SUSTAINABILITY MARKET UPDATE

WESTPAC

2 DECEMBER 2025

DR FIONA WILD

Chief Sustainability Officer

SUSTAINABILITY STRATEGY: FOCUS AREAS

CLIMATE TRANSITION

Decarbonisation and resilience for customers and our operations

HOUSING AFFORDABILITY

New housing supply, alternative pathways to ownership for customers and housing availability for underserved communities

REGIONAL PROSPERITY

Regional business growth, local employment, community and environmental outcomes

HIGHLIGHTS

Released new
Climate Transition
Plan in Nov-25

#1

Remained largest
financier to renewable
projects in Australia¹

ZERO

exposure to
thermal coal mining²

>70%

of our finance
emissions sector
targets showed a
lower emissions
profile³

130+

engagements with
Institutional
customers in
Australia and New
Zealand in FY25

Released new
Sustainability Strategy
in Nov-25

37%

increase in
sustainable finance
lending⁴

40%

increase in
sustainable finance
bond facilitation⁵

1 Based on IJGlobal and Westpac Research Data for the period from 1 October 2024 to 30 September 2025. 2 At 30 September 2025. In line with our Sustainability Customer Requirements, we have zero corporate lending and will no longer provide bond facilitation for institutional customers with $\geq 15\%$ of their three-year rolling average revenue coming directly from thermal coal mining. 3 In FY24, our latest year of reporting. 4 Sustainable Finance includes both labelled lending, and unlabelled lending for our customers and activities in-scope of our SFF categories. % change in the TCE (or balance) at 30 September 2025 to 30 September 2024. 5 % change in the total value of bond facilitation (\$bn) cumulative from 1 October 2021 to 30 September 2025 and to 30 September 2024.

CARBON-INTENSIVE SECTOR REQUIREMENTS¹

Provision of new or renewed corporate lending and bond facilitation requires in-scope customers to have interim scope 1 & 2 decarbonisation target/s, aligned to the well below 2-degrees goal of the Paris Agreement²

CTP Evaluation Criteria	EMISSIONS TARGETS	STRATEGY	CAPITAL ALLOCATION	CLIMATE GOVERNANCE
Rating	A Accept and monitor CTP execution	B Accept and proactively engage to encourage further development of CTP content	C Escalate to appropriate governance committee and new or renewed finance may be declined	D Decline new or renewed finance ³
% of Customers assessed (Preliminary Customer Assessment ⁴)	55%	36%	0%	9%

1 Applies to customers within the oil and gas, metallurgical coal mining, and coal-fired power generation sectors. Our [Sustainability Customer Requirements](#) outline lending restrictions and exclusions for larger business customers. 2 Refers to Article 2.1 of the Paris Agreement on Climate Change adopted within the United Nations Framework Convention on Climate Change in December 2015. Targets are on an absolute or intensity basis and are assessed by Westpac. 3 Where a customer achieves a rating of 'D', but new or renewed finance supports National or Energy Security, we may escalate to the appropriate governance committee. 4 Percentage of in-scope customers assessed before 30 September 2025, in advance of any request for new or renewed corporate lending or bond facilitation.

PHILIPPA SJOQUIST

Head of Sustainability
Institutional Bank

SUPPORTING INSTITUTIONAL CUSTOMERS

In FY25 we had 130+ in-depth engagements with institutional customers on their climate transition plans (CTPs)

FY25 KEY FINDING

~64%

of customers re-engaged
from FY24¹

83%

had a public report
outlining their climate
transition strategy

~80%

are Group 1 entities
under the AASB S2

CUSTOMERS ENGAGED BY SECTOR¹ (%)

- Energy
- Manufacturing
- Property, Construction and Health
- Transport
- Mining and Metals
- Consumer and Retail
- Utilities and Infrastructure
- Agriculture

KEY DEPENDENCIES CITED TO DELIVERING CTPS

**TECHNOLOGY
FEASIBILITY**

**NEW
INFRASTRUCTURE**

**SUPPORTIVE
POLICIES**

¹ Approximately 64% of the customers engaged were re-engagements from FY24, meaning that data is not strictly comparable with previous years.

150+

Commercial customer
engagements on climate and
transition readiness

¹ Since launch of ESG Risk Assessment process for commercial customers in FY24.

APPENDIX

SUSTAINABILITY STRATEGY

TAKING ACTION NOW TO CREATE A BETTER FUTURE					
WHAT	To be our customers' #1 bank and partner through life				
HOW	Customer CUSTOMER OBSESSED Proactively support customers' sustainability goals through finance, expertise and advocacy	People BEST TEAM, TRUSTED EXPERTS Strengthen sustainability learning so our people bring expertise and balance into every decision and interaction	Change BRILLIANT AT DELIVERY Partner with customers to help deliver our positions on key sustainability topics, including climate, natural capital, human rights and equitable Indigenous participation	Risk SAFE AND STRONG Actively manage material sustainability risks and impacts to customers, our business and community	Performance EXECUTION EXCELLENCE Create Sustainability outcomes for our customers, communities and shareholders
FOCUS AREAS	Climate Transition Decarbonisation and resilience for customers and our operations		Housing Affordability New housing supply, alternative pathways to ownership for customers and housing availability for underserved communities		Regional Prosperity Regional business growth, local employment, community and environmental outcomes
SUSTAINABILITY OUTCOMES	- Support the goals of the Paris Agreement by achieving our Scope 1, 2 and 3 greenhouse gas emissions targets by 2030 - Partner with customers to implement green, transition, social (including housing affordability) or sustainability activities by providing \$55bn sustainable lending and \$40bn sustainable bond facilitation activities by 2030¹ - Support customers' economic resilience and prosperity by increasing our footprint and growing lending to regional businesses and communities faster than in metro Australia				
WE COMMIT TO	ALWAYS DELIVER, SAFELY		MAKE AN IMPACT		OWN IT

These Sustainability pages contain forward-looking statements and statements of expectation. Refer to the disclaimer at the back of this pack. Details on our sustainability commitments, targets and other supporting information is in our 2025 Annual Report, 2025 Sustainability Report and 2025 Sustainability Index and Datasheet. See website for more information on our sustainability strategy.

1 Refer to our [Sustainable Finance Framework](#) for definitions on sustainable lending and bond facilitation. Refer to the [Climate Transition Plan](#) for details on the sustainable finance targets.

CLIMATE TRANSITION PLAN

SUSTAINABILITY

AMBITION TO BECOME A NET-ZERO, CLIMATE RESILIENT BANK

FOCUS AREAS **NET-ZERO, CLIMATE RESILIENT OPERATIONS** **PARTNERING WITH CUSTOMERS TO DECARBONISE** **SUPPORTING OUR CUSTOMERS' PHYSICAL RESILIENCE**

TARGETS	76% reduction in scope 1 and 2 absolute emissions by 2030 (2021 baseline) 50% reduction in upstream scope 3 absolute emissions by 2030 (2021 baseline)	2030 scope 3 financed emissions sector targets (see page x for details) \$55 billion in sustainable finance lending at 30 Sep-30 \$40 billion in sustainable bond facilitation between 1 Oct-21 and 30 Sep-30	
---------	--	--	--

ASPIRATIONS	Maintain operational resilience to the physical impacts of climate change.	Transition our lending portfolios to support the goals of the Paris Agreement.	Adopt a portfolio-wide view of exposure and vulnerability to physical climate risks.
-------------	---	---	---

UNDERSTANDING OUR CARBON ACCOUNT TO TAKE ACTION NOW

SUSTAINABILITY

Greenhouse gas (GHG) emissions by source (tco₂-e)

	FY24	FY25	% of total
Scope 1: Direct emissions from controlled facilities, including fleet fuels, refrigerants, gas, diesel, LPG.	6,262	4,714	<0.1
Scope 2: Indirect emissions (market-based) from the generation of energy we have purchased, including purchased electricity.	2,303	1,963	<0.1
Scope 3 upstream emissions: Indirect emissions related to selected sources from our operations and supply chain.	57,655	56,469	<0.5
Scope 3 financed emissions: Indirect emissions related to our lending. Share of customers' scope 1 & 2 emissions.	31.6 MtCO ₂ -e	Not Reported ²	>99

Estimated FY24 financed emissions¹ (% of total)

Refer to Appendix of our 2025 Sustainability Report for details of the methodologies for estimating our emissions.

¹ Sectors in our financed emissions analysis are based on ANZSIC codes. These sector definitions differ from those used for: (i) our financed emissions sector targets and, (ii) our reporting of Group Exposure by Sector included in our Sustainability Report and Sustainability Index and Datasheet. ² Financed emissions are reported one year in arrears due to data availability. Data will be reported in FY26.

OUR EMISSIONS REDUCTION TARGETS

SUSTAINABILITY

Progress on operational emissions targets¹

Reduction in market-based emissions from 2021 baseline (%)	FY24	FY25	2025 Target	2030 Target	Target Progress
Scope 1 and 2 emissions	(86)	(89)	(64)	(76)	 Surpassed
Scope 3 upstream emissions	(41)	(42)	NA	(50)	 On track

Progress on our financed emissions targets¹

Change in emissions from baseline year² (%)

Westpac sector	FY23	FY24	2030 Target Implied % change
Power generation	(23)	(38)	(62)
Upstream Oil and Gas	(45)	(55)	(23)
Thermal coal mining	(81)	(94)	(100)
Aviation (passenger aircraft operators)	(45)	(47)	(60)
Steel production	Not reported (NR) - As at 30 Sep 24, we are on track to achieve our 2030 target and progress is below our emissions pathway. Given the small number of customers, this information is not publicly disclosed.		
Aluminium			
Cement production	(5)	NR	(14)
Commercial Real Estate (Offices)	(18)	(27)	(59)
Residential Real Estate (Australia)	(11)	(14)	(56)
Australia Beef and Sheep ³	2	2	(9)
Australia Dairy ³	(7)	(7)	(10)
New Zealand Beef and Sheep ³	2	(4)	(9)
New Zealand Dairy ³	(2)	(6)	(10)

1 Refer to the Appendix of our 2025 Sustainability Report for details of the methodologies for estimating our emissions. 2 Prior year baseline and progress for Residential Real Estate target are as at 31 August, and as at 30 September for FY24. Baselines: Commercial and Residential Real Estate – 2022; Aluminium – 2023; all other financed emissions – 2021.. 3 Prior year numbers restated for Australia and New Zealand Agriculture targets, refer to our 2025 Sustainability Report for details. 4 Customers within the oil and gas, metallurgical coal mining, and coal-fired power generation sectors. See our Sustainability Customer Requirements for more information including definitions for National or Energy Security. 5 Percentage of customers assessed in advance of their request for new/renewed corporate lending or bond facilitation.

Carbon-intensive sector requirements

- From 30 Sep-25, new or renewed corporate lending and bond facilitation for in-scope customers⁴ are subject to Customer CTP Evaluation.
- The evaluation assesses emissions targets, strategy, capital allocation, and climate governance, and rates customers from A to D.
- Customers must have interim Scope 1 and 2 decarbonisation target/s aligned to the well below 2°C goal of the Paris Agreement to qualify for financing.
- Customers rated D would not be eligible for financing. If the finance supports National or Energy Security⁴, we may escalate to the appropriate governance committee for review.

Preliminary CTP assessment of new or renewed lending or bond facilitation (facilities)

Rating	Action if new / renewed facilities are requested	% of customers assessed ⁵
A	Accept & monitor customer CTP execution.	55
B	Accept & engage to encourage further development of CTP	36
C	Escalate to governance committee. New/renewed facilities may be declined.	0
D	Decline new/renewed facilities	9

CLIMATE-RELATED OPPORTUNITIES AND TARGETS

SUSTAINABILITY

Our **Sustainable Finance Framework** defines how we classify sustainable finance transactions as Green, Transition, Social or Sustainability. We also have 2030 targets for lending and bond facilitation.

LENDING (TCE¹ \$BN)

BOND FACILITATION² (CUMULATIVE \$BN)

LENDING BY SECTOR (SEP-25 %)

BOND FACILITATION BY COUNTRY (%)

Sustainable finance highlights

- 89.2% of our electricity sector lending to renewables.
- Coordinating Arranger and Bookrunner for AirTrunk's SYD1 and SYD2 term loan financing, supporting biodiversity, conservation and disaster relief, delivered through its social impact program.
- Joint Sustainability Coordinator for Bluecurrent's NZ\$2.5bn Green Loan supporting smart electricity and water metering across Australasia.
- Sustainability Coordinator and Lead Manager for Auckland Council's first Sustainability-Linked Bond. Auckland Council is targeting to plant one million native forest stems by 2027.
- Ranked #1 in the 2025 NZ Sustainable Bond League Table⁴.

Other climate-related opportunities (Sep-25)³

- \$63.4m for EV/Hybrid vehicles loans in Australia.
- \$182.4m for the Greater Choices home loan and EV loan in New Zealand.

¹ Total committed exposure (TCE) or balance (for residential mortgages) at 30 Sept. TCE is the sum of loan balance and other committed facilities. For this purpose, TCE must meet the requirements of our Sustainable Finance Framework, and so excludes pre settlement risk, secondary market trading and the underwriting of facilities. ² Bond facilitation target and progress is measured as the cumulative sum of our proportionate share of qualifying bonds facilitated from 1 Oct-21. Prior years are restated following data quality reviews which identified additional bonds not previously included. ³ Includes loans that have not been assessed under our SFF. ⁴ KangaNews, 2025 NZ Sustainable Bond – All Issuers – Incl Self-led Deals League Table at 30 Sep-25.

The material contained in this presentation is intended to be general background information on Westpac Banking Corporation (Westpac) and its activities.

The information is supplied in summary form and is therefore not necessarily complete. It is not intended that it be relied upon as advice to investors or potential investors, who should consider seeking independent professional advice depending upon their specific investment objectives, financial situation or particular needs. The material contained in this presentation may include information derived from publicly available sources that have not been independently verified. No representation or warranty is made as to the accuracy, completeness or reliability of the information.

All amounts are in Australian dollars unless otherwise indicated.

This presentation contains statements that constitute "forward-looking statements" within the meaning of Section 21E of the US Securities Exchange Act of 1934.

Forward-looking statements are statements that are not historical facts. Forward-looking statements appear in a number of places in this presentation and include statements regarding our current intent, belief or expectations with respect to our business and operations, macro and micro economic and market conditions, results of operations and financial condition, capital adequacy, liquidity and risk management, including, without limitation, future loan loss provisions and financial support to certain borrowers, forecasted economic indicators and performance metric outcomes, indicative drivers, climate- and other sustainability-related statements, commitments, targets, projections and metrics, and other estimated and proxy data.

We use words such as 'will', 'may', 'expect', 'intend', 'seek', 'would', 'should', 'could', 'continue', 'plan', 'estimate', 'anticipate', 'believe', 'probability', 'indicative', 'risk', 'aim', 'outlook', 'forecast', 'f'cast', 'f', 'assumption', 'projection', 'target', 'goal', 'guidance', 'ambition', 'objective' or other similar words to identify forward-looking statements, or otherwise identify forward-looking statements. These forward-looking statements reflect our current views on future events and are subject to change, certain known and unknown risks, uncertainties and assumptions and other factors which are, in many instances, beyond our control (and the control of our officers, employees, agents and advisors), and have been made based on management's and/or the board's current expectations or beliefs concerning future developments and their potential effect upon us.

Forward-looking statements may also be made, verbally or in writing, by members of Westpac's management or Board in connection with this presentation. Such statements are subject to the same limitations, uncertainties, assumptions and disclaimers set out in this presentation.

There can be no assurance that future developments or performance will align with our expectations or that the effect of future developments on us will be those anticipated. Actual results could differ materially from those we expect or which are expressed or implied in forward-looking statements, depending on various factors including, but not limited to, those described in the sections titled 'Our Operating Environment' and 'Risk Management' in our 2025 Annual Report as well as the 2025 Risk Factors document available at www.westpac.com.au. When relying on forward-looking statements to make decisions with respect to us, investors and others should carefully consider such factors and other uncertainties and events.

Except as required by law, we assume no obligation to revise or update any forward-looking statements contained in this presentation, whether from new information, future events, conditions or otherwise, after the date of this presentation.

We also make statements about our processes and policies (including what they are designed to do) as well as the availability of our systems or product features. Systems, processes and product features can be subject to disruption, and may not always work as intended, so these statements are limited by the factors described in the section titled 'Risk Management' in our 2025 Annual Report as well as the 2025 Risk Factors.

Further important information regarding climate change and sustainability-related statements

This presentation contains forward-looking statements and other representations relating to environment, social and governance (ESG) topics, including but not limited to climate change, net-zero, climate resilience, natural capital, emissions intensity, human rights and other sustainability related statements, commitments, targets, projections, scenarios, risk and opportunity assessments, pathways, forecasts, estimated projections and other proxy data. These are subject to known and unknown risks, and there are significant uncertainties, limitations, risks and assumptions in the metrics and modelling on which these statements rely.

In particular, the metrics, methodologies and data relating to climate and sustainability are rapidly evolving and maturing, including variations in approaches and common standards in estimating and calculating emissions, and uncertainty around future climate and sustainability related policy and legislation. There are inherent limits in the current scientific understanding of climate change and its impacts. Some material contained in this presentation may include information including, without limitation, methodologies, modelling, scenarios, reports, benchmarks, tools and data, derived from publicly available or government or industry sources that have not been independently verified. No representation or warranty is made as to the accuracy, completeness or reliability of such information. There is a risk that the estimates, judgements, assumptions, views, models, scenarios or projections used by Westpac may turn out to be incorrect. These risks may cause actual outcomes, including the ability to meet commitments and targets, to differ materially from those expressed or implied in this presentation. The climate and sustainability related forward-looking statements made in this presentation are not guarantees or predictions of future performance and Westpac gives no representation, warranty or assurance (including as to the quality, accuracy or completeness of these statements), nor guarantee that the occurrence of the events expressed or implied in any forward-looking statement will occur. There are usually differences between forecast and actual results because events and actual circumstances frequently do not occur as forecast and these differences may be material. Westpac will continue to review and develop its approach to ESG as this subject area matures
