

Third quarter report 2021

Stockholm, October 19, 2021

Third quarter highlights

- Group organic sales declined by -1% YoY. Sales in Mainland China in Networks and Digital Services declined by SEK -3.6 b. impacting the growth rate by -6%. Some impact was seen from disturbances in the supply chain. Reported sales were SEK 56.3 (57.5) b.
- Gross margin excl. restructuring charges improved to 44.0% (43.2%) mainly driven by increased and partly retroactive IPR revenues and the acquired Cradlepoint business. Operational leverage continued to be strong in Networks. Reported gross margin was 44.0% (43.1%).
- EBIT margin excl. restructuring charges increased slightly to 15.7% (15.6%). Reported EBIT increased to SEK 8.8 b. (15.7%) from SEK 8.6 b. (15.0%). EBIT was supported by a market revaluation of investments and an impairment write-off, amounting to SEK 0.4 b.
- Organic sales development in Networks was stable YoY. The quarter was impacted by market share loss in Mainland China. Reported EBIT margin was 23.7% (22.0%).
- Reported net income was SEK 5.8 (5.6) b.
- Free cash flow before M&A was SEK 13.0 (3.9) b. driven primarily by strong cash collection. Net cash per September 30, 2021 was SEK 55.7 b. compared with SEK 41.5 b. per September 30, 2020.
- Investor Update (Nov. 9) will be postponed into next year with the intent to host a full-day, in-person CMD with the entire executive management present.

CEO comments

We continue to win footprint across our business by leveraging our competitive 5G portfolio. The 5G contracts now awarded by all three tier-1 US carriers are the largest in Ericsson's history. Gross margin² was further strengthened, both sequentially and year over year and reached 44.0% (43.2%). EBIT margin² reached 15.7%, and free cash flow before M&A was SEK 13.0 b. Through continuous measures for global supply chain resilience, we avoided customer impact during the first half of the year. However, late in Q3 we saw some impact on sales from disturbances in the supply chain, and such issues will continue to pose a risk. While we continued to gain share in a growing market, the expected sales reduction in Mainland China, lower variable sales in Managed Services and some supply chain disturbances, led to a negative organic sales¹ development of -1%.

Networks sales¹ were stable YoY, despite considerably lower volumes from Mainland China, reflecting market share gains in other markets. Excluding sales in Mainland China, Networks sales¹ increased by 8% in the third quarter compared to the same period last year. However, late in Q3 we experienced some impact on sales from disturbances in the supply chain, and such issues will continue to pose a risk. Gross margin² improved to 47.8% (46.7%), driven by operational leverage and higher IPR revenues.

Digital Services sales¹ grew by 1% despite a stark sales reduction in Mainland China. Excluding sales in Mainland China, Digital Services sales¹ increased by 6% in the third quarter compared to the same period last year. We are starting to see initial revenues from 5G contracts, driving growth in our Core business. Gross margin² was 42.3% (43.5%), impacted mainly by initial deployment costs in cloud native 5G Core projects. We continue to increase our R&D investments in the 5G portfolio, including Core and orchestration, further strengthening our competitive position. With increasing sales in combination with a higher share of software sales, we expect profitability to gradually improve and over time exceed our original target of EBIT margin² of 10%-12%.

As a consequence of the reduced market share in Mainland China we are planning to resize our sales and delivery organization in the country, starting in Q4, adding to our restructuring charges.

We increased **IPR revenues** to SEK 2.6 (2.2) b. driven by new agreements, with retroactive impact, confirming our IPR position. With the significant value of our broad patent portfolio and strong

position in 5G, reaffirmed by the recent agreement with Samsung, we believe we are well positioned to conclude pending and future patent license renewals. As communicated in the past, the timing of agreement renewals may cause temporary gaps in IPR revenues.

We continue to improve our **Ethics and Compliance** program in accordance with our strategy and activities based on input from our independent compliance monitor. Such initiatives and activities have enabled the strengthening of an integrity-based culture, compliance governance and anti-corruption internal controls. We are firmly committed to continuously develop and improve in the years to come to ensure a sustainable compliance program.

We continue to strengthen our **sustainability** work. Supporting our customers by improving energy efficiency in our products as well as reducing our own carbon emissions has been crucial for our success in recent years. In the quarter, we signed a USD 2 b. sustainability-linked revolving credit facility, further integrating our sustainability ambitions by linking our climate action targets to our financial activities.

We continue to see results of our strategy to improve flexibility, reduce sensitivity to business mix and lower the working capital. Free cash flow before M&A amounted to SEK 13.0 (3.9) b. in the third quarter, supported by strong cash collection including some customer pre-payments.

5G for **Enterprise** provides an exciting opportunity for Ericsson. The acquired Cradlepoint business is developing favorably, contributing to gross margin improvement for the Group in the quarter. Building on the strong foundations of our core business we will continue to invest in the Enterprise business, aiming at Enterprise becoming a sizeable part of Ericsson's business in a few years.

Stay healthy and well.

Börje Ekholm President and CEO

¹ Sales growth adjusted for comparable units and currency. Non-IFRS financial measures are reconciled at the end of this report to the most directly reconcilable line items in the financial statements.

Group reported sales were SEK 56.3 (57.5) b. Sales adjusted for comparable units and currency declined by -1% YoY, with growth in two of the five market areas. Sales in Mainland China in Networks and Digital Services declined by SEK -3.6 b. impacting the growth rate adjusted for comparable units and currency by -6%.

IPR licensing revenues increased to SEK 2.6 (2.2) b., driven by patent agreements signed early in the quarter. The agreements include retroactive revenues for unlicensed periods prior to signing.

Networks sales adjusted for comparable units and currency were stable YoY. Sales increased in North America as well as in Europe and Latin America. Sales in Mainland China were SEK -3.2 b. lower YoY, impacting the growth rate adjusted for comparable units and currency by -8%. Networks accounted for 72% (72%) of total sales.

Digital Services sales adjusted for comparable units and currency grew by 1% YoY, with growth in two market areas. Sales in Mainland China were SEK -0.4 b. lower YoY, impacting the growth rate adjusted for comparable units and currency by -5%. Digital Services share of total sales was 15% (15%).

Managed Services sales adjusted for comparable units and currency decreased by -7% YoY, mainly due to reduced variable sales and contract exits mainly in Europe. Managed Services share of total sales was 9% (10%).

Emerging Business and Other sales adjusted for comparable units and currency increased by 4%, primarily in iconectiv. Emerging Business and Other share of total sales was 4% (3%).

¹ Non-IFRS financial measures are reconciled at the end of this report to the most directly reconcilable line items in the financial statements.

Gross margin

Reported gross margin was 44.0% (43.1%). Gross margin excluding restructuring charges increased to 44.0% (43.2%) driven mainly by increased IPR revenues and the acquired Cradlepoint business. Networks gross margin in the quarter was supported by continued

strong operational leverage. Gross margin declined in Digital Services YoY due to higher initial deployment costs for the cloud native 5G Core portfolio and in Managed Services due to reduced variable sales.

Sequentially, reported gross margin increased to 44.0% from 43.4%, driven mainly by improved margin in Digital Services due to a higher share of software sales, while Q2 was negatively impacted by a write-down for pre-commercial product investments for the Chinese market. Gross margin was positively impacted by IPR licensing revenues related to patent agreements signed in the quarter.

Research and development (R&D) expenses

R&D expenses amounted to SEK -10.2 (-10.1) b. R&D expenses increased in Digital Services due to increased investments in the cloud native 5G Core portfolio and in Emerging Business and Other as a result of the acquired Cradlepoint business. The increase was partly offset by lower discretionary spending.

Selling and administrative (SG&A) expenses

SG&A expenses were SEK -6.2 (-6.0) b. The increase is mainly due to the acquired Cradlepoint business.

Revaluation of customer financing was SEK 0.1 (0.0) b.

Impairment losses on trade receivables

Impairment losses on trade receivables were SEK 0.0 (0.0) b.

Other operating income and expenses

Other operating income and expenses was SEK 0.5 (0.1) b. The quarter was positively impacted by SEK 0.4 b. through a net of positive fair market revaluation of Ericsson Ventures investments and an impairment write-off.

Share in earnings of JVs and associated companies was SEK -0.1 (-0.1) b.

Restructuring charges

Restructuring charges amounted to SEK 0.0 (-0.3) b.

EBIT

Reported EBIT improved to SEK 8.8 (8.6) b. EBIT excluding restructuring charges was SEK 8.8 (9.0) b. corresponding to an EBIT margin excluding restructuring charges of 15.7% (15.6%). The increase was driven mainly by Networks.

Sequentially, reported EBIT increased to SEK 8.8 b. from SEK 5.8 b., driven by retroactive IPR revenues as well as improved EBIT in Networks, Digital Services and in Emerging Business and Other from increased sales and lower operating expenses.

EBITA

EBITA improved to SEK 9.3 (9.0) b. YoY. EBITA excluding restructuring charges was stable at SEK 9.3 (9.3) b. corresponding to an EBITA margin excluding restructuring charges of 16.5% (16.2%).

Financial income and expenses, net

Reported financial net was SEK -0.6 (0.1) b. The strengthened USD to SEK resulted in a negative currency hedge effect of SEK -0.3 (0.3) b.

Sequentially, financial net decreased by SEK -0.1 b. to SEK -0.6 b. The currency hedge effect was SEK -0.3 b. in the quarter, versus SEK 0.1 b. in the second quarter. The USD strengthened against the SEK between June 30, 2021 (SEK/USD rate 8.51) and September 30, 2021 (SEK/USD rate 8.80).

Taxes

Taxes were SEK -2.5 (-3.2) b. The effective tax rate in Q3 was 30% compared with 27% in Q2 2021, mainly due to the market mix in the quarter.

Net income

Net income improved to SEK 5.8 (5.6) b. and EPS diluted improved to SEK 1.73 (1.61) YoY, driven by improved EBIT.

Employees

The number of employees on September 30, 2021, was 102,203 compared with 101,624 on June 30, 2021. The increase relates mainly to research and development.

Financial highlights, year to date (Jan-Sep) development

Reported sales decreased by -1%. Sales adjusted for comparable units and currency increased by 6% driven primarily by sales in market area North America and in Europe and Latin America. Networks sales adjusted for comparable units and currency increased by 8%, and Digital Services increased by 1%. Sales in Mainland China in Networks and Digital Services declined by SEK -5.8 b., impacting the Group growth rate adjusted for comparable units and currency by -4%, with the same impact in Networks and Digital Services. Sales adjusted for comparable units and currency increased by 9% in Emerging Business and Other, while Managed Services declined by -5%.

Reported gross margin increased to 43.4% (40.2%), driven primarily by strengthened operational leverage in Networks.

Reported EBIT increased to SEK 19.9 (16.8) b. as a result of improved gross income.

Reported EBITA increased to SEK 21.0 (17.7) b. EBITA excluding restructuring charges was SEK 21.0 (19.1) b. corresponding to an EBITA margin excluding restructuring charges of 13.1% (11.7%).

Net income year to date improved to SEK 12.8 (10.4) b. with the improved gross income partly offset by the financial net.

Planning assumptions

Market related

- The global RAN market is estimated to grow by 13% (10%) in 2021, with Mainland China expected to grow by 13% (11%), North America by 15% (12%) and Europe by 10% (9%).
 Source: Dell'Oro Mobile RAN report, August 2021. (Previous forecast within brackets).
- The global RAN market is estimated to grow by 2% in 2022, and by 3% excluding Mainland China.
 Source: Dell'Oro Mobile RAN 5-Year Forecast, July 2021.

Ericsson related

Net sales

Networks and Digital Services:

- In Q3 2021, sales in Mainland China were SEK 1.3 (5.0) b.
 In Q4 2020, sales in Mainland China were SEK 4.6 b.
- The disturbance in the global supply chain, including shortage of individual components, will continue to pose a risk for impact on sales in Networks.
- The annualized revenues from the current portfolio of IPR contracts are approximately SEK 7 b. As key contracts are approaching expiry, IPR revenues may be impacted until contracts are renewed.

Gross margin

 Gross margin will vary by quarter depending on business mix and seasonality; thus, a rolling four quarter gross margin gives a more relevant view of the margin development.

R&D and SG&A expenses

 Operating expenses typically increase between Q3 and Q4 due to seasonality, however, with large variations.

EBIT

- Digital Services: break-even is expected in Q4 2021 isolated.

Restructuring charges

 Restructuring charges are estimated to be approximately 1% of sales per year on average.

Currency exposure

 Rule of thumb: A change by 10% of USD to SEK would have an impact of approximately +/-5% on net sales and approximately +/-1 percentage point on EBIT margin.

Cradlepoint

 Group EBIT margin is expected to be negatively impacted by approximately -1 percentage point until the end of 2022.

Market area sales

SEK b.	Q3 2021	Q3 2020	YoY change	YoY adj. ¹	Q2 2021	QoQ change	Jan-Sep 2021	YoY change

Sales growth adjusted for comparable units and currency.

- Continued strong growth in North America and in Europe and Latin America.
- Organic growth in Latin America and Africa after a period of decline.
- Growth in IPR revenues.

South East Asia, Oceania and India

Currency adjusted sales decreased by -16% YoY. Networks sales declined YoY due to accelerated rollouts in the second half of 2020, and timing of orders in 2021. Sales declined YoY in Digital Services due to timing of orders and project milestones. Managed Services declined YoY, mainly due to contract renegotiations and timing of variable sales. Reported sales decreased by -17%.

North East Asia

Currency adjusted sales declined by -33% YoY. Sales declined YoY in Networks and Digital Services due to loss of market share in Mainland China. Sales in other parts of the market area increased due to timing of orders and project milestones. Reported sales declined by -35%.

North America

Currency adjusted sales increased by 13% YoY. Sales growth was driven by strong demand for 5G Networks solutions. Reported sales increased by 10%.

Europe and Latin America

Currency adjusted growth was 9% YoY with 5% growth in Europe and 29% in Latin America. Sales in both Networks and Digital Services continued to grow as a result of market share gains, while sales decreased in Managed Services YoY due to earlier decisions on contract exits and rescoping of contracts. Reported sales increased by 8%.

Middle East and Africa

Currency adjusted sales declined by -8% YoY. Sales declined YoY in Networks primarily due to timing of 5G investments in the Middle East. Sales in Africa returned to growth during the quarter. Digital Services sales grew YoY due to strong software upgrades in the African market. Managed Services sales declined YoY due to renegotiations of scope and delays in contract signing. Reported sales decreased by -10%.

Other

IPR licensing revenues increased to SEK 2.6 (2.2) b., driven by patent agreements signed early in the quarter. The agreements include retroactive revenues for unlicensed periods prior to signing.

Sequentially, IPR licensing revenues increased to SEK 2.6 b. from SEK 2.3 b.

²Market area "Other" includes primarily IPR licensing revenues and the major part of segment Emerging Business and Other.

Sales breakdown by market area by segment is available at the end of this report.

- Stable sales adjusted for comparable units and currency.
- Double-digit growth in North America and in Europe and Latin America.
- EBIT margin at 23.7% driven by operational leverage.

Net sales

Sales adjusted for comparable units and currency were stable, with double-digit growth in North America and in Europe and Latin America, and a sales decline in the other market areas mainly due to timing of orders and project milestones. Sales in North East Asia were impacted by a decline of SEK -3.2 b. YoY in Mainland China, impacting the growth rate adjusted for comparable units and currency by -8%. Growth was mainly driven by product sales. Reported sales declined by -3% YoY.

Sequentially, reported sales increased by 2%, driven by growth in North America, Europe and Latin America and in Middle East and Africa, partly offset by decline in South East Asia, Oceania and India and in North East Asia due to timing of orders and project milestones on the back of a seasonally strong second quarter.

Gross margin

Reported gross margin increased to 47.8% (46.5%), supported by operational leverage and higher IPR revenues.

Reported gross margin was stable QoQ with continued operational leverage and a positive impact from IPR revenues.

EBIT

Reported EBIT increased to SEK 9.6 (9.2) b. increasing the EBIT margin to 23.7% (22.0%). The increase was primarily due to higher IPR revenues and seasonally lower operating expenses. Moreover, Q3 2020 was impacted by restructuring charges. EBIT margin excluding restructuring charges increased to 23.7% (22.7%).

Sequentially, reported EBIT increased to SEK 9.6 b. from SEK 8.6 b. EBIT margin increased to 23.7% from 21.7%, due to seasonally higher sales, improved gross income and lower operating expenses.

Net sales rolling four quarters were SEK 166.1 b. and EBIT margin rolling four quarters excluding restructuring charges was 21.7%.

- Sales adjusted for comparable units and currency grew by 1% YoY.
- Strong business momentum in the cloud native 5G Core portfolio with initial revenues in the quarter.
- Gross margin impacted by initial deployment costs for the cloud native 5G Core portfolio.

Net sales

Sales adjusted for comparable units and currency increased by 1% YoY, with growth in North America and in Europe and Latin America. Sales declined in South East Asia, Oceania and India due to timing of orders and project milestones. Sales in Mainland China decreased by SEK -0.4 b. YoY, impacting the growth rate adjusted for comparable units and currency by -5%. Reported sales decreased by -1% YoY.

Sequentially, reported sales increased by 9%, driven by sales increase in Middle East and Africa, North America as well as in South East Asia, Oceania and India. Sales declined QoQ in Europe and Latin America due to timing of orders and project milestones. Sales in North East Asia were stable.

Gross margin

Reported gross margin decreased to 42.2% (43.4%) primarily due to initial deployment costs for the cloud native 5G Core portfolio.

Reported gross margin increased to 42.2% from 37.9% QoQ. Gross margin was positively impacted by a higher share of software sales and a positive impact from IPR revenues. In Q2 2021 gross margin was negatively impacted by -3.6 percentage points, due to a writedown for pre-commercial products related to the Chinese market.

EBIT (loss)

Reported EBIT (loss) was SEK -0.8 (-0.6) b. with an EBIT margin of -9.5% (-6.8%). Operating expenses increased, mainly due to acceleration of R&D investments in the cloud native 5G portfolio.

Sequentially, reported EBIT improved by SEK 0.7 b. to SEK -0.8 b. due to seasonally higher sales and improved gross margin.

Net sales rolling four quarters were SEK 36.1 b. and EBIT margin rolling four quarters excluding restructuring charges was -9.4%.

Gross margin excl. restructuring charges	18.7%	20.1%	-	19.0%
EBIT excl. restructuring charges	0.4	0.5	-23%	0.4
EBIT margin excl. restructuring charges	7.7%	9.1%	-	8.1%

- Sales declined YoY mainly due to reduced variable sales.
- Continued investments in automation, analytics and AI offerings supporting 5G and efficiency in service delivery.
- EBIT margin rolling 4Q excl. restructuring at 7.7%.

Net sales

Sales adjusted for comparable units and currency decreased by -7% YoY, due to reduced variable sales and planned contract exits mainly in Europe. Sales in Network Optimization showed growth mainly in Europe. Reported sales declined by -8% YoY.

Gross margin

Reported gross margin decreased to 18.7% (19.9%) mainly due to reduced variable sales.

Reported gross margin decreased slightly to 18.7% from 19.0% QoQ.

EBIT

Reported EBIT decreased to SEK 0.4 (0.5) b. with an EBIT margin of 7.7% (8.9%). The decrease was due to reduced sales and lower gross margin.

EBIT excluding restructuring charges was stable at SEK 0.4 b. QoQ.

Net sales rolling four quarters were SEK 20.8 b. and EBIT margin rolling four quarters excluding restructuring charges was 7.7%.

Segment Emerging Business and Other

	Q3	Q3	YoY	Q2

EBIT margin excl. restructuring charges	-17.6%	-29.2%	-	-81.5%

- Continued growth in sales and gross margin, driven mainly by Cradlepoint.
- Positive EBIT impact of SEK 0.4 b. through the net of Ericsson Ventures investment revaluation and impairment write-off.

Net sales

Sales adjusted for comparable units and currency increased by 4%. Reported sales increased by 26% YoY, driven mainly by the acquired Cradlepoint business.

Gross margin

Reported gross margin increased to 39.4% (32.0%). The increase was driven mainly by Cradlepoint.

Reported gross margin increased to 39.4% from 37.9% QoQ. The improvement was driven by iconectiv.

EBIT (loss)

Reported EBIT (loss) was SEK -0.4 (-0.4) b.

EBIT was positively impacted by SEK 0.4 b. in the quarter, through a net of positive fair market revaluation of Ericsson Ventures investments and an impairment write-off.

Net sales rolling four quarters were SEK 7.5 b. and EBIT margin rolling four quarters excluding restructuring charges was -43.8%.

Non-IFRS financial measures are reconciled at the end of this report to the most directly reconcilable line items in the financial statements.

Defined as Changes in operating net assets

- Free cash flow before M&A was SEK 13.0 (3.9) b. supported by strong cash collection.
- Net cash position increased to SEK 55.7 (41.5) b.
- A sustainability-linked revolving credit facility of USD 2.0 b. was signed in the quarter.

Cash flow from operating activities

Reported cash flow from operating activities was SEK 14.7 (5.3) b. on the back of continued earnings momentum and decrease in operating net assets. Cash flow from operating activities in Q3 2020 was impacted by a payment of SEK -2.0 b. into the Swedish Pension Trust. Operating net assets decreased in the quarter with a positive impact on cash flow of SEK 4.9 b. Key movements include a positive impact of SEK 5.4 b., related to a decrease in trade receivables and contract assets, partly offset by a decrease in contract liabilities, and was a result of solid cash collection in several market areas including some pre-payments from customers. The positive impact was, however, partly offset by a negative impact of SEK -2.1 b. related to the net of inventory and trade payables, due to the strategic build-up of components for resilience in the supply chain within Networks. Taxes paid were SEK -1.3 b.

Free cash flow

Free cash flow before M&A was SEK 13.0 (3.9) b. and, on a rolling 12-month basis, SEK 31.3 b. or 13.6% in relation to sales. Capex net and other investing activities was SEK -1.2 (-0.8) b., related to capitalization of development expenses and investments in test equipment for 5G within Networks and Digital Services. Repayment of lease liabilities in the quarter was stable at SEK -0.6 b., mainly related to property leases. Free cash flow after M&A was SEK 12.9 (3.8) b.

Cash flow from investing and financing activities

Reported cash flow from investing activities was SEK -9.1 (-1.1) b. as a result of purchases of interest-bearing securities. Reported cash flow from financing activities was SEK -2.5 (-0.9) b. including repayment of lease liabilities and mainly attributed to repayment of current borrowings in subsidiaries.

Financial position

Gross cash was SEK 88.2 (78.2) b. and net cash was SEK 55.7 (41.5) b. They increased QoQ by SEK 11.0 b. and SEK 12.0 b. respectively, as a result of the positive free cash flow.

The funding strategy relies on diverse funding sources with bonds as well as bilateral loans. In the quarter, Ericsson renewed its existing USD 2.0 b. revolving credit facility, linked to two of Ericsson's long-term sustainability goals. The facility has a five-year tenure with two one-year extension options and is undrawn. The average maturity of long-term borrowings was 3.8 years as of September 30, 2021, an increase from 1.9 years 12 months earlier.

Liabilities for post-employment benefits increased in the quarter, to SEK 34.7 b. from SEK 31.4 b. due to lower interest rates and higher inflation rate in Sweden. The Swedish defined benefit obligation (DBO) was calculated using a discount rate based on the Swedish government bond yield-curve. If the discount rate had been based on Swedish covered mortgage bonds, the liability for post-employment benefits would have been approximately SEK 19.7 b. (SEK 15 b. lower than current DBO).

Return on capital employed (ROCE) was 15.9% (13.5%).

Parent Company

Income after financial items Jan-Sep 2021 was SEK 7.3 (3.7) b.

At the end of the quarter, gross cash (cash, cash equivalents, short-term investments and interest-bearing securities, non-current) amounted to SEK 74.8 (66.3) b.

There was an increase in intercompany lending of SEK $3.5\,b.$ and in intercompany borrowing of SEK $0.6\,b.$ in the third quarter.

In accordance with the conditions of the long-term variable compensation program (LTV) for Ericsson employees, 404,760 shares from treasury stock were distributed or sold to employees during the third quarter. The holding of treasury stock on September 30, 2021 was 4,009,306 Class B shares.

Other information

Ericsson awarded reduced market share by China Mobile

On July 19, 2021, Ericsson announced that the Company had been awarded a 2% market share of China's 5G network development for 700MHz radio.

In line with earlier market guidance to investors, this is materially lower than the market share previously awarded to the Company for 2.6GHz radio (11%).

China Mobile is the first operator to award under the latest round of central procurement for 5G radio. Given the context and based on the bidding rules, should Ericsson be awarded business in China Unicom and China Telecom Ericsson believes it would be in a similar range as with the China Mobile award.

As previously disclosed by Ericsson, most recently in its Q2 2021 financial report and in its 2020 annual report, the risk of lower market share award follows the decision by the Post and Telecommunication Authority (PTS) to exclude Chinese vendors' products from the 5G auction in Sweden.

Legal proceedings – update

On October 4, 2021, Ericsson asked the United States District Court for the Eastern District of Texas, Marshall Division, for a declaration that Ericsson has, in its negotiations with Apple, complied with its FRAND commitment and all other applicable laws and policies that would affect the terms of Ericsson's and Apple's prospective license.

COVID-19 update

Mass vaccination against the COVID-19 virus during 2021 has enabled the gradual return to normal working arrangements in some geographies.

Ericsson retains cautious optimism that conditions continue to improve but recognize that improvements may be non-linear as the northern hemisphere approaches the winter months. The Company continues to advocate working from home for the majority of employees, travel restrictions for non-essential international travel, and mandatory wearing of face masks in public spaces in work locations, until the end of 2021.

Results continue to reflect the positive response of Ericsson employees to the challenges of the global pandemic. The Company is working to deliver a phased return to work under the Workplace of the Future program which promotes flexibility as well as the promotion of positive health and well-being.

POST-CLOSING EVENTS

AT&T selected Ericsson for expansion of 5G Network and C-band spectrum build

On October 11, 2021, building on more than 20 years of collaboration, Ericsson and AT&T announced a five-year agreement to accelerate the expansion of AT&T 5G. This deal helps support deployment of the service provider's recently acquired C-band spectrum and the launch of 5G Standalone (SA). AT&T is tapping into Ericsson's leading network expertise as the company works toward its 5G network goals.

Ericsson will help AT&T to bring its 5G network to more consumers, businesses and first responders across key industries — including 5G use cases in sports and venues, entertainment, travel and transportation, business transformation and public safety.

AT&T's network evolution is made possible in part by the Ericsson Radio System portfolio, which includes the Advanced Antenna System, Advanced RAN Coordination and Carrier Aggregation technologies.

These deployments will support future network enhancements like Cloud RAN, which offers communications services providers increased flexibility, faster delivery of services and greater scalability in networks.

The solution supports a centralized RAN architecture enabled by Ericsson Fronthaul Gateway, a new technology that will enable a more efficient transport of the fronthaul interface by converting it to packet (eCPRI).

Ericsson Cloud RAN is a cloud-native software solution handling compute functionality in the Radio Access Network (RAN). It complements the existing technologies in the RAN domain and allows for the adoption of leading practices to become a foundation for openness, enabling innovation in 5G.

Ericsson Cloud RAN will enable communications service providers to seamlessly evolve towards cloud-native technologies and open network architectures to meet the demand for more deployment flexibility.

Investor Update 2021 postponed

Investor Update, planned for November 9, will be postponed and expanded into a Capital Markets Day in 2022. 2021 is a year with focus on continued R&D investments and market share expansion preparing for 2022 and long-term growth and value creation. The aim with the Capital Market Day in 2022 is to host a full-day, inperson event with the entire executive management present, specifying the building blocks towards the long-term targets and elaborating on Enterprise driven growth.

Risk factors

Ericsson is exposed to a number of risks in its activities. To stimulate identification and support cross-functional treatment within the Ericsson Group, risks are grouped in a number of categories, including for example risks relating to technology, IPR, compliance, project execution, operations, products and services, treasury and accounting, the geopolitical environment, M&A, cyber security and occupational health and safety.

Ericsson's risk management is embedded into strategy development and operational processes and is a part of the Ericsson Group Management System to ensure accountability, effectiveness, efficiency, business continuity and compliance. Risks are defined in both a short-term and long-term perspective and are related to long-term objectives as per the strategic direction as well as to short-term objectives.

Risk factors and uncertainties of relevance to Ericsson are described in the Annual Report 2020. Updates to these risk factors and uncertainties observed by Ericsson that are deemed of short-term relevance include, but are not limited to, the following:

Pandemics, such as for example the one caused by the novel Coronavirus, COVID-19, could severely impact our local and global operations

The COVID-19 pandemic has caused challenges and risks relating to travel and lockdowns limiting access to sites, transportation and logistics and impacting the flow of goods, as well as having major parts of the workforce working remotely. With an increasing infection rate in some of Ericsson's markets, there is an increased risk for negative impact and disturbances in the Company's operations, including in network deployments in those markets, impacting corresponding revenues. As previously mentioned, disturbances from the pandemic may have material adverse effects on our business and financial position.

Ericsson relies on a limited number of suppliers of components, production capacity and R&D and IT services, which exposes the Company to supply disruptions and cost increases.

As stated in the Risk Factors in the 2020 Annual Report, section 1.13, Ericsson relies on a limited number of suppliers of components, which exposes the Company to supply disruptions and cost increases. The combination of this with the effects from the COVID-19 pandemic on the component industry, especially on semi-conductors, is causing challenges to the capabilities to fully deliver according to customer demands, which may cause delays in deliveries and reduced sales. Such disruptions and cost increases may negatively affect the Ericsson business, operating results and financial condition.

Forward-looking statements

This This report includes forward-looking statements, including statements reflecting management's current views relating to the growth of the market, future market conditions, future events, financial condition, and expected operational and financial performance, including, the following:

- Our goals, targets, strategies, planning assumptions and operational or financial performance expectations, such as the investor day key messages and our targets and strategies as described in the introductory bullets, the CEO comments, the Segment descriptions and in Other information
- Industry trends, future characteristics and development of the markets in which we operate
- Our future liquidity, capital resources, capital expenditures, cost savings and profitability
- The expected demand for our existing and new products and services as well as plans to launch new products and services including research and development expenditures
- The ability to deliver on future plans and to realize potential for future growth
- The expected operational or financial performance of strategic cooperation activities and joint ventures
- The time until acquired entities and businesses will be integrated and accretive to income
- Technology and industry trends including the regulatory and standardization environment in which we operate, competition and our customer structure.

The words "believe," "expect," "foresee," "anticipate," "assume," "intend," "likely," "projects," "may," "could," "plan," "estimate," "forecast," "will," "should," "would," "predict," "aim," "ambition," "seek," "potential," "target," "might," "continue," or, in each case, their negative or variations, and similar words or expressions are used to identify forward-looking statements. Any statement that refers to expectations, projections or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements.

We caution investors that these statements are subject to risks and uncertainties many of which are difficult to predict and generally beyond our control that could cause actual results to differ materially from those expressed in, or implied or projected by, the forward-looking information and statements.

Important factors that could affect whether and to what extent any of our forward-looking statements materialize include, but are not limited to, the factors described in the section "Risk Factors", and in "Risk Factors" in the Annual Report 2020.

These forward-looking statements also represent our estimates and assumptions only as of the date that they were made. We expressly disclaim a duty to provide updates to these forward-looking statements, and the estimates and assumptions associated with them, after the date of this report, to reflect events or changes in circumstances or changes in expectations or the occurrence of anticipated events, whether as a result of new information, future events or otherwise, except as required by applicable law or stock exchange regulation.

Auditors' Review Report

Introduction

We have reviewed the condensed interim financial information (interim report) of Telefonaktiebolaget LM Ericsson (publ.) as of September 30, 2021, and the nine months period then ended. The board of directors and the CEO are responsible for the preparation and presentation of the interim report in accordance with IAS 34 and the Swedish Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements ISRE 2410, Review of Interim Report Performed by the Independent Auditor of the Entity.

A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, ISA, and other generally

accepted auditing standards in Sweden. The procedures performed in a review do not enable us to obtain assurance that would make us aware of all significant matters that might be identified in an audit. Therefore, the conclusion expressed based on a review does not give the same level of assurance as a conclusion expressed based on an audit.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim report is not prepared, in all material respects, in accordance with IAS 34 and the Swedish Annual Accounts Act, regarding the Group, and with the Swedish Annual Accounts Act, regarding the Parent Company.

Stockholm, October 19, 2021

Accounting policies and Explanatory notes (unaudited)

Note 1 – Accounting policies

The group

This condensed consolidated interim financial report for the quarterly reporting period ended September 30, 2021, has been prepared in accordance with International Accounting Standard, IAS 34 "Interim Financial Reporting". The term "IFRS" used in this document refers to the application of IAS and IFRS as well as interpretations of these standards as issued by IASB's Standards Interpretation Committee (SIC) and IFRS Interpretations

Committee (IFRIC). The accounting policies adopted are consistent with those of the annual report for the year ended December 31, 2020 and should be read in conjunction with that annual report. There are no amendments of IFRS during 2021 that are estimated to have a material impact on the result and financial position of the Company.

Changes applied as from Q1 2021

- Change in name from Operating income to EBIT Operating income has been renamed as EBIT (Earnings before financial items and income tax) and Operating margin as EBIT margin. The definitions of EBIT and EBIT margin remains unchanged.

- Changes in presentation of cash flow statement

From Q1 2021, interests and tax cash flows are presented as a separate section within the "Cash flow from operating activities". Previously, interests and tax cash flows were subsumed within various lines in the sections "Adjustments to reconcile net income to cash" and "Changes in operating net assets", and only disclosed in note H3 "Statement of cash flow" of the Annual Report. All prior quarters in 2020 have been restated with this new section and other sections adjusted accordingly. There is no impact on Cash flows from operating activities for all periods in 2020.

From Q1 2021, the condensed consolidated statement of cash flow in the interim report is expanded to show "Proceeds from issuance of borrowings" and "Repayment of borrowings" separately. The Company also decided to present the net movements in collaterals received from CSA agreements and bank borrowings less than 3 months (used for short term liquidity purposes) as "Other financing activities" as these balances fluctuate over a short duration.

The prior quarters in 2020 have been restated accordingly. This resulted in a reclassification between the lines "Proceeds from issuance of borrowings", "Repayment of borrowings" and "Other financing activities" compared to the full year cash flow statement in the 2020 Annual Report. The Cash flow from financing activities remained unchanged for all periods in 2020.

COVID-19 impacts on the Financial statements

The COVID-19 pandemic has impacted certain lines within our financial statements, especially market assumptions used in the valuation of pension liabilities in 2020. Government bond yields and corporate bond yields have largely returned to levels observed before the pandemic. The increase in government bond yields in Sweden, and corporate bond yields in US and UK resulted in a significant decrease in the net pensions liability compared to year end. This is, however, partially offset by an increase in inflation rate observed in Sweden and the UK, although the Company believes it is difficult to attribute all movement in general price levels to the COVID-19 effect alone.

The Company continually assesses the business performance and profitability for changes in expected future cash flows which could impact recoverability of assets such as deferred tax assets and intangible assets. Risk assessment on the business plans is carried out on a regular basis and an impairment review will be performed if conditions suggest that such assets may be impaired. The Company also monitors customer collections trends for changes in current and future conditions that may impact the expected credit losses model for trade receivables. At the end of September 2021, the Company concluded there is no evidence of material changes to recoverability risk of business assets, including deferred tax assets and trade receivables.

Acquisition Cradlepoint - Final PPA

•	
SEK billion	2020
Total consideration incl. cash	9.5
Net assets acquired	
Cash and cash equivalents	0.3
Inventory	0.6
Other assets	1.0
Intangible assets	3.2
Other liabilities 1)	-3.1
Total identifiable net assets	2.0
Goodwill	7.5
Total	9.5

¹⁾ Includes deferred tax liabilities of SEK -1.0 billion.

On November 1, 2020, the Company acquired all of the shares in Cradlepoint Inc, a US-based market leader in Wireless Edge WAN 4G and 5G Enterprise solutions. The investment is key to Ericsson's ongoing strategy of capturing market share in the rapidly expanding 5G Enterprise space. Cradlepoint complements Ericsson's existing 5G Enterprise portfolio which includes Dedicated Networks and a global IoT platform. Goodwill in this transaction represents future customers, future technology and synergies to the sales channels and commercial model applied by Cradlepoint and is not expected to be deductible for tax purposes. In Q2 2021 the final fair values at the acquisition date of the assets acquired and liabilities assumed was finalized, see table above. The main change between the provisional and final fair values in the balance sheet is an increase in goodwill of SEK 0.5 billion with a corresponding increase of deferred revenues. This resulted in a positive impact in the income statement of SEK 0.1 billion in Q2 2021.

²⁾ Based on net income attributable to owners of the Parent Company.

Alternative performance measures (unaudited)

In this section, the Company presents its Alternative Performance Measures (APMs), which are not recognized measures of financial performance under IFRS. The presentation of APMs has limitations as analytical tools and should not be considered in isolation or as a substitute for related financial measures prepared in accordance with IFRS.

APMs are presented to enhance an investor's evaluation of ongoing operating results, to aid in forecasting future periods and to facilitate meaningful comparison of results between periods.

Management uses these APMs to, among other things, evaluate ongoing operations in relation to historical results, for internal planning and forecasting purposes and in the calculation of certain performance-based compensation. APM's should not be viewed as substitutes for income statement or cash flow items computed in accordance with IFRS.

As from 2021 Operating income has been renamed as EBIT and Operating margin as EBIT margin. The definitions of EBIT and EBIT margin remain unchanged. The APMs have been updated with the new names.

As from 2021 EBITA excluding restructuring charges has been added. The main reason for the update is that Ericsson's long-term target is expressed as EBITA excluding restructuring charges as a percentage of net sales.

The APM Sales growth adjusted for comparable units and currency has been added with the split by market area. Previously the information was provided by segment, but as from 2021 the information is also provided by market area.

This section also includes a reconciliation of the APMs to the most directly reconcilable line items in the financial statements. For more information about non-IFRS key operating measures, see Ericsson Annual Report 2020.

Sales growth adjusted for comparable units and currency

Sales growth adjusted for the impact of acquisitions and divestments as well as the effects of foreign currency fluctuations. Also named organic growth.

¹⁾ Adjusted for acquisition of Cradlepoint in November 2020.

Items excluding restructuring charges

Gross income, operating expenses, and EBIT are presented excluding restructuring charges and, for certain measures, as a percentage of net sales. Operating income has been renamed to EBIT and Operating margin to EBIT margin. The definition on EBIT and EBIT margin remain unchanged.

EBITA and EBITA margin / EBITA and EBITA margin excluding restructuring charges

Earnings before interest, taxes, amortizations, write-downs of acquired intangibles and excluding restructuring charges also expressed as a percentage of net sales.

EBITA and EBITA margin excluding restructuring charges has been added to the APM.

Capital turnover

Annualized net sales divided by average capital employed.

Annualization factor of four is used for isolated quarter.

Annualization factor of four is used for Jan-Mar, two is used for Jan-Jun, 4/3 is used for Jan-Sep and one is used for Jan-Dec.
