#### WESTFIELD GROUP REPORTS FULL YEAR EARNINGS OF \$2.3 BILLION AND FORECASTS GROWTH IN ALL MARKETS

The Westfield Group (ASX:WDC) today announced its 2010 full year results with net profit of \$2.306 billion (before one off accounting adjustments and charges in relation to the establishment of the Westfield Retail Trust (WRT)) compared to \$(458) million in December 2009.

Including the WRT accounting adjustments and charges (due to the distribution of assets to WRT), reported statutory net profit was \$1.114 billion for 2010.

WDC Chairman, Frank Lowy AC, said: "This past year has been a significant one for WDC. We completed a major restructure and distributed \$7.3 billion of capital to securityholders. This, together with the additional income we will earn from property management and development, is expected to improve our return on equity and long term growth profile."

The Group's net profit for the year included property revaluations of \$1.135 billion of which \$399 million were development gains and \$736 million were from the existing portfolio.

Operational segment earnings for the year were \$2.063 billion representing 89.6 cents per security, in line with forecast. Distribution for the year was \$1.464 billion representing 63.56 cents per security, also in line with forecast.

Development segment earnings for the year were \$227 million or 9.9 cents per security.

Over the period, the average Australian dollar exchange rate appreciated by some 15% and 17% compared to the US dollar and British Pound, respectively. Due to the impact of these exchange movements, operational segment earnings were 1.5% lower than the 2009 result but were up 1.4%, on a currency adjusted basis.

At December 31, the Group had assets under management of \$58.2 billion, balance sheet total assets of \$37.2 billion, a gearing ratio of 38.4% and has available liquidity of \$4.2 billion.

#### **Operating Performance**

"Throughout the year, we have seen the improving performances continue from both our United States and United Kingdom businesses. In the Australian / New Zealand portfolio, the business remains strong with solid demand for space, excellent sales productivity and continued rental growth", WDC Managing Director, Steven Lowy AM said.

For the year, net property income, in local currency terms, was up 4.1% in Australia / New Zealand, down 1.1% in the United States and up 13.2% in the United Kingdom. The United Kingdom result was driven by the strong performance from Westfield London, Europe's largest urban shopping centre.

The portfolio at 31 December 2010 was 97.7% leased, with the United States portfolio at 94.1% leased; and the Australian / New Zealand and United Kingdom portfolios at, or over, 99.5% leased.

EASE

For 2010, comparable specialty retail sales per square foot in the United States grew by 6.1%. In Australia comparable specialty retail sales declined slightly, by 0.4%, and in New Zealand grew by 0.4%.

Westfield London, in its second year of operation, continued to perform exceptionally well with total sales in 2010 of £870 million, up 24.7% and up 18.8% on a comparable basis.

"We are extremely pleased with the performance of Westfield London and its strong growth year on year since opening just over two years ago. Demand for space continues to be strong and we are now planning Westfield London's next stage of development and expansion", Steven Lowy said.

#### **Development Activity**

Currently, WDC projects under construction have a total forecast investment of \$4.2 billion of which WDC's spend in completing these projects over the next 18 months is approximately \$900 million.

Excellent construction and leasing progress continues on the £1.45 billion project at Stratford, adjacent to the site of the London 2012 Olympics and we remain on schedule for a September opening this year.

During the year, WDC agreed to sell a 50% interest in the retail component of Stratford City for £871.5 million. This is expected to result in total development profits of £300 million.

The first stage of the \$1.2 billion Westfield Sydney project was opened successfully in October. Leasing is well advanced on the remainder of the project, which is expected to complete in early 2012. The total development profit is expected to be approximately \$780 million.

"We are very pleased with the progress at both Sydney and Stratford. During the year, we introduced joint venture partners at both projects allowing the Group to achieve significant development gains as well as releasing invested capital for deployment in our future development activity", Steven Lowy said.

In 2010, WDC commenced work on \$1.05 billion of new projects including the \$350 million new office tower at Westfield Sydney, a \$125 million redevelopment at Belconnen in the ACT and a \$300 million expansion at Carindale in Queensland.

WDC has identified \$10 billion of future development work and forecasts to commence between \$750 million - \$1 billion of new developments in 2011.

"These projects are expected to generate consistent development gains over time with target unlevered internal rates of return of between 12% to 15% on our invested capital. We will also generate development, design and construction income from the development activity we undertake on behalf of our joint venture partners", WDC Managing Director Peter Lowy said.

#### Outlook

WDC's position is underpinned by the high quality portfolio of 119 shopping centres across Australia, the United States, the United Kingdom and New Zealand, delivering resilient cashflow and benefitting from the sustained investment in the portfolio through redevelopment activity over recent years.

"The Group's restructure provides the platform for enhanced long term growth and we continue to focus on initiatives to improve return on equity. These initiatives include investment in our more productive assets, the introduction of new joint venture capital and the expansion of our business globally", Peter Lowy said.

For 2011, comparable net operating income is forecast to grow in the range of:

- 2.5% 3.5% for the United States;
- 7% 8% for the United Kingdom; and
- 3% 4% for Australia / New Zealand.

WDC reconfirms its operational segment earnings forecast of 74.6 cents per security and distribution of 48.4 cents per security for 2011.

In 2011, WDC will also report earnings comprising Funds From Operations (FFO), based on global industry practice, together with gains from development activity. For 2011, FFO is forecast to be in the range of 64 cents to 65 cents per security, not including gains from development activity.

The forecasts assume no material change to the assumptions contained in the Explanatory Memorandum regarding the Establishment of Westfield Retail Trust, dated 3 November, 2010.

<sup>(</sup>i) All equity accounted property partnerships, trusts and companies operate solely as retail property investors.

<sup>(</sup>ii) In December 2010, Westfield Group established the Westfield Retail Trust. As a result, Westfield Group distributed 50% interest in a number of its Australia and New Zealand controlled entities to Westfield Retail Trust. The remaining interest in these entities as denoted by \* are equity accounted as Westfield Group continues to have significant influence or joint control. Entities denoted by \* in which an interest had been distributed to Westfield Retail Trust continue to be equity accounted.

Notwithstanding that the financial year of these investments ends on 30 June, the consolidated financial statements have been made out so as to include the accounts for a period coinciding with the financial year of the Parent Company being 31 December.

<sup>(</sup>iv) Westfield Group has a 75% economic interest in Nottingham. Westfield Group has equal representation and voting rights on the Board of Nottingham resulting in joint control. Accordingly, Nottingham has been accounted for in accordance with AASB 131: Interest in Joint Ventures.

<sup>(</sup>v) Westfield Group's 33.3% investment in Belfast, Merry Hill and Tunbridge Wells includes an 8.3% investment held via Westfield Group's one third interest in Westfield UK Shopping Centre Fund.

<sup>(</sup>vi) During the year, Westfield Group increased its interest in Derby from 33.3% to 66.7%. As a result, Westfield Group has a controlling interest in Derby. 100% interest in this entity has been included in the consolidated financial results and 33.3% is shown as external non controlling interest.

<sup>(</sup>vii) At 31 December 2009, Westfield Group's interest in Macquarie was 55% of which 5% was equity accounted and 50% was proportionately consolidated.

<sup>(</sup>viii) At 31 December 2009, Westfield Group's interest in Pacific Fair was 44% of which 4% was equity accounted and 40% was proportionately consolidated.

#### NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 December 2010

#### 15\_Segmental reporting

#### **Operating segments**

Westfield Group's operating segments are as follows:

a) Westfield Group's operational segment comprises the property investment and property and project management segments.

#### (i) Property investments

Property investments segment includes net property income from existing shopping centres and completed developments, revaluation of existing centres and other operational expenses. A geographic analysis of net property investment income is also provided.

#### (ii) Property and project management

Property and project management segment includes external fee income from third parties, primarily property management and development fees, and associated business expenses.

#### b) Development

Westfield Group has a global program to redevelop its shopping centres and to develop new shopping centres. The development segment includes revaluation of redevelopments and development projects, and associated development expenses. It also includes income and expenses on properties held for future redevelopment and inter-segmental transactions.

#### c) Corporate

The corporate business unit includes unallocated corporate entity expenses.

Transactions such as the change in fair value of financial instruments, impact of currency hedging, interest income, financing costs, taxation, gain from capital transactions and the corporate business unit are not allocated to the above segments and are included in order to facilitate a reconciliation to Westfield Group's net profit attributable to its members.

Westfield Group's operating segment has been prepared on a proportionate format. The proportionate format presents the net income from and net investment in equity accounted properties on a gross format whereby the underlying components of net income is disclosed separately as revenues and expenses.

Management of Westfield Group considers that, given that the assets underlying both the consolidated and the equity accounted components of the statutory income statement are similar (that is, Australian, New Zealand, United Kingdom and United States shopping centres), most of the centres are under common management, and that, therefore, the drivers of their results are similar, the proportionate format income statement provides a more useful way to understand the performance of the portfolio as a whole than the statutory format. This is because the proportionate format aggregates both revenue and expense items across the whole portfolio, rather than netting the income and expense items for equity accounted centres and only reflecting their performance as a single item of profit or loss, as the statutory format requires. As a result, the proportionate format is what management considers in assessing and understanding the performance and results of operations of Westfield Group as it allows management to observe and analyse revenue and expense results and trends on a portfolio-wide basis.

### NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 December 2010

### 16\_Westfield Group restructure - establishment of Westfield Retail Trust

On 3 November 2010, Westfield Group announced a restructuring whereby \$7.3 billion of capital was proposed to be distributed to its security holders through the creation of a new separately listed property trust - Westfield Retail Trust (WRT).

The restructure was approved by Westfield Group's security holders on 9 December 2010 and implemented on 20 December 2010.

As a result of the restructuring, WRT owns half of Westfield Group's interests in 54 Australia and New Zealand retail shopping centres (excluding Westfield Carindale and Cairns) with a gross asset value of \$12.1 billion, offset by \$0.4 billion of liabilities and \$4.4 billion paid and payable to Westfield Group. As at 31 December 2010, Westfield Group received \$3.5 billion from WRT with the remaining balance disclosed as \$442.0 million current and \$500.0 million non current receivables.

The \$4.4 billion received and receivable by Westfield Group from WRT has been and will be applied to retire Westfield Group's interest bearing liabilities at 31 December 2010 and over the next 18 months. As a result of this reduction in Westfield Group's interest bearing liabilities, Westfield Group has terminated its interest rate hedges in respect of the borrowings retired and to be retired. The fair value of excess swaps terminated and the deferred borrowing costs written off amounted to a financing cost of \$258.2 million and has been recognised as a charge to the income statement under the heading "Charges in respect of the establishment of the Westfield Retail Trust including transaction and financing costs".

The restructure has been accounted for as a distribution of non-cash assets in accordance with AASB Interpretation 17 'Distributions of non-cash assets to Owners'. The fair value of the distribution as determined by the initial offer price of WRT units has been charged to the contributed equity and retained profits. The difference between the market value and book value of assets distributed amounting to \$934.3 million has been recognised as a charge to the income statement under the heading "Charges in respect of the establishment of the Westfield Retail Trust including transaction and financing costs".

Following implementation of the restructure, 15 Australian and all 12 New Zealand properties that were previously consolidated have now been equity accounted. Certain equity accounted investments where Westfield Group continues to have significant influence or joint control continue to be equity accounted. Further details of these entities are set out in Note 14.

Westfield Group and WRT will maintain a close ongoing relationship having regard to Westfield Group's management and development roles. Westfield Group will continue to act as property, leasing and development manager for WRT on terms and fees materially consistent with those in place with its other third party joint venture partners in Australia.

In addition, Westfield Group and WRT have also agreed to cooperate on future retail property acquisition and growth opportunities in Australia and New Zealand together.

Westfield Group does not control WRT following implementation of the restructure from 20 December 2010 and does not consolidate WRT's results, assets and liabilities from that date. WRT will not be charged a responsible entity fee by Westfield Group.

### (d)\_Details of relevant entities distributed to WRT

Westfield Group distributed 50% of its interest in Australia and New Zealand retail shopping centres (excluding Westfield Carindale and Cairns) to WRT on 20 December 2010 (refer to Note 16). Details of property interests and relevant entities distributed to WRT and the interest retained by Westfield Group are disclosed in Appendix 2.

The contribution of the shopping centre interests distributed to WRT to Westfield Group's operating profit excluding tax and revaluation was approximately \$682.3 million post management fee for the current period and approximately \$664.0 million for the whole of the previous corresponding period.

### (e)\_Franking credits available and prospects for paying fully or partly franked dividends for at least the next year.

Any dividend component of the distribution payable in the next twelve months is expected to be partially franked. WT's and WAT's distribution payable in the next twelve months is expected to continue to have a tax deferred component.
