- Capex for the H1 2016 period was EGP 1,002 million.
- Net Cash position was 2,586 million as at 30 June 2016.

### Chief Executive Officer's Statement

"Our results for the second quarter show excellent progress against our strategic plan.

"Total Consolidated Revenues for the quarter grew 9% year-on-year, consistent with the year-on-year growth we reported in the first quarter. Retail services are once again the real driving force behind our growth as our broadband services continue to set the standard in the market.

"The financial and strategic impact of our fiber upgrade is clear. It is already contributing to our ability to grow revenues and improve margin.

"The business I report on is in good financial shape and our strategic investments are also making positive contributions to our financial performance. The Net Profit result is extremely encouraging for our investors.

"As a leadership team, we are positive about the ongoing recovery of the Egyptian economy under the stewardship of the current government and are suitably proud of the role we are playing in powering Egypt's potential.

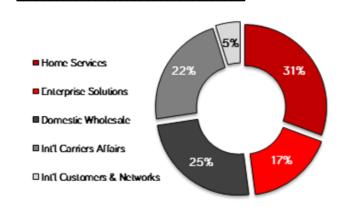

"We look forward to continuing to deliver the best possible service experience to all our customers."

The Home Business Unit continued its trend to date of sustained growth driven by growing demand for data and broadband services. Data revenues have grown by almost 39% year-on-year as a direct consequence of te's fibre rollout and more than compensating for the decline in Home segment voice revenues.

Total Home revenues for the second quarter were EGP 1,009 million, up 15.2% year on year from EGP 877 million.

The International Carriers Affairs Business Unit has experienced a 4.1% decline in year-on-year revenues from EGP 774 million in Q2 2015 to EGP 742 million in Q2 2016.

The slowdown of retail activities related to long-distance calls in major strategic Arab markets, the ongoing and growing illegal bypass activities, and the use of Over-the-Top mobile applications have combined to pressure revenue performance at the business unit.

### Costs:

Total costs were contained during the second quarter 2016 – down 0.6% year-on-year - as te maintained stringent procurement and payment practices. As a percentage of sales, costs remain well within management targets.

### EBITDA:

EBITDA for the second quarter of 2016 was EGP 1,066 million which was an increase of 21% over the Q2 2015, largely driven by strong performance in our higher margin retail business.

EBITDA for the first six months of the year grew 30.3% over the comparative period in 2016. This represents a 32.3% margin for H1 2016.

EBIT reached EGP 1,129 million for the period, reflecting an increase of 115.8% year-on-year from EGP 523 million in Q2 2015.

### Income from Investments:

Total Income from investments, mainly representing te's stake in Vodafone Egypt (VFE), grew 104.6% year-on-year, declined 7.5% % QoQ amounting to EGP 716 million during H1 2016. The solid contribution from Vodafone Egypt impacted the bottom line positively.

(Note: Vodafone Egypt's financial year is from 1 April to 31 March).

### Notes to Editors:

Within this statement, we may make forward-looking statements regarding future events or the future performance of the Company. By their very nature, forward-looking statements involve inherent risks and uncertainties, both general and specific, and risks exist that the predictions, forecasts, projections and other forward-looking statements will not be achieved. You should be aware that a number of important factors could cause actual results to differ materially from the plans, objectives, expectations, estimates and intentions expressed in such forward-looking statements. When relying on forward-looking statements, you should carefully consider the political, economic, social and legal environment in which Telecom Egypt operates. Such forward-looking statements speak only as of the time of this release today. Accordingly, Telecom Egypt does not undertake any obligation to update or revise any of them, whether as a result of new information, future events or otherwise other than as required by applicable laws, the Listing Rules or Prospectus Rules of the United Kingdom Listing Authority, the Egyptian Financial Supervisory Authority or The Egyptian Exchange. The documents filed from time to time with these authorities may identify important factors that could cause actual results to differ materially from those contained in any forward-looking statements.

### About Telecom Egypt:

Telecom Egypt (te), Egypt's incumbent telecommunications operator, started its operations in 1854 with the first telegraph line in Egypt. Then it was corporatized in 1998 to replace the former Arab Republic of Egypt National Telecommunication Organization (ARENTO). The Company is the largest provider of fixed-line services in the Middle East and Africa with 6.3 million subscribers as at 30 June 2016.

te provides retail telecommunication services including access, local, long distance and international voice, Internet and data, and other services. The company also provides wholesale services including bandwidth capacity leasing to ISPs, and national and international interconnection services. te's services also include the provision of narrowband and broadband internet access through its subsidiary TE Data. TE Data has active operations in Egypt and Jordan.

te currently participates in the mobile segment in Egypt by providing mobile interconnectivity through its current, increased 44.95% holding in Vodafone Egypt, one of the three existing Egyptian mobile operator te's shares and GDRs (Ticker: ETEL.CA; TEEG.LN) are traded on The Egyptian Exchange and the London Stock Exchange.
