# Directors' Interim Review

The Board of Directors of Oil & Gas Development Company Limited (OGDCL) is pleased to present a concise review of the Company's operational and financial performance accompanied with condensed interim financial information for the half year ended 31 December 2021.

During the period under review, sharp resurgence in international crude oil demand and prices was witnessed despite the prevalence of Omicron wave. The average basket price of crude oil recorded during the period under review was US\$ 75.22/barrel (1H 2020-21: US\$ 43.29/barrel). On the back of favorable crude oil price environment coupled with higher crude oil and LPG production versus comparative period, OGDCL's top and bottom line financial results in comparison to the corresponding period last year increased by 36% and 63% respectively. Moreover, the Company continued with its E&P activities while exhibiting strict adherence to pandemic related safety protocols so as to ensure that its workforce and business assets remain safe and protected.

## Exploration and Development Activities

As of 31 December 2021, OGDCL's exploration acreage stood at 91,795 sq. km representing 41% of Country's total area under exploration (source: PPIS). The Company's exploration portfolio currently comprises fifty (50) owned and operated joint venture exploration licenses. Additionally, the Company possesses working interest in nine (9) exploration blocks operated by other E&P companies.

In order to discover oil and gas reserves, OGDCL during the period under review acquired 652 Line km of 2D and nil sq. km of 3D seismic data in comparison to 1,715 Line km of 2D and 156 sq. km of 3D seismic data during the corresponding period last year. The acquired seismic data represents 59% of total 2D seismic data acquisition in the Country (source: PPIS). Moreover, the Company using in-house resources processed/reprocessed 1,896 Line km of 2D and 905 sq. km of 3D seismic data.

On the drilling front, OGDCL spud six (6) wells (1H 2020-21: 9 wells) including four (4) exploratory wells [Bago Phulphoto-1, Bewato-1, Killi Malik-1 & Kalerishum-1] and two (2) development wells [Hakeem Daho-3 & Qadirpur-63]. Moreover, drilling and testing of nine (9) wells pertaining to previous fiscal year was also completed. Total drilling recorded was 23,913 meters (1H 2020-21: 33,644 meters).

## Discoveries

OGDCL's exploratory efforts to locate reserves yielded four (4) oil and gas discoveries having expected cumulative daily production potential of 39 MMcf of gas and 2,850 barrels of oil. Aforementioned discoveries include Wali-1 (Kawagarh), Wali-1 (Hangu) and Wali-1 (Lockhart) in district FR Lakki, KP province and Jandran West-1 in district Kohlu, Balochistan province. Preliminary 2P reserves estimates attributable to these discoveries are 236 billion cubic feet of gas and 13 million barrels of oil, combined 58 million barrels of oil equivalent.

## Production

In line with its production strategy to enhance oil and gas production, OGDCL during the period under review injected seven (7) operated wells in the production gathering system. These injected wells include Tando Alam-21, Sial-1, Pasahki-12, Mangrio-2, Togh Bala-2, Gundunwari-1 and Pandhi-1 which cumulatively yielded gross crude oil and gas production of 171,110 barrels and 833 MMcf respectively. Overall, Company's production during the reporting period contributed around 48%, 29% and 38% towards Country's total oil, natural gas and LPG production respectively.

In an effort to arrest natural decline and sustain production from mature wells, OGDCL during the period under review carried out fifty two (52) work-over jobs comprising nine (9) with rig and forty three (43) rig-less. Moreover to induce improvement in the current well flow parameters, pressure build-up survey jobs were completed at various wells of producing fields; Mela, Pasahki, Nashpa, Qadirpur, Maru-Reti, Uch and Kunnar.

Despite natural decline at various mature producing fields, OGDCL witnessed increase in its crude oil and LPG production in comparison to the corresponding period last year. The Company's average daily net LPG production clocked in at 814 Tons (1H 2020-21: 778 Tons) owing to higher production mainly from Mela, Nashpa and TAY fields. Likewise, average daily net crude oil production clocked in at 36,788 barrels (1H 2020-21: 36,423 barrels) on account of increased production predominantly from Pasahki, Kunnar, Mela, Tando Alam and Mangrio fields.

OGDCL's average daily net saleable gas production clocked in at 827 MMcf (1H 2020-21: 856 MMcf). Decrease in production is primarily due to natural decline at KPD-TAY and Qadirpur fields. Moreover, production decline was recorded owing to annual turn around (ATA) at 5 (five) production fields (1H 2020-21: ATA at four (4) production fields); Qadirpur (5-11 August 2021), Mela (22-25 August 2021), Nashpa (22-29 August 2021), Sinjhoru (6-15 October 2021) and Uch (18-29 October 2021 & 10-15 December 2021). Likewise, production share from NJV fields also declined during the reporting period.

Average daily net saleable crude oil, gas and LPG production including share in both operated and non-operated JV fields is as follows:

Products	Unit of Measurement	1H 2021-22	1H 2020-21
Crude oil	Barrels per day	36,788	36,423
Gas	MMcf per day	827	856
LPG	Tons per day	814	778

## Financial Results

OGDCL during the half year ended 31 December 2021 registered improved Sales Revenue of Rs 151.163 billion (1H 2020-21: Rs 110.980 billion). Higher Sales Revenue is primarily attributable to increase in average realized price of crude oil to US\$ 63.23/barrel (1H 2020-21: US\$ 38.81/barrel). Moreover, the Company recorded increase in the realized prices of gas and LPG averaging Rs 404.28/Mcf (1H 2020-21: Rs 377.93/Mcf) and Rs 113,962/Ton (1H 2020-21: Rs 62,826/Ton) respectively. Furthermore, rise in average exchange rate to Rs 169.98/US\$ (1H 2020-21: Rs 164.22/US\$) coupled with enhancement in crude oil and LPG production lent strength to the business financials.

In addition, OGDCL's profitability during the period under review was positively impacted due to increase in finance and other income mainly on account of exchange gain. However, contribution towards PIOL coupled with increase in exploration and prospecting expenditure and operating expenses partially impacted the financial performance. Nonetheless, the Company recorded Profit after Tax of Rs 68.883 billion (1H 2020-21: Rs 42.225 billion) translating into an Earnings per Share of Rs 16.02 (1H 2020-21: Rs 9.82).

## Dividend

The Board has announced second interim cash dividend of Rs 2.00 per share (20%) for the year ending 30 June 2022. This is in addition to the first interim cash dividend of Rs 1.75 per share (17.50%) already declared and paid during the fiscal year.

Subsequently, an amendment agreement to Revised Agreement 2015 has been executed between the Government of Pakistan and MPCL on 17 April 2021, giving effect to ECC decision.

- 12.2 During the period, the Company, along with other consortium members i.e. Mari Petroleum Company Limited (MPCL), Pakistan Petroleum Limited (PPL) and Government Holdings (Private) Limited (GHPL) has been awarded Offshore Block 5 in Abu Dhabi's second competitive exploration block bid round. The consortium companies have established an independent company Pakistan International Oil Limited (PIOL) at Abu Dhabi Global Market with each consortium company having a 25% equity stake in PIOL. The exploration concession agreement between PIOL and Abu Dhabi National Oil Company (ADNOC) was signed on 31 August, 2021. The investment in PIOL has been classified as an investment in associate as per the requirements of International Accounting Standard IAS-28, "Investment in Associates and Joint Ventures. The amount represents USD 25 million (Rs 4,176 million) invested by the Company in PIOL. Share of loss for the period amounts to Rs 2,378 million and the loss mainly represents 3D seismic cost incurred by the associates.
- 12.3 This represents investments in local currency TDRs and includes interest amounting to Rs 2,854 million (30 June 2021: Rs 2,149 million) carrying effective interest rate of 14% (30 June 2021: 14%) per annum and have maturities of five (5) years. These investments are earmarked against self insurance reserve as explained in note 4.2 to the financial statements.
- 12.4 This represents investment in Privately Placed TFCs amounting to Rs 82,000 million. In 2013, the Government of Pakistan (GoP), for partial resolution of circular debt issue prevailing in the energy sector, approved issuance of TFCs amounting to Rs 82,000 million by Power Holding Limited (PHL), which is government owned entity and a related party. These TFCs were subscribed by the Company in order to settle its overdue receivables from oil refineries and gas companies. As per original terms of investor agreement between the Company and PHL, TFCs were for a period of seven (7) years including grace period of three (3) years carrying interest rate of KIBOR + 1%, payable semi-annually. The principal portion of these TFCs was to be paid in eight (8) equal installments starting from 42nd month of date of transaction. National Bank of Pakistan executed the transaction on 10 September 2012 as Trustee. These TFCs are secured by Sovereign Guarantee of GoP, covering the principal, mark-up, and/or any other amount becoming due for payment in respect of investment in TFCs.

On 23 October 2017, PHL communicated to the Company that a proposal was submitted by the Ministry of Energy (Power Division) to Economic Coordination Committee (ECC) of the Cabinet for extension in the tenure of TFCs of Rs 82,000 million from seven (7) years to ten (10) years including extension in grace period from three (3) years to six (6) years. The ECC of the Cabinet considered and approved the proposal of Ministry of Energy (Power Division) subject to the condition that a revised term sheet, based on above, with the Company shall be agreed by PHL. PHL requested the Company to prepare revised term sheet for onward submission to Finance division of GoP for approval. During the year ended 30 June 2020, the Board of Directors resolved that management may take further steps for the extension of investor agreement with PHL for a further period of three (3) years. However, the revised term sheet has not yet been signed with PHL. Currently, management is in discussion with Ministry of Energy and Ministry of Finance for settlement of outstanding principal and interest. As per the revised terms, principal repayment amounting to Rs 61,500 million (30 June 2021: Rs 51,250 million) was past due as at 31 December 2021. Further, interest due as of 31 December 2021 was Rs 54,270 million (30 June 2021: Rs 50,715 million) of which Rs 52,096 million (30 June 2021: Rs 48,517 million) was past due. The Company considers the principal and interest to be fully recoverable as these are backed by Sovereign Guarantee of GoP. Adjustments, if any, will be made after the execution of extension in the investor agreement. As disclosed in 2.6.2 to the annual audited financial statements for the year ended 30 June 2021, SECP has deferred the applicability of ECL model till 30 June 2022 on financial assets due directly / ultimately from GoP in consequence of the circular debt.

As disclosed in note 2.6.2 to the annual audited financial statements for the year ended 30 June 2021, SECP has deferred the applicability of ECL model till 30 June 2022 on debts due directly/ ultimately from GoP in consequence of the circular debt. The Government of Pakistan (GoP) is committed, hence continuously pursuing for satisfactory settlement of Inter-corporate circular debt issue, however, the progress is slower than expected resulting in accumulation of Company's trade debts. The Company considers this amount to be fully recoverable because the Government of Pakistan has been assuming the responsibility to settle the Inter-corporate circular debt in the energy sector. The Company recognizes interest/ surcharge, if any, on delayed payments from customers only to the extent that it is highly probable that a significant reversal in the amount of income recognized will not occur when the uncertainty associated with the interest/ surcharge is subsequently resolved, which is when the interest/ surcharge on delayed payments is received by the Company. As disclosed in 2.6.2 to the annual audited financial statements for the year ended 30 June 2021, SECP has deferred the applicability of ECL model till 30 June 2022 on financial assets due directly/ ultimately from GoP in consequence of the circular debt.

### 15 LOANS AND ADVANCES

15.1 This includes an amount of Rs 3,180 million (30 June 2021: Rs 3,180 million) paid under protest to the Federal Board of Revenue (FBR) on account of sales tax demand raised in respect of capacity invoices from Uch gas field for the period July 2004 to March 2011. Based on Sales Tax General Order (STGO) 1 of 2000 dated 24 January 2000, the matter was argued before various appellate forums, however, the Supreme Court of Pakistan finally decided the issue against the Company on 15 April 2013. The FBR granted time relaxation to the Company for issuance of debit note for an amount of Rs 750 million for the period April 2011 to May 2012, accounted for as trade debt. Uch Power Limited (UPL) challenged the grant of time relaxation to the Company by FBR before Islamabad High Court. On 27 December 2013, the Honorable Court decided the matter in favor of the Company. In light of the Islamabad High Court decision, the Company has applied to FBR for obtaining condonation of time limit for issuing debit notes to UPL/revision of sales tax returns for the remaining amount of Rs 3,180 million for the period July 2004 to March 2011 and currently the matter is pending with FBR.

UPL filed an intra court appeal against the decision of the Islamabad High Court (IHC). IHC through its order dated 17 November 2016 dismissed the intra court appeal in favour of the Company. In January 2017, UPL filed Civil Petition for Leave to Appeal (CPLA) against the Company and others, before the Honorable Supreme Court of Pakistan against the decision of IHC, which is currently pending. FBR has linked the disposal of OGDCL's condonation request with the outcome of UPL's aforementioned CPLA. The Company and its legal advisors are confident that CPLA of UPL before Honorable Supreme Court of Pakistan will be decided in favour of the Company and required condonations will be obtained and the amount will be recovered from UPL. Accordingly no provision in this respect has been made in these interim financial statements.

15.2 This also includes recoveries of Rs 317 million (30 June 2021: Rs 317 million) made by the tax department during the year ended 30 June 2016, against Sales Tax and Federal Excise Duty (FED) demand of Rs 6,708 million (30 June 2021: Rs 6,708 million) relating to periods July 2012 to June 2014. The Honourable Appellate Tribunal Inland Revenue (ATIR) has accepted the Company's appeals and annulled the demands passed by the tax authorities being void ab-initio and without jurisdiction. The Commissioner Inland Revenue (CIR) has filed sales tax reference before Islamabad High Court (IHC) against judgment of ATIR on 09 February 2018. These demands were raised by tax authorities due to difference between computation of sales/ production reported by the Company in its sales tax returns and sales/ production based on other sources of data. During the year ended 30 June 2021, additional demand of Rs 9,668 million relating to periods 2017-18 and 2018-19 were raised on the same issue by the tax department, against which the Company filed appeals before Commissioner Inland Revenue (Appeals) (CIRA) on 29 June 2021 which are pending adjudication. The Company believes that these demands were raised without legal validity and will be decided by IHC and CIRA in favor of the Company as previously decided by ATIR in favour of the Company.

15.3 During the period, Large Taxpayers Office Islamabad vide notices dated 05 October 2021 required all Exploration and Production (E&P) companies including OGDCL to provide information relating to value of Condensate sold during the period from July 2008 to September 2021, pursuant to judgment of ATIR dated 08 September 2021 in case of another E&P company wherein the ATIR held that condensate is separate product other than crude oil and is subject to sales tax @ 17% against zero percent charged by the E&P companies. OGDCL and other E&P companies have filed writ petitions before IHC challenging issuance of above notices dated 05 October 2021 where stay has been granted to the Company till the date of next hearing. The Company is confident that the matter will be decided in its favor.

## Notes to the Interim Financial Statements [unaudited]

For Six Months ended 31 December 2021

- 16.1** This includes amount of Rs 29,727 million (30 June 2021: Rs 29,727 million) paid to tax authorities on account of disallowance of actuarial loss amounting to Rs 58,744 million (30 June 2021: Rs 58,744 million) which the Company claimed in its return for the tax years 2014 to 2018 and 2020. This actuarial loss was recognized in the books as a result of retrospective application of IAS 19 (as revised in June 2011) 'Employee Benefits' from the year ended 30 June 2014 and onwards. CIRA disallowed the actuarial loss for tax years 2015 and 2016, however, allowed to claim the actuarial loss for tax years 2014, 2017 and 2018 over a period of seven years. Being aggrieved, the Company has filed appeals against the orders of CIRA in the Appellate Tribunal Inland Revenue (ATIR) for tax years 2014, 2015, 2016, 2017 and 2018 on 08 January 2016, 30 June 2020, 05 January 2018, 21 August 2019 and 12 February 2020 respectively and against the order of Additional Commissioner Inland Revenue with the CIRA for tax year 2020 on 19 April 2021 which are currently pending adjudication. The management, based on opinion of its tax consultant, believes that the actuarial loss is an admissible expense under the tax laws and there is reasonable probability that the matter will be decided in favor of the Company by appellate forums available under the law.
- 16.2** During the year ended 30 June 2014, tax authorities raised demands of Rs 13,370 million (30 June 2021: Rs 13,370 million) by disallowing effect of price discount on sale of crude from Kunnar field and have recovered Rs 5,372 million (30 June 2021: Rs 5,372 million) from the Company. During the year ended 30 June 2015, appeal before ATIR against the said demands were decided against the Company. The Company filed a reference application before Islamabad High Court (IHC) against the decision of ATIR. IHC vide order dated 17 February 2016, set aside the order of ATIR and remanded the case back to ATIR with the instructions to pass a speaking order. The case is currently pending before ATIR. Further, IHC vide order dated 14 January 2019 directed ATIR to decide the appeal expeditiously and until seven days after the decision on the Company's appeal, the tax department is restrained from adopting coercive measures for the recovery of the disputed tax liability in the event the appeal is dismissed. Management and its legal advisor are of the view that the price discount is not the income of the Company and hence not liable to tax. Accordingly, management is confident that the matter will be decided in favor of the Company as the discounted price for Kunnar field was finally determined by the Ministry of Energy (Petroleum Division) and the total amount of price discount amount has been paid to the Government of Pakistan (GoP) upon directions from the Ministry of Finance, to this effect.
- 16.3** Income tax advance includes Rs 1,259 million (30 June 2021: Rs 1,259 million) on account of disallowances made by the Additional Commissioner Inland Revenue (ACIR) in respect of decommissioning cost for tax year 2015. The CIRA vide order dated 18 March 2020 has remanded the case back to ACIR and the Company has filed an appeal against the order of CIRA in ATIR on 30 June 2020. Management believes that the disallowance is against income tax laws and regulations and accordingly no provision has been made in this respect in these interim financial statements.
- 16.4** Tax authorities have raised demand of Rs 15,295 million (30 June 2021: Rs 15,295million) for tax year 2020 on account of alleged production differences and by making disallowances on account of post retirement medical benefits, compensated absences, cost of dry and abandoned wells, field decommissioned/ surrendered during the year and Workers' profit participation fund (WPPF) out of which Rs 4,558 million has been paid. Appeal has been filed by the Company before CIRA on 19 April 2021, which is currently pending adjudication. Management is confident that the above disallowances do not hold any merits and the related amounts have been lawfully claimed in the tax returns as per the applicable tax laws. Accordingly, no provision has been made in respect of these in the financial statements.

- 18.1** Gas sales include sales from Nur-Bagla field invoiced on provisional prices. There may be adjustment in revenue upon issuance of final wellhead prices notification by Ministry of Energy (Petroleum Division), impact of which cannot be determined at this stage.
- 18.2** Gas Sale Agreement (GSA) in respect of Kunnar Pasakhi Deep (KPD) fields between the Company and Sui Southern Gas Company Limited is being finalized and adjustments, if any, will be accounted for in the financial statements after execution of GSA.
- 18.3** In respect of six of its operated concessions, namely, Gurgalot, Sinjhora, Bitrisim, Khewari, Nim and TAY Blocks and one non-operated Tal Block, Petroleum Concession Agreements (PCAs) were executed under the framework of Petroleum Policies 1994 and 1997. Later on, in pursuance to the option available under Petroleum Policy (PP) 2012, the Tal Block working interest owners wherein the Company's working interest is 27.7632% signed the Supplemental Agreement (SA) dated 28 August 2015 with the GoP for conversion of eligible existing and future discoveries under Tal PCA to the PP 2012. Further, for aforementioned operated Concessions, the Company also signed the SAs for conversion to PP 2012. Under the said arrangement, price regimes prevailing in PP 2007, PP 2009 and PP 2012 in terms of PP 2012 shall be applicable, correlated with the spud dates of the wells in the respective policies starting from 27 November 2007. The conversion package as defined in the SAs included windfall levy on natural gas only. Oil and Gas Regulatory Authority (OGRA) has been notifying the revised wellhead prices in accordance with the Tal Block SA for the period from the commencement of production of the respective discoveries. Accordingly, the financial impacts of the price revision were duly accounted for in the financial statements for the years ended 30 June 2016, 30 June 2017 and 30 June 2018 on completion of the process laid down in the law and in line with the Company's accounting policy. On 27 December 2017, the Ministry of Energy (Petroleum Division) notified amendments in PP 2012 after approval from the Council of Common Interests (CCI) dated 24 November 2017. These amendments include imposition of Windfall Levy on Oil/Condensate (WLO). Under the said Notification, the Supplemental Agreements already executed for conversion from Petroleum policies of 1994 and 1997 shall be amended within 90 days, failing which the working interest owners will not remain eligible for gas price incentive. On 03 January 2018, the Directorate General Petroleum Concessions (DGPC) has required all exploration and production companies to submit supplemental agreements to incorporate the aforementioned amendments in Petroleum Concession Agreements (PCAs) signed under 1994 and 1997 policies, for execution within the stipulated time as specified above.

Based on a legal advice, the Company is of the view that terms of the existing PCAs as amended to-date through the supplemental agreements already executed cannot unilaterally be amended by the GoP through introduction of amendment nor can the GoP lawfully require and direct that such amendments be made to include imposition of WLO retrospectively and nor the GoP unilaterally hold and direct that the gas price incentive to which the Company is presently entitled to and receiving under the conversion package as enshrined under the supplemental agreement stands withdrawn or the Company ceases to be eligible for such incentive in case of failure to adopt the unilateral amendments in the existing PCAs.

## Notes to the Interim Financial Statements [unaudited]

Accordingly, the aforementioned amendments as well as the subsequent letters requiring implementation of the amendments are not enforceable or binding upon the Company.

The Company along with other Joint Venture Partners has challenged the applicability of WLO against the backdrop of supplemental agreements already executed pursuant to PP 2012 in the Honorable Islamabad High Court which has granted stay order till next date of hearing against the CCI decision dated 24 November 2017 on imposition of WLO. As mentioned above, the Company on the advice of its legal counsel is confident that it has sound grounds to defend the aforesaid issue in the Court and that the issue will be decided in favour of the Company. The cumulative past benefit accrued and recorded in these interim financial statements by the Company upto 23 November 2017 in the form of revenue and profit after tax is Rs 8,550 million and Rs 4,426 million, respectively. However, without prejudice to the Company's stance in the court case, revenue of Rs 19,462 million (30 June 2021: Rs 16,876 million) related to gas price incentive against the supplemental agreements has been set aside on a point forward basis effective 24 November 2017 (the date of decision of CCI).

20.2 During the year ended 30 June 2021, the tax authorities have raised demand of Rs 4,311 million for tax years 2013 and 2016 on account of alleged issue of not offering consideration of sale of working interest in a block for tax and by making disallowances on account of GIDC payable and certain expenditure due to alleged non deduction of withholding taxes. Appeals have been filed by the Company before CIRA for assessment year 2013 and 2016 on 30 June 2021 and 26 March 2021 respectively, which are currently pending adjudication. Management is confident that the above demands do not hold any merits and the related amounts have been lawfully claimed in the tax returns as per the applicable tax laws. Accordingly, no provision has been made in respect of these in the interim financial statements.

جن سے مجموعی طور پر بالترتیب 110,171 بیرل اور MMCF833 خام تیل اور گیس کی مجموعی پیداوار حاصل ہوئی۔ مجموعی طور پر، رپورٹنگ کی مدت کے دوران کمپنی کی پیداوار نے ملک کی کل تیل، قدرتی گیس اور ایل پی جی کی پیداوار میں بالترتیب 48%، 29% اور 38% کا حصہ ڈالا۔

OGDCL نے پچھلے کنوؤں سے پیداوار کو برقرار رکھنے اور قدرتی کمی کو روکنے کے لیے زیر جائزہ مدت کے دوران باون (52) ورک اور سرانجام دیے جن میں نو (9) رگ کے ساتھ اور بیالیس (42) رگ لیس شامل ہیں۔ اس کے علاوہ، موجودہ کنویں کے بہاؤ کے پیرامیٹرز میں بہتری لانے کے لیے پیداواری فیولڈرز، میلہ، پساہی، قادر پور، ماروریتی، نشپا، اوچ اور کنر کے مختلف کنوؤں پر پریشر سروے کا کام بھی مکمل کیا۔

پچھلے پیداواری کنوؤں سے قدرتی کمی کے باوجود، OGDCL نے خام تیل اور ایل پی جی کی پیداوار میں گزشتہ سال کی اسی مدت کے مقابلے میں اضافہ دیکھا۔ کمپنی کی اوسط یومیہ خالص ایل پی جی پیداوار 814 ٹن رہی (778 ٹن: 21-1H2020) جس کی بنیادی وجہ میلہ، نشپا اور TAY-KPD فیولڈرز سے زیادہ پیداوار کا حصول ہے۔ اسی طرح، اوسط یومیہ خالص خام تیل کی پیداوار 36,788 بیرل رہی (36,423 بیرل: 21-1H2020) جو کہ بنیادی طور پر پساہی، کنر، ٹنڈو عالم، میلہ اور منگر پو فیولڈرز سے پیداوار میں اضافے کی وجہ سے ہے۔

OGDCL کی اوسط یومیہ خالص قابل فروخت گیس کی پیداوار MMcf 827 (MMcf 856: 21-1H2020) رہی۔ اس کی بنیادی وجہ کے پی ڈی اور قادر پور فیولڈرز میں قدرتی کمی ہے۔ مزید برآں، قادر پور (5-11 اگست 2021)، میلہ (22-25 اگست 2021)، ناشپا (22-29 اگست 2021)، سنجھورہ (6-15 اکتوبر 2021) اور اوچ (18-29 اکتوبر اور 10-15 ستمبر 2021) پر سالانہ ٹرن آؤٹنگ کی وجہ سے بھی پیداوار میں کمی دیکھی گئی۔ اسی طرح، NJV فیولڈرز سے پیداوار میں کمی بھی گیس کی کمی کا باعث بنی۔

اوسط یومیہ خالص قابل فروخت خام تیل، گیس اور ایل پی جی کی پیداوار بشمول آپریٹنگ اور NJV فیولڈرز سے درج ذیل ہے:

مصنوعات	پیمائش کی اکائیاں	1H 2021-22	1H 2020-21
