company's published Annual Report, subject to stringent review processes. Procedures established to safeguard against disclosure of inside information.
Service provider The Company has no employees and has delegated certain functions to a number of service providers, principally the Manager, Depositary and Registrar. Failure of controls, including as a result of cyber hacking, and poor performance of any service provider could lead to disruption, reputational damage or loss.	Service providers appointed subject to due diligence processes and with clearly-documented contractual arrangements detailing service expectations. Regular reporting by key service providers and monitoring of the quality of services provided. Review of annual audited internal controls reports from key service providers, including confirmation of business continuity arrangements and IT controls.

Risk assessment and internal controls

Risk assessment includes consideration of the scope and quality of the systems of internal control operating within key service providers, and ensures regular communication of the results of monitoring by such providers to the Audit and Risk Committee, including the incidence of significant control failings or weaknesses that have been identified at any time and the extent to which they have resulted in unforeseen outcomes or contingencies that may have a material impact on the Company's performance or condition. No significant control failings or weaknesses were identified from the Audit and Risk Committee's ongoing risk assessment which has been in place throughout the financial year and up to the date of this Report.

A full analysis of the financial risks facing the Company is set out in note 20 on pages 40 to 45.

Viability statement

The Directors have assessed the viability of the Company over a five year period, taking into account the Company's position at 31 July 2018 and the potential impacts of the principal risks and uncertainties it faces for the review period.

A period of five years has been chosen as the Board believes that this reflects a suitable time horizon for strategic planning, taking into account the investment policy, liquidity of investments, potential impact of economic cycles, nature of operating costs, dividends and availability of funding.

In its assessment of the viability of the Company, the Directors have considered each of the Company's principal risks and uncertainties detailed on pages 11 and 12 and in particular the impact of a significant fall in Japanese equity markets on the value of the Company's investment portfolio. The Company's yen 6.0 billion term loan with Scotiabank expires on 18 January 2019 and the Directors are confident that they will be able to secure replacement financing on similar terms, should they decide so to do. The Directors have also considered the Company's income and expenditure projections and the fact that the Company's investments comprise readily realisable securities which can be sold to meet funding requirements if necessary and on that basis consider that five years is an appropriate time period. While the Articles of Association require that a proposal for the continuation of the Company be put forward at the Company's Annual General Meeting in 2019, the Directors have no reason to believe that such a resolution will not be passed by shareholders.

Based on the Company's processes for monitoring operating costs, the Board's view that the Manager has the appropriate depth and quality of resource to achieve superior returns in the longer term, the portfolio risk profile, limits imposed on gearing, counterparty exposure, liquidity risk and financial controls, the Directors have concluded that there is a reasonable expectation that the Company will be able to continue in operation and meet its liabilities as they fall due over the five year period of their assessment.

Going concern

Having assessed the principal risks and the other matters discussed in connection with the viability statement set out above, and the "Guidance on Risk Management, Internal Control and Related Financial and Business Reporting" published by the FRC in 2014, the Directors consider it appropriate to adopt the going concern basis in preparing the accounts.

By Order of the Board

Schroder Investment Management Limited

Company Secretary

28 September 2018

Board of Directors

Jonathan Taylor

Status: Independent Non-Executive Chairman

Length of service: 19 years – appointed a Director in July 1999 and Chairman in April 2004

Experience: Mr Taylor is Chairman and Managing Director of Dragon Partners Limited. He was previously a Director of Aberdeen Greater China Fund Inc. and a Director of Baring Asset Management Limited (1976–1997) where he was closely involved with the development of its client base in Japan. He is a Barrister at law. **Committee membership:** Audit and Risk, Management Engagement and

Nomination Committees

Current remuneration: £36,000 per annum (from 1 August 2018)

Connections with the Manager: None

Material interests in any contract which is significant to the Company's

business: None

Shared directorships with any other Directors of the Company: None

Anja Balfour

Status: Independent Non-Executive Director

Length of service: 5 years - appointed a Director in May 2013

Experience: Mrs Balfour managed equity portfolios for Stewart Ivory, Baillie Gifford and, latterly, Axa Framlington. She is a non-executive director of British Empire Trust plc, Martin Currie Asia Unconstrained Trust plc, F&C Global Smaller Companies PLC and Scottish Friendly Assurance.

Committee membership: Audit and Risk, Management Engagement and Nomination Committees (Chairman of the Audit and Risk Committee)

Current remuneration: £30,250 per annum (from 1 August 2018) **Connections with the Manager:** None

Material interests in any contract which is significant to the Company's

business: None

Shared directorships with any other Directors of the Company: None

Alan Gibbs

Status: Independent Non-Executive Director

Length of service: 2 years – appointed a Director in February 2016

Experience: Mr Gibbs worked for the Fleming Group, after which he helped set up and run two Far Eastern brokerages before joining J.O. Hambro (latterly Waverton). Mr Gibbs is now Chairman of the Burdett Trust and an independent non-executive Director of the M&G Charibond Charities Fixed Interest Common Investment Fund and a member of the Advisory Committee of the M&G Equities Investment Fund for Charities.

Committee membership: Audit and Risk, Management Engagement and Nomination Committees

Current remuneration: £26,250 per annum (from 1 August 2018)

Connections with the Manager: None

Material interests in any contract which is significant to the Company's

business: None

Shared directorships with any other Directors of the Company: None

Board of Directors

Richard Greer

Status: Independent Non-Executive Director

Length of service: 8 years - appointed a Director in November 2009

Experience: Mr Greer worked in Japan, for Jardine Matheson and Baring Securities. He headed the group established by the Japanese Ministry of Finance representing the EU investment banks and brokerages. On returning to London, he was global head of research at Barings, Caspian Limited and Commerzbank AG, before becoming a partner at WMG Limited. He is currently Chairman of Myanmar Strategic Holdings Limited.

Committee membership: Audit and Risk, Management Engagement and Nomination Committees (Chairman of the Management Engagement and Nomination Committees)

Current remuneration: £26,250 per annum (from 1 August 2018)

Connections with the Manager: None

Material interests in any contract which is significant to the Company's

business: None

Shared directorships with any other Directors of the Company: None

Belinda Richards

Status: Independent Non-Executive Director

Length of service: 10 months - appointed a Director in January 2018

Experience: Mrs Richards is a former senior partner at Deloitte LLP. She is currently a non-executive director and the chair of the audit committee of Wm Morrison Supermarkets PLC, a non-executive director and the senior independent director of Grainger plc, a non-executive director of The Monks Investment Trust plc, Avast plc and Phoenix Group Holdings. Mrs Richards is a former director of Aviva UK Life and Pensions, Balfour Beatty plc and Friends Life Group plc.

Committee membership: Audit and Risk, Management Engagement and Nomination Committees

Current remuneration: £26,250 per annum (from 1 August 2018)

Connections with the Manager: None

Material interests in any contract which is significant to the Company's

business: None

Shared directorships with any other Directors of the Company: None

The Directors submit their Report and the audited financial statements of the Company for the year ended 31 July 2018.

Revenue and dividend

The net revenue return for the year, before finance costs and taxation, was £5,925,000 (2017: £5,269,000). After deducting finance costs and taxation the amount available for distribution to shareholders was £5,106,000 (2017: £4,522,000) equivalent to net revenue of 4.08p (2017: 3.62p) per ordinary share.

The Directors have recommended the payment of a final dividend for the year of 4.00p per share (2017: 3.50p) payable on 9 November 2018 to shareholders on the Register on 19 October 2018, subject to approval by shareholders at the Annual General Meeting on 1 November 2018.

Directors and their interests

The Directors of the Company and their biographical details can be found on pages 14 and 15. All Directors held office throughout the year under review except for Belinda Richards, who was appointed on 1 January 2018. Details of Directors' share interests in the Company are set out in the Remuneration Report on page 24.

Notwithstanding the provisions of the Company's Articles of Association and the UK Corporate Governance Code in respect of the periodic re-election of Directors, the Board considers that shareholders should be given the opportunity to vote on the re-election of all of its members on an annual basis. Accordingly, all of the Directors except for Mr Taylor will retire at the forthcoming AGM and, being eligible, offer themselves for re-election. In addition, in accordance with the Company's Articles of Association, Mrs Richards will seek election at the AGM, being the first since her appointment during the year. As noted in the Chairman's Statement, Mr Taylor will retire at the AGM.

Re-appointment as a Director is not automatic and follows a formal process of evaluation of each Director's performance. Directors who have served for more than six years are subject to particularly rigorous assessment of their independence and contribution.

The Board does not believe that length of service, by itself, necessarily affects a Director's independence of character or judgment. Directors who have served for more than nine years on the Board may therefore continue to offer themselves for re-election at the AGM. The Board has assessed the independence of the Directors, all of whom are considered to be independent in character and judgment.

The Board, having taken all relevant matters into account, considers that all Directors continue to demonstrate commitment to their roles, provide a valuable contribution to the deliberations of the Board, and remain free from conflicts with the Company and its Directors. It therefore recommends that shareholders vote in favour of their re-election, and for Mrs Richards, election.

Share capital

As at the date of this Report, the Company had 125,008,200 ordinary shares of 10p in issue. No shares are held in treasury. Accordingly, the total number of voting rights in the Company at the date of this Report is 125,008,200. There have been no changes to the Company's share capital during the year under review.

Substantial share interests

The Company has received notifications in accordance with the Financial Conduct Authority's ("FCA") Disclosure Guidance and Transparency Rule 5.1.2R of the following interests in 3% or more of the voting rights attached to the Company's issued share capital.

	As at 31 July 2018	of total voting rights
Investec Wealth & Investment	17.501.610	4400
Limited	17,524,643	14.02
Derbyshire County Council	9,025,000	7.22
Wells Capital Management, Inc	6,277,080	5.02
Rathbone Brothers PLC	6,254,245	5.00
1607 Capital Partners LLC	5,994,437	4.80
Lazard Asset Management LLC	5,926,190	4.74

Following the year end and at the date of this Report, City of London Investment Management Limited has established a holding of 6,702,222 in the Company's shares, representing 5.36% of total voting rights.

Key service providers

The Board has adopted an outsourced business model and has appointed the following key service providers:

Manager

The Company is an Alternative Investment Fund as defined by the AIFM Directive and has appointed Schroder Unit Trusts Limited ("SUTL") as the Manager in accordance with the terms of an Alternative Investment Fund Manager ("AIFM") agreement. The AIFM agreement, which is governed by the laws of England and Wales, can be terminated by either party on twelve months' notice or on immediate notice in the event of certain breaches or the insolvency of either party. As at the date of this Report no such notice had been given by either party.

SUTL is authorised and regulated by the FCA and provides portfolio management, risk management, accounting and company secretarial services to the Company under the AIFM agreement. The Manager also provides general marketing support for the Company and manages relationships with key investors, in conjunction with the Chairman, other Board

members or the corporate broker as appropriate. The Manager has delegated investment management, accounting and company secretarial services to another wholly owned subsidiary of Schroders plc, Schroder Investment Management Limited. The Manager has in place appropriate professional indemnity cover.

The Schroders Group manages £449.4 billion (as at 30 June 2018) on behalf of institutional and retail investors, financial institutions and high net worth clients from around the world, invested in a broad range of asset classes across equities, fixed income, multi-asset and alternatives.

The Manager is entitled to a fee at the rate of 0.75% per annum on assets up to and including £200 million and 0.65% per annum thereafter, charged on the value of the Company's assets under management, net of current liabilities other than short-term borrowings.

The management fee payable in respect of the year ended 31 July 2018 amounted to £2,276,000 (2017: £2,071,000).

A marketing support fee of £50,000 per annum is also payable to the Manager in respect of the promotion of the Company.

The Manager is also entitled to receive a fee for providing administration, accounting and company secretarial services to the Company. For those services, it receives an annual fee of £90,000.

Details of all amounts payable to the Manager are set out in note 17 on page 39.

The Board has reviewed the performance of the Manager during the year under review and continues to consider that it has the appropriate depth and quality of resource to deliver superior returns over the longer term. Thus, the Board considers that the Manager's appointment under the terms of the AIFM agreement, further details of which are set out above, is in the best interests of shareholders as a whole.

Depositary

HSBC Bank plc, which is authorised by the Prudential Regulation Authority and regulated by the FCA and the Prudential Regulation Authority, carries out certain duties of a Depositary specified in the AIFM Directive including, in relation to the Company, as follows:

- safekeeping of the assets of the Company which are entrusted to it;
- cash monitoring and verifying the Company's cash flows;
 and
- oversight of the Company and the Manager.

The Company, the Manager and the Depositary may terminate the Depositary Agreement at any time by giving 90 days' notice in writing. The Depositary may only be removed from office when a new Depositary is appointed by the Company.

Corporate Governance Statement

The Board is committed to high standards of corporate governance and has implemented a framework for corporate governance which it considers to be appropriate for an

investment trust in order to comply with the principles of the UK Corporate Governance Code. The Financial Reporting Council published a revised version of the UK Corporate Governance Code in April 2017 (the "Code") which applies to accounting periods beginning on or after 17 June 2016 and the disclosures in this Statement report against its provisions. The Code is published by the UK Financial Reporting Council and is available to download from www.frc.org.uk.

The Board has noted the publication of a further revised UK Corporate Governance Code, in July 2018, which applies to financial years beginning on or after 1 January 2019. The Board is considering the Company's governance framework in light of the new provisions.

Compliance statement

The UK Listing Authority requires all UK listed companies to disclose how they have complied with the provisions of the Code. This Corporate Governance Statement, together with the Statement of Directors' Responsibilities on page 22 and the viability and going concern statements set out on page 13 indicate how the Company has complied with the Code's principles of good governance and its requirements on internal control.

The Board believes that the Company has, throughout the year under review, complied with all relevant provisions set out in the Code, save in respect of the appointment of a Senior Independent Director, where departure from the Code is considered appropriate given the Company's position as an investment trust. The Board has considered whether a Senior Independent Director should be appointed. As the Board comprises entirely non-executive Directors, the appointment of a Senior Independent Director is not considered necessary. However, the chair of the Audit and Risk Committee effectively acts as the Senior Independent Director, leads the evaluation of the performance of the Chairman and is available to Directors and/or shareholders if they have concerns which cannot be resolved through discussion with the Chairman.

Operation of the Board

Chairman

The Chairman is an independent non-executive Director who is responsible for leadership of the Board and ensuring its effectiveness in all aspects of its role. The Chairman's other significant commitments are detailed on page 14. He has no conflicting relationships.

Role and operation of the Board

The Board is the Company's governing body; it sets the Company's strategy and is collectively responsible to shareholders for its long-term success. The Board is responsible for appointing and subsequently monitoring the activities of the Manager and other service providers to ensure that the investment objective of the Company continues to be met. The Board also ensures that the Manager adheres to the investment restrictions set by the Board and acts within the parameters set by it in respect of any gearing.

A formal schedule of matters specifically reserved for decision by the Board has been defined and a procedure adopted for Directors, in the furtherance of their duties, to take independent professional advice at the expense of the Company.

The Chairman ensures that all Directors receive relevant management, regulatory and financial information in a timely manner and that they are provided, on a regular basis, with key information on the Company's policies, regulatory requirements and internal controls. The Board receives and considers reports regularly from the Manager and other key advisers and ad hoc reports and information are supplied to the Board as required.

The Board is satisfied that it is of sufficient size with an appropriate balance of diverse skills and experience, independence and knowledge of the Company, its sector and the wider investment trust industry, to enable it to discharge its duties and responsibilities effectively and that no individual or group of individuals dominates decision making.

Training and development

On appointment, Directors receive a full, formal and tailored induction. Directors are also regularly provided with key information on the Company's policies, regulatory and statutory requirements and internal controls. Changes affecting Directors' responsibilities are advised to the Board as they arise. Directors also regularly participate in relevant training and industry seminars. Training and development needs are included as part of the evaluation process and are agreed with the Chairman.

Conflicts of interest

The Board has approved a policy on Directors' conflicts of interest. Under this policy, Directors are required to disclose all actual and potential conflicts of interest to the Board as they arise for consideration and approval. The Board may impose restrictions or refuse to authorise such conflicts if deemed appropriate.

Board evaluation

In order to review the effectiveness of the Board, the Committees and the individual Directors, a thorough evaluation process is in place. This is implemented by way of discussions with the Chairman. In respect of the Chairman himself, discussions are held between the Directors and the Audit and Risk Committee Chairman. The process is considered by the Board to be constructive in terms of identifying areas for improving the functioning and performance of the Board and the Committees, the contribution of individual Directors and building and developing individual and collective strengths.

The next review will take place in November 2018, following the retirement of the Chairman.

Directors' and officers' liability insurance and indemnities

Directors' and officers' liability insurance cover was in place for the Directors throughout the year. The Company's Articles of Association provide, subject to the provisions of UK legislation, an indemnity for Directors in respect of costs which they may incur relating to the defence of any proceedings brought against them arising out of their positions as Directors, in which they are acquitted or judgment is given in their favour by the Court. This is a qualifying third party indemnity provision and was in place throughout the year under review and to the date of this Report.

Directors' attendance at meetings

Four Board meetings are usually scheduled each year to deal with matters including: the setting and monitoring of investment strategy; approval of borrowings and/or cash positions; review of investment performance; the level of discount of the Company's shares to underlying NAV; promotion of the Company; and services provided by third parties. Additional meetings of the Board are arranged as required.

The number of scheduled meetings of the Board and its Committees held during the financial year, and the attendance of individual Directors, is shown below. Whenever possible all Directors attend the Annual General Meeting.

Director	Board	Nomination Committee	Audit and Risk Committee	Management Engagement Committee
Jonathan Taylor	4/4	2/2	3/3	1/1
Anja Balfour	4/4	2/2	3/3	1/1
Alan Gibbs	4/4	2/2	3/3	1/1
Richard Greer	4/4	2/2	3/3	1/1
Belinda Richards	s ¹ 2/2	_	2/2	-

¹Appointed as a Director on 1 January 2018.

The Board is satisfied that the Chairman and each of the other non-executive Directors commits sufficient time to the affairs of the Company to fulfil their duties.

Relations with shareholders

Shareholder relations are given high priority by both the Board and the Manager. The Company communicates with shareholders through its webpages and the Annual and Half Year Report which aim to provide shareholders with a clear understanding of the Company's activities and its results.

The Chairmen of the Board and its committees attend the Annual General Meeting ("AGM") whenever possible and are available to respond to queries and concerns from shareholders.

It is the intention of the Board that the Annual Report and Notice of the AGM be issued to shareholders so as to provide at least 20 working days notice of the AGM. Shareholders wishing to lodge questions in advance of the AGM are invited to do so by writing to the Company Secretary at the address given on the outside back cover.

The Company has adopted a policy on complaints and other shareholder communications which ensures that shareholder complaints and communications addressed to the Company

Secretary, the Chairman or the Board are, in each case, considered by the Chairman and the Board.

connection to the Company, was engaged to conduct the search for a new Director.

Committees

In order to assist the Board in fulfilling its governance responsibilities, it has delegated certain functions to Committees. The roles and responsibilities of these Committees, together with details of work undertaken during the year under review, are outlined over the next few pages.

The Committees of the Board have defined Terms of Reference which are available on the webpage www.schroders.co.uk/japangrowth. Membership of the Committees is set out on pages 14 and 15 of this Report.

Nomination Committee

The Nomination Committee is responsible for succession planning bearing in mind the balance of skills, knowledge, experience and diversity existing on the Board and will recommend to the Board when the further recruitment of non-executive Directors is required. The Nomination Committee aims to maintain a balance of relevant skills, experience and length of service of the Directors serving on the Board, taking gender into account.

Before the appointment of a new Director, the Committee prepares a description of the role and capabilities required for a particular appointment. While the Committee is dedicated to selecting the best person for the role, the Board also recognises the importance of diversity. The Board agrees that its members should overall possess a range of experience, knowledge, professional skills and personal qualities as well as independence necessary to provide effective oversight of the affairs of the Company. These qualities are taken into account in considering the appointment of a new Director. The Board does not consider it appropriate or to be in the interests of shareholders as a whole to establish prescriptive diversity targets.

Candidates are drawn from suggestions put forward either from recommendation from within the Company or by the use of an external agency. Candidates are then interviewed by members of the Committee, which makes a recommendation to the Board.

To discharge its duties, the Committee met on two occasions during the year to consider its terms of reference, Board balance and skills, and succession planning, including the appointment of a new director, Belinda Richards, the appointment of the Chairman's and Audit and Risk Committee Chairman's successors.

During the succession planning process, Mrs Balfour, designated as Mr Taylor's successor as Chairman, and Mrs Richards, designated as Mrs Balfour's successor as Chairman of the Audit and Risk Committee, were both deemed independent upon recommendation of the Board. Cornforth Consulting, an external firm with no other

Management Engagement Committee

The role of the Management Engagement Committee is to ensure that the Manager remains suitable to manage the portfolio, that the management contract is competitive and reasonable for shareholders, and that the Company maintains appropriate administrative and company secretarial support. The Committee also reviews the services provided by other service providers. All Directors are members of the Management Engagement Committee which is chaired by Mr Greer. The Board considers each member of the Committee to be independent.

To discharge its duties, the Committee met on one occasion during the year to consider: the performance and suitability of the Manager; the terms and conditions of the AIFM agreement, including fees; the performance and suitability of other service providers, Directors' fees and its terms of reference.

Audit and Risk Committee

The role and activities of the Audit and Risk Committee are set out overleaf in the Audit and Risk Committee Report which is incorporated into and forms part of the Directors' Report.

By Order of the Board

Schroder Investment Management Limited

Company Secretary

28 September 2018

Report of the Audit and Risk Committee

This Report sets out the responsibilities and work carried out by the Audit and Risk Committee in the year under review. The duties and responsibilities of the Committee may be found in the terms of reference which are set out on the Company's webpages, www.schroders.co.uk/japangrowth. Membership of the Committee is as set out on pages 14 and 15. The Board has satisfied itself that at least one of the Committee's members has recent and relevant financial experience.

The Committee met three times during the year ended 31 July 2018. The Committee discharged its responsibilities by:

· considering its terms of reference;

- reviewing the operational controls maintained by the Manager and Depositary;
- reviewing the Half Year and Annual Report and Accounts and related audit plan and engagement letter;
- · reviewing the need for an internal audit function;
- reviewing the independence of the Auditors;
- evaluating the Auditors' performance; and
- reviewing the principal risks faced by the Company and the system of internal control.

Annual report and financial statements

During its review of the Company's financial statements for the year ended 31 July 2018, the Committee considered the significant issues set out in the table below, including consideration of principal risks and uncertainties in light of the Company's activities, and issues communicated by the Auditors during their reporting.

Issue considered	How the issue was addressed
- Valuation and existence of holdings	Review of portfolio holdings and assurance reports on controls from the Manager and Depositary.
- Overall accuracy of the Annual Report and Accounts	 Consideration of the draft Annual Report and Accounts and the letter from the Manager in support of the letter of representation to the Auditors.
- Calculation of the investment management fee	Consideration of methodology used to calculate the fee, matched against the criteria set out in the AIFM agreement.
– Internal controls and risk management	Consideration of several key aspects of internal control and risk management operating within the Manager, Depositary and Registrar.
Compliance with the investment trust qualifying rules in S1158 of the Corporation Tax Act 2010	– Consideration of the Manager's report confirming compliance.

As a result of the work performed, the Committee has concluded that the Annual Report for the year ended 31 July 2018, taken as a whole, is fair, balanced and understandable and provides the information necessary for shareholders to

assess the Company's position, performance, business model and strategy, and has reported on these findings to the Board. The Board's conclusions in this respect are set out in the Statement of Directors' responsibilities on page 22.

Report of the Audit and Risk Committee

Effectiveness of the independent audit process

The Committee evaluated the effectiveness of the independent audit firm and process prior to making a recommendation on its re-appointment at the forthcoming Annual General Meeting. This evaluation involved an assessment of the effectiveness of the Auditors' performance against agreed criteria including: qualification; knowledge, expertise and resources; independence policies; effectiveness of audit planning; adherence to auditing standards; and overall competence. As part of the evaluation, the Committee considered feedback from the Manager on the audit process and the year end report from the Auditors, which details compliance with regulatory requirements, on safeguards that have been established, and on their own internal quality control procedures. The members of the Committee also met the Auditors without representatives of the Manager present.

Representatives of the Auditors attend the Committee meeting at which the draft Annual Report and Accounts is considered. Having reviewed the performance of the Auditors as described above, the Committee considered it appropriate to recommend the firm's re-appointment.

The Auditors are required to rotate the Senior Statutory Auditor every five years. This is the first year that the Senior Statutory Auditor has conducted the audit of the Company's financial statements.

PricewaterhouseCoopers LLP has provided audit services to the Company from its incorporation in 1994 to date. In line with the provisons of the Statutory Auditors and Third Country Regulations 2016 relating to mandatory rotation of the Auditors, PricewaterhouseCoopers LLP will need to be replaced as the Company's Auditors before commencement of the audit in 2020. The Committee has agreed to put the audit contract out to tender after the publication of the 2018 Annual Report and Accounts. The tender process will be overseen by the Committee, which will invite a number of audit firms to participate before making a recommendation to the Board for approval. PricewaterhouseCoopers LLP will not be invited to take part in the process. The new auditor will be appointed before the commencement of the audit of the financial statements for the year ended 31 July 2019.

Independent Auditors

PricewaterhouseCoopers LLP have indicated their willingness to continue in office. Accordingly, resolutions to re-appoint PricewaterhouseCoopers LLP as Auditors to the Company, and to authorise the Directors to determine their remuneration will be proposed at the AGM. The new auditor will be appointed during the financial year ended 31 July 2019 and proposed for re-appointment at the 2019 AGM.

Provision of information to the Auditors

The Directors at the date of approval of this Report confirm that, so far as each of them is aware, there is no relevant audit information of which the Company's Auditors are unaware; and each Director has taken all the steps that he or she ought to have taken as a Director in order to make himself or herself aware of any relevant audit information and to establish that the Company's Auditors are aware of that information.

Provision of non-audit services

The Committee has reviewed the FRC's Guidance on Audit Committees and has formulated a policy on the provision of non-audit services by the Company's Auditors. The Audit and Risk Committee has determined that the Company's appointed Auditors will not be considered for the provision of certain non-audit services, such as accounting and preparation of the financial statements, internal audit and custody. The Auditors may, if required, provide other non-audit services however, and this will be judged on a case-bycase basis.

The Auditors have not provided any non-audit services to the Company for the year (2017: £2,000 for taxation compliance services).

Internal audit

The Company does not have an internal audit function; it delegates to third parties most of its operations and does not employ any staff. The Committee will continue to monitor the system of internal control in order to provide assurance that it operates as intended and the Directors will continue to annually review whether an internal audit function is needed.

Anja Balfour

Audit and Risk Committee Chairman

Statement of Directors' responsibilities in respect of the Annual Report and Accounts

The Directors are responsible for preparing the annual report and the financial statements in accordance with applicable law and regulation.

Company law requires the Directors to prepare financial statements for each financial year. Under that law the Directors have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law). Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing the financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- state whether applicable United Kingdom Accounting Standards, comprising FRS 102, have been followed, subject to any material departures disclosed and explained in the financial statements;
- make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements and the Directors' Remuneration Report comply with the Companies Act 2006.

The Directors are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Manager is responsible for the maintenance and integrity of the Company's webpages. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

The Directors consider that the annual report and accounts, taken as a whole, are fair, balanced and understandable and provides the information necessary for shareholders to assess the Company's performance, business model and strategy.

Each of the Directors, whose names and functions are listed in the Board of Directors on pages 14 and 15 confirm that, to the best of their knowledge:

 the Company financial statements, which have been prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law), give a true and fair view of the assets, liabilities, financial position and profit of the Company; and the Strategic Report includes a fair review of the development and performance of the business and the position of the Company, together with a description of the principal risks and uncertainties that it faces.

On behalf of the Board

Jonathan Taylor

Chairman

Directors' Remuneration Report

Introduction

This Report has been prepared in accordance with the relevant provisions of the Companies Act 2006 and the Large and Medium-sized Companies and Groups (Accounts and Reports) (Amendment) Regulations 2013.

The following remuneration policy is currently in force and is subject to a binding vote every three years. The next vote will take place at the AGM in 2020 and the current policy provisions will apply until that date. The below Directors' annual report on remuneration is subject to an annual advisory vote. An ordinary resolution to approve this Report will be put to shareholders at the forthcoming AGM.

At the AGM held on 2 November 2017, 99.88% of the votes cast (including votes cast at the Chairman's discretion) in respect of approval of the Directors' Remuneration Policy were in favour, while 0.12% were against. 16,980 votes were withheld.

Also at the AGM held on 2 November 2017, 99.92% of the votes cast (including votes cast at the Chairman's discretion) in respect of approval of the Report on Remuneration for the year ended 31 July 2017 were in favour, while 0.08% were against. 14,000 votes were withheld.

Directors' remuneration policy

The determination of the Directors' fees is a matter considered by the Management Engagement Committee and the Board.

It is the Board's policy to determine the level of Directors' remuneration having regard to amounts payable to non-executive directors in the industry generally, the role that individual directors fulfil in respect of Board and Committee responsibilities, and time committed to the Company's affairs, taking into account the aggregate limit of fees set out in the Company's Articles of Association. This aggregate level of Directors' fees is currently set at £175,000 per annum and any increase in this level requires approval by the Board and the Company's shareholders.

The Chairman of the Board and the Chairman of the Audit and Risk Committee both receive fees at a higher rate than the other Directors to reflect their additional responsibilities. Directors' fees are set at a level to recruit and retain individuals

of sufficient calibre, with the level of knowledge, experience and expertise necessary to promote the success of the Company in reaching its short and long-term strategic objectives.

The Board and its Committees exclusively comprise non-executive Directors. No Director past or present has an entitlement to a pension, and the Company has not, and does not intend to operate a share scheme for Directors or to award any share options or long-term performance incentives to any Director. No Director has a service contract with the Company. However Directors have a letter of appointment. Directors do not receive exit payments and are not provided with any compensation for loss of office. No other payments are made to Directors other than the reimbursement of reasonable out-of-pocket expenses incurred in attending to the Company's business.

The terms of Directors' letters of appointment are available for inspection at the Company's registered office address during normal business hours and during the AGM at the location of such meeting.

The Board did not seek the views of shareholders in setting this Remuneration Policy. Any comments on the Policy received from shareholders would be considered on a caseby-case basis.

As the Company does not have any employees, no employee pay and employment conditions were taken into account when setting this Remuneration Policy and no employees were consulted in its construction.

Directors' fees are reviewed annually and take into account research from third parties on the fee levels of directors of peer group companies, as well as industry norms and factors affecting the time commitment expected of the Directors. New Directors are subject to the provisions set out in this remuneration policy.

Directors' annual report on remuneration

This report sets out how the Directors' remuneration policy was implemented during the year ended 31 July 2018.

Fees paid to Directors

The following amounts were paid by the Company to the Directors for their services in respect of the year ended 31 July 2018 and the previous financial year:

	Salary	/Fees	Taxable	benefits1	Total		
	2018	2017	2018	2017	2018	2017	
Director	£	£	£	£	£	£	
Jonathan Taylor (Chairman)	35,000	35,000	1,027	139	36,027	35,139	
Anja Balfour	29,125	28,000	1,538	4,539	30,663	32,539	
Alan Gibbs	25,375	25,000	283	139	25,658	25,139	
Richard Greer	25,375	25,000	195	96	25,570	25,096	
Belinda Richards ²	14,875	_	138	-	15,013	-	
Total	129,750	113,000	3,181	4,913	132,931	117,913	

¹Comprise amounts reimbursed for expenses incurred in carrying out business for the Company, and which have been grossed up to include PAYE and NI contributions

The information in the above table has been audited.

²Appointed as a Director on 1 January 2018.

Directors' Remuneration Report

Consideration of matters relating to Directors' remuneration

Directors' remuneration was last reviewed by the Board in September 2018. The members of the Board at the time that remuneration levels were considered were as set out on pages 14 and 15. Although no external advice was sought in considering the levels of Directors' fees, information on fees paid to Directors of other investment trusts managed by Schroders and peer group companies provided by the Manager and corporate broker was taken into consideration.

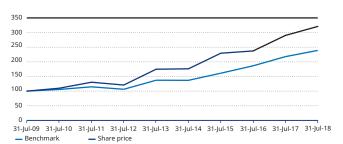

Following the annual review, the Board agreed that Directors' fees should be increased by £750 per annum for Directors, except for the Chairman, whose fee should increase by £1,000 per annum. These changes became effective from 1 August 2018.

Expenditure by the Company on remuneration and distributions to shareholders

The table below compares the remuneration payable to Directors to distributions paid to shareholders during the year under review and the prior financial year. In considering these figures, shareholders should take into account the Company's investment objective.

	Year ended 31 July 2018 £'000	Year ended 31 July 2017 £'000	Change (%)
Remuneration payable to Directors	133	118	12.7
Distributions paid to shareholders – dividends	4,375	3,500	25.0

9 year performance of share price and Benchmark total returns¹

¹Source: Morningstar/Thomson Reuters. Rebased to 100 at 31 July 2009.

Definitions of terms and performance measures are provided on page 50.

Directors' share interests

The Company's Articles of Association do not require Directors to own shares in the Company. The interests of Directors, including those of connected persons, in the Company's ordinary shares of 10p each, at the beginning and end of the financial year under review are set out below.

	At 31 July 2018	At 1 August 2017
Jonathan Taylor	23,000	23,000
Anja Balfour	9,000	9,000
Alan Gibbs	100,000	100,000
Richard Greer	9,689	9,689
Belinda Richards ¹	-	N/A

¹Appointed as a Director on 1 January 2018.

The information in the above table has been audited. There have been no changes since the year end.

Jonathan Taylor

Chairman

28 September 2018

Report on the audit of the financial statements

Opinion

In our opinion, Schroder Japan Growth Fund plc's financial statements:

- give a true and fair view of the state of the Company's affairs as at 31 July 2018 and of its net return for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law); and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Annual Report and Accounts (the "Annual Report"), which comprise: the Statement of Financial Position as at 31 July 2018; the Income Statement, the Statement of Changes in Equity for the year then ended; and the notes to the financial statements, which include a description of the significant accounting policies.

Our opinion is consistent with our reporting to the Audit and Risk Committee.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, as applicable to listed public interest entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

To the best of our knowledge and belief, we declare that non-audit services prohibited by the FRC's Ethical Standard were not provided to the Company.

We have provided no non-audit services to the Company in the period from 1 August 2017 to 31 July 2018.

Our audit approach

Overview

- Overall materiality: £2.9 million (2017: £2.7 million), based on 1% of net assets.
- The Company is a standalone Investment Trust Company and engages Schroder Unit Trusts Limited (the "Manager") to manage its assets.
- We conducted our audit of the financial statements using information from HSBC Securities Services ("HSS") to whom the Manager has, with the consent of the Directors, delegated the provision of certain administrative functions.
- We tailored the scope of our audit taking into account the types of investments within the Company, the involvement of the third parties referred to above, the accounting processes and controls, and the industry in which the Company operates.
- We obtained an understanding of the control environment in place at both the Manager and HSS, and adopted a fully substantive testing approach using reports obtained from HSS.
- Income from investments.
- Valuation and existence of investments.

The scope of our audit

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we looked at where the Directors made subjective judgements, for example in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain.

We gained an understanding of the legal and regulatory framework applicable to the Company and the industry in which it operates, and considered the risk of acts by the Company which were contrary to applicable laws and regulations, including fraud. We designed audit procedures to respond to the risk, recognising that the risk of not detecting a material misstatement due to

fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion. We focused on laws and regulations that could give rise to a material misstatement in the Company's financial statements, including, but not limited to, the UK Corporate Governance Code, the Companies Act 2006, the Listing Rules and section 1158 of the Corporation Tax Act 2010. Our tests included, but were not limited to, review of the financial statement disclosures to underlying supporting documentation, enquiries with management and testing the Company's compliance with section 1158 in the current year. We also tested the tax disclosures in Note 7. There are inherent limitations in the audit procedures described above and the further removed non-compliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely we would become aware of it.

We did not identify any key audit matters relating to irregularities, including fraud. As in all of our audits we also addressed the risk of management override of internal controls, including testing journals and evaluating whether there was evidence of bias by the Directors that represented a risk of material misstatement due to fraud.

Key audit matters

Key audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. This is not a complete list of all risks identified by our audit.

Key audit matter

Income from investments

Refer to page 20 (Report of the Audit and Risk Committee), page 33 (Accounting Policies) and page 35 (Notes to the Accounts).

ISAs (UK) presume there is a risk of fraud in income recognition. We considered this risk to specifically relate to the risk of overstating investment gains and the misclassification of dividend income as capital rather than revenue due to the pressure management may feel to achieve capital growth in line with the objective of the Company.

We focused on the valuation of investments with respect to gains on investments and the accuracy and completeness of dividend income recognition and its presentation in the Income Statement as set out in the requirements of The Association of Investment Companies' Statement of Recommended Practice (the "AIC SORP").

How our audit addressed the key audit matter

We assessed the accounting policy for income recognition for compliance with accounting standards and the AIC SORP and performed testing to check that income had been accounted for in accordance with this stated accounting policy.

We found that the accounting policies implemented were in accordance with accounting standards and the AIC SORP, and that income has been accounted for in accordance with the stated accounting policy.

We understood and assessed the design and implementation of key controls surrounding income recognition.

The gains/losses on investments held at fair value comprise realised and unrealised gains/losses. For unrealised gains and losses, we tested the valuation of the portfolio at the year end (see below), together with testing the reconciliation of opening and closing investments. For realised gains/losses, we tested a sample of disposal proceeds by agreeing the proceeds to bank statements and we re-performed the calculation of a sample of realised gains/losses. No material issues were identified.

In addition, we tested the accuracy of dividend receipts by agreeing the dividend rates from investments to independent third party sources. No material issues were identified.

To test for completeness, we tested that the appropriate dividends had been received in the year by reference to independent data of dividends declared for all dividends during the year. Our testing did not identify any unrecorded dividends.

Key audit matter	How our audit addressed the key audit matter
Valuation and existence of investments. Refer to page 20 (Report of the Audit and Risk Committee), page 33 (Accounting Policies) and pages 37 to 38 (Notes to the Accounts). The investment portfolio at 31 July 2018 comprised listed equity investments of £326.8 million. We focused on the valuation and existence of investments because investments represent the principal element of the NAV as disclosed in the Statement of Financial Position in the financial statements.	We tested the valuation of the listed investments by agreeing the prices used in the valuation to independent third party sources. No material issues were identified. We agreed the existence of investments to independent third party sources by agreeing the holdings of investments to an independent confirmation from the Custodian, HSBC Bank plc as at 31 July 2018. No differences were identified.

How we tailored the audit scope

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the Company, the accounting processes and controls, and the industry in which it operates.

The Company's accounting is delegated to HSS who maintain the Company's accounting records and who have implemented controls over those accounting records.

We obtained our audit evidence from substantive tests. However, as part of our risk assessment, we understood and assessed the internal controls in place at both the Manager and HSS to the extent relevant to our audit. This assessment of the operating and accounting structure in place at both organisations involved obtaining and analysing the relevant control reports issued by the independent service auditors of the Manager and HSS in accordance with generally accepted assurance standards for such work. Following this assessment, we applied professional judgement to determine the extent of testing required over each balance in the financial statements.

Materiality

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements as a whole as follows:

Overall materiality £2.9 million (2017: £2.7 million).

How we determined it 1% of net assets.

Rationale for Benchmark applied We have applied this Benchmark, a generally accepted auditing practice for investment trust audits, in the absence of indicators that an alternative Benchmark would be appropriate and

because we believe this provides an appropriate and consistent year-on-year basis for our

audi

We agreed with the Audit and Risk Committee that we would report to them misstatements identified during our audit above £146,000 (2017: £135,000) as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

Going concern

In accordance with ISAs (UK) we report as follows:

Reporting obligation

We are required to report if we have anything material to add or draw attention to in respect of the Directors' statement in the financial statements about whether the Directors considered it appropriate to adopt the going concern basis of accounting in preparing the financial statements and the Directors' identification of any material uncertainties to the Company's ability to continue as a going concern over a period of at least twelve months from the date of approval of the financial statements.

Outcome

We have nothing material to add or to draw attention to. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Company's ability to continue as a going concern.

We are required to report if the Directors' statement relating to Going Concern in accordance with Listing Rule 9.8.6R(3) is materially inconsistent with our knowledge obtained in the audit.

We have nothing to report.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The Directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Strategic Report and Directors' Report, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, the Companies Act 2006 (*CA06*), ISAs (UK) and the Listing Rules of the Financial Conduct Authority (FCA) require us also to report certain opinions and matters as described below (required by ISAs (UK) unless otherwise stated).

Strategic Report and Directors' Report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic Report and Directors' Report for the year ended 31 July 2018 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements. (CAO6)

In light of the knowledge and understanding of the Company and its environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic Report and Directors' Report. (CA06)

The Directors' assessment of the prospects of the Company and of the principal risks that would threaten the solvency or liquidity of the Company

We have nothing material to add or draw attention to regarding:

- The Directors' confirmation on page 11 of the Annual Report that they have carried out a robust assessment of the principal risks facing the Company, including those that would threaten its business model, future performance, solvency or liquidity.
- The disclosures in the Annual Report that describe those risks and explain how they are being managed or mitigated.
- The Directors' explanation on page 13 of the Annual Report as to how they have assessed the prospects of the Company, over what period they have done so and why they consider that period to be appropriate, and their statement as to whether they have a reasonable expectation that the Company will be able to continue in operation and meet its liabilities as they fall due over the period of their assessment, including any related disclosures drawing attention to any necessary qualifications or assumptions.

We have nothing to report having performed a review of the Directors' statement that they have carried out a robust assessment of the principal risks facing the Company and statement in relation to the longer-term viability of the Company. Our review was substantially less in scope than an audit and only consisted of making inquiries and considering the Directors' process supporting their statements; checking that the statements are in alignment with the relevant provisions of the UK Corporate Governance Code (the "Code"); and considering whether the statements are consistent with the knowledge and understanding of the Company and its environment obtained in the course of the audit. (*Listing Rules*)

Other Code Provisions

We have nothing to report in respect of our responsibility to report when:

- The statement given by the Directors, on page 22, that they consider the Annual Report taken as a whole to be fair, balanced and understandable, and provides the information necessary for the members to assess the Company's position and performance, business model and strategy is materially inconsistent with our knowledge of the Company obtained in the course of performing our audit.
- The section of the Annual Report on page 20 describing the work of the Audit and Risk Committee does not appropriately address matters communicated by us to the Audit and Risk Committee.
- The Directors' statement relating to the Company's compliance with the Code does not properly disclose a departure from a relevant provision of the Code specified, under the Listing Rules, for review by the Auditors.

Directors' Remuneration

In our opinion, the part of the Directors' Remuneration Report to be audited has been properly prepared in accordance with the Companies Act 2006. (*CA06*)

Responsibilities for the financial statements and the audit

Responsibilities of the Directors for the financial statements

As explained more fully in the Statement of Directors' Responsibilities in respect of the Annual Report and Accounts set out on page 22, the Directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The Directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error

In preparing the financial statements, the Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our Auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not received all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the Company, or returns adequate for our audit have not been received from branches not visited by us; or
- certain disclosures of Directors' remuneration specified by law are not made; or
- the financial statements and the part of the Directors' Remuneration Report to be audited are not in agreement with the
 accounting records and returns.

We have no exceptions to report arising from this responsibility.

Appointment

Following the recommendation of the Audit and Risk Committee, we were appointed by the Directors in 1994 to audit the financial statements for the year ended 31 July 1995 and subsequent financial periods. The period of total uninterrupted engagement is 24 years, covering the years ended 31 July 1995 to 31 July 2018.

Jennifer March (Senior Statutory Auditor) for and on behalf of PricewaterhouseCoopers LLP Chartered Accountants and Statutory Auditors London

Net return on ordinary activities after taxation		5,106	22,233	27,339	4,522	41,594	46,116
Return per share	9	4.08p	17.79p	21.87p	3.62p	33.27p	36.89p

The "Total" column of this statement is the profit and loss account of the Company. The "Revenue" and "Capital" columns represent supplementary information prepared under guidance issued by The Association of Investment Companies. The Company has no other items of other comprehensive income and therefore the net return on ordinary activities after taxation is also the total comprehensive income for the year.

All revenue and capital items in the above statement derive from continuing operations. No operations were acquired or discontinued in the year.

The notes on pages 33 to 45 form an integral part of these accounts.

These accounts were approved and authorised for issue by the Board of Directors on 28 September 2018 and signed on its behalf by:

Jonathan Taylor

Chairman

The notes on pages 33 to 45 form an integral part of these accounts.

Registered in England and Wales

Company registration number: 2930057

Notes to the Accounts

1. Accounting policies

(a) Basis of accounting

The accounts are prepared in accordance with the Companies Act 2006, United Kingdom Generally Accepted Accounting Practice ("UK GAAP"), in particular in accordance with Financial Reporting Standard (FRS) 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and with the Statement of Recommended Practice "Financial Statements of Investment Trust Companies and Venture Capital Trusts" (the "SORP") issued by the Association of Investment Companies in November 2014 and updated in February 2018. All of the Company's operations are of a continuing nature.

The accounts have been prepared on a going concern basis under the historical cost convention, as modified by the revaluation of investments and derivative financial instruments held at fair value through profit or loss.

The accounts are presented in sterling and amounts have been rounded to the nearest thousand.

The accounting policies applied to these accounts are consistent with those applied in the accounts for the year ended 31 July 2017.

No significant judgements, estimates or assumptions have been required in the preparation of the accounts for the current or preceding financial years.

(b) Valuation of investments

The Company's business is investing in financial assets with a view to profiting from their total return in the form of income and capital growth. This portfolio of financial assets is managed and its performance evaluated on a fair value basis, in accordance with a documented investment strategy and information is provided internally on that basis to the Company's Board of Directors. Accordingly, upon initial recognition, the investments are designated by the Company as "held at fair value through profit or loss". They are included initially at fair value which is taken to be their cost, excluding expenses incidental to purchase which are written off to capital at the time of acquisition. Subsequently the investments are valued at fair value, which are last traded prices as quoted on the Tokyo Stock Exchange.

Investments that are unlisted or not actively traded are valued using a variety of techniques to determine their fair value; all such valuations are reviewed by both the AIFM's fair value pricing committee and by the Directors.

All purchases and sales are accounted for on a trade date basis.

(c) Accounting for reserves

Gains and losses on sales of investments are included in the income statement and in capital reserves within "gains and losses on sales of investments". Increases and decreases in the valuation of investments held at the year end are included in the income statement and in capital reserves within "investment holding gains and losses".

Foreign exchange gains and losses on cash and deposit balances and unrealised exchange gains and losses on foreign currency loans are included in the income statement and in capital reserves.

(d) Income

Dividends receivable are included in revenue on an ex-dividend basis except where, in the opinion of the Board, the dividend is capital in nature, in which case it is included in capital.

Overseas dividends are included gross of any withholding tax.

Where the Company has elected to receive scrip dividends in the form of additional shares rather than in cash, the amount of the cash dividend foregone is recognised in revenue. Any excess in the value of the shares received over the amount of the cash dividend is recognised in capital.

Deposit interest outstanding at the year end is calculated and accrued on a time apportionment basis using market rates of interest.

(e) Expenses

All expenses are accounted for on an accruals basis. Expenses are allocated wholly to the revenue column of the income statement with the following exceptions:

- The investment management fee is allocated 30% to revenue and 70% to capital in line with the Board's expected long-term split of revenue and capital return from the Company's investment portfolio.
- Expenses incidental to the purchase or sale of an investment are charged to capital. These expenses are commonly referred
 to as transaction costs and mainly comprise brokerage commission. Details of transaction costs are given in note 10 on
 page 37.

Notes to the Accounts

(f) Finance costs

Finance costs, including any premiums payable on settlement or redemption and direct issue costs, are accounted for on an accruals basis using the effective interest method in accordance with FRS 102.

Finance costs are allocated 30% to revenue and 70% to capital in line with the Board's expected long-term split of revenue and capital return from the Company's investment portfolio.

(g) Financial instruments

Cash at bank and in hand may comprise cash and demand deposits which are readily convertible to a known amount of cash and are subject to insignificant risk of changes in value.

Other debtors and creditors do not carry any interest, are short-term in nature and are accordingly stated at nominal value, with debtors reduced by appropriate allowances for estimated irrecoverable amounts.

Bank loans and overdrafts are classified as loans and receivables and are initially measured at fair value and subsequently measured at amortised cost. They are recorded at the proceeds received net of direct issue costs. Finance costs, including any premiums payable on settlement or redemption and direct issue costs, are accounted for on an accruals basis using the effective interest method.

(h) Taxation

The tax charge for the year is based on amounts expected to be received or paid.

Deferred tax is accounted for in accordance with FRS 102.

Deferred tax is provided on all timing differences that have originated but not reversed by the balance sheet date.

Deferred tax liabilities are recognised for all taxable timing differences but deferred tax assets are only recognised to the extent that it is probable that taxable profits will be available against which those timing differences can be utilised.

Tax relief is allocated to expenses charged to the capital column of the income statement on the "marginal basis". On this basis, if taxable income is capable of being entirely offset by revenue expenses, then no tax relief is transferred to capital.

Deferred tax is measured at the tax rate which is expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates that have been enacted or substantively enacted at the accounting date and is measured on an undiscounted basis.

(i) Foreign currency

In accordance with FRS 102, the Company is required to nominate a functional currency, being the currency in which the Company predominantly operates. The Board, having regard to the currency of the Company's share capital and the predominant currency in which its shareholders operate, has determined that sterling is the functional currency and the currency in which the accounts are presented.

Transactions denominated in foreign currencies are converted at actual exchange rates as at the date of the transaction. Monetary assets, liabilities and equity investments denominated in foreign currencies at the year end, are translated at the rates of exchange prevailing at the year end.

(j) Dividend payable

In accordance with FRS 102, the final dividend is included in the accounts in the year in which it is paid.

2. Gains on investments held at fair value through profit or loss

	2018 £'000	2017 £'000
Gains on sales of investments based on historic cost	15,212	12,322
Amounts recognised in investment holding gains and losses in the previous year in respect of investments sold in the year	(11,981)	(7,256)
Gains on sales of investments based on the carrying value at the previous balance sheet date	3.231	5,066
Net movement in investment holding gains and losses	20,642	36,320
Gains on investments held at fair value through profit and loss	23,873	41,386

3. Income

	2018 £′000	2017 £'000
Income from investments:		
Overseas dividends	7,204	6,391
Other interest receivable and similar income		
Deposit interest	2	
Total income	7,206	6,391

4. Investment management fee

	Revenue £'000	2018 Capital £'000	Total £'000	Revenue £'000	2017 Capital £'000	Total £'000
Management fee	683	1,593	2,276	621	1,450	2,071

The basis for calculating the investment management fee is set out in the Report of the Directors on page 16 and details of all amounts payable to the Manager are given in note 17 on page 39.

5. Administrative expenses

	2018 £'000	2017 £'000
Administration expenses	305	224
Directors' fees ¹	130	113
Company secretarial fee	90	90
Marketing support fee	50	50
Auditors' remuneration for audit services	23	22
Auditors' remuneration for taxation compliance services	-	2
	598	501

¹Details of all amounts payable to Directors are given in the Remuneration Report on page 23.

6. Finance costs

	Revenue £'000	2018 Capital £'000	Total £'000	Revenue £'000	2017 Capital £'000	Total £'000	
terest on bank loans and overdrafts	99	231	330	108	252	360	

7. Taxation on ordinary activities

	2018 £'000	2017 £'000
(a) Analysis of charge in the year:		
Irrecoverable overseas tax	720	639
Taxation on ordinary activities	720	639

(b) Factors affecting tax charge for the year

The tax assessed for the year is lower (2017: lower) than the Company's applicable rate of corporation tax for the year of 19.00% (2017: 19.67%).

The factors affecting the current tax charge for the year are as follows:

	Revenue £'000	2018 Capital £'000	Total £'000	Revenue £'000	2017 Capital £'000	Total £'000
Net return on ordinary activities before taxation	5,826	22,233	28,059	5,161	41,594	46,755
Net return on ordinary activities before taxation multiplied by the Company's applicable rate of corporation tax for the year of 19.00% (2017: 19.67%) Effects of:	1,107	4,224	5,331	1,015	8,181	9,196
Capital returns on investments	_	(4,571)	(4,571)	-	(8,516)	(8,516)
Income not chargeable to corporation tax	(1,369)	-	(1,369)	(1,257)	-	(1,257)
Unrelieved expenses	262	347	609	242	335	577
Irrecoverable overseas tax	720	-	720	639	-	639
Taxation on ordinary activities	720	_	720	639	_	639

(c) Deferred taxation

The Company has an unrecognised deferred tax asset of £4,828,000 (2017: £4,283,000) based on a prospective corporation tax rate of 17% (2017: same). The reduction in the standard rate of corporation tax was substantively enacted in September 2016 and is effective from 1 April 2020.

The deferred tax asset has arisen due to the cumulative excess of deductible expenses over taxable income. Given the composition of the Company's portfolio, it is not likely that this asset will be utilised in the foreseeable future and therefore no asset has been recognised in the accounts.

Given the Company's status as an Investment Trust Company, no provision has been made for deferred tax on any capital gains or losses arising on the revaluation or disposal of investments.

8. Dividends

Dividends paid and proposed

	2018 £′000	2017 £'000
2017 final dividend of 3.50p (2016: 2.80p) paid out of revenue profits	4,375	3,500
	2018 £'000	2017 £'000
2018 final dividend proposed of 4.00p (2017: 3.50p) to be paid out of revenue profits	5,000	4,375

The proposed dividend amounting to £5,000,000 (2017: £4,375,000) is the amount used for the basis of determining whether the Company has satisfied the distribution requirements of Section 1158 of the Corporation Tax Act 2010. The revenue available for distribution by way of dividend for the year is £5,106,000 (2017: £4,522,000).

9. Return per share

	2018	2017
Revenue return (£'000)	5,106	4,522
Capital return (£'000)	22,233	41,594
Total return (£'000)	27,339	46,116
Weighted average number of ordinary shares in issue during the year	125,008,200	125,008,200
Revenue return per share	4.08p	3.62p
Capital return per share	17.79p	33.27p
Total return per share	21.87р	36.89p

10. Investments held at fair value through profit or loss

	2018 £'000	2017 £'000
Opening book cost	183,495	166,176
Opening investment holding gains	117,002	87,938
Opening valuation	300,497	254,114
Purchases at cost	44,077	32,971
Sales proceeds	(41,691)	(27,974)
Gains on sales of investments based on the carrying value at the previous balance sheet date	3,231	5,066
Net movement in investment holding gains and losses	20,642	36,320
Closing valuation	326,756	300,497
Closing book cost	201,093	183,495
Closing investment holding gains	125,663	117,002
Total investments held at fair value through profit or loss	326,756	300,497

All investments are listed on a recognised stock exchange.

The following transaction costs, mainly comprising brokerage commissions, were incurred during the year:

	2018 £′000	2017 £'000
On acquisitions	15	24
On disposals	14	23
	29	47

11. Debtors

	2018 £′000	2017 £'000
Securities sold awaiting settlement	649	607
Dividends and interest receivable	370	318
Other debtors	23	24
	1,042	949

The Directors consider that the carrying amount of debtors approximates to their fair value.

12. Creditors: amounts falling due within one year

	2018 £'000	2017 £'000
Bank loan	40,862	-
Securities purchased awaiting settlement	611	742
Other creditors and accruals	710	1,237
	42,183	1,979

The bank loan is a yen 6.0 billion three year term loan with Scotiabank, expiring on 18 January 2019, and carrying a fixed interest rate of 0.82% per annum. The loan is unsecured but is subject to certain undertakings and restrictions, all of which have been complied with.

The Company has a yen 1.0 billion (2017: yen 1.0 billion) credit facility available with Scotiabank expiring 8 March 2019, which was undrawn at the year end and comparative year end. The facility agreement includes an option to increase the credit available to yen 2.0 billion (2017: yen 2.5 billion), subject to certain terms and conditions. The facility is unsecured but is subject to covenants and restrictions which are customary for a facility of this nature. Further details of the facility are given in note 20 on page 42.

The Directors consider that the carrying amount of creditors falling due within one year approximates to their fair value.

13. Creditors: amounts falling due after more than one year

	2018 £'000	2017 £'000
Bank loan	_	41,189

The bank loan at the comparative year end is a yen 6.0 billion three year term loan with Scotiabank, expiring on 18 January 2019 and which, at the year ended 31 July 2018, has been reclassified into creditors falling due with one year in note 12 above.

The Directors consider that the carrying amount of the bank loan approximates to its fair value.

14. Called-up share capital

	2018 £'000	2017 £'000
Ordinary shares allotted, called-up and fully paid: 125,008,200 (2017: 125,008,200) ordinary shares of 10p each	12.501	12.501

15. Reserves

	Share premium ¹ £'000	Warrant exercise reserve ¹ £'000	Share purchase reserve ² £'000	Capital Gains and losses on sales of investments ² £'000	Investment holding gains and losses ³ £'000	Revenue reserve ⁴ £'000
Opening balance	7	3	97,205	37,539	116,936	5,113
Gains on sales of investments based on the						
carrying value at the previous balance sheet date	_	_	_	3,231	_	_
Net movement in investment holding gains and losses	_	_	-	_	20,642	-
Transfer on disposal of investments	_	_	-	11,981	(11,981)	-
Realised exchange losses on cash and						
short-term deposits	_	-	-	(144)	-	_
Exchange gains on foreign currency loan	_	-	-	_	328	-
Management fee and finance costs allocated to capital	_	_	-	(1,824)	_	-

Retained revenue for the year	-	-	-	-	-	5,106
Closing balance	7	3	97,205	50,783	125,925	5,844

The Company's Articles of Association permit dividend distributions out of realised capital profits.

16. Net asset value per share

	2018	2017
Net assets attributable to shareholders (£'000)	292,268	269,304
Shares in issue at the year end	125,008,200	125,008,200
Net asset value per share	233.80p	215.43p

17. Transactions with the Manager

Under the terms of the AIFM Agreement, the Manager is entitled to receive a management fee, a marketing support fee and a company secretarial fee. Details of the AIFM agreement are given in the Report of the Directors on page 16. Any investments in funds managed or advised by the Manager or any of its associated companies are excluded from the assets used for the purpose of the management fee calculation and therefore incur no fee.

The management fee payable in respect of the year ended 31 July 2018 amounted to £2,276,000 (2017: £2,071,000), of which £577,000 (2017: £1,030,000) was outstanding at the year end. The marketing support fee payable to the Manager amounted to £50,000 (2017: £50,000) of which £13,000 (2017: £25,000) was outstanding at the year end. The company secretarial fee payable to the Manager amounted to £90,000 (2017: £90,000) of which £23,000 (2017: £45,000) was outstanding at the year end.

¹These reserves are not distributable.

²These are realised (distributable) capital reserves which may be used to repurchase the Company's own shares or distributed as dividends.

³This reserve comprises holding gains on liquid investments (which may be deemed to be realised) and other amounts which are unrealised. An analysis has not been made between those amounts that are realised (and may be distributed as dividends or used to repurchase the Company's own shares) and those that are unrealised.

⁴The revenue reserve may distributed as dividends or used to repurchase the Company's own shares.

18. Related party transactions

Details of the remuneration payable to Directors are given in the Remuneration Report on page 23 and details of Directors' shareholdings are given in the Report of the Directors on page 16. Details of transactions with the Manager are given in note 17 above. There have been no other transactions with related parties during the year (2017: nil).

19. Disclosures regarding financial instruments measured at fair value

The Company's financial instruments within the scope of FRS 102 that are held at fair value comprise its investment portfolio. The Company currently holds no derivative financial instruments.

FRS 102 requires financial instruments to be categorised into a hierarchy consisting of the three levels below.

Level 1 – valued using unadjusted guoted prices in active markets for identical assets.

Level 2 - valued using observable inputs other than quoted prices included within Level 1.

Level 3 - valued using inputs that are unobservable.

Details of the valuation techniques used by the Company are given in note 1(b) on page 33.

At 31 July 2018, all investments in the Company's portfolio are categorised as Level 1 (2017: same).

20. Financial instruments' exposure to risk and risk management policies

The investment objective is set out on the inside front cover of this report. In pursuing this objective, the Company is exposed to a variety of risks that could result in a reduction in the Company's net assets or a reduction in profits available for dividends.

These risks include market risk (comprising currency risk, interest rate risk and market price risk), liquidity risk and credit risk. The Directors' policy for managing these risks is set out below. The Board coordinates the Company's risk management policy.

The objectives, policies and processes for managing the risks and the methods used to measure the risks that are set out below, have not changed from those applying in the comparative year.

The Company's classes of financial instruments are as follows:

- investments in shares of Japanese companies which are held in accordance with the Company's investment objective;
- short-term debtors, creditors and cash arising directly from its operations; and
- a credit facility and a term loan with Scotiabank, the purpose of which are to manage working capital requirements and to gear the Company as appropriate.

(a) Market risk

The fair value or future cash flows of a financial instrument held by the Company may fluctuate because of changes in market prices. This market risk comprises three elements: currency risk, interest rate risk and market price risk. Information to enable an evaluation of the nature and extent of these three elements of market risk is given in parts (i) to (iii) of this note, together with sensitivity analyses where appropriate. The Board reviews and agrees policies for managing these risks and these policies have remained unchanged from those applying in the comparative year. The Manager assesses the exposure to market risk when making each investment decision and monitors the overall level of market risk on the whole of the investment portfolio on an ongoing basis.

(i) Currency risk

The Company's functional currency and the currency in which it reports, is sterling. However the Company's assets, liabilities and income are almost entirely denominated in yen. As a result, movements in exchange rates will affect the sterling value of those items.

Management of currency risk

The Manager monitors the Company's exposure to foreign currencies on a daily basis and reports to the Board, which meets on at least four occasions each year. The Manager measures the risk to the Company of the foreign currency exposure by considering the effect on the Company's net asset value and income of a movement in the yen/sterling exchange rate. It is currently not the Company's policy to actively hedge against currency risk. However any yen denominated borrowing acts to reduce the exposure of the Company's portfolio to the yen/sterling exchange rate. Income is converted to sterling on receipt. The Company may use short-term forward currency contracts to manage working capital requirements.

Foreign currency exposure

The fair value of the Company's monetary items that have exposure to the yen at 31 July are shown below. The Company's investments (which are not monetary items) have been included separately in the analysis so as to show the overall level of exposure.

	2018 £'000	2017 £'000
Debtors (securities sold awaiting settlement, dividends and interest receivable)	1,019	925
Cash at bank and in hand	6,653	11,026
Creditors (securities purchased awaiting settlement)	(611)	(742)
Bank loans (including accrued interest payable)	(40,873)	(41,200)
Foreign currency exposure on net monetary items	(33,812)	(29,991)
Investments held at fair value through profit or loss that are equities	326,756	300,497
Total net foreign currency exposure	292,944	270,506

The above year end amounts are broadly representative of the exposure to foreign currency risk during the current and comparative year.

Foreign currency sensitivity

The following tables illustrate the sensitivity of return after taxation for the year and net assets with regard to the Company's monetary financial assets, financial liabilities and exchange rates. The sensitivity analysis is based on the Company's monetary currency financial instruments held at each balance sheet date and assumes a 10% (2017: 10%) appreciation or depreciation in sterling against the yen, which is considered to be a reasonable illustration based on the volatility of exchange rates during the year.

If sterling had weakened by 10% this would have had the following effect:

	£'000	£'000
Income statement – return after taxation		
Revenue return	639	564
Capital return	(3,404)	(3,024)
Total return after taxation for the year	(2,765)	(2,460)
Net assets	(2,765)	(2,460)
Conversely if sterling had strengthened by 10% this would have had the following effect:		
	2018	2017

	2018 £'000	2017 £'000
Income statement – return after taxation		
Revenue return	(639)	(564)
Capital return	3,404	3,024
Total return after taxation for the year	2,765	2,460
Net assets	2,765	2,460

In the opinion of the Directors, the above sensitivity analysis is broadly representative of the current and comparative year.

(ii) Interest rate risk

Interest rate movements may affect the level of income receivable on cash deposits and the interest payable on variable rate borrowings when interest rates are re-set.

Management of interest rate risk

Liquidity and borrowings are managed with the aim of increasing returns to shareholders. The Company's gearing policy is to limit gearing to 25% where gearing is defined as borrowings used for investment purposes, less cash expressed as a percentage of net assets.

2010

The possible effects on cash flows that could arise as a result of changes in interest rates are taken into account when the Company borrows on the credit facility. However, amounts drawn down on this facility are for short-term periods and therefore exposure to interest rate risk is not significant. The Company's three year term loan carries a fixed rate of interest and therefore does not give rise to any interest rate risk.

Interest rate exposure

The exposure of financial assets and financial liabilities to floating interest rates, giving cash flow interest rate risk when rates are re-set, is shown below:

	2018 £'000	2017 £'000
Exposure to floating interest rates:		
Cash at bank and in hand	6,653	11,026
Total exposure	6,653	11,026

Interest receivable on cash balances is at a margin below LIBOR (2017: same).

During the year, the Company extended its credit facility with Scotiabank to 8 March 2019. Under the terms of the facility agreement, the Company may draw down up to yen 1.0 billion (2017: yen 1.0 billion) or the equivalent in another currency as agreed with the lender. The facility agreement includes an option to increase the credit available to yen 2.0 billion (2017: yen 2.5 billion), subject to certain terms and conditions. Interest is payable at a rate of LIBOR as quoted in the market for the relevant currency and loan period, plus a margin, plus Mandatory Costs, which are the lender's costs of complying with certain regulatory requirements of the Bank of England. The facility was undrawn at 31 July 2018 and 31 July 2017.

The above year end amounts are not representative of the exposure to interest rates during the year as the level of cash balances and drawings on the facility have fluctuated. The maximum and minimum exposure during the year was as follows:

	2018 £′000	2017 £'000
Minimum credit interest rate exposure during the year – net cash	3,158	10,634
Maximum credit interest rate exposure during the year – net cash	10,621	18,213

Interest rate sensitivity

The following table illustrates the sensitivity of the return after taxation for the year and net assets to a 1.0% (2017: 1.0%) increase or decrease in interest rates. This level of change is considered to be a reasonable illustration based on observation of current market conditions. The sensitivity analysis is based on the Company's monetary financial instruments held at the accounting date and which are exposed to interest rate movements, with all other variables held constant.

	20)18	2017		
	1.0% increase 1.0% decrease in rate £'000 £'000		1.0% increase in rate £'000	1.0% decrease in rate £'000	
Income statement – return after taxation					
Revenue return	67	(67)	110	(110)	
Capital return	-	-	_	-	
Total return after taxation	67	(67)	110	(110)	
Net assets	67	(67)	110	(110)	

In the opinion of the Directors, this sensitivity analysis may not be representative of the Company's future exposure to interest rate changes due to fluctuations in the level of cash balances and drawings on the credit facility.

(iii) Market price risk

Market price risk includes changes in market prices, other than those arising from interest rate risk, which may affect the value of the Company's investments.

Management of market price risk

The Board meets on at least four occasions each year to consider the asset allocation of the portfolio and the risk associated with particular industry sectors. The investment management team has responsibility for monitoring the portfolio, which is selected in accordance with the Company's investment objective and seeks to ensure that individual stocks meet an acceptable risk/reward profile.

Market price risk exposure

The Company's total exposure to changes in market prices at 31 July comprised its portfolio of investments as follows:

	2018 £′000	2017 £'000
Investments held at fair value through profit or loss	326,756	300,497

The above data is broadly representative of the exposure to market price risk during the year.

Concentration of exposure to market price risk

An analysis of the Company's investments is given on page 6. The portfolio comprises securities listed on Japanese stock markets. Accordingly there is a concentration of exposure to that country. However it should be noted that an investment may not be entirely exposed to the economic conditions in its country of listing.

Market price risk sensitivity

The following table illustrates the sensitivity of the return after taxation for the year and net assets to an increase or decrease of 10% (2017: 10%) in the fair values of the Company's investments. This level of change is considered to be a reasonable illustration based on observation of current market conditions. The sensitivity analysis is based on the Company's exposure to market price risk through its portfolio of investments and includes the impact on the management fee but assumes all other variables are held constant.

	20	2018		2017	
	10% increase in fair value £'000	10% decrease in fair value £'000	10% increase in fair value £'000	10% decrease in fair value £'000	
Income statement – return after taxation					
Revenue return	(64)	64	(59)	59	
Capital return	32,527	(32,527)	29,913	(29,913)	
otal return after taxation and net assets	32,463	(32,463)	29,854	(29,854)	
Percentage change in net asset value	11.1%	(11.1%)	11.1%	(11.1%)	

(b) Liquidity risk

This is the risk that the Company will encounter difficulty in meeting its obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

Management of the risk

Liquidity risk is not significant as the Company's assets comprise mainly readily realisable securities, which can be sold to meet funding requirements if necessary. Short-term flexibility is achieved through the use of a credit facility. The Board's policy is for the Company to remain fully invested in normal market conditions and that the credit facility be used to manage working capital requirements and to gear the Company as appropriate.

Liquidity risk exposure

Contractual maturities of financial liabilities, based on the earliest date on which payment can be required are as follows:

	Within one year £'000	Total £'000	Within one year £'000	2017 Between one and two years £'000	Total £′000
Creditors: amounts falling due within one year					
Securities purchased awaiting settlement	611	611	742	-	742
Other creditors and accruals	700	700	1,226	-	1,226
Term loan – including interest	41,029	41,029	-	-	-
Creditors: amounts falling due after more than one year					
Term loan – including interest	-	_	-	41,694	41,694
	42,340	42,340	1,968	41,694	43,662

(c) Credit risk

Credit risk is the risk that the failure of the counterparty to a transaction to discharge its obligations under that transaction could result in loss to the Company.

Management of credit risk

This risk is not significant and is managed as follows:

Portfolio dealing

The Company invests in markets that operate a "Delivery Versus Payment" settlement process which mitigates the risk of losing the principal of a trade during settlement. The Manager continuously monitors dealing activity to ensure best execution, which involves measuring various indicators including the quality of trade settlement and incidence of failed trades. Counterparties must be pre-approved by the Manager's credit committee.

Exposure to the custodian

The Custodian of the Company's assets is HSBC Bank plc which has Long-Term Credit Ratings of AA- with Fitch and Aa3 with Moody's. The Company's investments are held in accounts which are segregated from the Custodian's own trading assets. If the Custodian were to become insolvent, the Company's right of ownership of its investments is clear and they are therefore protected. However the Company's cash balances are all deposited with the Custodian as banker and held on the Custodian's balance sheet. Accordingly, in accordance with usual banking practice, the Company will rank as a general creditor to the Custodian in respect of cash balances.

Credit risk exposure

The following amounts shown in the Statement of Financial Position, represent the maximum exposure to credit risk at the current and comparative year end.

	2 Balance sheet £'000	018 Maximum exposure £'000	Balance sheet £'000	017 Maximum exposure £'000
Fixed assets	226 756		200 407	
Investments held at fair value through profit or loss Current assets	326,756	_	300,497	-
Debtors – securities sold awaiting settlement, dividends and interest receivable and other debtors	1.042	1.042	949	949
Cash at bank and in hand	6,653	6,653	11,026	11,026
	334,451	7,695	312,472	11,975

No debtors are past their due date and no provision has been made for impairment.

(d) Fair values of financial assets and financial liabilities

All financial assets and liabilities are either carried at fair value or the amount in the Statement of Financial Position is a reasonable approximation of fair value.

21. Capital management policies and procedures

The Company's objectives, policies and processes for managing capital are unchanged from the preceding year.

The Company's debt and capital structure comprises the following:

	2018 £'000	2017 £'000
Debt		
Bank loan	40,862	41,189
Equity		
Called-up share capital	12,501	12,501
Reserves	279,767	256,803
	292,268	269,304
Total debt and equity	333,130	310,493

The Company's capital management objectives are to ensure that it will continue as a going concern and to maximise the capital return to shareholders through an appropriate level of gearing. The Board's policy is to limit gearing to 25%. Gearing for this purpose is defined as borrowings used for investment purposes, less cash, expressed as a percentage of net assets.

	2018 £'000	2017 £'000
Borrowings used for investment purposes, less cash	34,209	30,163
Net assets	292,268	269,304
Gearing	11.7%	11.2%

The Board, with the assistance of the Manager, monitors and reviews the broad structure of the Company's capital on an ongoing basis. This review includes:

- the planned level of gearing, which takes into account the Manager's views on the market;
- the need to buy back shares for cancellation, which takes into account the share price discount;
- the opportunity for issues of new shares; and
- the level of dividend distribution in excess of that which is required to be distributed.

Annual General Meeting – Explanation of Special Business

The Annual General Meeting ("AGM") of the Company will be held on Thursday, 1 November 2018 at 2.30 p.m. The formal Notice of Meeting is set out on page 47.

The following information is important and requires your immediate attention. If you are in any doubt about the action you should take, you should consult an independent financial adviser, authorised under the Financial Services and Markets Act 2000. If you have sold or transferred all of your ordinary shares in the Company, please forward this document with its accompanying form of proxy at once to the purchaser or transferee, or to the stockbroker, bank or other agent through whom the sale or transfer was effected, for onward transmission to the purchaser or transferee.

Resolution 10: Directors' authority to allot shares (ordinary resolution) and Resolution 11: power to disapply pre-emption rights (special resolution)

The Directors are seeking authority to allot a limited number of unissued ordinary shares for cash without first offering them to existing shareholders in accordance with statutory preemption procedures.

Appropriate resolutions will be proposed at the forthcoming AGM and are set out in full in the Notice of AGM. An ordinary resolution will be proposed to authorise the Directors to allot shares up to a maximum aggregate nominal amount of £625,041 (being 5% of the issued share capital as at the date of the Notice of the AGM). A special resolution will also be proposed to give the Directors authority to allot securities for cash on a non pre-emptive basis up to a maximum aggregate nominal amount of £625,041 (being 5% of the Company's issued share capital as at the date of the Notice of the AGM).

The Directors do not intend to allot shares pursuant to these authorities other than to take advantage of opportunities in the market as they arise and only if they believe it to be advantageous to the Company's existing shareholders to do so and when it would not result in any dilution of NAV per share.

If approved, both of these authorities will expire at the conclusion of the AGM in 2019 unless renewed, varied or revoked earlier.

Resolution 12: authority to make market purchases of the Company's own shares (special resolution)

At the AGM held on 2 November 2017, the Company was granted authority to make market purchases of up to 18,738,729 ordinary shares of 10p each for cancellation. No shares have been bought back under this authority and the Company therefore has remaining authority to purchase up to 18,738,729 ordinary shares. This authority will expire at the forthcoming AGM.

The Directors believe it is in the best interests of the Company and its shareholders to have a general authority for the Company to buy back its ordinary shares in the market as they keep under review the share price discount to NAV and the purchase of ordinary shares. A special resolution will be proposed at the forthcoming AGM to give the Company authority to make market purchases of up to 14.99% of the ordinary shares in issue as at the date of the Notice of the AGM. The Directors will exercise this authority only if the Directors consider that any purchase would be for the benefit of the Company and its shareholders, taking into account relevant factors and circumstances at the time. Any shares so purchased would be cancelled. If renewed, the authority to be given at the 2018 AGM will lapse at the conclusion of the AGM in 2019 unless renewed, varied or revoked earlier.

Recommendation

The Board considers that the resolutions relating to the above items of special business are in the best interests of shareholders as a whole. Accordingly, the Board unanimously recommends to shareholders that they vote in favour of the above resolutions and the other resolutions to be proposed at the forthcoming AGM, as they intend to do in respect of their own beneficial holdings.

Notice of Annual General Meeting

Notice is hereby given that the Annual General Meeting of Schroder Japan Growth Fund plc will be held at **1 London Wall Place**, **London EC2Y 5AU** on Thursday, 1 November 2018 at 2.30 p.m. to consider the following resolutions of which resolutions 1 to 10 will be proposed as ordinary resolutions and resolutions 11 and 12 will be proposed as special resolutions:

- 1. To receive the Report of the Directors and the audited Accounts for the year ended 31 July 2018.
- 2. To approve a final dividend of 4.00p per share for the year ended 31 July 2018.
- 3. To approve the Directors' Annual Report on Remuneration for the year ended 31 July 2018.
- 4. To approve the election of Belinda Richards as a Director of the Company.
- 5. To approve the re-election of Anja Balfour as a Director of the Company.
- 6. To approve the re-election of Alan Gibbs as a Director of the Company.
- 7. To approve the re-election of Richard Greer as a Director of the Company.
- 8. To re-appoint PricewaterhouseCoopers LLP as Auditors to the Company.
- To authorise the Directors to determine the remuneration of PricewaterhouseCoopers LLP as Auditors to the Company.
- 10. To consider, and if thought fit, pass the following resolution as an ordinary resolution:

"THAT in substitution for all existing authorities the Directors be generally and unconditionally authorised pursuant to section 551 of the Companies Act 2006 (the "Act") to exercise all the powers of the Company to allot relevant securities (within the meaning of section 551 of the Act) up to an aggregate nominal amount of £625,041 (being 5% of the issued ordinary share capital, excluding shares held in treasury, at the date of this Notice) for a period expiring (unless previously renewed, varied or revoked by the Company in general meeting) at the conclusion of the next Annual General Meeting of the Company, but that the Company may make an offer or agreement which would or might require relevant securities to be allotted after expiry of this authority and the Board may allot relevant securities in pursuance of that offer or agreement."

11. To consider and, if thought fit, to pass the following resolution as a special resolution:

"That, subject to the passing of Resolution 10 set out above, the Directors be and are hereby empowered, pursuant to Section 571 of the Act, to allot equity securities (including any shares held in treasury) (as defined in section 560(1) of the Act) pursuant to the authority given in accordance with section 551 of the Act by the said

Resolution 10 and/or where such allotment constitutes an allotment of equity securities by virtue of section 560(2) of the Act as if Section 561(1) of the Act did not apply to any such allotment, provided that this power shall be limited to the allotment of equity securities up to an aggregate nominal amount of £625,041 (representing 5% of the aggregate nominal amount of the share capital in issue at the date of this Notice); and provided that this power shall expire at the conclusion of the next Annual General Meeting of the Company but so that this power shall enable the Company to make offers or agreements before such expiry which would or might require equity securities to be allotted after such expiry."

12. To consider and, if thought fit, to pass the following resolution as a special resolution:

"THAT the Company be and is hereby generally and unconditionally authorised in accordance with Section 701 of the Companies Act 2006 (the "Act") to make market purchases (within the meaning of Section 693 of the Act) of ordinary shares of 10p each in the capital of the Company ("Share") at whatever discount the prevailing market price represents to the prevailing net asset value per Share provided that:

- (a) the maximum number of Shares which may be purchased is 18,738,729, representing 14.99% of the Company's issued ordinary share capital as at the date of this Notice;
- (b) the maximum price (exclusive of expenses) which may be paid for a Share shall not exceed the higher of;
 - i) 105% of the average of the middle market quotations for the Shares as taken from the London Stock Exchange Daily Official List for the five business days preceding the date of purchase; and
 - the higher of the last independent bid and the highest current independent bid on the London Stock Exchange;
- (c) the minimum price (exclusive of expenses) which may be paid for a Share shall be 10p, being the nominal value per Share;
- (d) this authority hereby conferred shall expire at the conclusion of the next Annual General Meeting of the Company in 2019 (unless previously renewed, varied or revoked by the Company prior to such date);
- (e) the Company may make a contract to purchase Shares under the authority hereby conferred which will or may be executed wholly or partly after the expiration of such authority and may make a purchase of Shares pursuant to any such contract; and
- (f) any Shares so purchased will be cancelled."

Registered Office: 1 London Wall Place, London EC2Y 5AU

By order of the Board For and on behalf of Schroder Investment Management Limited Registered number: 2930057

28 September 2018

Explanatory Notes to the Notice of Meeting

 Ordinary shareholders are entitled to attend and vote at the meeting and to appoint one or more proxies, who need not be a shareholder, as their proxy to exercise all or any of their rights to attend, speak and vote on their behalf at the meeting.

A proxy form is attached. If you wish to appoint a person other than the Chairman as your proxy, please insert the name of your chosen proxy holder in the space provided at the top of the form. If the proxy is being appointed in relation to less than your full voting entitlement, please enter in the box next to the proxy holder's name the number of shares in relation to which they are authorised to act as your proxy. If left blank your proxy will be deemed to be authorised in respect of your full voting entitlement (or if this proxy form has been issued in respect of a designated account for a shareholder, the full voting entitlement for that designated account). Additional proxy forms can be obtained by contacting the Company's Registrars, Equiniti Limited, on 0800 032 0641 or +44(0) 121 415 0207 for overseas callers, or you may photocopy the attached proxy form. Please indicate in the box next to the proxy holder's name the number of shares in relation to which they are authorised to act as your proxy. Please also indicate by ticking the box provided if the proxy instruction is one of multiple instructions being given. Completion and return of a form of proxy will not preclude a member from attending the Annual General Meeting and voting in

On a vote by show of hands, every ordinary shareholder who is present in person has one vote and every duly appointed proxy who is present has one vote. On a poll vote, every ordinary shareholder who is present in person or by way of a proxy has one vote for every share of which he/she is a holder.

The "Vote Withheld" option on the proxy form is provided to enable you to abstain on any particular resolution. However it should be noted that a "Vote Withheld" is not a vote in law and will not be counted in the calculation of the proportion of the votes 'For' and 'Against' a resolution.

A proxy form must be signed and dated by the shareholder or his or her attorney duly authorised in writing. In the case of joint holdings, any one holder may sign this form. The vote of the senior joint holder who tenders a vote, whether in person or by proxy, will be accepted to the exclusion of the votes of the other joint holder and for this purpose seniority will be determined by the order in which the names appear on the Register of Members in respect of the joint holding. To be valid, proxy form(s) must be completed and returned to the Company's Registrars, Equiniti Limited, Aspect House, Spencer Road, Lancing, West Sussex BN99 6DA, in the enclosed envelope together with any power of attorney or other authority under which it is signed or a copy of such authority certified notarially, to arrive no later than 48 hours before the time fixed for the meeting, or an adjourned meeting. Shareholders may also appoint a proxy to vote on the resolutions being put to the meeting electronically at www.sharevote.co.uk. Shareholders who are not registered to vote electronically, will need to enter the Voting ID, Task ID and Shareholder Reference Number set out in their personalised proxy form. Alternatively, shareholders who have already

registered with Equiniti's Shareview service can appoint a proxy by logging onto their portfolio at www.shareview.co.uk using their user ID and password. Once logged in, click "view" on the "My Investments" page, click on the link to vote, then follow the on-screen instructions. The on-screen instructions give details on how to complete the appointment process. Please note that to be valid, your proxy instructions must be received by Equiniti no later than 2.30 p.m. on 30 October 2018. If you have any difficulties with online voting, you should contact the shareholder helpline on 0800 032 0641 (or +44(0) 121 415 0207 for overseas callers).

If an ordinary shareholder submits more than one valid proxy appointment, the appointment received last before the latest time for receipt of proxies will take precedence.

Shareholders may not use any electronic address provided either in this Notice of Annual General Meeting or any related documents to communicate with the Company for any purposes other than expressly stated.

Representatives of shareholders that are corporations will have to produce evidence of their proper appointment when attending the Annual General Meeting.

2. Any person to whom this notice is sent who is a person nominated under section 146 of the Companies Act 2006 to enjoy information rights (a "Nominated Person") may, under an agreement between him or her and the shareholder by whom he or she was nominated, have a right to be appointed (or to have someone else appointed) as a proxy for the Annual General Meeting. If a Nominated Person has no such proxy appointment right or does not wish to exercise it, he or she may, under any such agreement, have a right to give instructions to the shareholder as to the exercise of voting rights.

The statement of the rights of ordinary shareholders in relation to the appointment of proxies in note 1 above does not apply to Nominated Persons. The rights described in that note can only be exercised by ordinary shareholders of the Company.

- 3. Pursuant to Regulation 41 of the Uncertificated Securities Regulations 2001, the Company has specified that only those shareholders registered in the Register of Members of the Company at 6.30 p.m. on 30 October 2018, or 6.30 p.m. two days prior to the date of an adjourned meeting, shall be entitled to attend and vote at the meeting in respect of the number of shares registered in their name at that time. Changes to the Register of Members after 6.30 p.m. on 30 October 2018 shall be disregarded in determining the right of any person to attend and vote at the meeting.
- 4. CREST members who wish to appoint a proxy or proxies through the CREST electronic proxy appointment service may do so by using the procedures described in the CREST manual. The CREST manual can be viewed at www.euroclear.com. A CREST message appointing a proxy (a "CREST proxy instruction") regardless of whether it constitutes the appointment of a proxy or an amendment to the instruction previously given to a previously appointed proxy must, in order to be valid, be transmitted

Explanatory Notes to the Notice of Meeting

- so as to be received by the issuer's agent (ID RA19) by the latest time for receipt of proxy appointments.
- 5. Copies of the terms of appointment of the non-executive Directors and a statement of all transactions of each Director and of his family interests in the shares of the Company, will be available for inspection by any member of the Company at the registered office of the Company during normal business hours on any weekday (English public holidays excepted) and at the Annual General Meeting by any attendee, for at least 15 minutes prior to, and during, the Annual General Meeting. None of the Directors has a contract of service with the Company.
- The biographies of the Directors offering themselves for election and re-election are set out on page 14 of the Company's Annual Report and Accounts for the year ended 31 July 2018.
- 7. As at 28 September 2018, 125,008,200 ordinary shares of 10 pence each were in issue (no shares were held in treasury). Therefore the total number of voting rights of the Company as at 28 September 2018 was 125,008,200.
- A copy of this Notice of meeting, which includes details of shareholder voting rights, together with any other information as required under Section 311A of the Companies Act 2006, is available from the Company's webpages, www.schroders.co.uk/japangrowth.
- 9. Pursuant to Section 319A of the Companies Act 2006, the Company must cause to be answered at the Annual General Meeting any question relating to the business being dealt with at the Annual General Meeting which is put by a member attending the meeting, except in certain circumstances, including if it is undesirable in the interests of the Company or the good order of the meeting that the question be answered or if to do so would involve the disclosure of confidential information.

Definitions of terms and performance measures

The terms and performance measures below are those commonly used by investment companies to assess values, investment performance and operating costs.

Net asset value ("NAV") per share

The NAV per share represents the net assets attributable to equity shareholders divided by the number of shares in issue, excluding any shares held in treasury. The NAV per share is published daily.

Total return

The combined effect of any dividends paid, together with the rise or fall in the share price or NAV per share. Total return statistics enable the investor to make performance comparisons between investment companies with different dividend policies. Any dividends received by a shareholder are assumed to have been reinvested in either additional shares of the Company at the time the shares were quoted ex-dividend (to calculate the share price total return) or in the assets of the Company at its NAV per share (to calculate the NAV per share total return).

Benchmark

The measure against which the Company compares its performance. The Benchmark Index is the TSE First Section Total Return Index in sterling terms.

Discount/premium

The amount by which the share price of an investment trust is lower (discount) or higher (premium) than the NAV per share. The discount or premium is normally expressed as a percentage of the NAV per share.

Gearing

The gearing percentage reflects the amount of borrowings (i.e. bank loans or overdrafts) the Company has used to invest in the market. This represents borrowings used for investment purposes, less cash, expressed as a percentage of net assets. If the figure so calculated is negative, this is shown as a "net cash" position.

Leverage

For the purpose of the Alternative Investment Fund Managers (AIFM) Directive, leverage is any method which increases the Company's exposure, including the borrowing of cash and the use of derivatives. It is expressed as the ratio of the Company's exposure to its net asset value and is required to be calculated both on a "Gross" and a "Commitment" method. Under the Gross method, exposure represents the sum of the absolute values of all positions, so as to give an indication of overall exposure. Under the Commitment method, exposure is calculated in a similar way, but after netting off hedges which satisfy certain strict criteria.

Ongoing Charges

Ongoing Charges represent the management fee and all other operating expenses excluding finance costs and transaction costs, expressed as a percentage of the average daily net asset values during the year.

Shareholder Information

Webpages and share price information

The Company has dedicated webpages, which may be found at www.schroders.co.uk/japangrowth. The webpages have been designed to be utilised as the Company's primary method of electronic communication with shareholders. It contains details of the Company's ordinary share price and copies of Report and Accounts and other documents published by the Company as well as information on the Directors, Terms of Reference of Committees and other governance arrangements. In addition, the webpages contain links to announcements made by the Company to the market, Equiniti's shareview service and Schroders' website. There is also a section entitled "How to Invest".

The Company releases its NAV on both a cum and ex-income basis to the market on a daily basis.

Share price information may also be found in the Financial Times and on the Company's webpages.

Association of Investment Companies

The Company is a member of the Association of Investment Companies. Further information on the Association can be found on its website, www.theaic.co.uk.

Individual Saving Account ("ISA") status

The Company's shares are eligible for stocks and shares ISAs.

Non-Mainstream Pooled Investments status

The Company currently conducts its affairs so that its shares can be recommended by IFAs to ordinary retail investors in accordance with the FCA's rules in relation to non-mainstream investment products and intends to continue to do so for the foreseeable future. The Company's shares are excluded from the FCA's restrictions which apply to non-mainstream investment products because they are shares in an investment

Alternative Investment Fund Managers ("AIFM") Directive

Certain pre-sale, regular and periodic disclosures required by the AIFM Directive may be found either in this Annual Report or on the Company's webpages.

The Company's leverage policy and details of limits on leverage required under the AIFM Directive are published on the Company's webpages.

Leverage

The Company's leverage policy and details of its leverage ratio calculation and exposure limits as required by the AIFM Directive are published on the Company's webpages and within this report. The Company is also required to publish periodically its actual leverage exposures. As at 31 August 2018 these were:

Leverage exposure	Maximum ratio	Actual ratio
Gross method	2.0	1.3
Commitment method	2.0	1.3

Illiquid assets

As at the date of this Report, none of the Company's assets are subject to special arrangements arising from their illiquid nature.

Remuneration disclosures

Quantitative remuneration disclosures to be made in this annual report in accordance with FCA Handbook rule FUND3.3.5 may also be found in the Company's AIFM Directive information disclosure document published on the Company's webpages.

Publication of Key Information Document ("KID") by the AIFM

Pursuant to the Packaged Retail and Insurance Based Products ("PRIIPs") Regulation, the Manager, as the Company's AIFM, is required to publish a short KID on the Company. KIDs are designed to provide certain prescribed information to retail investors, including details of potential returns under different performance scenarios and a risk/reward indicator. The Company's KID is available on its webpages.
