

Banco Bilbao Vizcaya Argentaria, S.A. (BBVA), pursuant to the provisions of the Spanish Securities Market Act, hereby proceeds by means of the present document to notify the following:

RELEVANT INFORMATION

The detailed results of the capital ratio stress test published today by the European Banking Authority (EBA) are attached. This test is an update of the EBA stress test carried out on December 8, 2011, which was agreed by the European Council on October 26, 2011. The results show that BBVA has a core Tier 1 capital ratio (CT1) of 9,9% as of June 30, 2012, without including the sovereign buffer. Therefore, BBVA meets the 9% CT1 requirement established by the EBA as well as the sovereign buffer capital requirement established on November 2011.

Further information is available on the EBA website (www.eba.europa.eu).

Madrid, October 3, 2012

Sovereign capital buffer for exposures in EEA (H+I)	2,313		2,313		Sum of Prudential filter and valuation. If negative it is set to 0
J) Additional impairments on sovereign exposures (-)	0		-43		Please report the write-downs on sovereign exposures accounted during 2011Q4 (Dec 2011 column) and 2012H1 (June 2012 column) with the limit for the total impairments (Dec 2011 + Jun 2012) of the sovereign buffer for each country.
Shortfall (+) / Surplus (-) to 9% before application of sovereign capital buffer	-1,270		-2,862		9% RWA - CT 1 including existing government support measures
Overall Shortfall (+) / Surplus (-) after including sovereign capital buffer and additional impairments on sovereign exposures	1,043		-592		9% RWA - (CT 1 including existing government support measures - Sovereign capital buffer for exposures in EEA)

Notes and definitions

(1) The amount is already included in the computation of the eligible capital and reserves and it is provided separately for information purposes.

(2) According with CRD3 it can include also 50% securitisation exposures in the trading book subject to 1250% risk weight and not included in RWA.

(3) It includes also possible differences between the book value and the fair value of: (i) direct sovereign exposures in derivatives; (ii) indirect sovereign exposures in the banking and trading book

Composition of RWA

Notes and definitions

(1) The exposures reported cover only exposures to central, regional and local governments on immediate borrower basis, and do not include exposures to other counterparties with full or partial government guarantees

(2) The banks disclose the exposures in the "Financial assets held for trading" portfolio after offsetting the cash short positions having the same maturities.

(3) The exposures reported include the positions towards counterparties (other than sovereign) on sovereign credit risk (i.e. CDS, financial guarantees) booked in all the accounting portfolio (on-off balance sheet). Irrespective of the denomination and or accounting classification of the positions **the economic substance over the form** must be used as a criteria for the identification of the exposures to be included in this column. This item does not include exposures to counterparties (other than sovereign) with full or partial government guarantees by central, regional and local governments

(4) According with CEBS Guidelines on prudential filters it is required a consistent treatment of gains and losses resulting from a transaction whereby a cash flow hedge is created for an available for sale instrument: i.e. if the gains on the hedged item are recognised in additional own funds, so should the results of the corresponding cash flow hedging derivative. Moreover if fair-value hedging contracts on sovereign assets are taken in consideration for the computation of the prudential filters (before their removal), the FV of such contracts must be reported in the column AB.

(5) Please report gross and net direct positions before eventual write-off (PSI); in the column provisions must be included eventual write-off (PSI).

Exposures to sovereigns (central, regional and local governments) in EEA, as of 30 June 2012

Notes and definitions

(1) The exposures reported cover only exposures to central, regional and local governments on immediate borrower basis, and do not include exposures to other counterparties with full or partial government guarantees

(2) The banks disclose the exposures in the "Financial assets held for trading" portfolio after offsetting the cash short positions having the same maturities.

(3) The exposures reported include the positions towards counterparties (other than sovereign) on sovereign credit risk (i.e. CDS, financial guarantees) booked in all the accounting portfolio (on-off balance sheet). Irrespective of the denomination and or accounting classification of the positions **the economic substance over the form** must be used as a criteria for the identification of the exposures to be included in this column. This item does not include exposures to counterparties (other than sovereign) with full or partial government guarantees by central, regional and local governments

(4) According with CEBS Guidelines on prudential filters it is required a consistent treatment of gains and losses resulting from a transaction whereby a cash flow hedge is created for an available for sale instrument: i.e. if the gains on the hedged item are recognised in additional own funds, so should the results of the corresponding cash flow hedging derivative. Moreover if fair-value hedging contracts on sovereign assets are taken in consideration for the computation of the prudential filters (before their removal), the FV of such contracts must be reported in the column AB.

(5) Please report gross and net direct positions before eventual write-off (PSI); in the column provisions must be included eventual write-off (PSI).
