Data Pack

2Q 2023

The financial information on which this supplement is based is unaudited and has been prepared in accordance with HSBC's significant accounting policies as described in the *Annual Report and Accounts 2022*. The financial information does not constitute financial statements prepared in accordance with International Financial Reporting Standards ('IFRSs'), is not complete and should be read in conjunction with the *Annual Report and Accounts 2022*, the *Interim Report 2023*, and other reports and financial information published by HSBC.

Unless stated otherwise, all information is on a reported basis. Where disclosed, constant currency performance information is computed by adjusting reported results for the effects of foreign currency translation differences, which distort period-on-period comparisons. We consider constant currency performance provides useful information for investors by aligning internal and external reporting, and reflects how management assesses period-on-period performance. Definitions and calculations of other alternative performance measures are included in our 'Reconciliation of alternative performance measures' on page 57 of our *Interim Report 2023*. All alternative performance measures are reconciled to the closest reported financial measure.

We separately disclose 'notable items', which are components of our income statement which management would consider as outside the normal course of business and generally non-recurring in nature.

The quarterly comparatives are translated at average 2Q23 exchange rates for the income statement or at the prevailing rates of exchange on 30 June 2023 for the balance sheet. The yearly comparatives are translated at average FY22 exchange rates for the income statement or at the prevailing rates of exchange on 31 December 2022 for the balance sheet. The income statement for the half-year to 30 June 2022 is translated at the average rate of exchange for the half-year to 30 June 2023.
