

NB Distressed Debt Investment Fund Limited – Global Shares (“NBDG”)

NBDG FUND OBJECTIVE

NB Distressed Debt Investment Fund Limited’s (“NBDDIF”) primary objective is to provide investors with attractive risk-adjusted returns through long-biased, opportunistic stressed, distressed and special situation credit-related investments while seeking to limit downside risk.

NBDDIF’s holdings are diversified across distressed, stressed and special situations investments, with a focus on senior debt backed by hard assets. The portfolio is managed by the Distressed Debt team at Neuberger Berman, which sits within what we believe is one of the largest and most experienced non-investment grade credit teams in the industry.

The New Global Share Class (“NBDG”) was created in March 2014 in order to capture the growing opportunity in distressed debt globally. NBDG’s investment period ended on 31 March 2017, following which the harvest period commenced. No shares were repurchased during the quarter – inception to date, distributions stand at £65.3 million or 59% of original capital (income by way of dividend, capital by way of redemption and share buy-backs), since the realisation phase for this share class began.

The New Global Share Class is one of three classes of shares in NBDDIF. The others are the Ordinary Share Class and the Extended Life Share Class. The Ordinary Share Class was subject to an investment period which ended on 10 June 2013 and the Extended Life Share Class was subject to an investment period which ended on 31 March 2015. Separate factsheets are produced for those share classes.

NAV BRIDGE: 30 SEPTEMBER – 31 DECEMBER 2022

Source: Neuberger Berman

Beginning NAV and Closing NAV are based on published NAVs for NBDG and not on a per share basis.

FX Changes due to share class's exposure to foreign currencies. As detailed in its prospectus, the share class generally does not intend to hedge the currency exposure between Sterling (the currency in which shares are denominated) and the currency of the investments made by the share class.

Return of Capital includes distributions and buy backs.

Figures presented are based on quarter-end published financial information and financial information provided by U.S. Bank Global Fund Services (Guernsey) Limited / U.S. Bank Global Fund Services (Ireland) Limited, as administrator to NBDDIF (the "Administrator"). This NAV bridge has not been audited and figures are subject to change.

MANAGER COMMENTARY

Public markets continue to be volatile as investors monitor multiple themes that could impact global growth. Dominant themes include tightening fiscal and monetary conditions, persistently higher inflation, supply chain disruptions, a tight labour market, the ongoing Russian war in Ukraine and, most recently, the demise of Silicon Valley Bank and the disclosure of reporting weaknesses at Credit Suisse. All could lead to elevated volatility over the next 12 months. Given these circumstances, the timing and quantum of any financial impact on the portfolio remains difficult to predict. Despite the uncertainty, the investment manager remains committed to realising the investments in an orderly manner and winding down the share class as soon as practicable.

For regulatory reasons, the final 10% of the total return (NAV plus cumulative distributions) in respect of any class of participating shares in NBDDIF will be returned to shareholders with a final compulsory redemption of all the outstanding shares of that class.

While uncertainty in markets remains, we have reviewed the remaining investments to provide guidance on their realisable values. The investment manager uses economic, industry and issuer specific data to estimate the gross realisable value in downside, base case and upside scenarios for each investment in the portfolio. It currently estimates that the range of the aggregated realisable value for the investments in the portfolio is between 88% and 125% of the 31 December 2022 market values of these investments, with a base case of 109%. The range decreased relative to last quarter due to an increase in an oil & gas investment without a corresponding increase in expected realisation for that investment. Shareholders should, however, note that: (i) the realisable values of the investments are calculated on a gross basis and, in particular, do not reflect any applicable third-party expenses; and (ii) this range of aggregate realisable values is an estimate only, with no guarantee that the value actually realised will be within this range. Further details on the risks relating to "forward looking information" are set out at the end of this announcement.

Portfolio Update

NBDG ended the quarter with a NAV per share of 66.40p compared with 65.04p at the end of September 2022. The NAV increased 2% during the quarter, principally driven by an increase in value of an oil & gas investment. At quarter-end, 99% of NBDG's NAV was invested in distressed assets (including net cash held in subsidiaries), with 1% held in cash and US Treasury securities.

The remaining portfolio consists of 6 issuers across 5 sectors, including lodging & casino, commercial mortgage, and surface transport. NBDG had no exits in the quarter. Inception to date, the ratio of distributions, both income and capital, to original capital, is 59%. Including the current NAV, the figure rises to 77%.

Notable Events²

There was one notable event, as follows:

- In October of 2022, a gaming & lodging investment made a partial payment to its creditors of approximately £24.0 million, of which NBDG received £1.0 million.

2. Notable corporate events may or may not result in an increase or decrease in the value of an NBDG investment or a change in NBDG's NAV per share. Not all events involving existing investments are disclosed. In addition, certain corporate events may not have been disclosed due to confidentiality obligations.

For regulatory reasons, the final 10% of total return in respect of any class of participating shares in NBDDIF will be returned to shareholders, with the final compulsory redemption of all of the outstanding shares of that class. In the harvest period, we continue to focus on restructuring and monetising our investments, balancing timely realisations with maximising proceeds to our shareholders. Changes to timing are expected based on current market conditions and investment developments and will continue to be updated in the quarterly factsheets.

Share Buybacks

The buyback programme was intended to narrow the discount during the investment period. At this point of the harvest period, our priority, based on shareholder feedback, is the return of capital. The Board intends to make distributions from investment realisations and not hold back cash for future buyback programmes. Cash will be returned to shareholders through distributions from realisation of investments and not through buybacks.

NBDDIF did not repurchase any shares in NBDG during the quarter. Since inception, a total of 16,203,033, or 15% of the original NBDG shares at a cost of £10.9 million, has been repurchased and cancelled.
