

Dar Al-Arkan Sukuk Company Ltd.
(incorporated in the Cayman Islands with limited liability)

U.S.\$2,500,000,000

Trust Certificate Issuance Programme

Under the U.S.\$2,500,000,000 trust certificate issuance programme described in this Base Prospectus (the **Programme**), Dar Al-Arkan Sukuk Company Ltd. (in its capacities as issuer and as trustee, the **Trustee**), subject to compliance with all applicable laws, regulations and directives, may from time to time issue trust certificates (the **Certificates**) in any currency agreed between the Trustee and the relevant Dealer (as defined below).

Certificates may only be issued in registered form. The maximum aggregate face amount of all Certificates from time to time outstanding under the Programme will not exceed U.S.\$2,500,000,000 (or its equivalent in other currencies calculated as described in the Programme Agreement described herein), subject to increase as described herein.

Each Series (as defined herein) of Certificates issued under the Programme will be constituted by (i) an amended and restated master trust deed (the **Master Trust Deed**) dated 11 June 2025 entered into between the Trustee, Dar Al-Arkan Real Estate Development Company (**Dar Al-Arkan**) and HSBC Bank plc as delegate of the Trustee (the **Delegate**, which expression shall include any co-Delegate or any successor) and (ii) a supplemental trust deed (the **Supplemental Trust Deed**) and, together with the Master Trust Deed, each a **Trust Deed**) in relation to the relevant Series. Pursuant to the relevant Trust Deed, the Trustee will declare a trust (the **Trust**) over, *inter alia*, all of its rights, title, interest and benefit, present and future, in, to and under the relevant Lease Assets (as defined herein), and the Certificates of the relevant Series will confer on the holders of those Certificates from time to time (the **Certificateholders**) the right to receive payments (as more particularly described herein) arising from the relevant Trust Assets (as defined herein).

The Certificates may be issued on a continuing basis to one or more of the Dealers (each a **Dealer** and together the **Dealers**) specified under "Overview of the Programme" and any additional Dealer appointed under the Programme from time to time by the Trustee and Dar Al-Arkan, which appointment may be for a specific issue or on an ongoing basis. References in this Base Prospectus to the relevant Dealer shall, in the case of an issue of Certificates being (or intended to be) subscribed by more than one Dealer, be to all Dealers agreeing to subscribe for such Certificates.

The Certificates will be limited recourse obligations of the Trustee. An investment in Certificates issued under the Programme involves certain risks. For a discussion of these risks, see "Risk Factors".

This Base Prospectus has been approved as a base prospectus by the Financial Conduct Authority (the **FCA**) as competent authority under Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (**EUWA**) (the **UK Prospectus Regulation**). The FCA only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the UK Prospectus Regulation. Such approval by the FCA should not be considered as an endorsement of the Trustee or Dar Al-Arkan or of the quality of the Certificates that are the subject of this Base Prospectus. Investors should make their own assessment as to the suitability of investing in the Certificates.

Application has been made to the FCA for Certificates (other than Exempt Certificates (as defined below)) issued under the Programme during the period of 12 months from the date of this Base Prospectus to be admitted to the official list of the FCA (the **Official List**) and to the London Stock Exchange plc (the **London Stock Exchange**) for such Certificates to be admitted to trading on the London Stock Exchange's main market.

References in this Base Prospectus to Certificates being **listed** (and all related references) shall mean that such Certificates have been admitted to the Official List and admitted to trading on the London Stock Exchange's main market. The London Stock Exchange's main market is a United Kingdom (**UK**) regulated market for the purposes of Regulation (EU) No 600/2014 on markets in financial instruments as it forms part of domestic law by virtue of the EUWA (**UK MiFIR**).

This Base Prospectus (as supplemented as at the relevant time, if applicable) is valid for 12 months from its date in relation to Certificates which are to be admitted to trading on a regulated market in the UK. The obligation to supplement this Base Prospectus in the event of a significant new factor, material mistake or material inaccuracy does not apply when this Base Prospectus is no longer valid.

Notice of the aggregate face amount of Certificates and any other terms and conditions not contained herein which are applicable to each Series will be set out in a final terms document (the **applicable Final Terms**) which, with respect to Certificates to be listed on the London Stock Exchange, will be delivered to the FCA and the London Stock Exchange on or around the date of issue of such Series. In the case of Exempt Certificates, the notice of the aggregate face amount of such Exempt Certificates and certain other information which is applicable to each Series will be set out in a pricing supplement document (the applicable **Pricing Supplement**). Accordingly, in the case of Exempt Certificates, each reference in this Base Prospectus to the applicable Final Terms shall be read and construed as a reference to the applicable Pricing Supplement, unless the context requires otherwise.

The requirement to publish a prospectus under the Financial Services and Markets Act 2000, as amended (the FSMA) and the UK Prospectus Regulation only applies to Certificates which are to be admitted to trading on a UK regulated market as defined in UK MiFIR and/or offered to the public in the UK other than in circumstances where an exemption is available under section 86 of the FSMA and the UK Prospectus Regulation.

References in this Base Prospectus to Exempt Certificates are to Certificates for which no prospectus is required to be published under the FSMA and the UK Prospectus Regulation. Information contained in this Base Prospectus regarding Exempt Certificates and any Pricing Supplement relating thereto shall not be deemed to form part of this Base Prospectus. The FCA has neither reviewed nor approved any information contained in this Base Prospectus in relation to the Exempt Certificates and any Exempt Certificates issued pursuant to a Pricing Supplement will not be compliant with the UK Prospectus Regulation.

For the purposes of any Exempt Certificates issued pursuant to this Programme, this document does not constitute a base prospectus for the purposes of the FSMA or the UK Prospectus Regulation.

The Certificates will be delisted from the Official List and/or such other or further stock exchanges or markets on which the Certificates have been admitted to listing following the occurrence of either: (i) a Tangibility Event, see Condition 11.6; or (ii) a Total Loss Event or (subject to certain conditions set out herein) a Partial Loss Event (each as defined herein) (see Condition 11.8).

The Trustee and Dar Al-Arkan may agree with any Dealer that Certificates may be issued with terms and conditions not contemplated by the Terms and Conditions of the Certificates herein, in which event a supplemental Base Prospectus, if appropriate, will be made available which will describe the effect of the agreement reached in relation to such Certificates.

The Certificates have not been nor will be registered under the U.S. Securities Act of 1933, as amended (the **Securities Act**), or with any securities regulatory authority of any state or other jurisdiction of the United States, and the Certificates may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act (**Regulation S**)) except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act. Accordingly, Certificates may be offered or sold solely to persons who are not U.S. persons (as defined in Regulation S) outside the United States in reliance on Regulation S. Each purchaser of the Certificates is hereby notified that the offer and sale of Certificates to it is being made in reliance on the exemption from the registration requirements of the Securities Act provided by Regulation S.

Dar Al-Arkan has been rated B1 by Moody's Investors Service Limited (**Moody's**). The Programme is expected to be rated B1 by Moody's.

Moody's is established in the UK and is registered under Regulation (EC) No. 1060/2009 as it forms part of domestic law by virtue of the EUWA (the **UK CRA Regulation**). Moody's is not established in the European Economic Area (the **EEA**) and has not applied for registration under Regulation (EC) No. 1060/2009 (as amended) (the **CRA Regulation**). Accordingly, the ratings issued by Moody's have been endorsed by Moody's Deutschland GmbH in accordance with the CRA Regulation and have not been withdrawn. Moody's Deutschland GmbH is established in the EEA and registered under the CRA Regulation. As such, Moody's

Deutschland GmbH is included in the list of credit rating agencies published by the European Securities and Markets Authority (**ESMA**) on its website (<https://www.esma.europa.eu/credit-rating-agencies/cra-authorisation>) in accordance with the CRA Regulation.

Where a Series of Certificates is rated, such rating will be specified in the applicable Final Terms. A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

The transaction structure relating to the Certificates (as described in this Base Prospectus) has been approved by the Internal Sharia Supervision Committee of Emirates NBD – Islamic, the *Shari'a* advisers of J.P. Morgan and the Global Shariah Supervisory Committee of Standard Chartered Bank as, in their view, complying with the *Shari'a* principles as applicable to, and interpreted by, them. Prospective Certificateholders should not rely on the approvals referred to above in deciding whether to make an investment in the Certificates and should consult their own *Shari'a* advisers as to whether the proposed transaction described in the approvals referred to above, including the tradability of the Certificates in the secondary market, is in compliance with *Shari'a* principles (including without limitation, their individual standards of compliance relating thereto). Prospective Certificateholders are reminded that, as with any *Shari'a* views, differences in opinion are possible and different *Shari'a* standards may be applied by different *Shari'a* advisers.

Amounts payable on floating rate Certificates will be calculated by reference to one of EURIBOR or SAIBOR as specified in the applicable Final Terms. As at the date of this Base Prospectus, the administrators of EURIBOR and SAIBOR are included in the FCA's register of administrators under Article 36 of Regulation (EU) 2016/1011 as it forms part of domestic law by virtue of the EUWA (the **UK Benchmarks Regulation**).

The date of this Base Prospectus is 11 June 2025.

This Base Prospectus comprises a base prospectus in respect of all Certificates other than Exempt Certificates issued under the Programme for the purposes of Article 8 of the UK Prospectus Regulation.

Each of the Trustee and Dar Al-Arkan accepts responsibility for the information contained in this Base Prospectus. To the best of the knowledge of each of the Trustee and Dar Al-Arkan the information contained in this Base Prospectus is in accordance with the facts and the Base Prospectus makes no omission likely to affect its import.

This Base Prospectus should be read and construed together with any amendments or supplements hereto and, in relation to any Series of Certificates, should be read and construed together with the applicable Final Terms.

Subject as provided in the applicable Final Terms, the only persons authorised to use this Base Prospectus in connection with an offer of Certificates are the relevant Dealer or the Managers, as the case may be, appointed as such for those Certificates.

Copies of Final Terms and Pricing Supplements will be available from the registered office of the Trustee and the specified office set out below of the Principal Paying Agent (as defined below) save that, if the relevant Certificates are neither admitted to trading on a UK regulated market as defined in UK MiFIR nor offered in the United Kingdom in circumstances where a prospectus is required to be published under the FSMA and the UK Prospectus Regulation, the applicable Pricing Supplement will only be obtainable by a Certificateholder holding one or more Certificates and such Certificateholder must produce evidence satisfactory to the Trustee or, as the case may be, the Principal Paying Agent as to its holding of such Certificates and identity.

No person is or has been authorised by the Trustee or Dar Al-Arkan to give any information or to make any representation not contained in or not consistent with this Base Prospectus in connection with the Programme or the Certificates and, if given or made, such information or representation must not be relied upon as having been authorised by the Trustee, Dar Al-Arkan, the Dealers, the Delegate, the Agents (each as defined herein) or any other person. Neither the delivery of this document nor any sale of any Certificates shall, under any circumstances, constitute a representation or create any implication that the information contained herein is correct as of any time subsequent to the date hereof or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date indicated in the document containing the same. The Dealers, the Delegate and the Agents expressly do not undertake to review the financial condition or affairs of the Trustee, Dar Al-Arkan or Dar Al-Arkan and its consolidated subsidiaries (together, the **Group**) at any point, including during the life of the Programme, or to advise any investor in Certificates issued under the Programme of any information coming to their attention.

The Group's real estate portfolio has not been, and will not be, subject to any valuation process in connection with the issue of any Certificates under the Programme as described in this Base Prospectus. Accordingly, none of the Trustee, the Dealers, the Delegate or any of the Agents expresses any opinion on the valuation of the Group's real estate portfolio, or any part thereof, or as to the identity of the valuers thereof, as at the date of this Base Prospectus or any other date. In particular, none of the Trustee, the Dealers, the Delegate or any of the Agents has performed any investigation into the Group's title to its real estate portfolio, or any part thereof. Similarly, no such party has conducted any investigation into the circumstances of any valuation conducted by any other party in respect of such portfolio, or any part thereof, in connection with the preparation of this Base Prospectus (whether for the purposes of the preparation of Dar Al-Arkan's consolidated financial statements or otherwise), and no such party will conduct any such investigation at any time after the date hereof. The Trustee, the Dealers, the Delegate and the Agents therefore make no representation or give any other assurance as to any such matters.

Other than in relation to the documents which are deemed to be incorporated by reference (see "*Documents Incorporated by Reference*"), the information on the websites to which this Base Prospectus refers does not form part of this Base Prospectus and has not been scrutinised or approved by the FCA.

None of the Trustee, the Dealers, the Delegate, the Agents or any of their respective affiliates has independently verified the information contained herein. Accordingly, no representation, warranty or undertaking, express or implied, is made and no responsibility or liability is accepted by any of them as to the accuracy, adequacy, reasonableness or completeness of the information contained in this Base Prospectus or any other information provided by the Trustee or Dar Al-Arkan in connection with the Programme. None of the Dealers, the Delegate or any of the Agents or any of their respective affiliates accepts any responsibility for any act or omission of the Trustee, Dar Al-Arkan or any other person in connection with this Base Prospectus or the issue and offering of any Certificates.

Neither this Base Prospectus nor any other information supplied in connection with the Programme or any Certificates is (i) intended to provide the basis of any credit or other evaluation or (ii) should be considered as a recommendation by the Trustee, Dar Al-Arkan, the Dealers, the Delegate or the Agents that any recipient of this Base Prospectus should purchase any Certificates. Each investor contemplating purchasing any Certificates should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Trustee, Dar Al-Arkan and the Group. None of the Trustee, the Dealers, the Delegate or the Agents accepts any liability in relation to the information contained in this Base Prospectus or any other information provided by the Trustee and Dar Al-Arkan in connection with the Programme.

The Certificates of any Series may not be a suitable investment for all investors. Each prospective investor in Certificates must determine the suitability of that investment in light of its own circumstances. In particular, each prospective investor should:

- (a) have sufficient knowledge and experience to make a meaningful evaluation of the relevant Certificates, the merits and risks of investing in the relevant Certificates and the information contained in this Base Prospectus;
- (b) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the relevant Certificates and the impact the relevant Certificates will have on its overall investment portfolio;
- (c) have sufficient financial resources and liquidity to bear all of the risks of an investment in the relevant Certificates, including where the currency of payment is different from the prospective investor's currency;
- (d) understand thoroughly the terms of the relevant Certificates and be familiar with the behaviour of any relevant indices and financial markets;
- (e) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic and other factors that may affect its investment and its ability to bear the applicable risks; and
- (f) be able to evaluate the compliance of the Certificates with *Shari'a* principles (including, without limitation, their individual standards of compliance relating thereto).

Some Certificates are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A prospective investor should not invest in Certificates which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Certificates will perform under changing conditions, the resulting effects on the value of the Certificates and the impact this investment will have on the prospective investor's overall investment portfolio.

The investment activities of certain investors are subject to investment laws and regulations, or review or regulation by certain authorities. Each prospective investor should consult its legal advisers to determine whether and to what extent (1) Certificates are legal investments for it, (2) Certificates can be used as collateral for various types of financing and (3) other restrictions apply to its purchase or pledge of any Certificates. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Certificates under any applicable risk-based capital or similar rules.

No comment is made or advice given by the Trustee, Dar Al-Arkan, the Dealers, the Delegate or the Agents or any of their respective affiliates in respect of taxation matters relating to any Certificates or the legality of the purchase of the Certificates by an investor under any applicable law.

EACH PROSPECTIVE INVESTOR IS ADVISED TO CONSULT ITS OWN TAX ADVISER, SHARI'A ADVISER, LEGAL ADVISER AND BUSINESS ADVISER AS TO TAX, LEGAL, BUSINESS, SHARI'A AND RELATED MATTERS CONCERNING THE PURCHASE OF ANY CERTIFICATES.

This Base Prospectus does not constitute an offer to sell or the solicitation of an offer to buy any Certificates in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Base Prospectus and the offer or sale of Certificates may be restricted by law in certain jurisdictions. None of the Trustee, Dar Al-Arkan, the Dealers, the Delegate or the Agents represents that this Base Prospectus may be lawfully distributed, or that any Certificates may be lawfully offered, in compliance with any

applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assumes any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by the Trustee, Dar Al-Arkan, the Dealers, the Delegate or the Agents which is intended to permit a public offering of any Certificates or distribution of this Base Prospectus in any jurisdiction where action for that purpose is required. Accordingly, no Certificates may be offered or sold, directly or indirectly, and neither this Base Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Base Prospectus or any Certificates may come must inform themselves about, and observe, any such restrictions on the distribution of this Base Prospectus and the offering and sale of the Certificates. In particular, there are restrictions on the distribution of this Base Prospectus and the offer or sale of Certificates in the United States, the EEA, the UK, the Cayman Islands, Japan, the Kingdom of Saudi Arabia (the **Kingdom**), the United Arab Emirates (excluding the Abu Dhabi Global Market and the Dubai International Financial Centre), the Abu Dhabi Global Market, the Dubai International Financial Centre, the Kingdom of Bahrain, the State of Qatar (including the Qatar Financial Centre), Singapore, Hong Kong and Malaysia, see "*Subscription and Sale*".

None of the Dealers, the Trustee, Dar Al-Arkan, the Delegate or any of the Agents makes any representation to any investor in the Certificates regarding the legality of its investment under any applicable laws. Any investor in the Certificates should be able to bear the economic risk of an investment in the Certificates for an indefinite period of time.

In this Base Prospectus, unless the contrary intention appears a reference to a law or a provision of a law is a reference to that law or provision as extended, amended or re-enacted.

Any non-*Shari'a* compliant terminology used in this Base Prospectus describes the business, operations and/or financial condition of Dar Al-Arkan and falls outside the scope of the Certificates and the Transaction Documents and accordingly, does not impact the *Shari'a* compliant nature of the Certificates or the Transaction Documents.

In this Base Prospectus, certain information regarding the Kingdom, the Kingdom's real estate industry and other data regarding the market segment in which Dar Al-Arkan operates have been extracted or derived from data and analysis obtained from various publicly available third party sources and materials, each of which is identified in this Base Prospectus. Such information may be approximations or estimates or use rounded numbers. In addition, in some cases, rounding adjustments have been made to some of this information for consistency of presentation. Some data has been based on Dar Al-Arkan's estimates, which have been derived from a review of both internal and independent surveys. Such information, sources, and estimates are believed to be reliable, but have not been independently verified by the Trustee or Dar Al-Arkan or any of their respective advisers and no representation is made with respect to their accuracy or completeness. However, the Trustee and Dar Al-Arkan confirm that such information has been accurately reproduced in this Base Prospectus and that as far as the Trustee and Dar Al-Arkan are aware and able to ascertain from such information, no facts have been omitted which render the reproduced information inaccurate or misleading.

In addition, statements are made in this Base Prospectus regarding Dar Al-Arkan's competitive position in its industry based on the experience of Dar Al-Arkan's management and their assessment of market conditions. Industry and market data is subject to change and cannot always be verified with complete certainty due to limits on the availability and reliability of raw data, the voluntary nature of the data gathering process and other limitations and uncertainties inherent in any survey of market size. None of the publications, reports or other published industry sources referred to in this Base Prospectus were commissioned by the Trustee, Dar Al-Arkan, the Dealers, the Agents or the Delegate or prepared at their request.

All statistical information provided in that section may differ from that produced by other sources for a variety of reasons, including the use of different definitions and cut-off times. In this Base Prospectus, unless otherwise specified, references to **SAR**, **Saudi Riyal** and **Riyal** are to the lawful currency of the Kingdom and references to **U.S.\$** and **U.S. Dollar** are to the lawful currency of the United States of America. Certain Non-IFRS Financial Information

This Base Prospectus includes certain financial information which has not been prepared in accordance with IFRS Accounting Standards as endorsed in the KSA and which also constitutes alternative performance measures (**APMs**) as defined in the ESMA Guidelines on Alternative Performance Measures. In this Base Prospectus, this information comprises gross margin data which is presented as total gross profit (or gross profit for Sale of Development Properties, Sale of Residential Properties or Leasing of Properties, as applicable) for the relevant period as a percentage of total revenue from operations (or Sale of Development Properties revenue, Sale of Residential Properties revenue or Leasing of Properties revenue, as applicable) for the relevant period. None of this financial information is subject to any audit or review by independent auditors. However, Dar Al-Arkan believes that these measures provide useful supplementary information to both investors and Dar Al-Arkan's management, as they facilitate the evaluation of company performance. APMs are not measurements of Dar Al-Arkan's operating performance or liquidity under IFRS Accounting Standards and should not be used instead of, or considered as alternatives to, any measures of performance or liquidity under IFRS Accounting Standards. The APMs relate to the reporting periods described in this Base Prospectus and are not intended to be predictive of future results. It should be noted that, since not all companies calculate financial measurements in the same manner, these are not always comparable to measurements used by other companies. Accordingly, these financial

measures should not be seen as a substitute for measures defined according to IFRS Accounting Standards as endorsed in the KSA.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

Certain statements in this Base Prospectus constitute "forward looking statements". Such statements can generally be identified by their use of forward looking words such as "plans", "estimates", "believes", "expects", "may", "will", "should", "are expected", "would be", "anticipates" or the negative or other variations of such terms or comparable terminology. These forward looking statements reflect the current views of Dar Al-Arkan with respect to future events, and are not a guarantee of future performance. Many factors could cause the actual results, performance or achievements of Dar Al-Arkan to be significantly different from any future results, performance or achievements that may be expressed or implied by such forward looking statements. Should any one or more of the risks or uncertainties materialise or any underlying assumptions on which a forward looking statement is based prove to be inaccurate or incorrect, actual results may vary materially from those described in this Base Prospectus, as anticipated, believed, estimated, planned or expected.

Investors are therefore strongly advised to read the sections "*Risk Factors*", "*Business*" and "*Financial Review*", which include a more detailed description of the factors that might have an impact on Dar Al-Arkan's business and on the industry sector in which Dar Al-Arkan operates.

The actual financial state of Dar Al-Arkan and the value of any Certificates may be adversely affected by future developments in inflation, financing charges, taxation, calculation of zakat or other economic, political and other factors, over which the Trustee and Dar Al-Arkan have no control. None of the Trustee, Dar Al-Arkan, the Dealers, the Delegate or the Agents intend to update or otherwise revise any information or forward looking statements in this Base Prospectus, whether as a result of new information, future events or otherwise. As a result of these and other risks, uncertainties and assumptions, the forward looking events and circumstances discussed in this Base Prospectus might not occur in the way it is expected, or at all. Prospective investors should consider all forward looking statements in light of these explanations and should not place undue reliance on forward looking statements. Neither the delivery of this Base Prospectus nor any oral, written or printed interaction in relation to any Certificates is intended to be, or should be construed as or relied upon in any way as, a promise or representation as to future earnings, results or events.

VOLCKER RULE

The Volcker Rule, which became effective on 1 April 2014, but was subject to a conformance period for certain entities that concluded on 21 July 2015, generally prohibits "banking entities" (which is broadly defined to include U.S. banks and bank holding companies and many non-U.S. banking entities, together with their respective subsidiaries and other affiliates) from (i) engaging in proprietary trading, (ii) acquiring or retaining an ownership interest in or sponsoring a "covered fund", and (iii) entering into certain relationships with "covered funds". The general effects of the Volcker Rule remain uncertain; any prospective investor in the Certificates and any entity that is a "banking entity" as defined under the Volcker Rule which is considering an investment in the Certificates should consult its own legal advisors and consider the potential impact of the Volcker Rule in respect of such investment. If investment by "banking entities" in the Certificates is prohibited or restricted by the Volcker Rule, this could impair the marketability and liquidity of such Certificates. No assurance can be made as to the effect of the Volcker Rule on the ability of certain investors subject thereto to acquire or retain an interest in the Certificates, and accordingly none of the Trustee, Dar Al-Arkan, the Arrangers, the Delegate, the Agents or the Dealers, or any of their respective affiliates makes any representation regarding (a) the status of the Trustee under the Volcker Rule (including whether it is a "covered fund" for their purposes) or (b) the ability of any purchaser to acquire or hold the Certificates, now or at any time in the future.

NOTIFICATION UNDER SECTION 309B(1)(C) OF THE SECURITIES AND FUTURES ACT 2001 OF SINGAPORE, AS AMENDED OR MODIFIED FROM TIME TO TIME (THE SFA)

RISK FACTORS

The purchase of any Certificates may involve substantial risks and is suitable only for sophisticated investors who have the knowledge and experience in financial and business matters necessary to enable them to evaluate the risks and merits of an investment in the Certificates. Before making an investment decision, prospective purchasers of Certificates should consider carefully, in the light of their own financial circumstances and investment objectives, all of the information in this Base Prospectus.

Each of the Trustee and Dar Al-Arkan believes that the factors described below represent the principal risks inherent in investing in Certificates, but the inability of the Trustee to pay any amounts on or in connection with any Certificate may occur for other reasons and none of the Trustee or Dar Al-Arkan represents that the statements below regarding the risks of holding any Certificate are exhaustive. There may also be other considerations, including some which may not be presently known to the Trustee or Dar Al-Arkan or which the Trustee or Dar Al-Arkan currently deems immaterial, that may impact any investment in Certificates.

Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and reach their own views prior to making any investment decision.

Words and expressions defined elsewhere in this Base Prospectus shall have the same meanings in this section.

RISK FACTORS THAT MAY AFFECT THE TRUSTEE'S ABILITY TO FULFIL ITS OBLIGATIONS IN RESPECT OF CERTIFICATES ISSUED UNDER THE PROGRAMME

The Trustee was incorporated under the Companies Act (As Revised) of the Cayman Islands on 11 April 2013 as an exempted company with limited liability. The Trustee has not engaged, and will not engage in, any business activity other than the issuance of Certificates under the Programme, the acquisition of the Trust Assets as described herein, acting in the capacity as Trustee and other activities incidental or related to the foregoing as required under the Transaction Documents.

The Trustee's only material assets, in respect of each Series, which will be held on trust for the Certificateholders, will be the Trust Assets relating to such Series, including the obligation of Dar Al-Arkan to make payments to the Trustee under the relevant Transaction Documents. The ability of the Trustee to pay amounts due on the Certificates will primarily be dependent upon receipt by the Trustee from Dar Al-Arkan of all amounts due under the Transaction Documents to which it is a party (which in aggregate may not be sufficient to meet all claims under the relevant Certificates and the Transaction Documents in the event that Dar Al-Arkan does not fully perform its obligations thereunder). Therefore, the Trustee is subject to all the risks to which Dar Al-Arkan is subject to the extent that such risks could limit Dar Al-Arkan's ability to satisfy in full and on a timely basis its obligations under the Transaction Documents to which it is a party. See "*Risk Factors that may affect Dar Al-Arkan's ability to fulfil its obligations under the Transaction Documents to which it is a party*" above for a further description of these risks.

RISK FACTORS THAT MAY AFFECT DAR AL-ARKAN'S ABILITY TO FULFIL ITS OBLIGATIONS UNDER THE TRANSACTION DOCUMENTS TO WHICH IT IS A PARTY

A. OPERATIONAL RISKS RELATING TO DAR AL-ARKAN AND ITS BUSINESS

The risks described under this heading A. ("Operational risks relating to Dar Al-Arkan and its business") have been categorised as operational risks. Operational risks relate to losses resulting from inadequate or failed internal processes, people and systems, or due to external events which are beyond the control of Dar Al-Arkan. Should an operational risk materialise without effective prevention or mitigation controls it would have a high level of impact. Operational risks are managed through policy, standards, procedure-based controls, active prevention and monitoring. Operational risks could adversely affect Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects. This introductory paragraph in italicised text forms part of the risk factors in this section but is not a risk factor itself.

Further context on Dar Al-Arkan's operational risks is set out below:

Dar Al-Arkan may not complete development projects that are currently under construction or in initial stages of development in the anticipated timeframe or at all

Completion of Dar Al-Arkan's current and planned development projects is subject to a number of risks, including uncertainties as to market demand or a reduction in market demand after construction has begun, delays or refusals in obtaining all necessary building, occupancy and other required governmental and regulatory permits and authorisations, a requirement to make significant current capital expenditures for certain properties while receiving revenue from these properties over future periods, resulting in possible mismatches between expenditure and income and the possible shortage of available cash to fund construction and capital improvements and the related possibility that financing for these capital improvements may not be available to Dar Al-Arkan on suitable terms or at all, each of which may result in certain of Dar Al-Arkan's projects not being profitable and hence halted or replanned for other uses.

There can be no assurance that any or all of Dar Al-Arkan's current or future projects will be completed in the anticipated time frame or at all, and the inability to so complete a project could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

Although Dar Al-Arkan does not act as a contractor itself, its projects are exposed to a number of construction risks, including delays in obtaining all, or refusals of any, necessary zoning, land use, building, development, occupancy and other required governmental permits, licences, approvals and authorisations (including due to regulatory frameworks introduced in recent years), unforeseen engineering, environmental or geological problems, Dar Al-Arkan's inability to obtain necessary financing arrangements on acceptable terms, or at all, and otherwise fund construction and capital improvements, default or failure, for any reason, by Dar Al-Arkan's contractors to finish projects on time and within budget, financial difficulties, defaults and insolvencies encountered by Dar Al-Arkan's contractors and subcontractors, which is a risk that may be increased in the current inflationary climate, an inability to find a suitable contractor either at the commencement of a project or following a default by an appointed contractor, whether on favourable terms or at all. In the situation where an appointed contractor defaults and Dar Al-Arkan needs to find a replacement contractor, even if Dar Al-Arkan were able to find such a replacement in a timely manner, it is likely that the cost to Dar Al-Arkan would increase given that any new contractor would need time to familiarise itself with the ongoing project, which in turn would cause further delays to the completion of the project, disruption in service and access to third parties, defective materials or building methods, disputes between contractors and/or subcontractors and their employees, shortages of, or defective, materials and/or equipment (including, in particular, cranes), labour and/or other necessary supplies (due to rising commodity prices or inflation or otherwise), adverse weather conditions, natural disasters, labour disputes, disputes with subcontractors, accidents, changes in governmental priorities and other unforeseen circumstances and escalating costs of construction materials driven by ongoing logistical issues, trade policy uncertainty, inflationary pressures and energy price volatility. These factors, coupled with geopolitical uncertainties, may lead to higher costs for commodities in the construction industry including goods throughout the construction supply chain.

Whilst the above risks apply in respect of Dar Al-Arkan's construction projects at any time, the risk of these events occurring has been heightened in recent years by significant macroeconomic events, such as the global economic downturn in 2020 caused by the spread of the coronavirus disease (**COVID-19**), subsequent supply chain disruptions, labour shortages, as well as armed conflict and terrorist threats in the MENA region. Such events can disrupt supply chains, inflate project costs, and cause delays to completion timelines (see "*Continued instability and unrest in the countries in which Dar Al-Arkan operates, or the escalation of conflict, may materially and adversely affect Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects*" and also "*Dar Al-Arkan's business operations are subject to general risks related to the Kingdom and the Middle East*") – any of these factors, either alone or in combination, in turn, may have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

The total estimated costs of Dar Al-Arkan's development projects may be subject to unanticipated increases

The total estimated costs of Dar Al-Arkan's development projects could increase unexpectedly due to a number of factors, including increases in the cost of construction materials and/or labour where Dar Al-Arkan has not entered into a fixed price contract with its contractor, defects in construction materials, discovery of defects in the land, shortages of project managers, contractors and construction specialists, both internally and externally, to

ensure that planned projects are delivered both on time and on budget, strikes and work stoppages or other labour disputes or disturbances affecting Dar Al-Arkan's projects, contractors, subcontractors or suppliers, design or construction defects and otherwise failing to complete projects according to design specification, changes or modifications in the design of the project based on market demand or regulatory requirements, changes in demand trends due to, among other things, a shift in buyer preferences, a downturn in the economy, a change in the surrounding environment of the project, including the location or operation of transportation hubs or population density or otherwise, failure of contractors, subcontractors or other third parties to perform their obligations adequately and/or on time, contractors, subcontractors or other third parties seeking to renegotiate their agreements and government authorities applying additional requirements on development of projects. Additionally, supply shortages, supply chain problems and import/export controls could trigger certain constraints in supply. In the event of such disruption, there could be project delays, and such delays could negatively impact the business, profitability and results of operations.

In recent years, the real estate industry in the Kingdom has, in particular, experienced increases in the costs of construction materials and labour. The price of construction materials has fluctuated considerably in recent years, due to a range of factors including supply chain and trade policy related disruptions, labour shortages, heightened levels of military conflict and tension in the region and globally (see also "*Continued instability and unrest in the countries in which Dar Al-Arkan operates, or the escalation of conflict, may materially and adversely affect Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects*"), exchange rate variations and inflation. In addition, the cost of labour has increased due to increased levels of real estate development in the Kingdom. As a result, more recent contracts entered into by Dar Al-Arkan reflect this higher cost environment. There can be no assurance that these costs will not continue to increase or that Dar Al-Arkan will be able to reflect such costs increases in its sale or rental prices or that such sale or rental prices will be sufficient to allow Dar Al-Arkan to recover its costs for affected development projects. In addition, in relation to its existing contracts, although Dar Al-Arkan typically enters into fixed price contracts with its contractors, it may, from time to time, agree to increases in the contract price where costs have increased materially since the price was agreed. Any of the factors referred to above could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

Dar Al-Arkan depends on the ability of its contractors and subcontractors to complete projects on schedule and to maintain a consistent standard of quality

Dar Al-Arkan relies on the ability of its contractors and subcontractors to construct its development projects, who in turn rely on suppliers of construction materials. While Dar Al-Arkan has historically had access to experienced subcontractors, there can be no guarantee that it will continue to have such access in the future, or that the costs associated with hiring experienced subcontractors will not increase due to higher levels of competition for their services or otherwise. Any new subcontractor may need time to familiarise itself with the ongoing project, causing further delays in project completion. Dar Al-Arkan may also be exposed to the risk that the alternative subcontractor fails to meet its high standards for workmanship and quality. The ability of contractors and subcontractors to perform their obligations is subject to numerous factors which are beyond the control of Dar Al-Arkan, such as the insolvency of such contractors or subcontractors, their ability to hire adequate labour and to otherwise manage their own businesses efficiently. In addition, the ability of suppliers of construction materials to perform their obligations is subject to periodic shortages and price volatility in raw materials. A failure to complete projects on time or to maintain a consistent standard of quality may lead to difficulties in marketing Dar Al-Arkan's products, rescissions of sales or rental contracts and increased liabilities pursuant to customer warranty claims, each of which could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

Dar Al-Arkan's operations may be subject to delays due to the inability of utility and infrastructure providers to provide services and connections to Dar Al-Arkan's developments at the required levels and within the specified project delivery time

Access to some of Dar Al-Arkan's projects is dependent on the completion of connecting infrastructure, such as roads connecting a project with the city and the main regional road network and utilities for which third parties are responsible. There can be no assurance that material delays in delivering Dar Al-Arkan's projects will not occur in the future as a result of delays in the connection of infrastructure. As a result, Dar Al-Arkan's current projects may be delayed and future projects may be hindered due to the inability of utility providers to provide

the required levels of water and power generation and connections for the utilities in a timely manner. In addition, a breakdown in Dar Al-Arkan's relationships with third party utility and infrastructure providers could cause further delays. Any delays in Dar Al-Arkan's projects, even if beyond Dar Al-Arkan's control, may adversely affect its brand and reputation which in turn could materially adversely affect its business, results of operations, cash flows and financial condition and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

Successful development or sale of undeveloped land is dependent on the success of adjacent projects

Dar Al-Arkan owns undeveloped land areas adjacent to either established projects or projects under construction, which Dar Al-Arkan intends to develop or sell later at higher prices. The success of such strategy depends on the success of these projects adjacent to such undeveloped land. In the event that such projects are not successful or do not increase the desirability of the area as a whole, this could adversely affect the anticipated profit margin on such land or the ability of Dar Al-Arkan to develop or sell land, which may adversely impact Dar Al-Arkan's business, financial position, cash flows and results of operations and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

Significant future acquisitions by Dar Al-Arkan could prove to be costly in terms of its time and resources and may impose post-acquisition integration risks

On 16 February 2025, Dar Al-Arkan, in partnership with Kezi Al Arabia Company and a group of investors, secured a major real estate deal valued at SAR 4.46 billion (U.S.\$1.19 billion) during the largest real estate auction held in the Kingdom in 2025. The acquired land spans 1,000,000 square metres and is located in Jeddah. Such an acquisition, together with any other significant acquisitions that Dar Al-Arkan may make in the future, could expose Dar Al-Arkan to numerous risks, including the diversion of management attention and financial resources that would otherwise be available for the ongoing development or expansion of existing operations; unexpected losses of key employees, customers and suppliers of the acquired operations; difficulties in integrating the financial, technological and management standards, processes, procedures and controls of the acquired business with those of Dar Al-Arkan's existing operations; and difficulties in obtaining any financing necessary to support the growth of the acquired businesses. If Dar Al-Arkan is unable to successfully meet the challenges associated with any significant acquisitions it may make, this could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects, and could therefore affect the ability of Dar Al-Arkan to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

Dar Al-Arkan may not be successful in implementing its growth and expansion strategy

In order to complement its existing business segments and reduce reliance on its real estate developments and business in the Kingdom, Dar Al-Arkan has, in recent years, pursued international expansion through its associate company, Dar Global PLC. This strategic move began with the launch of its first international real estate project, "Urban Oasis by Missoni" (previously known as the "I Love Florence Tower") in Dubai, the United Arab Emirates (the **UAE**), in December 2017. Since 2020, this global expansion has continued with the initiation of several international projects, including:

- the "Da Vinci Tower", "W Residences" and "DG 1" residential projects in Dubai, UAE;
- the "Astera" residential project in Ras Al Khaimah, UAE;
- the "Neptune" in Riyadh and "Trump Tower" projects in Jeddah, the Kingdom;
- the mixed-use residential project of "Aida" in Oman;
- the mixed-use residential project of "Les Vagues" in Qatar;
- the "Sidra" gated community located close to Sarajevo, Bosnia and Herzegovina (**Bosnia**) which is the largest single real estate development project in the country;
- the "Tierra Viva", "Tabano" and "Marea – Finca Cortesin" in Spain; and

- four residential projects in London, United Kingdom, namely, "8min-to-London", "Oh So Close", "The Mulliner", and "Albert Hall Mansion".

The above projects are all held by Dar Global PLC, an entity classified as an associate which the Group holds an 88 per cent. equity interest in (see "*Business—Dar Al-Arkan's Business Segments—Investments—Dar Global PLC*"). Entering into new geographical markets requires a significant diversion of resources and capital allocation, and therefore there can be no assurance that Dar Al-Arkan's international expansion strategy will diversify Dar Al-Arkan's revenue streams and generate sufficient income as intended. Any inability to successfully diversify its revenue streams and generate the intended levels of revenue from its growth and expansion strategy could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects, and could therefore affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

In addition to geographic expansion, Dar Al-Arkan has focused on expanding its technological capabilities and has completed the Kingdom's first 3D construction printed (3DCP) two-storey villa in 2022, which stands nearly 10 metres tall, within the Shams Al Riyadh residential development, considered as one of the largest ever 3D printed villas using concrete mix. This was then followed by the completion within just 26 working days of a second 3D printed villa, a 280-square metre, two-storey structure. After the completion of these first two villas using 3DCP, Dar Al-Arkan delivered one drive-through café and four accommodation pods using 3DCP in 2023, and in 2024 delivered several 3DCP projects to Saudi Aramco and Neom.

Dar Al-Arkan's ability to implement its growth strategy also effectively requires expansion of management information system capabilities and operational systems and controls. Growth, whether organic or by acquisition, requires significant allocation of capital and management resources, further development of Dar Al-Arkan's financial and internal controls and information technology systems, continued upgrading and streamlining of its risk management systems and additional training and recruitment of management and other key personnel. Dar Al-Arkan must also maintain a consistent level of customer service and current operations to avoid loss of business or damage to its reputation. There can be no assurance that Dar Al-Arkan will be able to sustain its current levels of growth in the future. Any failure to meet resource expansion requirements and any failure to properly manage its future growth more generally could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

Competition in the real estate industry may increase

Dar Al-Arkan faces competition from a number of local, national and international real estate developers. With respect to its residential and commercial projects, Dar Al-Arkan targets the middle-income segment of the real estate market and its primary competitors have historically been small and medium-sized developers operating in the Kingdom. However, the real estate sector in the Kingdom, where Dar Al-Arkan conducts the majority of its operations, is developing and Dar Al-Arkan may face competition from other property developers who may have greater expertise and financial, technical and marketing resources than the smaller developers with which Dar Al-Arkan has competed historically and such property developers may have greater expertise and resources than Dar Al-Arkan. Dar Al-Arkan's competitors in the Kingdom may lower their pricing or rental rates for properties which are comparable to those being sold or leased by Dar Al-Arkan, which may result in pressure on Dar Al-Arkan's pricing and rental rates. Similar competitive pressures also exist in the international markets in which Dar Al-Arkan operates most notably in Dubai where numerous large national and international developers operate. Such competition may affect Dar Al-Arkan's ability to sell land or completed properties at expected prices, if at all, or, in relation to investment properties, attract and retain tenants. Failure to compete effectively with such competitors could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

The due diligence process that Dar Al-Arkan undertakes in connection with new projects may not reveal all relevant facts

Dar Al-Arkan conducts due diligence and feasibility studies, sometimes with the assistance of outside consultants, by evaluating a number of important business, financial, tax, accounting, environmental and legal issues in determining whether or not to proceed with a new project. Nevertheless, when conducting due diligence and

making an assessment regarding a project, Dar Al-Arkan can only rely on resources available to it at the time, including information provided by third party investigations. In some cases, information cannot be verified by reference to the underlying sources to the same extent as Dar Al-Arkan could for information produced from its own internal sources. Dar Al-Arkan can offer no assurance that any due diligence investigation it carries out with respect to any project opportunity will reveal or highlight all relevant facts that may be necessary or helpful in evaluating such opportunity. Any failure by Dar Al-Arkan to identify relevant facts through the due diligence process may cause it to make inappropriate business decisions, and may expose it to significant liabilities which Dar Al-Arkan may not have been aware of, all of which could have a material and adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and therefore on Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

Real estate assets are inherently difficult to value

A small number of private organisations have begun to publish statistical and other research data with respect to real estate in the Kingdom. However, this data is not as complete or reliable as data and research prepared in more developed real estate markets, primarily due to limited access to information regarding real estate sales prices in the Kingdom and the relatively short period of time for which such data and research has been published. This relative lack of complete and reliable statistical and other data makes it more difficult to assess real estate values in the Kingdom than in other more developed real estate markets.

Real estate assets are also inherently difficult to value. As a result, valuations are subject to substantial uncertainty, are dated as of certain (historical) dates and are subjective judgements which are made on the basis of assumptions which may not be correct. The difficulties in valuing real estate assets, and the inherent limitations therein, apply to the valuations which Dar Al-Arkan undertakes internally or through third party valuers from time to time with respect to its real estate assets. There can be no assurance that the sale of any of Dar Al-Arkan's development land or completed properties will be at a price which reflects the most recent valuation of the relevant asset, particularly if Dar Al-Arkan was forced to sell properties prior to the completion of their development or in adverse economic conditions. Accordingly, investors should not rely on any property valuations set out, or referred to, in this Base Prospectus when deciding whether or not to invest in the Certificates and should note that, in accordance with IFRS Accounting Standards as endorsed in the KSA, all of Dar Al-Arkan's real estate assets are recorded in its financial statements at the lower of cost and net realisable value.

Dar Al-Arkan's completed properties are mainly commercial complexes and buildings which are rented to a range of related and third party tenants. Not all of Dar Al-Arkan's properties are currently fully leased and it is possible that Dar Al-Arkan will not be able to lease in full these or any other properties it develops. As a result, the value of these properties may decrease and Dar Al-Arkan's revenues and profitability may be adversely affected, which could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows and results of operations and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

Dar Al-Arkan's development projects could be subject to material physical damage due to natural disasters and other causes beyond Dar Al-Arkan's control

Dar Al-Arkan's development projects could be subject to material physical damage caused by fire, storms, earthquakes or other natural disasters, or by other causes such as terrorist attacks. Should any such event occur, Dar Al-Arkan could lose some or all of the capital it has invested in the development project as well as anticipated revenues from the sale or lease of units on such projects. Despite that, Dar Al-Arkan would also remain obligated to pay any debt or other financial obligations related to the development of the project. Although Dar Al-Arkan seeks to ensure that its projects and income-generating properties are appropriately insured against such risks, the occurrence of any of the above risks to Dar Al-Arkan's projects or properties could result in losses (including loss of rent) that may not be fully compensated by its existing insurance or for which insurance coverage may not be available on commercially attractive terms. Further, certain types of risks and losses (for example, losses resulting from terrorism, acts of war or certain natural disasters) are not economically insurable or generally insured. In addition, where Dar Al-Arkan experiences an insured-against event, it cannot be certain that the proceeds of insurance which it receives will fully cover its loss including, for example, in the case where a financing document provides that any insurance proceeds should be used to pay the financiers. Dar Al-Arkan's insurance policies may be subject to deductibles or exclusions that could materially reduce the amount that it recovers and, in certain circumstances, the policies could be void or voidable at the option of the insurer. In addition, Dar Al-Arkan's insurers may become insolvent and therefore not be able to satisfy any claim in full or at all.

Any of the above occurrences could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows and results of operations and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

Dar Al-Arkan relies on third parties for significant support of its operations

Dar Al-Arkan currently receives significant assistance with respect to the planning and development of its land development projects and residential and commercial projects from project consultants. In addition, SHL Finance Company (SHL), one of Dar Al-Arkan's affiliates, provides financing to purchasers of residential units on projects developed by Dar Al-Arkan in the Kingdom. Any delay or failure of these third parties in meeting their commitments to Dar Al-Arkan could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents which are necessary in order for the Trustee to pay the amounts due under the Certificates.

Dar Al-Arkan relies on certain key personnel to operate its business

Dar Al-Arkan relies on the efforts, diligence, skill, network of business contacts and close supervision of its senior management team and other key personnel for the implementation of its strategy and its day-to-day operations. As of the date of this Base Prospectus, Dar Al-Arkan has been successful in attracting appropriately qualified individuals to fill management roles. However, competition for appropriately qualified personnel with the relevant expertise in the real estate sector in the Kingdom is high. If one or more members of Dar Al-Arkan's senior management team or key personnel were to resign, the loss of such personnel could result in, among other things, a loss of organisational focus, poor execution of operations, and a failure or delay to achieve some or all of its business strategies and may require the diversion of management resources. In addition, Dar Al-Arkan's future success as it expands its scope of operations will depend, in part, on its ability to attract, retain and motivate qualified personnel. Failure to retain current key personnel or to attract and retain additional qualified personnel could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

Dar Al-Arkan could be subject to cyber-attacks which could significantly disrupt its business

In common with other major businesses based in the Kingdom, the wider GCC region and globally, the threat to the security of Dar Al-Arkan's information and customer data from security breaches and cyber-attacks presents a real and growing risk to its business. Activists, rogue states and cyber criminals are among those targeting information technology (IT) systems around the world. Risks to technology and cyber-security evolve and change rapidly and require continued focus, monitoring and investment in preventative measures. Given the increasing sophistication and scope of potential cyber-attacks, it is possible that future attacks may lead to significant breaches of security. A failure to adequately manage cyber-security risk and continually monitor, review and update current processes in response to new threats could have a number of adverse effects on Dar Al-Arkan, including disruption to its business, unauthorised disclosure of confidential information, significant financial and/or legal exposure and damage to its reputation, which could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

The IT systems that Dar Al-Arkan relies on to efficiently run its business could fail

Dar Al-Arkan relies on IT systems to help efficiently run its business. IT systems utilised by Dar Al-Arkan include applications of financial management (financial reports, accounting and treasury), supplies and management (administrative directives, procurement and stock control/management), human resources, production planning and project and project-related stock control/management (work in progress and completed units). Dar Al-Arkan cannot be certain that its IT systems will be able to support the volumes of online traffic it may experience. Although the Group maintains business continuity procedures and security measures in the event of IT failures or disruption, including backup IT systems for business critical systems, these procedures and measures may not anticipate, prevent or mitigate a network failure or disruption and will not protect against an incident to the extent that there is no alternative system or backed-up data in place. Any significant failure of Dar Al-Arkan's IT systems more generally could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows,

results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

B. FINANCIAL RISKS

The risks described under this heading B. ("Financial risks") have been categorised as financial risks. While all risks have a financial liability, financial risks are those which relate to financial controls and performance. Financial risks could adversely affect Dar Al-Arkan's business, results of operations and financial condition. This introductory paragraph in italicised text forms part of the risk factors in this section but is not a risk factor itself.

Further context on Dar Al-Arkan's financial risks is set out below:

Dar Al-Arkan's business requires substantial capital investment and there can be no assurance that necessary financing will be available

Dar Al-Arkan will require additional financing to fund capital expenditures and to support the future growth of its business. In particular, the relative lack of "off-plan" and "pre-finished" home sales in the Kingdom requires Dar Al-Arkan to rely to a certain extent on external financings through domestic and international banks and the capital markets to finance the development of its residential and commercial projects. Dar Al-Arkan's ability to obtain external financing and the cost of such financing are dependent on numerous factors, including general economic and capital markets conditions, credit ratings, financing costs, credit availability from banks or other lenders, the success of Dar Al-Arkan's business and tax and securities laws that may be applicable to capital raising activities. There can be no assurance that additional financing, either on a short-term or a long-term basis, will be made available or, if available, that such financing will be obtained on terms favourable to Dar Al-Arkan, including as a result of volatility in the credit or debt or equity capital markets, increases in interest and profit rates (see "*Dar Al-Arkan is exposed to interest and profit rate volatility and inflation*") or a decline in the value of Dar Al-Arkan's properties or other assets, which could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

Dar Al-Arkan's increasing focus on master-planned communities significantly increases its financial exposure and demands on its operational execution

If Dar Al-Arkan's master-planned communities do not generate expected levels of revenues, Dar Al-Arkan may have difficulty satisfying its obligations under its financing arrangements and funding capital expenditures for current or planned development projects. In addition, due to the complexity and scale of these large projects, Dar Al-Arkan may encounter difficulties managing their development in line with its quality standards and within expected timeframes and budgets. Furthermore, it may take longer than expected to sell or lease all of the units on such large projects. The occurrence of any of the above factors could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

Dar Al-Arkan is exposed to interest and profit rate volatility and inflation

Interest and profit rates are highly sensitive to factors beyond Dar Al-Arkan's control, including the interest and profit rate and other monetary policies of governments and central banks in the jurisdictions in which it operates, where its customers and potential customers are located and in whose currencies it borrows or obtains financing. From historically low levels in 2021, SAMA began to raise its interest and profit rates in line with the rate increases made by the US Federal Reserve to combat inflation, with the rate reaching a peak of 550 basis points in July 2023. The three-month SAIBOR rose accordingly, surpassing 6.0 per cent. and reaching its highest level in over a decade. The reverse repo rate has since decreased by 50 basis points in September 2024, a further 25 basis points in November 2024 and a further 25 basis points in December 2024, to a level of 450 basis points as of December 2024, in line with similar adjustments by the U.S. Federal Reserve following a slight easing in response to more stable inflation and a shift in global monetary policy. The three-month SAIBOR rate also eased slightly, ending 2024 at approximately 5.52 per cent., compared to 6.32 per cent. at the end of 2023.

With higher interest and profit rates, Dar Al-Arkan will be obliged to pay a higher rate of interest or profit, as applicable, on its debt which is not subject to a fixed rate of interest or profit or which is not sufficiently hedged.

Paying a higher rate of interest or profit on such debt would result in an increase in Dar Al-Arkan's cost of operations and may have a material adverse effect on its business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

Interest and profit rates may also impact the attractiveness of real estate as an investment opportunity. Generally, when interest and profit rates increase, an investment in, or the demand for, real estate becomes less attractive. This is due to a number of factors, including the attractiveness of real estate as an alternative to traditional financial investment products, and because potential purchasers of units in the projects which Dar Al-Arkan develops could be deterred due to the resulting increase in the cost of mortgage funding. Any of these factors could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

Inflation can also adversely affect Dar Al-Arkan's business, for example by increasing the cost for materials and labour, which it may not be able to subsequently pass on to its customers. In addition, inflation is, as described above, often accompanied by higher interest and profit rates, which could have a negative impact on demand for its properties amongst potential investors and customers, and Dar Al-Arkan's cost of funding its operations. Any further increase in inflation in the future in the markets in which Dar Al-Arkan operates could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

Dar Al-Arkan's revenue diversification strategy may not be successful

Historically, Dar Al-Arkan's business focused on buying and selling undeveloped land and planning and developing basic infrastructure for residential and commercial use, such as water, sewage, electricity and other utilities, as well as paved streets and sidewalks. In order to diversify Dar Al-Arkan's revenue streams, this initial focus has evolved during Dar Al-Arkan's history and now also involves the planning and developing of master communities, retaining residential and commercial properties for income generation purposes, as well as investing in companies that management believes are complementary to Dar Al-Arkan's real estate development operations. Dar Al-Arkan's current business model, through Dar Global PLC, involves a focus on international real estate development.

However, there can be no assurance that Dar Al-Arkan's revenue diversification strategy will be successful. For example, Dar Al-Arkan's international real estate development operations through Dar Global PLC, may not be successful due to the presence of other well-established real estate developers in the markets in which it operates outside the Kingdom (see "*Competition in the real estate industry may increase*"). Dar Al-Arkan's strategic investments are also subject to a number of risks. For example, there is no certainty that dividends from such investments will be paid or as to the amount of any dividends that are paid and, in the event that Dar Al-Arkan wished to reduce or divest its shareholding in such companies completely, monetising these investments could be a lengthy process and there is no certainty as to the price which would be obtainable.

Similarly, with respect to its property management business segment, there is no assurance that Dar Al-Arkan will be able to find suitable tenants on the terms and conditions it seeks, or at all. The financial stability of tenants may also change over time due to factors directly related to the tenants or the overall economy of the Kingdom, which could affect their ability to make lease payments. In addition, Dar Al-Arkan may also incur costs relating to retaining existing tenants and attracting new tenants, such as those relating to the renovation of properties to suit the needs of tenants. Any failure to find suitable tenants on the terms and conditions it seeks and to effectively manage rental properties could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

Dar Al-Arkan's off-plan sales may expose it to reputational risks and liabilities

Following the issuance of new regulations in January 2016 by the Ministry of Commerce permitting the sale of off-plan units in the Kingdom, Dar Al-Arkan launched the first phase of off-plan sales of units in the Shams Ar Riyadh development in May 2018, following which multiple subsequent phases were initially launched in 2020. The project was then put under regulatory embargo in 2022 but in the fourth quarter of 2024, the authorities lifted

the embargo, allowing project development to commence. Management intends to increase the proportion of off-plan sales completed by Dar Al-Arkan in the future to enable the business to utilise less internal cash as well as less project finance debt to finance projects. In addition to Shams Ar Riyadh, Dar Al-Arkan currently has two other projects consisting of off-plan sales, Etoile and Buraidah. However, the completion of a given project is dependent on a number of factors, including macroeconomic conditions, timely delivery on the part of contractors and subcontractors and the absence of any force majeure. If a project with pre-sale commitments from customers is delayed or cancelled, customers may bring civil claims against Dar Al-Arkan. In addition, if substantial parts of master-planned communities which contain amenities and conveniences such as retail areas, supermarkets, clinics and medical centres, schools and parks are delayed, cancelled or changed, customers who have acquired residential units in affected developments may not be able to enjoy the services or the overall environment which they may have expected when the project was originally launched. Delays in completion or cancellation of all or a portion of a project could also adversely affect Dar Al-Arkan's reputation and ability to attract future customers. Any of the foregoing factors could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

Dar Al-Arkan is subject to financial and restrictive covenants under its outstanding financing arrangements and any failure to comply with these covenants could result in the acceleration of payments and the loss of certain real estate assets

Dar Al-Arkan is subject to financial and restrictive covenants in certain of its outstanding financing arrangements. Furthermore, a portion of Dar Al-Arkan's financing arrangements contain cross-default and cross-acceleration provisions. Failure to comply with the covenants and other restrictions under any of the outstanding financing arrangements could result in events of default which could cause an acceleration of Dar Al-Arkan's payment obligations under the outstanding financing arrangements. If Dar Al-Arkan's payment obligations under the financing arrangements were to be accelerated, there can be no assurance that Dar Al-Arkan's assets and cash flow would be sufficient to pay in full all such payment obligations, or that Dar Al-Arkan would be able to obtain alternative financings, or if it were to obtain alternative financings, that they would be on terms that are favourable or acceptable to Dar Al-Arkan, which could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

For a more detailed discussion of Dar Al-Arkan's outstanding financing arrangements, see the section below entitled "*Financial Review—Borrowings*".

Dar Al-Arkan will be subject to a number of restrictive covenants under the Transaction Documents to which it is a party which may restrict its business and financing activities, and a failure to comply with these covenants could result in the acceleration of its payment obligations under such Transaction Documents and its previously issued Certificates and other outstanding financing arrangements

The Master Trust Deed includes a number of significant restrictive covenants. These covenants restrict, among other things, the ability of Dar Al-Arkan and its subsidiaries to incur additional indebtedness, pay dividends or make other distributions to shareholders, make certain investments, enter into arrangements that restrict dividends or other payments from subsidiaries, sell assets, including capital stock of subsidiaries, enter into transactions with affiliates, engage in different business activities, create liens on assets to secure debt, enter into sale and leaseback transactions and merge or consolidate with another company.

These restrictions may negatively affect Dar Al-Arkan's ability to react to changes in market conditions, take advantage of business opportunities that it believes to be desirable, obtain future financing, fund necessary capital expenditures or withstand a future downturn in its business. Furthermore, if Dar Al-Arkan and its subsidiaries are unable to comply with the covenants in the Master Trust Deed, it could result in a Dissolution Event under the Certificates of all Series outstanding at the relevant time which could cause an acceleration of Dar Al-Arkan's payment obligations under those Certificates and other outstanding financing arrangements. If Dar Al-Arkan's payment obligations under the Master Trust Deed or other financing arrangements were to be accelerated, there can be no assurance that Dar Al-Arkan's assets and cash flow would be sufficient to pay in full all such payment obligations, or that Dar Al-Arkan would be able to obtain alternative financing to fund such payment, or if it were to obtain alternative financing, that such financing would be on terms that are favourable or acceptable to Dar Al-Arkan, which could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under

the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates. For a more detailed discussion of the restrictions to which Dar Al-Arkan and its subsidiaries are subject under the Master Trust Deed, see "Summary of the Principal Transaction Documents—Master Trust Deed".

Dar Al-Arkan may incur tax liabilities in respect of its undeveloped land

On 24 November 2015, a tax (known as the **White Land Tax**) on vacant land in various municipalities across the Kingdom was approved pursuant to a Royal Decree. This tax, along with a tax on high-end properties, is intended to discourage investment in land solely for capital appreciation and speculative purposes. The law was introduced with the intention of encouraging expenditure on low-income and middle-income housing and increasing residential development. In April 2025, the Saudi Cabinet approved the amendments to the White Land Tax, which included an increase in the annual tax on undeveloped land from 2.5 per cent. to a 10 per cent. ceiling, and lowering the application of The White Land Tax, from land plots of over 10,000 square metres to a land area at a minimum of 5,000 square metres, located within approved master planned developments specified by the Ministry of Municipal and Rural Affairs and Housing (previously known as the Ministry of Housing) (the **MoMRAH**). The MoMRAH is responsible for valuing the land and collecting the tax, in addition to imposing fines for non-compliance. Land valuation is based on factors including location, zone, surface condition, applicable building requirements, access to utilities and general neighbouring services. The application of the White Land Tax to serviced urban land is expected to address the supply side concerns by increasing the availability of land for development which otherwise would be lying vacant for speculative purposes.

As of 31 December 2024, Dar Al-Arkan's development properties consisted of SAR 20.99 billion (U.S.\$5.60 billion) including project lands and properties of SAR 16.50 billion (U.S.\$4.40 billion) which represents Dar Al-Arkan's share in land with other investors according to the contract and agreements for investment and development of the land, all of which were valued on its balance sheet at cost. All of Dar Al-Arkan's development properties are geographically diversified within the Kingdom.

Whilst Dar Al-Arkan is not currently aware of any outstanding notices or demands from the relevant authorities for payment of any land taxes, there can be no assurance that Dar Al-Arkan will not be liable for significant future tax liabilities, which could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

C. LEGAL AND REGULATORY RISKS

The risks described under this heading C. ("Legal and regulatory risks") have been categorised as legal and regulatory risks. Legal and regulatory risk is the risk of loss or reputational damage resulting from an inability to maintain compliance with the prevailing legal and regulatory environment established in the jurisdictions in which Dar Al-Arkan operates. Legal and regulatory risks could adversely affect Dar Al-Arkan's business, results of operations and financial condition. This introductory paragraph in italicised text forms part of the risk factors in this section but is not a risk factor itself.

Further context on Dar Al-Arkan's legal and regulatory risks is set out below:

Failure to obtain and comply with regulatory approvals could result in interruption or termination of Dar Al-Arkan's development projects

Dar Al-Arkan is required to obtain zoning, building, occupancy and certain other regulatory approvals for its development projects. There can be no assurance that all regulatory approvals in connection with existing or proposed development projects will be obtained in a timely manner, or at all. Furthermore, the terms of regulatory approvals could impose unanticipated conditions and costs on development projects. In addition, violation of the terms of any such regulatory approvals may lead to their cancellation, withdrawal, suspension or the imposition of financial and/or non-financial penalties by relevant authorities. Any of the above factors may result in the interruption or termination of Dar Al-Arkan's development projects, which could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

Dar Al-Arkan is subject to a range of environmental and health and safety laws and regulations

Dar Al-Arkan has adopted safety standards to comply with applicable laws and regulations in the countries in which it does business. In addition, safety requirements are contractually agreed to by Dar Al-Arkan's contractors. If Dar Al-Arkan and/or one or more of its contractors or subcontractors failed to comply with the relevant standards, any of them may be liable to penalties and the business and/or reputation of Dar Al-Arkan might be materially and adversely affected, which could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

Dar Al-Arkan seeks to ensure that it complies with all applicable environmental laws. While Dar Al-Arkan believes that it is in compliance with applicable environmental laws, there can be no assurance that Dar Al-Arkan will not be subject to environmental liability. If an environmental liability arises in relation to any project owned or operated by Dar Al-Arkan and it is not remedied or not capable of being remedied, or is required to be remedied at the cost of Dar Al-Arkan, this could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates. Moreover, it may result in a reduction of the value of the relevant project or property or affect the ability of Dar Al-Arkan to dispose of such project or property.

In addition, any amendments to the existing laws and regulations relating to health and safety and environmental standards may impose more burdensome and costlier requirements and Dar Al-Arkan's compliance with such laws or regulations may require it to incur significant capital expenditure or other obligations or liabilities, which could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

Legislative and regulatory changes in the Kingdom may adversely affect Dar Al-Arkan's operations

Dar Al-Arkan's activities are subject to the laws of the Kingdom, including the Ministry of Commerce's and the Ministry of Investment's regulations and the laws of other countries where it has operations. Laws and regulations that are applied to Dar Al-Arkan may change from time to time. Changes in such laws and regulations could impose restrictions on the development, sale or lease of Dar Al-Arkan's properties, as well as result in unanticipated costs. The occurrence of any of the above could have a material adverse effect on Dar Al-Arkan's business, prospects, financial conditions, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

In addition, a number of the laws in the Kingdom relating to real property and real property rights have recently been adopted or are in the process of being adopted and the manner in which those laws and related regulations are applied to Dar Al-Arkan is still evolving. For example, in October 2020, the Government decreed that real estate transactions in the Kingdom were to be exempted from value added tax as of 4 October 2020 and, instead, be subject to a real estate transaction tax at a rate of 5 per cent. (see "*Overview of the Real Estate Sector in the Kingdom—Value Added Tax and Real Estate Transaction Tax*").

In recent years, the Government has implemented a number of initiatives aimed at boosting the real estate sector (see "*Overview of the Real Estate Sector in the Kingdom*"). Most recently, the Kingdom's Capital Market Authority permitted foreign investors to own up to 49 per cent. of shares or convertible debt instruments in Saudi listed companies that possess real estate in Makkah and Madinah. In addition, the Real Estate General Authority issued in May 2025 the procedural guide for the sale and leasing of real estate projects off-plan. This new initiative is expected to have a positive impact on Dar Al-Arkan's business. However, no assurance can be given that the implementation of this or similar initiatives implemented by the Government will benefit Dar Al-Arkan, and no assurance can be given that current or new guidelines, laws and regulations will be adopted, enforced or interpreted in a manner that will not have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates (see also "*Macroeconomic and geopolitical risks—The Government's efforts to diversify the Kingdom's economy and effect structural changes may have undesirable effects*").

In addition, no assurance can be given that the Kingdom will not implement new regulations or fiscal or monetary policies, including those relating to or affecting taxation, interest and profit rates or exchange controls, or otherwise take actions which could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

Dar Al-Arkan may not be able to cooperate with the municipal government of Jeddah in a manner that ensures the efficient development and financial success of the Qasr Khozam land development project

Dar Al-Arkan's Qasr Khozam land development project is being developed pursuant to an agreement between Dar Al-Arkan and the Jeddah Development and Urban Regeneration Company, an instrumentality of the municipal government of Jeddah. There can be no assurance that Dar Al-Arkan and the municipal government of Jeddah will be able to cooperate in a manner that ensures the efficient operation and financial success of the Qasr Khozam land development project. The municipal government of Jeddah may have economic interests or business goals that are inconsistent with Dar Al-Arkan's, be unable or unwilling to fulfil its obligations under the agreement with Dar Al-Arkan, or experience financial or other difficulties. The occurrence of any of the above could jeopardise the success of the Qasr Khozam land development project, which could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

Dar Al-Arkan is subject to risks relating to legal and regulatory proceedings

In the ordinary course of its business, Dar Al-Arkan is subject to risks relating to legal and regulatory proceedings. Litigation and regulatory proceedings are unpredictable and legal or regulatory proceedings in which Dar Al-Arkan is or becomes involved (or settlements thereof) could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

D. MACROECONOMIC AND GEOPOLITICAL RISKS

The risks described under this heading D. ("Macroeconomic and geopolitical risks") have been categorised as macroeconomic and geopolitical risks. Macroeconomic and geopolitical risk is the risk of loss which arises as a result of changes in the prevailing macroeconomic environment and the performance of financial markets generally or as a result of a deterioration in geopolitical conditions in the jurisdictions in which Dar Al-Arkan operates. Macroeconomic and geopolitical risks could adversely affect Dar Al-Arkan's business, results of operations and financial condition. This introductory paragraph in italicised text forms part of the risk factors in this section but is not a risk factor itself.

Further context on Dar Al-Arkan's macroeconomic and geopolitical risks is set out below:

Continued instability and unrest in the countries in which Dar Al-Arkan operates, or the escalation of conflict, may materially and adversely affect Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects

The MENA region has recently been subject to a number of armed conflicts including those in Gaza, Lebanon, Yemen, Sudan and Syria. In 2024, conflicts between Israel and Hamas and Hezbollah escalated significantly, and such conflicts, as well as ongoing tensions between Israel, Iran and Yemen have the possibility to escalate and affect other countries in the MENA region. It is not possible to predict the occurrence of events or circumstances such as civil unrest, war or other hostilities, or the impact that such events or occurrences might have on the markets in which Dar Al-Arkan operates.

There can be no assurance that extremists or terrorist groups will not initiate terrorist or other violent activity in the Kingdom, or that the Kingdom will not be impacted by any escalation of regional armed conflict. Any terrorist incidents in or affecting the Kingdom and increased regional geopolitical instability (whether or not directly involving the Kingdom), or any heightened levels of military conflict in the region or globally, including the current Russia-Ukraine conflict, may have a material adverse effect on the Kingdom's attractiveness for foreign investment and capital, their ability to engage in international trade, their tourist industry, and, consequently, their economic, external and fiscal positions, and therefore could adversely impact Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects.

Although, to date, Dar Al-Arkan has not experienced any material interruptions in its infrastructure, supplies, technology systems or networks needed to support its operations, any sanctions programmes or other measures imposed on the parties or territories described above, as well as any increase in political tensions and military actions, could adversely affect the global economy and financial markets and could, as a result, adversely affect the demand for Dar Al-Arkan's properties or the value of its investments which could, in turn, have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

The success of Dar Al-Arkan's business is dependent on a number of factors affecting the real estate market that are beyond its control

Dar Al-Arkan conducts the majority of its activities in the Kingdom and its future performance is therefore dependent on a number of economic and other factors relating to the Kingdom that are beyond its control. Dar Al-Arkan's revenue and net income are principally based on demand for real estate in the Kingdom. Such demand is affected by economic conditions in the Kingdom and global economic conditions that affect the economy of the Kingdom. Adverse economic developments in the Kingdom could cause a loss of investor confidence, a decrease in consumer purchasing power and unanticipated changes in the Kingdom's demographic mix, any or all of which may negatively impact the real estate market in the Kingdom and reduce demand for Dar Al-Arkan's properties.

In addition, property values and rental rates are affected by factors such as political developments, regulations of the Government, planning laws, tax laws, interest and profit rate levels, inflation (see also "*Dar Al-Arkan is exposed to interest and profit rate volatility and inflation*"), wage rates, levels of unemployment and the availability of credit. The demand for real estate particularly in the Kingdom has historically been supported by a number of factors, including Government initiatives aimed at growing the middle class and promoting an affordable home financing industry. Any negative change in such trends could negatively affect demand for real estate in the Kingdom and the prices at which Dar Al-Arkan can sell its land development projects and sell and/or let residential units. Many countries in the GCC region have experienced significant volatility in their real estate markets in recent years. Dar Al-Arkan cannot assure investors that similar volatility will not be experienced in the Kingdom in the future. Any of these factors could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

Real estate investments are illiquid

Because real estate investments are generally illiquid, and due to the cyclicity of real estate markets, Dar Al-Arkan's ability to promptly sell one or more of its projects in response to changing political, economic, financial and investment conditions is limited. The real estate market is affected by many factors that are beyond Dar Al-Arkan's control. In addition, to the extent that Dar Al-Arkan requires third party funding to develop its projects, it may be required to grant a mortgage over certain projects, or parts thereof, to secure its payment obligations, which could preclude Dar Al-Arkan from selling such projects or affected residential units in the event of a default under such financing arrangements. There can be no assurance that the sale of units in any of Dar Al-Arkan's projects will be at a price which reflects the most recent valuation of the relevant project, particularly if Dar Al-Arkan is forced to sell in adverse economic conditions. Any of these factors could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

The Kingdom's economy is highly dependent upon revenues from oil

The hydrocarbon industry is the single largest contributor to the Kingdom's economy and oil revenues account for a majority of the Government's total revenues and export earnings. According to GASTAT, the oil sector accounted for 27.74 per cent. and 29.53 per cent. of the Kingdom's real GDP in the years ended 31 December 2024 and 2023, respectively, while oil revenues accounted for an estimated 60.09 per cent. and 62.24 per cent. of total Government revenues in the fiscal years 2024 and 2023, respectively. Oil exports accounted for 73.05 per cent., 77.27 per cent. and 78.0 per cent. of the Kingdom's total exports by value in 2024, 2023 and 2022, respectively.

Historically, the price of oil has been volatile and over the past two decades, international oil prices have fluctuated significantly. Oil prices fluctuated from U.S.\$41.47 on 1 January 2020 to U.S.\$73.73 on 1 January 2025. Oil prices have been under downward pressure amid weak global economic activity, record output from the United States, and steady production and exports by Russia. The price weakness unfolded despite supply disruption concerns in the aftermath of conflicts in the Middle East, the extension and deepening of production cuts by OPEC+, as well as the announcement of oil purchases by the U.S. government to replenish its Strategic Petroleum Reserve. In March 2025, the OPEC Reference Basket (ORB) value declined by U.S.\$2.81, or 3.7 per cent., month-on-month, to average U.S.\$74.00 per barrel. The ICE Brent front-month contract fell by U.S.\$3.48, or 4.6 per cent., month-on-month, to average U.S.\$71.47 per barrel, and the NYMEX WTI front-month contract fell by U.S.\$3.27, or 4.6 per cent., month-on-month, to average U.S.\$67.94 per barrel. The GME Oman front-month contract fell by U.S.\$4.78, or 6.2 per cent., month-on-month, to average U.S.\$72.50 per barrel. The global oil demand growth forecast for 2025 is revised down slightly to 1.3 million barrels per day, year-on-year. This minor adjustment is mainly due to received data for the first quarter of 2025 and the expected impact on oil demand given recently announced US tariffs. In the OECD, oil demand is expected to grow by 0.04 million barrels per day, while non-OECD demand is forecast to expand by almost 1.25 million barrels per day in 2025. The forecast for global oil demand growth in 2026 is revised down slightly to approximately 1.3 million barrels per day. The OECD is expected to grow by approximately 0.1 million barrels per day, year-on-year, in 2026, while demand in the non-OECD is forecast to increase by 1.2 million barrels per day, year-on-year, in 2026. The average of the monthly average OPEC Reference Basket prices over the three-month period ended 31 March 2025 was U.S.\$74.00, compared to U.S.\$84.22 over the three-month period ended 31 March 2024.

Oil prices are likely to remain volatile in future years. In general, international prices for crude oil are affected by the economic and political developments in oil-producing regions, particularly the Middle East and Russia; changes in announced production levels; macro-economic or other factors impacting demand; the availability of new technologies and alternative energy sources; and the global climate and other relevant conditions. Further volatility in oil prices may have an adverse effect on the Kingdom's GDP growth, Government revenues, balance of payments and foreign trade and future volatility in the price of oil and/or the quantity of oil produced by the Kingdom could adversely affect the Kingdom's economy as a whole.

Any factors which adversely affect the Kingdom's economy could, in turn, have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

Dar Al-Arkan's business operations are subject to general risks related to the Kingdom and the Middle East

Dar Al-Arkan conducts the majority of its activities in the Kingdom and its operating results are therefore affected by general economic, social and political developments in the Kingdom. The economy of the Kingdom, like those of many emerging markets, has been characterised by significant Government involvement through direct ownership of enterprises and extensive regulation of market conditions, including limitations on foreign investment, foreign trade and financial services. In addition, the Kingdom has historically had a relatively high unemployment rate among Saudi nationals. Based on estimates of GASTAT's Labor Force Survey, as of 31 December 2024, the unemployment rate among Saudi nationals was 7 per cent., comprising an unemployment rate of 4.3 per cent. among Saudi males and 11.9 per cent. among Saudi females. Despite recent Government initiatives directed at deregulation, growth of the private sector of the economy, expansion of financial services and increased employment among Saudi nationals, the Government continues to exercise significant influence over many aspects of the Kingdom's economy, the private sector of the economy remains relatively undeveloped and unemployment among Saudi nationals remains relatively high.

Similar to other countries in the Middle East, the Kingdom could be affected by political and social unrest in the region. Several countries in the region are currently subject to armed conflicts and/or social and political unrest (see "*Continued instability and unrest in the countries in which Dar Al-Arkan operates, or the escalation of conflict, may materially and adversely affect Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects*"). In some instances, the recent and ongoing conflicts are a continuation of the significant political and military upheaval experienced by certain regional countries from 2011 onwards, commonly referred to as the 'Arab Spring', which gave rise to several instances of regime change and increased political uncertainty across the region.

The Kingdom has been targeted on several occasions by ballistic missiles fired by the Al-Houthi rebels in Yemen since 2017, most of which were successfully intercepted by the Kingdom's defence systems. Al-Houthi rebels have also targeted civilians and conducted other acts of sabotage. On 9 April 2023, a Saudi delegation visited

Yemen to negotiate a cease-fire and re-start political talks with the Houthi militia rebels, and in September 2023, further peace talks were held between the Kingdom and a Houthi militia delegation. However, there can be no guarantee as to the outcome of these talks and their impact on the geopolitical situation in the region, including any potential future re-escalation of tensions.

In addition, the Kingdom has experienced other terrorist attacks and disturbances in recent years and there can be no assurance that extremists or terrorist groups will not attempt to target the Kingdom or commit or attempt to commit violent acts in the future. Any occurrences or escalation of terrorist incidents or other disturbances in the Kingdom could have an adverse impact on the economy in the Kingdom.

Tensions have persisted between the Kingdom and Iran, as exemplified in January 2016 by the Kingdom recalling its ambassador to Iran. In addition, on 8 May 2018, the United States announced its withdrawal from the Joint Comprehensive Plan of Action between the United Nations (the **UN**) Security Council's five permanent members plus Germany and Iran that was reached in July 2015, reinstating the United States' nuclear sanctions on the Iranian regime. The United States also announced that it would not renew exceptional waivers for importing Iranian oil for several oil-importing countries, effective from May 2019, and on 3 January 2020, the United States carried out a military strike which killed a senior Iranian military commander. As a result of this military strike, Iran launched missile attacks on United States' forces based in Iraq. Any continuation or escalation of international or regional tensions regarding Iran, including further attacks on, or seizures of, oil tankers which disrupt international trade, including any impairment of trade flow through the Strait of Hormuz, or any military conflict, could have a destabilising impact on the Gulf region, including with respect to the Kingdom and its ability to export oil. However, the tensions between the Kingdom and Iran have recently de-escalated and on 10 March 2023, the Kingdom and Iran released a joint statement announcing the restoration of diplomatic ties and planned re-opening of their respective Saudi and Iranian embassies. Subsequently, on 6 June 2023, Iran re-opened its embassy in Riyadh. In addition, on 7 June 2023, Iran re-opened both its consulate in Jeddah and its representative office to the Organisation of Islamic Cooperation (the **OIC**). On 9 August 2023, the Kingdom re-opened its embassy in Tehran.

These geopolitical events may contribute to instability in the Middle East and surrounding regions (that may or may not directly involve the Kingdom) and may have a material adverse effect on the Kingdom's attractiveness for foreign investment and capital, its ability to engage in international trade and, subsequently, its economy and financial condition, which, in turn, could have a material adverse effect on Dar Al-Arkan's business.

Investors should also be aware that investing in emerging markets such as the Kingdom entails greater risks than investing in more developed markets, including risks such as political, social and economic issues, acts of warfare and violence, governmental actions or interventions, including embargoes, tariffs, protectionism, subsidies, expropriation of assets and cancellation of contractual rights, changes in, or in the interpretation, application or enforcement of, law and regulation, difficulties and delays in obtaining new permits and consents for Dar Al-Arkan's operations or renewing existing ones and potential lack of reliability as to title to real property. Bloomberg's analysis of the 2025 U.S. tariff announcements suggests that while the direct impact on the Kingdom is limited due to its trade surpluses, low VAT, and dollar-pegged currencies, the indirect consequences could be significant. The potential risks include disruptions to oil exports, shifts in investor sentiment, and inflationary pressures tied to U.S. monetary policy. These factors may challenge the Kingdom's economic stability and have an adverse effect on the Kingdom's real estate sector.

The foregoing factors could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

The Government's efforts to diversify the Kingdom's economy and effect structural changes may have undesirable effects

In recent years, the Government has sought to implement far-reaching reforms of the Kingdom's economy and society. Some of the measures envisaged include the greater participation of Saudi citizens in the private sector, a decrease in certain subsidies historically available to the fuel and energy sectors, as well as the imposition of new taxes and administrative fees, for example the introduction of value added tax in January 2018 at a rate of 5 per cent., which was subsequently increased to 15 per cent. as of July 2020. The implementation of these and other similar measures may be a lengthy and complex process, and there can be no assurance that these measures will not have unexpected or undesirable consequences in the Kingdom. The implementation of these and other similar measures, in whole or in part, may have an adverse effect on the macroeconomic environment in the

Kingdom, which could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

There can be no assurance that the Government's efforts to diversify the Kingdom's economy will be successful

While the oil sector contributes to a significant portion of the Kingdom's economy, in recent years the Government has invested heavily in diversifying the Kingdom's economy to reduce its reliance on oil revenues. In light of the ongoing volatility affecting global oil prices and, in turn, Government revenues, the objective of economic diversification in the Kingdom has taken on greater significance for the Government, and the Government has in recent years announced various measures aimed at, among other things, achieving increased diversification of the Kingdom's economy, including the NTP.

While the contribution of the non-oil sector to the Kingdom's economy is gradually increasing on the basis of recent trends, oil exports and oil-related revenues still constitute a high proportion of the Kingdom's total export earnings and Government revenues, respectively. There can be no assurance that the contribution of the non-oil sector to the Kingdom's economy will continue to increase in the future or that it will continue to a sufficient extent to achieve effective and adequate diversification of the economy. In addition, the increase in the contribution of the non-oil sector to Government revenues and total exports in recent years can also be partially attributed to the decline and volatility in global oil prices since mid-2014 and the consequent significant decrease in Government revenues and export earnings attributable to the oil sector. This trend can also be attributed to structural reforms enacted under the Government's fiscal consolidation measures including adjustments of visa and municipality fees, the implementation of expat levies and the application of excise taxes on certain potentially harmful products including tobacco, tobacco derivatives, soft drinks, energy drinks, sweetened beverages, electronic smoking appliances and liquids used in those devices. Such measures may be subject to change in the future and there can be no assurance that such measures will have the intended effects on Government revenues or the Kingdom's economy more generally or that such measures will continue to result in increases to non-oil revenues.

Furthermore, there can be no assurance that the Government will be able to successfully implement the Kingdom's long-term diversification plan (**Vision 2030**) or the NTP in their current form, or that their implementation will be in line with the timelines originally set out. Any amendment to the scope or timing of the implementation of the objectives of Vision 2030 or the NTP, and any failure to do so, in whole or in part, may result in the Government being unable to achieve the diversification of the economy and its sources of revenue to the required extent (see "*Overview of the Kingdom*"). Additionally, to the extent that a prolonged decline in oil prices has an adverse impact on Government revenues, this may in turn adversely impact the Government's ability to invest in the diversification of the Kingdom's economy. A failure to diversify the Kingdom's economy may result in its economy remaining susceptible to the risks associated with the oil sector, and any downturn in the oil sector could result in a slowdown of the entire economy, which, in turn, could have a material adverse effect on Dar Al-Arkan's business, financial condition, cash flows, results of operations and prospects and may affect Dar Al-Arkan's ability to make the relevant payments under the Transaction Documents to which it is a party which are necessary in order for the Trustee to pay the amounts due under the Certificates.

RISK FACTORS RELATING TO THE LEASE ASSETS

Limitations relating to the indemnity provisions under the Purchase Undertaking and the Master Trust Deed

Dar Al-Arkan has undertaken in the Purchase Undertaking and the Master Trust Deed that:

- (a) if, at the time of delivery of the exercise notice in accordance with the provisions of the Purchase Undertaking, Dar Al-Arkan Real Estate Development Company remains in actual or constructive possession, custody or control of all or any part of the Lease Assets, the Certificateholder Put Right Lease Assets, the Change of Control Put Right Lease Assets or the Tangibility Event Put Right Lease Assets (each as defined in the Purchase Undertaking), as the case may be; and
- (b) if, following delivery of the exercise notice in accordance with the provisions of the Purchase Undertaking, the relevant Exercise Price, Certificateholder Put Right Exercise Price, Change of Control Put Right Exercise Price or Tangibility Event Put Right Exercise Price (each as defined in the Purchase Undertaking), as the case may be, is not paid in accordance with the provisions of the Purchase Undertaking for any reason whatsoever,

Dar Al-Arkan shall (as an independent, severable and separately enforceable obligation) fully indemnify the Trustee for the purpose of redemption in full of the Certificates then outstanding or the Certificateholder Put Right Certificates, the Change of Control Put Right Certificates or the Tangibility Event Put Right Certificates (each as defined in the Purchase Undertaking), as the case may be, and, accordingly, the amount payable under any such indemnity claim will equal the Exercise Price, the Certificateholder Put Right Exercise Price, the Change of Control Put Right Exercise Price or the Tangibility Event Put Right Exercise Price, as the case may be.

Subject to the satisfaction of the conditions in (a) and (b) as described above, if Dar Al-Arkan fails to pay the Exercise Price, the Certificateholder Put Right Exercise Price, the Change of Control Put Right Exercise Price or the Tangibility Event Put Right Exercise Price, as the case may be, in accordance with the Purchase Undertaking, the Delegate (on behalf of the Certificateholders) may, subject to the matters set out in Condition 15 and the terms of the Master Trust Deed, seek to enforce, *inter alia*, the provisions of the Purchase Undertaking and the Master Trust Deed against Dar Al-Arkan by commencing legal proceedings.

However, investors should note that, in the event that Dar Al-Arkan Real Estate Development Company does not remain in actual or constructive possession, custody or control of, all or any part of the relevant Lease Assets, Certificateholder Put Right Lease Assets, Change of Control Put Right Lease Assets or Tangibility Event Put Right Lease Assets, as the case may be, at the time of delivery of the exercise notice in accordance with the provisions of the Purchase Undertaking, the condition in (a) as described above will not be satisfied and, therefore, no amounts will be payable by Dar Al-Arkan under the separate indemnity provisions. For the avoidance of doubt, no investigation has been or will be made by the Trustee, the Dealers, the Delegate or the Agents as to whether Dar Al-Arkan Real Estate Development Company has or will remain in actual or constructive possession, custody or control of any Lease Assets.

Accordingly, in such event, the Delegate (on behalf of the Certificateholders) may be required to establish that there has been a breach of contract by Dar Al-Arkan in order to prove for damages. Such breach of contract may be due to: (i) a breach by Dar Al-Arkan of the requirement to purchase the Trustee's rights, title, interest, benefits and entitlements in, to and under the relevant Lease Assets, Certificateholder Put Right Lease Assets, Change of Control Put Right Lease Assets or Tangibility Event Put Right Lease Assets, as the case may be, on the relevant Dissolution Date pursuant to the provisions of the Purchase Undertaking; and/or (ii) a breach by Dar Al-Arkan (acting in its capacity as lessee pursuant to the provisions of the Master Lease Agreement) of its undertaking to maintain actual or constructive possession, custody or control of all of the Lease Assets.

As a result, the Delegate (on behalf of the Certificateholders) may not be able to recover, or may face significant challenges in recovering, an amount equal to the relevant Exercise Price, Certificateholder Put Right Exercise Price, Change of Control Put Right Exercise Price or Tangibility Event Put Right Exercise Price, as the case may be, and in turn, the amount payable to the Certificateholders upon redemption.

Ownership and transfer of the Lease Assets

In order to comply with the requirements of *Shari'a*, an ownership interest in the Assets should pass to the Trustee under the Master Purchase Agreement, as supplemented by the relevant Supplemental Purchase Agreement (together, the **Purchase Agreement**) and the Trustee will lease the Lease Assets to Dar Al-Arkan under the Master Lease Agreement, as supplemented by the relevant Supplemental Lease Agreement. The Trustee will declare a trust in respect of the Lease Assets and the other Trust Assets in favour of the Certificateholders of the relevant Series pursuant to the Master Trust Deed, as supplemented by the relevant Supplemental Trust Deed. Accordingly, from a *Shari'a* perspective, Certificateholders should, through the ownership interest obtained by the Trustee pursuant to the terms of the Purchase Agreement, have an undivided ownership interest in the relevant Lease Assets.

Limited investigation has been or will be made by the Trustee, Dar Al-Arkan or the Dealers as to whether any interest in any Lease Assets may be transferred as a matter of the law of the jurisdiction where such assets are located or any other relevant law and no investigation has been or will be made by the Trustee, the Dealers, the Delegate or any of the Agents as to whether Dar Al-Arkan is in actual or constructive possession, custody or control of all of the Lease Assets. In addition, limited investigation will be made by the Trustee, Dar Al-Arkan, the Dealers, the Delegate or any of the Agents to determine if any Purchase Agreement will have the effect of legally transferring an interest in the relevant Assets. For the avoidance of doubt, this does not prejudice the transfer of the right of ownership to the Lease Assets from a *Shari'a* perspective. The Lease Assets will be selected by Dar Al-Arkan, and the Certificateholders, the Trustee, the Dealers, the Delegate and the Agents will have no ability to influence or liability for such selection. Only limited representations will be obtained from Dar Al-Arkan and/or the relevant Restricted Subsidiary, as the case may be, in respect of the Lease Assets. No steps are intended

to be taken to perfect the legal transfer of the ownership interest (including registration, if necessary) in the Lease Assets with any relevant regulatory authority in the Kingdom.

Although the *Shari'a* analysis is such that an ownership interest in the Lease Assets should pass to the Trustee under the relevant Purchase Agreement, the Certificateholders will not have any direct recourse to the Lease Assets and their rights are limited to enforcement against the Obligor of its obligation to purchase all (or the applicable portion thereof, as the case may be) of the Lease Assets pursuant to the terms of the Master Trust Deed and the Purchase Undertaking. See further " – *Limitations relating to the indemnity provisions under the Purchase Undertaking and the Master Trust Deed*".

The occurrence of a Tangibility Event may have a significant adverse effect on the liquidity and market value of the Certificates

Following the occurrence of a Tangibility Event, the Certificateholders will be promptly notified: (a) that a Tangibility Event has occurred; (b) that, as determined in consultation with the *Shari'a* Adviser, the Certificates should be tradable only in accordance with the *Shari'a* principles of debt trading (such as the principle that debt is to be traded against tangible assets and/or eligible commodities on a spot settlement basis); (c) that, on the date falling 15 days following the Tangibility Event Put Right Date, the Certificates will be delisted from any stock exchange (if any) on which the Certificates are admitted to listing; and (d) the Tangibility Event Put Period, during which period any Certificateholder shall have the right to require the redemption of all or any of its Certificates. Upon receipt of such notice, the Certificateholders may elect, within the Tangibility Event Put Right Period, for all or any of their Certificates to be redeemed in accordance with the Conditions. Accordingly, a Tangibility Event may have a significant adverse effect on the liquidity and market value of the Certificates.

The occurrence of a Loss Event may have a significant adverse effect on the liquidity and market value of the Certificates

If (A) as a result of a Partial Loss Event, the ratio of (i) the Value of the Lease Assets (which for this purpose shall exclude any Impaired Assets) to (ii) the aggregate of the Value of the Lease Assets, and if applicable for the relevant Series of Certificates, the aggregate amounts of outstanding Deferred Sale Price applicable to such Series of Certificates at such time, falls below 33 per cent., or (B) a Total Loss Event occurs, Certificateholders will be promptly notified (a) of the occurrence of such event; (b) that, from the date of the Trading and Delisting Notice, and until any further notice from the Trustee, in consultation with the *Shari'a* Adviser, stating otherwise, the Certificates should be tradable only in accordance with the *Shari'a* principles of debt trading (such as the principle that debt is to be traded against tangible assets and/or eligible commodities on a spot settlement basis); and (c) that, on the date of such Trading and Delisting Notice, an application will be made for the Certificates to be delisted from any stock exchange (if any) on which the Certificates have been admitted to listing, or if such date is not a business day, the next following business day (**business day** being for this purpose, a day on which the stock exchange on which the Certificates are admitted to listing is open for business). Accordingly, such event may have a significant adverse effect on the liquidity and market value of the Certificates.

RISK FACTORS WHICH ARE MATERIAL FOR THE PURPOSE OF ASSESSING THE MARKET RISKS ASSOCIATED WITH CERTIFICATES ISSUED UNDER THE PROGRAMME

The Certificates are limited recourse obligations

Certificates to be issued under the Programme are not debt obligations of the Trustee. Instead, the Certificates represent an undivided ownership interest solely in the relevant Trust Assets. Recourse to the Trustee in respect of each Series is limited to the Trust Assets of that Series and proceeds of such Trust Assets are the sole source of payments on the relevant Certificates. Upon the occurrence of a Dissolution Event, the sole rights of each of the Delegate and, through the Delegate, the Certificateholders of the relevant Series will be against Dar Al-Arkan to perform its obligations under the Transaction Documents to which it is a party. Certificateholders will have no recourse (whether by institution or enforcement of any legal proceeding or assessment or otherwise) in respect of any breach of any duty, obligation, covenant or agreement contained in the Conditions or any Transaction Document against any shareholder, member, officer, agent (including any corporate administrator) or director of the Trustee, the Delegate, the Agents or Dar Al-Arkan, as the case may be, by virtue of any customary law, statute or otherwise. The obligations of the Trustee, the Delegate and Dar Al-Arkan under the Conditions or any Transaction Document are corporate or limited liability obligations of the Trustee, the Delegate and Dar Al-Arkan and any and all personal liability of the shareholders (other than as aforesaid), members, officers, agents (including any corporate administrator) or directors of the Trustee, the Delegate, the Agents and Dar Al-Arkan will be expressly waived and excluded by the holders of each Series to the extent permitted by law.

The net proceeds of the realisation of, or enforcement with respect to, the Trust Assets of any Series may not be sufficient to make all payments and/or deliveries due in respect of the relevant Certificates. If, following distribution of such proceeds in accordance with Condition 4.2, there remains a shortfall in payments and/or deliveries due under the Certificates of the relevant Series, no Certificateholder will have any claim against the Trustee, Dar Al-Arkan, the Delegate, the Agents or any of their respective shareholders (other than as aforesaid), members, officers, directors or agents (including any corporate administrator) or any of their affiliates or recourse to any of their assets in respect of such shortfall and any unsatisfied claims of Certificateholders shall be extinguished. In addition, no Certificateholder will be able to petition for, or join any other person in instituting proceedings for, the reorganisation, liquidation, winding up or receivership of Dar Al-Arkan (to the extent that each fulfils all of its obligations under the relevant Transaction Documents to which it is a party), or any of the Trustee, the Delegate, the Agents and/or any of their affiliates as a consequence of such shortfall or otherwise. Furthermore, under no circumstances shall the Trustee, the Delegate or any Certificateholder have any right to cause the sale or other disposition of any of the Trust Assets except pursuant to the Transaction Documents.

No assurance can be given that a secondary market for Certificates will develop or, if it does, that it will provide investors with liquidity of investment

There is no assurance that a secondary market for the Certificates of any Series will develop or, if it does develop, that it will provide the Certificateholders with liquidity of investment or that it will continue for the life of those Certificates. Accordingly, a Certificateholder may not be able to find a buyer to buy its Certificates readily or at prices that will enable the Certificateholder to realise a desired yield. The market value of Certificates may fluctuate and a lack of liquidity, in particular, can have a material adverse effect on the market value of the Certificates. Accordingly, the purchase of Certificates is suitable only for investors who can bear the risks associated with a lack of liquidity in the relevant Certificates and the financial and other risks associated with an investment in the relevant Certificates. An investor in Certificates must be prepared to hold the relevant Certificates for an indefinite period of time or until their maturity. Application has been made for the listing of certain Series to be issued under the Programme on the London Stock Exchange but there can be no assurance that any such listing will occur or will enhance the liquidity of the Certificates of the relevant Series.

The Certificates may be subject to early redemption

In the event that the amount payable on the Certificates of any Series is required to be increased to include additional amounts in certain circumstances and/or Dar Al-Arkan is required to pay additional amounts pursuant to certain Transaction Documents, in each case as a result of certain changes affecting taxation in the Cayman Islands or the Kingdom, or in each case any political subdivision or any authority thereof or therein having power to tax, the Trustee may redeem all but not some only of the Certificates upon giving notice in accordance with the Terms and Conditions of the relevant Certificates.

If so provided in the applicable Final Terms, a Series may be redeemed early at the option of the Trustee (acting on the instructions of Dar Al-Arkan). Any such early redemption feature of any Certificate is likely to limit its market value. During any period when the Trustee may elect to redeem Certificates, the market value of those Certificates generally will not rise substantially above the dissolution amount payable. This also may be true prior to any redemption period. The Trustee may be expected to redeem Certificates when Dar Al-Arkan's cost of financing is lower than the profit rate on the Certificates. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective profit rate as high as the profit rate on the Certificates being redeemed and may only be able to do so at a significantly lower rate. Prospective investors should consider re-investment risk in light of other investments available at that time.

The regulation and reform of "benchmarks" may adversely affect the value of Certificates linked to or referencing such "benchmarks"

Interest rates (including profit rates) and indices which are deemed to be "benchmarks", (including the Euro interbank offered rate (**EURIBOR**)), are the subject of recent national and international regulatory guidance and reform aimed at supporting the transition to robust benchmarks. Most benchmarks have now reached their planned conclusion (including the transition away from LIBOR), and "benchmarks" remain subject to ongoing monitoring. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Certificates referencing such a "benchmark".

Regulation (EU) 2016/1011 (the **EU Benchmarks Regulation**) applies, subject to certain transitional provisions, to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within

the EU. Among other things, it (i) requires benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevents certain uses by EU supervised entities of benchmarks of administrators that are not authorised or registered (or, if non-EU based, not deemed equivalent or recognised or endorsed). The UK Benchmarks Regulation applies, amongst other things, to the provision of benchmarks and the use of a benchmark in the UK. Similarly, it prohibits the use in the UK by UK supervised entities of benchmarks of administrators that are not authorised by the Financial Conduct Authority or registered on the Financial Conduct Authority register (or, if non-UK based, not deemed equivalent or recognised or endorsed).

The EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable, could have a material impact on any Certificates linked to or referencing a benchmark in particular, if the methodology or other terms of the benchmark are changed in order to comply with the requirements of the EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the relevant benchmark.

More broadly, any of the international or national reforms, or the general increased regulatory scrutiny of benchmarks, could increase the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any such regulations or requirements.

The euro risk free-rate working group for the euro area has published a set of guiding principles and high level recommendations for fallback provisions in, amongst other things, new euro denominated cash products (including bonds) referencing EURIBOR. The guiding principles indicate, amongst other things, that continuing to reference EURIBOR in relevant contracts (without robust fallback provisions) may increase the risk to the euro area financial system. On 11 May 2021, the euro risk-free rate working group published its recommendations on EURIBOR fallback trigger events and fallback rates.

Such factors may have (without limitation) the following effects on certain benchmarks: (a) discouraging market participants from continuing to administer or contribute to a benchmark; (b) triggering changes in the rules or methodologies used in the benchmark; and/or (c) leading to the disappearance of the benchmark. Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any Certificates linked to, referencing, or otherwise dependent (in whole or in part) upon, a benchmark.

The Conditions provide for certain fallback arrangements in the event that a Benchmark Event occurs, including if an original Reference Rate and/or any page on which an original Reference Rate may be published (or any other successor service) becomes unavailable. Such fallback arrangements include the possibility that the Rate (or the relevant component part thereof) could be set by reference to a Successor Rate or an Alternative Reference Rate, with or without the application of an Adjustment Spread, and may include amendments to the Conditions, the Master Trust Deed and/or any other Transaction Document to ensure the proper operation of the successor or replacement benchmark, all as determined by an Independent Adviser, acting in good faith and following consultation with the Trustee and Dar Al-Arkan, or Dar Al-Arkan (acting in good faith and in a commercially reasonable manner), as applicable, and without the requirement for the consent or sanction of Certificateholders. An Adjustment Spread, if applied, is (a) a spread (which may be positive, negative or zero), or (b) a formula or methodology for calculating a spread in each case to be applied to the Successor Rate or the Alternative Reference Rate, as the case may be, and is the spread, formula or methodology, which (i) in the case of a Successor Rate, is formally recommended, or formally provided as an option for parties to adopt, in relation to the replacement of the original Reference Rate with the Successor Rate by any Relevant Nominating Body (which may include a relevant central bank, supervisory authority or group of central banks/supervisory authorities), or (ii) (if no such recommendation has been made, or in the case of an Alternative Reference Rate) the Independent Adviser (following consultation with the Trustee and Dar Al-Arkan) determines is customarily applied to the relevant Successor Rate or the Alternative Reference Rate (as the case may be) in international debt capital markets transactions to produce an industry-accepted replacement rate for the original Reference Rate, or (iii) (if the Independent Adviser (following consultation with the Trustee and Dar Al-Arkan) determines that no such spread, formula or methodology is customarily applied) the Independent Adviser (following consultation with the Trustee and Dar Al-Arkan) determines is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the original Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Reference Rate, as the case may be, or (iv) (if the Independent Adviser (following consultation with the Trustee and Dar Al-Arkan) determines that there is no such industry standard) the Independent Adviser (following consultation with the Trustee and Dar Al-Arkan) or Dar Al-Arkan (as applicable) determines (acting in good faith and in a commercially reasonable manner) in their sole discretion to be appropriate. Accordingly, the application of an Adjustment Spread may result in the Certificates performing

differently (which may include payment of a lower Rate) than they would do if the original Reference Rate were to continue to apply in its current form. If no Adjustment Spread can be determined, a Successor Rate or Alternative Reference Rate may nonetheless be used to determine the Rate (or the relevant component part thereof). The use of a Successor Rate or Alternative Reference Rate (including with or without the application of an Adjustment Spread) may still result in any Certificates linked to or referencing an original Reference Rate performing differently (which may include payment of a lower Rate) than they would if the original Reference Rate were to continue to apply in its current form.

If, following the occurrence of a Benchmark Event, no Successor Rate or Alternative Reference Rate is determined, the ultimate fallback for the purposes of the calculation of the Rate for the relevant immediately following Return Accumulation Period may result in the Rate (or the relevant component part thereof) for the last preceding Return Accumulation Period being used. Due to the uncertainty concerning the availability of Successor Rates and Alternative Reference Rates, the involvement of an Independent Adviser and the potential for further regulatory developments, there is a risk that the relevant fallback provisions may not operate as intended at the relevant time.

If, following the occurrence of a Benchmark Event, the Trustee and Dar Al-Arkan are unable to appoint an Independent Adviser; or the Independent Adviser appointed by the Trustee and Dar Al-Arkan fails to determine a Successor Rate or, failing which, an Alternative Reference Rate and/or, in either case, an Adjustment Spread, Dar Al-Arkan will have to exercise its discretion to determine (or to elect not to determine) a Successor Rate or, failing which, an Alternative Reference Rate and/or, in either case, an Adjustment Spread, in a situation in which it is presented with a conflict of interest.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the EU Benchmarks Regulation and the UK Benchmarks Regulation, as applicable, or any of the international or national reforms and the possible application of the benchmark replacement provisions of Certificates in making any investment decision with respect to any Certificates referencing a benchmark.

RISK FACTORS WHICH ARE MATERIAL FOR THE PURPOSE OF ASSESSING THE RISKS ASSOCIATED WITH ENFORCEMENT IN THE KINGDOM OF SAUDI ARABIA

There are uncertainties around the choice of English law as the governing law of certain Transaction Documents and around enforcement of foreign arbitral awards in the Kingdom

The Certificates and certain of the Transaction Documents will be governed by English law. Furthermore, the parties to the Transaction Documents have agreed to refer any unresolved dispute in relation to the Transaction Documents to arbitration under the Arbitration Rules of the London Court of International Arbitration (**LCIA**). Whilst the choice of English law as the governing law of the Certificates and certain of the Transaction Documents does not contravene the laws and regulations of the Kingdom, the courts and judicial committees of the Kingdom may not recognise the choice of English law.

In addition, whilst the arbitration agreement is valid under English law and the laws and regulations of the Kingdom, the courts and judicial committees of the Kingdom will require any arbitral award pursuant to the arbitration agreement to satisfy certain requirements, including compliance with the principles of *Shari'a*. Accordingly, in any proceedings relating to the Certificates or the Transaction Documents in the Kingdom, *Shari'a*, as interpreted in the Kingdom, may be applied by the relevant court or judicial committee. The courts and judicial committees of the Kingdom have the discretion to deny the enforcement of any contractual or other obligations, if, in their opinion, the enforcement thereof would be contrary to the principles of *Shari'a*. As such there can be no assurance that the Saudi courts will recognise and enforce any arbitral award made under the arbitration agreement.

Further, the application of the Bankruptcy Law (issued pursuant to Royal Decree No. M/50 dated 28/05/1439H (corresponding to 14/02/2018G)) as amended (the **Bankruptcy Law**) may adversely impact the performance of certain obligations and the enforceability of certain provisions under the Transaction Documents. The Bankruptcy Law, which came into effect on 18 August 2018, contains several provisions that are untested or are subject to different interpretations. Therefore, there is some uncertainty as to the practical application of certain provisions under the Bankruptcy Law.

Arbitral awards relating to disputes under the Transaction Documents may not be enforceable in the Kingdom

The parties to the Transaction Documents have agreed to refer any unresolved dispute in relation to the Transaction Documents to arbitration under the LCIA Arbitration Rules with an arbitral tribunal with its seat in London.

The Enforcement Courts have jurisdiction over the enforcement of enforcement instruments as defined in the Enforcement Law (Royal Decree No. M/53 dated 13/08/1433H (corresponding to 03/07/2012G), as amended). The Enforcement Courts may enforce all or any part of a foreign arbitral award provided that: (a) there is reciprocity in the enforcement of Saudi judgments or arbitral awards in the courts of the relevant jurisdiction; (b) the courts of the Kingdom do not hold exclusive jurisdiction over the dispute and the foreign arbitral award was issued in accordance with the jurisdictional rules of that country; (c) the respective parties to the foreign arbitral award were present, duly represented and able to defend themselves; (d) the arbitral award is final; (e) the arbitral award does not conflict with any ruling or order issued by a court of competent jurisdiction on the same matter in the Kingdom; and (f) the arbitral award is not contrary to any public policy of the Kingdom.

Although reciprocity may be demonstrated by way of the existence of a treaty or protocol between the Kingdom and the United Kingdom, such as the New York Convention on the Recognition and Enforcement of Foreign Arbitral Awards 1958 (the **New York Convention**), enforcement in the Kingdom of a foreign arbitral award is not certain. For example, there are a number of circumstances in which recognition of an arbitral award under the New York Convention may be declined, including where the award is contrary to the public policy of the receiving state. As a consequence, any arbitral award deemed by a court in the Kingdom as contrary to the public policy of the Kingdom may not be enforceable in the Kingdom. As such, the Trustee or the Delegate (on behalf of Certificateholders) may ultimately not be able to enforce Dar Al-Arkan's obligations under the Transaction Documents to which it is a party.

The interpretation of the compliance of the Certificates and the Transaction Documents with Shari'a principles may differ amongst Saudi courts and judicial committees

Certain Transaction Documents will be governed by, and will be construed in accordance with, the laws and regulations of the Kingdom. Prospective investors should note that the various courts and judicial committees of the Kingdom applying the laws and regulations of the Kingdom, and in particular the relevant principles of Islamic law (*Shari'a*) are generally construed and applied pursuant to the teachings of the Hanbali school of jurisprudence, which may interpret or enforce, or reinterpret, any Transaction Documents governed by the laws and regulations of the Kingdom other than in accordance with their respective terms. There are majority and minority views within the Hanbali school of jurisprudence either of which may be applied in any particular case. In this regard, the courts and judicial committees of the Kingdom may decline to enforce any contractual or other obligations (including any provisions relating to the payment of profit) if it is their view that the enforcement thereof would be contrary to principles of *Shari'a*.

Prospective investors should note that to the best of the Trustee's and Dar Al-Arkan's knowledge, no securities of a similar nature to the Certificates have previously been the subject of adjudicatory interpretation or enforcement in the Kingdom. Accordingly, it is uncertain exactly how and to what extent the Transaction Documents to which Dar Al-Arkan is a party (or any of them), would be enforced by any courts and judicial committees of the Kingdom.

Prospective investors should note that different *Shari'a* advisers and courts and judicial committees in the Kingdom may form different opinions on identical issues and therefore prospective investors should consult their own legal and *Shari'a* advisers to receive an opinion, as to the compliance or otherwise of the Certificates and the Transaction Documents with *Shari'a* principles. Prospective investors should also note that although the *Shari'a* advisers of J.P. Morgan, the Internal Sharia Supervision Committee of Emirates NBD – Islamic and the Standard Chartered Bank Global Shariah Supervisory Committee have confirmed that the Transaction Documents are, in their view, compliant with the principles of *Shari'a* as applicable to, and interpreted by, them, such approvals and confirmations would not bind a court or judicial committee in the Kingdom, including in the context of any insolvency or bankruptcy proceedings relating to Dar Al-Arkan, and any court or judicial committee in the

Kingdom will have the discretion to make its own determination about whether the Transaction Documents comply with the laws of the Kingdom and *Shari'a* principles and therefore are enforceable in the Kingdom.

There are concerns as to the effectiveness under the laws and regulations of the Kingdom of any transfer of an interest in an asset in the Kingdom to a Saudi company on behalf of foreign nationals unless a corporate presence is formed in the Kingdom and the relevant licensing requirements have been met

The Investment Law issued under Royal Decree No. M/19 dated 16/01/1446H (corresponding to 22/07/2024G) (the **Investment Law**) as amended and the Anti-Cover Up Law issued under Royal Decree No. M/4 dated 01/01/1442H (corresponding to 20/08/2020G) (the **Anti-Cover Up Law**) prohibit persons and companies in the Kingdom from doing business in the Kingdom on behalf of foreign nationals unless they meet certain requirements, including certain filing and registration licensing requirements (or licensing requirements for activities appearing on the list of excluded activities to be issued and updated from time to time by the Standing Ministerial Committee for Examination of Foreign Investments established pursuant to the Council of Ministers' resolution no. 83 dated 30/01/1443H (corresponding to 07/09/2021G) and published by the Ministry of Investment). The Trustee could be interpreted as contravening this prohibition by entering into the Purchase Agreement and the other relevant Transaction Documents to which it is a party.

On the basis of the foregoing, prospective investors should note that there is uncertainty as to the effectiveness under the laws and regulations of the Kingdom of any transfer of an interest in an asset in the Kingdom pursuant to the Transaction Documents relating to a Series, absent compliance with the matters specified above. As a result, if the Trustee fails to comply with its obligations under the Transaction Documents to which it is a party, a Saudi court, judicial or administrative tribunal or government authority is likely proceed in one of the following two ways:

- (a) a Saudi court or judicial or administrative tribunal may consider the Transaction Documents as a whole and give effect to the commercial intention of the parties to treat the arrangements set out therein as a financing transaction without requiring compliance with the Foreign Investment Law (and as not being in breach of the Anti-Cover Up Law), and subject to the other risks described in this "*Risk factors which are material for the purpose of assessing the risks associated with enforcement in the Kingdom of Saudi Arabia*" section may enforce the payment obligations set out in the relevant Transaction Documents; or
- (b) a Saudi court or judicial or administrative tribunal may characterise the transactions contemplated by the Purchase Agreement and the other relevant Transaction Documents as an unlawful investment which is void as a result of non-compliance with any of the matters specified above. If that is the case, a Saudi court, judicial or administrative tribunal or government authority is likely to require that Dar Al-Arkan return to the Trustee the relevant proceeds of the issuance of the Certificates of the relevant Series less any rental amounts already paid, and may appoint an expert to determine the amount of damages (if any) to which the parties may be entitled.

Claims for specific performance under the Transaction Documents may not be granted and there can be no assurances as to the level of damages that may be awarded in the event of a breach under the Transaction Documents.

In the event that Dar Al-Arkan fails to perform its obligations under any Transaction Document, the potential remedies available to the Trustee and the Delegate include obtaining an order for specific performance of the relevant obligations or a claim for damages. On the basis of the above, there can be no assurance that a court will provide an order for specific performance which is a discretionary matter. Furthermore, the amount of damages which a court in the Kingdom may award in respect of a breach will depend upon a number of possible factors including an obligation on the Trustee, Dar Al-Arkan or the Delegate to mitigate any loss arising as a result of the breach. No assurances can be provided as to the level of damages a court may award in the event of a failure by Dar Al-Arkan to perform its obligations as set out in the Transaction Documents, and therefore prospective Certificateholders should note that, if damages are awarded, they may receive less than they would had an order for specific performance been granted, therefore leaving them in a detrimental position.

Courts and judicial committees of the Kingdom will not give effect to penalties and certain types of indemnities

Prospective investors should note that should any provision of the Transaction Documents be construed by a court or judicial committee in the Kingdom to be an agreement to pay a penalty rather than a genuine estimate of loss incurred, such provision would not be enforced in the Kingdom. Further, any indemnity provided by Dar Al-Arkan

pursuant to the Transaction Documents or in relation to any Series may not be enforceable under the laws and regulations of the Kingdom to the extent that it: (a) purports to be effective notwithstanding any judgment or order of a court to the contrary, or (b) is contrary to any applicable law or public policy relating thereto. Prospective Certificateholders should note that the courts and judicial committees of the Kingdom may not give effect to any of the Dar Al-Arkan Events other than those Dar Al-Arkan Events relating to the non-payment of amounts due under the Transaction Documents. As such, Certificateholders may ultimately not be able to enforce the Trustee's and/or Dar Al-Arkan's relevant obligations under the Transaction Documents.

Courts and judicial committees of the Kingdom may not give effect to unilateral promises

Under *Shari'a* there are different opinions amongst scholars with respect to the enforceability of a unilateral promise which can be divided into three distinct positions: (i) a unilateral promise will be enforceable in all circumstances, (ii) a unilateral promise will not be enforceable in any circumstances and (iii) a unilateral promise will be enforceable where a breach would cause harm to the promisee. The Civil Transactions Law further provides for the undertaking of an obligation unilaterally in circumstances prescribed by statute. In addition, the absence of both a doctrine of binding precedent in the Kingdom and a public centralised index of previous judgments of courts and judicial committees allow judges notable interpretative discretion and thus render it difficult to predict which of the above positions would be followed by a court or judicial committee in the Kingdom. As a result, such a unilateral promise may not create an obligation which would be enforceable before the courts and judicial committees of the Kingdom. The Purchase Undertaking is a unilateral promise from Dar Al-Arkan to the Trustee and the Delegate. Accordingly, prospective investors should be aware that its terms may not be enforceable before the courts and judicial committees of the Kingdom and, as a consequence, Certificateholders may not receive the relevant Dissolution Amount due to them under the Certificates.

A court may not grant an order for specific performance

In the event that Dar Al-Arkan fails to perform its obligations under any Transaction Document to which it is a party, the potential remedies available to the Trustee and the Delegate include obtaining an order for specific performance of the relevant obligations or a claim for damages. On the basis of the above, there can be no assurance that a court will provide an order for specific performance which is a discretionary matter. Furthermore, the amount of damages which a court in the Kingdom may award in respect of a breach will depend upon a number of possible factors including an obligation on the Trustee, Dar Al-Arkan or the Delegate to mitigate any loss arising as a result of the breach. No assurances can be provided as to the level of damages a Saudi court may award in the event of a failure by Dar Al-Arkan to perform its obligations as set out in the Transaction Documents to which it is a party, and therefore prospective investors should note that, if damages are awarded, they may receive less than they would had an order for specific performance been granted, therefore leaving them in a detrimental position.

The terms of Trust Deeds may not be enforceable in the Kingdom

The English law concept of a trust does not exist as such in the Kingdom. Accordingly, there is no certainty that the terms of the Master Trust Deed and any Supplemental Trust Deed (each of which will be governed by English law) would be enforced by the courts of the Kingdom and, as such, there can be no assurance that the obligations of the Trustee and/or the Delegate under the Master Trust Deed and any Supplemental Trust Deed to act on behalf of the Certificateholders in accordance with their instructions (given in accordance with the Conditions) are enforceable as a matter of contract under the laws of the Kingdom or that the courts of the Kingdom would recognise any claim of the Delegate (on behalf of Certificateholders) under the Transaction Documents pursuant to the Master Trust Deed. Accordingly, prospective investors should be aware that the terms of the Master Trust Deed may not be enforceable before the courts and judicial committees of the Kingdom and, as a consequence, Certificateholders may not receive the relevant Dissolution Amount due to them under the Certificates.

No assurances can be given as to any change of law after the date of this Base Prospectus

The structure of each issue of Certificates under the Programme is based on English law, Cayman Islands law, the laws and regulations of the Kingdom and administrative practices therein in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible change to, or interpretation of, English law, Cayman Islands law or the laws and regulations of the Kingdom or administrative practices in such jurisdiction after the date of this Base Prospectus, nor can any assurance be given as to whether any such change

could adversely affect the ability of the Trustee to make payments under the Certificates or of Dar Al-Arkan to comply with its obligations under the Transaction Documents to which it is a party.

Compliance with bankruptcy laws in the Kingdom may affect Dar Al-Arkan's ability to perform its obligations under the Transaction Documents to which it is a party

The Bankruptcy Law creates several bankruptcy procedures. If Dar Al-Arkan would be fulfilling the conditions to benefit from any of those bankruptcy procedures, this may adversely affect Dar Al-Arkan's ability to perform its obligations under the Transaction Documents to which it is a party and, in turn, affect the Trustee's ability to perform its obligations in respect of the Certificates. There is little precedent to predict how claims by or on behalf of the Certificateholders and/or the Delegate would be resolved in the event of Dar Al-Arkan's fulfilling the conditions of any of those bankruptcy procedures and accordingly it is uncertain exactly how and to what extent the Transaction Documents would be enforced by a Saudi adjudicatory body in that situation, and therefore there can be no assurance that Certificateholders will receive repayment of their claims in full or at all in these circumstances.

Emerging markets are subject to greater risks than more developed markets

Investors in emerging markets should be aware that these markets are subject to greater risks than more developed markets, including, in some cases, significant legal, economic and political risks. Accordingly, investors should exercise particular care in evaluating the risks involved and must decide for themselves whether, in light of those risks, their investment is appropriate. Generally, investment in emerging markets is only suitable for sophisticated investors who fully appreciate the significance of the risk involved.

Accordingly, there can be no assurance that the market for securities bearing emerging market risk, such as the Certificates, will not be affected negatively by events elsewhere, especially in other emerging markets.

The legal system in the Kingdom continues to develop and this, as well as certain aspects of the laws of the Kingdom, may create an uncertain environment for investment and business activity

On 29/11/1444H (corresponding to 19/06/2023G), the new civil transactions law was enacted by Royal Decree No. M/191 and came into force on 03/06/1445H (corresponding to 16/12/2023G) (the **Civil Transactions Law**). This legislation aims to codify various areas of law, including obligations, contracts, torts and property. The Civil Transactions Law applies retroactively, except where a party has relied on a statutory provision or judicial principle that contradicts the Civil Transactions Law prior to it coming into force or in respect of a prescriptive period which commenced prior to the Civil Transactions Law coming into effect. The provisions of the Civil Transactions Law remain largely untested in practice and the interpretation of many of its provisions, and the impact such provisions may have on the Certificates, is not yet certain. Accordingly, it is uncertain exactly how and to what extent any Certificate, the Conditions and/or the Transaction Documents would be enforced by a Saudi court or any other Saudi adjudicatory body.

Under *Shari'a* as applied in the Kingdom, a loan that generates a benefit to the lender is considered "*riba*", and this prohibition has recently been codified in the Civil Transactions Law. As such, an obligation to pay interest or a sum in the nature of interest (whether described as "commission", "profit" or another synonym), including any form of benefits, is not enforceable. Prospective investors should note that the provisions of the Transaction Documents relating to the payment of commission or profit (whether described as "commission", "profit" or another synonym) and possibly any arrangement, commitment, agency, administration or upfront fees, may not be enforceable under the laws of the Kingdom and therefore prospective investors may not be able to enforce their right to receive such amounts under the Transaction Documents.

A court or judicial committee in the Kingdom is likely to refuse to give a judgment in respect of principal amounts to the payee of such amounts in an amount greater than the principal sums found by such court or judicial committee to be due and payable less the amount of sums in the nature of interest (however described) already paid by the payer to the payee. Any amounts previously paid to the Certificateholders on the Certificates and/or pursuant to the Transaction Documents in respect of sums in the nature of commission or profit may therefore reduce the amount receivable by the Certificateholders in relation to payments of principal.

Investors are required to rely on Euroclear and Clearstream, Luxembourg procedures whilst Certificates are held in those clearing systems

The Certificates of each Series will be represented on issue by a Global Certificate that will be deposited with a common depositary for Euroclear and Clearstream, Luxembourg. Except in the circumstances described in each

Global Certificate, investors will not be entitled to receive Certificates in definitive form. Euroclear and Clearstream, Luxembourg and their respective direct and indirect participants will maintain records of the ownership interests in Global Certificates. While the Certificates of any Series are represented by a Global Certificate, investors will be able to trade their ownership interests only through Euroclear and Clearstream, Luxembourg and their respective participants.

While the Certificates of any Series are represented by a Global Certificate, the Trustee will discharge its payment obligations under the Certificates by making payments through the relevant clearing systems. A holder of an ownership interest in a Global Certificate must rely on the procedures of the relevant clearing system and its participants to receive payments under the relevant Certificates. The Trustee has no responsibility or liability for the records relating to, or payments made in respect of, ownership interests in any Global Certificate.

Holders of ownership interests in a Global Certificate will not have a direct right to vote in respect of the relevant Certificates. Instead, such holders will be permitted to act only to the extent that they are enabled by the relevant clearing system and its participants to appoint appropriate proxies.

Credit ratings may not reflect all risks, are not recommendations to buy or hold securities and may be subject to revision, suspension or withdrawal at any time

Dar Al-Arkan has been rated B1 by Moody's Investors Service Limited (**Moody's**). In addition, one or more independent credit rating agencies may assign credit ratings to the Certificates. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by its assigning rating agency at any time. Any ratings of Dar Al-Arkan or the Certificates may not reflect the potential impact of all the risks related to the structure, market, additional factors discussed herein and other factors that may affect the value of the Certificates. No assurances can be given that a credit rating will remain constant for any given period of time or that a credit rating will not be lowered or withdrawn entirely by the credit rating agency if, in its judgement, circumstances in the future so warrant. Any actual or anticipated changes in Dar Al-Arkan's credit ratings or the ratings of the Certificates may adversely affect the cost and terms and conditions of our financings and could negatively affect the market value and trading of the Certificates.

Dar Al-Arkan has engaged in, and may engage in, discussions from time to time with other international and regional credit rating agencies regarding a corporate rating, although no such corporate rating currently exists. However, should Dar Al-Arkan and/or any Certificates be rated in the future by one or more of these credit rating agencies, there can be no assurance that any rating(s) assigned to Dar Al-Arkan and/or any Certificates would be at least equivalent to the corporate rating assigned by Moody's at such time.

In general, European regulated investors are restricted under the CRA Regulation from using credit ratings for regulatory purposes in the EEA, unless such ratings are issued by a credit rating agency established in the EEA and registered under the CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances. Such general restriction will also apply in the case of credit ratings issued by third country non-EEA credit rating agencies, unless the relevant credit ratings are endorsed by an EEA-registered credit rating agency or the relevant third country rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances). The list of registered and certified rating agencies published by ESMA on its website in accordance with the CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and publication of an updated ESMA list.

Investors regulated in the UK are subject to similar restrictions under the UK CRA Regulation. As such, UK regulated investors are required to use for UK regulatory purposes ratings issued by a credit rating agency established in the UK and registered under the UK CRA Regulation. In the case of ratings issued by third country non-UK credit rating agencies, third country credit ratings can either be: (a) endorsed by a UK registered credit rating agency; or (b) issued by a third country credit rating agency that is certified in accordance with the UK CRA Regulation. This is subject, in each case, to (a) the relevant UK registration, certification or endorsement, as the case may be, not having been withdrawn or suspended, and (b) transitional provisions that apply in certain circumstances.

If the status of the rating agency rating the Certificates changes for the purposes of the CRA Regulation or the UK CRA Regulation, relevant regulated investors may no longer be able to use the rating for regulatory purposes in the EEA or the UK, as applicable, and the Certificates may have a different regulatory treatment, which may

impact the value of the Certificates and their liquidity in the secondary market. Certain information with respect to the credit rating agencies and ratings will be disclosed in the applicable Final Terms.

Certificates which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade

In relation to any issue of Certificates which have a denomination consisting of the minimum Specified Denomination (as defined in the Conditions) plus a higher integral multiple of another smaller amount, it is possible that the Certificates may be traded in amounts in excess of such minimum Specified Denomination that are not integral multiples of such minimum Specified Denomination. In such a case a Certificateholder who, as a result of trading such amounts, holds a face amount of less than the minimum Specified Denomination would need to purchase an additional amount of Certificates such that it holds an amount equal to at least the minimum Specified Denomination to be able to trade such Certificates. Certificateholders should be aware that Certificates which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

If a Certificateholder holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time such Certificateholder may not receive a definitive Certificate in respect of such holding (should definitive Certificates be printed) and would need to purchase a face amount of Certificates such that its holding amounts to at least a Specified Denomination in order to be eligible to receive a definitive Certificate.

If definitive Certificates are issued, holders should be aware that definitive Certificates which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

Defined majorities of Certificateholders and the Delegate can consent to variation of certain provisions in the Transaction Documents

The Conditions of the Certificates contain provisions for calling meetings of Certificateholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Certificateholders including Certificateholders who did not attend and vote at the relevant meeting and Certificateholders who voted in a manner contrary to the majority.

The Master Trust Deed contains provisions permitting the Delegate from time to time and at any time without any consent or sanction of the Certificateholders to make any modification (other than in the case of a Reserved Matter or any provision of the Master Trust Deed or the Conditions referred to in the definition of a Reserved Matter) to the Master Trust Deed, any Supplemental Trust Deed or any other Transaction Document if, in the opinion of the Delegate, such modification (a) is of a formal, minor or technical nature, or (b) is made to correct a manifest error, or (c) is not materially prejudicial to the interests of the relevant Certificateholders. Unless the Delegate otherwise agrees, any such modification shall as soon as practicable thereafter be notified to the relevant Certificateholders and shall in any event be binding upon the relevant Certificateholders.

Certain Certificateholders may be exposed to currency conversion risk due to Certificates being denominated in a currency other than the currency or currency unit in which that Certificateholder's financial activities are principally denominated

The Trustee will make all payments on the Certificates. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the **Investor's Currency**) other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls which could adversely affect an applicable exchange rate. The Trustee does not have any control over the factors that generally affect these risks, such as economic, financial and political events and the supply and demand for applicable currencies. In recent years, exchange rates between certain currencies have been volatile and volatility between such currencies or with other currencies may be expected in the future. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Certificates, (2) the Investor's Currency equivalent value of the principal payable on the Certificates and (3) the Investor's Currency equivalent market value of the Certificates.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate as well as the availability of a specified foreign currency at the time of any payment of any Periodic Distribution Amount or Dissolution Amount on a Certificate. As a result, investors

may receive less amounts under the Certificates than expected, or no such amounts. Even if there are no actual exchange controls, it is possible that the Specified Currency for any particular Certificate may not be available at such Certificate's maturity.

Payments by the Certificateholders and the Trustee

On the Issue Date of each Series of Certificates, the Certificateholders will pay the issue price (the **Issue Price**) in respect of the Certificates to the Trustee, and the Trustee will apply the Issue Price as follows:

- an amount as specified in the applicable Final Terms, which is equal to no less than 55 per cent. of the aggregate face amount of the relevant Certificates, to, or to the order of, Dar Al-Arkan (or any of its Restricted Subsidiaries) (in its capacity as seller, the **Seller**) as the purchase price payable for the purchase from the Seller of all of its rights, title, interest, benefits and entitlements in, to and under certain Eligible Assets (as defined below) (the **Assets**) under the Master Purchase Agreement, as supplemented by the relevant Supplemental Purchase Agreement; and

- (b) if applicable, the remaining proportion of the proceeds of the Issue Price as specified in the applicable Final Terms, which shall be equal to no more than 45 per cent. of the aggregate face amount of the relevant Certificates as the cost price (the **Murabaha Investment Amount**) to purchase certain *Shari'a* compliant commodities (the **Commodities**) for the purpose of the Trustee selling such Commodities to Dar Al-Arkan (in its capacity as buyer, the **Buyer**) on a deferred payment basis for a deferred sale price comprising the Murabaha Investment Amount together with a profit amount specified in an offer notice (the **Deferred Sale Price**) payable on the relevant Dissolution Date pursuant to a murabaha contract (the **Murabaha Contract**) (such sale of Commodities to the Buyer, the **Commodity Murabaha Investment**).

Eligible Assets means real estate assets owned by the Seller and located in the Kingdom (excluding the cities of Makkah and Medina).

On the Issue Date of each Series of Certificates, pursuant to the terms of the Master Lease Agreement, as supplemented by the relevant Supplemental Lease Agreement, the Trustee (in its capacity as lessor, the **Lessor**) shall lease to Dar Al-Arkan (in its capacity as lessee, the **Lessee**) and the Lessee shall lease from the Lessor, the Assets (the **Lease Assets**) for a lease term equal to the tenor of the relevant Certificates in consideration for payment of a periodic rental amount (the **Rental**).

Periodic Distribution Payments

On the Payment Business Day immediately preceding each Periodic Distribution Date in relation to each Series of Certificates, Dar Al-Arkan (in its capacity as service agent, the **Service Agent**) shall apply amounts standing to the credit of a ledger account (the **Collection Account**) comprised of an amount equal to the Rental payable by the Lessee pursuant to the Master Lease Agreement, as supplemented by the relevant Supplemental Lease Agreement and, if applicable, the instalment component (the **Deferred Sale Price Instalment**) of the Deferred Sale Price payable in respect of the Commodity Murabaha Investment, in each case in connection with such Periodic Distribution Date, into an account maintained in London in the Trustee's name (the **Transaction Account**), which is intended to fund an amount equal to the aggregate of the Periodic Distribution Amounts payable by the Trustee under the Certificates of the relevant Series on the immediately following Periodic Distribution Date (the **Required Amount**) and shall be applied by the Trustee for that purpose.

Dissolution Payments

On the Payment Business Day immediately preceding the Scheduled Dissolution Date in relation to each Series of Certificates:

- (a) the Trustee shall have the right under the Purchase Undertaking to require Dar Al-Arkan to purchase from the Trustee all of the Trustee's rights, title, interest, benefits and entitlements in, to and under, the Lease Assets at the Exercise Price; and
- (b) the aggregate amounts of Deferred Sale Price then outstanding, if any, shall become immediately due and payable under the Master Murabaha Agreement,

and such amounts are intended to fund the relevant Dissolution Amount payable by the Trustee under the Certificates of the relevant Series on the Scheduled Dissolution Date.

The Certificates in relation to any Series may be redeemed in whole or in part, as the case may be, prior to the Scheduled Dissolution Date for the following reasons: (i) for taxation reasons, (ii) if so specified in the applicable Final Terms as being applicable, at the option of Dar Al-Arkan, (iii) if so specified in the applicable Final Terms as being applicable, at the option of the Certificateholders, (iv) at the option of the Certificateholders following a Change of Control, (v) at the option of the Certificateholders following a Tangibility Event, (vi) for clean-up reasons, (vii) provided that the Lease Assets have not been replaced in accordance with the Service Agency Agreement, following a Total Loss Event, and (viii) following a Dissolution Event.

In the case of each of (i), (ii), (iii), (iv), (v), (vi) and (viii) above, such redemption of the Certificates shall be funded in a similar manner as for the payment of the relevant Dissolution Amount on the Scheduled Dissolution Date, save that, in the case of (i) and (ii) only, Dar Al-Arkan shall have the right under the Sale and Substitution

Undertaking to require the Trustee to sell, transfer and convey to it all of the Trustee's rights, title, interest, benefits and entitlements in, to and under, the Lease Assets at the Exercise Price.

In the case of (vii) above, on the Total Loss Dissolution Date:

- (a) the Trustee shall have the right under the Service Agency Agreement to receive all insurance proceeds relating to the Lease Assets together with, if applicable, any Loss Shortfall Amount payable by the Service Agent in connection therewith; and
- (b) aggregate amounts of Deferred Sale Price then outstanding, if any, shall become immediately due and payable under the Master Murabaha Agreement.

Following the occurrence of a Tangibility Event, as determined in consultation with the *Shari'a* Adviser, the Certificates should be tradable only in accordance with the *Shari'a* principles of debt trading (such as the principle that debt is to be traded against assets and/or eligible commodities on a spot settlement basis).

On the date falling 15 days following the Tangibility Event Put Right Date, the Certificates will be delisted from any stock exchange (if any) on which the Certificates have been admitted to listing.

Dissolution following a Total Loss Event:

Following the occurrence of a Total Loss Event in respect of a Series of Certificates, the relevant Supplemental Lease Agreement and the lease shall be automatically terminated on the date of occurrence of such Total Loss Event (and, unless the Lease Assets have been replaced in accordance with the Service Agency Agreement and accordingly a replacement Supplemental Lease Agreement has been entered into, further payments of Rental shall cease to accrue on such date of occurrence of the Total Loss Event) in accordance with the Master Lease Agreement. The Trustee shall redeem the Certificates in whole, but not in part, on the relevant Total Loss Dissolution Date at the relevant Total Loss Dissolution Amount together with any accrued but unpaid Periodic Distribution Amounts in accordance with Condition 11.7.

Following the occurrence of a Total Loss Event in respect of a Series of Certificates, (a) from the date of the Trading and Delisting Notice and until any further notice from the Trustee, in consultation with the *Shari'a* Adviser, stating otherwise, the Certificates should be tradable only in accordance with the *Shari'a* principles of debt trading (such as the principle that debt is to be traded against tangible assets and/or eligible commodities on a spot settlement basis); and (b) on the date of such Trading and Delisting Notice, an application will be made for the Certificates to be delisted from any stock exchange (if any) on which the Certificates have been admitted to listing, or if such date is not a business day, the next following business day (**business day** being for this purpose, a day on which the stock exchange on which the Certificates are admitted to listing is open for business).

Partial Loss Event:

Following the occurrence of a Partial Loss Event in respect of a Series of Certificates and provided that:

- (a) the Lease Assets have not been replaced in accordance with the Service Agency Agreement and a notice of termination (such notice, a **Partial Loss Termination Notice**) of the lease on the 61st day after the date of occurrence of a Partial Loss Event has been delivered by Dar Al-Arkan to the Trustee within 30 days following the occurrence of the Partial Loss Event in accordance with the Master Lease Agreement, as supplemented by the relevant Supplemental Lease Agreement; or
- (b) the Lease Assets have not been replaced in accordance with the Service Agency Agreement,

the relevant Supplemental Lease Agreement and the lease shall be automatically terminated on the 61st day following the occurrence of the Partial Loss Event (and further payments of Rental shall cease to accrue on such 61st day following the occurrence of the Partial Loss Event) in accordance with the Master Lease Agreement (such termination as a result of either of the circumstances described in (a) or (b), being a **Partial Loss Dissolution Event**). A Partial Loss Dissolution Event shall constitute a Dar

Al-Arkan Event, which in turn shall constitute a Dissolution Event.

In relation to each Series of Certificates, if as a result of a Partial Loss Event the ratio of (a) the Value of the Lease Assets (which for this purpose shall exclude any Impaired Assets) to (b) the aggregate of the Value of the Lease Assets and, if applicable for such Series of Certificates, the aggregate amounts of outstanding Deferred Sale Price applicable to such Series at such time, falls below 33 per cent., Certificateholders will be promptly notified (i) of the occurrence of such event; (ii) that, from the date of the relevant Trading and Delisting Notice and until any further notice from the Trustee, in consultation with the *Shari'a* Adviser, stating otherwise the Certificates should be tradable only in accordance with the *Shari'a* principles of debt trading (such as the principle that debt is to be traded against tangible assets and/or eligible commodities on a spot settlement basis); and (iii) on the date of such Trading and Delisting Notice, an application will be made for the Certificates to be delisted from any stock exchange (if any) on which the Certificates have been admitted to listing, or if such date is not a business day, the next following business day (**business day** being for this purpose, a day on which the stock exchange on which the Certificates are admitted to listing is open for business).

Trustee Covenants:

The Trustee has agreed to certain restrictive covenants as set out in Condition 5.

Dar Al-Arkan and Restricted
Subsidiary Covenants:

Dar Al-Arkan has agreed to certain restrictive covenants limiting its ability and the ability of its Restricted Subsidiaries to, *inter alia*:

- (a) incur additional indebtedness;
- (b) pay dividends or make other distributions to shareholders;
- (c) enter into arrangements that restrict dividends or other payments from subsidiaries;
- (d) sell assets, including stock of subsidiaries;
- (e) enter into transactions with affiliates;
- (f) engage in different business activities;
- (g) create liens on assets to secure debt;
- (h) enter into sale and leaseback transactions; and
- (i) merge or consolidate with another company,

as set out in Condition 6.

If, on any date following the Issue Date of any Series, the relevant Certificates have an Investment Grade rating from both of the Rating Agencies and no Dissolution Event or Dar Al-Arkan Event has occurred and is continuing, certain covenants shall not apply to the relevant Certificates until such time, if any, as the relevant Certificates are downgraded below Investment Grade.

Cancellation of Certificates held
by Dar Al-Arkan and/or any of
its Subsidiaries:

Pursuant to Condition 14, Dar Al-Arkan and/or any of its Subsidiaries may at any time purchase Certificates in the open market or otherwise. If Dar Al-Arkan wishes to cancel such Certificates purchased by it and/or any of

its Subsidiaries, Dar Al-Arkan will deliver those Certificates to the Principal Paying Agent for cancellation on the next succeeding Periodic Distribution Date.

Withholding Tax:

All payments in respect of Certificates by the Trustee shall be made without withholding or deduction for, or on account of, any Taxes. In such event, the Trustee will, save in the limited circumstances provided in Condition 12, be required to pay additional amounts so that the holders of the Certificates will receive the full amounts that they would have received in the absence of any such withholding or deduction.

Further, in accordance with the Master Trust Deed, Dar Al-Arkan has unconditionally and irrevocably undertaken to (irrespective of the payment of any fee), as a continuing obligation, in the event that the Trustee fails to comply with any obligation to pay additional amounts pursuant to Condition 12, pay to or to the order of the Delegate (for the benefit of the Certificateholders) such net amounts as are necessary so that the amount receivable by the Delegate (after any withholding or deduction for or an account of Taxes) equals any and all additional amounts, required to be paid by it in respect of the Certificates pursuant to Condition 12.

The Transaction Documents to which it is a party provide that payments thereunder by Dar Al-Arkan shall be made without any withholding or deduction for, or on account of, any taxes unless such withholding or deduction is required by law and, in the event there is any such withholding or deduction required by law in the Kingdom, provide for the payment by Dar Al-Arkan of such additional amounts as will result in the receipt by Trustee of the net amounts as would have been receivable by it if no such withholding or deduction had been made.

Ratings:

The ratings assigned to certain Series to be issued under the Programme will be specified in the applicable Final Terms. A rating is not a recommendation to buy, sell or hold securities, does not address the likelihood or timing of payment and may be subject to revision, suspension or withdrawal at any time by the assigning rating agency.

Certificateholder Meetings:

A summary of the provisions for convening meetings of Certificateholders of each Series to consider matters relating to their interests as such is set out in Condition 19.

Tax Considerations:

See "*Taxation*" for a description of certain tax considerations applicable to the Certificates.

Listing and Admission to Trading:

Application has been made to the FCA for Certificates (other than Exempt Certificates) issued under the Programme to be admitted to the Official List and to the London Stock Exchange for such Certificates to be admitted to trading on the London Stock Exchange's main market.

Certificates may also be issued and listed (or admitted to trading, as the case may be), on other or further stock exchanges or markets agreed between the Trustee, Dar Al-Arkan and the relevant Dealer in relation to such Series. Certificates which are neither listed nor admitted to trading on any market may also be issued.

The applicable Final Terms will state whether or not the relevant Certificates are to be listed and/or admitted to trading and, if so, on which stock exchanges and/or markets.

Transaction Documents:

The Transaction Documents in relation to each Series are the Master Trust Deed, as supplemented by the relevant Supplemental Trust Deed, the

	Agency Agreement, the Master Purchase Agreement, as supplemented by the relevant Supplemental Purchase Agreement, the Master Lease Agreement, as supplemented by the relevant Supplemental Lease Agreement, the Service Agency Agreement, the Purchase Undertaking, the Sale and Substitution Undertaking and the Master Murabaha Agreement (together with all documents, notices of request to purchase, offer notices and acceptances delivered or entered into as contemplated by the Master Murabaha Agreement in connection with the relevant Series).
Governing Law and Dispute Resolution:	The Certificates of each Series and any non-contractual obligations arising out of or in connection with the Certificates of each Series will be governed by, and construed in accordance with, English law. The Transaction Documents (other than the Master Purchase Agreement, the relevant Supplemental Purchase Agreement, the Master Lease Agreement and the relevant Supplemental Lease Agreement) and any non-contractual obligations arising out of or in connection with the same will be governed by, and construed in accordance with, English law. In respect of any dispute under any Transaction Document to which it is a party, Dar Al-Arkan has agreed to arbitration in London under the LCIA Arbitration Rules. The Master Purchase Agreement, the relevant Supplemental Purchase Agreement, the Master Lease Agreement and the relevant Supplemental Lease Agreement will be governed by, and construed in accordance with, the laws and regulations of the Kingdom. The Corporate Services Agreement will be governed by the laws of the Cayman Islands and will be subject to the non-exclusive jurisdiction of the courts of the Cayman Islands.
Limited Recourse:	Each Certificate represents solely an undivided ownership interest in the relevant Trust Assets. No payment of any amount whatsoever shall be made in respect of the Certificates except to the extent that funds for that purpose are available for the relevant Trust Assets. Certificateholders will otherwise have no recourse to any assets of the Trustee, the Delegate, the Agents or Dar Al-Arkan in respect of any shortfall in the expected amounts due under the relevant Trust Assets to the extent the Trust Assets have been exhausted, following which all obligations of the Trustee shall be extinguished. FORM OF THE CERTIFICATES

The Certificates of each Series will be in registered form. Certificates will be issued outside the United States to persons who are not U.S. persons in reliance on Regulation S.

Each Series will initially be represented by a global certificate in registered form (a **Global Certificate**). Global Certificates will be deposited with a common depositary for Euroclear Bank SA/NV (**Euroclear**) and Clearstream Banking S.A. (**Clearstream, Luxembourg**) and will be registered in the name of a nominee for the common depositary. Persons holding ownership interests in Global Certificates will be entitled or required, as the case may be, under the circumstances described below, to receive physical delivery of definitive Certificates in fully registered form.

Payments of any amount in respect of each Global Certificate will, in the absence of any provision to the contrary, be made to the person shown on the relevant Register (as defined in Condition 1.2) as the registered holder of the relevant Global Certificate. None of the Trustee, the Delegate, any Agent will have any responsibility or liability for any aspect of the records relating to or payments made on account of ownership interests in the Global Certificates or for maintaining, supervising or reviewing any records relating to such ownership interests.

Payment of any amounts in respect of Certificates in definitive form will, in the absence of any provision to the contrary, be made to the persons shown on the relevant Register on the relevant Record Date (as defined in Condition 9.1) immediately preceding the due date for payment in the manner provided in the Conditions.

Interests in a Global Certificate will be exchangeable (free of charge) in whole, but not in part, for definitive Certificates only upon the occurrence of an Exchange Event. The Trustee will promptly give notice to Certificateholders in accordance with Condition 18 if an Exchange Event occurs. For these purposes, Exchange Event means that (i) a Dissolution Event (as defined in Condition 15) has occurred and is continuing, or (ii) the Trustee has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and, in any such case, no successor clearing system satisfactory to the Trustee is available. In the event of the occurrence of an Exchange Event, any of the Trustee or Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Global Certificate) may give notice to the Registrar requesting exchange.

In such circumstances, the relevant Global Certificate shall be exchanged in full for Definitive Certificates and the Trustee will, at its own cost (but against such indemnity as the Registrar or any relevant Transfer Agent may require in respect of any tax or other duty of whatever nature which may be levied or imposed in connection with such exchange), cause sufficient Definitive Certificates to be executed and delivered to the Registrar within 15 days following the request for exchange for completion and dispatch to the relevant Certificateholders. A person having an interest in a Global Certificate must provide the Registrar with a written order containing instructions and such other information as the Trustee and the Registrar may require to complete, execute and deliver such Definitive Certificates.

General

For so long as any of the Certificates is represented by a Global Certificate held on behalf of Euroclear and/or Clearstream, Luxembourg each person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as the holder of a particular face amount of such Certificates in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg as to the face amount of such Certificates standing to the account of any person shall be conclusive and binding for all purposes (save in the case of manifest error) shall be treated by the Trustee, the Delegate and their respective agents as the holder of such face amount of such Certificates for all purposes other than with respect to any payment on such face amount of such Certificates, for which purpose the registered holder of the relevant Global Certificate shall be treated by the Trustee, the Delegate and their respective agents as the holder of such face amount of such Certificates in accordance with and subject to the terms of the relevant Global Certificate and the expressions Certificateholder and holder of Certificates and related expressions shall be construed accordingly.

Any reference herein to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Final Terms.

TERMS AND CONDITIONS OF THE CERTIFICATES

The following is the text of the Terms and Conditions of the Certificates which (subject to modification and except for the text in italics) will be endorsed on each Certificate in definitive form issued under the Programme and will apply to each Global Certificate.

*In the case of a Series of Certificates which will not be admitted to listing or trading on a UK regulated market as defined in Regulation (EU) No 600/2014 on markets in financial instruments as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (the **EUWA**) and, accordingly, for which no base prospectus is required to be published under Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA and the Financial Services and Markets Act 2000 (**Exempt Certificates**), a pricing supplement (a **Pricing Supplement**) will be issued describing the final terms of such Series of Exempt Certificates. Each reference in these terms and conditions to Final Terms shall, in the case of a Series of Exempt Certificates, be read and construed as a reference to such Pricing Supplement unless the context requires otherwise.*

Dar Al-Arkan Sukuk Company Ltd. (in its capacities as issuer and trustee, the **Trustee**) has established a programme (the **Programme**) for the issuance of up to U.S.\$2,500,000,000 in aggregate face amount of trust certificates. In these Terms and Conditions (the **Conditions**), references to Certificates shall be references to the trust certificates which are the subject of the applicable Final Terms and references to the **applicable Final Terms** are to Part A of the Final Terms (or the relevant provisions thereof) attached to or endorsed on this Certificate. Certificates issued under the Programme are issued in series (each a **Series**).

Each of the Certificates will represent an undivided ownership interest in the Trust Assets (as defined in Condition 4.1) which are held by the Trustee on trust (the **Trust**) for, *inter alia*, the benefit of the registered holders of the Certificates pursuant to (i) an amended and restated Master Trust Deed (the **Master Trust Deed**) dated 11 June 2025 and made between the Trustee, Dar Al-Arkan Real Estate Development Company (**Dar Al-Arkan**) and HSBC Bank plc (the Delegate which expression shall include any co-Delegate or any successor) and (ii) a supplemental trust deed (the **Supplemental Trust Deed** and, together with the Master Trust Deed, the **Trust Deed**) dated the Issue Date and made between the parties to the Master Trust Deed.

Payments relating to the Certificates will be made pursuant to an amended and restated agency agreement dated 11 June 2025 (the **Agency Agreement**) made between the Trustee, the Delegate, Dar Al-Arkan, HSBC Bank plc in its capacities as principal paying agent (in such capacity, the **Principal Paying Agent**, which expression shall include any successor and, together with any further or other paying agents appointed from time to time in accordance with the Agency Agreement, the **Paying Agents**, which expression shall include any successors), calculation agent (in such capacity, the **Calculation Agent**, which expression shall include any successor), registrar (in such capacity, the Registrar, which expression shall include any successor) and transfer agent (in such capacity and together with the Registrar, the **Transfer Agents**, which expression shall include any successors). The Paying Agents, the Calculation Agent, the Registrar and the Transfer Agents are together referred to in these Conditions as the **Agents**.

Words and expressions defined in the Trust Deed and the Agency Agreement or used in the applicable Final Terms shall have the same meanings where used in these Conditions unless the context otherwise requires or unless otherwise stated and provided that, in the event of inconsistency between any such document and the applicable Final Terms, the applicable Final Terms will prevail. In addition, in these Conditions:

- (a) any reference to face amount shall be deemed to include the relevant Dissolution Amount (as defined in Condition 9.1), any additional amounts (other than relating to Periodic Distribution Amounts (as defined in Condition 7.2)) which may be payable under Condition 12, and any other amount in the nature of face amounts payable pursuant to these Conditions;
- (b) any reference to Periodic Distribution Amounts shall be deemed to include any additional amounts in respect of profit distributions which may be payable under Condition 12 and any other amount in the nature of a profit distribution payable pursuant to these Conditions;
- (c) references to Certificates being "outstanding" shall be construed in accordance with the Master Trust Deed; and
- (d) any reference to a Transaction Document (as defined below) shall be construed as a reference to that Transaction Document as amended and/or supplemented from time to time.

Subject as set out below, copies of the Transaction Documents (as defined in Condition 23) (i) are available for inspection and obtainable free of charge by the Certificateholders during normal business hours at the specified office for the time being of the Trustee and the Principal Paying Agent and/or (ii) may be provided by e-mail to a Certificateholder holding one or more Certificates following its prior written request to the Principal Paying Agent and the provision of evidence satisfactory to the Principal Paying Agent as to its holding of such Certificates and identity. The holders of the Certificates (the **Certificateholders**) are entitled to the benefit of, are bound by, and are deemed to have notice of, all the provisions of the Transaction Documents.

The statements in these Conditions include summaries of, and are subject to, the detailed provisions of the Trust Deed, the Agency Agreement and the remaining Transaction Documents.

Each initial Certificateholder, by its acquisition and holding of its interest in a Certificate, shall be deemed to authorise and direct the Trustee, on behalf of the Certificateholders (i) to apply the proceeds of the issue of the Certificates in accordance with the terms of the Transaction Documents; and (ii) to enter into each Transaction Document to which it is a party, subject to the provisions of the Trust Deed and these Conditions.

1. FORM, DENOMINATION AND TITLE

1.1 Form and Denomination

The Certificates are issued in registered form in the Specified Denominations and, in the case of Certificates in definitive form, are serially numbered.

For so long as any of the Certificates is represented by a Global Certificate held on behalf of Euroclear Bank SA/NV (**Euroclear**) and/or Clearstream Banking S.A. (**Clearstream, Luxembourg**), each person (other than another clearing system) who is for the time being shown in the records of either such clearing system as the holder of a particular face amount of such Certificates (in which regard any certificate or other document issued by a clearing system as to the face amount of such Certificates standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Trustee, the Delegate, Dar Al-Arkan and the Agents as the holder of such face amount of such Certificates for all purposes other than with respect to payment in respect of such Certificates, for which purpose the registered holder of the Global Certificate shall be treated by the Trustee, the Delegate, Dar Al-Arkan and any Agent as the holder of such face amount of such Certificates in accordance with and subject to the terms of the relevant Global Certificate and the expressions **Certificateholder** and **holder** in relation to any Certificates and related expressions shall be construed accordingly.

In determining whether a particular person is entitled to a particular face amount of Certificates as aforesaid, the Delegate may rely on such evidence and/or information and/or certification as it shall, in its absolute discretion, think fit and, if it does so rely, such evidence and/or information and/or certification shall, in the absence of manifest error, be conclusive and binding on all concerned.

Each holder must look solely to Euroclear or Clearstream, Luxembourg, as the case may be, for its share of each payment made to the registered holder of the Global Certificate. References to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative Clearing System specified in Part B of the applicable Final Terms.

1.2 Register

The Registrar will maintain a register (the **Register**) of Certificateholders outside the United Kingdom in respect of the Certificates in accordance with the provisions of the Agency Agreement. In the case of Certificates in definitive form, a definitive Certificate will be issued to each Certificateholder in respect of its registered holding of Certificates.

1.3 Title

The Trustee, the Delegate, Dar Al-Arkan and the Agents may (to the fullest extent permitted by applicable laws) deem and treat the person in whose name any outstanding Certificate is for the time being registered (as set out in the Register) as the holder of such Certificate or of a particular face amount of the Certificates for all purposes (whether or not such Certificate or face amount shall be overdue and notwithstanding any notice of ownership thereof or of trust or other interest with regard thereto, and any

notice of loss or theft or any writing thereon), and the Trustee, the Delegate, Dar Al-Arkan and the Agents shall not be affected by any notice to the contrary.

All payments made to such registered holder shall be valid and, to the extent of the sums so paid, effective to satisfy and discharge the liability for monies payable in respect of such Certificate or face amount.

2. TRANSFERS OF CERTIFICATES

2.1 Transfers of beneficial interests in the Global Certificate

Transfers of beneficial interests in the Global Certificate will be effected by Euroclear or Clearstream, Luxembourg, as the case may be, and, in turn, by other participants and, if appropriate, indirect participants in such clearing systems acting on behalf of transferors and transferees of such interests. A beneficial interest in the Global Certificate will, subject to compliance with all applicable legal and regulatory restrictions, be transferable for Certificates in definitive form only in the Specified Denomination or integral multiples thereof and only in accordance with the rules and operating procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be, and in accordance with the terms and conditions specified in the Trust Deed and the Agency Agreement.

2.2 Transfers of Certificates in definitive form

Upon the terms and subject to the conditions set forth in the Trust Deed and the Agency Agreement, a Certificate in definitive form may be transferred in whole or in part (in the Specified Denomination or an integral multiple thereof). In order to effect any such transfer the holder or holders must (i) surrender the definitive Certificate for registration of the transfer thereof (or the relevant part thereof) at the specified office of any Transfer Agent, with the form of transfer thereon duly executed by the holder or holders thereof or his or their attorney or attorneys duly authorised in writing and (ii) complete and deposit such other certifications as may be required by the relevant Transfer Agent. Any such transfer will be subject to such regulations as the Trustee, Dar Al-Arkan, the Delegate and the Registrar may from time to time prescribe (the initial such regulations being scheduled to the Master Trust Deed).

Subject as provided above, the relevant Transfer Agent will, within five business days (being for this purpose a day on which banks are open for business in the city where the specified office of the relevant Transfer Agent is located) of the request (or such longer period as may be required to comply with any applicable fiscal or other laws or regulations), and following receipt of a signed new Certificate in definitive form from the Trustee, deliver at its specified office to the transferee or (at the risk of the transferee) send by uninsured mail to such address as the transferee may request a new Certificate in definitive form of a like aggregate face amount to the Certificate (or the relevant part of the Certificate) transferred. In the case of the transfer of part only of a Certificate in definitive form, a new Certificate in definitive form in respect of the balance of the Certificate not transferred will be so delivered or (at the risk of the transferor) sent to the transferor.

No Certificateholder may require the transfer of a Certificate in definitive form to be registered during the period of 15 days ending on a Periodic Distribution Date, the Scheduled Dissolution Date, a Dissolution Date or any other date on which any payment of the face amount or payment of any profit in respect of a Certificate falls due.

2.3 Costs of registration

Certificateholders will not be required to bear the costs and expenses of effecting any registration of transfer as provided above, except for any costs or expenses of delivery other than by regular uninsured mail and except that the Trustee may require the payment of a sum sufficient to cover any stamp duty, tax or other governmental charge that may be imposed in relation to the registration.

3. STATUS AND LIMITED RECOURSE

3.1 Status

Each Certificate evidences an undivided ownership interest in the Trust Assets, subject to the terms of the Trust Deed and these Conditions, and is a direct, unsubordinated, unsecured and limited recourse obligation of the Trustee. Each Certificate ranks *pari passu*, without any preference or priority, with the other Certificates.

The payment obligations of Dar Al-Arkan (acting in any capacity) under the Transaction Documents to which it is a party will be direct, unconditional, unsubordinated and (subject to the provisions of Condition 6.7) unsecured obligations of Dar Al-Arkan and shall at all times rank at least pari passu with all other present and future unsecured and unsubordinated obligations of Dar Al-Arkan, save for such obligations mandatorily preferred by law.

3.2 **Limited Recourse**

The Certificates do not represent an interest in any of the Trustee, Dar Al-Arkan, the Delegate, the Agents or any of their respective affiliates.

Notwithstanding anything to the contrary contained herein or in any Transaction Document, no payment of any amount whatsoever shall be made in respect of the Certificates by the Trustee, the Delegate or any of their respective directors, officers or agents (including any corporate administrator) except to the extent that funds are available therefor from the Trust Assets.

By subscribing for or acquiring the Certificates, the Certificateholders acknowledge that no recourse may be had for the payment of any amount owing in respect of the Certificates against the Trustee, Dar Al-Arkan, the Delegate or the Agents or any of their respective directors, officers or agents to the extent the Trust Assets have been exhausted following which all obligations of the Trustee, Dar Al-Arkan, the Delegate and the Agents or any of their respective agents shall be extinguished.

No recourse (whether by institution or enforcement of any legal proceeding or assessment or otherwise) in respect of any breach of any duty, obligation, covenant or agreement contained in these Conditions or any Transaction Document shall be had against any shareholder, member, officer, agent (including any corporate administrator) or director of the Trustee, Dar Al-Arkan, the Delegate or the Agents, as the case may be, as such by virtue of any customary law, statute or otherwise. The obligations of the Trustee, Dar Al-Arkan, the Delegate and the Agents under these Conditions or any Transaction Document are corporate or limited liability obligations of the Trustee, Dar Al-Arkan, the Delegate and the Agents and any and all personal liability of the shareholders, members, officers, agents (including any corporate administrator) or directors of the Trustee, Dar Al-Arkan, the Delegate and the Agents is hereby expressly waived and excluded to the extent permitted by law.

The net proceeds of the realisation of, or enforcement with respect to, the Trust Assets may not be sufficient to make all payments and/or deliveries due in respect of the Certificates. If, following distribution of such proceeds, there remains a shortfall in payments and/or deliveries due under the Certificates, no Certificateholder will have any claim against the Trustee, Dar Al-Arkan, the Delegate, the Agents or any of their respective shareholders, members, officers, directors or agents (including any corporate administrator) or any of their affiliates or recourse to any of their assets in respect of such shortfall and any unsatisfied claims of Certificateholders shall be extinguished. In addition, no Certificateholder will be able to petition for, or join any other person in instituting proceedings for, the reorganisation, liquidation, winding-up or receivership of Dar Al-Arkan (to the extent that it fulfils all of its obligations under the Transaction Documents to which it is a party), or any of the Trustee, the Delegate, the Agents and/or any of their affiliates as a consequence of such shortfall or otherwise.

4. **THE TRUST**

4.1 **The Trust Assets**

Pursuant to the Trust Deed, the Trustee holds the Trust Assets upon trust absolutely for the holders of the Certificates *pro rata* according to the face amount of Certificates held by each holder. The term **Trust Assets** means:

- (b) all of the Trustee's rights, title, interest, benefits and entitlements, present and future, in, to and under the Lease Assets;

- (a) first, (to the extent not previously paid) to pay the Delegate and/or any Appointee an amount equal to any sum payable to it on account of its properly incurred fees and Liabilities and to pay or provide for the payment or satisfaction of any Liability incurred (or expected to be incurred) by the Delegate and/or any Appointee in each case pursuant to the Trust Deed or in connection with any of the other Transaction Documents or these Conditions;
- (b) second, (to the extent not previously paid) to pay, on a *pro rata* and *pari passu* basis, each Agent and the Trustee Administrator (as long as such amount has been notified to the Principal Paying Agent not less than 30 Business Days prior to the Periodic Distribution Date, Scheduled Dissolution Date or other Dissolution Date (as the case may be)) an amount equal to any sum payable to each of them on account of its properly incurred fees and Liabilities and to pay or provide for the payment or satisfaction of any Liability incurred (or reasonably expected to be incurred) by such Agents and/or the Trustee Administrator (as long as such amount has been notified to the Principal Paying Agent not less than 30 Business Days prior to the Periodic Distribution Date, Scheduled Dissolution Date or other Dissolution Date (as the case may be)) pursuant to the Agency Agreement, the Corporate Services Agreement and the Registered Office Agreement, as the case may be;

- (e) fifth, only if payment is made on a Dissolution Date and provided that all amounts required to be paid in respect of the Certificates hereunder have been discharged in full, to Dar Al-Arkan (in its capacity as Service Agent) as an incentive payment.

5. TRUSTEE COVENANTS

- (a) Dar Al-Arkan will not, and will not permit any Restricted Subsidiary to, Incur, directly or indirectly, any Indebtedness; provided, however, that Dar Al-Arkan and any Restricted Subsidiary will be entitled to Incur Indebtedness if, on the date of such Incurrence and after giving effect thereto on a pro forma basis, the Consolidated Coverage Ratio is (for so long as any 2027 Sukuk Certificate is outstanding) at least 1.75 to 1.0 and (at any time thereafter) at least 1.5 to 1.0.
- (b) Notwithstanding Condition 6.1(a), Dar Al-Arkan and the Restricted Subsidiaries will be entitled to Incur any or all of the following Indebtedness:

The maximum threshold of SAR 2.5 billion pursuant to this Condition 6.1(b)(i) shall only be applicable with effect from the earlier of (A) the date on which the terms and conditions of the 2027 Sukuk Certificates are amended to contain such maximum threshold; and (B) the date on which no 2027 Sukuk Certificate is outstanding. Prior to such date, the reference to "SAR 2.5 billion" in this Condition 6.1(b)(i) shall instead be read as "SAR 1.87 billion";

- (ii) Indebtedness owed to and held by Dar Al-Arkan or a Restricted Subsidiary; provided, however, that (A) any subsequent issuance or transfer of any Capital Stock which results in any such Restricted Subsidiary ceasing to be a Restricted Subsidiary or any subsequent transfer of such Indebtedness (other than to Dar Al-Arkan or a Restricted Subsidiary) shall be deemed, in each case, to constitute the Incurrence of such Indebtedness by the obligor thereon, and (B) if Dar Al-Arkan is the obligor on such Indebtedness, such Indebtedness is expressly subordinated to the prior payment in full in cash of all its obligations under the Transaction Documents to which it is a party;
- (iii) Indebtedness outstanding on the Issue Date (other than Indebtedness described in Conditions 6.1(b)(i) or 6.1(b)(ii)) and the incurrence of Indebtedness represented by any obligations of Dar Al-Arkan to make any payments to the Trustee in accordance with the Transaction Documents to which it is a party (to the extent deemed to constitute Indebtedness);
- (iv) Indebtedness (**Acquired Indebtedness**) of a Restricted Subsidiary Incurred and outstanding on or prior to the date on which such Subsidiary was acquired by Dar Al-Arkan (other than Indebtedness Incurred in connection with, or to provide all or any portion of the funds or credit support utilised to consummate, the transaction or series of related transactions pursuant to which such Subsidiary became a Subsidiary or was acquired by Dar Al-Arkan); provided, however, that on the date of such acquisition and after giving pro forma effect thereto, Dar Al-Arkan would have been entitled to Incur at least SAR 1.00 of additional Indebtedness pursuant to Condition 6.1(a);
- (v) Refinancing Indebtedness in respect of Indebtedness Incurred pursuant to Condition 6.1(a) or pursuant to Conditions 6.1(b)(iii) or 6.1(b)(iv) or this Condition 6.1(b)(v);
- (vi) Hedging Obligations directly related to Indebtedness permitted to be Incurred by Dar Al-Arkan and the Restricted Subsidiaries pursuant to this Condition 6 entered into in the ordinary course of business and designed solely to protect Dar Al-Arkan or the relevant Restricted Subsidiary from fluctuations in interest rates or financing costs, currencies or the price of commodities and not for speculation;
- (vii) workers' compensation claims, self-insurance obligations, obligations in respect of performance, bid and surety bonds and completion guarantees incurred or provided by Dar Al-Arkan or any Restricted Subsidiary in the ordinary course of business;
- (viii) Indebtedness arising from the honouring by a bank or other financial institution of a check, draft or similar instrument drawn against insufficient funds in the ordinary course of business; provided, however, that such Indebtedness is extinguished within five Business Days of its Incurrence;

- (x) Indebtedness Incurred by Dar Al-Arkan or any Restricted Subsidiary for the purpose of financing (i) all or any part of the purchase price of real or personal property or equipment to be used in the Permitted Business in the ordinary course of business

through the acquisition of Capital Stock of any person that owns such real or personal property or equipment which will, upon such acquisition, become a Restricted Subsidiary or (ii) all or any part of the purchase price or the cost of acquisition, development, construction or improvement of real or personal property or equipment to be used in the Permitted Business by Dar Al-Arkan or such Restricted Subsidiary in the ordinary course of business; provided, however that (A) the aggregate principal amount of such Indebtedness shall not exceed such purchase price or cost, (B) such Indebtedness shall be Incurred no later than 60 days after the acquisition of such property or completion of such development, construction or improvement, and (C) on the date of the Incurrence of such Indebtedness and after giving effect thereto, the aggregate principal amount outstanding of all such Indebtedness permitted by this Condition 6.1(b)(x) (together with Refinancing thereof) does not exceed an amount equal to 20 per cent. of Total Assets. The maximum threshold of 20 per cent. of Total Assets pursuant to this Condition 6.1(b)(x) shall only be applicable with effect from the earlier of (a) the date on which the terms and conditions of the 2027 Sukuk Certificates are amended to contain such maximum threshold; and (b) the date on which no 2027 Sukuk Certificate is outstanding. Prior to such date, the reference to "20 per cent. of Total Assets" in this Condition 6.1(b)(x) shall instead be read as "15 per cent. of Total Assets"; and

- (xi) Indebtedness of Dar Al-Arkan and the Restricted Subsidiaries in an aggregate principal amount which, when taken together with all other Indebtedness of Dar Al-Arkan and the Restricted Subsidiaries outstanding on the date of such Incurrence (other than Indebtedness permitted by Condition 6.1(a) or Conditions 6.1(b)(i) to 6.1(b)(x) (inclusive)) does not exceed SAR 1.0 billion (or the SAR Equivalent thereof). The maximum threshold of SAR 1.0 billion pursuant to this Condition 6.1(b)(xi) shall only be applicable with effect from the earlier of (a) the date on which the terms and conditions of the 2027 Sukuk Certificates are amended to contain such maximum threshold; and (b) the date on which no 2027 Sukuk Certificate is outstanding. Prior to such date, the reference to "SAR 1.0 billion" in this Condition 6.1(b)(xi) shall instead be read as "SAR 500 million".
- (c) Notwithstanding Condition 6.1(b), Dar Al-Arkan will not Incur any Indebtedness pursuant to Condition 6.1(b) if the proceeds thereof are used, directly or indirectly, to Refinance any Subordinated Obligations of Dar Al-Arkan unless such Indebtedness shall be subordinated to the obligations of Dar Al-Arkan under the Transaction Documents to which it is a party to at least the same extent as such Subordinated Obligations.
- (d) For purposes of determining compliance with this Condition 6.1:
 - (i) any Indebtedness outstanding on the Issue Date under the Credit Facilities will be treated as Incurred under Condition 6.1(b)(i);
 - (ii) in the event that an item of Indebtedness (or any portion thereof) meets the criteria of more than one of the types of Indebtedness described above, Dar Al-Arkan, in its sole discretion, will classify such item of Indebtedness (or any portion thereof) at the time of Incurrence and will only be required to include the amount and type of such Indebtedness in one of the above Conditions; and
 - (iii) Dar Al-Arkan will be entitled to divide and classify an item of Indebtedness in more than one of the types of Indebtedness described above.
- (e) For purposes of determining compliance with any SAR denominated restriction on the Incurrence of Indebtedness where the Indebtedness Incurred is denominated in a different currency, the amount of such Indebtedness will be the SAR Equivalent determined on the date of the Incurrence of such Indebtedness; provided, however, that if any such Indebtedness denominated in a different currency is subject to a Currency Agreement with respect to SAR covering all principal, premium, if any, and interest payable on such Indebtedness, the amount of such Indebtedness expressed in SAR will be as provided in such Currency Agreement. The principal amount of any Refinancing Indebtedness Incurred in the same currency as the

Indebtedness being Refinanced will be the SAR Equivalent, as appropriate, of the Indebtedness Refinanced, except to the extent that (A) such SAR Equivalent was determined based on a Currency Agreement, in which case the Refinancing Indebtedness will be determined in accordance with the preceding sentence, and (B) the principal amount of the Refinancing Indebtedness exceeds the principal amount of the Indebtedness being Refinanced, in which case the SAR Equivalent of such excess, as appropriate, will be determined on the date such Refinancing Indebtedness is Incurred.

6.2 **Limitation on Restricted Payments**

 - (i) the terms of the Affiliate Transaction are no less favourable to Dar Al-Arkan or such Restricted Subsidiary than those that could be obtained at the time of the Affiliate

Transaction in arm's-length dealings with a person who is not an Affiliate of Dar Al-Arkan or any of its Restricted Subsidiaries;

- (ii) if such Affiliate Transaction involves an amount in excess of SAR 50 million (or the SAR Equivalent thereof), the terms of the Affiliate Transaction are set forth in writing and a majority of the directors of Dar Al-Arkan disinterested with respect to such Affiliate Transaction have determined in good faith that the criteria set forth in Condition 6.5(a)(i) are satisfied and have approved the relevant Affiliate Transaction as evidenced by a resolution of the Board of Directors; and
 - (iii) if such Affiliate Transaction involves an amount in excess of SAR 150 million (or the SAR Equivalent thereof), the Board of Directors shall also have received a written opinion from an Independent Qualified Party to the effect that such Affiliate Transaction is fair, from a financial standpoint, to Dar Al-Arkan and its Restricted Subsidiaries or is not less favourable to Dar Al-Arkan and its Restricted Subsidiaries than could reasonably be expected to be obtained at the time in an arm's-length transaction with a person who was not an Affiliate.
- (b) The provisions of Condition 6.5(a) will not prohibit:
- (i) any Permitted Investment other than paragraphs (a) (in respect of the making of an Investment that causes such person to become a Restricted Subsidiary), (b) and (m) of such defined term;

 - (v) the payment of reasonable fees to directors of Dar Al-Arkan and its Restricted Subsidiaries;
 - (vi) any transaction with Dar Al-Arkan, a Restricted Subsidiary or joint venture or similar entity which would constitute an Affiliate Transaction solely because Dar Al-Arkan or a Restricted Subsidiary owns an equity interest in or otherwise controls such Restricted Subsidiary, joint venture or similar entity, including, but not limited to, any transaction with Saudi Home Loans Company;
 - (vii) the issuance or sale of any Capital Stock (other than Disqualified Stock) of Dar Al-Arkan;
 - (viii) transactions entered into on or prior to the Issue Date;
 - (ix) transactions between Dar Al-Arkan and any Restricted Subsidiary or between Restricted Subsidiaries; and
 - (x) arrangements with customers, suppliers, contractors, lessors or sellers of goods or services that are negotiated with an Affiliate, in each case, which are in the ordinary course of business and otherwise in compliance with the terms of the Transaction Documents provided that the terms and conditions of any such transaction or agreement as applicable to Dar Al-Arkan and its Restricted Subsidiaries (a) are fair to Dar Al-Arkan and its Restricted Subsidiaries and are on terms more favourable to Dar Al-Arkan and its Restricted Subsidiaries than those that could have reasonably been obtained in respect of an analogous transaction or agreement that would not constitute an Affiliate Transaction, (b) the performance by Dar Al-Arkan and any of its Restricted

Subsidiaries in respect of any such arrangements are for its own behalf and in its own name and (c) Dar Al-Arkan and its Restricted Subsidiaries do not assume, and are otherwise not liable for any performance or breach in respect of any such arrangements by the relevant Affiliate.

- (c) The provisions of Condition 6.5(a)(iii) shall not apply to Affiliate Transactions resulting from a competitive tendering process instituted by Dar Al-Arkan or a Restricted Subsidiary in the ordinary course of business of Dar Al-Arkan or a Restricted Subsidiary resulting in at least three *bona fide* bids by persons who are not Affiliates of Dar Al-Arkan or a Restricted Subsidiary and which Affiliate Transactions are subsequently disclosed as required to the Saudi Exchange (Tadawul) and to Dar Al-Arkan's shareholders at its next annual general assembly.

6.7 **Limitation on Liens**

Dar Al-Arkan covenants, for so long as any Certificate is outstanding, it will not, and will not permit any Restricted Subsidiary to, directly or indirectly, Incur or permit to exist any Lien (the **Initial Lien**) of any nature whatsoever on any of its properties, assets or revenues (including Capital Stock of a Restricted Subsidiary), whether owned at the Issue Date or thereafter acquired, other than Permitted Liens, without effectively providing that the obligations of Dar Al-Arkan pursuant to the Transaction Documents to which it is a party shall be secured for the benefit of the Certificateholders by the creation of a Lien which is the same as the Initial Lien and (a) if such Indebtedness is Senior Indebtedness, equally and rateably with the obligations, or (b) if such Indebtedness is Subordinated Indebtedness, prior to the obligations so secured, in each case, for so long as such obligations are so secured, or by such other Lien as shall be approved by an Extraordinary Resolution of the Certificateholders. Any Lien created for the benefit of the Certificateholders pursuant to the preceding sentence shall provide by its terms that the Trustee or the Delegate (as the case may be) shall provide such assistance as may be reasonably required by Dar Al-Arkan to unconditionally release and discharge their Lien upon the release and discharge of the Initial Lien.

6.8 **Limitation on Sale/Leaseback Transactions**

Dar Al-Arkan covenants, for so long as any Certificate is outstanding, it will not, and will not permit any Restricted Subsidiary to, enter into any Sale/Leaseback Transaction with respect to any property unless:

- (a) Dar Al-Arkan or such Restricted Subsidiary would be entitled to (i) Incur Indebtedness in an amount equal to the Attributable Debt with respect to such Sale/Leaseback Transaction pursuant to Condition 6.1, and (ii) create a Lien on such property securing such Attributable Debt without equally and rateably securing the relevant Certificates pursuant to Condition 6.7; and
- (b) the net proceeds received by Dar Al-Arkan or any Restricted Subsidiary in connection with such Sale/Leaseback Transaction are at least equal to the Fair Market Value (as determined by the Board of Directors) of such property.

6.9 **Merger and Consolidation**

Dar Al-Arkan covenants that, for so long as any Certificate is outstanding, it will not consolidate with or merge with or into, or convey, transfer or lease, in one transaction or a series of transactions, directly or indirectly, all or substantially all its assets to, any person, unless:

- (a) the resulting, surviving or transferee person (the **Successor Company**) shall be a person organised and existing under the laws of the Kingdom of Saudi Arabia, any state which is a member of the European Union, the United Kingdom, Canada, the United States, any state thereof or the District of Columbia and the Successor Company (if not Dar Al-Arkan) shall expressly assume, by a guarantee, executed and delivered to the Trustee and the Delegate, in form satisfactory to Trustee and the Delegate, all the obligations of Dar Al-Arkan under the Transaction Documents to which it is a party;

- (b) immediately after giving pro forma effect to such transaction (and treating any Indebtedness which becomes an obligation of the Successor Company or any Subsidiary as a result of such transaction as having been Incurred by such Successor Company or such Subsidiary at the time of such transaction), no Default shall have occurred and be continuing;
- (c) immediately after giving pro forma effect to such transaction, (i) the Successor Company would be able to Incur an additional SAR 1.00 of Indebtedness pursuant to Condition 6.1(a), or (ii) the Consolidated Coverage Ratio would be no less than the Consolidated Coverage Ratio immediately prior to such transaction; and

provided, however, that Condition 6.9(c) will not be applicable to (x) a Restricted Subsidiary consolidating with, merging into or transferring all or part of its properties and assets to Dar Al-Arkan (so long as no Capital Stock of Dar Al-Arkan is distributed to any person), or (y) Dar Al-Arkan merging with an Affiliate of Dar Al-Arkan solely for the purpose and with the sole effect of reincorporating Dar Al-Arkan in another jurisdiction.

For purposes of this Condition 6.9, the sale, lease, conveyance, assignment, transfer or other disposition of all or substantially all of the properties and assets of one or more Subsidiaries of Dar Al-Arkan, which properties and assets, if held by Dar Al-Arkan instead of such Subsidiaries, would constitute all or substantially all of the properties and assets of Dar Al-Arkan on a consolidated basis, shall be deemed to be the transfer of all or substantially all of the properties and assets of Dar Al-Arkan.

The Successor Company will be the successor to Dar Al-Arkan and shall succeed to, and be substituted for, and may exercise every right and power of, and be subject to all obligations of, Dar Al-Arkan under the Transaction Documents to which it is a party.

6.10 **Reports**

Dar Al-Arkan covenants, for so long as any Certificate is outstanding, it will furnish to the Certificateholders, the Trustee and the Delegate:

- (d) at the times specified for such information, such information as Dar Al-Arkan is required to report by any stock exchange on which the Certificates are for the time being listed or admitted to trading.

Substantially concurrently with the furnishing to the Trustee, the Delegate and the Certificateholders of the reports specified above, Dar Al-Arkan shall also (x) use its commercially reasonable efforts to post copies of such reports on such website as may be then maintained by Dar Al-Arkan and its Subsidiaries or a direct or indirect parent of Dar Al-Arkan or (y) to the extent Dar Al-Arkan determined in good faith that it cannot make such reports available in the manner described in (x) above after the use of its commercially reasonable efforts, furnish at its expense such reports to prospective purchasers of the Certificates, upon their request.

6.11 **Changes in Covenants when Certificates are rated Investment Grade**

If the Certificates have an Investment Grade rating from both of the Rating Agencies and no Dissolution Event or Dar Al-Arkan Event has occurred and is continuing (a **Suspension Event**), then, beginning on the day the Investment Grade rating has been received and continuing until such time, if any, at which the Certificates cease to have an Investment Grade rating from either of the Rating Agencies, the following provisions above will not apply to those Certificates: Conditions 6.1, 6.2, 6.3, 6.4, 6.5, 6.6 and 6.8.

Conditions 6.1, 6.2, 6.3, 6.4, 6.5, 6.6 and 6.8 will again apply according to their terms from the first day on which a Suspension Event ceases to be in effect. Such Conditions 6.1, 6.2, 6.3, 6.4, 6.5, 6.6 and 6.8 will not, however, be of any effect with regard to actions of Dar Al-Arkan properly taken during the continuance of the Suspension Event, and Condition 6.2 will be interpreted as if it had been in effect since the Issue Date except that no Dar Al-Arkan Event will be deemed to have occurred solely by reason of a Restricted Payment made while the application of Condition 6.2 was suspended.

To the extent that a Suspension Event occurs and/or ceases pursuant to this Condition 6.11, Dar Al-Arkan will provide, as soon as practicable, a notice to the Trustee and the Delegate to such effect.

7. **FIXED PERIODIC DISTRIBUTION PROVISIONS**

7.1 **Application**

This Condition is applicable to the Certificates only if the Fixed Periodic Distribution Provisions are specified in the applicable Final Terms as being applicable.

7.2 **Periodic Distribution Amount**

Subject to Condition 4.2 and Condition 9 and unless otherwise specified in the applicable Final Terms, the Principal Paying Agent shall distribute to holders *pro rata* to their respective holdings, out of amounts transferred to the Transaction Account pursuant to the terms of the Transaction Documents, a distribution in relation to the Certificates on each Periodic Distribution Date equal to the Periodic Distribution Amount payable in respect of the Return Accumulation Period ending immediately before that Periodic Distribution Date.

In these Conditions:

Periodic Distribution Amount means, in relation to a Certificate and a Return Accumulation Period, the amount of profit distribution payable in respect of that Certificate for that Return Accumulation Period which amount may be a Fixed Amount, a Broken Amount or an amount otherwise calculated in accordance with this Condition 7 or Condition 8; and

Return Accumulation Period means the period from (and including) a Periodic Distribution Date (or the Return Accrual Commencement Date) to (but excluding) the next (or first) Periodic Distribution Date.

7.3 **Determination of Periodic Distribution Amount**

Except as provided in the applicable Final Terms, the Periodic Distribution Amount payable in respect of each Certificate in definitive form for any Return Accumulation Period shall be the Fixed Amount or, if so specified in the applicable Final Terms, the Broken Amount so specified.

Except in the case of Certificates in definitive form where a Fixed Amount or Broken Amount is specified in the applicable Final Terms, the Periodic Distribution Amount payable in respect of each Certificate shall be calculated by applying the rate or rates (expressed as a percentage per annum) specified in the applicable Final Terms or calculated or determined in accordance with the provisions of these Conditions (the **Rate**) applicable to the relevant Return Accumulation Period to:

- (a) in the case of Certificates which are represented by a Global Certificate, the aggregate outstanding face amount of the Certificates represented by such Global Certificate; or

- (b) in the case of Certificates in definitive form, the Calculation Amount (as specified in the applicable Final Terms),

and, in each case, multiplying such sum by the applicable Day Count Fraction. The resultant figure (including after application of any Fixed Periodic Distribution Amount or Broken Amount, as applicable, to the aggregate outstanding face amount of fixed rate Certificates which are in definitive form) shall be rounded to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Certificate in definitive form is a multiple of the Calculation Amount, the amount of profit distribution payable in respect of such Certificate shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

Day Count Fraction means, in respect of the calculation of Periodic Distribution Amount in accordance with this Condition:

- (a) if "Actual/Actual (ICMA)" is specified in the applicable Final Terms:
- (i) in the case of Certificates where the number of days in the relevant period from (and including) the most recent Periodic Distribution Date (or, if none, the Return Accrual Commencement Date) to (but excluding) the relevant payment date (the **Accrual Period**) is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (A) the number of days in such Determination Period and (B) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; or
 - (ii) in the case of Certificates where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
 - (A) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and
 - (B) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and
- (b) if "30/360" is specified in the applicable Final Terms, the number of days in the period from (and including) the most recent Periodic Distribution Date (or, if none, the Return Accrual Commencement Date) to (but excluding) the relevant payment date (such number of days being calculated on the basis of a year of 360 days with 12 30-day months) divided by 360.

In these Conditions:

Determination Period means each period from (and including) a Determination Date to (but excluding) the next Determination Date (including, where either the Return Accrual Commencement Date or the final Periodic Distribution Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date); and

sub-unit means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, one cent.

8. FLOATING PERIODIC DISTRIBUTION PROVISIONS

8.1 Application

This Condition is applicable to the Certificates only if the Floating Periodic Distribution Provisions are specified in the applicable Final Terms as being applicable.

8.2 Periodic Distribution Amount

Subject to Condition 4.2 and 9 and unless otherwise specified in the applicable Final Terms, the Principal Paying Agent shall distribute to holders *pro rata* to their respective holdings, out of amounts transferred to the Transaction Account pursuant to the terms of the Transaction Documents, a distribution in relation to the Certificates on either:

- (a) the Specified Periodic Distribution Date(s) in each year specified in the applicable Final Terms; or
- (b) if no Specified Periodic Distribution Date(s) is/are specified in the applicable Final Terms, each date (each such date, together with each Specified Periodic Distribution Date, a **Periodic Distribution Date**) which falls the number of months or other period specified as the Specified Period in the applicable Final Terms after the preceding Periodic Distribution Date or, in the case of the first Periodic Distribution Date, after the Return Accrual Commencement Date.

In relation to each Periodic Distribution Date, the distribution payable will be equal to the Periodic Distribution Amount payable in respect of the Return Accumulation Period ending immediately before that Periodic Distribution Date.

If a Business Day Convention is specified in the applicable Final Terms and (x) if there is no numerically corresponding day in the calendar month in which a Periodic Distribution Date should occur, or (y) if any Periodic Distribution Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (A) in any case where Specified Periods are specified in accordance with Condition 8.2(b), the Floating Rate Convention, such Periodic Distribution Date (a) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (ii) below shall apply *mutatis mutandis* or (b) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (i) such Periodic Distribution Date shall be brought forward to the immediately preceding Business Day and (ii) each subsequent Periodic Distribution Date shall be the last Business Day in the month which falls the Specified Period after the preceding applicable Periodic Distribution Date occurred; or
- (B) the Following Business Day Convention, such Periodic Distribution Date shall be postponed to the next day which is a Business Day; or
- (C) the Modified Following Business Day Convention, such Periodic Distribution Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Periodic Distribution Date shall be brought forward to the immediately preceding Business Day; or
- (D) the Preceding Business Day Convention, such Periodic Distribution Date shall be brought forward to the immediately preceding Business Day.

In these Conditions (unless otherwise stated):

Business Day means:

- (a) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in London and any Additional Business Centre (other than T2) specified in the applicable Final Terms;
- (b) if T2 is specified as an Additional Business Centre in the applicable Final Terms, a day on which the Trans-European Automated Real-time Gross Settlement Express Transfer System or any successor or replacement for that system (T2) is open; and

- (c) either (i) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (if other than London and any Additional Business Centre) or (ii) in relation to any sum payable in euro, a T2 Settlement Day; and

T2 Settlement Day means any day on which T2 is open.

8.3 Screen Rate Determination

If Screen Rate Determination is specified in the applicable Final Terms as the manner in which the rate or rates (expressed as a percentage per annum) specified in the applicable Final Terms (being either of EURIBOR or SAIBOR) or calculated or determined in accordance with the provisions of these Conditions (the **Rate**) is to be determined, the Rate applicable to the Certificates for each Return Accumulation Period will be determined by the Calculation Agent on the following basis:

- (a) if the Reference Rate specified in the applicable Final Terms is a composite quotation or customarily supplied by one entity, the Calculation Agent will determine the Reference Rate which appears on the Relevant Screen Page as of 11.00 a.m. (Brussels time, in the case of EURIBOR or Riyadh time, in the case of SAIBOR) (the **Relevant Time**) on the relevant Periodic Distribution Determination Date;
- (b) in any other case, the Calculation Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Periodic Distribution Determination Date;
- (c) if, in the case of (a) above, such rate does not appear on that page or, in the case of (b) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable (in the case of the Calculation Agent at the relevant time being HSBC Bank plc (or any of its affiliates)), the Trustee and Dar Al-Arkan or (in the case of the Calculation Agent at the relevant time not being HSBC Bank plc (or any of its affiliates)) the Calculation Agent, will:
 - (i) request each of the Reference Banks to provide a quotation of the Reference Rate at approximately the Relevant Time on the Periodic Distribution Determination Date to prime banks in (i) (where the Reference Rate is EURIBOR) the London or Eurozone interbank market and (ii) (where the Reference Rate is SAIBOR) the Riyadh interbank market, as the case may be, in an amount that is representative for a single transaction in that market at that time; and
 - (ii) determine the arithmetic mean of such quotations; and
- (d) if fewer than two such quotations are provided as requested, the Calculation Agent will determine the arithmetic mean of the rates quoted by major banks in the principal financial centre of the Specified Currency, selected by (in the case of the Calculation Agent at the relevant time being HSBC Bank plc (or any of its affiliates)) the Trustee and Dar Al-Arkan or (in the case of the Calculation Agent at the relevant time not being HSBC Bank plc (or any of its affiliates)) the Calculation Agent, at approximately 11.00 a.m. (local time in the principal financial centre of the Specified Currency) on the first day of the relevant Return Accumulation Period for loans in the Specified Currency to leading European banks for a period equal to the relevant Return Accumulation Period and in an amount that is representative for a single transaction in that market at that time,

and the Rate for such Return Accumulation Period shall be the sum of the Margin and the rate or (as the case may be) the arithmetic mean so determined provided, however, that if the Calculation Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any Return Accumulation Period and that such inability is not due to the occurrence of a Benchmark Event, the Rate applicable to the Certificates during such Return Accumulation Period will be the sum of the Margin and the rate or (as the case may be) the arithmetic mean last determined in relation to the Certificates in respect of a preceding Return Accumulation Period.

If the Calculation Agent, for any reason, is unable to perform the calculations or obtain the Rate as outlined in (a), (b), (c) and (d) above, the Calculation Agent will inform the Trustee as soon as practicable and, in such case, the Trustee will appoint an alternative agent to determine the Rate or will provide the Rate themselves in accordance with the procedures set out above.

In these Conditions:

Reference Banks means (i) (where the Reference Rate is EURIBOR) the principal London office of each of four major banks engaged in the London or Eurozone inter-bank market selected by or on behalf of the Trustee and (ii) (where the Reference Rate is SAIBOR) the principal Riyadh office of each of four major banks engaged in the Saudi inter-bank market selected by or on behalf of the Trustee, provided that once a Reference Bank has first been selected by or on behalf of the Trustee, such Reference Bank shall not be changed unless it ceases to be capable of acting as such. The Trustee will, at such time as Reference Banks are required or at the request of the Calculation Agent, provide the Calculation Agent with the complete contact details of each relevant person at the applicable Reference Bank, including but not limited to, the telephone number, fax number and e-mail address;

Relevant Screen Page means the page, section or other part of a particular information service specified as the Relevant Screen Page in the applicable Final Terms, or such other page, section or other part as may replace it on that information service or such other information service, in each case, as may be nominated by the person providing or sponsoring the information appearing there for the purpose of displaying rates or prices comparable to the Reference Rate.

If the Rate cannot be determined because of the occurrence of a Benchmark Event, the Rate shall be calculated in accordance with the terms of Condition 8.4.

8.4 **Benchmark Replacement**

Notwithstanding the other provisions of this Condition, if the Trustee and Dar Al-Arkan, following consultation with the Calculation Agent, determine that a Benchmark Event has occurred in relation to the relevant Reference Rate specified in the applicable Final Terms when any Rate (or the relevant component part thereof) applicable to the Certificates for any Return Accumulation Period remains to be determined by such Reference Rate, then the following provisions shall apply:

- (a) the Trustee and Dar Al-Arkan shall use their reasonable endeavours to appoint, as soon as reasonably practicable, an Independent Adviser to determine no later than ten Business Days prior to the relevant Periodic Distribution Determination Date relating to the next succeeding Return Accumulation Period (the **IA Determination Cut-Off Date**), a Successor Rate or, alternatively, if there is no Successor Rate, an Alternative Reference Rate and, in either case, an Adjustment Spread for the purposes of determining the Rate (or the relevant component part thereof) applicable to the Certificates;
- (b) if (A) the Trustee and Dar Al-Arkan are unable to appoint an Independent Adviser; or (B) the Independent Adviser appointed by the Trustee and Dar Al-Arkan fails to determine a Successor Rate or, failing which, an Alternative Reference Rate and/or, in either case, an Adjustment Spread in accordance with this Condition 8.4 prior to the relevant IA Determination Cut-Off Date, then Dar Al-Arkan (acting in good faith and in a commercially reasonable manner) may elect to determine the Successor Rate or, failing which, an Alternative Reference Rate (as applicable) and/or, in either case, an Adjustment Spread itself for the purposes of determining the Rate (or the relevant component part thereof) applicable to the Certificates or, if applicable, any Benchmark Amendments, to ensure the proper operation of such Successor Rate or Alternative Reference Rate and/or (in either case) the applicable Adjustment Spread (with the relevant provisions in this Condition 8.4 applying *mutatis mutandis* to allow such determinations to be made by Dar Al-Arkan without consultation with the Independent Adviser);
- (c) if a Successor Rate or, failing which, an Alternative Reference Rate (as applicable) is determined in accordance with the preceding provisions, such Successor Rate or, failing which, Alternative Reference Rate (as applicable) shall be the Reference Rate for each of the future Return Accumulation Periods in respect of such Certificates (subject to the subsequent operation of, and to adjustment as provided in, this Condition 8.4. If, however, the Independent Adviser

(in consultation with the Trustee and Dar Al-Arkan) or Dar Al-Arkan (acting in good faith and in a commercially reasonable manner) (as applicable) is unable to determine, prior to the IA Determination Cut Off Date relating to the next succeeding Return Accumulation Period, the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Successor Rate or Alternative Reference Rate (as applicable) will apply without an Adjustment Spread;

- (d) the Adjustment Spread (or the formula or methodology for determining the Adjustment Spread), shall be applied to the Successor Rate or the Alternative Reference Rate (as the case may be) provided however, if the Independent Adviser (following consultation with the Trustee and Dar Al-Arkan), or Dar Al-Arkan (acting in good faith and in a commercially reasonable manner) fails to determine the Adjustment Spread in accordance with this Condition 8.4 prior to the relevant Periodic Distribution Determination Date then the Successor Rate or Alternative Reference Rate as determined in accordance with this Condition 8.4 will apply without an Adjustment Spread;
- (e) if any Successor Rate, Alternative Reference Rate or Adjustment Spread is determined in accordance with this Condition 8.4 and the Independent Adviser (following consultation with the Trustee and Dar Al-Arkan) or Dar Al-Arkan (acting in good faith and in a commercially reasonable manner), as applicable, determines: (A) that amendments to these Conditions, the Master Trust Deed and/or any other Transaction Document (including, without limitation, amendments to the definitions of Day Count Fraction, Business Day, Business Day Convention, Periodic Distribution Determination Date or Relevant Screen Page) are necessary to ensure the proper operation of such Successor Rate, Alternative Reference Rate and/or Adjustment Spread (such amendments, the **Benchmark Amendments**); and (B) the terms of the Benchmark Amendments, then, at the direction and expense of Dar Al-Arkan and subject to delivery of a notice in accordance with Condition 8.4(f): (x) the Trustee (acting on the instructions of Dar Al-Arkan) and Dar Al-Arkan shall vary these Conditions to give effect to such Benchmark Amendments with effect from the date specified in such notice; and (y) the Trustee, the Delegate and the Agents shall (at Dar Al-Arkan's expense), without any requirement for the consent or sanction of Certificateholders, be obliged to concur with Dar Al-Arkan in effecting such Benchmark Amendments, provided that none of the Trustee, the Delegate or any Agent shall be required to effect any such Benchmark Amendments if the same would impose, in its opinion, more onerous obligations upon it or expose it to any liability against which it is not adequately indemnified and/or secured and/or prefunded to its satisfaction or impose any additional duties, responsibilities or liabilities or reduce or amend its rights and/or the protective provisions afforded to it.
- (f) prior to any such Benchmark Amendments taking effect: (A) the Trustee shall provide a certificate signed by a director or a duly authorised signatory of the Trustee to the Delegate and the Principal Paying Agent; and (B) Dar Al-Arkan shall provide a certificate signed by a duly authorised signatory of Dar Al-Arkan to the Trustee, the Delegate and the Principal Paying Agent that such Benchmark Amendments are: (x) in the Trustee's or Dar Al-Arkan's (as the case may be) reasonable opinion (following consultation with the Independent Adviser), necessary to give effect to any application of this Condition 8.4; and (y) in each case, have been drafted solely to such effect, and the Trustee (in the case of the certificate to be provided to Dar Al-Arkan), the Delegate and the Principal Paying Agent (as the case may be) shall be entitled to rely on such certificates without further enquiry or liability to any person. For the avoidance of doubt, none of the Delegate or any Agent shall be liable to the Certificateholders or any other person for so acting or relying on such certificate, irrespective of whether any such modification is or may be materially prejudicial to the interests of any such Certificateholder or person;
- (g) Dar Al-Arkan shall promptly, following the determination of any Successor Rate or Alternative Reference Rate (as applicable) and the specific terms of any Benchmark Amendments, give notice to the Delegate, the Agents (such notice to be delivered not less than 10 Business Days prior to the date on which such Benchmark Amendments are due to come into effect) and, in accordance with Condition 18, the Certificateholders confirming: (A) that a Benchmark Event has occurred; (B) the Successor Rate or Alternative Reference Rate (as applicable); (C) any applicable Adjustment Spread; and (D) the specific terms of the Benchmark Amendments (if any) in each case, as determined in accordance with the provisions of this Condition 8.4;

- (h) if, following the occurrence of a Benchmark Event and in relation to the determination of the Rate (or the relevant component part thereof) on the immediately following Periodic Distribution Determination Date, no Successor Rate or Alternative Reference Rate (as applicable) is determined pursuant to this provision, then the Rate (or the relevant component part thereof) shall be determined as at the last preceding Periodic Distribution Determination Date. For the avoidance of doubt, this Condition 8.4(h) shall apply to the relevant immediately following Return Accumulation Period only and any subsequent Return Accumulation Periods are subject to the subsequent operation of and to adjustment as provided in, this Condition 8.4; and
- (i) the Independent Adviser appointed pursuant to this Condition 8.4 shall act and make all determinations pursuant to this Condition 8.4 in good faith and the Independent Adviser shall act as an expert. In the absence of bad faith, wilful default or fraud, none of the Independent Adviser, the Trustee or Dar Al-Arkan shall have any liability whatsoever to the Principal Paying Agent, the Paying Agents or the Certificateholders in connection with any determination made by it or, in the case of the Independent Adviser, for any advice given to the Trustee and Dar Al-Arkan in connection with any determination made by the Trustee and Dar Al-Arkan pursuant to this Condition 8.4.

Notwithstanding any other provision of this Condition 8, if in the Calculation Agent's opinion there is any uncertainty between two or more alternative courses of action in making any determination or calculation under this Condition 8, the Calculation Agent shall promptly notify the Trustee and Dar Al-Arkan thereof and the Trustee, following consultation with the Independent Adviser (if appointed), shall direct the Calculation Agent in writing as to which alternative course of action to adopt. If the Calculation Agent is not promptly provided with such direction, or is otherwise unable to make such calculation or determination for any reason, it shall notify the Trustee and Dar Al-Arkan thereof and the Calculation Agent shall be under no obligation to make such calculation or determination and shall not incur any liability for not doing so.

In these Conditions:

Adjustment Spread means either (a) a spread (which may be positive, negative or zero), or (b) a formula or methodology for calculating a spread, in each case to be applied to the Successor Rate or the Alternative Reference Rate (as the case may be) and is the spread, formula or methodology which:

- (A) in the case of a Successor Rate, is formally recommended, or formally provided as an option for parties to adopt, in relation to the replacement of the relevant Reference Rate with the Successor Rate by any Relevant Nominating Body; or
- (B) (if no such recommendation has been made, or in the case of an Alternative Reference Rate) the Independent Adviser (following consultation with the Trustee and Dar Al-Arkan) determines is customarily applied to the relevant Successor Rate or the Alternative Reference Rate (as the case may be) in international debt capital markets transactions to produce an industry-accepted replacement rate for the relevant Reference Rate; or
- (C) (if the Independent Adviser (following consultation with the Trustee and Dar Al-Arkan) determines that no such spread, formula or methodology is customarily applied) the Independent Adviser (following consultation with the Trustee and Dar Al-Arkan) determines is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the relevant Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Reference Rate (as the case may be); or
- (D) (if the Independent Adviser (following consultation with the Trustee and Dar Al-Arkan) determines that there is no such industry standard) the Independent Adviser (following consultation with the Trustee and Dar Al-Arkan) or Dar Al-Arkan (as applicable) determines (acting in good faith and in a commercially reasonable manner) in their sole discretion to be appropriate;

Alternative Reference Rate means an alternative benchmark or screen rate which the Independent Adviser (following consultation with the Trustee and Dar Al-Arkan) determines, in accordance with this Condition 8.4, is customarily applied in international debt capital markets transactions for the purposes of determining profit rates (or the relevant component part thereof) in the same Specified Currency as the Certificates and of a comparable duration to the relevant Return Accumulation Period or, if the Independent Adviser or Dar Al-Arkan (as applicable) determines that there is no such rate, such other rate as the Independent Adviser or Dar Al-Arkan (as applicable) determines in their sole discretion is most comparable to the relevant Reference Rate;

Benchmark Event means: (i) the relevant Reference Rate ceasing to be published as a result of such benchmark ceasing to be calculated or administered or ceasing to exist for at least five Business Days; or (ii) a public statement by the administrator of the relevant Reference Rate that it has ceased or that it will, by a specified future date, cease publishing the relevant Reference Rate permanently or indefinitely (in circumstances where no successor administrator has been appointed that will continue publication of the relevant Reference Rate); or (iii) a public statement by the supervisor of the administrator of the relevant Reference Rate, that the relevant Reference Rate has been or will be by a specified future date, permanently or indefinitely discontinued; or (iv) a public statement by the supervisor of the administrator of the relevant Reference Rate as a consequence of which by a specified future date, the relevant Reference Rate will be prohibited from being used either generally, or in respect of the Certificates; or (v) a public statement by the supervisor of the administrator of the relevant Reference Rate that, in the view of such supervisor, such Reference Rate is or will be (or is or will be deemed by such supervisor to be) no longer representative of an underlying market; or (vi) it has become unlawful for the Trustee, Dar Al-Arkan, the Calculation Agent or any Paying Agent to calculate any payments due to be made to any Certificateholder using the relevant Reference Rate, provided that where the relevant Benchmark Event is a public statement within sub-paragraphs (ii), (iii), (iv) and (v) above and the relevant specified future date in the public statement is more than six months after the date of that public statement, the Benchmark Event shall not be deemed to occur until the date falling six months prior to such specified future date;

Financial Stability Board means the organisation established by the Group of Twenty (G20) in April 2009;

Independent Adviser means an independent financial institution of international repute or an independent adviser with appropriate expertise appointed by the Trustee and Dar Al-Arkan at Dar Al-Arkan's expense;

Relevant Nominating Body means, in respect of a Reference Rate: (i) the central bank for the currency to which the Reference Rate relates, or any central bank or other supervisory authority which is responsible for supervising the administrator of the Reference Rate; or (ii) any working group or committee sponsored by, chaired or co-chaired by or constituted at the request of: (A) the central bank for the currency to which the Reference Rate relates; (B) any central bank or other supervisory authority which is responsible for supervising the administrator of the Reference Rate; (C) a group of the aforementioned central banks or other supervisory authorities; or (D) the Financial Stability Board or any part thereof; and

Successor Rate means the rate that the Independent Adviser (in consultation with the Trustee and Dar Al-Arkan) or Dar Al-Arkan, as applicable, determines is a successor to or replacement of the relevant Reference Rate which is formally recommended by any Relevant Nominating Body.

8.5 **Linear Interpolation**

Where Linear Interpolation is specified as applicable in respect of a Return Accumulation Period in the applicable Final Terms, the Rate for such Return Accumulation Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate (where Screen Rate Determination is specified as applicable in the applicable Final Terms), one of which shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Return Accumulation Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Return Accumulation Period, provided however that, if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the Calculation Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.

Designated Maturity means, in relation to Screen Rate Determination, the period of time designated in the Reference Rate.

8.6 Calculation of Periodic Distribution Amount

The Calculation Agent will, as soon as practicable after the time at which the Rate is to be determined in relation to each Return Accumulation Period, calculate the Periodic Distribution Amount payable in respect of each Certificate for such Return Accumulation Period. The Periodic Distribution Amount will be calculated by applying the Rate applicable to the relevant Return Accumulation Period to:

- (a) in the case of Certificates which are represented by a Global Certificate, the aggregate outstanding face amount of the Certificates represented by such Global Certificate; or
- (b) in the case of Certificates in definitive form, the Calculation Amount,

and, in each case, multiplying the product by the relevant Day Count Fraction and rounding the resultant figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards). Where the Specified Denomination of a Certificate in definitive form is a multiple of the Calculation Amount, the Periodic Distribution Amount payable in respect of such Certificate shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

Day Count Fraction means, in respect of the calculation of a Periodic Distribution Amount in accordance with this Condition:

- (a) if "Actual/Actual (ISDA)" or "Actual/Actual" is specified in the applicable Final Terms, the actual number of days in the Return Accumulation Period divided by 365 (or, if any portion of that Return Accumulation Period falls in a leap year, the sum of (A) the actual number of days in that portion of the Return Accumulation Period falling in a leap year divided by 366 and (B) the actual number of days in that portion of the Return Accumulation Period falling in a non-leap year divided by 365);
- (b) if "Actual/365 (Fixed)" is specified in the applicable Final Terms, the actual number of days in the Return Accumulation Period divided by 365;
- (c) if "Actual/365 (Sterling)" is specified in the applicable Final Terms, the actual number of days in the Return Accumulation Period divided by 365 or, in the case of a Periodic Distribution Date falling in a leap year, 366;
- (d) if "Actual/360" is specified in the applicable Final Terms, the actual number of days in the Return Accumulation Period divided by 360;
- (e) if "30/360", "360/360" or "Bond Basis" is specified in the applicable Final Terms, the number of days in the Return Accumulation Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

"Y₁" is the year, expressed as a number, in which the first day of the Return Accumulation Period falls;

"Y₂" is the year, expressed as a number, in which the day immediately following the last day of the Return Accumulation Period falls;

"M₁" is the calendar month, expressed as a number, in which the first day of the Return Accumulation Period falls;

"M₂" is the calendar month, expressed as a number, in which the day immediately following the last day of the Return Accumulation Period falls;

"D₁" is the first calendar day, expressed as a number, of the Return Accumulation Period, unless such number is 31, in which case D₁ will be 30; and

"D₂" is the calendar day, expressed as a number, immediately following the last day included in the Return Accumulation Period, unless such number would be 31 and D₁ is greater than 29, in which case D₂ will be 30;

- (f) if "30E/360" or "Eurobond Basis" is specified in the applicable Final Terms, the number of days in the Return Accumulation Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

"Y₁" is the year, expressed as a number, in which the first day of the Return Accumulation Period falls;

"Y₂" is the year, expressed as a number, in which the day immediately following the last day of the Return Accumulation Period falls;

"M₁" is the calendar month, expressed as a number, in which the first day of the Return Accumulation Period falls;

"M₂" is the calendar month, expressed as a number, in which the day immediately following the last day of the Return Accumulation Period falls;

"D₁" is the first calendar day, expressed as a number, of the Return Accumulation Period, unless such number would be 31, in which case D₁ will be 30; and

"D₂" is the calendar day, expressed as a number, immediately following the last day included in the Return Accumulation Period, unless such number would be 31, in which case D₂ will be 30;

- (g) if "30E/360 (ISDA)" is specified in the applicable Final Terms, the number of days in the Return Accumulation Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

"Y₁" is the year, expressed as a number, in which the first day of the Return Accumulation Period falls;

"Y₂" is the year, expressed as a number, in which the day immediately following the last day of the Return Accumulation Period falls;

"M₁" is the calendar month, expressed as a number, in which the first day of the Return Accumulation Period falls;

"M₂" is the calendar month, expressed as a number, in which the day immediately following the last day of the Return Accumulation Period falls;

"D₁" is the first calendar day, expressed as a number, of the Return Accumulation Period, unless (i) that day is the last day of February or (ii) such number would be 31, in which case D₁ will be 30; and

"D₂" is the calendar day, expressed as a number, immediately following the last day included in the Return Accumulation Period, unless (i) that day is the last day of February but not the Scheduled Dissolution Date or (ii) such number would be 31, in which case D₂ will be 30.

8.7 Publication

The Calculation Agent will cause each Rate and Periodic Distribution Amount determined by it, together with the relevant Periodic Distribution Date, and any other amount(s) required to be determined by it

together with any relevant payment date(s) to be notified to the Trustee, Dar Al-Arkan, the Delegate and the Paying Agents as soon as practicable after such determination but (in the case of each Rate, Periodic Distribution Amount and Periodic Distribution Date) in any event not later than the fourth day of the relevant Return Accumulation Period. Notice thereof shall also promptly be given to the Certificateholders in accordance with Condition 18. The Calculation Agent will be required to recalculate any Periodic Distribution Amount (on the basis of the foregoing provisions) without notice in the event of an extension or shortening of the relevant Return Accumulation Period and any such recalculation will be notified to the Trustee, Dar Al-Arkan, the Delegate, the Paying Agents and the Certificateholders as soon as practicable after such determination.

8.8 **Notifications, etc. to be final**

All communications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition by the Calculation Agent will (in the absence of wilful default, bad faith or manifest or proven error) be binding on the Trustee, the Delegate, Dar Al-Arkan, the Agents and all Certificateholders and (in the absence of wilful default or fraud) no liability shall attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions under this Condition.

8.9 **Calculation Agent**

Notwithstanding any other provision of this Condition 8, if in the Calculation Agent's opinion there is any uncertainty between two or more alternative courses of action in making any determination or calculation under this Condition 8, the Calculation Agent shall promptly notify Dar Al-Arkan thereof and Dar Al-Arkan shall direct the Calculation Agent in writing as to which alternative course of action to adopt. If the Calculation Agent is not promptly provided with such direction, or is otherwise unable to make such calculation or determination for any reason, it shall notify Dar Al-Arkan thereof and the Calculation Agent shall be under no obligation to make such calculation or determination and shall not incur any liability for not doing so.

9. **PAYMENT**

9.1 **Payments in respect of the Certificates**

Subject to Condition 9.2, payment of any Dissolution Amount and any Periodic Distribution Amount will be made by transfer to the registered account of each Certificateholder. Payments of any Dissolution Amount will only be made against surrender of the relevant Certificate at the specified office of any of the Paying Agents. Each Dissolution Amount and each Periodic Distribution Amount will be paid to the holder shown on the Register at the close of business on the relevant Record Date.

In these Conditions:

Notice of any termination or appointment and of any changes in specified offices will be given to the Certificateholders promptly by the Trustee in accordance with Condition 18.

11. CAPITAL DISTRIBUTIONS OF THE TRUST

11.1 Scheduled Dissolution

Unless the Certificates are previously redeemed, or purchased and cancelled, in full, the Trustee shall redeem the Certificate on the Scheduled Dissolution Date at the Final Dissolution Amount together with any accrued but unpaid Periodic Distribution Amounts. Upon such redemption and the execution of the relevant Sale Agreement in accordance with the Purchase Undertaking, the Trust will terminate, the Certificates shall cease to represent undivided ownership interests in the Trust Assets and no further amounts shall be payable in respect thereof and the Trustee shall have no further obligations in respect thereof.

11.2 Early Dissolution for Tax Reasons

The Trustee shall, upon receipt of a duly completed Exercise Notice from Dar Al-Arkan in accordance with the Sale and Substitution Undertaking, redeem the Certificates in whole, but not in part:

- (a) at any time (if the Fixed Periodic Distribution Provisions are specified in the applicable Final Terms as being applicable); or
- (b) on any Periodic Distribution Date (if the Floating Periodic Distribution Provisions are specified in the applicable Final Terms as being applicable),

(such date, the **Early Tax Dissolution Date**) on giving not less than 30 nor more than 60 days' notice to the Certificateholders in accordance with Condition 18 (which notice shall be irrevocable and shall oblige the Trustee to redeem the Certificates on the relevant Early Tax Dissolution Date), at the Early Dissolution Amount (Tax) together with any accrued but unpaid Periodic Distribution Amounts, if a Tax Event occurs where **Tax Event** means:

- (i) the Trustee has or will become obliged to pay additional amounts pursuant to Condition 12; or
- (ii) the Trustee has received notice from Dar Al-Arkan that it has or will become obliged to pay additional amounts to the Trustee pursuant to any Transaction Documents as a result of Dar Al-Arkan having been required to withhold or deduct any taxes in respect of any payment by it pursuant to the relevant Transaction Document to or to the order of the Trustee (at a rate in excess of five per cent. of the gross amounts payable under the relevant Transaction Document),

in each case (x) as a result of any change in, or amendment to, the laws or regulations of any Relevant Jurisdiction, or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the Issue Date, and (y) such obligation cannot be avoided by the Trustee or Dar Al-Arkan, as the case may be, taking reasonable measures available to it; and provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which, in the case of paragraph (i) above, the Trustee would be obliged to pay such additional amounts were a payment in respect of the Certificates then due or, in the case of paragraph (ii) above, Dar Al-Arkan would be obliged to pay such additional amounts were a payment to or to the order of the Trustee pursuant to the relevant Transaction Document then due, as the case may be.

Prior to the publication of any notice of redemption pursuant to Condition 11.2, the Trustee shall deliver to the Delegate: (i) (in the case of (i) above) a certificate signed by two duly authorised officers of the Trustee stating that the obligation referred to in (i) has arisen, or (in the case of (ii) above) a certificate signed by two duly authorised officers of Dar Al-Arkan stating that the obligation referred to in (ii) has arisen, and in each case stating that the obligation cannot be avoided by the Trustee or Dar Al-Arkan, as the case may be (having taken all reasonable measures available to it); and (ii) an opinion of independent legal or tax advisers of recognised standing to the effect that the Trustee or Dar Al-Arkan, as the case may be, will become obliged to pay such additional amounts as a result of such change or amendment.

The Delegate shall be entitled to accept (without further investigation) any such certificate and opinion delivered to it pursuant to the above as sufficient evidence thereof in which event it shall be conclusive and binding on the Certificateholders. For the avoidance of doubt, the Delegate shall have no liability to any person for accepting and acting on such certificate and/or opinion.

Upon the expiry of any such notice as is referred to in this Condition 11.2, the Trustee shall be bound to redeem the Certificates at the Early Dissolution Amount (Tax) together with any accrued but unpaid Periodic Distribution Amounts and, upon payment in full of such amounts to the Certificateholders. Upon such redemption and the execution of the relevant Sale Agreement in accordance with the Sale and Substitution Undertaking, the Trust will terminate, the Certificates shall cease to represent undivided ownership interests in the Trust Assets and no further amounts shall be payable in respect thereof and the Trustee shall have no further obligations in respect thereof.

11.3 Dissolution at the Option of Dar Al Arkan

If Early Dissolution (Trustee Call) is specified in the applicable Final Terms as being applicable, the Trustee shall, upon receipt of a duly completed Exercise Notice from Dar Al-Arkan in accordance with the Sale and Substitution Undertaking, redeem the Certificates in whole, but not in part, on any Early Dissolution Date (Trustee Call), which must be a Periodic Distribution Date if the Floating Periodic Distribution Provisions are specified in the applicable Final Terms, at the relevant Early Dissolution Amount (Trustee Call) together with any accrued but unpaid Periodic Distribution Amounts on giving not less than 30 nor more than 60 days' notice to the Certificateholders in accordance with Condition 18 (which notice shall be irrevocable and shall oblige the Trustee to redeem the Certificates on the relevant Early Dissolution Date (Trustee Call)). Upon such redemption and the execution of the relevant Sale Agreement in accordance with the Sale and Substitution Undertaking, the Trust will terminate, the Certificates shall cease to represent undivided ownership interests in the Trust Assets and no further amounts shall be payable in respect thereof and the Trustee shall have no further obligations in respect thereof; provided, however, that no such notice of redemption shall be given unless the Trustee has received an exercise notice from Dar Al-Arkan under the Trust Deed.

Early Dissolution (Trustee Call) and Certificateholder Put Right may not both be specified as applicable in the applicable Final Terms.

11.4 Dissolution at the Option of Certificateholders

If Certificateholder Put Right is specified in the applicable Final Terms as being applicable, the Trustee shall, at the option of any Certificateholder, upon such holder giving to the Trustee not less than the minimum period of notice nor more than the maximum period of notice specified in the applicable Final Terms, upon the expiry of such notice, redeem such Certificates on the Certificateholder Put Right Date at the relevant Certificateholder Put Right Dissolution Amount together with any accrued but unpaid Periodic Distribution Amounts. Any Certificateholder Put Notice or other notice given in accordance with the standard procedures of Euroclear and Clearstream, Luxembourg by a holder of any Certificate pursuant to this Condition 11.4 shall be irrevocable except where, prior to the due date of redemption, a Dissolution Event has occurred and the Delegate has declared the Certificates to be redeemed pursuant to Condition 15, in which event such holder, at its option, may elect by notice to the Trustee to withdraw the notice given pursuant to this Condition 11.4.

Certificateholder Put Right and Early Dissolution (Trustee Call) may not both be specified as applicable in the applicable Final Terms.

11.5 **Dissolution at the Option of Certificateholders following a Change of Control**

The Trustee shall, upon receipt of a written notice from Dar Al-Arkan, or otherwise upon having actual knowledge, of the occurrence of a Change of Control, promptly give notice (a **Change of Control Notice**) of the occurrence of a Change of Control to the Delegate and the Certificateholders in accordance with Condition 18. If any Certificateholders elect to redeem their Certificates, in whole or in part, in accordance with this Condition 11.5, the Trustee shall redeem such Certificates on the relevant Change of Control Put Right Date at the Change of Control Put Right Dissolution Amount together with any accrued but unpaid Periodic Distribution Amounts. If any Certificateholders elect to redeem their Certificates, in whole or in part, in accordance with this Condition 11.6, the Trustee shall redeem such Certificates on the Tangibility Event Put Right Date at the relevant Tangibility Event Put Right Dissolution Amount together with any accrued but unpaid Periodic Distribution Amounts. If the Certificates are represented by a Global Certificate or are in definitive form and held through Euroclear or Clearstream, Luxembourg, to exercise the right in this Condition 11.6 a holder must, within the Tangibility Event Put Period, give notice to the Principal Paying Agent of such exercise in accordance with the standard procedures of Euroclear and Clearstream, Luxembourg (which may include notice being given on such Certificateholder's instruction by Euroclear, Clearstream, Luxembourg or any depositary for them to the Principal Paying Agent by electronic means) in a form acceptable to Euroclear and Clearstream, Luxembourg from time to time and if the Certificates are represented by a Global Certificate, at the same time present or procure the presentation of the relevant Global Certificate to the Principal Paying Agent for notation accordingly.

Any Tangibility Event Put Notice or other notice given in accordance with the standard procedures of Euroclear and Clearstream, Luxembourg by a holder of any Certificate pursuant to this Condition 11.6 shall be irrevocable except where, prior to the due date of redemption, a Dissolution Event has occurred and the Delegate has declared the Certificates to be redeemed pursuant to Condition 15, in which event such holder, at its option, may elect by notice to the Trustee to withdraw the notice given pursuant to this Condition 11.6.

Upon such redemption and the execution of the relevant Sale Agreement in accordance with the Sale and Substitution Undertaking, the Trust will terminate, the Certificates shall cease to represent undivided ownership interests in the Trust Assets and no further amounts shall be payable in respect thereof and the Trustee shall have no further obligations in respect thereof; provided, however, that no such notice of redemption shall be given unless the Trustee has received an exercise notice from Dar Al-Arkan under the Trust Deed.

11.8 **Dissolution following a Total Loss Event**

The Trustee shall, upon receipt of a written notice from Dar Al-Arkan, or otherwise upon having actual knowledge, of the occurrence of a Total Loss Event, redeem the Certificates in whole, but not in part, provided that the Lease Assets have not been replaced in accordance with the Service Agency

Following the occurrence of a Total Loss Event, the Service Agent shall promptly notify the Trustee and the Delegate of the same and the Trustee shall promptly deliver a notice to the Certificateholders (the **Trading and Delisting Notice**) in accordance with Condition 18 (a) of the occurrence of such event; (b) from the date of the Trading and Delisting Notice and until any further notice from the Trustee, in consultation with the *Shari'a* Adviser, stating otherwise, the Certificates should be tradable only in accordance with the *Shari'a* principles of debt trading (such as the principle that debt is to be traded against tangible assets and/or eligible commodities on a spot settlement basis); and (c) that, on the date of such Trading and Delisting Notice, an application will be made for the Certificates to be delisted from any stock exchange (if any) on which the Certificates have been admitted to listing, or if such date is not a business day, the next following business day (**business day** being for this purpose, a day on which the stock exchange on which the Certificates are admitted to listing is open for business). Following the replacement of the Lease Assets in accordance with the Service Agency Agreement, the Trustee shall promptly, following receipt of a notice from the Service Agent and in consultation with the *Shari'a* Adviser, notify the Certificateholders in accordance with Condition 18 that: (a) from the date of such notice the Certificates may be traded at any price; and (b) the Certificates shall be re-listed as soon as reasonably practicable, on the stock exchange (if any) on which the Certificates had been previously admitted to listing.

Following the replacement of the Lease Assets in accordance with the Service Agency Agreement, the Trustee shall promptly, following receipt of such notice from the Service Agent and in consultation with the *Shari'a* Adviser, notify the Certificateholders in accordance with Condition 18: (a) that from the date of such notice the Certificates may be traded at any price; and (b) the Certificates shall be re-listed as soon as reasonably practicable, on the stock exchange (if any) on which the Certificates had been previously admitted to listing.

All Certificates which are redeemed, and all Certificates purchased by or on behalf of Dar Al-Arkan or any of its Subsidiaries and delivered by Dar Al-Arkan to the Principal Paying Agent for cancellation,

will be cancelled in accordance with Condition 14.2 and accordingly such Certificates may not be held, reissued or resold.

In these Conditions, the expression **Dissolution Date** means, as the case may be, (a) the Scheduled Dissolution Date, (b) the Early Tax Dissolution Date, (c) the Early Dissolution Date (Trustee Call), (d) any Certificateholder Put Right Date, (e) any Change of Control Put Right Date, (f) any Tangibility Event Put Right Date, (g) the Total Loss Dissolution Date, or (h) the Dissolution Event Redemption Date.

12. **TAXATION**

All payments of any Dissolution Amount and any Periodic Distribution Amount in respect of the Certificates by or on behalf of the Trustee shall be made free and clear of and without withholding or deduction for, or on account of, any present or future Taxes, unless the withholding or deduction of the Taxes is required by law. In such event, the Trustee will pay additional amounts so that the full amount which otherwise would have been due and payable under the Certificates in the absence of any such withholding or deduction is received by the parties entitled thereto, except that no such additional amount shall be payable in relation to any payment in respect of any Certificate:

- (a) the holder of which is liable for such Taxes in respect of such Certificate by reason of having some connection with any Relevant Jurisdiction other than the mere holding of such Certificate; or
- (b) presented for payment by or on behalf of a Certificateholder who is eligible for a reduction or exemption from such withholding taxes by complying with any certification, identification or other reporting requirements whether imposed by statute, treaty, regulation or administrative practice concerning nationality, residence or connection with the Relevant Jurisdiction if such compliance is requested by the Trustee and is required as a precondition to such relief or exemption from such withholding taxes and if, after having been requested to make such certification or identification or comply with such reporting requirements, such Certificateholder fails to do so; or
- (c) presented for payment (where presentation is required) more than 30 days after the Relevant Date except to the extent that the Certificateholder would have been entitled to such additional amounts on presenting the same for payment on the last day of such 30-day period assuming, whether or not such is in fact the case, that day to have been a Payment Business Day.

Certain factors affecting Dar Al-Arkan's Financial Condition and Results of Operations

Macroeconomic and other trends in the Kingdom

Most of Dar Al-Arkan's operations are carried out in the Kingdom. As a result, macroeconomic, demographic and other trends relating to the Kingdom have impacted and will continue to impact Dar Al-Arkan's operating profit from period to period.

The oil sector continues to constitute the largest portion of the Kingdom's economy. According to GASTAT, the oil sector accounted for 27.74 per cent. and 29.53 per cent. of the Kingdom's real GDP in the years ended 31 December 2024 and 2023, respectively, while oil revenues accounted for 60.09 per cent. and 62.24 per cent. of total Government revenues in the fiscal years 2024 and 2023, respectively. Oil exports accounted for 73.05 per cent. and 77.27 per cent. of the Kingdom's total exports by value in 2024 and 2023, respectively.

Historically, the price of oil has been volatile and over the past two decades, international oil prices have fluctuated significantly. Oil prices fluctuated from U.S.\$41.47 on 1 January 2020 to U.S.\$73.73 on 1 January 2025. Oil prices have been under downward pressure amid weak global economic activity, record output from the United States, and steady production and exports by Russia. The price weakness unfolded despite supply disruption concerns in the aftermath of conflicts in the Middle East, the extension and deepening of production cuts by OPEC+, as well as the announcement of oil purchases by the U.S. government to replenish its Strategic Petroleum Reserve. In March 2025, the OPEC Reference Basket (ORB) value declined by U.S.\$2.81, or 3.7 per cent., month-on-month, to average U.S.\$74.00 per barrel. The ICE Brent front-month contract fell by U.S.\$3.48, or 4.6 per cent., month-on-month, to average U.S.\$71.47 per barrel, and the NYMEX WTI front-month contract fell by U.S.\$3.27, or 4.6 per cent., month-on-month, to average U.S.\$67.94 per barrel. The GME Oman front-month contract fell by U.S.\$4.78, or 6.2 per cent., month-on-month, to average U.S.\$72.50 per barrel. The global oil demand growth forecast for 2025 is revised down slightly to 1.3 million barrels per day, year-on-year. This minor adjustment is mainly due to received data for the first quarter of 2025 and the expected impact on oil demand given recently announced US tariffs. In the OECD, oil demand is expected to grow by 0.04 million barrels per day, while non-OECD demand is forecast to expand by almost 1.25 million barrels per day in 2025. The forecast for global oil demand growth in 2026 is revised down slightly to approximately 1.3 million barrels per day. The OECD is expected to grow by approximately 0.1 million barrels per day, year-on-year, in 2026, while demand in the non-OECD is forecast to increase by 1.2 million barrels per day, year-on-year, in 2026. The average of the monthly average OPEC Reference Basket prices over the three-month period ended 31 March 2025 was U.S.\$74.00, compared to U.S.\$84.22 over the three-month period ended 31 March 2024.

According to GASTAT, as of 1 July 2024, the Kingdom's total population was estimated by GASTAT to be approximately 35.3 million. The annual growth rate in population is 4.7 per cent. compared to 2023 and the average annual growth rate from the base period in May 2022 is 4.6 per cent. The annual growth rate of the Saudi population was 2.0 per cent. In 2024, the total number of Saudi citizens exceeded 19.6 million, up from 19.3 million in 2023. Meanwhile, the number of non-Saudi residents reached approximately 15.7 million in 2024, compared to 14.5 million in 2023. Non-Saudis accounted for 75.6 per cent. of the total population increase during this period. Additionally, the results showed that Saudis constituted 55.6 per cent. of the total population of the Kingdom, while non-Saudis made up 44.4 per cent. According to IMF, the population of the Kingdom at the beginning of 2025 was 36.01 million and will reach approximately 39.75 million by 2030.

Although the Saudi population is increasing, average household sizes are declining. Together with the population increase, the Kingdom has undergone rapid urbanisation in recent decades and, as of 31 March 2025, over 85.30 per cent. of the total population of the Kingdom lives in cities, with approximately half the population being concentrated in the six largest cities of Riyadh, Jeddah, Makkah, Madinah, Ta'if and Dammam. This shift is largely

due to better job opportunities, modern infrastructure, and improved quality of life found in urban areas. The average annual housing demand is anticipated to grow to 153,000 units by 2030, averaging 124,000 units over the period. The housing market in the Kingdom is also currently witnessing an increase in public-private partnerships (PPPs) as part of the Government's plan to attract more private sector investment in the housing sector.

The Kingdom currently faces a shortage of availability in the housing sector, particularly in the low to mid income levels. According to estimates by the MoMRAH and the Real Estate Development Fund (the **REDF**), the Kingdom will require an additional 1.2 million homes to reach a total housing stock of 4.96 million units by 2030. In February 2016, SAMA increased the limit on real estate financing from 70 per cent. to 85 per cent. of the value of a home (effectively reducing the minimum required down payment on a home from 30 per cent. to 15 per cent.). In January 2018, SAMA further increased the limit on real estate financing provided by real estate financing companies from 85 per cent. to 90 per cent. of the value of a home (effectively reducing the minimum required down-payment on a home from 15 per cent. to 10 per cent.). The increase in the financing-to-value ratio has had the effect of increasing the level of mortgage financing in the Kingdom which, in turn, has enhanced the Kingdom's real estate sector.

The real estate sector in the Kingdom, including the housing market, which is a large part of the real estate sector, is driven by positive economic developments as well as favourable demographic fundamentals. Notwithstanding the continued volatility in global oil prices, Dar Al-Arkan expects that continued growth in other sectors of the Kingdom's economy is likely to drive continued growth in real estate development.

The Kingdom's housing market has benefitted significantly from a number of Government initiatives in recent years aimed at developing the sector and increasing house building and home ownership as well as initiatives designed to increase access to mortgage finance for home buyers, see "*Overview of the Real Estate Sector in the Kingdom*".

Management believes that the financing initiatives referred to above will continue to contribute to an increase in demand for housing in the Kingdom which, amongst other things, could raise the average selling price of residential units, including those sold under Dar Al-Arkan's residential and commercial projects.

For a more detailed discussion of macroeconomic and other trends in the Kingdom and the real estate development sector of the Kingdom, see "*Overview of the Kingdom*" and "*Overview of the Real Estate Sector in the Kingdom*".

As of 31 December 2024, Dar Al-Arkan's development properties consisted of SAR 20.99 billion (U.S.\$5.60 billion) including project lands and properties of SAR 16.50 billion (U.S.\$4.40 billion), all of which were valued on its balance sheet at cost. Dar Al-Arkan's development properties are geographically diversified within the Kingdom.

Number of land development projects sold

Revenue from completed land development projects is generated mainly from the sale of land plots on which infrastructure has been developed to third parties for development by them (within an approved master plan in the case of master-planned community developments). Dar Al-Arkan recognises revenue for the total sale price of land at the time of the legal completion of the sale, which is when the sale contract is signed. Typically, a minimum 20 per cent., non-refundable, deposit is received from the buyer at the time the sale contract is signed. The balance of the sale price is typically paid within a three to 12-month period after the sale contract is signed. Revenue from land development projects may vary from period to period depending on the number and timing of sale contracts signed during a given period.

Revenue from off-plan sales

In addition, Dar Al-Arkan is increasingly adopting off-plan sales programmes to market and sell its developments. The revenue from off-plan sales is used to subsequently develop and complete properties for the duration of their construction and development contracts. The revenue and cost of such developments are recognised in proportion to the performed stages of completion against the total contractual obligations agreed pursuant to the relevant sale contract (including variation, claims and incentives) at the end of each reporting period in accordance with IFRS Accounting Standards as endorsed in the KSA (IFRS 15).

Number and type of residential units delivered to buyers

Revenue from completed residential and commercial projects is generated from the sale of residential and commercial units. Dar Al-Arkan recognises revenue from the sale of residential and commercial units when it

delivers a completed residential or commercial unit to a buyer. Revenue from residential and commercial projects may vary from period to period depending on the number and type of units delivered during a given period.

Dar Al-Arkan's master-planned communities contain more residential and commercial units than its past projects but they also have longer development cycles than past projects. In addition, Dar Al-Arkan has continued to expand its business to include asset management by retaining certain residential and commercial units on its master-planned communities as rental properties. Dar Al-Arkan has retained 1,779 units of residential property and, as of 31 March 2025, 99 per cent. of these units had been rented. The longer development cycles of master-planned communities and the mix of residential and commercial units delivered for sale and retained as rental properties on master-planned communities may result in fluctuations in revenue from residential and commercial projects from period to period.

Revenue from residential and commercial projects may also fluctuate from period to period due to the market segment targeted by different projects and the type of units contained on projects. Certain of Dar Al-Arkan's residential and commercial projects are targeted toward the higher end of the middle-income segment, while others are targeted towards the lower end of the middle-income segment. Dar Al-Arkan's projects may also contain different mixes of residential units, such as various types of villas and apartments. Villas typically generate a higher average selling price per unit than apartments.

Revenue from land development projects and residential and commercial projects

Revenue from land development projects and residential and commercial projects may vary from period to period depending on the location of land sold and the location of the residential and commercial projects in which residential units are sold during a given period. Sale prices can vary depending on a number of factors relating to the location of land for residential and commercial projects, infrastructure development status, size of the property offered, the region in which they are located and their proximity to, or location within, major cities.

Cost of land and construction

Dar Al-Arkan's cost of revenue primarily consists of land acquisition costs and amounts paid to contractors. Dar Al-Arkan recognises cost of revenue for its land development projects and residential and commercial projects in the same periods in which it recognises revenue from sales from the related projects. Therefore, cost of revenue for a particular period may include costs incurred in prior periods. Dar Al-Arkan generally contracts to develop residential and commercial projects in different phases, which limits its overall cost exposure to projects and provides flexibility to react to market demands in the development of projects. Amounts paid to contractors are affected by construction costs, such as costs of labour and costs of construction materials. Dar Al-Arkan's cost of revenue and gross profit may fluctuate from period to period due to volatility in such construction costs.

In recent years, volatility in construction costs has affected Dar Al-Arkan's cost of revenue from period to period. However, such volatility has not affected negatively gross profit during these periods as Dar Al-Arkan was generally able to reflect the cost increases in its sale prices. Management anticipates ongoing volatility in construction costs, which may result in fluctuations in cost of revenue and gross profit from one period to the next.

Mix of property development projects and residential and commercial projects

Due to the cost of inputs associated with completing land development projects relative to those required for developing residential and commercial projects, the gross margins from land development projects tend to be higher than gross margins from residential and commercial projects. As a result, Dar Al-Arkan's gross margins may fluctuate from period to period depending on the mix of revenue and cost of revenue recognised from land development projects and residential and commercial projects during the periods.

Deemed disposal on issuance of shares by subsidiary

On 28 February 2023, Dar Global PLC, an indirectly wholly owned subsidiary of the Group, listed its shares on the main market of the London Stock Exchange. As part of this listing, Dar Global PLC issued and offered 21,621,612 ordinary shares for subscription through a private placement at a price of U.S.\$3.33 per share with a total value of U.S.\$72 million. As a result of this share issuance, the Group's equity interest in Dar Global PLC was diluted from 100 per cent. to 88 per cent. and the Group was deemed to no longer control Dar Global PLC as a result of the listing requirement for it to be able to carry on its own business independently. The decrease in Dar Al-Arkan's long-term development properties as of 31 March 2025 compared to the position as of 31 December 2024 was due to lower investment in development properties compared to the amount of properties sold during the same period.

Note 6 to each of the Interim Financial Statements and the Audited Financial Statements contains further information about Dar Al-Arkan's development properties, including in each of the Interim Financial Statements and the 2024 Audited Financial Statements a discussion on its internal tolerance evaluations to identify possible impairment and related sensitivities.

Liquidity and Borrowings

Liquidity

Dar Al-Arkan operates a capital-intensive business and requires significant amounts of cash to satisfy its working capital and capital expenditures requirements, as well as to meet its financing obligations. In addition, the relative lack of "off-plan" and "pre-finished" home sales in the Kingdom requires Dar Al-Arkan to rely on cash generated from the Sale of Development Properties, Sale of Residential Properties and funds from external financings to fund its residential and commercial projects.

Dar Al-Arkan relies on a combination of cash from operations and financings from domestic banks and the domestic and international capital markets to fund the expansion of its operations. For the next 12 months, management believes that cash from these sources will be sufficient to fund Dar Al-Arkan's working capital needs and scheduled repayment of financing maturing during the coming year. However, Dar Al-Arkan may obtain additional funding to meet its medium- to long-term financing obligations, to fund the capital expenditures relating to other development projects and to support the future growth of its business.

Net Cash From/(Used in) Operating Activities

Net cash from operating activities was SAR 280.10 million (U.S.\$74.69 million) for the three-month period ended 31 March 2025, compared to net cash used in operating activities of SAR 318.33 million (U.S.\$84.89 million) for the three-month period ended 31 March 2024. The increase in net cash from operating activities in the three-month period ended 31 March 2025 was primarily due to improved profitability and a positive movement in working capital, which was largely driven by the net reduction in development properties.

Net cash from operating activities was SAR 814.47 million (U.S.\$217.19 million) for the year ended 31 December 2024, compared to net cash from operating activities of SAR 1.43 billion (U.S.\$0.38 billion) for the year ended 31 December 2023 and net cash from operating activities of SAR 460.06 million (U.S.\$122.68 million) for the year ended 31 December 2022. The decrease in net cash from operating activities in the year ended 31 December 2024 compared to the year ended 31 December 2023 was due to lower working capital and also a net increase in development properties. The increase in net cash from operating activities for the year ended 31 December 2023 compared to the year ended 31 December 2022 was primarily due to improved profitability and positive movements in working capital driven by net reduction in development properties.

Net Cash (Used in) Investing Activities

Net cash used in investing activities was SAR 0.61 million (U.S.\$0.16 million) for the three-month period ended 31 March 2025, compared to net cash used in investing activities of SAR 1.86 million (U.S.\$0.50 million) for the three-month period ended 31 March 2024. The decrease in net cash used in investing activities for the three-month period ended 31 March 2025 was primarily due to lower spending on capital expenditure.

Net cash used in investing activities was SAR 835.78 million (U.S.\$222.88 million) for the year ended 31 December 2024, compared to net cash used in investing activities of SAR 1.17 billion (U.S.\$0.31 billion) and SAR 14.26 million (U.S.\$3.80 million) for the years ended 31 December 2023 and 31 December 2022, respectively. The decrease in net cash used in investing activities for the year ended 31 December 2024 compared to the year ended 31 December 2023 was due to non-investment in associates. The increase in net cash used for the year ended 31 December 2023 compared to the year ended 31 December 2022 was primarily due to the investments made in associates and acquisition of property and equipment for expansion and administrative purposes.

Net Cash (Used in)/From Financing Activities

Net cash used in financing activities was SAR 505.18 million (U.S.\$134.71 million) for the three-month period ended 31 March 2025, compared to net cash from financing activities of SAR 529.54 million (U.S.\$141.21 million) for the three-month period ended 31 March 2024. This decrease was due to the net effect of the redemption of sukuk upon maturity amounting to SAR 2.25 billion (U.S.\$600.00 million) and the utilisation under *Murabaha* facilities of SAR 2.01 billion (U.S.\$0.54 billion).

Net cash generated from financing activities was SAR 1.30 billion (U.S.\$0.35 billion) for the year ended 31 December 2024, compared to net cash used in financing activities of SAR 731.58 million (U.S.\$195.08 million) for the year ended 31 December 2023 and net cash generated from financing activities of SAR 1.33 billion (U.S.\$0.35 billion) for the year ended 31 December 2022. The Group's financing activities in each year solely comprised movements in its borrowings.

Capital Expenditures

For the three-month periods ended 31 March 2025 and 2024, Dar Al-Arkan made capital expenditures in the amounts of SAR 22.73 million (U.S.\$6.06 million) and SAR 788.86 million (U.S.\$210.36 million), respectively. These capital expenditures related to the development of Dar Al-Arkan's projects and the acquisition of land for future projects. Dar Al-Arkan funded these capital expenditure requirements with cash from operations and the proceeds from its other debt facilities.

As of 31 March 2025, Dar Al-Arkan had capital expenditure commitments of SAR 96 million (U.S.\$25.60 million), principally relating to the development of its master planned communities. Management expects Dar Al-Arkan to make a total of SAR 2.87 billion (U.S.\$0.77 billion) of capital expenditures during 2025, principally relating to the purchase and development of land as well as in connection with the other ongoing development projects in the Kingdom. Dar Al-Arkan intends to fund these capital expenditures with a combination of cash from operations and its current and planned debt facilities, including the proceeds from the offering of Certificates issued under the Programme.

Related Party Transactions

During the year ended 31 December 2024, the Group extended a back-to-back loan arranged through a GCC bank to Dar Global PLC. The loan is interest bearing on arm's length commercial terms and will be settled over a period of three years. The balance as of 31 March 2025 is SAR 799.08 million (U.S.\$213.09 million). Otherwise, during

the three financial years preceding the date of this Base Prospectus, Dar Al-Arkan has not entered into any significant transactions with companies in which Dar Al-Arkan's founding shareholders, directors and/or officers have material interests, and has not entered into any contracts with, and it holds no material interest on behalf of, any of its directors, the Chief Executive Officer or the Chief Financial Officer or with any other related party.

Dar Al-Arkan maintains an existing arrangement with SHL whereby SHL has agreed to pay sales consideration to Dar Al-Arkan Group for the residential units sold to individuals funded by SHL. There is no recourse to Dar Al-Arkan if a buyer of the property defaults on financing obtained from SHL. As of 31 March 2025, no amounts were due for such transactions from SHL to Dar Al-Arkan.

Khozam Real Estate Development Company (Khozam REDC) routinely invests its excess cash balance with Dar Al-Arkan at a nominal profit repayable on demand to facilitate Dar Al-Arkan's working capital needs. The closing balance of such cash balance held by Dar Al-Arkan as of 31 March 2025 was SAR 189.03 million (U.S.\$50.41 million). Dar Al-Arkan is permitted to repay these funds at any time.

Alkhair Capital and Alkhair Capital Dubai Limited (Alkhair Dubai) have each been engaged by Dar Al-Arkan to provide general financial advice and to represent and file documents on behalf of Dar Al-Arkan with the CMA, Tadawul and other statutory bodies from time to time. Alkhair Capital and Alkhair Dubai also routinely provide Shari'a-compliance reviews and management support for Dar Al-Arkan's issuances of Certificates under the Programme. There were no transactions made between either Dar Al-Arkan and Alkhair Capital or Dar Al-Arkan and Alkhair Dubai during the three-month period ended 31 March 2025.

Financial Risk Management

Note 27 to each of the Interim Financial Statements and the Audited Financial Statements contains detailed disclosure about Dar Al-Arkan's principal financial operations, including disclosure in relation to credit risk management, commission rate risk management, liquidity risk management and foreign currency risk management.

Significant Accounting Estimates, Assumptions and Judgements

In preparing its consolidated financial statements, management is required to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities (including contingent liabilities), and the related disclosures. The assumptions and estimates may cause a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Revenue Recognition

Dar Al-Arkan recognises revenue on the sale of its completed properties when significant risks and rewards of ownership transfer to the buyer, which is assessed at the time of legal completion of the sale or unconditional exchange. Dar Al-Arkan measures the revenue based on the consideration entitled in a contract with a customer excluding amounts, if any, collected for and on behalf of third parties.

With respect to land properties and projects, Dar Al-Arkan typically receives an initial non-refundable deposit upon signing the sale contract, with the balance being paid on a deferred basis (typically no longer than three months). Dar Al-Arkan recognises the full amount of the consideration as revenue at the point in time when the control of the property is transferred to the buyer through a legally enforceable sale contract which is signed between the buyer and Dar Al-Arkan.

With respect to residential and commercial projects, Dar Al-Arkan typically receives an initial deposit on the signature of the sales contract, with the balance being paid on a deferred basis as per the terms of the contract. Revenue from the sale of these properties is only recognised when the completed property is delivered to the purchaser.

With respect to residential and commercial projects sold under a construction contract, the revenue and cost of such projects are recognised in accordance with IFRS 15 when the objective and the outcome of such contracts can be estimated reliably in proportion to the performed/measured stages of completion against the total contractual obligations/milestones including variation, claims and incentives at the end of each reporting period, except where the work performed is not representative of the relevant stage of completion.

With respect to lease rental income, Dar Al-Arkan recognises revenue on a straight line basis over the lease term.

Recognition of cost of sales

Dar Al-Arkan has development properties which typically contain a number of individual projects within each development. In order to determine cost of sales related to properties or units sold during the period, the management estimates and averages the costs of the entire development, including infrastructure costs and overall construction and other directly attributable costs, to arrive at the total estimated cost of the project. These estimated costs are allocated to each project within the development and each unit within a project. These estimates are reviewed regularly on a profit per project basis and revised as necessary. Any significant change in these estimates may result in additional costs being recorded in future periods related to revenue recognised in a prior period.

Measurement of contract assets and trade receivables

Dar Al-Arkan's management makes significant assumptions on the estimation of expected credit loss in connection with contract assets and/or trade receivables which is assessed on the basis of the terms of the contracts. Dar Al-Arkan assesses receivables that are individually significant and receivables included in a group of financial assets with similar credit risk characteristics for impairment. This assessment of impairment requires judgement. In making this judgement, Dar Al-Arkan evaluates credit risk characteristics giving considerations for past default experience of the customer, analyses the general economic conditions of the industry in which the customer operates and the current financial position specific to the customer and assesses both the current as well as the forecast direction of past-due status and other loss event factors being indicative of the ability to pay all amounts due as per contractual terms at the reporting date. A provision for expected credit loss is made where there is objective evidence, including customers with financial difficulties or in default on payments, that amounts may not be recovered in accordance with the original terms of the contracts and the carrying value of the receivable exceeds the present value of the future cash flow discounted using the original effective interest rate.

Based on such periodic assessment, Dar Al-Arkan recognises full lifetime expected credit losses for all contract assets, lease receivables and/or all trade receivables with or without significant financing transactions using a provision matrix. For all other financial instruments, expected credit losses are measured at an amount equal to the 12-month expected credit losses.

Classification of properties

Dar Al-Arkan's properties are classified as either investment properties or development properties. Management has made various judgements to determine whether a property qualifies as an investment property which is held to earn rentals and/or for capital appreciation or both. These are not used for generating sales revenues through normal business operations. A development property comprises completed properties, developed land, property projects under construction, land projects under development and land awaiting development predominantly identified for sale in the ordinary course of business. In making its judgement, management considers its intended use of property. When management assesses that certain investment properties will be disposed as part of normal business operations, their carrying cost will be transferred to development properties for final completion of development and transfer.

Subsequent transfer of Investment Properties

Investment properties are the interests in land and/or buildings that are held for their investment potential and not for sale in the ordinary course of business. Management assesses the intended use of its real estate properties on a continuous basis and summarises the portfolio at every reporting period. When the periodic management assessment identifies any change in the use of a property previously classified as investment properties, their carrying cost is transferred to development properties for further development and final transfer in the ordinary course of business. While re-assessing the intended use, management considers the holding period, possibility of further appreciations, related economic activities around such properties and the need for further development to make the property ready for sale.

Transfers are made to investment properties when, and only when, there is a change in use, evidenced by the end of owner occupation or commencement of an operating lease. Transfers are made from investment properties when, and only when, there is a change in use, evidenced by commencement of owner occupation or commencement of development with the intent to sell.

Carrying value of development properties

Dar Al-Arkan's principal activity is currently the development and sale of land, residential and commercial property. Due to the nature of this activity, much of the development is speculative in nature. Accordingly, the interim condensed consolidated statement of financial position as of 31 March 2025 reflects assets that are not covered by forward sales contracts.

The development properties are stated at the lower of cost and net realisable value. Dar Al-Arkan assesses the net realisable value of its development properties at each reporting date, through an internal tolerance check, which includes an assessment of profit per project basis and compares the carrying and estimated future costs to complete with the expected selling price per unit based on historical activities and available comparables in the surrounding location.

For the determination of the expected net realisable value of the development properties, Dar Al-Arkan extensively uses its management's subjective expertise and location knowledge together with comparable transactions recorded in the surrounding area for non-related arm's lengths transactions. The estimated mark-up arrived using these methodologies is disclosed as a percentage of net-margin over the carrying cost.

To neutralise data risk, Dar Al-Arkan also estimates the potential uplift in value of its development properties by using the Accounting Rate of Return (**ARR**). Under the ARR method, Dar Al-Arkan estimates the return from assets considering future revenue streams, development costs and all directly attributable costs including financing cost, market risk and targeted profit. These assumptions and estimates are reviewed periodically based on the market conditions existing at the end of every reporting period.

Determination of control, joint control and significant influence

Subsidiaries are all investees over which Dar Al-Arkan has control. Management considers that it controls an investee when Dar Al-Arkan is exposed to or has rights to the majority of the variable returns from its involvement with the investee and the ability to use its power over the investee to affect the amount of those returns through its power to direct the relevant activities of the investees.

The determination as to whether Dar Al-Arkan has control depends on the way decisions regarding the relevant activities are made and the rights Dar Al-Arkan has in relation to the investees. It is generally presumed that Dar Al-Arkan could exercise significant influence when Dar Al-Arkan owns a 20.00 per cent. shareholding in the relevant investee. However, detailed evaluation and judgements are required for each investee, particularly when Dar Al-Arkan owns shareholding and voting rights of more or less than 20.00 per cent. to assess whether Dar Al-Arkan has 'significant influence' over such investees.

OVERVIEW OF THE KINGDOM

The information in this section has been derived from a number of different identified sources. The Trustee and Dar Al-Arkan confirm that such information has been accurately reproduced and that, so far as they are aware, and are able to ascertain from the information published by each of the relevant sources, no facts have been omitted which would render the reproduced information inaccurate or misleading.

Background

The Kingdom, situated in the south-western part of Asia, comprises almost four-fifths of the Arabian Peninsula, an area approximately one-third the size of the continental United States. The Kingdom is the largest country in the GCC and the second-largest Arab country. The modern Kingdom was declared in 1932 by King Abdulaziz bin Abdul Rahman Al Saud (**King Abdulaziz**). The capital of the Kingdom is Riyadh.

Since the discovery of oil fields in the eastern region along the coast of the Arabian Gulf in 1938, the Kingdom has experienced rapid growth and is now a leading producer of oil and natural gas. According to GASTAT, in the year ended 31 December 2024, the oil sector accounted for 27.74 per cent. of the Kingdom's nominal GDP. Regarding export earnings, the share of oil exports in total merchandise exports decreased to 70.5 per cent. in the fourth quarter of 2024, down from 76.4 per cent. in the same period of 2023. These figures indicate a continued diversification of the Kingdom's economy, with a growing contribution from non-oil sectors.

According to OPEC's 2024 Annual Statistical Bulletin, as of 31 December 2023, the Kingdom holds approximately 267.23 billion barrels of proven crude oil reserves, accounting for approximately 17 per cent. of the world's total reserves. This positions the Kingdom as the second-largest holder of proven oil reserves globally, following Venezuela. As of 31 December 2024, the Kingdom remained a leading global oil producer and exporter. According to the U.S. Energy Information Administration (EIA), the Kingdom produced approximately 11.13 million barrels of oil per day in 2023, accounting for approximately 11 per cent. of the world's total oil production, making it the second-largest oil producer globally after the United States. In terms of exports, the Kingdom continued to be the world's largest oil exporter. Data from OPEC indicates that the Kingdom exported around 6.66 million barrels per day of crude oil in 2023. While this represents a decrease from previous years, the Kingdom maintained its position as the top global oil exporter. These figures underscore the Kingdom's pivotal role in the global oil market, both as a major producer and the leading exporter of crude oil.

As of 31 December 2024, the Kingdom maintained its position as the largest economy in the GCC region. According to the World Bank, the Kingdom's nominal GDP was approximately U.S.\$1.07 trillion in 2023, reflecting its significant economic stature. According to the IMF, as of April 2025, the annual percentage change of real GDP growth increased by 3 per cent. and the Kingdom's economy continues to be one of the strongest worldwide. The Kingdom's economic stability is underpinned by its modern infrastructure and ongoing diversification efforts. Since joining the WTO in 2005 and the G20 in April 2009, the Kingdom has become a well-integrated player in the global economic order which underscores its sustained economic prominence and its pivotal role within the GCC and the broader global economic landscape.

Geography

The Kingdom comprises a land area of approximately 2,150,000 square kilometres and is located in the Arabian Peninsula, a peninsula of south-west Asia situated north-east of Africa. The Kingdom has coastlines on the Red Sea to the west and the Arabian Gulf to the east. It is bordered in the north and north-east by Jordan and Iraq, in the east by Kuwait, Qatar and the UAE, in the south-east by Oman, in the south by Yemen, and is connected to Bahrain by the King Fahd Causeway. The Kingdom is the largest country in the GCC.

Most of the Kingdom consists of arid or semi-arid land. Uninhabitable desert covers nearly half of the country. Less than 2 per cent. of Saudi land is classified as arable, and less than 1 per cent. of the country's land is dedicated to permanent crops. The Kingdom has undergone rapid urbanisation in recent decades. As of 31 December 2024, approximately 86 per cent. of the Kingdom's population resided in urban areas, according to the World Bank. This marks a slight increase from 85 per cent. in 2022, reflecting the Kingdom's ongoing urbanization trend. The majority of the population continues to be concentrated in the six largest cities: Riyadh, Jeddah, Makkah, Madinah, Ta'if, and Dammam. Notably, the Riyadh Metropolitan Area alone accounts for nearly 8 million residents. This urban concentration underscores the Kingdom's efforts to develop and expand its urban infrastructure in line with Vision 2030 objectives.

Government and legal framework

The Kingdom is a monarchy with a political system rooted in the traditions and culture of Islam. The Custodian of the Two Holy Mosques, the King of the Kingdom of Saudi Arabia (the **King**), is the head of state. Royal Decree number A/90 dated 27/08/1412H (corresponding to 01/03/1992G) (the **Basic Law of Governance**) provides that the Holy Quran and Sunnah (the witnessed sayings and actions of the Prophet Muhammad (PBUH)) form the primary sources of law in the Kingdom. The Basic Law of Governance specifies that the King must be chosen from among the sons of the founding King, King Abdulaziz, and their male descendants.

In 2006, the Allegiance Council (*hay'at al-bay'ah*) was established, comprising: (a) the surviving sons of King Abdulaziz; (b) one son of each deceased/incapacitated son of King Abdulaziz to be appointed by the King; and (c) one son of the incumbent King and one son of the incumbent Crown Prince, both appointed by the incumbent King, to determine which member of the royal family will be the next King and the next Crown Prince. The current King, Custodian of the Two Holy Mosques King Salman bin Abdulaziz Al Saud, acceded to the throne on 23 January 2015. The current Crown Prince is His Royal Highness Prince Mohammed bin Salman bin Abdulaziz Al Saud, who also holds the positions of Prime Minister, Chairman of the Council for Economic and Development Affairs (the **CEDA**) and Chairman of the Council for Political and Security Affairs.

The King or the Crown Prince presides over the Council of Ministers (*Majlis al Wuzara*), which was established by Royal Decree in 1953. The Council of Ministers, as of the date of this Base Prospectus, comprises the Prime Minister, Ministers with portfolios and Ministers of State. The Council of Ministers is selected by the King. The Council of Ministers is responsible for, among other things, executive and administrative matters such as foreign and domestic policy, defence, finance, health and education.

The Kingdom is divided into 13 provinces, each of which has a governor and a provincial council. The provincial councils are empowered to determine the development needs of their respective provinces, make recommendations and request appropriations in the annual budget. The Kingdom's 13 provinces comprise Riyadh, Makkah, Madinah, the Eastern Province, Asir, Al-Baha, Tabuk, Al-Qassim, Ha'il, Al-Jouf, the Northern Borders, Jizan and Najran. These provinces are further divided into 136 governorates, which are in turn sub-divided into municipalities. Pursuant to the Law of Municipal Councils, issued by Royal Decree No. M/61 in 2014, the term of each municipal council is two years, and two thirds of the members of the municipal council must be chosen by elections, while the remaining third are appointed by the Minister for Municipal and Rural Affairs and Housing. In 2015, women were allowed to stand for election to, and vote for the members of, the municipal councils.

Legal and Judicial System

Since the founding of the modern Kingdom in 1932, and in accordance with the Basic Law of Governance, *Shari'a* (Islamic law) has been the pillar and source of the Kingdom's basic system of Government, and is the paramount body of law in the Kingdom.

The *Shari'a* is comprised of a collection of fundamental principles derived from a number of different sources, which include the Holy *Qur'an* and the Sunnah. The Sunnah encompasses the witnessed sayings and actions of the Prophet Mohammed (PBUH). In addition to the *Shari'a*, Saudi Arabian law is also derived from enacted legislation that may not conflict with *Shari'a* principles. Legislation is enacted in various forms, the most common of which are Royal Orders, Royal Decrees, Council of Ministers' resolutions, High Orders, ministerial resolutions and ministerial circulars having the force of law. All such laws and regulations are ultimately subject to, and may not conflict with, the *Shari'a*, and each Saudi Arabian court or other adjudicatory authority is required to interpret such legislation accordingly.

The Kingdom's judicial system comprises the general courts, which have general jurisdiction over most civil and criminal cases, and specialised courts covering certain specific areas of law, including a system of administrative courts known as the Board of Grievances, a Specialised Criminal Court, and various adjudicatory or quasi-judicial committees with special jurisdiction over such matters as banking transactions, securities regulation, intellectual property, tax, electricity industry disputes and medical malpractice.

In 2007, the Government announced a restructuring of the judicial system, including the establishment of courts of appeal and a supreme court, as well as the merger of most special adjudicatory committees into the general courts, though exceptions were made for certain adjudicatory committees. The committees that are exempted from the 2007 reforms include the Banking Disputes Committee, the Committee for the Enforcement of the Banking Control Law and the Committee for Resolution of Insurance Disputes and Violations, each of which operates under the aegis of SAMA; the Committee for the Resolution of Securities Disputes, which operates under the

aegis of the CMA; and the Committee for Resolution of Custom Duties Disputes. The 2007 reforms also proposed the transfer of jurisdiction over commercial disputes from the Board of Grievances to the commercial courts which have started to hear disputes of a commercial nature as of 22 September 2017 pursuant to the Circular of the Supreme Court of Justice No. T/967 dated 01/01/1439H (corresponding to 22/09/2017G). As part of the ongoing restructuring of the judicial system, personal status courts, courts of appeal and a supreme court have already been established.

The Board of Grievances has exclusive jurisdiction to hear claims against Government bodies. Prior to March 2012, the Board of Grievances also had exclusive jurisdiction to consider the enforcement of foreign judgments and arbitral awards; however, with the enactment of the Enforcement Law in March 2012, this jurisdiction was transferred to the "Enforcement Departments" staffed by specialised "enforcement judges". The Enforcement Departments may, at their discretion, enforce all or any part of a foreign judgment or arbitral award, subject to certain conditions, which include compliance of such judgment or award with public policy in the Kingdom. The Board of Grievances also had exclusive jurisdiction to supervise insolvency and bankruptcy proceedings relating to commercial entities, which was transferred to the Commercial Court, pursuant to the Bankruptcy Law issued pursuant to Royal Decree No. M/50 dated 28/05/1439H (corresponding to 14/02/2018G) and its implementing regulations issued pursuant to the Council of Ministers Resolution No. 622 dated 24/12/1439H (corresponding to 04/09/2018G) and published in the official gazette on 30/12/1439H (corresponding to 10/09/2018G), as amended, supplemented or restated from time to time.

In June 2017, a Royal Order was issued changing the name of the Bureau of Investigation and Public Prosecution to the Public Prosecution and establishing it as an independent government body that reports directly to the King, headed by a general prosecutor.

Vision 2030

In April 2016, the Government announced its new strategy, known as "Vision 2030", which sets forth a comprehensive agenda of socio-economic reforms with the aim of achieving fundamental economic, social and structural changes in the Kingdom by the year 2030. Vision 2030 is based upon three fundamental existing strengths of the Kingdom: (i) its importance in the Arab and Islamic world; (ii) its leading investment capabilities; and (iii) its unique strategic geographical location with the ability to connect the three continents of Asia, Europe and Africa.

The key objectives of Vision 2030 include the diversification of the Kingdom's economy and decreased reliance upon oil-related revenues through, among other measures, the transformation of Saudi Aramco from an oil-producing company into a global industrial conglomerate and the transformation of the PIF into a sovereign wealth fund. The PIF intends to continue to assist the private sector with the establishment of capital intensive projects. In addition, Vision 2030 aims to reform Government services to increase transparency and accountability, as well as to expand the variety and scope of digital services offered by the Government in order to improve efficiency and reduce bureaucracy.

Vision 2030 focuses on three broad themes, each of which aims to capitalise on the Kingdom's existing strengths in its society, culture, heritage and economy. The three themes highlighted in Vision 2030 are Societal Development, Economic Reform and Effective Governance.

The Council of Ministers has delegated to the CEDA the overall responsibility for establishing and monitoring the measures required for the effective implementation of Vision 2030, and the CEDA has in turn established an integrated governance model to implement detailed programmes to attain the desired results.

For details on the several initiatives that have already been launched or are anticipated to be launched in connection with the implementation of Vision 2030, see "*Implementation of Vision 2030*" below. One of the key executive programmes that was launched in June 2016 in connection with the implementation of Vision 2030 is the NTP, which sets forth the objectives and detailed methodology, including clearly identified goals and targets, that are sought to be achieved in connection with the implementation of Vision 2030. For details on the NTP, see "*The National Transformation Programme*" below. The Fiscal Sustainability Programme (previously named the Fiscal Balance Programme), launched in December 2016 in connection with the implementation of Vision 2030, is another key executive programme and set forth objectives and measures that were originally aimed at achieving a balanced budget by 2020. In December 2017, the Government revised the timeline for achieving a balanced budget in light of factors including local and global economic conditions and the expected fiscal and economic impact of certain planned initiatives and aims to achieve a balanced budget by 2023. In April 2017, CEDA, in connection with the implementation of Vision 2030, initially launched 10 new executive programmes, which, in

addition to the NTP and the Fiscal Sustainability Programmes, are known as the Vision 2030 realisation programmes (see "*Implementation of Vision 2030*" below).

Implementation of Vision 2030

The Government has already launched a number of programmes that seek generally to achieve the aims and objectives of Vision 2030, which include the following:

- *The Government Restructuring Programme:* This programme has, to date, included the consolidation of a number of existing Government bodies or councils under two newly-formed councils, the Council for Political and Security Affairs and the CEDA, with the intention of promoting greater efficiency and productivity between the various branches of Government and greater coordination between the respective ministries. A restructuring of various Governmental ministries and departments has also taken place.
- *The Fiscal Sustainability Programme:* This programme involves reviewing the Kingdom's existing capital expenditure, including the approval mechanisms relating to such expenditure, and its measurable economic impact. This programme envisages that further measures will be introduced with the aim of achieving economic diversification and fiscal consolidation. The Fiscal Sustainability Programme sets forth objectives and measures for the achievement of a balanced budget by 2023. The Fiscal Sustainability Programme is a key component to developing a more effective government, by enabling additional scrutiny of government finances as well as contributing to key socio-economic objectives of Vision 2030, including facilitating additional investments in Vision 2030 programmes and reforms to the social welfare system.
- *The National Transformation Programme:* This first phase of this programme was launched by the Government in June 2016 and continued through 2020. The NTP establishes strategic objectives that are based on Vision 2030 and addresses various challenges involved in the implementation of Vision 2030 in accordance with the specified methodology and targets. As a result of the launch of the Vision 2030 realisation programmes, the Government is re-examining the scope of the NTP in order to eliminate overlaps between the NTP and other programmes and ensure that the NTP continues to meet the overall objectives of Vision 2030. The second phase of this programme commenced in 2021 and will continue through 2025 with the aim of creating an environment that enables the public and private sectors to achieve Vision 2030. For further details in respect of the NTP, see "*The National Transformation Programme*" below.
- *The Regulations Review Programme:* This programme includes the review and update of several of the Kingdom's existing laws and regulations, in order to ensure that they accord with the Kingdom's stated goals and priorities. Such laws have included, among others, laws relating to companies, non-governmental organisations, fees on unused land and the General Authority for Endowments.
- *Enriching the Hajj and Umrah Experience Programme:* This programme aims to increase the number of people performing Hajj and Umrah including through the development of further infrastructure to support increased participation in Hajj and Umrah.
- *Lifestyle Improvement Programme:* This programme aims to increase participation in cultural, environmental and sporting activities.
- *National Companies Promotion Programme:* This programme aims to incentivise the growth and efficiency of a number of the most promising small and medium sized national companies and to create new job opportunities.
- *National Industrial Development Logistics Programme (the NIDLDP):* This programme aims to position the Kingdom as a logistics hub that benefits from its location at the intersection of three continents through improving infrastructure and developing logistics services. The delivery plan for the NIDLDP was approved on 15 July 2017 and the programme was officially launched on 28 January 2019. The NIDLDP's objective is to develop the industry, mining, energy and logistics sectors in the Kingdom, which in turn is expected to support job generation, increase non-oil exports, reduce imports, raise the contribution of these sectors to the Kingdom's GDP and attract foreign investments.

- *The Housing Programme:* This programme aims to facilitate increased private home ownership through the development of the residential and construction sectors.
- *The PIF Programme:* This programme envisages the refinement of the PIF's investment capabilities, enabling it to manage a broader portfolio of assets with the aim of transforming the PIF into an active sovereign wealth fund.
- *Strategic Partnerships Programme:* This programme aims to build and deepen strategic economic partnerships with selected countries that have the capacity to contribute to Vision 2030. It aims also to build partnerships in the GCC and the region by facilitating the movement of people, goods and capital.
- *Financial Sector Development Programme:* This programme aims to increase the size, depth, and development of the Kingdom's capital markets, improve operators and users' experiences as well as the status of the Kingdom's capital markets regionally, with the aim of making the Kingdom's capital markets the primary market in the Middle East and one of the most respected markets internationally. The programme aims to help create an advanced market that attracts local and foreign investors, which enables it to take on a pivotal role in developing the national economy and diversifying sources of income.
- *Privatisation Programme:* This programme aims to identify sectors suitable for privatisation and to implement a comprehensive privatisation programme.

In addition to the programmes outlined above, each of which have already been initiated and are at various stages of implementation, the Government is proposing to launch additional programmes that are intended to assist in achieving the aims of Vision 2030. These programmes include the Saudi Aramco Strategic Transformation Programme, a programme that envisages the transformation of Saudi Aramco from an oil-producing company into a global industrial conglomerate, for example through Saudi Aramco's acquisition of PIF's 70 per cent. stake in SABIC in June 2020.

National Transformation Programme

The first phase of the NTP (2016-2020) was launched in June 2016 across 24 governmental bodies operating in the economic and development sectors. At the time of its launch, the NTP included 16 ministries (including all the ministries represented in the CEDA) as well as eight governmental organisations closely connected with the overall objectives of Vision 2030 (such as the Ministry of Tourism, the Royal Commission for Jubail and Yanbu, the Government and the Ministry of Investment (**MISA**) and the King Abdulaziz City for Science and Technology, among others).

In the current phase of the NTP (2021-2025), the programme will continue developing the required infrastructure, enhancing social development, ensuring the sustainability of vital resources, achieving governmental operational excellence, supporting digital transformation and increasing the attractiveness of the labour market in order to create an environment that enables the public and private sectors to achieve Vision 2030. The programme will also deliver the strategic objectives that were previously assigned to the National Companies Promotion Programme and Strategic Partnerships Programme by contributing to the development of the private sector and developing economic partnerships. It is important to note that several strategic objectives have been transferred from and to existing or new programmes.

The Kingdom's Position in the International Community

As the only Arab nation member of the G20, an international forum for the governments of 20 major economies, and a founding member of several major international organisations, including the UN and OPEC, the Kingdom plays an important role in the global economy and international trade and diplomatic relations. Furthermore, as a founding member of the GCC, the Muslim World League, the OIC and the Islamic Development Bank (each of which is headquartered in the Kingdom) as well as the Arab League, the Kingdom has also assumed a leadership position among both Arab countries and the broader Muslim world.

The Kingdom is also a member of the IMF, the African Development Bank Group, the Asian Infrastructure Investment Bank and the European Bank for Restructuring and Development (the **EBRD**). The EBRD's mandate has recently been expanded to invest and promote private initiatives in certain Arab countries in the Middle East and North Africa region.

The Kingdom joined the World Bank Group in 1957 and is one of the larger shareholders of the World Bank among its 189 member countries. In recognition of its contributions to the global economy and international development, the Kingdom achieved the status of a 'single-country constituency' on the World Bank's Executive Board (the **Executive Board**) in 1986. The Kingdom is represented at World Bank meetings by its executive director and engages in direct consultations and negotiations with other executive offices with the aim of achieving the World Bank's primary objective of reducing global poverty. From time to time, the Kingdom's executive director has served as the chair of the Executive Board's standing committees, and several of the past Saudi executive directors have served as dean of the Executive Board.

The Kingdom acceded as a member of the WTO in November 2005, as a result of which the Government has implemented various structural reforms in order to create a more liberal trade regime and business-friendly environment. In addition to the WTO, the Kingdom is party to a number of multilateral business and trade related agreements, including the Convention Establishing the Multilateral Investment Guarantee Agency; the Inter-Arab Investment Guarantee Corporation; the UN Guiding Principles on Business and Human Rights; and the Convention on the Recognition and Enforcement of Foreign Arbitral Awards. The Kingdom is also party to a number of trade and economic agreements aimed at promoting trade and economic development, including the Arab Economic Unity Agreement; the Arab League Investment Agreement; the League of Arab States Investment and the Agreement on Promotion, Protection and Guarantee of Investments among the Member States of the OIC.

The Kingdom plays a key role in the international fight against terrorism. The Kingdom is a member and an active participant in a number of international organisations and treaties pertaining to anti-money laundering and combatting the financing of terrorism. In December 2015, the Government announced the establishment of an intergovernmental military alliance of 34 countries based at a joint command centre in Riyadh, the primary objective of which is to combat terrorist organisations, including Da'esh, in line with UN and OIC initiatives on counter-terrorism.

The Kingdom is also a member of the International Chamber of Commerce, the World Intellectual Property Organisation, the Greater Arab Free Trade Area, the International Organisation of Securities Commissions and the Organisation for the Prohibition of Chemical Weapons.

As of the date of this Base Prospectus, the Kingdom has entered into bilateral economic, trade and technical cooperation agreements with 36 countries, which aim to develop economic, trade and technical cooperation and to enable the free inflow of goods, capital, and services and the free movement of individuals and investment between the contracting countries. As of the date of this Base Prospectus, the Kingdom has also entered into Avoidance of Double Taxation Agreements with 55 countries.

In addition, the Kingdom contributes significant amounts of development aid to other countries and institutions, including through the Saudi Fund for Development (the **SFD**). The SFD extends financings and credit support for the development of a range of projects in many developing countries, particularly in Asia and Africa, with a particular focus on the social infrastructure, agriculture, energy and industry sectors.

Economic overview

According to the World Bank, the Kingdom's economy is dominated by oil. Vision 2030, which was announced in 2016, promotes structural reforms targeting strong, sustained, inclusive, greener, and service-led growth in order to diversify the Kingdom's economy away from oil. The economy fell into a deep recession in 2020 in the aftermath of the twin shocks of COVID-19 and lower oil prices, creating large shortfalls in fiscal and external positions. While the oil sector impact of COVID-19 has accelerated the urgency to delink the path of the economy from the oil sector, the pandemic is also likely to change the nature of the services model in many countries, and oil will remain a valuable asset to finance the transformation and adaptation to this emerging model or any other non-oil growth model for the Kingdom.

As of 31 December 2024, the Kingdom continued to hold its position as the largest economy in the GCC region. According to the IMF, the Kingdom's projected real GDP is expected to grow by 3 per cent. in 2025.

GDP

According to GASTAT, the Kingdom's real GDP grew by 1.3 per cent. in 2024 compared to the previous year. This growth was primarily driven by a 4.3 per cent. increase in non-oil activities and a 2.6 per cent. rise in government activities, which offset a 4.5 per cent. decline in oil-related activities. In the fourth quarter of 2024, the Kingdom's real GDP experienced a notable year-on-year growth of 4.5 per cent., marking the highest quarterly growth rate in two years. This surge was largely attributed to a 4.6 per cent. increase in non-oil sector activities.

Based on preliminary figures from GASTAT, the Kingdom's total nominal GDP reached approximately SAR 4,070 billion (U.S.\$1.09 trillion) in the year ended 31 December 2024. This represents a slight decrease of approximately 2.1 per cent. compared to SAR 4,156 billion (U.S.\$1.108 trillion) in 2022, primarily due to reduced oil revenues and production cuts.

The overall economic performance in 2024 reflects the Kingdom's ongoing efforts to diversify its economy under the Vision 2030 initiative, focusing on strengthening non-oil sectors and reducing dependence on oil revenues.

The Oil Sector

According to OPEC data as of 31 December 2023, the Kingdom possessed approximately 267 billion barrels of proven petroleum reserves, accounting for around 17 per cent. of the world's total - maintaining its position as the second-largest holder of proven petroleum reserves globally. In 2024, the Kingdom remained the world's second-largest oil producer, contributing about 11 per cent. of global oil production and continued to be the largest oil exporter by volume. According to GASTAT data, in the year ended 31 December 2024, the oil sector accounted for approximately 27.74 per cent. of the Kingdom's nominal GDP and approximately 73.1 per cent. of its export earnings. In addition to petroleum, the Kingdom's other natural resources include natural gas, iron ore, gold, and copper. Since the discovery of oil in 1938, the Kingdom's economy has grown rapidly on the strength of hydrocarbon revenues. While oil remains a core economic pillar, recent years have seen intensified efforts to diversify the economy, particularly through Vision 2030 initiatives. These efforts have become increasingly urgent in light of the volatility in oil prices since 2014 and ongoing global concerns regarding the sustainability of elevated oil price levels.

According to GASTAT data, the Kingdom's real GDP (at constant 2010 prices) grew by 1.3 per cent. in the year ended 31 December 2024, reflecting a modest recovery from the 0.8 per cent. contraction in 2023. This improvement was driven by a 4.3 per cent. increase in non-oil activities and a 2.6 per cent. increase in government services, which helped offset a 4.5 per cent. decline in oil activities. Among the non-oil sectors, other notable real-term growth was observed in several areas: manufacturing, construction, transportation and storage, finance and insurance, and wholesale and retail trade. Notably, according to the Ministry of Tourism's Annual Statistical Report, out of the 27.4 million visitors who arrived in the Kingdom in 2023, 58 per cent. visited for non-religious purposes, the first time that non-religious tourism had accounted for the majority of international travel to the Kingdom.

Based on GASTAT's preliminary figures, the non-oil sector of the economy contributed approximately 58.2 per cent. to the Kingdom's real GDP in the year ended 31 December 2024, up from 57.5 per cent. in 2023. In real terms, the non-oil sector grew by 4.3 per cent. in 2024, following 2.9 per cent. growth in 2023. The non-oil private sector, in particular, played a central role in this expansion, registering real growth of 4.5 per cent. in 2024.

The oil sector continues to constitute a significant portion of the Kingdom's economy, although its relative share has declined amid ongoing diversification efforts. In the year ended 31 December 2024, the oil sector accounted for approximately 32.5 per cent. of the Kingdom's real GDP, down from 34.7 per cent. in 2023. Oil revenues made up around 62.5 per cent. of total Government revenues in 2024, a decrease from 66.4 per cent. in 2023. Oil exports remained the dominant source of export earnings, accounting for approximately 73.1 per cent. of the Kingdom's total exports by value in 2024, slightly down from 76.4 per cent. in 2023.

In the year ended 31 December 2024, the Kingdom's average crude oil production was approximately 10.0 million barrels per day, compared to 10.6 million barrels per day in 2023 and 11.5 million barrels per day in 2022. The decline in production during 2024 reflects the Kingdom's voluntary output cuts as part of OPEC+ efforts to stabilise global oil markets amid fluctuating demand and geopolitical uncertainties.

The following table sets forth the yearly average OPEC Reference Basket price (a weighted average of prices per barrel for petroleum blends produced by the OPEC countries) and the monthly spot price per barrel of Arabian Light Crude Oil (which is one of the types of crude oil produced by Saudi Aramco and constitutes part of the OPEC Reference Basket) in each of the years indicated:

As illustrated by the data above, international oil prices have fluctuated significantly over the past two decades. More recently, oil prices have continued to be volatile, with the OPEC Reference Basket price per barrel for 2019 reaching U.S.\$64.04 and the average price for 2020 reaching U.S.\$41.50, with a high of U.S.\$65.10 and a low of U.S.\$17.66 during the period. In subsequent years, oil prices recovered, with the OPEC Reference Basket price reaching U.S.\$74.38 in December 2021 and U.S.\$100.08 in January 2022, before falling to U.S.\$77.98 in December 2023. In 2024, oil prices fell further with the OPEC Reference Basket price reaching U.S.\$71.59 in October 2024 and U.S.\$74.64 in December 2024. In the first five months of 2025, oil prices have been negatively impacted by various factors including the announcement of tariffs by the United States and the decision by OPEC+ to increase production, reaching a four-year low OPEC Reference Basket price of U.S.\$59.86 in May 2025.

Until mid-2014, rising oil prices and robust production levels enabled the Kingdom to generate sustained fiscal and external surpluses for over a decade. As a result, public debt declined significantly - from SAR 685.2 billion (U.S.\$182.7 billion) in 2002 to SAR 44.3 billion (U.S.\$11.8 billion) in 2014 - representing a 93.5 per cent. reduction. The Kingdom's debt-to-GDP ratio fell from 96.4 per cent. in 2003 to just 1.6 per cent. in 2014, one of the lowest globally at that time. However, the sharp decline in global oil prices beginning in mid-2014 and the sustained price volatility in the years that followed - exacerbated by the COVID-19 pandemic and geopolitical uncertainties - resulted in reduced oil revenues and growing fiscal pressures. Consequently, the Government turned to both domestic and international debt markets to finance budget deficits and sustain public investment.

As of 31 December 2024, the Kingdom's public debt stood at approximately SAR 1.0 trillion (U.S.\$267 billion), representing around 25 per cent. of nominal GDP - maintaining the same debt-to-GDP ratio as in 2022. This compares to SAR 990 billion (U.S.\$264 billion) in 2022 and SAR 938 billion (U.S.\$250.1 billion) in 2021. Of the total debt in 2024, approximately SAR 580 billion (U.S.\$155 billion) was domestic debt, while SAR 420 billion (U.S.\$112 billion) was external debt. The bulk of new financing raised during 2024 continued to be sourced domestically, reflecting the Kingdom's preference for local debt instruments to fund budgetary needs. International issuance remained modest, accounting for around 20 per cent. of total new borrowings. Despite the increased borrowing, this level remains moderate by global standards as the Kingdom continues implementing Vision 2030 reforms to diversify its economic base and reduce reliance on oil revenue.

The Government recorded a budget deficit of approximately SAR 79 billion (U.S.\$21 billion) in the year ended 31 December 2024, equivalent to around 1.9 per cent. of the Kingdom's nominal GDP. This compares to a balanced budget in 2023 and a surplus of SAR 104 billion (U.S.\$27.7 billion) in 2022. Total government revenue in 2024 reached an estimated SAR 1,220 billion (U.S.\$325 billion), a modest decrease from SAR 1,268 billion (U.S.\$338.1 billion) in 2022, mainly due to lower oil revenues amid voluntary output cuts and global price moderation. Despite this, non-oil revenues continued to expand, supported by the ongoing implementation of fiscal reforms and economic diversification initiatives under Vision 2030. The shift from surplus to deficit highlights the Kingdom's commitment to maintaining capital expenditures and economic development momentum even during periods of softer oil revenues.

As of 31 December 2024, the Government's reserve assets stood at approximately SAR 1,711 billion (U.S.\$456 billion), showing relative stability compared to SAR 1,724 billion (U.S.\$459.8 billion) at the end of 2022. Despite the return to a modest budget deficit in 2024, the Government maintained strong reserve levels, providing fiscal flexibility and confidence in its macroeconomic stability. While government borrowing increased slightly to cover the deficit, debt levels remained sustainable and within policy targets. The Kingdom continues to manage its reserves and debt in line with its long-term fiscal framework under Vision 2030.

Inflation

The average annual inflation rate in the Kingdom was 1.7 per cent. in the year ended 31 December 2024, compared to 2.3 per cent. and 3.4 per cent. in the years ended 31 December 2023 and 2022, respectively. The following table sets forth the Consumer Price Index (CPI) and the year-on-year percentage change in consumer prices in the Kingdom for each of the years ended 31 December 2024, 2023, and 2022:

	Year ended 31 December		
	2024	2023	2022
Consumer Price Index ⁽¹⁾	109.2	107.4	104.9
Consumer Price Index Change (%)	1.7	2.3	3.4

Source: GASTAT

Note:

(1) Consumer Price Index based on 2018=100

In 2024, the annual CPI increased by 1.7 per cent. compared to 2023, reflecting a continued moderation in inflationary pressures across the Kingdom. This moderation was primarily driven by a slowdown in the rise of housing, utilities, and transportation costs. While food and beverage prices still rose by 0.8 per cent., the rate of increase was lower than in previous years. The increase in food and beverage prices was mainly attributed to higher prices for vegetables (up 1.3 per cent.) and meat and poultry (up 0.9 per cent.). Meanwhile, transport prices remained relatively stable, rising by only 0.5 per cent., with marginal increases in vehicle purchase costs. These trends reflect improved supply chain conditions and the easing of global commodity price pressures.

Population and demographics

As of 1 July 2024, the Kingdom's total population was estimated by GASTAT to be approximately 35.3 million, reflecting a 4.7 per cent. increase from 33.7 million in 2023. This growth is attributed to both natural population increase and net immigration. According to GASTAT data, Saudi nationals comprised approximately 21.9 million, or 62.0 per cent. of the total population, while non-Saudi nationals accounted for around 13.4 million, or 38.0 per cent. The Kingdom continues to have a predominantly young population, with a significant proportion under the age of 35, supporting its long-term economic and social development goals. The following table sets forth the Kingdom's population estimates as of 1 July for the years 2024, 2023, 2022, 2021, and 2020:

	As of 1 July				
	2024	2023	2022	2021	2020
Saudi nationals	21,900,000	21,500,000	21,200,000	21,690,648	21,430,128
Non-Saudi nationals	13,400,000	12,200,000	11,000,000	12,420,173	13,583,286
Total population	35,300,000	33,700,000	32,200,000	34,110,821	35,013,414
Population growth (annual %)	4.7	4.7	4.6	(2.6)	2.3

The non-Saudi portion of the Kingdom's population comprises expatriates from neighbouring states as well as significant numbers from Asia (notably India, Pakistan, Bangladesh, Indonesia, and the Philippines), Europe, the Americas, and other regions. Arabic is the official language of the Kingdom, although English is widely spoken, particularly in business and professional settings.

Employment

Based on estimates from GASTAT's Labor Force Surveys, as of the third quarter of 2024, the unemployment rate among Saudi nationals was 7.8 per cent., a slight increase from 7.1 per cent. in the second quarter of 2024 but broadly consistent with the prior year-end figure of 8.0 per cent. The total labour force in the Kingdom reached approximately 15.0 million individuals, with Saudi nationals comprising approximately 9.1 million. Of the total labour force, approximately 12.2 million, or 81.3 per cent., were male, and 2.8 million, or 18.7 per cent., were female. Labour market indicators continued to reflect the Kingdom's efforts to enhance employment, especially for Saudi women. As of the third quarter of 2024, the unemployment rate among Saudi females was 13.8 per cent., down from 14.2 per cent. in the first quarter of 2024. This decrease was supported by a rise in the labour force participation rate among Saudi females to 36.2 per cent., alongside an increase in their employment-to-population ratio to 31.2 per cent.

Among Saudi males, the unemployment rate remained low at 4.6 per cent., with a labour force participation rate of 66.9 per cent. and an employment-to-population ratio of 63.8 per cent. These developments align with the Vision 2030 objective to boost labour market inclusion and expand economic participation across demographics.

Interest rate development

SAIBOR has fluctuated in recent years, reflecting changes in monetary policy and market conditions. As of 31 December 2018, SAIBOR stood at 2.4510 per cent., increasing slightly to 2.6318 per cent. by 31 December 2019. It then declined to 1.1900 per cent. at the end of 2020 and further to 0.8100 per cent. by 31 December 2021. However, by 31 December 2022, SAIBOR had risen to 3.1254 per cent. The upward trend continued, with the 3-month SAIBOR reaching 6.32 per cent. by the end of 2023, before easing to 5.52 per cent. by December 2024.

SAMA has adjusted its reverse repo rate in response to global financial developments. In December 2016, SAMA increased the reverse repo rate from 50 basis points to 75 basis points, aligning with the U.S. Federal Reserve's rate hike. Subsequent increases followed to combat inflation, with the rate reaching a peak of 550 basis points in July 2023. The three-month SAIBOR rose accordingly, surpassing 6.0 per cent. and reaching its highest level in over a decade. The reverse repo rate has since decreased by 50 basis points in September 2024, a further 25 basis points in November 2024 and a further 25 basis points in December 2024, to a level of 450 basis points as of December 2024, in line with similar adjustments by the U.S. Federal Reserve following a slight easing in response to more stable inflation and a shift in global monetary policy. The three-month SAIBOR also eased slightly, ending 2024 at approximately 5.52 per cent., compared to 6.32 per cent. at the end of 2023.

The following table sets forth the monthly average SAIBOR (three-month), repo rate and reverse repo rate as of 31 December in each of 2024, 2023, 2022, 2021 and 2020:

	Year ended 31 December				
	2024	2023	2022	2021	2020
SAIBOR (three-month average).....	5.52	6.32	3.13	0.81	1.19
Repo rate	5.50	5.75	5.00	1.00	1.00
Reverse repo rate	5.00	5.25	4.50	0.50	0.50

Source: SAMA

This updated data reflects the sharp interest rate increases beginning in 2022 as SAMA moved in parallel with the U.S. Federal Reserve to counter inflationary pressures, followed by a mild easing of rates in late 2024 in response to improved global monetary conditions.

Stock market

On 19 March 2007, the Council of Ministers approved the formation of the Saudi Arabian Stock Exchange (**Tadawul**). According to data published by Statista as of January 2025, Tadawul was the largest stock exchange in the MENA region in terms of market capitalisation, and is also one of the most diversified, with its listed companies covering a range of sectors, including petrochemicals, retail, financial services, construction and telecommunications, providing potential investors with investment opportunities in a wide variety of sectors.

The following table sets forth various stock market indicators in respect of Tadawul for each of the years ended 31 December 2024, 2023, 2022, 2021 and 2020, respectively:

According to data published by Tadawul, 35 companies and funds conducted initial public offerings during the year 2024, reflecting continued momentum in the Kingdom's capital markets. As of 31 December 2024, the total number of listed companies on Tadawul reached 285, marking an increase from 270 in 2023 and 223 in 2022. The total market capitalisation as of 31 December 2024 stood at approximately SAR 10,200 billion (U.S.\$2.72 trillion),

representing a modest increase of 3.3 per cent. from SAR 9,878 billion (U.S.\$2.63 trillion) at the end of 2022. Credit rating

The Kingdom has been assigned credit ratings by Moody's and Fitch Ratings Limited (**Fitch**). Standard & Poor's Credit Market Services Europe Limited (**S&P**) also assigns a credit rating to the Kingdom on an unsolicited basis. The following table sets forth the credit rating assigned to the Kingdom by each of these rating agencies as of the date of this Base Prospectus:

	Moody's	Fitch	S&P
Long-term foreign currency	Aa3	A+	A+
Outlook.....	Stable	Stable	Stable

In November 2024, Moody's upgraded the Kingdom's long-term foreign currency rating from A1 to Aa3 and changed the outlook to stable. This upgrade reflects the Kingdom's ongoing progress in economic diversification and the robust growth of its non-oil sector.

Fitch Ratings affirmed the Kingdom's long-term foreign currency issuer default rating at A+ with a stable outlook in January 2025. The affirmation reflects the Kingdom's strong fiscal and external balance sheets, supported by significant fiscal buffers in the form of deposits and other public-sector assets.

In March 2025, S&P Global Ratings upgraded the Kingdom's long-term foreign currency rating from A to A+ with a stable outlook. The upgrade acknowledges the sustained economic and social reforms aimed at reducing the nation's dependence on oil, as part of the Vision 2030 initiative.

Foreign investment

The Saudi Arabian Investment Law issued under Royal Decree No. M/19 dated 16/01/1446H (corresponding to 22/7/2024G) (as amended, the **Investment Law**) requires all foreign investment in the Kingdom to be registered with MISA (or licensed for activities appearing on the list of excluded activities to be issued and updated, from time to time, by the Standing Ministerial Committee for Examination of Foreign Investments established pursuant to the Council of Ministers' Resolution No. 83 dated 30/01/1443H (corresponding to 07/09/2021G) and published by MISA).

In a move aimed at attracting foreign investment and further strengthening the Kingdom's capital markets, in June 2015, the CMA published the Rules for Qualified Foreign Financial Institutions Investment in Listed Securities (the **QFI Rules**) which allow Qualified Foreign Investors (**QFIs**) to directly invest in shares listed on Tadawul in accordance with the applicable regulations. The QFI Rules have since been amended on several occasions to further encourage participation by foreign investors by expanding the definition of a 'qualified foreign institution' and relaxing certain ownership thresholds and limits. The opening of Tadawul to foreign investors was intended to support increased participation by institutional investors and thereby reduce market volatility as well as encourage Saudi companies listed on Tadawul to adopt international best practices and benefit from the input of sophisticated foreign institutions. In March 2018, FTSE Russell announced that Tadawul would be classified as a "Secondary Emerging Market" in the FTSE Global Equity Index Series from its previous status of "Unclassified". Tadawul was included in MSCI's Emerging Market Index in two phases in May 2019 and August 2019 and its status upgraded to "Emerging Market" status from its previous status of "Standalone Market".

In 2020, the Government approved the listing of government assets planned for privatisation through a direct or indirect initial public offering on Tadawul.

Vision 2030 envisages several measures aimed at attracting foreign investment and enhancing the confidence of foreign investors in the Kingdom's economy, including the streamlining of the visa regime applicable to business visitors, and the NTP has assigned to the MISA specific targets relating to increase in foreign investment in the Kingdom. The MISA, in coordination with a number of other Government institutions and ministries, has also

launched the 'National Investment Plan', which aims to contribute to the diversification of the economy and increase productivity by attracting foreign investment in specified sectors with well-established investment opportunities.

OVERVIEW OF THE REAL ESTATE SECTOR IN THE KINGDOM

The information in this section has been derived from a number of different identified sources. The Trustee and Dar Al-Arkan confirm that such information has been accurately reproduced and that, so far as they are aware, and are able to ascertain from the information published by each of the relevant sources, no facts have been omitted which would render the reproduced information inaccurate or misleading.

Overview

The Saudi real estate sector has grown steadily in recent years, benefiting from growing demand for residential and commercial properties as a result of the increasing population, changing demographics, the growing hotel and tourism industry and higher personal disposable income.

According to GASTAT, the population of the Kingdom was estimated to be approximately 35.3 million in mid-2024, representing a 4.7 per cent. increase from 33.7 million in 2023. Saudi nationals comprised approximately 19.6 million, or 55.5 per cent. of the total population, while non-Saudi nationals totalled approximately 15.7 million, or 44.5 per cent. of the total population in 2024. The Kingdom continues to maintain a youthful demographic profile, with an estimated 71 per cent. of Saudi nationals under the age of 35 and 34 per cent. under the age of 15 according to GASTAT's Saudi Youth Statistics Report 2023. According to the International Monetary Fund (IMF), the population of the Kingdom at the beginning of 2025 was 36.01 million and will reach approximately 39.75 million by 2030.

Although the Saudi population continues to grow, average household sizes have been declining due to changing family structures and urban lifestyle trends. Alongside this, the Kingdom has experienced rapid urbanisation over recent decades and, as of 31 March 2025, approximately 85.30 per cent. of the total population of the Kingdom lives in cities, with approximately half the population being concentrated in the six largest cities of Riyadh, Jeddah, Makkah, Madinah, Ta'if and Dammam. This shift is largely due to better job opportunities, modern infrastructure, and improved quality of life found in urban areas. The average annual housing demand is anticipated to grow to 153,000 units by 2030 with an average of 124,000 units over the period. This surge in demand is being met through a combination of government-led initiatives and increased participation from the private sector. The Kingdom's Housing Program - one of Vision 2030's Realization Programs - has significantly expanded Public-Private Partnerships (PPPs), aiming to enhance housing affordability and increase homeownership rates among Saudi nationals.

The Kingdom currently faces a shortage of availability in the housing sector, particularly in the low to middle-income levels. According to estimates by the MoMRAH and the REDF, the Kingdom will require an additional 1.2 million homes to reach a total housing stock of 4.96 million units by 2030. In February 2016, SAMA increased the limit on real estate financing provided by real estate financing companies from 70 per cent. to 85 per cent. of the value of a home (effectively reducing the minimum required down payment on a home from 30 per cent. to 15 per cent.) on the basis that the previous requirement had resulted in a market slowdown and was prohibitive to many low to middle-income Saudi nationals. In January 2018, SAMA further increased the limit on real estate financing provided by real estate financing companies from 85 per cent. to 90 per cent. of the value of a first home (effectively reducing the minimum required down-payment on such a home from 15 per cent. to 10 per cent.).

The real estate sector in the Kingdom, including the housing market, which is a large part of the real estate sector, is driven by positive economic developments as well as favourable demographic fundamentals. Notwithstanding the continued volatility in global oil prices, Dar Al-Arkan expects that continued growth in other sectors of the Kingdom's economy is likely to drive continued growth in real estate development.

Development of the housing and real estate sector

The Housing Programme

Under Vision 2030, the Housing Programme was launched in 2018, with the aim of developing the housing sector to provide Saudi citizens with greater access to the housing market by expanding the availability of affordable housing and suitable financing options. This support is intended to increase the percentage of Saudi families that own residential properties in the Kingdom.

In response to the persistent housing shortage in the Kingdom, the Government has prioritised development of the housing and real estate sector as a strategic pillar of Vision 2030. The NTP, launched in 2016, set several initial targets, including:

- doubling the contribution of real estate activity to the Kingdom's economy to 10 per cent., with 7 per cent. average annual growth;
- increasing the home ownership rate among Saudi families from 47 per cent. to 52 per cent.;
- raising the share of real estate financing to non-oil GDP from 8 per cent. to 15 per cent.; and
- reducing the waiting period for home financing from 15 years to five years.

As of 2024, many of these targets have been met or exceeded. According to MoMRAH and REDF, the Saudi homeownership rate surpassed 60 per cent. in 2023, supported by expanded access to mortgage financing and the development of thousands of new housing units across the Kingdom. The contribution of the real estate sector to GDP continues to grow, and the role of the private sector has been significantly strengthened through extensive PPPs and initiatives such as Sakani, which connects citizens with subsidised housing solutions.

To date, the Housing Program, one of the Vision 2030 Realization Programs, has achieved notable success in addressing the Kingdom's housing challenges. This progress has been largely driven by initiatives such as the Sakani platform, which connects beneficiaries with government-supported financing options and private-sector housing offers. The programme has also stimulated supply through robust PPPs with real estate developers and builders, ensuring the delivery of high-quality housing units across the Kingdom. To streamline the development process, the Government established key institutions and platforms such as the National Housing Company (NHC), which is a state-owned entity under MoMRAH and plays a central role in coordinating large-scale housing projects. The NHC supports developers, expedites project approvals, and enhances delivery efficiency. In parallel, the "Etmam" e-portal, launched in 2017, has significantly improved the speed and transparency of planning approvals by providing an integrated digital platform for real estate development services. These tools have strengthened coordination between the public and private sectors and continue to support the Kingdom's objective of increasing homeownership to 70 per cent. by 2030.

MoMRAH has continued to expand and strengthen its housing sector initiatives as part of the Kingdom's Vision 2030 objectives. Key programmes include the Wafi Programme, the Housing PPP Programme, and the Ejar Programme. The Wafi Programme facilitates the sale and marketing of off-plan properties, enabling individuals to purchase units before completion. This programme also provides developers with access to regulated financing mechanisms and ensures consumer protection through licensing and escrow account regulations. As of 2024, Wafi has played a central role in expanding affordable housing stock and improving transparency in real estate transactions. The Housing PPP Programme continues to foster collaborations between the Government and both domestic and international developers to boost housing capacity and improve quality. This initiative has resulted in the delivery of thousands of housing units annually through partnerships with the NHC, positioning the private sector as a key enabler of housing development. The Ejar Programme is now fully integrated with SAMA's SADAD electronic payment system and functions as a digital rental registry. It streamlines the residential and commercial leasing process, supports legal protections for lessors, lessees, and brokers, and ensures contract authenticity through a standardised lease form. The platform also supports dispute resolution and regulatory compliance, playing a vital role in organising the Kingdom's rental market.

Affordable Housing

The Kingdom has made significant progress in transforming access to government housing support through the Sakani platform, which replaced the previous system of waiting up to 15 years with a model of immediate eligibility and entitlement. As of 31 December 2024, the platform had served more than 834,000 families, including over 460,000 families who have already moved into their new homes - a major milestone in accelerating housing delivery.

Key achievements under the Housing Programme include:

- providing adequate housing for vulnerable families, with more than 50,000 housing units delivered in partnership with over 400 non-profit organisations and charitable associations across the Kingdom;
- facilitating partnerships with the private sector, resulting in the development of more than 165,000 housing units; and
- strengthening financial sector collaboration, with over 480,000 subsidised real estate financing solutions extended to Saudi citizens through agreements with banks and licensed financing institutions.

Real Estate Financing

REDF has launched several innovative financing programmes to boost homeownership among Saudi nationals. These include the Additional Financing Programme, the Accelerated Loan Programme, and the Dhamin Programme, which collectively aim to support affordability, reduce financial barriers, and promote broader access to home financing solutions in partnership with commercial banks and financial institutions. The Sakani Initiative, launched by MoMRAH in January 2017, continues to play a pivotal role in addressing housing demand across the Kingdom. The programme offers assistance based on income levels and family size, ensuring tailored solutions for eligible Saudi families. As of 2024, the Sakani platform has delivered over 834,000 housing and financing products across all regions of the Kingdom.

These offerings include:

- over 120,000 subsidised residential plots of land (both serviced and ready for construction);
- turnkey housing units developed in collaboration with private developers; and
- affordable mortgage solutions with government-backed interest rate support.

According to SAMA, financing disbursements approved by REDF have stabilised in recent years, following fluctuations linked to the REDF's transformation into a facilitator of subsidised financing. While disbursements reached SAR 5 billion in 2020, a 54.5 per cent. decrease from 2019, REDF has since shifted focus toward strategic partnerships and indirect subsidies. As of December 2024, total outstanding housing-related financings facilitated by the REDF through partner banks and financial institutions exceeded SAR 190 billion, reflecting the success of REDF's funding model under Vision 2030. According to REDF, as of February 2024, the cumulative amount deposited into the accounts of Sakani beneficiaries since the launch of the transformation program in June 2017 had surpassed SAR 58 billion (approximately U.S.\$15.5 billion). These deposits cover down payments, profit subsidies, and other housing-related support, contributing directly to improving affordability and increasing homeownership rates across the Kingdom.

The establishment of the SREFC pursuant to the Real Estate Finance Law (see below "*Real Estate Laws and Regulation*") has helped to expand the real estate sector by refinancing residential mortgages. SREFC has been partnering with mortgage originating institutions by providing short, medium and long-term financing solutions and also purchasing finance lease portfolios from these institutions in order to fund its operations and future growth.

Management is confident that these financing initiatives will contribute to an increase in demand for housing in the Kingdom which, amongst other things, could raise the average selling price of residential units, including those sold under Dar Al-Arkan's residential and commercial projects.

Real Estate Laws and Regulation

Until 2012, there had been no specific laws governing the provision of home finance in the Kingdom. On 3 July 2012, five laws, which collectively comprise the real estate financing laws in the Kingdom, were approved by Royal Decrees: (i) the Real Estate Financing Law; (ii) the Finance Lease Law; (iii) the Finance Companies Control Law; (iv) the Execution Law; and (v) the Registered Real Estate Mortgage Law. The five laws provide a framework for companies to provide financing, including, but not limited to, real estate finance, general leasing finance and consumer finance under the Islamic principles of *Shari'a*.

The Real Estate Financing Law gives SAMA responsibility for the supervision of the real estate financing practice in the Kingdom. The Real Estate Financing Law requires a real estate financing company to obtain a special licence from SAMA permitting it to engage only in real estate financing activities. According to the Finance Companies Control Law, a real estate financing company may not engage in other types of financing activities. The Real Estate Financing Law also allows real estate financing companies to refinance their finance obligations through a securitisation in accordance with the regulations issued by the CMA.

The Finance Lease Law regulates the finance lease market in the Kingdom. It deals with moveable and immovable assets which are the subject of finance leases and the registration of such leased assets. It also stipulates that issuing negotiable deeds against leased assets is permissible in accordance with the regulations issued by the CMA. Additionally, it specifies that one or more joint stock companies may be established to handle the registration of lease financing contracts, provided that these companies are licensed by SAMA.

The Finance Companies Control Law regulates finance companies in the Kingdom. It provides that a finance company must be in the form of a joint stock company and that a certain percentage of the finance company must be offered through a public offering after two financial years. SAMA will also be responsible for determining the maximum foreign ownership allowance in the finance company.

The Execution Law confers authority upon execution judges to enforce judgments and oversee the enforcement process. Specifically, execution judges are responsible for enforcing judicial resolutions issued by the competent courts, judicial authorities, arbitration tribunal, as well as judgments and arbitral awards rendered outside the Kingdom. Furthermore, execution judges are authorised under the Execution Law to seek police support in relation to enforcement. The Execution Law provides for the method for enforcement of attachments and for the sale of assets through auctions or other methods depending on the type of asset.

Prior to the implementation of the Execution Law, the process for enforcing security was reserved for the municipalities, or the "*Imarah*", of the cities, which had the power to enforce judgments through ordering the police or any of the other relevant executive authorities to enforce judgments. It remains to be seen whether judges will allow the foreclosure of properties pursuant to the Execution Law, although if judges are to allow foreclosure, the procedure would need to be compliant with *Shari'a* principles.

The Registered Real Estate Mortgage Law requires the registration of real estate mortgages and provides that pledged assets be fully described in the mortgage contract to avoid uncertainty or the risk of fraud. The law gives the right to a mortgagee to apply to the courts to prevent any matters that may reduce the value of the collateral, while finance providers are given the right to request further security should the value of the collateral fall below the debt value as a result of the fault of the obligor. A mortgagee is also permitted to transfer their mortgage to a third party.

These laws were introduced to positively impact the home financing market in the Kingdom, particularly among the middle-income market segment, increasing access to, and the availability of, home financing options.

According to SAMA, overall real estate financing continued to grow in 2024. Real estate loans increased to SAR 883.3 billion in the fourth quarter of 2024, up by 15.1 per cent. compared to the fourth quarter of 2023.

Foreign Real Estate Ownership

As of the date of this Base Prospectus, the Kingdom has implemented significant reforms to its real estate sector, particularly concerning foreign ownership. These changes align with the Kingdom's Vision 2030 objectives to diversify the economy and attract foreign investment.

Foreign Investment in Listed Real Estate Companies in Makkah and Madinah

Effective 27 January 2025, the CMA permits foreign investors to own shares or convertible debt instruments in Saudi-listed companies that possess real estate in Makkah and Madinah. The ownership of foreign investors shall not - at all times - exceed 49 per cent. of the shares or convertible debt instruments of such company.

This move aims to enhance market liquidity and attract international institutional investors, supporting large-scale development projects in these cities.

Regulations for Foreign Investors Outside Makkah and Madinah:

The Ministry of Investment has clarified that foreign investors can own and sell real estate for investment purposes outside Makkah and Madinah, subject to specific conditions. These include obtaining official approval and ensuring that the property is not used for speculative purposes.

Procedural Guidelines for Off-Plan Property Deals:

In May 2025, the Real Estate General Authority (**REGA**) issued the procedural guide for the sale and leasing of real estate projects off-plan. These guidelines aim to enhance transparency, protect buyers, and formalise developer obligations, thereby strengthening investor confidence in the sector.

White Land Tax

The White Land Tax was approved by Royal Decree on 24 November 2015. This tax, along with a tax on high-end properties, is intended to discourage investment in land solely for capital appreciation purposes and to

discourage speculative buying of land. It is intended that the law will encourage expenditure on low and middle-income housing and increase residential development. At a rate of 2.5 per cent., the White Land Tax has, since March 2017, been applied to undeveloped land plots of over 10,000 square metres located within approved master planned developments specified by the MoMRAH. The MoMRAH is responsible for valuing the land and collecting the tax, in addition to imposing fines for non-compliance. Land valuation is based on factors including location, zone, surface condition, applicable building requirements, access to utilities and general neighbouring services. The application of the White Land Tax to serviced urban land is expected to address the supply side concerns by increasing the availability of land for development which otherwise would be lying vacant for speculative purposes. Given its landbank locations and current projects under development, Dar Al-Arkan has not been subject to the White Land Tax to date.

In April 2025, the Saudi Cabinet approved amendments to the White Land Tax Law, increasing the annual levy on undeveloped land from 2.5 per cent. to up to 10 per cent. of the land's value. This change aims to address market imbalances and stimulate the development of vacant properties within urban areas. The revised framework sets a minimum land area of 5,000 square meters for the application of the fee, covering both individual plots and contiguous holdings in designated urban areas.

As of 31 December 2024, Dar Al-Arkan's development properties consisted of SAR 20.99 billion (U.S.\$5.60 billion) including project lands and properties of SAR 16.50 billion (U.S.\$4.40 billion), all of which were valued on its balance sheet at cost. The majority of Dar Al-Arkan's development properties are geographically diversified within the Kingdom.

Off-Plan Sales Regulations

With regards to off-plan sales, Dar Al-Arkan has launched:

- off-plan sales for units in the Shams Ar Riyadh development in May 2018, following approval from the Wafi programme;
- the Mirabilia project within Shams Ar Riyadh, featuring luxury villas with interiors by Roberto Cavalli; and
- multiple zones within Shams Ar Riyadh under the off-plan sales programme, with significant sales achieved across various zones.

In May 2025, the REGA introduced a comprehensive procedural guide for off-plan property transactions. This guide outlines 55 scenarios covering licensing, marketing, sales, leasing, and project management, including processes for amendments, escrow account management, and developer obligations.

The updated regulations aim to protect buyers and formalise developer responsibilities, contributing to a more robust legal framework for the real estate sector.

These developments reflect the Kingdom's intent to regulate the off-plan real estate market and Dar Al-Arkan's active participation in leveraging these opportunities.

Other initiatives designed to boost the real estate sector

As of the date of this Base Prospectus, significant developments have occurred in the Kingdom's real estate financing landscape, particularly concerning the SREFC and SAMA.

SREFC:

- In February 2025, SREFC announced a SAR 3.4 billion mortgage portfolio acquisition agreement with the Saudi National Bank. This strategic move aims to provide long-term liquidity to the Saudi home financing market and facilitate risk management in the sector.
- In December 2024, SREFC announced that it had signed an agreement to acquire a SAR 1 billion mortgage portfolio from Bidaya Finance. This acquisition underscores SREFC's commitment to bolstering the residential real estate finance market in the Kingdom and expanding refinancing opportunities.

SAMA's Initiatives:

- In 2018, SAMA increased the maximum loan-to-value (LTV) ratio for first-time homebuyers from 85 per cent. to 90 per cent. This strategic move was designed to stimulate mortgage lending, making homeownership more accessible to Saudi citizens while aligning with the Kingdom's broader economic reform plans.

These initiatives by SREFC and SAMA are integral to the Kingdom's Vision 2030 objectives, aiming to increase homeownership rates among citizens and enhance the stability and growth of the real estate sector.

Value Added Tax and Real Estate Transaction Tax

On 1 January 2018, the Government began implementing value added tax (VAT) at a basic rate of 5 per cent. VAT was subsequently increased from 5 per cent. to 15 per cent. as of July 2020. However, following consultation between the Government and various stakeholders in the Kingdom, the Government decreed that real estate transactions were to be exempted from VAT as of 4 October 2020 and, instead, be subject to a real estate transaction tax (RETT) at a rate of 5 per cent. of the value of the real estate that will be sold or disposed pursuant to Royal Decree No. (A/84) dated 1 October 2020. RETT is payable in respect of transactions involving any legal transfer of ownership or possession of Saudi Arabian real estate, including, but not limited to, contracts intended for the purpose of transferring the right of usage or the right to a long-term lease.

Each real estate transaction must be registered with the Saudi Arabian Zakat, Tax and Customs Authority (ZATCA), and RETT must be accounted for by the seller on each transaction separately. Certain real estate transactions are exempt from RETT, for example, disposals related to family or charitable endowments; dividing property for inheritance purposes; gifts between relatives up to the third degree; disposal of real estate in accordance with a legally documented will; disposals by a government entity acting in its capacity as a public authority, or a government agency or legal public body for public benefit; temporary disposals for the purpose of a guarantee for financing or credit or transferring between a fund and custodian; a contribution for shares of a company established in the Kingdom (except for joint stock companies), provided the shares are not disposed of within five years; disposals if one of the parties is a foreign government, international organisation, diplomatic or military body, or mission or a member of the diplomatic, consular or military corps accredited in Saudi Arabia, provided reciprocity applies.

As of the date of this Base Prospectus, the RETT in Saudi Arabia remains at a rate of 5 per cent., applicable to most real estate transactions. However, ZATCA has introduced several exemptions to facilitate real estate development and streamline ownership transfers. Such exemptions include:

- **Transfer to Licensed Developers:** Transferring real estate to developers licensed for off-plan sales or rental activities is exempt, provided the property is intended for such development.
- **Transfers to Wholly-Owned Companies:** Real estate transferred by an individual to a company in which they hold all shares is exempt, on the condition that the company's equity remains unchanged for at least five years.
- **Transfers to Family or Charitable Endowments:** Transferring property free of charge to a company owned by a family or charitable endowment is exempt, assuming no changes in the company's equity for a minimum of five years.
- **Reversal of Transactions:** If a real estate transaction is mutually cancelled within 90 days of authentication, and the property's description remains unchanged with the full value returned, the transaction is exempt from RETT.

BUSINESS

Dar Al-Arkan is a leading real estate developer in the Kingdom and is involved in all major aspects of real estate development, including sourcing and purchasing land, overseeing the design and construction of developments and marketing and sales. Dar Al-Arkan is a joint stock company registered in Riyadh. Dar Al-Arkan was initially incorporated as a limited liability company on 18 July 2000 and converted to a Joint Stock Company in 2005 under Ministerial decree number 1021 dated 17 July 2005 with commercial registration number 1010160195. The shares of Dar Al-Arkan are listed on the Main Market of the Saudi Exchange (**Tadawul**). Dar Al-Arkan's registered office is P.O. Box 105633, Riyadh, 11656, Saudi Arabia, and its telephone number is +966(11) 206 9888. In addition to its head office in Riyadh, Dar Al-Arkan has three branch offices located in Makkah, Jeddah and Madinah.

Dar Al-Arkan currently operates in three strategic business segments, as follows:

- **Properties Development:** which comprises: (i) land development projects; and (ii) residential and commercial projects;
- **Asset Management:** which focuses on the leasing and management of Dar Al-Arkan's investment properties; and
- **Investments:** which focuses on strategic investments in companies that are complementary to Dar Al-Arkan's real estate development operations.

As of the date of this Base Prospectus, the Properties Development business segment accounted for the significant majority of Dar Al-Arkan's business.

Dar Al-Arkan's business has evolved from buying and selling undeveloped land to the planning and developing of master communities. Dar Al-Arkan's current business model has diversified the business away from a near-exclusive reliance on real estate development in the Kingdom, towards developing an asset base that will generate recurring rental streams in each of its business segments in the future, as well as maintaining its focus on international real estate development. Dar Al-Arkan launched its first real estate development project in Dubai in December 2017 and the opening of its sales offices in Dubai and Sarajevo in June 2017 and September 2017, respectively. Dar Global PLC is the international real estate development arm of Dar Al-Arkan, its major shareholder. Established to seize opportunities in global markets, Dar Global PLC has, since 2017, expanded its global portfolio to include seventeen international projects (including two in the Kingdom) in the UAE, Qatar, Oman, Spain, Bosnia and the UK. All developments outside the Kingdom are exclusively undertaken and managed by Dar Global PLC, positioning it as a vehicle for international growth. As part of its growth and diversification strategy, a decision was made to spin off Dar Global PLC as an independent entity, culminating in its listing on the London Stock Exchange in 2023. Due to listing requirements, the Group took steps to ensure that Dar Global PLC is capable of carrying out its business independently from the Group, including a relationship agreement between the Group and Dar Global PLC that is intended to ensure that operational and financial control of Dar Global PLC is retained with the board of Dar Global PLC. Accordingly, the Group was determined to have lost control of Dar Global PLC but may exercise significant influence, hence the investment has been classified as an associate and this is accounted for under the equity method.

The table below shows Dar Al-Arkan's revenue, gross profit and net income for each of the years ended 31 December 2022, 2023 and 2024, and for each of the three-month periods ended 31 March 2024 and 2025.

History and development

Below is a summary of the key stages of Dar Al-Arkan's development:

Stage I (1994 to 1999)

Dar Al-Arkan was formed in 1994 by members of the following six prominent business families in the Kingdom: (i) Al Shelash; (ii) Al Hethloul; (iii) Al Roumi; (iv) Al Jarallah; (v) Al Kasem; and (vi) Al Babteen. Dar Al-Arkan primarily operated in the Central region of the Kingdom during its initial years of operations. During this period Dar Al-Arkan began to monitor market dynamics, develop business processes and conduct market research. Dar Al-Arkan's operations during this period primarily consisted of purchasing large plots of undeveloped land and planning and developing basic infrastructure for residential and commercial use, such as water, sewage, electricity and other utilities, as well as paved streets and sidewalks. Dar Al-Arkan then typically sold the semi-developed land to third party investors or developers. The development and sale of residential units was limited during this period.

Stage II (2000 to 2006)

During this period, Dar Al-Arkan's business began to expand to the Western and Eastern regions of the Kingdom. In addition to developing basic infrastructure on undeveloped land to sell to third parties, there was a gradual shift toward developing and selling residential units, particularly for the middle-income segment of the market. Dar Al-Arkan was also incorporated as a limited liability company on 18 July 2000. In 2005, Dar Al-Arkan increased its share capital from SAR 140 million (U.S.\$37.33 million) to SAR 5.40 billion (U.S.\$1.44 billion) through a private placement in the Saudi domestic market and it converted to a Joint Stock Company in 2005 under Ministerial decree number 1021 dated 17 July 2005.

By 2005, Dar Al-Arkan operated in all three of the major regions of the Kingdom (Eastern, Western and Central) and it continued to expand operations relating to the development and sale of residential units. In 2006, Dar Al-Arkan significantly increased the scope of its projects when it began developing Parisiana (formerly known as Al-Qasr), its first master-planned community.

Stage III (2007 to 2010)

During this period, Dar Al-Arkan continued to expand the scope of its development operations, in particular, by developing master-planned communities. In 2007, Dar Al-Arkan began development of the Shams Ar Riyadh project, its second master-planned community.

In December 2007, Dar Al-Arkan listed its ordinary shares on the main market of Tadawul, and its founding shareholders offered the equivalent of 11.01 per cent. of Dar Al-Arkan's then outstanding shares to the public through an initial public offering of Dar Al-Arkan's ordinary shares in the Kingdom. Dar Al-Arkan increased its capital again in October 2008 and July 2009 by issuing to its shareholders 180 million and 360 million bonus shares of par value of SAR 10 each, respectively. To fund the growth of its operations, Dar Al-Arkan began to access the domestic and international capital markets. Dar Al-Arkan raised funds through three offerings of sukuk, two international offerings in 2007 for U.S.\$600 million and U.S.\$1 billion, and one domestic offering in May 2009 for SAR 750 million (U.S.\$200 million).

Stage IV (2010 to 2017)

As a result of the negative impact of the international credit crisis on the global financial markets and the resultant deterioration in the global economic outlook, which led to a general reduction in liquidity and available financing, Dar Al-Arkan prioritised building its cash reserves in order to ensure that it had sufficient funds available to meet its financial commitments as they fell due.

During this period, Dar Al-Arkan repaid four international offerings and one local offering of sukuk, a SAR 2.25 billion (U.S.\$600 million) international sukuk which matured in March 2010, a SAR 3.75 billion (U.S.\$1 billion) international sukuk which matured in July 2012, a SAR 750 million (U.S.\$200 million) local sukuk which matured in April 2014, a U.S.\$450 million international sukuk which matured in February 2015 and a U.S.\$300 million international sukuk which matured in November 2016.

During this period, Dar Al-Arkan also prioritised the completion of a number of its outstanding projects, for example, in 2012, Dar Al-Arkan completed the Parisiana development (at the time known as Al-Qasr and which now comprises Parisiana Boulevard, Parisiana Living and Parisiana South), its first master-planned community, as well as opening Al-Qasr Mall, one of the largest malls in Riyadh, with a built-up area of 234,147 square metres and 499 units across four floors and parking capacity of 1,579 cars. Dar Al-Arkan has retained Al-Qasr Mall as a leasable asset as part of its investment properties portfolio and, as of 31 March 2025, 93 per cent of Al-Qasr Mall

has been leased including the storage area. The Al-Qasr Apartments have 1,779 apartments, of which 1,761 apartments have been leased as of 31 March 2025.

Stage V (2017 to date)

While continuing to focus on real estate development in the Kingdom, Dar Al-Arkan launched 2,065 residential and commercial plots in Shams Ar Riyadh on an off-plan basis in 2018, and rebranded the Parisiana South, Parisiana Living, Parisiana Boulevard and Naeem Al Jiwar projects in the Kingdom. Infrastructure works in Shams Ar Riyadh Verde (zone 4A) and Bella Vista (zone 4B) are fully completed whereas works in Giovane (zone 1), La Casa (zone 3) and Palazzo (zone 5) are more than 55 per cent. complete as of 31 March 2025. In the first quarter of 2021, Dar Al-Arkan launched phase one (with 253 units) of the Shams Al Arous project, a master-planned, best-in-class, integrated community project in the Jeddah city area and onsite construction work was completed in the first quarter of 2024.

On 27 April 2014, Dar Al-Arkan announced a new master-planned community project in the Eastern Province located between Dammam and Ras Tanura (the **Juman Project**). The Juman Project is intended to be an integrated community project, providing residential units, together with public service and commercial facilities, hotels, educational institutions and retail areas. The project aims to cater to the upper-middle to luxury market segment and is being developed on a total land area of approximately 8.2 million square metres, of which 1.5 million square metres is partially owned by Dar Al-Arkan (18 per cent. ownership interest via a joint venture). Dar Al-Arkan is acting as the master developer of the project, undertaking the master planning and infrastructure development. The first phase of the project, covering an area of approximately three million square metres, consists of a very shallow reclamation development for a resort. All relevant no objection certificates have been secured and the revised master plan design has been submitted to the Eastern Province Development Authority for approval.

In July 2023, the refurbishment of the Dar Al Mashaer project was completed and handover of units has since been initiated. The project is in the holy city of Makkah on the Al Aziziyah Road and is spread across a 6,300 square metre land area, located an 8-minute drive from Al Haram and is comprised of seven towers, featuring 314 apartments (including six penthouses) with state of the art amenities and six retail units. The project offers 24 hour security, a children's play area, separate gym for men & women, and *Musallah*.

Dar Al-Arkan also won a contract in 2022 to develop residential units in SEDRA, an integrated community project being developed in northern Riyadh by national developer ROSHN, a Public Investment Fund-backed company. The Etoile project comprises 163 villas to be executed on 163 plots totalling 45,544 square metres. The project will be developed on serviced plots with the necessary infrastructure provided by the master developer. The project includes seven villa typologies with average plot size ranging from 200 to 400 square metres, with combined total built up area of 54,653 square metres. These villas will bear the branding of Ellie Saab. The infrastructure development phase was completed in 2023 and construction works commenced in the second quarter of 2023 after the site was handed over to Dar Al-Arkan by the master developer (ROSHN). As of 31 March 2025, the site is 92 per cent. complete and is estimated to be fully complete by November 2025.

In addition, Dar Al-Arkan has been involved in the development of the Buraidah Hills project, located in Buraidah city in the Al-Qassim province, a residential community comprised of high end villas, residential units and designer plots. The project has a total of 407 projects comprising a series of different plot sizes, all of which are equipped with high quality infrastructure. The development area is approximately 291,000 square metres and includes a total net land area of 186,000 square metres. The project will be sold off-plan to end buyers under the Wafi programme. The infrastructure works started on 1 May 2022 and were completed in September 2024, with handover formalities now in the process of being completed.

Dar Al-Arkan launched its first international real estate development project in December 2017, the Urban Oasis by Missoni tower (previously called the I Love Florence Tower) in Dubai, UAE, comprising bespoke apartments with luxury interiors designed by Roberto Cavalli and located on the Dubai Canal, as part of its international growth strategy. Since 2023, Dar Al-Arkan's international project portfolio is held through its associate, Dar Global PLC. As of 31 March 2025, Dar Al-Arkan's portfolio includes:

- the "Da Vinci Tower", "W Residences" and "DG 1" residential projects in Dubai, UAE;
- the "Astera" residential project in Ras Al Khaimah, UAE;
- the "Neptune" in Riyadh and "Trump Tower" projects in Jeddah, the Kingdom;

- the mixed-use residential project of "Aida" in Oman;
- the mixed-use residential project of "Les Vagues" in Qatar;
- the "Sidra" gated community located close to Sarajevo, Bosnia which is the largest single real estate development project in the country;
- the "Tierra Viva", "Tabano" and "Marea - Finca Cortesin" in Spain; and
- four residential projects in London, namely, "8min-to-London", "Oh So Close", "The Mulliner", and "Albert Hall Mansion".

Dar Al-Arkan's Business Segments

Properties Development

Dar Al-Arkan's Properties Development business segment comprises: (i) land development projects; and (ii) residential and commercial projects.

Development Properties - Land Development Projects

Dar Al-Arkan's land development projects involve the purchase of undeveloped land and the planning and development of basic infrastructure for residential and commercial use. Once this basic infrastructure has been completed, Dar Al-Arkan either sells the developed land to third party investors or to developers, develops a residential and commercial project on the developed land, or develops a residential and commercial project on a portion of the developed land and retains the remaining portion to sell once its value has appreciated due to the completion of the relevant residential and commercial project.

Management continuously reviews Dar Al-Arkan's inventory of undeveloped land and land under development and sells plots that it considers non-core to Dar Al-Arkan's real estate development operations. For a further discussion of Dar Al-Arkan's current land development projects, see the section below entitled "*Completed Projects – Land Development Projects*".

Development Properties - Residential and Commercial Projects

Dar Al-Arkan's residential and commercial projects are targeted towards a diverse range of income segments in the Kingdom. Historically, these projects related primarily to the development and sale of residential units and Dar Al-Arkan has completed and delivered over 15,000 residential units and over 500,000 square metres of commercial space since incorporation.

In 2006, Dar Al-Arkan significantly increased the scope of its residential and commercial projects when it began the development of Parisiana, its first master-planned community, which was completed in 2012. In addition to various types of residential villas and apartments, Dar Al-Arkan's master-planned communities include commercial facilities (for example shopping centres and restaurants), public service facilities (for example parks, mosques and schools) and office buildings. Management expects that Dar Al-Arkan's future residential and commercial projects will most likely be master-planned communities.

In 2017, Dar Al-Arkan refurbished the interior and exterior areas of the residential units contained within the Al-Qasr and Al-Tilal projects prior to the subsequent rebranding of these developments to Parisiana and Naeem Al Jiwar, respectively.

Dar Al-Arkan is currently developing two master-planned communities at Shams Ar Riyadh located in Riyadh, and the Juman Project located in the Eastern Province between Dammam and Ras Tanura. During 2022, Dar Al-Arkan won a contract to develop residential units in SEDRA, an integrated community project being developed in northern Riyadh by national developer ROSHN, a PIF-backed company. In addition, Dar Al-Arkan is currently in discussions with the MoMRAH relating to proposals to develop residential projects on land owned by the MoMRAH in Riyadh as part of the Government's affordable housing initiative.

The first phases of each of the two master-planned communities referred to in the paragraph above have an estimated aggregate cost of SAR 3.37 billion (U.S.\$0.90 billion) and cover approximately 6.1 million square metres of land. Dar Al-Arkan may retain and lease a portion of these commercial units and the residential units to

be offered for sale. For a further discussion of these projects, see the section below entitled "*Completed projects and projects under development*".

A key aspect of Dar Al-Arkan's current strategy with respect to its Development Properties business segment is to maintain its expansion activities outside the Kingdom. This strategy has been implemented in recent years by the launch of several significant developments elsewhere in the Middle East and in Europe through the launch of its own residential and commercial projects or joint development projects in partnership with landowners.

As of 31 March 2025, Dar Al-Arkan's development properties consisted of SAR 20.52 billion (U.S.\$5.47 billion) including project lands and properties of SAR 16.20 billion (U.S.\$4.32 billion), all of which were valued on its balance sheet at cost.

Asset Management

The Asset Management business segment comprises the management of Dar Al-Arkan's investment properties which, as of 31 March 2025, had a book value of SAR 972.80 million (U.S.\$259.41 million). Al-Qasr Mall is the most valuable investment property in Dar Al-Arkan's portfolio, accounting for 78 per cent. of the total book value of its investment properties as of 31 March 2025. By retaining certain units in Al-Qasr Mall and Al-Qasr Apartments, management intends to build an income-generating portfolio of rental properties, with the goal of establishing a recurring revenue stream from rental income and fees received from management operations and maintenance of residential and commercial buildings and to enable Dar Al-Arkan to benefit from any potential appreciation in the value of such properties.

Dar Al-Arkan and its consolidated subsidiaries legally and beneficially own a geographically and functionally diverse range of properties within the Kingdom, which include villas, townhouses, apartments, offices, shopping malls, supermarkets and other retail facilities. For further discussion of rental properties on Dar Al-Arkan's projects, see "*Dar Al-Arkan's Business Segments – Land Development Projects – Residential and Commercial Projects*".

Investments

As part of its Investments business segment, Dar Al-Arkan makes strategic investments in companies that management believes are complementary to Dar Al-Arkan's real estate development operations. Companies in which Dar Al-Arkan has made strategic investments include SHL, a home financing provider in the Kingdom, Alkhair Capital, which is regulated by the CMA and provides investment banking and other financial services in the Kingdom and the UAE, and Khozam REDC, which owns the Qasr Khozam land development project. As of 31 March 2025, Dar Al-Arkan had made strategic investments in companies that ranged between 10.5 per cent. and 88 per cent. of the investee's share capital, and aggregate share of the results of its equity accounted investees totalled SAR 2.63 billion (U.S.\$0.70 billion) as of 31 March 2025. The following is a summary of Dar Al-Arkan's key strategic investments as of 31 March 2025:

Compass Project Investment SPV Limited

During 2022, Dar Al-Arkan entered into an agreement with the shareholders of Compass Project Investments SPV Limited (**Compass**) to acquire 51 per cent. of the share capital of Compass, a private company limited by shares incorporated in the UAE, established mainly for rendering services related to project management, cost control and risk management.

During 2024, the Group acquired additional shares to increase its shareholding to 90 per cent. and obtained control of the entity.

Compass Arabia Project Holding Limited for Professional Consultation

During 2024, as a result of obtaining control of Compass Project Investment SPV Limited, the Group also obtained a 30 per cent. shareholding in Compass Arabia Project Holding Limited for Professional Consultation. Compass Arabia Project Holding Limited for Professional Consultation operates in architectural and engineering consultancy activities, engineering consultation for urban planning, and landscape architecture.

Ibdaa Real Estate Company

During 2022, Dar Al-Arkan entered into an agreement with the shareholders of Ibdaa Real Estate Company (**Ibdaa**) to acquire 25 per cent. of the share capital of Ibdaa, a limited liability company registered in Jeddah. Ibdaa undertakes real estate activities, including selling and purchasing land, real estate management services, brokerage activities and construction, including general construction of real estate for commercial and residential purposes.

Dar Global PLC

On 28 February 2023, Dar Global PLC, an indirectly wholly owned subsidiary of the Group, had listed its shares on the London Stock Exchange's main market. Dar Global PLC issued and offered 21,621,612 ordinary shares for subscription through a private placement at a price of USD 3.33 per share with a total value of USD 72 million. As a result of this issuance, the Group's equity interest was diluted from 100 per cent. to 88 per cent. and the Group was deemed to no longer control the entity as a result of the listing requirement for it to be able to carry on its own business independently. The Group can still exercise significant influence over Dar Global PLC and the investment has been classified as an associate and accounted for under the equity method.

SHL Finance Company (SHL)

SHL was formed on 4 April 2007 pursuant to a shareholders' agreement between Arab National Bank, Dar Al-Arkan, Kingdom Installment Company, certain founding shareholders of Dar Al-Arkan, and the International Finance Corporation. Dar Al-Arkan had originally invested SAR 120 million (U.S.\$32 million) representing 15 per cent. of the paid up share capital of SHL. The equity ownership of SHL was divided as follows: Arab National Bank (40 per cent.), Kingdom Installment Company (40 per cent.), Dar Al-Arkan (15 per cent.) and the International Finance Corporation (5 per cent.). SHL completed an initial public offering of 30 per cent. of its shares in April 2022 and its shares were admitted to trading on Tadawul. Following the initial public offering, as of 20 April 2022, SHL's equity ownership was divided as follows: Arab National Bank (28 per cent.), Kingdom Installment Company (28 per cent.), Dar Al-Arkan (10.5 per cent.) and the International Finance Corporation (3.5 per cent.). The remainder of SHL's shares were owned by the public.

The retained interest of 10.5 per cent. in SHL is therefore classified as investments in financial assets and measured at FVOCI whose fair value at the date of disposal was SAR 210 million (U.S.\$56 million). As of 31 March 2025, the fair value of investment in financial assets was SAR 191.10 million (U.S.\$50.96 million).

SHL provides mortgage financing to home buyers in the Kingdom, primarily to the middle to lower income segment of the market. All of SHL's financing products are structured to comply with *Shari'a* principles. SHL finances the purchase of homes developed by Dar Al-Arkan by purchasing the homes directly from Dar Al-Arkan on behalf of individuals who sign lease-to-own contracts with SHL. SHL leases the homes to such individuals and these individuals take ownership of the homes upon expiration of the lease term if they have satisfied all of their obligations under the lease to own contract.

Strengths

Management believes that Dar Al-Arkan has a number of competitive strengths, including:

Ability to develop large scale projects such as master-planned communities

Management believes that Dar Al-Arkan is one of the few real estate developers in the Kingdom with the financial resources, capacity and expertise (both in-house and through its strategic alliances with companies such as SHL and Khozam REDC) to undertake and execute large scale residential and commercial projects in the Kingdom. In addition, management believes that Dar Al-Arkan's experience in developing projects in the Kingdom, including the development and completion of Parisiana in 2012 and Shams Al Arous in 2024, as well as the near completion of projects such as Shams Ar Riyadh, Etoile and Buraidah, has provided Dar Al-Arkan with experience in obtaining the required regulatory approvals for such developments. Management believes that the economies of scale afforded by large scale projects, such as master-planned communities, permits Dar Al-Arkan to offer quality housing at more affordable prices than its competitors. Management also believes that Dar Al-Arkan's ability to provide attractive prices combined with the quality and convenience of life provided by Dar Al-Arkan's master-planned communities, provides Dar Al-Arkan with an advantage over its competitors in addressing the demand for housing among customers from a diverse range of income segments in the Kingdom.

Strong reputation for delivering quality affordable housing

Management believes that Dar Al-Arkan was the first major private real estate developer to target the middle-income segment of the Kingdom's housing market on a large scale, and that Dar Al-Arkan has a strong reputation among the middle-income segment of the housing market as a company that delivers quality homes at affordable prices. Since incorporation, Dar Al-Arkan has completed and delivered over 15,000 residential units. In addition, management believes that Dar Al-Arkan's reputation in the Kingdom among land owners and real estate brokers provides Dar Al-Arkan with opportunities to acquire land that may not be available to other real estate developers in the Kingdom. Management believes Dar Al-Arkan's reputation among customers, land owners and real estate brokers provides Dar Al-Arkan with an advantage over its competitors in addressing the demand for housing among customers from a diverse range of income segments in the Kingdom.

Substantial development properties consisting of developed land, developed projects and under projects under development

Dar Al-Arkan has a substantial development properties land bank consisting of semi-developed and undeveloped plots. Management believes that Dar Al-Arkan's development properties land bank allows it to take advantage of market opportunities to develop and sell projects with greater efficiency than competitors that need to source and acquire land first before developing a project.

As of 31 March 2025, Dar Al-Arkan's development properties consisted of SAR 20.52 billion (U.S.\$5.47 billion) including project lands and properties of SAR 16.20 billion (U.S.\$4.32 billion), all of which were valued on its balance sheet at cost.

Prudent financial policy

Dar Al-Arkan adopts a prudent financial policy, prioritising the building of cash reserves, where necessary, in order to ensure that it has sufficient funds available to meet its financial commitments as they fall due. As of 31 March 2025, Dar Al-Arkan had a cash balance of SAR 6.50 billion (U.S.\$1.73 billion).

Experienced management team

Dar Al-Arkan's senior management has significant experience in both the real estate development industry and their respective areas of specialty. Dar Al-Arkan's Chairman of the Board, Yousef Abdullah Al Shelash, has been with Dar Al-Arkan since it was founded and has over 20 years of experience in the real estate development industry in the Kingdom. He leads a team of professionals heading development and construction, project

management and sales and marketing. Dar Al-Arkan's Chief Executive Officer, Mr. Anand Raheja, re-joined Dar Al-Arkan as Chief Financial Officer in May 2018, having previously held the position between 2011 and 2013. Mr. Raheja was promoted to Chief Executive Officer of Dar Al-Arkan in June 2019 and has more than 30 years of experience working with the largest real estate companies and accounting and auditing firms in the Middle East, the United States, the UK and India.

Access to the international and domestic capital markets

The real estate development industry is capital intensive by its nature. In addition, "off-plan" and "pre-finished" sales of homes are not common practice in the Kingdom, which makes access to financing even more essential in the Kingdom's real estate development industry. As of the date of this Base Prospectus, Dar Al-Arkan had three series of trust certificates issued under the Programme outstanding, a U.S.\$400 million international U.S. dollar-denominated sukuk due in 2026, a U.S.\$400 million international U.S. dollar-denominated sukuk due in 2027, and a U.S.\$600 million international U.S. dollar-denominated sukuk due in 2029.

These offerings, together with ten previous sukuk offerings of U.S.\$600 million, U.S.\$1 billion, SAR 750 million (U.S.\$200 million), U.S.\$450 million, U.S.\$300 million, U.S.\$450 million, U.S.\$400 million, U.S.\$500 million, U.S.\$500 million, and U.S.\$600 million which were redeemed at maturity by Dar Al-Arkan in March 2010, July 2012, April 2014, February 2015, November 2016, May 2018, May 2019, April 2022, March 2023 and February 2025, respectively, were the first sukuk offerings by a real estate developer in the Kingdom. Dar Al-Arkan listed its shares on the main market of Tadawul in December 2007.

Strong future growth prospects in the Kingdom

Dar Al-Arkan believes that it is strategically positioned to benefit from the Government's recent initiatives to develop the housing and real estate sector. As a result of the current housing shortage in the Kingdom, one of the key objectives of the Government in recent years has been to develop the housing and real estate sector. In order to achieve this, the Government has implemented the NTP as part of Vision 2030. Under the NTP, the Housing Programme has achieved significant success since it was launched in 2016, during which time it has increased Saudi home ownership rates from 47 per cent. in 2016 to 64 per cent. in 2023, with a goal of 70 per cent. by 2030. The Housing Programme has succeeded in stimulating supply in the housing sector through effective partnerships with the private sector, represented by real estate developers and house-builders, including Dar Al-Arkan. The Housing Programme has also been involved in developing and improving regulations as well as regulatory and legislative activities, by establishing the General Authority for Real Estate to be the central regulatory entity for the real estate sector.

The following are some of the key Government initiatives expected to boost the real estate sector and in turn benefit Dar Al-Arkan's business and future growth prospects:

Off-plan sales

In January 2016, the Ministry of Commerce issued a new set of regulations permitting the sale of off-plan units, governed by a set of strict measures that apply to the sale of such off-plan units. For example, down payments will not be permitted to exceed 20 per cent. of the unit's value and must be made by cheque or bank transfer into escrow accounts, which can be accessed and monitored by authorities, however, remaining available to developers for the purpose of financing the building programme. The issuance of these new regulations is expected to increase off-plan sales significantly over time and will reduce execution risk to developers, increase developers' profitability and reduce capital outlay. In May 2025, the REGA introduced a comprehensive procedural guide for off-plan property transactions. This guide outlines 55 scenarios covering licensing, marketing, sales, leasing, and project management, including processes for amendments, escrow account management, and developer obligations.

The updated regulations aim to protect buyers and formalise developer responsibilities, contributing to a more robust legal framework for the real estate sector.

Dar Al-Arkan has launched:

- off-plan sales for units in the Shams Ar Riyadh development in May 2018, following approval from the Wafi programme;
- the Mirabilia project within Shams Ar Riyadh, featuring luxury villas with interiors by Roberto Cavalli; and

- multiple zones within Shams Ar Riyadh under the off-plan sales programme, with significant sales achieved across various zones.

These developments reflect the Kingdom's intent to regulate the off-plan real estate market and Dar Al-Arkan's active participation in leveraging these opportunities. Management believes that these off-plan sales, and related customer advances, will help Dar Al-Arkan utilise less internal cash as well as less project finance debt to finance projects hence increasing the profitability of the business. In addition to Shams Ar Riyadh, Dar Al-Arkan has initiated off-plan sales for its Etoile and Buraidah projects.

Etмам

The MoMRAH launched the "*Etмам*" e-portal in 2017 with the aim of increasing the volume of investments in the real estate sector from within and outside the Kingdom. *Etмам* provides a number of services, notably receiving applications for the approval of initial housing plans, with a view to speeding up the provision of essential services, including the issuance of construction permits, completion certificates, exemption requests, land division approvals, labour visas, and approval and revision of development plans.

REDF funding cost subsidy

The REDF has launched several financing programmes and solutions to increase home ownership among Saudi nationals, including the Additional Financing Programme, the Accelerated Loan Programme and the Dhamin Programme. The Sakani Initiative, launched by MoMRAH in January 2017, continues to play a pivotal role in addressing housing demand in the Kingdom. The programme offers assistance based on income levels and family size, ensuring tailored solutions for eligible Saudi families. As of 31 December 2024, the Sakani platform had delivered over 834,000 housing and financing products across all regions of the Kingdom.

These offerings include:

- over 120,000 subsidised residential plots of land (both serviced and ready for construction); and
- turnkey housing units developed in collaboration with private developers.

The REDF provides funding cost subsidies up to an amount of SAR 500,000 to eligible REDF applicants. Dar Al-Arkan expects to benefit from these eligible REDF applicants as it intends to market its residential units to such applicants.

Saudi Real Estate Financing Company

The establishment of the SREFC pursuant to the Real Estate Finance Law (see below "*Real Estate Laws and Regulation*") has helped to expand the real estate sector by refinancing residential mortgages. SREFC has been partnering with mortgage originating institutions by providing short-, medium- and long-term financing solutions and also purchasing finance lease portfolios from these institutions in order to fund its operations and future growth. As a real estate developer, Dar Al-Arkan will indirectly benefit from the increase in mortgage activity as a result of SREFC's initiatives.

Financing-to-value ratio

In February 2016, SAMA increased the limit on real estate financing from 70 per cent. to 85 per cent. of the value of a residential property (effectively reducing the minimum required down payment on a home from 30 per cent. to 15 per cent.), on the basis that the previous requirement had resulted in a market slowdown and was prohibitive to many low to middle-income Saudi nationals. In January 2018, SAMA further increased the limit on real estate financing from 85 per cent. to 90 per cent. for first time home buyers. This increase was introduced with the expectation that it would encourage mortgage financing which could benefit the real estate sector. Dar Al-Arkan's management believes that it will be a direct beneficiary of an increased availability of mortgages.

Business strategy

Management's strategy is to maintain its leadership position in the real estate development industry in the Kingdom by focusing on its core competencies, land development projects and residential and commercial projects, and by expanding its business operations to include property management and investment in businesses which complement Dar Al-Arkan's real estate development operations. This expansion strategy is aimed at diversifying Dar Al-Arkan's business activities in order to develop recurring sources of income.

The following is a summary of key aspects of Dar Al-Arkan's business strategy:

Increase revenues from master-planned community projects

Dar Al-Arkan is currently developing two master-planned communities: Shams Ar Riyadh, located in Riyadh; and the Juman Project located in the Eastern Province between Dammam and Ras Tanura. The first phase of Shams Ar Riyadh with a total project land area of five million square metres (out of which 1.8 million square metres was sold to SABIC who have since developed thereon housing for their staff). Upon receiving approval from Wafi for off-plan sales, Dar Al-Arkan started launching various zones from the second quarter of 2018. Currently all zones are approved, and Dar Al-Arkan has successfully launched sales for four zones. The infrastructure works in Shams Ar Riyadh Verde (zone 4A) and Bella Vista (zone 4B) have been fully completed whereas works in Giovane (zone 1), La Casa (zone 3) and Palazzo (zone 5) are more than 55 per cent. complete as of 31 March 2025. Regarding revenue recognition, no revenue has been recognised since the first half of 2023 as the project was put under regulatory embargo in 2022. In the fourth quarter of 2024, the authorities lifted the embargo allowing project development to commence and accordingly the ownership of zones 1, 3 and 5 are restored back to the control of the company for its business use.

Management expects revenue from residential and commercial projects to increase over time as units in these projects become available for sale. Management believes that competitive prices combined with the quality and convenience of life provided by master-planned communities will allow Dar Al-Arkan to address the demand for quality affordable housing in the Kingdom. The continuing development of residential and commercial projects will allow Dar Al-Arkan to balance its revenue generation in line with its overall strategy to diversify the composition of its revenue sources.

Continue to provide affordable quality housing

Demographic trends in the Kingdom, including a young and growing population and decreasing average household sizes, are expected to create demand in the Kingdom for approximately 4 million new homes by the end of 2030, according to the MoMRAH. In addition, the middle income population in the Kingdom is expected to grow as a proportion of the overall population due to Government initiatives such as the establishment of new universities and regulations that require companies in the Kingdom to employ a certain number of citizens of the Kingdom. Since its incorporation, Dar Al-Arkan has completed and delivered over 15,000 residential units. Dar Al-Arkan intends to continue to focus its residential and commercial projects on addressing demand for housing among the middle-income segment of the market, in particular through the development of its master-planned communities. Under the affordable housing initiative promoted by the MoMRAH, Dar Al-Arkan is currently in discussions with the MoMRAH to develop high-quality affordable housing on land plots to be provided by the MoMRAH. Once these discussions have concluded, Dar Al-Arkan expects to accelerate the development of this affordable housing element of its strategy significantly.

Expanding the business through property rental and property management services

Dar Al-Arkan acquires and retains certain commercial and residential units in its master-planned communities as rental properties (see "*Dar Al-Arkan's Business Segments–Asset Management*" above). By retaining such units, management intends to build an income-generating portfolio of rental properties, with the goal of establishing a recurring revenue stream from rental income, real estate management, maintenance of residential and commercial buildings and public facilities and to enable Dar Al-Arkan to benefit from any appreciation in the value of such properties over time.

Continue to make strategic investments in businesses complementing real estate development operations

Dar Al-Arkan makes, and intends to continue to make, strategic investments in companies which management believes would be complementary to Dar Al-Arkan's real estate development operations. Companies in which Dar Al-Arkan has made strategic investments include SHL, a leading home financing provider in the Kingdom, Alkhair Capital, regulated by the CMA and which provides investment banking and other financial services in the Kingdom, Khozam REDC, which owns the Qasr Khozam land development project, Eastern Juman Company, established mainly for the development of the Juman Project, Compass, established mainly for rendering services related to project management, cost control and risk management, and Ibdaa, which operates real estate activities including selling and purchasing of land, real estate managements brokerage and construction activities.

Continue its international expansion

As part of its international growth strategy, Dar Al-Arkan through its associate, Dar Global PLC, opened its sales offices in Dubai, Sarajevo and Beijing in June 2017, September 2017 and February 2022, respectively. Dar Al-Arkan launched its first international real estate project, "Urban Oasis by Missoni" (previously called the "I Love Florence Tower") in Dubai, the UAE, in December 2017. This international expansion has included the launch of a number of further international projects, including:

- the "Da Vinci Tower", "W Residences" and "DG 1" residential projects in Dubai, UAE;
- the "Astera" residential project in Ras Al Khaimah, UAE;
- the "Neptune" in Riyadh and "Trump Tower" projects in Jeddah, the Kingdom;
- the mixed-use residential project of "Aida" in Oman;
- the mixed-use residential project of "Les Vagues" in Qatar;
- the "Sidra" gated community located close to Sarajevo, Bosnia which is the largest single real estate development project in the country;
- the "Tierra Viva", "Tabano" and "Marea - Finca Cortesin" in Spain; and
- four residential projects in London, namely, "8min-to-London", "Oh So Close", "The Mulliner", and "Albert Hall Mansion".

Dar Al-Arkan intends to continue to utilise its real estate development expertise to undertake further international real estate development projects through Dar Global PLC. Dar Global PLC's decision to commence operations in a particular country will be based on numerous factors, including economic and political stability at that time, the state of development of that particular country (favouring emerging economies where greater returns can be realised), the level of competition in the country and the macro-economic conditions of the country.

Project development process

Dar Al-Arkan applies quality management systems in its project development process and was the first real estate development company in the Kingdom to obtain an ISO 9001 certification for quality management systems.

The development cycle for a land development project is typically between one and two years. Depending on the size, the development cycle for a residential and commercial project ranges between three and seven years. Master-planned communities generally have development cycles at the high end of this range. For large residential and commercial projects such as master-planned communities, Dar Al-Arkan typically divides developments into separate phases. In initial phases, a limited number of residential units are constructed. In later phases, larger numbers of residential units are constructed as well as public facilities and commercial and office units. For each phase, Dar Al-Arkan enters into separate sets of agreements with contractors which, among other things, allows it to assess construction costs at the time of development. At the end of each phase, completed units are sold or leased by Dar Al-Arkan. On a typical residential and commercial project, multiple phases in different stages of development are implemented simultaneously.

Phased development allows Dar Al-Arkan to retain the flexibility to accelerate or slow down the development of a project based on market conditions, and to avoid carrying a large inventory of unsold and/or unleased units in the event of unexpected market declines. In addition, phased development enables Dar Al-Arkan to adapt construction of each phase to meet changes in demand for different types, styles and sizes of units that may occur due to changes in consumer preferences or other related factors. Phased development also limits the amount of capital that Dar Al-Arkan must commit to a single project during a particular period of time. In addition, phased development allows Dar Al-Arkan to use revenue from the sale or rental of units in an earlier phase to help fund the development of later phases.

Stages of project development

Dar Al-Arkan divides the project development process into six separate stages. Each of these stages are described in further detail below:

Stage one—land sourcing and acquisition

Land sourcing is a critical part of the first stage in the development process. Dar Al-Arkan sources land either through solicitations or its own market research. Dar Al-Arkan regularly receives invitations to purchase undeveloped land from land owners and real estate brokers. Management analyses each invitation to ascertain the suitability of the land for development, including a review of key considerations such as the location and size of the land parcel. Dar Al-Arkan also conducts extensive market research to identify areas within the Kingdom which could benefit from its development projects, particularly its master-planned communities. Once identified, Dar Al-Arkan searches for appropriate land parcels for development.

Dar Al-Arkan's land acquisition process involves extensive due diligence and feasibility analysis. The process is overseen by Dar Al-Arkan's senior management. Due diligence involves a number of steps to verify that the land available is suitable for development. These steps include a review of land deeds, a review of government and public institution publications related to the area, investigative and interrogative interviews with municipalities, local notary publics and reputable master planners, and site inspection by Dar Al-Arkan's senior management. Feasibility analysis involves a number of considerations to determine the potential profitability of the land, including topography and its location within a particular municipality or neighbourhood, as well as previous offers for undeveloped and developed land in the area. If a decision is made to acquire the land, Dar Al-Arkan conducts negotiations with the vendor to acquire it.

Stage two—project planning

The creation of a master plan is the first part of the second stage in the development process. Preparation of the master plan is done in co-operation with third party planning and real estate consultants and is overseen by Dar Al-Arkan's business planning and engineering department along with its senior management. The master plan relates to site improvements necessary for the undeveloped land to be zoned for residential and commercial purposes. The master plan will typically allocate approximately 10 per cent. of the land for basic infrastructure, such as water, sewage, electricity and other utilities, as well as paved streets and sidewalks. The master plan must ultimately be approved by the local municipal government. To obtain such approval, the master plan must also allocate a minimum of 33 per cent. of the land to accommodate public facilities, such as roads, schools, police stations and mosques. Once a master plan is created, a budget and schedule is prepared for the project. Next, a detailed design for the project is created in co-operation with third party design consultants and is overseen by Dar Al-Arkan's engineering department and its senior management.

Stage three—site development

The site development stage primarily involves site clearance, design, lay-out and other land planning activities. Dar Al-Arkan does not directly engage in any construction of its projects, including construction relating to site development. Site development construction is contracted to third parties through an open tender process. For further discussion of the process involved in selecting contractors see "*Contracting and sub-contracting*" below.

Stage four—land development

The land development stage involves construction of basic infrastructure relating to residential and commercial use, such as water, sewage, electricity and other utilities, as well as paved streets and sidewalks. Dar Al-Arkan ensures that the basic infrastructure is adequate to allow the land to be zoned for its intended use. As in the site development stage, the actual construction is contracted to third parties through an open tender process. Dar Al-Arkan oversees all aspects of the land development stage, including the application of materials and technology used in the construction.

At the end of this stage, Dar Al-Arkan owns developed land plots and decides to either:

- sell the developed land to third party investors or developers;
- develop a residential and commercial project on the developed land; or
- develop a residential and commercial project on a portion of the developed land and attempt to sell the remaining portion once its value has appreciated due to the completion of the residential and commercial project.

These decisions vary on a project by project basis and are based on several factors relating to potential profitability, including market conditions and the topography and location of the land. These decisions are made by senior management with contributions and oversight from Dar Al-Arkan's development department, the Executive Committee of the Board, as well as project consultants. In line with its revenue mix strategy, Dar Al-Arkan continues to identify land plots for developing its residential and commercial projects.

It typically takes between one and two years for Dar Al-Arkan to complete a land development project. The project timeline depends on the size of the site and its topography, as well as other requirements, mainly relating to the relevant soil characteristics.

Stage five—superstructure

If developed land is allocated for residential and commercial projects, Dar Al-Arkan undertakes to develop the appropriate superstructures for villas and apartments. In master-planned communities, apartment buildings may contain commercial space on the ground floor. Dar Al-Arkan also typically develops parks and mosques on its master-planned communities, although for other public facilities (for example, schools and police stations), Dar Al-Arkan allocates the land and the relevant municipal government is responsible for the development of those structures. With respect to developed land allocated for standalone commercial and office buildings, Dar Al-Arkan makes a business decision on a project-by-project basis about which buildings it will retain as rental properties. Where Dar Al-Arkan intends to retain a building as a rental property, it will undertake to construct the building. Where Dar Al-Arkan does not intend to retain a building as a rental property, it will sell the developed land to another developer who will undertake to construct the building.

The superstructure stage includes developing a design and construction plan with an architectural firm. The design and construction of superstructures is contracted to third parties through an open tender process. Dar Al-Arkan and the architectural firm each oversees the construction of superstructures. Any deviations from the original designs or plans must be approved by Dar Al-Arkan and the architectural firm. The continuous application of advanced engineering techniques, project management and control systems reduce costs and are intended to enable the project to be completed within the allocated time and budget. At the conclusion of this stage, Dar Al-Arkan owns semi-developed buildings.

Stage six—finishing

The final stage relates to finishing work on the semi-developed buildings, which includes cladding, ceramic and woodwork, mechanical and electrical work, plastering and painting, and internal and external decorative work. At the end of this stage Dar Al-Arkan owns fully developed and finished buildings.

Contracting and sub-contracting

Dar Al-Arkan contracts with third parties for much of the work related to the development of its projects, which involves awarding and managing work performed by several contractors and sub-contractors. These third parties include companies that perform site clearance and the construction of basic infrastructure relating to water, sewage, electricity and other utilities, as well as paved streets and sidewalks. Dar Al-Arkan also contracts with architecture firms and construction companies to design and build superstructures on its projects, as well as with contractors to perform other work related to superstructures, such as cladding, ceramic, wood, mechanical, electrical, plumbing, plastering, painting and decorative work.

Dar Al-Arkan has, with the assistance of project consultants, developed an in-house rating system to ascertain the expertise and qualifications of contractors in its database. Dar Al-Arkan has developed this database by inviting the majority of the contractors operating in the Kingdom to submit to Dar Al-Arkan's internal rating system and be added to the database. Criteria relating to the internal rating system include: a financial review, previous projects undertaken and completed, feedback from previous clients and site visits.

Dar Al-Arkan invites all contractors meeting a certain threshold pursuant to its internal rating systems to bid for providing services on a project-by-project basis. Bids are assessed by Dar Al-Arkan's bid committee (made up of representatives from the risk management, internal audit and engineering departments) and senior management, with assistance from project consultants. Preliminary recommendations are then made to the Executive Committee which makes final decisions on the awarding of contracts. Dar Al-Arkan seeks to award contracts to multiple contractors for each project to avoid concentration of risk.

Dar Al-Arkan's agreements with contractors typically specify a fixed price to be paid to the contractor and a schedule for the completion of their work. Under these agreements, contractors are responsible for obtaining and

paying for all labour, materials and equipment necessary to complete their work. Contractors are also required to purchase and maintain insurance related to the project while under development and their work on the project. In certain instances, price adjustments during the term of the contract are permitted in the event that the costs of construction materials increase significantly, however, any such price increase must be based upon evidence of the cost increase provided by the contractor to Dar Al-Arkan and the amount of any such price increase must be agreed to by Dar Al-Arkan. In addition, price adjustments may occur during the term of an agreement in the event that Dar Al-Arkan materially increases the scope of the work required from the contractor.

Raw materials

Contractors and subcontractors that work on Dar Al-Arkan's development projects are directly responsible for sourcing and purchasing construction materials related to their work on the development projects.

However, where there are significant variations to the original contract or there is a shortage in the availability, or a significant increase in the price, of construction materials to contractors and subcontractors, Dar Al-Arkan and the relevant contractors and/or subcontractors may agree to revise the terms of the original contract, although, in the case of price increases, this would likely require a major change and Dar Al-Arkan has not, to date, agreed to such a variation in an existing contract. For further discussion regarding the availability and fluctuation of prices of construction materials see "*Risk Factors—The total estimated costs of Dar Al-Arkan's development projects may be subject to unanticipated increases*".

Municipal governments

The primary regulators that Dar Al-Arkan interacts with in developing its projects are the municipal governments where the projects are located. Dar Al-Arkan must obtain approvals from such municipalities at various stages during the development of its projects.

Before development of a project can begin, Dar Al-Arkan must submit the master plan to the relevant municipality for approval. The master plan sets forth site improvements necessary for the undeveloped land to be zoned for residential and commercial purposes. In order to receive the municipality's approval, a minimum of 33 per cent. of the land must be allocated to accommodate public facilities, such as schools, police stations, mosques and roads. Municipalities also require that the master plan meet certain other requirements, such as providing for roads that are wide enough to accommodate anticipated traffic on the project.

Once the master plan is approved, Dar Al-Arkan must submit to the relevant municipality a detailed plan relating to the project's infrastructure. Municipalities require the infrastructure plan to provide for enough sewage, water and electricity to accommodate the total built-up area of the project, the expected number of inhabitants and the number of commercial and residential units. The infrastructure plan is reviewed by various departments within the relevant municipality before it is approved. When the infrastructure plan is approved, Dar Al-Arkan is issued a final approval certificate from the municipality and it is permitted to commence construction of the project's infrastructure.

To construct residential and commercial units, Dar Al-Arkan must receive a construction permit from the relevant municipality. To obtain this permit, Dar Al-Arkan submits a plan to the relevant municipality showing the plan for each building. The plan for each building must meet standards set by the relevant municipality, which, among other things, require a building to be built on only a certain percentage of the land allocated for that building. Once the relevant municipality grants the construction permit, Dar Al-Arkan is permitted to commence construction of the residential and commercial units.

Upon the completion of residential and commercial units in accordance with the plans that were approved by the relevant municipality, Dar Al-Arkan is issued building completion certificates from the municipality which allows Dar Al-Arkan to sell or lease the units.

Marketing and sales

Marketing and sales of land development projects

Dar Al-Arkan sells its land development projects to a wide variety of participants in the real estate market, including high-net worth individuals, institutional investors, corporates and small to medium sized real estate developers. Dar Al-Arkan typically sells its land development projects in one of three ways:

- through its own sales teams based in Dar Al-Arkan's branch offices;

- through local real estate agents/brokers (such agents/brokers are compensated directly by the buyer); or
- through public auctions held on-site, which are actively pre-marketed (extensive analysis is performed to determine the potential profitability of an auction before this manner is chosen).

Dar Al-Arkan sells land development projects pursuant to a standard form sale contract, under which it delivers title to the developed land in exchange for the agreed purchase price. Once a contract is signed and title is delivered to a buyer, Dar Al-Arkan has no further obligations with respect to the developed land. Dar Al-Arkan directly extends credit to certain buyers that management deems credit worthy. In such cases, Dar Al-Arkan typically receives a deposit of approximately 20 per cent. at the time the sale contract is signed, and the balance is paid in instalments over a period that is generally no longer than three months. As of 31 March 2025, there had never been a payment default with respect to such credit sales.

Marketing and sales of residential and commercial projects

There are three stages during which Dar Al-Arkan may opt to market and sell units on a residential and commercial project to the end buyer:

- after stage four (land development) in the project development cycle described above, in which case such units are referred to as being sold "off-plan";
- after stage five (superstructure) in the project development cycle described above (when approximately 75 per cent. of the relevant residential unit has been completed), in which case such units are referred to as being sold "pre-finished"; or
- after completion of stage six (finishing), in which case such units are referred to as being sold "finished".

Dar Al-Arkan's senior management, together with the Executive Committee of the Board, determines the portion of residential and commercial projects to be marketed and sold during the three stages identified above.

Dar Al-Arkan has historically marketed and sold substantially all of the units on its residential and commercial projects during the "finished" stage. Until 2016, "off-plan" and "pre-finished" home sales were not permitted in the Kingdom. However, as the Kingdom's housing market matures and becomes more familiar with the concept of master-planned communities, management expects that more residential units will be marketed and sold during the off-plan and pre-finished stages. The Shams Ar Riyadh master-planned community is the first residential and commercial project by Dar Al-Arkan that has been marketed and sold on an off-plan basis under the Wafi programme (a platform launched by the Government in 2016 with the purpose of authorising and regulating off-plan property sales). Currently, two other projects are in the off-plan sales stream, Etoile & Buraidah.

Dar Al-Arkan sells the majority of units in its residential and commercial projects through sales offices established on-site and designed to cater to walk-in clients or clients who have approached Dar Al-Arkan through its central call centre. In 2017, Dar Al-Arkan launched an e-sales centre to allow its customers to purchase residential units more easily.

All prospective customers are handled by a sales team responsible for operating and managing the on-site sales offices and compensated on a salary/commission basis. Such sales are facilitated by heavy marketing campaigns undertaken by Dar Al-Arkan for each residential and commercial project through various media channels, including television, newspaper and magazine advertisements, the internet and billboards throughout the Kingdom. Additionally, Dar Al-Arkan sells a small number of residential and commercial projects through real estate agencies.

Dar Al-Arkan sells residential units on its residential and commercial projects pursuant to a standard form sale contract, under which it delivers possession of the unit, subject to the conditions agreed in the sale contract, with the title deed delivered only upon the receipt of the full purchase price. The sale contract also provides for ownership of a pro-rated share of any common areas in the residential and commercial project to be allocated to the home buyer. The home buyers are liable to pay annual maintenance fees in respect of the residential units until such time as a home owners association is formed, at which point the home owners association becomes responsible for payment of the annual maintenance fees and the home buyers are liable to the home owners

association for such fees. In addition, the sale contract assigns to home buyers the 10-year statutory warranty on the superstructure that is made by the contractors who construct the units.

Marketing and leasing of commercial and residential units on master-planned communities

Dar Al-Arkan's business includes asset management services for its rental properties and for third parties. Dar Al-Arkan retains certain commercial and residential units on its master-planned communities. With respect to Dar Al-Arkan's first master-planned community, Parisiana, Dar Al-Arkan leases commercial space on the ground levels of apartment buildings, residential apartments, offices spaces and the commercial mall developed on the project.

For commercial units, Dar Al-Arkan targets tenants that provide the products and services it believes are necessary to make its master-planned communities self-contained living environments. Such tenants include banks, pharmacies, dry cleaners, convenience stores, cafes and restaurants. For residential units, Dar Al-Arkan targets individuals and families, as well as bulk leases for hospitality companies and employees of corporations, universities and hospitals.

Dar Al-Arkan generally rents commercial and residential units pursuant to standard form lease agreements. The standard form residential lease agreement lasts one year and requires tenants to pay the full amount of annual rent at the beginning of each year in the lease term. Dar Al-Arkan is responsible for maintaining its residential rental units, including common areas. Tenants pay Dar Al-Arkan annual maintenance fees in consideration of these maintenance services. The standard form commercial lease agreement lasts one year and requires tenants to pay annual rent in two instalments, the first at the beginning of the year and the second at the end of the first six months of the year. Dar Al-Arkan is responsible for maintaining its commercial rental units. A tenant must use the commercial unit for the sole purpose stipulated in the commercial lease agreement, which cannot be changed without Dar Al-Arkan's prior written consent. A tenant cannot sub-lease the unit without Dar Al-Arkan's prior written consent.

The Haram area boundary line passes through the project from east to west and divides the project into two sections, north and south.

The Naeem Al Jiwari project was designed to cater to the middle-income market segment and consists of 499 residential villas built on an area of 165,000 square metres, designed in traditional Arabic and neo-classical architectural themes. The construction of villas for the Naeem Al Jiwari project was completed in 2010 with a saleable area of 87,025 square metres. Dar Al-Arkan has also retained the office space and retail facilities in Parisiana Boulevard as leasing properties. The majority of the lease contracts are long-term, ranging between three and five years and signed with Government agencies and private entities. Management expects that the regular cash flow derived from these long-term contracts will facilitate the process of obtaining external financing backed by these leased assets and will in turn reduce the cost of borrowing for Dar Al-Arkan in future.

The total cost of Parisiana, excluding the cost of the commercial mall (see the section below entitled "*—Al-Qasr Mall*"), was approximately SAR 2.02 billion (U.S.\$0.53 billion).

Land Development Projects

Qasr Khozam

The Qasr Khozam land development project, which was announced in 2008 and commenced construction in 2011, is being developed as a joint venture between Dar Al-Arkan and Jeddah Development and Urban Regeneration Company, with Dar Al-Arkan having 66.50 per cent. ownership. Khozam REDC was formed in October 2009 to develop the Qasr Khozam project.

The project consists of approximately 4 million square metres of land located in the central south east region of Jeddah, near the port and the district of Al Balad, the original city centre of Jeddah. The project is intended to revitalise the city centre of Jeddah into a fully sustainable central business district. The land area will be completely redeveloped, with existing infrastructure replaced entirely with new infrastructure that will support wide roads, a light rail transportation system and high-rise buildings with existing dwellings being demolished.

Dar Al-Arkan is responsible for performing a feasibility study and creating a master plan for the project. In addition, Dar Al-Arkan is responsible for developing basic infrastructure relating to residential and commercial use, such as water, electricity and other utilities, as well as paved streets and sidewalks.

Khozam REDC has obtained all required approvals for the project, including the approval of the master plan by the MoMRAH and all permissions and licences required for processing the deeds for the first phase of the project.

The project has been divided into five phases. The first phase of the project involves the development of 165,000 square metres of land. The infrastructure design was completed in 2021 and the contractor was appointed. The concept design for the ground plus 7 floors prototype building has been finalised and approved, with phase one construction expected to commence once final approvals are obtained.

Master-Planned Communities

Shams Ar Riyadh

The Shams Ar Riyadh project is Dar Al-Arkan's second master-planned community and is located in Riyadh's Al-Dariya district. The Shams Ar Riyadh project is one of the largest residential development projects ever initiated in the Kingdom by size, comprising a total area of approximately five million square metres, of which 1.8 million square metres were strategically sold by Dar Al-Arkan to the Saudi Basic Industries Corporation (SABIC). SABIC purchased the land to provide housing for its senior executives and their families. This was a strategic decision that was intended to enhance the visibility, demand and price for the development. Notable features of the Shams Ar Riyadh project include highland altitude, wide roads, pedestrian sidewalks and scenic landscaping. Shams Ar Riyadh is designed to cater to the middle to upper bracket of the middle-income market segment.

In accordance with Dar Al-Arkan's strategy of phased development, the infrastructure development of the Shams Ar Riyadh project commenced in 2007. This covered the completion of grading works, development of the project's frontage, construction of a bridge passing over the natural valley linking commercial and residential areas and the construction of two electrical power substations. In 2017, Dar Al-Arkan awarded the redesign contract for the project's main roads and related infrastructure to Saudi Consult. At the end of 2017, the main road construction work was completed.

The Shams Ar Riyadh project is also expected to include residential villas for sale to retail customers. During 2018, approval was granted to Dar Al-Arkan to initiate residential plot sales on an off-plan basis. As of 31 March 2025, all of the 2,065 plots which had been released had been sold or reserved, with an aggregate sale value of SAR 6.69 billion (U.S.\$1.78 billion). Dar Al-Arkan also intends to develop a number of designer villas and a retail strip (subject to further feasibility studies). The master plan of the project provides for public services and facilities such as mosques, healthcare centres, hotels, a culture centre, educational services, a retail mall and a commercial centre with landscaping and open spaces. The total cost of the project is estimated to be approximately SAR 3.04 billion (U.S.\$0.81 billion) and, as stated above, as of 31 March 2025, infrastructure works on certain zones have been fully completed whereas works on the remaining zones are more than 55 per cent. complete.

Juman Project

The Juman Project is Dar Al-Arkan's fourth master-planned community and the project started in 2014 as a joint venture between Dar Al-Arkan Real Estate Development Company and a group of high net worth Saudi businessmen based in the Kingdom. The Juman Project will be developed over a total gross land area of 8.2 million square meters as an integrated, mixed use, master planned community. This vibrant community will be located on the waterfront near the City of Dammam in the Eastern Region of the Kingdom.

The development of the Juman Project will be completed in phases, with the first phase of the construction of the project due to commence upon receiving initial master approval from the Eastern Province Development Authority. This first phase of the project will involve the reclamation of approximately three million square metres of land, as well as the completion of the necessary infrastructure work at a cost of SAR 1.8 billion (U.S.\$0.48 billion), which includes the construction of bridges to provide a direct connection between Dammam and Ras Tanura where the Juman Project is located. The first phase of the project, covering an area of approximately three million square metres, consists of a very shallow reclamation development for a resort. All relevant no objection certificates have been secured, and the revised master planning concept design has been submitted to the Eastern Province Development Authority for approval.

The future development of the project will consist of commercial areas which include business centres, shopping centres, hotels, entertainment and resorts. The project is expected to create economic opportunities and provide strong investment returns for Dar Al-Arkan due to the design, product mix and strategic location of the site.

The Juman Project's master plan includes residential areas that will be built on a land area of approximately 50 per cent. of the development land. The residential development will provide a variety of housing solutions that meets the needs of families and individuals in the Eastern Region. The project will also offer large recreational and public service facilities.

The total estimated cost for phase one of the project is SAR 1.80 billion (U.S.\$0.48 billion).

Pursuant to each Purchase Agreement, the Seller will sell, transfer and convey to the Purchaser and the Purchaser will purchase from the Seller, and accept the transfer and conveyance of the Assets on the Issue Date in consideration for the purchase price, which shall be payable on the Issue Date, free and clear from all encumbrances.

Lease Agreement

The Master Lease Agreement will be entered into on 11 June 2025 between the Trustee (in its capacity as Lessor), Dar Al-Arkan (in its capacity as Lessee) and the Delegate and is governed by the laws and regulations of the Kingdom and a Supplemental Lease Agreement (together with the Master Lease Agreement, the **Lease Agreement**) between the same parties will be entered into on the Issue Date of each Series and will also be governed by the laws and regulations of the Kingdom.

Pursuant to the Lease Agreement, the Lessor may lease to the Lessee, and the Lessee may lease from the Lessor, the Lease Assets during renewable rental periods (which shall coincide with Return Accumulation Periods) commencing on the lease commencement date (which shall be the date of the Lease Agreement) and extending to the Scheduled Dissolution Date (unless: (a) the lease is terminated earlier in accordance with its terms; or (b) the lease is extended in accordance with the terms of the Purchase Undertaking) in consideration for periodic payments of Rental.

Pursuant to the Lease Agreement, no later than the last day of each rental period (other than the last rental period) the Lessor (or its agent) shall send a renewal notice to the Lessee. Each such notice shall be irrevocable and the Lessee will agree that, unless it rejects such notice by no later than 5:00 pm on the Business Day immediately following the day on which such notice is given (in which case it acknowledges that it will be in breach of its undertaking to irrevocably and unconditionally lease from the Lessor for the lease term and that such breach will constitute a Dar Al-Arkan Event) it will be deemed to have accepted each such notice as and when delivered. Where there is any delay or failure by the Lessor in delivering a renewal notice, the Rental for the relevant rental period shall accrue at the same rate as the Rental for the immediately preceding rental period.

On each date on which the Service Agent submits to the Lessor or its agent a notice in writing requesting the Lessor's approval of the Service Agent incurring or paying any proposed liability comprising an additional servicing agency expense (the date of such notice, being an **Additional Service Agency Expense Request Date**), the Lessor (or its agent) shall submit to the Lessee a notice in writing requesting payment by the Lessee to the Lessor on the first business day of the rental period commencing immediately after such Additional Service Agency Expense Request Date an amount of additional supplementary rental in respect of that rental period (as shall also be specified in the relevant renewal notice) equal to the relevant additional servicing agency expenses. Such notice shall be irrevocable and the Lessee will agree that, unless it rejects such notice by no later than 5:00 pm on the Business Day immediately following such Additional Service Agency Expense Request Date (in which case it acknowledges that such rejection will constitute a Dar Al-Arkan Event), it will be deemed to have approved such notice as and when submitted and agreed to pay the requested amount of additional supplementary rental in accordance with such notice and the relevant renewal notice.

The Lessee will agree in the Lease Agreement to use the Lease Assets at its own risk. Accordingly, the Lessee shall, from the date of the Lease Agreement, bear the entire risk of loss of or damage to the Lease Assets or any part thereof arising from the usage or operation thereof by the Lessee to the extent that such loss or damage has

resulted from the Lessee's gross negligence, wilful default, actual fraud or breach of its obligations under the Lease Agreement. In addition, the Lessor shall not be liable (and the Lessee will waive any claim or right, howsoever arising, to the contrary) for any indirect, consequential or other losses, howsoever arising, in connection with the Lessee's use or operation of the Lease Assets, save to the extent that such loss or damage has resulted from the Lessor's gross negligence, wilful default, actual fraud or breach of its obligations under the Lease Agreement.

- (b) details together with proper evidence of the occurrence of the Partial Loss Event and the deprivation of benefit from the Lease Assets as a result thereof, including, without limitation, the certificate obtained from a recognised industry expert certifying the occurrence of such Partial Loss Event.

If a Rental Reimbursement Request is made in accordance with this paragraph, the Lessor may procure the payment of the Rental Reimbursement Amount by the Service Agent (on its behalf) to the Lessee from:

- (a) the proceeds of any insurances paid in accordance with the terms of the Service Agency Agreement and standing to the credit of the Collection Account; and/or
- (b) (to the extent the proceeds of such insurances (if any) are insufficient) any Loss Shortfall Amount (if any) paid in accordance with the terms of the Service Agency Agreement and as described below,

on the 61st day after the Partial Loss Event Date.

For the avoidance of doubt, if the Lessee does not make a Rental Reimbursement Request on or prior to the 30th day after the Partial Loss Event Date, or it expressly waives such right, it shall be not be entitled to exercise such right thereafter. Furthermore, for the avoidance of doubt if, following the occurrence of a Partial Loss Event, the Lease is not terminated in accordance with the Lease Agreement, and whether or not a Rental Reimbursement Request is made, the terms of the Supplemental Lease Agreement and the Lease, including the amount of Rental payable by the Lessee, shall continue on the same terms which applied prior to the occurrence of the Partial Loss Event.

The Lessee will undertake in the Lease Agreement, in relation to each Series, that it shall maintain actual or constructive possession, custody or control of all of the Lease Assets from the date of the Lease Agreement until the satisfaction in full of all of its obligations (acting in any capacity) under the Transaction Documents to which it is a party.

The Lessor shall, at its own cost and expense, be responsible for the performance of all major maintenance and structural repair and insuring the Lease Assets in accordance with, and subject to, the terms of the Service Agency Agreement. The Lessee will acknowledge in the Lease Agreement that the Lessor may procure that the Service Agent, in accordance with the terms and conditions set out in the Service Agency Agreement, shall perform, or shall procure the performance of, the major maintenance and structural repair and the insurance of the Lease Assets, on behalf of the Lessor.

The Lease Agreement will provide that the Lessee shall pay:

- (a) each Rental (less any initial supplementary rental, supplementary rental and/or additional supplementary rental) by no later than the Payment Business Day immediately preceding the relevant rental payment date (corresponding to the relevant Periodic Distribution Date);
- (b) the initial supplementary rental (corresponding to the relevant All Expenses Reserve Amount payable by the Lessor to the Service Agent pursuant to the Service Agency Agreement) on the Issue Date;

- (c) any supplementary rental (corresponding to the relevant service charge amount in replenishment of the All Expenses Reserve Amount payable by the Lessor to the Service Agent pursuant to the Service Agency Agreement) on the first business day of the rental period commencing immediately after the services invoice date; and
- (d) any additional supplementary rental (corresponding to the relevant additional service agency expenses payable by the Lessor to the Service Agent pursuant to the Service Agency Agreement) on the first business day of the rental period commencing immediately after the Additional Service Agency Expense Request Date,

in each case, by crediting such amounts to the Collection Account relating to the relevant Series and without any prior notice or demand. Pursuant to the Master Lease Agreement, provided that the Lease Assets have been replaced in accordance with the Service Agency Agreement, the Lessee shall irrevocably grant to the Lessor the right, and the Lessor may exercise the right granted by the Lessee, to require the Lessee to enter into a replacement Supplemental Lease Agreement (substantially in the form of a Supplemental Lease Agreement) on the Replacement Date upon the delivery of a replacement notice. The relevant Supplemental Lease Agreement shall be automatically terminated with effect from the Replacement Date provided that a replacement Supplemental Lease Agreement has been entered into between the Lessor, the Lessee and the Delegate on such Replacement Date, which shall be effective from the date of such replacement Supplemental Lease Agreement (being the same date as the Replacement Date) and shall supersede the relevant Supplemental Lease Agreement in its entirety, subject to and in accordance with the relevant Supplemental Lease Agreement.

The Lessee will agree in the Lease Agreement that all payments by it under the Lease Agreement must be made in full in the Specified Currency and without set-off or counterclaim of any kind and without any withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature, unless such withholding or deduction is required by law. In the event there is any such withholding or deduction required by law in the Kingdom, the Lease Agreement provides for the payment by the Lessee of all additional amounts as will result in the receipt by the Lessor of the net amounts as would have been receivable by it if no such withholding or deduction had been made and, accordingly, the Lessee will undertake to pay to the Lessor or such other persons as the Lessor may direct such additional amounts forthwith upon demand and in the manner and the Specified Currency prescribed under the Lease Agreement.

The Lessee will covenant and undertake in the Lease Agreement that its payment obligations under the Lease Agreement are direct, unconditional, unsubordinated and (subject to Condition 6.7) unsecured obligations of the Lessee and shall at all times rank at least *pari passu* with all other present and future unsecured and unsubordinated obligations of the Lessee, save for such obligations mandatorily preferred by law.

 - (D) the Tangibility Event Put Period, during which period any Certificateholders shall have the right to require the redemption of all or any of its Certificates;
- (d) wherever the Service Agent procures insurances in accordance with the terms of the Service Agency Agreement (including the renewal of any insurances in existence on the lease commencement date corresponding to the Issue Date), it shall (i) use its reasonable endeavours to obtain such insurances on a *takaful* basis if such *takaful* is available on commercially viable terms; or (ii) if no such *takaful* is available on commercially viable terms, procure conventional insurance; and
- (e) if within 60 days of the Issue Date of each Series and for any reason, the Service Agent is not in compliance with its insurance obligations set out in paragraph (a)(i) above, it shall immediately deliver written notice to the Trustee and the Delegate of such non-compliance and the details thereof.

The delivery of the notice referred to in paragraph (e) above to the Trustee and/or the Delegate in relation to non-compliance with its insurance obligations set out in paragraph (a)(i) above shall constitute a Dissolution Event.

In relation to each Series of Certificates, if as a result of a Partial Loss Event the ratio of (a) the Value of the Lease Assets (which for this purpose shall exclude any Impaired Assets) to (b) the aggregate of the Value of the Lease Assets and, if applicable for such Series of Certificates, the aggregate amounts of outstanding Deferred Sale Price applicable to such Series at such time, falls below 33 per cent., Certificateholders will be promptly notified of (i) the occurrence of such event; (ii) that from the date of the relevant Trading and Delisting Notice and until any further notice from the Trustee, in consultation with the *Shari'a* Adviser, stating otherwise, the Certificates should be tradable only in accordance with the *Shari'a* principles of debt trading (such as the principle that debt is to be traded against tangible assets and/or eligible commodities on a spot settlement basis); and (iii) on the date of such Trading and Delisting Notice, an application will be made for the Certificates to be delisted from any stock exchange (if any) on which the Certificates have been admitted to listing, or if such date is not a business day, the next following business day (**business day** being for this purpose, a day on which the stock exchange on which the Certificates are admitted to listing is open for business).

Following replacement of the Lease Assets in accordance with paragraph (b) above, the Service Agent shall notify the Trustee and the Delegate of the same and the Trustee shall promptly, following receipt of such notice from the Service Agent and in consultation with the *Shari'a* Adviser, deliver a notice to the relevant Certificateholders in accordance with Condition 18 that (i) from the date of that notice the Certificates may be traded at any price;

and (ii) the Certificates shall be re-listed as soon as reasonably practicable, on the stock exchange (if any) on which the Certificates had been previously admitted to listing.

If, following the occurrence of a Loss Event;

- (a) the notice referred to in paragraph (e) above has not been delivered by the Service Agent to the Trustee and the Delegate within 60 days of the Issue Date of such Series and prior to the occurrence of such Loss Event;
- (b) the Lease Assets have not been replaced in accordance with paragraph (b) above; and
- (c) the amount (if any) credited to the Collection Account pursuant to paragraph (a)(iii) above is less than the Full Reinstatement Value (the difference between the Full Reinstatement Value and the amount credited to the Collection Account being the **Loss Shortfall Amount**),

the Service Agent undertakes to (i) transfer the amounts (if any) credited to the Collection Account in accordance with paragraph (a)(iii) above; and (ii) pay directly (in same day, freely transferable, cleared funds) the Loss Shortfall Amount, in each case to the Transaction Account by no later than close of business in London on the 61st day following the occurrence of a Loss Event. Subject to transferring such amounts (if any) credited to the Collection Account in accordance with paragraph (a)(iii) and/or paying such Loss Shortfall Amount in accordance with this paragraph, there will be no further claim against the Service Agent for failing to comply with its insurance obligations pursuant to the terms of the Service Agency Agreement.

In relation to each Series, the Service Agent shall by no later than the Issue Date of such Series, appoint and maintain at all times, the appointment of a *Shari'a* Adviser to:

- (a) advise the Service Agent on any *Shari'a* related matters relating to the Transaction Documents and the Certificates; and
- (b) provide guidance to the Service Agent as to the compliance of the terms of the Transaction Documents and the Certificates with the requirements from time to time of the *Shari'a* standards of the Accounting and Auditing Organisation for Islamic Financial Institutions,

in each case, upon request in writing by the Service Agent from time to time.

In addition, the Service Agent will also be responsible for maintaining a Collection Account in relation to each Series. The Service Agency Agreement will provide that, on the Payment Business Day immediately preceding each Periodic Distribution Date, amounts standing to the credit of the Collection Account relating to each Series (other than any amounts of initial supplementary rental and/or supplementary rental) will be applied by the Service Agent on behalf of the Trustee, by paying an amount equal to the Required Amount directly into the Transaction Account. The Service Agent shall be entitled pursuant to the Service Agency Agreement to deduct amounts standing to the credit of the Collection Account (other than initial supplementary rental, supplemental rental and/or any insurance proceeds referred to above) relating to each Series at any time during the lease term and use such amounts for its own account, provided that it shall immediately re-credit all such amounts to the Collection Account:

- (a) on the Payment Business Day immediately preceding a Periodic Distribution Date, if so required to fund a shortfall between the (i) the amount standing to the credit of the Transaction Account (after the application of amounts standing to the credit of the Collection Account pursuant to the Service Agency Agreement); and (ii) the Required Amount payable on such Periodic Distribution Date; or
- (b) upon the occurrence of a Dissolution Event, a Potential Dissolution Event, a Change of Control, a Tangibility Event or a Loss Event.

In consideration of the Service Agent acting as agent of the Lessor in relation to each lease, the Service Agent shall receive a fee of U.S.\$100, payable on the date of the Service Agency Agreement (the receipt and adequacy of which the Service Agent will acknowledge in the Service Agency Agreement). In relation to each Series, as an advance payment to the Service Agent for service charge amounts to be paid or incurred by it in respect of the services to be performed in relation to the Lease Assets, the Lessor shall procure that an amount equal to a pre-

agreed reserve amount (the **All Expenses Reserve Amount**) is credited to the Collection Account on the Issue Date of such Series and is replenished in accordance with the Service Agency Agreement and as described below.

Notwithstanding any other provision in the Service Agency Agreement, the Service Agent shall not incur or pay any liability in any rental period in respect of the services to be performed in relation to the Lease Assets which, individually or in the aggregate, would exceed the All Expenses Reserve Amount (the amount by which such liability exceeds the All Expenses Reserve Amount, being the **additional service agency expenses**) unless:

- (a) a notice requesting such incurrence or payment of additional service agency expenses has been submitted by the Service Agent to the Lessor in accordance with the Service Agency Agreement;
- (b) following such request (and subject to the Lessor's approval of such incurrence or payment of additional service agency expenses):
 - (i) (in the case of a rental period other than an additional lease period), the Lessee has agreed to pay to the Lessor an amount of additional supplementary rental equal to such additional service agency expenses on the first business day of the rental period commencing immediately after the Additional Service Agency Expense Request Date in accordance with the relevant Lease Agreement; and
 - (ii) (in the case of an additional lease period), the Lessor has (subject to the prior consent of the Certificateholders) agreed in writing within one business day of the date of such request to pay to the Service Agent an amount equal to such additional service agency expenses.

If, during any rental period, the Service Agent incurs or pays such liability without first satisfying the conditions in (a) and (b) above, then it shall be deemed to have unconditionally agreed to satisfy, donate and pay all such liabilities from its own account and the Lessor shall have no responsibility whatsoever in connection with such liability.

Pursuant to the Service Agency Agreement, the Service Agent will submit to the Lessor or its agent the invoice or receipt for (or other evidence of payment or incurrence of) each liability comprising the service charge amount, as soon as practicable after the payment or incurrence thereof and, in any case, an invoice or receipt consolidating (or other evidence of payment or incurrence of) all liabilities comprising the service charge amount paid or incurred during a rental period on the fifth business day preceding the immediately following rental payment date (the **services invoice date**). In addition, the Service Agent will submit to the Lessor or its agent a notice in writing requesting the Lessor's approval of the Service Agent incurring or paying any proposed liability comprising an additional service agency expense prior to incurring or paying such proposed liability. Subject to the terms of the relevant Lease Agreement and the paragraph above:

- (a) the Lessor will procure that an amount equal to the service charge amount notified to it in accordance with the above paragraph is credited to the Collection Account on the first business day of the rental period commencing immediately after the services invoice date; and
- (b) the Lessor will procure the reimbursement of the Service Agent for each additional service agency expense approved in accordance with the paragraph above by crediting such amount to the Collection Account on the first business day of the rental period commencing immediately after the Additional Service Agency Expense Request Date or, if the relevant lease is terminated prior to such date, on the date of termination of such lease.

For the avoidance of doubt, no replenishment of the Collection Amount in an amount equal to the relevant service charge amount shall be made unless the Service Agent evidences the payment or incurrence of each liability comprising such service charge amount in accordance with the Service Agency Agreement.

The Service Agent has agreed in the Service Agency Agreement that all payments by it under the Service Agency Agreement must be made in full in the Specified Currency and without set-off or counterclaim of any kind and without any withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature, unless such withholding or deduction is required by law.

The Service Agent has covenanted and undertaken in the Service Agency Agreement that its payment obligations under the Service Agency Agreement are direct, unconditional, unsubordinated and (subject to Condition 6.7)

unsecured obligations of the Service Agent and shall at all times rank *pari passu* with all other present and future unsecured obligations of the Service Agent, save for such obligations mandatorily preferred by law.

For these purposes:

Full Reinstatement Value means, in relation to each Series, an amount in the Specified Currency equal to the aggregate of:

- (a) in the case of a Total Loss Event:
 - (i) the aggregate face amount of the Certificates then outstanding; plus
 - (ii) an amount equal to all accrued and unpaid Periodic Distribution Amounts (if any) relating to the Certificates; plus
 - (iii) an amount equal to the Periodic Distribution Amounts relating to such Certificates, which would have accrued (had a Total Loss Event not occurred) during the period beginning on the date on which the Total Loss Event occurred and ending on, but excluding, the 61st day after the occurrence of the Total Loss Event; plus
 - (iv) to the extent not previously satisfied in accordance with the Service Agency Agreement, an amount equal to any outstanding additional service agency expenses in respect of which the Lessee has agreed to make an appropriate corresponding additional supplementary rental payment but such additional supplementary rental payment has not been made in accordance with the Lease Agreement; plus
 - (v) without double counting, an amount representing any amounts payable by the Trustee (in any capacity) under the Transaction Documents to which it is a party (including but not limited to amounts due but unpaid to the Delegate pursuant to Condition 4.2(a)); plus
 - (vi) without double counting, any other amounts payable on redemption of the Certificates as specified in the applicable Final Terms; less
 - (vii) the aggregate amounts of Deferred Sale Price then outstanding (if any) on the Total Loss Dissolution Date; and
- (b) in the case of a Partial Loss Event:
 - (i) the aggregate Value of the impaired Lease Assets; plus
 - (ii) an amount equal to any Rental Reimbursement Amount payable to the Lessee in accordance with the Lease Agreement; and

Value means, in relation to each Eligible Asset applicable to a Series, on any date, the amount in the Specified Currency determined by Dar Al-Arkan as being equal to the value of that Eligible Asset by reference to the valuation by Dar Al-Arkan on the basis of the market value or book value of such Eligible Asset on the date it was purchased or otherwise acquired by or on behalf of the Trustee as set out in the relevant Supplemental Purchase Agreement and/or Sale Agreement, as the case may be.

Purchase Undertaking

The Purchase Undertaking will be executed as a deed on 11 June 2025 by Dar Al-Arkan (in its capacity as Obligor) in favour of the Trustee and the Delegate and is governed by English law.

Pursuant to the Purchase Undertaking, in relation to each Series, provided that no Total Loss Event has occurred and is continuing (or, if a Total Loss Event has occurred, the Lease Assets have been replaced in accordance with the Service Agency Agreement), the Obligor will irrevocably grant to the Trustee and the Delegate (for and on behalf of the Certificateholders) the following rights:

- (a) provided that a Dissolution Event has occurred and is continuing and the Delegate has received a Dissolution Notice in accordance with the Conditions, to require the Obligor to purchase on the Dissolution Event Redemption Date all of the Trustee's rights, title, interest, benefits and entitlements in, to and under the Lease Assets at the Exercise Price specified in the relevant exercise notice;
- (b) to require the Obligor on the Scheduled Dissolution Date to purchase all of the Trustee's rights, title, interest, benefits and entitlements in, to and under the Lease Assets at the Exercise Price specified in the relevant exercise notice;
- (c) provided that (i) Certificateholder Put Right is specified as applicable in the applicable Final Terms (and Early Dissolution (Trustee Call) is specified as not applicable in the applicable Final Terms) and (ii) one or more Certificateholders have exercised the Certificateholder Put Right in accordance with the Conditions, to require the Obligor to purchase on the Certificateholder Put Right Date all of the Trustee's rights, title, interest, benefits and entitlements in, to and under the Certificateholder Put Right Lease Assets at the Certificateholder Put Right Exercise Price specified in the relevant exercise notice;
- (d) provided that (i) a Change of Control has occurred; and (ii) one or more Certificateholders have exercised the Change of Control Put Right in accordance with the Conditions, to require the Obligor to purchase on the Change of Control Put Right Date all of the Trustee's rights, title, interest, benefits and entitlements in, to and under the Change of Control Put Right Lease Assets at the Change of Control Put Right Exercise Price specified in the relevant exercise notice; and
- (e) provided that (i) a Tangibility Event has occurred; and (ii) one or more Certificateholders have exercised the Tangibility Event Put Right in accordance with the Conditions, to require the Obligor to purchase on the Tangibility Event Put Right Date all of the Trustee's rights, title, interest, benefits and entitlements in, to and under the Tangibility Event Put Right Lease Assets at the Tangibility Event Put Right Exercise Price specified in the relevant exercise notice,

in each case, on an "as is" basis but free and clear from all encumbrances (without any warranty express or implied as to condition, fitness for purpose, suitability for use or otherwise and if any warranty is implied by law, it shall be excluded to the fullest extent permitted by law) and otherwise on the terms and subject to the conditions of the Purchase Undertaking.

The Purchase Undertaking provides that, pursuant to the exercise of any such rights, the Obligor will undertake to immediately purchase all of the Trustee's rights, title, interest, benefits and entitlements in, to and under the Lease Assets at the Exercise Price which shall be paid into the Transaction Account (in the Specified Currency by wire transfer for same day value):

- (a) (in the case of paragraph (a) above) on the Dissolution Event Redemption Date;
- (b) (in the case of paragraph (b) above) on the Payment Business Day immediately preceding the Scheduled Dissolution Date;
- (c) (in the case of paragraph (c) above) on the Payment Business Day immediately preceding the Certificateholder Put Right Date;
- (d) (in the case of paragraph (d) above) on the Payment Business Day immediately preceding the Change of Control Put Right Date; and
- (e) (in the case of paragraph (e) above) on the Payment Business Day immediately preceding the Tangibility Event Put Right Date.

The Obligor has covenanted and undertaken in the Purchase Undertaking that:

- (a) if, at the time of delivery of the exercise notice in accordance with the provisions of the Purchase Undertaking, Dar Al-Arkan Real Estate Development Company remains in actual or constructive possession, custody or control of all or any part of the Lease Assets, the Certificateholder Put Right Lease Assets, the Change of Control Put Right Lease Assets or the Tangibility Event Put Right Lease Assets, as the case may be; and

- (b) if, following delivery of the exercise notice in accordance with the provision of the Purchase Undertaking, the relevant Exercise Price, Certificateholder Put Right Exercise Price, Change of Control Put Right Exercise Price or Tangibility Event Put Right Exercise Price, as the case may be, is not paid in accordance with the provisions of the Purchase Undertaking for any reason whatsoever,

the Obligor shall (as an independent, severable and separately enforceable obligation) fully indemnify the Trustee for the purpose of redemption in full of the Certificates then outstanding or the Certificateholder Put Right Certificates, the Change of Control Put Right Certificates or the Tangibility Event Put Right Certificates, as the case may be, and, accordingly, the amount payable under any such indemnity claim will equal the Exercise Price, the Certificateholder Put Right Exercise Price, the Change of Control Put Right Exercise Price or the Tangibility Event Put Right Exercise Price, as the case may be. Payment of an amount equal to the relevant Exercise Price, Certificateholder Put Right Exercise Price, Change of Control Put Right Exercise Price or Tangibility Event Put Right Exercise Price, as the case may be, into the Transaction Account in accordance with the Purchase Undertaking shall evidence the acceptance of the exercise notice by the Obligor delivered in accordance with the provisions of the Purchase Undertaking and the conclusion of the transfer of the Trustee's rights, title, interest, benefits and entitlements in, to and under the Lease Assets, the Certificateholder Put Right Lease Assets, the Change of Control Put Right Lease Assets or the Tangibility Event Put Right Lease Assets, as the case may be, to the Obligor.

The Obligor has agreed in the Purchase Undertaking that all payments by it under the Purchase Undertaking must be made in full in the Specified Currency and without set-off or counterclaim of any kind and without any withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature, unless such withholding or deduction is required by law. In the event there is any such withholding or deduction required by law in the Kingdom, the Purchase Undertaking provides for the payment by the Obligor of all additional amounts as will result in the receipt by the Trustee of the net amounts as would have been receivable by it if no such withholding or deduction had been made and, accordingly, the Obligor will undertake to pay to the Trustee or such other persons as the Trustee may direct such additional amounts forthwith upon demand and in the manner and the Specified Currency prescribed under the Purchase Undertaking.

The Obligor has covenanted and undertaken in the Purchase Undertaking that its payment obligations under the Purchase Undertaking are direct, unconditional, unsubordinated and (subject to the provisions of Condition 6.7) unsecured obligations of the Obligor and shall at all times rank *pari passu* with all other present and future unsecured and unsubordinated obligations of the Obligor, save for such obligations mandatorily preferred by law.

For these purposes, **Exercise Price** means, in relation to each Series, an amount in the Specified Currency equal to the aggregate of:

- (a) the aggregate face amount of the Certificates then outstanding on the relevant Dissolution Date; plus
- (b) an amount equal to all accrued and unpaid Periodic Distribution Amounts (if any) relating to the Certificates; plus
- (c) to the extent not previously satisfied in accordance with the Service Agency Agreement, an amount equal to any outstanding additional service agency expenses in respect of which the Lessee has agreed to make an appropriate corresponding additional supplementary rental payment but such additional supplementary rental payment has not been made in accordance with the Lease Agreement; plus
- (d) without double counting, an amount representing any amounts payable by the Trustee (in any capacity) under the Transaction Documents to which it is a party (including but not limited to amounts due but unpaid to the Delegate pursuant to Condition 4.2(a)); plus
- (e) in the case of a Partial Loss Event and the relevant impaired Lease Assets having been replaced in accordance with the Service Agency Agreement and to the extent not previously satisfied in accordance with the Lease Agreement an amount equal to any outstanding Rental Reimbursement Amount; plus

- (g) in the case of a Dissolution Event arising as a result of a Partial Loss Dissolution Event only, any insurance proceeds and/or any Loss Shortfall Amount paid in respect of a Partial Loss Event in accordance with the terms of the Service Agency Agreement and standing to the credit of the Transaction

Account less any (i) Rental Reimbursement Amount; or (ii) other reimbursement or refund of Rental, in each case paid or payable in accordance with the terms of the Lease Agreement; less

- (h) the aggregate amounts of Deferred Sale Price then outstanding (if any) on the relevant Dissolution Date.

Sale and Substitution Undertaking

The Sale and Substitution Undertaking will be executed as a deed on 11 June 2025 by the Trustee in favour of Dar Al-Arkan and is governed by English law.

In relation to each Series, provided that (i) no Total Loss Event has occurred and is continuing (or, if a Total Loss Event has occurred, the Lease Assets have been replaced in accordance with the Service Agency Agreement); and (ii) no right granted under paragraph (b) below shall be exercisable within six months of the Issue Date of such Series unless otherwise approved in writing by the *Shari'a* Adviser, the Trustee will irrevocably grant to the Obligor the following rights:

- (a) provided that a Tax Event has occurred, to require the Trustee to sell, transfer and convey to Dar Al-Arkan (or any of its Restricted Subsidiaries) on the Early Tax Dissolution Date all of the Trustee's rights, title, interest, benefits and entitlements in, to and under the Lease Assets at the Exercise Price specified in the relevant exercise notice;

- (e) following delivery of the relevant Certificates to the Principal Paying Agent for cancellation pursuant to Condition 14.2, to require the Trustee to sell, transfer and convey to Dar Al-Arkan (or any of its Restricted Subsidiaries) on the cancellation date all of the Trustee's rights, title, interest, benefits and entitlements in, to and under, the cancellation Lease Assets against the cancellation of the cancelled Certificates, provided that certain conditions set out in the Sale and Substitution Undertaking are satisfied,

in each case, on an "as is" basis but free and clear from all encumbrances (without any warranty express or implied as to condition, fitness for purpose, suitability for use or otherwise and if any warranty is implied by law, it shall be excluded to the fullest extent permitted by law) and otherwise on the terms and subject to the conditions of the Sale and Substitution Undertaking.

Master Murabaha Agreement

The Master Murabaha Agreement will be entered into on 11 June 2025 between the Trustee (in its capacity as seller, the **Seller**), Dar Al-Arkan (in its capacity as buyer, the **Buyer**) and the Delegate and will be governed by English law.

Pursuant to the Master Murabaha Agreement, and in connection with each relevant Series of Certificates, the Seller may enter into a Commodity Murabaha Investment with the Buyer using a portion of the issue proceeds of

the relevant Series as specified in the applicable Final Terms (being no more than 45 per cent. of the aggregate face amount of the Certificates of that Series). In accordance with the Master Murabaha Agreement, on receipt of a duly completed Notice of Request to Purchase from the Buyer, the Seller (acting through the commodity agent) may purchase the relevant Commodities on the relevant Issue Date from a commodity supplier on a spot basis at the relevant Commodity Purchase Price.

Upon completion of the purchase of the Commodities by the Seller and the Seller gaining title thereto and (actual or constructive) possession thereof, the Seller may deliver to the Buyer a duly completed Offer Notice by no later than 1.00 p.m. (London time) (or such other time as may be agreed in writing by the Buyer and the Seller) on the relevant Issue Date.

Provided that the Buyer has delivered a duly completed Notice of Request to Purchase in accordance with the terms of the Master Murabaha Agreement and it wishes to enter into a Murabaha Contract, the Buyer may accept the terms of, countersign and deliver to the Seller any Offer Notice delivered to it in accordance with the Master Murabaha Agreement and purchase from the Seller the relevant Commodities acquired by the Seller for the relevant Deferred Sale Price (to be paid in the Specified Currency and on the dates and in the amounts as specified in the Offer Notice), in each case by no later than 2.00 p.m. (London time) (or such other time as may be agreed between the Buyer and the Seller) on the relevant Issue Date.

As soon as the Buyer has accepted the Seller's offer by countersigning the relevant Offer Notice:

- (a) a Murabaha Contract shall be created between the Seller and the Buyer upon the terms of the Offer Notice and incorporating the terms and conditions set out in the Master Murabaha Agreement;
- (b) the Seller shall sell, and the Buyer shall purchase the Commodities on the terms set out in that Offer Notice; and
- (c) ownership (including, without limitation, the right of ownership from a *Shari'a* perspective) of and, upon the Buyer obtaining actual or constructive possession of the relevant Commodities, all risks in and to the relevant Commodities shall immediately pass to and be vested in the Buyer, together with all rights and obligations relating thereto.

The Buyer will agree in the Master Murabaha Agreement that all payments by it under the Master Murabaha Agreement must be made in full in the Specified Currency and without set-off or counterclaim of any kind and without any withholding or deduction for, or on account of, any present or future taxes, duties, assessments or other governmental charges of whatever nature, unless such withholding or deduction is required by law. In the event there is any such withholding or deduction required by law in the Kingdom, the Master Murabaha Agreement provides for the payment by the Buyer of all additional amounts as will result in the receipt by the Seller of such net amounts as would have been receivable by it if no such withholding or deduction had been made and, accordingly, the Buyer will undertake to pay to the Seller or such other persons as the Seller may direct such additional amounts forthwith upon demand and in the manner and the Specified Currency prescribed under the Master Murabaha Agreement.

The Buyer will covenant and undertake in the Master Murabaha Agreement that its payment obligations under the Master Murabaha Agreement are direct, unconditional, unsubordinated and (subject to the provisions of Condition 6.7) unsecured obligations of the Obligor and shall at all times rank *pari passu* with all other present and future unsecured and unsubordinated obligations of the Obligor, save for such obligations mandatorily preferred by law.

Trust Deed

The Master Trust Deed will be entered into on 11 June 2025 between the Trustee, Dar Al-Arkan and the Delegate and will be governed by English law. A Supplemental Trust Deed between the same parties will be entered into on the Issue Date of each Series and will also be governed by English law.

Upon issue of the Global Certificate initially representing any Series, the Master Trust Deed and the relevant Supplemental Trust Deed shall together constitute the Trust declared by the Trustee in relation to such Series.

Each Trust Deed will specify that, on or after the relevant Scheduled Dissolution Date or, as the case may be, Dissolution Date of a Series, the rights of recourse in respect of the relevant Certificates shall be limited to the amounts from time to time available and comprising the Trust Assets of that Series, subject to the priority of

payments set out in the Trust Deed, the relevant Certificates and the Conditions. The Certificateholders have no claim or recourse against Dar Al-Arkan Sukuk Company Ltd. in respect of any amount which is or remains unsatisfied and any unsatisfied amounts will be extinguished.

Pursuant to each Trust Deed, the Trustee will, in relation to each Series, *inter alia*:

- (a) hold the relevant Trust Assets on trust absolutely for the relevant Certificateholders *pro rata* according to the face amount of Certificates held by each Certificateholder; and
- (b) act as trustee in respect of the relevant Trust Assets, distribute the income from the relevant Trust Assets and perform its duties in accordance with the provisions of the relevant Trust Deed.

In the Master Trust Deed, the Trustee by way of security for the performance of all covenants, obligations and duties of the Trustee to the Certificateholders will irrevocably and unconditionally appoint the Delegate to be its attorney and in its name and on its behalf to execute, deliver and perfect all documents and to exercise all the present and future powers, authorities and discretions (including but not limited to the authority to request instructions from any Certificateholders and the power to sub-delegate and the power to make any determinations to be made under each Trust Deed) vested in the Trustee by each Trust Deed or any other Transaction Document that the Delegate may consider to be necessary or desirable in order upon the occurrence of a Dissolution Event or a Potential Dissolution Event, and subject to its being indemnified and/or secured and/or prefunded to its satisfaction to perform the present and future powers, authorities and discretions vested in the Trustee by the relevant provisions of each Trust Deed and any of the other Transaction Documents (provided that no obligations, duties, liabilities or covenants of the Trustee pursuant to the Master Trust Deed or any other Transaction Document will be imposed on the Delegate by virtue of such delegation). The appointment of such delegate by the Trustee is intended to be in the interests of the Certificateholders and will not affect the Trustee's continuing role and obligations as trustee.

The Master Trust Deed specifies, *inter alia*, that in relation to each Series:

- (a) following the distribution of the proceeds of the relevant Trust Assets to the relevant Certificateholders such that those Trust Assets have been exhausted in accordance with the Conditions and the Agency Agreement, no Certificateholder shall be entitled to proceed directly against the Trustee, the Delegate and/or Dar Al-Arkan in respect of such Trust Assets to enforce the performance of any of the provisions of the relevant Trust Deed or any other Transaction Document. In particular, no Certificateholder shall be entitled to take any action which could result in the winding-up of the Trustee;
- (b) no Certificateholder shall be entitled to proceed directly against, or to provide instructions to the Trustee to pursue any claim against, the Trustee and/or Dar Al-Arkan arising under the relevant Trust Assets or the relevant Certificates or to enforce the performance of any provisions of any of the Transaction Documents or for any other reason unless the Delegate having become bound so to proceed, (i) fails to do so within a reasonable period, or (ii) is unable by reason of an order of a court having competent jurisdiction to do so, and the failure or inability is continuing. Under no circumstances shall the Trustee, the Delegate or any Certificateholders have any right to cause the sale or other disposition of any of the relevant Trust Assets, except pursuant to the terms of the Transaction Documents or under the Conditions and the sole right of the Trustee, the Delegate and the Certificateholders against Dar Al-Arkan shall be to enforce their respective obligations under the Transaction Documents to which they are party; and
- (c) neither the Delegate nor the Trustee shall be bound in any circumstances to take any action in relation to any Trust Assets or any Dissolution Event or take any action or other steps under the Conditions or any Transaction Document unless:
 - (i) the Delegate and/or the Trustee, as the case may be, is satisfied that it will be indemnified and/or secured and/or prefunded to its satisfaction against all Liabilities which may be incurred in connection with such action or step and may demand prior to taking any such action that there be paid to it in advance such sums as it considers (without prejudice to any further demand) shall be sufficient so to indemnify it; and
 - (ii) in the case of the Delegate only, directed or requested to do so by a Certificateholders' Direction.

Pursuant to the Master Trust Deed, Dar Al-Arkan will unconditionally and irrevocably undertake to (irrespective of the payment of any fee), as a continuing obligation, in the event that the Trustee fails to comply with any obligation to pay additional amounts pursuant to Condition 12, pay to or to the order of the Delegate (for the

benefit of the Certificateholders) such net amounts as are necessary so that the amount receivable by the Delegate (after any withholding or deduction) equals any and all additional amounts, required to be paid by it in respect of the Certificates pursuant to Condition 12.

Pursuant to the Master Trust Deed, Dar Al-Arkan will covenant and undertake to the Trustee that, in relation to any Series:

- (a) if, at the time of delivery of the exercise notice in accordance with the provisions of the Purchase Undertaking, Dar Al-Arkan Real Estate Development Company remains in actual or constructive possession, custody or control of all or any part of the Lease Assets, the Certificateholder Put Right Lease Assets, the Change of Control Put Right Lease Assets or the Tangibility Event Put Right Lease Assets, as the case may be; and
- (b) if, following delivery of the Exercise Notice in accordance with the provisions of the Purchase Undertaking, the relevant Exercise Price, Certificateholder Put Right Exercise Price, Change of Control Put Right Exercise Price or Tangibility Event Put Right Exercise Price, as the case may be, is not paid in accordance with the provisions of the Purchase Undertaking for any reason whatsoever,

Dar Al-Arkan shall (as an independent, severable and separately enforceable obligation) fully indemnify the Trustee for the purpose of redemption in full of the Certificates then outstanding or the Certificateholder Put Right Certificates, the Change of Control Put Right Certificates or the Tangibility Event Put Right Certificates, as the case may be, and, accordingly, the amount payable under any such indemnity claim will equal the Exercise Price, the Certificateholder Put Right Exercise Price, the Change of Control Put Right Exercise Price or the Tangibility Event Put Right Exercise Price, as the case may be.

TAXATION

The following is a general description of certain tax and zakat considerations relating to Certificates issued under the Programme. It does not purport to be a complete analysis of all tax and zakat considerations relating to the Certificates. Prospective purchasers of any Certificates should consult their tax and zakat advisers as to the consequences under the tax and zakat laws of the country of which they are resident for tax and zakat purposes of acquiring, holding and disposing of the relevant Certificates and receiving payments under those Certificates. This summary is based upon the law as in effect on the date of this Base Prospectus and is subject to any change in law that may take effect after such date.

Cayman Islands

The following is a discussion on certain Cayman Islands tax consequences of an investment in Certificates to be issued under the Programme. The discussion is a general summary of present law, which is subject to prospective and retroactive change. It is not intended as tax advice, does not consider any investor's particular circumstances and does not consider tax consequences other than those arising under Cayman Islands law.

Under existing Cayman Islands laws payments on Certificates to be issued under the Programme will not be subject to taxation in the Cayman Islands and no withholding will be required on the payments to any holder of Certificates nor will gains derived from the disposal of Certificates be subject to Cayman Islands income or corporation tax. The Cayman Islands currently has no income, corporation or capital gains tax and no estate duty, inheritance or gift tax. On 23 April 2012, the Trustee received an undertaking from the Governor in Cabinet of the Cayman Islands, pursuant to the Tax Concessions Act (As Revised) of the Cayman Islands, that for a period of 20 years from the date of grant of that undertaking no law which is enacted in the Cayman Islands imposing any tax to be levied on profits, income, gains or appreciation shall apply to the Trustee or its operations and, in addition, that no tax to be levied on profits, income, gains or appreciations or which is in the nature of estate duty or inheritance tax shall be payable on or in respect of the shares, debentures or other obligations (which includes the Certificates) of the Trustee or by way of the withholding in whole or part of any relevant payment as defined in the Tax Concessions Act (As Revised).

Subject as set out below, no capital or stamp duties are levied in the Cayman Islands on the issue, transfer or redemption of Certificates. An instrument transferring title to any Certificates, if brought to or executed in the Cayman Islands, would be subject to Cayman Islands stamp duty. An annual registration fee is payable by the Trustee to the Cayman Islands Registrar of Companies which is calculated by reference to the nominal amount of its authorised capital. At current rates, this annual registration fee is approximately U.S.\$1,128.05. The foregoing is based on current law and practice in the Cayman Islands and this is subject to change therein.

Kingdom of Saudi Arabia

*The statements herein regarding taxation/zakat are based on Saudi Arabia's laws in effect as of the date of this Base Prospectus and are subject to any changes occurring after such date, which changes could have retroactive effect. These laws include the Income Tax Law issued under Royal Decree No. M/1 dated 15/1/1425H (corresponding to 06/03/2004G) and its executive regulations issued under Ministerial Resolution No. 1535 dated 11/06/1425H (corresponding to 29/07/2004G), as amended from time to time (collectively, the **Income Tax Law**), and the Implementing Regulations for Zakat Collection issued pursuant to Ministerial Resolution No. 1007 dated 19/08/1445H (corresponding to 21/03/2024G) (the **Zakat Regulations**), and Unified Agreement for Value Added Tax of the States of GCC, Value Added Tax Law issued under Royal Decree number M113 dated 02/11/1438H (corresponding to 25/07/2017G) and its implementing regulations issued by ZATCA Board of Directors Resolution No. 3839 dated 14/12/1438H (corresponding to 05/09/2017G), as amended from time to time (the **VAT Law**).*

The following is a general description of certain tax/zakat considerations relating to any Certificates issued under the Programme. It does not purport to be a complete analysis of all tax/zakat considerations relating to the Certificates. Prospective purchasers of any Certificates should consult their tax/zakat advisers as to the consequences under the tax laws of the country in which they are resident for tax/zakat purposes of acquiring, holding and disposing of the relevant Certificates and receiving payments under those Certificates. This summary is based upon the laws as in effect on the date of this Base Prospectus and is subject to any change in laws that may take effect after such date.

Unless otherwise stated, capitalised terms in this section shall have the meanings given to them in "Definitions" below.

Certain Relevant Applicable Provisions of Income Tax Law and Zakat Regulations

Corporate Income Tax

Persons Subject to Taxation include a Resident capital company owned by non-GCC persons and a non-Resident who carries out business in the Kingdom through a Permanent Establishment are subject to 20 per cent. corporate income tax (other than legal entities Resident in the Kingdom that are engaged in oil and hydrocarbon production) in the Kingdom on their gross income, less deduction of allowable costs and certain other tax adjustments (i.e. taxable profit). However, legal entities Resident in the Kingdom (other than legal entities Resident in the Kingdom that are engaged in oil and hydrocarbon and natural gas production) that are owned jointly by GCC persons and non-GCC persons are subject to corporate income tax in respect of the share of taxable profit attributable to the ownership percentage held by non-GCC persons and zakat on the zakat base attributable to the ownership percentage held by GCC persons. Non-GCC natural persons Resident in the Kingdom who are not performing commercial activities in the Kingdom (as defined in Article 1 of the Income Tax Law and Article 2 of the executive regulations of the Income Tax Law) are not currently subject to corporate income tax in the Kingdom.

In determining the tax or zakat profile of a legal entity Resident in the Kingdom, the ZATCA applies a "look-through" approach to determine whether the up-stream shareholding structure at any point exists outside of the GCC (in other words, at the ultimate shareholder level). However, the "look-through" approach only applies to shareholders that are GCC Resident persons. Therefore, the percentage of the share capital of a legal entity Resident in the Kingdom that is owned by a shareholder entity incorporated outside the GCC is subject to corporate income tax regardless of the nationalities of the ultimate investors in such non-GCC incorporated entity.

Finally, as per the Income Tax Law, legal entities Resident in the Kingdom that are engaged in oil and hydrocarbon and natural gas production are subject to corporate income tax in the Kingdom at levels either between 50 per cent. and 85 per cent. (in the case of oil and hydrocarbon production) depending on the level of total capital investment (as defined in the Income Tax Law) of such entity or 20 per cent. (in the case of natural gas production) on their gross income, less deduction of allowable costs and certain other tax adjustments, regardless of their shareholders being GCC and/or non-GCC persons.

Effective 1 January 2020G, Resident companies engaged in oil and hydrocarbons production activities as well as engaged in related downstream activities are subject to 20 per cent. corporate income tax on their profits attributable to downstream activities for the first five years starting from 1 January 2020G if certain conditions are fulfilled (separates its downstream activities from the oil and other hydrocarbon production activities into an independent legal entity before 31 December 2024). If the taxpayer does not comply in separating its downstream activities from the oil and other hydrocarbon production activities by 31 December 2024, income from downstream activities should be taxed retroactively on an annual basis for such five-year period in accordance with the multi-tiered tax rates applicable to oil and hydrocarbon production companies. In such case, the taxpayer should be required to pay the difference in taxes due to the Government.

Zakat

Zakat is a religious obligation imposed on Muslims by the *Shari'a* law to pay a fixed percentage of their wealth for the relief of poverty.

The rules governing the calculation of zakat are complex. Separate rules are applicable for the calculation of zakat by the zakat payers who are engaged in the Kingdom in financing activities (carried according to rules and regulations in force in the Kingdom) and zakat payers who are engaged in the Kingdom in non-financing activities. This section broadly covers the zakat consequences of investment in the Certificates by investors who are engaged in non-financing activities in the Kingdom.

As per the Zakat Regulations, Persons Subject to Zakat include Resident companies that are owned by GCC persons and Resident natural persons who are GCC persons engaged in business activities.

Investment funds (other than investment funds engaged in financing activities) are not subject to zakat in the Kingdom. The investors (or unitholders) of the investment funds (other than funds engaged in financing activities) are eligible to claim deduction of its investment in such investment fund if (a) the investment held is non-trading; and (b) it settles zakat on its ownership interest in the investment fund (if the investor is not consolidating the investment fund for zakat purposes).

In general, the zakat base is determined by calculating the net amount of additions minus deductions based on the year end closing balances reported in the financial statements. Additions to the zakat base broadly comprise of

equity and equivalents (such as share capital, reserves, certain provisions, retained earnings, additional capital contributions, dividend payables etc.) plus noncurrent liabilities not exceeding aggregate amount of deduction (such as long-term borrowings, certain provisions etc.) plus/ minus adjustments to liabilities. Deductions from zakat base broadly comprise of fixed assets and similar items, long-term investments (*subject to conditions*) etc. The zakat base computed is subject to minimum and maximum cap as specified in the Zakat Regulations.

As per the Zakat Regulations, interest free loan receivables, subordinated/additional financing and equivalents provided to an investee who is subject to zakat are considered as a deductible in the hands of shareholders for zakat purposes.

As per the Zakat Regulations a deduction for non-trading (or long-term) investment in sukuk and bonds is allowed for investors, provided that the issuer treats such sukuk and bonds similar to share capital for zakat purposes — the issuer should not deviate from this treatment during the period of maturity of such sukuk and bonds.

Therefore, investment in the Certificates (if held for non-trading or long-term) may qualify for a deduction from the zakat base of the investor for zakat purposes if the (a) issuer is subject to zakat and (b) the issuer treats the Certificates as capital in its zakat base.

Withholding Tax (WHT)

Residents of the Kingdom and the Permanent Establishment of a non-Resident in the Kingdom are required to withhold taxes on certain payments to non-Residents of the Kingdom, including to residents of the other GCC countries, if such payment is from a source in the Kingdom. WHT rates vary from 5 per cent. to 20 per cent. depending on the nature of the underlying payment. Rental charges and loan charges (akin to interest) paid to non-residents attract a 5 per cent. WHT unless such WHT is reduced or eliminated pursuant to the terms of an applicable tax treaty for the avoidance of double taxation.

Payments of Rental and Deferred Sale Price Instalment (which are typically treated as similar to interest or Loan Charge for tax purposes as per Article 5(1) of the executive regulations of the Income Tax Law) to be made by Dar Al-Arkan to the Trustee should also generally be treated as interest payments for the Kingdom's tax purposes and attract 5 per cent. WHT. However, currently there is no tax treaty for the avoidance of double taxation between the Kingdom and the Cayman Islands.

If any WHT is required by law to be deducted or withheld in connection with any payments by Dar Al-Arkan to the Trustee in the nature of Rental and Deferred Sale Price Instalment, Dar Al-Arkan has agreed to increase the amount paid so that the full amount of such payment is received by the Trustee as if no such deduction or withholding had been made.

No WHT should arise on the payments from the Trustee to the Certificateholders on the basis that the Trustee is not a Resident, and does not have a Permanent Establishment, in the Kingdom for tax purposes.

Capital Gains Tax

According to Article 2 of the Income Tax Law, Persons Subject to Taxation include non-Residents in the Kingdom with taxable income generated from sources in the Kingdom—and without a Permanent Establishment for tax purposes in the Kingdom.

Further, Article 1(2) of the executive regulations of the Income Tax Law defined the applicable tax on such a Person being subject to the following:

- (a) WHT, if the income generated is stipulated under Article 68 of the Income Tax Law; and
- (b) capital gains tax, if the income is derived from the disposal of fixed and traded assets, or from the disposal of shares in a Resident company under the general provisions of the Income Tax Law.

Based on the above, if the sale of the Certificates by the Certificateholders is considered a source of income in the Kingdom, then the related income (or capital gain) should be subject to 20 per cent. corporate income tax in the Kingdom according to the rules for computation of capital gain tax provided in the Income Tax Law for non-Residents.

Capital gains realised from the disposal of securities (such as the Certificates) listed on Tadawul is exempt from

tax in the Kingdom if the following conditions are met:

- the disposal is carried out in accordance with the regulations of the stock market in the Kingdom or the disposal is carried out outside of the Kingdom, but such securities are also traded on Tadawul; and
- the investor did not hold the securities before the effective date of the Income Tax Law (i.e. 30 July 2004G).

The above exemption provided in the Income Tax Law is not applicable to the Certificates as the Certificates will not be listed on Tadawul and, therefore, the exemption is not considered in the below taxation summary.

Capital gains realised from the disposal of the Certificates by the Resident Certificateholders (other than Resident Certificateholders who are natural persons and such capital gains is not connected with their business activity in the Kingdom) should not be subject to capital gains tax. However, such gains should be included in the total income of such Certificateholders subject to corporate income tax or zakat in the Kingdom.

Certain Tax and Zakat Implications for Certificateholders

(a) Certificateholders That Are GCC Persons and Resident in the Kingdom

Certificateholders That Are Legal Entities Resident in the Kingdom and Wholly Owned by GCC Persons

Certificateholders that are legal entities Resident in the Kingdom and wholly owned by GCC persons are subject to zakat only, and all income in the nature of profit, Loan Charge or capital gains realised in respect of the Certificates should be part of such Certificateholder's gross income subject to zakat.

It should be noted that the above summary does not consider the extent to which such Certificateholders would be liable to zakat as a consequence of acquiring, holding or disposing of the Certificates. As noted above, under the Zakat Regulations that is in effect as of the date of this Base Prospectus in the Kingdom, investments in the Certificates (if held for non-trading or long-term) may be deductible from the zakat base of the investor for zakat purposes if (a) the issuer is subject to zakat and (b) the conditions stipulated in Ministerial Resolution No. 1007 are met.

Legal Entities Resident in the Kingdom but not Wholly Owned by GCC Persons

Certificateholders that are legal entities Resident in the Kingdom owned jointly by GCC persons and non-GCC persons are subject in the Kingdom to zakat and corporate income tax based on the percentage of shares held by GCC and non-GCC shareholders respectively on any income received in the nature of profit, Loan Charge or capital gains realised in respect of the Certificates.

Certificateholders Who Are GCC Natural Persons and Resident in the Kingdom

Certificateholders who are GCC natural persons and Resident in the Kingdom are not subject to zakat in the Kingdom as per the Zakat Regulations in respect of any income received in the nature of profit, Loan Charge or capital gains realised in respect of the Certificates unless such Certificateholder's investment in the Certificates is connected to such Certificateholder's business activity in the Kingdom. If such income is connected to such Certificateholder's business activity in the Kingdom, such amounts generally should be subject to zakat in the Kingdom.

(b) Certificateholders That Are Non-GCC Persons and Resident in the Kingdom

Certificateholders that are non-GCC persons will be subject in the Kingdom to corporate income tax. The payment in the nature of profit, Loan Charge or capital gain realised should be part of such Certificateholder's gross income subject to 20 per cent. corporate income tax on taxable profit (other than in respect of persons engaged in oil and hydrocarbon production).

Certificateholders that are Resident in the Kingdom and engaged in oil and hydrocarbon production in the Kingdom are subject to corporate income tax in the Kingdom at levels between 50 per cent. and 85 per cent. on taxable profit (depending on the level of total capital investment (as defined in the Income Tax Law) of such entity).

Certificateholders who are non-GCC natural persons and Resident in the Kingdom are not subject to income tax,

be it by way of WHT or by way of direct corporate income tax, on of any income received in the nature of profit, Loan Charge or capital gains realised in respect of the Certificates unless such Certificateholder's investment in the Certificates is connected to such Certificateholder's business activity in the Kingdom. If such income is connected to such Certificateholder's business activity in the Kingdom (including on capital gains realised from the disposal of Certificates), such amounts generally should be subject to 20 per cent. corporate income tax in the Kingdom.

(c) Certificateholders That Are Non-Resident in the Kingdom

Certificateholders, either natural persons or legal entities, that are not Resident in the Kingdom (whether such Certificateholders are GCC persons or non-GCC persons), including Certificateholders resident in the other GCC countries (other than the Kingdom), should not be subject in the Kingdom to WHT on any payment in the nature of profit or Loan Charge (other than capital gains realised from the disposal of Certificates) received by them, in respect of the Certificates.

Generally, the capital gains arising from the disposal of Certificates should be subject to 20 per cent. capital gains tax in the Kingdom provided that the resulting capital gain is considered to be a source of income in the Kingdom. Certificateholders that are not Resident in the Kingdom (whether such Certificateholders are GCC persons or non-GCC persons) with a Permanent Establishment in the Kingdom for tax purposes as defined in Article 4 of the Income Tax Law should be subject to corporate income tax on the income earned by such person having the Permanent Establishment in the Kingdom in the nature of profit, Loan Charge or capital gains realised from the disposal of Certificates if such profit, Loan Charge or capital gains realised from the disposal of such Certificates is attributable to the Permanent Establishment's activities in the Kingdom.

The income earned by the person having the Permanent Establishment in the Kingdom in the nature of profit, Loan Charge or capital gains realised from the Certificates is subject to 20 per cent. corporate income tax (provided that such income from the Certificates is attributable to the Permanent Establishment's activities in the Kingdom).

Furthermore, any transfer of the after-tax profit to the head office of the Permanent Establishment is considered to be a distribution of profit and accordingly subject to a 5 per cent. WHT in the Kingdom (unless eliminated or reduced by the applicable tax treaty for the avoidance of double taxation).

Other Taxes

Inheritance Tax

Currently there is no inheritance or other taxes of a similar nature in the Kingdom.

Residency

Certificateholders should not be deemed to be Resident, domiciled or carrying on business in the Kingdom solely by reason of holding any Certificate.

Value Added Tax (VAT)

VAT was introduced in the Kingdom with effect from 1 January 2018G. VAT in the Kingdom is generally applicable to goods and services supplied by registered taxpayers in the Kingdom.

Where a transaction is considered to be in scope for VAT, the treatment can either be exempt, zero-rated (taxable at 0 per cent.) or standard rated (taxable at 15 per cent.) depending on, but not limited to, a number of factors such as the nature of the supply being provided and the recipient's place of residence for VAT purposes. Certain financial services, including those where the consideration is margin-based (e.g. profit) are treated as exempt from a VAT perspective in the Kingdom. The exemption also applies to the issue or transfer of a debt security.

The issuance of Certificates is similar to the issuance of a debt security and is treated as exempt for VAT purposes in the Kingdom where the issuance is made by a registered taxpayer in the Kingdom.

Islamic finance products involve the transfer of underlying goods (or real estate property) which can lead to a number of transactions to be analysed for the purposes of assessing VAT in the Kingdom. With respect to the Certificates in particular, ZATCA has published guidance to clarify that as an exception to the usual rules of VAT, the requisite underlying transfers of goods (e.g. commodities) should be treated as out of scope for VAT purposes to the extent that the transfer is intended to be temporary and on the basis that it is contractually certain the assets

will be sold back. Accordingly, the goods received or supplied (and associated payments) by Certificateholders (via an agent) as part of the Certificates' structure via a *Shari'a* compliant financing arrangement, should be considered to be out of scope for VAT purposes in the Kingdom.

Further, effective 4 October 2022, the sale and transfer of real estate in the Kingdom is not subject to VAT (or exempt from VAT). However, such sale or transfer of real estate shall be subject to Real Estate Transaction Tax (RETT) at 5 per cent. subject to certain exceptions (see "*Real Estate Transaction Tax (RETT)*" below).

Profits or trading gains generated by holding Certificates should be treated as exempt for VAT in the Kingdom on the basis that the consideration is margin-based. This component may, however, be treated as zero-rated for VAT purposes (taxable at 0 per cent.) where the profits/gains are received by a registered taxpayer in the Kingdom from a person that is not resident in the Kingdom, subject to the relevant criteria being fulfilled.

The precise reporting requirements attached to the various payments and receipts associated with the aforementioned transactions will depend on the residence of the Certificateholder and whether they are a registered taxpayer for VAT purposes in the Kingdom. However, with an exception of explicit fees or charges, any gain should not carry a positive VAT charge as they should either be treated as out of scope, exempt or zero-rated for the purposes of VAT in the Kingdom.

Any other goods or services supplied or received, which are ancillary to or separate from the Certificates, may attract VAT in the Kingdom along with other reporting requirements for Certificateholders.

Real Estate Transaction Tax (RETT)

On 2 October 2020, Royal Decree No. A/ 84 dated 14/2/1442H (corresponding to 01/10/2020G) as amended by Royal Decree No. M/84 dated 19/3/1446H (22/09/2024G) published on 11 October 2024 which exempted real estate supplies that take place by way of transferring the ownership, or the right to dispose of them as an owner, from VAT. In its place, a new tax regime has been introduced to tax the real estate transactions that includes sales and the like at a rate of 5 per cent. on the value of the real estate.

On 24 March 2025, ZATCA published the new implementing regulations for Real Estate Transaction Tax (RETT Regulations), under Board Resolution No. (01-03-25).

RETT is an indirect tax imposed on every real estate property disposal transaction (unless specifically exempt). Effective 4 October 2022, the sale and transfer of real estate in the Kingdom is not subject to VAT. However, RETT will be applicable at 5 per cent. of the total sale price for each disposal separately. The seller is liable to pay RETT. However, the buyer is jointly liable if the seller fails to pay the RETT. Certain real estate transactions may be exempt under specific conditions such as the transfer of inheritance, gifts, certain financial products, sales or transfers made to government entities, etc.

There is no threshold for declaration and payment of RETT and all transactions are subject to RETT except those that are specifically exempt according to the list of exemptions specified in RETT Regulations.

It is worth noting that construction costs will remain subject to VAT at a rate of 15 per cent. In general, the input VAT paid on the construction costs of real estate (constructed for residential lease or for sale) will not be deductible as an exempt activity under the VAT Regulations. However, to support real estate developers, a refund scheme was announced pursuant to Royal Decree No. 84A and Ministerial Resolution No. 1754 dated 15/04/1442H (corresponding to 30/11/2020G) outlining the conditions for a licensed real estate developer to refund input VAT incurred in relation to real estate supplies that became exempt from VAT as of 4 October 2020.

The proposed financial transactions tax (FTT)

On 14 February 2013, the European Commission published a proposal (the **Commission's Proposal**) for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the **participating Member States**). However, Estonia has since stated that it will not participate.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in Certificates (including secondary market transactions) in certain circumstances. Primary market transactions referred to in Article 5(c) of Regulation (EC) No 1287/2006 are expected to be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in Certificates where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate.

Prospective holders of Certificates are advised to seek their own professional advice in relation to the FTT.

Foreign Account Tax Compliance Act

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as **FATCA**, a **foreign financial institution** (as defined by FATCA) may be required to withhold on certain payments it makes (foreign passthru payments) to persons that fail to meet certain certification, reporting or related requirements. The Trustee may be a foreign financial institution for these purposes. A number of jurisdictions (including the Cayman Islands) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA (**IGAs**), which modify the way in which FATCA applies in their jurisdictions. Under the

provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as Certificates, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as Certificates, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as Certificates, such withholding would not apply prior to the date that is two years after the date on which final regulations defining foreign passthru payments are published in the U.S. Federal Register and Certificates characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or prior to the date that is six months after the date on which final regulations defining foreign passthru payments are published generally would be grandfathered for purposes of FATCA withholding unless materially modified after such date. Holders should consult their own tax advisers regarding how these rules may apply to their investment in Certificates.

SUBSCRIPTION AND SALE

The Dealers have, in an amended and restated programme agreement (the **Programme Agreement**) dated 11 June 2025, agreed with the Trustee and Dar Al-Arkan a basis upon which they or any of them may from time to time agree to purchase Certificates. Any such agreement will extend to those matters stated under "*Terms and Conditions of the Certificates*". In the Programme Agreement, each of the Trustee and Dar Al-Arkan has agreed to reimburse the Dealers for certain of their expenses in connection with the establishment and any future update of the Programme and the issue, offer and sale of Certificates under the Programme. The Programme Agreement provides that the obligation of any Dealer to subscribe for Certificates under any such agreement is subject to certain conditions and that, in certain circumstances, a Dealer shall be entitled to be released and discharged from its obligations under any such agreement prior to the issue of the relevant Certificates. Investors will have no rights against the Trustee, Dar Al-Arkan or the Dealers in respect of any expense incurred or loss suffered in these circumstances.

SELLING RESTRICTIONS

United States

The Certificates have not been and will not be registered under the Securities Act or with any securities regulatory authority of any state or other jurisdiction in the United States and may not be offered, sold or delivered within the United States or to, or for the account or benefit of, any U.S. person (as defined in Regulation S) except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act.

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it will not offer, sell or deliver Certificates (a) as part of their distribution at any time or (b) otherwise until 40 days after the completion of the distribution of all Certificates of the Series of which such Certificates are a part, within the United States or to, or for the account or benefit of, U.S. persons except in accordance with an applicable exemption from the registration requirements of the Securities Act. Each Dealer has further agreed, and each further Dealer appointed under the Programme will be required to agree, that it will send to each dealer to which it sells any Certificates during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Certificates within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Until 40 days after the commencement of the offering of any Series of Certificates, an offer or sale of such Certificates within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

Public Offer Selling Restriction under the Prospectus Regulation

In relation to each Member State of the EEA, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not made and will not make an offer of Certificates which are the subject of the offering contemplated by this Base Prospectus as completed by the applicable Final Terms in relation thereto to the public in that Member State, except that it may make an offer of such Certificates to the public in that Member State:

provided that no such offer of Certificates referred to above shall require the Trustee, Dar Al-Arkan or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

For the purposes of this provision:

- (a) the expression an **offer of Certificates to the public** in relation to any Certificates in any Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Certificates to be offered so as to enable an investor to decide to purchase or subscribe for Certificates; and

- (a) at any time to any legal entity which is a qualified investor as defined in Article 2 of the UK Prospectus Regulation;
- (b) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in Article 2 of the UK Prospectus Regulation) in the UK subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Trustee and Dar Al-Arkan for any such offer; or
- (c) at any time in any other circumstances falling within section 86 of the FSMA,

provided that no such offer of Certificates referred to above shall require the Trustee, Dar Al-Arkan or any Dealer to publish a prospectus pursuant to section 85 of the FSMA or supplement a prospectus pursuant to Article 23 of the UK Prospectus Regulation.

For the purposes of this provision:

- the expression an **offer of Certificates to the public** in relation to any Certificates means the communication in any form and by any means of sufficient information on the terms of the offer and the Certificates to be offered so as to enable an investor to decide to purchase or subscribe for the Certificates; and

Japan

The Certificates have not been and will not be registered under the Financial Instruments and Exchange Act of Japan (Act No. 25 of 1948, as amended; the **FIEA**). Accordingly, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it will not offer or sell any Certificates, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (as defined under Item 5, Paragraph 1, Article 6 of the Foreign Exchange and Foreign Trade Act (Act No. 228 of 1949, as amended)), or to others for re-offering or resale, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the FIEA and any other applicable laws, regulations and ministerial guidelines of Japan.

Kingdom of Saudi Arabia

No action has been or will be taken in the Kingdom of Saudi Arabia that would permit a public offering of the Certificates. Any investor in the Kingdom of Saudi Arabia or who is a Saudi person (a **Saudi Investor**) who acquires any Certificates pursuant to an offering should note that the offer of Certificates is a private placement under the "Rules on the Offer of Securities and Continuing Obligations" as issued by the Board of the Capital Market Authority pursuant to resolution number 3-123-2017 dated 27 December 2017, as amended (the **KSA Regulations**), made through a capital market institution licensed by the Capital Market Authority, in each case, in accordance with the KSA Regulations.

The Certificates may thus not be advertised, offered or sold to any person in the Kingdom of Saudi Arabia other than to "institutional and qualified clients" under Article 8(a)(1) of the KSA Regulations or by way of a limited offer under Article 9, or otherwise required or permitted by the KSA Regulations. Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that any offer of Certificates made by it to a Saudi Investor will be made in compliance with Article 10 and either Article 8(a)(1) or Article 9 of the KSA Regulations.

With respect to the Interim Financial Statements, LYCA has reported that they have applied limited procedures in accordance with International Standard on Review Engagements 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity' that is endorsed in the Kingdom. Dealers transacting with Dar Al-Arkan

Certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for, Dar Al-Arkan (and its affiliates) in the ordinary course of business for which they have received, and for which they may in the future receive, fees.

In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade securities (or related hedging instruments) and financial instruments (including bank financings) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of Dar Al-Arkan or Dar Al-Arkan's affiliates. Certain of the Dealers or their affiliates that have a lending relationship with Dar Al-Arkan routinely hedge their credit exposure to Dar Al-Arkan consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of hedging instruments or the creation of trading positions in securities, including potentially the Certificates issued under the Programme. Any such trading positions could adversely affect future trading prices of Certificates issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial

instruments and may hold, or recommend to clients that they acquire, trading positions in such securities and instruments.

The Trustee shall act as a data controller in respect of this personal data and its affiliates and/or delegates, such as the Trustee Administrator, may act as data processors (or data controllers in their own right in some circumstances).

For further information on the application of the DPA to the Trustee, please refer to the Privacy Notice (a copy of which may be requested from the Trustee Administrator by email at dubai@maples.com), which provides an outline of investors' data protection rights and obligations as they relate to the investment in the Certificates.

Oversight of the DPA is the responsibility of the Ombudsman's office of the Cayman Islands. Breach of the DPA by the Trustee could lead to enforcement action by the Ombudsman, including the imposition of remediation orders, monetary penalties or referral for criminal prosecution.
