§3 SIGNIFICANT EVENTS

3.1 Significant changes of the principal accounting statements and financial indicators and reasons thereof

 $\sqrt{\text{applicable}}$ \square not applicable

The Company recorded a loss of RMB 1,940 million (excluding minority interest) for the reporting period (July to September) as compared to the profit of RMB 2,187 million for the corresponding period in the previous year. This is primarily due to the decrease in demand in the aviation market and the fluctuations in crude oil prices. The rise in crude oil prices resulted in an increase of RMB 2,663 million, or 64%, in the jet fuel costs of the Company compared to the corresponding period in the previous year. The investment income of associate companies dropped by RMB 852 million compared to the corresponding period of previous year. Concurrently, due to the recent dramatic decline of international crude oil prices, the fair value of the fuel derivatives held by the Company was RMB -961 million as on 30 September 2008.

The aforementioned fair value of the fuel derivatives is subject to further changes in crude oil prices, the development of the financial market and the adjustment of positions in the financial market. In the event that crude oil prices remain at a relatively low level, the spot purchasing cost of aircraft fuel of the Company will drop correspondingly. In the event the oil prices rise, the negative valuation of the fair value of the fuel derivatives will turn around correspondingly. For the period of January to September 2008, the settled portion of the fuel derivatives of the Company generated accumulated realised revenue of RMB 378 million.

3.2 Analysis and explanation on the progress of significant events and their impact and resolutions

 $\sqrt{applicable}$ \Box not applicable

On 26 February 2007, the Eastern District Court of New York of the Federal Judiciary of the United States filed a civil summon against the Company and Air China Cargo, claiming that they, together with a number of other airlines, have violated certain antitrust regulations in respect of their air cargo operations in the United States by acting in concert in imposing excessive surcharges to impede the offering of discounts and allocating revenue and customers so as to achieve increasing, maintaining or stabilizing air cargo prices. As the status of the proceedings is still in its preliminary stage, the Directors of the Company are of the view that it is not possible to reasonably estimate the eventual outcome of the claim at this point and therefore no provision for this claim has been made at this stage.

On 9 October 2008, the 2008 first extraordinary general meeting of the Company approved the purchase of 20 Airbus 330 aircraft, 15 Boeing 777 aircraft and 30 Boeing 737 aircraft.

3.3 Performance of undertakings given by the Company, the shareholders and the effective controlling person

 $\sqrt{applicable}$ \square not applicable

China National Aviation Holding Company and China National Aviation Corporation (Group) Limited gave an undertaking that it would not transfer, or nominate other persons to manage, the shares of the Company held by it, and none of these shares would be acquired by the Company, during the period of 36 months from the listing date of the A shares of the Company.

3.4 Warning in respect of forecast of possible net loss from the beginning of the year to the end of the next Reporting Period or warning in respect of any significant changes in net profit as compared with that of the corresponding period of previous year and the reasons therefore
