2 RATINGS

Ratings: The Instruments to be issued are expected to be rated:

S&P: BBB+

An obligation rated 'BBB' exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to weaken the obligor's capacity to meet its financial commitments on the obligation. The plus (+) sign shows relative standing within the rating categories.

Moody's: Baa1

An obligation rated 'Baa' is judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics. The modifier '1' indicates that the obligation ranks in the higher end of its generic category.

(Source: Moody's, <https://www.moodys.com/ratings-process/Ratings-Definitions/002002>)

Fitch: A-

An obligation rated 'A' denotes expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings. The modifier '-' appended to the rating denotes relative status within major rating categories.
