This Supplement is supplemental to, updates, must be read in conjunction with and forms part of the Base Prospectus and any other supplements to the Base Prospectus issued by Westpac.

This Supplement has been approved by the United Kingdom Financial Conduct Authority (the “**FCA**”), which is the United Kingdom competent authority for the purposes of Regulation (EU) 2017/1129 as it forms part of the domestic law of the United Kingdom by virtue of the European Union (Withdrawal) Act 2018 (the “**UK Prospectus Regulation**”), as a supplement to the Base Prospectus. The Base Prospectus constitutes a base prospectus prepared in compliance with the UK Prospectus Regulation for the purpose of giving information with regard to the issue of Instruments under the Programme.

The Issuer accepts responsibility for the information contained in this Supplement. To the best of the knowledge of the Issuer, the information contained in this Supplement is in accordance with the facts and this Supplement does not omit anything likely to affect its import.

The purpose of this Supplement is to:

- (ii) update the no significant change statement in the Base Prospectus in respect of the Issuer.

***Westpac Market Update***

The following information shall, by virtue of this Supplement, be added under the heading “*Significant Developments*” which commences on page 179 of the Base Prospectus:

***“Westpac 1Q24 update***

The Group delivered unaudited net profit of \$1.5 billion for 1Q24. The impact of Notable Items, related solely to hedge accounting which will reverse over time, drove the 6% decline.

Excluding Notable Items, unaudited net profit was \$1.8 billion for 1Q24, in line with the second half 2023 average.

The Group delivered customer deposit growth of \$7.9 billion and loan growth of \$5.6 billion for 1Q24.

### Operating trends

The Group net interest margin (“NIM”) for 1Q24 was 1.78% and comprised of:

- Core NIM<sup>1</sup> of 1.80%, down 4 basis points, reflecting prudent management in the context of ongoing mortgage competition. In addition, further deposit mix shift towards lower spread savings and term deposits was offset by higher earnings on capital and hedged deposits;
- Treasury and Markets income of 13 basis points, up 3 basis points; and
- Hedging items, that will reverse over time, which detracted 15 basis points.

Expenses were down 6% for 1Q24. Excluding Notable Items, expenses were up 2% for 1Q24. The rise in expenses excluding Notable Items reflected higher amortisation expense and ongoing inflationary pressures. These outweighed benefits from the 2% reduction in FTE and ongoing Cost Reset actions.

Stressed assets reduced by 4 basis points in the quarter to 1.22% of total committed exposures, with the reduction in watchlist and substandard exposures more than offsetting the rise in 90+ day mortgage delinquencies.

### Financial strength

The Group net stable funding ratio was 114% for 1Q24.

Group credit impairment provisions were \$5.1 billion as at 31 December 2023. The ratio of collectively assessed provisions to credit risk weighted assets was up 2 basis points to 1.37% as at 31 December 2023.
