## II. Need, Rationale and Benefits of the Scheme of Amalgamation

### Need and Rationale:

The Transferee Company is one of the leading global steel companies, with over 100 (hundred) years of experience in the steel sector and is a pioneer of steel manufacturing in India. The Transferor Company is engaged *inter alia* in the business of manufacture of wire rods, TMT rebars, wires and wire products as an external processing agent of the Transferee Company and manufacturing and direct marketing of welding products, nails, rolls and castings. This amalgamation will consolidate the business of Transferor Company and the Transferee Company which will result in focused growth, operational efficiencies, and enhance business synergies. In addition, the resulting corporate holding structure will bring enhanced agility to business ecosystem of the merged entity.

The amalgamation will ensure creation of a combined entity, hosting value-added long products under the Transferee Company, leading to 'One-Tata Steel' in front of customers which will improve shareholder value of the merged entity. Further, such restructuring will lead to simplification of group structure by eliminating multiple companies in similar business.

The Transferor Company and the Transferee Company believe that the financial, managerial and technical resources, personnel, capabilities, skills, expertise and technologies of the Transferor Company and the Transferee Company pooled in the merged entity, will lead to optimum use of infrastructure, cost reduction and efficiencies, productivity gains and logistic advantages and reduction of administrative and operational costs and thereby maximising shareholder value of the merged entity.

### Benefits and Synergies of business of the Entities involved in the Scheme:

The Scheme would result in the following synergies:

- a) **Operational efficiencies:** The proposed amalgamation would result in synergy benefits arising out of single value chain thereby reducing costs and increasing operational efficiencies. Centralization of inventory primarily stores, spares, MRO, and services can be managed centrally which will increase scale of operations thereby improving negotiating power, reducing sourcing and inventory management costs. The amalgamation is expected to result in better alignment, optimized power consumption, sharing of best practices, cross-functional learnings, better utilisation of common facilities and greater efficiency in debt and cash management.
- b) **Faster execution of projects in pipeline:** The growth projects of Transferor Company will be fast tracked by leveraging the Company's technical expertise and financial resources.
- c) **Simplified structure and management efficiency:** In line with group level 5S strategy – simplification, synergy, scale, sustainability, and speed – the amalgamation will simplify group holding structure, improve agility to enable quicker decision making, eliminate administrative duplications, consequently reducing administrative costs of maintaining separate entities.
- d) **Sales and marketing:** Sales and distribution network will be pooled, providing greater market penetration. The culture of customer delight will be fostered by transitioning to the culture of 'one-face' to customers thereby making it easier to address customer needs by providing them uniform product and service experience, resolving customer complaints, ensuring on-time deliveries, and improved service quality. With common credit management, customers are expected to benefit from the channel financing facility; and
- e) **Sharing of best practices in sustainability, safety, health and environment:** Adoption of improved safety, environment and sustainability practices owing to a centralized committee at combined level to provide focused approach towards safety, environment and sustainability practices resulting in overall improvement. Further, overall technology maturity can be enhanced by the Companies through unfettered access to each other's information technology applications and systems.

### Cost Benefits of the Scheme

The Scheme involves payment of cash consideration to the shareholders of the Transferor Company. Further, the implementation of the Scheme would involve incurring costs including, administrative cost, statutory dues, cost of

transferring the assets, cost of advisors, etc. However, the long-term benefits are expected to outweigh costs towards implementation of the Scheme.

The valuation has been done in accordance with internationally accepted valuation standards.
- The computation of cash consideration is given below:

Valuation Approach	Indian Steel & Wire Products Limited	
	Value (₹/Share)	Weight
Asset Approach – NAV Method	240.1	0%
Income Approach – DCF Method	409.6	50%
Market Approach – CCM Method	442.0	50%
Fair Equity value per Share	<b>426</b>	

- c. In case of Net Assets Value (NAV) Method, the value is determined by dividing the net assets of the Company by the number of shares. The underlying asset approach represents the value with reference to the historical cost of the assets owned by a company and attached liabilities as at the valuation date. Since, the business of The Indian Steel & Wire Products Limited ('**Transferor Company**'/'**ISWP**') is to be continued on a 'going concern basis' and there is no intention to dispose off the assets, therefore the Asset Approach has not been considered for the valuation exercise.
- d. The Discounted Cash Flow (DCF) method of valuation which derives the valuation of an asset based on the expected future cash flows of those assets. The projected cash flows are discounted with the weighted average cost of capital to arrive at the value.
- e. Under comparable companies multiple (CCM) method, the value of the equity shares of a company is determined on the basis of multiples derived from valuations of comparable companies. Following set of companies have been considered basis the sector, similarity in business/product and size of the company in terms of market capitalization, operating revenue etc.:

**For Transferor Company:**

1.	Jindal Stainless Limited
2.	Kamdhenu Limited
3.	Jindal Steel & Power Limited
4.	Tata Steel Long Products Limited
5.	Vardhman Special Steels Limited
6.	Usha Martin Limited

- f. Based, *inter alia*, on the aforesaid, the Registered Valuer has recommended payment of cash consideration as follows:  
  
Cash consideration of ₹426/- for every 1 (one) fully paid-up equity share of ₹10/- (Rupees ten) each held by the shareholders (except the Transferee Company) of the Transferor Company, as on the Record Date.
