Note:

- 1. Mineral Resources do not demonstrate economic viability;
- 2. Rounding may result in apparent summation differences between tonnes, grade and contained metal content;
- 3. Contained Ounces Gold at > 0.5 g/t

Competent Persons

1. Bernie Sostak

Information in this announcement that relates to the Company Mineral resource estimations, exploration results, data quality, geological interpretations and potential for eventual economic extraction, is based on information compiled by the Relevant Rockfire Resources personnel under the supervision by Bernd Sostak, (Member AusIMM), who is a casual employee of Rockfire Resources. Mr Sostak has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves" for the Company compilation. Mr Sostak consents to the inclusion in this announcement of the matters based on this information in the form and context in which it appears.
