- (ii) Estimate of total expenses related to admission to trading: GBP 6,500

2. RATINGS

Ratings: The Notes to be issued are expected to be rated:

S&P Global Ratings, acting through Standard & Poor's Financial Services LLC ("**Standard & Poor's**") : BBB+

An obligation rated 'BBB' exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to weaken the obligor's capacity to meet its financial commitments on the obligation. The plus (+) sign shows relative standing within the rating categories. (Source: <https://disclosure.spglobal.com/ratings/en/regulatory/article/-/view/sourceId/504352>)

Moody's Investors Service, Inc. ("**Moody's**") : A1

Obligations rated A are judged to be upper-medium grade and are subject to low credit risk. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category (Source: <https://www.moody.com/web/en/us/solutions/ratings/understanding-ratings.html>)

Fitch Ratings, Inc. ("**Fitch**") : A+

A ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings. Within rating categories, Fitch may use modifiers. The modifiers "+" or "-" may be appended to a rating to denote relative status within major rating categories. (Source: <https://www.fitchratings.com/products/rating-definitions>)

DBRS, Inc. ("**DBRS**") : AA (low)

Superior credit quality. The capacity for the payment of financial obligations is considered high. Credit quality differs from AAA only to a small degree. Unlikely to be significantly vulnerable to future events. All rating categories

from AA to CCC contain the subcategories (high) and (low). The absence of either a (high) or (low) designation indicates that the rating is in the middle of the category. (Source: <https://dbrs.morningstar.com/media/DBRSM-Product-Guide.pdf>)

Each of Standard & Poor's, Moody's, Fitch and DBRS is not established in the EEA or the UK but the rating it has given to the Notes to be issued under the Programme is endorsed by S&P Global Ratings UK Limited, Moody's Investors Service Ltd, Fitch Ratings Ltd, and DBRS Ratings Limited, respectively, each of which is established in the UK and registered under Regulation (EC) No 1060/2009 as it forms part of domestic law of the United Kingdom by virtue of the EUWA (the "UK CRA Regulation").

3. **INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE ISSUE/OFFER**

Save as discussed in "*Subscription and Sale*" and save for the fees paid to the Managers, so far as the Issuer is aware, no person involved in the offer of the Notes has an interest material to the offer. Certain of the Managers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for, the Issuer and its affiliates in the ordinary course of business and for which such Managers have received or may receive customary fees, commissions, reimbursement of expenses and indemnification. In addition, in the ordinary course of their business activities, the Managers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer or Issuer's affiliates. Certain of the Managers or their affiliates that have a lending relationship with the Issuer routinely hedge, and certain other of the Managers or their affiliates may hedge, their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Managers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes. Any such short positions could adversely affect future trading prices of the Notes.
