Limited Review Report on The Condensed Separate Interim Financial Statements To The Board of Directors of Telecom Egypt Company

Introduction

We have performed a limited review on the accompanying condensed separate statement of financial position of Telecom Egypt Company “an Egyptian joint stock company” as at June 30, 2020 and the related condensed separate statements of income, comprehensive income, changes in equity and cash flows for the six months then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and fair presentation of these condensed separate interim financial statements in accordance with Egyptian Accounting Standard number (30) “Interim Financial Reporting”. Our responsibility is to express a conclusion on these condensed separate interim financial statements based on our limited review.

Scope of Limited Review

We conducted our limited review in accordance with Egyptian Standard on Review Engagements number (2410), "Limited Review of Interim Financial Statements Performed by the Independent Auditor of the Entity". A limited review of condensed separate interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters in the Company, and applying analytical and other limited review procedures. A limited review is substantially less in scope than an audit conducted in accordance with Egyptian Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on these condensed separate interim financial statements.

Conclusion

Based on our limited review, nothing has come to our attention that causes us to believe that the accompanying condensed separate interim financial statements do not present fairly, in all material respects, the financial position of the company as at June 30, 2020 and of its financial performance and its cash flows for the six months then ended in accordance with Egyptian Accounting Standard number (30) “Interim Financial Reporting”.

Emphasis of Matter

Without qualifying our conclusion, we draw attention to note no. (29) of the notes to the condensed separate interim financial statements, a dispute arose between the company and both Orange Egypt Company and Etisalat Misr Company and its subsidiaries (plaintiff companies) in regards to the company's change of technology used in the infrastructure necessary to provide internet service to customers which the plaintiff companies contracted to rent from the company, the plaintiff companies have filed lawsuits against the company regarding this matter and those litigations are still under deliberation before the judicial bodies and expert committees and the final ruling has not been issued, the plaintiffs companies filed complaints to the Egyptian Competition Authority (ECA) against the company on the basis that the company has carried out practices limiting competition in the Egyptian market.

According to the opinion of the company's legal consultant, these lawsuits are still in the process of submitting documents and judicial defenses from both sides of the dispute before the judicial bodies and expert committees and that it is not possible to determine the final legal position of those cases, it is difficult, in the meantime to determine the outcome of the above mentioned lawsuits till the final ruling of the judicial bodies is issued.
