Rambler Employees Awarded the 2017 John T. Ryan National Safety Award for Outstanding Safety Excellence

London, England & Baie Verte, Newfoundland and Labrador, Canada - Rambler Metals and Mining plc (TSXV: RAB, AIM: RMM) ('Rambler' or the 'Company'), a copper and gold producer operating in Newfoundland and Labrador, Canada, is pleased to announce the employees of its Ming Mine, Nugget Pond Mill and Goodyear's Cove facilities are the recipients of the 2017 John T. Ryan National Award from the Canadian Institute of Mining, Metallurgy and Petroleum ('CIM') as the safest underground metal mine in Canada for 2017. It is the second time the employees have earned this national honor - the first being in 2015. The trophy is awarded by the CIM to the metalliferous mine that, in one or more complete calendar years, experienced the lowest reportable injury frequency per 500,000 hours worked in Canada. Rambler reported no lost time accidents or medical aid injuries at the Ming Copper-Gold Mine Project in both 2016 and 2017.

Norman Williams, President and CEO, Rambler Metals & Mining commented:

"Our team is honoured to receive this award for the second time in less than 3 years. This year the operation sustained its excellent health and safety record while undergoing a mine expansion nearly doubling output at the Ming Mine. Safety has always been a priority and this year was crucial during the heavy development in the mine and as well as the ramp up at the mill. I want to thank every employee of Rambler and their family for their contribution and commitment, it takes the commitment of the entire team, one action at a time, to achieve such a spectacular safety record."

Neither TSX Venture Exchange nor its Regulation Service Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

Rambler is dual listed in London under AIM:RMM and in Canada under TSX-V:RAB.

Caution Regarding Forward Looking Statements:

Certain information included in this press release, including information relating to future financial or operating performance and other statements that express the expectations of management or estimates of future performance constitute "forward-looking statements". Such forward-looking statements include, without limitation, statements regarding copper, gold and silver forecasts, the financial strength of the Company, estimates regarding timing of future development and production and statements concerning possible expansion opportunities for the Company. Where the Company expresses or implies an expectation or belief as to future events or results, such expectation or belief are based on assumptions made in good faith and believed to have a reasonable basis. Such assumptions include, without limitation, the price of and anticipated costs of recovery of, copper concentrate, gold and silver, the presence of and continuity of such minerals at modeled grades and values, the capacities of various machinery and equipment, the availability of personnel, machinery and equipment at estimated prices, mineral recovery rates, and others. However, forward-looking statements are subject to risks, uncertainties and other factors, which could cause actual results to differ materially from future results expressed, projected or implied by such forward-looking statements. Such risks include, but are not limited to, interpretation and implications of drilling and geophysical results; estimates regarding timing of future capital expenditures and costs towards profitable commercial operations. Other factors that

could cause actual results, developments or events to differ materially from those anticipated include, among others, increases/decreases in production; volatility in metals prices and demand; currency fluctuations; cash operating margins; cash operating cost per pound sold; costs per ton of ore; variances in ore grade or recovery rates from those assumed in mining plans; reserves and/or resources; the ability to successfully integrate acquired assets; operational risks inherent in mining or development activities and legislative factors relating to prices, taxes, royalties, land use, title and permits, importing and exporting of minerals and environmental protection. Accordingly, undue reliance should not be placed on forward-looking statements and the forward-looking statements contained in this press release are expressly qualified in their entirety by this cautionary statement. The forward-looking statements contained herein are made as at the date hereof and the Company does not undertake any obligation to update publicly or revise any such forward-looking statements or any forward-looking statements contained in any other documents whether as a result of new information, future events or otherwise, except as required under applicable security law.
