Review Report on Condensed Separate Interim Financial Statements

To: The Board of Directors of Commercial International Bank – Egypt – CIB S.A.E

Introduction

We have reviewed the accompanying condensed separate interim financial position of Commercial International Bank – Egypt - CIB S.A.E as of 30 September 2026 and the related condensed separate interim statements of income, comprehensive income, cash flows and changes in shareholders' equity for the nine-months period then ended. Management is responsible for the preparation and fair presentation of these condensed separate interim financial statements in accordance with the rules of preparation and presentation of the banks' financial statements and the basis of recognition and measurement approved by the Central Bank of Egypt board of directors on 16 December 2008 as amended by regulations issued on 26 February 2019 and Central Bank of Egypt board of directors' resolution on 3 May 2020 regarding issuing condensed interim financial statements for banks and with the requirements of applicable Egyptian laws and regulations, our responsibility is to express a conclusion on these condensed separate interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with Egyptian Standard on review engagements (2410). "Review of interim financial statements performed by the Independent Auditor of the Entity". A review of condensed separate interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters in the bank, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Egyptian Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on these condensed separate interim financial statements.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed separate interim financial statements are not prepared in all material respects in accordance with the rules of preparation and presentation of the banks' financial statements and the basis of recognition and measurement approved by the Central Bank of Egypt board of directors on 16 December 2008 as amended by regulations issued on 26 February 2019 and Central Bank of Egypt board of directors' resolution on 3 May 2020 regarding issuing condensed interim financial statements for banks and with the requirements of applicable Egyptian laws and regulations.

Notes to the condensed separate interim financial statement for the period ended September 30, 2026

1. General information

Commercial International Bank-Egypt (CIB) S.A.E. provides retail, corporate and investment services in various parts of Egypt through 215 branches, and 11 units employing 8,909 employees on the statement of financial position date.

Commercial International Bank-Egypt (CIB) S.A.E. was formed as a commercial bank under the investment law no. 43 of 1974 amended by law no. 32/1977 and its amendments The address of its registered head office is as follows: Nile tower, 21/23 Charles de Gaulle Street-Giza. The Bank is listed in the Egyptian stock exchange.

The financial statements have been approved by the board of directors on the 9th of November, 2026.

2. Summary of accounting policies

The significant accounting policies applied in the preparation of these financial statements are provided below. These policies have been consistently applied to all years presented, unless otherwise stated.

2.1. Basis of preparation

The financial statements have been prepared in accordance with the Central Bank of Egypt regulations approved by the Board of Directors on December 16, 2008.

In accordance to the instructions for applying the International Standard for Financial Reports (9) issued by the Central Bank of Egypt on February 26, 2019, the bank issued condensed financial statements complying with the Central Bank of Egypt instructions issued on May 3, 2020, which allow banks to issue condensed quarterly financial statements. Reference is made to what was not mentioned in the instructions of the Central Bank of Egypt to the Egyptian Accounting Standards.

The separate and consolidated financial statements of the Bank and its subsidiaries have been prepared in accordance with the Central Bank of Egypt regulations approved by the Board of Directors on December 16, 2008, also according to the instructions for applying the International Standard for Financial Reports (9) issued by the Central Bank of Egypt on February 26, 2019, references are provided to unmentioned instructions from the Central Bank of Egypt to the Egyptian Accounting Standards, the affiliated companies are entirely included in the consolidated financial statements and these companies are the companies that the Bank - directly or indirectly – has more than half of the voting rights or has the ability to control the financial and operating policies, regardless of the type of activity, the Bank’s consolidated financial statements can be obtained from the Bank's management. The Bank accounts for investments in subsidiaries and associate companies in the separate financial statements at cost minus impairment loss.

The separate financial statements of the Bank should be read with its consolidated financial statements, for the period ended on September 30, 2026 to get complete information on the Bank’s financial position, results of operations, cash flows and changes in ownership rights.

These condensed separate interim financial statements do not include all the information and disclosures required for full annual separate financial statements prepared in accordance with CBE rules mentioned above and should be read in conjunction with the Bank’s financial statements for and at the year ended 31 December 2025.

In preparing the condensed separate interim financial statements, significant judgments were made by the management in applying the Bank’s accounting policies and the key sources of estimation were the same as those that were applied to the separate financial statements for and at the year ended 31 December 2025.

3. Loans and advances

Loans and advances balances are summarized as follows:

	Sep.30, 2026		Dec.31, 2025	
	Loans and advances to customers	Loans and advances to banks	Loans and advances to customers	Loans and advances to banks
Gross Loans and advances	**653,526,266**	**51,591,038**	**541,406,131**	**34,781,349**
Less:				
ECL	**35,373,267**	**144,222**	34,426,319	86,475

3.1. Restructured loans and advances

Restructuring activities include rescheduling arrangements, applying obligatory management programs, modifying and deferral of payments. The application of restructuring policies is based on indicators or criteria of credit performance of the borrower that is based on the judgment of the management, which indicate that payment will most likely continue. Restructuring is commonly applied to term loans, especially customer loans. Renegotiated loans totaled at the end of the period / year are as follows:

	Sep.30, 2026	Dec.31, 2025
Corporate		
- Loans and advances to customers	**25,062,419**	24,869,201
Total	**25,062,419**	**24,869,201**

4. Debt instruments, treasury bills and other governmental notes:

The following tables provide analysis of financial investment balances by rating agencies at the end of the period:

5. Financial risks

5.1. Foreign exchange risk

The Bank's financial position and cash flows are exposed to fluctuations in foreign currency exchange rates. The Board sets limits on the level of exposure by currency and in aggregate, which are monitored daily. The table below summarizes the Bank's exposure to foreign exchange rate risk and financial instruments at carrying amounts, categorized by currency.

						Equivalent in EGP

5.2. Interest rate risk

The Bank addresses exposure to the effects of fluctuations in the prevailing levels of market interest rates that arises from the re-pricing maturity structure of interest-sensitive assets and liabilities. It is assessed for both the earnings and economic value perspectives. The Board sets limits on the interest rate repricing gaps that may be undertaken, which is monitored by the bank's Risk Management Department.

5.3. Liquidity risk

Liquidity risk specifies the Bank's inability to replace withdrawn funds and meet consequential payment obligations due to the fall of financial liabilities.
The consequences may be the failure to meet obligations to repay depositors and fulfill commitments to lend.

Liquidity Risk Management Organization and Measurement Tools

Liquidity Risk is governed by Asset and Liability Committee (ALCO) and Board Risk Committee (BRC) subject to provisions of Treasury Policy (TP).

Board Risk Committee (BRC): Provides oversight of risk management functions and assesses compliance to the set risk strategies and policies approved by the Board of Directors (BoD) through periodic reports submitted by the Risk Group. The committee makes recommendations to the BoD with regards to risk management strategies and policies (including those related to capital adequacy, liquidity management, various types of risks: credit, market, operation, compliance, reputation and any other risks the Bank may be exposed to).

Asset & Liability Committee (ALCO): Optimizes the allocation of assets and liabilities, taking into consideration expectations of the potential impact of future interest rate fluctuations, liquidity constraints, and foreign exchange exposures. ALCO monitors the Bank's liquidity and market risks, economic developments, market fluctuations, and risk profile to ensure ongoing activities are compatible with the risk/ reward guidelines approved by the BOD.

Treasury Policy (TP): The purpose of the TP is to document and communicate the policies that govern the activities performed by the Treasury Group and monitored by the Risk Group.

The main measures and monitoring tools used to assess the Bank's liquidity risk includes regulatory and internal ratios, gaps, Basel III liquidity ratios, asset and liability gapping mismatch, stress testing, and funding base concentration. More conservative internal targets and Risk Appetite indicators (RAI) against regulatory requirements are set for various measures of Liquidity and Funding Concentration Risks. At the end of period, the Basel III Liquidity Coverage Ratio (LCR) and Net Stable Funding Ratio (NSFR) maintained strong and well above regulatory requirements.

The Bank maintained a solid LCY & FCY Liquidity position with decent buffers to meet both the global and local increase in risk profile. CIB will continue with its robust Liability strategy with reliance on customer deposits (stable funding) as the main contributor of total liabilities, and low dependency on the Wholesale Funding. CIB has ample levels of High-Quality Liquid Assets (HQLA) based on its LCY & FCY Sovereign Portfolio investments, which positively reflects the Bank's solid Liquidity Ratios and Basel III LCR & NSFR ratios, with a large buffer maintained above the Regulatory ratios' requirements.

Liquidity Management

The Bank's approach is to maintain a prudent Liquidity position with a Liability driven strategy, as almost the entire funding base is customer based stable deposits rather than wholesale funding; which is a core component of the risk appetite. This is coupled with ample amounts of Liquid Assets. To limit potential Liquidity shocks, the Bank has a well-established Contingency Funding Plan (CFP), where Liquidity Risk is assessed in line with all Regulatory and Internal Liquidity Measurements, and Basel II and III requirements; including Liquidity Stress Testing; and Basel III Ratios; Net Stable Funding Ratio (NSFR) and Liquidity Coverage Ratio (LCR).

6. Capital Adequacy Ratio, Leverage Ratio, NSFR and LCR

For September 2026 NSFR ratio record 187% (LCY 197% and FCY 168%), and LCR ratio record 950% (LCY 940% and FCY 534%).
For December 2025 NSFR ratio record 186% (LCY 186% and FCY 186%), and LCR ratio record 555% (LCY 549% and FCY 567%).
For September 2026 CAR ratio recorded 28.8%, and 27.3% for December 2025.
For September 2026 Leverage ratio recorded 11.7%, and 11.3% for December 2025.

7. Financial instruments not measured at fair value

The table below summarizes the book value and fair value of the financial assets and liabilities not presented on the Bank's financial position at their fair value.

	Book value		Fair value

Fair values of financial instruments

Quantitative disclosures fair value measurement hierarchy for assets as at 30 September 2026:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities that the bank can access at the measurement date.

Level 2 - Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 - Unobservable inputs for the asset or liability.

The following table provides the fair value measurement hierarchy of the assets and liabilities according to EAS.

Provision for other claim**	**3,064,010**	**(107,049)**	**3,372**	**(1,204,893)**	**1,755,440**
Total	**15,632,737**	**703,491**	**480,283**	**(1,205,347)**	**15,611,164**

	Dec.31, 2025				
	Beginning balance	Net charged / released during the year	Exchange revaluation difference	Net utilized / recovered during the year	Ending balance
Provision for legal claims*	119,348	(97,965)	(1,916)	(326)	**19,141**
Provision for contingent	15,597,361	(2,986,170)	(61,605)	-	**12,549,586**
Provision for other claim**	2,896,351	192,002	(17,202)	(7,141)	**3,064,010**
Total	**18,613,060**	**(2,892,133)**	**(80,723)**	**(7,467)**	**15,632,737**

* There is a number of existing filed cases against the bank as of September 30, 2026 for which no provisions were made, since there is no expected possibility to incur losses.

** Provisions created for potential risk of banking operations.

28 . Share-based payments

According to the extraordinary general assembly meeting on June 26, 2006, the Bank launched new Employees Share Ownership Plan (ESOP) scheme and issued equity-settled share-based payments. Eligible employees must complete a term of 3 years of service in the bank to have the right in ordinary shares at face value (right to share) that will be issued on the vesting date. Equity-settled share-based payments are measured at fair value at the grant date, and expensed on a straight-line basis over the vesting year (3 years) with corresponding increase in equity based on estimated number of shares that will eventually vest. The fair value for such equity instruments is measured using the Black-Scholes pricing model.

Details of the rights to share outstanding during the period / year are as follows:

	Sep.30, 2026 No. of shares in thousand	Dec.31, 2025 No. of shares in thousand
Outstanding at the beginning of the period / year	**78,658**	75,874
Granted during the period / year	**25,571**	33,469
Forfeited during the period / year	**(1,708)**	(2,992)
Exercised during the period / year	**(27,203)**	(27,693)
Outstanding at the end of the period / year	**75,318**	**78,658**

Details of the outstanding tranches are as follows:

Maturity date	EGP Exercise price	EGP Fair value	No. of shares in thousand
2027	**10**	**60.14**	**22,450**
2028	**10**	**60.44**	**27,297**
2029	**10**	**81.18**	**25,571**
Total			**75,318**

The fair value of granted shares is calculated using Black-Scholes pricing model with the following:

	20th tranche	19th tranche
Exercise price	**10**	**10**
Current share price	**103.0**	**78.5**
Expected life (years)	**3**	**3**
Risk free rate %	**21.14%**	**23.98%**
Dividend yield %	**5.80%**	**3.20%**
Volatility %	**37.39%**	**38.28%**

Volatility is calculated based on the standard deviation of returns for the last five years.

29 . Legal claims

- There is a number of existing cases against the bank on September 30, 2026 for which no provisions are made as the bank doesn't expect to incur losses from it.
- A provision for legal cases that are expected to incur losses has been created (Disclosure number 27)

30 . Transactions with related parties

All banking transactions with related parties are conducted in accordance with the normal banking practices and regulations applied to all other customers without any discrimination.

30.1 . Loans, advances, deposits and contingent liabilities

33 . Important events

- During the year, the Monetary Policy Committee (MPC) of the Central Bank of Egypt (CBE) decided to cut key policy rates by 100 basis points, accordingly, the overnight deposit rate, overnight lending rate, and the rate of the main operation were reduced to 19.0 percent, 20.0 percent, and 19.5 percent, respectively. The discount rate was also cut to 19.5 percent, which may affect the bank's policies in pricing current and future banking products.
  In addition, the CBE Board of Directors reduced the required reserve ratio (RRR) for commercial banks from 18 percent to 16 percent.
- During the year, the bank increased the capital of Commercial International Finance Company (CIFC) by EGP 100 million following the receipt of the necessary internal and regulatory approvals.
- On June 16, 2026, issued and Paid in Capital increased by an amount of EGP 272,030 thousand to reach EGP 34,051,391 thousand, according to Ordinary General Assembly Meeting decision on March 15, 2026, by issuance of 17th tranche for E.S.O.P program.
- During the third quarter, the Bank obtained the preliminary approval of the Central Bank of Egypt to undertake the necessary procedures for establishing a digital bank in the Arab Republic of Egypt through YOMO Holding Limited, United Arab Emirates - Abu Dhabi, in accordance with the regulatory framework governing digital banks in Egypt. The Bank is currently in the process of completing all required procedures and regulatory requirements for the establishment of the digital bank and obtaining the related final approvals. CIB paid an amount of USD 162 million as an investment in subsidiary YOMO Holding Abu Dhabi whereas the estimated investment cost of the company amounts to approximately USD 300 million.

34 . Subsequent events

- In October 2026, Commercial International Bank (Egypt) S.A.E. (CIB) invested in the shares of MNT-Halan Financial Investments S.A.E. (“MNT-Halan”) by participating as a main investor in the company’s initial public offering (IPO) on the Egyptian Exchange (EGX), with an investment amount of EGP 1.9 billion, in accordance with the terms and conditions stipulated in the investment agreement executed with the company prior to the offering, as disclosed in MNT-Halan’s published offering documents.
- In October 2026, the bank increased the capital of Commercial International Finance Company (CIFC) by EGP 700 million following the receipt of the necessary internal and regulatory approvals.
- On the 29th of October 2026, the Monetary Policy Committee (MPC) of the Central Bank of Egypt (CBE) decided to raise the CBE's overnight deposit rate, overnight lending rate, and the rate of the main operation by 100 basis points to 20 percent, 21 percent, and 20.50 percent, respectively. The Committee also decided to raise the discount rate by 100 basis points to 20.50 percent, which may affect the bank's policies in pricing current and future banking products.
