DEBT OF THE PROVINCE

Direct and Guaranteed Debt

The direct debt of the Province includes debt for government purposes, as well as funds borrowed by the Province and loaned to its provincial government bodies. Direct borrowing by the Province for lending to provincial government bodies commenced in 1983.

With few exceptions, government bodies rely on the Province for fiscal agency loans to meet their borrowing requirements. The terms and conditions that apply to fiscal agency loans respecting payment of interest and principal generally match the terms and conditions of the underlying borrowings issued by the Province.

Direct debt includes both funded and unfunded debt. Funded debt is defined as all debt having a maturity of one year or more from date of issuance; unfunded debt has a maturity within one year from date of issuance.

The final component of provincial debt relates to financial instruments that have been unconditionally guaranteed by the Province. Most of this debt was incurred by provincial government bodies prior to the introduction of fiscal agency loans in 1983. It also includes financial instruments issued by selected municipalities, improvement districts and local government entities, as well as all loan guarantees extended by the Province, including those extended to private entities and individuals.

Non-guaranteed debt includes debt of government crowns. At March 31, 2024, $3,728 million of this debt is classified as taxpayer-supported and $1,462 million is classified as self-supported. For a breakdown of the balances by crown see page 17 of Exhibit 99.3.

Financial statements for 2023/24 show that the Province's total net debt (excluding non-guaranteed debt of $5,190 million) increased by $18,251 million; debt for government purposes increased by $13,031 million and debt for government corporation purposes increased by $5,220 million.

[1] The Province's debt is reported in compliance with generally accepted accounting principles (GAAP). Amounts shown are consistent with the Province's Debt Summary Report which includes guaranteed debt and non-guaranteed debt incurred by self-supporting crowns, and is net of sinking fund balances and unrealized foreign exchange gains or losses.

[2] Represents direct borrowing by the Province for relending to government corporations on identical terms

Note:

Direct unfunded gross debt of the Province (Promissory Notes) on March 31, 2024 totaled $12,218 million. This short term debt was comprised of $6,646 million in fiscal agency loans to government corporations and $5,572 million in loans for government. Further, all direct unfunded debt consisted of issues denominated in Cdn.

Financing Requirements

The financing requirements of the Province are accomplished through short, medium and long term borrowing in public and private markets in Canada and abroad, including the federal Canada Pension Plan (the "Plan"). Under the Plan, the Province may refinance maturing loans from the Plan with new loans equal to or less than the matured nominal amount of such loans.

The majority of British Columbia's borrowing requirements are met through public domestic borrowings and loans from the Plan. During the 2023/24 fiscal year, the Province borrowed or financed $13 million from the Plan.

Sinking Fund Management

Sinking funds are no longer established or maintained on new or existing debt issued for government capital financing purposes. However, sinking funds do continue to be established and maintained relating to new or existing debt of the Province incurred to make loans to provincial government bodies. Consequently, provincial government bodies (with the exception of the British Columbia Hydro and Power Authority and BC Transportation Financing Authority) who have received or are to receive a fiscal agency loan from the Province in an amount equal to or greater than $20 million and with a term of five years or more will continue to be expected to make sinking fund contributions for the purpose of repayment of some or all the corresponding Provincial debt issues.

At March 31, 2024, the Province has $491 million in sinking fund investments related to direct and guaranteed funded debt, including those held in trust on behalf of government corporations.

TRADE BALANCE

Exports and Imports (all figures in nominal dollars):

Based on the Provincial Economic Accounts 2022 estimates (November 2023), B.C.'s exports of goods and services totaled $162.9 billion during the 2022 calendar year, consisting of $101.3 billion (62.2%) international exports and $61.6 billion (37.8%) interprovincial exports. B.C.'s imports of goods and services totaled $188.0 billion, consisting of $107.6 billion (57.2%) international imports and $80.4 billion (42.8%) interprovincial imports.

B.C.'s international exports of goods and services represented 10.6% of Canada's total international exports in 2022, while B.C.'s international imports accounted for 11.3% of Canada's total international imports in 2022.

B.C. registered a total trade deficit of $25.0 billion in 2022, which consisted of a $6.3 billion deficit from international trade and a $18.8 billion deficit accruing from interprovincial trade. In 2021, B.C. registered a total trade deficit of $21.2 billion. B.C. had a $2.7 billion deficit from international trade and a $18.5 billion deficit from interprovincial trade.

B.C.'s international exports of goods originating within the province (i.e. domestic exports) were $54.5 billion in 2023, a decrease of 16.2% compared to $64.9 billion in 2022. B.C.'s exports to most countries were lower in 2023, primarily driven by lower exports of natural gas, lumber, and coal.

B.C.'s principal international export market in 2023 was the United States, which accounted for 52.8% of B.C.'s total international goods exports. B.C.'s exports to mainland China and Japan accounted for 14.6% and 11.4%, respectively.
