In the case of buy-out awards for new joiners, the Company considers it appropriate for the vesting period to be within 12 months of grant when this aligns with the vesting schedule of the forfeited award from a former employer, and is in line with the purpose of the 2021 plan. This approach ensures that the Company's hiring practices remain competitive and in-line with market practice.

An award shall not be granted under any share plans of the Company or in any calendar year if, at the time of its proposed grant, it would cause the number of ordinary shares of the Company which may be issued or transferred pursuant to awards then outstanding under the 2021 Plan or other share plan of the Company as relevant to exceed such number as represents 10 per cent of the ordinary share capital of the Company in issue at that time.

The maximum number of shares available for future grant under all share plans of the Company is 117,053,882.

The 2021 Plan was adopted before the effective date of the current Chapter 17 of the Listing Rules. The Company shall comply with Chapter 17 in accordance with the transitional arrangements provided for the existing share schemes of the Company.
