## **Item 2.02 Results of Operations and Financial Condition.**

On April 14, 2020, Wells Fargo & Company (the “Company”) issued a press release regarding its results of operations and financial condition for the quarter ended March 31, 2020, and posted on its website its 1Q20 Quarterly Supplement, which contains certain additional historical and forward-looking information relating to the Company. The press release is included as Exhibit 99.1 to this report and is incorporated by reference into this Item 2.02. The information included in Exhibit 99.1 is considered to be “filed” for purposes of Section 18 under the Securities Exchange Act of 1934. The Quarterly Supplement is included as Exhibit 99.2 to this report and is incorporated by reference into this Item 2.02. Except for the “Managing under the asset cap” portion on page 10 of the Quarterly Supplement, which portion shall be considered “filed,” the rest of Exhibit 99.2 shall not be considered “filed” for purposes of Section 18 under the Securities Exchange Act of 1934 and shall not be deemed to be incorporated by reference into the filings of the Company under the Securities Act of 1933.

On April 14, 2020, the Company intends to host a live conference call that will also be available by webcast to discuss the press release, the Quarterly Supplement, and other matters relating to the Company.

## **Item 8.01. Other Events.**

The following risk factor supplements the “Risk Factors” section in our 2019 Annual Report and item 1A of our 2019 Form 10-K.

**The COVID-19 pandemic has adversely impacted our business and financial results, and the ultimate impact will depend on future developments, which are highly uncertain and cannot be predicted, including the scope and duration of the pandemic and actions taken by governmental authorities in response to the pandemic.** The COVID-19 pandemic has negatively impacted the global economy, disrupted global supply chains, lowered equity market valuations, created significant volatility and disruption in financial markets, and increased unemployment levels. In addition, the pandemic has resulted in temporary closures of many businesses and the institution of social distancing and sheltering in place requirements in many states and communities. As a result, the demand for our products and services may be significantly impacted, which could adversely affect our revenue. Furthermore, the pandemic could continue to result in the recognition of credit losses in our loan portfolios and increases in our allowance for credit losses, particularly if businesses remain closed, the impact on the global economy worsens, or more customers draw on their lines of credit or seek additional loans to help finance their businesses. Similarly, because of changing economic and market conditions affecting issuers, we may be required to recognize further impairments on the securities we hold as well as reductions in other comprehensive income. Our business operations may also be disrupted if significant portions of our workforce are unable to work effectively, including because of illness, quarantines, government actions, or other restrictions in connection with the pandemic, and we have already temporarily closed certain of our branches and offices. In response to the pandemic, we have also suspended residential property foreclosure sales, evictions, and involuntary automobile repossessions, and are offering fee waivers, payment deferrals, and other expanded assistance for credit card, automobile, mortgage, small business and personal lending customers, and future governmental actions may require these and other types of customer-related responses. In addition, we have temporarily suspended share repurchases and could take other capital actions in response to the COVID-19 pandemic. The

extent to which the COVID-19 pandemic impacts our business, results of operations, and financial condition, as well as our regulatory capital and liquidity ratios, will depend on future developments, which are highly uncertain and cannot be predicted, including the scope and duration of the pandemic and actions taken by governmental authorities and other third parties in response to the pandemic.

# Wells Fargo Reports First Quarter 2020 Net Income of \$653 Million

**Diluted EPS of \$0.01 included a \$(0.73) per share impact from a reserve build and an impairment of securities, driven by economic and market conditions, as well as a \$(0.06) per share impact from the redemption of our Series K Preferred Stock**

- Financial results:
  - Net income of \$653 million and diluted earnings per share (EPS) of \$0.01
    - Included the impact of a reserve build<sup>1</sup> of \$3.1 billion, or \$(0.56) per share, and an impairment of securities of \$950 million, or \$(0.17) per share, driven by economic and market conditions
  - Revenue of \$17.7 billion, down from \$21.6 billion in first quarter 2019
    - Net interest income of \$11.3 billion, down \$999 million
    - Noninterest income of \$6.4 billion, down \$2.9 billion
  - Noninterest expense of \$13.0 billion, down \$868 million from first quarter 2019
  - Average loans of \$965.0 billion, up \$15.0 billion, or 2%, from first quarter 2019; period-end loans of \$1.0 trillion up \$47.6 billion, or 5%, from fourth quarter 2019
  - Average deposits of \$1.3 trillion, up \$75.9 billion, or 6%, from first quarter 2019; period-end deposits of \$1.4 trillion up \$53.9 billion, or 4%, from fourth quarter 2019
- Credit quality:
  - Provision expense for loans and debt securities of \$4.0 billion, up \$3.2 billion from first quarter 2019
    - Net charge-offs on loans and debt securities of \$940 million, up \$245 million
      - Net loan charge-offs of 0.38% of average loans (annualized), up from 0.30%
    - Reserve build<sup>1</sup> of \$3.1 billion for loans and debt securities
  - Nonaccrual loans of \$6.2 billion, down \$749 million, or 11%
- Strong liquidity and capital positions:
  - Liquidity coverage ratio<sup>2</sup> (LCR) of 121%, which continued to exceed the regulatory minimum of 100%
  - Common Equity Tier 1 ratio of 10.7%<sup>3</sup>, which continued to exceed both the regulatory minimum of 9% and our current internal target of 10%
  - Period-end common shares outstanding down 415.5 million shares, or 9%, from first quarter 2019
    - On March 15, 2020, Wells Fargo, along with the other members of the Financial Services Forum, decided to temporarily suspend share repurchases for the remainder of the first quarter and for second quarter 2020

<sup>1</sup> Reserve build represents the amount by which the provision for credit losses exceeds net charge-offs, while reserve release represents the amount by which net charge-offs exceed the provision for credit losses.

<sup>2</sup> Liquidity coverage ratio (LCR) is calculated as high-quality liquid assets divided by projected net cash outflows, as each is defined under the LCR rule. LCR is a preliminary estimate.

<sup>3</sup> See table on page 35 for more information on Common Equity Tier 1. Common Equity Tier 1 is a preliminary estimate.

- First quarter 2020 included the issuance of \$2.0 billion of Series Z Preferred Stock; the redemption of the remaining \$1.8 billion of Series K Preferred Stock, which reduced diluted EPS by \$0.06 per share as a result of eliminating the purchase accounting discount recorded on these shares; and the redemption of \$668 million of Series T Preferred Stock

Financial results reported in this document are preliminary. Final financial results and other disclosures will be reported in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2020, and may differ materially from the results and disclosures in this document due to, among other things, the completion of final review procedures, the occurrence of subsequent events, or the discovery of additional information.

**SAN FRANCISCO – April 14, 2020** – Wells Fargo & Company (NYSE:WFC) reported net income of \$653 million, or \$0.01 per diluted common share, for first quarter 2020, compared with \$5.9 billion, or \$1.20 per share, for first quarter 2019, and \$2.9 billion, or \$0.60 per share, for fourth quarter 2019.

Chief Executive Officer Charlie Scharf said, "Wells Fargo plays an important role in the financial system and the economic strength of our country, and we take our responsibility seriously, particularly in these unprecedented times."

"We have taken comprehensive steps to help customers, employees and communities. For our customers, we've suspended residential property foreclosure sales, offered fee waivers, and provided payment deferrals, among other actions. For example, starting in early March and continuing into last week, we helped more than 1.3 million consumer and small business customers by deferring and waiving fees. This included deferring more than 1 million payments and providing over 900,000 fee waivers. We were also there for our commercial clients, who utilized over \$80 billion of their loan commitments in March alone. For our employees, we've enabled approximately 180,000 to work remotely. We are making additional cash payments to employees whose roles require them to come into the office, and we have taken significant actions to help ensure their safety. We have also provided financial support for child care and increased medical benefits for employees. To support our communities, we are directing \$175 million in charitable donations from the Wells Fargo Foundation to help address food, shelter, small business and housing

stability, as well as providing help to public health organizations fighting to contain the spread of COVID-19. We will continue to evaluate this fluid situation and take additional actions as necessary,” Scharf added.

“I’m incredibly proud of the efforts our employees are making across Wells Fargo to support our customers and each other, particularly those on the front lines. Our priority is to continue to help our customers, our employees and our country through these challenging times,” Scharf concluded.

Chief Financial Officer John Shrewsberry said, “Wells Fargo reported \$653 million of net income in the first quarter and diluted earnings per share of \$0.01. Our results were impacted by a \$3.1 billion reserve build, which reflected the expected impact these unprecedented times could have on our customers. Our results also included an impairment of securities of \$950 million driven by economic and market conditions. We maintained strong liquidity and capital, and we are committed to using our financial strength to help support the U.S. economy, while still operating in compliance with the asset cap under the Federal Reserve consent order. In the first quarter, we continued to serve our customers and as a result, commercial loans grew by \$52 billion, deposits increased by \$54 billion, we originated \$48 billion of residential mortgage loans, and we raised \$47 billion of debt capital for our clients.”

### **Net Interest Income**

Net interest income in the first quarter was \$11.3 billion, up \$112 million from fourth quarter 2019, predominantly due to favorable hedge ineffectiveness accounting results and lower mortgage-backed securities (MBS) premium amortization, partially offset by balance sheet repricing driven by the impact of the lower interest rate environment and one fewer day in the quarter.

The net interest margin was 2.58%, up 5 basis points from the prior quarter predominantly due to favorable hedge ineffectiveness accounting results and lower MBS premium amortization, partially offset by balance sheet repricing driven by the impact of the lower interest rate environment.

### **Noninterest Income**

Noninterest income in the first quarter was \$6.4 billion, down \$2.3 billion from fourth quarter 2019. First quarter noninterest income included lower market sensitive revenue<sup>4</sup>, mortgage banking income, and card fees.

- Card fees were \$892 million, down \$128 million from fourth quarter 2019, primarily due to seasonally lower point of sale volumes as well as the impact of the COVID-19 pandemic on consumer spending.
- Mortgage banking income was \$379 million, down from \$783 million in fourth quarter 2019. The decline in mortgage banking income reflected unrealized losses on residential and commercial mortgage loans held for sale of approximately \$143 million and \$62 million, respectively, due to illiquid market conditions and a widening of credit spreads. Additionally, we recorded \$192 million of higher losses on the valuation of our mortgage servicing rights asset as a result of assumption updates, primarily prepayment assumptions.
- Market sensitive revenue<sup>4</sup> was a loss of \$(1.1) billion, down from a gain of \$574 million in fourth quarter 2019, predominantly due to a \$1.9 billion decline in net gains from equity securities driven by \$857 million of lower deferred compensation plan investment results (largely offset by lower employee benefits expense), and an

---

<sup>4</sup> Market sensitive revenue represents net gains from trading activities, debt securities, and equity securities.

\$811 million increase in impairment of securities primarily in our affiliated venture capital and private equity partnerships and wholesale business.

- Other income was \$372 million, up \$37 million from the prior quarter. First quarter 2020 included a \$463 million gain from the sale of \$709 million of residential mortgage loans. Fourth quarter 2019 included a \$362 million gain from the sale of our commercial real estate brokerage business, Eastdil Secured (Eastdil).

### Noninterest Expense

Noninterest expense in the first quarter was \$13.0 billion, down \$2.6 billion from the prior quarter. Operating losses in the first quarter declined \$1.5 billion from a fourth quarter that included elevated litigation accruals. In addition, employee benefits expense was down \$306 million, as \$861 million of lower deferred compensation expense (largely offset by higher net losses from equity securities) was partially offset by seasonally higher payroll tax and 401(k) expense. A variety of other expenses were also lower in the first quarter, including commission and incentive compensation, outside professional services, and technology and equipment.

### Income Taxes

The Company's effective income tax rate was 19.5% for first quarter 2020 and included net discrete income tax expense of \$141 million driven by the accounting for stock compensation activity, the net impact of accounting for uncertain tax positions, and the outcome of U.S. federal income tax examinations. The effective income tax rate in fourth quarter 2019 was 19.1% and included net discrete income tax expense of \$303 million predominantly related to the non-tax deductible treatment of certain litigation accruals.

### Loans

Average loans were \$965.0 billion in the first quarter, up \$8.5 billion from the fourth quarter. Period-end loan balances were \$1.0 trillion at March 31, 2020, up \$47.6 billion from December 31, 2019. Commercial loans were up \$52.0 billion compared with December 31, 2019, predominantly due to \$50.9 billion of growth in commercial and industrial loans driven by draws of revolving lines and origination of new lending facilities due to the impact of the COVID-19 pandemic on economic and market conditions. Consumer loans decreased \$4.4 billion from the prior quarter driven by a \$2.4 billion decrease in credit card loans, primarily due to seasonality and fewer new account openings, and a \$1.9 billion decrease in real estate 1-4 family first and junior lien mortgage loans, as originations and draws of existing lines were more than offset by paydowns.

#### Period-End Loan Balances

Change from prior quarter	\$ 47,578	7,350	5,037	1,629	(4,861)

## Debt and Equity Securities

Debt securities include available-for-sale and held-to-maturity debt securities, as well as debt securities held for trading. Period-end debt securities were \$501.6 billion at March 31, 2020, up \$4.4 billion from the fourth quarter driven by a \$3.7 billion increase in debt securities available-for-sale and held-to-maturity, as purchases of approximately \$38.9 billion, largely federal agency MBS, were partially offset by runoff and sales. Additionally, on January 1, 2020, we adopted the current expected credit loss (CECL) accounting standard, which requires an allowance for credit losses for available-for-sale and held-to-maturity debt securities. The provision for credit losses on debt securities was \$172 million in first quarter 2020, driven by a reserve build<sup>1</sup> of \$141 million and net charge-offs of \$31 million.

Net unrealized gains on available-for-sale debt securities were \$3.0 billion at March 31, 2020, compared with \$3.4 billion at December 31, 2019, primarily due to wider credit spreads, partially offset by lower long-term interest rates in the first quarter.

Equity securities include marketable and non-marketable equity securities, as well as equity securities held for trading. Period-end equity securities were \$54.0 billion at March 31, 2020, down \$14.2 billion from the fourth quarter.

## Deposits

Period-end deposits were \$1.4 trillion at March 31, 2020, up \$53.9 billion from December 31, 2019. Total average deposits for first quarter 2020 were \$1.3 trillion, up \$16.1 billion from the prior quarter driven by growth in both commercial and consumer deposits. The average deposit cost for first quarter 2020 was 52 basis points, down 10 basis points from the prior quarter and down 13 basis points from a year ago.

## Capital

The Company's Common Equity Tier 1 ratio was 10.7%<sup>3</sup> and continued to exceed both the regulatory minimum of 9% and our current internal target of 10%. In first quarter 2020, the Company repurchased 75.4 million shares of its common stock, which, net of issuances, reduced period-end common shares outstanding by 38.0 million. The Company paid a quarterly common stock dividend of \$0.51 per share.

In first quarter 2020, the Company issued \$2.0 billion of Non-Cumulative Perpetual Class A Preferred Stock, Series Z. Additionally, the Company redeemed the remaining \$1.8 billion of its Fixed-to-Floating Rate Non-Cumulative Perpetual Class A Preferred Stock, Series K, which reduced diluted earnings per common share in first quarter 2020 by \$0.06 per share as a result of eliminating the purchase accounting discount recorded on these shares at the time of the Wachovia acquisition. The Company also redeemed \$668 million of its Non-Cumulative Perpetual Class A Preferred Stock, Series T, in the first quarter, and following this partial redemption, \$132 million of the Series T Preferred Stock remains outstanding.

As of March 31, 2020, our eligible external total loss absorbing capacity (TLAC) as a percentage of total risk-weighted assets was 23.2%<sup>5</sup>, compared with the required minimum of 22.0%.

---

<sup>5</sup> The TLAC ratio is a preliminary estimate.

## Credit Quality

### Net Loan Charge-offs

The quarterly loss rate in the first quarter was 0.38% (annualized), up from 0.32% in the prior quarter and 0.30% a year ago. Commercial and consumer losses were 0.25% and 0.53%, respectively. Total credit losses were \$909 million in first quarter 2020, up \$140 million from fourth quarter 2019. Commercial losses increased \$121 million predominantly driven by higher commercial and industrial losses primarily related to significant declines in oil prices impacting the oil and gas portfolio.

## Nonperforming Assets

Nonperforming assets increased \$759 million, or 13%, from fourth quarter 2019 to \$6.4 billion. Nonaccrual loans increased \$810 million from fourth quarter 2019 to \$6.2 billion. Commercial nonaccrual loans increased \$621 million predominantly driven by the commercial real estate, and commercial and industrial portfolios, as the effect of the COVID-19 pandemic on market conditions began to impact our customer base. Consumer nonaccrual loans increased \$189 million, predominantly driven by higher nonaccruals in the real estate 1-4 family first mortgage portfolio, as the implementation of CECL required purchased credit-impaired (PCI) loans to be classified as non-accruing based on performance.

### Allowance for Credit Losses for Loans

The allowance for credit losses (ACL) for loans was \$10.5 billion at December 31, 2019. Upon adoption of CECL on January 1, 2020, we recognized a decrease in our ACL for loans of approximately \$1.3 billion, as a cumulative effect adjustment from change in accounting policies, with a corresponding increase in retained earnings (pre tax). At March 31, 2020, the ACL for loans, including the allowance for unfunded commitments, totaled \$12.0 billion, up \$1.6 billion from December 31, 2019, driven by a \$2.9 billion reserve build<sup>1</sup> in first quarter 2020, partially offset by the \$1.3 billion decline as a result of adopting CECL. The increase in the ACL for loans reflects forecasted credit deterioration due to the COVID-19 pandemic and credit weakness in the oil and gas portfolio due to the recent sharp declines in oil prices. The allowance coverage for total loans was 1.19%, compared with 1.09% in fourth quarter 2019. The allowance covered 3.3 times annualized first quarter net charge-offs, compared with 3.4 times in the prior quarter. The allowance coverage for nonaccrual loans was 195% at March 31, 2020, compared with 196% at December 31, 2019.

## Business Segment Performance

Wells Fargo defines its operating segments by product type and customer segment. On February 11, 2020, we announced a new organizational structure with five principal lines of business: Consumer and Small Business Banking; Consumer Lending; Commercial Banking; Corporate and Investment Banking; and Wealth and Investment Management. This new organizational structure is intended to help drive operating, control, and business performance. The Company is currently in the process of transitioning to this new organizational structure, including identifying leadership for some of these principal business lines and aligning management reporting and allocation methodologies. These changes will not impact the consolidated financial results of the Company, but are expected to result in changes to our operating segments. We will update our operating segment disclosures, including comparative financial results, when the Company completes its transition and is managed in accordance with the new organizational structure.

Segment net income (loss) for each of the three current business segments was:

	Mar 31, 2020	Dec 31, 2019	Mar 31, 2019
Community Banking	\$ 155	429	2,823
Wholesale Banking	311	2,493	2,770
Wealth and Investment Management	463	254	577

**Community Banking** offers a complete line of diversified financial products and services for consumers and small businesses with annual sales generally up to \$5 million in which the owner generally is the financial decision maker. These financial products and services include checking and savings accounts, credit and debit cards, automobile, student, mortgage, home equity and small business lending, as well as referrals to Wholesale Banking and Wealth and Investment Management business partners. The Community Banking segment also includes the results of our Corporate Treasury activities net of allocations (including funds transfer pricing, capital, liquidity and certain corporate expenses) in support of other segments and results of investments in our affiliated venture capital and private equity partnerships.

## First Quarter 2020 vs. Fourth Quarter 2019

- Net income of \$155 million, down \$274 million, or 64%
- Revenue of \$9.5 billion, down \$1.0 billion, or 10%, driven by net losses from equity securities reflecting lower deferred compensation plan investment results (largely offset by lower employee benefits expense), lower mortgage banking revenue, and lower card fees, partially offset by a gain from the sale of residential mortgage loans and higher net interest income
- Noninterest expense of \$7.1 billion decreased \$1.9 billion, or 21%, predominantly driven by lower operating losses and lower personnel expense primarily due to lower deferred compensation expense (largely offset by net losses from equity securities), as well as lower outside professional services expense
- Provision for credit losses increased \$1.2 billion, predominantly due to a \$1.0 billion reserve build<sup>1</sup> in first quarter 2020 reflecting forecasted credit deterioration due to the COVID-19 pandemic

### **First Quarter 2020 vs. First Quarter 2019**

- Net income down \$2.7 billion, or 95%
- Revenue down \$2.3 billion, or 19%, largely driven by net losses from equity securities reflecting lower deferred compensation plan investment results (largely offset by lower employee benefits expense), as well as lower mortgage banking income, card fees, and net interest income, partially offset by higher service charges on deposit accounts, as first quarter 2019 included a higher level of fee waivers associated with customers affected by our data center system outage and the government shutdown
- Noninterest expense decreased \$573 million, or 7%, predominantly due to lower employee benefits expense due to lower deferred compensation expense (largely offset by net losses from equity securities), partially offset by higher operating losses
- Provision for credit losses increased \$1.0 billion, predominantly due to a \$1.0 billion reserve build<sup>1</sup> in first quarter 2020 reflecting forecasted credit deterioration due to the COVID-19 pandemic

### **Business Metrics and Highlights**

- Primary consumer checking customers<sup>6,7</sup> of 24.4 million, up 1.9% from a year ago
- Debit card point-of-sale purchase volume<sup>8</sup> of \$90.6 billion in the first quarter, up 5% from first quarter 2019
- General purpose credit card point-of-sale purchase volume of \$18.2 billion in the first quarter, down 1% from first quarter 2019
- 30.9 million digital (online and mobile) active customers, including 24.7 million mobile active customers<sup>7,9</sup>
- 5,329 retail bank branches as of the end of first quarter 2020, reflecting 24 branch consolidations in the quarter
- Home Lending
  - Originations of \$48 billion in first quarter 2020, down from \$60 billion in fourth quarter 2019, driven primarily by seasonality
    - Originations of loans held-for-sale and loans held-for-investment were \$33 billion and \$15 billion, respectively
  - Production margin on residential held-for-sale mortgage loan originations<sup>10</sup> of 1.08% in first quarter 2020, down from 1.21% in fourth quarter 2019
  - Applications of \$108 billion in first quarter 2020, up from \$72 billion in fourth quarter 2019, driven primarily by lower interest rates
  - Unclosed application pipeline of \$62 billion at quarter end, up from \$33 billion at December 31, 2019, driven primarily by lower interest rates
- Automobile originations of \$6.5 billion in the first quarter, up 19% from first quarter 2019, reflecting our renewed emphasis on growing auto loans following the restructuring of the business

### First Quarter 2020 vs. Fourth Quarter 2019

- Net income of \$311 million, down \$2.2 billion, or 88%
- Revenue of \$5.8 billion, down \$742 million, or 11%, driven by lower net interest income, and lower other income as fourth quarter 2019 included a \$362 million gain from the sale of Eastdil, as well as declines in market sensitive revenue<sup>5</sup> and mortgage banking fees
- Noninterest expense of \$3.8 billion increased \$20 million, or 1%, reflecting seasonally higher personnel expense
- Provision for credit losses increased \$2.2 billion, predominantly due to a \$2.1 billion reserve build<sup>1</sup> in first quarter 2020, reflecting forecasted credit deterioration due to the COVID-19 pandemic and higher charge-offs in the oil and gas portfolio driven by the significant decline in oil prices

### First Quarter 2020 vs. First Quarter 2019

- Net income down \$2.5 billion, or 89%
- Revenue down \$1.3 billion, or 18%, driven by lower net interest income, as well as declines in a variety of other income categories including market sensitive revenue<sup>4</sup>, other noninterest income, lease income, and commercial real estate brokerage fees (due to the sale of Eastdil). These decreases were partially offset by higher investment banking fees
- Noninterest expense decreased \$75 million, or 2%, reflecting the sale of Eastdil, as well as lower personnel expense, lease expense, and travel expense, partially offset by higher regulatory and risk related expense
- Provision for credit losses increased \$2.2 billion, predominantly due to a \$2.1 billion reserve build<sup>1</sup> in first quarter 2020, reflecting forecasted credit deterioration due to the COVID-19 pandemic and higher charge-offs in the oil and gas portfolio driven by the significant decline in oil prices

## Business Metrics and Highlights

- Commercial card spend volume<sup>11</sup> of \$8.1 billion in first quarter 2020, down 4% from first quarter 2019, primarily due to reduced travel and entertainment spend as a result of the COVID-19 pandemic
- 2.0 billion ACH payment transactions originated<sup>12</sup> in first quarter 2020, up 12% from first quarter 2019
- U.S. investment banking market share of 4.0% in first quarter 2020<sup>13</sup>, compared with 3.2% in first quarter 2019<sup>13</sup>

## Forward-Looking Statements

This document contains forward-looking statements. In addition, we may make forward-looking statements in our other documents filed or furnished with the SEC, and our management may make forward-looking statements orally to analysts, investors, representatives of the media and others. Forward-looking statements can be identified by words such as “anticipates,” “intends,” “plans,” “seeks,” “believes,” “estimates,” “expects,” “target,” “projects,” “outlook,” “forecast,” “will,” “may,” “could,” “should,” “can” and similar references to future periods. In particular, forward-looking statements include, but are not limited to, statements we make about: (i) the future operating or financial performance of the Company, including our outlook for future growth; (ii) our noninterest expense and efficiency ratio; (iii) future credit quality and performance, including our expectations regarding future loan losses and our allowance for credit losses; (iv) the appropriateness of the allowance for credit losses; (v) our expectations regarding net interest income and net interest margin; (vi) loan growth or the reduction or mitigation of risk in our loan portfolios; (vii) future capital or liquidity levels, ratios or targets; (viii) the performance of our mortgage business and any related exposures; (ix) the expected outcome and impact of legal, regulatory and legislative developments, as well as our expectations regarding compliance therewith; (x) future common stock dividends, common share repurchases and other uses of capital; (xi) our targeted range for return on assets, return on equity, and return on tangible common equity; (xii) expectations regarding our effective income tax rate; (xiii) the outcome of contingencies, such as legal proceedings; and (xiv) the Company’s plans, objectives and strategies.

Forward-looking statements are not based on historical facts but instead represent our current expectations and assumptions regarding our business, the economy and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict. Our actual results may differ materially from those contemplated by the forward-looking statements. We caution you, therefore, against relying on any of these forward-looking statements. They are neither statements of historical fact nor guarantees or assurances of future performance. While there is no assurance that any list of risks and uncertainties or risk factors is complete, important factors that could cause actual results to differ materially from those in the forward-looking statements include the following, without limitation:

- current and future economic and market conditions, including the effects of declines in housing prices, high unemployment rates, U.S. fiscal debt, budget and tax matters, geopolitical matters, and any slowdown in global economic growth;
- the effect of the COVID-19 pandemic, including on our credit quality and business operations, as well as its impact on general economic and financial market conditions;
- our capital and liquidity requirements (including under regulatory capital standards, such as the Basel III capital standards) and our ability to generate capital internally or raise capital on favorable terms;
- financial services reform and other current, pending or future legislation or regulation that could have a negative effect on our revenue and businesses, including the Dodd-Frank Act and other legislation and regulation relating to bank products and services;
- developments in our mortgage banking business, including the extent of the success of our mortgage loan modification efforts, the amount of mortgage loan repurchase demands that we receive, any negative effects relating to our mortgage servicing, loan modification or foreclosure practices, and the effects of regulatory or judicial requirements or guidance impacting our mortgage banking business and any changes in industry standards;
- our ability to realize any efficiency ratio or expense target as part of our expense management initiatives, including as a result of business and economic cyclicality, seasonality, changes in our business composition and operating environment, growth in our businesses and/or acquisitions, and unexpected expenses relating to, among other things, litigation and regulatory matters;
- the effect of the current interest rate environment or changes in interest rates or in the level or composition of our assets or liabilities on our net interest income, net interest margin and our mortgage originations, mortgage servicing rights and mortgage loans held for sale;
- significant turbulence or a disruption in the capital or financial markets, which could result in, among other things, reduced investor demand for mortgage loans, a reduction in the availability of funding or increased funding costs, and declines in asset values and/or recognition of impairments of securities held in our debt securities and equity securities portfolios;

- the effect of a fall in stock market prices on our investment banking business and our fee income from our brokerage, asset and wealth management businesses;
- negative effects from the retail banking sales practices matter and from other instances where customers may have experienced financial harm, including on our legal, operational and compliance costs, our ability to engage in certain business activities or offer certain products or services, our ability to keep and attract customers, our ability to attract and retain qualified team members, and our reputation;
- resolution of regulatory matters, litigation, or other legal actions, which may result in, among other things, additional costs, fines, penalties, restrictions on our business activities, reputational harm, or other adverse consequences;
- a failure in or breach of our operational or security systems or infrastructure, or those of our third-party vendors or other service providers, including as a result of cyber attacks;
- the effect of changes in the level of checking or savings account deposits on our funding costs and net interest margin;
- fiscal and monetary policies of the Federal Reserve Board;
- changes to U.S. tax guidance and regulations, as well as the effect of discrete items on our effective income tax rate;
- our ability to develop and execute effective business plans and strategies; and
- the other risk factors and uncertainties described under “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2019, as supplemented by our Current Report on Form 8-K filed on April 14, 2020.

In addition to the above factors, we also caution that the amount and timing of any future common stock dividends or repurchases will depend on the earnings, cash requirements and financial condition of the Company, market conditions, capital requirements (including under Basel capital standards), common stock issuance requirements, applicable law and regulations (including federal securities laws and federal banking regulations), and other factors deemed relevant by the Company’s Board of Directors, and may be subject to regulatory approval or conditions.

For more information about factors that could cause actual results to differ materially from our expectations, refer to our reports filed with the Securities and Exchange Commission, including the discussion under “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2019, as supplemented by our Current Report on Form 8-K filed on April 14, 2020, as filed with the Securities and Exchange Commission and available on its website at [www.sec.gov](http://www.sec.gov).

Any forward-looking statement made by us speaks only as of the date on which it is made. Factors or events that could cause our actual results to differ may emerge from time to time, and it is not possible for us to predict all of them. We undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future developments or otherwise, except as may be required by law.

Forward-looking Non-GAAP Financial Measures. From time to time management may discuss forward-looking non-GAAP financial measures, such as forward-looking estimates or targets for return on average tangible common equity. We are unable to provide a reconciliation of forward-looking non-GAAP financial measures to their most directly comparable GAAP financial measures because we are unable to provide, without unreasonable effort, a meaningful or accurate calculation or estimation of amounts that would be necessary for the reconciliation due to the complexity and inherent difficulty in forecasting and quantifying future amounts or when they may occur. Such unavailable information could be significant to future results.

- (1) Amounts are not comparative due to our adoption of ASU 2016-13, *Financial Instruments – Credit Losses*, on January 1, 2020. Prior to January 1, 2020, pools of individual PCI loans were excluded because they continued to earn interest income from the accretable yield at the pool level. With the adoption of ASU 2016-13, the pools were discontinued and performance is based on contractual terms for individual loans.
- (2) Real estate 1-4 family mortgage loans predominantly insured by the Federal Housing Administration (FHA) or guaranteed by the Department of Veterans Affairs (VA) are not placed on nonaccrual status because they are insured or guaranteed.

(1) Represents the overall decrease in our allowance for credit losses for loans as a result of our adoption of ASU 2016-13, *Financial Instruments – Credit Losses*, on January 1, 2020.

(2) Represents the allowance for purchased credit-impaired loans that automatically became purchased credit-deteriorated (PCD) loans with the adoption of ASU 2016-13.

(3) Loans with an allowance measured by discounting expected cash flows using the loan's effective interest rate over the remaining life of the loan recognize changes in allowance attributable to the passage of time as interest income.

**TANGIBLE COMMON EQUITY**

We also evaluate our business based on certain ratios that utilize tangible common equity. Tangible common equity is a non-GAAP financial measure and represents total equity less preferred equity, noncontrolling interests, goodwill, certain identifiable intangible assets (other than mortgage servicing rights) and goodwill and other intangibles on nonmarketable equity securities, net of applicable deferred taxes. These tangible common equity ratios are as follows:

- Tangible book value per common share, which represents tangible common equity divided by common shares outstanding; and
- Return on average tangible common equity (ROTCE), which represents our annualized earnings contribution as a percentage of tangible common equity.

The methodology of determining tangible common equity may differ among companies. Management believes that tangible book value per common share and return on average tangible common equity, which utilize tangible common equity, are useful financial measures because they enable investors and others to assess the Company's use of equity.

The tables below provide a reconciliation of these non-GAAP financial measures to GAAP financial measures.

- (1) Basel III capital rules, adopted by the Federal Reserve Board on July 2, 2013, revised the definition of capital, increased minimum capital ratios, and introduced a minimum Common Equity Tier 1 (CET1) ratio. The rules are being phased in through the end of 2021. The Basel III capital requirements for calculating CET1 and tier 1 capital, along with RWAs, are fully phased-in.
- (2) Determined by applying the combined federal statutory rate and composite state income tax rates to the difference between book and tax basis of the respective goodwill and intangible assets at period end.
- (3) The final Basel III capital rules provide for two capital frameworks: the Standardized Approach and the Advanced Approach applicable to certain institutions. Accordingly, in the assessment of our capital adequacy, we must report the lower of our CET1, tier 1 and total capital ratios calculated under the Standardized Approach and under the Advanced Approach. Because the final determination of our CET1 ratio and which approach will produce the lower CET1 ratio as of March 31, 2020, is subject to detailed analysis of considerable data, our CET1 ratio at that date has been estimated using the Basel III definition of capital under the Basel III Standardized Approach RWAs. The capital ratio for December 31, September 30, June 30 and March 31, 2019, was calculated under the Basel III Standardized Approach RWAs.
- (4) The Company's March 31, 2020, RWAs and capital ratio are preliminary estimates.

- (1) The management accounting process measures the performance of the operating segments based on our management structure and is not necessarily comparable with other similar information for other financial services companies. We define our operating segments by product type and customer segment.
- (2) Includes the elimination of certain items that are included in more than one business segment, substantially all of which represents products and services for Wealth and Investment Management customers served through Community Banking distribution channels.
- (3) Net interest income is the difference between interest earned on assets and the cost of liabilities to fund those assets. Interest earned includes actual interest earned on segment assets as well as interest credits for any funding of a segment available to be provided to other segments. The cost of liabilities includes actual interest expense on segment liabilities as well as funding charges for any funding provided from other segments.
- (4) Income tax expense (benefit) for our Wholesale Banking operating segment included income tax credits related to low-income housing and renewable energy investments of \$491 million and \$427 million for first quarter 2020 and 2019, respectively.

- (1) Includes impacts associated with exercising cleanup calls on securitizations as well as our right to repurchase delinquent loans from Government National Mortgage Association (GNMA) loan securitization pools. Total reported MSR may increase upon repurchase due to servicing liabilities associated with these delinquent GNMA loans.
- (2) Includes sales and transfers of MSRs, which can result in an increase of total reported MSRs if the sales or transfers are related to nonperforming loan portfolios or portfolios with servicing liabilities.
- (3) Includes prepayment speed changes as well as other valuation changes due to changes in mortgage interest rates (such as changes in estimated interest earned on custodial deposit balances).
- (4) Includes costs to service and unreimbursed foreclosure costs.
- (5) Reflects discount rate assumption change, excluding portion attributable to changes in mortgage interest rates.
- (6) Represents changes driven by other valuation model inputs or assumptions including prepayment speed estimation changes and other assumption updates. Prepayment speed estimation changes are influenced by observed changes in borrower behavior and other external factors that occur independent of interest rate changes.
- (7) Represents the reduction in the MSR fair value for the cash flows expected to be collected during the period, net of income accreted due to the passage of time.

# Providing support for our customers

---

## COVID-19 actions:

- Offering fee waivers, payment deferrals and other expanded assistance for credit card, auto, mortgage, small business and personal lending customers who contact us
- Granting immediate 90-day payment suspension for any Wells Fargo Home Lending customer who requests assistance
- Suspended residential property foreclosures and evictions
- Suspended involuntary auto repossessions
- In the month of March alone, commercial customers utilized over \$80 billion of their loan commitments
- From March 9 through April 10:
  - Helped more than 1.3 million consumer and small business customers by deferring payments and waiving fees
    - Deferred over 1 million payments, representing \$2.8 billion of principal and interest payments for loans that we service or hold on our balance sheet
    - Provided over 900,000 fee waivers, exceeding \$30 million

## Additional actions taken in first quarter:

- Announced plans to introduce a new checkless account which will limit spending to the amount available in the account and customers will not incur overdrafts or insufficient fund fees; expected to be available early next year
- Announced plans to introduce an account that includes checks and will cap overdraft or insufficient funds fees at once per month; expected to be available early next year

# Providing support for our employees

---

## COVID-19 actions:

- For certain qualifying employees, we are making up to \$1,600 in combined payments:
  - A one-time cash award to approximately 165,000 employees, which will be reflected in their paychecks this week
  - For employees whose roles require they come into the office to serve customers or other employees, we are making additional cash payments
- Eliminated the seven-day waiting period under our short-term disability plan for U.S.-based employees so that, if they get a positive COVID-19 diagnosis, they will not need to use PTO
- Updated our U.S. medical plan to eliminate coinsurance and fully cover the cost of any medically necessary screening and testing for COVID-19
- Providing financial support for eligible employees of \$100 per day for those seeking child care through their own personal networks for up to 20 days
- Supporting front-line employees by paying employees for hours of work lost due to facility closures
- Enabled approximately 180,000 employees to work remotely
- Made \$10 million grant to the WE Care Employee relief fund

## Additional actions taken in first quarter:

- Announced plans to raise minimum hourly pay levels in the majority of our U.S. markets ranging from \$15 to \$20. This change will increase pay for more than 20,000 employees and will take effect by the end of 2020

# Providing support for our communities

---

## COVID-19 actions:

- Directing \$175 million in charitable donations from the Wells Fargo Foundation to help address food, shelter, small business and housing stability, as well as to provide help to public health organizations fighting to contain the spread of COVID-19
- Providing \$1 million to Feeding America to support their 200 member foodbanks as they work to feed people during this time of crisis
- Providing \$1 million to the CDC Foundation to meet emerging needs
- Providing \$250,000 to the International Medical Corps
- Giving substantial fees received under the Payroll Protection Program to nonprofits focused on small businesses

## Additional actions taken in first quarter:

- Announced that we are seeking to invest up to \$50 million in African American Minority Depository Institutions as part of our commitment to supporting economic growth in African American communities
- Announced plans to expand our credit offering to provide DACA recipients access to education loans; personal lines and loans; credit cards; auto loans and small business credit. Additionally, we will make mortgage and home equity loans to eligible DACA customers except where prohibited by specific investors

# Supporting The CARES Act

---

## Consumers:

- We are working with industry trade groups and the U.S. Treasury in preparation to distribute millions of Economic Impact Payments to Americans as quickly as possible
- We expect the distribution of payments to be made to our customers beginning early this week
- For those that receive checks, we have implemented changes to our ATMs and mobile app to make it more convenient to use those depository options instead of going into a branch

## Small Businesses:

- Payroll Protection Program (PPP) includes fully forgivable loans to help small businesses maintain payrolls during the COVID-19 pandemic
- We have expanded our participation in the PPP to provide additional relief for our customers and our communities
- Customers must meet the overall Small Business Administration program requirements, have a Wells Fargo Business checking account as of Feb. 15, 2020, and be enrolled in business online banking
- Through April 10, we have received more than 370,000 indications of interest from our customers

# 1Q20 Earnings

- Earnings of \$653 million included:
  - \$4.0 billion of provision expense for credit losses:
    - \$2.9 billion reserve build for loans <sup>(1)</sup>
    - \$909 million of net charge-offs for loans
    - \$172 million of provision expense for debt securities, including \$141 million reserve build <sup>(1)</sup> and \$31 million in net charge-offs
  - \$950 million of securities impairment (*recognized in net gains (losses) from equity securities and debt securities*)
  - \$621 million of net losses on equity securities from deferred compensation plan investment results, which were largely offset by a \$598 million decline in employee benefits expense (*net gains (losses) from equity securities and employee benefits expense*)
    - Please see page 23 for additional information
  - \$464 million of operating losses (*operating losses*)
  - \$463 million gain on the sale of residential mortgage loans, reclassified to held for sale in 2019 (*other noninterest income*)
  - \$379 million of mortgage banking income vs. \$783 million in 4Q19 on higher losses on loans held for sale, and higher losses on the valuation of our mortgage servicing rights asset as a result of assumption updates, primarily prepayment assumptions (*mortgage banking income*)
- Diluted earnings per common share (EPS) of \$0.01 included:
  - The redemption of our remaining Series K Preferred Stock, which reduced EPS by \$0.06 per share as a result of the elimination of the purchase accounting discount recorded on these shares at the time of the Wachovia acquisition (*preferred stock dividends*)

(1) Reserve build represents the amount by which the provision for credit losses exceeds net charge-offs, while reserve release represents the amount by which net charge-offs exceed the provision for credit losses.

# Strong capital and liquidity positions

- Capital and liquidity positions well in excess of regulatory minimums

1Q20 Common Equity Tier 1 Ratio <sup>(1)</sup>

1Q20 Liquidity Coverage Ratio (LCR) <sup>(2)</sup>

(1) 1Q20 capital ratio is a preliminary estimate. See page 41 for additional information regarding the Common Equity Tier 1 capital ratio.

(2) 1Q20 liquidity coverage ratio (LCR) is a preliminary estimate. LCR is calculated as high-quality liquid assets divided by projected net cash outflows, as each is defined under the LCR rule.

# Income Statement overview (linked quarter (LQ))

## Total revenue

- Revenue of \$17.7 billion

## Net interest income

- NII up \$112 million, and NIM up 5 bps to 2.58% predominantly reflecting the benefit of hedge ineffectiveness accounting results and lower MBS premium amortization, which was largely offset by balance sheet repricing driven by the impact of the lower interest rate environment and one fewer day in the quarter

## Noninterest income

- Noninterest income down \$2.3 billion
  - Market sensitive revenue <sup>(1)</sup> down \$1.7 billion, including \$1.9 billion of lower net gains from equity securities on an \$811 million increase in impairment and an \$857 million decline in deferred compensation plan investment results (P&L neutral)
    - Please see page 23 for additional information on net losses from equity securities, including deferred compensation
  - Mortgage banking down \$404 million on unrealized losses on residential and commercial mortgage loans held for sale (HFS) of ~ \$143 million and ~ \$62 million, respectively, due to illiquid market conditions and a widening of credit spreads, as well as \$192 million of higher losses on the valuation of our mortgage servicing rights (MSR) asset as a result of assumption updates, primarily prepayment assumptions
  - Card fees down \$128 million on lower interchange income due to seasonality and the impact of COVID-19 on consumer spending
  - Other income relatively flat as \$349 million higher gains from loan sales were offset by lower gains on the sale of businesses from a 4Q19 which included a \$362 million gain from the sale of Eastdil

## Noninterest expense

- Noninterest expense down \$2.6 billion
  - Operating losses down \$1.5 billion on lower litigation accruals
  - Employee benefits expense down \$306 million, as \$861 million of lower deferred compensation expense (largely offset by higher net losses from equity securities) was partially offset by seasonally higher payroll tax and 401(k) expense
  - Other expense categories down in the quarter included outside professional services, and technology and equipment

## Income tax expense

- 19.5% effective income tax rate included net discrete income tax expense of \$141 million driven by the accounting for stock compensation activity, the net impact of accounting for uncertain tax positions, and the outcome of U.S. federal income tax examinations

All comparisons are 1Q20 compared with 4Q19. (1) Consists of net gains (losses) from trading activities, debt securities and equity securities.

# Managing under the asset cap

As expected in an uncertain economy like our customers are facing today due to the COVID-19 pandemic, we have experienced significant loan draws and meaningful deposit inflows, which has resulted in our balance sheet expanding

- While period-end assets were \$1.981 trillion, we continued to operate in compliance with the asset cap of \$1.952 trillion which is measured at each quarter-end based on a two-quarter daily average <sup>(1)</sup>
- As of March 31, 2020, the two-quarter daily average for our assets was \$1.943 trillion <sup>(1) (2)</sup>
- We are actively working to create balance sheet capacity to lend and help our customers during these unprecedented and challenging times

(1) Assets calculated under the FRB consent order imposing the asset cap are equal to total assets excluding a portion of OCI.

(2) The two-quarter daily average for our assets as of March 31, 2020 is a preliminary estimate.

# Average loans

  - Commercial loan growth of \$55.5 billion driven by growth in C&I loans
  - Consumer loans up \$6.1 billion as growth in first mortgage loans, auto loans and credit card loans was partially offset by declines in junior lien mortgage loans and other revolving credit and installment loans
- Total period-end loans up \$47.6 billion, or 5%, LQ on growth in commercial and industrial loans, commercial real estate loans, and auto loans
  - Commercial loan growth of \$52.0 billion included more than \$80 billion of gross draws on Commercial Banking and Corporate & Investment Banking loans in the month of March
    - Wholesale Banking revolving loan utilization in March <sup>(1)</sup> of 48.6%, up 860 bps LQ
  - Consumer loans down \$4.4 billion as declines in credit card loans, consumer real estate loans, and other revolving credit and installment loans were partially offset by growth in auto loans
    - Draws on first and junior lien mortgage loans <sup>(2)</sup> were \$2.7 billion in 1Q20, up 25% YoY, with draws in March of \$1.2 billion, up 80% YoY
  - Please see pages 13 and 14 for additional information

(1) Preliminary estimate.

(2) Reflects draws on first and junior lien mortgage loans performed more than 90 days after origination.

# Consumer loan trends

**Consumer loans up \$6.1 billion YoY; down \$4.4 billion LQ as declines in credit card, consumer real estate, and other revolving credit were partially offset by growth in auto loans**

(\$ in billions, Period-end balances)

B= billion, MM = million

## Consumer Real Estate 1-4 Family First & Junior Lien Mortgage

- First mortgage loans up \$8.4B YoY and down \$927MM LQ
  - LQ decrease driven by paydowns, partially offset by \$14.3B of originations
- Junior lien mortgage loans down \$4.6B YoY and \$982MM LQ as continued paydowns more than offset new originations and \$1.8B of customer draws <sup>(1)</sup>

## Credit Card

- Credit card up \$303MM YoY on purchase volume growth, and down \$2.4B LQ driven by seasonality and fewer new account openings

## Automobile

- Auto loans up \$3.7B YoY and \$695MM LQ
- Originations of auto loans up 19% YoY reflecting a continued emphasis on growing auto loans following the restructuring of the business, and down 5% LQ reflecting a slowdown in March due to COVID-19

## Other Revolving Credit and Installment

- Other revolving credit and installment loans down \$1.7B YoY on lower student loans and margin loans, and down \$793MM LQ

(1) Reflects draws on junior lien mortgage loans performed more than 90 days after origination.

  - Noninterest-bearing deposits up \$8.6 billion, or 3%
  - Interest-bearing deposits up \$67.3 billion, or 7%
- Average deposit cost of 52 bps, down 13 bps YoY, reflecting the lower interest rate environment
  - Retail banking up 15 bps reflecting higher interest rate deposit campaign pricing for new deposits in early 2019
  - Wholesale Banking down 29 bps
  - WIM down 18 bps
- Average deposits up \$16.1 billion, or 1%, LQ on growth across the deposit gathering businesses reflecting customers' flight to quality due to COVID-19
  - Noninterest-bearing deposits down \$4.3 billion, or 1%
  - Interest-bearing deposits up \$20.4 billion, or 2%
- Average deposit cost down 10 bps LQ reflecting the lower interest rate environment
  - Wholesale Banking down 15 bps
  - WIM down 9 bps
  - Retail banking down 3 bps

# Period-end deposit trends

- Period-end deposits of \$1.4 trillion, up \$112.5 billion, or 9%, YoY on growth across the deposit gathering businesses reflecting customers' flight to quality due to COVID-19
- Period-end deposits up \$53.9 billion, or 4%, LQ reflecting customers' flight to quality due to COVID-19
  - Wholesale Banking deposits up \$13.5 billion, or 3%, largely reflecting growth in Commercial Banking and Commercial Real Estate deposits as customers drew on their revolving lines, partially offset by lower Financial Institution deposits reflecting actions taken to manage to the asset cap
  - Corporate Treasury deposits including brokered CDs down \$5.4 billion, or 7%
  - Mortgage escrow deposits up \$4.7 billion, or 20%, predominantly reflecting higher mortgage payoffs and seasonality of property tax payments
  - Consumer and small business banking deposits <sup>(1)</sup> of \$815.5 billion, up \$41.1 billion, or 5%, and included:
    - Higher retail banking deposits largely driven by growth in high-yield savings and interest-bearing checking
    - Higher WIM deposits due to growth in brokerage clients' cash balances

(1) Total deposits excluding mortgage escrow and wholesale deposits (Wholesale Banking, and Corporate Treasury including brokered CDs).

- Net interest income decreased \$1.0 billion, or 8%, YoY reflecting the lower interest rate environment
- Net Interest income increased \$112 million, or 1%, LQ reflecting:
  - \$356 million higher hedge ineffectiveness accounting results <sup>(2)</sup> reflecting large interest rate changes in the quarter
  - \$84 million lower MBS premium amortization resulting from lower prepayments (1Q20 MBS premium amortization was \$361 million vs. \$445 million in 4Q19)
  - Partially offset by balance sheet repricing, including the impact of the lower interest rate environment, and one fewer day in the quarter
- Average earning assets down \$1.2 billion LQ:
  - Debt securities down \$7.0 billion
  - Mortgage loans held for sale down \$3.6 billion
  - Short-term investments / fed funds sold down \$1.6 billion
  - Equity securities down \$746 million
  - Loans up \$8.5 billion
- NIM of 2.58% up 5 bps LQ and included:
  - ~8 bps from hedge ineffectiveness accounting results
  - ~2 bps from MBS premium amortization
  - ~(5) bps from balance sheet mix and repricing

(1) CMT = Constant Maturity Treasury rate.

(2) Total hedge ineffectiveness accounting (including related economic hedges) of \$266 million in the quarter included \$287 million in net interest income and \$(21) million in other income. In 4Q19 total hedge ineffectiveness accounting (including related economic hedges) was \$(58) million and included \$(69) million in net interest income and \$11 million in other income. Changes in the level of market rates, basis relationships, hedge notional, and the size of hedged portfolios contribute to differing levels of hedge ineffectiveness each quarter.

# Net losses from equity securities including deferred compensation

- \$1.4 billion of net losses from equity securities in the first quarter, including \$621 million of largely P&L neutral deferred compensation plan investment losses
  - \$935 million of securities impairment reflecting lower market valuations
    - Impairments on venture capital, private equity, and certain wholesale businesses (Norwest Venture Partners, Norwest Equity Partners, Wells Fargo Strategic Capital) represented 17% of the carrying values of these businesses' portfolio investments that are subject to impairment assessments
  - \$621 million of losses on marketable equity securities held to economically hedge deferred compensation obligations. As detailed below, deferred compensation plan investment results are largely P&L neutral, as we attempt to neutralize the impact of market fluctuations from employee elections, which are recognized in employee benefits expense, by entering into economic hedges

- Personnel expense down \$494 million
  - Salaries flat
  - Commission and incentive compensation down \$188 million on lower restricted stock award expense, as well as lower revenue-related incentive compensation
  - Employee benefits expense down \$306 million as a \$861 million decline in deferred compensation expense (P&L neutral) was partially offset by \$544 million in seasonally higher payroll taxes and 401(k) matching expenses
    - Please see page 23 for additional information on deferred compensation expense
- Technology and equipment expense down \$141 million from a 4Q19 that included a capitalized software impairment expense
- Outside professional services expense <sup>(2)</sup> down \$149 million on lower project-related expenses, as well as lower legal expense
- Operating losses <sup>(2)</sup> down \$1.5 billion on lower litigation accruals

(1) Efficiency ratio defined as noninterest expense divided by total revenue (net interest income and noninterest income).

(2) The sum of Outside professional services expense, Operating losses and Other expense equals Other noninterest expense in the Consolidated Statement of Income, pages 19 and 20 of the press release.

- Average consumer and small business banking deposit balances up 2% LQ and 5% YoY
- Teller and ATM transactions <sup>(1)</sup> of 289.4 million in 1Q20, down 8% both LQ and YoY primarily due to the temporary closure of approximately 1,400 branches, which is about one-fourth of our nationwide network, as a result of the impact of COVID-19, as well as the continued customer migration to digital channels
- Debit cards <sup>(2)</sup> and consumer general purpose credit cards <sup>(3)</sup>:
  - Point-of-sale (POS) debit card transactions down 6% LQ due to normal post-holiday seasonality, as well as the impact of COVID-19, and up 1% YoY despite reduced spending due to COVID-19
  - POS debit card purchase volume down 5% LQ and up 5% YoY due to the same impacts listed above under POS debit card transactions
  - POS consumer general purpose credit card purchase volume down 13% LQ reflecting reductions in customer spending due to COVID-19, as well as seasonality, and down 1% YoY
  - Consumer general purpose credit card average balances of \$32.3 billion, stable LQ and up 5% YoY reflecting an increase in POS spend during the first two months of 2020 compared with the first two months of 2019

## Nonperforming Assets

(\$ in billions)

- Net charge-offs on loans of \$909 million, up \$140 million LQ
- 0.38% net charge-off rate (annualized), up 6 bps LQ
  - Commercial losses of 25 bps, up 9 bps LQ on higher commercial and industrial losses primarily related to higher oil and gas net charge-offs reflecting significant declines in oil prices
    - See page 31 for additional information on the oil and gas portfolio
  - Consumer losses of 53 bps, up 2 bps LQ driven by higher losses in credit card
- NPAs increased \$759 million LQ
  - Nonaccrual loans increased \$810 million
    - Commercial nonaccruals increased \$621 million predominantly driven by the commercial real estate, and commercial and industrial portfolios as the effect of the COVID-19 pandemic on market conditions began to impact our customer base
    - Consumer nonaccrual loans increased \$189 million predominantly driven by higher nonaccruals in the real estate 1-4 family first mortgage loan portfolio as the implementation of CECL required purchased credit-impaired (PCI) loans to be classified as nonaccruing based on performance
  - Foreclosed assets down \$51 million
- Allowance for credit losses for loans = \$12.0 billion
  - Allowance coverage for total loans = 1.19%
  - Allowance covered 3.3x annualized 1Q20 net charge-offs on loans
  - Allowance coverage for nonaccrual loans = 195%
  - See page 32 for additional information

# Oil and gas loan portfolio performance

- Oil and gas loans outstanding up 5% LQ and 7% YoY reflecting increased utilization driven by the impact of COVID-19 and the decline in oil prices in 1Q20, and total commitments <sup>(1)</sup> down 3% LQ and 2% YoY reflecting a weaker credit environment

## Loans Outstanding and Total Commitments <sup>(1)</sup>

(\$ in billions)

## Credit performance overview

- \$186 million of net charge-offs in 1Q20, up \$112 million LQ
  - 89% of net charge-offs from the exploration & production (E&P) sector
- Nonaccrual loans of \$549 million, down \$66 million LQ as higher net charge-offs, as well as loan payments, were partially offset by new downgrades to nonaccrual status in the quarter
  - ~84% of nonaccruals current on payments
  - 99% of nonaccruals from the E&P and services sectors
  - Substantially all nonaccruals were senior secured
- Criticized loans of \$3.1 billion, up \$591 million, or 23%, LQ predominantly reflecting increases from the E&P sector

(1) Total commitments = Loans outstanding + unfunded commitments, excluding issued letters of credit.

# Current expected credit losses (CECL)

---

- Total allowance for credit losses (ACL) for loans and debt securities = \$12.2 billion
  - Total ACL for loans and unfunded commitments = \$12.0 billion, or 1.19% of loans, up \$1.6 billion LQ
    - Commercial ACL down \$967 million to \$5.3 billion
    - Consumer ACL up \$2.5 billion to \$6.7 billion
  - Total ACL for AFS and HTM debt securities = \$172 million
  
- Upon adoption of CECL on January 1, 2020, we recognized a \$1.3 billion reduction in our allowance for credit losses (ACL) and a corresponding increase (pre-tax) in retained earnings, predominantly reflecting:
  - \$2.9 billion decline in commercial ACL reflecting shorter contractual maturities given limitation to contractual terms
  - \$1.5 billion increase in consumer ACL reflecting longer contractual terms or indeterminate maturities, offset by expectation of recoveries in collateral value on residential mortgage loans previously written down significantly below current recovery value
  
- From January 2, 2020 to March 31, 2020, we added \$3.1 billion to our ACL for loans and debt securities driven by the following:
  - Economic sensitivity due to COVID-19 pandemic
    - Internal economic model reflects associated impacts to our portfolios
  - Industries most adversely affected in the near term by the COVID-19 pandemic
    - Sensitivity analysis on several commercial industries designated with high, medium and low sensitivities
  - Oil and gas industry exposure
    - Reflects lower oil prices and deteriorating credit trends; see page 31 for additional information
  - Draws on loan commitments
    - \$52.0 billion of commercial loan growth in 1Q20 was driven by loan draws
  - \$141 million reserve build for debt securities reflecting economic and market conditions

# Capital

## Common Equity Tier 1 Ratio <sup>(1)</sup>

## Capital Position

- After a multi-year program to return excess capital to shareholders, the Common Equity Tier 1 ratio of 10.7% at 3/31/20 <sup>(1)</sup> continued to be above both the regulatory minimum of 9% and our current internal target of 10%

## Capital Return

- Period-end common shares outstanding down 38.0 million shares, or 1%, LQ
  - Settled 75.4 million common share repurchases
    - Suspended share repurchases on 3/15/20
  - Issued 37.4 million common shares
- Returned \$5.0 billion to shareholders in 1Q20
  - Net share repurchases of \$2.9 billion
  - Quarterly common stock dividend of \$0.51 per share, up 13% YoY
- Issued \$2.0 billion of Non-Cumulative Perpetual Class A Preferred Stock, Series Z
- Redeemed the remaining \$1.8 billion of our Fixed-to-Floating Rate Non-Cumulative Perpetual Class A Preferred Stock, Series K
- Redeemed \$668 million of our Non-Cumulative Perpetual Class A Preferred Stock, Series T

## Total Loss Absorbing Capacity (TLAC) Update

- As of 3/31/20, our eligible external TLAC as a percentage of total risk-weighted assets was 23.2% <sup>(2)</sup> compared with the required minimum of 22.0%

(1) 1Q20 capital ratio is a preliminary estimate. See page 41 for additional information regarding the Common Equity Tier 1 capital ratio.

(2) 1Q20 TLAC ratio is a preliminary estimate.

## Consumer Portfolio

- Auto outstandings of \$48.6 billion, up 1% LQ and 8% YoY
  - 1Q20 originations of \$6.5 billion, down 5% LQ influenced by a national slowdown late in 1Q20 due to COVID-19, but up 19% YoY
- Nonaccrual loans decreased \$7 million LQ on seasonality and \$17 million YoY
- Net charge-offs down \$5 million LQ on seasonality, and down \$9 million YoY predominantly driven by lower early losses from higher quality originations
- 30+ days past due decreased \$113 million LQ on seasonality and increased \$76 million YoY on growth in loan balances

## Commercial Portfolio

- Loans of \$10.8 billion, flat LQ on seasonality and down 3% YoY due to lower floorplan utilization as dealers held less inventory

- Fixed income, currencies and commodity trading (FICC) generated 76% of total trading-related revenue in 1Q20
- Trading-related revenue of \$838 million was down \$145 million, or 15%, LQ:
  - Net interest income decreased \$78 million, or 9%, reflecting lower average trading assets and lower yields
  - Net gains from trading activities down \$67 million, or 51%, as higher trading losses in asset-backed securities and lower credit trading were partially offset by higher rates and commodities trading and a higher equity derivatives valuation adjustment
- Trading-related revenue was down \$314 million, or 27%, YoY:
  - Net interest income decreased \$21 million, or 3%, primarily driven by lower yields on residential mortgage-backed securities and loan trading
  - Net gains from trading activities down \$293 million reflecting losses in asset-backed trading and credit trading, partially offset by higher rates and commodities results

# Wholesale Banking adjusted efficiency ratio for income tax credits

We also evaluate our Wholesale Banking operating segment based on an adjusted efficiency ratio for income tax credits. The adjusted efficiency ratio for income tax credits is a non-GAAP financial measure and represents noninterest expense divided by total revenue plus income tax credits related to our low-income housing and renewable energy investments and related tax equivalent adjustments

Management believes that the adjusted efficiency ratio for income tax credits is a useful financial measure because it enables investors and others to compare efficiency results from both taxable and tax-advantaged sources on a consistent basis

The table below provides a reconciliation of this non-GAAP financial measure to GAAP financial measures

<i>(in millions)</i>		1Q20	4Q19	3Q19	2Q19	1Q19

Common Equity Tier 1 to total RWAs anticipated under Basel III (4)	(A)/(B)	10.7%	11.1	11.6	12.0	11.9

- (1) Basel III capital rules, adopted by the Federal Reserve Board on July 2, 2013, revised the definition of capital, increased minimum capital ratios, and introduced a minimum Common Equity Tier 1 (CET1) ratio. The rules are being phased in through the end of 2021. The Basel III capital requirements for calculating CET1 and tier 1 capital, along with RWAs, are fully phased-in.
- (2) Determined by applying the combined federal statutory rate and composite state income tax rates to the difference between book and tax basis of the respective goodwill and intangible assets at period end.
- (3) The final Basel III capital rules provide for two capital frameworks: the Standardized Approach and the Advanced Approach applicable to certain institutions. Accordingly, in the assessment of our capital adequacy, we must report the lower of our CET1, tier 1 and total capital ratios calculated under the Standardized Approach and under the Advanced Approach. Because the final determination of our CET1 ratio and which approach will produce the lower CET1 ratio as of March 31, 2020, is subject to detailed analysis of considerable data, our CET1 ratio at that date has been estimated using the Basel III definition of capital under the Basel III Standardized Approach RWAs. The capital ratio for December 31, September 30, June 30 and March 31, 2019, was calculated under the Basel III Standardized Approach RWAs.
- (4) The Company's March 31, 2020, RWAs and capital ratio are preliminary estimates.

# Forward-looking statements

---

*This document contains forward-looking statements. In addition, we may make forward-looking statements in our other documents filed or furnished with the SEC, and our management may make forward-looking statements orally to analysts, investors, representatives of the media and others. Forward-looking statements can be identified by words such as “anticipates,” “intends,” “plans,” “seeks,” “believes,” “estimates,” “expects,” “target,” “projects,” “outlook,” “forecast,” “will,” “may,” “could,” “should,” “can” and similar references to future periods. In particular, forward-looking statements include, but are not limited to, statements we make about: (i) the future operating or financial performance of the Company, including our outlook for future growth; (ii) our noninterest expense and efficiency ratio; (iii) future credit quality and performance, including our expectations regarding future loan losses and our allowance for credit losses; (iv) the appropriateness of the allowance for credit losses; (v) our expectations regarding net interest income and net interest margin; (vi) loan growth or the reduction or mitigation of risk in our loan portfolios; (vii) future capital or liquidity levels, ratios or targets; (viii) the performance of our mortgage business and any related exposures; (ix) the expected outcome and impact of legal, regulatory and legislative developments, as well as our expectations regarding compliance therewith; (x) future common stock dividends, common share repurchases and other uses of capital; (xi) our targeted range for return on assets, return on equity, and return on tangible common equity; (xii) expectations regarding our effective income tax rate; (xiii) the outcome of contingencies, such as legal proceedings; and (xiv) the Company’s plans, objectives and strategies. Forward-looking statements are not based on historical facts but instead represent our current expectations and assumptions regarding our business, the economy and other future conditions. Investors are urged to not unduly rely on forward-looking statements as actual results could differ materially from expectations. Forward-looking statements speak only as of the date made, and we do not undertake to update them to reflect changes or events that occur after that date. For more information about factors that could cause actual results to differ materially from expectations, refer to the “Forward-Looking Statements” discussion in Wells Fargo’s press release announcing our first quarter 2020 results and in our most recent Quarterly Report on Form 10-Q, as well as to Wells Fargo’s other reports filed with the Securities and Exchange Commission, including the discussion under “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2019, as supplemented by our Current Report on Form 8-K filed on April 14, 2020.*
