Market Commentary

UK housing market overview

HM Treasury's Consensus Forecasts, which draw from a group of 30 professional forecasters, show the UK is set to see one of the highest economic growth rates across advanced economies in 2022. The median GDP growth expectation is 4.3% for the UK over the next 12 months as the economy continues to re-open. The UK's economy is expected to be back ahead of pre-pandemic levels by the end of Q1 2022.

In an attempt to contain inflation, after hitting a 30-year high, The Bank of England has increased the base interest rate by 25 basis points, up from 0.75% to 1.0%. It had been expected that further rate rises could be introduced later in the year, however, the current geo-political uncertainty may serve to slow further rate rises for the time being. Ultimately, interest rates remain low by historical standards, and are likely to remain so for the next few years. Subsequently, high inflation rates and increased taxes have kept spending power at 2008 levels.

Despite continued uncertainty from the Omicron wave of Covid-19, the UK unemployment rate fell further than expected, to 3.9%, down from 4.1% in the final quarter of 2021. Job vacancies in December 2021 to February 2022 rose to a new record of 1.3million; an increase of 105,000 from the previous quarter. Over half of the industries in the UK are showing record highs of job vacancies.

Rightmove reported averaged asking prices rose 1.7% in March 2022 compared with the previous month, the highest March increase since 2004. This means average asking prices are now 10.4% higher than they were a year ago.

The rental market is seeing demand outstrip supply, with Zoopla reporting demand for rental properties was up 76% in January 2022 compared with the same period between 2018 and 2021. The latest rental figures show rental growth for new lets hit 8.3% in December 2021.

Month-on month across the UK the average price of a property rose by 0.4% in January 2022. As of January 2022, the average house price in the UK is £273,762, which is a 9.6% increase on the previous year. Meanwhile, average house prices in London fell by -1.8% in January 2022 compared with the previous month.

Non-seasonally adjusted monthly transactions are estimated to have increased by 15.3% to 96,250 in February 2022 across the UK. Transactions in the year to February 2022 are 31% above transactions in the year to February 2021.

Mortgage approvals for home purchases (NSA) increased by 22% from 52,804 in January 2022 to 64,521 in February. It is not unusual for mortgage approvals to significantly increase from January to February each year. Annual mortgage approvals totalled 911,468 in the year to February 2022, 12% above the previous 5-year average (2017-2021) and 24.4% higher than 2020.

The Department for Levelling Up, Housing and Communities reported that there were over 174,800 starts in England in the year to December 2021, a 35% increase on the number of starts recorded during 2020. In the same period, completions in England totalled 175,390, a 19% increase on the previous year, however a marginal decline of -1.4% on the year to December 2019.

JLL UK housing market forecast - April 2022

While UK house price growth remains strong at circa 10% pa, several significant headwinds have emerged in 2022 which are likely to have a dampening effect on the market.

Covid continues to impact global supply chains and the War in Ukraine has added additional volatility and uncertainty to the global economy.

Energy prices have risen sharply and the UK is now seeing the longest period of high inflation since the early 1990s.

The cost of living squeeze felt by many households could impact confidence translating into some delayed housing transactions. This should create additional demand for private renting, albeit a cost-conscious customer base will, to some extent, hold back rental value growth.

Balanced against these headwinds, there are also several positive drivers for the UK housing market as outlined in the overview section above.

HM Treasury's Consensus Forecasts of 30 professional forecasters show the UK is predicted to see the strongest economic growth of all of the G7 advanced economies in 2022.

And with more than 200,000 people taking early retirement during Covid, the number of job vacancies has now reached circa 1.3m – a record for the UK. But many of the skills required for the vacancies are in short supply driving strong wage growth across many sectors.

In periods of heightened uncertainty, markets tend to see a flight-to-safety with investors targeting defensive assets such as housing.

And against this backdrop, the UK is once again expected to see near record levels of investment into rental housing, with the build-to-rent sector being the main beneficiary.

Forecasts impact

In Q4 2021 JLL forecast that the UK would see a general cooling in housing price growth in 2022, a drop off in housing transactions compared with 2021 and a continued shortfall in new home delivery to meet housing demand. Due to the fine balance of current headwinds and tailwinds, we are standing by our forecasts, but will continue to monitor the situation closely.

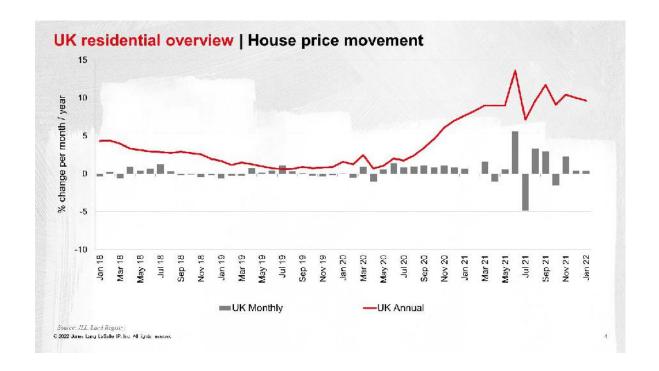

Residential Sales Forecasts	2022	2023	2024	2025	2026	Total 2022-26	Average pa
UK House Price Change (% pa)	4.5	4.5	3	3.5	4.5	21.7	4
UK Rental Value Change (% pa)	2.5	2.5	2	2.5	2.5	12.6	2.4

UK housing market analysis

Using a selection of data from Government sources, including Land Registry, HMRC and DLUHC, as well as survey data collected by the RICS (the Royal Institution of Chartered Surveyors), this section provides a detailed analysis of the UK housing market.

House price growth

Month-on month across the UK the average price of a property rose by 0.4% in January 2022. At £273,762 the average price of a property is 9.6% higher than a year ago.

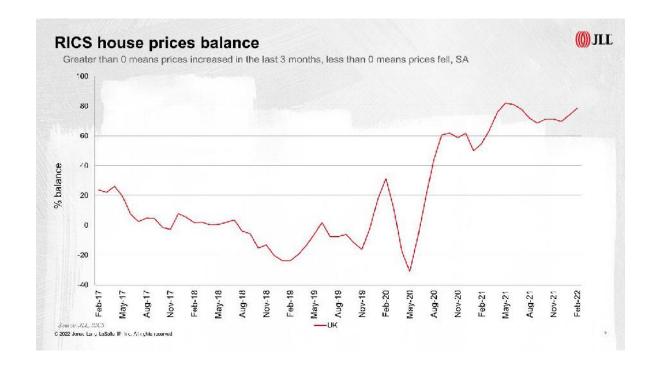

Data from Land Registry reveals that house prices have increased in all regions in the year to January 2022. While London continues to see the lowest price growth of the regions, both the north and the west have seen high levels of growth. Regional house price growth in Scotland increased by 10.8% in the year to January 2022, the highest increase of any region. This is followed by a rise of 9% in Wales and 7.1% in the North West.

Housing supply and demand

The following section analyses data from the RICS Housing Market Survey, a useful tool when analysing demand, supply and pricing in the UK housing market. The data is sourced from a survey of chartered surveyors across the UK and it includes a range of questions from their future perceptions of the market to how the market has moved in the preceding three months.

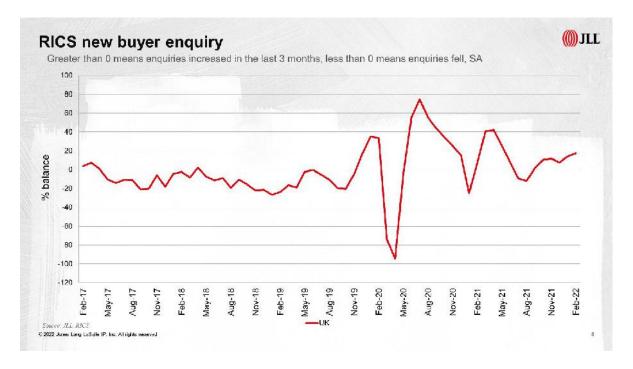

Several results are presented through a balance of surveyor views. Results below zero indicate that demand/supply/price is falling while positive values reveal a rise in demand/supply/price. Each value describes the rate at which demand/supply/price is growing or falling which are useful in analysing the momentum of the market. The findings of the survey are presented below.

The RICS survey reveals that, on a seasonally adjusted basis, the price balance was +78.8 in February 2022, higher than November 2021 at 71.3 in the UK. This suggests that the majority of surveyors agree that prices have increased in the last 3 months to February 2022 across the UK.

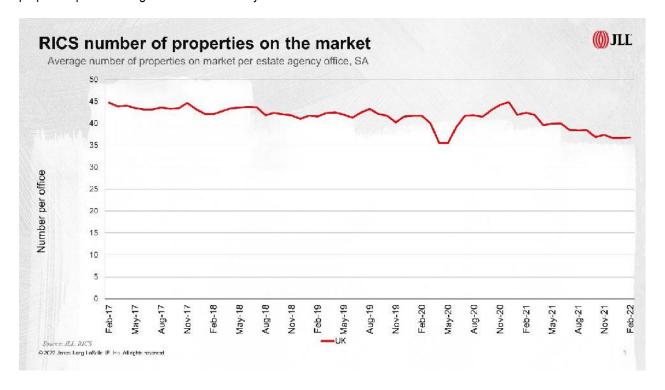

The chart below reveals the difference in the proportion of surveyors who believe that the number of new buyer enquiries in the last three months has risen, against those who believe that they have fallen. Any figures below zero indicate that more surveyors feel that demand has fallen rather than risen in the last three months. The balance reveals not only the changes in demand but also how quickly levels of demand have moved.

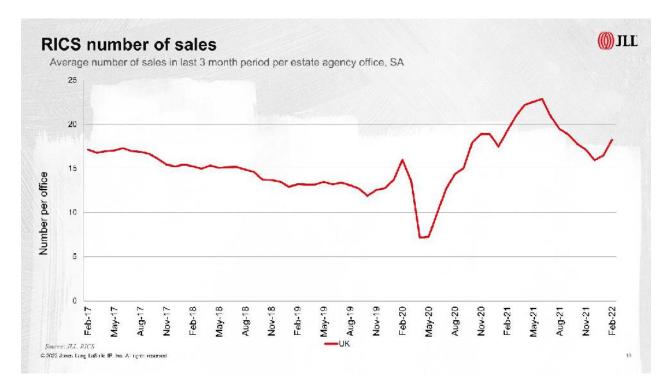

The RICS survey reveals that, on a seasonally adjusted basis, housing demand has fluctuated greatly over the past 12 months. Housing demand remained positive, rising from +11.8 in November 2021 to +17.4 in February 2022 across the UK.

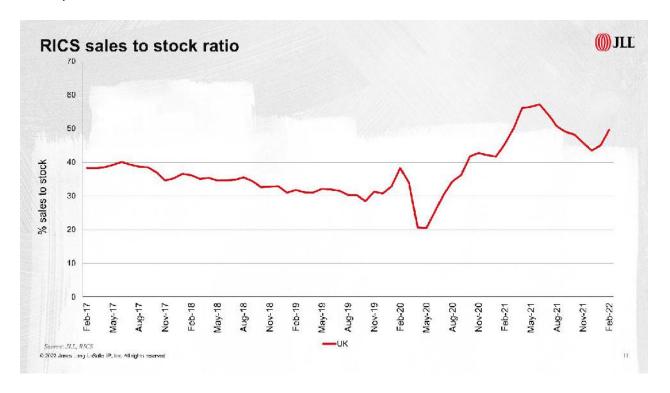

According to the RICS survey, the average number of properties on the market has decreased since February 2021, falling to 36.8 properties per estate agent office in February 2022 across the UK.

The average number of sales per month per estate agency office fell to 15.9 in December 2021, but recovered to 18.2 in February 2022. It is still lower than the June 2021 peak of 22.9 sales but remains well above pre-pandemic levels.

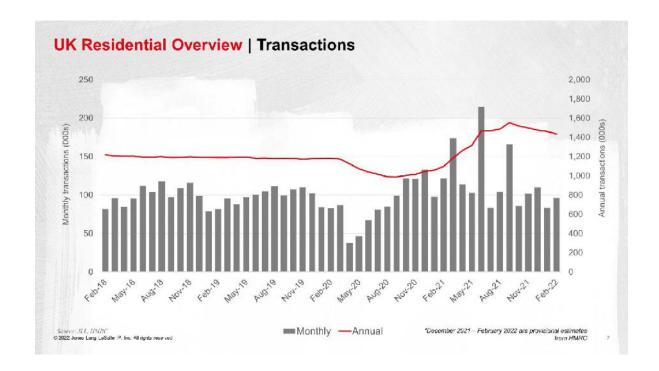

Data from the RICS survey reveals that the sales to stock ratio had decreased in the last quarter of 2021, reaching 43.5 in December 2021. While this ratio remained well above pre-pandemic levels, this movement was reflective of the tapering end of the Stamp Duty Land Tax holiday and the relative easing of demand. The first two months of 2022 have seen numbers rise again reaching 49.6 in February 2022 across the UK.

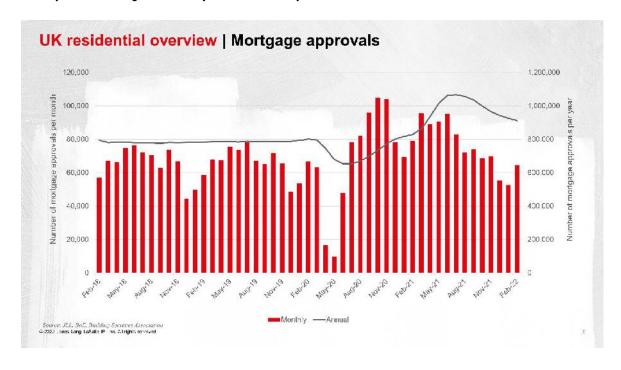

Housing transactions

HMRC data for 2021 reveals that transactions reached unprecedented levels in June 2021 (The end of the first phase of the stamp duty holiday), with similar increases in sales in March and September tied to stamp duty. The HMRC estimates that there were 96,250 transactions in February 2022 (NSA), an increase of 15.3% on the previous month. On an annual basis, transactions to February 2022 are estimated to total 1,435,980, 31% above total transactions in the year to February 2021.

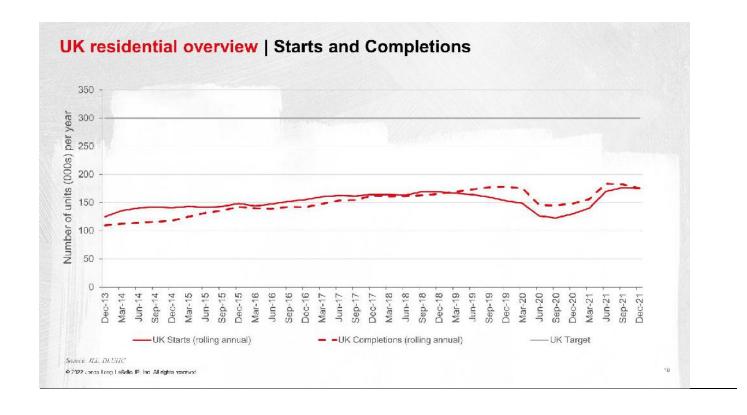

The mortgage market

Data from the Bank of England shows that monthly national mortgage approvals (NSA) increased by 22% from 52,804 in January 2022, to 64,521 in February 2022. It is not unusual for mortgage approvals to significantly increase from January to February each year. On an annual basis, mortgage approvals remain well above pre-pandemic levels, with the number of mortgages approved to February 2022 16% higher than they were in February 2019.

Housing development

The number of rolling annual housing starts in England decreased by -0.9% from Q3 2021 to Q4 2021. There were however, approximately 174,880 starts in England in the year to December 2021, a 35% increase on the year prior. Annual rolling completions across England increased by 19% in the year to December 2021. There were 175,390 completions, compared with 147,890 a year earlier. Over the past ten years, housing completions in England have remained well below the delivery target of 240,000-300,000 homes per annum.

Dear Sirs

3,684 Affordable Housing owned by Sanctuary Scotland Housing Association Limited relating to the issue by the Issuer of £150,000,000 2.375 per cent. Secured Bonds due 2050 (the "New Bonds") (to be consolidated and form a single series with the £350,000,000 2.375 per cent. Secured Bonds due 2050 (the "Existing Bonds" and, together with the New Bonds, the "Bonds"))

We are pleased to attach our report in connection with the above.

If you have any questions about this report or require any further information, please contact the undersigned.

This report is issued for the benefit and use of the Addressees and for inclusion in the admission particulars for the issue of the New Bonds (the "Admission Particulars" and, the Admission Particulars in preliminary form (the "Preliminary Admission Particulars") and the "Bond Issue") and may only be used in connection with the Admission Particulars, the Preliminary Admission Particulars and the Bond Issue. We hereby give our consent to the publication of this report within the Admission Particulars and the Preliminary Admission Particulars and accept responsibility for the information contained in this report.

Having taken all reasonable care to ensure that such is the case, the information given in this report is, to the best of our knowledge, in accordance with the facts and contains no omission likely to affect its import.

Before this report or any part of it is reproduced or referred to in any document, circular or statement (other than the Admission Particulars in respect of the New Bonds), our written approval as to the form and context of such publication must be obtained.

Executive Summary

This summary should be read in conjunction with the main body of our report. Section numbers are supplied where relevant.

Introduction

The date of this report is 15 July 2022.

Jones Lang LaSalle Limited has been instructed to value a portfolio of 3,684 Affordable Housing units that are owned by Sanctuary Scotland Housing Association Limited ("the Borrower") for loan security purposes.

Properties

The portfolio comprises 3,684 Affordable Housing that are located across Scotland. From the information provided by the Borrower, together with our previous inspections of this portfolio that were carried out between 11 February 2019 and 20 February 2019 and between 20 September 2019 and 3 October 2019, the portfolio is a mixture of construction types and comprises a mixture of ages ranging from c. 1900 to 2018 with an average age of c. 1998. Construction is both traditional and non-traditional.

The portfolio contains a mixture of different tenures as summarised in the table overleaf and set out in greater detail in section 3 of this report.

In addition, there are 126 units in the portfolio which form ancillary accommodation. The Borrower's interest in the properties is considered to be de minimis for the purpose of this exercise and so these properties have been included at nil value. Furthermore, please note that these properties have not been included in any unit counts or other statistics in this report.

In addition there is 1 shared ownership unit that, as advised by the Borrower, has been held at nil value for the purposes of this valuation exercise.

In accordance with our instructions, we have carried out a desktop valuation of this stock and have not inspected the properties (section 3).

Valuations

The Borrower holds Heritable interests (Scottish equivalent of English freehold) in these properties. As such, there is no split as to leasehold and freehold valuations.

The effective date is 31 March 2022.

Our valuation of the 306 properties being valued on the basis of Existing Use Value for Social Housing ("EUV-SH"), in aggregate, at the valuation date is:

£19,550,000 (nineteen million, five hundred and fifty thousand pounds)

Our valuation of the 3,251 properties being valued on the basis of Market Value subject to Tenancies ("MV-T"), in aggregate, at the valuation date is:

£274,690,000 (two hundred and seventy-four million, six hundred and ninety thousand pounds)

The following table summarises our opinions of value (section 5):

Category	Unit Count	Basis of Value	EUV-SH	MV-T
General Needs 1920-1949	167	MV-T	£8,560,000	£12,470,000
General Needs 1950-1979	645	MV-T	£28,030,000	£35,400,000
General Needs 1980s	49	MV-T	£1,920,000	£2,180,000
General Needs 1990s	131	MV-T	£6,150,000	£11,640,000
General Needs 1990s Restricted	34	EUV-SH	£1,360,000	
General Needs 2000s	813	MV-T	£55,170,000	£71,580,000
General Needs 2000s Restricted	16	EUV-SH	£1,100,000	
General Needs Post 2010	1,212	MV-T	£78,530,000	£113,650,000
General Needs Post 2010 Restricted	103	EUV-SH	£6,710,000	
General Needs Pre-1919	8	MV-T	£290,000	£570,000
Mid Market Rent Post 2010	161	MV-T	£13,740,000	£23,050,000
Mid Market Rent Post 2010 Restricted	124	EUV-SH	£9,610,000	
Sheltered Housing 1990s	19	MV-T	£1,110,000	£1,210,000
Sheltered Housing 2000s	20	EUV-SH	£260,000

	3,557		£215,300,000	£274,690,000
Ancillary Units	126		-	-
Shared Ownership Unit*	1		-	-
	3,684			

^{*}the Borrower has confirmed that this unit is to be held at nil value.

Portfolio Analysis

Strengths:

- located in throughout Scotland with the largest clusters in Glasgow c. 32%, Cumbernauld c. 24.89% and Dundee 16.69%;
- given the divergence between property prices and local average earnings, demand for these properties should be sustainable in the medium to long term;
- the level of rental income for all areas is broadly in line with other Registered Providers ("RSLs") in the respective areas;
- the level of rental income is, in aggregate, below the relevant levels of Local Housing Allowance (LHA) for each region;
- no Right to Buys in Scotland;
- the EUV-SH and MV-T values per unit and percentage relationships to MV-VP, are at levels appropriate to the current climate, having regard to the portfolio's location and composition;
- there are currently c. 142,000 people in Scotland that are waiting for council or social housing, up from 108,000 in 2016;
- oil price is currently trading at \$111, at the time of writing, a barrel for Brent Crude which underpins all Aberdeen / Aberdeenshire property markets (a significant increase from \$65 a barrel in August 2021); and
- EUV-SH values are likely to maintain their current levels as stock transactions within the sector and access to debt markets continue to take place, albeit with more hesitancy due to market fluctuations.

Weaknesses:

- c. 57% of the portfolio was constructed before 2010. As such the age of these properties means that they require continued investment in order to be able to maintain the same level of rental income in the long term;
- 258 units are located in Aberdeen/Aberdeenshire which is affected by global oil prices;
- letting issues within the MMR units at Walker Gardens, Aberdeen (currently c. 10% voids);
- downward pressure on house prices in the medium-term and falling transaction volumes could impact upon MV-T values going forward; and
- there are short-term risks for RSLs' income not supported by housing benefit and a greater number of voids and arrears.

Opportunities:

- increased efficiencies are continuing to be driven by mergers between Housing Associations;
- rationalisation of RPs' stock allowing for more efficient asset management;
- investment of REITs and other funds into the sector as whole;

- address the letting issues for the MMR units at the Walker Gardens Scheme in Aberdeen; and
- reactive changes to working conditions and government policy could drive further efficiencies in the sector and wider economy in the longer-term.

Threats:

- changes in government policy such as a further period of rent cuts or changing the Rent Regime to CPI only;
- as a result of the Hackitt Review and other influences, the social housing sector is undertaking extensive investigations and works around fire and building safety, and the required scope of such works might change over time;
- potential oil price fluctuations and the effect that this has on the Aberdeen / Aberdeenshire property markets;
- the current Ukraine crisis is having an effect on global markets;
- likely increasing of the UK Base rate in the short term may impact on the residential market (the most recent increase was the 16th May 2022); and
- sharp increase in the cost of materials and labour to carry out any repairs and maintenance work on existing stock and meet development plans.

Suitability of Security

Your instructions require us to comment on whether the properties we have valued continue to provide adequate security for the issue.

It is difficult for any valuer, without being asked to consider a specific credit or risk assessment policy, to make an absolute, unqualified statement that those assets will provide suitable security because our instructions do not explain what criteria the Security Trustee is applying in making this assessment.

However, we confirm that, in our opinion, should the Security Trustee become a mortgagee in possession of this portfolio of properties, then it would be possible to achieve a sale to another RSL that would be at a price at least equivalent to our valuation on the basis of EUV-SH or, in principle, to a private purchaser at a price equivalent to our valuation on the basis of MV-T as set out in our report. However, the valuation assumes implicitly that a purchaser could obtain debt finance on commercially viable terms to facilitate a purchase of the portfolio.

With the above factors in mind, and with specific regard to the continuing need for well-maintained social housing accommodation, we believe it reasonable to conclude an acceptable demand for a portfolio of this nature from commensurate social housing landlords and private institutional investment firms and trusts.

Subject to the information presented within this report, and at the values formally reported, we are satisfied to recommend to the Security Trustee that this portfolio is suitable for security purposes.

Lender Action Points

In accordance with our instructions, we have carried out a desktop valuation of the properties. The Borrower has provided us with updated property schedules including 2021/22 rents together with EPC / SAP information where possible, which has been taken into account and relied upon in reaching our opinions of value. We recommend that the whole portfolio is inspected externally, and a representative sample of 5% internally, every 3 years to

ensure that the properties are being maintained to an acceptable social housing standard, in line with RSH regulatory requirements and commensurate with the likely demands of the target tenant group.

We have relied upon the rent and tenancy information provided by the Borrower as being accurate. If required, we would recommend that the tenancy agreements and current rental income information provided therein is verified for accuracy by a solicitor.

The Borrower have advised that Fire Risk Assessments have been commissioned and carried out at all blocks owned by the Borrower and forming part of this portfolio. They have advised that all properties have been constructed to Building Standard regulations in Scotland and that all buildings are currently fully compliant. See further comments in Section 3.3 herein.

Our valuation assumes that no invasive vegetation exists within the demise or proximity of any of the properties in the valuation.

Stock

The portfolio is located throughout Scotland with the largest clusters in in Glasgow c. 32%, Cumbernauld c. 24.89% and Dundee 16.69%. The properties were built between 2018 and 2019, the portfolio is a mixture of construction types and comprises a mixture of ages ranging from c. 1900 to 2018 and averaging c. 1998. Construction is both traditional and non-traditional.

Assumptions: Rented Properties

The following table provides a summary of the assumptions made in our rented valuations:

Assumption	EUV-SH	MV-T
Rental income growth - (Year 1)	0.5%	Capped at 20%
Sales rate	N/A	Reduced to between 25%-40%
Bad debts and voids (Year 1)	1.25% - 1.75%*	1.25% - 1.75%*
Management costs (Yr. 1 per unit)	£630 - £680 GNR/MMR/Sheltered £420 Supported	Minimum as per EUV-SH or 10% of MR
Cyclical Costs (Yr. 1 per unit)	£280	£280
Responsive (Yr. 1 per unit)	£415-£470 GNR/MMR/Sheltered £210 Supported	£465-£520 GNR/MMR/Sheltered £260 Supported
Management cost growth inflator	0.5%	0.5%
Total planned repairs costs (Yr. 1) *	£851 - £1,084	£851 - £1,084
Repair cost growth inflator	0.5%	0.5%
Discount rate (income & Sales)	5.50% - 7.00% GNR/MMR/Sheltered 7.00% - 10.00% Supported	Up to 7.25%

^{*}MMR units within the Walker Garden Scheme in Aberdeen at 10%.

This summary should be read in conjunction with the remainder of this report and must not be relied upon in isolation.

^{**}does not include any allowance for catchup repairs.

1 Introduction

1.1 Background

Jones Lang LaSalle Limited (hereafter "JLL") has been instructed to prepare a valuation of 3,684 Affordable Housing units that are owned by Sanctuary Scotland Housing Association Limited ("the Borrower") for loan security purposes. We understand that the underlying security in respect of the Bonds will be comprised a percentage of, among other properties, the properties being the subject of this report.

1.2 Compliance

Our valuations have been prepared in accordance with the current RICS Valuation – Global Standards, incorporating the IVS, and the RICS Valuation – Global Standards – UK National Supplement published by the Royal Institution of Chartered Surveyors (commonly known as the "Red Book").

Our valuations may be subject to monitoring by the RICS and have been undertaken by currently Registered RICS Valuers.

This report has been prepared by Allan Briggs MRICS a Director (Valuer Number: '1120141) and Geoff Ferguson MRICS an Associate (Valuer Number: #5608880), both in the Affordable Housing team of JLL. This report has been countersigned by Richard Petty FRICS (Valuer Number: #0089005), Head of UK Living Advisory at JLL.

In accordance with PS 2.3 of the Red Book, we confirm that we have sufficient knowledge and skills to undertake this valuation competently.

We can confirm that no conflict of interest has occurred as a result of our production of this report.

The effective valuation date is 31 March 2022.

For the avoidance of doubt, we confirm that it would not be appropriate or possible to compare this valuation with any values appearing in the Borrowers' accounts. This report has been prepared in accordance with the Red Book. The valuations are prepared on this basis so that we can determine the value recoverable if the charges over the properties were enforced at the date of this report. We understand that values given in the Borrower's accounts are prepared on an historic cost basis which considers how much the properties have cost and will continue to cost the Borrower. This is an entirely different basis of valuation from that used for loan security purposes.

This valuation qualifies as a Regulated Purpose Valuation ("RPV") as defined by the Red Book. A RPV is a valuation which is intended for the information of third parties in addition to the Addressees. It is a requirement of UKVS 4.3 of the Red Book in relation to disclosures that we declare our prior involvement with the Borrower, or the properties being valued, to ensure that there is no conflict of interest.

We confirm that the total fee income earned from the Borrower is substantially less than 5% of the fee income earned by JLL in our last financial year (ending 31 December 2021) and that we do not anticipate this situation changing in the foreseeable future.

1.3 Instructions

Our report is prepared in accordance with the Borrowers' formal instructions.

We have been instructed to prepare our valuations on the following bases:

- Existing Use Value for Social Housing ("EUV-SH"); and
- Market Value subject to existing Tenancies ("MV-T").

Please note that the properties that have been valued on the basis of MV-T have also been valued on the basis of EUV-SH, for information purposes only.

1.4 Status of Valuer

In preparing this report, we confirm that JLL is acting as an external valuer as defined in the Red Book. We can also confirm that we consider ourselves to be independent for the purposes of this instruction.

In accordance with RICS guidance, and our own rotation policy, we recommend that a rotation of overall responsibility within JLL is considered no later than the end of 2027.

1.5 The Stock Rationalisation Market – EUV-SH Transactions

As you will be aware, an active market exists for the sale of tenanted stock between English Registered Providers ("RPs") This can be driven by strategic decisions about the type and location of accommodation that RPs wish to provide, and the viability of investing in properties to bring them up to the required standards.

Where competition is generated, a market has emerged in which Housing Associations bid against one another on price. The resulting values, even though presented on an EUV-SH basis, tend to be in excess of base EUV-SH values that might be expected for balance sheet or loan security purposes.

Although this may appear hard to justify, the underlying rationale is as follows:

- the bidding price is still much less than the cost of development;
- the marginal cost of taking additional units into management, in an area where the acquiring RP already has stock, justifies a financial model based on relatively low costs for management, repairs and maintenance;
- the judgement of all-round risk formed by the acquiring RP, as reflected in the discount rate, is often lower (and the rate therefore keener) than would be acceptable to either a funder or an auditor in a balance sheet context;
- the price is worth paying to achieve strategic objectives around increasing a presence in a particular area or market; and/or
- the price may be supported by future void sales and/or changes of tenure (for example, from Social Rent to Affordable Rent).

Whilst there is currently no evidence of similar transactions in Scotland, Scottish RSLs have, over the last 5 years, successfully engaged with private residential developers throughout Scotland in acquiring the S.75 restricted stock within their wider development. In the majority of the cases (not including Local Authority/Council developments) this has been funded through a combination of Affordable Housing Supply Programme grant, private finance and internal RSL Cross subsidies and all ultimately based on an EUV-SH valuation plus Affordable Housing Supply Programme grant ("AHSP").

1.6 Conflict in Ukraine

On 24 February 2022, Russian forces entered Ukraine and conflict ensued. At the time this report was drafted the extent of the conflict and its longer-term impact were unknown.

The conflict caused immediate volatility in global stock markets and consequences are anticipated in relation to the cost and availability of energy and natural resources, particularly within Europe. There is a risk that the conflict could escalate and directly involve NATO countries. Sanctions have been imposed against Russia.

The impact on the property market outside of the immediate area affected by the conflict is as yet unknown and, at this stage, there is no evidence that transaction activity and the sentiment of buyers or sellers has changed. The market can therefore still be described as functioning, albeit still in the aftermath of the COVID-19 crisis.

Accordingly - and for the avoidance of doubt, our valuation is not reported as being subject to 'material valuation uncertainty' as defined by VPS 3 and VPGA 10 of the RICS Valuation – Global Standards.

This explanatory note has been included to ensure transparency and to provide further insight as to the market context under which the valuation opinion was prepared. In recognition of the potential for market conditions to move rapidly as the conflict in Ukraine evolves, we highlight the importance of the valuation date.

2 Methodology

2.1 Valuation Model

We have undertaken our valuation of the portfolio using fully explicit discounted cashflow models, over a 50-year period, with the net income in the final year capitalised into perpetuity.

For the purposes of our valuation, we have split this portfolio by tenure in order to reflect the different risks and opportunities associated with each business stream.

In accordance with section 1.5, whilst we recognise that there is a growing active market for the sale of tenanted stock between RPs in England, we have not yet seen this type of transaction in Scotland at the time of writing owing to the level of AHSP available and mergers. Also, we have not split the portfolio into 'lots' to reflect this and have, in accordance with our instructions, valued the properties as a single portfolio.

Against the income receivable for each scheme and cashflow, we have made allowances for voids and bad debts; the costs of management and administration; major repairs; cyclical maintenance; day-to-day repairs. We have assumed an appropriate level of future growth in these costs (expenditure inflation).

We have then discounted the resulting net income stream at an appropriate rate which reflects our judgement of the overall level of risk associated with the long-term income. A more detailed explanation of the discount rate is included in section 4.

2.2 Information Provided

The principal source of background data for the portfolio has been the rent roll for each property provided by the Borrower. This detailed the number and type of units, the rent payable, tenancy type, and equity retained by the association (where applicable).

This information was supplemented with our market research and other data we have gathered from similar instructions undertaken recently and involving comparable stock. From these sources we have collated information on the following:

- rents;
- bad debts, voids and arrears;
- EPC/SAP ratings;
- cost of maintenance and repairs; and
- management and administration expenses.

2.3 Inspections

We have carried out a desktop valuation of this stock in accordance with our instructions. We undertook previous inspections of this portfolio between 11 February 2019 and 20 February 2019 and between 20 September 2019 and 3 October 2019.

2.4 Market Research

In arriving at our valuation, we have undertaken a comprehensive programme of research to supplement our knowledge and understanding of the properties. This has included:

- researching local vacant possession values through conversations with local estate agents together with internet research and using Myhouseprice, Zoopla and RightmovePlus, a bespoke tool for comparable evidence;
- comparing the current the Borrower passing rents with peers in the market;
- examining local benchmark affordable rents (Local Housing Allowance or otherwise stated) and comparing these with the Borrower's rents; and
- analysing data provided by the Borrower.

Attached at Appendix 2 is a Scottish residential market overview.

3 General Commentary

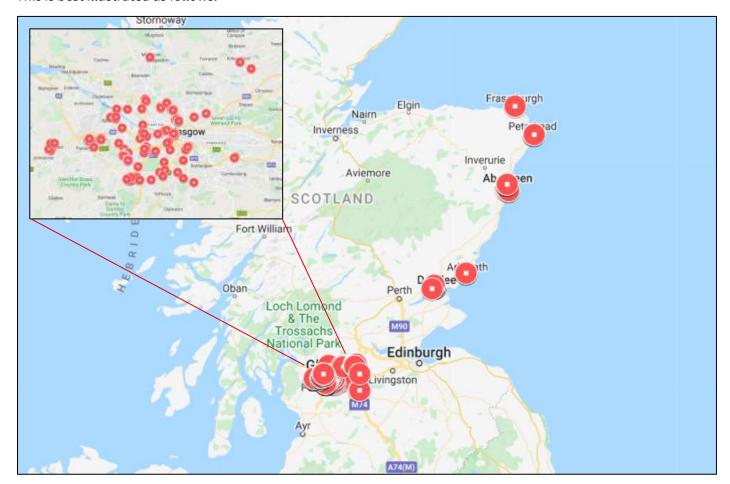

Schedules summarising the following data for each property within the portfolio form Appendix 1 of this report:

- address;
- unit type and bedroom number;
- tenancy type;
- title number & AO Number; and
- net weekly rent.

3.1 Location

The portfolio, comprising 3,684 Affordable Housing is located throughout Scotland with the largest clusters in in Glasgow c. 32%, Cumbernauld c. 24.89% and Dundee 16.69%. Other large settlements include Paisley, Renfrew and Aberdeen.

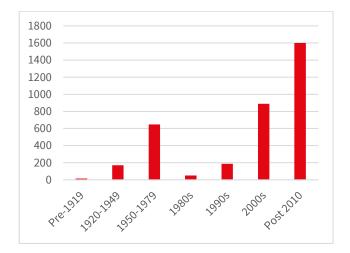

This is best illustrated as follows:

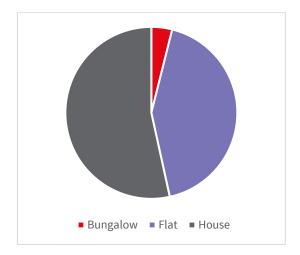

3.2 Property Types and Condition

The properties were built between 2018 and 2019, the portfolio is a mixture of construction types and comprises a mixture of ages ranging from c. 1900 to 2018 and averaging c. 1998. Construction is both traditional and non-traditional. The stock profile is best illustrated as follows:

Property Type / Beds	Room	1	2	3	4	5	6	7	8	Total
Bungalow		61	64	11	2	1				139
Flat	21	190	1,058	226	14	6		1	1	1,517
House			705	1,007	160	28	1			1,901
Total	21	251	1,827	1,244	176	35	1	1	1	3,557

*Not included in the aforementioned figures are the 126 ancillary units and the 1 shared ownership unit.

The property ages and construction methodology have been factored into the assumptions we have made regarding voids, discount rates and repairs and maintenance.

Based on our previous inspections, combined with updated information provided by the Borrower, we are satisfied that the properties are being maintained to an acceptable social housing standard, in line with SHR regulatory requirements and commensurate with the likely demands of the target tenant group.

Overall, we have assumed that each property has a useful economic life of at least 50 years provided that the properties continue to be properly maintained in the future.

3.3 Fire Safety

Our valuations have been provided in accordance with the RICS' Guidance Note: "Valuation of properties in multi-storey, multi-occupancy residential buildings with cladding, 1st Edition March 2021" (the 'Guidance Note'), effective from 5 April 2021.

The purpose of the Guidance Note is to help valuers undertaking valuations of domestic residential blocks of flats in the UK for secure lending purposes. It sets out criteria for buildings of different heights that can be used to

identify where possible remediation work to cladding for fire safety purposes is likely to be required and may materially affect the value of the property.

Building fire safety is fully devolved to the Scottish Government where requirements on building safety are primarily covered by the Building (Scotland) Act 2003, which introduced the Building (Scotland) Regulations 2004, and requirements on general fire safety are covered in the Fire (Scotland) Act 2005 supported by the Fire Safety (Scotland) Regulations 2006.

In 2017, the UK Ministry of Housing, Communities and Local Government identified 450+ residential buildings in England over 18m tall with aluminium composite material (ACM) cladding, and the number of potentially unsafe buildings is likely higher, with ACM cladding and other potentially unsafe systems existing on many other properties below 18m, with a loose estimate of more than 1,700 buildings. By contrast, only a handful of such properties were identified in Scotland. Whilst the situation is no less serious, the number of unsafe buildings is a fraction of those in England. This is because, following the fatal Garnock Court tower block fire in 1999, Scotland improved its fire safety regulations in 2005, making it mandatory for builders to ensure that any external cladding "inhibited" fire spreading.

These different starting points for building and fire safety in England and Scotland mean that the legislative and regulatory steps following on from Grenfell will differ.

As noted above, the Borrower has advised that Fire Risk Assessments have been commissioned and carried out at all blocks they own and that form part of this portfolio. They have advised that all properties have been constructed to Building Standard regulations in Scotland and that all buildings are currently fully compliant.

Specifically, we have reviewed our previous inspection data together with making enquiries of the Borrower and note the following blocks within this portfolio as exceeding 11m/4 storeys (the agreed height in Scotland which is regarded as the expected limit of external firefighting capacity).

Block	No. Units	No. Storeys	Construction Date
Allanfauld Road, Cumbernauld		5	2017
Argyle Street, Glasgow		5-6	2015
Grace Street, Glasgow		5	2012
William Place, Glasgow		5	2015
Ellerslie Crescent, Glasgow (MMR)		7	2018
Pembroke Street, Glasgow (MMR)		4-5	2018
St Vincent Street, Glasgow (MMR)		5	2017
Walker Gardens, Aberdeen (MMR)		4-5	2018
Anderston NB1, Glasgow		5-6	2010/11
Anderston NB2 Glasgow		3-6	2014
Argyle Street Glasgow		6	2010

The Borrower has advised that as each of the above developments are compliant with current regulations and that there are no immediate plans or budget to remove the existing cladding systems in place. Accordingly, we have

made no cost allowance within our valuations in-line with the Borrower's current plans. However, we have allowed for the cost of EWS1 certificates within our valuation calculations as these would be required at the point of any hypothetical sale (either individual units or as a portfolio).

3.4 Climate Change Risk and Net Zero Carbon

Global warming targets set in the Paris Agreement are 1.5-2.0° Celsius above pre-industrial levels. Even the lower end of this range will produce significant changes to global climate systems, including extreme heat or cold events, higher frequency and severity of precipitation or drought, and sea level rise. Therefore, the level of physical climate-related risk of the subject property is likely to fluctuate over its useful life. High levels of climate risk could affect occupier and investor demand, as well as ability to obtain building insurance.

There is an increased focus on Environmental, Social & Governance (ESG) criteria for investment across all asset classes, including real estate. There are also various new, ESG-focused funds entering the real estate market. As a result, the value of property assets of all types is likely to be increasingly affected over time by long term, sustainability challenges. We note that, under the Paris Agreement, the 2050 vision is for all buildings, both new and existing, to be net zero carbon across the whole life cycle. As an interim ambition, the agreement envisages that all new buildings should be able to achieve zero carbon in operations, and aim to reduce carbon emissions by 40%, by 2030.

To achieve the best sustainability credentials and, in particular, to achieve Net Zero Carbon specification, the cost of a refurbishment of a building is currently higher than it would be for a refurbishment which fell short of the standards. However, given the speed at which both the legislation and ESG requirements are advancing, there is a risk that, within the next ten years, further capital expenditure will be required. However, such costs may be mitigated in the future through the principles of the Circular Economy, with a greater focus on recycling materials, and the development of more flexible buildings which can be refurbished and adapted to alternative uses more economically.

Therefore, in terms of cashflow, we anticipate that the technological advances, combined with the increased supply of products and competition, will lower these costs over time and we have not, at this stage, included in our valuation any additional allowance for costs to support the move to net zero carbon over the period covered by our valuation models.

4 Valuation Commentary – Rented Stock

4.1 Introduction

There are 3,684 Affordable Housing units in the portfolio. The rented properties within the portfolio are a mixture of general needs (social, sheltered and supported) and mid-market rented housing units.

4.2 Tenancies

Unless otherwise stated, we understand that the general needs rented units are let on a Scottish Secure Tenancy Agreement, as created by the Housing (Scotland) Act 2001 and amended by the Housing (Scotland) Act 2014.

We have assumed the MMR properties are occupied under Short Assured Tenancy Agreements under the Housing (Scotland) Act 2001. This type of tenancy agreement will state the length of time of the lease, normally 6 months or 1 year, and at the end of that time, the tenancy will automatically renew itself unless the tenant or the landlord provides written Notice of a Termination. These tenancies therefore do not have a security of tenure beyond the lease term.

As of 1 December 2017, anyone signing a new tenancy for a private let, signed the new Private Residential Tenancy, under the Private Housing (Tenancies) (Scotland) Act 2016. This has no end date and can only be terminated by a tenant giving written notice to their landlord, or by the landlord using one of the 18 grounds for eviction. All landlord and tenant disputes will be heard in a new specialist Tribunal.

Of the 18 grounds that allow a landlord to end a tenancy, 8 are mandatory, which means that the Tribunal must grant an Eviction Order if any one or more of these grounds is found to exist. Of most relevance to the Valuation are the first 2 mandatory grounds for recovering possession:

- The landlord intends to sell the property for market value within three months of the tenant leaving the property; and
- The property is to be sold by the mortgage lender for the property.

We have had regard to these leases and the information provided by the Borrower within our valuation model.

4.3 Rental Income

It is the policy of the Borrower to review rents at the end of each financial year. We have been provided with details of the rental income for 2021/22 (valid until July 2022), and this has been incorporated in the first year of our cashflow valuations.

The total gross rent receivable from the 3,557 rented properties in the portfolio amounts to £18,624,261 per annum $\pm 5,236$ per unit per annum (based on a 52-week year).

The average gross weekly rents are set out in the table below.

Business Stream	Units	Annual Income	Average Rent p/u
General Needs Rented / Sheltered	3,217	£16,322,201	£5,074
Mid Market Rent	285	£1,997,215	£7,008
Supported	55	£304,845	£5,543

We are unable to verify the accuracy of the rent roll provided to us by the Borrower.

The table below shows average weekly rents (inclusive of service charges) RSL properties in the Greater Glasgow area, based on the Scottish Housing Regulator's Landlord Reports for 2020/21.

The data does not provide a separate analysis for flats and houses, and the figures shown are therefore averages across both property types. All rents are shown on the basis of 52 weeks.

The comparison indicates that the Borrower's average rents are broadly in line with the average rents for other housing providers in similar geographic areas.

	the Borrower	Average of compared landlords	Link Group	Hillcrest Homes	GHA
Total No Homes	8,220	6,816	1,404	7,087	39,865
Total rent due to be collected	£34,995,704	£30,624,395	£4,371,309	£32,022,798	£29,225,992
% ave rent pw increase	1.40%	1.60%	-0.20%	2.50%	1.60%
Total 1 apts	54	228	-173	241	2,683
Ave. 1 apts rent pw	£65.58	£59.38	£6.20	£69.04	£72.33
Total 2 apts	1,047	2,633	-1,586	2,760	7,378
Ave. 2 apts rent pw	£81.54	£80.10	£1.44	£81.77	£81.95
Total 3 apts	4,076	2,751	1,326	2,862	20,459
Ave. 3 apts rent pw	£94.46	£92.40	£2.06	£93.94	£87.41
Total 4 apts	2,619	1,081	1,538	1,102	8,077
Ave. 4 apts rent pw	£103.73	£101.47	£2.26	£102.06	£102.20
Total 5 apts	424	124	300	122	1,268
Ave. 5 apts rent pw	£111.44	£110.62	£0.82	£111.53	£112.01

While providing a useful comparison, we would caution that this type of comparison excludes any 'weighting' for property age, type or condition.

4.4 EUV-SH Rental Growth

Social Landlords in Scotland have in the recent past been under pressure to set rent levels in order to maximise private investment in new stock and to make full provisions for major repairs, particularly to older properties. Rental policies to address these problems have varied and, until recently, annual rent increases have tended to be at a level of inflation plus, but this is beginning to change as tenant affordability and reduced welfare payments become more of a factor.

We are also conscious that the policy on Housing Benefits remains the responsibility of Westminster and this needs to be taken into consideration when valuing rental income streams in Scotland. Whilst there are currently no centrally imposed restrictions on future annual rent increases for RSL stock in Scotland, any future changes in national housing policy may affect the ability for Scottish Social Housing providers to individually determine their future rent policy.

In our EUV-SH valuation, we have modelled the following within the valuation cashflows (noting our cashflows are net of inflation):

Tenure	Rent Increase Yr 1	Rent Increase Yr 2	Rent Increase Yr 3	Rent Increase Yr 4 Onwards
General Needs Rented	0.50%	0.50%	0.50%	1.00%
Mid-Market Rent	0.50%	0.50%	0.50%	0.50%
Supported	0.50%	0.50%	0.50%	1.00%

4.5 MV-T Rental Growth

In our valuations on the basis of MV-T, existing social rents are uplifted to a level that reflects the local private rented market. Based on our knowledge of the respective areas, we have increased existing social rents to a level that is closer to the levels achieved in the private lettings market, whilst having regard for the highest level of housing benefit available to claimants and capping our rents at the appropriate levels.

The UK Government's Welfare Reform Act 2007 changed the current housing benefit system for private sector tenants from April 2008 with Housing Benefit being replaced by the Local Housing Allowance. That is:

- Paid directly to tenants rather than landlords in the majority of cases; and
- Paid at fixed rates depending on the area and the household size, instead of directly related to the property involved.

The up to date Local Housing Allowances, which are effective from 1st April 2022, for the respective BRMA's in which the properties are located are shown below. LHA figures are updated annually, and these current figures are valid to 31 March 2023:

BMRA	Shared	1 Bed	2 Beds	3 Beds	4 Beds
Aberdeen and Shire	£74.79	£97.81	£136.93	£172.60	£230.14

BMRA	Shared	1 Bed	2 Beds	3 Beds	4 Beds
Dundee and Angus	£69.04	£84.00	£115.07	£149.59	£241.64
East Dunbartonshire	£71.34	£103.56	£136.93	£182.96	£298.03
Greater Glasgow	£80.55	£113.92	£149.59	£172.60	£322.19
Highland and Islands	£74.79	£97.81	£126.58	£146.14	£184.11
North Lanarkshire	£65.59	£82.85	£103.56	£113.92	£182.96
Renfrewshire/Inverclyde	£67.66	£80.55	£103.56	£126.58	£230.14

The following table sets out a comparison of the Borrower's average rents with the average LHA in the portfolio. A breakdown per property is included within the schedule at Appendix 1.

Property Type	Average Passing Rent p/u p/a	Average LHA p/u p/a	% of LHA
General Needs Rented / Sheltered	£5,074	£7,009	72.39%
Mid-Market Rent	£7,008	£7,614	92.04%
Supported	£5,543	£5,192	106.76%

Where applicable, the uplift in rents in the valuation has typically been introduced over a period of 1-5 years and, thereafter, the annual rent increase is assumed at inflation plus 0.5%. For the supported and MMR units we consider it imprudent to assume an uplift to the passing rents and have therefore not modelled this within our valuation.

Within this valuation, the cashflow assumptions for rent loss to voids & bad debts have been adjusted upwards to reflect the higher turnover and costs normally associated with market rented properties.

4.6 Relet Rates

Our EUV-SH model allows for a rate at which secure tenancies are re-let on an existing use basis. The annual rates of tenancy turnover experienced by housing associations vary considerably between localities and between different property types.

4.7 Sales Rates

In addition to preparing an Existing Use Valuation, our instructions also require a valuation based on Market Value subject to Tenancies, which makes the assumption that units that fall vacant can, where appropriate, be sold on the open market.

The Valuation assumes that there are no Section 75 Agreements, Nomination Agreements (or at least not binding to a mortgagee in possession or potential purchaser of the portfolio), or other restrictive covenants/agreements, which would prevent the sale of void units on the open market with vacant possession.

For these rented units, the cashflow analysis shows a gradual reduction in stock numbers over a 50-year period down to a residual or rump level which is between 25% - 40% of the opening stock level. The sale prices used within

the valuations have been adjusted to reflect general wear and tear, and an allowance has also been made for marketing/selling costs and a period of rent loss.

We have estimated the vacant possession selling price of the units from local sales comparisons and included a selling cost to cover legal fees etc. The valuation assumes that sale prices will typically rise by inflation plus 1% per annum long-term (apart from Yr 1 in which we have restricted capital growth to inflation plus 0.5%).

On the basis of our previous inspections and recent research, we formed the opinion that should the properties within this valuation be offered on the open market with vacant possession, there would, at the right price level, be a reasonable level of demand from purchasers.

Attached at Appendix 2 is a Scottish residential market overview.

4.8 Right to Buy

The Housing (Scotland) Act 2014 provides that right to buy ended for all tenants of social housing in Scotland on 1 August 2016.

4.9 Outgoings

In forming our opinion of the net rental income generated by the portfolio, we have considered the following outgoings:

- bad debts, voids and arrears;
- cost of maintenance and repairs; and
- management and administration expenses.

We emphasise that, under the definitions of the bases of valuation we have been instructed to adopt, we are not valuing the Borrower's stewardship of the stock, rather we are assessing what a hypothetical purchaser in the market would pay for the stock, based on the market's judgement of the capabilities of the portfolio.

The assumptions we have made in our appraisal reflect our opinion of the view the market would adopt on the future performance of the portfolio. In forming our opinion, we have had regard to other recent valuations we have undertaken of comparable stock.

4.10 Bad Debts and Voids

We have incorporated into our valuations the potential for future voids and bad debts. Any loss of income for both void properties and bad debts is reflected in a deduction made from the gross rental income.

The rates applied take into consideration the figures in the 2020/21 financial data provided by the SHR and are similar to allowances used by other RSL's providing a management and maintenance service in the areas where the properties are situated.

Within our EUV-SH valuation of the general needs rented stock we have included an average annual provision for rent loss to voids and bad debts of between 1.25% to 1.75% of the gross rental income, with the exception of the MMR units at Walker Gardens in Aberdeen which are experiencing void issues. At this scheme we have allowed for 10% voids and bad debts in year 1 and then 5% thereafter.

In our MV-T valuations we are assuming greater increases in rents than a social landlord would impose. In our opinion, these rent increases would inevitably be reflected in a higher level of voids and bad debts than would otherwise be the case. The associated risk has been factored into our MV-T discount rate.

4.11 Management Costs

Management costs have been included in the valuation on the basis of a competitive bid from an alternative social housing landlord, and our assessment of typical private sector costs.

In our valuation on the basis of EUV-SH we have adopted a rate of between £630 to £680 per unit per annum for the general needs rented, mid-market rented and sheltered units for management and administration. For the supported unites we have adopted £420 per unit per annum.

We have assumed that a mortgagee in possession would expect to spend approximately 10.0% of rental income on management and administration in our valuations on the basis of MV-T, subject to a minimum level based on our EUV-SH assumptions.

Our discounted cashflow model makes an allowance of 0.5% per annum for 'real' cost increases to the management costs throughout the valuation.

4.12 Sheltered Supported Units - Service Charges

The running costs associated with providing warden service etc. and maintaining the common facilities to the Sheltered and Supported schemes are funded through a combination of service charges levied on the tenants, and partly through grant from the some or all of the local authorities. The latter has been under increasing pressures with the reduction of Supporting people grant.

We understand that this income received is intended to cover the annual cost of providing these services and should therefore be regarded as cost neutral. Like other similar RSLs in the sector, have implemented a de-sheltering programme to mitigate against this. We are aware, however, that there remains some uncertainty about the future of the Supporting People income but have assumed that any loss will be made up by cost savings or an increased level of rent/service charge.

4.13 Repairs and Maintenance

Although the majority of the properties are generally in a reasonable or good condition, renewal, day-to-day and cyclical maintenance will be required to keep the stock in its present condition.

We confirm that the properties are in a reasonable state of repair and we are satisfied that the planned maintenance costs included within the valuation, in conjunction with our annual provisions for cyclical and responsive maintenance, should be sufficient to keep the properties in good and tenantable condition throughout the period of our valuation cashflows.

For "new build" units, we have made the assumption that the construction has been satisfactorily completed and that they have been built under the NHBC Build Mark Scheme, Zurich Municipal Newbuild and Rebuild Schemes, the Premier Guarantee Scheme, or their equivalent. Where property has been built for rental purposes, we acknowledge that no such insurance will normally be available, and that the future saleability will rely on proper supervision of construction, and the defect liability contract between the Borrower and the builder.

Costs will vary according to a property's age, type, size and form of construction. In particular, the profile of expenditure will be different for a newly built property compared to an older property. The former should only require modest routine maintenance over the first 5 to 10 years of its life, with major repairs only arising from years 15 to 20. Hence there is a low-start cost profile, rising steeply in the medium term, whilst an older property is likely to have a flatter profile with a higher starting point.

In accordance with the information provided by the Borrower we have had due consideration to the age and construction type for each of the tenure types in our valuations.

We have sourced comparable information on costs from the Scottish Housing Regulator. Each year Registered Social Landlords (RSLs) in Scotland send the regulator selected information from the annual audited financial statements (AFS) and these are the figures which are reported in the table following. The way in which the costs are categorised varies from association to association, so of most relevance is the total Management and Maintenance figure in the right-hand column.

	Average RSL Costs 2020/21 (Published November 2021)											
Association	Management and Maintenance Admin (per unit p.a.)	Planned Maintenance (per unit p.a.)	Reactive Maintenance (per unit p.a.)	Total Management and Maintenance (per unit p.a.)								
the Borrower	£579	£111	£466	£1,157*								
Link Group	£1,076	£617	£810	£2,503								
GHA	£1,243	£345	£718	£2,306								

^{*}reporting requirements from RSLs can vary depending on where the apportioned costs sit within their operation. In addition, the Borrower are based in England and as such a large element of the management and accountancy function is based there and not reported within their Scottish Subsidiary.

Please note that each association has different stock profile, service offer and investment requirement needs. In this instance the total costs we have included within our valuations for management, repairs and maintenance varies from £1,761 to £2,514 per unit p.a. As such we believe that the costs included within our valuations are appropriate and reflective of the type, age and condition of the properties and fully supported with the information contained in the above schedule.

The following table sets out the average cost assumptions we have made in the first year of our EUV-SH cashflows. All of our appraisals assume that these costs will inflate at 0.5% (real) per annum.

Category of Expenditure	Period	Rented Properties
Major repairs and renewals	Year 1	£851 - £1,084
Management cost	Year 1	£420 - £680
Cyclical Costs	Year 1	£280
Responsive	Year 1	£210 - £470
Total Average Costs	Year 1	£1,761 to £2,514

We have adopted higher costs for major repairs in the first 2 years of our valuations as some of the properties will require refurbishment and redecoration in order to attract buyers or to be let in the private residential market.

4.14 Discount Rate

Our cashflow valuations are based on constant prices and therefore explicitly exclude inflation. The chosen discount rate reflects our judgement of the economic conditions at the time of the valuation and the level of risk involved in each cashflow, taking all factors and assumptions into account. To determine the risk involved we have looked at:

- the sustainability of the existing rental income;
- the likely rate of future rental growth;
- the condition of the portfolio;
- the level of outgoings required to maintain the maximum income stream;
- the likely performance of the portfolio in relation to its profile and location;
- the real cost of borrowing; and
- the long-term cost of borrowing.

For our EUV-SH valuations of the rented properties we have adopted a real discount rates as follows on the net rental income.

Within our MV-T model we have adopted a higher rate on rental income to reflect additional risk resulting from the rental growth that has been incorporated during the first 1-5 years of the valuation cashflow. In addition, we have adopted a higher rate on income from sales to reflect the additional premium on the yield which an investor would expect from a sales income stream.

We have adopted a real discount rate of between 5.50% - 7.00% for the general needs rented, mid-market rented and sheltered units. For the supported units a real discount rate of between 7.00% - 10.0% has been applied.

Since tenanted, Scottish RSL or English RP owned property has never sold in the open market, there is no directly comparable evidence to inform the discount rates in our MV-T valuation models. We therefore have to have regard to the wider market for alternative property investments, including the emerging build-to-rent asset class, student housing and commercial property. Here it is common to see equivalent yields of 4.00% - 6.00% for prime long length income-driven investments in the regions. However, one has to be careful in drawing comparisons, not only between property types but also tenure arrangements; properties which are let on leases, where the tenant is responsible for repairs and other outgoings, provide a lower-risk investment (other things being equal) than a property which is directly let by the Heritable owner.

We are confident that our choice of discount rates and our valuation outputs/indicators are prudent and appropriate given the lack of direct comparable evidence and our experience in the private residential sector in Scotland.

5 Valuation

5.1 Background

We have prepared our valuations on the following bases:

- Existing Use Value for Social Housing ("EUV-SH"); and
- Market Value subject to existing Tenancies ("MV-T").

Our valuations have been prepared in accordance with the RICS Red Book.

Apportionments of the valuations have been calculated as arithmetic apportionments and are included in the schedules at Appendix 1. This is a portfolio valuation, and no valuation of individual properties has been performed.

In forming our opinion of the value of the portfolio as a whole, we have neither applied a discount for quantum nor added a premium to reflect break-up potential.

The definitions of the bases of valuation are set out in full in section 6 of this report.

5.2 Asset Value for Loan Security Purposes

Our valuation of the 306 properties being valued on the basis of Existing Use Value for Social Housing ("EUV-SH"), in aggregate, at the valuation date is:

£19,550,000 (nineteen million, five hundred and fifty thousand pounds)

Our valuation of the 3,251 properties being valued on the basis of Market Value subject to Tenancies ("MV-T"), in aggregate, at the valuation date is:

£274,690,000

(two hundred and seventy-four million, six hundred and ninety thousand pounds)

6 Bases of Valuation

Our valuations have been prepared in accordance with the RICS Red Book.

6.1 Existing Use Value for Social Housing

The basis of Existing Use Value for Social Housing is defined in UK VPGA 7 of the RICS Valuation Global Standards – UK National Supplement as follows:

"Existing use value for social housing (EUV-SH) is an opinion of the best price at which the sale of an interest in a property would have been completed unconditionally for a cash consideration on the valuation date, assuming:

- a willing seller;
- that prior to the valuation date there had been a reasonable period (having regard to the nature of the property and the state of the market) for the proper marketing of the interest for the agreement of the price and terms and for the completion of the sale;
- that the state of the market, level of values and other circumstances were on any earlier assumed date of exchange of contracts, the same as on the date of valuation;
- that no account is taken of any additional bid by a prospective purchaser with a special interest;
- that both parties to the transaction had acted knowledgeably, prudently and without compulsion;
- that the property will continue to be let by a body pursuant to delivery of a service for the existing use;
- the vendor would only be able to dispose of the property to organisations intending to manage their housing stock in accordance with the regulatory body's requirements;
- that properties temporarily vacant pending re-letting should be valued, if there is a letting demand, on the basis that the prospective purchaser intends to re-let them, rather than with vacant possession; and
- that any subsequent sale would be subject to all the same assumptions above."

6.2 Market Value

The basis of Market Value is defined in VPS 4.4 of the Red Book as follows:

"The estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm's length transaction after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion."

Market Value subject to Tenancies is in accordance with the above definition, with the addition of the point below:

"That the properties would be subject to any secure or assured tenancies that may prevail, together with any other conditions or restrictions to which property may be subject."

6.3 Expenses

No allowance is made in our valuations for any expenses of realisation.

6.4 Tax

No allowance is made in our valuations for any liability for payment of Corporation Tax, or for any liability for Capital Gains Tax, whether existing or which may arise in the future.

The transfer of properties between RSLs is exempt from Land and Building Transaction Tax ("LBTT"). Our MV-T valuations includes an allowance for fees, however we have not included LBTT or other costs of acquisition within our valuation.

6.5 VAT

Our valuations are exclusive of VAT on disposal.

7 Sources of Verification of Information

7.1 General

We have relied upon the description, tenancy type and current rental income provided to us by the Borrower and we have been unable to verify the accuracy of that data.

7.2 Tenure

We have assumed that the Borrower holds Heritable interests (Scottish equivalent of English freehold) in these properties unless otherwise stated in this report.

7.3 Title

We have previously reviewed (i) the Certificates of Title, dated 13 February 2015, that were produced by Messrs Burness Paull and (ii) the final Certificate of Titles / CoT Overview Reports issued by Messrs Burness Paull and Messrs Addleshaw Goddard LLP between the 2nd – 16th December 2019. We can confirm that our valuations, at the date of this report, fully reflect the disclosures. In particular, in respect of each unit which we have valued on the basis of MV-T, we can confirm that (based on our review of the aforementioned Certificates of Title) such units may be disposed of by or on behalf of the Security Trustee on an unfettered basis (meaning subject to existing tenancies disclosed in the Certificates but not subject to any security of interest, option or other encumbrance or to any restriction preventing or restricting its sale to, or use by, any person for residential use).

In this case 153 general needs rented and 124 mid-market rented units have been restricted to EUV-SH following our review of the aforementioned. In addition, 20 sheltered units in Fraserburgh and 9 units at Muirshiel Crescent/Avenue in Glasgow (referred to as "Young People" as a sub tenure) have been limited to EUV-SH as we consider that this valuation basis is appropriate for this property type, levels of rent, use and location.

All of the properties are held heritable and as such there is no split as to leasehold and freehold valuations.

7.4 Nomination Agreements

Our valuations are prepared on the basis that there are no nomination agreements. If any nomination rights are found to be in existence, they are assumed not to be binding on a mortgagee in possession unless otherwise stated in this report

7.5 Measurements/Floor Areas

We have not measured the properties, this being outside the scope of a valuation of a portfolio of this nature, unless otherwise stated in this report.

However, where measurements have been undertaken, we have adhered to the RICS Code of Measuring Practice, 6th edition, except where we specifically state that we have relied on another source. The areas adopted are purely for the purpose of assisting us in forming an opinion of capital value. They should not be relied upon for other purposes nor used by other parties without our written authorisation.

Where floor areas have been provided to us, we have relied upon these and have assumed that they have been properly measured in accordance with the Code of Measuring Practice referred to above.

7.6 Structural Surveys

Unless expressly instructed, we do not carry out a structural survey, nor do we test the services and we, therefore, do not give any assurance that any property is free from defect. We seek to reflect in our valuations any readily apparent defects or items of disrepair, which we note during our inspection, or costs of repair which are brought to our attention. Otherwise, we assume that each building is structurally sound and that there are no structural, latent or other material defects.

In our opinion the economic life of each property should exceed 50 years providing the properties are properly maintained.

7.7 Deleterious Materials

We do not normally carry out or commission investigations on site to ascertain whether any building was constructed or altered using deleterious materials or techniques (including, by way of example high alumina cement concrete, woodwool as permanent shuttering, calcium chloride or asbestos). Unless we are otherwise informed, our valuations are on the basis that no such materials or techniques have been used.

7.8 Site Conditions

We do not normally carry out or commission investigations on site in order to determine the suitability of ground conditions and services for the purposes for which they are, or are intended to be, put; nor do we undertake archaeological, ecological or environmental surveys. Unless we are otherwise informed, our valuations are on the basis that these aspects are satisfactory and that, where development is contemplated, no extraordinary expenses, delays or restrictions will be incurred during the construction period due to these matters.

7.9 Environmental Contamination

Unless expressly instructed, we do not carry out or commission site surveys or environmental assessments, or investigate historical records, to establish whether any land or premises are, or have been, contaminated. Therefore, unless advised to the contrary, our valuations are carried out on the basis that properties are not affected by environmental contamination. However, should our site inspection and further reasonable enquiries during the preparation of the valuation lead us to believe that the land is likely to be contaminated we will discuss our concerns with you.

7.10 Japanese Knotweed

Our valuation assumes that no invasive vegetation exists within the demise or proximity of any of the properties in the valuation.

7.11 Energy Performance Certificates (EPCs)

The Energy Efficiency Standard for Social Housing ("EESSH") was introduced in March 2014 and set a first milestone for social landlords to meet for social rented homes by 31 December 2020. A second milestone (EESSH2) was confirmed in June 2019, for social rented houses to meet by December 2032. The EESSH2 milestone is that all social housing meets, or can be treated as meeting, EPC Band B (Energy Efficiency rating), or is as energy efficient as practically possible, by the end of December 2032 and within the limits of cost, technology and necessary consent.

In addition, no social housing below EPC Band D should be re-let from December 2025, subject to temporary specified exemptions.

The Borrower has confirmed the EPC rating applicable for this portfolio which are summarised in the table below:

EPC Rating	А	В	С	D	E	F	G	Unknown
Total	59	1,594	1,283	343	50	14	5	329

We note that some of the properties have an EPC rating of F or G which falls below the minimum EPC threshold required for lettings in the private rental market. However, we have valued these properties on the basis of EUV-SH or MV-T (where appropriate) and, in respect to properties that have been valued on the basis of MV-T, we have made an allowance in the first 2 years of our cashflow to bring the properties up the minimum regulatory EPC standard (E) that must be achieved before they can be let as Market Rent.

7.12 SHQS & EESH

In 2004, The Scottish Government issued guidance on the introduction of the Scottish Housing Quality Standard (SHQS), giving details of the content of the Standard and setting a target date of 2015 for bringing houses up to this Standard. To meet the Standard, the house must be:

- Compliant with the tolerable standard
- Free from serious disrepair
- Energy efficient
- Provided with modern facilities and services
- Healthy, safe and secure

According to the 2020/2021 annual submission to the percentage of homes meeting the Scottish Housing Quality Standard that are owned by the Borrower was 81.5% compared to the Scottish average of 86.8%.

The Energy Efficiency Standard for Social Housing (EESSH/EESSH2) is a mandatory standard for Social Landlords to meet by 2020 (EESSH2 by 2032), and was brought into force by the Scottish Government in March 2014. EESSH succeeds the targets and guidance in the Scottish Housing Quality Standard (SHQS), and superseded the SHQS from 2015. The Standard aims to improve the energy efficiency of social housing and reduce energy consumption, fuel poverty, and the emission of greenhouse gases.

The Scottish Housing Regulator monitors and reports on Social Landlords compliance with the EESSH and from 2015/16 expects all Social Landlords to submit data on an annual basis to them on their compliance with the standard. Whilst Social Landlords are not expected to produce 100% EPCs for EESSH compliance purposes they may however choose as good practice to work towards this target. We have been advised by the Borrower that this housing stock meets the SHQS standard, subject to any exemptions/abeyances and at this time and we have not made provision for any additional cost potentially arising out of EESSH/EESSH2, as we have assumed that the properties will be brought up to standard by way of active management/the ongoing investment programme by the 2032 EESSH2 milestone/deadline.

7.13 Insurance

Unless expressly advised to the contrary we assume that appropriate cover is and will continue to be available on commercially acceptable terms.

7.14 Planning

We have prepared our valuations on the basis that each property exists in accordance with a valid planning permission.

7.15 The Equality Act

We have assumed the properties appear to comply with the requirements of the Equality Act 2010.

7.16 Outstanding Debts

In the case of property where construction works are in hand, or have recently been completed, we do not normally make allowance for any liability already incurred, but not yet discharged, in respect of completed works, or obligations in favour of contractors, subcontractors or any members of the professional or design team.

7.17 Services

We do not normally carry out or commission investigations into the capacity or condition of services. Therefore, we assume that the services, and any associated controls or software, are in working order and free from defect. We also assume that the services are of sufficient capacity to meet current and future needs.

7.18 Plans and Maps

All plans and maps included in our report are strictly for identification purposes only, and, whilst believed to be correct, are not guaranteed and must not form part of any contract. All are published under licence and may include mapping data from Ordnance Survey © Crown Copyright. All rights are reserved.

7.19 Compliance with Building Regulations and Statutory Requirements

Our valuations have been provided in accordance with the RICS' Guidance Note: "Valuation of properties in multi-storey, multi-occupancy residential buildings with cladding, 1st Edition March 2021", effective from 5 April 2021.

Unless otherwise stated in our report none of the properties are of 11 metres or more/ over 4 storeys or are subject to any remedial works in the wake of the Grenfell Tower disaster of June 2017. We have therefore assumed that the properties conform to the Fire Precaution Regulations and any other statutory requirements.

Appendix 2

Market Commentary

Scottish Residential Property Market Overview (Registers of Scotland April 2022)

Three key figures for April 2022:

- £187,954 The average price of a property in Scotland;
- 16.2% The annual price change of a property in Scotland; and
- 3.0% The monthly price change of a property in Scotland.

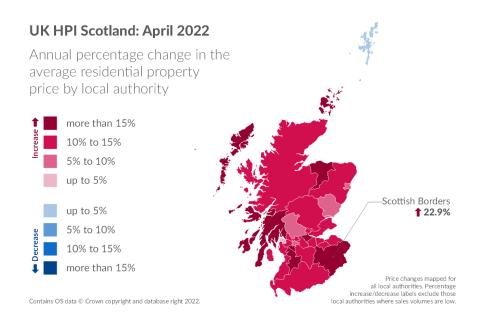

Estimates for the most recent months are provisional and are likely to be updated as more data is included. The house price index for April 2022 reflects transactions that took place up to the end of April. The latest provisional statistics from the UK HPI show that the average price of a property in Scotland in April 2022 was £187,954, an increase of 16.2% on April 2021. Comparing with the previous month, house prices in Scotland increased by 3.0% between March 2022 and April 2022.

The UK average house price was £281,161, which was an increase of 12.4% on April 2021 and an increase of 1.1% on the previous month.

The volume of residential sales in Scotland in February 2022 was 6,435, a decrease of 10.6% on the original provisional estimate for February 2021 and an increase of 12.2% on February 2020. This compares with decreases of 31.7% in England and 9.1% in Wales to February 2022, whilst sales volumes decreased by 19.3% in Northern Ireland when analysing Quarter 1 – 2022 relative to the same quarter in the previous year.

In Scotland, detached properties showed the biggest increase out of all property types, rising by 22.5% in the year to April 2022 to £346,753. Flatted properties showed the smallest increase, rising by 10.4% in the year to April 2022 to £126,446.

Average price increases were recorded in 31 out of 32 local authorities, when comparing prices with the previous year. The largest increase was in Scottish Borders where the average price increased by 22.9% to £203,485. The smallest increase was recorded in Inverclyde, where the average price increased by 3.6% to £111,462.

In April 2022, the highest-priced area to purchase a property was City of Edinburgh, where the average price was £324,947. In contrast, the lowest-priced area to purchase a property was Inverciyde, where the average price was £111,462.

As with other indicators in the housing market, which typically fluctuate from month-to-month, it is important not to put too much weight on one month's set of house price data. This was particularly important in the year from March 2020, as measures to counter COVID-19 affected the volume of transactions within the market, making trends between months and between years more volatile than usual.

About JLL

JLL (NYSE: JLL) is a leading professional services firm that specializes in real estate and investment management. Our vision is to reimagine the world of real estate, creating rewarding opportunities and amazing spaces where people can achieve their ambitions. In doing so, we will build a better tomorrow for our clients, our people and our communities. JLL is a Fortune 500 company with annual revenue of \$16.3 billion, operations in over 80 countries and a global workforce of over 90,000 as of December 31, 2018. JLL is the brand name, and a registered trademark, of Jones Lang LaSalle Incorporated. For further information, visit jll.com.

TAXATION

United Kingdom Taxation

The following applies only to persons who are the beneficial owners of Bonds and is a summary of the Issuer's understanding of current United Kingdom law and published practice of HM Revenue & Customs ("HMRC") relating to certain aspects of United Kingdom taxation as at the date of these Admission Particulars. References to "interest" refer to interest as that term is understood for United Kingdom tax purposes. Some aspects do not apply to certain classes of person (such as dealers and persons connected with the Issuer) to whom special rules may apply. The United Kingdom tax treatment of prospective Bondholders depends on their individual circumstances and may be subject to change at any time in the future, possibly with retrospective effect. Prospective Bondholders may be subject to tax in a jurisdiction other than the United Kingdom.

This is not intended to constitute a complete analysis of all tax consequences relating to the ownership of the Bonds and it is not intended to be, nor should it be considered to be, legal or tax advice. Prospective Bondholders who may be subject to tax in a jurisdiction other than the United Kingdom or who may be unsure as to their tax position should seek their own independent professional advice.

A. Interest on the Bonds

1. Payment of Interest on the Bonds

Payments of interest by the Issuer on the Bonds may be made without deduction of or withholding on account of United Kingdom income tax provided that the Bonds carry a right to interest and the Bonds are and continue to be admitted to trading on a "multilateral trading facility" operated by a "regulated recognised stock exchange" within the meaning of section 987 of the Income Tax Act 2007 or listed on a "recognised stock exchange" within the meaning of section 1005 of the Income Tax Act 2007. The ISM is a multilateral trading facility for this purpose. The ISM is operated by the London Stock Exchange which is a regulated recognised stock exchange. Provided, therefore, that the Bonds carry a right to interest and are and remain admitted to trading on a multilateral trading facility operated by a regulated recognised stock exchange, interest on the Bonds will be payable without withholding or deduction on account of United Kingdom tax.

Interest on the Bonds may also be paid without withholding or deduction on account of United Kingdom income tax where certain domestic exemptions apply, notably where interest on the Bonds is paid by the Issuer and, at the time the payment is made, the Issuer reasonably believes that: (a) the person beneficially entitled to the interest is a company resident in the United Kingdom; or (b) the person beneficially entitled to the interest is a company not resident in the United Kingdom that carries on a trade in the United Kingdom through a permanent establishment and which brings into account the interest in computing its United Kingdom taxable profits; (c) the payment is made to, or to the nominee of, a recipient that falls within the various categories specified in section 936(2) of the Income Tax Act 2007 (including charities and specified pension funds); or (d) a partnership, each member of which is a person or body referred to in (a), (b) or (c) above, is beneficially entitled to the interest, provided that, in each case, HMRC has not given a direction that the interest should be paid under deduction of tax.

In other cases, an amount must generally be withheld from payments of interest on the Bonds that have a United Kingdom source on account of United Kingdom income tax at the basic rate (currently 20 per cent.), subject to any other available exemptions and reliefs. However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a Bondholder not resident in the United Kingdom, HMRC can issue a notice to the Issuer to pay interest to the relevant Bondholder without deduction of tax (or for interest to be paid with tax deducted at the rate provided for in the relevant double tax treaty) provided that certain procedural formalities are complied with.

2. Further United Kingdom Income Tax Issues

Interest on the Bonds that constitutes United Kingdom source income for tax purposes may, as such, be subject to income tax by direct assessment even where paid without withholding.

However, interest with a United Kingdom source received without deduction or withholding on account of United Kingdom income tax will not be chargeable to United Kingdom income tax in the hands of a Bondholder (other than certain trustees) who is not resident for tax purposes in the United Kingdom unless (a) that Bondholder carries on a trade, profession or vocation in the United Kingdom through a United Kingdom branch or agency in connection with which the interest is received or to which the Bonds are attributable or (b) where that Bondholder is a company, that Bondholder carries on a trade in the United Kingdom through a permanent establishment in connection with which the interest is received or to which the Bonds are attributable. There are exemptions for interest received by certain categories of agent (such as some brokers and investment managers). The provisions of an applicable double taxation treaty may also be relevant for such Bondholders.

B. United Kingdom Corporate Taxpayers

In general, Bondholders which are within the charge to United Kingdom corporation tax will be charged to tax as income on all returns, profits or gains on, and fluctuations in value of, the Bonds (whether attributable to currency fluctuations or otherwise) broadly in accordance with their statutory accounting treatment so long as the accounting treatment is in accordance with their generally accepted accounting practice as that term is defined for tax purposes.

C. Other United Kingdom Taxpayers

Interest

Bondholders who are either individuals or trustees and are resident for tax purposes in the United Kingdom, or who carry on a trade, profession or vocation in the United Kingdom through a United Kingdom branch or agency to which the Bonds are attributable, will generally be liable to United Kingdom income tax on the amount of any interest received in respect of the Bonds.

2. Taxation of Chargeable Gains

The Bonds will constitute "qualifying corporate bonds" within the meaning of section 117 of the Taxation of Chargeable Gains Act 1992. Accordingly, a disposal by a Bondholder of a Bond will not give rise to a chargeable gain or an allowable loss for the purposes of the UK taxation of chargeable gains.

3. Accrued Income Scheme

On a disposal of Bonds by a Bondholder (other than Bondholders subject to corporation tax), any interest which has accrued since the last interest payment date may be chargeable to tax as income under the rules of the accrued income scheme as set out in Part 12 of the Income Tax Act 2007 if that Bondholder is resident in the United Kingdom or carries on a trade in the United Kingdom through a branch or agency to which the Bonds are attributable. Such rules should not however apply to any Bonds which are treated as "deeply discounted securities".

4. Taxation of Discount

The New Bonds should be treated as "deeply discounted securities" for the purposes of Chapter 8 of Part 4 of the Income Tax (Trading and Other Income) Act 2005. As a result, for Bondholders within the charge to income tax any gain made on the disposal of New Bonds by a Bondholder should be chargeable to tax as income.

D. Stamp Duty and Stamp Duty Reserve Tax (SDRT)

No United Kingdom stamp duty or stamp duty reserve tax is payable on the issue of the Bonds or on a transfer by delivery of the Bonds.

The Proposed Financial Transactions Tax (FTT)

On 14 February 2013, the European Commission (the "Commission") published a proposal (the "Commission's proposal") for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain,

France, Italy, Austria, Portugal, Slovenia and Slovakia (the "participating Member States"). However, Estonia has since stated that it will not participate.

The Commission's proposal has very broad scope and could, if introduced, apply to certain dealings in the Bonds (including secondary market transactions) in certain circumstances.

However, the Commission's proposal, remains subject to negotiation between participating Member States. It may therefore be altered prior to any implementation. Additional Member States of the EU may decide to participate. In February 2021, the Commission clarified that discussions on the common FTT under enhanced co-operation are ongoing with a view of their finalisation by the end of 2022. If there is no agreement by end of 2022, the Commission will, based on impact assessments, propose a new own resource to finance the EU budget, based on a new FTT. The Commission would endeavour to make these proposals by June 2024 with a view to their introduction by 1 January 2026.

Prospective holders of the Bonds are advised to seek their own professional advice in relation to the FTT.

SUBSCRIPTION AND SALE

Subscription

The Joint Bookrunners have, pursuant to a Subscription Agreement (the "Subscription Agreement") dated 15 July 2022, jointly and severally agreed with the Issuer to subscribe or procure subscribers for the New Bonds at the issue price of 71.190 per cent. of the principal amount of the New Bonds (plus 96 days' accrued interest in respect of the period from and including 14 April 2022 to but excluding the Issue Date at the rate of 2.375 per cent. per annum), less a combined selling, management and underwriting commission. The Issuer will also reimburse the Joint Bookrunners in respect of certain of their expenses, and has agreed to indemnify the Joint Bookrunners against certain liabilities, incurred in connection with the issue and offering of the New Bonds. The Subscription Agreement may be terminated in certain circumstances prior to payment to the Issuer.

United States

The Bonds have not been and will not be registered under the Securities Act or the securities laws of any state and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act.

The Bonds are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. Treasury regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 and regulations thereunder.

Each Joint Bookrunner has represented and agreed that, except as permitted by the Subscription Agreement, it will not offer, sell or deliver New Bonds (a) as part of their distribution at any time or (b) otherwise until 40 days after the later of the commencement of the offering and the Issue Date within the United States or to, or for the account or benefit of, U.S. persons.

In addition, until 40 days after the commencement of the offering of the New Bonds, an offer or sale of New Bonds within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer is made otherwise than in accordance with an available exemption from registration under the Securities Act.

Terms used above have the meanings given to them by Regulation S under the Securities Act.

United Kingdom

Each Joint Bookrunner has represented and agreed that:

- (a) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the Financial Services and Markets Act 2000 ("FSMA")) received by it in connection with the issue or sale of any New Bonds other than in circumstances in which Section 21(1) of the FSMA does not apply to the Issuer; and
- (b) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the New Bonds in, from or otherwise involving the United Kingdom.

Republic of Korea

The New Bonds have not been and will not be registered under the Financial Investment Services and Capital Markets Act (the "FSCMA"). Each Joint Bookrunner has represented and agreed that it has not offered, sold or delivered, directly or indirectly, in the Republic of Korea or to any resident (as such term is defined in the Foreign Exchange Transaction Law) of the Republic of Korea for a period of one year from the date of issuance of the New Bonds, except:

- (a) to or for the account or benefit of a resident of the Republic of Korea which falls within certain categories of "professional investors" as specified in the FSCMA, its Enforcement Decree and the Regulation on Securities Issuance and Disclosure; or
- (b) as otherwise permitted under applicable laws and regulations in the Republic of Korea.

Prohibition of Sales to EEA Retail Investors

Each Joint Bookrunner has represented and agreed that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any New Bonds to any retail investor in the EEA.

For the purposes of this provision:

- (a) the expression "retail investor" means a person who is one (or both) of the following:
 - (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or
 - (ii) a customer within the meaning of the Insurance Distribution Directive, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; and
- (b) the expression "offer" includes the communication in any form and by any means of sufficient information on the terms of the offer and the New Bonds to be offered so as to enable an investor to decide to purchase or subscribe for the New Bonds.

Prohibition of Sales to UK Retail Investors

Each Joint Bookrunner has represented and agreed that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any New Bonds to any retail investor in the UK.

For the purposes of this provision:

- (a) the expression retail investor means a person who is one (or both) of the following:
 - (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the EUWA; or
 - (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement the Insurance Distribution Directive, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of UK MiFIR; and
- (b) the expression an "offer" includes the communication in any form and by any means of sufficient information on the terms of the offer and the New Bonds to be offered so as to enable an investor to decide to purchase or subscribe for the New Bonds.

General

Each Joint Bookrunner has agreed that it will, to the best of its knowledge and belief, comply with all applicable securities laws and regulations in force in any jurisdiction in which it purchases, offers, sells or delivers New Bonds or possesses or distributes these Admission Particulars and will obtain any consent, approval or permission which is required by it for the purchase, offer, sale or delivery by it of New Bonds under the laws and regulations in force in any jurisdiction to which it is subject or in which it makes such purchases, offers, sales or deliveries and neither the Issuer nor the Bond Trustee shall have any responsibility therefor.

None of the Issuer, the Bond Trustee and the Joint Bookrunners represents that New Bonds may at any time lawfully be sold in compliance with any applicable registration or other requirements in any jurisdiction, or pursuant to any exemption available thereunder, or assumes any responsibility for facilitating such sale.

GENERAL INFORMATION

Authorisation

The issue of the New Bonds has been approved by resolutions of the Board of Directors of the Issuer dated 1 July 2022.

Admission to trading of the New Bonds

The admission of the New Bonds to trading on the ISM is expected on or about 20 July 2022 subject only to the issue of the Temporary Global Bond.

Documents Available

For the period of 12 months following the date of these Admission Particulars, copies of the following documents will, when published, be available for inspection from the registered office of the Issuer and from the specified office of the Paying Agent for the time being in London:

- (a) the constitutional documents of the Issuer, the Group Borrower and each Existing Borrower;
- (b) the audited financial statements of (i) the Sanctuary Group and Sanctuary in respect of the financial years ended 31 March 2021 and 31 March 2022 and (ii) the Issuer, the Group Borrower, Sanctuary Scotland and Sanctuary Affordable Housing in respect of the financial years ended 31 March 2020 and 31 March 2021, together with the audit reports prepared in connection therewith. The Issuer, the Group Borrower and the Existing Borrowers each currently prepare audited accounts on an annual basis:
- the most recently published audited annual financial statements (if any) of the Issuer, the Group Borrower and each Borrower and the most recently published unaudited interim financial statements (if any) of the Issuer, the Group Borrower and each Borrower, in each case together with any audit or review reports prepared in connection therewith. None of the Issuer, the Group Borrower and the Existing Borrowers currently publishes unaudited interim accounts;
- (d) the Bond Trust Deed, the Agency Agreement, the Account Agreement, the Custody Agreement, the Loan Agreement, the Security Trust Deed, the Security Agreements, the Group Borrower Security Agreement and the Intra-group Facility Agreements;
- (e) the Valuation Reports;
- (f) a copy of these Admission Particulars; and
- (g) any future admission particulars, offering circulars, prospectuses, information memoranda and supplements to these Admission Particulars and any other documents incorporated therein by reference.

Clearing Systems

The New Bonds have been accepted for clearance through Euroclear and Clearstream, Luxembourg.

The address of Euroclear is Euroclear Bank SA/NV, 1 Boulevard du Roi Albert II, B-1210 Brussels and the address of Clearstream, Luxembourg is Clearstream Banking, 42 Avenue JF Kennedy, L-1855 Luxembourg.

Identification Codes

The Legal Entity Identifier (LEI) of the Issuer is 213800A6T7362M7XHO44.

The temporary ISIN and Common Code for the New Bonds (which will apply for so long as the New Bonds are represented by the Temporary Global Bond) is XS2496638839 and 249663883, respectively. Upon exchange of the interests in the Temporary Global Bond for interests in the Permanent Global Bond, the ISIN and Common Code for the New Bonds will be XS2154346642 and 215434664, respectively.

The temporary and permanent CFI for the New Bonds is DBFNFB or as otherwise set out on the website of the Association of National Numbering Agencies (the "ANNA") or alternatively sourced from the responsible National Numbering Agency that assigned the ISIN.

The temporary FISN and permanent FISN for the New Bonds are SANCTUARY CAPIT/2.375ASST BKD 20500 and SANCTUARY CAPIT/2.375BD 20500414, respectively, or, in each case, as otherwise set out on the website of the ANNA or alternatively sourced from the responsible National Numbering Agency that assigned the ISIN.

Characteristics of underlying assets

The Loan Agreement has characteristics that demonstrate the capacity to produce funds to service any payments due and payable on the New Bonds.

Significant Change

There has been no significant change in the financial or trading position of Sanctuary or the Sanctuary Group, in each case since 31 March 2022.

There has been no significant change in the financial or trading position of the Issuer, the Group Borrower, Sanctuary Scotland or Sanctuary Affordable Housing in each case since 31 March 2021.

Material Change

There has been no material adverse change in the financial position or prospects of Sanctuary or the Sanctuary Group since 31 March 2022.

There has been no material adverse change in the financial position or prospects of the Issuer, the Group Borrower, Sanctuary Scotland or Sanctuary Affordable Housing, in each case since 31 March 2021.

Litigation

None of the Issuer, the Group Borrower or any Existing Borrower is or has been involved in any governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which the Issuer, the Group Borrower or any Existing Borrower is aware) in the 12 months preceding the date of these Admission Particulars which may have, or may have had in the recent past, a significant effect on the Issuer's, the Group Borrower's or any Existing Borrower's ability to meet its obligations to Bondholders.

Auditors and reporting accountants

The auditors of the Issuer, the Group Borrower and each Existing Borrower are KPMG LLP (**"KPMG"**). KPMG has no material interest in the Issuer, the Group Borrower or any Existing Borrower. KPMG has audited the accounts of Sanctuary, without qualification, in accordance with generally accepted auditing standards in the United Kingdom for each of the two financial years ended on 31 March 2021 and 31 March 2022. KPMG has audited the accounts of the Issuer, the Group Borrower, Sanctuary Scotland and Sanctuary Affordable Housing, without qualification, in accordance with generally accepted auditing standards in the United Kingdom for each of the two financial years ended on 31 March 2020 and 31 March 2021.

Certifications

The Bond Trust Deed provides that any certificate, advice, opinion or report of the Auditors (as defined in the Bond Trust Deed) or any other expert or professional adviser called for by, or provided to, the Bond Trustee (whether or not addressed to the Bond Trustee) in accordance with or for the purposes of the Bond Trust Deed may be relied upon without liability by the Bond Trustee as sufficient evidence of the facts stated therein notwithstanding that such certificate, advice, opinion or report and/or any engagement letter or other document entered into by the Bond Trustee in connection therewith contains a monetary or other limit on the liability of the Auditors or such other expert or professional adviser in respect thereof and notwithstanding that the scope and/or basis of such certificate, advice, opinion or report may be limited by any engagement or similar letter or by the terms of the certificate, advice, opinion or report itself.

Bond Trustee's action

The Conditions and the Bond Trust Deed provide for the Bond Trustee to take action on behalf of the Bondholders, the Couponholders or any other Secured Parties in certain circumstances, but only if the Bond Trustee is indemnified and/or secured and/or pre-funded to its satisfaction. It may not always be possible for the Bond Trustee to take certain actions, notwithstanding the provision of an indemnity and/or security and/or pre-funding to it. No Bondholder, Couponholder or any other Secured Party (other than the Bond Trustee) shall be entitled, amongst other things, to take any enforcement action against the Issuer unless the Bond Trustee having become bound to take any action fails to do so within a reasonable period and such failure is continuing.

Post-issuance information

The Issuer does not intend to provide any post-issuance information in relation to the New Bonds, the Issuer Security or the Underlying Security, other than as required pursuant to Condition 6.2 (*Information Covenants*).

Potential Conflicts of Interest

Each of the Joint Bookrunners, the Transaction Parties (other than the Issuer) and the Borrowers (together the "Relevant Parties") and their affiliates in the course of each of their respective businesses may provide services to the other Relevant Parties and to third parties and in the course of the provision of such services it is possible that conflicts of interest may arise between such Relevant Parties and their affiliates or between such Relevant Parties and their affiliates may provide such services and enter into arrangements with any person without regard to or constraint as a result of any such conflicts of interest arising as a result of it being a Relevant Party.

Joint Bookrunners transacting with the Issuer, the Group Borrower or the Borrowers

Certain of the Joint Bookrunners and their respective affiliates may have engaged or may in the future engage in investment banking and/or commercial banking transactions with, and may perform services for, the Issuer, the Group Borrower and/or any of the Borrowers and their affiliates in the ordinary course of business for which they have received or may receive customary fees and commissions. Certain of the Joint Bookrunners and their respective affiliates may have positions, deal or make markets in the Bonds, related derivatives and reference obligations, including (but not limited to) entering into hedging strategies on behalf of the Issuer, the Group Borrower and/or any Borrower and their respective affiliates, investor clients, or as principal in order to manage their exposure, their general market risk, or other trading activities.

In addition, in the ordinary course of their business activities, certain of the Joint Bookrunners and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer, the Group Borrower, any Borrower or their respective affiliates. Certain of the Joint Bookrunners or their respective affiliates that have a lending relationship with the Issuer, the Group Borrower, any Borrower or any of their affiliates routinely hedge their credit exposure to such entities consistent with their customary risk management policies. Typically, the Joint Bookrunners and their respective affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Bonds. Any such positions could adversely affect future trading prices of the Bonds. The Joint Bookrunners and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Yield

Indication of the yield on the New Bonds: 4.129 per cent. (semi annual). The yield is calculated at the Issue Date on the basis of the Issue Price of the New Bonds. It is not an indication of future yield.
