

HSBC Legislative Global Covered Bond Programme - Monthly Investor Report

Calculation Date: 3/31/2023

Reporting Date: 4/24/2023

This report contains information regarding the HSBC Bank Canada Legislative Global Covered Bond Programme's Cover Pool as of the indicated Calculation Date. The composition of the Cover Pool will change as Loans (and their Related Security) are added and removed from the Cover Pool from time to time and, accordingly, the characteristics and performance of the Loans (and their Related Security) in the Cover Pool will vary over time.

This material is for distribution only under such circumstances as may be permitted by applicable law. This material is published solely for informational purposes and this report does not constitute an invitation or recommendation to invest or otherwise deal in, or an offer to sell or the solicitation of an offer to buy or subscribe for, any security. Reliance should not be placed on the information herein when making any decision to buy, hold or sell any security or for any other purpose.

The information set forth below has been obtained and based upon sources believed by HSBC Bank Canada and HSBC Securities (Canada) Inc. (collectively, "HSBC") to be accurate, however, HSBC makes no representation or warranty, express or implied, in relation to the accuracy, completeness or reliability of the information contained herein. Past performance should not be taken as an indication or guarantee of future performance, and no representation or warranty, express or implied, is made regarding future performance. We assume no liability for any errors or any reliance you place on the information provided herein.

THESE COVERED BONDS HAVE NOT BEEN APPROVED OR DISAPPROVED BY CANADA MORTGAGE AND HOUSING CORPORATION ("CMHC") NOR HAS CMHC PASSED UPON THE ACCURACY OR ADEQUACY OF THIS DISCLOSURE DOCUMENT. THESE COVERED BONDS ARE NOT INSURED OR GUARANTEED BY CMHC OR THE GOVERNMENT OF CANADA OR ANY OTHER AGENCY THEREOF.

Effective August 24, 2018, the Guarantor employs the methodology set out below to determine the indexed valuations for Properties relating to the Loans in the Covered Bond Portfolio (the "Indexation Methodology") for purposes of the Asset Coverage Test, the Amortization Test, the Valuation Calculation, in calculating the value of the covered bond collateral held as Contingent Collateral and for other purposes as may be required by the CMHC Covered Bond Guide (the "CMHC Guide") from time to time. To account for subsequent price developments, the Guarantor has chosen to adjust the original market values of the Properties securing the Loans in the Covered Bond Portfolio by using the Teranet - National Bank House Price Index™ and the Teranet - National Bank Regional and Property Type Sub-Indices™ (collectively the "Indices"), available by subscription at www.housepriceindex.ca This website and its contents do not form part of this Investor Report. (HSBC does not endorse or accept any responsibility for such sites or their content, privacy policy or security standards.)

The Teranet - National Bank House Price Index™ ("HPI Indices") is an independent representation of the rate of change of Canadian single-family home prices. The measurements are based on the property records of public land registries, where sale prices are available. The Teranet - National Bank Regional and Property Type Sub-Indices™ ("Sub-Indices") is an independent representation of the rate of change of Canadian home prices based on property types and regional characteristics. For each region, the Sub-Indices classifies properties into three categories (condo, row housing, single family) and provides an all-types combined index. As of the indicated Calculation Date, the Sub-Indices for the forward sortation area where the property is located is used to calculate the property value. Where a Sub-Indices for the property category is unavailable the Sub-Indices all-types index has been used.

The relevant Sub-Indices are used to maintain updated market property values. At least quarterly, property values are updated based on relative changes in Sub-Indices from the time of original valuation, and used in calculating the loan to value ratios. Properties in geographical areas not covered by the Sub-Indices are adjusted with the national average index, as captured by the HPI Indices. Material risks associated with using the Indexation Methodology include, but are not limited to, the factual correctness of the Indices being relied upon, and, in the case of geographical areas not covered by the Sub-Indices, the risk that the HPI Indices may not accurately capture idiosyncratic factors affecting local housing markets.

As per the CMHC Guide (June 23, 2017) and pursuant to the definition of Indexation Methodology in the Master Definitions and Construction Agreement, notice of any change in the Indexation Methodology must be provided to CMHC and will be reflected in the then-current Investor Report. Changes to the Indexation Methodology may only be made (i) upon notice to CMHC and satisfaction of any other conditions specified by CMHC in relation thereto, (ii) if such change constitutes a material change, subject to satisfaction of the Rating Agency Condition, and (iii) if such change is materially prejudicial to the Covered Bondholders, subject to the consent of the Bond Trustee. The Indexation Methodology must at all times comply with the requirements of the CMHC Guide.
