2 RATINGS

Ratings: The Notes to be issued are expected to be rated:
S&P Global Ratings Europe Limited ("**S&P**"): BB+
Moody's Investors Service Limited ("**Moody's**"): Baa2
Fitch Ratings Limited ("**Fitch**"): BBB+

In accordance with S&P's ratings definitions available as at the date of these Final Terms on <https://disclosure.spglobal.com/ratings/en/regulatory/article/-/view/sourceId/504352>, a long-term rating of "BB" indicates an obligation is regarded as having significant speculative characteristics. While such obligations will likely have some quality and protective characteristics, these may be outweighed by large uncertainties or major exposure to adverse conditions. An obligation rated "BB" is less vulnerable to nonpayment than other speculative issues. However, it faces major ongoing uncertainties or exposure to adverse business, financial, or economic conditions that could lead to the obligor's inadequate capacity to meet its financial commitments on the obligation.

In accordance with Moody's ratings definitions available as at the date of these Final Terms on <https://www.moodys.com/ratings-process/RatingsDefinitions/002002>, a long-term rating of "Baa" indicates obligations that are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.

In accordance with Fitch's ratings definitions available as at the date of these Final Terms on <https://www.fitchratings.com/products/rating-definitions> a long-term rating of "BBB" indicates that expectations of default risk are currently low. The capacity for payment of financial commitments is considered

adequate, but adverse business or economic conditions are more likely to impair this capacity.
