

PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (EEA). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, MiFID II); or (ii) a customer within the meaning of Directive 2016/97(EU), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (as amended, the Prospectus Regulation). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the PRIIPs Regulation) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been or will be prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

MIFID II PRODUCT GOVERNANCE / RETAIL INVESTORS, PROFESSIONAL INVESTORS AND ELIGIBLE COUNTERPARTIES TARGET MARKET – Solely for the purposes of the manufacturer’s product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties, professional clients and retail clients, each as defined in MiFID II; (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate - investment advice and portfolio management, subject to the distributor’s suitability and appropriateness obligations under MiFID II, as applicable. Any person subsequently offering, selling or recommending the Notes (a “distributor”) should take into consideration the manufacturer’s target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer’s target market assessment) and determining appropriate distribution channels, subject to the distributor’s suitability and appropriateness obligations under MiFID II, as applicable.

UK MIFIR PRODUCT GOVERNANCE /RETAIL INVESTORS, PROFESSIONAL INVESTORS AND ELIGIBLE COUNTERPARTIES ONLY TARGET MARKET – Solely for the purposes of the manufacturer’s product approval process, the target market assessment in respect of the Notes, has led to the conclusion that: (i) the target market for the Notes is retail clients, as defined in point 8 of article 2 of Regulation (EU) No 2017/565 as it forms part of the domestic law of the United Kingdom by virtue of the European Union (Withdrawal) Act 2018 (EUWA), and eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook (“COBS”), and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of the domestic law of the United Kingdom by virtue of the European Union (Withdrawal) Act 2018 (“UK MiFIR”); (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate - investment advice and portfolio management, subject to the distributor's suitability and appropriateness obligations under COBS, as applicable. The product is incompatible for any client outside the positive target market and/or sales contemplated outside of the channels for distribution of the Notes as identified above. Any person subsequently offering, selling or recommending the Notes (a distributor) should take into consideration the manufacturer's target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the UK MiFIR Product Governance Rules) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under COBS, as applicable.

Interest and Redemption –

Interest and redemption amounts are determined in accordance with the following formula: **Reverse**

The Reverse may pay a conditional or guaranteed interest amount on each Payment Date. If applicable, Noteholders may benefit from the Memory Effect, which triggers payment of any previously unpaid interest amounts. In cases where Performance of the Selection is negative and below a certain barrier level, the Notes may be redeemed below par.

On each Valuation Date indexed “t”, an interest amount, paid on the Payment Date indexed “t”, is calculated in accordance with the following formula:

$$\text{Coupon}(t) = \text{Calculation Amount} \times [\text{MinCoupon}(t) + (\text{Coupon}(t) - \text{MemoryCoupon}(t)) \times \text{UpsideCondition}(t)]$$

The value of each Condition is determined as follows:

$$\begin{aligned} \text{UpsideCondition} &= 1 \text{ if } \text{BasketPerf}_1(t) \geq H(t) \\ &= 0 \text{ if not} \end{aligned}$$

Calculation Amount means GBP 1.00. **Coupon (t)** = 0.0000% for all Valuation Dates. **MinCoupon (t)** = 0.4375% for all Valuation Dates. **H (t)** is Not Applicable for all Valuation Dates.

“**LocalBasketPerf(t)**” is calculated on the Valuation Date “t” in accordance with the **Weighted** formula. **Weighted** formula means the weighted average of the individual performances of each Underlying in the Selection, as calculated by the Calculation Agent in accordance with the following formula:

$$\text{LocalBasketPerf}(t) = \sum_{i=1}^m \omega^i \times \text{IndivPerf}(i, t)$$

where: “ ω^i ” means the weighting of the Underlying “i” as specified in the table “Selection” below.

“**m**” means the number of the Underlyings in the Selection.

In the **Weighted** formula, **IndivPerf (i,t)** is, for each Valuation Date “t” and each Underlying indexed “i”, “i” ranging from 1 to 1, a term calculated in accordance with the **European Individual Performance formula**.

$$\text{IndivPerf}(i,t) = \frac{\text{Price}(i,t)}{\text{Reference Price}(i)}$$

Where:

Price(i, t) means, for the Valuation Date “t” the Price of the Underlying indexed “i”. **Price** means the level of the Underlying indexed “i” as determined by the Calculation Agent as of the scheduled closing time on the relevant exchange.

Reference Price (i) means for the Underlying indexed “i”, the level of such Underlying indexed “i”, as determined by the Calculation Agent as of the scheduled closing time on 23 January 2026.

The Final Redemption Amount per Calculation Amount is determined by the Calculation Agent in accordance with the following formula:

$$\text{Calculation Amount} \times (100\% - \text{Vanilla} \times \text{DownsideCondition})$$

Where:

$$\text{Vanilla} = G \times \text{Min}(\text{Cap}, \text{Max}((K - \text{BasketPerf}_2(T)), \text{Floor}))$$

DownsideCondition = 1 if BasketPerf₃ (T) < B

= 0 if not

Calculation Amount means GBP 1.00. **G** = means 100.0000%. **Cap** is Not Applicable. **Floor** = means 0.0000%. **K** = means 100.0000%. **B** = 65.0000%.

Most material risk factors pertaining to the Guarantor

The key risks in relation to NATIXIS' structure and operations are set out below:

1. NATIXIS is exposed to the credit and counterparty risks in its activities. Should one or more of its counterparties fail to honor their contractual obligations, NATIXIS could suffer varying degrees of financial loss depending on the concentration of its exposure to said counterparties;
2. A deterioration in the financial markets could adversely affect NATIXIS' capital markets and asset management activities. In recent years, the financial markets have experienced periods of significant volatility which, if repeated, could result in losses for NATIXIS in its capital market activities and adversely impact NATIXIS' asset management activities;
3. Should NATIXIS fail to comply with applicable laws and regulations, NATIXIS could be exposed to significant fines and other judicial, administrative, arbitral and disciplinary (including criminal) sanctions that could have a material adverse impact on its financial position, business and reputation; and
4. NATIXIS is exposed to risks related to the economic conditions in which it operates. Its asset & wealth management and corporate & investment banking businesses are sensitive to changes in the financial markets and, in general, to economic conditions in France, Europe and worldwide. Adverse market or economic conditions could adversely impact NATIXIS' profitability and financial position.

What are the key risks that are specific to the Notes?

The key risks that are significant for the assessment of the Notes are set out below:

General risk factors

Risk of volatility of the Notes: Noteholders face a risk of volatility, which refers to the risk of changes in the sale price of the Note, as well as any difference between the valuation level and the sale price of the Notes. Events in France, Europe or elsewhere could cause volatility in the secondary market of the Notes, which could result in a negative impact on the trading or sale price of the Notes.

Risk relating to the NATIXIS Guarantee (which includes reference to resolution or insolvency risk of the Guarantor): Should NATIXIS (as Guarantor) undergo resolution proceedings pursuant to European regulation and French transposition rules establishing a framework for the recovery and resolution of credit institutions and investment firms, it may not be able to fulfil all or part of its payment obligations under the Guarantee, if it was triggered, and the Noteholders could thus lose all or part of their initial investment.

Risk of early redemption in the event of illegality, changes in taxation, force majeure: In the event of an early redemption of the Notes in the event of illegality or changes in rules on withholding taxes or if the performance of the Issuer's obligations under the Notes is impossible or insurmountable due to the occurrence of force majeure event, the Noteholders will receive an amount equal to the fair market value of the Notes. The fair market value of the Notes payable upon early redemption may be lower than the amount that Noteholders initially anticipated.

Risk of loss of capital for Notes whose redemption amount is determined by reference to a calculation formula and/or linked to an underlying asset: The amounts payable by the Issuer are linked to or make reference to changes in one underlying asset (the "Underlying"). Such amounts may be determined by the application of a calculation formula and one or more observations or the occurrence of certain events in relation to the Underlying. If there is an adverse change in the price, value or level of the Underlying, exacerbated, if relevant, by the terms of the formula or indexation provisions, Noteholders may suffer a significantly decreased redemption amount on the Notes or even a total loss of their investment.

Risk of low or no returns: The amounts of interest payable by the Issuer are linked to or make reference to changes in one Underlying. Such amounts may be determined by the application of a calculation formula and one or more observations or the occurrence of certain events in relation with the Underlying. If there is an adverse change in the price, value or level of the

Underlying, exacerbated, if relevant, by the terms of the formula or indexation provisions, Noteholders may suffer a significantly decreased rate of return on the Notes or even no return whatsoever.

Underlying dedicated risk factors

Risks relating to the occurrence of an Administrator/Benchmark Event: There is a risk that, upon the determination by the Calculation Agent, an event with respect to the Underlying as a benchmark or the administrator of such benchmark occurs with the effect that certain fallbacks provisions shall apply (an **Administrator/Benchmark Event**). Any adjustment decided by the Calculation Agent further to the occurrence of an Administrator/Benchmark Event may not be effective in reducing or eliminating the loss of investors resulting from the replacement of the Underlying and could affect the performance of the Notes. Investors should also note that no consent from Noteholders shall be required before the application of any adjustment. If, consequently to the occurrence of an Administrator/Benchmark Event, the Notes are early redeemed at their fair market value, the interest amounts and/or redemption amounts due in respect of the Notes may be less than the amount initially set out in the Final Terms. The above described elements may affect the Issuer's ability to perform its obligations under the Notes and/or may have a negative impact on the value or liquidity of the Notes.

Risks associated with Notes whose interest amounts and/or redemption amounts are linked to or make reference to an Underlying index: The determination of the interest amounts and/or redemption amounts due in respect of the Notes requires observation of the Underlying's value(s). Certain events may affect the administrator of the Underlying or the Underlying, such as modification of the Underlying formula, cancellation of the Underlying or failure to calculate and announce the Underlying. In these cases, the Calculation Agent may, at its discretion, either (i) calculate the level of the Underlying in accordance with the formula for and method of calculating the Underlying last in effect prior to such event, (ii) replace the Underlying, or (iii) require the Issuer to redeem the Notes at the early redemption amount equal to the fair market value as determined by and at the sole discretion of the Calculation Agent. The adjustment of the terms of the Notes or the replacement of the Underlying may affect the Issuer's ability to perform its obligations of the Notes and/ or may have a negative impact on the value and the interest amounts and/or redemption amounts or liquidity of the Notes. Moreover, the fair market value calculated in case of early redemption may be less than the redemption amount initially set out in the terms of the Notes and consequently investors may lose all or some of their investment.

Risk relating to change in law or the inability to hold hedging position and/or increased cost of hedging: The Issuer enters into hedging agreements to cover the risks related to such Notes and in particular changes in the value of the relevant Underlying(s). In the event of a change in law or a hedging disruption, it may become unlawful or impracticable for the Issuer to hold, acquire, sell or unwind such hedging agreements. In these cases, the Issuer may elect to (i) request the Calculation Agent to adjust the terms of redemption and payment of, or (ii) redeem all (but not some only) of the Notes at the early redemption amount equal to the fair market value as determined by and at the sole discretion of the Calculation Agent. The adjustment of the terms of the Notes may have a material impact on the interest amounts and/or redemption amounts due in respect of the Note and on the value of the Notes. Moreover, such fair market value may be less than the redemption amount initially set out in the terms of the Notes and consequently investors may lose all or some of their investment.

Risks relating to inability to observe the price, value or level of the Underlying(s) in the event of market disruption: Determination of the interest amounts and/or redemption amounts due in respect of the Notes requires observation of the level of the Underlying(s) in the relevant market(s) or from a particular source of information. Market disruption events related to these markets may occur and prevent the Calculation Agent from making such determinations. In such cases, the Calculation Agent shall defer the observation of the level of the Underlying(s). If the market disruption event continues, the Calculation Agent shall determine in good faith the level of the affected Underlying(s) which could have a material impact on the interest amounts and/or redemption amounts due in respect of the Note and on the value of the Notes. The deferral of the observation of the level of the Underlying(s) affected or the disregarding of the day on which a market disruption event occurred may reduce some or all of amounts due in respect of the Notes and the market value of the Notes.

Risk relating to the discretionary power of the Calculation Agent: The Calculation Agent has the discretionary power to make the calculations, observations and adjustments set out in the terms and conditions of the Notes and the interest amounts and/or redemption amounts determined or calculations made by the Calculation Agent may affect the value and any payment to be made under Notes in a way that is unfavorable to investors. The decisions of the Calculation Agent may also result in an early redemption of the Notes.

Most material conflicts of interest pertaining to the offer or the admission to trading of the Notes

The dealer and its affiliates may also have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and the Guarantor and their respective affiliates in the ordinary course of business.

Various entities within the BPCE group (including the Issuer and the Guarantor) and affiliates undertake different roles in connection with the Notes, including Issuer of the Notes and may also engage in trading activities (including hedging activities) relating to the Underlying and other instruments or derivative products based on or relating to the Underlying which may give rise to potential conflicts of interest.

NATIXIS, which acts as arranger, permanent dealer and Calculation Agent is an affiliate of the Issuer and the same legal entity as the Guarantor and potential conflicts of interest may exist between it and Noteholders, including with respect to certain determinations and judgments that the Calculation Agent must make that may influence the amounts payable under the Notes. The economic interests of the Issuer and of NATIXIS as arranger and permanent dealer are potentially adverse to a Noteholder's interests as an investor in the Notes.

Other than as mentioned above, and save for the commission payable to the distributor in connection with the offer, so far as the Issuer is aware, no person involved in the issue of the Notes has an interest material to the offer, including conflicting interests. The commission is calculated by taking the annual percentage fee of up to 0.16% (all taxes included) of the Specified Denomination per Note and multiplying it by the term (in years) of the Note. The commission is paid on the Issue Date.
