Important Notice

The Board of Directors, the Board of Supervisors, directors, supervisors and senior management members of the Bank warrant that the information in this report is authentic, accurate and complete, contains no false record, misleading statement or material omission, and jointly and severally accept full responsibility for the information in this report.

The 2021 Interim Report and Interim Results Announcement of the Bank have been reviewed and approved on 30 August 2021 by the Board of Directors of the Bank. The number of directors who should attend the meeting is 15, with 14 directors attending the meeting in person. Independent Director Mr. CHUI Sai Peng Jose did not attend the meeting due to other important business engagements and appointed Independent Director Mr. Martin Cheung Kong LIAO as his authorised proxy to attend and vote on his behalf. 15 directors of the Bank exercised their voting rights at the meeting. The supervisors and senior management members of the Bank attended the meeting as non-voting attendees.

The 2021 interim financial statements prepared by the Bank in accordance with CAS and IFRS have been reviewed by PricewaterhouseCoopers Zhong Tian LLP, and PricewaterhouseCoopers in accordance with the Chinese and international standards on review engagements, respectively.

Legal Representative and Chairman of the Board of Directors LIU Liang, Vice Chairman of the Board of Directors and President LIU Jin, who is also responsible for the Bank's finance and accounting, and General Manager of the Financial Management Department WU Jianguang warrant the authenticity, accuracy and completeness of the financial statements in this report.

As considered and approved by the 2020 Annual General Meeting, the Bank distributed the 2020 cash dividend of RMB1.97 per ten shares (before tax) to ordinary shareholders whose names appeared on the register of members of the Bank as at market close on 3 June 2021, amounting to approximately RMB57.994 billion (before tax) in total. The Bank did not distribute an interim dividend on ordinary shares for 2021, nor did it propose any capitalisation of capital reserve into share capital.

During the reporting period, there was no misappropriation of the Bank's funds by its controlling shareholder or other related parties for non-operating purposes and no material guarantee business that violated the applicable regulations and procedures.

This report may contain forward-looking statements that involve risks and future plans. These forward-looking statements are based on the Bank's own information and information from other sources that the Bank believes to be reliable. They relate to future events or the Bank's future financial, business or other performance and are subject to a number of factors and uncertainties that may cause the actual results to differ materially. Any future plans mentioned do not constitute a substantive commitment by the Bank to its investors. Investors and people concerned should be fully aware of the risks and understand the differences between plans, forecast and commitment.

The Bank is faced with risks arising from changes in the macroeconomic environment and from political and economic conditions in different countries and regions as well as risks arising from its day-to-day operations, including the risk arising from changes in the credit status of borrowers, adverse changes in market prices and operational risk. It shall at the same time meet regulatory and compliance requirements. The Bank actively adopts adequate measures to effectively manage all types of risks. Please refer to the section "Management Discussion and Analysis — Risk Management" for details.

Notes:

- 1 The Group has recognised income and expenses arising from credit card instalment business as interest income in the current period, instead of fees and commission income, hence the comparative figures were adjusted accordingly.
- 2 Non-interest income = net fee and commission income + net trading gains/(losses) + net gains/(losses) on transfers of financial asset + other operating income.
- 3 Return on average total assets = profit for the period ÷ average total assets × 100%, annualised. Average total assets = (total assets at the beginning of reporting period + total assets at the end of reporting period) ÷ 2.
- 4 Return on average equity = profit attributable to ordinary shareholders of the Bank ÷ weighted average capital and reserves attributable to ordinary shareholders of the Bank × 100%, annualised. Calculation is based on *No. 9 Preparation and Reporting Rules of Information Disclosure of Public Offering Companies — Calculation and Disclosure of Return on Average Equity and Earnings per Share (Revised in 2010)* (CSRC Announcement [2010] No. 2) issued by the CSRC.
- 5 Net interest margin = net interest income ÷ average balance of interest-earning assets × 100%, annualised. Average balance is average daily balance derived from the Group's management accounts (unreviewed).
- 6 Non-interest income to operating income = non-interest income ÷ operating income × 100%.
- 7 Cost to income ratio is calculated in accordance with the *Measures of the Performance Evaluation of Financial Enterprises* (Cai Jin [2016] No. 35) formulated by the MOF.
- 8 Credit cost = impairment losses on loans ÷ average balance of loans × 100%, annualised. Average balance of loans = (balance of loans at the beginning of reporting period + balance of loans at the end of reporting period) ÷ 2. Total loans are exclusive of accrued interest when being used to calculate credit cost.
- 9 Allowance for loan impairment losses = allowance for loans at amortised cost + allowance for loans at fair value through other comprehensive income.
- 10 The data on investments include financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income and financial assets at amortised cost.
- 11 Net assets per share = (capital and reserves attributable to equity holders of the Bank at the end of reporting period – other equity instruments) ÷ number of ordinary shares in issue at the end of reporting period.
- 12 The capital ratios are calculated in accordance with the *Capital Rules for Commercial Banks (Provisional)* (Y.J.H.L. [2012] No. 1) and related regulations, under the Advanced Approaches.
- 13 Credit-impaired loans to total loans = credit-impaired loans at the end of reporting period ÷ total loans at the end of reporting period × 100%. Total loans are exclusive of accrued interest when being used to calculate credit-impaired loans to total loans.
- 14 Non-performing loans to total loans = non-performing loans at the end of reporting period ÷ total loans at the end of reporting period × 100%. Total loans are exclusive of accrued interest when being used to calculate non-performing loans to total loans.
- 15 Allowance for loan impairment losses to non-performing loans = allowance for loan impairment losses at the end of reporting period ÷ non-performing loans at the end of reporting period × 100%. Total loans are exclusive of accrued interest when being used to calculate allowance for loan impairment losses to non-performing loans.
- 16 Allowance for loan impairment losses to total loans = allowance for loan impairment losses at the end of reporting period ÷ total loans at the end of reporting period × 100%. Calculation is based on the data of the Bank's institutions in the Chinese mainland. Total loans are exclusive of accrued interest when being used to calculate allowance for loan impairment losses to total loans.

Management Discussion and Analysis

FINANCIAL REVIEW

Economic and Financial Environment

In the first half of 2021, the global economy maintained its recovery even as the COVID-19 pandemic continued to spread around the world. However, divergences among different countries and regions become more pronounced, with the US and European economies rapidly gaining momentum, Japan mounting a sluggish recovery due to weak domestic demand, and emerging economies experiencing ongoing disparities in the pace of recovery.

Volatility in international financial markets increased and major developed economies maintained accommodative monetary policies. The size of the US Federal Reserve's balance sheet reached a historic high, while some emerging economies began to raise interest rates. Overall, global liquidity remained ample. The USD Index weakened after an increase, Euro exchange rates moved in a V-shaped pattern, while the currencies of major emerging economies recorded mixed performances. Global stock markets staged a bumpy upturn, bond market yields declined in a volatile manner after a rise, and commodity prices showed a dramatic rise.

China carried out COVID-19 prevention and control while pursuing economic and social development, and the economy maintained a stable recovery. In particular, production and demand continuously increased, employment and consumer prices remained generally stable, major macroeconomic indicators were kept within an appropriate range, and the Chinese economy remained on course for steady and sound development. In the first half of 2021, China's gross domestic product (GDP) grew by 12.7% year-on-year. Total retail sales of consumer goods (TRSCG) rose by 23.0% year-on-year, total fixed asset investments (TFAI) increased by 12.6% year-on-year, and total goods imports and exports climbed by 27.1% year-on-year, with a trade surplus of RMB1.6 trillion. The consumer price index (CPI) rose by 0.5% year-on-year.

The People's Bank of China kept prudent monetary policy flexible and targeted and at a reasonable and appropriate level, and sustained the continuity, stability, and sustainability of the policies. Money supply and aggregate financing to the real economy (AFRE) grew moderately, maintaining the liquidity at a proper and adequate level. As at 30 June 2021, the outstanding broad money supply (M2) was RMB231.8 trillion, an increase of 8.6% year-on-year. The balance of RMB loans reached RMB185.5 trillion, an increase of 12.3% year-on-year. Outstanding AFRE was RMB301.56 trillion, an increase of 11.0% year-on-year. The RMB exchange rate fluctuated in both directions, and remained basically stable at an adaptive and equilibrium level. As at 30 June 2021, the central parity of the RMB against the USD was 6.4601, an appreciation of 1.0% compared with the prior year-end.

China's banking sector maintained stable operations and sound development momentum, improved the quality and effectiveness of serving the real economy, and injected more financial resources into key areas and weak links, such as the micro and small-sized business, rural revitalisation, manufacturing sector, scientific and technological innovation, and green and low carbon sectors. The banking sector also set up a long-term mechanism for forestalling and defusing financial risks, so as to firmly defend the bottom line that no systematic risk should occur. As at 30 June 2021, the total assets of China's banking sector grew by 5.1% from the prior year-end to RMB336 trillion, while total liabilities increased by 5.1% to RMB308 trillion. Commercial banking institutions recorded a profit for the period of RMB1.1 trillion, a year-on-year increase of 11.1%. Outstanding non-performing loans (NPLs) stood at RMB2.8 trillion as at 30 June 2021, with an NPL ratio of 1.76%.

Income Statement Analysis

The Bank grounded its work in the new stage of development, applied the new development philosophy, served to create the new development pattern, carried out COVID-19 prevention and control, and improved its business management. Its operational performance demonstrated resilience while gaining solid momentum. In the first half of 2021, the Group achieved a profit for the period of RMB118.547 billion, an increase of 9.96% compared with the same period of the prior year. It realised a profit attributable to equity holders of the Bank of RMB112.813 billion, an increase of 11.79% compared with the same period of the prior year. Return on average total assets (ROA) was 0.93% and return on average equity (ROE) was 11.97%.

The principal components and changes of the Group's consolidated income statement are set forth below:

Net Interest Income and Net Interest Margin

In the first half of 2021, the Group achieved net interest income of RMB208.773 billion, an increase of RMB3.360 billion or 1.64% compared with the same period of the prior year. Specifically, interest income grew by RMB2.486 billion or 0.65% to RMB386.934 billion, and interest expense stood at RMB178.161 billion, a decrease of RMB0.874 billion or 0.49% compared with the same period of the prior year.

Interest Income

In the first half of 2021, interest income on loans was RMB282.858 billion, an increase of RMB5.460 billion or 1.97% compared with the same period of the prior year, which was primarily attributable to an increase in loan scale.

Interest income on investments amounted to RMB75.417 billion, a decrease of RMB1.058 billion or 1.38% compared with the same period of the prior year, mainly due to a decrease in investment yield.

Interest income on balances with central banks and due from and placements with banks and other financial institutions was RMB28.659 billion, a decrease of RMB1.916 billion or 6.27% compared with the same period of the prior year, mainly due to a decrease in the yield of balances with central banks and due from and placements with banks and other financial institutions.

Interest Expense

In the first half of 2021, interest expense on due to customers was RMB130.550 billion, a decrease of RMB2.416 billion or 1.82% compared with the same period of the prior year, principally due to a decrease in the interest rate of deposits.

Interest expense on due to and placements from banks and other financial institutions was RMB27.290 billion, a decrease of RMB1.660 billion or 5.73% compared with the same period of the prior year, primarily owing to a decrease in the interest rate of due to and placements from banks and other financial institutions.

Interest expense on bonds issued was RMB20.321 billion, an increase of RMB3.202 billion or 18.70% compared with the same period of the prior year, which was mainly attributable to an increase in the scale of bonds issued.

Net Interest Margin

In the first half of 2021, the Group's net interest margin was 1.76%, a decrease of 11 basis points compared with the same period of the prior year, mainly due to declining yields from RMB loans in the Chinese mainland. In an effort to mitigate downward pressures on asset returns, the Bank continuously optimised its asset and liability structure. On one hand, the Bank continued to improve its deposit structure and strived to control deposit costs at a reasonable level in order to optimise its volume growth and pricing. On the other hand, the Bank allocated more credit facilities to medium- and long-term loans. The proportion of the average balance of RMB medium- and long-term loans within the overall RMB loan business in the Chinese mainland increased by 1.77 percentage points compared with the same period of the prior year.

The average balances¹ and average interest rates of the major interest-earning assets and interest-bearing liabilities of the Group, as well as the impact on interest income/expense of variances in the volume factor and the interest rate factor², are summarised in the following table:

¹ Average balances are average daily balances derived from the Group's management accounts (unreviewed).

² The impact on interest income/expense of variances in the volume factor is calculated based on the changes in average balances of interest-earning assets and interest-bearing liabilities during the reporting period. The impact on interest income/expense of variances in the interest rate factor is calculated based on the changes in the average interest rates of interest-earning assets and interest-bearing liabilities during the reporting period. The impact relating to the combined changes in both the volume factor and the interest rate factor has been classified as a change in the interest rate factor.

The average balances and average interest rates of loans and due to customers in the Chinese mainland, classified by business type, are summarised in the following table:

Net fee and commission income represented 15.46% of operating income. The Bank actively seized market opportunities and tapped into businesses with strong potential. As a result, it realised robust growth in income from its fund distribution, custody and online payment businesses. Please refer to Note III.2 to the Condensed Consolidated Interim Financial Information.

Other Non-interest Income

The Group realised other non-interest income of RMB47.269 billion, an increase of RMB7.523 billion or 18.93% compared with the same period of the prior year. This was primarily attributable to a year-on-year increase in net trading gains. Please refer to Notes III.3, 4, 5 to the Condensed Consolidated Interim Financial Information.

Operating Expenses

In the first half of 2021, the Group recorded operating expenses of RMB102.357 billion, an increase of RMB11.411 billion or 12.55% compared with the same period of the prior year. The Group's cost to income ratio (calculated under regulations in the Chinese mainland) was 24.06%, continuously maintaining at a relatively low level. The Bank continued to operate its business in a prudent and frugal manner. It proactively optimised its cost structure, increased investment in technological innovation, allocated greater resources to key products, areas and regions, and made greater efforts to support key projects such as scenario construction, mobile finance, etc., so as to continuously improve input and output efficiency. Please refer to Notes III.6, 7 to the Condensed Consolidated Interim Financial Information.

Impairment Losses on Assets

In the first half of 2021, the Group's impairment losses on assets amounted to RMB52.945 billion, a decrease of RMB13.539 billion or 20.36% compared with the same period of the prior year. Specifically, the Group's impairment losses on loans and advances amounted to RMB47.750 billion, a decrease of RMB12.978 billion or 21.37% compared with the same period of the prior year. The Bank continued to improve its enterprise risk management (ERM) system and constantly adopted a proactive and forward-looking approach to risk management, ensuring relatively stable credit asset quality. At the same time, it stringently implemented a prudent and solid risk provisioning policy, thus maintaining an adequate risk resistance capability. Please refer to the section "Risk Management — Credit Risk Management" and Notes III.8, 16 and Note IV.1 to the Condensed Consolidated Interim Financial Information for more information on loan quality and the allowance for loan impairment losses.

Financial Position Analysis

The Bank closely monitored changes in its operating environment, enhanced its asset and liability management in a more coordinated manner and strengthened its forward-looking and predictive research capabilities. Equity

As at 30 June 2021, the Group's total equity stood at RMB2,230.348 billion, an increase of RMB67.511 billion or 3.12% compared with the prior year-end. This was primarily attributable to the following factors: (1) In the first half of 2021, the Group realised a profit for the period of RMB118.547 billion, of which profit attributable to equity holders of the Bank amounted to RMB112.813 billion. (2) The Bank pushed forward its external capital replenishment projects in a proactive and prudent manner, successfully issuing RMB50.0 billion of undated capital bonds. (3) As per the 2020 dividends distribution plan approved at the Annual General Meeting, a cash dividend of RMB57.994 billion was paid out on ordinary shares. (4) The Bank paid a dividend on its preference shares of RMB4.4595 billion. Please refer to the "Condensed Consolidated Interim Statement of Changes in Equity" in the Condensed Consolidated Interim Financial Information.

Cash Flow Analysis

As at 30 June 2021, the balance of the Group's cash and cash equivalents was RMB1,979.557 billion, an increase of RMB484.689 billion compared with the prior year-end.

In the first half of 2021, net cash flow from operating activities was an inflow of RMB688.576 billion, an increase of RMB551.219 billion compared with the same period of the prior year. This was mainly attributable to a net increase in due to banks and other financial institutions whereas it was a net decrease in the same period of the prior year.

Net cash flow from investing activities was an outflow of RMB177.385 billion, as compared to an inflow of RMB208.188 billion in the same period of the prior year. This was mainly attributable to a decrease in cash received from the disposals and maturities of financial investments.

Net cash flow from financing activities was an outflow of RMB8.606 billion, as compared to an inflow of RMB19.099 billion in the same period of the prior year, mainly because repayments of debts issued increased year-on-year.

Corporate Banking

With a focus on high-quality development, the Bank continued to advance the transformation of its corporate financial services so as to serve the real economy more efficiently and effectively. It gave priority to supporting high-quality development in key areas such as inclusive finance, green finance, strategic emerging industries and manufacturing, thus contributing to the transformation and upgrading of the national economy. It also proactively expanded core customer groups in the advanced manufacturing and digital economy-related industries, so as to help improve the country's strategic scientific and technological strengths. In addition, the Bank accelerated progress in the coordinated development of the Beijing-Tianjin-Hebei region, Xiongan New Area, the Yangtze River Delta, the Guangdong-Hong Kong-Macao Greater Bay Area, Hainan Free Trade Port and other key areas by virtue of its financial resources, thus supporting national strategies for coordinated regional development. It pushed forward RMB internationalisation in an orderly manner, serving as the main channel for cross-border RMB circulation and as a leader in RMB service innovation, thereby contributing to the country's opening-up strategy. The Bank further advanced product innovation, constantly optimised system functions, and strived to improve the service quality and efficiency of enterprise annuities, occupational annuities, employee benefit plans and pension security management, thus supporting the construction of the country's social security system. In the first half of 2021, the Group's corporate banking business in the Chinese mainland recorded an operating income of RMB91.574 billion, a decrease of RMB6.150 billion or 6.29% compared with the same period of the prior year.

Corporate Deposits

Upholding the customer-centric approach, the Bank remained committed to building a comprehensive and tiered marketing management system through scientific classification and targeted policy implementation, and continued to consolidate its development foundations. Focusing on customers' diversified financial needs, the Bank further enhanced its cross-industry services, marketing awareness and comprehensive service capability, and expanded the scale of customers' financial assets. Furthermore, by proactively integrating into the nation's new development pattern, in which domestic and international circulations reinforce each other, the Bank strived to connect its business product channels for domestic settlement and international settlement, increase business volumes in payments and settlements, enhance fund retention capacity, and boost the sound and sustainable development of its deposit business. In particular, the Bank highlighted the strategic positioning of its administrative institution business, accelerated the building of a smart government services ecosystem, and facilitated the digital transformation and IT application of administrative institutions. It also leveraged the role of administrative institutions as a platform to connect government agencies, cover customers across different industries and attract private customer groups, thus continuously expanding the sources of its deposits. Centring on the key industries and key customer groups of the administrative institutions sector, the Bank developed differentiated marketing strategies and sharpened its market competitiveness in key areas by concentrating on scenario-based marketing across the entire industrial chain of education, medical care and other industries. As at 30 June 2021, RMB corporate deposits of the Group's commercial banking business in the Chinese mainland totalled RMB6,790.604 billion, an increase of RMB337.116 billion or 5.22% compared with the prior year-end. Foreign currency corporate deposits amounted to USD109.638 billion, an increase of USD23.661 billion or 27.52% compared with the prior year-end.

Corporate Loans

The Bank proactively carried out its responsibilities, fully implemented the national development strategy, and effectively improved its services to the real economy. It increased investment in high-quality credit so as to support the real economy recovery steadily. Moreover, the Bank devoted itself to the development of the modern industrial system and actively promoted a shift in service focus from traditional industries to new industries, new business forms and new business models. It endeavoured to promote the nation's coordinated regional development strategy, supporting industrial upgrading and transfer as well as the development of city clusters in the Beijing-Tianjin-Hebei region and Xiongan New Area. The Bank also increased its investment in the advanced manufacturing sector, high-quality service sector, new infrastructure construction, new urbanisation and other sectors in the Yangtze River Delta, and vigorously seized the opportunities arising from the technology finance, industry finance and cross-border finance sectors in the Guangdong-Hong Kong-Macao Greater Bay Area. The Bank adopted policies tailored to local conditions and pursued accelerated development in the ecological protection of the Yellow River basin, the development of modern agriculture and animal husbandry, new urbanisation, infrastructure connectivity, and the upgrading and transformation of traditional industries. It further stepped up its efforts in promoting financial connectivity in the Chengdu-Chongqing economic circle, and energetically bolstered new forms of consumption. In addition, the Bank contributed to the building of the Hainan Free Trade Port and Smart Hainan, and positioned itself as the first-choice bank for the Hainan Free Trade Port.

To serve the national strategy of expanding domestic demand, it capitalised on the new trend of consumption upgrading, sped up the building of scenario ecosystems, thus strengthening support for consumption. To serve common prosperity for all, the Bank continuously strengthened inclusive financial services and made breakthroughs in online products. It also increased support for agricultural modernisation by actively integrating into the rural revitalisation strategy. To serve the nation's ecological conservation strategy, it further boosted the development of green finance, improved relevant products and services, and facilitated sustainable economic and social development, which in turn helped the Bank to build a green finance brand image. The Bank contributed to the high-standard opening-up of the Chinese economy, continuously bolstered financial service innovation for the Belt and Road Initiative, and enhanced its comprehensive services for "Going Global" and "Bringing In" customers. As at 30 June 2021, the RMB corporate loans of the Group's commercial banking business in the Chinese mainland totalled RMB6,829.957 billion, an increase of RMB573.685 billion or 9.17% compared with the prior year-end. Foreign currency corporate loans totalled USD46.629 billion, an increase of USD7.456 billion or 19.03% compared with the prior year-end.

Financial Institutions Business

The Bank continued to deepen all-round cooperation with various financial institutions and built up its integrated financial services platform, maintaining a leading position in terms of financial institution customer coverage. It has maintained correspondent relationships with about 1,200 institutions around the world and opened 1,410 cross-border RMB clearing accounts for correspondent banks from 116 countries and regions, thus securing a leading position among domestic banks. It promoted the RMB Cross-Border Interbank Payment System (CIPS) and signed cooperation agreements for indirect participant relationships with 391 domestic and overseas financial institutions, seizing the largest market share among peers. The Bank's custodian service for Qualified Foreign Institutional Investors (QFII) and RMB Qualified Foreign Institutional Investors (RQFII) and its agency service for overseas central banks and other sovereign institutions all held leading positions in the industry in terms of both customer base and business scale. The Bank helped the Shanghai Headquarters of China Central Depository & Clearing Co., Ltd. (CCDC) to transfer the proceeds from the first offshore bond issuance by an overseas institution in the pilot free trade zone, and successfully bid to become a clearing fund depositing bank of the Shanghai Commercial Paper Exchange. It was also granted the qualifications to become the settlement bank for agency instruction receiving and sending business in relation to foreign currency lending for the China Foreign Exchange Trade System, as well as the exclusive settlement bank for the bilateral centralised clearing of RMB-USD trades via Shanghai Clearing House, thus enhancing its image as a co-brand in the financial factors market. The Bank also strengthened cooperation with the Asian Infrastructure Investment Bank (AIIB), New Development Bank and Silk Road Fund. It assisted AIIB with the issuance of several overseas USD bonds, served as lead underwriter for the New Development Bank's issuance of its first Panda bond to be linked to the Sustainable Development Goals, and acted as lead underwriter and lead bookrunner on the issuance of Asian Development Bank's Panda bond. As at 30 June 2021, the Bank had the largest market share in foreign currency deposits from financial institutions, and further increased its market share in terms of third-party funds under custody.

Transaction Banking

Actively adapting to the trend of FinTech innovation and the integrated financial needs of customers, the Bank vigorously developed its transaction banking business. It continued to strengthen financial support for the policy imperative of “ensuring stable foreign trade” and maintained the leading market share in international trade and cross-border RMB transaction volumes. The Bank became a global strategic partner of the first China International Consumer Products Expo (CICPE) and fully supported the smooth operation of the first CICPE and the 129th China Import and Export Fair (“Canton Fair”). It proactively participated in the Belt and Road Initiative, RMB internationalisation and the building of pilot free trade zones and free trade ports. BOC Guangdong Branch successfully provided financial services under Free Trade Unit (FTU), following similar authorisations for the Bank’s Shanghai, Hainan and Tianjin Branches. In addition, the Bank actively promoted the digital, scenario-based and intelligent development of supply chain finance and issued the *Measures of Bank of China on Innovating Supply Chain Financial Service Modes and Fully Supporting the Improvement on the Modernisation of Industrial Chains and Supply Chains*. It strengthened the development of application scenarios for transaction banking; enhanced service standards for account, payment and collection; and rolled out innovative intelligent cash management products to provide customers with multi-scenario fund supervision solutions (featuring ex-ante, in-event and ex-post integration), with the aim of improving its global cash management service capabilities.

Inclusive Finance

The Bank conscientiously implemented national policies and regulatory requirements regarding the nation’s support for the micro and small-sized business. It also focused on serving the real economy and took multiple measures to support the development of micro and small-sized business. It continued to launch new online financing products and services such as the “Unsecured Loan”, “Tax Loan” and “Mortgage Loan”, and made efforts to upgrade online products, thus continuously improving its service capabilities for inclusive finance. To implement the requirements of pandemic containment policy, it launched the “New Year Benefit” financial service programme to provide financial services to those micro and small-sized enterprises, and their employees, that continued working to ensure supply and stabilise production, with more than 7,500 customers benefitting from the service. The Bank continued to provide support by deferring the repayment of principal and interest on loans to micro and small-sized enterprises and spared no efforts to relieve them from financial troubles. It also implemented the “BOC Inclusive Services for Specialised, Refined, Featured and Innovative Enterprises”, and provided credit support for more than 10,000 such enterprises. In addition, the Bank worked with the State Intellectual Property Office to establish the Innovative Intellectual Property Financing Laboratory and released the “Inclusive Loan for Intellectual Property” inclusive financial service plan for intellectual property. It improved the BOC E-cooperation matchmaking platform, established a comprehensive “online + offline” matchmaking service system, and built new channels for attracting businesses, investments and talents. As at 30 June 2021, the Bank’s outstanding inclusive finance loans granted to micro and small-sized enterprises³ reached RMB781.6 billion,

³ Inclusive finance loans granted to micro and small-sized enterprises are measured in accordance with the *Circular of the General Office of China Banking and Insurance Regulatory Commission on Further Promoting the High-quality Development of Financial Services for Micro and Small-sized Enterprises in 2021* (Yin Bao Jian Ban Fa [2021] No. 49).

an increase of 35.8% compared with the prior year-end, outpacing the growth rate of the Bank's total loans. The number of micro and small-sized business customers stood at nearly 570,000, higher than that of the beginning of the year. The average interest rate of new inclusive finance loans granted to micro and small-sized enterprises in the first half of 2021 was 3.94%. By strengthening risk control and operational compliance, the quality of loans granted to micro and small-sized enterprises remained stable and manageable.

Pension Business

Taking the strategic national response to population aging during the 14th Five-Year Plan period as its overarching principle, the Bank pressed ahead with the development of its pension business, promoted product innovation and system development, and provided a range of products including enterprise annuities, occupational annuities, employee benefit plans and pension security management products to customers. It intensified efforts to optimise the strategic layout of its pension business and advanced scenario building for the silver economy, thereby vigorously supporting its development. As at 30 June 2021, pension funds under custody reached RMB120.860 billion, an increase of RMB19.068 billion or 18.73% compared with the prior year-end. The total number of enterprise annuity individual accounts held by the Bank reached 3.5697 million, an increase of 0.1561 million or 4.57% compared with the prior year-end. Assets under custody amounted to RMB691.721 billion, an increase of RMB98.849 billion or 16.67% compared with the prior year-end. The Bank provided enterprise annuity services for more than 12,000 clients.

Personal Banking

Guided by its customer-centric philosophy, the Bank continued to build a professional retail bank, with wealth finance at its core and cross-border finance and consumer finance as specialist services. It remained committed to bolstering its development momentum in order to realise the dividends of structural reform to its personal banking business. The Bank also comprehensively accelerated digital and capital-light transformation, pushed ahead with improvements to its business structure and sharpened the competitiveness of its personal banking business. In the first half of 2021, the Group's personal banking business in the Chinese mainland realised an operating income of RMB103.312 billion, a year-on-year increase of RMB3.110 billion or 3.10%.

Account Management Business

In response to the trend of interest rate liberalisation, the Bank leveraged its advantages in comprehensive personal financial services and made progress in deposit product innovation and smart account development. By accelerating the comprehensive reform of its cardless personal banking services, the Bank completed the R&D phase of its "digital debit card" and put it into pilot operation, enabling customers to open an account without a debit card and promoting cardless transactions for services such as cash deposit and withdrawal, transaction record printing, foreign currency exchange and investment and wealth management, with the aim of creating a whole new service model that features "accounts integrated with mobile banking". As at 30 June 2021, 100% coverage of cardless services was available for all high-frequency scenarios. The Bank also worked to enrich products and services for elderly customers by launching "BOC Care Debit Card" for family customers and providing one-stop "Finance Plus" services. As the

only bank in China to serve the Beijing 2008 Summer Olympics and the Beijing 2022 Winter Olympics, the Bank is set to provide services such as RMB account opening, foreign currency exchange, mobile payment and domestic acceptance of overseas bank cards for short-term visitors to China during the Winter Olympics, and promoted the Beijing 2022 Games-themed Visa debit card for cross-border customers in an effort to build a strong brand image for its payment settlement services. The Bank's "Comprehensive Cardless Application of Personal Banking Business and Smart Counter 4.0" programme was recognised as the "2021 Best Frictionless Customer Experience Initiative in China" by *The Asian Banker*.

Wealth Finance Business

Focusing on creating mutual value with customers, the Bank stepped up efforts to boost the high-quality and sustainable development of its wealth finance business and advance the scale growth and structural optimisation of all types of financial assets, with the aim of building a strong wealth management brand and increasing its market appeal. Adhering to a customer-centric approach, it remained committed to implementing the strategic requirement of pursuing "common prosperity" and established a "Group-wide + market-wide" wealth finance platform. The Bank also shifted its focus from selling proprietary products to an "open shelf" platform, from being a product seller to an investment advisor assisting the buyers, and from relying on transaction-driven growth to pursuing service-driven development, thus improving its capabilities in comprehensive product selection, refined customer management and professional team services. As at 30 June 2021, the total financial assets under management of the Group's personal customers exceeded RMB11 trillion and the income generated from wealth finance business increased by 25% year-on-year. BOC Robot Advisor recognised an average yield of 41.68% since launched, exceeding its performance benchmark by 27.40 percentage points, and generated accumulated sales of RMB29.6 billion from more than 250,000 customers. As at 30 June 2021, the Bank had set up 8,072 wealth management centres and 1,102 prestigious wealth management centres in the Chinese mainland.

Consumer Finance Business

In strict compliance with national policies, the Bank proactively adjusted its structure and promoted transformation, maintained steady development of its residential mortgage business, and accelerated the upgrading of its inclusive finance and consumer loan businesses, thus showing a 'One Stable and Two Fast' business development phenomenon. The Bank fulfilled the concentration management requirements for residential mortgage loans, and strivingly met the reasonable demands of those who sought loans for house purchase. The Bank also made tireless efforts to enrich its inclusive finance personal loan products. It optimised the inspection process, approval rules and credit model of online personal business loan product "Tax Loan", and supported the production and operation of self-employed individuals and micro and small-sized enterprises. In line with the development strategy for rural revitalisation, the Bank stepped up efforts to build its inclusive financial services system, explored upstream and downstream development opportunities in the industrial chain, and took solid action to promote the development of offline agriculture-related loan business, thus building a universal development model alongside its online agriculture-related loans. In addition, the Bank built an efficient and convenient consumer loan product system and achieved centralised and intelligent post-lending

management, with the online loan product “BOC E-Credit” serving as a key breakthrough point. As at 30 June 2021, the balance of personal RMB loans of the Group’s commercial banking business in the Chinese mainland was RMB5,251.290 billion, an increase of RMB272.076 billion or 5.46% from the prior year-end. Within this increase, the proportion of non-housing loans within the incremental personal loans significantly increased compared with the end of 2020.

Private Banking Business

The Bank accelerated the development of its private banking business, vigorously boosted product and service innovation, enhanced its specialised business system and built up its private banking service brand, thus providing high-net-worth customers with professional, comprehensive and globalised financial services. As at 30 June 2021, the number of the Group’s private banking customers reached 141,200, with financial assets under management surpassing RMB2 trillion. The Bank strengthened the development of its specialised systems comprising the platforms of investment strategy, asset allocation, wealth inheritance services, Asia-Pacific private banking, services for ultra-high-net-worth customers, and value-added services. It also accelerated the development of the family trust business, with the number of family trust customers increasing by 48.89% compared with the end of last year. Embracing asset allocation as a strategic growth driver, the Bank shifted its business focus from product sales to portfolio allocation. The scale of asset allocation products held on consignment grew by 85.16% compared with the end of last year. Moreover, drawing on the Group’s advantages in globalised operations, the Bank made stage progress towards building its Asia Pacific Private Banking Platform. It also improved its professional service capabilities and released Chinese and English versions of the *Bank of China Private Banking Global Investment Strategy Report*, thereby forming an investment strategy system consisting of daily, weekly, monthly, quarterly and annually reports. The Bank accelerated the establishment of private banking centres by building 90 such centres in the Chinese mainland, and promoted the in-depth development of professional teams of private banking relationship managers, private bankers and investment advisors. The Bank was awarded “Best National Private Bank in China (State-owned Banks)” once again by *Asian Private Banker* and “China Private Banking Awards — Best Private Bank for International Network” by *Asiamoney*.

Personal Foreign Exchange Business

The Bank further enriched its personal foreign exchange services by increasing the number of currencies available in its personal deposit and withdrawal business to 25 and the number of convertible foreign currencies available to customers to 39, thus maintaining a leading position among peers. Focusing on key customer groups, key regions and key businesses, the Bank accelerated product and service innovation, steadily promoted the optimisation of exchange settlement services for salary payment and its business expansion, and improved digital currency systems for currency exchange in order to deepen the application of digital currencies in the field of personal banking. It also improved customer experience by launching a foreign exchange cash reservation service for 23 currencies via e-channels such as mobile banking, WeChat banking and online banking in major cities in the Chinese mainland. As at 30 June 2021, the personal foreign currency deposits of the Group’s commercial banking business in the Chinese mainland amounted to USD44.724 billion, representing the largest market share among peers.

Bank Card Business

The Bank closely followed changes in industry trends and made great efforts to sharpen its brand competitiveness. Centring on the country's development plan for nationwide winter sports, the Bank launched the Beijing 2022 Olympic Winter Games-themed credit card and continued to build up its reputation by being the only bank in China to serve the Beijing 2008 Summer Olympics and the Beijing 2022 Winter Olympics. It thereby consolidated and enhanced its differentiated market competitiveness, especially as a cross-border brand and Winter Olympics brand. Moreover, the Bank supported the development philosophy of green finance, including boosting sales of new-energy vehicles by launching an instalment plan for automobile purchases, and strongly supporting the development of domestic new-energy vehicle brands. Emphasising on high-quality customer acquisition and customer activation, it focused on active scenarios such as mobile banking and launched important services including quick payment and instalments to activate existing customers and expand new customers, and thus continuously stimulate customer activity. It also explored the potential of high-frequency payment scenarios to build a service ecosystem. Focusing on sports, cross-border, education, automobile and other scenarios, as well as small-amount and high-frequency transactions related to people's livelihood consumption, the Bank continued to enhance the "BOC Benefit Day" brand and enrich the customer experience through online and offline scenario collaboration. As at 30 June 2021, the Bank had issued a total of 133.4291 million credit cards. In the first half of 2021, credit card consumption amounted to RMB778.736 billion, including RMB186.479 billion from credit card instalments.

Centring around the digital transformation strategy, the Bank accelerated digital transformation and scenario building for its bank card business. It steadily promoted its debit card business and expanded scenario-based applications for mobile payments, thus continuing to improve customer experience. Through the Campus One-Card Express service mode, the Bank leveraged its advantages in higher education institution services, made efforts to create a "Whole Education" scenario, promoted the building of a smart campus platform and launched an education zone on its mobile banking platform. It continued to enrich its integrated "online + offline" and "financial + non-financial" services, issued social security cards equipped with financial functions in cooperation with local Human Resources and Social Security Bureaux, and expanded the functions of its electronic social security cards and medical insurance e-vouchers. As at 30 June 2021, the Bank had cumulatively issued 114 million physical social security cards and 3.1920 million electronic cards. It strongly developed rail travel scenarios and completed the promotion of Railway e-Card on 39 railway lines, covering national strategic regions such as the Beijing-Tianjin-Hebei region, the Yangtze River Delta, the Guangdong-Hong Kong-Macao Greater Bay Area and the Hainan Pilot Free Trade Port, and serving over 3.50 million customers.

Financial Markets Business

The Bank actively aligned itself with trends towards interest rate and exchange rate liberalisation and RMB internationalisation. By closely tracking financial market developments, it continuously improved its business structure and strengthened efforts to achieve compliance with international regulatory requirements, thus maintaining its competitive advantages in financial markets business.

Securities Investment Business

By strengthening its analysis and forecasting regarding the macro-economic situation and market interest rates trend, the Bank proactively seized market opportunities, fine-tuned its investment progress as appropriate and dynamically adjusted its investment portfolio, in a bid to mitigate portfolio risk. It actively invested in green bonds and local government bonds, and strongly supported the development of green finance and the real economy.

Trading Business

The Bank continuously improved its financial markets business systems, consolidated its development foundations and enhanced its comprehensive customer service capabilities. It continued to outperform peers in terms of market share of foreign currency exchange against RMB, with the Bank providing 39 currency pairs available for exchange. The total number of foreign exchange trading currencies was 110, among which 99 were currencies of emerging economies and 46 were currencies of countries along the Belt and Road. The Bank intensified efforts to promote the concept of “market risk neutral” trading strategies, and made comprehensive use of financial market trading instruments to provide convenient hedging services and assist enterprises in enhancing their risk management capabilities. It also improved its online service capabilities. Seizing opportunities arising from the two-way opening-up of financial markets, the Bank took steps to expand its overseas institutional investor customer base, relying on a multi-tier service system that integrates trading, sales and research. It strengthened its quantitative trading capacity, advanced the building of a quantitative trading platform and refined its quantitative strategy. Closely tracking the global reform of interest rate benchmarks, the Bank promoted hedging transactions that adopt the new interest rate benchmarks. It enhanced its risk management and control capabilities, improved infrastructure building and strengthened the foundations for its business development. Benchmarking against self-regulated norms and best practices in the industry, the Bank also performed a self-regulated assessment of the implementation of its risk-neutral concept.

Investment Banking Business

The Bank followed its mission to serve the real economy, leveraged the competitive advantages of its international and diversified operations, and strived to deliver an integrated “commercial banking + investment banking” service system. Focused on national strategies, it increased efforts to develop its direct financing and investment banking advisory businesses, including domestic and overseas bond underwriting and distribution, asset-backed securitisation, etc., in order to meet customers’ all-round needs for “onshore + offshore”, “financing + intelligence” integrated financial services. To facilitate the development of China’s capital market and its two-way opening-up, the Bank underwrote bonds in the China Interbank Bond Market with a total amount of RMB764.208 billion in the first half of 2021. It strongly boosted its underwriting business for financial institutions, with its financial bond underwriting business having now remained a leader in the market for many consecutive years. The Bank actively promoted the asset-backed securitisation (ABS) business, thus its market share in asset-backed notes (ABN) underwriting business ranked first in the interbank market. The Bank also actively supported the issuance of green bonds. It underwrote the first batch of carbon-neutral bonds and sustainability-

linked bonds, and helped non-financial enterprises and financial institutions to issue green bonds totalling RMB50.901 billion. The Bank served as underwriter in the debut issuance of carbon-neutral ABNs in China, and the first green automobile ABS in the market. In addition, the Bank further built its competitiveness in cross-border underwriting business and maintained the largest market share in both China offshore bond underwriting and Panda bond underwriting. As a result, the brand influence of “BOC Debt Capital Markets” was continuously enhanced.

Asset Management Business

The Bank pushed forward the orderly transformation of its wealth management business and constantly enhanced its investment management and research capabilities. It made steady progress in the rectification of its existing wealth management business scale, appropriately disposing of the assets held under its existing wealth management products (WMPs). BOC Wealth Management (BOCWM) promoted the development of net-value WMPs, and steadily grew its product volume. As at 30 June 2021, the total balance of off-balance sheet WMPs offered by the Bank and BOCWM amounted to RMB1,413.726 billion, among which the balance of WMPs offered by BOCWM was RMB867.999 billion.

Custody Business

Pursuing national development strategies and consolidating its specialised business advantages, the Bank strived to promote the high-quality development of its custody business. As at 30 June 2021, total assets of the Group’s custody business amounted to RMB13.05 trillion, with its market share increasing in terms of custody business scale and income. The Bank achieved the strongest growth rates among major Chinese peers in terms of size of mutual funds under custody, and ranked among the top class in the industry in terms of the number and size of newly issued mutual funds under custody. It actively directed financial resources towards the field of green development and became the sole supervision institution for the fund-raising accounts of the National Green Development Fund. The Bank supported the development of a multi-tier pension security system and implemented a number of key annuity and insurance fund custody programmes. It also worked to refine the functions of its custody business system, and further improved its operational service efficiency and risk control capability.

Village Bank

BOC Fullerton Community Bank actively implemented the national strategy of rural revitalisation with the development concept of “focusing on county area development, supporting farmers and small-sized enterprises, and growing together with communities”. It is committed to providing modern financial services to county-level micro and small-sized enterprises, individual merchants, wage earners and farmers, developing inclusive finance, and providing financial services for rural revitalisation.

As at 30 June 2021, BOC Fullerton Community Bank controlled 124 village banks with 184 sub-branches in 22 provinces (including municipalities directly under the Central Government) through establishment and acquisition, of which 65% of the institutions located in the mid-west region. It is the largest domestic village bank group in terms of total institutions and business scope. It also continuously improved its product and service system to further expand its customer base. As at 30 June 2021, the registered capital of BOC Fullerton Community Bank amounted to RMB8.618 billion. The balances of total deposits and loans of these banks stood at RMB52.310 billion and RMB65.714 billion respectively. The NPL ratio was 1.46%, and the ratio of allowance for loan impairment losses to NPLs was 241.82%. During the first half of 2021, BOC Fullerton Community Bank achieved a profit of RMB449 million.

Globalised Operation

Boasting the most extensive global footprint among its Chinese peers, the Bank strived to enhance its globalised operations within the context of the new national development stage. It actively served China's new development paradigm and the national strategy of high-standard opening-up, and continuously enhanced the value-creation capacity for its globalised business. As at 30 June 2021, the Bank's deposits from customers and loans in markets outside the Chinese mainland totalled USD552.918 billion and USD455.495 billion respectively, an increase of 13.97% and 11.70% from the prior year-end. In the first half of 2021, the Bank's commercial banking business outside the Chinese mainland achieved a profit before income tax of USD3.642 billion, a decrease of 1.89% compared with the same period of the prior year, accounting for 15.89% of the Group's total profit before income tax.

The Bank continued to optimise its global network and further enhanced its capability to provide globalised services to customers. As at 30 June 2021, the Bank had 556 overseas institutions, covering 61 countries and regions, including 25 countries along the Belt and Road.

The Bank continued to optimise its global network management architecture and operating mechanism by building an effective flat matrix management structure and enhancing its differentiated approaches. It continued to press forward with the management and construction of overseas regional headquarters in regions such as Southeast Asia and Europe, Middle East and Africa (EMEA), and meanwhile promoted the operational streamlining of its business lines. The Bank implemented categorisation of its branches and subsidiaries outside the Chinese mainland and adopted a differentiated development approach by further formulating a distinct local strategy for each institution. This approach enabled the Bank's operations outside the Chinese mainland to gain a stronger footing for pursuing sustainable growth and generating greater synergies within its global network. In addition, the Head Office and overseas trading centres built a global trading network according to product line and time zone, instituting backup facilities in Beijing, Shanghai, Hong Kong, London and New York to ensure business continuity.

Corporate Banking

Keeping a close eye on changes in global markets, the Bank strengthened its analysis of the trend and risk management, and took effective measures in line with local conditions to ensure the stable and sustainable development of its overseas corporate banking business. It gave full play to its advantages in globalised and integrated operations, pushed forward the integration of domestic and overseas operations, and facilitated smooth domestic and international circulations, thus making positive contributions to both China's economic development and global economic recovery.

The Bank delivered services to its “Going Global” and “Bringing In” customers, Fortune Global 500 corporates and local enterprise customers. By virtue of its high-quality products in syndicated loans, M&A financing, project financing, letter of guarantee, international settlement, trade finance and global cash management, it offered strong support to key areas and projects including infrastructure development, green industries and international cooperation in production capacity, made solid progress towards the high-quality development of the Belt and Road Initiative, and bolstered the development of China’s dual circulation pattern by delivering high-quality, efficient, customised and comprehensive financial services. The Bank gave full play to the advantages arising from its global institution network and conducted all-round cooperation with various financial institutions in areas such as clearing, settlement, loans, investment, custody, treasury operations and comprehensive capital market services, expanding its customer base and enhancing its international influence. Making agile response to the challenges brought about by the new situation, the Bank continually promoted information exchange in the international financial sector, held multiple live-streamed “cloud road shows” for overseas customers and provided them with practical solutions and supporting services, thereby securing its market position as the preferred partner among Chinese banks for foreign institutional investors entering China’s capital markets. It made full use of its international partnership network, drew on its advanced global experience and established a peer communication and cooperation mechanism to keep strengthening its participation in ESG-related fields across the world.

Personal Banking

The Bank continued to improve its overseas service system for personal customers and expanded its business to cover over 6 million customers in more than 30 countries and regions. It offered comprehensive services to personal customers in Hong Kong, Macao and Singapore, etc.

The Bank built a one-stop comprehensive service platform covering the whole service process. Relying on cross-border scenarios, it vigorously promoted business innovation, proactively met costumers’ demands and provided various services such as account, settlement, debit card and mobile banking for overseas business travellers, students studying abroad, expatriates and local customers. It enriched its cross-border financial service system, improved remittance services for students studying abroad and remuneration exchange settlement services for expatriates, and stepped up efforts to enhance product competitiveness. Focusing on key regions, the Bank developed its cross-border business with regional characteristics and improved its financial service system in the Guangdong-Hong Kong-Macao Greater Bay Area. As at 30 June 2021, the Bank had opened a total of over 142,600 domestic RMB settlement accounts in the region via BOCHK’s “Greater Bay Area Account Opening” service.

The Bank steadily pushed forward the development of overseas private banking and wealth management. By focusing on the two themes of overseas personal asset allocation and investment in China, the Bank accelerated the building of global brands in “Private Banking”, “BOC Prestigious Wealth Management” and “BOC Wealth Management”. It also stepped up the promotion of overseas versions of its mobile banking platform, expanding its services to 30 countries and regions. The Bank continued to improve its overseas debit card offerings and issued debit cards in 19 countries and regions, covering the three brands of UnionPay, Visa and MasterCard. It improved its debit card acceptance network, joined local clearing organisations, facilitated customer card use convenience and reduced transaction costs, thereby better satisfying the global card usage demands of overseas customers. The Bank strengthened the management and development of its overseas institutions’ key credit card products and businesses, ensured that operations were in compliance with relevant laws and rules.

Financial Markets Business

The Bank actively carried out bond investment business while steadily improving the global integrated management level of its investment operations. It provided appropriate levels of authorisation to its overseas institutions to carry out investment activities, and at the same time strengthened risk control.

The Bank took full advantage of its globalised operations to provide stable and continuous dealing services worldwide. It continued to improve its global service capability and further consolidated its competitive advantages. Following national strategies, the Bank continued to actively provide RMB market making in Taiwan (China), Singapore, South Korea, Kazakhstan, Russia and other countries and regions, in a bid to facilitate the internationalisation of RMB. Seizing the historic opportunity of China’s opening-up of financial markets, the Bank provided overseas institutional investors with high-quality dealing services for domestic bonds and derivatives. It continuously improved infrastructure construction, innovated its management mechanism, enhanced customer service capability and optimised customer experience. The Bank consolidated the advantages of its globally integrated trading business and strengthened capacity building in its overseas trading centres. The Hong Kong Offshore RMB Trading Centre continued to improve its market-making and operation capabilities. The London Trading Centre actively coped with the impact of the pandemic, steadfastly remained on duty and maintained stable operations. It strengthened technology empowerment and pushed forward the implementation of key projects such as the automation improvement of overseas comprehensive management platform and regulatory statement platform, and further improved the level of global service.

BOCHK

BOCHK actively responded to rigorous market challenges and further strengthened the execution of its strategic plans. It steadily pushed forward its business priorities and strived to achieve high-quality development. BOCHK actively embraced the ESG concepts, vigorously promoted green finance and improved its capability for sustainable development. It also responded to the financial policies of the Guangdong-Hong Kong-Macao Greater Bay Area and captured related market opportunities, as well as continually developed its local market in Hong Kong. BOCHK gave full play to its regional synergies in Southeast Asia in order to implement its integrated business systems. It expedited its digital and innovation-driven development and increased the application of FinTech in its products and services. In addition, it strengthened its risk and compliance controls, with major financial indicators remaining at solid levels. As at 30 June 2021, BOCHK's issued share capital was HKD52.864 billion. Its total assets amounted to HKD3,834.870 billion and net assets reached HKD322.293 billion. In the first half of 2021, its profit for the period was HKD13.591 billion.

BOCHK actively embraced the ESG concepts and continuously promoted green finance.

BOCHK remained committed to enriching its green finance products and services so as to encourage and assist clients' business transformation towards sustainable development and support Hong Kong's establishment as a green financial centre. This included the launch of the SME Green Financing Incentive Scheme, green deposits, green syndicated loans and a green advisory service. BOCHK also launched the BOCHK All Weather ESG Multi-Asset Fund, the first ESG fund authorised by the Securities and Futures Commission in Hong Kong, and successfully issued "sustainable and smart living" themed green bonds. In recognition of its ESG efforts, BOCHK was rated AA by MSCI ESG Research LLC for the fifth consecutive year, selected as a constituent of the Hang Seng Corporate Sustainability Index Series for the 11th consecutive year, and awarded "Best Bank for CSR in Hong Kong" by Asiamoney for the third consecutive year.

BOCHK captured market opportunities and continued to develop the local market.

The growth of BOCHK's total customer deposits and loans was above the market average, with deposit structure being further optimised and the asset quality of its loan portfolio outperforming the peers. It enhanced internal and external collaboration in order to engage in major syndicated loan projects, maintaining its top market share in the Hong Kong-Macao syndicated loan market. Seizing opportunities arising from the secondary listing of China concept stocks and the development of capital markets, BOCHK successfully captured the receiving bank business of all secondary listing projects in Hong Kong in the first half of 2021. As a result, it maintained its top market position as an IPO receiving bank in terms of both the total number of listing projects and total funds raised during the period. It also cooperated closely with real estate intermediaries in order to develop and promote the scenarios of property search and mortgage services available on its Home Expert mobile application. This enabled BOCHK to capture first-hand mortgage business opportunities and maintain its top market position in terms of the total number of new mortgage loans. In addition, it secured market leadership in the cash pooling business by leveraging Hong Kong as an ideal hub for corporate treasury activities, with its business coverage now extending to central enterprises, state-owned enterprises, industry giants, local large-scale enterprises and foreign enterprises from 29 countries and regions.

BOCHK deepened cross-border collaboration and proactively supported the construction of the Greater Bay Area.

To actively respond to financial policies and capture market opportunities related to the Guangdong-Hong Kong-Macao Greater Bay Area, BOCHK gave full play to its competitive edge in integrated service capabilities by providing diversified products and services to key industries and target customers in the Chinese mainland, including those in the new infrastructure and technological innovation sectors, thus fulfilling their cross-border financial demands. It also continued to deepen collaboration within the Group, with a view to enhancing synergies in client service, business innovation and risk management. In order to meet the various spending, lifestyle and investment needs of residents in the Greater Bay Area, BOCHK continued to optimise the customer experience of cross-border financial services in the Greater Bay Area Account Opening and Personal Loan mortgage services. It also made full preparations for the launch of its cross-border Wealth Management Connect service, so as to contribute to financial interconnectivity within the Greater Bay Area.

BOCHK improved its regional presence in Southeast Asia and fully leveraged its regional synergies. BOCHK strengthened its regional headquarter management and implemented a “One Bank, One Policy” operating model according to the local conditions of each of its Southeast Asian entities. This allowed the entities to step up their own marketing efforts and successfully expand their key customer bases, giving rise to more business opportunities in syndicated loans, customer deposits, letters of credit and letters of guarantee. With the aim of further enhancing its regional operations, BOCHK made earnest efforts to centralise regional management in the Southeast Asia and expedite the transfer of its managing role to the Regional Operation Centre in Nanning, Guangxi. Adhering to stringent risk management, it strengthened its Southeast Asian entities’ risk management capabilities in credit risk, market risk, interest rate risk and liquidity risk, as well as its risk control capabilities in compliance, anti-money laundering and anti-fraud, by leveraging its systems and technical advantages. BOCHK remained committed to pushing forward digitalisation and financial product innovation, gradually rolling out a number of digital services in the Southeast Asian region including its intelligent Global Transaction Banking platform (iGTB), mobile banking, the Enterprise Resources Planning Integration service, BoC Bill and the FXall Digital Transaction Platform. It further improved its operational presence in the first half of 2021 with the commencement of business at BOCHK Yangon Branch in Myanmar and BOCHK Hanoi Representative Office in Vietnam, while BOCHK Manila Branch officially launched its RMB clearing business in the Philippines. In addition, BOCHK deepened its Asia-Pacific business collaboration mechanism with the Bank’s Singapore Branch and Sydney Branch, achieving steady progress in its syndicated loan, cash management, trade financing, account opening attestation, treasury transaction and wholesale banknote businesses. Despite the challenges posed by the pandemic, its Southeast Asian entities recorded solid growth in deposits from customers and advances to customers, while maintaining stable asset quality.

BOCHK pushed forward its digital transformation and further enhanced customer experience. Backed by digital, intelligent and ecological support, BOCHK was able to provide impetus to its business development and enhance customer experience through digital transformation. It actively promoted open banking services and pushed forward business ecologies with a focus on various livelihood-related scenarios. It continued to provide payment solutions to HKSAR government agencies and clients in the transportation, education, retail, and food and beverage sectors, to provide more convenient payment channels to the general public. BOCHK implemented a number of measures to continuously enhance operational efficiency and promote digitalisation processes, including the use of intelligent customer services, blockchain technology, the use of e-platforms for service applications and transactions, robotic process automation in its middle and back offices, and the extension of iGTB platform coverage to the Southeast Asian region. It also shifted enthusiastically towards intelligent operations by enhancing its mobile banking functionalities, introducing intelligent devices to its service outlets and implementing a web risk monitoring system. At the same time, it optimised its agile mechanisms and systems, strengthened the formation of agile teams and culture, and continuously pushed forward the construction of its cloud-based system so as to provide all-round support to its strategic digital transformation initiative. BOCHK was awarded “Hong Kong’s Best Digital Bank 2021” by *Asiamoney*.

Following mobile internet trends, the Bank accelerated the construction of the Group's mobile integrated financial service portal for corporate customers. Leveraging the BOC iGTB platform, the Bank focused on frequently and commonly used services, mobile features, international settlement characteristics and open scenarios. It also built an intelligent corporate customer service platform featuring rich scenario ecosystems, superior user experience and flexible product portfolios, and provided corporate customers with comprehensive and multi-dimensional online financial services. It continuously enriched high-frequency primary services such as bank-enterprise reconciliation, transfer and remittance, account management, inclusive financing, investment and wealth management; launched exclusive mobile services such as QR code scanning payment, and introduced featured services in international settlement such as self-service foreign exchange sales, cross-border remittance, inward remittance, international settlement documents and online letters of guarantee. The Bank supported biometric login, QR code login and intelligent customer services, as well as introducing convenient auxiliary functions such as receipt verification, corporate business cards and calendars, so as to continuously improve customer experience.

The Bank continued to improve the functions and channels of its mobile banking for personal customers and facilitated the digital transformation of personal banking. Centring around the key customer groups of credit card, private banking and elderly care, it launched targeted services such as a credit card section, a private banking zone and an Elderly Version for its mobile banking as well as launching "My Ledger", Monthly Bill, and Earnings Report functions in a bid to enhance the value of its products and services, boost sales and stimulate customer activity. The Bank created a superior user experience with a focus on livelihood high-frequency consumer scenarios, and delivered more convenient personal financial services for customers. It continued to expand its overseas service coverage and published versions for the Netherlands and Panama, meaning that its mobile banking services are now available via 30 overseas institutions and in 12 languages and providing services under 17 categories. Newly introduced features included online self-registration for mobile banking, UK exclusively electronic bank statements and online account opening. Furthermore, the Bank enhanced the digital risk control capacity of its online channels and accumulatively monitored 3.752 billion transactions through its "Cyber Defence" smart risk control and prevention system in the first half of 2021, an increase of 35.3% year-on-year. As at 30 June 2021, the Bank had opened accounts for 16.40 million customers through its mobile banking-oriented digitalised authorisation tool, an increase of 35.53% over the beginning of the year.

Offline Channels

The Bank pushed forward the digital transformation of its outlets and continued to enrich its intelligent service ecosystem, in a bid to transform its outlets into integrated marketing and service entities encompassing all channels, scenarios and ecosystems.

The Bank accelerated the digital transformation of its outlets. It deepened cross-border ecosystem development, expanded non-resident service scenarios at smart counters, supported passport-based business handling and launched multilingual services. Closely following the pace of digital reform in government services, the Bank constructed a "government service + financial service" dual-purpose system and successively expanded government affairs scenarios such

as social security and tax service at smart counters, by embedding financial services into the building of digital government and smart cities, and it continuously promoted the intelligent outlets operation. The Bank constantly optimised the products and services. The Bank established a bank settlement account system for local and foreign currencies, realised “one-stop” account opening and product contracting, introduced digital debit card issuance and cardless services at smart counters, to improve customer experience. Focusing on the elderly and other key customer groups, the Bank launched an elderly version of smart counters to help the elderly adapt to the digital world and make intelligent financial services more inclusive.

The Bank made fresh innovations in outlet business models. It continued to push forward the categorised management and differentiated development of its outlets by further refining the differentiation of business strategies and resource allocation across different outlets, so as to sharpen their overall competitiveness. It rolled out the “5G Intelligence + Greater Bay Area Pavilion” in Guangdong Province and the “5G Intelligence + Culture and Tourism Pavilion” in Shanxi Province, and built intelligent outlets integrating technology application, service experience, scenario linking and ecosystem integration. Furthermore, the Bank pushed forward the establishment of an outlet scenario ecosystem, built featured outlets based on cross-border, sports, silver economy, education and other scenarios, thus continuously improving the scenario ecosystem chain.

As at 30 June 2021, the Bank’s commercial banking network in the Chinese mainland (including Head Office, tier-1 branches, tier-2 branches and outlets) comprised 10,450 branches and outlets. Its comprehensive operation institutions in the Chinese mainland totalled 513, and the number of its institutions in Hong Kong, Macao, Taiwan and other countries and regions totalled 556.

Information Technology Development

Taking “deepening technological reform and boosting value creation” as its main task, the Bank fully invested in new “digital infrastructure”, enhanced IT empowerment in key business areas, and created new financial service patterns.

The Bank was deeply involved in the building of a digital China. It improved its governance structure by setting up the Financial Digitalisation Committee to push forward the development of the Group’s digitalisation, financial technology, data governance, digital business transformation and information risk management system. In line with the Group’s strategic development requirements, the Bank accelerated the two milestone projects of enterprise-level architecture building and data governance enhancement. It devoted great efforts to improve its digital capabilities in five areas, namely customer experience enhancement, open sharing of products and services, business process integration and optimisation, intelligent and efficient risk control, and burden alleviation for institutions and employees via IT empowerment, thereby achieving new breakthroughs in the Group’s digital transformation.

The Bank made every effort to promote the OASIS project. Pooling Bank-wide efforts and resources, it built an enterprise-level architecture, strived to break down internal silos from the perspective of overall management and integrated planning, and cultivated the key capabilities shared across all products, channels and institutions. It accelerated the building of enterprise-level middle offices for products, operations, risk control and data, and provided strong support for agile responses to customer demands, rapid follow-up on market changes and flexible support for the development of frontline businesses. In the first half of 2021, the Bank finalised the implementation plan for the first phase of its upcoming pilot projects and entered into the substantive development stage.

The Bank deepened research into the application of cutting-edge technologies in financial field. Focusing on core fields such as smart city infrastructure, digital government scenarios, digital financial services and financial product innovation, the Bank established a blockchain platform in cooperation with the blockchain lab of Xiongan New Area, and put it in use for the payment of financial funds for projects in Xiongan New Area. It also achieved preliminary research results in cutting-edge areas such as privacy computing, 6G, and distributed databases. Furthermore, the Bank improved its product innovation management policies, enhanced the quality and efficiency of product lifecycle management, and realised full coverage of product management.

The Bank supported the strategic development pattern of “One Body with Two Wings”. Focusing on globalised operations, it established an overseas IT collaboration service mechanism. Leveraging its role as a “strong headquarters”, the Bank promoted the use of digital collaboration in the office activities of its overseas institutions and continuously improved IT automation and online IT capabilities. Focusing on comprehensive operations, the Bank established a comprehensive major IT event management mechanism in a coordinated manner, combined corporate governance with IT line management, and steadily promoted the development of products and processes and policies for capacity output.

RISK MANAGEMENT

The Bank continued to improve its risk management system in line with the Group's strategies. Facing a challenging and complex external environment, the Bank intensified efforts to improve its comprehensive risk management system, further refined and upgraded the system in terms of governance structure, management mechanism, management process, management tools and management foundations, thus ensuring the sustainable and robust operation of the Group. Anticipating how risk management will develop over the next three to five years, the Bank formulated the Group's 14th Five-Year risk management plan, which comprehensively charts a blueprint for the Group's risk management development, including proposed actions and measures. In addition, it further implemented Basel III and international interest rate benchmark reform, and continued to enhance its refined risk management capability. The Bank also improved the risk management system for its comprehensive operation subsidiaries and continuously strengthened risk management requirements for its overseas institutions. It also improved mechanisms for pandemic response and major risk reporting, and ensured business continuity. Furthermore, the Bank accelerated the digital transformation of risk management, proactively established an online "toolbox" for business models and a "safety valve" for risk evaluation, and advanced the building of a multi-tiered smart risk control and early warning system, thus increasing the levels of its smart risk management. It remained constantly mindful of worst-case scenarios and conducted in-depth investigation of the major potential risks arising from varying aspects of its institutions, businesses, products and customers. It also took an active role in carrying out special campaigns on risk culture, as a way to continuously improve the risk awareness of all employees.

Credit Risk Management

Closely monitoring changes in macroeconomic and financial conditions, the Bank pushed forward the optimisation of its credit structure, further improved its credit risk management policies, strengthened credit asset quality management and took a more proactive and forward-looking stance on risk management.

The Bank continuously adjusted and optimised its credit structure. With the aim of advancing strategic implementation and balancing risk, capital and return, it continued to push forward the construction of the industrial policy system, improved the management scheme for its asset portfolios, and formulated industry guidelines for credit granting, so as to optimise its credit structure. In line with the 14th Five-Year Plan of the country and that of the Bank, as well as the requirements for the development of the "Eight Priorities in Delivering Financial Services", the Bank highlighted the four segments of scientific and technological innovation, expanding domestic demand, regional coordination and infrastructure construction. It also focused on the ten pillars of strategic emerging industries, new infrastructure, advanced manufacturing, digital economy, people's livelihood consumption, modern services, rural revitalisation, new urbanisation, traditional infrastructure and traditional manufacturing.

The Bank further strengthened its unified credit granting management and enhanced full-scope centralised credit risk management. It continuously improved its long-acting credit management mechanism and asset quality monitoring system, strengthened the control of customer concentration risk, and further raised the effectiveness of potential risk identification, control and mitigation. The Bank enhanced the supervision of risk analysis and asset quality control in key focus regions, and strengthened the window guidance, inspection and post-assessment of its business lines. In addition, it constantly identified, measured and monitored large exposures in line with related large exposure management requirements.

In terms of corporate banking, the Bank further strengthened risk identification, control and mitigation in key fields, strictly controlled the outstanding amount and use of loans through limit management, and prevented and mitigated risk associated with overcapacity industries. In addition, it implemented the government's macro-control policies and regulatory measures in the real estate sector so as to strengthen the risk management of real estate loans. In terms of personal banking, the Bank improved its personal credit approval mechanism, strengthened authorisation management, and refined approver management. It set strict access standards, enhanced process monitoring and prevented the risks of excessive credit and cross-spreading of risks while supporting the development of its personal credit business.

The Bank stepped up efforts in the mitigation of NPAs. It continued to adopt the centralised and tiered management of NPA projects, reinforced the supervision of key regions and key projects, and improved the quality and efficiency of disposal. The Bank proactively explored the application of "Internet Plus" in NPA collection and diversified its disposal channels. In addition, it enhanced the application of write-off and debt-for-equity swaps, applied the pilot regulatory policy on NPA transfer, and increased the securitisation of non-performing personal and bank card assets, in a bid to improve asset quality and prevent and resolve financial risks.

The Bank scientifically measured and managed the quality of its credit assets in accordance with the *Guidelines for Loan Credit Risk Classification*. As at 30 June 2021, the Group's NPLs⁴ totalled RMB200.348 billion, a decrease of RMB6.925 billion compared with the prior year-end. The NPL ratio was 1.30%, down 0.16 percentage point compared with the prior year-end. The Group's allowance for impairment losses on loans and advances was RMB369.168 billion, an increase of RMB0.549 billion compared with the prior year-end. The coverage ratio of allowance for loan impairment losses to NPLs was 184.26%.

⁴ Total loans and advances to customers in "Risk Management — Credit risk management" section are exclusive of accrued interest.

Market Risk Management

In response to changes in the market environment, the Bank continued to refine its market risk management system in order to effectively control its market risk.

The Bank enhanced the quality and efficiency of its market risk management by improving its market risk management mechanism, optimising the Group's market risk limit system and strengthening the risk control of the first and second lines of defence. It continued to improve its market judgement and analysis and made its risk management more proactive and forward-looking. It streamlined counterparty credit risk management processes and conducted more forward-looking management and control. It improved its market risk measurement models and refined its risk management standards. Please refer to Note IV.2 to the Condensed Consolidated Interim Financial Statements for detailed information regarding market risk.

The Bank continued to strengthen the risk control of its securities investments, enhanced the early warning monitoring of bond defaults in the domestic bond market and the tracking of the China USD bond market, and improved its post-investment monitoring and warning capabilities, thus continuously consolidating the quality of its bond investment business. It also further strengthened the Group's coordinated management of the risks arising from its securities investment and asset management businesses.

In terms of exchange rate risk management, the Bank sought to achieve currency matching between fund source and applications. It controlled its foreign exchange exposure through currency conversion and hedging, thus maintaining its exchange rate risk at a reasonable level.

Management of Interest Rate Risk in the Banking Book

Based on the principles of “matching, comprehensiveness and prudence”, the Bank strengthened the management of interest rate risk in the banking book (IRRBB). The Bank's IRRBB management strategy is to control risks within an acceptable level by considering factors such as the Bank's risk appetite and risk profile, as well as macroeconomic and market conditions, so as to achieve a reasonable balance between risk and return and maximise shareholder value.

The Bank assessed IRRBB mainly through analysis of interest rate repricing gaps, made timely adjustments to the structure of its assets and liabilities, and optimised the internal and external pricing strategy or implemented risk hedging based on changes in the market situation.

Liquidity Risk Management

The Bank endeavoured to develop a sound liquidity risk management system with the aim of effectively identifying, measuring, monitoring and controlling liquidity risk at the Bank and Group level, including that of branches, subsidiaries and business lines, thus ensuring that liquidity demand is met in a timely manner and at a reasonable cost.

Adhering to an appropriate balance of safety, liquidity and profitability, and following regulatory requirements, the Bank improved its liquidity risk management in a forward-looking and effective manner. It enhanced liquidity risk management at the Bank and Group level, including that of branches, subsidiaries and business lines. It formulated sound liquidity risk management policies and contingency plans, periodically re-examined liquidity risk limits, upgraded the early warning system for liquidity risk, and strengthened the management of high-quality liquid assets, in order to strike an appropriate balance between risk and return. In addition, the Bank regularly improved its liquidity stress-testing scheme and performed stress tests on a quarterly basis. The test results indicated that the Bank had adequate payment ability to cope with distressed scenarios.

As at 30 June 2021, the Bank's liquidity risk indicator met regulatory requirements. The Group's liquidity ratio is shown in the table below (in accordance with the relevant provisions of domestic regulatory authorities):

				Unit: %	
Indicator		Regulatory standard	As at 30 June 2021	As at 31 December 2020	As at 31 December 2019
Liquidity ratio	RMB	≥25	48.6	54.5	54.6
	Foreign currency	≥25	66.6	58.6	60.4

Reputational Risk Management

The Bank earnestly implemented regulatory requirements on reputational risk management, continued to enhance its reputational risk management system and mechanism, and strengthened the consolidated management of reputational risk, so as to enhance its overall reputational risk management capabilities. It attached great importance to the investigation and pre-warning of potential reputational risk factors, strengthened public opinion monitoring, continued to conduct reputational risk identification, assessment and reporting, and dealt appropriately with reputational events, thus effectively protecting its brand reputation. In addition, the Bank continued to roll out reputational risk management training so as to enhance employees' awareness and foster a culture of reputational risk management.

Internal Control and Operational Risk Management

Internal Control

The Board of Directors, senior management and their special committees earnestly performed their duties regarding internal control and supervision while emphasising early risk warning and prevention, thus improving the Group's level of operational compliance.

The Bank continued to adopt the "Three Lines of Defence" mechanism for internal control. The first line of defence consists of business departments and all banking outlets. They are the owners of, and are accountable for, local risks and controls. They undertake self-directed risk control and management functions in the course of their business operations, including formulating and implementing policies, conducting business examination, reporting control deficiencies and organising rectifications.

The internal control and risk management departments of the Bank's institutions at all levels form the second line of defence. They are responsible for the overall planning, implementing, examining and assessment of risk management and internal control, as well as for identifying, measuring, monitoring and controlling risks. They lead the first line of defence to enhance its use of the Group's operational risk monitoring and analysis platform, and are responsible for handling employee violations and management accountability. Through regular monitoring of material risks, the Bank identified and mitigated risks in a timely manner and promoted the optimisation of its business processes and systems.

The third line of defence rests in the audit department of the Bank. The audit department is responsible for performing internal audits of the Bank's internal control and risk management in respect of its adequacy and effectiveness. Focusing on the implementation of national policies, regulatory requirements and the Group's strategies, the Bank concentrated its efforts on the main responsibilities of audit supervision, closely monitored material potential risks and weak links, and carried out audit inspections as scheduled. The Bank attached equal importance to problem revelation and rectification supervision. It further improved its rectification supervision mechanism for audit findings, strengthened the tracking, inspection and prioritised supervision of audit findings rectification, and promoted the application of audit results and the improvement of rectification quality and efficiency. The Bank also deepened audit system reform, continued to enhance audit team building, promoted IT applications in audit, and further reinforced the use of IT-based audit approaches in audit.

The Bank devoted great efforts to internal control and case prevention management, consolidated the liabilities of primary responsible parties and took multiple control measures. It consistently improved internal control rules, processes and systems, stepped up efforts in the building of its internal control inspection team and organised Bank-wide risk screening, thereby improving the quality and efficiency of its internal control and case prevention. The Bank also focused on the rectification of issues and findings, raised employees' compliance awareness and fostered an internal control compliance culture.

The Bank continued to implement the *Basic Standard for Enterprise Internal Control* and its supporting guidelines, and earnestly implemented the *Guidelines for Internal Control of Commercial Banks* by following the basic principles of "complete coverage, checks and balances, prudence and correspondence", so as to promote internal control governance and an organisational structure characterised by a reasonable delegation of work, well-defined responsibilities and clear reporting lines.

The Bank established and implemented a systematic financial accounting policy framework in accordance with relevant accounting laws and regulations. As such, its accounting basis was solidified and the level of standardisation and refinement of its financial accounting management was further improved. The Bank has endeavoured to implement, access and evaluate sound accounting standards and establish a long-term accounting management mechanism. It continuously strengthened the high-quality management of its accounting information so as to ensure internal control effectiveness over financial reporting. The financial statements of the Bank were prepared in accordance with the applicable accounting standards and related accounting regulations, and the financial position, operational performance and cash flows of the Bank were fairly presented in all material respects.

Focusing on fraud risk prevention and control, the Bank proactively identified, assessed, controlled and mitigated risks. In the first half of 2021, the Bank successfully prevented 77 external cases involving RMB50.9228 million.

Operational Risk Management

The Bank continuously improved its operational risk management system. It promoted the application of operational risk management tools, including Risk and Control Assessment (RACA), Key Risk Indicators (KRI) and Loss Data Collection (LDC), etc., to identify, assess and monitor operational risk, and further standardised its operational risk reporting mechanism, thus continuously improving its risk management measures. The Bank enhanced its IT system support capabilities by optimising its operational risk management information system. It strengthened its business continuity management system, optimised its operating mechanism, enhanced its business continuity policies, and performed business impact analysis. The Bank also refined contingency plans, carried out business continuity drills, proactively addressed the COVID-19 pandemic and improved the Group's business continuity capacity.

Compliance Management

The Bank continuously improved its compliance risk governance mechanism and management process to ensure the stable operation and sustainable development of the Group. It strengthened its anti-money-laundering (AML) and sanction compliance management mechanism, optimised AML resource allocation, and deepened monitoring and management. It further enhanced its system and model building and improved system functionality. The Bank continuously strengthened the establishment of a robust management framework for overseas compliance, improved its compliance risk assessment programme, refined relevant management policies, and enhanced the compliance management capabilities of its overseas institutions. It improved its AML and sanction compliance training management mechanism and conducted various forms of compliance training, so as to enhance all employees' compliance awareness and abilities.

The Bank enhanced the management of its connected transactions and internal transactions. It improved the management of connected parties and consolidated the foundation of its connected transaction management. It strengthened the routine monitoring and examination of connected transactions and strictly controlled their risks. In addition, it continuously strengthened its internal transaction management procedures and implemented internal transaction monitoring and reporting. It also improved its connected transaction monitoring system and internal transaction management system, and thereby enhanced IT applications in compliance management.

Country Risk Management

The Group incorporates country risk into its comprehensive risk management system in strict compliance with regulatory requirements. It manages and controls country risk through a series of management instruments, including country risk ratings, country risk limits, statistical measurement and monitoring of country risk exposures and provisioning of allowances, etc. In the first half of 2021, the Bank continued to strengthen country risk management in strict compliance with regulatory requirements and in line with its business development needs. It performed an annual review of country risk ratings and limits, and enhanced the monitoring and reporting of country risk exposures. For potentially high-risk countries and regions, it issued risk prompts in a timely manner and adopted a differentiated management approach. The Group's net exposure to country risks was mainly concentrated on countries and regions that have low and relatively low risk ratings, and its overall country risk remained at a reasonable level.

Capital Management

The Bank thoroughly applied the concepts of capital constraint and value creation, and improved its economic capital budgeting and assessment mechanism. It actively reinforced the construction of its capital management system and continuously refined its overall capital management. It also continually optimised its on- and off-balance sheet asset structure and strived to improve the endogenous capacity of its capital base. The Bank also seized market opportunities to advance its external capital replenishment. In the first half of 2021, it successfully issued RMB50.0 billion of undated capital bonds and RMB25.0 billion of tier 2 capital bonds, and redeemed RMB28.0 billion of domestic preference shares. As at 30 June 2021, the Group's capital adequacy ratio stood at 15.61%, reaching a relatively high level.

OUTLOOK

In the second half of 2021, the banking industry will continue to face a complicated operating environment. From an international perspective, the pandemic situation continues to evolve, and the external environment has become more complicated and serious. From a domestic perspective, China's economy has continued growing, reinforcing and improving steadily, as its development drivers have been further enhanced, but the nation's economic recovery remains unbalanced and its foundation is not yet solid.

The Bank will follow the general principle of pursuing progress while ensuring stability, ground its efforts in the new development stage, apply the new development philosophy, and serve the new development pattern. It will implement the 14th Five-Year Plan of the Group, carry out COVID-19 prevention and control, improve its business management, and strive to achieve high-quality development, ensuring a good start to the 14th Five-Year Plan period.

First, the Bank will take solid steps to implement the development pattern of “One Body with Two Wings” and improve its capabilities in serving the real economy. It will actively integrate into the overall development situation, give full play to its unique strengths, allocate more resources in serving the country's regional development strategy, and supporting for projects in key areas, thus further consolidating the crucial role of its domestic commercial banking business. It will actively respond to the changes in the post-pandemic era and accelerate the transformation of global business. It will also reinforce its strengths in comprehensive operation and continue to improve its value creation capabilities.

Second, the Bank will press ahead with the development of “Eight Priorities in Delivering Financial Services” to enhance its market competitiveness. It will fully integrate into the process of economic transformation, continue to focus on the development of technology finance, green finance, inclusive finance, cross-border finance, consumer finance, wealth finance, supply chain finance and county-level finance, actively serve new business patterns and new models, and foster new growth drivers.

Third, the Bank will advance the digital transformation on all fronts and improve its capability for digital development. It will deeply integrate into the development trends of the digital economy, comprehensively launch new digital infrastructures, deepen the scenario-based ecological construction, and fully leverage the role of product innovation to boost the all-round upgrading of its business management models.

Fourth, the Bank will strengthen comprehensive risk management and control and improve its capabilities in responding to major risks. It will improve its comprehensive risk management system as well as its risk management regimes and mechanisms. It will continue to strengthen asset quality management and vigorously implement NPL collection and mitigation. It will also carry out liquidity and market risk management in a forward-looking manner, and refine the early warning and disposal mechanisms for major risks in the financial market. In addition, the Bank will devote great efforts to internal control and case prevention management, and deepen AML and sanctions compliance management. It will also strengthen reputational risk management, thus continuously improving its brand image.

ENVIRONMENTAL AND SOCIAL RESPONSIBILITIES

The Bank continued to actively carry out its responsibilities as a state-owned commercial bank. Leveraging the competitive advantages arising from its global and comprehensive operations, it continually expanded and deepened its social responsibility practices, devoted itself to promoting win-win cooperation with stakeholders and created sustainable value for the environment, society and economy.

Centring on the overall objectives of China's rural revitalisation strategy, the Bank continued to increase resource inputs in order to meet various financial needs related to rural revitalisation, with a focus on key regions and weak links. It endeavoured to increase financial services coverage by setting up more service outlets and smart devices in rural areas, in order to boost rural revitalisation. As at 30 June 2021, BOC outlets covered 1,172 counties, with a coverage ratio of 62.34%. BOC Fullerton Community Bank, meanwhile, has cumulatively established 124 village banks and 184 sub-branch outlets. In the first half of 2021, the Bank continued to consolidate progress in poverty alleviation, providing more than RMB40.00 million of cost-free funding to the four targeted counties and implementing nearly 30 projects including assistance with key development industries and projects aimed at improving people's livelihood.

Upholding the principles of "serving society, contributing to society and repaying society", the Bank continued to carry out dedicated public welfare programmes. Through the "Bank of China Philanthropy" online fundraising platform, the Bank provided convenient, transparent and safe donation services for charities and the public. In the first half of 2021, the platform hosted a total of 104 fundraising activities on behalf of 48 charitable organisations, raising RMB1.81 million from 36.3 thousand donors. The Bank developed and popularised the "Bank of China Philanthropy Mutual Assistant Platform for Elderly Care", which serves as a bridge for information exchange between the elderly and volunteers, and helps the government to carry out the socialisation reform of elderly care. It continued to provide government-sponsored student loans to support education, cumulatively granting student loans of RMB24.7 billion to sponsor over 1.80 million financially underprivileged students to complete their studies as at 30 June 2021. It has sponsored the Tan Kah Kee Science Award for the 18th consecutive years, boosting the development of technology and the cultivation of innovative professional talents. As the official banking partner of the Olympic and Paralympic Winter Games Beijing 2022 (Beijing 2022 Games), the Bank promoted financial services to the winter sports industry and supported the joint development of winter sports and related industries among all sectors of society.

The Bank actively implemented the national green development concept and continued to support the building of the green finance sector, made contribution to peak carbon dioxide emissions and carbon neutrality. Guided by *Bank of China's Green Finance Plan during the 14th Five-Year Plan Period*, green development requirements are now being integrated into all areas of the Bank, including its organisational structure, corporate governance, policies and systems, product design and risk management processes. The Bank enhanced its top-level organisational structure by setting up a steering group for the planning and development of green finance and green industries, and by establishing the Green Finance Committee to provide overall leadership on green finance management and decision-making. It also continued to deepen innovation in green financial services, including green credit, green bonds, green deposits and green asset management, and remained committed to being the number one choice for green banking services. The Bank also actively participated in the green finance projects and initiatives of international organisations. It performed the role of Co-Chairman of the Task Force of Green Financial Product Innovation under the Green Investment Principles (GIP) for the Belt and Road Initiative, and was a member of the 2020/2021 Advisory Council of the Green Bond Principles and Social Bond Principles Executive Committee of the International Capital Market Association (ICMA). In the first half of 2021, the Bank became a supporter of the Task Force on Climate-related Financial Disclosures (TCFD), as well as joining and participating in the work of the Task Force on UK-China Climate and Environmental Information Disclosure Pilot and the Task Force on Support for Carbon Peak and Carbon Neutrality by the Chinese Banking Industry. Furthermore, it actively identified climate-related risks and opportunities, and formulated action plans in response to climate risks. At the same time, the Bank integrated low carbon and environmental protection requirements into its routine operations and practiced the development philosophy of “harmony and coexistence between humankind and nature” by encouraging employees to adopt green working practices and lifestyles and carrying out a diverse range of public welfare environmental protection campaigns.

Exercising Redemption Rights of Preference Shares

On 15 March 2021, the Bank redeemed all 280,000,000 shares of the Domestic Preference Shares (Second Tranche) issued on 13 March 2015. For details, please refer to the Bank’s announcements published on the websites of SSE, HKEX and the Bank.

Other Information regarding Preference Shares

During the reporting period, there was no conversion into ordinary shares or voting rights recovery in respect of the preference shares of the Bank.

Preference shares issued by the Bank contain no contractual obligation to deliver cash or another financial asset, or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavourable to the entity. Preference shares issued are non-derivative instruments that will be settled in the entity’s own equity instruments, but include no contractual obligation for the entity to deliver a variable number of its own equity instruments. The Bank classifies preference shares issued as an equity instrument. Fees, commissions and other transaction costs arising from preference shares issuance are deducted from equity. The dividends on preference shares are recognised as profit distribution at the time of declaration.

The funds raised from the issuance of preference shares have been fully used to replenish the Bank’s additional tier 1 capital and increase its capital adequacy ratio.

In the first half of 2021, the Bank deepened reform of its organisational structure and management mechanism based on the Group's strategies and annual priorities. Focusing on serving the real economy and overall national strategic development, the Bank improved the functional framework of key business areas such as technology finance, green finance and inclusive finance, and refined its regional management models and mechanisms in a bid to support the development of key regions. It accelerated its digital transformation by setting up the Financial Digitalisation Committee under the Executive Committee so as to strengthen the top-level design and overall management of its technology systems and the organisational support for e-CNY operations, thereby fully enhancing its digital service capabilities.

In the first half of 2021, with a focus on implementing the national policy of integrating production and education, forging ahead with the Group's strategies, and serving society and customers, BOC University continued to improve its governance and management mechanism for training, boosted the digital transformation of its training activities, and made great efforts to sharpen its basic training capabilities. BOC University supported strategy implementation and professional growth internally, and carried out key training programmes such as the "Programme for Faster Transformation of Leadership", "Experts' Lecture Hall", the "Global Programme for Young Innovative Personnel", and the "Study Festival for All Employees". In addition, BOC University served the national strategy of integrating production and education externally by delivering elite programmes such as the "School of Smart Government Services", "Rural Revitalisation School", and "Job Training for College Students". All these programmes were widely praised among employees of the Bank and the general public, illustrating BOC's characteristic advantages and increasing its brand influence. As at 30 June 2021, a total of 7,808,571 people had participated in various types of training, reaching a total online learning time of 5,134,465 hours.

The Bank vigorously strengthened its human resources, stimulated employee enthusiasm, intensified the cultivation of young professionals, and provide continuous training to its globalised and all-rounded talents. It constantly pushed forward the building of professional development pathways by optimising pathway sequencing, improving professional qualification management and further opening up professional development channels. Following national rural revitalisation strategies, the Bank selected and dispatched outstanding personnel to frontline outlets and areas facing challenging conditions, so as to support local economic development. Actively responding to the country's "employment-first" strategy, the Bank took the initiative to offer more new jobs, improved its recruitment policies and measures, and delivered more support to technicians, thus providing job opportunities for various personnel.

Corporate Governance

The Bank strictly follows the regulatory rules governing capital markets and industries, closely tracks changes and trends in overseas and domestic regulations and proactively explores innovative models and methods of corporate governance, so as to continuously enhance its corporate governance capabilities.

During the reporting period, the Bank further improved its corporate governance mechanisms. It conducted self-inspection on the implementation of the *Scheme on the Authorisation to the Board of Directors Granted by the Shareholders' Meeting of Bank of China Limited* and the *Measures of Authorisation to the President by the Board of Directors of Bank of China Limited*. The implementation was satisfactory with no approval in excess of authority identified.

The Board of Directors paid close attention to enhancing directors' continuing professional development, organised research activities and training for the directors and improved the communication mechanisms, thus continuously enhancing its decision-making efficiency and capability.

During the reporting period, the Bank continued to strengthen the protection of shareholders' rights, ensuring that shareholders are properly informed and entitled to participate and make decisions.

Corporate Governance Compliance

During the reporting period, the actual performance of the Bank's corporate governance was fully in compliance with the Company Law and the requirements for the governance of listed companies set out in the normative documents of CSRC.

During the reporting period, the Bank strictly observed the *Corporate Governance Code* (the "Code") as set out in Appendix 14 to the Hong Kong Listing Rules. The Bank has complied with all provisions of the *Code* and most of the recommended best practices set out in the *Code*.

Connected Transactions Control Committee	<p>The committee held one on-site meeting, at which it mainly reviewed and approved the report on the connected party list and other proposals. It also reviewed the report on connected transactions in 2020, among others.</p>

Supervisors and the Board of Supervisors

The Board of Supervisors currently comprises five members, with one shareholder supervisor (who serves as Chairman of the Board of Supervisors), two employee supervisors and two external supervisors.

Save as disclosed in this report, to the best knowledge of the Bank, information regarding the Bank's supervisors including their appointments during the reporting period is the same as that disclosed in the 2020 Annual Report of the Bank.

During the reporting period, the Board of Supervisors of the Bank performed its supervisory duties in accordance with the law, upheld the new development philosophy, proactively analysed and made judgements on trends and changes in the macro situation, focused on key issues, and took supervisory actions regarding the Bank's duty performance, strategies, finance, risk management and internal control. It performed day-to-day supervision over duty performance by conducting the 2020 duty performance assessment of the Board of Directors, the Senior Management and its members in an orderly manner. The Board of Supervisors enhanced and reinforced its strategic and financial supervision, focused on the Bank's progress towards the implementation of national strategies and carefully reviewed regular reports. At the same time, it intensified efforts to analyse risks in key areas, and issued prompt reminders to the Board of Directors, Senior Management and relevant departments, in order to further enhance its supervision over risk management and internal control. Taking an issue-oriented approach, the Board of Supervisors conscientiously carried out special supervisions and offered 14 supervision assessment opinions. In addition, the Board of Supervisors continuously tracked the progress of the Senior Management and relevant departments in addressing matters of concern raised at meetings of the Board of Supervisors and during inspections, thus strengthening the implementation of its regulatory opinions. Focusing on the Bank's priorities, it launched special surveys regarding various topics, including the effectiveness of comprehensive risk management and internal control, thereby facilitating improvement and development through supervision.

During the reporting period, the Board of Supervisors held two on-site meetings on 30 March and 29 April and one meeting via written resolutions on 26 February, at which it reviewed and approved proposals regarding the evaluation opinions of the Board of Supervisors on the duty performance of the Board of Directors, the Senior Management and its members for 2020, the performance evaluation results and remuneration distribution plan for external supervisors, the Bank's 2020 annual report, 2020 profit distribution plan, the supervision and evaluation opinions of the Board of Supervisors on the Bank's performance in consolidated management and stress test management, and the 2020 work report of the Board of Supervisors, among others. The Duty Performance and Due Diligence Supervision Committee held two on-site meetings and one meeting via written resolutions, and the Finance and Internal Control Supervision Committee held two on-site meetings and one meeting via written resolutions, at which the two committees carried out preliminary review of their respective issues of relevance and submitted them to the Board of Supervisors for review and approval.

During the reporting period, External Supervisors Mr. JIA Xiangsen and Mr. ZHENG Zhiguang performed their supervisory duties in strict accordance with the provisions of the Articles of Association of the Bank. Among others, Mr. JIA Xiangsen attended the 2020 Annual General Meeting, and was present at meetings of the Board of Directors and relevant committees as a non-voting attendee. He also attended two on-site meetings of the Board of Supervisors and one meeting via written resolutions, presided over two meetings of the Finance and Internal Control Supervision Committee of the Board of Supervisors, and participated in special surveys regarding the effectiveness of comprehensive risk management and internal control. Mr. ZHENG Zhiguang attended the 2020 Annual General Meeting, and was present at meetings of the Board of Directors and relevant committees as a non-voting attendee. He also attended two on-site meetings of the Board of Supervisors and one meeting via written resolutions, two meetings of the Duty Performance and Due Diligence Supervision Committee of the Board of Supervisors, two meetings of the Finance and Internal Control Supervision Committee and participated in special surveys regarding the effectiveness of comprehensive risk management and internal control. During the reporting period, the two external supervisors expressed opinions independently and objectively, and put forward suggestions on strategy management, business development, risk management and internal control, thus playing an active role in promoting the improvement of the Bank's corporate governance and management quality.

Senior Management

During the reporting period, the Senior Management of the Bank managed the Bank's operations in accordance with the powers bestowed upon it by the Articles of Association and the authorisations of the Board of Directors. Closely adhering to the strategic goal of "Building a First-class Global Banking Group" and to the annual performance objectives approved by the Board of Directors, the Senior Management emphasised on invigorating, adapting to change and driving for major breakthroughs. It accelerated the implementation of various tasks within the Bank's development strategy, thus realising steady improvement in the business performance of the Group.

During the reporting period, the Senior Management of the Bank held 11 regular meetings, at which it focused on key operational areas and discussed and decided upon a series of significant matters, including the Group's business development, performance management, risk management, audit supervision, IT development, product and service innovation, integrated operation, globalised development, inclusive finance and scenario development. It also held special meetings to study and make plans for the Group's corporate banking, personal banking, financial markets, channel building, smart operations, compliance management and data governance.

During the reporting period, the Senior Management (Executive Committee) established an additional committee — namely the Financial Digitalisation Committee, which has assumed relevant responsibilities of the former IT Management Committee and the Internet Finance Committee, and has taken charge of overall management and decision-making regarding digitalisation, fintech, data governance, etc. As at 30 June 2021, the Senior Management presided over the Asset and Liability Management Committee, the Risk Management and Internal Control Committee (which governs the Anti-money Laundering Committee, the Asset Disposal Committee and the Credit Risk Management and Decision-making Committee), the Procurement Review Committee, the Securities Investment and Management Committee, the Innovation and Product Management Committee, the Integrated Operation Coordination Committee, the Asset Management Business Committee, the Consumer Protection Committee, the Domestic Branch Development and Coordination Committee, the Green Finance Management Committee, the Overseas Work Coordination Committee and the Financial Digitalisation Committee. During the reporting period, all of the committees diligently fulfilled their duties and responsibilities as per the powers specified in their committee charters and the rights delegated by the Executive Committee, and pushed forward the sound development of the Bank's various operations.

Implementation of Stock Incentive Plan and Employee Stock Ownership Plan

The Bank approved a long-term incentive policy, including the Management Stock Appreciation Rights Plan and the Employee Stock Ownership Plan, at the Board meeting and the Extraordinary General Meeting held in November 2005. To date, the Management Stock Appreciation Rights Plan and the Employee Stock Ownership Plan have not been implemented.

Significant Events

Formulation and Implementation of Profit Distribution Policy

Ordinary Shares

The Articles of Association of the Bank states that the Bank should maintain the continuity and stability of its profit distribution policy. It also clarifies the Bank's profit distribution principles, policy and adjustment procedures, the consideration process of the profit distribution plan and other matters. The Articles of Association states that the Bank shall adopt cash dividend as the priority form of profit distribution. Except under special circumstances, the Bank shall adopt cash as the form of dividend distribution where there is profit in that year and the accumulated undistributed profit is positive, and that the cash distribution of the dividend shall not be less than 10% of the profit after tax attributable to the ordinary shareholders of the Bank. The Articles of Association also states that the Bank shall offer online voting to shareholders when considering amendments to the profit distribution policy and profit distribution plan.

The Bank considered and approved the *Shareholder Return Plan for 2018 to 2020* at the 2019 First Extraordinary General Meeting on 4 January 2019, specifying the basic principles, shareholder return plan and decision-making and supervisory mechanisms regarding the formulation, implementation and amendment of the shareholder return of the Bank.

The procedure to formulate the aforementioned profit distribution policy was compliant and transparent, and the decision procedure was complete. The criterion and ratio of the dividend were explicit and clear. The independent directors fully expressed their opinions and the legitimate rights and interests of minority shareholders were fully respected and protected. In these respects, the formulation of the policy was in line with the provisions of the Articles of Association and other rules and regulations.

The profit distribution plan for ordinary shares of the Bank shall be approved by the shareholders' meeting. In the first half of 2021, the Bank distributed dividends on ordinary shares for 2020 in strict compliance with the Articles of Association, its dividend distribution policy and the shareholders' meeting resolution on profit distribution.

Preference Shares

The preference shareholders of the Bank receive dividend at the specified dividend rate prior to the ordinary shareholders. The Bank shall pay the dividend to the preference shareholders in cash. The Bank shall not distribute the dividends on ordinary shares before all the dividends of preference shares have been paid.

Dividend on the Bank's preference shares will be distributed on an annual basis. Once the preference shareholders have received dividends at the specified dividend rate, they shall not be entitled to participate in the distribution of the remaining profits of the Bank together with the ordinary shareholders.

The preference share dividend is non-cumulative. If any preference share dividend for any dividend period is not paid in full, such remaining amount of dividend shall not be carried forward to the following dividend year. The Bank shall be entitled to cancel the payment of any dividend on the preference shares, and such cancellation shall not constitute a default. The Bank may at its discretion use the funds arising from the cancellation of such dividend payment to repay other indebtedness due and payable.

Dividend payments are independent of the Bank's credit rating, nor do they vary with the credit rating.

In the first half of 2021, the Bank distributed dividends on preference shares in strict compliance with the Articles of Association, the terms of issuance of preference shares and the Board of Directors' resolutions on dividend distribution.

Profit Distribution during the Reporting Period

The 2020 Annual General Meeting held on 20 May 2021 considered and approved the Bank's profit distribution plan as follows: appropriation to statutory surplus reserve of RMB18.677 billion; appropriation to general and regulatory reserves of RMB17.881 billion; no appropriation to the discretionary reserve; considering the Bank's business performance, financial position, and the capital requirements for the future development of the Bank, RMB1.97 per ten shares (before tax) was proposed to be distributed as cash dividends on ordinary shares to A-Share Holders and H-Share Holders whose names appeared on the register of members of the Bank as at market close on 3 June 2021, amounting to approximately RMB57.994 billion (before tax) in total. The dividend distribution plan has been accomplished. The Bank did not distribute an interim dividend on ordinary shares for 2021, nor did it implement any capitalisation of capital reserve into share capital.

At the Board meeting held on 30 August 2020, the dividend distribution plan for the Bank's Domestic Preference Shares (Second Tranche) was approved. The Bank distributed a total of RMB1.540 billion (before tax) of dividends on the Domestic Preference Shares (Second Tranche) on 15 March 2021, with an annual dividend rate of 5.50% (before tax). The dividend distribution plan has been accomplished.

At the Board meeting held on 30 October 2020, the dividend distribution plan for the Bank's Offshore Preference Shares (Second Tranche) was reviewed and approved. According to the Bank's terms of issuance of the Offshore Preference Shares (Second Tranche), dividends on Offshore Preference Shares (Second Tranche) were paid in US dollars. The Bank distributed a total of approximately USD102 million (after tax) of dividends on the Offshore Preference Shares (Second Tranche) on 4 March 2021, with an annual dividend rate of 3.60% (after tax). The dividend distribution plan has been accomplished.

At the Board meeting held on 29 April 2021, the dividend distribution plans for the Bank's Domestic Preference Shares (Third Tranche and Fourth Tranche) were reviewed and approved. The Bank distributed a total of RMB3.285 billion (before tax) of dividends on the Domestic Preference Shares (Third Tranche) on 28 June 2021, with an annual dividend rate of 4.50% (before tax). The dividend distribution plan has been accomplished. The Bank distributed a total of RMB1.1745 billion (before tax) of dividends on the Domestic Preference Shares (Fourth Tranche) on 30 August 2021, with an annual dividend rate of 4.35% (before tax). The dividend distribution plan has been accomplished.

Audit Committee

The Audit Committee of the Bank comprises seven members, including Non-executive Directors Mr. ZHAO Jie and Mr. ZHANG Jiangang, Independent Directors Mr. WANG Changyun, Ms. Angela CHAO, Mr. JIANG Guohua, Mr. Martin Cheung Kong LIAO and Mr. CHUI Sai Peng Jose. Independent Director Mr. JIANG Guohua serves as the Chairman of the committee. Following the principle of independence, the committee assists the Board of Directors in supervising the financial reports, internal control, internal audit and external audit of the Group.

The Audit Committee has reviewed the interim results of the Bank. The external auditor of the Bank has reviewed the interim report in accordance with *International Standards on Review Engagements No. 2410*. The committee has considered the financial statements in light of accounting standards, accounting policies and practices, internal control and financial reporting.

Appointment of External Auditors

The Bank engaged PricewaterhouseCoopers Zhong Tian LLP as the Bank's domestic auditor and internal control external auditor for 2021 to provide audit services on its financial statements and internal control pursuant to CAS and engaged PricewaterhouseCoopers as its international auditor for 2021 to provide audit services on financial statements pursuant to IFRS.

Directors' and Supervisors' Rights to Acquire Shares

During the reporting period, none of the Bank, its holding companies, or any of its subsidiaries or fellow subsidiaries was party to any arrangements that would enable the Bank's directors and supervisors or their respective spouses or children below the age of 18, to benefit by acquiring shares in, or debentures of, the Bank or any other legal entity.

Directors' and Supervisors' Interests in Shares, Underlying Shares and Debentures

To the best knowledge of the Bank, as at 30 June 2021, none of the directors or supervisors of the Bank or their respective associates had any interests or short positions in the shares, underlying shares or debentures of the Bank or any of its associated corporations (within the meaning of Part XV of the SFO) as recorded in the register required to be kept by the Bank pursuant to Section 352 of the SFO or as otherwise notified to the Bank and the Hong Kong Stock Exchange pursuant to the *Model Code for Securities Transactions by Directors of Listed Issuers* (the "*Model Code*") as set out in Appendix 10 of the Hong Kong Listing Rules.

Securities Transactions by Directors and Supervisors

Pursuant to domestic and overseas securities regulatory requirements, the Bank formulated and implemented the *Management Measures on Securities Transactions by Directors, Supervisors and Senior Management Personnel of Bank of China Limited* (the "*Management Rules*") to govern securities transactions by the directors, supervisors and senior management members of the Bank. The terms of the *Management Rules* are more stringent than the mandatory standards set out in the *Model Code*. All the directors and supervisors of the Bank have confirmed that they have complied with the standards set out in both the *Management Rules* and the *Model Code* throughout the reporting period.

Consumer Rights Protection

The Bank attaches great importance to and makes active efforts towards the protection of consumer rights and interests, strictly implements national laws and regulations on consumer rights protection, and protects the legitimate rights and interests of financial consumers according to relevant laws and rules. It has set up the Corporate Culture and Consumer Protection Committee under the Board of Directors to take charge of the overall planning and guidance of the Group's corporate culture building and consumer rights protection.

In the first half of 2021, adhering to an issue-oriented approach to consumer rights protection, the Bank continued to steadily advance various core fundamental tasks and strengthened its forward-looking and trend-focused research. It further improved the construction of systems and mechanisms and reinforced empowerment in mechanism, IT, brand and management. Through empowerment, it ensured that there were adequate levels of attention, resources, responsibilities, organisation structure, services, compliance, promotion, and supervision for consumer protection. By intensifying its implementation efforts, the Bank strived to achieve breakthroughs in key fields.

In terms of policy formulation, the Bank formulated and issued the *Guidelines on the Management of Consumer Financial Marketing and Publicity* based on relevant regulatory regulations and typical scenarios, in order to standardise the management requirements for consumer financial marketing and specify the management framework and code of conduct for marketing and publicity campaigns aimed at personal consumers.

Report on Review of Interim Financial Information

To the Board of Directors of Bank of China Limited

(incorporated in the People's Republic of China with limited liability)

Introduction

We have reviewed the interim financial information set out on pages 92 to 203, which comprises the condensed consolidated interim statement of financial position of Bank of China Limited (the “Bank”) and its subsidiaries (together, the “Group”) as at 30 June 2021 and the condensed consolidated interim income statement, the condensed consolidated interim statement of comprehensive income, the condensed consolidated interim statement of changes in equity and the condensed consolidated interim statement of cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes (the “Interim Financial Information”). The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and International Accounting Standard 34 “Interim Financial Reporting”. The directors of the Bank are responsible for the preparation and presentation of this interim financial information in accordance with International Accounting Standard 34 “Interim Financial Reporting”. Our responsibility is to express a conclusion on this interim financial information based on our review and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information of the Group is not prepared, in all material respects, in accordance with International Accounting Standard 34 “Interim Financial Reporting”.

**NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION
FOR THE SIX MONTH PERIOD ENDED 30 JUNE 2021**

(Amounts in millions of Renminbi, unless otherwise stated)

I BASIS OF PREPARATION AND PRINCIPAL ACCOUNTING POLICIES

The unaudited condensed consolidated interim financial information for the six month period ended 30 June 2021 has been prepared in accordance with International Accounting Standard “34 Interim Financial Reporting” (“IAS 34”) and should be read in conjunction with the Group’s consolidated financial statements for the year ended 31 December 2020.

Except as described below, the principal accounting policies adopted in the preparation of the unaudited condensed consolidated interim financial information are consistent with those used in the Group’s consolidated financial statements for the year ended 31 December 2020.

1 Standards and amendments effective in 2021 relevant to and adopted by the Group

On 1 January 2021, the Group has adopted the following International Financial Reporting Standards (“IFRSs”) and amendments issued by the International Accounting Standards Board (“IASB”), which were mandatorily effective for the current interim period.

IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 Amendments Interest Rate Benchmark Reform (“IBOR Reform”) — Phase 2

The IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 — Phase 2 amendments address issues that arise upon replacing the existing interest rate benchmark with the alternative interest rates and introduces additional disclosure requirements. The Phase 2 Amendments provide two key reliefs:

- (1) for instruments measured using amortised cost measurement, the amendments provide a practical expedient to account for these changes in the basis for determining contractual cash flows as a result of IBOR Reform. Under the practical expedient, entities will account for these changes by updating the effective interest rate using the guidance in paragraph B5.4.5 of IFRS 9 without the recognition of an immediate gain or loss. This practical expedient applies only to such a change and only to the extent that it is necessary as a direct consequence of IBOR Reform, and the new basis for determining the contractual of cash flows is economically equivalent to the previous basis.
- (2) the amendments also provide additional temporary reliefs from applying specific IAS 39 and IFRS 9 hedge accounting requirements to hedging relationships directly affected by IBOR Reform.

I BASIS OF PREPARATION AND PRINCIPAL ACCOUNTING POLICIES (Continued)

2 Standards and amendments that were early adopted by the Group in 2021

Amendment to IFRS 16 Leases — COVID-19 related rent concessions extension of the practical expedient

In May 2020, the IASB published an amendment to IFRS 16 that provided an optional practical expedient for lessees to assess whether a rent concession due on or before 30 June 2021 related to COVID-19 is a lease modification. In March 2021, the IASB published an additional amendment to extend the date of the rent concession from 30 June 2021 to 30 June 2022. The amendment is effective for annual reporting periods beginning on or after 1 April 2021 with earlier application permitted. The Group has early adopted this amendment for the current interim period.

The adoption of the above standards and amendments does not have any significant impact on the operating results, financial position and comprehensive income of the Group for the six month period ended 30 June 2021.

BANK OF CHINA LIMITED

(Amounts in millions of Renminbi, unless otherwise stated)

3 Standards and amendments relevant to the Group that are not yet effective in the current interim period and have not been adopted before their effective dates by the Group

		Effective for annual periods beginning on or after
(1)	IFRS 3 Amendments <i>Business Combination</i>	1 January 2022
(2)	IAS 16 Amendments <i>Property, Plant and Equipment: Proceeds before Intended Use</i>	1 January 2022
(3)	IAS 37 Amendments <i>Onerous Contracts — Cost of Fulfilling a Contract</i>	1 January 2022
(4)	Annual Improvements to IFRSs 2018–2020 Cycle (issued in May 2020) <i>Minor Amendments to IFRS 1, IFRS 9, IAS 41 and IFRS 16</i>	1 January 2022
(5)	IAS 1 Amendments <i>Classification of Liabilities as Current or Non-current</i>	1 January 2023
(6)	IFRS 17 and Amendments <i>Insurance Contracts</i>	1 January 2023
(7)	IAS 1 and IFRS Practice Statement 2 Amendments <i>Disclosure of Accounting Policies</i>	1 January 2023
(8)	IAS 8 Amendments <i>Definition of Accounting Estimates</i>	1 January 2023

**III NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL
INFORMATION (Continued)****9 Income tax expense (Continued)**

The tax rate on the Group's profit before tax differs from the theoretical amount that would arise using the basic Chinese mainland tax rate of the Bank as follows:

	Six month period ended 30 June	
	2021	2020
Profit before income tax	148,302	129,616
Tax calculated at the applicable statutory tax rate	37,076	32,404
Effect of different tax rates for Hong Kong, Macao, Taiwan and other countries and regions	(2,417)	(2,294)
Supplementary PRC tax on overseas income	2,014	1,253
Income not subject to tax ⁽¹⁾	(14,792)	(14,296)
Items not deductible for tax purposes ⁽²⁾	8,450	6,262
Other	(576)	(1,525)
Income tax expense	<u>29,755</u>	<u>21,804</u>

(1) Income not subject to tax mainly comprises interest income from PRC treasury bonds and Chinese local government bonds, and the tax-free income recognised by the overseas entities in accordance with the relevant local tax law.

(2) Non-deductible items primarily include non-deductible losses resulting from write-off of certain non-performing loans, and marketing and entertainment expenses in excess of the relevant deductible threshold under the relevant PRC tax regulations.

INFORMATION (Continued)****10 Earnings per share (basic and diluted)**

Basic earnings per share was computed by dividing the profit attributable to the ordinary shareholders of the Bank by the weighted average number of ordinary shares in issue during the period.

Diluted earnings per share was computed by dividing the adjusted profit attributable to the ordinary shareholders of the Bank based on assuming conversion of all potentially dilutive shares for the six month period by the adjusted weighted average number of ordinary shares in issue. There was no difference between basic and diluted earnings per share as there were no potentially dilutive shares outstanding for the six month periods ended 30 June 2021 and 30 June 2020.

15 Derivative financial instruments

The Group enters into foreign currency exchange rate, interest rate, equity, credit or precious metals and other commodity-related derivative financial instruments for trading, hedging, asset and liability management and customer initiated transactions.

The contractual/notional amounts and fair values of derivative instruments held by the Group are set out in the following tables. The contractual/notional amounts of derivative financial instruments provide a basis for comparison with the fair values of instruments recognised in the statement of financial position but do not necessarily indicate the amounts of future cash flows involved or the current fair value of the instruments and, therefore, do not indicate the Group's exposure to credit or market risks. The derivative instruments become favourable (assets) or unfavourable (liabilities) as a result of fluctuations in market interest rates, foreign currency exchange rates, credit spreads, or equity/commodity prices relative to their terms. The aggregate fair values of derivative financial assets and liabilities can fluctuate significantly from time to time.

26 Other equity instruments (Continued)

- (1) With the approvals by the relevant regulatory authorities in China, the Bank fully redeemed 280 million Domestic Preference Shares (Second Tranche) on 15 March 2021. The Bank fully paid the nominal value of the Domestic Preference Shares and the dividends declared, totalling RMB29,540 million.
- (2) Save for such dividend at the agreed dividend payout ratio, the holders of the above preference shares shall not be entitled to share in the distribution of the remaining profits of the Bank together with the holders of the ordinary shares. The above preference shares bear non-cumulative dividend. The Bank shall be entitled to cancel any dividend on the preference shares, and such cancellation shall not constitute a default. However, the Bank shall not distribute profits to ordinary shareholders until resumption of full payment of dividends on the preference shares. Upon the occurrence of a trigger event for the compulsory conversion of preference shares into ordinary shares per agreement, the Bank shall convert the preference shares into ordinary shares in whole or in part after reporting to the China Banking and Insurance Regulatory Commission (the “CBIRC”) for its examination and approval decision.

Capital raised from the issuance of the above preference shares, after deduction of transaction costs, was fully used to replenish the Bank’s additional tier 1 capital and to increase its capital adequacy ratio.

- (3) With the approvals by the relevant regulatory authorities in China, the Bank issued RMB50,000 million write-down undated capital bonds in the Chinese mainland interbank bond market on 17 May 2021 and completed the issuance on 19 May 2021. The denomination of the bonds is RMB100 each, and the annual interest rate of the bonds for the first five years is 4.08%, which is reset every 5 years.

The Bank may redeem the bonds in whole or in part on each distribution payment date after 5 years from the issuance date of the bonds, subject to the satisfaction of the redemption conditions and prior approval by the CBIRC. As stipulated in “Bank of China Limited 2021 undated Capital Bonds (Series 1) Offering Circular”, upon the occurrence of a trigger event for write-downs with the consent of the CBIRC, the Bank has the right to write down all or part of the total par value of the bonds that are already issued and outstanding. This does not require prior consent by the bondholders. The claims of the holders of the bonds will be subordinated to the claims of depositors, general creditors and subordinated indebtedness that ranks senior to the bonds; will rank in priority to all classes of shares held by the Bank’s shareholders and rank pari passu with the claims in respect of any other additional tier 1 capital instruments of the Bank that rank pari passu with the bonds.

- (4) The bonds bear non-cumulative interest and the Bank shall have the right to cancel distributions on the bonds in whole or in part and such cancellation shall not constitute a default. The Bank may at its discretion utilise the proceeds from the cancelled distributions to meet other obligations of maturing debts. The Bank shall not distribute profits to ordinary shareholders until the resumption of full interest payment to the holders of the bonds.

Capital raised from the issuance of the bonds, after deduction of transaction costs, was fully used to replenish the Bank’s additional tier 1 capital and to increase its capital adequacy ratio.

28 Contingent liabilities and commitments

28.1 Legal proceedings and arbitrations

As at 30 June 2021, the Group was involved in certain litigation and arbitration cases in the regular course of its business. In addition, in terms of the range and scale of its international operations, the Group may face a variety of legal proceedings within different jurisdictions. As at 30 June 2021, provisions of RMB704 million (31 December 2020: RMB725 million) were made based on court judgements or the advice of counsel (Note III.25). After consulting legal professionals, the senior management of the Group believes that at the current stage these legal proceedings and arbitrations will not have a material impact on the financial position or operations of the Group.

28.2 Assets pledged

Assets pledged by the Group as collateral mainly for placement, repurchase, short positions, derivative transactions with other banks and financial institutions and for local statutory requirements are set forth in the table below. These transactions are conducted under standard and normal business terms.

28.5 Treasury bonds redemption commitments

The Bank is entrusted by the Ministry of Finance of the People's Republic of China (the "MOF") to underwrite certain treasury bonds. The investors of these treasury bonds have a right to redeem the bonds at any time prior to maturity and the Bank is committed to redeem these treasury bonds. The MOF will not provide funding for the early redemption of these treasury bonds on a back-to-back basis but will pay interest and repay the principal at maturity. The redemption price is the principal value of the bonds plus unpaid interest in accordance with the early redemption arrangement.

As at 30 June 2021, the outstanding principal value of the treasury bonds sold by the Bank under obligation to redeem prior to maturity amounted to RMB54,547 million (31 December 2020: RMB55,597 million). The original maturities of these treasury bonds vary from 3 to 5 years and management expects the amount of redemption through the Bank prior to the maturity dates of these bonds will not be material.

31 Segment reporting

The Group manages the business from both geographic and business perspectives. From the geographic perspective, the Group operates in three principal regions: Chinese mainland; Hong Kong, Macao and Taiwan; and other countries and regions. From the business perspective, the Group provides services through six main business segments: corporate banking, personal banking, treasury operations, investment banking, insurance and other operations.

Measurement of segment assets, liabilities, income, expenses, results and capital expenditure is based on the Group's accounting policies. The segment information presented includes items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Funding is provided to and from individual business segments through treasury operations as part of the asset and liability management process. The pricing of these transactions is based on market rates. The transfer price takes into account the specific features and maturities of the products. Internal transactions are eliminated on consolidation. The Group regularly examines the transfer price and adjusts the price to reflect current situation.

Geographical segments

Chinese mainland — Corporate banking, personal banking, treasury operations and insurance services, etc. are performed in Chinese mainland.

Hong Kong, Macao and Taiwan — Corporate banking, personal banking, treasury operations, investment banking and insurance services are performed in Hong Kong, Macao and Taiwan. The business of this segment is centralised in BOC Hong Kong (Group) Limited (“BOCHK Group”).

Other countries and regions — Corporate and personal banking services are provided in other countries and regions. Significant locations include New York, London, Singapore and Tokyo.

32 Transfers of financial assets

The Group enters into transactions in the normal course of business by which it transfers recognised financial assets to third parties or to special purpose entities. In some cases where these transferred financial assets are qualified for derecognition, the transfers may give rise to full or partial derecognition of the financial assets concerned. In other cases where the transferred assets are not qualified for derecognition as the Group has retained substantially all the risks and rewards of these assets, the Group continued to recognise the transferred assets.

Repurchase agreements

Transferred financial assets that do not qualify for derecognition mainly include debt securities held by counterparties as collateral under repurchase agreements. The counterparties are allowed to sell or re-pledge those securities in the absence of default by the Group, but have an obligation to return the securities upon maturity of the contract. If the value of securities increases or decreases, the Group may in certain circumstances require counterparties or be required by counterparties to pay additional cash collateral. The Group has determined that the Group retains substantially all the risks and rewards of these securities and therefore has not derecognised them. In addition, the Group recognises a financial liability for cash received.

The following table analyses the carrying amount of the above-mentioned financial assets transferred to third parties that were not qualified for derecognition and their associated financial liabilities:

	As at 30 June 2021		As at 31 December 2020	
	Carrying amount of transferred assets	Carrying amount of associated liabilities	Carrying amount of transferred assets	Carrying amount of associated liabilities

Credit asset transfers

The Group enters into credit asset transfers in the normal course of business during which it transfers credit assets to special purpose entities which in turn issue asset-backed securities or fund shares to investors. The Group may acquire certain of these asset-backed securities and fund shares at the subordinated tranche level, and accordingly, may retain parts of the risks and rewards of the transferred credit assets. The Group would determine whether or not to derecognise the associated credit assets by evaluating the extent to which it retains the risks and rewards of the assets.

With respect to the credit assets that were securitised and qualified for derecognition, the Group derecognised the transferred credit assets in their entirety. The corresponding total carrying amount of asset-backed securities held by the Group in the securitisation transactions was RMB638 million as at 30 June 2021 (31 December 2020: RMB760 million), which also approximates the Group's maximum exposure to loss.

For those in which the Group has neither transferred nor retained substantially all the risks and rewards of the transferred credit assets, and retained control of the credit assets, the transferred credit assets are recognised in the statement of financial position to the extent of the Group's continuing involvement. For the six month period ended 30 June 2021, the corresponding total carrying amount of asset-backed securities held by the Group in the securitisation transactions was RMB33,434 million (six month period ended 30 June 2020: Nil) and the carrying amount of assets that the Group continues to recognise in the statement of financial position was RMB19,590 million as at 30 June 2021 (31 December 2020: RMB15,244 million).

33 Interests in the structured entities

The Group is principally involved with structured entities through financial investments, asset management and credit asset transfers. These structured entities generally finance the purchase of assets by issuing securities or by other means. The Group determines whether or not to consolidate these structured entities depending on whether the Group has control over them.

INFORMATION (Continued)**

33 Interests in the structured entities (Continued)

33.1 Interests in the unconsolidated structured entities

The interests held by the Group in the unconsolidated structured entities are mainly set out below:

Structured entities sponsored by the Group

In conducting the asset management business in Chinese mainland, the Group established various structured entities to provide customers with specified investment opportunities within well-defined objectives, including wealth management products, publicly offered funds and asset management plans. The Group earned management fee, commission and custodian fee in return.

As at 30 June 2021, the balance of the above unconsolidated wealth management products sponsored by the Group amounted to RMB1,413,726 million (31 December 2020: RMB1,388,904 million). The balance of unconsolidated publicly offered funds and asset management plans sponsored by the Group amounted to RMB489,068 million (31 December 2020: RMB486,880 million).

For the six month period ended 30 June 2021, the above-mentioned commission, custodian fee and management fee earned by the Group amounted to RMB5,644 million (six month period ended 30 June 2020: RMB3,778 million).

As at 30 June 2021, the balance of interest and commission receivable held by the Group in the above-mentioned structured entities was not material. For the purpose of asset-liability management, wealth management products may require short-term financing from the Group and other banks. The Group is not contractually obliged to provide financing. After internal risk assessment, the Group may enter into repurchase and placement transactions with these wealth management products in accordance with market principles. For the six month period ended 30 June 2021, the maximum balance of such financing provided by the Group to the unconsolidated wealth management products was RMB52,516 million (six month period ended 30 June 2020: RMB132,205 million). Such financing provided by the Group was included in “Placements with and loans to banks and other financial institutions”. As at 30 June 2021, the balance of the above transactions was RMB52,516 million (31 December 2020: RMB18,580 million). The maximum exposure to loss of those placements approximated to their carrying amount.

III NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION (Continued)

33 Interests in the structured entities (Continued)

33.2 Consolidated structured entities

The Group's consolidated structured entities mainly consist of open-end funds, private equity funds, trusts for asset-backed securities, and special-purpose companies. The Group controls these entities because the Group has power over, is exposed to, or has rights to variable returns from its involvement with these entities and has the ability to use its power over these entities to affect the amount of the Group's returns. Except for providing financial guarantees for the companies established solely for financing purposes, the Group does not provide financial or other support to the other consolidated structured entities.

34 Comparative figures

Certain comparative figures have been adjusted to conform with presentation and disclosure in the current period. The group has recognised income and expenses arising from credit card instalment business as interest income in the current period, therefore the comparative figures were adjusted accordingly.

35 Events after the financial reporting date

The Bank would invest to establish a wholly-owned tier-1 subsidiary, Bank of China (Macau) Limited (the "Macau Subsidiary"), with a total capital contribution of MOP13 billion. As of the release date of this interim report, the Bank has received the approval of the CBIRC and the permission of China Macau SAR Government for the establishment of Macau Subsidiary.

1.1 Loans and advances (Continued)

(3) Loans and advances rescheduled

Rescheduling is a voluntary or, to a limited extent, court-supervised procedure, through which the Group and a borrower and/or its guarantor, if any, rescheduled credit terms as a result of deterioration in the borrower's financial condition or of the borrower's inability to make payments when due. The Group reschedules a non-performing loan only if the borrower has good prospects. In addition, when approving the rescheduling of loans, the Group requires additional guarantees, pledges and/or collateral depending on the circumstances, or the assumption of the loan by a borrower with better repayment ability.

Rescheduled loans are subject to a surveillance period of six months. During the surveillance period, rescheduled loans remain as non-performing loans and the Group monitors the borrower's business operations and loan repayment patterns. After the surveillance period, rescheduled loans may be upgraded to "Special-mention" upon review if certain criterion are met. If the rescheduled loans fall overdue or if the borrowers are unable to demonstrate their repayment ability, these loans will be reclassified to "Doubtful" or below. All rescheduled loans within the surveillance period were determined to be impaired as at 30 June 2021 and 31 December 2020.

As at 30 June 2021 and 31 December 2020, within impaired loans and advances, rescheduled loans and advances that were overdue for 90 days or less were insignificant.

1.3 Measurement of ECLs

The Group conducted an assessment of ECLs according to forward-looking information and used a number of models and assumptions in its measurement of expected credit losses. These models and assumptions relate to the future macroeconomic conditions and debtors creditworthiness (e.g., the likelihood of default by debtors and the corresponding losses). The Group's assessment of ECLs on 30 June 2021 considered the impact of changes in the current economic environment on the ECL model, including: the debtor's operation or financial status, and the extent of the impact of the COVID-19 pandemic, the Group has granted deferred repayment and interest payment arrangements to some debtors affected by the pandemic, but a deferred principal and interest payment arrangement was not intended to be a judgment basis for automatically triggering a significant increase in the debtor's credit risk; specific industry risks affected by the pandemic; forward-looking forecasts on performance of key macroeconomic indicators based on the impact of the COVID-19 pandemic, among other factors, on economic development trends.

Based on the analysis of historical data, the Group identifies the key macroeconomic indicators that affect the credit risk and ECL of various business types, such as GDP, Investment in fixed assets, PPI, Home price index, CPI.

The specific value of the core macroeconomic indicator used by the Group to evaluate expected credit losses as at 30 June 2021 was as follows:

Indicator	Number
YoY Growth Rate of China's GDP in 2021	8.80%

The Group updates the forecast values of key macroeconomic indicators and determines the impact of these economic indicators on the PD and the LGD by conducting regression analysis. Except for the changes, the judgments, assumptions and estimates used in the ECL measurement are consistent with those in 2020.

As at 30 June 2021, the expected credit losses reflected the Group's credit risk and the expectations for macroeconomic development of management.

1.4 Derivatives

The risk-weighted assets for counterparty credit risk (“CCR”) of derivatives of the Group are calculated in accordance with the *Capital Rules for Commercial Banks (Provisional)* and the *Assets Measurement Rules for Counterparty Default Risks of Derivatives* and other relevant regulations under the advanced capital management approaches. For derivative transactions, risk-weighted assets for CCR include the risk-weighted assets for default risk, the risk-weighted assets for credit valuation adjustment (“CVA”) and the risk-weighted assets for central counterparties (“CCPs”).

The risk-weighted assets for CCR of derivatives are as follows:

2 Market risk

2.1 Market risk measurement techniques and limits

(1) Trading book

For the purpose of market risk management in the trading book, the Group monitors trading book Value at Risk (VaR) limits, stress testing results and exposure limits and tracks each trading desk and dealer's observance of each limit on a daily basis.

VaR is used to estimate the potential largest loss arising from adverse market movements in a specific holding period and within a certain confidence level.

VaR is performed separately by the Bank and its major subsidiaries that are exposed to market risk, Bank of China Hong Kong (Holdings) Limited ("BOCHK (Holdings)") and BOC International Holdings Limited ("BOCI"). The Bank, BOCHK (Holdings) and BOCI used a 99% level of confidence (therefore, statistical probability of 1% that actual losses could be greater than the VaR estimate) and a historical simulation model to calculate the VaR estimate. The holding period of the VaR calculations is one day. To enhance the Group's market risk management, the Group has established the market risk data mart, which enabled a group level trading book VaR calculation on a daily basis.

The accuracy and reliability of the VaR model is verified by daily back-testing of the VaR results in the trading book. The back-testing results are regularly reported to senior management.

The Group utilises stress testing as an effective supplement to the trading book VaR analysis. Stress testing scenarios are performed based on the characteristics of trading transactions to simulate and estimate losses in adverse and exceptional market conditions. To address changes in the financial markets, the Group enhances its market risk identification capabilities by continuously modifying and improving the trading book stress testing scenarios and measurement methodologies in order to capture the potential impact to transaction market prices stemming from changes in market prices and volatility.

(i) BOCI monitors its trading VaR for equity derivatives unit, fixed income unit and global commodity unit separately, which include equity risk, interest rate risk, foreign exchange risk and commodity risk.

VaR for each risk factor is the independently derived largest potential loss in a specific holding period and within a certain confidence level due to fluctuations solely in that risk factor. The individual VaRs were not added up to the total VaR as there was a diversification effect due to correlation amongst the risk factors.

(2) Banking book

Interest rate risk in the banking book (“IRRBB”) refers to the risk of losses to a bank’s economic value and to its overall earnings of banking book, arising from adverse movements in interest rates level or term structure. IRRBB mainly comes from repricing gaps between assets and liabilities in the banking book, and differences in changes in benchmarking interest rates for assets and liabilities. The Group assesses IRRBB primarily through an interest rate repricing gap analysis. The interest rate gap analysis is set out in Note IV.2.2 and also covers the trading book.

IV FINANCIAL RISK MANAGEMENT (Continued)

4 Fair value

4.1 Financial instruments measured at fair value

Financial instruments measured at fair value are classified into the following three levels:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities, including equity securities listed on exchanges or debt instruments issued by certain governments and certain exchange-traded derivative contracts.
- Level 2: Valuation technique for which all inputs that have a significant effect on the recorded fair value other than quoted prices included within Level 1 are observable for the asset or liability, either directly or indirectly. This level includes the majority of the over-the-counter (“OTC”) derivative contracts, debt securities for which quotations are available from pricing service providers, discounted bills, etc.
- Level 3: Valuation technique using inputs which have a significant effect on the recorded fair value for the asset or liability are not based on observable market data (unobservable inputs). This level includes equity investments and debt instruments with significant unobservable components.

The Group’s policy is to recognise transfers between levels of the fair value hierarchy as at the end of the reporting period in which they occur.

The Group uses valuation techniques or counterparty quotations to determine the fair value when it is unable to obtain open market quotation in active markets.

The main parameters used in valuation techniques include bond prices, interest rates, foreign exchange rates, equity and stock prices, volatilities, correlations, early repayment rates, counterparty credit spreads and others, which are all observable and obtainable from the open market.

For certain illiquid debt securities (mainly asset-backed securities), unlisted equity (private equity), OTC structured derivative transactions and unlisted funds held by the Group, management obtains valuation quotations from counterparties or uses valuation techniques to determine the fair value, including discounted cash flow analysis, net asset value and market comparison approach, etc. The fair value of these financial instruments may be based on unobservable inputs which may have a significant impact on the valuation of these financial instruments, and therefore, these assets and liabilities have been classified by the Group as Level 3. Management determines whether to make necessary adjustments to the fair value for the Group’s Level 3 financial instruments by assessing the impact of changes in macro-economic factors, valuations by external valuation agencies and other inputs, including loss coverage ratios. The Group has established internal control procedures to control the Group’s exposure to such financial instruments.

4 Fair value (Continued)

4.1 Financial instruments measured at fair value (Continued)

Total gains or losses arising from financial instruments measured at fair value under level 3 for the six month period ended 30 Jun 2021 and the year ended 31 December 2020 were presented in “Net trading gains”, “Net gains on transfers of financial assets” or “Impairment losses on assets” depending on the nature or classification of the related financial instruments.

Gains or losses on Level 3 financial assets and liabilities included in the income statement comprise:

	Six month period ended 30 June

4 Fair value (Continued)

4.2 Financial instruments not measured at fair value

Financial assets and liabilities not presented at fair value in the statement of financial position mainly represent “Balances with central banks”, “Due from banks and other financial institutions”, “Placements with and loans to banks and other financial institutions”, “Due to central banks”, “Due to banks and other financial institutions”, “Loans and advances to customers measured at amortised cost”, “Financial investments measured at amortised cost”, “Placements from banks and other financial institutions at amortised cost”, “Due to customers at amortised cost” and “Bonds issued at amortised cost”.

The tables below summarise the carrying amounts and fair values of “Debt securities at amortised cost” and “Bonds issued” not presented at fair value at the financial reporting date.

	As at 30 June 2021		As at 31 December 2020	
	Carrying value	Fair value	Carrying value	Fair value
Financial assets				
Debt securities at amortised cost ⁽¹⁾	<u>3,127,189</u>	<u>3,158,860</u>	<u>2,970,277</u>	<u>2,989,266</u>
Financial liabilities				
Bonds issued ⁽²⁾	<u>1,300,553</u>	<u>1,307,527</u>	<u>1,238,241</u>	<u>1,144,440</u>

(1) Debt securities at amortised cost

The China Orient Asset Management Corporation Bond and Special Purpose Treasury Bond held by the Bank are non-transferable. As there are no observable market prices or yields reflecting arm's length transactions of a comparable size and tenor, the fair value is determined based on the stated interest rate of the instruments.

Fair values of other debt securities are based on market prices or broker/dealer price quotations. Where this information is not available, the Bank will perform valuation by referring to prices from valuation service providers or on the basis of discounted cash flow models. Valuation parameters include market interest rates, expected future default rates, prepayment rates and market liquidity. The fair values of RMB bonds are mainly determined based on the valuation results provided by China Central Depository & Clearing Co., Ltd..

(2) Bonds issued

The aggregate fair values are calculated based on quoted market prices. For those bonds where quoted market prices are not available, a discounted cash flow model is used based on a current yield curve appropriate for the remaining term to maturity.

IV FINANCIAL RISK MANAGEMENT (Continued)**4 Fair value (Continued)****4.2 Financial instruments not measured at fair value (Continued)**

The tables below summarise the fair values of three levels of “Debt securities at amortised cost” (excluding the China Orient Asset Management Corporation Bond and Special Purpose Treasury Bond), and “Bonds issued” not presented at fair value at the financial reporting date.

As at 30 June 2021				
	Level 1	Level 2	Level 3	Total
Financial assets				
Debt securities at amortised cost	<u>114,153</u>	<u>2,845,867</u>	<u>2,964</u>	<u>2,962,984</u>
Financial liabilities				
Bonds issued	<u>–</u>	<u>1,307,527</u>	<u>–</u>	<u>1,307,527</u>
As at 31 December 2020				
	Level 1	Level 2	Level 3	Total
Financial assets				
Debt securities at amortised cost	<u>96,766</u>	<u>2,694,018</u>	<u>3,055</u>	<u>2,793,839</u>
Financial liabilities				
Bonds issued	<u>–</u>	<u>1,144,440</u>	<u>–</u>	<u>1,144,440</u>

Other than the above, the difference between the carrying amounts and fair values of those financial assets and liabilities not presented at their fair value in the condensed consolidated interim statement of financial position is insignificant. Fair value is measured using discounted cash flow model.

IV FINANCIAL RISK MANAGEMENT (Continued)

5 Capital management

The Group follows the principles below with regard to capital management:

- Adequate capital and sustainable development. Follow the lead of the strategic planning of the Group development; and maintain the high quality and adequacy of capital as to meet regulation requirements, support business growth, and advance the sustainable development of the scale, quality and performance of the business in the Group.
- Allocation optimisation and benefit augmentation. Allocate capital properly by prioritising the asset businesses with low capital occupancy and high comprehensive income, and steadily improve the efficiency and return of capital, to achieve the reciprocal matchup and dynamic equilibrium among risks, assets and returns.
- Refined management and capital level improvement. Optimise the capital management system by sufficiently identifying, calculating, monitoring, mitigating, and controlling various types of risks; incorporate capital restraints into the whole process of product pricing, resource allocation, structural adjustments, performance evaluation, etc., ensuring that the capital employed is commensurate with the related risks and the level of risk management.

Capital adequacy and regulatory capital are monitored by the Group's management, employing techniques based on the guidelines developed by the Basel Committee, as implemented by the CBIRC, for supervisory purposes. The required information is filed with the CBIRC on a quarterly basis.

The Group's capital adequacy ratios are calculated in accordance with the *Capital Rules for Commercial Banks (Provisional)* and other relevant regulations. With the approval of the CBIRC, the Group adopts the advanced capital measurement approaches, which include Foundation Internal Ratings-based Approach for corporate exposures, Internal Ratings-based Approach for retail exposures, Internal Models Approach for market risk and Standardised Approach for operational risk. For risk exposures not covered by the advanced approaches, the corresponding portion shall be calculated adopting non-advanced approaches.

As a Systemically Important Bank, the Group's capital adequacy ratios are required to meet the lowest requirements of the CBIRC, that is, the common equity tier 1 capital adequacy ratio, tier 1 capital adequacy ratio and capital adequacy ratio should be no less than 9.00%, 10.00% and 12.00%, respectively.

II UNREVIEWED SUPPLEMENTARY INFORMATION (Continued)

3 International claims

The Group discloses international claims according to Banking (Disclosure) Rules (L.N. 160 of 2014). International claims are risk exposures generated from the countries or geographical areas where the counterparties take the ultimate risk while considering the transfer of the risk, exclude local claims on local residents in local currency. Risk transfer is only made if the claims are guaranteed by a party in a country which is different from that of the counterparty or if the claims are on an overseas branch of a counterparty whose head office is located in another country.

International claims include “Balances with central banks”, “Due from and placements with and loans to banks and other financial institutions”, “Government certificates of indebtedness for bank notes issued”, “Loans and advances to customers” and “Financial investments”.

International claims have been disclosed by major countries or geographical areas.

A country or geographical area is reported where it constitutes 10% or more of the aggregate amount of international claims, after taking into account any risk transfers.
