Beechbrook UK SME Credit II Holdings Plc
Annual Report and Audited Financial Statements
For the year ended 31 December 2023

Strategic Report

Beechbrook UK SME Credit II Holdings PLC (the “Company”) is a special purpose vehicle intended to hold, and make advances under, Loans (and their related security) originated by Beechbrook UK SME Credit Limited a subsidiary and authorised representative of Beechbrook Capital LLP (the “Investment Manager”) to lend to UK small and medium sized enterprises (“SMEs”).

The Company will fund the loan advances it makes under a variable funding note (the “Facility”) issued to Beechbrook UK SME Credit II L.P. (the “Fund”) and by requesting advances under the Facility. The Facility is listed on the Irish Stock Exchange’s Global Exchange Market (“GEM”).

During the year, the Company made a further £4.0 million (2022: £6.5 million) in follow-on investments. As at 31 December 2023, the value of the portfolio was £98.7 million (2022: £93.3 million) and principally represents cost, accrued interest and value of performance fees.

The Company received principal loan repayments during the year of £1.9 million (2022: £23.3 million).

The investment portfolio continues to perform well despite the macroeconomic environment. An investment write back of £0.5 million (2022: investment impairment of £0.5 million) was recognised in the year. This was offset by a corresponding increase in the variable funding note liability of £0.5 million (2022: decrease liability of £0.5 million).

The Company continues to focus on managing the existing portfolio and striving to maximise the value in those investments.

Key Performance indicators

During the year, the Company drew down £4.0 million (2022: £6.5 million) from the Facility to fund follow-on investments in the existing portfolio.

The Company made principal repayments of £1.7million (2022: £25.3 million) of the Facility and an additional amount of interest of £9.5 million (2022: £12.6 million).

At the balance sheet date, the amount payable under the Facility including interest was £99.0 million (2022: £92.6 million).

During the year, the Company generated £13.4 million of income (2022: £14.5 million) and made a net profit after tax of £10,000 (2022: £10,000). Accordingly, the Directors of the Company recommend paying a dividend of £10,000 to its sole shareholder, Beechbrook UK SME Credit Trust.

Principal risks and uncertainties

The Directors believe that there remains an inherent degree of uncertainty on the impact of the geopolitical situation in Ukraine and the Middle East on the UK and broader global economy. The effect of which could result in adverse impacts on currency and financial markets, such as increased volatility and illiquidity, and potentially lower economic growth in markets in the UK, Europe and globally.

The Company makes loans to small and medium sized enterprises (“SMEs”) which could ultimately be impacted by such macro events. The diversification of the portfolio has helped to mitigate this impact. The Investment Manager will continue to monitor the portfolio and work with the SMEs in identifying and managing this risk where possible.

The remaining risks are associated with achieving the full realisation of current fair market value and the future expected returns from the Fund’s investments, particularly those where leverage is still high. The Company is also potentially exposed to the credit risk, liquidity risk and market risk for which further details are set out in note 4.

Section 172 Statement

The Directors of the Company recognise their duty under s172 of the Companies Act 2006 to promote the success of the company for the benefit of its stakeholders.

Beechbrook UK SME Credit II Holdings Plc
Annual Report and Audited Financial Statements
For the year ended 31 December 2023

Strategic Report (continued)

Section 172 Statement (continued)

As described in the Strategic Report, the Company is a special purpose vehicle intended to hold, and make advances under, loans to lend to UK small and medium sized enterprises. The loans are originated by the Investment Manager and the Board reviews and approves such proposals with a view of making investments that will generate sufficient future profits for the Company to service its liabilities and pay dividends to its shareholder. The monitoring of the portfolio is also performed by the Investment Manager and any key decisions such as refinancing, follow-on investments and disposals are approved by the Board. The Board meets on a quarterly basis with the Investment Manager and reviews the quarterly performance of the investments, and Investor quarterly reports issued by the Investment Manager. The Board also reviews the movements of the Notes position between the Company and its shareholder and compliance with the GEM listing.

The shareholder of the Company is Beechbrook UK SME Credit Trust which is a charitable trust that uses the dividends to make donations across selected UK charities.

The Company's books and records are outsourced to a third-party administrator – Alter Domus Fund Services (UK) Limited (“AlterDomus”) – who are responsible for maintaining the financial reporting records. The Board meets quarterly to review the financial performance of the Company and portfolio investments alongside the Investment Manager and AlterDomus. This also includes a review of any regulatory requirements, compliance and risks. The risks to the Company are stated in the Strategic report and Note 4 to the financial statements.

The Company's key business relationships are with the small and medium enterprises with which it has lending arrangements. The Company has no employees and its primary activity is to act as a special purpose vehicle for holding investments to generate interest income and eventual realisation. Its activities are not determined to have a direct impact on the community or on the environment. However, the loans are made to support the growth of UK SMEs and if successful may indirectly form a positive contribution to the UK economy through the creation of jobs and tax revenues.

The Board of Directors and the Investment Manager continue to monitor all investments regularly and to work closely to try to safeguard the interest of the Fund's limited partners.

This report was approved by the board of directors on 27 March 2024.

.....

Jon Herbert

Director

27 March 2024

Beechbrook UK SME Credit II Holdings Plc
Annual Report and Audited Financial Statements
For the year ended 31 December 2023

Directors' report

The directors of Beechbrook UK SME Credit II Holdings Plc (the "Company"), a public limited company registered in England and Wales, present the annual report and audited financial statements of the Company for the year ended 31 December 2023.

The principal activity of the Company is to advance senior secured loans to UK small and medium sized enterprises.

The Company has adopted FRS 102, The Financial Reporting Standard applicable in the UK and Republic of Ireland ("FRS 102").

Principal activities, review of the business and future developments

During the year, the Company drew down £4.0 million (2022: £6.5 million) from the Facility to fund one follow-on investment. As at 31 December 2023, the value of the portfolio was £98.7 million (2022: £93.3 million).

The Company generated £13.4 million of income from the portfolio during the year (2022: £14.5 million) and paid interest on the Facility notes of £9.5 million (2022: £12.6 million).

During the year the Company received principal loan repayments of £1.9 million (2022: £23.3 million) from its portfolio of investments.

Principal risks and uncertainties

The directors have considered the principal risks and uncertainties of the Company and are as explained in the Strategic report.

Going concern

The directors consider the Company to be a going concern as explained in note 5 to the financial statements.

Results and Distributions

During the year, the Company generated net profit after tax of £10,000 (2022: £10,000). The Board of directors recommend a dividend of £10,000 to be paid to its sole shareholder Beechbrook UK SME Credit Trust.

Capital Structure

The Company has authorised and issued to its sole shareholder, Beechbrook UK SME Credit Trust, 50,000 ordinary shares of £1 each. At 31 December 2023, £37,500 (2022: £37,500) shares remain unpaid. The Directors consider the remaining unpaid share capital will not be called upon, therefore it has been derecognised in the Statement of Financial Position. The ordinary shares carry no right to fixed income. Each share carries the right to one vote at general meetings of the Company and equal rights to share in the profits of the Company. The variable funding note facility holds seniority over the share capital.

Post balance sheet events

All post balance sheet events are disclosed in note 20 to the financial statements.

Directors' interests

None of the directors had any interest in any material control or arrangement with the Company or its investments. The current Directors of the Company and those in office throughout the year and up to the date of these financial statements are detailed on page 2.

Disclosure of information to auditors

Each of the persons who are a director of the Company at the date of approval of this annual report confirms that:

- So far as the director is aware, there is no relevant audit information of which the Company's auditors are unaware; and
- The director has taken all the steps that he/she ought to have taken as a director in order to make himself/herself aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

Beechbrook UK SME Credit II Holdings Plc
Annual Report and Audited Financial Statements
For the year ended 31 December 2023

Directors' report (continued)

Disclosure of information to auditors (continued)

This confirmation is given and should be interpreted in accordance with the provisions of Section 418 of the Companies Act 2006.

Independent Auditors

PricewaterhouseCoopers LLP (the "Auditors") were appointed on 15 August 2019 and have expressed their willingness to continue in office.

Statement of directors' responsibilities

The directors are responsible for preparing the Annual Report and the Financial Statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial period. Under that law the directors have prepared the financial statements in accordance with United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice, comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland"), and applicable law.

Under Company Law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable United Kingdom Accounting Standards, comprising FRS 102, have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

On behalf of the Board of Directors of the Company

.....
Jon Herbert

Director

27 March 2024

Beechbrook UK SME Credit II Holdings Plc
Annual Report and Audited Financial Statements
For the year ended 31 December 2023

Independent auditors' report to the members of Beechbrook UK SME Credit II Holdings Plc

Report on the audit of the financial statements

Opinion

In our opinion, Beechbrook UK SME Credit II Holdings Plc's financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2023 and of its profit and cash flows for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law); and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Annual Report and Audited Financial Statements (the "Annual Report"), which comprise the Statement of Financial Position as at 31 December 2023, the Statement of Comprehensive Income, the Statement of Changes in Equity and the Cash Flow Statement for the year then ended, and the notes to the financial statements, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Our audit approach

Overview

Audit scope

- In planning for our audit, we met with those charged with governance to confirm our understanding of significant business activities during the year, and to understand their perspectives on associated business risks. We used this insight when forming our own views regarding the business, as part of developing our audit plan and when scoping and performing our audit procedures. We determined materiality and assessed the risks of material misstatement in the financial statements.

Key audit matters

- Carrying value of loans reported at amortised cost less provisions for impairment
- Investments at fair value through profit and loss

Beechbrook UK SME Credit II Holdings Plc
Annual Report and Audited Financial Statements
For the year ended 31 December 2023

Materiality

- Overall materiality: £1,005,000 (2022: £948,000) based on 1% of total assets.
- Performance materiality: £753,000 (2022: £711,000).

The scope of our audit

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements.

Key audit matters

Key audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

This is not a complete list of all risks identified by our audit.

This year we have sought to disaggregate our Key Audit Matters to better represent the nature of the investments in the portfolio. Therefore, the Key Audit Matter titled 'Investments at fair value through profit and loss' is a new key audit matter this year. Risk of fraud in revenue recognition, which was a key audit matter last year, is no longer included because of the fact that it did not involve a significant allocation of resource and effort of the audit team. Otherwise, the key audit matters below are consistent with last year.

Key audit matter	How our audit addressed the key audit matter
<p><i>Carrying value of loans reported at amortised cost less provisions for impairment</i></p> <p>Refer to notes 2 (c) and 2 (d) (Significant Accounting Policies) and note 7 (Investments).</p> <p>The investment portfolio as at 31 December 2023 includes loans reported at amortised cost less impairment with a material valuation of £93.9m. None of the loans were either partially or fully impaired as at year end. A significant risk arises over the valuation of loans in the portfolio. The risk exists that loans reported at amortised cost less provisions for impairment are held at inappropriate carrying values.</p> <p>Loans at amortised cost less impairment are initially recognised at a carrying value equivalent to the funds advanced to the borrower plus accrued interest.</p> <p>After initial recognition loans are subsequently measured at amortised cost using the effective interest rate method less impairment provisions. A quarterly impairment test is performed by the Directors and Investment Manager.</p>	<p>We understood and assessed the methodology and assumptions applied by the Directors and Investment Manager in determining the valuation of loans at amortised cost less impairment, by reference to accounting standards and industry practice.</p> <p>We tested the techniques used in assessing the need for any impairment of the loans and determining the fair value of the rights to any performance fees. Our testing included:</p> <ul style="list-style-type: none"> • Recalculating the amortised cost balance using the effective interest rate method; • Obtaining independent confirmation of loan positions from the borrowers; • Performing testing on a sample basis to confirm the accuracy of the loans reported by agreeing payments of principal and interest to underlying transactions with borrowers; • Discussing of the valuation models and reports with the Directors and Investment Manager to obtain an understanding of the process including their assessment of whether any impairment triggers have been met; • Performing testing of key inputs and assumptions to understand the performance of each investee company and the results of the related impairment assessment; • Obtaining supporting financial information from the investee companies that corroborated the discussions we held with the Investment Manager and key inputs in the valuation models; and • Agreeing the amounts per the valuation reports to the accounting records and the financial statements.

Beechbrook UK SME Credit II Holdings Plc
Annual Report and Audited Financial Statements
For the year ended 31 December 2023

	<p>As a result of the procedures performed, we found that the recording of the loans held at amortised cost were free from material misstatement and consistent with the Company's accounting policies. Furthermore, the assumptions used by management to calculate impairment provisions were supported by appropriate evidence.</p> <p>Our testing did not identify any evidence of material misstatement.</p>
<p><i>Investments at fair value through profit and loss</i></p> <p>Refer to notes 2 (e) (Significant Accounting Policies) and note 7 (Investments).</p> <p>The investment portfolio as at 31 December 2023 included unlisted investments valued at fair value through profit and loss. We focused on the valuation and existence of the unlisted investments as these investments represented a material balance in the financial statements of £4.9m and the valuation may require significant estimates to be applied by the Directors such that changes to key inputs to the estimates made can result in a material change to the valuation of unlisted investments.</p> <p>The valuation of the portfolio companies are carried out in order to assess the recoverability of the loan and also the fair value of any performance fees is determined by the Investment Manager in accordance with the International Private Equity and Venture Capital Valuation (IPEV) guidelines, based on the earnings multiple basis of valuation. The impairment and fair value assessment requires estimates and significant judgements to be applied by the Directors and the Investment Manager such that changes to key inputs to the estimates and/or judgements made can result in a material change to the carrying value.</p>	<p>We assessed the valuation methodology applied by reference to the International Private Equity and Venture Capital Valuation guidelines (IPEV), and tested the techniques used by the Directors in determining the fair value of unlisted investments.</p> <p>We performed substantive testing over the material unlisted investments held at the year end. This testing included:</p> <ul style="list-style-type: none"> • Assessing the appropriateness of the valuation methodology used and testing the inputs either through validation to appropriate sources, or where relevant, assessing whether significant estimates and judgements used are supportable. • Agreeing purchases of the investments and subsequent investments to purchase agreements and bank statements; • Obtaining confirmation of the unlisted investments held; • Seeking publicly available third party information that would support or challenge the estimates made by the Directors in their year end valuation; and • Checking the mathematical accuracy of the Directors' valuation calculation. <p>We found that the Directors' valuation policy applied to unlisted investments was appropriate and the resultant valuations were materially consistent with the application of that policy.</p> <p>No material misstatements were identified from our substantive testing.</p>

How we tailored the audit scope

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the company, the accounting processes and controls, and the industry in which it operates.

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we looked at where the Directors made subjective judgements, for example in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits we also addressed the risk of management override of internal controls, including evaluating whether there was evidence of bias by the directors that represented a risk of material misstatement due to fraud.

Beechbrook UK SME Credit II Holdings Plc
Annual Report and Audited Financial Statements
For the year ended 31 December 2023

The impact of climate risk on our audit

As part of our audit we made enquiries of management to understand the extent of the potential impact of climate risk on the company's financial statements, and we remained alert when performing our audit procedures for any indicators of the impact of climate risk. In particular, we understood management's consideration of the impact of climate change in the valuation of investments in so far as they are able. We also considered the consistency of the climate change disclosures included in the Strategic Report with the financial statements and our knowledge from our audit. Our procedures did not identify any material impact as a result of climate risk on the Company's financial statements.

Materiality

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements as a whole as follows:

<i>Overall company materiality</i>	£1,005,000 (2022: £948,000).
<i>How we determined it</i>	1% of total assets
<i>Rationale for benchmark applied</i>	The benchmark used is total assets because the focus of the main users of the financial statements is on the value of the investments.

We use performance materiality to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds overall materiality. Specifically, we use performance materiality in determining the scope of our audit and the nature and extent of our testing of account balances, classes of transactions and disclosures, for example in determining sample sizes. Our performance materiality was 75% (2022: 75%) of overall materiality, amounting to £753,000 (2022: £711,000) for the company financial statements.

In determining the performance materiality, we considered a number of factors - the history of misstatements, risk assessment and aggregation risk and the effectiveness of controls - and concluded that an amount in the middle of our normal range was appropriate.

We agreed with those charged with governance that we would report to them misstatements identified during our audit above £100,500 (2022: £94,800) as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

Conclusions relating to going concern

Our evaluation of the directors' assessment of the company's ability to continue to adopt the going concern basis of accounting included:

- We held a discussion with management to understand the future plans of the Company;
- We obtained the Directors' assessment of going concern, assessed the key assumptions and considered whether these were supported by the evidence we obtained; and
- We reviewed the disclosures provided relating to the going concern basis of preparation, and found that these provided an explanation of the Directors' assessment that was consistent with the evidence we obtained.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the company's ability to continue as a going concern.

Beechbrook UK SME Credit II Holdings Plc
Annual Report and Audited Financial Statements
For the year ended 31 December 2023

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Strategic report and Directors' Report, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on our work undertaken in the course of the audit, the Companies Act 2006 requires us also to report certain opinions and matters as described below.

Strategic report and Directors' Report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic report and Directors' Report for the year ended 31 December 2023 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic report and Directors' Report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of directors' responsibilities, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Beechbrook UK SME Credit II Holdings Plc
Annual Report and Audited Financial Statements
For the year ended 31 December 2023

Based on our understanding of the company and industry, we identified that the principal risks of non-compliance with laws and regulations related to the listing rules of the Irish Stock Exchange's Global Exchange Market ("GEM"), and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the financial statements such as the Companies Act 2006. We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to management bias in making judgements and estimates involved in determining the impairment of the investments, and posting inappropriate journal entries which impact performance of the Company. Audit procedures performed by the engagement team included:

- Enquiring with management including consideration of known or suspected instances of non-compliance with laws and regulations and fraud;
- Obtaining an understanding of management's internal control environment designed to prevent and detect irregularities;
- Reviewing relevant meeting minutes, including those of the Board of Directors;
- Designing audit procedures to incorporate unpredictability around the nature, timing or extent of our testing;
- Understanding controls at the Investment Manager and its outsourced service provider relating to reconciliations, accounting and reporting of loan balances, including impairment assessment;
- Corroborating inputs and challenging assumptions and judgements made by the Investment Manager and Directors over significant areas of estimation through procedures relating to the carrying value of investments described in the related key audit matter above; and
- Identifying and testing journal entries, in particular any journal entries posted with unexpected account combinations.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not obtained all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the company, or returns adequate for our audit have not been received from branches not visited by us; or
- certain disclosures of directors' remuneration specified by law are not made; or
- the financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

Beechbrook UK SME Credit II Holdings Plc
Annual Report and Audited Financial Statements
For the year ended 31 December 2023

Notes to the Financial Statements

1. Background

Beechbrook UK SME Credit II Holdings Plc (the "Company") is a public limited company in England and Wales established under the Limited Companies Act 2006, registered on 11 January 2019 with registration number 11763030. The Company is a special purpose vehicle intended to hold and advance loans (and their related security) originated by Beechbrook UK SME Credit Limited, a subsidiary and authorised representative of Beechbrook Capital LLP (the "Investment Manager"), to UK small and medium sized enterprises. Its registered office and place of office are disclosed on page 2.

a) Statement of compliance

These financial statements have been prepared in compliance with United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice, including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland"), and the Companies Act 2006.

2. Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to the years presented, unless otherwise stated.

a) Basis of preparation

The financial statements have been prepared on a going concern basis under the historical cost convention, as modified by investments at fair value through profit or loss.

The preparation of financial statements in conformity with FRS 102 requires the use of accounting estimates and for management to exercise judgement while applying the Company's accounting policies. These estimates are based on the management's best knowledge of events, which existed at the reporting date, however, the actual results may differ from these estimates. The area involving a higher degree of judgement or complexity and which involves significant assumptions is the valuation of loan investments, which are held at amortised cost less impairment and investments at fair value through profit or loss.

b) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and in hand, deposits held on call with banks and other short term, highly liquid investments with original maturities of three months or less. Bank overdrafts that are repayable on demand are included as a component of cash and cash equivalents for the purpose of the Cash Flow Statement.

c) Loans at amortised cost less impairment

Loan investments are initially recognised at a carrying value equivalent to the funds advanced to the borrower plus accrued interest. After initial recognition loans are subsequently measured at amortised cost using the effective interest rate method less impairment provisions (see note 2d).

At the end of each reporting period the loans are assessed for objective evidence of impairment. If the loan is impaired, the impairment loss is recognised in the Statement of Comprehensive Income.

d) Impairment of loans

The allowance for impairment losses on loans and receivables is the Company's best estimate of losses incurred in the portfolio at the balance sheet date. The factors, which may be considered indicators of an impairment event include delays in cash interest payments, deterioration of value, borrowers' delinquency and covenant breaches. In determining the required level of impairment provisions, the Company uses the outputs from the analysis of historical and budgeted data, multiples and primarily business forecasts. Judgement is required to assess the robustness of the outputs from this analysis and, where necessary make appropriate adjustments. Impairment losses on the loans and accrued interest are recognised in the Statement of Comprehensive Income.

For the year ended 31 December 2023

Notes to the Financial Statements (continued)

2. Summary of significant accounting policies (continued)

e) Investments at fair value through profit or loss

Investments at fair value through profit or loss comprise the Company's rights to future performance fees attached to loan investments where applicable. Performance fees are contractual rights to future income payable upon an exit event such as the sale of the business. The value of the fee is normally based upon the equity value of the business at the time of the exit event relative to the entry level value. Accordingly, the performance fee element of the loan is valued in compliance with the principles of the International Private Equity and Venture Capital Valuation Guidelines ("IPEV") as amended 14 December 2022.

FRS 102 establishes a fair value hierarchy that categorises into three levels the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities (Level I inputs) and the lowest priority to unobservable inputs (Level III inputs). Market price observability is impacted by a number of factors, including the type of investment and the characteristics specific to the investment. Investments with readily available active quoted prices, either for the identical instrument or similar instruments, generally will have a higher degree of market price observability and a lesser degree of judgement used in measuring fair value.

Investments measured and reported at fair value are classified and disclosed utilising inputs from one or more of the following categories:

Level I - quoted (unadjusted) price for an identical asset in an active market; Level I inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date

Level II - price of a recent transaction for an identical asset. If necessary, the price is adjusted to reflect updated economic conditions or if evidence suggests that a recent transaction was not at fair value; and

Level III - if there is no market and no suitable recent transactions then a valuation technique is used to determine the arm's length price for the asset. If a reliable, commonly used valuation method exists in that market, then that technique is used.

The Directors have concluded that the Company's investments at fair value through profit or loss should be classified as using significant Level III inputs in the fair value hierarchy.

The fair value of the performance fees reported in these financial statements where applicable is determined by the Investment Committee of the Investment Manager in accordance with the IPEV guidelines. The fair value is the price that would be received to sell the asset in an orderly transaction between market participants at the measurement date. Where available, fair value is based on observable market prices or parameters or derived from such price or parameters. Where observable prices or inputs are not available, valuation techniques are applied. These valuation techniques involve varying levels of management estimation and judgement, the degree of which is dependent on a variety of factors. Hierarchical levels, as defined by FRS 102, are directly related to the amount of subjectivity associated with the inputs to the valuation of these investments.

The performance fees are valued using the earnings multiple basis of valuation. Under this method, an earnings multiple is selected and applied to the earnings before interest, tax, depreciation and amortisation ("EBITDA") to approximate the enterprise value (EV) of the business. The earnings multiple selected in calculating the EV is typically based on comparable or market entry multiple used at the time of purchase adjusted for any material events. These include, but are not limited to, price of recent comparable transactions, timing of exit and risk profile. Unrealised performance fees are held at fair value through profit or loss, upon realisation performance fees are recorded in the Statement of Comprehensive Income.

Beechbrook UK SME Credit II Holdings Plc
Annual Report and Audited Financial Statements
For the year ended 31 December 2023

Notes to the Financial Statements (continued)

2. Summary of significant accounting policies (continued)

e) Investments at fair value through profit or loss (continued)

After deduction of all debt like financial instruments in the event of a liquidation (the “attributable enterprise value” (“AEV”)), the AEV is apportioned across the remaining equity. Where applicable, any value attributable to the Company’s share of the performance fees is recognised as an unrealised gain in the Statement of Comprehensive Income. However, the Investment Manager reserves the right to restrict the value to cost where the accuracy of such estimates are too remote to predict with a reasonable level of certainty.

f) Interest expense and similar charges

Interest expenses and similar charges are recognised on an accruals basis.

g) Interest income and transaction fees

Interest income is comprised of UK contractual cash and PIK (“payment in kind”) interest from loan investments. PIK interest accrues over the life of the investment and is typically paid upon a realisation event. Interest from loans is recognised in the Statement of Comprehensive Income for all instruments measured at amortised cost using the effective interest rate method (“EIRM”).

The EIRM is a method of calculating the amortised cost of a financial asset or financial liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash flows through the expected life of the financial instrument or, when appropriate, a shorter period, to the net carrying amount of the financial asset or financial liability. When calculating the effective interest rate, the Company takes into account all contractual terms of the financial instrument, for example prepayment options, but does not consider future credit losses. The calculation includes all fees paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums or discounts.

Fees and commissions which are not considered integral to the EIRM and interest income are recognised on an accruals basis when the service has been provided or received.

Transaction fees comprise all arrangement fees and other transaction fees that arise in the course of making investments and are recognised in the Statement of Comprehensive Income for the benefit of the Company. Arrangement fees are amortised over the life of the loan to which they relate.

h) Taxation

For UK corporation tax purposes, the Company has been considered as a securitisation company under the Taxation of Securitisation Companies Regulations 2006 (SI 2006/3296). Therefore, the Company is not required to pay corporation tax on its accounting profit or loss. Instead, the Company is required to pay tax on its retained profits as required by the capital market arrangement.

i) Foreign exchange gains and losses

The financial statements of the Company are presented in the currency of the primary economic environment in which the Company operates, being Pounds Sterling (“GBP”) (the “functional currency”).

Transactions in currencies other than the functional currency are recorded at the rates of exchange prevailing on the dates of the transactions. Monetary assets and liabilities that are denominated in foreign currencies are retranslated at the rates prevailing at the reporting date.

Non-monetary assets and liabilities held at historic cost, that are denominated in foreign currencies are translated at the spot rate prevailing on the transaction date with no revaluation taking place at the reporting date.

j) Expenses

All expenses are accounted for on an accruals basis.

k) Variable funding note facility

On 20 June 2019, the Company issued a £250 million variable funding note (the “Facility”) to Beechbrook UK SME Credit II L.P. (the “Purchaser”). Under the terms of the Facility, the Company may draw down upon the Facility by issuing Advance Request Notes (“Notes”) to the Purchaser and the obligation to repay the liability is subsequently measured at amortised cost less impairments in accordance with section 11 *Basic Financial Instruments* of FRS 102 which applies to basic financial instruments and is relevant to all entities.

Beechbrook UK SME Credit II Holdings Plc
Annual Report and Audited Financial Statements
For the year ended 31 December 2023

Notes to the Financial Statements (continued)

k) Variable funding note facility (continued)

Interest for each interest period accrues on the Notes at an amount equal to Net Receipts for the interest period in accordance with the priority of payments. Net Receipts is equal to the aggregate of all principal, interest, costs, charges, expenses and other amounts received by the issuer from the borrower in respect of a loan.

The priority of payments is set out in clause 5, schedule 6 of the Notes Facility Agreement. First priority is amounts due to the Security Trustee and any Delegate. Secondly, amounts due to any other service providers. Thirdly, amounts due to the relevant tax authority. Fourthly, amounts due to third party creditors. Fifthly, principal and disposal proceeds in respect of a loan. Sixthly, dividends payable. Seventhly, the amount of any agreement fees payable. Eighthly, interest payable on the Notes.

The payment of all amounts expressed to be payable by the Company under and in respect to the Facility is limited in its recourse and subject to availability of funds of the Company.

l) Financial Instruments

Financial Assets

Financial assets comprise Investments measured at fair value through profit or loss, investments measured at amortised cost, and debtors, prepayments and cash at bank measured at historic cost.

Investments measured at amortised cost are initially recognised at a carrying value equivalent to the funds advanced to the borrower plus accrued interest. After initial recognition such assets are subsequently measured at amortised cost using the effective interest rate method less impairment provisions.

At the end of each reporting period financial assets measured at amortised cost are assessed for objective evidence of impairment. If an asset is impaired, the impairment loss is recognised in the Statement of Comprehensive Income. If there is a decrease in the impairment loss arising from an event occurring after the impairment was recognised, the impairment is reversed. The impairment reversal is recognised in the Statement of Comprehensive Income.

Financial assets are derecognised when (a) the contractual rights to the cash flows from the asset expire or are settled or (b) substantially all the risks and rewards of the ownership of the asset are transferred to another party or (c) control of the asset has been transferred to another party who has the practical ability to unilaterally sell the asset to an unrelated third party without imposing additional restrictions.

Financial Liabilities

Financial liabilities comprise creditors and accruals, deferred income and variable funding note measured at historic cost.

Financial liabilities are derecognised when the liability is extinguished, that is when the contractual obligation is discharged, cancelled or expires.

m) Segment Reporting

The Directors, with advice from the Investment Manager, make the strategic investment decisions on behalf of the Company. The Company is mandated by its stakeholders to make investments in the form of loans and minority equity positions (see note 7) to SMEs in the UK only. The Company is domiciled in the UK and all the Company's income is derived from investments in entities incorporated in the UK. Accordingly, the Directors of the Company consider the business to have a single operating segment. Investment decisions are based on a single, integrated investment strategy, and the Company's performance is evaluated on an overall basis. There were no changes in the reportable segments during the year.

3. Judgements and key sources of estimation and uncertainty

The preparation of financial statements requires the directors to make estimates and assumptions that affect the reported amounts of assets and liabilities including the disclosure of contingent assets and liabilities at the date of the financial statements. This also includes the reported amounts of increases and decreases in net assets from operations during the reporting period.

Beechbrook UK SME Credit II Holdings Plc
Annual Report and Audited Financial Statements
For the year ended 31 December 2023

Notes to the Financial Statements (continued)

3. Judgements and key sources of estimation and uncertainty (continued)

a) Critical judgements in applying the Company's accounting policies

Judgement is exercised when impairing loans and receivables and valuation of any performance fees attached to the loans. Loans and receivables are tested for impairment in line with the policy described in note 2(d) to these financial statements. When assessing the impairment of an asset, management considers factors including the credit rating and long-term growth rate of the counterparties, the ageing profile of the receivables and historical experience. The valuation of performance fees are assessed in line with policy disclosed in note 2(e).

b) Critical accounting estimates and assumptions

Details on the specific estimates made in assessing the impairment of Loan held at amortised cost less impairment and investments held at fair value through profit and loss is included under the accounting policies in note 2(d) and 2(e). Actual results could differ from those estimates and such differences could be material, especially under volatile economic conditions.

4. Risk management

Risk arising from financial instruments

The Company is potentially exposed to credit risk, liquidity risk and market risk arising from the financial instruments held. The following analysis, detailed in this note, highlights the nature and extent of these risks arising from the financial instruments held by the Company at 31 December 2023.

Credit risk

Default/credit risk is the risk that one party to a financial instrument will fail to discharge an obligation under the contract or arrangement and cause the other party to incur a financial loss. The Company has made loans to small and medium-sized, privately owned businesses. Compared to larger, publicly owned firms, such companies generally have limited financial resources and access to capital and higher funding costs. They may be in a weaker financial position and may need more capital to expand or compete. These companies frequently have shorter operating histories, narrower product lines and smaller market shares than larger businesses, which render them more vulnerable to competitors' actions and market conditions, as well as general economic downturns.

The above challenges increase the risk of these companies defaulting on their obligations. The level of risk assessed when the loans are granted is taken into account within the effective interest rate at which the amounts are lent. The Company typically has a floating charge over the assets of the borrower, which may become enforceable in the event of a default.

Financial assets exposed to credit risk include investments, debtors and cash balances. It is the opinion of the directors that the carrying amounts of these financial assets represent the Company's maximum credit exposure at the year-end.

The Directors believe that there remains an inherent degree of uncertainty on the impact of the geopolitical situation in Ukraine on the UK and broader global economy. This could result in adverse impacts on currency and financial markets, such as increased volatility and illiquidity, and potentially lower economic growth in markets in the UK, Europe and globally. It is likely that such adverse events will increase the Company's exposure to credit risk in the short to medium term. The Directors alongside the Investment Manager will continue to monitor the portfolio and manage this risk by providing flexibility to its borrowers as appropriate.

Liquidity risk

Liquidity risk is the risk that the Company may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

Prudent liquidity risk management implies maintaining sufficient cash, the availability of funding through an adequate amount of committed credit facilities and the ability to settle investment transactions as they fall due. The Company aims to maintain flexibility in funding by keeping adequate cash balances and ensuring variable funding notes are available.

Beechbrook UK SME Credit II Holdings Plc
Annual Report and Audited Financial Statements
For the year ended 31 December 2023

Notes to the Financial Statements (continued)

4. Risk management (continued)

Liquidity risk (continued)

The financial liabilities of the Company comprise of amounts drawn on a variable funding facility and short-term trade payables. The portfolio of investments is regularly reviewed for liquidity risk and market developments relevant to the Company's investments are continually monitored to explore, evaluate and maximise all realisation opportunities and repaying the variable funding facility. Liquidity risk on the short-term trade payables is considered low and is managed primarily via the retention of cash interest on the Company's loan investments.

Liquidity risk on the Facility is low, as the Note Purchasers are limited in recourse to the assets and undertakings of the Company if there are insufficient amounts available on the Charged Assets to pay in full the amounts outstanding under the Notes until such time when sufficient funds are available to pay such obligations.

Market risk

(i) Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Interest rates are highly sensitive to many factors beyond the Company's control, including governmental monetary and tax policies, domestic and international economic and political considerations and other factors.

Interest rate fluctuations present a variety of risks, including the risk of a mismatch between asset yields and borrowing rates, variances in the yield curve and fluctuating prepayment rates, and such fluctuations may adversely affect the Company's income.

The majority of the Company's exposure to financial instruments is in the form of interest-bearing loans. The risk is mitigated as the interest is contractual and typically, with a fixed interest element and a floating rate portion. The floating rates are based on base rates and where possible floors are negotiated to reduce the risk of negative rates.

During the year, the Company generated interest income of £12.6 million (2022: £11.1 million). Interest income is comprised of a contractual fixed margin plus a base floating rate charge. The average 3m base rate during the year was 4.68% (2022: 1.46%), which is above (2022: above) the floor incorporated into the investments ranging from 0.50% to 0.75%, and peaked at 5.25% (2022: 3.50%). If the base rate increased over its 2023 peak to 5.50% or at a floor of 0% throughout the year, then the impact on profits are estimated to be an increase and decrease of £4.5 million and £0.4 million (2022: £4.1 million and £0.5 million), respectively. The variable funding note interest expense will be impacted in the same way.

ii) Capital risk management

The Company has no material capital requirements other than to ensure it has a minimum level of authorised and issued share capital of £50,000, see note 16 for further details. The principal financing comes through the variable funding notes. Working capital requirements are managed and met primarily through the appropriate retention of cash interest on its loan investments, arrangement fees and realisation proceeds at any given point in time. The capital and working capital requirements are reviewed on a monthly basis to ensure the Company has sufficient resources to continue as a going concern in the future.

5. Going concern

As at 31 December 2023, the Company had net assets of £22,500 (2022: £22,500) and cash at bank of £1.8 million (2022: £1.5 million). Working capital requirements are typically met through retention of interest received from its investment portfolio. The Company has a net current liability position of £9.8 million (2022: net current liability £6.6 million), with the principal current liability being the Interest expense of the variable funding note, which is payable only if there is availability of profits within the Company. After making enquiries, the directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future.

Beechbrook UK SME Credit II Holdings Plc
Annual Report and Audited Financial Statements
For the year ended 31 December 2023

Notes to the Financial Statements (continued)

6. Operating expenses

	For the year ended 31 December 2023 £	For the year ended 31 December 2022 £
Expenses		
Administration fees	118,209	115,793
Statutory audit fees	64,070	90,463
Irrecoverable VAT	40,975	44,664
Insurance fees	27,685	28,560
Directors' fees	10,700	10,525
Legal and professional fees	14,797	9,040
Bank charges	217	194
	276,653	299,239

The key management personnel of the Company are considered to be the directors. The highest paid director in 2023 was paid £5,350 (2022: £5,263). There are no non-audit service fees in 2023 (2022: £nil).

7. Investments

The changes in the balance of loans at amortised cost are as follows:

	31 December 2023 £	31 December 2022 £
Loans at amortised cost		
As at 1 January	88,330,205	105,981,644
Additions during the year	4,000,000	4,530,000
Repayments during the year	(1,890,000)	(23,300,000)
Net accrued interest during the year	2,910,734	1,627,819
Investment write back/(impairment)	509,258	(509,258)
	93,860,197	88,330,205

Loan investments are initially recognised at carrying value equivalent to the funds advanced to the borrower plus accrued interest. After initial recognition loans are subsequently measured at amortised cost using the effective interest rate method less impairment provisions. At the end of each reporting period the loans are assessed for objective evidence of impairment. If the loan is impaired, the impairment loss is taken to the Statement of Comprehensive Income. The loans held at amortised cost are £93.9 million (2022: £88.3 million) of which an impairment reversal of £0.5 million was recognised during the year (2022: impairment of £0.5 million). As at year end, there were no impairments (2022: £nil) recognised to be permanent.

Beechbrook UK SME Credit II Holdings Plc
Annual Report and Audited Financial Statements
For the year ended 31 December 2023

Notes to the Financial Statements (continued)

7. Investment (continued)

As at 31 December 2023, the investments at fair value through profit or loss are classified as Level III in the fair value hierarchy and there have been no reclassifications between levels during the year.

The changes in the balance of investments at fair value through profit or loss are as follows:

	31 December 2023	31 December 2022
	£	£
Investments at fair value through profit or loss		
Brought forward	4,974,930	5,097,946
Additions during the year	-	-
Net movement in the fair value of investments	(114,000)	(123,016)
	4,860,930	4,974,930

Investments at fair value through profit or loss comprise the Company's rights to future performance fees attached to loan investments. Performance fees where applicable are contractual rights to future income payable upon an exit event such as the sale of the business. The value of the fee is normally based upon the equity value of the business at the time of the exit event relative to the entry level value. The investments are valued by applying Section 11 *Basic Financial Instruments* of FRS 102 applies to basic financial instruments and is relevant to all entities.

The Directors have concluded that the Company's investments at fair value through profit and loss should be classified as Level III as there are no observable inputs available in the market. The unobservable inputs used in valuing the investments at fair value through profit and loss are the industry EBITDA multiples. The range of EBITDA multiples used in the valuation methodology is from 3.7x to 15.1x depending on the industry. Details of the valuation methodology used for determining the fair value of the investments is disclosed further in Note 2.

The carrying value of the Company's investments as at 31 December 2023 is £98.7m (2022: £93.3m). The Investment Manager is reviewing the value changes stemming from changes in the unobservable inputs such as the EBITDA multiple and EBITDA used in impairment and fair value assessment of each investment. If the EBITDA multiples increased or decreased by 10%, with all other variables held constant, the increase or decrease in the value of investments would be £0.3 million (2022: £0.2 million). If the EBITDA increased or decreased by 10%, with all other variables held constant, the increase or decrease in the value of investments would be £0.3 million (2022: £0.2 million).

8. Debtors

	31 December 2023	31 December 2022

*Variable funding note represents principal and accrued interest

12. Variable funding note

The Company has a listed £250 million variable funding note facility on the Global Exchange Market through the Irish Stock Exchange. This was listed on 20 June 2019 and has a maturity date of 20 June 2029. The note has been issued to, and purchased by, Beechbrook UK SME Credit II L.P.. Under the terms of the Facility, the Company may draw down upon the Facility by issuing Advance Request Notes ("Notes") to the Purchaser and the obligation to repay the liability is subsequently measured at amortised cost less impairment.

During the year ended 31 December 2023, £4.0 million (2022: £6.5 million) was drawn down on the Facility. In addition, £13.1 million (2022: £14.2 million) of interest was charged in the year, of which £9.5 million (2022: £12.6 million) was paid. A further £1.7 million (2022: £25.3 million) was repaid in the year, and a £0.5 million (2022: £0.5 million impairment) of liability was written back on the variable funding note as a result of the investment cost write back. The total amount outstanding including interest and having added the write back at the balance sheet date was £99.0 million (2022: £92.6 million).

13. Deferred income

The Company has recognised arrangement fee income on an amortised basis over the life of the underlying loans. The Company received £0.1 million (2022: £0.3 million) of arrangement fee income in relation to the follow-on investments, of which £0.03 million (2022: £0.04 million) has been recognised in the Statement of Comprehensive Income and £0.09 million (2022: £0.3 million) as deferred income. During the year, total arrangement fee income of £0.79 million (2022: £0.73 million) has been recognised in the Statement of Comprehensive Income. As at 31 December 2023, total deferred income amounted to £1.42 million (2022: £2.09 million), of which £0.71 million (2022: £0.76 million) is due within one year and £0.72 million (2022: £1.33 million) is due greater than one year.

15. Reconciliation of increase in cash to movements in net funds

	For the year ended 31 December 2023 £	For the year ended 31 December 2022 £
Net funds at beginning of the year	1,452,210	1,883,625
(Decrease)/increase in net funds	360,628	(431,415)
Net funds at end of the year	1,812,838	1,452,210

16. Called up share capital

Share capital consists of 50,000 authorised and issued ordinary shares of £1 each at 31 December 2023 and 2022. At 31 December 2023, £37,500 remain unpaid (2022: £37,500). The Directors consider the remaining unpaid share capital will not be called upon, therefore it has been derecognised in the Statement of Financial Position.

17. Related party transactions and material contracts

During the year, the Company paid director's fees of £10,700 (2022: £10,525). For variable funding note see disclosure in note 2k and 12. The balance of variable funding note payable at the year-end is disclosed on the Statement of Financial Position.

18. Capital commitments and contingent liabilities

As at 31 December 2023, the Company had £nil (2022: £nil) of outstanding loan commitments relating to its investments.

There were no contingent liabilities outstanding at 31 December 2023 £nil (2022: £nil).

19. Ultimate controlling party

Beechbrook UK SME Credit Trust is the ultimate controlling party of the Company. The trustee of the Trust is Alter Domus Trustees (UK) Limited (formerly Cortland Trustees Limited).

However, the General Partner of Beechbrook UK SME Credit II L.P. (the "Partnership") has assessed the Company to be a Special Purpose Entity ("SPE") for its operations under section 9 of FRS 102. The Partnership is considered to receive most of the economic benefits from the SPE through its investments in the Variable Funding Notes. Accordingly, under these accounting rules, the Partnership has consolidated the Company's Financial Statements.

Beechbrook UK SME Credit II L.P. is the largest and the smallest group of undertakings to consolidate the financial statements of the Company as at 31 December 2023. The consolidated financial statements of Beechbrook UK SME Credit II L.P. are available on application to: Beechbrook Capital LLP, 2nd Floor, 43-45 Dorset Street, London W1U 7NA.

20. Post balance sheet events

The directors have recommended and approved a dividend of £10,000 (2022: £10,000) on the date of signing, to the Company's sole shareholder, Beechbrook UK SME Credit Trust.

The Company exited one investment and realised proceeds of £15.0 million. There were no other post balance sheet events to report.
