Report on review of interim condensed consolidated financial statements to the Shareholder of Mamoura Diversified Global Holding PJSC

Introduction

We have reviewed the accompanying interim consolidated statement of financial position of Mamoura Diversified Global Holding PJSC ("the Company") and its subsidiaries (together referred to as "the Group") as at 30 June 2024 and the related interim consolidated statement of comprehensive income for the six-month period then ended, interim consolidated statements of changes in equity and cash flows for the six-month period then ended and explanatory notes. Management is responsible for the preparation and presentation of this interim condensed consolidated financial statements in accordance with International Accounting Standard 34 'Interim Financial Reporting' ("IAS 34"). Our responsibility is to express a conclusion on this interim condensed consolidated financial statements based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of interim financial information performed by the independent auditor of the entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with International Accounting Standard 34 'Interim Financial Reporting'.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

30 June 2024 (Unaudited)

1 LEGAL STATUS AND PRINCIPAL ACTIVITIES

Mamoura Diversified Global Holding PJSC (“MDGH” or “the Company”) is registered as a public joint stock company in the Emirate of Abu Dhabi, United Arab Emirates (“UAE”). The Company was established by the Emiri Decree No. 12, dated 6 October 2002 and was incorporated on 27 October 2002. The Company’s registered address is PO Box 45005, Abu Dhabi, UAE.

The Company and its subsidiaries (together the “Group”) are engaged in investing and managing investments, in sectors and entities that contribute to the Emirate of Abu Dhabi’s strategy to diversify its economy. Consequently, the Group holds interests in a wide range of sectors and industries.

The Company is wholly owned by Mubadala Investment Company PJSC (the “Shareholder” or the “Parent”) and the ultimate parent of the Company is the Government of the Emirate of Abu Dhabi (the “Ultimate Parent”).

These interim condensed consolidated financial statements were authorised for issue by the Board of Directors on 7 October 2024.

2 BASIS OF PREPARATION

(a) Statement of compliance

These interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standard 34, “*Interim Financial Reporting*” and the applicable requirements of the Federal Decree Law No. 32 of 2021 on Commercial Companies.

The interim condensed consolidated financial statements do not include all the information required for full annual consolidated financial statements and should be read in conjunction with the consolidated financial statements of the Group as at and for the year ended 31 December 2023, prepared in accordance with IFRS Accounting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”).

(b) Basis of measurement

The interim condensed consolidated financial statements have been prepared on the historical cost basis, except for the following:

- Certain financial assets and liabilities (including derivative instruments) measured at fair value;
- Investment properties measured at fair value
- Assets held for sale measured at the lower of carrying amount and fair value less costs to sell;
- Defined benefit pension plans in accordance with IAS 19 and plan assets measured at fair value; and
- Certain non-current assets received as government grants which are measured at nominal value.

(c) Functional and presentation currency

The interim condensed consolidated financial statements are presented in UAE Dirhams, (“AED”) which is the Company’s functional and the Group’s presentational currency. All financial information presented in AED has been rounded to the nearest million, unless otherwise stated.

(d) Use of estimates and judgements

The preparation of the interim condensed consolidated financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

30 June 2024 (Unaudited)

2 BASIS OF PREPARATION continued

(d) Use of estimates and judgements continued

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

In preparing these interim condensed consolidated financial statements, the significant judgements made by management in applying the Group's accounting policies and sources of material estimation uncertainty were similar to those described in the Group's consolidated financial statements for the year ended 31 December 2023.

(e) Taxation

On 9 December 2022, the UAE Ministry of Finance released Federal Decree-Law No. 47 of 2022 on the Taxation of Corporations and Businesses (the "CIT" Law) to enact a federal corporate tax regime in the UAE, effective for accounting periods beginning on or after 1 June 2023. A tax rate of 9% applies to taxable income exceeding AED 375,000. Where certain requirements are met, Government Controlled Entities and their wholly owned entities are exempt from CIT and qualifying free zone entities subject to a CIT rate of 0%. The Ministry of Finance continue to issue supplemental decisions of the Cabinet of Ministers of the UAE to further clarify certain aspects of the CIT Law. Such decisions, and other interpretive guidance of the UAE Federal Tax Authority, are required to fully evaluate the impact of the CIT Law on the Group.

The Group has not identified any material temporary differences that would trigger any deferred taxes, as of and for the six-months period ended 30 June 2024. In performing this assessment, the Group considered the provisions of the Law and the Cabinet Decisions issued. The Group will review future Cabinet decisions to assess if there is any impact on previously concluded position on deferred tax.

International Tax Reform – Pillar II

In December 2021, the Organisation for Economic Co-operation and Development (OECD)/G20 Inclusive Framework on Base Erosion and Profit Shifting (BEPS) released the Pillar II Anti Global Base Erosion Rules ("GloBE Rules"). These rules mandate a global minimum tax rate of 15% for multinational enterprises that meet a threshold of consolidated revenue exceeding EUR 750 million. Currently there is not enough legislative guidance available in this regard, however, it is not expected to have a material impact on the Group.

In 2024, the UAE Ministry of Finance released a Consultation document on implementation of the OECD Base Erosion and Profit Shifting Pillar II (Minimum tax). The consultation aims to gather views from stakeholders on potential policy choices and design options.

3 MATERIAL ACCOUNTING POLICIES

The material accounting policies applied by the Group in these interim condensed consolidated financial statements are the same as those applied in the consolidated financial statements as at and for the year ended 31 December 2023, except for the adoption of new standards effective as of 1 January 2024 as listed below:

- Amendments to IAS 7 and IFRS 7 - Supplier Finance Arrangements
- Amendments to IFRS 16 - Lease Liability in a Sale and Leaseback
- Amendments to IAS 1 - Classification of Liabilities as Current or Non-current

These amendments had no significant impact on the interim condensed consolidated financial statements of the Group.

Profit for the period from discontinued operations	<u>4,488</u>	<u>4,733</u>

The total assets classified as held for sale as at 30 June 2024 was AED 7,330 million (31 December 2023: AED 24,105 million) which mainly includes assets related to Yahsat (31 December 2023: includes investment in OMV and assets related to Yahsat). The total liabilities directly associated with the assets classified as held for sale as at 30 June 2024 is AED 3,964 million (31 December 2023: AED 4,104 million) which mainly represents the liabilities of Yahsat.

(i) OMV

In December 2022, subsequent to the approval by the Board of Directors of the Parent, the Group signed an agreement with Abu Dhabi National Oil Company ("ADNOC") to transfer its 24.9% interest in OMV to ADNOC. In February 2024, the Group completed the sale and recorded a gain of AED 4,238 million in the interim condensed consolidated financial statements. OMV was a significant associate of the Group, and its operations and cash flows were clearly distinguished, both operationally and for financial reporting purposes, from the rest of the Group. Accordingly, OMV was classified as discontinued operations of the Group as per IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations*.

(ii) Yahsat

On 19 December 2023, Yahsat and Bayanat AI PLC ("Bayanat") announced that they had agreed to the terms of a proposed merger between the two companies. In 2024, their respective Board of Directors and shareholders approved the proposed merger. Yahsat and Bayanat continue to operate independently until the merger is effective. It is expected that the Group will not exercise control over the merged entity which has been renamed as "Space42". Accordingly, Yahsat has been classified as held for sale and disclosed as discontinued operations in these interim condensed consolidated financial statements. On 1 October 2024, the merger between Yahsat and Bayanat has been completed. The Group holds 28.97% interest in Space42 (see note 25).

(iii) Mubadala Health

In December 2022, subsequent to the approval by the Board of Directors of the Parent, the Group entered into a share purchase and subscription agreement with Group 42 Holding Limited ("G42") to transfer the Group's interest in its 100% owned subsidiary Mubadala Health in exchange for acquiring 45% interest in M42 Ltd ("M42"). The Group and G42 own 45% and 55% interest in M42, respectively. In January 2023, all conditions precedent to the transaction were completed. Accordingly, the Group recognised the sale effective January 2023.

The gain on disposal of Mubadala Health was calculated as follows:

	<i>January 2023 AED millions (unaudited)</i>
Net assets of Mubadala Health	4,623
Sale consideration	<u>8,737</u>

15 OTHER RESERVES continued

Foreign currency translation reserve

The translation reserve comprises foreign currency differences arising from the translation of the financial statements of foreign operations, as well as from the translation of liabilities used to hedge the Group's net investment in foreign operations.

As at 30 June 2024, borrowings with notional amounts of EUR 1,980 million (AED 7,791 million) (30 June 2023: EUR 1,975 million (AED 7,913 million)) were designated as a hedge of the net investments for the Group's foreign currency exposure to CEPESA.

The Group, as at 30 June 2024, has also designated the various EUR swaps as hedging instruments for its net investments in CEPESA, with notional amount of EUR 514 million (AED 2,023 million) (30 June 2023: EUR 514 million (AED 2,060 million)).

Disposal of OMV in 2024

Prior to disposal of OMV (see note 4(i)), the Group had designated a borrowing with notional amount of EUR 1,640 million (AED 6,510 million) (30 June 2023: EUR 1,640 million (AED 6,573 million)) and various EUR swaps with notional amount of EUR 423 million (AED 1,679 million) (30 June 2023: EUR 423 million (AED 1,695 million)) as hedging instruments in relation to the Group's net investment in OMV.

Upon disposal of the Group's interest in OMV, the hedge relationships between the Group's net investment in OMV and the above hedging instruments ended and a gain of AED 465 million on hedging reserves was recycled from other comprehensive income to profit or loss during the six-month period ended 30 June 2024.

- (i) Contingent liabilities include bank guarantees, performance bonds, advance payment bonds and completion guarantees.

18 LITIGATIONS

The Group is involved in litigations in the ordinary course of business. Legal claims often involve highly complex issues. These issues are subject to substantial uncertainties and therefore the estimation of the probability of loss and of damages are often difficult to determine.

The Group records a provision for claims for which it is able to make an estimate of the expected loss or range of possible loss but believes that the publication of this information on a case-by-case basis would seriously prejudice its position in the ongoing legal proceedings or in any related settlement discussions. Accordingly, for these claims, the Group has disclosed information with respect to the nature of the claim, but not an estimate of the range of potential loss or any provision accrued.

The Group believes that the aggregate provisions recorded for these matters are adequate based upon currently available information as of the interim consolidated statement of financial position date, which may be subject to ongoing revision of existing estimates. However, given the inherent uncertainties related to these claims, the Group could, in the future, incur judgements that could have a material adverse effect on its results of operations, liquidity, financial position or cash flows in any particular period.

For contingent liabilities, the Group has disclosed the claims, but has not recorded a provision of the potential outcome of these claims and is unable to make a reasonable estimate of the expected financial effect that will result from ultimate resolution of the proceedings.

A summary of the major litigations of the Group are set out below:

GlobalFoundries

On 28 April 2021, International Business Machines ("IBM") sent GlobalFoundries a letter alleging for the first time that GlobalFoundries did not fulfill its obligations under the contracts entered into with IBM in 2014 associated with GlobalFoundries's acquisition of IBM's Microelectronics business. IBM asserted that GlobalFoundries engaged in fraudulent misrepresentations and claimed GlobalFoundries owed them AED 9,184 million (USD 2,500 million) in damages and restitution. On 7 June 2021, GlobalFoundries filed a complaint with the New York State Supreme Court (the "Court") seeking a declaratory judgment that it did not breach the relevant contracts. IBM subsequently filed its complaint with the Court on 8 June 2021. On 14 September 2021, the Court granted a motion to dismiss IBM's claims of fraud, unjust enrichment and breach of the implied covenant of good faith and fair dealing. IBM appealed the Court's dismissal of its fraud claim (but not the other two dismissed claims) and on 7 April 2022, the Appellate Division, First Department reversed the dismissal. Discovery and dispositive motion practice has been completed. Trial is scheduled to commence on 3 February 2025. GlobalFoundries believes, based on discussions with legal counsel, that it has meritorious defenses against IBM's claims and intends to vigorously defend against them. GlobalFoundries does not currently anticipate this proceeding to have a material impact on its results of operations, financial condition, business and prospects.

18 LITIGATIONS continued

NOVA Chemicals

In 2006, Dow Chemical Canada ULC and its European affiliate (collectively, "Dow") filed a claim against NOVA in the Court of King's Bench of Alberta (previously known as the Court of Queen's Bench of Alberta) concerning the jointly owned third ethylene plant at the Joffre site.

- i. On 24 September 2019, a judgement was filed with the Court of King's Bench of Alberta awarding Dow damages and interest (for the period 2001-2012 in the aggregate amount of CAD 1,430 million (AED 3,964 million). On 10 October 2019, NOVA paid the amount in full to satisfy the judgement. NOVA appealed this decision to the Court of Appeal of Alberta and was successful in 4 out of the 5 issues appealed. The Court of Appeal of Alberta remanded such issues back to the Court of King's Bench of Alberta for redetermination (the "Base Trial").
- ii. Trial in the Court of King's Bench of Alberta for damages for the period 2013 to June 2018 (the "Top-Up Trial") began in December 2021 and has been combined with certain issues regarding the Base Trial remanded back by the Court of Appeal. The trial is expected to continue through 2024.

Others

Several group companies are currently subject to routine tax audits performed by their respective tax authorities. Managements' opinions are that the companies are in compliance with all applicable regulations. Given the preliminary nature of the proceedings, potential impacts, if any, cannot be currently reliably estimated.

19 FAIR VALUE DISCLOSURES

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy, which analyses financial instruments carried at fair value by valuation method. The different levels are defined as follows:

Level 1: Quoted prices in active markets for assets and liabilities;

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: Valuation techniques using inputs for the asset or liability that are not based on observable market data (unobservable inputs).

21 OTHER RISK MANAGEMENT OBJECTIVES AND POLICIES

Macroeconomics and geopolitics risks

The global operations of the Group are exposed to macro-economic risks across geographies, including inflation, interest rates, monetary policies, global prices of oil, natural gas and other commodities.

The Group is also exposed to global political dynamics, policy change and global events. The crisis in Russia, Ukraine and the conflict in Middle East have resulted in increased global economic uncertainty and volatility. Such geopolitical fragmentation has impacted policy decisions, supply chains, trade and has implications for performance and market sentiment.

Market risk impacting valuations

The Group is exposed to public market volatility, either directly (listed equity) or indirectly (sensitivity to public markets). Weaker than expected earnings growth or deterioration of a macro fundamentals could impact valuations, particularly for growth assets (e.g. technology). Value creation may be challenged by declining margins, due to persistent inflation, supply chain issues and tight labor markets.

Legal and regulatory change, and protectionism

The activities carried out by the Group are subject to various legislations, including in new jurisdictions into which the Group expands. As the Group expands its operations, it may become subject to legal uncertainties or regulations to which it is not currently subject or from which it is currently exempt, which may lead to greater exposure to risk or higher compliance costs.

Protectionism poses the risk of increased costs, reduced market access, and supply chain disruptions for parts of the Group that operate in global markets. This can lead to lower profitability, hindered growth opportunities, and heightened regulatory complexity, ultimately impacting competitiveness and long-term sustainability.

Risks relating to service providers and Business Partners

The Group's reliance on third-party providers, including contractors and business partners, is crucial for various operational needs. Failures by these providers or by the Group to maintain these relationships could significantly harm the Group. The industry's structure often limits the Group's ability to renegotiate contracts with key providers, and uncovering deficiencies in vendors may offer few alternative solutions. Transferring contracts between providers can be costly and complex, exposing the Group to heightened risks.

Sustainability and technology

Sustainability risk involves potential environmental impact from the Group's activities, including emissions and waste handling, despite efforts to minimize it through rigorous control measures and compliance with environmental permits. Additionally, the Group's performance may be influenced by stakeholder expectations regarding social, environmental, and governance (ESG) matters, particularly concerning climate change and the transition to net zero emissions.

The emergence of disruptive technologies, such as Artificial Intelligence, may affect the viability of business models of the Group. Technology change in the semiconductor industry, energy and chemicals sector, or a shift towards alternative energy, could have a material detrimental impact on the Group's business or create new business opportunities, in particular those supporting digital and energy transitions.

Data and Cybersecurity

Data security exposes the Group to the risk of revealing confidential or business information/data without permission (e.g., wrong collection, storage, transfer of information/data). There is also the risk that financial data in systems and/or reports is inaccurate, distorted, misunderstood, or used incorrectly.

The rise in cyber-attacks, coupled with the changing landscape of cyber threats and reliance on third-party vendors, heightens the likelihood of data loss, damage, or misuse, as well as disruptions to business operations, potentially resulting in reputational harm.

21 OTHER RISK MANAGEMENT OBJECTIVES AND POLICIES continued

Risks related to tax

The Group's financial results could be adversely affected by changes in tax-related matters. The Group conducts operations and sells products in various countries and, as a result, is subject to taxation and audit by a number of tax authorities. Tax rates vary in the jurisdictions in which the Group operates. Changes in tax laws, regulations and related interpretations in these countries may adversely affect the Group's business and results of operations.

Risks related to specific operations

The Group is exposed to risks relating to specific operations in the energy and semiconductor sectors.

The worldwide semiconductor foundry industry is highly competitive and has been cyclical and subject to downturns in the past, because of global economic conditions as well as industry-specific factors and that may have an adverse impact on the semiconductor operations of the Group. Furthermore, semiconductor manufacturing processes are highly complex, costly, and potentially vulnerable to impurities and other disruptions that can significantly increase the cost related to the semiconductor operations of the Group.

The Group's energy businesses are exposed to a variety of risks including, but not limited to, cyclicity in supply and demand, price fluctuations and disruptions in feedstock availability and project execution risk, which could materially and adversely affect the Group's results of operations. The Group's operations in Oil and Gas could also face significant liabilities for damages, clean-up costs or penalties under environmental and safety laws and changes in such laws could materially increase the Group's operating costs.

Talent and Business Conduct

The performance and standards of operations may be affected by difficulties in finding, keeping or training talent to match changing business needs.

The Group's employees, contractors, or third parties may intentionally or negligently bypass established controls to engage in fraudulent activities, bribery, or other misconduct. There is heightened exposure in the current economic climate, increasing regulatory requirements and by the Group's expansion into new geographies where governance may be less stringent.

22 SIGNIFICANT NON-CASH TRANSACTIONS

The Group had entered into significant non-cash transactions, as disclosed in notes 10(b), 11, and interim condensed consolidated statement of changes in equity, which are not reflected in the interim condensed consolidated statement of cash flows.

23 STRUCTURED ENTITIES

The Group has assessed that some of its indirect interests in various General Partners (“GPs”) and funds managed by those GPs can be considered investments in unconsolidated Structured Entities (“Structured Entities”), on the basis that the Limited Partners (“LPs”) or investors in the funds have the ability to replace the GP, whose objectives are to maximize the returns for its investors. The table below describes the types of Structured Entities that the Group does not consolidate but in which it holds an interest:

<i>Type of Structured Entity</i>	<i>Nature and purpose</i>	<i>Interest held by the Group</i>
Various investment funds	To manage assets on behalf of investors, including third party investors and generate income for the GPs and/or the investment manager and the investors.	Investment in units issued by the funds.

The exposure to investments in these Structured Entities at fair value, by strategy, is disclosed in the following table.

<i>30 June 2024 (unaudited)</i>					<i>31 December 2023 (audited)</i>			
<i>Number of Structured Entities</i>	<i>Net assets value of the Structured Entities AED millions</i>	<i>Group's share of the Structured Entities fair value AED millions</i>	<i>Net Assets attributable to the Group %</i>		<i>Number of Structured Entities</i>	<i>Net assets value of the Structured Entities AED millions</i>	<i>Group's share of the Structured Entities' fair value AED millions</i>	<i>Net Assets attributable to the Group %</i>
Private Equity	5	15,436	3,285	37%	9	17,654	4,370	61%
Ventures	2	2,028	478	16%	5	4,420	1,668	32%
Multi Strategy	-	-	-	-	1	11,792	10,900	92%

During the period, the governance rights over various Structured Entities were amended which resulted in the Group reassessing that it has control over those Structured Entities. The effect of consolidating those Structured Entities, was a net increase in total assets of AED 3,099 million (net of decrease of FVTPL investments of the Structured Entities of AED 14,809 million), an increase in total liabilities of AED 2,814 million as at 30 June 2024 and an increase in total comprehensive income of AED 194 million for the six-month period ended 30 June 2024.

The Group's maximum exposure of loss from its interest in Structured Entities is equal to the total fair value of its investments. Once the Group has disposed of its share in a structured entity, the Group ceases to be exposed to any risk from that Structured Entity.

During the six-month period ended 30 June 2024 and year ended 31 December 2023, the Group did not provide any financial support to unconsolidated Structured Entities.

24 COMPARATIVE FIGURES

Certain comparative figures have been reclassified, wherever necessary, to conform to the presentation adopted in the interim condensed consolidated financial statements.

Proceeds from maturity of long-term deposits amounting to AED 26,905 million and placements of long-term deposits amounting to AED 20,554 million for the comparative period ended 30 June 2023 have been presented on a gross basis in the interim consolidated statement of cash flows for the six-month period ended 30 June 2024. Those cash flows were previously presented on a net basis amounting to AED 6,351 million in the interim consolidated statement of cash flows for the period ended 30 June 2023. Accordingly, there is no impact on the previously reported total net cash used in investing activities for the period then ended.
